This Code shall be known as and referred to as the Land Development Code ("LDC" or "these regulations"
or the "Code") of the City of Cape Coral, Florida.

25

### 26 Section 1.2. Authority.

27

These regulations are enacted pursuant to the requirements and authority of Section 163.3161 et seq., Florida Statutes (the Local Government Comprehensive Planning and Land Development Regulation Act),

the Charter of the City of Cape Coral, and the powers and authority in Chapters 60, 162, 166, 171, 177,

- 31 286, 380, and 823, Florida Statutes, as amended.
- 32

33 Section 1.3. Purpose and Intent of the City of Cape Coral Land Development Code.

34

The purpose of the City of Cape Coral Land Development Code is to implement the Comprehensive Plan of the City pursuant to Chapter 163, Florida Statutes for the protection and promotion of the safety, health, comfort, appearance, and general welfare of the City and its inhabitants and specifically for the following intent:

39

41

- 40 A. Continue to foster community pride and a sense of stewardship in the City;
- 42 B. Preserve and implement the comprehensive plan;
- 44 C. Ensure the application and administration of these regulations continues to improve the overall 45 guality of life and promote development of the City;
- 46

- 47 D. Establish zoning districts as a means of achieving unified civic design and proper relationship between
   48 the uses of land by regulating the location and use of buildings and other structures;
- E. To minimize and reduce conflicts among various land uses through the application of regulations
   designed to assure harmonious relationships among land uses;
- 53 F. To ensure safe and convenient traffic circulation, adequate utilities, recreation areas, and the 54 development of economically stable and healthful neighborhoods;
- 56 G. To prevent periodic and seasonal flooding by providing flood control and drainage facilities;
- 58 H. To discourage haphazard, premature, uneconomical, or scattered land development; and
- For ensure that the citizens and taxpayers of the city will not have to bear the costs resulting from
   haphazard land development or the lack of adequate and necessary physical improvements incidental
   to land development.

### Section 1.4. Jurisdiction and applicability.

85

88

- A. These regulations shall govern the development and use of land, buildings, and structures within the
   municipal boundary of the City.
- B. No building, structure, water, or land shall be used, occupied, or developed unless in conformity with
   all provisions of the zoning district in which it is located, all other applicable regulations, and all
   development approvals.
- 73 Section 1.5. Compliance with regulations.
- A. No building shall be erected, converted, enlarged, reconstructed, moved, or structurally altered
   except in conformance with:
  - 1. The applicable zoning district regulations;
- 80 2. The bulk, area, and dimensional regulations of the zoning district;
- 82 3. The off-street parking and loading regulations for the use in the building in question;
- 84 4. The floor area regulations of the zoning district;
- 5. The established flood criteria, as indicated on the most current edition of the federal flood insurance rate maps and the requirements in Article 9 applicable to the development site; and
- 89 6. All other applicable laws, rules, and regulations.
- B. No building shall be erected or enlarged after the effective date of these regulations, which reduces
   any level of service standard established in the City of Cape Coral adopted comprehensive plan.

93

#### 94 Section 1.6. Violations, enforcement, and penalties.

95

96 The procedures for enforcement and penalties for violations of this Code are set forth in Chapter 2, Article 97 5, Divisions 3 and 4 of the City of Cape Coral Code of Ordinances. The provisions of this Code are 98 supplemental to any other procedures and remedies available to the City of Cape Coral. Nothing contained 99 in this Code prohibits the City of Cape Coral from enforcing its codes or ordinances by other Code

100 Enforcement provisions of the City of Cape Coral Code of Ordinances or other applicable law.

101

#### 102 Section 1.7. Buildings under construction.

103

104 Any building or structure for which a lawful building permit has been issued prior to the effective date of 105 this article may be completed and used in accordance with the plans and specifications upon which such 106 building permit was granted, provided construction is completed within the life of the building permit. 107

- 108 Section 1.8. Outstanding permits.
- 109

110 Where there are outstanding and valid building or development permits authorizing construction of 111 buildings, structures, additions, or alterations, the use or construction of which do not conform to the requirements of this article, such permits shall be valid for the life of the permit. 112

113

#### 114 Section 1.9. Time limitation of approvals.

115

116 Time limits for permits issued under this Code are specified for each type of development permit. 117 Conditions of approval attached to permit approvals may establish additional time limits on the life of a 118 permit or establish specific timeframes for certain actions.

119

#### 120 Section 1.10. Annexed lands.

121

122 In accordance with FS 171.062, all land annexed in to the City of Cape Coral shall retain the Lee County 123 Future Land Use and Zoning Designations until the City Council adopts a comprehensive plan amendment 124 that includes the annexed area and adopts an ordinance establishing a zoning district for the annexed 125 area.

126

#### 127 Section 1.11. Comprehensive Plan and Future Land Use Map.

128

129 The Comprehensive Plan and Future Land Use Map of the City of Cape Coral are the official statements of 130 policy for the City regarding the use of land. All use or development of land undertaken pursuant to these 131 regulations shall be consistent with the Comprehensive Plan and the Future Land Use Map.

- 132
- 133 Section 1.12. Official Zoning Map.
- 134
- 135 A. The Official Zoning Map is established and incorporated into these regulations by this reference. The 136 Official Zoning Map shows the boundaries of all Zoning Districts as adopted by the City Council 137 pursuant to the procedures of these regulations.
- 138

B. The Official Zoning Map shall be the official record of zoning status of land within the city. The Official Zoning District Map shall be maintained by the city electronically. The city is divided into districts, or zones, as provided by this ordinance. The electronic format of the map will reside within the city Geographic Information System (GIS) as the zoning layer and shall be maintained by the Department of Community Development - Planning Division. The map will be updated on a continuous basis following approval of zoning changes by City Council. The electronic format of the map will be viewable via the Internet and paper copies can be produced on demand.

146

150

C. Pursuant to Laws of Fla. Ch. 78-540, § 8, the city shall exercise extraterritorial zoning powers within
an area extending 600 feet into the tidal waters adjacent to the corporate city limits. All such areas
shall have the same zoning as the adjacent uplands.

151 D. The Official Zoning Map, as amended from time to time, shall be kept on file and made available for 152 public reference in the Office of the City Clerk and the Community Development Department. 153 Amendments to zoning on the Official Zoning District Map shall be consistent with the adopted Cape 154 Coral Comprehensive Plan, including the Future Land Use Map and its accompanying text. 155 Amendments shall be made on or after the effective date of such zoning change. The Director of the 156 Department of Community Development shall ensure that amended zoning district boundaries are 157 accurately placed on the zoning map. The City Clerk shall keep records on file which identify the official 158 action by which a map amendment was made, the date of such action, the land area affected and the 159 date of posting.

E. Should the map or any portion thereof become damaged, destroyed, or lost the City Council is authorized, by ordinance, to replace the map or damaged portion and the new map shall supersede the one replaced. The new map may correct drafting or other errors, but no replacement shall have the effect of changing the official zoning status of property unless the prior map has been totally destroyed. The City Clerk shall preserve any records relating to its adoption and amendment.

166

160

F. Unauthorized changes. Substantial changes of the nature affecting the zoning of property is strictly
 prohibited and unlawful, unless in conformity with the requirements and procedures of this ordinance
 or applicable law.

# 170171 Section 1.13. Transitional rules.

172

A. Existing unlawful uses, lots, and structures. A structure, lot, or use not lawfully existing at the time of
 the adoption of these regulations is lawful only if it conforms with all of the requirements of these
 regulations. All other violations of prior regulations of the City as of the effective date of this ordinance
 shall continue to be violations and shall not be considered to be legal nonconformities under this code
 unless such violation(s) becomes lawful by adoption of this code.

B. Existing approved uses. An existing use which is lawful on the date of adoption of these regulations,
whether as a "permitted use", or a "special exception use" in the zoning district in which it is located,
shall not be deemed nonconforming solely because the procedure for approval has changed through
the adoption of these regulations.

183

- C. Previously granted variances. Unless becoming conforming pursuant to Subsection A, above, all variances granted under any prior edition of the Land Development Code and which are still in effect upon adoption of these regulations shall remain in full force and effect, including any conditions attached thereto, and the owner may proceed to develop the property in accordance with the approved variance.
- D. Previously approved special exceptions. All special exceptions approved prior to the adoption of these regulations, and any conditions attached thereto, shall remain in full force and effect, and the owner may proceed to develop the property in accordance with the previous approval. However, if construction has not commenced before the approval expires or if the approval is abandoned, the provisions of these regulations shall govern.
- 196 E. Prior zoning districts. Unless provided otherwise on the Official Zoning Map, upon adoption of these
   197 regulations, all existing zoning classifications shall be reclassified with one of the zoning classifications
   198 set forth in Article 4, Zoning Districts, as follows:
- 199 200 1. Residential zoning districts. 201 202 a. Single-family residential (R-1) 203 204 b. Multi-family residential low density (RML) 205 206 c. Multi-family medium density (RMM) 207 208 d. ### 342 Section 1.15. Measurements.

- A. Number of Residential Units Allowed (Density). The maximum number of residential units allowed on
   a site is determined by multiplying the maximum density allowed under the Comprehensive Plan by
   the parcel size (i.e., allowable comp plan density (x) parcel size), except when the zoning district of a
   parcel permits lot sizes that equate to a smaller maximum density for that parcel.
- 348
  349 B. Distance requirements. Unless otherwise provided herein, distances shall be measured in accordance
  350 with the following:
- When the LDC requires a distance between uses or developments on different development parcels or there are LDC requirements for a development within a certain distance from another development parcel, the distance shall be measured using a straight-line measurement from the closest point of one parcel to the closest point of the parcel(s) involved.
- When the LDC imposes requirements on a development within a certain distance of a zoning district, the distance shall be measured using a straight-line measurement from the closest point of a zoning district boundary to to the closest point of the parcel(s) involved.
- 361When there is a distance requirement between a structure or building on the same development362site, the distance shall be measured from the exterior of the buildings or structures, using a363straight-line measurement from the closest points between the structures being measured.
- 365 3. When a portion of a parcel or development site lies within a certain distance of a zoning district 366 or development and the LDC imposes requirements or regulations on a development or parcel

- within that distance, the requirements and regulations shall be applicable to the entire parcel ordevelopment site and not just to the portion within the specified distance.
- 370 C. Floor area, gross. The sum of the floor areas of all floors of a building or structure from the exterior 371 face of exterior walls, or from the centerline of a wall separating two buildings, excluding covered 372 parking, loading areas, or parking garages. When an entire level of a building or structure is below 373 ground as measured from floor to floor or ceiling slab to ceiling slab, the floor area of this level shall 374 be excluded from the calculation of gross floor area. Unless otherwise specified, gross floor area for 375 food service establishments shall also include any outdoor or patio floor area on the property used or 376 designed for customer service.
- 378 D. Floor area, net. The total floor area of all floors of a building shall be measured by excluding from the
  379 gross floor area stairwells and elevator shafts, equipment rooms, interior vehicular parking, loading,
  380 and all floors below the first or ground floor, except when such areas are used or intended to be used
  381 for human habitation or service to the public.
- E. Floor area ratio (FAR). The floor area ratio is measured by the net floor area of all buildings or
   structures on a lot, parcel, or site divided by the total lot, parcel, or site area.
- 386 F. Fractional measurements.
- When units or measurements result in a requirement of a fraction, any such fraction equal to or greater than exactly fifty percent (50%) shall require the full requirement, unless otherwise provided for in these regulations.
- Density fractional measurements. When calculating density, any fraction of a unit shall be rounded down to the nearest whole number, unless otherwise provided for in these regulations.
- 394 395 G. Grade.

- 1. When used to measure habitable structures, grade shall be the highest elevation of:
- 399a.The natural elevation of the ground when compared to abutting properties. Natural elevation<br/>of the ground when compared to abutting properties, shall be derived by selecting a minimum<br/>of two (2) elevation points on each adjoining property line and calculating the average of all<br/>the selected elevation points. This calculation will determine the reference plane for<br/>calculating the height of habitable structures only;
- 405b. The base flood elevation requirement for the lowest floor as shown on the flood insurance406rate map published by the Federal Emergency Management Agency (FEMA);
  - c. Eighteen (18) inches above the FEMA base flood elevation requirement for the bottom of the Lowest Horizontal Structural Member (LHSM) of the lowest floor; or
- 411 d. Eighteen (18) inches above the State of Florida, Department of Environmental Protection 412 minimum requirement for the bottom of the LHSM of the lowest floor. For purposes of the

- 413definition of grade, the term floor shall be defined as the top of the lowest inside surface of414an enclosed area in a building, including the basement. For example, the top of the slab in a415concrete slab construction or the top of wood flooring in wood frame construction. The term416does not include an unfurnished or flood resistant enclosure, usable solely for parking of417vehicles, building access, or storage in an area other than a basement area.
- When used to measure non-habitable accessory structures, grade shall be the finished ground surface at the base of the accessory structure being measured. If a retaining wall elevates the non-habitable accessory structure, grade shall be the finished ground surface at the base of the accessory structure, grade shall be the finished ground surface at the base of the retaining wall.
- H. Building Height. The height of buildings shall be measured from the lowest finished floor elevation to the lowest point of the highest horizontal eave or the top of the roof slab for structures with flat roofs. Church spires and steeples, chimneys, parapet walls, machine rooms, elevator towers, and similar features necessary to the design and function of a building but not designed for human occupancy, shall not be included in the measurement of overall building height.
- 430 I. Lot coverage. That portion of a lot that is covered by all principal and accessory buildings.
- 432 J. Lot depth. The depth of a lot is the distance measured from the mean direction of the side lines of the
  433 lot from the midpoint of the street lot line to the midpoint of the opposite main rear line of the lot.
- 435 K. Lot width. The horizontal distance between the side lines of a lot measured at the front building 436 setback line, or at the front property line where no front setback is required.

- 439 L. Setback. A setback is the minimum horizontal distance between a structure and a property line.
   440 Setbacks shall extend and be measured perpendicular and inward from the respective property lines.
- 442 Section 1.16. Interpretation of zoning district boundaries.
- 444 Zoning district boundaries are usually depicted along streets, alleys, shorelines, property lines, or 445 extensions thereof. Where an uncertainty exists with respect to the boundaries of districts as shown on 446 the Official Zoning Map, the following rules shall apply:
- 447
- A. Centerlines. Boundaries indicated as approximately following the centerlines of streets, highways, or
   alleys shall be construed to follow such centerlines;
- 450451 B. Lot, section, and tract lines. Boundaries ind

- B. Lot, section, and tract lines. Boundaries indicated as approximately following platted lot lines shall be construed as following such lot lines;
- C. Political boundaries. Boundaries indicated as approximately following City limits shall be construed as
   following City limits;
- 456
  457 D. Shorelines. Boundaries indicated as following shorelines shall be construed to follow such shorelines.
  458 In the event of a change in the shoreline, the zoning district boundary shall be construed as moving

- with the actual shoreline. Boundaries indicated as approximately following the centerline of streams,
   rivers, canals, lakes, or other bodies of water shall be construed to follow such centerlines;
- 462 E. Vacations. Whenever any street, alley, or other public way is vacated by official action of the City
  463 Council, the zoning district of the property abutting each side of the street, alley, or public way shall
  464 be automatically extended to the center of such vacation and all area included within the vacation
  465 shall thereafter be subject to all regulations of the extended districts;
- F. Filled lands. Where land is built-up by fill upon areas formerly submerged under water, the district
  regulations applying to the land immediately adjoining such built-up land shall be automatically
  extended thereto;
- G. Parallel lines. Boundaries indicated as parallel to or extensions of features indicated in subsections A
  through F of this section shall be so construed. Distances not specifically indicated on the official
  zoning map shall be determined by the scale of the map;
- H. Bisecting lines. Where district boundary lines approximately bisect blocks, the boundaries are the
   median line of such blocks, between the centerlines of boundary streets;
- Uncertainties. Where physical or cultural features existing on the ground are at variance with those
   shown on the official zoning map or if any other uncertainty exists, the Director of Community
   Development shall interpret the intent of the official zoning map as to the location of district
   boundaries; and
- 483 J. Excluded areas. Where land or water areas have been inadvertently excluded from a zoning district
   484 classification in any manner, such areas shall be classified in conformance with the most restrictive
   485 zoning district which abuts the excluded area until or unless changed pursuant to amendment
   486 procedures set forth in Article 3, Sec. 3.4.6.
- 488 Section 1.17. Severability.
- 489
  490 A. It is the intent of the City Council of the City of Cape Coral that the articles, chapters, sections, subsections, paragraphs, sub-paragraphs, sentences, clauses, and phrases of this Code are severable, and if any are declared invalid or unconstitutional by the valid judgment or decree of a court of competent jurisdiction, such invalidity or unconstitutionality shall not affect the balance of these regulations.

482

- B. It is the further intent of the City Council of the City of Cape Coral that all property within the City be
  governed by these regulations. Therefore, if the zoning district of a parcel is declared invalid or
  unconstitutional, either on its face or as-applied, it is the intent of the City Council that the zoning
  district applied to the parcel shall be the next more restrictive zoning district that is consistent with
  the future land use district within which the parcel is located.

### 52 Section 2.1.2. Membership; vacancy; compensation.

53

54 A. Membership. The Commission shall consist of seven members. All members shall be residents of the 55 City and will be appointed by a majority vote of the City Council. The term of office for each member 56 shall be three years, or until a successor is appointed. Terms of office shall commence on the first day 57 of March of the year in which appointed. In addition to the seven members, two alternate members 58 shall be appointed by a majority vote of the City Council to serve as alternates for the term of one 59 year, or until a successor is appointed. Alternate members shall be residents of the City. Alternate 60 members shall substitute for absent members on a rotating basis. When substituting for an absent 61 member, an alternate member may vote and participate in all discussions of the Commission in the 62 same manner and to the same extent as the other members of the Commission. When not substituting for an absent member(s), alternate members shall not vote on any matter, but may 63 64 participate in all discussions in the same manner and to the same extent as the other members. 65 Alternate members shall have the same attendance requirements as the other members of the 66 Commission. Board members and alternate members shall be subject to the forfeiture of office 67 provisions of Section 2.58 of the Cape Coral Code of Ordinances. Whenever a vacancy occurs on the 68 Commission, the city shall fill the vacancy for the remainder of the term as soon as practicable after 69 the vacancy occurs.

Sec	tion 2.1.3. Meetings; Quorum; Required vote.
A.	Meetings. The Commission shall schedule and hold at least one public hearing each month unless there is no business to transact for the regular meeting date. The Commission shall also meet at the call of the chairperson and other times as may be determined by a majority of the Commission.
В.	Quorum. Four voting members of the Commission shall constitute a quorum for the transaction of business, but a smaller number may act only to adjourn meetings for lack of a quorum. The affirmative vote of a majority of the quorum shall be required to pass any action of the Commission.
C.	Officers. The Commission shall annually elect a chairperson and a vice-chairperson from among its members. All officers shall be elected for one-year terms and shall be eligible for re-election.
Sec	tion 2.1.4. Staff; Attorney.
A.	Staff. The City Manager shall provide staff support necessary to the planning functions of the Commission and provide secretarial support for the Commission in the execution of its duties and to record and transcribe in summary form the minutes of all Commission meetings.
В.	Attorney. The City Attorney shall serve as legal counsel to the Commission.
Sec	tion 2.1.5. Rules and records.
Α.	The Commission shall adopt its own rules of procedure as may be deemed necessary; provided such rules shall not be contrary to the spirit and intent of the Land Development Code or to the policies of the City. The Commission shall keep minutes of its meetings and records of all transactions and deliberations. Such minutes and records shall be filed in the appropriate offices of the City and shall be public records.
В.	All meetings of the Commission shall be open to the public.
C.	The Commission shall set up rules of procedure to monitor and oversee the effectiveness and status of the Comprehensive Plan in order to make any recommendation to the City Council for changes in the Comprehensive Plan as may from time to time be required consistent with the intent and purposes of the Cape Coral Land Development Code relating to the Comprehensive Plan.

### Section 3.1.4. Application submittals.

143
144 A. Unless otherwise indicated by a specific provision of this Article, the applicant for a permit or approval 145 under this Code must be the owner of the property that is the subject of the application or a duly

	Ande 5 Development Neview
146 147 148	authorized agent of the owner. An applicant who is a contract purchaser must provide proof that the applicant is an authorized agent of the property owner.
148 149 150 151 152	1. For rezone and comprehensive plan amendments involving multiple properties or ownerships, the owners of at least fifty-one percent of the number of parcels or the land area included in the application, whichever is greater, must join in the application.
153 154 155	2. For applications to vacate public rights-of-way or alleys, the owners of all parcels abutting the street or alley or portion thereof to be vacated must join in the application.
156 157 158	3. For applications to vacate easements, all owners of parcels abutting the easement and all owners entitled to use of the easement to be vacated must join in the application.
159 160 161	4. For applications to vacate any portion of a platted subdivision, all owners in the subdivision must join in the application.
	Unless otherwise indicated by a specific provision of this Article or another City ordinance or regulation, applications for permits and approvals under this Chapter shall be submitted to the Community Development Department.
	Applications shall contain all information required for the type of application being filed and shall include all plans, data, studies, or supporting documents required under this code or specified in the application forms.
	The Community Development Department shall establish application forms and submittal requirements for all development applications referenced in this Article.
173 E. 174 175 176	Applications for various approvals and permits may be submitted for concurrent or simultaneous review at the option and sole risk of the applicant. This provision shall not apply to any comprehensive plan amendments, rezones, or permit approvals associated with a proposed annexation into the City.
177 F. 178 179	Applications for permits or development approvals which have been made available as on-line may be required to file an on-line application only, as determined by the Director.
180 G. 181 182 183 184	The Community Development Director shall have the authority to require a zoning or site improvement permit review for other buildings, structures, improvements, or installations that are newly created or come about by changes in the state or local building codes; or other improvements deemed necessary for approval.
185 186 187 188 <b>Se</b> 189	ction 3.1.5. Pre-application, Preliminary Design Review, and Neighborhood meetings.

- A. Upon request of an applicant, the director may schedule pre-application meetings with applicants and appropriate City staff, for the purpose of reviewing proposed development prior to the formal submission of an application. Applicants are encouraged, though not required, to request a pre-application meeting. A pre-application meeting is required for Planned Unit Development applications.
- B. The pre-application meeting shall be informal, and its purpose shall be to discuss the proposals, views, and concepts of the applicant. The purpose is also to discuss whether any additional information will be required. Failure of staff to identify any required permits or procedures at a pre-application meeting shall not relieve the applicant of any such requirements in this code or constitute waiver of the requirement by the decision-making body.
- 202 C. At the pre-application meeting staff will:
  - 1. Review the proposed project and any preliminary plans with the applicant.
- Discuss and inform the applicant about the zoning requirements relevant to the proposal,
   information necessary for an application, and the approval process(es) for the project. This does
   not preclude the department from requesting additional information or waiving certain
   requirements for information later during the review process.
  - 3. Advise the applicant whether the proposed project conforms to the Comprehensive Plan or the requirements of this title.
- D. Preliminary Design Review Advisory Meetings. Upon request of an applicant, the director may schedule a preliminary design review advisory meeting with applicants and appropriate City staff, for the purpose of reviewing the design and engineering requirements for a proposed development project prior to the formal submission of an application. Applicants are encouraged, though not required, to request a preliminary design review advisory meeting. The substance and process of a preliminary design review advisory meeting shall follow the requirements of pre-application meetings detailed in subsections B and C, above.
- E. Any recommendations or determinations reached during a pre-application or preliminary design
   review advisory meetings are purely advisory and shall not be binding either on the applicant or the
   City.
- F. Applicants are encouraged, though not required, to hold a neighborhood meeting to advise nearby
   residents of upcoming development applications. The City will provide a list of surrounding property
   owners for applicants to notify when a neighborhood meeting is scheduled.

Section 3.1.6. Fees Required.

230 231

Each applicant for a permit, approval, or appeal under this Article shall be required to pay any application
 fee(s) as established by the City Council.

- 234
- 235 Section 3.1.7. Complete Applications Required.

236

- A. Incomplete Applications. No application for a permit, approval, or appeal under this Article shall be
   accepted or reviewed by staff that does include all required application materials and the required
   application fee(s). The burden of providing complete and accurate information required by the
   Community Development Department for each type of application shall be on the applicant.
- 242 B. Determination of Completeness.

- 1. When an application for development approval is submitted, the director shall make a threshold
  - determination as to whether the application is complete and in conformance with the land uses, density, and intensity allowed by the future land use designation and zoning district classification.
- All applications shall be reviewed for completeness within ten days of receipt. If the application does not meet the requirements of this Article, the director shall notify the applicant or agent in writing, stating the additional information required or the modification(s) necessary for conformance.
- 3. No further action shall be taken on the application unless and until the additional information is
   submitted and determined to be complete by the director. If the incompleteness has not been
   remedied within sixty (60) calendar days of receipt of notice thereof, the application shall be
   automatically voided and the director shall return the application to the applicant.
- C. Review. When an application for development approval is determined to be complete, the
   department shall notify the applicant, and commence detailed review and processing of the
   application in accordance with this Code.
- 261

- 262 263
- Section 3.1.8. Review for Sufficiency and Code Requirements.
- Once an application is determined to be complete, the Department shall commence detailed review of the application, consult with other agencies, issue comments to the applicant, consult with the applicant as necessary, and determine whether the application and supporting materials are sufficient to proceed forward, as applicable for the type of application for review. For purposes of this section, "sufficiency" shall constitute an analysis of whether a proposed application:
- A. Meets the stated objective requirements of the comprehensive plan, this Code, and the City Code ofOrdinances; and
- 272

275

269

- B. Includes the necessary analysis and information in sufficient detail to enable the decision-making
   body or official to make the necessary determinations under the comprehensive plan and this Code.
- C. The sufficiency and code requirements set forth herein shall be used by the City to evaluate the
   demands created on public services and facilities by a proposed development, as required by this
   code. The following public services and facilities shall be evaluated:

	Sec	tion	3.1.10. Public Hearing Scheduling and Notice Requirements.

- A. Scheduling for consideration. When an application is deemed sufficient pursuant to LDC Section 3.1.8,
   the Director shall schedule a public hearing for an appropriate date. No application shall be scheduled
   for consideration by the Hearing Examiner, Commission, or City Council until either:
- 330 331

332

339

349

356

361

- 1. All specified insufficiencies have been resolved; or
- 2. The applicant has elected in writing to proceed notwithstanding the unresolved insufficiencies.
- 334
  335 B. Required notice of public hearings. Notice of public hearings shall be provided by publication of an advertisement in a newspaper of general circulation, mailed notice to surrounding property owners, and posting of the development site pursuant to the requirements of this section. Table 3.1.2 depicts
  338 the public hearing notice requirements for quasi-judicial and legislative applications under this Code:
- 340 C. Website posting. Notices of public hearings for development applications shall be posted on the City
   341 of Cape Coral website but failure to post a case on the City website shall not constitute a violation of
   342 City noticing requirements. In addition, information about public notice and public hearings may be
   343 posted by the City on social media outlets.
- 344
  345 D. Publication. Publication of advertisements for public hearings concerning comprehensive plan amendments shall meet the requirements of Chapter 163, Florida Statutes. Publications for public hearings concerning zoning amendments shall meet the requirements of Chapter 166 Florida Statutes.
- E. Posting. The application site shall be posted with a notice of the public hearing on a sign provided by
  the Community Development Department at least ten (10) calendar days in advance of any public
  hearing. The number and placement of public notice signs should be determined by the Department.
  The signs shall be removed by the City after a final decision. The failure to remove posted notice after
  a final decision shall not be deemed a failure to comply with this requirement or be grounds to
  challenge the validity of any final decision on the application(s).
- F. Mailed notice. Notice of a public hearing on a proposed development application(s) shall be mailed
  to all owners of real property within five hundred (500) feet of the periphery of the site in question,
  whose names and addresses are known by reference to the latest published ad valorem tax records
  of the Lee County Property Appraiser.
- Individually owned multi-family units. When real property consists of individually owned multi-family units, notice shall be given to the homeowner's association, if applicable, all individual unit owners, and all real property owners within five hundred (500) feet. If any area adjacent to the development site is owned by the applicant or any partner listed on the application, the five hundred (500) foot notification boundary shall be extended from these parcels. All property owner associations in the notice area shall be notified.
- Notice to other jurisdictions. If there are unincorporated lands within 500 feet of the property,
   Lee County shall also be notified.
- 371

372 3. Applicant responsibility for notice. When the notice radius specified in this section includes 373 property outside of the City limits, the applicant is responsible for obtaining the list of property 374 owners to be notified from the Lee or Charlotte County Property Appraisers and providing this list 375 to the department in sufficient time to comply with noticing requirements. The applicant is responsible for any errors or omissions in the list provided. 376 377 378 4. Content. Generally, all public hearing notices shall contain the following information: 379 a. The scheduled date, time, and location of the hearing; 380 381 382 b. A general description of the nature of the matter to be addressed, written in layman's terms; 383 384 c. The address of the property; 385 386 d. That persons may appear and be heard; 387 388 e. That written comments filed with the department will be entered into the record; 389 390 f. That the hearing may be continued from time to time as necessary; 391 392 g. A telephone number and contact for more information; 393 394 h. The case number or title of the ordinance under consideration, if applicable; and 395 396 i. Such additional information as may be required pursuant to this code or applicable law for 397 specific types of development approval. 398 399 5. Timing of mailed notice. Notice shall be mailed a minimum ten (10) calendar days prior to the 400 date set for the public hearing by first class mail. A copy of the notice shall be available for public 401 inspection during regular business hours at the Community Development Department. If the 402 application includes a simultaneous future land use map amendment and a rezone, the notice for the rezone may be included in the notice required for the land use amendment. 403 404 405 G. Electronic Notice. The Community Development Department may, as a courtesy, send electronic notice to any persons or organizations in the City, or to any governmental, public, or quasi-public 406 407 organization regarding any matter that may affect the interests of that person or organization, or on 408 any matter on which any such person or organization has requested notice. The failure of the 409 Department to send such notice or the failure of any resident or property owner to receive such 410 courtesy notice shall not affect the validity of the public notice requirements. 411 412 H. Exceptions to Mailing and Posting. The mailing and posting notice requirements shall not apply to a 413 land use map amendment initiated by the Council, in response to a judicial order or compliance agreement as described by Section 163.3184(6) and (7), Florida Statutes. 414 415 416 I. Continued or Rescheduled Meetings. Notice of subsequent hearings shall be mailed and published in 417 accordance with this section for:

- 418
  419
  1. Any hearing for which the Hearing Examiner, Community Development Director, or City Attorney determines new notice should be provided, because of the time elapsed from the original notice, to correct any defect, or apprise affected parties of significant changes to the application as originally noticed;
  423
  424
  2. Any hearing continued to an unspecified date, time, and place; or
  425
  426
  3. Any hearing where such new notice is required pursuant to applicable law or this Code.

Section 3.1.11 Public Hearing Procedures.

- A. General. All public hearings shall be open to the public. Members of the public shall be permitted to
   testify at all public hearings. A copy of the hearing procedures shall be made available at the hearing.
   The applicant may withdraw an application by requesting such withdrawal in writing prior to the
   commencement of the hearing.
- B. Record of hearings. The City Clerk shall attend all hearings, and the City shall record (audio, video, or
  both) all hearings. The City shall retain the original recording(s) in accordance with the laws of the
  State of Florida, and, if requested, provide a duplicate of the recording(s).
- C. Official file. All written communication received by the decision-making body, the Hearing Examiner, or staff concerning an application, the staff report on the application, any petitions or other submissions from the public, and all other documents pertaining to the application shall be filed in the official file for the application, which shall be maintained by staff. The Comprehensive Plan, the City Code of Ordinances, and the Land Development Code shall be deemed to be part of the official file. The official file shall be available for inspection during normal business hours.
- D. Order of public hearings. The hearing shall, to the extent possible, be conducted as follows:
- 4481. The Clerk shall read into the record the ordinance or resolution title and number, or the<br/>applicant's name, file number, and the subject matter to be decided if there is no ordinance or<br/>resolution.450resolution.
- 452
   2. For quasi-judicial hearings, the applicant, staff, and all participants requesting to speak or present
   453 evidence or both at the hearing shall be collectively sworn by an oath or affirmation by the Clerk.
- 455 3. The applicant may waive the applicant's right to an evidentiary hearing if applicant agrees with 456 the staff recommendation and no one from the audience wishes to speak for or against the 457 application. The decision-making body may then vote on the item or the Hearing Examiner shall 458 rule on the matter or make a recommendation, based upon the staff report and any other 459 materials contained within the official file. Regardless of a waiver by the applicant, a public 460 hearing shall be held for all decisions requiring an ordinance or resolution.
- 462 4. If there is an evidentiary hearing, the order of the presentation shall be as follows, unless the 463 Hearing Examiner or Mayor determines to proceed in a different order, taking proper

464	со	nsideration of fairness and due process:
465 466 467 468	a.	The applicant shall make the applicant's presentation, including offering any documentary evidence, and introduce any witnesses as applicant desires. The applicant shall present the applicant's entire case in 30 minutes.
469 470 471 472 473 474	b.	Staff shall present a brief synopsis of the application; introduce any appropriate additional exhibits from the official file that have not already been transmitted to the Hearing Examiner or City Council with the agenda materials, summarize issues; and make a recommendation on the application. Staff shall also introduce any witnesses that it wishes to provide testimony at the hearing. Staff shall present its entire case in 30 minutes.
475 476 477 478 479	c.	Public comment. Participants in opposition to or support of the application shall make their presentation in any order as determined by the Chair, Hearing Examiner, or Mayor. Each participant shall present their argument in five minutes.
480 481 482	d.	For hearings on quasi-judicial matters only, the applicant may cross-examine any witness and respond to any testimony presented.
483 484 485	e.	For hearings on quasi-judicial matters only, staff may cross-examine any witness and respond to any testimony presented.
483 486 487 488 489	f.	The Chair, Hearing Examiner, or Mayor may choose to allow participants to respond to any testimony if the Chair, Hearing Examiner, or Mayor deems the response to be necessary to ensure fairness and due process.
490 491 492	g.	Members of the Planning and Zoning Commission, Hearing Examiner, or City Council may ask any questions of the staff, applicant, and participants.
492 493 494	h.	Final argument may be made by the applicant, related solely to the evidence in the record.
495 496	i.	Final argument may be made by the staff, related solely to the evidence in the record.
497 498 499	j.	For good cause shown, the Planning and Zoning Commission, Hearing Examiner, or City Council may grant additional time to any of the above time limitations.
500 501 502 503 504 505 506 507 508 509	k.	The Chair, Hearing Examiner, or Mayor shall keep order, and without requiring an objection, may direct a party conducting the direct examination or the cross-examination to stop a particular line of questioning that, in the sole judgment of the Chair, Hearing Examiner, or Mayor merely harasses, intimidates, or embarrasses the individual testifying or being cross-examined; is unduly repetitious or is not relevant; or is beyond the scope of the application or, in the case of cross-examination, is beyond the scope of the testimony by the individual being cross-examined. If the party conducting the direct examination or cross-examination continues to violate directions from the Chair, Hearing Examiner, or Mayor may terminate the direct examination or the cross-examination.

- 510 511 I. The Planning and Zoning Commission, Hearing Examiner, or City Council may, on its own 512 motion or at the request of any person, continue the hearing to a fixed date, time, and place. 513 The applicant shall have the right to one continuance; however, all subsequent continuances shall be granted at the sole discretion of the Commission, Hearing Examiner, or City Council. 514 515 516 E. Decisions. For all quasi-judicial hearings in which a decision is made regarding an application for any 517 development permit, the decision to approve or deny shall be based on whether the application meets all applicable requirements of the Comprehensive Plan, the City Code of Ordinances, and the 518 519 Land Development Code, based on the entirety of the record before the Hearing Examiner or City 520 Council. The Hearing Examiner or Council decisions must be based upon competent substantial 521 evidence in the record. 522 523 F. Rules of Evidence for guasi-judicial hearings. 524 525 The decision-making body or the Hearing Examiner shall not be bound by the strict rules of 1. 526 evidence and shall not be limited only to consideration of evidence which would be admissible in 527 a court of law. The decision-making body or the Hearing Examiner shall have the ability, but not 528 the duty, to conduct site visits in their sole discretion and to consider any evidence so adduced in 529 their deliberations. 530
- 5312.The Chair or Hearing Examiner may exclude evidence or testimony that is not relevant, material,532or competent or testimony which is unduly repetitious or defamatory.

- 5343.The Chair, with the advice of the City Attorney, will determine the relevancy of evidence. In535matters decided by the Hearing Examiner, the Hearing Examiner, without the advice of the City536Attorney, will determine the relevancy of evidence.
- 5384.Matters relating to an application's consistency with the Comprehensive Plan, the City Code of539Ordinances, or the Land Development Code will be presumed to be relevant and material.
- 5415.Hearsay evidence may be used for the purpose of supplementing or explaining other evidence,542but it shall not be sufficient by itself to support a finding unless it would be admissible over543objection in court.
- 545
  6. Documentary evidence may be presented in the form of a copy of the original, if available. A copy

5589.The Planning and Zoning Commission, Hearing Examiner, or City Council shall take judicial notice559of all state and local laws, ordinances, and regulations and may take judicial notice of such other560matters as are generally recognized by the courts of the State of Florida.

- 56210.Supplementing the record after the quasi-judicial hearing is prohibited, unless specifically563authorized by an affirmative vote of the decision-making body, or authorized by the Hearing564Examiner, under the following conditions:
  - a. The supplementation occurs after a quasi-judicial hearing is continued but prior to final action being taken on the application or appeal.
- 568 b. If a question is raised by the Planning and Zoning Commission, Hearing Examiner, or City 569 570 Council at the hearing which cannot be answered at the hearing, the party to whom the question is directed will submit the requested information in writing to the City Clerk and the 571 572 decision-making body or Hearing Examiner after the quasi-judicial hearing, with copies to the 573 other parties, provided the hearing has been continued or another hearing has been 574 scheduled for a future date and no final action has been taken by the decision-making body 575 or Hearing Examiner. The information requested will be presented to the decision-making 576 body or the Hearing Examiner at least two business days prior to the time of the continued 577 hearing.
  - c. All parties and participants shall have the same right with respect to the additional information as they had for evidence presented at the hearing.
- G. Final decision. The City Council or the Hearing Examiner shall reach a written decision without
   unreasonable or unnecessary delay. The Hearing Examiner shall provide a copy of the decision to the
   City Clerk for transmission to the applicant, if the applicant is not the City, to the Director of the
   Department of Community Development, and the City Attorney.
- 587 H. The Record. All evidence admitted into the record at the hearing, the official file, and the adopted
  588 development order, ordinance, or resolution of the City Council or the written decision of the Hearing
  589 Examiner shall be maintained by the City Clerk or the Department of Community Development.
- 591 I. Adjournment. The Chairperson, upon a vote of the majority present, or Hearing Examiner, as
   592 applicable, may adjourn a hearing to a date certain without the necessity of additional notice.
   593 Adjournment to an uncertain date shall require notice as required for the original hearing and by the
   594 Land Development Code.
- 596 J. Deferrals. If a hearing is concluded, but action is deferred until a future date, formal notice shall not 597 be required prior to action being taken.
- 598
  599 K. Joint hearings. Where deemed necessary, joint hearings may be conducted after proper public notice.
  600 In such instances, public notice need only be given by one public body, which shall be the City Council
  601 in instances where it is one of the hearing bodies.

- 602 603 L. Regularly scheduled public hearing dates. The Hearing Examiner or the City Council may establish 604 regular dates for public hearings on zoning amendments. Such dates, if established by the Hearing 605 Examiner, or the City Council, shall not prevent the Hearing Examiner or City Council from scheduling additional public hearings whenever such public hearings are deemed necessary. 606 607 608 M. Reading of ordinances. Except for ordinances initiated by the City Council which rezone a parcel or 609 parcels of land involving ten or more contiguous acres, or change permitted, special exception, or 610 prohibited use categories in zoning districts, all ordinances shall be read, either by title or in full, on 611 two separate days at a duly noticed public hearing of the City Council. 612 613 N. The printed agenda for the meeting at which the quasi-judicial hearing is scheduled to take place shall 614 identify the hearing as quasi-judicial and indicate where copies of the procedures that apply may be obtained. 615 616 Section 3.1.12. Decisions under this Article. 617 618 619 A. When this Article authorizes the Community Development Director, Hearing Examiner, or City Council 620 to make decisions under this Chapter, that decision shall be made pursuant to the specific criteria applicable to the application in Chapter 2 (Specific Review Procedures). If Chapter 2 does not include 621 622 specific criteria for that type of decision, the Community Development Director or Department, 623 Hearing Examiner, Commission, or Council shall make the decision based on whether the application 624 complies with this Article and any regulations authorized by this Code, and will protect the public 625 health, safety, and welfare. 626 627 B. Unless otherwise indicated in a specific provision of this Article, the Community Development 628 Director, Hearing Examiner, or City Council may approve the application, deny the application, or 629 approve the application subject to conditions as stated in Section 3.1.13, below. 630 631 C. Unless otherwise stated in this Article, or unless a different condition is attached to a permit or approval, permits and approvals granted under this Article are not affected by changes in ownership 632 633 or tenancy of the property. 634
- 635 Section 3.1.13. Conditions on Approvals.
- 636
  637 A. The Community Development Director, Hearing Examiner, or City Council may attach conditions to
  638 any quasi-judicial permit or approval under this Chapter, provided the condition is required to bring
  639 the development proposed in the application into compliance with the requirements of the
  640 Comprehensive Plan or the LDC.
- 641
- B. The Community Development Director, Hearing Examiner, or City Council may also attach conditions to any quasi-judicial development permit or approval under this Code, provided the condition is necessary to minimize or ameliorate potential adverse impacts of the development proposal. Such conditions shall be reasonably related to the actual or potential impact(s) of the specific use, activity, or structure in question.
- 647

#### 648 Section 3.1.14. Appeals.

650 A. Review by the Director. Applicants for administrative permits and approvals may request a formal 651 review by the Community Development Director of staff decisions, within thirty (30) calendar days of 652 the date the administrative decision was made. The request for review shall be accompanied by any 653 relevant documents related to the review as determined by the Planning Manager or Development 654 Services Manager. The respective manager shall review the relevant standards and present a written 655 finding to the Community Development Director. The request for review shall be considered by the 656 Community Development Director within 10 days of submittal of a complete request. The Community 657 Development Director may consult with the City Attorney's office on the matter.

- The Community Development Director shall provide a written determination to affirm the staff
  decision, grant the relief requested in the review, with or without conditions, or respond to the
  applicant or respective manager for further information, documentation, or proceedings. The written
  determination by the Director shall be the final administrative decision.
- 663

670

675

680

691

- B. Appeals of Community Development Director decisions (Administrative Appeal). An applicant desiring to appeal a decision of the Community Development Director, shall, within ten (10) calendar days from the date of such decision, file a written Notice of Appeal with the Department of Community Development. The appeal shall then be heard by the Hearing Examiner at a regularly scheduled meeting, provided there is sufficient time to review the appeal and provide the required public notice. A staff or Director's recommendation is not a decision and is not appealable.
- 671 C. Appeals from decisions of the Hearing Examiner on Administrative Appeals. Any aggrieved party by a
  672 decision of the Hearing Examiner on a administrative appeal may file an appeal to the City Council
  673 within 30 days by filing a written Notice of Appeal with the City Clerk. All such appeals shall be based
  674 on the record.
- D. Appeals from decisions of the Hearing Examiner on Quasi-judicial matters. Any aggrieved party by a
   decision of the Hearing Examiner on a quasi-judicial matter may file an appeal to Circuit Court,
   provided same is done in the manner and within the time provided by Florida Rules of Appellate
   Procedure.
- E. Appeals from decisions of the City Council. An action to review any decision of the City Council under these regulations may be taken by any person or persons aggrieved by such decision by presenting to the Circuit Court a petition for issuance of a Writ of Certiorari, duly certified, setting forth that such decision is illegal, in whole or in part, certifying the grounds of the illegality, provided same is done in the manner and within the time provided by Florida Rules of Appellate Procedure.
- 686
  687 F. Stay of proceedings. An appeal shall stay all proceedings in the matter appealed from until the final disposition of the appeal by the City Council or Hearing Examiner. The pendency of an appeal shall toll all time periods applicable to the decision which is subject to appeal until final disposition of the appeal by the City Council or Hearing Examiner with regard to the appeal.
- 692 G. Record. The record to be considered in the appeal shall include any application, exhibits, appeal 693 papers, written objections, waivers, or consents considered by staff, the Hearing Examiner, or City

694 Council, as well as transcripts and recordings taken at a public hearing, the Hearing Examiner or City 695 Council minutes, and resolutions or ordinances showing the decision or action being appealed. The 696 record shall also include the record made as a result of any prior applications for development 697 approval on the same property. The City Clerk shall identify all exhibits used at the hearing. All exhibits 698 so identified or introduced shall be a part of the City record.

- A. General Requirements for all permit applications.
- Applications for permits or approvals shall be submitted with forms supplied by the Department and any required supporting documentation, plans, or materials required by this Code or specified in the application form(s).
- 710 2. Applications shall include any required fee(s) as established by the City Council.
- 712 3. Incomplete applications will not be accepted.
- 714 Before any use of land, building, or structure is established or any established use of land, building, 715 or structure is changed to a different use than that identified in the previously-issued certificate of use under the prior LUDR, a certificate of zoning compliance under this code, or a business tax receipt 716 717 for the property, the person seeking to establish the use must obtain a certificate of zoning compliance. Failure to secure a certificate of zoning compliance before establishing a use of land, 718 719 building, or structure or before changing the use of the property from the use recognized in a duly-720 issued certificate of use under the prior LUDR or a certificate of zoning compliance under this Code to another use, shall be a violation of this Code, and punishable as such. 721
- B. Withdrawal of applications. An applicant may withdraw an application at any time by submitting a
   letter of request to DCD or providing testimony of the requested withdrawal in a public hearing.
- 726 C. Effective date. All permits shall take effect on the day the permit is issued or an approval granted.
- 727
  728 D. Reliance on permits during pendency of appeals. Any action(s) taken by a permittee during the
  729 pendency of an administrative or quasi-judicial appeal shall be at the sole risk of the permittee.

# CHAPTER 3. SPECIFIC REVIEW PROCEDURES - ADMINISTRATIVE PERMITS AND APPROVALS

732

734

- 733 Section 3.3.1. Zoning Verification Letter or Flood Verification Letter.
- 735 A. Purpose and Intent.
- Zoning Verification Letter. To provide an official determination of the zoning of specific property

739 2. Flood Zone Verification Letter. To provide an official determination of the FEMA Flood zone, as 740 shown on the Flood Insurance Rate Map (FIRM) for specific property. 741 742 B. Review Criteria. 743 744 1. The Department will review the applicable City records, maps, and any supporting information 745 and issue a Zoning or Flood Zone verification letter. 746 747 2. Verification letters are valid for the date upon which they are issued and may be subject to 748 change. 749 750 Section 3.3.2. Certificate of Zoning Compliance. 751 752 A. Purpose and Intent. 753 754 1. To determine whether a proposed activity or use is permitted in the zoning district of the property in question, prior to application for a building or site development permit. 755 756 757 2. To determine whether all structures and site development requirements (e.g., building setbacks, 758 parking requirements, etc.) are in compliance with the requirements of this Code prior to 759 application for or review of a building or site development permit. 760 Miscellaneous certificates of zoning compliance. The Community Development Director is authorized 761 to approve, approve with conditions, or deny a certificate of zoning compliance for the following 762 763 buildings, structures, improvements and installations: 764 765 a. Above ground pools that contain water over 24 inches deep; 766 767 b. Agricultural or farm buildings and non-habitable structures on A, Agriculture zoned sites; 768 c. Canopy carports, canopies, and other fabric covered framework on residential properties; 769 770 771 d. Chickee huts constructed by Miccosukee or Seminole Indians; 772 773 e. Chain-link fences, picket fences, ornamental iron fences, and other fences installed on residential 774 property that are deemed non-wind resistant; provided, however, any pool safety barrier fence 775 and any fence with concrete columns shall require a building permit; 776 777 f. Decorative reflective pools and fishponds that contain water less than 24 inches deep, that contain 778 less than 250 square feet in area, and contain less than 2,250 gallons in volume; 779 780 g. Decorative garden-type water fountains and other similar hardscape features; 781 782 h. Portable mini-storage unit, subject to the conditions and limitations of contained in Article 5; 783 784 i. Donation bins, recycling bins, mobile medical, and professional units in accordance with Article 5;

785			and
786			
787			j. Anchoring, mooring, docking, or storage of a houseboat.
788			
789	C.	Re	view Criteria.
790			
791		1.	To determine whether the proposed use is a permitted use, a conditional use, or a special
792			exception under this code.
793			
794		2.	Submittals will be reviewed for compliance with applicable code requirements (e.g., parking,
795			setbacks, conditional use criteria, conditions of approval, etc.)
796			
797	D.	Spe	ecific Requirements for Certificates of Zoning Compliance.
798		•	
799		1.	Posting required. The original certificate of zoning compliance shall be posted in a conspicuous
800			location accessible to the public on the business premises at all times.
801			
802		2.	Revocation. The Community Development Director shall notify the holder of any certificate of zoning
803			compliance, in writing, of the City's intent to revoke a certificate of zoning compliance for any of the
804			following reasons:
805			5
806			a. The City has reasonable grounds to believe that the premises are being used in a manner that is
807			inconsistent with, or contrary to, the provisions of the City Code or any other applicable code or
808			statute.
809			
810			b. In the event of a conviction of any owner, operator, manager, supervisor, or any employee acting
811			at the direction or with the knowledge of the owner, operator, manager, or supervisor, by a court
812			of competent jurisdiction, for the violation of any criminal statute committed in conjunction with
813			the business operation.
814			
815			c. It has been ascertained that the holder of the certificate of zoning compliance falsified
816			information on the application for the certificate of zoning compliance.
817			
818			d. The holder of the certificate of zoning compliance, or the designated manager, operator, or
819			supervisor, refuses to permit an authorized law enforcement officer or code enforcement officer
820			to inspect the premises during normal business hours for the purpose of investigating a
821			complaint which has been filed against the business operation.
822			
823	Ε.	No	tice of revocation. When a notice of revocation is issued it shall state the following:
824			
825		ΤН	E HOLDER OF THE CERTIFICATE OF ZONING COMPLIANCE SHALL HAVE TEN (10) DAYS FROM THE
826			TE OF THIS NOTIFICATION TO EITHER BRING THE PREMISES INTO COMPLIANCE OR TO REQUEST A
827		HE	ARING, IN WRITING, BEFORE THE SPECIAL MAGISTRATE.
828			

829 830 831 832		OF	THE VIOLATION IS NOT CURED OR IF NO WRITTEN REQUEST FOR A HEARING IS RECEIVED BY THE CITY CAPE CORAL WITHIN TEN (10) DAYS OF THE DATE OF THIS NOTIFICATION BY THE CERTIFICATE LDER, THE CERTIFICATE OF ZONING COMPLIANCE SHALL BE CONSIDERED REVOKED.
833 834 835 836	F.	City	y pending hearing. If the holder of the certificate of zoning compliance requests a hearing before the y Council, the certificate of zoning compliance shall remain in effect during the pendency of the action fore the City Council.
837	Sec	tion	3.3.3. Administrative Interpretations and Similar Use Determinations.
838 839	A.	Pur	pose and Intent.
840 841 842		1.	To determine whether a proposed use, activity, or site design complies with comprehensive plan.
843 844		2.	To interpret specific comprehensive plan policies.
845 846		3.	To interpret whether a proposed use, activity, or site "design" complies with the LDC.
847 848 849		4.	To determine how specific code requirements may apply to a site or a development proposal when application of such requirements is not explicitly set forth in the LDC.
850 851		5.	To interpret the application of conditions of approval.
852 853 854		6.	To determine whether a proposed use that is not otherwise classified as a permitted, permitted with special regulations, conditional, or special exception use in a zoning district or is not currently defined in this code may classified as a similar use.
855 856 857	В.	Re۱	view Criteria.
857 858 859 860		1.	To determine whether a proposed use activity or site design complies with specific provisions of the comprehensive plan and is in keeping with the spirit and intent of the comprehensive plan.
861 862		2.	Consistency with LDC.
863 864		3.	Whether the proposed use or activity complies with DCD policies and procedures.
865 866	C.	Sim	nilar Use Determinations.
867 868 869 870		1.	Interpretation of Similar Uses. Notwithstanding the requirements of Section 4.4.D., the Director may determine that a specific proposed use may be allowed as a permitted, permitted with specific regulations, conditional, or special exception use in a specific zoning district(s).
870 871 872		2.	Similar Use Determination Process.
873 874			a. A similar use determination may be issued if all of the following findings can be made:

<ul> <li>iii. The proposed use is consistent with the goals, objectives, and policies of the Comprehensive Plan; and</li> <li>iv. The proposed use is not listed a permitted, permitted with specific regulations, conditional, or special exception use in another zoning district.</li> <li>b. 1. To provide standards for the split and combination of lots and tax parcels along existing platted
899 lot or parcel lines.
900
901 2. To provide standards for the split and combination of lots or tax parcels that do not require a
902 replat.
903
3. To provide for a one time split of property when the lot split or combine does not require approva
905 as a new subdivision plat or replat.
907 4. This section shall not apply to unrecorded subdivisions.
908 909 B. General Requirements
•
910
<ol> <li>All divisions of land in the City shall occur only as a new subdivision plat, a replat, or a lot split</li> <li>The requirements for subdivisions and replats are set forth in Article 10 of this Code. A lot split</li> </ol>
913 that does not meet the requirements of this chapter is deemed a subdivision or a replat and shal
914 be defined and processed as set forth in Article 10.
915
916 2. No lot split shall be recognized by the City, no lot that is part of a lot split shall be sold, and no
917 building permit shall be issued unless the lot split has been approved by the City prior to recording
918 in accordance with the requirements of this Article.
919
920 C. Review Criteria and Standards

921			
922		1.	Whether the lot split or combine creates nonconforming lots and structures.
923			
924		2.	The lot split or combine shall not cause marine improvements to become nonconforming for
925			setbacks or any other standards regarding such structures.
926			
927		3.	Ensure that the lot split or combine does not create split zoning on a parcel.
928			
929		4.	The newly configured lots parcels must have at least twenty-five feet (25') of frontage on an
930			existing right-of-way, private road, canal, lake, basin, or river. The minimum lot width of the
931			zoning district must be met when measured at the front or rear setback, where applicable.
932			
933		5.	The newly created parcels shall not result in private utility lines crossing property lines.
934			
935		6.	A survey sketch prepared by a professional surveyor and mapper (PSM) indicating the legal
936			description of the parent parcel, boundaries, dimensions, easements, restrictions or agreements
937			affecting the property, rights-of-way, utilities, location of existing buildings, and other pertinent
938			information including wetland boundaries and location of specimen and historic trees. The survey
939			shall be required to be signed, sealed, dated, and certified to the City.
940			
941		7.	Approval and recording. The Community Development Department shall review the proposed lot
942			split for compliance with the criteria listed in this subsection and Article 10, Subdivisions. Once
943			approved the applicant may proceed with the lot split and record the lot split with the Lee County
944			Property Appraiser. Approval shall expire within one (1) year of issuance if not recorded.
945			
946	Sec	tion	3.3.5. Conditional Uses.
947			
948	Α.	Pu	rpose and Intent.
949			
950		1.	To provide standards and criteria for review and approval of specified conditional uses for a
951			specific site.
952			
953		2.	To provide reasonable limitations or special conditions for conditional uses, in order to address,
954			minimize, or ameliorate potential impacts of the use on surrounding property and for the
955			protection of the public health, safety, and welfare.
956	_	_	
957	Β.	Ger	neral Requirements. Proposed conditional uses must meet the following requirements:

		n 3.3.6. Administrative Deviations.		
Α.		rpose and Intent. To grant relief from strict application of LDC requirements to allow minor viations.		
В.	Sco	ope. Administrative Deviations may be granted for the following:		
	1.	Setback requirements where the setback is not decreased by more than 10% in the applicable zoning district and the encroachment does not extend into an easement, right-of-way, or is an encroachment over the property line for a zero-lot line site.		
	2.	Reduction in the overall required parking by 5%.		
	3.	Landscaping or buffers. Up to a 10 % reduction in the width of required buffers or the required number of trees and shrubs.		
	4.	Preservation of Vegetation. A deviation from the following regulations to accommodate the		
		preservation of existing native specimen tree(s):		
		a. Up to five (5) percent of a required setback; or		
		b. Up to five (5) percent of the required parking spaces.		
	5.	Minor sign deviations as set forth in Article 6 of this code.		
	6.	Maximum lot coverage of impervious surfaces. Up to a 10% increase in the maximum		
	•	percentage of lot coverage by impervious surfaces, provided the applicant submits calculations		
		by a Florida Registered Professional Engineer showing that the conveyance system for the		
		contributing drainage basin can accommodate the additional stormwater run-off from greater		
		than 60% impervious. A property owner may also add retention storage on-site to compensate		
		for the additional runoff in situations where they propose to exceed 60% impervious surfaces.		
		All such calculations and drainage plans must be approved by the City Public Works Department		
		prior to issuance of any building permits.		
C.	Re	view Criteria. An Administrative Deviation may be approved based on the following criteria:		
		The summary deviation will not apply in deviate such that is inconsistent with the internal d

# Section 3.3.7. Site Development and Subdivision Construction Plans.

D. Effective date of approval. A deviation shall take effect upon approval.

1022 A. Applicability. The procedures contained in this Section are applicable to all projects involving land 1023 development, including Site Development Plans (SDP) for individual sites, Subdivision Construction 1024 Plans (SCP), and sites without structures such as parking lots. Also included are projects which involve 1025 the construction of any facility, the expansion of a site through acquisition or lease, alteration or 1026 conversion of an existing site or structures, or the change of use of a site or structure where the site or 1027 structure does not meet the current standards or criteria of these regulations. The provisions of this 1028 Section, where appropriate, are to be applied to on-site and off-site development activity. No land 1029 development activity shall commence without obtaining the appropriate approvals and permits 1030 required by this code.

E. If an Administrative Deviation is not approved, the applicant may subsequently apply for a Variance.

- 1032 B. Exceptions. The requirements of this section do not apply to:
  - 1. Single-family dwellings; or
  - 2. Duplex dwellings on existing platted lots or parcels.
- C. Plan Preparation. A professional engineer registered in the state of Florida shall design all required improvements such as streets, drainage systems, water and sewage facilities, etc. All plans, drawings, reports, and calculations shall be prepared, signed, and sealed by the appropriate licensed professional, such as engineers, architects, landscape architects, professional surveyors and mappers, or attorneys, registered in the state of Florida. Other specialized consultants, such as environmental consultants, structural engineers, archaeologists, etc., may be required to assist in the preparation of the plans, drawings, reports, or other documents required for application submittals.
- 1045
  1046 D. Review Process. The application review and approval process follows the administrative review
  1047 procedure as established in Sections 3.1.4 through 3.1.8 of this Article.
- 1049 E. Criteria. The Development Services Manager may approve, approve with conditions, or deny the1050 application, after consideration and review of the following:
- 10521. The development, as proposed, conforms to the comprehensive plan and is consistent with the1053recommendations of any applicable PUD Master Concept Plan, Preliminary Subdivision Plan, or1054master plans which have been approved or accepted by the City Council;
- 10562. The proposed development plans, landscape plans, engineering plans, lighting plans, and other1057required plans conform or will conform with all applicable City codes, the Engineering Design1058Standards, and design standards as set forth in this code;

- 1059 1060 3. The development will efficiently use or not unduly burden drainage, water, sewer, solid waste 1061 disposal, education, recreation, or other necessary public facilities which have been constructed 1062 or planned and budgeted for construction in the area; 1063 1064 4. The development provides sufficient on-site storm water management improvements to meet 1065 state water quality and flood protection standards; 1066 1067 5. The development will efficiently use or not unduly burden or affect public transportation facilities, 1068 including mass transit, public streets, roads, and highways which have been planned and 1069 budgeted for construction in the area, and if the development is or will be accessible by private or public roads, streets, or highways; and 1070 1071 6. The development provides necessary and adequate vehicular circulation, pedestrian access, 1072 1073 ingress and egress, and is configured in a manner to minimize hazards and impacts on adjacent 1074 properties and adjacent rights-of-way. 1075 1076 7. Projects subject to SDP review comprised of 2 or more parcels with unique strap numbers must 1077 be combined into a single parcel with one strap number prior to issuance of the Site Development 1078 Permit. 1079 1080 8. Projects subject to SDP review required to provide easements shall provide executed copies of 1081 staff approved easements to the City prior to issuance of the Site Development Permit. The City 1082 may require such easements be accepted by City Council and recorded in the public records prior 1083 to issuance of the Site Development Permit. 1084 1085 9. Projects that involve a vacation of plat or release of easement may have review or approval withheld until such vacation or release of easement has been approved or recorded, as 1086 1087 determined by the Director. 1088 10. The City may attach any reasonable conditions, safeguards, limitations, or requirements to the 1089 1090 approval of a plan which are found necessary and consistent with the review to effectuate the 1091 purpose of this section and to carry out the purpose of this Code and the Comprehensive Plan. 1092 F. Plats. If the development is a subdivision, a plat meeting the requirements of F.S. Ch. 177, Part 1 and 1093 1094 the City of Cape Coral Technical Requirements for Plat Approval, which are hereby incorporated by 1095 reference, must be submitted prior to approval of Subdivision Construction Plans. The preliminary plat submittal is not required until after the first round of SCP sufficiency comments, though it may 1096 be submitted earlier. Refer to Article 10 Subdivisions. 1097 1098 1099 G. Plan Approval. Upon successfully addressing departmental comments, the Development Services
- Manger shall approve the application provided all departmental reviewers have accepted the plans or accepted the plans with conditions. Upon receiving plan approval and meeting any applicable conditions, the issuance of a permit shall be authorization for the applicant to begin those construction activities specifically covered by the plan approval. Construction activities shall not occur before all applicable state and federal permits have also been obtained.

1105 1106 H. Effect of Plan Approval. Site Development Plans and Subdivision Construction Plans are valid for 1107 two years from the date of approval. If a development permit to construct the improvements has not 1108 been obtained prior to the expiration date, the approval expires and becomes null and void. An 1109 applicant may apply for a one-year extension for good cause. Such an extension may be granted for any plan approved after the effective date of this ordinance and two years prior to adoption. The 1110 1111 extension request must be filed prior to the expiration date of plan approval. If the project is within a PDP, a PUD, or a phased development, the expiration of plan approvals may differ, as established in 1112 1113 the original approval. See Phased Projects Section 3.3.7.T for addition information regarding expiration 1114 of permits and plan approvals in phased projects. 1115 I. Engineer's Opinions of Probable Construction Costs. The City shall review and approve all cost 1116 1117 opinions prior to acceptance of same. 1118 1119 1. Inspection fees applied to development permits are based on a percentage of the estimated 1120 construction cost, of Developer installed improvement, to be turned over to the City for ownership 1121 and maintenance. 1122 1123 2. Opinions of Probable Construction Costs shall be prepared, signed, and sealed by the professional engineer of record. 1124 1125 1126 3. Cost opinions shall be a unit quantity itemized estimate of the required improvements including: 1127 mobilization, material and other testing, survey stake out, and a 10% contingency. Lump sums are only to be used for items typically not contracted as unit price items. 1128 1129 1130 4. Subdivisions. Cost opinions for subdivision improvements are to be provided as required in Article 1131 10 of this code. The cost of improvements required to support a subdivision that will be turned 1132 over to the City for ownership and maintenance will be utilized in determining inspection fees for 1133 the subdivision infrastructure permit. Cost opinions for assuring the completion of subdivision 1134 improvements shall include, in addition to the items listed above, the cost of providing electrical service for lift stations, pump stations, or other components that may require electric service to 1135 function and setting PCP's. upon completion of construction. 1136 1137 1138 J. Amendments. Plan amendments include changes to projects which impact multiple aspects of the 1139 development, may affect multiple plans, and will require multiple departmental reviews to evaluate the proposed amendment to the plan(s). 1140 1141 1142 1. The amendment process may not be used to substantively modify the scheme of development as originally approved under an approved SDP or SCP. 1143 1144 2. Proposed amendments that impact a PDP or PUD approval criteria or conditions must receive 1145 1146 approval of an amendment to the PDP or PUD prior to receiving SDP or SCP approval. 1147 3. Amendments may apply to projects that are currently under review, projects under construction 1148 1149 or phased projects that have yet to be completed. 1150

- 11514. The applicant shall submit a letter of intent, the applicable fee, the amended plan(s) and any other1152documentation required to review the proposed amendment.
- 11545. The Development Services Manger shall determine if the proposed changes to the plan can be1155processed as an amendment, qualify for a lesser review process or requires a greater review1156process.
- K. Revisions. Revisions to an approved plan while under construction which do not increase the gross square footage of a building or adversely impact compliance with the approved plan, and would not alter the required infrastructure and improvements necessary to serve the project, may be approved in writing by the Development Services Manager provided such revisions fully conform to all existing City regulations. The Development Services Manager will determine if the revision requires an approved plan revision or if the revision can be shown on the Record Drawings.
- 1165 L. Limited Review. A Limited SDP Review for a new improvement or alteration of existing improvements to an approved project may be requested. Limited Reviews are for proposed improvements which do 1166 1167 not substantially affect projects minimum technical requirements of this Code or do not require a 1168 review by three or more of the following review disciplines: zoning, planning transportation, drainage, 1169 fire, utilities and landscaping. Changes that exceed the criteria for the scope of a Limited SDP review 1170 as specified in this subsection or, as determined by the Development Services Manager, may be 1171 processed as an amendment or a full SDP review in accordance with this section. Applications 1172 reviewed under this process will be reviewed for compliance with the following general criteria:
- 1174 1. The development must have no significant adverse effect upon surrounding land uses;
- 1176 2. The development must have no significant adverse effect upon public facilities in the area;
- 1178 3. The development must not adversely affect the environmental quality of the area; and
  - 4. The development proposal must be consistent with the City Comprehensive Plan.
- M. Site Improvement Permit. A permit review of minor changes to an existing development which does 1182 not require a separate Site Development Plan review. This permit may be utilized when the existing 1183 1184 project is in full compliance with an approved plan or the site proposed for a minor change meets the following criteria: Any changes to an approved Site Plan project or SDP will not increase density, 1185 1186 parking requirements, water or sewer usage, or enlarge a structure for human occupancy or assembly 1187 by more than 5% of the existing approved plan. For sites lawfully developed without Site Plan review, 1188 the 5% exception may be applied if the applicant submits all of the information required under SDP 1189 review. Determination of the 5% shall be cumulative based on the originally approved development. 1190
- 1191 1. All infrastructure exists on the site to service the site;
- 1193 2. Engineering is not required for the proposed change;
- 1195 3. Parking meets all parking code requirements;

- 3. If the proposed construction or alteration fails to conform, he shall refuse to issue the permit and shall deliver written notice to the applicant stating the reason for the refusal.
- D. Effect of Approval, Expiration, and Extensions. A site development permit shall expire six months from the date of issuance unless the permitted improvements are under construction and have passed a required inspection within the 90 days prior to the expiration of the permit. Erosion control inspections will not extend the expiration date. A permit may be extended for an additional 90 days.
   Failure to either pass a required inspection or request a permit extension within the 90-day period provided will result in expiration of the permit. Thereafter, a new permit will be required to continue construction.
- E. Commencement of Construction. After approval of the plans, the applicant may construct the required improvements, subject to obtaining all required permits. The Development Services Manager shall be notified in advance of the date of commencement of such construction and the applicant shall schedule a preconstruction meeting where representatives of the developer, the City, contractors, and franchise utilities shall discuss the construction of the planned improvements. No work shall take place prior to the preconstruction meeting.
- F. Inspections and Certification of Compliance. The developer shall retain the engineer of record or another professional engineer registered in the state of Florida and other professionals, if needed, to inspect the construction progress and certify the construction of all required improvements such as streets, parking areas, drainage structures, drainage systems, water and sewer facilities, landscaping and buffers, and all other improvements, for substantial compliance with the approved plans.
- G. Right to enter. The Development Services Manager or duly authorized representative shall have the
   right to enter upon the property for the purpose of inspecting the quality of materials and
   workmanship and reviewing the construction of required improvements during the progress of such
   construction.
- 1275 H. Periodic inspection required; correction of deficiencies. The Development Services Manager or his 1276 designated engineering and utility inspectors shall periodically inspect all phases of construction of 1277 streets, drainage improvements and utility installations including those improvements which are not 1278 to be dedicated to the public but are subject to this chapter. The Development Services Manager will 1279 immediately call to the attention of the developer, or the developer's engineer, any nonconforming 1280 work or deficiencies in the work. Correction of deficiencies in the work is the responsibility of the 1281 developer. It is the responsibility of the developer's contractor to schedule the appropriate 1282 inspections as identified on the permit.
- 1283
- Stop work orders. The Development Services Manager shall have authority to stop work if improvements not authorized in the approved plan are being installed or upon failure of the applicant or his engineer to coordinate the construction of the required improvements so as to minimize activities which may have adverse impacts on surrounding property.
- 1288

1289 1. Authority. Whenever the Development Services Manger finds any work regulated by this code being 1290 performed in a manner either contrary to the provisions of this code or dangerous or unsafe, the 1291 Development Services Manager is authorized to issue a stop work order. In addition, the Development 1292 Services Manager is authorized to issue a stop work order for the failure to contain or remove 1293 construction refuse as required in the Code of Ordinances, Chapter 9, Health and Sanitation.

- Issuance. The stop work order shall be in writing and shall be given to the owner of the property involved, to the owner's agent, or to the person doing the work. Upon issuance of a stop work order, all work on the construction site shall immediately cease. The stop work order shall state the reason for the order, and the conditions under which the cited work will be permitted to resume.
- 13003.Unlawful continuance. Any person who shall continue any work after having been served with a stop1301work order, except such work as that person is directed to perform to remove a violation or unsafe1302condition, shall be subject to penalties as prescribed by law.
- J. Final inspections by Engineer of Record. Upon completion of all improvements required under the 1304 approved plans or phase thereof, an inspection must be performed by the developer's engineer and 1305 1306 the landscape architect. Upon finding the development to be completed and in substantial 1307 compliance with the approved plans, the engineer and landscape architect must each submit a letter 1308 of substantial compliance along with record drawings to the City. No final inspection will be performed 1309 by the City until the letter(s) of substantial compliance and record drawings have been accepted. The 1310 letter(s) of substantial compliance may include a description of minor changes as shown on the record 1311 drawings. Only minor changes which do not substantially affect the technical requirements of the approved plans and this code are to be indicated on the Record Drawings. 1312
- 1314 1. Letters of substantial compliance shall be digitally signed and sealed in PDF format. Substantial 1315 compliance requires that the development, as determined by an on-site inspection by a 1316 professional engineer, is completed to all the specifications of the approved plans and that any 1317 deviation between the approved plans and actual as-built construction is so inconsequential that, 1318 on the basis of accepted engineering practices, it is not significant enough to be shown on the 1319 Record Drawings.
- 13212. The respective professionals shall prepare and submit to the City digitally signed and sealed Record1322Drawings, in PDF format, of the completed project improvements. Record drawings shall be provided1323for the complete civil engineering and landscape features of the project.
- 13253. Record drawings shall be the complete set of approved plans which show strikethrough and markup of1326the as-built information obtained from direct field observation, survey, or contractor "as-built"1327drawings. Topographic surveys will not be accepted.
- 1329 K. Final Inspections by the City. Upon acceptance of the letter of substantial compliance and record1330 drawings, the Development Services Manager will perform final inspections.
- 13321. If the final inspections reveal that the development or phase is in substantial compliance with the<br/>approved plans, a certificate of completion will be issued. A certificate of completion is required<br/>prior to the issuance of a certificate of occupancy from the building division for any buildings

- associated with the project.
- 1336
  1337
  2. If the final inspections reveal that the development or phase thereof is not in substantial compliance with the approved plans, a list of all deviations will be forwarded to the engineer. All deviations must be corrected prior to reinspection. A new letter of substantial compliance may be required prior to reinspection. Reinspection fees will be charged for each reinspection in accordance with the adopted fee schedule and must be paid prior to receiving a Certificate of 1342
- 13443. Projects involving permits or approvals issues by County, State or Federal agencies shall provide1345evidence that the respective agencies have approved, accepted or certified that the improvements or1346work subject to their review have been satisfactorily completed and are ready for use or to be placed1347into service. The City may withhold final Certifications of Completion or Occupancy pending receipt of1348such verification.
- L. Turnover of developer installed improvements. Projects that include construction of improvements that will
   be turned over to the City for ownership and maintenance must also provide a complete package of
   turnover documents, acceptable to the City, as required by the Director.
  - Improvements shall be conveyed to the City by bill of sale in a form satisfactory to the City Attorney, together with such other evidence as may be required by the City that the improvements proposed to be transferred to the City are free of all liens and encumbrances.
- 13582. Turnover documents must be provided to the Development Services Manager with the submittal of<br/>the Certification of Substantial Completion and Record Drawings.
- Improvements constructed pursuant to this Section may not be placed into service or otherwise
   utilized until the required certificate of compliance has been issued.
- 1364 M. Ongoing compliance. A development project must remain in compliance with the approved SDP or SCP, including all conditions, after a letter of substantial compliance, certificate of compliance, or 1365 certificate of occupancy has been issued by the City. This requirement applies to any property covered 1366 1367 by the SDP or SCP, whether or not it continues to be owned by the original developer. For purposes 1368 of determining compliance, the SDP or SCP as approved and constructed, or subsequently amended in accordance with this section, will control. The standards applicable to review for compliance 1369 1370 purposes will be based upon the regulations in effect at the time the plan approval, any applicable amendment, or revision was constructed. 1371

- N. Violation of an approved SDP or SCP.
- 13751. Where construction is commenced for improvements not authorized by a SDP or SCP, the<br/>applicant will be issued a stop work order until an application to amend or correct the respective<br/>plan approval has been submitted and approved.
- 1378

- 13792. An application to amend or correct a SDP or SCP after construction has commenced in violation1380of the original approval will be charged an application fee equal to four times the original1381application base fee.
- 13833. Submittal of the application and payment of the application fee does not protect the applicant1384from the remedies described in Article 1, Section 1-6 of this Code. Any of these forms of relief can1385be sought or maintained by the City until the problem is abated.
  - 4. Failure to maintain a development in compliance with a SDP or SCP issued and approved by a certificate of completion constitutes a violation of this Code.
- 1390 O. Phased Projects. Development projects may be split into phases to accommodate the development1391 plans and schedules of the developer.
- 13931.Site Development Plans. The phasing plan shall show all required facilities, infrastructure, and1394buildings, if applicable, on the entire parcel that is covered by the SDP approval.
- 1396a. If more than one building is covered by the SDP and the developer does not intend to1397receive certificates of occupancy (CO) for all of the buildings at one time, a separate Site1398Development Permit will be required for each build or builds to receive a CO apart from1399the other buildings.
- 1401b. A certificate of compliance for streets, utilities, parking areas, and drainage serving each1402building(s) will be required from the engineer of record prior to the City performing final1403inspection and closing permit and prior to receiving a certificate of occupancy from the1404Building Division.
  - c. If a final inspection is requested for only a portion of a development, that portion must be an approved phase of the development in accordance with the approved SDP.
- 14092.Subdivision Construction Plans. Phasing of the SCP shall be in accordance with the PSP1410approval as established in Article 10.

1417 B. General Standards.

- 1. Only those uses that are listed below or otherwise approved as temporary uses in Article 5, may be allowed as temporary uses.
- 14222. Each temporary use shall be evaluated by the Community Development Department for1423compliance with the standards and conditions set forth in the LDC and the applicable zoning1424district. Special event uses are evaluated by the Parks and Recreation Department.

1425 1426 1427		3.	A temporary use permit shall take effect at the time of permit issuance and is in effect only for the specific time-period established in the temporary use approval.
1428 1429 1430 1431	C.	Dir	view Criteria. When considering an application for a temporary use, the Community Development ector or Parks and Recreation Director, as appropriate, shall consider whether and the extent to ich:
1432 1433 1434	1	•	The temporary use is consistent with the purposes, goals, objectives, and policies of the Comprehensive Plan;
1435 1436 1437 1438	2	•	The temporary use complies with all relevant and appropriate portions of Article 5, Development Standards;
1439 1440	3		The temporary use is not incompatible with the character of the immediate surrounding area;
1441 1442 1443	4		The design, duration, and hours of operation of the temporary use minimizes adverse impacts on nearby properties, including visual and noise impacts;
1444 1445	5		Whether the use complies with all relevant standards related to health, sanitation, and transportation;
1446 1447 1448	6		The temporary use complies with all other applicable provisions of this Code;
1449 1450	7		Any permanent structures used in conjunction with a temporary use must comply with the requirement for adequate public facilities referenced in the comprehensive plan; and
1451 1452 1453	8		Whether any public safety detail will be necessary.
1455 1455	D.	Allo	owable temporary uses: The following temporary use shall require a permit:
1456 1457		1.	Temporary storage.
1458 1459		2.	Seasonal sales.
1460 1461		3.	Construction trailers.
1462 1463			Construction staging areas and post disaster debris staging.
1464 1465			Temporary sales offices.
1466 1467 1468		6. 7	Temporary habitable structures.
1468 1469 1470		7.	Special Events.

1471 1472	Sec	tion	3.3.10. Temporary storage.
1473 1474	A.	Ter	nporary storage containers are prohibited in any zoning district of the city, except as follows:
1475 1476 1477		1.	Residential zoning districts. No more than one temporary storage container per dwelling unit is permitted in residential zoning districts.
1478 1479 1480 1481		2.	Non-residential zoning districts. No more than two temporary storage containers are permitted in non-residential zoning districts. In the case of multi-tenant non-residential properties, each business or tenant may have a temporary storage container.
1482 1483 1484 1485 1486		3.	This section is not intended to restrict the storage or location of temporary storage containers on the premises of a business which is lawfully engaged in the sale, rental, or distribution of such containers so long as the containers are on the property of such business as "merchandise" and not for temporary storage of items or goods.
1487 1488 1489 1490 1491 1492		4.	The provisions of this section shall not apply to prohibit or restrict the location of temporary storage containers on any property for which a valid City of Cape Coral building permit has been issued and is in effect provided that the construction on the property has not been abandoned or allowed to lie idle in violation of Chapter 9 of the City of Cape Coral Code of Ordinances.
1492 1493 1494	В.	Gei	neral Requirements:
1495 1496 1497 1498		1.	No temporary storage container may be placed in one or more parking spaces if the required number of parking spaces is reduced below the minimum number of spaces required for the site.
1499 1500 1501		2.	No temporary storage container shall block or reduce access to fire lane(s), handicapped parking area(s), or drainage facilities or structures, including swales and catch basins.
1501 1502 1503 1504		3.	Temporary storage containers shall not be placed in an easement or in any area designated as a buffer.
1505 1506 1507		4.	The maximum size of temporary storage containers shall not exceed ten feet in width, ten feet in height, or 40 feet in length.
1508 1509 1510 1511 1512 1513 1514		5.	Non-residential zoning districts. Temporary storage container permits are valid for 30 days. A maximum of two temporary storage container permits may be issued for a property or, in the case of multi-use or multi-unit properties, for each business or commercial enterprise located on the property in any calendar year. Temporary container permits may run consecutively without any minimum period required to elapse between the issuance of permits.
1515 1516		6.	Residential zoning districts. Temporary storage container permits are valid for seven days. A maximum of two temporary storage container permits may be issued in any calendar year.

1517Temporary container permits may run consecutively without any minimum period required1518to elapse between the issuance of permits. No dwelling unit shall utilize a temporary storage1519container for more than 14 days in any 12-month period.

- A. Except as provided herein, temporary outdoor seasonal sales of merchandise are prohibited.
   Seasonal sales of pumpkins, Christmas trees, or fireworks are permitted when conducted or
   sponsored by governmental agencies, nonprofits, charitable or religious organizations, sports,
   educational groups, social groups such as garden clubs, and fraternities or sororities. Seasonal sales
   of Girl Scout cookies and similar sales are permitted.
- B. Permitted seasonal fundraising events involving outdoor sales of merchandise shall meet the appropriate requirements of the Building Code, Electrical Code, Fire (Life Safety) Code, and Plumbing Code, particularly regarding temporary sanitary facilities; and are prohibited unless they received all required permits in compliance with this subsection. Sales of pumpkins, Christmas trees, or fireworks shall be permitted in all zoning districts except R1, RML, RE, MX7, and PV, . With the prior approval of the City, such sales may be permitted in accordance with the following limitations and requirements:
- 1537 1. Pumpkins may be sold from October 1 through November 5;
- 1539 2. Christmas trees may be sold from November 15 through January 1;
  - 3. Fireworks may be sold from December 15 through January 1 and from June 1 through July 10;
- 15444. The hours of operation of all such seasonal sales shall be limited to 8:00 a.m. through 10:001545p.m.; and
  - 5. Seasonal sales shall comply with all location and permitting requirements specified in § 3.2.1.
- 1549 C. In the RMM zoning districts, the City may withhold approval of the seasonal sale if he or she determines that such sale would result in adverse impacts on the surrounding neighborhood.
   1551 Alternatively, the City may place condition(s) on the approval of a seasonal sale in an RMM zoning district, if such condition(s) are necessary in order to protect the surrounding neighborhood from adverse impacts which would otherwise result from the seasonal sale.

# Section 3.3.12 Construction trailers.

1556

- 1557 A. Construction trailers in residential zoning districts are subject to the following requirements.
- 15591. Construction trailers shall not be connected to potable water and sewer facilities. If the<br/>construction trailer is wired for electricity, the wiring must conform to all applicable city<br/>electric codes.
- 1562

1563		2.	The construction trailer must be removed from the site prior to issuance of a certificate of
1564			occupancy.
1565			
1566		3.	No overnight residential use shall be permitted in a construction trailer.
1567			
1568		4.	Construction trailers must comply with the setback requirements of the zoning district or the
1569			site.
1570			
1571		5.	Construction trailers shall not be larger than 200 square feet.
1572			
1573	Β.	Со	nstruction trailers in non-residential zoning districts are subject to the following
1574		req	uirements.
1575			
1576		1.	When a construction trailer is used as a temporary office, the trailer must be wired for
1577			electricity and must be connected to potable water and sewer facilities, if available. Wiring
1578			and plumbing must conform to applicable Electric and Plumbing Codes.
1579			
1580		3.	The construction trailer must be located at the construction site or an abutting site with the
1581			property owner's written permission.
1582			
1583		4.	The construction trailer must be removed from the site prior to issuance of a certificate of
1584			occupancy.
1585			
1586		5.	No overnight residential use shall be permitted in a construction trailer.
1587			
1588		6.	Construction trailers must comply with the setback requirements of the zoning district or the
1589			site.
1590			
1591	Sec	tion	3.3.13 Construction staging areas and post disaster debris staging.
1592			
1593	Α.	Cor	ntractor staging for essential public facilities. Contractor staging areas for materials used in
1594		cor	struction of essential public facilities are permitted in all zoning districts, subject to the following
1595		req	uirements:
1596			
1597		1.	The temporary staging area shall serve a project being carried out in the vicinity of the
1598			construction staging area;
1599			
1600		2.	No land clearing, removal of vegetation, or fill shall occur to accommodate the staging area;
1601			
1602		3.	All activities at the staging area shall occur between 7:00 a.m. to 7:00 p.m. Monday through
1603			Saturday only.
1604			
1605		4.	Fencing is not required but may be installed for security or screening purposes.
1606			
1607		5.	No structures other than a permitted construction trailer may be placed on the property.
1608			

1609 6. No outdoor lighting is permitted for any staging area in a residential zoning district. 1610 1611 7. No jack-hammering, grinding, or crushing of concrete, rebar, or other construction materials is 1612 permitted. 1613 1614 B. Construction staging areas. Construction staging areas are a permitted activity in all zoning districts, 1615 provided the staging area is on the same parcel where construction activity is authorized by a valid 1616 building permit. Construction staging areas on vacant, adjoining, or nearby parcels is prohibited. 1617 1618 C. Post disaster debris staging areas. Post disaster debris staging areas are allowed in all zoning 1619 districts on sites designated by the City for such activity. 1620 1621 D. Post disaster construction staging. Staging areas for post disaster reconstruction efforts are allowed in all non-residential zoning districts. Post disaster construction staging is allowed in residential 1622 1623 zoning districts as a (special exception/conditional) use. 1624 1625 Section 3.3.14 Temporary sales offices. 1626 1627 A. Temporary sales offices are mobile structures used only for the sale or lease of units within that 1628 development. For the purpose of this section, units within the development shall mean residential, non-residential, or mixed use habitable space or leasable floor area, whether 1629 1630 occupying all of a building or individual areas within a building including residential units, 1631 residential or non-residential units, individual units in a multi-unit non-residential development, or freestanding residential or non-residential structures. 1632 1633 1634 B. Requirements for a temporary sales office. The following requirements must be met prior to the 1635 approval of a temporary sales office: 1636 1637 1. Connection to sewer and water is required. If sanitary sewer and potable water are unavailable 1638 to the site, bottled water and portable sanitary facilities may be utilized until such time as sanitary sewer and potable water are available. A temporary sales office shall be connected to 1639 such facilities within 90 days of availability or within 90 days of the permitted temporary sales 1640 office, whichever is less. 1641 1642 2. The temporary sales office shall meet the setbacks of the zoning district in which it is located. 1643 1644 1645 3. A temporary sales office shall not be used as a place of habitation or abode by any person(s), and shall not be used or occupied for business, office, or other purpose(s) at any time except 1646 1647 between the hours of 7:00 a.m. and 9:00 p.m. 1648 1649 4. A minimum of three paved off-street parking spaces shall be provided for the temporary sales office. 1650 1651 1652 5. The entrance to the site on which the temporary sales office is located shall consist of a city 1653 approved driveway or construction entrance. Any impervious area added for the temporary 1654 sales office shall be subject to review and approval by the city.

1655 6. The base of any temporary sales office shall be fully obscured by landscaping and skirting. 1656 1657 Shrubs must be planted on 30-inch centers and have a minimum planted height of two feet. 1658 The type of irrigation, if applicable, must also be provided on the plan. Erosion shall be minimized and prevented to the extent practicable around any disturbed area. 1659 1660 1661 7. The maximum duration of the permit shall not exceed one year. The Director may extend 1662 permits for up to six months each, based upon factors that include: 1663 1664 a. Size of the project. 1665 1666 b. Number of lots or units in the development remaining to be sold or leased. 1667 c. Effect that the extension would have on the surrounding properties. 1668 1669 1670 d. Developer's need for an extension and efforts, if any, the developer has put forward 1671 toward completion of the development (e.g., effort to complete construction in a timely 1672 manner, delays beyond the reasonable control of the developer, etc.). 1673 8. A temporary sales office shall be removed no later than the date the development is completed 1674 or within 30 days after notice by the city that the application for development has been denied, 1675 1676 whichever is applicable. 1677 C. Permit application and submittal requirements. A permit shall be required for a temporary sales 1678 office. In order to obtain a permit for the use of a structure for a temporary sales office, the 1679 applicant shall submit the following to the Department of Community Development: 1680 1681 1. A scaled drawing of the site, identifying the location of the temporary sales office with 1682 1683 dimensions. Construction plans shall also be submitted. 1684 2. The names of the property owner and the operator of the temporary sales officer. In the 1685 event the operator is different from the property owner, written and notarized consent from 1686 1687 the property owner must be submitted. Such written consent shall be revocable. In the event 1688 such consent is revoked, the temporary sales office shall be removed within 30 days. 1689 1690 3. The length of time the temporary mobile sales office is proposed for the site. 1691 1692 4. The description of potable water and sanitary facilities that will be available for the 1693 temporary office. 1694 1695 D. Inspection by city officials. In order to ensure compliance with all applicable laws and regulations, 1696 the temporary sales office shall be held open for reasonable inspection, without court order, by 1697 employees or agents of the City of Cape Coral or any other duly authorized governmental agency. 1698 1699 1700

#### 1701 Section 3.3.15 Temporary Habitable structures.

A. Purpose and intent. The purpose of this ordinance is to provide a means by which residents, business owners, governmental agencies, and medical facilities are able to live and conduct business on the same site as their damaged structure using temporary housing and temporary business structures. When disasters result in significant destruction rendering homes and businesses uninhabitable, temporary housing and temporary business structures will provide residents and businesses with the ability to quickly resume normal activities during the restoration of their permanent structures.

1710

1702

1711 1712

1713

B. Definitions. Terms used in this subsection shall have the meanings as defined in Article 11,
 Definitions, unless the context clearly indicates or requires a different meaning.

C. Declaration of habitable structure emergency. Following a disaster, the city shall evaluate the 1714 1715 effect of the disaster on the public health, safety, and welfare. If the City Council finds that the disaster has negatively affected residential housing or business structures in the city by a 1716 1717 significant degree, the City Council may, by a majority vote, declare the existence of a habitable 1718 structure emergency. Upon the declaration of a habitable structure emergency by vote of the 1719 City Council, the provisions of this subsection shall become effective. The habitable structure 1720 emergency shall identify the disaster which created the emergency situation, and may be declared for either a specified period of time or an indefinite period of time. If the emergency is 1721 1722 for an indefinite period of time, the emergency shall continue until City Council, by a majority 1723 vote, terminates the habitable structure emergency.

1724

1730

D. Habitable structure emergencies. During a habitable structure emergency, the city will allow, in accordance with the provisions set forth herein, the use of temporary structures. Temporary residential structures and temporary business structures must be approved by the city with a temporary placement permit. Application and issuance criteria for a temporary placement permit are as set forth below.

1731 E. Temporary business structures may be used for business owners to provide a means for a business to remain open during the time the permanent business structure is being repaired or replaced. 1732 1733 Temporary business structures may be used to provide temporary facilities for governmental uses, 1734 critical public facilities, charitable, religious, or educational institutions that have been rendered uninhabitable. The regulations for temporary business structures shall apply to temporary business 1735 1736 structures used for governmental uses, critical public facilities, charitable, religious, or educational 1737 institutions. For these institutions, the habitable structure regulations shall apply; however, the 1738 Building Official may waive any regulations when strict enforcement may preclude them from 1739 carrying out their normal or emergency functions. Critical facilities shall be limited to the following: 1740

- 1. Federal, state, regional, or local government facilities;
- 1743 2. State, county, or local emergency operations centers;
- 1745 3. Police, fire, and emergency medical facilities;
- 1746

1741

1742

1747		4.	Radio and television stations;
1748			
1749		5.	Public, semi-public, and privately-owned utilities;
1750 1751 1752 1753		6.	Hospitals, emergency medical care facilities, infusion centers, dialysis centers, physician's offices; and
1755 1755 1755		7.	Nursing homes and assisted living facilities.
1756	F.	Ter	nporary placement permit. Following the declaration of a habitable structure emergency, a
1757			operty owner may apply for a temporary placement permit (TPP) to locate onsite while the
1758		•	manent structure is being repaired or rebuilt. A temporary placement permit (TPP) may be
1759		•	nsidered by the Building Official when the following criteria are met:
1760			
1761		1.	The existing permanent habitable structure has been determined to be uninhabitable as the
1762			result of a disaster by inspection of the city Building Official;
1763			
1764		2.	The property owner or occupant of a damaged structure desires to locate in a temporary
1765			residential or business structure; and
1766			
1767		3.	A habitable structure emergency must be in effect at the time of application.
1768			
1769	G.	Ap	plications for temporary placement permits.
1770			
1771		1.	Application forms and required fees.
1772			
1773		2.	The following permits are required prior to application for a TPP:
1774			
1775			a. City permits for hook-up to electric, potable water, and wastewater utilities; and
1776			
1777			b. A State Department of Health or State Department of Environmental Protection permit
1778			authorizing the connection of the temporary residence to an onsite or small domestic
1779			wastewater treatment system.
1780			
1781	Н.	Tim	ne limits. Temporary structures may be located for a period not to exceed 30 days. At the end
1782		of	that 30-day period, if no application has been filed, the temporary habitable structure must
1783		be	immediately removed from the site. If an application has been filed within the 30-day time
1784		per	iod, the temporary habitable structure may remain in place until the TPP is either approved
1785		or	denied. Once approved, the temporary habitable structure may remain in accordance with the
1786		TPF	P. If denied, the temporary structure shall be removed within five days from the date of denial.
1787			
1788	١.	Ter	ms of use of temporary habitable structures. Applicants for a temporary habitable structure
1789		sha	Il be subject to the following:
1790			
1791 1792		1.	Except as otherwise provided herein, temporary structures shall not be occupied until such time as a valid TPP has been issued and is in effect for the site.

 Connection to sanitary sewer and potable water, or onsite water and wastewater facilities, and an external electrical system are required within 20 days of issuance of the TPP.
 Inspections for such connections shall be called into the city within two days of completion of each connection. Electrical and plumbing connections must be done by electricians or plumbers licensed to do business in the City of Cape Coral.

1799	
1800	If there is no electricity to the site due to a power outage, a generator may be used. Upon
1801	restoration of electricity to the property, connection to the local power grid must be made
1802	within 24 hours of power restoration.

An application for a building permit is required within three months from the date of issuance of the TPP for temporary residential structures or within six months for temporary business structures. Failure to apply for a building permit within the required time shall deem the TPP revoked pursuant.

- If a building permit application has not been submitted within the required time-frames, an applicant may petition City Council for relief from the time restrictions of this subsection.
  City Council shall determine whether the failure to apply for a building permit is due to good cause shown by the applicant. If City Council denies the request for relief, the temporary structure shall be removed from the site within ten days from the date of denial, or at the end of the initial three-month period for temporary residential structures, or at the end of the initial six-month period for temporary business structures, whichever is later.
  - 5. Temporary habitable structures with a TPP may be used until the earlier of: 1) completion of the rehabilitation or reconstruction of the damaged structure; or 2) until such time as the owner or occupants of the damaged structure are established in a permanent structure at another location.
  - 6. Occupants must comply with all mandatory hurricane evacuation requirements.
- 1824 J. Temporary structures. Temporary habitable structures must comply with the following:
- 18261. 1896		
1897		3. If, upon inspection by the Building Official, a temporary residence is not in compliance with
1898		the requirements of this subsection.
1899		
1900		4. Failure to evacuate temporary residence during mandatory evacuation orders.
1901		
1902		5. Upon revocation of a TPP, the temporary residence must be vacated and the temporary
1903		residence removed within five days of revocation. Failure to vacate or remove the temporary
1904		residence constitutes a violation subject to the penalty imposed herein.
1905		
1906	M.	Extensions and expiration of temporary placement permits.
1907		
1908		1. Residential TPPs shall be valid for six months from the date of issuance. The Building Official
1909		may, for good cause shown, issue up to two extensions for six months each, for an 18-month
1910		maximum period of validity from the date of issuance.
1911		
1912		2. Non-residential TPPs shall be valid for nine months from the date of issuance. The Building

Other events previously scheduled during the same time period within the city; and 2079 2080 4. If the applicant has been adjudicated guilty of violating any provision of this section. Any 2081 adjudication may constitute grounds for denial of future special events permits by the city. 2082 2083 D. Permit Decision. 2084 2085 1. The Director of Parks and Recreation may, in his or her sole discretion, deny the applicant a permit for the special event within the City of Cape Coral. 2086 2087 2088 2. The Director of Parks and Recreation shall have the authority to designate one or more areas 2089 during any Special Event for specific activities and to prohibit other activities within designated 2090 areas. Designated areas shall be posted when such posting is appropriate. 2091 2092 3. Order to cease operation. If the Director of Parks and Recreation Department determines that proper provisions have not been made for the protection of the public health, safety, or 2093 2094 welfare he or she may issue an order to cease operating said special event until such time as 2095 satisfactory corrective action has been taken. 2096 E. Violations and Penalties. 2097 2098 2099 1. Intentional underestimation of the expected number of persons attending the event or 2100 failure to comply with any provision of this section, shall constitute a violation of this section, 2101 and shall subject the applicant to the code enforcement provisions and procedures provided 2102 in §§ 2-81 through 2-96 of the City of Cape Coral Code of Ordinances including any and all provisions that allow the city to seek relief as otherwise provided by law. 2103 2104 2105 2. Penalty. A violation of this section shall be punishable by a minimum fine of \$100 and a 2106 maximum fine of \$500, in addition to the taxation of any court costs, or imprisonment for a 2107 term not to exceed 60 days, or by both a fine and imprisonment. 2108 2109 Section 3.3.17. 2248	1. Consistency with the Comprehensive Plan?

2249 2250 2. The site must be suitable for the type of special exception use proposed by virtue of its location, 2251 shape, topography, and the nature of surrounding development. 2252 3. All buildings shall be setback an adequate distance from property lines and rights-of-way. 2253 Greater building setbacks may be required when deemed necessary to protect surrounding 2254 2255 properties. 2256 2257 4. Potential adverse impact to surrounding property must be mitigated to the maximum extent 2258 possible. 2259 Section 3.4.5. Vacations of Plats, Easements, and Rights-of-way. 2260 2261 2262 The purpose and intent of this section is to provide procedures for City Council to vacate rights-of-way, 2263 easements, and plats pursuant to authority granted under Florida law. The City Council may adopt 2264 ordinances vacating plats in whole or in part of subdivisions within the corporate limits of the city, 2265 returning the property covered by such plats either in whole or in part into acreage for the purpose of 2266 taxation, or vacating public rights-of-way, public easements, or other property in response to 2267 applications filed from adjoining property owners. 2268 A. General. 2269 2270 2271 1. The city may retain an easement for utilities or drainage over any vacated right-of-way and that 2272 no use may be made of vacated right-of-way which will be inconsistent with or interfere with the retained easement. The party seeking vacation of a plat, city street, alley, canal, other right-2273 2274 of-way, public easement, or other property must shows or submit the following: 2275 2276 a. Petitioner has color of title to the tract or parcel of land covered by the plat or portion of 2277 the plat of which vacation is sought, unless the petitioner is the City of Cape Coral; 2278 2279 b. Letter of approval from Lee County Electric Cooperative, Inc.; 2280 2281 c. Letter of approval from affected telephone companies; 2282 2283 d. Letter of approval from affected cable companies; and 2284 2285 e. Letter of approval from any other affected utility companies (e.g., water, sewer); 2286 2287 2. Applicants requesting to vacate rights-of-way or easements shall provide a recent boundary 2288 survey or survey sketch of the property prepared by a registered surveyor showing the area to 2289 be vacated and provide a complete legal description(s). The survey or sketch shall show all 2290 pavement and all utility and drainage facilities, including water, sewer, cable lines, utility poles, 2291 swales, ditches, manholes, and catch basins. Separate drawings and legal descriptions are 2292 required for each vacation area when right-of-way and easement configurations differ. 2293

- 2294 B. Standards and Criteria. Applications for vacations shall be reviewed in accordance with the 2295 following criteria: 2296 2297 1. Whether the plat, easements, or rights-of-way are required by the City for any future 2298 transportation, access, water management, or public utility purposes. 2299 2300 2. Whether any required easements are necessary to accommodate the vacation of any plat, 2301 easement, or right-of-way. 2302 2303 3. If alternate routes are required or available that do not cause adverse impacts to surrounding 2304 areas. 2305 4. If the closure of a right-of-way negatively affects areas utilized for vehicles to turn around and exit 2306 2307 an area. 2308 2309 5. Whether local utility providers have given consent to the vacation of the plat, easements, or 2310 rights-of-way. The local utility providers may require additional easements or relocation of 2311 existing utilities facilities to complete the vacation. 2312 C. Additional Procedures and Noticing Requirements. In addition to the standard notice requirements 2313 required by this Code, the following additional notice requirements apply for vacations: 2314 2315 1. Specific notice requirements for vacations. Public hearing notices to vacate a plat or portion 2316 2317 thereof shall be published once a week for two consecutive weeks, the first publication being not less than two weeks prior to the date of public hearing on the petition. 2318 2319 2320 2. If the parcel to be vacated includes an alley, all property owners serviced by the alley and all property owners serviced by a connecting alley shall be noticed. 2321 2322 2323 3. Adoption and recording of resolution and ordinance. After public hearing, the City Council may 2324 approve an application for a vacation if it determines there is no reasonably foreseeable public use for the vacated area. Approval of a vacation shall be by resolution or ordinance. The City 2325 2326 may retain easements for utilities or drainage in and upon the vacated area. Upon adoption of 2327 the resolution vacating the plat or portion thereof, the City Clerk shall furnish to the petitioner 2328 a certified copy thereof and the petitioner shall cause the same to be recorded in the public 2329 records of the county and shall return a copy, showing the recording information, to the 2330 Department of Community Development. 2331 2332 4. Effect. The adoption and recording of a vacation shall have the effect of vacating all streets and 2333 alleys and city-owned easements shown on the portion of the plat so vacated, unless the 2334 resolution or ordinance specifically reserved unto the city such city-owned easements or such 2335 streets or alleys. If public rights-of-way are vacated, the resolution or ordinance shall specify 2336 whether or not easements are reserved therein for utilities and drainage. The resolution or 2337 ordinance shall not have the effect of vacating any public canal shown on the portion of the plat 2338 vacated, unless the resolution or ordinance specifically so provides.
- 2339

5. Petitioner's responsibility. The city, City Council, and all officers, employees, and agents thereof shall not assume any responsibility or liability for any matters and things to be done or completed by the petitioner pursuant to the provisions hereof. It is recognized that this procedure may affect substantial interests in real property and other proprietary rights, and the petitioner shall assume full and complete responsibility for compliance with the requirements of law and these procedures in connection with or arising out of any vacation proceedings instituted by the petitioner.

- A. Manner of Initiation. Applications for a change in zoning may be initiated in the following manner:
- 2352 1. The City Council upon its own motion;
- 2354 2. The Planning and Zoning Commission upon its own motion;
- 2356 3. The property owner(s) of at least fifty-one percent of the land in the proposed rezone area;
  - 4. The City Manager for a City initiated rezone; or
    - 5. The Community Development Department, following approval of a similar use determination.
- B. Review Criteria. An application for a rezone shall be reviewed in accordance with the following criteria:
  - 1. Whether the proposed zoning district proposed is consistent with the City Comprehensive Plan;
- 23672. Whether the full range of uses allowed in the proposed zoning district will be compatible withexisting uses in the area under consideration;
  - 3. Whether the range of uses allowed in the proposed zoning district will be compatible with existing and potential uses in the area under consideration;
- 2373 4. Whether the proposed zoning district will serve a community need or broader public purpose;
- 5. The characteristics of the proposed rezone area are suitable for the uses permitted in the proposed zoning district; and
- 23786. Whether a zoning district other than the district requested will create fewer potential adverse2379 impacts to existing uses in the surrounding area.
- C. Effective date of approval. A rezone shall take effect upon City Council adoption of the ordinanceapproving the rezone.
- D. New application after denial. No application for a rezone which has been previously denied by the
   City Council shall be accepted for at least one year after the date of denial. An application to rezone

2390	Sec	tion	3.4.7. Planned Unit Developments (PUD)
2391 2392 2393	A.	Ger	neral.
2394 2395 2396 2397 2398		1.	A Planned Unit Development (PUD) is an area designed for development as a cohesive unit, where uses and innovations in design and layout of the development provide public benefits when compared to standard zoning or uniform lot and block subdivision patterns and design features.
2399 2400 2401 2402		2.	In a PUD, the various land use elements are designed so that they interrelate with each other. The boundary between a PUD and adjacent land area(s) requires particular attention to ensure transition and that land use patterns are compatible.
2403 2404 2405		3.	Permitted uses in a PUD must be consistent wiht the Comprehensive Plan future land use classification for the site(s) in question.
2406 2407	В.	Pur	pose and Intent. The purpose and intent of a PUD are to:
2408 2409 2410 2411 2412		1.	Innovation in Design. To encourage innovations in residential, commercial, mixed-use, and industrial development so that the needs of the population may be met by greater variety in type, design and layout of buildings and land uses and by the conservation and more efficient use of the space.
2413		2.	Appropriate Land Use. To promote the most appropriate use(s) of the land.
2415 2416		3.	High Quality Development. To improve the design, character, and quality of new development.
2417 2418		4.	Infrastructure. To facilitate the adequate and efficient provisions of roads and utilities.
419 420 421		5.	Increased Compatibility. To achieve compatibility with surrounding neighborhoods and developments.
422 423		6.	Provision of Open Space. To preserve open space as development occurs.
2424 2425 2426		7.	Clustering of Uses. To provide for necessary commercial, recreational, and public facilities that are conveniently located to housing.
2427 2428 2429		8.	Increased Flexibility. To provide for flexibility in design for new development and future redevelopment.
430 431		9.	Comprehensive Plan. To achieve the goals of the Comprehensive Plan.

2432 2433 2434 2435		10.	To provide a method for previously approved Planned Development Projects to continue to develop under the terms of an approved PDP Development Order and to allow modification to existing PDP approvals under the PUD procedures.
2433 2436 2437	C.	Mi	nimum Parcel Size. The minimum parcel size for a PUD is:
2437 2438 2439		1.	Non-residential or mixed use PUD. One acre.
2440 2441		2.	All other PUDs. Three acres.
2442 2443	D.	PU	D approval steps. The PUD review and approval process includes:
2444 2445 2446		1.	A rezone to the PUD zoning district, which establishes the densities, intensities, and permitted uses within the PUD; and
2447 2448		2.	A Master Concept Plan (MCP), which establishes the design, layout, and dimensional standards of the PUD.
2449 2450 2451	E.		plication and submittal requirements. Application and submittal requirements for a PUD are ablished in Sections 3.1.4 through 3.1.8 of this Article. In addition, a PUD requires:
2452		CSU	
2453 2454		1.	An application for a rezone to the PUD zoning district; and
2455 2456		2.	A Master Concept Plan application.
2457 2458		3.	Submittal of the specific PUD application requirements listed in subsection G., below.
2459 2460 2461			UD application for parcels 10 acres or larger may apply for a rezone to the PUD zoning district hout submitting a MCP for concurrent review and processing.
2462 2463 2464 2465	F.	Dev	eapplication conference required. A pre-application conference shall be held with the Community velopment Department prior to the submittal of a PUD. The applicant shall indicate the requested D zoning district and a sketch of the PUD Master Concept Plan, if applicable.
2403 2466 2467	G.	Spe	ecific PUD Submittal Requirements. A PUD application shall include the following:
2468 2469		1.	A Letter of Intent, including:
2470 2471			a. Reasons the PUD procedure is more desirable than a conventional plan;
2472 2473			b. General site description including acreages; and
2474 2475			c. General project description.
2476 2477		2.	A PUD Master Concept Plan indicating:

2478			a. Location of the uses within the site;
2479			
2480			b. Dimensional standards such as height, setbacks, and lot sizes;
2481			
2482			c. Vehicle circulation patterns, parking areas, and points of access;
2483			
2484			d. Pedestrian and bicycle circulation with links to other external path systems;
2485			
2486			e. Open space plan; and
2487			
2488			f. Landscape and buffer plans.

2505			
2506	١.	Rev	iew Standards and Criteria.
2507			
2508		1.	Every PUD shall be in conformance with the City Comprehensive Plan. The maximum density or
2509			intensity within any PUD shall be consistent with the future land use designation of the site as
2510			determined by the Comprehensive Plan.
2511			
2512		2.	Specific uses, densities, and intensities for each PUD are established in the PUD rezone

65 66 67 68	mo	ving	culating and restricting the use of land and the erection, construction, reconstruction, altering, s, or use of buildings and structures, the City of Cape Coral is divided into zoning districts. The City districts are classified as follows:
69 70	A.	Res	sidential Zoning Districts
71 72 73		1.	Residential Single Family (R-1). This district is established to encourage and protect single-family development and to permit other uses generally compatible with single-family residential uses.
74 75 76 77 78 79 80		2.	Residential Multi-Family Low (RML). This district is to accommodate multi-family housing to meet the needs of a diverse community, while ensuring that there is a transition to single-family neighborhoods which protects the integrity of those neighborhoods. The RML district acts as a transition zone from lower density residential to higher density residential or non-residential uses or zoning districts. The RML zoning district should only be established where City water and sewer services are available.
81 82 83 84 85		3.	Residential Multi-Family Medium (RMM). This zoning district is to accommodate multi-family housing at a higher density than RML to meet the needs of a diverse community. The RMM district also acts as a transition zone from lower density residential areas to non-residential land uses or zoning districts.
86 87 88 89		4.	Residential Estate (RE). This district is established to provide areas for single-family dwellings typically on parcels of 40,000 square feet or more in areas of the city that are rural in character. The RE district permits the keeping of some domesticated livestock for use by the occupants.
90 91 92 93 94		5.	Agriculture (A). This district is to accommodate agricultural activities and operations which may include crop cultivation; the breeding, raising, or keeping of livestock or fur bearing animals; dairy farming; apiculture; and to allow all accessory uses and structures customarily incidental to those activities.

95			
96			
97			
98 99	В.	Nor	n-Residential Zoning Districts
100 101 102		1.	Commercial (C). This district is designed to encourage and facilitate commercial activities intended to serve a relatively large trade area, appropriate commercial locations on major thoroughfares in developed areas, and is intended to meet the needs of motorists and other consumers through
103 104 105			the provision of automobile-oriented commercial activities to meet the needs of several types and varieties of general commercial activities.
106 107 108 109 110		2.	Professional Office (P). This district is designed to encourage the compatible development of major professional and related office complexes in areas which are suitable for such activities. The P District may serve as a transition between commercial corridors and nearby residential uses.
111 112 113 114		3.	Industrial (I). This district is to accommodate manufacturing, fabrication, warehousing, and other related activities that typically utilize large work forces, generate semi-tractor trailer traffic, and may produce external impacts such as noxious smells, smoke, or noise.
115 116 117 118 119		4.	Institutional (INST). This district is to allow for development of nonprofit or quasi-public uses such as religious institutions, libraries, public or private schools, hospitals, or government owned or operated structures. Many of these uses provide meeting places for the citizens of Cape Coral and valuable civic engagement opportunities.
120 121 122 123 124		5.	Preservation (PV). This district is to identify environmental resources or natural features as areas intended to remain in a predominately natural or undeveloped state to provide resource protection and opportunities for passive recreation and environmental education for present and future generations.
125 126	C.	Mix	red Use Zoning Districts
127 128 129 130 131		1.	Commercial Corridor (CC). This district is established to implement the recommendations of the Pine Island Road Master Plan and to promote such uses as retail, office, limited warehouse and light manufacturing, multi-family residential and large-scale commercial retail uses.
132 133 134 135 136		2.	Neighborhood Commercial (NC). This district is intended to create a variety of dynamic walkable, mixed-use environments; provide a range and mix of commercial and housing choices near each other; and to create quality usable public spaces. The NC District utilizes form-based design standards and provides development options based on parcel size.
137 138 139 140		3.	Mixed Use Seven Islands (MX7). This district is intended to implement master plan recommendations for the Seven Islands Area consistent with the Seven Islands Sub District. A further objective is to foster a sense of place and create a destination environment in northwestern Cape Coral. To achieve these objectives, the MX7 district allows a more flexible

- approach to comprehensive design and coordinated development of a multi-use neighborhoodthan is possible under other zoning classifications.
- 4. Mixed Use Bimini (MXB). This district is to promote redevelopment and enhancement of the Bimini Basin area of Cape Coral to create a destination for residents and visitors, consistent with the Downtown Mixed Future Land Use Classification and the Bimini Basin Revitalization and Implementation Plan. This district encourages mixed-use development. Existing commercial and professional buildings will be supplemented with entertainment activities and a wide diversity of housing types to create a vibrant work, live, shop, and play district that serves the entire city and region.
- 5. This district is intended to implement master plan recommendations for the Bimini Basin Area. A
  further objective is to foster a sense of place and create a destination environment in
  southeastern Cape Coral. To achieve these objectives, the MXB district allows a more flexible
  approach to comprehensive design and coordinated development of a multi-use neighborhood
  than is possible under other zoning classifications.
- 6. South Cape (SC). This district is to promote redevelopment and enhancement of the traditional commercial center of Cape Coral into a more compact and walkable form growth and to create a destination for residents and visitors. This district encourages mixed-use development. Existing commercial and professional buildings will be supplemented with entertainment activities and a wide diversity of housing types to create a vibrant work, live, shop, and play district that serves the entire city and region.
- 165 It is intended that the South Cape regulations act as a stimulus to development through provisions 166 that permit a flexible approach to infill development on various lot sizes, as well as special 167 provisions related to particular locations within the district. Therefore, many of the provisions 168 contained herein, including uses and dimensional regulations, are regulated by lot size, or the 169 extent of roadway frontage or a combination thereof.
- Planned Unit Development (PUD). This district is designed for development as a cohesive unit,
   where uses and innovations in design and layout of the development provide public benefits when
   compared to standard zoning or uniform lot and block subdivision patterns and design features.

### 204 Section 4.1.4 Setbacks for Residential-Zoned Sites Abutting Platted Waterways.

For irregularly shaped residential-zoned sites abutting platted waterways, the front, side, and rear setbacks may be assigned by the Director based on one or more of the following factors:

- 209 A. The setbacks promote reasonable development of the site;
- B. The setbacks are generally consistent with the front, side, and rear setbacks of adjacent sites; or
- C. The setbacks do not constitute a special privilege with respect to the limitations placed on otherproperties in the area.
- 215

unobstructed from 30 inches above the ground, as measured from the average elevation of the crown ofroad along the property frontage, except as provided below or as shown in Table 4.1.5., below.

- A. Structures less than 30 inches in height are not considered encroachments into minimum requiredsetbacks.
- B. Bermed earth, plant materials, sidewalks, and driveways are not considered encroachments.
- 227 C. Encroachments into required setbacks:
- Cornices, overhangs, decorative awnings with no ground support installed over windows and at entrances, eaves and gutters, balconies, and means of egress may project a maximum of three feet into required setbacks.
- Awnings requiring pole supports to be placed in a setback area, or those without pole supports which encroach more than 3 feet into required setbacks, may be approved, in districts other than RE or R1, at the discretion of the Director of Community Development. Such awnings must function as decorative architectural elements as opposed to garage, carport, or other similar storage facilities.
- 3. All existing air conditioning, pool equipment, and generators may be maintained and replaced provided the new equipment does not encroach more than three feet into any required setback.
  All newly installed or replacement air conditioners, generators, and pool equipment must comply with all setback requirements and shall not be placed in any easement.
- Permitted encroachments into required setbacks are not allowed to encroach into utility
   easements (See Article 5, Section 5.1.6).

363 364 365	В.	Specific conditions for multi-family residences, single-family attached, home-based businesses, and religious institutions are established in Article 5, Chapter 11.
366 367	Sec	tion 4.2.3. Residential Multi-Family Medium (RMM)
368 369	Α.	Specific regulations for home occupations are established in Article 5, Chapter 10.
370 371 372	В.	Specific conditions for day care facilities and religious institutions are established in Article 5, Chapter 11.
373 374	Sec	tion 4.2.4. Residential Estate (RE)
375 376 377	A.	Specific regulations for model homes and home occupations are established in Article 5, Chapter 10.
378 379 380		Specific conditions for home-based businesses, and religious institutions are established in Article 5, Chapter 11.
381 382	В.	Non-domestic animals.
383 384 385		1. Non-domestic animals regulated in this section are considered to be a pet or for household consumption and shall not be used for any commercial purposes.
386 387 388 389		2. Non-domestic animals are only allowed in the Residential Estate zoning district for sites with a Low Density Residential II Future Land Use Map classification pursuant to the regulations below and the requirements of the City Code of Ordinances.

- 3. Horses. The keeping of horses, including foals and yearlings, is permitted in the Residential 390 391 Estate zoning district regardless of the Future Land Use Map classification. Any roofed structure 392 for shelter of such animals shall be setback at least 100 feet from any property line.
- 394 4. Cattle, mules, goats, sheep, swine, and poultry. The keeping, raising, and breeding of non-395 domestic animals, including cattle, mules, goats, sheep, swine, and poultry may be permitted 396 in the Residential Estate as follows:
- a. Lot size. The minimum lot area required for the keeping, raising, and breeding of non-398 domestic animals, as identified in this section, is 100,000 square feet. 399
  - b. Animals within this subsection may not be kept or allowed to run within 100 feet of any zoning district other than the Residential Estate (RE) within the Low Density Residential II Future Land Use Map classification and Agricultural zoning districts.
- 405 c. Buildings or other roofed structures or enclosures for the keeping of animals within this 406 subsection must be set back a minimum of 150 feet from any zoning district other than 407 Residential Estate (RE) or Agricultural (A) zoning districts, under separate ownership.
  - d. The keeping and raising of non-domestic animals within this subsection is permitted in the Residential Estate zoning district for personal use only, or for youth or farm-education programs such as 4-H or The National FFA Organization.
- 413 C. Accessory structures. Accessory structures in the Residential Estate zoning district shall not have a 414 maximum size.

- A. Specific regulations for multi-family residences; single family attached 3 units or greater; commercial parking lots and parking garages as a standalone use; vehicle fueling stations; craft brewery, distilleries, and wineries; mobile food trucks; wireless antennas; and home occupations are found in Article 5, Chapters 10 and 11.
- B. Mix of uses. Development in the NC district is encouraged to have a mix of residential and nonresidential uses, however, a mix of uses is not required.
- 479 C. Use areas. All land areas within developments in the NC District shall be categorized as one of the480 three following use areas:
- Free-standing non-residential. Free-standing non-residential areas include the footprint and
   land areas associated with buildings that contain no residential units.
- 485 2. Free-standing residential. Free-standing residential areas include the footprint and land areas 486 associated with buildings that contain residential units and buildings that contain non-487 residential floor area usage that is less than 30% of the building's floor area. In calculating the 488 floor area of the building, the total floor area of the building is the floor area of the building 489 remaining after the area of any structured parking is excluded. Also, any pre-existing single-490 family residences do not necessarily constitute free-standing residential development, unless 491 such residences otherwise meet the criteria for such development.
- 492 493

- 497 D. Density, intensity, and use area allocations.
- 4991. The allowable densities, intensities, and use area allocations within the NC District may vary500with the land area allocated to each use in a development project.
  - 2. A development can consist of one or more properties that are the subject of a single application for development.
- 5053. If an application includes properties that are not contiguous, the application must demonstrate506that the properties function as a unified development.
- The land area that may be allocated to any of the three use area allocations varies with the size
  of the development project, with generally increasing flexibility as a function of the total land
  area of the development. Densities and intensities associated with any of the three use area
  categories apply only to the land area of the project that is allocated to that specific use. In
  determining the land area within any of the three use area allocations, the area of any common

- 513 areas for surface water management, parking, landscaping, and circulation shall be apportioned 514 among the three use area allocations in the same proportion as the non-common areas relate 515 to the area of the development, excluding common areas.

E. Limitations on density and intensity within the NC District. In the Urban Services Reserve Area,
 residential uses are restricted to 4.4 dwelling units per acre and non-residential development is
 limited to uses that do not generate an estimated flow of more than 880 gallons of sewage per acre
 per day.

- F. Use area allocations. All developments in the NC District shall be categorized as one of the threefollowing use areas:
- 527

524

528 529

533

- 1. Free-standing non-residential. Free-standing non-residential areas contain no residential units.
- 5302. Free-standing residential. Free-standing residential areas include the footprint and land areas531associated with buildings that contain residential units and buildings that contain non-532residential floor area usage that is less than 50% of the building's ground floor area.
- 534 3. Pre-existing single-family residences do not constitute free-standing residential development.
- 5364. Mixed-Use. Mixed-use areas include the footprint and land areas associated with mixed-use537buildings with at least 50% of the ground floor areas allocated to non-residential uses.

539 G. Use Area Calculations

- 5411. The uses of a building (residential, non-residential, mixed-use) shall be calculated by the floor542area occupied by a use excluding any structured parking areas.
- 544 2. Developments that incorporate non-residential and residential uses shall clearly indicate the 545 land areas (square footage, percentage of development site, and locations) to be used for non-546 residential, residential, and mixed-use, as well as the uses proposed within each of the 547 designated areas.
- 5493. In determining land area within any of the three use area allocations common areas, including550surface water management, parking, landscaping, and circulation shall be distributed among551the three use area allocations in the same proportion as the non-common areas.

- 2. Loading Docks and Service Areas.
- All loading docks and building service areas containing air handling equipment, generators, meters,
   etc., shall be screened by a masonry wall from a pedestrian-level view from any adjacent residential
   future land use category, public sidewalk, or public street, excluding alleys.
- 563 J. Such walls shall be designed to appear as an architectural extension of the principal building and 564 incorporate architectural trim and features consistent with the adjacent facade.
- 566 K. Walls required for screening loading docks or building service areas shall not exceed the height 567 limitations provided in Article 5 of this code unless approved by the DCD Director.
- 569 L. On sites greater than one acre the following shall apply:
- The first story of the building frontage shall be at least 75% of the parcel width as measured along the front property line. For adjoining parcels that are being developed simultaneously as one site with one or more buildings, this percentage applies to the combination of lots and building frontages.
- 576 2. At least 40% of the building frontage shall be built at the minimum front setback line.
- 578 3. Off-street parking spaces shall not be within the front yard.
- 580 4. Outdoor display of cars, boats, motorcycles, and vehicles is prohibited.
- 5825. Deviations from the requirements of this section may be approved pursuant to Article 3 of this583code.

# A. Intent and purpose. It is the intent of this district to implement City Council adopted plans to create a comprehensively planned, mixed-use development for the Seven Islands area. The specific purposes

- comprehensively planned, mixed-use development forof the Mixed-Use Seven Islands District are:
- 710 1. To provide for an integrated mix of uses that includes:
- 711712 a. A diversity of housing options;
  - b. A diversity of commercial, office, research and development, and institutional uses providing employment as well as goods and services; and
- 717 c. Adequate open space for active and passive recreation that encourages public interaction.
- To provide for access via a circulation system and pattern that encourages travel on foot and by
   bicycle within the neighborhood and the use of public transit for external travel, augmented by
   locations for automobile parking that do not inhibit such circulation.
- 722
  723 3. To provide, where appropriate, for integration and compatibility of residential uses with commercial, office, research and development, or institutional uses.

725 726 4. To establish land use and design standards that will ensure compatibility with surrounding uses. 727 728 To establish standards and procedures through which the land use objectives and guidelines of 5. 729 an approved and adopted master or area plan serve as the basis for evaluating an individual multi-730 use neighborhood proposal. 731 732 6. To authorize development that is consistent or may be shown to be consistent with applicable 733 laws, regulations, and restrictions addressing environmental protection. 734 735 B. Where applicable. Land classified MX7 must be in an area for which an approved and adopted Use 736 same language as above master or area plan recommends mixed use development at an appropriate 737 scale. 738 739 C. Location. The location of properties identified as MX7 are limited to those identified in the Seven 740 Islands Master Plan. Properties identified as MX7 are limited to Tracts A-G, and I, and Blocks 6400-741 6408, Unit 76, Cape Coral Subdivision. 742 743 D. Residential. Any type of dwelling unit as well as any accessory use is allowed, so long as the location 744 and mix of types must be consistent with the Seven Islands Master Plan. A residential use may be 745 intermixed with a nonresidential use or uses in the same block, lot, or building. 746 747 E. Maximum residential dwelling units and non-residential square footage. The maximum number of 748 residential dwelling units is 995 dwelling units, and non-residential square footage is 110,000 square 749 feet, no less than 40,000 of which is a community center. The mix of residential dwelling units and 750 non-residential square footage shall be in accordance with the Seven Islands Master Plan, concept D1. 751 752 F. Compatibility and design standards. All uses must conform to the guidelines of the Seven Islands 753 Master Plan. Uses must be compatible with existing or planned development on or adjacent to the 754 site. 755 756 1. Height and Orientation. 757 758 a. No building may be constructed to a height greater than 8 stories or 115 feet, or as indicated 759 in the Seven Islands Master Plan, Concept D1. 760 761 b. A building primarily used for retail or office use must be oriented toward the street on which 762 it fronts. Off-street parking shall be kept to a minimum between the building and the front 763 lot line. 764 765 2. External access and internal circulation. 766 767 a. The internal vehicular circulation system must follow a pattern of intersecting streets that 768 provide alternative routes. 769

		ARTICLE 4 – ZONING DISTRICTS
770		b. Points of external access and alignments of internal roadways must facilitate use of public
771		transit. This includes providing sufficient rights-of-way for bus pull-outs and bus shelters, as

Specific regulations for multi-family residences; single family attached 3 units or greater; commercial 817 818 parking lots and parking garages as a standalone use; movie theaters; craft brewery, distilleries, and 819 wineries; mobile food trucks; and home occupations are found in Article 5, Chapter 12 and 13.

#### 821 Section 4.2.15. South Cape District

822

820

823 The South Cape District special regulations are intended to act as a stimulus to development through 824 provisions that permit a flexible approach to infill development within the City's Community 825 Redevelopment Area. Developments providing affordable housing are incentivized by providing greater 826 residential density and building height than that permitted by right.

827

828 Specific conditions for multi-family residential and vehicle fueling stations are in Article 5, Chapter 12.

No loading docks and service areas shall be on primary street frontage lines. 904 905 e. Outdoor storage areas are not permitted on primary street frontages. 906 907 C. Parking Requirements. Parking requirements for the South Cape district can be found in Article 6. 908 909 D. Affordable Housing Density Incentive. Density incentives are opportunities offered to property 910 owners and applicants to meet specific development goals while providing benefits to the 911 community at large. Developers who dedicate a minimum of 20% of the total units as affordable will be eligible for increased density in accordance with Table 4.2.15. Maximum Density and Height. 912 913 914 1. Location of Units. Affordable units must be provided on-site. 915 2. Maximum Number of Units. Developers shall not dedicate more than 50% of the total units as 916 affordable. 917 918 3. Criteria for affordable housing. The affordable housing development incentive shall be available 919 920 to a development only when an affordable housing incentive development agreement has been 921 entered into by the applicant and the City of Cape Coral and such agreement has been approved by the City Attorney and the City of Cape Coral prior to execution. Amendments to such 922 923 agreement shall be executed in the same manner as the original agreement. The affordable 924 housing incentive development agreement shall include, at a minimum, the following 925 provisions: 926 927 a. Legal description of the land subject to the agreement and the names of its legal and equitable owners; 928 929 930 b. Total number of residential dwelling units in the development;

- 932 c. Minimum number of affordable housing units, categorized by level of household income,
  933 type of unit (condominium or rental), and number of bedrooms, required in the
  934 development;
  - d. Total number of affordable housing dwelling units permitted in the development;
  - e. Gross residential density of the development;

- f. Amount of monthly rent for rental units, or the price and conditions under which a condominium unit will be sold, for each affordable housing unit;
- g. The price of affordable housing units offered for rent or sale shall be based on the number of bedrooms in the unit and shall not exceed low income limits established annually by the United States Department of Housing and Urban Development for the Metropolitan Statistical Area which includes the Cape Coral downtown CRA;
- h. No affordable housing unit in the development shall be rented or sold to a tenant whose household income has not been verified as an income qualified family. Such verification shall be the responsibility of the owner and shall be submitted to the City for approval.
- 952 i. No affordable housing unit that is to be sold, leased with option to purchase, or otherwise 953 conveyed by the development shall be sold, leased with option to purchase, or otherwise 954 conveyed to a buyer whose household income has not been verified and certified in 955 accordance with this subsection as low-income family. Such verification and certification 956 shall be the responsibility of the applicant and shall be submitted to the City for approval. 957 It is the intent of this subsection to keep housing affordable; therefore, any person who 958 buys an affordable housing unit must agree, in a lien instrument to be recorded with the 959 Clerk of the Circuit Court of Lee County, Florida, that if he or she sells the property (including 960 the land, the unit, or any combination thereof) within 15 years after his or her original 961 purchase at a sales price in excess of 5% per year of his original purchase price that he or 962 she will pay to the City of Cape Coral an amount equal to the sales price in excess of 5% 963 increase per year. The lien instrument may be subordinated to a qualifying first mortgage 964 at the option of the city. For example, a person originally buys a designated affordable housing unit for \$100,000 and sells it after five years for \$150,000. A 5% increase per year 965 966 for five years will give a value of \$127,628. Deducting this amount from the sales price of 967 \$150,000 gives a difference of \$22,372. The seller would then owe the City of Cape Coral 968 \$22,372. Payment of this amount would release the first owner from the recorded lien 969 against the property. Such payment shall be maintained in a segregated fund, established 970 by the city solely for affordable housing purposes, and such money shall be used solely to 971 encourage, provide for, or promote affordable housing in the City of Cape Coral; 972
  - j. No affordable housing unit for which credit is awarded shall be occupied by the applicant, any person related to or affiliated with the applicant, or a resident manager;
- 976k. The applicant shall advertise, rent, sell, and maintain the affordable housing unit in a977nondiscriminatory manner and make available all relevant information to any person who

978 is interested in renting or purchasing such affordable housing unit. The applicant shall agree
979 to be responsible for payment of any real estate commissions and fees. The affordable
980 housing units in the development shall be identified on all building plans submitted to the
981 city and described in the application for affordable housing development incentive;

- Except as required in this subsection, the applicant shall not disclose to persons, other than the potential tenant, buyer or lender of the particular affordable housing unit or units, which units in the development are designated as affordable housing units;
  - m. The square footage, construction and design of the affordable housing units shall be the same as market rate dwelling units in the development;

n. The affordable housing units shall be integrated with, and not segregated from, the market rate dwelling units in the development. The conditions contained in the affordable housing incentive development agreement shall constitute covenants, restrictions, and conditions which shall run with the land and shall be binding upon the property and every person having any interest therein at anytime and from time to time. The affordable housing incentive development agreement shall be recorded in the official records of Lee County, Florida, subsequent to the recording of the deed pursuant to which the applicant acquired fee simple title to the property;

o. In the case where a development will occur in more than one phase, the percentage of affordable housing units to which the applicant has committed for the total development shall be maintained in each phase and shall be constructed as part of each phase of the development on the property. For example, if the total development's affordable housing development incentive is based on the provision of 10% of the total dwelling units as affordable housing rental units for low income households with two bedrooms per unit, then each phase shall maintain that same percentage (10% in this case) cumulatively.

p. Each affordable housing unit shall be restricted to remain and be maintained as an affordable housing unit designated in accordance with the affordable housing incentive development agreement for at least 15 years from the issuance of a certificate of occupancy for such unit; and

q. The applicant and owner of the development shall provide on-site management to assure appropriate security, maintenance and appearance of the development and the dwelling units where these issues are a factor.

- 10163. Certificate of Occupancy. A certificate of occupancy shall not be issued to any affordable unit1017until all affordable housing requirements applicable to that unit are satisfied. If, after the1018issuance of the first certificate of occupancy, the city determines any requirement in this1019subsection has not been met, then the city may revoke the certificate of occupancy and would1020subject the applicant or owner to any penalty imposed by law.
- E. Specific regulations for: multi-family residences; commercial parking lots and parking garages as a standalone use; vehicle fueling stations; craft brewery, distilleries, and wineries; wireless antennas; and home occupations are found in Article 5, Chapter 10 and 11.

1026 E. The minimum dwelling unit size in the South Cape District may be 500 square feet provided all requirements of the Florida Building Code are met. 1027

Home based businesses 139 Section. 5.11.12. Religious Institutions. 140 141 **CHAPTER 1. GENERAL REQUIREMENTS FOR ALL DEVELOPMENT** 142 143 Section 5.1.1. Purpose and Intent 144 The purpose of this article is to provide standards for all development in the City of Cape Coral. 145 146 147 Section 5.1.2. Connection to utilities. 148 149 All development is required to connect to public or private utilities, as required as by the City of Cape 150 Coral Code of Ordinances, Chapter 19 Water and Sewer Utilities. 151 152 Section. 5.1.3. Requirements for underground utilities. 153 154 A. In new residential subdivisions, all utility lines (including electrical power distribution, telephone, 155 communication, street lighting, and cable television signal service) shall be installed underground. 156 This Section shall apply to all cable, conduits, or wires forming part of an electrical distribution system, 157 including service lines to individual properties. 158 159 However, this Section shall not apply to wires, conductors, or associated apparatus and supporting 160 structures whose exclusive function is in transmission of electrical energy between generating stations, substations, transmission lines of other utility systems, and main distribution feeder electric 161 162 lines delivering power to local distribution systems. Appurtenances such as transformer boxes, 163 pedestal-mounted terminal boxes, and meter cabinets may be placed above ground and in such a 164 manner as to minimize noise effects upon the surrounding residential properties. 165 166 B. The developer shall provide for the necessary costs and other arrangements for such underground utility installation. 167 168 C. For all new buildings in the Commercial Corridor, South Cape, and PUD zoning districts all onsite 169 170 utilities including telephone, electricity, cable television, and other wires of all kinds shall be placed 171 underground. However, appurtenances to these systems that require aboveground installation, 172 including utility panel boxes, are exempt from this requirement if the appurtenances are not placed in front yards. When such appurtenances are placed in utility easements abutting a platted alley, 173 174 they shall be placed at least ten and one-half feet from the centerline of the platted alley. These 175 underground requirements also apply to those improvements to non-conforming structures that 176 exceed the 50% thresholds as described in Article 8, Nonconformities. All utility infrastructure, 177 including electric utility poles and power lines, shall be concealed from public view wherever

possible. All new electric distribution lines shall be located in utility easements abutting platted
alleys and the utility poles shall be positioned so that a minimum clearance of ten and one-half feet
from the centerline of any platted alley is maintained. For properties that do not have a rear platted
alley, the electric distribution lines and utility poles shall be placed in the rear utility easement
wherever possible.

- 184 D. In the South Cape zoning district where overhead or underground utility lines have been placed in
   185 the six-foot PUE, a property owner shall choose one of the following options:
  - Relocate the utility lines to the alley or other acceptable location, at the property owner's sole expense, and subject to approval by the affected utility provider(s) and the City of Cape Coral; or
- Place a concrete sidewalk or architectural elements on the front six-foot property setback. If
   overhead electric lines are in place, no awnings, canopies, balconies, colonnades, arcades, or
   front porches may be constructed forward of this line even if otherwise required by this code.
   If underground lines of any type are in place, the property owner is solely responsible for
   repairing any damage to lawful encroachments into the six-foot easement resulting from
   maintenance or improvements to utility lines.

200 Except as otherwise provided, all building sites shall have access on a street or a road shown on an 201 approved and recorded final plat. One or more buildings may have no direct access to a street provided 202 that the approving authority finds that such building site(s) have adequate indirect access to a street such 203 as a recorded easement or right-of-way through or over another parcel. The city may prohibit direct access 204 from a parcel or building site to a street when the approving authority finds that prohibition of direct 205 access would promote the public health, safety, and welfare based on factors including traffic or 206 transportation safety and when the parcel or building site could be afforded indirect access to a street or 207 other road via another parcel or building site. 208

- Section 5.1.5. Protection of underground pipelines and utilities.
   210
- A. Intent. It is the intent of the City Council to protect underground pipelines and utilities from
   destruction or damage to prevent:
- 214 1. Death or injury to persons;
- 216 2. Property damage to private and public property; and
- 218 3. Loss of essential pipeline or utility services to the general public.
- B. All excavation on public property, rights-of-way, or dedicated easements shall comply with the
   requirements of F.S. 556. Underground Facility Damage Prevention and Safety.

- A. In the R-1, RML, RE, and A zoning districts, the six-foot easement around the perimeter of sites shall
   be preserved and nothing shall be placed or constructed on such easements other than a paved
   driveway, walkway, sidewalk, fences, or well. In addition, for non-residential uses lawfully located
   in residential zoning districts, paved off-street parking areas may be placed or constructed on the
   six-foot easement around the perimeter of the site.
- B. In the RMM zoning district, where lot depth is greater than 131 feet, the six-foot easement around
  the perimeter of the sites shall be preserved and nothing shall be placed or constructed on such
  easement other than a paved driveway, walkway, sidewalk, paved off-street parking areas, or a well
  when site conditions make it impractical to locate elsewhere. On sites with a depth of less than 131
  feet, paving of the front easement for parking purposes shall be permitted.
- 240 C. Lawn sprinkler systems and landscaping may be placed in the 6' PUE easements as permitted by the
   241 Code of Ordinances or the Land Development Code.
- D. In the C, CC, I, INST, MXB, MX7, NC, P, and SC zoning districts, paved off-street parking areas, paved driveways, sidewalks, wells, walkways at ground level, lawn sprinkler systems, or landscaping may be placed in an easement provided that all other requirements of the Code of Ordinances or the Land Development Code are met.
- 247
  248 E. Nothing in this section shall prohibit the construction of seawalls, davits, docks, or other structures
  249 as permitted by the Cape Coral Code of Ordinances.
- 251 F. If a utility removes, damages, or disturbs the construction or other material within an easement as 252 allowed by this section, the property owner shall be responsible for the cost of its removal, relocation, repair, or replacement. If any plant material in an easement required by Chapter 5 of 253 254 this Article of the Land Development Code is removed or damaged, the property owner shall replace 255 all such material within 30 days of the completion of the utility work. These requirements also 256 include repair or replacement of sod within the right-of-way. In addition, prior to issuing a permit 257 to locate, place, construct, or install any structure, construction, driveway, or other material in an 258 easement, the city may require the property owner to agree to indemnify and to hold the city 259 harmless from any or all costs or expenses incurred as a result of such location, placement, 260 construction, or installation in the easement.
- 261
- G. The city may deny applications to place wells, fences, walls, or other materials in an easement ifsuch would conflict with existing or proposed utilities or drainage functions.
- 264

- 265 Section. 5.1.7. Required visibility triangles.
- As an aid to allow for safe operation of vehicles, pedestrians, and cyclists in the proximity of intersecting streets, driveways, alleys, and bicycle paths, there shall be limitations on the height of fences, walls,

- gateways, ornamental structures, signs, hedges, shrubbery, and other fixtures as visually depicted in
   the Cape Coral Engineering and Design Standards and as follows:
- 271

274

277

280

282

287

- A. All landscaping and signs within the visibility triangle shall provide unobstructed visibility between
   30 inches and eight feet, with the exception of tree trunks that do not create a traffic hazard.
- B. The property owner shall be responsible for maintaining all landscaping within the visibility triangle
   to provide the unobstructed visibility.
- C. The Community Development Director shall make the final determination regarding visibilitytriangles.
- 281 Section 5.1.8. Sidewalks and alleys.
- A. Non-Residential Zoning Districts. As part of construction of each building erected in non-residential
   or mixed-use zoning districts (C, CC, I, INST, MXB, MX7, NC, P, and SC) right-of-way improvements
   (including sidewalks) shall be installed prior to the issuance of a certificate of occupancy pursuant
   to the standards and specifications set forth in the City of Cape Coral Engineering Design Standards.
- B. All sidewalks shall be constructed in accordance with the City of Cape Coral Engineering Design
   Standards, except where a sidewalk has been installed and the established width is less than five
   feet, the minimum width of the sidewalk to be installed shall be the width of the existing sidewalk.
- C. Lot owners who develop property, erect buildings, or change the use on only a portion of a lot must
   provide the curbs, sidewalks, gutters, and lane widening for the entirety of the property, as required
   by this subsection, which shall be at the expense of the lot owner.
- 295 296 D. As part of property development and construction of each building erected in the C, CC, I, INST, 297 MXB, MX7, NC, P, and SC zoning districts adjacent to a platted alley the alley shall be improved prior 298 to the issuance of a certificate of occupancy. Such alley portion shall be constructed in accordance with the Engineering Design Standards along the length of the property line of the site lying adjacent 299 300 to the platted alley. In addition to new construction in the C, CC, I, INST, MXB, MX7, NC, P, and SC 301 zoning districts, alterations to existing sites lying adjacent to a platted alley shall be required to 302 make the alley improvements required by this section if the value of such alterations exceeds 50% 303 of the replacement value of the site improvements. These improvements include parking areas, 304 internal curbing, and retention areas but exclude internal, previously existing modifications to the 305 building.

- 313

- F. Right-of-way improvements shall be constructed only if the city has developed construction designs
   for that roadway segment. In areas without city approved construction designs for a roadway
   segment, construction of improvements shall be done through a city established special assessment
   district.
- 318

G. Residential. New residential subdivisions and Planned Unit Developments of 20 or more lots or units
 and multi-family development of 50 or more units shall install sidewalks along all street frontages
 abutting and within the development. This does not apply to existing structures that are being
 remodeled or repaired.

#### 324 Section 5.1.9. Work in the Public Right-of-Way and Public Utility Easements.

- A. General. Except as provided below, no construction, change, modification, or alteration of any
   type or nature whatsoever, including the addition or removal of fill, vegetation, or other
   materials, or the placement, installation, or erection of any object or vegetation, shall be allowed
   within a city-owned right-of-way or swale, except as provided in Chapter 1 of this Article.
- B. No permit required. The following work or activities shall be allowed in the public right-of-way or
   roadway easement areas without the necessity of a city permit:
  - 1. Trimming, cutting, or maintenance of trees, shrubs, and other vegetation existing as of the effective date of this ordinance in the public rights-of-way or swales;
- Markers, commonly known as buttons, turtles, or half-moons, may be placed 18 inches from the edge of the pavement in residential zoning districts provided that such markers shall not exceed a height of four inches. However, no markers shall be placed within any public rightof-way which is adjacent to a roadway with four or more lanes;
- 3. Mailboxes may be placed in the public rights-of-way or swales so long as they are in 342 accordance with the City of Cape Coral Engineering Design Standards. The mailbox may be 343 344 immediately surrounded by a small bed consisting of landscape edging materials or concrete 345 curbing, bedding plants or groundcover, and mulch or decorative rock provided that such 346 decorative rock shall not exceed four inches when measured in any direction, pursuant to 347 Chapter 5 of this Article. In no event shall the diameter of the plant bed exceed two feet when measured from the outer-most edges of any landscape edging material or concrete 348 349 curbing utilized. and
- A Registration Certificate is required to install landscaping material in the lateral right-of-way
   areas between the roadway pavement and the private property line in accordance with
   Section 5.5.19 of this Article.
- C. Permit required. The following work or activities shall be allowed in the public right-of-way or
   roadway easement areas provided that the property owner first obtains a permit from the city:
- 358 1. Culvert installation and appurtenant work;
- 359

360 2. Sod installation and appurtenant work; 361 362 3. Driveway installation and appurtenant work; 363 364 4. Curb, gutter, sidewalk, sod, and paving; 365 366 5. Alley improvements; 367 368 6. Installation of sprinkler systems. However, if the sprinkler system is disturbed, damaged, or 369 destroyed by the City performing work in the public right-of-way, the owner shall be solely 370 responsible for any cost resulting from such disturbance, damage to, or destruction of the 371 sprinkler system in the right-of-way; and 372 7. Planting in medians, cul-de-sacs, and roundabouts as permitted in Section 5.5.17 of this 373 374 Article. 375 376 D. Under no circumstances shall any of the activities permitted above result in any change, 377 modification, or alteration of any type whatsoever, to the established grade, slope, or contour of 378 the public swale or right-of-way not specifically addressed by the City of Cape Coral Engineering 379 Design Standards. 380 381 E. None of the prohibitions contained in this ordinance shall apply to any construction, change, 382 modification, or alteration within a public right-of-way or swale which is performed by or 383 required by a governmental entity or public utility. 384 385 F. Public Utilities. No public utility including electric, phone, cable tv, internet, cellular, or gas 386 company will be allowed to install or maintain facilities, begin construction, change, modify, or 387 alter in any way whatsoever the public right-of-way, swale, or adjacent public utility easements, 388 including the addition or removal of fill, vegetation, or other materials, without a permit as 389 required by the City of Cape Coral Code of Ordinances. 390 391 Section 5.1.10. Maintenance of city rights-of-way. 392 393 All property owners shall be responsible to either maintain or construct the city-owned right-of-way 394 lying between their property boundaries and the city pavement, to include the following standards. 395 396 A. Prior to preparation of a building lot for construction, the building permit holder shall obtain the 397 correct swale flow line elevations from the City and proceed immediately to create the required 398 swale needed to allow continuous uninterrupted flow of stormwater throughout the construction 399 process. 400 B. During construction or reconstruction approved erosion control devices shall be placed in the swale 401 402 adjacent to both property lines to impede all foreign matter from entering the stormwater system. 403 The erosion control devices shall remain in place until placement of final sod in the right-of-way. 404 405 C. No excavated material or construction material shall restrict stormwater flow within the swale area.

406 407 D. Upon issuance of the certificate of occupancy, the owner shall maintain the swale indefinitely to the same standard that is applied to privately-owned property. 408 409 E. All pavement damage must be repaired to meet or exceed the City of Cape Coral Engineering Design 410 411 Standards. 412 413 Section 5.1.11. Building numbers and addresses. 414 415 All buildings in the City of Cape Coral shall display a proper building number at least four feet from the 416 ground level. All building numbers shall be visible from the public right-of-way which the front of the 417 building faces. Building numbers of sufficient size which are affixed to both sides of mail boxes on such 418 right-of-way or building numbers which are affixed to lawful signs not attached to the building may be 419 substituted for number affixed to buildings. 420 421 Section 5.1.12. General regulations for lots, yards, and setbacks. 422 423 A. Double frontage other than corner lots. Double frontage other than corner lots shall meet front setback regulations on all adjacent streets. 424 425 426 B. Corner lots. In the SC and MXB zoning district(s), corner lots shall be deemed to have front lot lines 427 abutting all street right-of-way lines. For corner lots in all other zoning districts, the following shall 428 apply: 429 430 1. The front of any building site shall be determined by the lesser dimension of a single lot (not building site). This frontage shall have the established setback for the particular zoning district, 431 but in no instance be less than 25 feet. 432 433 434 2. The remaining street frontage shall have a setback of no less than ten feet in all zoning districts. The remaining street frontage shall be maintained as a front yard and the regulations for fences, 435 436 shrubbery, and walls of this ordinance shall apply. 437 438 3. On sites bounded by three streets, one lot line shall be designated by the Director as the rear 439 and maintained as the rear setback of that zoning district. For purposes of this section, all but the rear yard shall be maintained as a front yard and the regulations for fences, shrubbery, and 440 441 walls of this ordinance shall apply. 442 443 4. The front of a single-family residential building shall not be offset from the front property line 444 by an angle greater than 45 degrees. 445 446 C. No parcel shall be reduced below the minimum dimensional requirements in the zoning district. 447 This provision shall not apply when a portion of a parcel is acquired for a public purpose. 448 449 Section 5.1.13. Single-family residential standards. 450

496 1. All gutter downspouts or roof drains from multi-family buildings shall be directed to the water 497 management system. 498 499 2. All gutter downspouts or similar water discharge devices from duplexes shall direct the discharge to the front or rear property lines. Refer to the City of Cape Coral Engineering Design 500 501 Standards, Section L, Drainage Design Standards for lot grading and drainage information. 502 503 C. Maximum Fill. For duplex construction activities on any site in a Special Flood Hazard Area, the 504 maximum amount of fill on-site shall be limited to 12 inches, unless otherwise approved by the 505 Building Official. 506 507 Section 5.1.15. Dumpster Enclosures. 508 Except where noted below, all sites with uses other than single-family residences and duplexes, shall 509 510 provide commercial trash receptacles in accordance with the regulations in this section. 511 A. Screening. 512 513 1. Except for the SC and MXB Districts, when commercial trash receptacles are in a rear yard that 514 abuts an alley, all commercial trash receptacles shall be enclosed from view on at least three sides 515 516 by an opaque visual barrier. 517 518 2. When a commercial trash receptacle is visible from an adjacent property or an adjacent street, at 519 ground level, then the commercial trash receptacle shall be enclosed on the fourth side by an opaque gate that shall be the same height as the opaque visual barrier on the other three sides. 520 521 522 3. The principal structure may be used as the opaque visual barrier on one or more sides provided 523 the commercial trash receptacle is completely concealed from view. 524 525 B. Materials. 526 527 1. The following materials, either singly or in any combination, are the only materials that may be 528 used for the opaque visual barrier and gate: 529 530 a. Wood fencing; 531 532 b. Plastic or vinyl fencing; 533 534 c. Concrete block and stucco wall; 535 536 d. Brick wall; or 537 538 Formed, decorative, or precast concrete. e. 539 540 2. Chain link fencing, whether singly, or combination with other materials, including plastic slats, 541 shall be prohibited.

542 543 3. Gates shall be constructed of a durable, opaque material, consistent or complimentary in color 544 with the enclosure and of a height to screen the container. 545 C. Location. 546 547 548 1. Commercial trash receptacles shall not be located on unimproved sites. 549 550 2. Commercial trash receptacles and accompanying visual barriers, are subject to the following 551 minimum setbacks: 552 553 a. Six feet from the front property lines in the SC and MXB Districts. 554 555 b. Three feet from alley rights-of-way. 556 557 3. When located in a public utility or drainage easement, the property owner shall be solely 558 responsible for removal of the commercial trash receptacle as well as for any cost resulting from 559 disturbance, damage, destruction, or restoration of the receptacle resulting from work associated 560 with utilities in such easement. Prior to issuing a permit, the City may require the property owner 561 to agree, in writing, to indemnify and to hold the city harmless from any costs or expenses 562 resulting from placing a commercial trash receptacle in an easement. 563 4. A commercial trash receptacle may be placed on an adjoining property provided that the premises 564 565 are adjacent to or directly behind the development and written consent of the adjoining property owner is submitted to and approved by the Director. The adjoining property owner may revoke 566 567 this consent upon written notice to the development and the Director. The development shall 568 have 30 days from revocation to relocate the commercial trash receptacle and to comply with all 569 requirements of this section. 570 571 5. Developments within 25 feet of a City-owned parking lot may, upon approval by the Director, 572 locate enclosures on the City-owned parking lot. Approval may be revoked at any time, upon 573 reasonable notification, by the City. 574 575 D. Dimensions. The dumpster enclosure shall have a minimum interior dimension of ten feet by ten feet and a height at least six inches higher than the enclosed commercial trash receptacle. Neither the 576 dumpster enclosure or the gate providing access to the commercial trash receptacle shall be 577 578 considered a fence or a wall pursuant to the City Code of Ordinances or Land Development Code. 579 580 E. All dumpster enclosures shall be located so that a sanitation vehicle has physical access to the 581 commercial trash receptacle that is adequate for safely servicing the facility. 582 583 F. Each commercial trash receptacle shall be located on a concrete pad. 584 585 G. All solid waste or other refuse, including recycling materials stored in commercial trash receptacles, 586 shall be concealed by a lid attached that shall remain in the closed position unless materials are being

- 587 placed into the receptacle or the receptacle is being serviced. No material shall be permitted to 588 overflow the receptacle.
- H. In the event a commercial trash receptacle is in a dumpster enclosure that includes a gate, regardless
   of whether such a gate would have been required pursuant to this section, the gate shall be of a type
   that opens sufficiently to allow unimpeded access to the trash receptacle by the sanitation vehicle
   and shall have drop pins, hooks, or other devices installed to hold the gate open while the receptacle
   is being serviced. All gates shall remain closed unless the receptacle is being serviced.
- Deviations. In the event an owner is unable to comply with the requirements of this section, the owner may request an administrative deviation from the Director. In determining whether to approve an administrative deviation, the Director shall consider factors such as dimensions of the property, site constraints such as existing development, or other location factors that may make compliance with this section impossible or impractical. The determination to approve an administrative deviation shall be at the sole discretion of the Director.
- J. Maintenance. Commercial trash containers shall be maintained in a manner which is not a nuisanceto surrounding uses.
  - 1. The receptacle shall be stored in the enclosure and the gate(s) to the enclosure shall remain closed at all times unless it is being accessed at that time.
- 609 2. Refuse may not be left outside of the enclosure or on the ground within the enclosure.

669		A.	Abandoned vehicles and watercraft are prohibited from being parked or stored on any
670			property in the City of Cape Coral including in driveways, carports, or on unimproved lots.
2.2			
671		Β.	For locations where abandoned vehicles are prohibited, if an abandoned vehicle or watercraft
672			is not removed from the premises within five days from date of written notice to do so, the
673			vehicle or watercraft shall be deemed a nuisance and shall be in violation of this ordinance.

674 C. Vehicles that are in garages on improved property shall not be deemed to be "abandoned" under this ordinance. 675 D. Repairs may be made on the premises if an emergency exists or if performed on an occasional 676 basis. In all cases, repairs must be performed in such a manner as to not cause unsightliness, 677 678 noise, or obnoxious odors. 679 680 Section 5.1.19. Newspaper Racks. 681 682 A. Purpose. To establish standards and criteria for the placement of newsracks and newspaper 683 vending machines. It is the purpose of this section to establish reasonable time, place, and 684 manner restrictions to further the city's objective in public safety and aesthetics. 685 686 B. Standards. 687 688 1. No person shall place, install, or maintain any newsrack that projects or rests onto, into, or 689 over any part of the roadway of any public street. 690 691 2. No person shall place, install, use or maintain a newsrack that endangers the safety of persons 692 or property when such site interferes with public utility uses or other governmental use; when 693 such newsrack impedes the flow of pedestrian or vehicular traffic, the ingress into or egress 694 from any residence or place of business or any legally parked or stopped vehicle, or the use of light poles, posts, traffic signs or signals, hydrants, mailboxes, or any other objects permitted 695 696 at or near such location; when such newsrack interferes with the cleaning of any sidewalk by 697 use of any sidewalk cleaning machinery or the mowing of grass by mechanical mowing 698 machinery or when such newsrack interferes with the ordinary use of public property. 699 700 3. Newsracks are prohibited in any median within a public right-of-way, roadway, or street. 701 702 4. All newsracks shall comply with the following standards: 703 704 a. The newsracks shall be anchored, set, and maintained on a concrete pad. 705 706 b. Newsracks shall not be placed, installed, used, or maintained: 707 i. Within 10 feet of any marked crosswalk. 708 ii. Within 15 feet of the curb return of an unmarked crosswalk. 709 Within 10 feet of any fire hydrant. iii 710 iv. Within 10 feet of any driveway. 711 Within 15 feet of any designated mass transit bus stop. ν. 712 Within 15 feet of a "No Parking" sign or zone. vi. 713 714 5. Newsracks shall not be used for the display of signs or placement of placards, other than to 715 promote the newspaper, periodical, or other publications contained therein. 716 717 6. Every person who places or maintains a newsrack in the city shall affix on the rear of the 718 newsrack a weather resistant decal no larger than five inches x seven inches that states the 719 distributor's name, address, and telephone number.

720								
721	С.		Indemnification. All distributors of publications utilizing newsracks within the city shall execute an					
722 723			indemnification, in a form approved by the City Attorney, which will hold the city, its officers, employees and agents harmless from any claim, demand or judgment in favor of any person or					
724			entity arising out or resulting from the placement of any newsrack in or over a public right-of-way.					
725								
726 727	D.	En	forcement. Removal of any and all newsracks shall be determined by the following criteria:					
728		1.	Upon determination by a code enforcement officer (as specified in § 2-82.1 of the Code of					
729			Ordinances) that a newsrack has been installed or maintained in violation of the provisions of					
730 731			this section, a citation shall be issued, in a form prescribed by the city, and shall state:					
732		2.	The time and date of issuance;					
733								
734 735		3.	The name and address of the distributor and in the case of a newspaper vending machine, the publisher of the respective newspaper, to whom the citation shall be issued to and served					
736			upon;					
737								
738		4.	The time and date of the violation;					
739 740		5.	A brief description of the violation and the facts constituting reasonable cause;					
741		_						
742		6.	The number or section of this code violated;					
743 744		7.	The name of the code enforcement officer;					
745								
746		8.	Shall specify a reasonable time, not to exceed ten days, in which corrective action should be					
747 748			taken;					
749		9.	The procedure for the person cited to follow in order to pay the civil penalty or to contest the					
750			citation;					
751 752		10	. The applicable minimum (\$25) and maximum (\$200) civil penalty if the person elects to contest					
753			the citation;					
754								
755 756		11	. The applicable civil penalty if the person elects not to contest the citation;					
757		12	. A conspicuous statement that if the person fails to pay the civil penalty within the time					
758			allowed, or fails to appear in court, as the case may be, to contest the citation, the person will					
759 760			be deemed to have waived his right to contest the citation and that in such case, judgment may be entered against the person for the amount stated in the citation;					
761			may be entered against the person for the amount stated in the citation,					
762		13	. A copy of the citation shall be affixed on the respective newsrack.					
763								

- 764 E. Any aggrieved party may appeal a final order to the Circuit Court. Such an appeal shall not be a 765 hearing *de novo*, but shall be limited to appellate review of the record created before the County 766 Court. An appeal must be filed within 30 days of the execution of the order to be appealed.
- 767

777

768 F. Should any newsrack constitute a threat to public health or safety, or is in violation of this section 769 after notice and hearing on said violation, the newsrack shall be subject to removal by the city 770 within 48 hours, unless conditions warrant a shorter time period, following the issuance and 771 service of a citation accompanied by a notice of intent to remove the newsrack. Upon removal, 772 the code enforcement officer shall deliver a notice of removal to the distributor and, in the case 773 of a newspaper vending machine, to the newspaper publisher such notice to describe the location 774 from which the newsrack was removed, the address of the location where the newsrack is being 775 stored and a brief explanation of the procedures by which the publisher or distributor may obtain 776 a release of the newsrack.

778 G. A newsrack removed hereunder shall be stored in a secure location for a period not to exceed 30 779 days. The newsrack shall be released to its distributor, upon proof of ownership and payment of 780 reasonable and actual storage charges. A \$25 pick-up and collection charge will be assessed in 781 addition to the actual and reasonable storage charge for any newsrack not picked up within 48 782 hours. If any newsrack is not claimed within 30 days, the newsrack shall be deemed abandoned 783 and shall become the property of the city, and thereafter be sold at public auction. Approximately 784 ten days prior to the auction, the City Clerk shall furnish a description of the newsrack, the location 785 from which it was removed and a notice of the auction in a newspaper of general circulation within Lee County. The proceeds of the sale shall be applied first to storage charges and then paid to the 786 General Fund of the City of Cape Coral. The city may otherwise dispose of the newsrack in 787 788 accordance with Florida law, as the city deems appropriate.

789

790 H. Amortization period. Each newsrack legally located and placed on the adoption date of this section 791 shall have 90 days from the adoption date of this section to comply with the provisions of this 792 section to recoup any investment from that newsrack and to have sufficient time to transition 793 nonconforming units out of locations throughout the city and to provide conforming newsracks 794 for placement within city limits. Any newsrack not in compliance with this section following the 795 90-day amortization period may be removed by the city in accordance with this section.

# Section. 5.2.1. General Requirements.

800

807

796

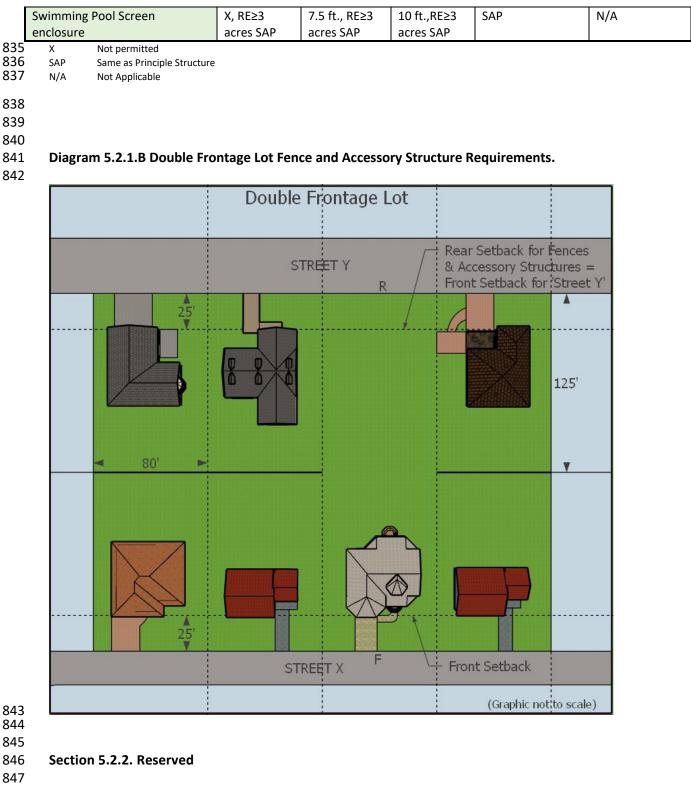

- 801 A. This chapter shall pertain to residential properties unless otherwise specifically stated herein. 802 Accessory structures on non-residential properties shall be reviewed per the standards of that zoning 803 district. Agriculturally zoned properties shall not be considered residential for purposes of this section. 804
- 805 B. Accessory buildings shall be constructed to conform to the minimum building requirements and shall 806 meet all other regulations applicable to the district.
- 808 C. Residential accessory buildings shall be in the rear yard, other than those listed in Section 5.2.1, and 809 shall comply with all of the requirements found in this Section.

810		
811 812	D.	Accessory structures, such as pergolas, arbors, trellises, and flag poles may be in the rear, side, or front yard of the primary structure. Fonces and shads may be normitted in the rear or side yard of the
812 813		front yard of the primary structure. Fences and sheds may be permitted in the rear or side yard of the primary structure.
814		
815	Ε.	No accessory structure, including fences, shall be constructed on any residential parcel not containing
816		a primary structure.
817		
818	F.	Accessory buildings shall be elevated above the base flood elevation (BFE) or provide hydrostatic
819		vents consistent with FEMA regulations.
820		
821	G.	All nonconforming accessory structures shall be subject to the requirements of Article 8
822		Nonconformities.
823		
824	Н.	Any accessory structure not listed in this chapter may be reviewed and considered for approval
825		through a similar use determination process.
826		
827	١.	In non-residential districts, all accessory structures shall be reviewed and held to the same standard
828		as a non-residential structure.
829		
830	J.	Setbacks shall be measured from the property line and must be considered in addition to all other
831		locational requirements.

<sup>848</sup> Section. 5.2.3. Arbors, trellises, and pergolas.

- A. Arbors, trellises, and pergolas shall be allowed as freestanding or attached structures. There is no limit
   on the number of attached pergolas, arbors, and trellises per primary structure.
- B. Freestanding pergolas and arbors are limited to 200 square feet of coverage per single-family
   detached residential property. Freestanding pergolas and arbors are limited to 100 square feet per
   unit of a duplex property.
- C. The amount of freestanding square footage coverage for multi-family residential developments may
   be determined by the Community Development Director. The criteria for this determination include:
- 1. Design, size, location, and number of proposed arbors, trellises, and pergolas;
- 2. Design, size of property, location, and number of units of the multi-family residentialdevelopment; and
- 865 3. Whether the structure will be contrary to the public interest.
- 867 D. Attached pergolas.

- 1. Attached pergolas may be placed over the front entrance or walkway into a residence and must not extend beyond the most forward portion of the primary structure.
- A pergola is considered attached if a minimum of 20% of the pergola's perimeter is attached to
   the primary structure.
- A pergola that is attached to a previously-attached pergola is considered to be an extension of
   the original attached pergola; the enlarged pergola must abide by the setback requirements listed
   in Table 5.2.1.A.
- 879 E. Pergolas, generally.
  - 1. Pergolas must conform to all zoning requirements in terms of height and setbacks.
- 2. The only exception to the prohibition of the placement of a pergola in the rear setback is forpergolas on docks.
- 886
   3. If placed in the rear yard of a waterfront property, or on a dock, pergolas must not unreasonably
   887 restrict or block the view of the canal or waterway of an adjoining lot.
- 889 Section. 5.2.4. Attached and detached garages.
- A. All single-family detached and each unit of a duplex structures shall include a garage with minimum
   dimensions of 14 feet by 20 feet. Carports are prohibited on single-family detached and duplex
   residential properties requiring a garage.
- 894
- B. For attached garages, the following shall apply:

896 897 1. A garage shall be considered attached if it shares at least a five-foot length of common wall with 898 the principal structure. The common wall shall include an internal access door to the principal structure. Attachment through a roof or breezeway structure only shall not be adequate to 899 consider the garage attached. 900 901 902 2. For purposes of this LDC, an attached garage shall be considered to be a part of the principal 903 structure and shall comply with all district regulations for the zoning district in which it is located. 904 905 3. An operable garage door capable of providing access to the garage by a motor vehicle is required. 906 907 4. A driveway providing vehicular access to the garage is required and shall be constructed and 908 maintained in a condition that is safe and free of potholes, and in accordance with the City of Cape Coral Engineering Design Standards. 909 910 5. The garage shall not be included in determining the living area. 911 912 913 6. No garage or storage area shall be used as living quarters unless another garage is constructed 914 prior to conversion. 915 C. For detached garages, the following shall apply: 916 917 918 1. A detached garage shall meet all of the setback requirements of the principal structure. 919 920 2. A detached garage shall be on the same parcel as the principal structure. 921 922 3. A detached garage shall not exceed 1,000 square feet in area. 923 924 4. The height of a detached garage shall not exceed 14 feet in height when measured according to 925 the definition of "building height" in the Land Development Code. 926 5. An operable garage door capable of providing access to the garage by a motor vehicle is required. 927 928 929 6. The maximum size and height restrictions shall not apply in the RE district. 930 931 7. No plumbing shall be allowed in a detached garage except that a single one-compartment sink shall be allowed. 932 933 934 8. The exterior building materials of a detached garage shall conform to the exterior building 935 materials of the principal structure. 936 937 9. A parcel may contain both an attached and detached garage, but only one detached garage shall 938 be permitted. 939 940 Section. 5.2.5. Courts and playing surfaces. 941

1246 1247	C.	Sheds and greenhouses are allowed in the R1, RML, RE, and A districts.			
1248 1249	D.	A lot may contain no more than one shed and one greenhouse.			
1250 1251	E.	Sheds and greenhouses may be within the side yard of a parcel so long as the shed or greenhouse is screened. Screening is required for that portion of the wall of the shed or greenhouse that is visible			

- 1252 from the right-of-way and the nearest adjoining residential property. A wall, fence, shrubs, or a 1253 combination thereof may be used to meet screening requirements as follows:
- 1255 1. If an opaque wall or fence is used for screening, the wall or fence shall be six-feet in height. The 1256 wall or fence may be constructed of wood, vinyl, or a material that has the appearance of wood 1257 or vinyl, or the wall may be masonry, but not be unfinished concrete block. All other materials are 1258 prohibited. A screening wall with a continuous foundation may not encroach into any easement.
  - 2. Alternatively, sheds or greenhouses may be screened with shrubs that meet the following requirements:
    - a. A row of shrubs planted along both sides of the shed and extend at least five feet beyond the walls of the shed or greenhouse.
  - b. All shrubs required for screening within this subsection shall be a minimum of 32 inches in height and be in at least a seven-gallon container size at the time of planting. All shrubs shall be planted no more three feet apart as measured on center.
  - c. All shrubs shall be maintained at a minimum height of six feet at maturity and shall be maintained in good condition as long as the shed requires screening pursuant to this subsection.
- 12743. A shed or greenhouse that would be visible from the right-of-way or from the nearest adjoining1275property, but for an existing fence, wall, or landscaping that shields the shed or greenhouse is1276exempt from additional screening requirements. In the event the screening is removed or altered1277to cause the shed or greenhouse to be visible from the right-of-way or nearest adjoining property,1278the shed or greenhouse shall be screened in accordance with those requirements outlined above1279or moved to fully comply with this Section.
- 12814. On a double frontage lot, sheds or greenhouses shall be screened from view from rights-of-way1282and adjoining properties. See Diagram 5.2.1.B. Double frontage lot fence and accessory structure1283requirements.
- 1285 5. On double frontage lots, sheds or greenhouses in the rear yard shall be setback to a distance 1286 equivalent to the front setback of any adjacent lots that are not double frontage lots.

A. General requirements.

12921. Permitted accessory equipment. Rooftop photovoltaic solar systems shall be deemed permitted1293accessory equipment for all buildings in all zoning categories. Nothing contained in this chapter1294shall be deemed to prohibit the installation of rooftop photovoltaic solar systems on buildings1295containing legally nonconforming uses.

- Maintenance. The photovoltaic system shall be properly maintained and be kept free from hazards, including faulty wiring, loose fastenings, or being maintained in a condition that is unsafe or detrimental to public health, safety, or general welfare.
- Abandonment. Abandoned or unused freestanding solar energy systems not in use for a period
   of 18 months shall be removed at the owner's expense.
- 1304 B. Building-mounted PV systems.
- 1306 1. Roof mounted:

- a. Notwithstanding the height limitations of the zoning district, building mounted solar energy systems shall not extend higher than three feet above the ridge level of a roof, for structures with gable, hip, or gambrel roofs and shall not extend higher than 10 feet above the surface of the roof when installed on flat or shed roof.
- 1313b.The solar collector surface and mounting devices shall be set back not less than one foot from1314the exterior perimeter of a roof for every one foot that the system extends above the roof1315surface on which the system is mounted. Solar energy systems that extend less than one foot1316above the roof surface shall be exempt from this provision.
  - 2. Wall mounted or flush to a building or structure:
    - a. PV arrays are allowed on the walls or sides of any building or structure but shall not encroach into the required front yard setback and may not encroach into side and rear yard setback by more than three feet and shall not extend into or over an easement.
    - b. A minimum of nine feet vertical distance shall be maintained under the PV array where needed to provide adequate clearance for pedestrians.
      - c. To the maximum extent possible, wall mounted PV arrays shall be designed as compatible to the structure and surface to which it is attached.
- 1330 C. At-grade PV systems.
- 13321. Exemptions. The restrictions of this Subsection with respect to height, location, and setbacks are1333not applicable to any accessory component to a freestanding outdoor lighting fixture, telephone1334pole, parking meter, or any other similar structure, as determined by the city.
- 1336 2. Height. The maximum height of any at-grade PV array shall not exceed twelve feet, except for 1337 residential locations, as established in subsection 3., below.
- 13393. Residential location. For PV arrays in or abutting residential zoning districts, the followingrequirements apply:
  - a. PV arrays up to six feet in height are allowed;

1343			
1344			b. PV arrays shall be setback at least seven and one-half feet from interior side property lines
1345			and 10' from rear property lines;
1346			
1347			c. PV arrays are not allowed within the front setback or front yard of a residentially zoned
1348			property; and
1349			
1350			d. The area of the solar collector surface of freestanding solar energy systems shall not exceed
1351			five percent of the lot area.
1352			
1353		4.	Commercial location. For PV arrays in non-residential zoning districts and not adjacent to
1354			residentially zoned property, at-grade PV systems must meet all setback requirements for a
1355			structure within the zoning district.
1356			
1357		5.	The supporting framework for freestanding solar energy systems shall not include unfinished
1358		•	lumber.
1359			
1360	Se	ction	n. 5.2.15. Swimming Pools.
1361			
1362	Α.	Loc	cation of pools; fencing, safety rails; solar screens.
1363			
1364		1.	The construction of a swimming pool, spa, or hot tub is prohibited in the front or side of any
1365			single-family or duplex residential structure, except as permitted in the RE district on parcels of
1366			3 acres or larger. All residential swimming pools, spas, or hot tubs shall be enclosed by
1367			screening. The pool area or the entire back yard shall be enclosed with a minimum four-foot
1368			high fence. When fencing a waterfront yard, the fence shall extend to and no further than the
1369			water side of the seawall cap, otherwise the fence shall extend across the back yard to the rear
1370			of the swimming pool. This fencing or enclosure must be completed before the pool is filled
1371			with water over 24 inches in height and before a final inspection.
1372			
1373		2.	Swimming pools, unroofed pools, enclosed pools, or screen enclosures only with open-mesh
1374			screening shall be placed at the rear of the principal structure only, and not less than ten feet
1375			from the rear property line of any residential parcel. Pools, enclosed pools, or screen enclosures
1376			may not extend more than ten feet beyond the side of the structure or into required side setbacks.
1377			Any part of a pool or screen enclosure covered by a roof or enclosed by side walls over six feet in
1378			height shall be subject to the limitations regarding location of the structure. The minimum
1379			distance requirement from a lot line shall be measured from the exterior of the screen enclosure
1380			for a screen enclosure or an enclosed pool and from the waterline of an unenclosed pool. In no
1381			instance shall any pool, pool enclosure, or screen enclosure, be placed within a utility or drainage
1382			easement.
1383			
1384	Β.	In t	the event that the swimming pool, spa, or hot tub is secured by a screened enclosure or
1385			manent fence and the screened enclosure or permanent fence is damaged by a fire, accident,
1386			severe weather event such as a hurricane, to the extent that the screened enclosure or
4007			

1387 permanent fence is no longer securing the swimming pool, spa, or hot tub, then a temporary mesh

- 1388 safety barrier that meets the minimum requirements set forth in subsection .1B.2. above shall be1389 installed to secure the swimming pool, spa, or hot tub.
- 1391The temporary mesh safety barrier shall be installed as soon as practical but in no event more than1392ten days after such fire, accident, or severe weather event.
- 1394 The temporary mesh barrier may remain in place for a period not to exceed 90 days after the fire, 1395 accident, or severe weather event. The Director of the Department of Community Development, 1396 may extend the time period stated herein upon satisfactory evidence that the property owner has 1397 contracted with a licensed contractor to replace the screened enclosure or permanent fence that 1398 was damaged by the fire, accident, or severe weather event.
- C. All swimming pools shall have adequate safety rails. When swimming pools are constructed in front or at the side of a single-family attached or multi-family dwelling of three or more units, an opaque or semi-opaque screen not less than four feet nor more than six feet in height shall be erected in addition to the fence or screening requirements of § 3.10.1A.
- Parallel to and toward the street lot line no less than the length of the pool when the pool is on the street side of the building; and
  - 2. Parallel to the side and front lot lines no less than the length and width of the pool when the pool is on the side or end of the building.
- 1411 D. Pools, hot tubs, and pool decks in rear or side yards may not exceed a height of 30 inches above grade.
- E. All swimming pools and enclosures constructed or erected on any parcel, other than accessory to a
   single-family detached or duplex residence, shall meet the minimum yard requirements specified for
   buildings or structures in the zoning district the construction occurs.
- F. Portable swimming pools. Portable swimming pools are prohibited in the front or the side of any residential lot. Portable swimming pools capable of holding 24 inches in depth or more of water shall be anchored into the ground sufficiently to prohibit movement during a hurricane. Portable pools shall be enclosed by a fence or other protective material, or otherwise shall be covered, when not in use, by a protective cover so that a child cannot accidentally enter the pool. Drainage of pools so as to permit the water to run onto property of other people is prohibited. Wading or splash pools not capable of holding 12 inches or more of water are exempt from the provisions of this subsection.

Adjacent parcels 1718 shall be permitted to have marine improvements projecting into the waterway up to a 1719 maximum of 30 feet or 25% of the calculated canal width, whichever is less. 1720 1721 b. With respect to end parcels with at least 80 feet of water frontage line, no part of a marine improvement which extends more than six feet in to a canal shall be located less than 12 feet 1722 1723 from the ends of the water frontage line of the parcel. See Diagrams 5.4.3.A. & J 1724 1725 c. With respect to end parcels with more than 40 feet, but less than 80 feet, of water frontage 1726 line, any part of a marine improvement which extends more than six feet into a canal shall be 1727 set back from the ends of the water frontage line of the parcel in accordance with the following formula: (Parcel Waterfrontage - 40 feet) x 0.3. The foregoing restrictions shall apply 1728 1729 to marine improvements projecting from adjacent parcels (based on the length of their 1730 waterfrontage lines) in the same manner as end parcels, except that on the side of the 1731 adjacent parcel that abuts an end parcel, a marine improvement may be built up to the side boundary of the adjacent parcel's marine improvement area, as determined pursuant to 1732 paragraph 10.b below. See Diagram 5.4.3.H 1733 1734 1735 d. With respect to end and adjacent parcels with 40 feet or less of water frontage, no marine improvement shall extend more than six feet into the canal except in accordance with the 1736 1737 following: (Parcel Waterfrontage - 40 feet) x 0.3. The foregoing restrictions shall apply to 1738 marine improvements projecting from adjacent parcels (based on the length of their 1739 waterfrontage lines) in the same manner as end parcels, except that on the side of the adjacent parcel that abuts an end parcel, a marine improvement may be built up to the side 1740 1741 boundary of the adjacent parcel's marine improvement area, as determined pursuant to 1742 paragraph 10.b below. 1743 1744 e. With respect to end and adjacent parcels with 40 feet or less of water frontage, no marine improvement shall extend more than six feet into the canal except in accordance with the 1745 following: 1746 1747 i. Such a parcel may have either a platform dock not more than ten feet wide and extending 1748 not more than 16 feet into the canal or not more than two finger piers (with or without a 1749 boat lift) that together total no more than six feet in deck width and that extend not more 1750 than 30 feet into the canal. 1751 ii. No marine improvement that projects more than six feet into the canal shall extend more than ten feet either side of the center point of the water frontage line of the parcel. 1752 1753 Furthermore, no marine improvement shall extend beyond the ends of the water

- 1754frontage line of the parcel. All marine improvements shall be centered on the centerline1755of the waterfront parcel's marine improvement area. See Diagram 5.4.3.F
- 1757
  7. When a parcel is at the corner of a waterway so as to include water frontage (all under the same ownership) on both the side and end of a waterway, the property owner may install or erect a marine improvement that extends from the side of the waterway to a maximum distance of 25% of the calculated width of the waterway or 30 feet, whichever is less, and from the end of the waterway a distance of 30 feet into the waterway.
- 1763 8. Except as otherwise provided herein for joint marine improvements, no marine vessel (or any part 1764 thereof) when secured in any way to a marine improvement projecting from an end parcel, an 1765 adjacent parcel, or a parcel on a lake or basin (excluding outside corner parcels) shall extend 1766 beyond the boundaries of the marine improvement area of the parcel unless prior written consent of the affected property owner is obtained. Such consent shall be revocable by the affected 1767 1768 property owner and shall automatically terminate in the event the ownership of the affected property changes. In the event ownership changes, the written consent of the new owner must 1769 1770 be obtained if the marine vessel is to continue to extend beyond the ends of the water frontage 1771 of the parcel.
  - 9. Marine improvements that do not project more than six feet into a waterway as measured from the water frontage line may extend the full length of the water frontage of the parcel. However, where the end of a parcel water frontage line abuts the water frontage line of another parcel, the angle at which such two water frontage line ends meet shall be bisected and apportioned equally between the two waterfront parcels. In that event, no marine improvement shall extend beyond the bisector of the angle.
    - 10. No marine improvement that projects more than six feet from the water frontage line of the property shall be permitted to be outside of the marine improvement area for a waterfront parcel. The boundaries and dimensions of the marine improvement area shall be determined as follows:
      - a. End parcels.

- i. The access width of the waterway shall be calculated by subtracting from the calculated waterway width twice the maximum distance that a marine improvement along one side of the waterway could lawfully project as determined pursuant to Section 5.4.4.A.1.
  - ii. The waterway access ratio shall be calculated by dividing the waterway access width by the calculated width of the waterway.
- iii. The waterway center point (WCP) is a point on the centerline of the canal 30 feet from the water's end. All marine improvement area lines and intersections are calculated and plotted from the WCP. See Diagram 5.4.3.B.
- 1794iv. Offset points for the parcel are determined as follows: If the parcel has 80 feet or more1795of water frontage line, then the offset points shall be located 12 feet from each end of1796the water frontage line of the parcel. If the parcel has more than 40 feet, but less than 801797feet of water frontage line, then the offset points shall be located in from the ends of the1798water frontage line the distance (in feet) resulting from the following formula: (Feet of1799Water Frontage Line 40) x 0.3. If the parcel has 40 feet or less of water frontage line,

1800		then the ends of the parcel's water frontage line shall be the offset points. See Diagram
1801		5.4.3.C.
1802		v. From the WCP, plot a line having the same relationship to the WCP as the water frontage
1803		line has to the center of the canal end, but with all distances reduced in size by the
1804		waterway access ratio. This line is the offset line for the parcel. See Diagram 5.4.3.D.
1805		vi. The marine improvement area is that area enclosed by the water frontage line, the offset
1806		line, and lines connecting the ends of the offset line to corresponding offset points. See
1807		Diagram 5.4.3.E.
1808		
1809	h	Adjacent parcels. The marine improvement area for an adjacent parcel shall be calculated in
1810	υ.	the same manner as that for an end parcel except as follows:
1810		the same manner as that for an end parcer except as follows.
1812		i. Adjacent parcel that abuts an end parcel with 40 feet or less of water frontage line. On
1813		the side of the adjacent parcel that abuts an end parcel with 40 feet or less of water
1814		frontage line, the side boundary of the marine improvement area shall constitute the side
1815		boundary of such adjacent parcel's marine improvement area. See Diagram 5.4.3.I. & J.
1816		ii. Adjacent parcel that abuts an end parcel with more than 40 feet of water frontage line.
1817		On the side of the adjacent parcel that abuts an end parcel with more than 40 feet of
1818		water frontage line, the side boundary of the adjacent parcel's marine improvement area
1819		shall be determined by drawing a line from the end of the subject adjacent parcel's water
1820		frontage line (on the same side as the subject end parcel) to the nearest terminus point
1821		of the subject end parcel's offset line and passing through the adjacent parcel's offset line.
1822		The side boundary shall be that portion of the aforesaid line between the end of the
1823		adjacent parcel water frontage line and the parcel's offset line. However, in no event shall
1824		the side boundary extend beyond the bisector of the angle formed where the adjacent
1825		parcel's water frontage line abuts the end parcel's water frontage line. The bisector shall
1826		be extended into the waterway the maximum distance a marine improvement could
1827		lawfully project within the marine improvement area. See Diagram 5.4.3.G.
1828		
1829	c.	Parcels on lakes and basins (excluding outside corner parcels). A waterfront parcel shall be
1830		deemed to be on a lake or a basin if the parcel abuts a body of water identified as a lake or a
1831		basin on the officially adopted Future Land Use Map of the City of Cape Coral. Except for
1832		outside corner parcels, all waterfront parcels on lakes or basins shall be categorized as corner
1833		parcels, adjacent parcels, or end parcels. A corner lake or basin parcel shall be a parcel that
1834		either touches or is on both sides of an interior corner of a lake or basin. In other words, a
1835		corner lake or basin parcel may be one with a water frontage line that is V-shaped because it
1836		physically runs along the edge of the lake or basin, turns at the corner, and continues along
1837		the edge of the lake or basin, or it may be a parcel the water frontage line of which ends at a
1838		corner of the lake or basin where another side of the lake or basin begins, or it may be a parcel
1839		that is angled in such a way that each end of its water frontage line touches a different side
1840		of the lake or basin. Also, an adjacent lake or basin parcel shall be a parcel that is on a lake or
1841		basin and that abuts at least one corner parcel. All other parcels on lakes or basins and that
1842		are neither corner parcels or adjacent parcels shall be treated as end parcels.
1843		
1844	d.	The marine improvement area for parcels on lakes or basins shall be calculated as follows:
1845		

- 1846 i. For an end parcel, the side of the lake or basin upon which the parcel is physically located 1847 shall be deemed to be the end of the lake or basin and the sides of the lake or basin shall 1848 be deemed to be the sides of the lake or basin running roughly perpendicular to the end 1849 of the lake or basin and to the left and to the right of the parcel (when facing the lake or basin). For purposes of this Section, the waterway access ratio for all end lake and basin 1850 1851 parcels shall be one. In addition, the WCP for end lake or basin parcels shall be 40 feet 1852 into the lake or basin as measured perpendicularly to the lake or basin end from the 1853 center of the lake or basin end. All marine improvement area lines and intersections are calculated and plotted from the WCP. The remainder of the marine improvement area 1854 1855 boundary calculations for end lake or basin parcels shall be the same as those performed 1856 with respect to canal end parcels.
- 1857 ii. For corner lake or basin parcels, the configuration of the marine improvement area shall 1858 be determined by the physical configuration of the particular corner parcel. With respect to a corner parcel the water frontage line of which lies entirely on one side or end of a 1859 1860 lake or basin, but terminates at the corner of the lake or basin where the other side of the lake or basin begins, the marine improvement area shall be calculated in the same 1861 1862 manner as for end lake or basin parcels except that the side boundary of such marine 1863 improvement area (on the side where the corner of the lake or basin is located) shall be 1864 formed by a line bisecting the angle of such corner and extending to the offset line of the 1865 marine improvement area. See Diagram 5.4.3.K.

- iii. With respect to a corner parcel that is angled so that each end of its water frontage line is on a different side of the lake or basin or for a corner parcel with a V-shaped water frontage line, the marine improvement area configuration shall be determined as follows: First, calculate the waterway access ratio for each side of the lake or basin in the same manner as the waterway access ratio for a canal is determined. Then measure the distance from the center of each side of the lake or basin touched by the corner property to the end of the water frontage line, or to the offset point, if any, on such side of the lake or basin. Multiply each of the aforesaid distances by the waterway access ratio for the relative side of the lake or basin to obtain the length of the waterway line for each side of the lake or basin. Plot the waterway line from the center of the side of the lake or basin for which it was calculated to a point that is 30 feet waterward from the water frontage line. The offset line for a corner parcel marine improvement area is formed by connecting the two foregoing points. The marine improvement area for the corner parcel is that area enclosed by the parcel water frontage line, the offset line, and lines connecting the ends of the offset line to the corresponding offset points for the parcel, if any, or to the ends of the water frontage line. See Diagrams 5.4.3.L & M.
- 1882 iv. For adjacent lake or basin parcels, the marine improvement area shall be calculated in the 1883 same manner as that for end lake or basin parcels except as follows: With respect to an 1884 adjacent lake or basin parcel that abuts a corner parcel with 40 feet or less of water 1885 frontage line, the side boundary of the corner parcel marine improvement area (on the 1886 side where it abuts the adjacent parcel) shall form the side boundary of the adjacent 1887 parcel marine improvement area. With respect to an adjacent lake or basin parcel that 1888 abuts a corner parcel with more than 40 feet of water frontage line, the side boundary of 1889 the adjacent parcel (on the same side as the subject corner parcel) shall be determined 1890 by drawing a line from the end of the adjacent parcel water frontage line to the nearest 1891 terminus point of the subject corner parcel offset line and passing through the adjacent

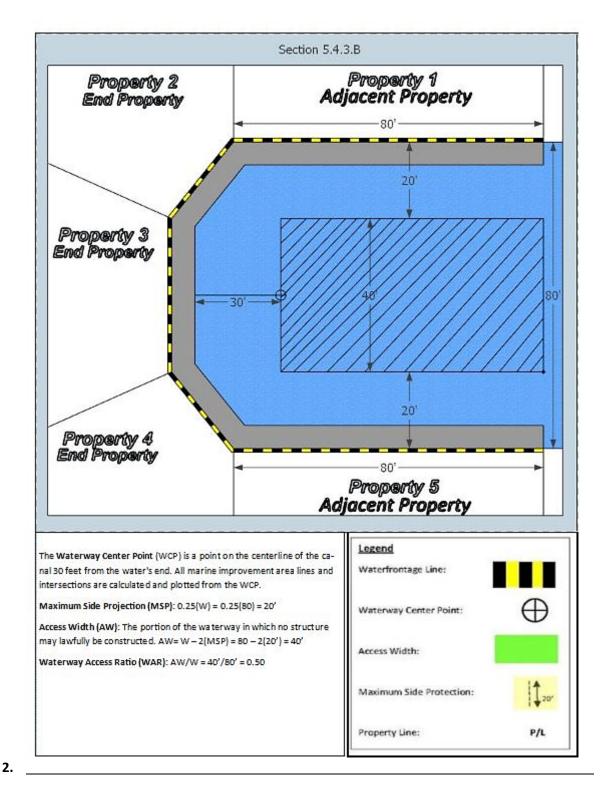

1892

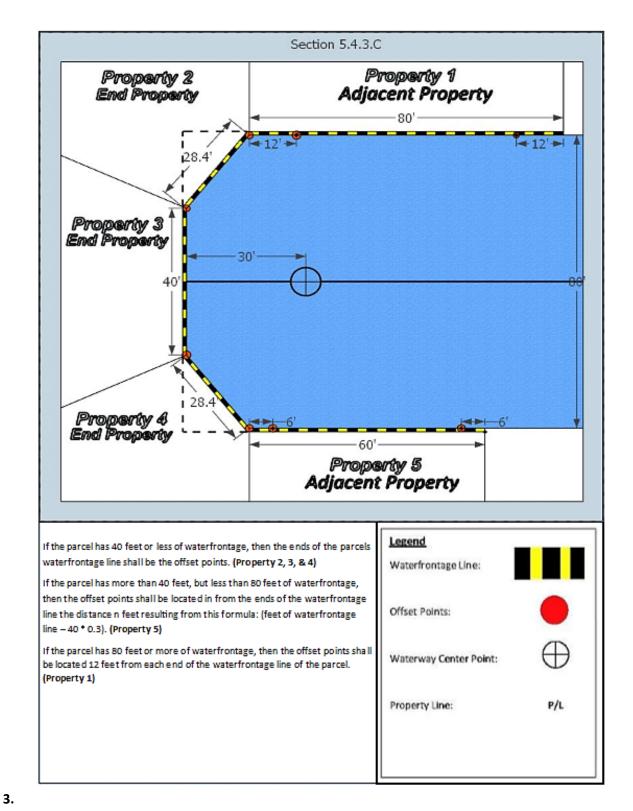

parcel offset line. The side boundary of the adjacent parcel shall be that portion of the aforesaid line between the end of the adjacent parcel waterfrontage line and such 1893 1894 parcel's offset line. See Diagram 5.4.3.M 1895 v. Owners of waterfront parcels on a lake or basin aggrieved by the interpretation or application of this Section to such parcel due to the physical configuration of the 1896 1897 particular lake or basin, then the Director may interpret and apply the provisions of this 1898 Section so as to alleviate the hardship resulting from the configuration of the lake or basin 1899 and so as to enable the waterfront parcel a reasonable marine improvement area. 1900 1901 6. In the event a significant portion of a waterway is not developable on one side due to ecological 1902 or other constraints, a marine improvement on the opposite side of the unnavigable portion 1903 shall be permitted to project into the waterway up to 50% of the calculated waterway width or 1904 40 feet, whichever is less, as measured from the waterfrontage line. See Diagram 5.4.3.N 1905 1906 7. No marine vessel (or any part thereof) when secured in any way to a marine improvement shall extend beyond the ends of the water frontage of the parcel from which the marine 1907 1908 improvement projects. 1909 1910 8. All properties adjacent to bridges shall be reviewed individually by the city to determine what, if any, marine improvement may project from that property. Factors to be considered in making 1911 1912 this determination include, but are not limited to, public safety and the impact of a planned 1913 marine improvement on navigability. 1914 B. Maximum dock surface area. 1915 1916 1917 For parcels with more than 40 feet of waterfrontage, the maximum deck surface area 1918 coverage shall be calculated as follows: the linear feet of water frontage of the parcel minus 20 feet times one-half times the linear feet of the maximum projection into the waterway 1919 1920 (25% of the calculated width of the waterway or 40 feet, whichever is less). 1921 2. For parcels with 40 feet or less of waterfrontage, the maximum deck surface area shall be 1922 calculated as follows: the linear feet of waterfrontage of the parcel times one-quarter times 1923 1924 the linear feet of the maximum projection into the waterway (25% of the calculated width of the waterway or 40 feet, whichever is less). 1925 1926 1927 Section 5.4.3. #### 1948 Section 5.4.4. Joint Marine Improvements.

1949

1950 Owners of adjoining waterfront parcels may adjust their abutting marine improvement area boundaries 1951 and offset requirements by entering into a written joint use agreement, provided the marine 1952 improvements are connected. A captain's walk does not constitute a connection for requiring a joint 1953 marine improvement. All limitations regarding the maximum area of marine improvements shall apply to 1954 each property and the maximum marine improvement area allowed for each parcel shall not be combined 1955 or modified in any way so as to increase the maximum marine improvement area allowed for either parcel. 1956 Marine vessels or boat canopies when secured in any way to a joint marine improvement may extend 1957 beyond the end of one of the waterfront parcels involved at the point where such parcel abuts the other 1958 parcel sharing the marine improvement. However, no marine vessel (or any part thereof) shall extend 1959 beyond the outer ends of the water frontage of the two waterfront parcels except as provided in § 1960 5.4.3.A.8 The joint use agreement shall, at a minimum, comply with the following requirements.

- 1961
- 1962 1963

1967

1971

A. The agreement shall contain the name(s) and current home address(es) of both property owners.

1964 B. The agreement shall identify the waterway upon which the subject parcels are located and shall 1965 identify the waterfront parcels involved by legal description and by STRAP number. The agreement 1966 shall also include a signed and sealed survey of the subject adjoining parcels.

- 1968 C. The agreement shall include a drawing of the proposed marine improvement(s) to be constructed, 1969 showing the design and dimensions of the marine improvement(s), and where the marine 1970 improvements will project from the parcels.
- 1972 D. The agreement shall identify those areas that would be subject to access (ingress and egress) 1973 easements in conjunction with the joint marine improvement. Such easement(s) shall identify by legal 1974 description the property to which the easement attaches and shall be irrevocable except with the written consent of the city. The rights of each party with respect to such easement(s) shall run with 1975 1976 the title to the respective parcels. A drawing identifying the easements shall also be included with the 1977 agreement.
- 1979 E. The agreement shall identify the responsibilities of each of the parties for the construction and 1980 maintenance of the facilities. However, identification or division of responsibilities between parties in 1981 the agreement shall not affect the ability of the city to enforce any and all provisions of its Code of 1982 Ordinances or Land Development Codes against the property owner(s) of the joint marine 1983 improvement, jointly and severally.
- 1984

- 1985 F. The agreement shall state that the parties understand and agree to abide by all applicable federal, 1986 state, and local regulations pertaining to the construction, maintenance, and use of the facilities.
- 1987
- 1988 G. The agreement shall run with the land and be binding upon the parties, their successors, heirs, and 1989 assignees and it shall provide that it may not be rescinded or amended without the written consent 1990 of the city. 1991
- 1992 H. The parties to the agreement shall record the agreement, at their own expense, in the public records 1993 of Lee County. The agreement shall satisfy all requirements for recording, including those contained

1994 in the Florida Statutes. No permit for the construction of a joint marine improvement or for the 1995 erection or installation of a boat canopy on a joint marine improvement shall be issued by the city 1996 until the parties have first provided to the city a copy of the fully executed agreement and evidence 1997 of recording that is satisfactory to the city, in its sole discretion. 1998 1999 I. Prior to execution and recording of the agreement, the parties shall submit a draft of the proposed 2000 agreement to the Community Development Director for review and comment. 2001 2002 Section. 5.4.5. Quays and mooring piles. 2003 2004 A. A seawall may be altered to accommodate the mooring of a vessel if it is determined that the seawall 2005 is structurally sufficient for that purpose. 2006 2007 B. Mooring piles may be installed directly adjacent to the seawall to allow for the mooring of watercrafts 2008 without a dock. 2009 C. Pilings shall not be higher than eight feet above mean high water. 2010 2011 2012 D. Any watercraft moored at a guay or a pile may not be any closer than 10 feet to the adjacent property 2013 line. 2014 2015 Section. 5.4.6. Davits, watercraft lifts, and floating docks. 2016 2017 A. Lifts: An electrical permit is required to install a lift within an existing u-shaped dock. 2018 2019 B. Davits: 2020 1. The minimum side setback for davit installation shall be five feet from the side lot line to the 2021 2022 center of the davit base. 2023 2. Davits, including swinging lifts when extended over the water, may not extend further than 25% 2024 2025 into the waterway or 30 feet whichever is less. 2026 2027 3. Overhead hoists, davits, or machinery shall not exceed eight feet above mean high water when 2028 not in use. 2029 2030 C. Floating docks and lifts: 2031 2032 1. For dimensional requirements refer to Section 5.4.3. above. 2033 2034 2. A floating dock or lift must be anchored in place so as not to impede the use of neighboring 2035 waterfront property. 2036 2037 Section. 5.4.7. Boathouses and canopies. 2038

- A. No overhead structure shall be constructed on any dock other than an approved boat canopy or sun
   shelter. Sun shelters shall be erected or installed on docks only in accordance with Section 5.2.10. of
   this article. Boat canopies are permitted to be erected or installed on marine improvements for the
   purpose of protecting a vessel from the elements only in accordance with the following:
- 2043

2049

2053

2058

2060

2065

2067

2070

- B. The support(s) and frame(s) of a boat canopy shall be constructed of a corrosion-resistant material.
  Boat canopy supports shall be arranged in an open design so as to allow visibility through the sides
  with openings no smaller than four feet in any dimension. No boat canopy support or frame shall be
  of a solid or opaque design so as to create a wall. No boat canopy shall have wooden framing or
  supports. No shutter roll-up design shall be permitted.
- C. The canopy shall be fabric or a material which can be rolled and folded without damage. The canopy
   shall be attached to the boat canopy supports or frames in such a manner that it detaches in a wind
   load of 70 mph or greater.
- D. The boat canopy shall not extend horizontally more than 30 inches over or beyond any dock to which
   the canopy is attached, except to the rear of a boat slip where it may extend up to 48 inches past the
   end of the structure. Canopies attached to marine improvements that are built to the maximum
   projection, may extend up to 30 inches beyond the structure.
- 2059 E. No boat canopy shall exceed 40 feet in length or 18 feet in width.
- F. Boat canopies, their supports, and frames shall be maintained in good repair at all times. No canopy, canopy support, or frame shall be allowed to fall into disrepair or to become dilapidated, structurally dangerous, or unsafe. In the event a boat canopy, canopy support, or frame falls into disrepair, it shall be the responsibility of the owner of the waterfront parcel to remove the offending structure.
- 2066 G. Only one canopy may be permitted per parcel.
- H. No boat canopy, when measured at its highest point, shall extend more than 14 feet above the seawall
   cap, or if no seawall exists, above the decking of the marine improvement.

## 2071 Section. 5.4.8. Bulkheads, seawalls, and retaining walls.

- A. Mandatory seawalls required; saline or brackish water. All parcels having frontage or direct and immediate access to frontage on any saline, brackish, or tidally influenced canal or other body of water within or bordering the boundaries of the city is required to have a seawall bulkheading the entire frontage exposed to contact with the water.
- 2077 B. Seawalls; fresh or non-saline water. All parcels having frontage or direct and immediate access to 2078 frontage on any freshwater or non-tidal canal or other body of water within or bordering the 2079 boundaries of the city are required to have a seawall bulkheading the entire frontage exposed to 2080 contact with the water or alternatives to vertical bulkheads as specified in the City of Cape Coral 2081 Engineering Design Standards. Seawalls or their alternative shall be structurally maintained at owner's 2082 expense so as not to cause a nuisance or hazard to safety. The provisions of this Section shall not apply 2083 to any parcels adjacent to or contiguous with any drainage ditch, canal, pond, or lake within any public 2084 or private golf course or public park.

- 2085
- 2086 C. Bulkheads under SFWMD jurisdiction. The construction of bulkheads, in association with water
   2087 management system lake construction under jurisdiction of SFWMD, shall be in compliance with
   2088 SFWMD criteria.
- 2089

Single-family residential and duplex parcels. Parcels bounded by bulkheads shall construct an infiltrationtrench adjacent to and along the entire length of the bulkhead.

2096

2092

## 2095 Section 5.5.1. Purpose and intent.

2097 This section is established to provide general landscape regulations, to improve the appearance of certain 2098 setback and yard areas, including off-street vehicular parking, open lot sales and service areas, and to 2099 protect and preserve the appearance, character, and value of the surrounding neighborhoods. The 2100 principles of the Florida-Friendly Landscaping Program with regard to planning and design, soil 2101 improvement, efficient irrigation, limited turf areas, mulches, drought tolerant plants, and appropriate 2102 maintenance are the basis for the principles in this section and should be used as guidance in all new 2103 construction and landscape renovations so as to provide the most green with the least water and create 2104 a landscape that can survive largely undamaged in case of short term water restrictions.

## 2106 Section 5.5.2. Florida-Friendly Landscaping Program principles.

- The city strongly encourages adherence to the Florida-Friendly Landscaping Program that includes thefollowing principles:
- A. Right plant, right place. Plants selected to suit a specific site will require minimal amounts of water,
   fertilizer and pesticides.
- B. Water efficiently. Irrigate only when lawn and landscape need water.
- C. Fertilize appropriately. Less is often better. Over-use of fertilizer can be hazardous to your yard and
   the environment.
- D. Mulch. Maintaining a layer of mulch will help retain soil moisture, prevent erosion and suppressweeds.
- E. Attract wildlife. Plants in private yards that provide food, water and shelter can conserve Florida's diverse wildlife.
- F. Manage yard pests responsibly. Unwise use of pesticides can harm people, pets, beneficial organisms,and the environment.
- 2128G. Recycle yard waste. Grass clippings, leaves, and yard trimmings recycled onsite provide nutrients to2129the soil and reduce waste disposal.

2130

- H. Reduce stormwater runoff. Water running off from private yards can carry pollutants such as soil,
  debris, fertilizer, and pesticides that can adversely impact water quality.
- Protect the waterfront. Waterfront property is very fragile and should be carefully protected to
   maintain freshwater and marine ecosystems.

### 2137 Section 5.5.3. Applicability.

- 2138
  2139 A. Except as provided under Section 5.5.4, Exemption, the landscape standards of this section shall
  2140 apply to all new construction of single-family homes and duplexes, and to all other new construction
  2141 requiring SDP review under Article 3. The landscape standards of this section are in addition to any
  2142 landscape standards for specific land uses as established in Chapter 10, Specific Use Regulations, of
  2143 this Article.
- B. Additionally, all landscape standards of this section shall apply to amendments to a site plan thatwould have the effect of:
- Increasing the total square footage of any one building or the total square footage of all buildings on a site by more than 20%;
  - 2. Increasing the number of buildings; or
- 2153 3. Adding any new or expanding any existing off-street parking area.
- C. The existing portion of an amended or expanded project which is demonstrated to be completely
  and fully in compliance with an approved landscape plan at the time of application is not required to
  be modified to comply with this section.

### 2255 Section 5.5.8. Existing trees.

2256

A. Generally. Except for trees on the Florida Exotic Pest Plant Council's list of Category I invasive exotics, existing trees may be used to meet the minimum tree requirements for the site if they are indicated on the landscape plan (when a landscape plan is required), have a minimum diameter at breast height (DBH) of two inches, and are properly protected during any clearing or construction on the property.

2262 Developers are encouraged to preserve existing heritage trees. For any site other than a single-family 2263 or duplex site, if during development or any time throughout the life of the development, regardless 2264 of change in ownership or use(s), any heritage tree is removed or damaged, it shall be replaced with 2265 a Florida native tree that meets the quality of materials standards in this article, with a minimum 2266 caliper of six inches measured at a height of 12 inches above the ground, with a height not less than

2267 2268 2269		20 feet; however, this requirement shall not increase the total number of trees otherwise required for the site by more than 10%.
2270 2271 2272 2273	В.	Protection of trees during development activities. Prior to any land preparation or other development activities, a protective barrier shall be established around all trees that are not to be removed, as follows:
2274 2275 2276		1. The protective barrier shall enclose at least that area within a radius of one foot for every inch of caliper DBH around the tree.
2277 2278 2279		2. The protective barrier may encompass more than one tree, and shall be established with a barrier as follows:
2280 2281 2282		<ul> <li>Posts shall be implanted in the ground deep enough to be stable and with at least three feet visible above ground.</li> </ul>
2282 2283 2284 2285 2286		b. The protective posts shall be placed not more than six feet apart and shall be linked together at a height of at least three feet by rope, chain, silt fence fabric, or orange safety fence at least three feet in height, or any combination thereof.
2280 2287 2288 2289		3. Required protective barriers and perimeter lines shall remain in place until all construction activity, except landscaping within the protected area, is terminated.
2289 2290 2291	C.	Construction activity limitations.
2291 2292 2293 2294		1. No attachment, wires (other than supportive wires), signs or permits may be fastened to any tree that is not to be removed.
2295 2296 2297 2298 2299 2300 2301 2302		2. Landscaping activities within the area of the protective barrier (before and after it is removed) shall be accomplished with manual labor or light machinery that, if self-propelled, is not designed to bear the weight of the operator. Such light machinery may include string trimmers, walk-behind lawn mowers, or chainsaws. Except as necessary to perform landscaping activities as described above, no construction personnel shall enter the area within the protective barrier. Further, no equipment, tools, construction materials, debris of any kind, or more than six inches of soil shall be placed within the protective barrier.
2303 2304 2305		3. If fill is deposited adjacent to a protective barrier, a suitable temporary or permanent retaining structure shall be constructed to prevent siltation within the area of the protective barrier.
2306 2307 2308 2309		4. If it can be reasonably accomplished, water, sewer, and other utility lines should be routed around the protective barrier of trees that are not to be removed. If a line cannot reasonably be routed around the protective barrier, the line shall be tunneled beneath the area and shall be offset to one side of the trunk to prevent damage to the main tap roots.
2310 2311 2312	D.	Exempt trees. This subsection shall not apply to trees grown at commercial nurseries, as part of their stock.

2313

2315

2314 Section 5.5.9. Prohibited vegetation.

2316 A. The following invasive exotic plants are prohibited and shall be removed from the development site, in its entirety. For projects developed in phases, all invasive exotic plants shall be removed from areas 2317 2318 to be developed under future phases at the time the first or any subsequent phase is developed. 2319 Methods to remove and control invasive exotic plants must be included on required landscape plans, 2320 for projects that require a landscape plan. Methods of removal and control that would damage native vegetation to be preserved are prohibited. The development sites shall be maintained free from 2321 2322 invasive exotic plants in perpetuity. For purposes of this subsection, invasive exotic plants include the 2323 following listed plants, or those plants currently listed as a Category I invasive by the Florida Exotic Pest Plant Council (FLEPPC) at the time of development: 2324

All plant materials required by this section shall conform to the following at the time of planting:

A. Plant installation standards. Plant materials shall be installed in soil conditions that are conducive to 2338 2339 the proper growth of the plant material. Soil in planting areas shall be loose, permeable, friable, and 2340 free of limestone and other construction materials, off-street parking area base material, rocks, 2341 noxious weeds, grasses, hard pan, clay, or other debris. For purposes of this section, noxious weeds 2342 are those plants listed in Section 5B-57.007, F.A.C, State Noxious Weed List, by the Florida Department 2343 of Agriculture and Consumer Services. It is recommended that such materials be removed to a depth 2344 of two and one-half feet for the well-being of plant materials. Required canopy trees, accent trees, 2345 palm trees, and shrubs shall be planted on grades not exceeding 3:1.

2347 B. Plant species and grade. A minimum of 50% of all required canopy trees and accent trees and a 2348 minimum of 30% of all required shrubs and groundcovers, excluding turf grass areas, shall be Florida 2349 native as defined by this section. Any plant material on the Florida Exotic Pest Plant Council's list of Category I invasive exotics, as may be amended, shall not be counted toward the required plantings 2350 2351 in this section. The City of Cape Coral prohibits the use of any plant material on the Florida Exotic Pest 2352 Plant Council's list of Category II invasive exotics, which are not expressly prohibited by Section 5.5.9. Plant materials used in conformance with the provisions of this section shall meet or exceed the 2353 Standards for Florida No. 1, as set forth in the latest edition of "Grades and Standards for Nursery 2354 2355 Plants" published by the State Department of Agriculture and Consumer Services, including minimum crown spread diameter, root-ball sizes, and container volumes. 2356

- 2358 C. Tree standards.
- Canopy tree size. Except in the South Cape Downtown District, all canopy trees required to meet minimum requirements shall have a minimum height of ten feet, and shall have a minimum caliper of two inches measured at a height of 12 inches above the ground. In the South Cape Downtown District, all canopy trees required to meet minimum requirements shall have a minimum height of 12 feet and a minimum caliper of three inches measured at a height of 12 inches above the ground.
  - Palm tree size. Palm trees required to meet minimum requirements shall have a minimum size of 16 feet overall, unless located within ten feet of a walkway, in which case they shall have a minimum of ten feet of clear trunk at planting.
    - Accent tree size. Accent trees required to meet minimum requirements shall have a minimum height of eight feet, have a minimum caliper of one and one-half inches measured at a height of six inches above the ground.
    - 4. Tree species mix. A mix of species shall be provided according to the overall number of trees required to be planted. Species shall be planted in proportion to the required mix. The minimum number of species to be planted is indicated in Table 2.
      - Table 5.5.10: Required Species Mix

- 5. Shrub standards. Except as otherwise provided herein, shrubs planted in residential development shall be a minimum of 18 inches in height and be in at least a three-gallon container size at time of planting. Shrubs planted in all non-residential and mixed-use development must be a minimum of 24 inches in height and be in at least a seven-gallon container size at time of planting. Shrubs required for buffer yard plantings must be a minimum of 32 inches in height and be in at least a seven-gallon container size at time of 30% of shrubs required. Saw palmettos (Serenoa repens) and coonties (Zamia floridana) may be used as shrubs, provided they are 12 inches in height at time of planting.
  - 6. Groundcovers and sod.
    - a. Groundcovers shall be planted no more than 24 inches apart for one-gallon pots or 12 inches apart for four-inch pots.
    - b. Wherever used, sod shall be installed with no gaps or overlaps, so as to present a finished appearance and prohibit erosion of the planted area.
  - 7. Firewise landscaping. Landscaping within areas subject to wildfire hazard and should incorporate firewise landscaping techniques promulgated by the Florida Department of Economic Opportunity and the Department of Agriculture and Consumer Services.
- 2401 Section 5.5.11. Planting in public drainage or utility easements.
- No canopy trees, accent trees, palm trees, or shrubs required by this section shall be planted within a public drainage or utility easement without approval of the city. The city may deny approval to place landscaping materials in an easement if such would conflict with existing or proposed utilities or drainage functions. If the city approves the placement of any plant material installed to meet the requirements of this section within a public drainage or utility easement and the landscape material is removed or damaged by construction or maintenance of drainage facilities or utilities, the property owner shall replace all such plant material within 30 days of the completion of the drainage or utility work, in accordance with the following criteria:
- 2412 A. Canopy trees.
- 24141. If planted back in the public drainage or utility easement, the property owner shall replace the2415canopy tree with a tree having a minimum caliper as the removed or damaged tree; however, if2416the removed or damaged tree is greater than four inches in caliper (measured at a height of 12

- inches above the ground), the replacement tree shall be required to be a minimum of four inchesin caliper.
- 2420
  2. If planted in an alternate location that is not within a public drainage or utility easement, the property owner shall replace the canopy tree with one meeting the minimum size required within this Chapter and that is subject to all other requirements of this section. For sites required to have a site plan, such alternate plant location shall be indicated on a revised landscape plan and is subject to approval by the city.

- 2434
  2. If planted in an alternate location that is not within a public drainage or utility easement, the property owner shall replace the palm tree with one meeting the minimum size required within this Chapter and that is subject to all other requirements of this section. For sites required to have a site plan, such alternate plant location shall be indicated on a revised landscape plan and is subject to approval by the city.
- C. Shrubs. Regardless of whether the shrub is located in a public drainage or utility easement, the
   property owner shall replace the shrub with a shrub meeting the minimum size required within this
   chapter.
- The property owner shall notify the city when the replacement planting required by this subsection have been installed and are ready for re-inspection.
- 2447 Section 5.5.12. Single-family homes and duplexes.
- 2449 The following landscape requirements shall be met for all single-family and duplex units.
- A. Trees required for single-family homes. All newly constructed single-family homes shall have a minimum number of trees per building site in accordance with Table 5.5.12.A: Trees Required for Single-Family Homes. Where a home site includes a septic tank between the structure and the street, trees shall be planted a minimum of six feet from the septic tank or its drain field.

C. Credit for larger, canopy trees. The required number of canopy trees may be reduced by one tree if
 an existing or proposed canopy tree is at least two inches of increased caliper above the minimum
 planting size specified in this Chapter. Single-family homes and duplexes are not eligible for the Tree
 Credit Program provided by Section 5.5.15.

- D. Shrubs required. Each single-family home and duplex shall be landscaped with a minimum of 20 three gallon shrubs of which a minimum of ten shall be planted at any location in the front yard.
- 2472 E. Mulch, groundcover, and planting beds.
- The soil surface of the land area not covered by structures or hardscape features shall be covered with sod or planting beds containing canopy trees, accent trees, palm trees, shrubs, groundcover, or any combination thereof. When shrubs are used in planting beds, shall be planted not more than 48 inches apart. Permeable synthetic turf may be used in lieu of sod, so long as it is not used to cover more than 20% of the total land area not covered by structures or hardscape features and is not within a front yard or right-of-way.
- 2481 2. A two-inch minimum layer of organic mulch, measured after watering-in, shall be placed and 2482 maintained around all newly installed canopy trees, accent trees, palm trees, and shrubs. A two-2483 inch minimum layer of organic mulch, measured after watering-in, shall be placed around all 2484 newly installed groundcover plants so that bare areas of sod are not exposed; however, the mulch 2485 around groundcover plants is not required to be maintained after the groundcover becomes 2486 established. Except as otherwise provided in these regulations, each canopy tree, accent tree, and palm tree shall have organic mulch no less than 36 inches beyond its trunk in all directions; 2487 2488 however, the mulch shall be kept away from the trunks and stems of plants so as to avoid 2489 conditions that may be conducive to collar rot, basal canker, or other fungi. The use of cypress or 2490 cedar mulch is strongly discouraged. 2491
  - ARTICLE 5 DEVELOPMENT STANDARDS Final P&Z Public Hearing Version 11-30-2018.docx

- 3. The use of any inorganic mulch, including pebbles or shells to cover the soil surface is not recommended. Inorganic mulch should only be used to frame the outside of beds or to control erosion and should not be used to cover the root ball of newly planted trees or shrubs. Inorganic mulch shall not exceed 10% of the total land area not covered by hardscape features.
- 24974. The right-of-way from the edge of the street pavement to the property line shall be planted with2498sod or other approved groundcovers, except as otherwise provided in the City of Cape Coral Code2499of Ordinances or Land Use and Development Regulations.
- F. Irrigation systems. Irrigation systems are encouraged but not required; however, where they are installed, they shall meet the standards of Section 5.5.14.

# 2504 Section 5.5.13. Landscaping for all development other than single-family homes and duplexes.

2506 The provisions of this section shall not apply to single-family homes and duplexes unless otherwise 2507 specifically stated herein. The soil surface of the land area not covered by structures or hardscape features 2508 shall be covered with sod or planting beds containing canopy trees, accent trees, palm trees, shrubs, 2509 groundcover, or any combination thereof. Shrubs in planting beds shall be planted not more than 48 inches apart. Permeable synthetic turf may be used in lieu of sod, so long as it is not used to cover more 2510 2511 than 20% of the total land area not covered by structures or hardscape features and is not within a front 2512 yard or right-of-way. The right-of-way from the edge of the street pavement to the property line shall be 2513 planted in accordance with the requirements of subsection B. below.

2515 A. Tree planting requirements.

- 2517 1. Except in the South Cape District, all sites, exclusive of buffer areas, shall have at least one canopy tree for each 1,000 square feet of gross land area, except that accent trees or palm trees may be 2518 2519 substituted for a required canopy tree as indicated below. Trees required for buffers may be used 2520 for meeting the minimum number of trees required for a site. In the South Cape District, all sites 2521 shall have at least one canopy tree for each 3,500 square feet of gross land area, except that 2522 accent trees or palm trees may be substituted for a required canopy tree as indicated below. For 2523 all districts, in the event the calculation of required number of canopy trees yields a fractional 2524 number, that number shall be rounded up to the next highest whole number prior to any calculation of the quantity of substituted accent trees or palm trees. Trees planted to meet the 2525 2526 other requirements of this section can be included in the calculation of total number of trees 2527 required by this section. Such trees may be planted singularly or grouped together. Required 2528 canopy trees shall not be spaced less than 20 feet on center. Except in the South Cape District, 2529 each canopy tree shall be planted in a minimum planting area of 100 square feet with a minimum 2530 dimension of seven feet in width unless an alternative minimum planting area or dimensions are 2531 approved by the Director, based on planting details that ensure reasonable soil surface and planting medium volumes. 2532
- 2. In the South Cape District, each canopy tree shall be planted a minimum planting area of 24 square
   feet with a minimum dimension of four feet in width unless an alternative minimum planting area
   or dimensions are approved by the Director, based on planting details that ensure reasonable soil
   surface and planting medium volumes. Except in the South Cape District not more than 50% of

2538the required canopy trees may be substituted with accent trees or palm trees in accordance with2539Section 5.5.13. In the South Cape District, not more than 25% of the required canopy trees may2540be substituted with accent trees or palm trees, in accordance with Section 5.5.13., as follows:

- a. Accent trees may be substituted for required canopy trees at a rate of two accent trees for each canopy tree required; however, no canopy tree required for a landscape buffer yard shall be substituted with an accent tree, unless the minimum width of available buffer yard options would preclude compliance with the minimum separation distance between trees and overhead power lines.
  - b. The following palms shall not be substituted for required canopy trees:

Table 5.5.13.A: PROHIBITED SUBSTITUTIONS FOR CANOPY TREES				
Common Name	Botanical Name			
Areca Palm	Chrysalidocarpus lutecens (Dypsis lutescens)			
Bamboo Palm	Chamedorea spp.			
Christmas Palm	Adonidia merrillii (Veitchii merriillii)			
Dwarf Palmetto	Sabal minor			
European Fan Palm	Chamaerops humilis			
Lady Palm	Rhapis excelsa			
Majesty Palm	Ravenea glauca			
Needle Palm	Rhapidophylium hystrix			
Pygmy Date Palm	Phoenix roebellini			
Saw Palmetto	Serenoa repens			
Silver Palm	Coccothrinax argentata			
Thatch Palm	Thrinax spp.			

To meet tree planting requirements in a landscape buffer yard or in off-street parking and vehicle use areas, palm trees, other than those listed above, may be substituted for canopy trees at a rate of three palm trees per each canopy tree substituted, regardless of the palm tree species. Except in the South Cape Downtown District, to meet tree planting requirements for areas other than a landscape buffer or off-street parking and vehicle use areas, palm trees may be substituted for required canopy trees at a rate of one palm tree per each canopy tree substituted. In the South Cape Downtown District, to meet tree planting requirements for areas other than a landscape buffer yard, palm trees may be substituted for required canopy trees at a rate of two palm trees per each canopy tree substituted for required canopy trees may be substituted for required canopy trees may be substituted for required canopy trees at a rate of two palm trees per each canopy tree substituted.

c. Except for plantings in or near surface water management areas, a two-inch minimum layer of organic mulch, measured after watering-in, shall be placed and maintained around all newly installed canopy trees, accent trees, palm trees, and shrubs. Except in the South Cape District, each tree shall have organic mulch no less than 36 inches beyond its trunk in all directions. In the South Cape District, each tree shall have organic mulch shall be kept away from the trunks and

2567 stems of plants so as to avoid conditions that may be conducive to collar rot, basal canker, or 2568 other fungi. 2569 2570 The use of cypress or cedar mulch is strongly discouraged. 2571 2572 d. The use of any inorganic mulch, including pebbles or shells to cover the soil surface shall only 2573 be used to frame the outside of beds or to control erosion. Inorganic mulch shall not exceed 10% of the total land area not covered by structures, pools, accent boulders, driveways, 2574 sidewalks, or other paving. It be used to cover the root ball of newly planted trees or shrubs. 2575 2576 The balance of the soil surface shall be covered with planting beds with a two-inch minimum 2577 layer of organic mulch. 2578 2579 e. Canopy trees shall not be planted within seven feet of any roadway, sidewalk, or public utility 2580 unless an acceptable root barrier material is installed between the tree and the roadway, 2581 sidewalk, or public utility. Acceptable root barrier material shall consist of one of the 2582 following: a manufactured root barrier material, installed in accordance with manufacturer's 2583 directions, reinforced concrete with a minimum depth of 16 inches, or a continuous sheet of 2584 aluminum with a minimum depth of 16 inches and a minimum thickness of 0.024 inches. 2585 Where a root barrier is required, it shall be installed for a minimum distance of 20 linear feet. 2586 2587 f. In the event a property owner installs a public sidewalk closer than seven feet to any extant 2588 canopy tree, the property owner shall install an acceptable root barrier material in accordance 2589 with manufacturer's directions, such as herbicide impregnated materials or reinforced 2590 concrete of sufficient width and length, which will prevent the encroachment or undermining 2591 by the tree's root system, prior to the installation of the sidewalk. 2592 2593 g. In the South Cape District, in the event that the tree requirements in this section cannot be 2594 met due to site constraints, the property owner may pay an in lieu of fee to the Downtown 2595 CRA Tree Fund. Such site constraints shall include size of site, access or circulation 2596 requirement making trees impracticable, or extant site layout. The City Council shall establish 2597 a fee based on the average cost of the aforementioned trees. The city will use the funds in 2598 the Downtown CRA Tree Fund to provide or enhance the landscaping and vegetation in public 2599 areas of the Downtown CRA. To qualify to pay an in lieu of tree fee, a property owner must 2600 apply for approval by the Director of the Department of Community Development. If the 2601 Director approves the application, then the property owner may pay an in lieu of tree fee 2602 meeting planting requirements. This provision does not preclude applicants from applying for deviations in accordance with Section 5.5.20. 2603 2604 2605 B. Right-of-way. The right-of-way from the edge of the street pavement to the property line shall be 2606 planted with sod or other approved groundcovers, except as otherwise provided in the City of Cape 2607 Coral Code of Ordinances or Land Development Code. 2608 2609 C. Landscape design features. Six types of landscaping may be required on a site, depending on the site 2610 location and the specific elements of the development: foundation landscaping, landscaping adjacent 2611 to roads, off-street parking and vehicle use areas, retention/detention areas, and buffers. Trees

2612 planted to meet the requirements of these landscape design features can be included in the 2613 calculation of total number of trees required by this section under tree planting requirements.

- 2615 1. Foundation Landscaping. To provide aesthetic relief between a building and off-street parking or vehicular use areas, all new development, except development in the Industrial District and South 2616 2617 Cape District, must provide foundation landscaped areas equal to 10% of the proposed building 2618 gross ground level floor area. These foundation landscaped areas must be between the off-street 2619 parking area and the building, between public streets and the building, or between vehicular 2620 access ways and the building, or any combination thereof, with emphasis on the side(s) most 2621 visible to the public. Foundation landscaping may consist of surface level landscaped areas, raised 2622 planters, planter boxes, or any combination thereof. The width of the foundation landscaped 2623 areas shall be five feet, except for sites less than one acre with an average depth less than or equal 2624 to 135 feet, in which case the width shall be three feet. Foundation landscaped areas may be planted with trees, but must be planted with shrubs spaced a maximum of three feet on centers. 2625
  - 2. Landscaping Adjacent to Roads. Where a development site abuts a public right-of-way, excluding a dedicated alley, the following shall apply except within Mixed-Use Districts:
    - a. Except as otherwise provided herein, a strip of land, a minimum of ten feet in width, shall be provided between the abutting right-of-way and any structure or off-street parking area. For sites or portions of sites that are 135 feet or less in depth, the width may be reduced to five feet.
    - b. At a minimum, perimeter landscaping in this area shall consist of the following:
      - i. One shrub for every three linear feet of landscaped area, planted separately or grouped, except where a carport or an off-street parking or vehicular use area abuts the strip of land that is required adjacent to roads. Where a carport or an off-street parking or vehicular use area abuts the strip of land required adjacent to roads, a continuous hedge, consisting of shrubs spaced no greater than three feet on center is required.
    - The requirement for canopy trees or accent trees depends on the presence of overhead electric distribution or transmission lines. Shade or accent trees shall be provided as follows:
      - (a) Except as provided below, one canopy tree for each 30 linear feet of frontage is required. If the calculations yield a fractional number, that number shall be rounded up to the next highest whole number. Trees may be placed in any arrangement within the landscape strip provided that the spacing between tree trunks is no greater than 60 feet.
  - (b) In locations where an adequate separation distance from overhead distribution or transmission lines, as specified in Table 1, § 5.2.7., is not available, two accent trees may be substituted for any shade tree required for each 30 linear feet of frontage.

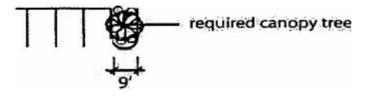

2656 c. Ingress and egress from the public right-of-way through all such landscaping to off-street 2657 parking or other vehicular use areas shall be permitted and may be subtracted from the linear 2658 dimension used to determine the number of trees and shrubs required. 2659 2660 d. Visibility triangles. As an aid to allow for safe operation of vehicles, pedestrians, and cyclists 2661 in the proximity of intersecting streets, driveways, alleys, and bicycle paths, there shall be 2662 limitations on the height of fences, walls, gateways, ornamental structures, signs, hedges, 2663 shrubbery, and other fixtures as visually depicted in the Cape Coral Engineering and Design 2664 Standards and as follows: 2665 i. All landscaping and signs within the visibility triangle shall provide unobstructed 2666 visibility between 30 inches and eight feet, with the exception of tree trunks that do not 2667 create a traffic hazard. 2668 ii. The property owner shall be responsible for maintaining all landscaping within the visibility triangle to provide the unobstructed visibility. 2669 2670 iii. The Community Development Director shall make the final determination regarding 2671 visibility triangles. 2672 3. Off-street parking and vehicle use areas. The provisions of this section apply to all new off-street 2673 2674 parking or other vehicular use areas not situated directly beneath a building containing habitable 2675 space. 2676 2677 a. Protection of landscaped areas from vehicular encroachment. When a landscaped area abuts 2678 or is within an off-street parking or vehicular use area, wheel stops or curbing shall be used 2679 to protect landscaped areas from encroachment. The placement of shrubs and trees shall be in accordance with the Parking Lot Standards of the City of Cape Coral Engineering Design 2680 Standards. 2681 2682 2683 b. Except in the South Cape District, landscaping for sites with both of the following: 1) an average 2684 depth less than or equal to 135 feet and 2) an area less than or equal to one acre. All off-street parking areas shall be landscaped to provide visual relief and cooling effects and to define 2685 logical areas for pedestrian and vehicular circulation, as follows: 2686 2687 i. Minimum landscaped area. Landscaped areas including, but not limited to, landscaped 2688 2689 islands, foundation landscaping, and landscaping within divider medians shall equal or 2690 exceed a minimum of 5% of the total off-street parking and vehicle use areas. 2691 ii. Tree planting. At least one canopy tree shall be provided for every 150 square feet of 2692 required planting area. Palm trees may be substituted for canopy trees in accordance with 2693 this Chapter. 2694 iii. Divider medians. Where canopy trees are planted in divider medians, the minimum width of the divider median shall be nine feet. 2695 2696 iv. Landscaping at the end of a row of parking spaces. Each row of parking spaces containing 2697 ten or more parking spaces shall be terminated by a landscaped area at each end that 2698 measures not less than five feet in width and not less than 15 feet in length. No trees shall 2699 be planted in landscaped islands less than nine feet in width. 2700 2701

- c. Except in the South Cape District, landscaping for sites with either of the following: 1) an average depth greater than 135 feet; or 2) an area greater than one acre. All off-street parking areas shall be landscaped to provide visual relief and cooling effects and to define logical areas for pedestrian and vehicular circulation, as follows:
  - Minimum landscaped area. Landscaped areas including landscaped islands, foundation landscaping, and landscaping within divider medians shall equal or exceed a minimum of 10% of the total paved surface area. Landscaped areas reserved for future parking spaces may not be included in this calculation.
  - ii. Tree planting.
    - (1) At least one canopy tree shall be provided for every 150 square feet of required planting area. Palm trees may be substituted for canopy trees in accordance with this Chapter.
    - (2) No parking space may be more than 100 feet from a tree.
    - iii. Divider medians. If a divider median is used to meet the landscaping requirements, it shall be a minimum width of nine feet.

iv. Landscaping at the end of a row of parking spaces. Each row of parking spaces containing ten or more parking spaces shall be terminated by a landscaped area that measures not less than nine feet in width and not less than 15 feet in length. Each such landscaped area shall be planted with at least one canopy tree. Palm trees may be substituted for canopy trees in accordance with this Chapter.

2733 v. Landscape materials. All interior landscaped areas not dedicated to trees or to 2734 preservation of existing vegetation shall be landscaped with grass, groundcover, shrubs 2735 or other approved landscaping materials and this shall be noted on the landscape plans. 2736 d. Landscaping for sites in the South Cape District. Except within city dedicated parking areas, all 2737 2738 off-street parking areas and applicable off-street parking area setbacks shall be landscaped to 2739 provide visual relief and cooling effects and to define logical areas for pedestrian and 2740 vehicular circulation, as follows: 2741 2742 i. Minimum landscaped area. 2743 i. Unless otherwise provided herein, all required landscape areas shall be planted with trees, shrubs, groundcover, sod, or any combination thereof. At a minimum, the 2744 landscape area(s) shall include low-lying shrubs or ground cover plants with a 2745 2746 minimum 50% coverage of the landscape area at time of planting. When utilized, 2747 shrubs shall be planted at no more than three feet on center. 2748 ii. All applicable minimum off-street parking area setbacks required by Article 4, Chapter 2749 5, except rear when abutting an alley, shall be landscaped unless otherwise provided 2750 herein. This provision shall not apply to portions of setbacks areas utilized for shared curb cuts, joint driveways and shared off-street parking areas across lot lines. 2751 2752 iii. Ingress and egress from the right-of-way through any setback area is permitted and the width of the ingress and egress may be subtracted from required landscape areas. 2753 2754 2755 ii. Landscaping for lots with a lot frontage greater than or equal to 125 feet. Off-street parking areas containing 24 or more parking spaces shall provide a landscaped area that 2756 2757 measures not less than nine feet in width and not less than 15 feet in length for every 12 2758 parking spaces. Such landscaped area(s) shall be located as intermediate within or terminal islands to parking space rows. Each such landscaped area shall be planted with 2759 2760 at least one canopy tree and groundcovers or sod. 2761 2762 4. Retention or detention areas. 2763 2764 a. Planting of trees, palm trees, shrubs, and groundcovers in retention or detention areas is 2765 encouraged, provided that the placement does not conflict with the volume of storage required for the retention or detention areas and does not significantly interfere with or 2766 2767 impede the flow of runoff in the retention or detention area. 2768 2769 b. All retention or detention areas shall be stabilized with sod or other groundcover capable of 2770 stabilizing the soil. Organic mulch is not allowed. 2771 5. Buffers. 2772 2773 2774 a. Determination of required buffer. Landscape buffer and screening shall be required to separate uses of differing zoning districts from each other. The type and width of buffer 2775 2776 required shall be determined by using Table 5.5.13.B: Table of Minimum Buffer Requirements. 2777 If the developing property contains a non-residential use in a Residential District, the buffer 2778 shall be as indicated along the row labeled "Non-Residential Uses in Residential Districts";

2779otherwise, the buffer required shall be as indicated along the row of the developing property's2780zoning district under the applicable column. The buffer that is required along any segment of2781property line, if any, is dependent on the zoning of the abutting property and property2782separated by only a street containing not more than two lanes for motor vehicle traffic. A2783bicycle "lane" shall not be considered to be a lane for motor vehicle traffic. The specifications2784for each type of buffer are provided in Table 5.5.13.B.

2802 2803 b. Buffer specifications.

i. The standards for minimum width, plant types and quantities, and opaque features shall be in accordance with Table 5.5.13.B: Minimum Buffer Width and Table 5.5.13 C, Buffer Plantings. All plants provided within a buffer are specific to, and must be located within the buffer area. The buffer landscaping is in addition to other landscaping required by this Chapter and this landscaping must be within the buffer area. For buffer options that include a wall, the wall must conform to the standards of Article 5, Chapter 2, including the setback requirements.

ii. The buffer width shall be measured along a line perpendicular or radial to the property line.

iii. The number of each type of plant required shall be determined by dividing the length of each side of the property requiring a given type of buffer by 100 and multiplied by the number of plants per 100 feet indicated for a selected option. If the calculations yield a fractional number, that number shall be rounded up to the next highest whole number.

iv. If a wall is required, the wall shall extend the entire length of the property line, or until it connects to another wall.

2804v.Ingress and egress from the right-of-way through any buffer shall be avoided; however,2805where it is determined by the city that avoidance is impractical or not preferable due to2806traffic flow or safety considerations, penetration through a buffer to ingress and egress2807from the right-of-way may be permitted and the width of the ingress and egress can be

- 2808 subtracted from the length of the buffer for the calculation of the number of plants 2809 required.
  - vi. Plants, berms, or walls required for buffers within required sight triangles shall be in accordance with standards provided in Article 5, Section 1. Further, no fence, wall, or plant material shall be placed within a buffer that would impede the movement of or obstruct the view of either a pedestrian or driver of a vehicle that would create a potential safety hazard.

 c. Buffer requirements. No development within required buffer. Required buffer shall not contain any development other than drainage facilities, sidewalks, plants, walls, or berms. Driveways shall only be allowed in the required buffer if the buffer runs along a street. No grading, development, or land-disturbing activities shall occur within the buffer unless as part of an approved development or landscape plan.

d. Buffer maintenance.

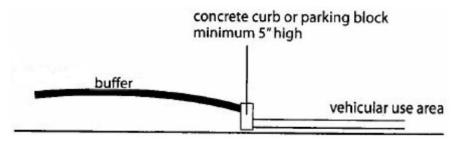

- i. Any landscape buffer required pursuant to this section shall be maintained in order to preserve such buffer.
- ii. The plantings, walls, and berms that constitute screening for any buffer required pursuant to this section shall be maintained for the life of the development. Such maintenance shall

2829		include all actions necessary to keep the buffer free of litter and debris, and to keep
2830		plantings, walls, and berms in good repair and neat appearance.
2831		iii. In the event that any buffer screening or any element thereof, is damaged or fails to live
2832		so that it no longer furthers the purpose and intent of this section, it shall be replanted or
2833		replaced, whichever is applicable, with the type and size of material specified on the
2834		landscape plan.
2835		
2836	e.	Plant and tree arrangement. Required plants and trees shall be distributed in a manner to
2837		meet the intent of screening incompatible uses. In the event that plant materials are
2838		prohibited in a public drainage or utility easement which abuts or is coincident with a buffer,
2839		no new plant materials shall be centered closer than two feet from such easement.
2840		
2841	f.	Existing vegetation.
2842		
2843		i. Retaining existing Florida native trees and other vegetation within a buffer is strongly
2844		encouraged.
2845		ii. If existing plants do not fully meet the standards for the type of buffer required, additional
2846		plant materials shall be installed.
2847		
2848	g.	Buffer walls and berms.
2849	-	
2850		i. Whenever a wall is required within a buffer, it is shown in Table 5.5.13.B.
2851		ii. Where the buffer requires a berm, the berm shall be graded to appear smooth, rounded,
2852		and natural. Slopes shall not exceed a 3:1 grade.
2853		iii. Whenever a wall is required within a buffer, the wall shall conform to all requirements of
2854		Article 5 Section 2, and the requirements herein, and all other requirements for a wall.
2855		The wall may be placed anywhere in the buffer, provided at least 75% of the required
2856		trees and 100% of the required shrubs are on the side facing outward toward the right-
2857		of-way or abutting property (facing away from the property on which the wall is erected).
2858		Bare concrete block, even if painted, is prohibited. The following materials, either singly
2859		or in any combination, are the only materials that may be used to form the wall:
2860		
2861		(a) Concrete block coated with stucco;
2862		(b) Textured concrete block;
2863		(c) Stone;
2864		(d) Brick; or
2865		(e) Formed, decorative, or precast concrete.
2866		
2867		iv. Whenever a wall is required within a buffer, it shall be 100% opaque and shall be the
2868		maximum height allowed for the use and the location of the wall.
2869		
2870	h.	Gates. A gate may be allowed in a buffer wall, provided such gate is opaque, unless spanning
2871		a vehicular entrance, and meets the intent and purpose of this section. Gates shall be
2872		maintained in accordance with the maintenance standards for screening contained in this
2873		section.

i. Staggered walls. Whenever a wall is required within a buffer, it may be divided along the length of a buffer so that a wall consists of a series of wall segments instead of a continuous line. Such a divided wall shall be allowed only if it meets the intent and purpose of this section and if the wall segments overlap by a minimum of one-half of the distance between the two wall segments.

j. Vehicular use areas. Concrete curbs or wheel stops at least five inches high shall be provided between vehicular use areas and buffer areas.

3. Location of buffer.

- a. The landscape buffer required by this section shall be located along the perimeter of a property except at approved entrances or exits to the parcel.
- Buffers shall extend to the lot line or right-of-way line, except where easements, covenants, visibility triangles, or natural features require the buffer to be set back from the property line. The presence of an easement, covenant, or natural feature does not necessarily preclude the placement of a buffer, unless due to the nature of the easement, covenant, or natural feature the placement of a buffer would be precluded.
- c. Nothing other than open landscaped areas shall be located between the required buffer and the site perimeter unless the presence of an easement, covenant, or natural feature, which due to its nature, would preclude open landscaped areas.

2902d. Buffers may not be located on any portion of an existing or dedicated street right-of-way or2903roadway easement.

All landscaping shall contain an automatic irrigation system. All required irrigation systems shall be designed to minimize the application of water to impervious areas, including roads, drives, and other vehicle areas. Required irrigation shall also be designed to avoid damage to existing native vegetation from over watering or from physical conflicts with plant roots. The following standards shall apply to the design, installation, and maintenance of irrigation systems:

- A. The irrigation system shall be properly maintained and operated consistent with watering
   schedules established by the South Florida Water Management District or the City of Cape Coral,
   whichever is more restrictive.
  - B. Existing native plants are exempt from this requirement.
- C. Automatic control systems shall be equipped with an operable rain sensor or other devices, such as soil moisture sensors, to prevent unnecessary irrigation.

### 2922 Section 5.5.15. Tree credits.

A. Tree credits for all development other than single-family homes and duplexes are available, to
 encourage the planting of larger trees than are otherwise required and to preserve trees existing on
 development sites. Based on the gross square feet of land area, each tree credit earned can count
 toward the number of trees required, subject to limitations indicated below. If tree credits are used,
 the credits shall be shown in the calculations on the landscape plan. Single-family homes and duplexes
 are not eligible for the tree credit program provided by this subsection. In no event, shall the number
 of trees required in a buffer be reduced.

- 2931
- 2932 B. Credit for planting larger canopy trees. One tree credit shall be applied to the overall tree count for
  2933 each two inches of increased caliper above the minimum planting size specified in this Chapter. In no
  2934 event, however, shall the actual number of trees be less than one-half of the total number required.
  2935
- C. Credit for preserving existing canopy trees. Existing canopy trees in good health and meeting the minimum standards provided in this Chapter that are preserved on a site, and that are properly protected prior to and during the course of development activities, may be used to meet the requirements of this section for the site where the existing trees are located. For purposes of this subsection, development activities include land clearing, construction, grading, or placement of fill.
   Canopy trees that exceed the minimum size required by Article 5, Section 15 are credited at the following ratios for existing canopy trees:

1. 6" up to 12" caliper = credit for 2 trees

		2. 12" up to 18" caliper = credit for 3 trees					
		3. 18" up to 24" caliper = credit for 4 trees					
		4. 24" or greater caliper = credit for 5 trees					
2944							
2945		No credit shall be given to canopy trees on the Florida Exotic Pest Plant Council list of Category I or					
2946		Category II invasive exotics.					
2947							
2948	D	Credit for preserving existing palms. Existing palm trees in good health and having a minimum of ten

2967		all times according to the minimum size specified on the approved landscape plan or to a					
2968		minimum height of 36 inches, if not specified on the approved landscape plan. Shrubs that do not					
2969		meet the minimum height specified or the alternate minimum height of 36 inches shall be					
2970		replaced with like kind species and be maintained at a height of 36 inches.					
2971							
2972		This requirement shall not preclude the placement of additional plant materials or other landscape					
2973		features that comply with other requirements of these regulations.					
2974	_						
2975		Compliance required. For any development for which a landscape plan was submitted, the city shall					
2976		not issue a certificate of occupancy or certificate of completion until the landscape architect or other					
2977		licensed professional authorized pursuant to F.S. Chapter 481, Part II, who prepared, signed, and					
2978		sealed the plan certifies to the city that all elements of the landscape plan have been installed in					
2979		accordance with the approved plan. Each development will be inspected by the City of Cape Coral					
2980		within two years after the certificate of occupancy or certificate of completion is issued, and from					
2981		time to time thereafter to ensure compliance with the applicable landscape standards and with the					
2982		approved landscape plan, if any. Any dead or missing plant, or plant that appears to be dying or unable					
2983		to sustain healthy future growth shall be replaced by one that conforms to the requirements of this					
2984		section and approved landscape plan, if any. Failure to comply with this requirement shall constitute					
2985		a violation of the City of Cape Coral Code of Ordinances, subject to any penalty imposed by law.					

2986 2987 C. Changes subsequent to landscape plan approval. The replacement of plants indicated on an approved 2988 landscape plan with plants of the same species, or the placement of hardscape features that comply 2989 with other requirements of these regulations shall not require the submission of an amended landscape plan. The substitution of plants indicated on an approved landscape plan with plants of an 2990 2991 alternative species of the same size and plant category (canopy tree, accent tree, palm tree, shrub) 2992 shall not require the submission of an amended landscape plan, unless a specific species has been 2993 prescribed as a condition of approval by the Hearing Examiner or City Council; however, any such 2994 substitution shall meet all other landscape requirements, including the minimum separation distance 2995 between trees and overhead power lines, the Florida native plant percentage, the tree species mix, 2996 and species specific palm tree substitution requirements. Except as described above, after a landscape 2997 plan has been approved, it shall be unlawful to change, modify, alter, or otherwise deviate from the 2998 terms or conditions of the landscape plan without first obtaining written approval of an amendment 2999 to the landscape plan. The approval of an amendment to a landscape plan does not constitute an 3000 amendment to the site plan. Modifications that require approval of an amended landscape plan 3001 include:

- 1. Replacement of any plant indicated on an approved landscape plan with a plant of a different species; or
  - 2. The reduction of any quantity or size of plants below the size that was indicated on the most recently approved landscape plan.

The city may impose a reasonable fee for the review and approval of an application for an amendment to a landscape plan. An application for an amendment to a landscape plan shall be reviewed in accordance with the standards herein, unless the landscaped area is a legal nonconformity. An application for an amendment to a nonconforming landscaped area shall be reviewed in accordance with Article 5, Section 6.

 Legal nonconforming landscaped areas established. All landscaped areas which were lawful prior to the adoption of this Code but which fail by reason of adoption of such amendment to comply therewith, are hereby declared to be nonconforming. Such nonconforming landscaped areas are hereby declared to be lawful and shall not be required to be altered to conform with such regulations as adopted by the City of Cape Coral; provided, however, that such nonconforming landscaped areas are restricted and subject to the requirements of this section.

2. Requirements for nonconforming landscaped areas.

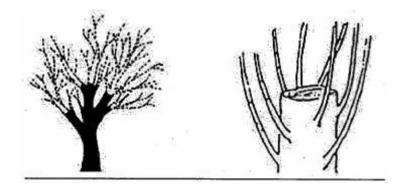

3026a.For sites with an approved landscape plan, nonconforming landscaped areas, including<br/>buffers, shall be maintained in accordance with approved landscape plans, as modified by<br/>requirements of any approval for PUD, PDP, special exception, or variance, if any. If the<br/>minimum requirements for landscaping are reduced subsequent to the most recently<br/>approved landscape plan, the property owner may request approval of an amended<br/>landscape plan meeting the minimum requirements pursuant to Article 5, Section 6.

- 3032
  3033 b. For single-family and duplex sites, nonconforming landscaped areas shall be maintained in accordance with landscape regulations in effect at the time of issuance of the original building permit for the primary structure.
  3036
  - c. For sites without an approved landscape plan, other than single-family and duplex sites, nonconforming landscaped areas shall be maintained in accordance with landscape regulations in effect at the time of the most recent site plan approval.

### 3041 E. Canopy tree pruning.

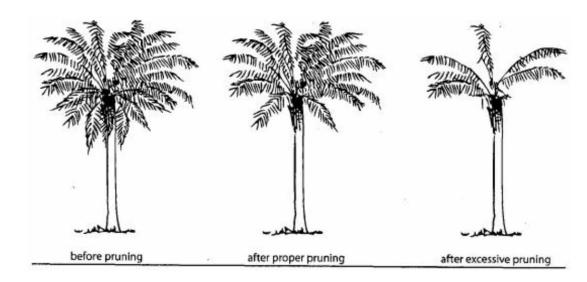

1. Except as otherwise provided herein, trees required by regulations in effect at the time of site development shall only be pruned to promote healthy, uniform, natural growth, to keep trees trimmed back from doors, windows, and public sidewalks or where necessary to promote health, safety, and welfare. Pruning shall be in accordance with "American National Standard for Tree Care Operations - Tree, Shrub, and Other Woody Plant Maintenance - Standard Practices (Pruning) (A300, Part 1)" by the American National Standard Institute and "Best Management Practices: Tree Pruning" by the International Society of Arboriculture (ISA). Pruning of trees on any site over one acre should be supervised by a certified arborist. Pruning necessary to maintain public overhead utilities shall be in accordance with the National Electric Safety Code (NESC).

2. Trees required by regulations in effect at the time of site development shall not be pruned so as to include topping of trees through removal of crown material or the central leader, or any other similar procedure to permanently limit growth to a reduced height or spread or that cause irreparable harm to the natural form of the tree, except where such procedures are necessary to maintain public overhead utilities. Severely pruned trees required by regulations in effect at the time of site development must be replaced by the property owner. Replacement trees must meet the tree size requirements of this Chapter. A tree's growth habit shall be considered in advance of conflicts that might arise (e.g., signs, power lines, sidewalks, buildings, and similar conflicts).

Excessively pruned trees.

3. Palm maintenance and pruning. Palms shall only be pruned in such a manner that removal of fronds does not exceed a 9:00 to 3:00 pattern and no more than one-half of the fronds are removed at a single time. This limitation shall not apply to flower stalks or fronds that are yellow or dead.

3073	Section 5.5.17. Planting in medians, cul-de-sacs, and roundabouts.
3074	

A. Permits.

- 1. Required. It shall be unlawful for any person to place any landscape material, including plant materials and hardscape materials other than mulch, in any median, cul-de-sac, or roundabout under the control of the city, without first obtaining a permit for such work from the City.
- 2. Application. An application for a permit shall be submitted on a form provided by the city and include all required information as specified in the permit application forms, including:
  - a. A general vicinity map showing the nearest intersecting streets;
  - b. The location of existing public and private utilities, including overhead power lines and drainage facilities within twenty (20) feet of the proposed landscaping;
  - c. A planting plan showing all pertinent dimensions, the location of existing plant materials with indication if they are to be removed, the location of proposed plant materials indicating the size and species, the location of existing or proposed hardscape materials, and the proposed irrigation plan and source of water;
    - d. A description of the proposed monthly maintenance schedule and the primary and alternate contact information for the parties responsible for maintenance;
    - e. Any additional information reasonably required by the City because of unique circumstances of the project; and
- f. A non-refundable application fee as established by City Council.

- B. Median design. Landscaping in medians shall be in accordance with the City of Cape Coral EngineeringDesign Standards.
- C. Cul-de-sac or roundabout design. Landscaping in cul-de-sacs or roundabouts shall utilize the plants
   and materials identified below. Such plantings shall be in accordance with the City of Cape Coral
   Engineering Design Standards.
- Trees. Trees shall be of at least ten-gallon size at the time of planting. The following trees are permitted: Mahogany, Wild Tamarind, Yellow or Pink Tabebuia, Buttonwood, Crepe Myrtle, Gumbo Limbo, Southern Magnolia, Paradise tree, Pigeon Plum, Sago Palm, or Pygmy Date Palm.
   Other types of trees may be permitted providing the criteria established in this section are met. The prohibited vegetation standards of this Chapter shall apply in cul-de-sacs and roundabouts.
- Shrubs. Shrubs to be planted should be durable in harsh conditions with slow, unobtrusive growth habits. All shrubs shall be of at least three-gallon size at the time of planting. The following shrubs are recommended for planting: Carissa, Cocoplum, Yaupon Holly, Myrsine, Necklace Pod, Podocarpus, and Wax Myrtle. Other types of shrubs may be permitted providing the criteria established in this section are met.
- Other vegetation. The planting of flowers or any vegetation (other than approved trees or shrubs)
   by any private person or entity on cul-de-sac or roundabout owned by the city is prohibited. In
   addition, cul-de-sacs or roundabouts shall be left in sod. A small bed immediately surrounding a
   tree or shrub may be mulched.
- 3126 D. Prohibited vegetation. The prohibited vegetation standards of section 9 of this article shall apply in3127 medians.
- 3129 E. Review criteria. In determining whether a permit will be issued, the city shall consider factors that3130 include, but are not limited to, the following:
  - 1. Relationship to traffic and pedestrian safety;

- G. Changes subsequent to approval. After a planting plan has been approved, it shall be unlawful to change, modify, alter, or otherwise deviate from the terms of the planting plan without first obtaining written approval of an amendment to the planting plan. Modifications that require approval of an amended landscape plan include the following:
- Replacement of any plant indicated on an approved planting plan with a plant of a different species; or
  - 2. Modification of the location of any plants or other landscape materials.

The city may impose a reasonable fee for the review and approval of an application for an amendment to a planting plan. An application for an amendment shall be reviewed in accordance with the standards herein. The replacement of plants indicated on an approved landscape plan with plants of the same species shall not require the submission of an amended landscape plan.

- H. Permit expiration. A permit for installing landscape materials in any median under the control of the city shall be valid for a one-year period from the date of issuance, except as otherwise provided within the permit approval. The permittee is solely responsible for submitting an application for renewal of the. In determining whether the permit should be renewed, the city shall consider all of the factors listed in subsection D. above, as well as the condition in which any materials planted pursuant to the permit have been maintained.
- 3217 Maintenance. Once any landscape materials are installed in a median, the materials are the property ١. 3218 of the city. Except when the city determines that it is in its best interest to maintain portions of 3219 landscaping in medians permitted in accordance with this subsection, the permittee shall be responsible for maintaining any and all landscaping permitted by this subsection in accordance with 3220 Section 16 of this chapter. Should any plant material or other landscape material or portion thereof 3221 3222 become a safety hazard, unsightly, or die or become diseased, or if it is installed or maintained in a 3223 manner inconsistent with the permitting requirements herein, the city shall have the option of 3224 performing maintenance, replacing, or removing it. The City will determine compliance with this subsection. 3225
- 3227 J. Removal. Any landscape materials planted or installed without the express written permission of the
   3228 city shall be subject to removal by the city in its sole discretion. Except for the City and persons with
   a permit or other written authorization from the City, no person shall remove landscape materials
   3230 from a median.
- The authorization in this section for the removal of landscaping in medians shall be construed as supplementary to any other means of enforcement available to the city and shall not be construed so as to negate the authority of the Code Compliance Special Magistrate to hear and adjudicate appropriate cases.
- The city may also, in its sole discretion, remove any landscape materials placed in any median

- A. Deviations of up to 10% from the requirements of this section may be approved by the Director and as further provided herein) provided that the deviation will not be contrary to the public interest and will be in harmony with the general intent and purpose of this section and where either of the following applies:
  - 1. Conditions exist that are not the result of the applicant and which are such that a literal enforcement of the regulations involved would result in unnecessary or undue hardship; or
  - 2. Literal conformity with the regulations would inhibit innovation or creativity in design.
- 3357 B. In determining whether a particular deviation request should be approved as the result of unnecessary or undue hardship, factors the Director shall consider include the following: site 3358 constraints such as shape, topography, dimensions, and area of the property, the effect other 3359 3360 regulations would have on the proposed development, or other locational factors that may make 3361 compliance with this section impossible or impracticable, and the effect the requested deviation 3362 would have on the community appearance. Additionally, the Director shall find that the approval of the deviation(s) would serve the intent of this section to protect the health, safety, and welfare of the 3363 3364 public while ensuring a high level of overall aesthetic appeal and visual interest in the city.
- C. In determining whether a particular deviation request should be approved because literal conformity 3366 3367 with the regulations would inhibit innovation or creativity in design, the Director may approve the 3368 request for deviation(s) if the applicant demonstrates that the design of the landscaping for which 3369 one or more deviations is sought is unique and innovative and, further, that the approval of the 3370 deviation(s) would enhance such unique and innovative design. Additionally, the Director shall find 3371 that the approval of the deviation(s) would serve the intent of this section to protect the health, 3372 safety, and welfare of the public while ensuring a high level of overall aesthetic appeal and visual 3373 interest in the city. For purposes of this section, indicia of unique and innovative design may include, 3374 but are not limited to, the following:
- 33761. Landscape details that are unique or that are exceptional in quality by virtue of artistic3377composition, quality of materials, dimensional attributes, or any combination thereof;

3378			
3379		2.	Plant massing that evokes exceptional expression through use of angularity, curvature, or other
3380			means;
3381			
3382		3.	Design elements or other forms that achieve dynamic or symmetric aesthetic balance; or
3383		•	
3384		4.	Other details or forms that preclude visual monotony and are pleasing in aesthetic character.
3385		4.	other details of forms that precide visual monotory and are pleasing in destrict character.

3386	D.		quests for deviations and the reasons therefore shall be set forth by the applicant in the application
3387			deviation and shall be accompanied by documentation including, a narrative that clearly defines
3388			e section(s) of the regulations of the requested deviation, a narrative explanation as to the reason
3389			the requested deviation and why it should be approved, sample detail drawings, elevations, and
3390		•	rspectives which shall graphically demonstrate the proposed deviation(s) and illustrate how each
3391		aev	viation would operate to the benefit, or at least not to the detriment, of the public interest.
3392	-	<b>F</b> • •	
3393	Ε.		r deviations to avoid unnecessary or undue hardship, the Director subject to these standards and
3394			teria, shall approve only the minimum deviation from the provisions of this section. For deviations
3395			avoid the inhibition of innovation or creativity in design, the Director shall approve deviations
3396			cessary to enhance the unique and innovative design. The Director may impose reasonable
3397			nditions of approval in conformity with this section. Violation of such conditions and safeguards,
3398			en made a part of the terms under which a deviation is granted, shall be deemed a violation of this
3399			tion and shall be enforceable not only by revocation of the deviation, but also by all other remedies
3400		ava	ailable to the city, including all code enforcement procedures.

NON-RESIDENTIAL DESIGN STANDARDS.** 3510 3511 Section 5.8.1. Purpose and Intent. 3512 3513 The appearance of non-residential and mixed-use development affects the visual image and attractiveness of the City of Cape Coral. Utilitarian design and developments with minimal architectural 3514 3515 features detract from the city's image and character. The purpose and intent of the non-residential design 3516 standards is to promote the City as an attractive destination for tourists and residents, and to support economic vitality while protecting the public health, safety, and welfare. These regulations intend to: 3517 3518 3519 A. Enhance the visual image and attractiveness of the City; 3520 3521 B. Establish reasonable standards that offer flexible and diverse design options; 3522 3523 C. Ensure development in Cape Coral is of consistent high quality and character; and 3524 3525 D. Regulate site layout and architectural features to ensure aesthetic and visual interest. 3526 3527 Section 5.8.2. Applicability. 3528 3529 A. The standards of this section shall apply to all non-residential and mixed-use development for which 3530 application for site plan approval, or a building permit is made. 3531 3532 B. These design standards shall apply to existing development if a building's gross floor area is increased 3533 by 50% or more. 3534 3535 C. Development on Industrial zoned sites shall be exempt from these standards. 3536 3537 D. The design standards of this section do not apply when the City Council has established specific design 3538 standards for a unique area of the city unless the specific design standards otherwise expressly state 3539 their applicability. 3540 3541 Section 5.8.3. Exemptions. 3542 3543 The following types of buildings shall be exempt from the non-residential design standards. 3544 3545 A. Any building that has received a temporary use permit. 3546 3547 B. Any accessory structure. 3548 3549 C. Bona fide agricultural buildings in the Agricultural and RE Districts such as barns and stables. 3550 3551 D. Guard houses.

3552		
3553	Ε.	Government facilities that are screened or not visible from a public street.
3554		
3555	F.	Model homes.
3556		
3557	G.	Municipal pump station buildings.
3558		
3559	Н.	Self-storage buildings provided the buildings are enclosed with a wall with a minimum height of eight
3560		feet.
3561		
3562	١.	Pavilions, carports, gas canopies, and similar buildings that have support posts or columns but no sides
3563		except for roof treatments as required in Section 5.8.8.
3564		
3565	J.	Buildings similar to those listed above as determined by the Director.
3566		
3567	Sec	tion 5.8.4. Conflicts.
3568		
3569		ny of the non-residential and mixed-use design standards of this section conflict with any other
3570	pro	vision of the City of Cape Coral Code of Ordinances or Land Development Code, the provision that
3571	est	ablishes the more specific standard or architectural theme governs. If neither conflicting provision
3572	est	ablishes a specific standard or architectural theme, then the more restrictive provision governs unless
3573	oth	erwise expressly provided.
3574		
3575	Sec	tion 5.8.5. Appearance, Building Mass, and Design Treatments.
3576		
3577	Α.	Consistency Within a Development. Except for buildings on outparcels that contain only one unit,
3578		designed and constructed to be occupied by a single end user, regardless of the number of business
3579		operations conducted within the single unit, buildings within a development shall be designed with
3580		color schemes, building materials, finishes, roof types, roof lines, and exterior roof finishing consistent
3581		with or that resemble those of the principal building or structure on the main parcel(s).
3582		
3583	Β.	Consistency and Integrity of Building Components. All portions of any exterior side of a building,
3584		extending from finished grade to the top of the parapet wall or eaves, extending the entire width of
3585		the side of a building, must be designed with consistent architectural style, detail and trim features.
3586		All architectural features other than parapet walls, including towers or cupolas, shall be designed so
3587		as to have an equivalent character from any ground-level angle from which they can be viewed.
3588		, ,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,
3589	C.	Glazing.
3590		
3591		1. For buildings abutting and facing a public street, transparent windows, doors, or any combination
3592		thereof, shall cover at least 25% of the first story building wall area from grade to a height of 10
3593		feet.
3594		
3595		2. For buildings with walls abutting but not facing a public street, transparent windows, doors, or
3596		any combination thereof, shall cover at least 15% of the first story building wall area from grade
3597		to a height of 10 feet

3598 3. For lots abutting dedicated city parking areas or portions of alleys abutting dedicated city parking 3599 3600 areas, transparent windows, doors, or any combination thereof, shall cover at least 25% of the 3601 first story building wall area from grade to a height of 10 feet. 3602 3603 D. Sides of a building. For buildings located on outparcels, all exterior sides of a building shall comply 3604 with this section. Additionally, except for a side of a building built flush with a side lot line, a side of a 3605 building that faces a rear lot line of an abutting property, and a side of a building that faces a property 3606 line that abuts an alley, all sides of a building shall comply with the standards of this section. 3607 3608 1. All exterior sides of a building subject to this subsection shall include a repeating or varying pattern and shall comply with both design elements listed below. At least one of the three design 3609 3610 elements shall repeat horizontally. All elements shall repeat or alternate at intervals of no more than 50 feet, either horizontally or vertically. 3611 3612 a. Each wall shall provide visual differentiation of wall surfaces through variations in a minimum 3613 3614 of one of the following: 3615 i. Building materials; 3616 II. Finish textures; or iii. Color. 3617 3618 3619 b. Each wall shall provide a minimum of two of the following architectural features: 3620 i. Columns; ii. Pilasters; 3621 iii. Awnings; 3622 3623 iv. Canopies; 3624 v. Reveals (if provided shall have a minimum depth of 1/2 inch); vi. Corbels: 3625 3626 vii. Quoins; 3627 viii. Keystones; ix. Cornices (if provided shall have a minimum height of four inches); or 3628 x. Other features as determined by the DCD Director that provide articulation or reduce 3629 3630 building massing. 3631 2. All exterior sides of a building shall provide a minimum number of design elements among 3632 elements a. thru r. below in accordance with the gross square footage of a building, as provided 3633 herein. Required design elements may be located on an exterior wall of a building, on the roof of 3634 the building, or on both the wall(s) and the roof of a building, as applicable. If located on a roof, 3635 3636 the design element shall be located on a portion of the roof that faces in the same direction as 3637 the exterior wall. It is not the intent of this section, however, to require the design elements to 3638 be on both the exterior wall(s) and the roof. 3639

3683		landscaped areas or places for sitting; or
3684		

- 3685q. Curved wall containing an uninterrupted curve along at least 10% of the length of any side of3686a building subject to this subsection.
  - r. One or more vegetated trellises that occupy a minimum of 25% of the area of a single wall.
- 3. For buildings with a gross floor area of greater than 50,000 square feet, no exterior wall shall exceed 100 linear feet in a horizontal direction within a single, continuous wall plane, nor shall any single, continuous wall plane constitute more than 60% of the building's total length. A wall shall be deemed to be in a single, continuous wall plane unless it is offset (recessed or projected) by at least 24 inches from any adjacent wall plane or contains a pilaster that projects at least 36 inches from the wall.
- 3697 Section 5.8.6. Wall Height Transition.
- 3699 A. Buildings that are more than twice the height of the height of extant buildings on abutting property 3700 shall incorporate one or more transitional height elements to segue the height of the new building to 3701 the height of the closest existing building. The transitional height element shall be incorporated on 3702 the new building at the approximate cornice or roof line of the nearest existing building, if any. Where there is no extant building on adjacent property, the requirements of this sub-section will not apply. 3703 3704 Where no single building is "nearest" to the new building, but instead two or more buildings are located an equidistance from the new building, the property owner may select the approximate 3705 3706 cornice or roof line of any of such equidistant buildings at which to incorporate the transitional height 3707 element on the new building.
- B. Transitional height elements may include:
  - 1. Cornices or other decorative elements that run the length and width of the building and project a minimum of six inches from the wall;
- Upper story setbacks and offsets at the approximate cornice or roof line of the nearest existing
   building as provided above;

3777 3778 B. Pitched roofs such as gable, hip, shed or mansard roofs shall be clad with highly durable materials such 3779 as standing seam metal, slate, ceramic, or fireproof composite tiles. Fiberglass and asphalt shingles 3780 are prohibited except for dimensional grade or better. 3781 3782 1. Allowed slope. Pitched roofs shall have a minimum slope of three feet vertical rise for every 12 feet of horizontal run. The maximum slope of a pitched roof shall not exceed a one-foot vertical 3783 rise for every on foot of horizontal run. 3784 3785 C. Roofs covering pavilions, carports, gas canopies, and similar structures with support posts or columns 3786 3787 but no sides. Buildings with roofs that lack walls, whether free-standing or attached to another 3788 building, shall have a minimum slope of three feet vertical rise for every 12 feet of horizontal run. 3789 Unless a roof with an alternative design is approved by the DCD Director, all roofs are required to 3790 possess a pitched roof with a minimum slope of three feet vertical rise for every 12 feet of horizontal 3791 run. The DCD Director shall consider the following two criteria in determining whether to approve a 3792 roof with an alternative design: 3793 3794 1. Whether the design of the roof evokes exceptional expression through the use of angularity, 3795 curvature, or other means; or 3796 3797 2. Whether the design of the roof precludes visual monotony and enhances the aesthetic character. 3798 3799 Flat and parapet roofs are prohibited for buildings covered by this subsection. 3800 3801 Section 5.8.9. Building Design Standards in the SC and MXB Districts. 3802 3803 A. All buildings, whether residential, nonresidential or compound use, shall conform to the design 3804 standards provided herein., except as superseded by the following requirements. 3805 3806 B. Public entrances. Public entrances shall be provided as follows: 3807 3808 1. Any building facade that faces a street (excluding alleys) shall provide a public entrance oriented 3809 toward such street. In the case of a corner lot where more than one building facade faces a street, 3810 a corner entrance may serve to meet the requirements for the two streets that intersect and create the corner. All public entrances shall have convenient pedestrian access providing a direct 3811 connection from the street to the entrance via a walkway a minimum of four feet in width and 3812 3813 not traversing any portion of an off-street parking area. In the event the City determines that this 3814 provision cannot be met due to site constraints, such walkway may traverse the off-street parking 3815 area but shall be clearly delineated by a change in paving material, pavement markings, or similar 3816 treatment. 3817 3818 2. Any building facade that faces a dedicated city parking area shall provide a public entrance 3819 oriented toward such dedicated city parking area with convenient pedestrian access providing a 3820 direct connection via a walkway a minimum of four feet in width. 3821

- 3822
  3. It is not the intent of these provisions to require more than two public entrances to any use intended to be occupied by a single tenant. In the event that the provisions above cumulatively require more than two public entrances, then the requirements may be reduced such that two public entrances shall be required. In determining the orientation of such public entrances.
  3826 Parkway street designations and dedicated city parking areas shall have priority.
- 3828 C. Transparency of building walls. Except for parking structures, building walls shall contain transparent
   3829 windows, doors, or any combination thereof, meeting the following standards:
- For lots abutting primary or secondary street designations, transparent windows, doors, or any combination thereof, shall cover at least 50% of the first story building wall area that faces the primary or secondary street designation. Above the first story, non-residential uses, except hotels, shall provide transparent windows, doors, or any combination thereof, covering at least 25% of the entire building wall area; residential and hotel uses shall provide at least 15%.
- 3837
  2. For lots abutting local street designations, non-residential uses, except hotels, shall provide transparent windows, doors, or any combination thereof, covering at least 25% of the entire building wall area that faces the secondary or tertiary street designations; residential and hotel uses shall provide at least 15%.
  - 3. For lots abutting dedicated city parking areas or portions of alleys abutting dedicated city parking areas, non-residential uses, except hotels, shall provide transparent windows, doors, or any combination thereof, covering at least 25% of the entire building wall area that faces the dedicated city parking area; residential and hotel uses shall provide at least 15%.
    - 4. Non-residential use building walls facing navigable waterways shall provide transparent windows, doors, or any combination thereof, covering at least 25% of the entire building wall area.
    - 5. The exterior of windows and doors shall remain unshuttered at all times of the day. This provision shall not apply to the following:
      - a. Un-walled areas such as, but not limited to, dining and seating areas associated with restaurants and bars.
- 3856b.Hurricane shutters or flood-proofing panels during the time period in which a flood watch or3857warning, a tropical storm watch or warning, or a hurricane watch or warning is in effect for3858any portion of Lee County. Such shutters or panels shall be removed within a week from the3859time they are put up, unless a hurricane, tropical storm, or flood has impacted the area, in3860which case the shutters may remain up for not more than three months from the date of the3861incident, except for good cause shown to the City.
- 3863 D. Non-residential buildings with a first story consisting of more than 35,000 square feet of floor area
   3864 and consisting of a single use shall meet the following requirements:
- 3866 1. One public entrance shall be provided for every 75 feet of overall building frontage; or

  3987 A. Deviations from the provisions of this section may be approved by the Director provided that the deviation will not be contrary to the public interest and will be in harmony with the general intent and purpose of this section and where either of the following applies:
  - 1. Conditions exist that are not the result of the applicant and which are such that a literal enforcement of the regulations involved would result in unnecessary or undue hardship; or
  - 2. Literal conformity with the regulations would inhibit innovation or creativity in design.
- 3996 B. In determining whether a particular deviation request should be approved as the result of 3997 unnecessary or undue hardship, factors the Director shall consider include, but are not limited to, the 3998 following: site constraints such as shape, topography, dimensions, and area of the property, the effect 3999 other regulations would have on the proposed development, or other locational factors that may make compliance with this section impossible or impracticable, the effect the requested deviation 4000 4001 would have on the community appearance including, but not limited to, consideration of the mass, 4002 scale, and other characteristics of a proposed building relative to the characteristics of existing and 4003 approved surrounding buildings whether on the same or nearby sites, and the relative visibility and 4004 character of equipment or loading areas which are otherwise required to be screened along with 4005 constraints on alternative location of such equipment or loading areas. Additionally, the Director shall

find that the approval of the deviation(s) would serve the intent of this section to protect the health,
safety, and welfare of the public while ensuring a high level of overall aesthetic appeal and visual
interest in the city.

C. In determining whether a particular deviation request should be approved because compliance with 4010 4011 the regulations would inhibit innovation or creativity in design, the Director approve the request for 4012 deviation(s) if the applicant demonstrates that the design of the building or development for which 4013 one or more deviations is sought is unique and innovative and further, that the approval of the 4014 deviation(s) would enhance such unique and innovative design. Additionally, the Director shall find 4015 that the approval of the deviation(s) would serve the intent of this section to protect the health, 4016 safety, and welfare of the public while ensuring a high level of overall aesthetic appeal and visual interest in the city. For purposes of this section, indicators of unique and innovative design may 4017 4018 include, but are not limited to, the following:

- 1. Architectural details that are unique or that are exceptional in quality by virtue of artistic composition, quality of materials, dimensional attributes, or any combination thereof;
- Building forms that evoke exceptional expression through use of angularity, curvature, or other means;
  - 3. Design elements or other forms that achieve dynamic or symmetric aesthetic balance; or
- 4. Other details or forms that preclude visual monotony and are pleasing in aesthetic character.

D. Requests for deviations and the reasons therefor shall be set forth by the applicant in the application
 for deviation and shall be accompanied by documentation including sample detail drawings,
 schematic architectural drawings, site plans, floor plans, elevations, and perspectives which shall
 graphically demonstrate the proposed deviation(s) and illustrate how each deviation would operate
 to the benefit or at least not to the detriment, of the public interest.

- E. Subject to these standards and criteria, the Director shall approve only the minimum deviation from
  the provisions of this section necessary to avoid either the unnecessary or undue hardship or the
  inhibition of innovation or creativity in design. The Director may impose reasonable conditions of
  approval in conformity with this section. Violation of such conditions and safeguards, when made a
  part of the terms under which a deviation is granted, shall be deemed a violation of this section and
  shall be enforceable not only by revocation of the deviation, but also by all other remedies available
  to the city, including, but not limited to, all code enforcement procedures.

4047

4046 Section. 5.9.1. Purpose and applicability.

A. The purpose of this Section is to ensure all temporary events and activities are located and coordinated in harmony with the surrounding community. Temporary uses are authorized in this article as temporary accessory or principal uses for time periods proportionate and appropriate to the nature of the temporary use. Temporary uses permitted by this article may not be listed as a use in a

particular zoning district. Temporary uses not listed in this article may be permitted through a
 temporary use agreement approved by the Director of Community Development

4055 B. All temporary uses and special events approved subject to the standards and requirements set forth 4056 under this article are deemed to be a privilege and not a right, which may be revoked by the city for 4057 failure to comply with any of the provisions of this article or any other local, state, or federal law 4058 governing the event. Approved temporary uses and special events may also be revoked if such 4059 revocation is in the best interest of the city based on emergency, disorder, or other unforeseen 4060 conditions. Private events held on private property shall not require a temporary use permit. Signs 4061 shall be limited to the signs permitted in Section 5.9.10 of this article and shall not be allowed within 4062 the right-of-way.

- 4064 C. Application for a temporary permit.
- 40661. Temporary use permits shall be coordinated by the Community Development department who4067may request reviews from the Fire, Police, Building, and Public Works departments as necessary4068to ensure safety.

   be required.
- 4104 2. Permission to place one or more tents (up to a total of 425 square feet in size) on the site, provided 4105 that the applicant provides proof of fire-retardancy and adequate tie-down measures with the 4106 application. Tents larger than 425 square feet shall require a separate tent permit. The location 4107 and setback of the tent(s) shall be shown on the conceptual site plan. If a sales trailer is being 4108 used in lieu of a sales tent, the sales trailer shall be handicap-equipped and accessible in 4109 accordance with the Florida Accessibility Code for Building Construction and ADA requirements 4110 and shall be anchored in accordance with all applicable building code standards.
- 4112 3. Permission to utilize an electric generator on site. A temporary electric pole shall not, however,
  4113 be authorized by the temporary sale permit. A temporary electric pole shall require a separate
  4114 permit to be applied for and issued to a licensed electrical contractor.
- D. The Director may approve temporary outdoor seasonal sales in the RML zoning district, if it is determined that such sale would not result in adverse impacts on the surrounding neighborhood.
   Approval of a season sale in the RML district may include conditions to protect the surrounding neighborhood from adverse impacts.
- 4121 E. The applicant shall request inspection by the city of the items authorized pursuant to this Section and
  4122 shall receive approval thereof prior to beginning the sale activity. Inspection of items authorized
  4123 pursuant to this Section shall be made by the Community Development and Fire Departments.

Requirements for a temporary sales office. The following requirements must be met prior to the 4259 approval of a temporary sales office: 4260 4261 1. Connection to sewer and water is required. If sanitary sewer and potable water are unavailable 4262 to the site, bottled water and portable sanitary facilities may be utilized until such time as 4263 sanitary sewer and potable water are available. A temporary sales office shall be connected to 4264 such facilities within 90 days of availability or within 90 days of the permitted temporary sales office, whichever is less. 4265 4266 4267 2. The temporary sales office shall meet the setbacks of the zoning district in which it is located. 4268 4269 3. A temporary sales office shall not be used as a place of habitation or abode by any person(s), 4270 and shall not be used or occupied for business, office, or other purpose(s) at any time except between the hours of 7:00 a.m. and 9:00 p.m. 4271 4272 4273 4. A minimum of three paved off-street parking spaces shall be provided for the temporary sales 4274 office. 4275 5. The entrance to the site on which the temporary sales office is located shall consist of a city 4276 4277 approved driveway or construction entrance. Any impervious area added for the temporary 4278 sales office shall be subject to review and approval by the city. 4279

4280 6. The base of any temporary sales office shall be fully obscured by landscaping and skirting. 4281 Shrubs must be planted on 30-inch centers and have a minimum planted height of two feet. 4282 The type of irrigation, if applicable, must also be provided on the plan. Erosion shall be 4283 minimized and prevented to the extent practicable around any disturbed area. 4284 4285 7. The maximum duration of the permit shall not exceed one year. The Director may extend 4286 permits for up to six months each, based upon factors that include: 4287 4288 a. Size of the project. 4289 4290 b. Number of lots or units in the development remaining to be sold or leased. 4291 4292 c. Effect that the extension would have on the surrounding properties. 4293 4294 d. Developer's need for an extension and efforts, if any, the developer has put forward 4295 toward completion of the development (e.g., effort to complete construction in a timely 4296 manner, delays beyond the reasonable control of the developer, etc.). 4297 4298 8. A temporary sales office shall be removed no later than the date the development is completed 4299 or within 30 days after notice by the city that the application for development has been denied, 4300 whichever is applicable. 4301 4302 C. Permit application and submittal requirements. A permit shall be required for a temporary sales 4303 office. In order to obtain a permit for the use of a structure for a temporary sales office, the 4304 applicant shall submit the following to the Department of Community Development: 4305 4306 1. A scaled drawing of the site, identifying the location of the temporary sales office with dimensions. Construction plans shall also be submitted. 4307 4308 4309 2. The names of the property owner and the operator of the temporary sales officer. In the event the operator is different from the property owner, written and notarized consent from 4310 the property owner must be submitted. Such written consent shall be revocable. In the event 4311 such consent is revoked, the temporary sales office shall be removed within 30 days. 4312 4313 3. The length of time the temporary mobile sales office is proposed for the site. 4314 4315 4316 4. The description of potable water and sanitary facilities that will be available for the 4317 temporary office. 4318 4319 D. Inspection by city officials. To ensure compliance with all applicable laws and regulations, the 4320 temporary sales office shall be held open for reasonable inspection, without court order, by 4321 employees or agents of the City of Cape Coral or any other duly authorized governmental agency. 4322 4323 Section. 5.9.8. Temporary Storage Containers. 4324 4325 A. Temporary storage containers are prohibited in any zoning district of the city, except as follows:

4326			
4327		1.	Residential zoning districts. No more than one temporary storage container per dwelling unit is
4328			permitted in residential zoning districts.
4329		-	
4330		2.	Non-residential zoning districts. No more than two temporary storage containers are permitted
4331			in non-residential zoning districts. In the case of multi-tenant non-residential properties, each
4332			business or tenant may have a temporary storage container.
4333		r	This social is not intended to restrict the storage or location of temperature storage
4334 4335		5.	This section is not intended to restrict the storage or location of temporary storage containers on the premises of a business which is lawfully engaged in the sale, rental, or
4335			distribution of such containers so long as the containers are on the property of such business
4337			as "merchandise" and not for temporary storage of items or goods.
4338			as merchandise and not for temporary storage of items of goods.
4339		Δ	The provisions of this section shall not apply to prohibit or restrict the location of temporary
4340			storage containers on any property for which a valid City of Cape Coral building permit has
4341			been issued and is in effect provided that the construction on the property has not been
4342			abandoned or allowed to lie idle in violation of Article 5-2 of the City of Cape Coral Code of
4343			Ordinances.
4344			
4345	Β.	Ge	neral Requirements:
4346			
4347		1.	No temporary storage container may be placed in one or more parking spaces if the required
4348			number of parking spaces is reduced below the minimum number of spaces required for the site.
4349			
4350			
4351		2.	No temporary storage container shall block or reduce access to fire lane(s), handicapped
4352			parking area(s), or drainage facilities or structures, including swales and catch basins.
4353			
4354		3.	Temporary storage containers shall not be placed in an easement or in any area designated
4355			as a buffer.
4356			
4357		4.	The maximum size of temporary storage containers shall not exceed ten feet in width, ten
4358			feet in height, or 40 feet in length.
4359			
4360		5.	Non-residential zoning districts. Temporary storage container permits are valid for 30 days.
4361			A maximum of two temporary storage container permits may be issued for a property or, in
4362			the case of multi-use or multi-unit properties, for each business or commercial enterprise
4363			located on the property in any calendar year. Temporary container permits may run
4364			consecutively without any minimum period required to elapse between the issuance of
4365			permits.
4366			
4367		6.	Residential zoning districts. Temporary storage container permits are valid for seven days. A
4368			maximum of two temporary storage container permits may be issued in any calendar year.
4369			Temporary container permits may run consecutively without any minimum period required

- 4370to elapse between the issuance of permits. No dwelling unit shall utilize a temporary storage4371container for more than 14 days in any 12-month period.

## 4373 Section 5.9.9. Temporary Habitable Structures

4374

4382

4385

A. Purpose and intent. The purpose of this ordinance is to provide a means by which residents, business owners, governmental agencies, and medical facilities are able to live and conduct business on the same site as their damaged structure using temporary housing and temporary business structures. When disasters result in significant destruction rendering homes and businesses uninhabitable, temporary housing and temporary business structures will provide residents and businesses with the ability to quickly resume normal activities during the restoration of their permanent structures.

- B. Definitions. Terms used in this subsection shall have the meanings as defined in Article 11,
  Definitions, unless the context clearly indicates or requires a different meaning.
- 4386 C. Declaration of habitable structure emergency. Following a disaster, the city shall evaluate the 4387 effect of the disaster on the public health, safety, and welfare. If the City Council finds that the 4388 disaster has negatively affected residential housing or business structures in the city by a 4389 significant degree, the City Council may, by a majority vote, declare the existence of a habitable 4390 structure emergency. Upon the declaration of a habitable structure emergency by vote of the 4391 City Council, the provisions of this subsection shall become effective. The habitable structure 4392 emergency shall identify the disaster which created the emergency situation, and may be declared for either a specified period of time or an indefinite period of time. If the emergency is 4393 4394 for an indefinite period of time, the emergency shall continue until City Council, by a majority 4395 vote, terminates the habitable structure emergency.
- 4396

4402

- 4397 D. Habitable structure emergencies. During a habitable structure emergency, the city will allow, in accordance with the provisions set forth herein, the use of temporary structures. Temporary 4399 residential structures and temporary business structures must be approved by the city with a temporary placement permit. Application and issuance criteria for a temporary placement permit 4401 are as set forth below.
- 4403 E. Temporary business structures may be used for business owners to provide a means for a business 4404 to remain open during the time the permanent business structure is being repaired or replaced. 4405 Temporary business structures may be used to provide temporary facilities for governmental uses, critical public facilities, charitable, religious, or educational institutions that have been rendered 4406 4407 uninhabitable. The regulations for temporary business structures shall apply to temporary business 4408 structures used for governmental uses, critical public facilities, charitable, religious, or educational 4409 institutions. For these institutions, the habitable structure regulations shall apply; however, the Building Official may waive any regulations when strict enforcement may preclude them from 4410 carrying out their normal or emergency functions. Critical facilities shall be limited to the following: 4411
- 4412 4413

- 1. Federal, state, regional, or local government facilities;
- 4415 2. State, county, or local emergency operations centers;

4416								
4417		3.	Police, fire, and emergency medical facilities;

The City of Cape Coral shall be named as additional insured. Certificates of insurance shall show 4670 the City of Cape Coral as the certificate holder. 4671 E. In determining whether a permit shall be issued, the Director of Parks and Recreation, shall consider 4672 4673 certain criteria including: 4674 1. The size, duration, and nature of the event; 4675 4676 2. Previous history, if any, of organizing events within Lee County and whether said events created 4677 4678 hazards or safety situations; 4679 4680 3. Other events previously scheduled during the same time period within the city; 4681 4682 4. If the applicant has been adjudicated guilty of violating any provision of this Section, said 4683 adjudication may constitute grounds for denial of future special events permits by the city; and 4684

- 4685 5. The Director of Parks and Recreation, may, in his or her sole discretion, deny the applicant a 4686 permit for the special event within the City of Cape Coral.
- 4688 F. Special events shall be held in accordance with the following:
  - 1. All applicable city ordinances and building, fire, and electrical codes shall be complied with.
- 4692 2. Most events shall require off-duty City of Cape Coral police officers to be hired for the duration of 4693 any event to include one hour before opening and one hour after closing. The Police Chief, shall 4694 determine the number of officers required, if any, based upon the size and nature of the event 4695 and past experience with similar events. The cost for the off-duty detail shall be set using the 4696 present rate charged by the Police Department which shall be paid by the applicant prior to the 4697 issuance of the permit. All applicants must comply with any rules or regulations imposed by the 4698 Police Chief, which are consistent with this Section.
- 4700 3. Most events shall require off-duty City of Cape Coral firefighters or paramedics, to be hired for the duration of any event to include one hour before opening and one hour after closing. The Fire 4701 4702 Chief, shall determine the number of firefighters or paramedics required, if any, based upon the 4703 size and nature of the event and past experience with similar events. The cost for the off-duty 4704 detail shall be set using the present rate charged by the Fire Department which shall be paid by the applicant prior to the issuance of the permit. All applicants must comply with any rules or 4705 4706 regulations imposed by the Fire Chief, which are consistent with this Section. In the event the Fire 4707 Chief determines that special equipment such as all-terrain vehicles, trailers, fireboats, or fire and 4708 rescue assets, and appropriate personnel for the special equipment are necessary, the city 4709 reserves the right to request reimbursement for all or part of the discretionary cost from the 4710 applicant.
  - 4. No open flame or other device emitting flames or fire shall be used in any tent or air supported structure while open to the public.
- 4715 5. All equipment including, but not limited to, tents, stages, amusement rides, utility areas, ingress and egress locations, and cooking areas shall be inspected and approved by city fire inspectors or 4716 4717 state officials, if applicable, prior to the opening of the event. If applicable, inspection certificates 4718 and annual permits, as required by the State of Florida, shall be submitted to the city prior to the 4719 opening of the event. All equipment and amusement rides, other than those which are patron-4720 operated or controlled, shall only be operated by persons over 18 years of age who are employed 4721 by the applicant and who are thoroughly familiar with the operation of said equipment and amusement rides. The operator of such equipment and amusement rides shall be in the 4722 4723 immediate vicinity of the operating controls at all times during the operation of the equipment 4724 and amusement rides and no unauthorized person shall be permitted to handle the controls 4725 during said operation.

- 4791 4792 1. The commercial establishment seeking the temporary sale permit must have the written 4793 permission of the owner, or an authorized representative of the owner, of the property on 4794 which the temporary sale will be conducted. The written permission shall state that, as a 4795 condition of the city's issuance of a permit for the temporary sale, the property owner agrees 4796 to be responsible for any damage to the city's right-of-way or utility systems as a result of the 4797 sale and that any such damage shall be repaired at the expense of the property owner. In 4798 addition, such written permission shall also state that, in consideration of the city's issuance of 4799 the permit, the property owner shall hold the city harmless from any claim, loss, damage, or cause of action that arises because of the temporary sale or the issuance of the permit 4800 4801 therefore, including any loss or damage to the owner's property or improvements thereon. Such written permission shall have a notarized signature and shall be filed with the Department of 4802 4803 Community Development.
  - 2. The duration of any such temporary sale shall not exceed five consecutive days.
  - 3. The property on which the off-site sale is conducted shall not have been used for temporary off-site sales for more than six occasions in the preceding one-year period.
  - 4. Temporary sales shall only be conducted between the hours of 8:00 a.m. to 9:00 p.m.
    - 5. The display of vehicles and the operation of the temporary sale shall not interfere with the normal parking and traffic circulation of the business(es) located on the site.
- 4815 6. The temporary off-site vehicle sales permit shall, at all times during the permitted time period 4816 authorized for the sales, be displayed on the site upon which such sales are being conducted.
- 7. No temporary sale shall begin until a permit therefore has been approved and issued by the city and all fees are paid in accordance with the city's adopted fee schedule. Prior to the issuance of a temporary sale permit, a complete application must be submitted to the Department of Community Development, along with a conceptual site plan. In addition to the proposed site layout and setbacks, the conceptual site plan shall address vehicular traffic and parking

4823 measures, fire protection measures, sanitary facilities and lighting and areas of electric needs. 4824 The temporary sale permit shall include, as applicable: 4825 4826 a. The right to erect one sign or banner, a maximum of 32 square feet in size, or two such signs 4827 or banners for properties having frontage on more than one street. In lieu of such sign(s) or 4828 banner(s), the applicant may display an inflatable object in accordance with Article 7 of this 4829 code. The applicant shall include with the application sign details such as the placement of 4830 the sign and anchoring or tie-down measures. The placement and anchoring of the means of advertisement shall not interfere with the visual safety of motoring traffic. 4831 4832 4833 b. Permission to place one or more tents (up to a total of 425 square feet in size) on the site, 4834 provided that the applicant provides proof of fire-retardancy and adequate tie-down 4835 measures with the application. Tents larger than 425 square feet shall require a separate 4836 tent permit. The location and setback of the tent(s) shall be shown on the conceptual site 4837 plan. If a sales trailer is being used in lieu of a sales tent, the sales trailer shall be handicap-4838 equipped and accessible in accordance with the Florida Accessibility Code for Building 4839 Construction and ADA requirements and shall be anchored in accordance with all applicable 4840 building code standards. 4841 4842 c. Permission to utilize an electric generator on site. A temporary electric pole shall not, 4843 however, be authorized by the temporary sale permit. A temporary electric pole shall 4844 require a separate permit to be applied for and issued to a licensed electrical contractor. 4845 4846 d. The applicant shall request inspection by the city of the items authorized under this section and shall receive approval thereof prior to beginning the off-site sale activity. Inspection of 4847 4848 items authorized pursuant to subparagraphs a. through c. shall be made by the Department 4849 of Community Development. Items authorized pursuant to subparagraphs b. and c. shall 4850 also be made by the Fire Department. 4851 4852 B. Any other outdoor display on improved property must be approved by City Council and is subject to review annually at the discretion of Council, except that the City Manager may approve requests 4853 4854 for temporary displays of no longer than five days duration no more than two times per calendar 4855 year for any location or applicant when he or she is satisfied that the request would be in keeping 4856 with the harmony of the zoning district and that it would violate none of the ordinances of the City 4857 of Cape Coral. 4858 4859 Section. 5.9.12. Tents for other than Special Events. 4860 4861 A. A tent may be permitted to be erected for a for a maximum of five days for an event. 4862 4863 B. A tent permit is required, and the application must include the following information. 4864 4865 1. A site plan showing tent location(s) with the dimensions from the property lines, existing 4866 structures, location of equipment, all streets, entrances, exits, parking areas, and restroom 4867 facilities; 4868

Visible evidence of the 5425 commercial character of food stores, personal services, and restaurants may be observable 5426 from a street outside the park. For food stores, personal services, and restaurants that have 5427 vehicular ingress/egress directly accessible from a public street, or present visible evidence, 5428 observable from a street outside the park, of their commercial character, no certificate of 5429 use shall be issued until a minimum of 20% of the total transient guest sites for the entire 5430 recreational vehicle park have been constructed or installed; and 5431 5432 b. The cumulative gross leasable floor area of food stores, personal services, and restaurants 5433 shall not occupy more than 3% of the net area of the park. Not more than 25,000 square 5434 feet of contiguous gross leasable floor area shall be devoted to food stores. 5435 5436 5. In the event that a recreational vehicle park fails to meet the minimum required number of 5437 transient guest sites as a result of removal of transient guest sites or conversion to another use, 5438 or if the offering of lodging at transient guest sites is discontinued for one year or more, any 5439 activity that had previously been approved as an amenity incidental to the recreational vehicle park use shall lose its status as an amenity and shall be treated in the same manner as a 5440 nonconforming use. 5441 5442 5443 Q. Prohibitions. The following uses, activities or improvements listed below are prohibited within a recreational vehicle park: 5444 5445 1. Permanent residential use is prohibited, except in an approved caretaker/watchperson 5446 5447 residence. 5448 5449 2. Lodging within any structure other than an approved recreational vehicle, camping cabin, 5450 caretaker, or watchperson residence (e.g., tent, mobile home, garage, shed, or agricultural 5451 building) is prohibited within a recreational vehicle park. 5452 5453 3. The storage of a recreational vehicle, boat, or accessory trailer during any period when the 5454 owner or lessee of the vehicle is not a registered occupant of a transient guest site is prohibited.

5455		Storage of boats and accessory trailers is prohibited on individual transient guest sites or on
5456		internal roads.

If any parking areas are artificially lighted, they shall be so designed and arranged that 5552 lighting is primarily directed on-site. Such areas shall not be lighted at any time other than during the same hours that the use to which the parking is appurtenant is open for business, except for 5553 5554 necessary security lighting. 5555 5556 L. Stormwater Management. All parking areas shall incorporate appropriate stormwater quality 5557 design features to be reviewed with the SDP application. 5558 5559 Section. 5.10.9. Solar Arrays. 5560 5561 Solar Arrays shall meet the following requirements: 5562 5563 A. These facilities may only be permitted in the Agriculture, Institutional, or Industrial zoning districts. 5564 B. Solar Arrays may only be permitted on lots over one acre in size. 5565 5566 5567 C. Must maintain appropriate security fencing and signs for protection. 5568 D. Solar Arrays shall be effectively screened with a fence, landscape material, or a combination thereof, 5569 where visible from an abutting property or right-of-way as determined by the Director. 5570 5571 1. The structures may be screened with an opaque wall or fence, up to the height allowed in that 5572 5573 zoning district. 5574 5575 2. Alternatively, the structures may be screened with shrubs that meet the following requirements: 5576 5577 a. A row of shrubs shall be planted along all sides of the facility for which screening is required. 5578 b. All shrubs required for screening shall be a minimum of 32 inches in height and be in at least 5579 5580 a seven-gallon container size at the time of planting. All shrubs shall be planted at a spacing 5581 of three feet apart as measured on center. 5582 5583 c. All shrubs shall be maintained at a minimum height of six feet at maturity and shall be 5584 maintained in good condition as long as the structures requiring screening remain. 5585 5586 d. 5605	4	Adamsets descentation that as leasting on an existing surgery descent as an existing				
5606	1.	Adequate documentation that co-location on an existing approved tower or on an existing				
5607		building or structure, has been attempted and is not feasible. Such documentation shall include:				
5608 5609	h	The results of a designed service study demonstrating to the satisfaction of the city that the				
5610	۷.	equipment planned for a proposed communication tower cannot be accommodated on an				
5611		existing or approved and un-built structure.				
5612		existing of approved and difbuilt structure.				
5613	3.	The designed service study analysis shall be based upon a search area radius of three-quarters of				
5614	5.	a mile minimum distance from the location of the intended WCF or tower, including areas outside				
5615		the City of Cape Coral. At the discretion of the city, based on the city's knowledge of existing co-				
5616		location opportunities, the city may allow an applicant to provide an affidavit from a professional				
5617		radio frequency engineer which establishes the search area diameter for the proposed WCF or				
5618		tower location and identifies all other alternatives in the area. Further information may be				
5619		required by the city on the ability of the WCF or tower to be accommodated on specific sites				
5620		within three-quarters of a mile of the proposed WCF or tower.				
5621						
5622	4.	When co-location is determined by staff to be infeasible, the determination shall be based upon				
5623		the results of the designed service study and other evidence provided by the applicant				
5624		documenting one or more of the following reasons:				
5625						
5626		a. Structural limitation. The proposed equipment would exceed the structural capacity of the				
5627		existing or approved structure, as documented by a licensed professional engineer, and the				
5628		existing or approved structure cannot be reinforced, modified, or replaced to accommodate				
5629		the planned or equivalent equipment at a reasonable cost.				
5630						
5631		b. Interference. The proposed equipment would cause interference or obstruction materially				
5632		impacting the usability of other existing or planned equipment at the tower or building as				
5633		documented by a qualified professional and the interference or obstruction cannot be				
5634		prevented at a reasonable cost.				
5635						

5636 c. Insufficient height. Existing or approved towers and buildings within the search radius cannot accommodate the planned equipment at a height necessary to function reasonably as 5637 5638 documented by a licensed, if applicable, professional. 5639 d. Lack of space. Evidence from the applicant, verified by a licensed professional, of the lack of 5640 5641 space on existing towers or other structures within the search radius to accommodate the 5642 proposed facility. 5643 5644 e. Other factors. Other reasons that make it unfeasible to locate the planned equipment upon 5645 an existing or approved tower or building as documented by a qualified and licensed, if 5646 applicable, professional. 5647 5648 f. Technical consultants. The city shall have the right to retain independent technical 5649 consultants and experts that it deems necessary to properly evaluate applications for wireless 5650 telecommunications facilities or towers and to charge reasonable fees as necessary to offset 5651 the cost of such evaluations. 5652 5653 Section. 5.10.12. Wireless Facility Design standards. 5654 5655 In addition to any other applicable requirements provided elsewhere in the Land Development Code, an 5656 application for a communication tower shall include the following: 5657 5658 A. Fall zone. In the event of a catastrophic failure or collapse, towers shall be designed to collapse within 5659 an engineered fall zone lying wholly within the lot lines of the parcel containing the tower. Such fall 5660 zone shall be certified by a professional engineer, licensed in the State of Florida. 5661 5662 B. Tower design for co-location. A proposed tower shall be designed to allow for future rearrangement of antennas, to provide space for antennas to be mounted at varying elevations, and to accommodate 5663 5664 co-location. 5665 5666 C. Monopoles or stealth. All towers shall be monopoles or stealth design. 5667 5668 D. Illumination. A tower shall not be artificially lighted except as may be required by federal or state 5669 regulations. 5670 5671 E. Surface or finish color. All towers shall be painted or have a non-contrasting finish that minimizes the visibility of the facility from public view, except where contrasting color is required by federal or state 5672 5673 regulation. In addition, the exterior of support facilities shall be designed to be compatible with the 5674 architectural design prevailing among the structures in the surrounding developed area. 5675 5676 F. Sign. The main access gate in the tower shall have affixed to it a sign not to exceed two feet by three 5677 feet in size which displays the owner's or permittee's name and an emergency telephone number. 5678 5679 G. Maximum height. The maximum height of towers shall be 100 feet if the tower is designed for one 5680 service provider, 120 feet if the tower is designed to accommodate two service providers, or 140 feet 5681 if the tower is designed to accommodate three or more service providers.

- 5683 H. Landscape screening. The accessory components to the tower shall be screened from view by shrubs
   5684 maintained at a height of six feet, immediately adjacent to the fence surrounding the facility and
   5685 minimum of eight trees planted outside of the shrub buffer

# Section. 5.10.14. Model homes.

# 591 Model Homes shall meet the following requirements.

- A. Model homes are intended to facilitate the sale of the model design, or products similar in design to the model and is not intended to allow the full scope of real estate activities and shall be restricted primarily to the sale and marketing of the model, or products similar to the model. Model homes shall be permitted as a temporary, conditional use, not to exceed 10 years, in residential zoning districts (R1, RE, RML) or within a Planned Development.
  - B. A model home must meet all of the zoning and building requirements for a residence in that zoningdistrict as well as the following:
    - 1. Parking. Three off-street vehicular parking spaces, including the garage, shall be provided on the model site or on an adjacent vacant property.
    - 2. On-site parking. A parking space may be provided in the garage. A handicap parking space is required and shall count as one of the three required spaces.
- 57083. Off-site parking. Adjacent vacant single-family lot(s) may be used for model home parking. A plan5709to provide parking on an adjacent parcel shall require ownership by the same or an affidavit of5710authorization from the property owner as well as a surety deposit payable to the City of Cape5711Coral to convert the property back to a residential or other permitted use when the structure is5712converted or sold. The deposit shall cover the costs associated with the conversion of the parking5713lot. The deposit shall be based on no less than 110% of the estimated cost by a professional5714engineer licensed in the State of Florida which shall be signed and sealed by the engineer, and5715found to be acceptable to the City. Funds and resulting interest shall be returned upon conversion5716of the site to a residential or other permitted use, the entire amount if the work is completed by5717the applicant, or the remaining funds if the City completes the work.
  - 4. A hedge row of at least 36 inches in height shall be planted and maintained around the vehicular parking area.
    - 5. On-site or off-site parking shall be a paved or approved impervious surface with appropriate signs and markings, including handicap parking.
- 57256. Treatment of stormwater runoff will be required for the first inch of runoff from the paved area5726associated with the parking lot area only.

5728 5729		7.	Model home parking lots require a Limited Site Development Plan approval prior to construction.			
5730 5731 5732	В.		ndicapped standards shall be met throughout the home, including access per the Florida Building le and handrail and grab bar requirements.			
5733 5734 5735	C.	Garage office. For any garage being used as an office for a model home the applicant must submit the following:				
5736 5737		1.	Plan of garage-office facility, including false walls, temporary electrical and plumbing.			
5738 5739		2.	Plan showing how garage will be returned to its original use.			
5740 5741 5742		3.	\$10,000.00 refundable surety to ensure that the garage is converted back to the FEMA standards for single-family home usage.			
5743 5744	D.	Sigr	n standards as defined in Article 7 of this code.

Extensions beyond this five-year temporary certificate of occupancy may be granted for structure in the event an extension is approved for the model's permit by the Director of nmunity Development. The initial approval and maximum extension will allow the use of an ividual model home to exist for a cumulative 10 years. The decision to extend the initial permit Il be pursuant to the following considerations:			
5752 5753 5754		1.	The number of existing model homes within the immediate area of the extension request and impacts of those on the neighborhood.			
5755 5756 5757		2.	The adequacy of the right(s)-of-way upon which the model home fronts.			
5758 5759		3.	The character or makeup of the area surrounding the model home.			
5760 5761		4.	The potential effect of the model home on adjacent and surrounding properties.			
5762 5763		5.	The existence of complaints relating to that model home.			
5764 5765		6.	A demonstration of good cause from the applicant why the extension request is needed.			
5766 5767		7.	Approval as a model home shall be recorded against the title.			
5768 5769 5770			5.10.15. Buildings and Construction with outdoor storage and display shall meet the following ments.			
5771 5772	Α.	No	storage or display shall be in fire lanes or required parking areas.			
5773	В.	Ma	terials or equipment that is brought inside a building overnight shall not be considered as display.			

5774							
5775	Section. 5.10.16. Self-storage Facility.						
5776							
5777 5778	Self-storage facilities in the I, C, or CC districts must meet the following conditions:						
5779 5780 5781 5782	A. The facility must be designed so as to screen the interior of the development from all property lines. Screening features may consist of a free-standing wall, wall of a building, or a combination of the two. Free-standing walls used for screening shall be eight feet in height measured from grade.						
5783 5784 5785	1. The following materials, either singly or in any combination, are the only materials that may be used to form the wall:						
5786 5787	a. Concrete block coated with stucco;						
5788 5789	b. Textured concrete block;						
5790 5791	c. Stone;						
5792 5793	d. Brick; or						
5794 5795	e. Formed, decorative, or precast concrete.						
5796 5797 5798 5799 5800	<ol> <li>If the wall of a building is used to meet the opaque feature requirement, such wall shall be surfaced with stucco, brick, stone, textured concrete masonry units, or other concrete surface. Untreated concrete block is not an acceptable finished material. Building walls used as a screening feature shall not have doors or windows.</li> </ol>						
5800 5801 5802 5803 5804 5805 5806	B. A landscaped area with a minimum width of 10 feet shall be provided around the perimeter of the site. Perimeter landscaping shall consist of a minimum of three canopy trees per 100 feet, three accent trees per 100 feet, and 33 shrubs per 100 feet. Palms trees cannot be used to meet the minimum planting requirement of this section. All shrubs shall be installed at a minimum height of 32 inches and be in a minimum seven-gallon container at the time of planting.						
5806 5807 5808 5809 5810 5811	C. In the event a self-storage facility is designed as a multi-story building, the interior of the development is not required to be screened by a free-standing wall or a building wall, provided there are no visible exterior doors providing access to individual storage units. Multi-story self-storage facilities must comply with the nonresidential design standards established in Chapter 8 of this Article.						
5812 5813	Chapter 11 CONDITIONAL USES						
5815 5814 5815	Section. 5.11.1. Purpose and applicability.						
5815 5816 5817	A. Purpose and Intent						
5818 5819	1. To provide standards and criteria for review and approval of specified conditional uses for a specific site.						

5820 5821 2. To provide reasonable limitations or special conditions for conditional uses, in order to address, 5822 minimize, or ameliorate potential impacts of the use on surrounding property and for the 5823 protection of the public health, safety, and welfare. 5824 5825 B. General Requirements. Proposed conditional uses must meet the following requirements: 5826 5827 1. The conditional use standards identified in Article 4 for the specific zoning district use and 5828 conditional use in question. 5829 5830 2. The proposed conditional use will not result in development that is inconsistent with the intended 5831 character of the applicable zoning district. 5832 3. A listed conditional use that does not meet the applicable conditional use standards may apply 5833 5834 for approval as a Special Exception. 5835 5836 C. Review Criteria. A Conditional Use may be approved by the Director based on criteria identified in 5837 Article 4. These criteria are specific to each conditional use. 5838 5839 Section. 5.11.2. Brewpubs. 5840 5841 Brewpubs in the MXB district must meet the following conditions: 5842 5843 A. The area used for brewing, bottling, and kegging of all beverages produced by the establishment shall 5844 not exceed 40 percent of the total floor area of the restaurant, bar, or nightclub, or exceed a total floor area of 2,500 square feet devoted for brewing, bottling, and kegging, whichever is less. 5845 5846 5847 B. An interior floor plan shall be submitted that clearly shows the area of the building that will be devoted 5848 to the brewing, bottling, and kegging component of the establishment. 5849 5850 C. No outdoor storage shall be allowed including the use of portable storage units, cargo containers, and tractor trailers, except as follows: spent or used grain may be placed outdoors for a period not to 5851 5852 exceed 24 hours. The temporary stockpiling for spent or used grain shall be: 5853 1. Clearly shown on a detailed dimensional and labeled drawing that depicts the location of the 5854 stockpiled spent grains and the distance of the stockpiled grains from property lines and the 5855 building containing the brewpub; 5856 5857 5858 2. Placed only along the side or rear of the building; and 5859 5860 3. Fully enclosed in containers that are screened behind an opaque wall or fence. The wall or fence 5861 shall have a minimum height of six feet. 5862 Section. 5.11.3. Attached residential of three-units or more. 5863 5864

25	CHAPTER 1. PARKING, LOADING, AND DRIVEWAY REQUIREMENTS.
26	
27	Section. 6.1.1. Purpose and applicability.
28	
29	The purpose of this Chapter is to ensure that required off-street space is provided to allow for loading,
30	unloading, and parking on private property by motor vehicles, bicycles, and other allowed vehicles. It is
31	further intended that the design of off-street parking areas ensure safe and efficient traffic circulation,
32	with consideration given to the surrounding street plan, pedestrian movements, and safety. All
33 34	development and redevelopment shall provide off-street parking in compliance with the standards set forth in this Chapter and the Engineering Design Standards.
35 35	forth in this chapter and the Engineering Design Standards.
35 36	Section. 6.1.2. Standards for parking and vehicular use areas.
37	Section. 0.1.2. Standards for parking and venicular use areas.
38	Parking spaces and drive aisles shall conform to standard designs found in the City of Cape Coral
39	Engineering and Design Standards.
40	
41	Section. 6.1.3. Parking, driveway, and vehicular use areas: provision, location, and setbacks.
42	
43	Off-street parking facilities required by this article shall be fully within the property lines of the parcel
44	they are intended to serve unless an alternative location is approved as provided in this Chapter.
45	
46 47	A. Setbacks and buffering from property lines. Landscape buffers required by Article 6 shall be maintained along the perimeter of parking lots.

B. Driveways. All driveways shall be designed and constructed per the requirements set forth in theEngineering and Design Standards of Cape Coral.

C. Pedestrian Safety. All off-street parking facilities, including drive aisles, travel lanes, and driveways
 shall be arranged to minimize hazards to pedestrian movement in the immediate area or encroach
 upon fire lanes, walkways, and visibility triangles. Pedestrians must be protected from exiting a
 building into vehicular traffic in an emergency. The applicant shall provide a walkway or a protected
 area with a minimum width of the doorway plus five feet beyond the swing of the door. All exit
 discharges from buildings shall be protected by permanent means to ensure pedestrian areas are
 protected from vehicular encroachment.

59

48

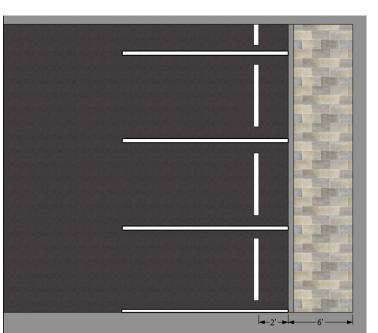

51

D. Pedestrian Safety Zones. Within parking areas over 100 spaces for commercial uses, paved pedestrian
 walkways at least six feet in width shall be provided at 200-foot intervals. Such walkways may be
 interrupted by necessary drive aisles, but shall include adequate wheel chair ramps, if necessary.
 Curbs or wheel stops shall be so placed to prevent any portion of the vehicle to encroach upon the
 pedestrian safety zone. Diagram 6.1.3. illustrates a pedestrian safety zone.

79 2. Design of the space shall be such that the delivery vehicles can maneuver without damaging 80 landscaped areas. 81 82 3. Loading spaces may be shared by adjacent properties when delivery schedules do not overlap 83 and an access agreement has been completed. 84 85 4. Loading zones may not be placed where they obstruct required fire lanes and access to 86 hydrants. 87 5. Loading zones shall be in a place which ensures convenient and safe entry and exit for the users 88 89 of the loading zone, and the convenience and safety of pedestrians and motorists using the development. 90 91 92 Section. 6.1.5. Required visibility triangles. 93 94 As an aid to allow for safe operation of vehicles, pedestrians, and cyclists in the proximity of intersecting 95 streets, driveways, alleys, and bicycle paths there shall be limitations on the height of fences, walls, 96 gateways, ornamental structures, signs, hedges, shrubbery, and other fixtures as visually depicted in 97 the Cape Coral Engineering and Design Standards and as follows: 98 99 A. All landscaping and signs within the visibility triangle shall provide unobstructed visibility between 100 30 inches and eight feet, with the exception of tree trunks that do not create a traffic hazard. 101 102 B. The property owner shall be responsible for maintaining all landscaping within the visibility triangle to provide the unobstructed visibility. 103 104 105 C. The Community Development Director or Public Works Director shall make the final determination 106 regarding visibility triangles. 107 108 Section. 6.1.6. Common driveways, shared parking, and off-site parking. 109 110 A. Common driveways shall be encouraged and may be required to reduce the number of curb cuts along a right-of-way. Driveways shall be in accordance with the Engineering Design Standards. 111 112 Driveway access to State and County maintained roadways are regulated by FDOT or Lee County 113 and require separate permits from the respective agency prior to commencement of construction. Approval of a common driveway will require submittal of a notarized shared access agreement and 114 easement, acceptable to the City, which shall be recorded against the title for each property 115 116 involved. 117 118 B. Off-site parking and shared parking. In an instance where a business is unable to provide adequate 119 parking on-site, off-site parking may be approved by the Director. Shared parking agreements and 120 off-site parking agreements shall be reviewed as often as is appropriate to ensure compliance and adequacy of all provisions. 121 122 1. Approval of off-site parking shall be dependent upon: 123 124

- Opportunities for reduction in parking requirements. A developer may request a reduction in parking during the site plan process by using the following methods:
- 175a. If the Institute of Transportation Engineers (ITE) Reference Manual entitled Parking176Generation allows a lesser number of parking spaces for the proposed use or a use of similar177characteristics, then the number of parking spaces required for a development may be178reduced.
- b. A reduction in the required number of spaces may be allowed if the developer provides the city with credible evidence that the parking needs are actually less than those reflected in the Table of Parking Standards or that the need for off-street parking spaces would be met through alternative means. Such credible evidence may include parking generation studies conducted within the City of Cape Coral or other similarly sized communities.

## 208 Section. 6.1.8. Miscellaneous parking requirements.

209

- A. Access to buildings. Parking shall not interfere with ingress-egress doors for stairwells, transformer
   rooms, elevator machine rooms, trash rooms, or any other use requiring clear access aisles for
   services.
- 213
- B. Marking and identification. All parking and loading spaces other than for single-family detached and duplex dwellings, shall be marked in accordance with the Engineering Design Standards. Off-street parking facilities not clearly evident from a street or alley shall be identified as to location and purpose. Marking and curb stops for duplex dwelling parking areas shall be marked in accordance with the design requirements shown in Section 6.2.2.

- C. Use of spaces. All off-street parking facilities shall be used solely for the parking of vehicles in operating condition. No automotive repair work except emergency service, no storage of merchandise, and no motor vehicles which are being offered for sale by a business in the development shall be permitted on or within any required off-street parking area.
- 224
   225 D. Surfacing. All off-street parking (spaces and aisles) and drives connecting such areas with the street, 226 including spaces required for serving single-family detached residences or duplexes, shall be 227 surfaced in accordance with the Engineering Design Standards unless an alternative landscaped 228 area is approved for occasional parking as part of a development approval. All parking surfaces shall 229 be maintained in a condition that is safe and free of potholes.
- E. Unpaved parking. Clearly identified, non-paved parking areas may be permitted, only in accordance
   with this Subsection. Unpaved parking, which is graded and covered with sod to provide a surface
   that is durable, stable, and will also assist in managing stormwater, dust, and erosion may be
   provided for up to 50% of the off-street parking requirements for the following uses:
- 236 1. Agriculture or farming uses;
- 238 2. Cemeteries;

- 3. Funeral homes, mortuaries, and crematoria;
- 242 4. Places of worship;
  - 5. Religious facilities; or
- 246 6. Parks and recreation facilities owned by a governmental entity.
- F. Parking on unpaved areas shall be prohibited on all parcels other than those specifically allowed by
   this code to utilize grass parking. Where parking occurs on unpaved areas, a violation may be issued.
   Resolution of the violation may include providing additional parking spaces, not to exceed the
   allowed pervious surface requirement for that use.
- 253 G. Off-street circulation and maneuvering.
- Off-street parking facilities for multi-family, industrial, or commercial developments shall provide for on-site vehicle circulation and maneuvering in accordance with the Engineering Design Standards. Backing into the street right-of-way shall not be permitted for any uses other than single-family detached residences on a local street.
- Single-family detached residences which are on a right-of-way classified as a collector or higher
   classified roadway, and all duplex residences shall be required to install a circular driveway to
   eliminate the necessity to back into the roadway. See diagrams 6.1.8.A for the typical circular
   driveway example.

H. Drainage. Design and construction of all parking areas shall conform to the requirements of the City
 of Cape Coral Engineering Design Standards and all applicable South Florida Water Management
 District requirements for stormwater management. All design and construction shall be such that
 runoff from the property is intercepted and prevented from entering onto adjoining properties or
 right-of-way(s) prior to treatment. The developer shall be responsible for obtaining all required
 permits.

- Parking along alleys. Parking on sites abutting alleys is allowed provided the following conditions are
   met:
  - 1. The area of the site abutting the alley is needed to meet the minimum parking requirement for the site.
  - 2. The alley is improved or will be improved to allow for the movement of vehicles in the alley along the site.
- 3. No portion of a parking space shall be closer than 3' from the platted alley. Vehicles can be parked
   in their entirety on the site. No part of any parked vehicle may extend into the alley right-of-way.
- All parking spaces shall be striped consistent with those standards appearing in the City
   Engineering and Design Standards.
- 5. The minimum clear aisle width behind parking spaces adjacent to alleys shall be the same as the
  aisle widths required by the Engineering Design Standards for the specific parking space
  orientation. An additional setback for the parking space from the alley may be required to
  provide adequate aisle width.
- 297 J. Supplemental parking requirements within the South Cape District.
- 2991. Development may count on-street parking within 500 feet of the property to meet the minimum300required off-street parking spaces.

- As of December 1, 2005, sites within 25 feet, excluding alleys and walkways, of any of those dedicated city parking areas identified in § 6.1.8.J.1.a, below shall be considered "parking area
   sites". For parking area sites, the following parking and PILOP regulations shall apply:

- b. For purposes of this subsection, when a "parking credit" must be calculated for a parking area site, such parking credit shall be calculated by multiplying the area of the site (in square feet) by the parking allocation factor related to the dedicated city parking area upon which the site is located. This credit shall be deducted from the minimum parking requirements.
  - c. When the area of a parking area site changes, the following shall apply:
  - In the event the area of a parking area site is increased as the result of the acquisition of property that was not a part of a parking area site as of December 1, 2005, the increase in area that results from such acquisition shall, for purposes of this subsection, be treated in the same manner as property, no part of which comprised a parking area site.
- 323 ii. In the event the area of a parking area site is increased as the result of the acquisition 324 of property that was a part of a parking area site as of December 1, 2005, any PILOP 325 fees previously paid as the result of the use(s) or structure(s) on the conveyed property 326 shall be treated in the same manner as any PILOP fees, if any, previously paid by the 327 receiving site provided that the minimum total parking requirements for the conveying 328 site decrease as the result of the conveyance of property. If the minimum total parking requirements for the conveying site do not decrease as the result of the transfer, then 329 330 any PILOP fees previously paid in regard to the conveying property shall continue to be applied solely to the conveying property and shall not apply toward the parking 331 332 requirements of the enlarged (receiving) site.

333 iii. In the event the area of a parking area site is decreased as the result of the conveyance 334 of property that was a part of a parking area site as of December 1, 2005, regardless of 335 whether such conveyance is to another parking area site or to a property that is not a 336 parking area site, then any PILOP fees previously paid in regard to the conveying 337 property shall continue to be applied solely to the conveying property and shall not 338 apply toward the parking requirements of the receiving site unless the minimum total 339 parking requirements for the conveying site decrease as the result of the transfer. If the 340 minimum total parking requirements for the conveying site decrease as the result of 341 the transfer, and the conveying site had previously paid PILOP fees pursuant to this 342 subsection, then any such PILOP fees that are unnecessary to defray the decreased total 343 parking requirements of the conveying site shall be applied toward the parking 344 requirements of the receiving site. 345

- 346d. A parking area site is altered, for purposes of this subsection, when any use located on the<br/>site is changed, any structure located on the site is modified, or the land area of the site is<br/>changed. Although a parking area site shall not be required to provide on-site parking, when<br/>such site is altered so that the minimum total parking requirement for the site, pursuant to<br/>Table 6.1.7.B contained in § 6.1.7.A. is increased, the parking requirement for the site shall<br/>be determined in accordance with the following:
  - i. Parking area sites that are undeveloped as of December 1, 2005:

- (1) A parking area site that is undeveloped as of December 1, 2005, the area of which has not changed and which is being initially developed after December 1, 2005, shall be required to provide the minimum parking that would be required pursuant to Table 6.1.7.B contained in § 6.1.7.A. less a parking credit calculated pursuant to § 6.1.8.J.1.b The site would need to meet the aforesaid parking requirement prior to receiving a certificate of occupancy (for residential uses) or a certificate of use (for non-residential uses). If the land area of the parking area site increases prior to the initial development of the site, then the requirements of this subsection shall apply to the expanded portion of the site (and any structures thereon) as applicable based on factors such as whether it was previously developed or had previously paid PILOP fees.
- (2) After such a parking area site has been initially developed pursuant to this subsection, any further alteration of the site that would result in an increase to the minimum parking requirement for the site, area of the site, shall require that the site provide the minimum parking that would be required pursuant to Table 6.1.7.B contained in § 6.1.7.A. less the parking credit calculated pursuant to § 6.1.8.J.1.b and any PILOP fee(s) previously paid to offset the parking requirement of the site or any part thereof.
- 375 (3) After the initial development of such a site, if the area of the site increases, any
  376 further alteration of the site that would result in an increase to the minimum
  377 parking requirement for the site shall require that the site provide the minimum
  378 parking that would be required pursuant to Table 6.1.7.B. contained in § 6.1.7.A.

- (4) Alternatively, if, after the initial development of such a site, the area of the site decreases, any further alteration of the site that would result in an increase to the minimum parking requirement for the site shall require that the site provide the minimum parking that would be required pursuant to Table 6.1.7.B. less a parking credit and any PILOP fee(s) previously paid to offset the parking requirement of any use(s) or structure(s) located on the area of the site remaining after the decrease(s) in area, in accordance with § 6.1.8.J.1.c.
  - ii. With respect to parking area sites that are developed and occupied as of December 1, 2005, the following shall apply:
    - (1) The first time such a site is altered after December 1, 2005, if the alteration would result in an increase in the minimum parking requirement for the site of more than 25% over the amount required for the site for the use(s) and structure(s) located on the site as of December 1, 2005, as reflected in the certificate(s) of use in effect for such site as of that date, the site shall be required to provide the minimum parking that would be required pursuant to Table 6.1.7.B. contained in § 6.1.7.A.. less a parking credit calculated as provided in 6.1.8.J.1.b.
- 402 (2) Alternatively, if such an alteration of the site would result in an increase in the 403 minimum parking requirement for the site of not more than 25% over the amount 404 required for the site for the use(s) and structure(s) on the site as of December 1, 405 2005, as reflected in the certificate(s) of use in effect for such site as of that date, 406 then the alteration of such site shall require the site to provide the minimum 407 parking required for the site (pursuant to Table 6.1.7.B.) less the amount attributed 408 to the site for the use(s) and structure(s) on the site as of December 1, 2005, as 409 reflected in the certificate(s) of use in effect for the site as of that date. Further 410 alterations to the site that do not, either singularly or cumulatively, increase the 411 minimum parking requirement for the site by more than 25% over the amount 412 required for the site for the use(s) and structure(s) on the site as of December 1, 413 2005, as reflected in the certificate(s) of use in effect for such site as of that date, 414 shall require the site to provide the minimum parking required for the site (pursuant 415 to Table 6.1.7.B.) less the amount attributed to the site for the use(s) and 416 structure(s) on the site as of December 1, 2005, as reflected in the certificate(s) of 417 use in effect for the site as of that date and any PILOP fee(s) previously paid to offset 418 the parking requirement of the site or any part thereof including, for sites that have 419 increased or decreased in area any PILOP fee(s) applicable pursuant to § 6.1.8.J.1.c. 420 (3) If further alterations to a site, cumulatively, increase the parking requirement for 421 the site by more than 25% over the amount required for the site for the use(s) and 422 structure(s) on the site as of December 1, 2005, as reflected in the certificate(s) of 423 use as of that date (or, for residential uses, the residential occupancy in effect for 424 such site as of that date), then the alteration of such site that would result in the 425 increase by more than 25% shall require the site to provide the minimum parking 426 required for the site (pursuant to Table SC-5) less a parking credit calculated as

427provided in § 6.1.8.J.1.b, based on the area of the site at the time of the alteration428that would result in the more than 25% increase, and any PILOP fee(s) previously429paid to offset the parking requirement of the site or any part thereof including, for430sites that have increased or decreased in area, any PILOP fee(s) applicable pursuant431to § 6.1.8.J.1.c.

- 433 iii. With respect to parking area sites that are developed and unoccupied as of December 434 1, 2005, the following shall apply: The first time such a site is occupied following 435 December 1, 2005, the site shall be required to provide the minimum parking that 436 would be required pursuant to Table 6.1.7.B. contained in § 6.1.7.A. less a parking credit 437 calculated by multiplying the area of the site (in square feet) by the parking allocation 438 factor related to the dedicated city parking area upon which the site is located. The site 439 would need to meet the aforesaid parking requirement prior to receiving, for non-440 residential uses, a certificate of use and, for residential uses, prior to any residential 441 occupation of the structure. If the land area of the parking area site increases following 442 December 1, 2005, but prior to the occupancy of the site, then the requirements of this 443 subsection shall apply to the expanded portion of the site (and any structures thereon) 444 as applicable based on factors such as whether it was previously developed or had 445 previously paid PILOP fees.
- 447 iv. If the structure(s) on any parking area site are demolished, razed, or relocated to a site 448 other than a parking area site, then any subsequent redevelopment of such parking area 449 site shall require the site to provide the minimum parking required for the site (pursuant 450 to Table 6.1.7.B.) less a parking credit calculated as provided in § 6.1.8.J.1.b, based on 451 the area of the site at the time of the redevelopment, and any PILOP fee(s) previously 452 paid to offset the parking requirement of the site or any part thereof including, for sites 453 that have increased or decreased in area, any PILOP fee(s) applicable pursuant to § 454 6.1.8.J.1.c. After such redevelopment is completed, any alteration(s) to the site shall 455 be treated, for purposes of determining the parking requirements of the site, in the 456 same manner as alteration(s) of any other developed parking area site under this 457 subsection.
- e. With respect to each dedicated city parking area located in the Cape Coral CRA. the City
  Council shall, by resolution, identify all sites that would be parking area sites regulated by
  this subsection and also, for all such sites that are developed as of December 1, 2005,
  identify the minimum parking requirement for the use(s) or structure(s) on the site as of
  December 1, 2005, as though such sites were within the South Cape Downtown District.

K. Satellite parking within the South Cape District. For purposes of this subsection, a satellite parking arrangement exists when the minimum total parking (excluding on-site parking) required for a site is to be provided on a site at a location different from the site which will be served by the parking as required in § 6.1.7.A. When all or part of the minimum total parking (excluding on-site parking) required for a site is to be satisfied by one or more satellite parking arrangements, such satellite parking arrangements shall comply with the requirements of this subsection as follows:

Except as otherwise provided herein, satellite parking shall be located not more than 1,320 feet
 from a public entrance to the principal building which contains the use associated with such

474 satellite parking, except that no satellite off-street parking area shall be located on parkway or 475 primary street designations or across Del Prado Boulevard or Cape Coral Parkway from the use 476 it is serving. When the site that contains the use(s) to be served by the satellite parking offers 477 valet parking at all times that such use(s) are open to the public so that valets will transport the 478 vehicles of patrons of such use(s) to the satellite parking site(s) and such valet service is 479 documented in an agreement entered into by the city and the owners of the property to be 480 served by the satellite parking and the property offering the satellite parking, then the satellite 481 parking site(s) may be more than 1,320 feet from a public entrance to the principal building containing the use served by such valet parking. 482

484 The aforesaid agreement shall be in addition to the agreement required by § 6.1.8.K.1.4. and 485 shall be recorded in the public records of Lee County at the sole expense of the owner(s) of the property to be served by the valet parking. Upon request by the owner of the property to be 486 487 served by a proposed satellite parking location, the City may allow satellite parking that does 488 not include valet parking to be located more than 1,320 feet from a public entrance to the 489 principal building which contains the use associated with the proposed satellite parking or to 490 be across Del Prado Boulevard or Cape Coral Parkway from the use it is serving, if the City finds that the proposed satellite parking would not be detrimental to the public health, safety, and 491 492 welfare of the persons utilizing it. Factors which shall be considered by the City in making this 493 determination include, but are not limited to, the following: the proximity of the proposed 494 satellite parking to a signalized intersection, the availability of pedestrian crosswalks or other 495 pedestrian-oriented features at any intersections and any other locations between the 496 proposed satellite parking and the use(s) to be served by it, whether the satellite parking is to 497 be utilized by employees only or by patrons of the use(s) to be served, and the availability of 498 any complementary or supplementary services to such parking, such as trolley or tram systems 499 that would provide transportation for the public to and from the satellite off-street parking area 500 and the use(s) to be served. If the City approves satellite parking at a distance of more than 501 1,320 feet or across Del Prado Boulevard or Cape Coral Parkway, the City may impose conditions on such satellite parking that would be reasonably designed to mitigate any negative effects 502 503 from such approval. Examples of such conditions include the requirement that a satellite off-504 street parking area be clearly identified for only employee parking, the requirement that a 505 pedestrian walkway between the off-street parking area and the use(s) it serves be covered so 506 as to protect pedestrians from the elements, and that any supplementary or complementary 507 services be continued so long as the satellite parking is being used.

2. The satellite off-street parking area and the site which contains the use associated with such 509 510 satellite parking shall be shown on a site plan, development plan, or other equivalent plan. The 511 submitted plan shall show the pedestrian connection(s) between the two sites and shall 512 demonstrate that all pedestrian connections have sidewalks, or other paved walkways, 513 dedicated solely to pedestrians. In addition, the plan shall demonstrate that the distance 514 between the sites is not more than 1,320 feet when measured from a public entrance to the 515 principal building (on the site to be served by the satellite parking) to the closest point on the 516 proposed satellite parking site.

- 5183. Satellite parking spaces on the off-site lot shall only be counted if they are above and beyond519the minimum parking requirement for uses on the off-site lot.
- 520

517

508

- 521
  4. The owner of the off-site lot of land (and, the owner of the land intended to be served by such off-site parking, if different than the owner of the lot to be used for parking) shall enter into an agreement with the city, which shall be recorded in the public records of Lee County, Florida, at the expense of the owner of the land intended to be served by the off-site parking.
- 526 5. The satellite off-street parking area shall never be sold or transferred except in conjunction with 527 the sale of the lot served by the off-site parking facilities unless:
- 529a.The lot to be sold or transferred will continue to be used as provided in the off-site parking530agreement and the new owner or transferee executes a consent to assume and to be bound531by the obligations of the owner of the lot used for parking as provided in the agreement;
- b. A different lot complying with the all provisions of the City of Cape Coal Code of Ordinances
  and Land Use and Development Regulations and subject to a recorded off-site parking
  agreement as specified herein is substituted for the lot of land subject to the off-site parking
  agreement; or
- c. The lot being served by the off-site parking no longer requires the parking as evidenced by
  a written statement executed by the parties executing the off-site parking agreement and
  as approved by the City. The aforesaid statement shall be recorded in the public records of
  Lee County at the expense of the owner of the lot formerly being served by the off-site lot.

- 545 Section 6.2.1 Parking regulations for residential zoning districts.
- A. It shall be unlawful for any owner, agent, operator, or person in charge of a commercial vehicle or trailer to park, store, or keep such vehicle or trailer on the pavement or in the swale of any public street within any single-family residential district in the city. Furthermore, it shall be unlawful for any owner of privately owned real property in the R1 and RE zoning districts in the city to park on, cause to be parked on, or allow to be parked on such property any commercial vehicle or trailer, except as otherwise provided herein.
- B. The prohibitions of § 6.2.1.A shall not apply to the following:
- 556 1. Temporary parking of any commercial vehicle or trailer on private property or in the adjoining swale of any public street in a residential district where construction for which a current and 557 558 valid permit has been issued by the city is underway on the property and the permit is properly 559 displayed on the premises. Provided that such trailer or commercial vehicle is only on the real 560 property at the time the construction is actually physically occurring. Nothing in this subsection 561 is intended to require a permit where none is otherwise required or to allow a trailer or 562 commercial vehicle to be parked on private property or in the adjoining swale of any public 563 street within a residential district when construction is not actually physically occurring on the 564 private property.
- 566 2. Deliveries by tradespeople or the use of commercial vehicles or trailers in making service calls.

Temporary parking of a commercial vehicle or recreational vehicle while such vehicle is being used by the operator for travel to and from the residential property for personal reasons of a temporary nature such as for a meal or to visit or serve an ill person. Such temporary parking shall not, however, exceed a total of two hours duration during any 24-hour time period.

  4. Emergency parking of a disabled commercial vehicle, recreational vehicle, or trailer. However, 574 any such commercial vehicle, recreational vehicle, boat, or trailer shall be removed from the 575 residential district within 24 hours by wrecker towing or other available means regardless of 576 the nature of the emergency.
- 578 C. Any combination of the following motor vehicles or trailers may be parked in single-family 579 residential districts, on a parcel improved with a single-family residence:
- 1. Any light van, sports utility vehicle (SUV), pickup truck, jeep, motorcycle, automobile, or similar 581 582 type of motor vehicle which is not a commercial vehicle. Furthermore, light vans, sports utility 583 vehicles (SUVs), pickup trucks, jeeps, motorcycles, automobiles, or similar types of motor vehicles which would otherwise be considered to be "commercial vehicles" only because 584 585 commercial lettering has been affixed to them may be parked outside of a permitted garage or 586 carport provided that all commercial lettering has been concealed by a cover of a type that is 587 applied directly to the surface of the motor vehicle or attached to the vehicle in such a manner 588 that the vehicle can be safely driven on the public streets with the cover in place. If more than 589 one such cover is attached to or is located on a vehicle, then all of such covers on or attached 590 to such vehicle shall be the same color. For purposes of this section, covers located so as to 591 impair the vision of the driver of the vehicle or insecurely mounted so as to present a danger of 592 falling off the vehicle while it is being driven shall be presumed to be insufficient to bring the 593 commercial vehicle within the exemption provided by this subsection. Furthermore, this 594 exemption shall not apply to any motor vehicle that is considered to be a "commercial vehicle" 595 under this section by virtue of the nature of its vehicle type and not solely because commercial 596 lettering has been affixed to it regardless of whether such vehicle or any lettering affixed to it 597 has been covered in part or in full of such vehicle is parked outside of the confines of a permitted 598 garage or carport. 599
  - 2. Any trailer or motor vehicle described in § 6.2.1.G which is a commercial vehicle, provided that:
    - a. The commercial vehicle or trailer is parked in a permitted garage or carport;
      - b. When parked in a garage or carport, no part of such commercial vehicle or trailer may project horizontally beyond the roofline of the garage or carport; and
    - c. When parked in a carport, such commercial vehicle or trailer is screened on three sides.
- D. No vehicle for human habitation shall be kept or parked on premises zoned for residential purposes
   or on adjoining public rights-of-way, except when parked entirely within the confines of a garage or
   carport or in accordance with the following:
- 6131. Non-resident. Vehicles for human habitation when used for transportation of visitors to this city614to visit friends or members of the visitors' family residing in this city may, upon obtaining a

permit (for which a charge shall not be made) from the Police Department, be parked upon the 615 616 premises of the visited family for a period not exceeding ten days. The permit shall be affixed 617 to the vehicle in a conspicuous place on the street side thereof. The City may, for good cause shown, authorize the issuance of a second consecutive free permit not to exceed ten days. An 618 619 additional permit for the parking of such vehicle will not be issued until after the expiration of 620 15 days after termination of the last prior permit. For purposes of this section, a person who 621 owns or leases property in the City of Cape Coral shall not be deemed to be a "non-resident" 622 when he or she parks a vehicle for human habitation on property that he or she owns or leases 623 even if such person does not "reside" on the subject property.

- 625 2. Resident. When a vehicle for human habitation is owned or leased by the person who also owns or leases the residential property on which such vehicle is to be parked, such vehicle for human 626 627 habitation may be parked upon the premises of the resident for a period not exceeding 72 hours for loading and cleaning provided that a permit is first obtained from the City. A vehicle for 628 629 human habitation may be parked upon the premises of the resident for unloading after a trip 630 for a period of 72 hours provided that a permit is first obtained from the City. There shall be a minimum of a 48-hour interval between the expiration of one permit and the issuance of 631 632 another. The permit for each such period shall be affixed to the vehicle in a conspicuous place 633 on the street side thereof. The city shall not charge a fee for the permits to park a vehicle for human habitation upon the premises of the resident as required by this section. 634
  - 3. Pop-up campers. A pop-up camper may be parked, only in a closed or folded condition, in the rear yard of a residential lot improved with a principal residential building. For purposes of this paragraph, a "pop-up camper" shall consist of a non-motorized trailer which includes, or on which is mounted, a tent-like enclosure (but such enclosure may be made of canvas or similar material, solid materials, or any combination thereof) to be used for camping purposes, which enclosure opens or expands or unfolds to accommodate temporary occupancy and which closes or folds up into itself in such a way as to be unusable for occupancy and to be no more than 55 inches in height when measured from ground level.
- E. Parking of passenger cars or sports utility vehicles (SUVs) with commercial advertising signs setting
  forth the name of the business, its address, business telephone number, and type of business (e.g.,
  realtor, painter, etc.) thereon in residential areas outside the confines of a garage or carport is
  permitted so long as the home (residential) address is not shown thereon.
- 650 F. The following are exempt from the provisions of this section:
  - 1. Commercial vehicles or trailers in actual use or moving directly to or from the location of actual use, which are owned or leased by:
    - a. The city for the accomplishment of a municipal purpose;
    - b. A contractor or subcontractor under agreement with the city to accomplish a municipal purpose; or

660 c. A public utility operating within the city, or a contractor or subcontractor under agreement 661 with such public utility; for the installation, maintenance, adjustment, or repair of or to a public utility facility. 662 663 664 However, no towing company, or other business entity, or any of its officers, employees, and agents shall be exempt from the provisions of this ordinance solely because the towing 665 666 company or other business entity has been employed by the city to provide towing or other 667 services. 668 669 2. Commercial vehicles owned by or leased by governmental entities, including the city, Lee 670 County, or the State of Florida which are parked in residential districts on a parcel improved 671 with a permitted structure when such vehicles are lawfully in the possession of an authorized 672 agent or employee of the governmental entity. This category shall include police or sheriff's vehicles which are permitted to be driven to residences of authorized employee(s) of such law 673 674 enforcement entities. 675 676 G. In applying the terms of this section, the following rules of construction shall apply: 677 678 1. Any motor vehicle or trailer which is partially built or in the process of conversion shall be 679 included under the most stringent definition that can be applied. 680 681 2. In case of doubt as to the proper classification of a specific vehicle, a determination by the 682 state's Department of Highway Safety and Motor Vehicles shall be controlling. The body description and classification on the motor vehicle certificate of title shall be prima facie 683 evidence of such determination. 684 685 Note: The following requirements and section numbering will be modified as necessary to conform 686 687 to Council direction on these parking issues. 688 689 Section 6.2.2 Parking regulations for property zoned multi-family residential. 690 The restrictions for multi-family residential shall be the same as for single-family residential except that 691 692 the prohibitions contained in § 6.2.1.A shall not apply to the following commercial vehicles when parked 693 on properties zoned multi-family residential: 694 695 A. Pickup trucks from which the cargo boxes have been removed; 696 697 B. Pickup trucks or light vans containing commercial rack(s) regardless of whether such rack(s) are 698 visible from the street or from abutting residential property; and 699 700 C. Light vans, sports utility vehicles (SUVs), pickup trucks, jeeps, motorcycles, automobiles, or similar 701 types of motor vehicles which would otherwise be considered to be "commercial vehicles" only 702 because commercial lettering has been affixed to them. 703 704 Section 6.2.3 Parking area design requirements for duplex dwellings: 705 706 Parking areas for duplex dwelling shall conform to one of the following designs:

   vehicle park, or as a condition of special exception or a planned unit development.
- 732

# 733 Section 6.2.5 Hotel and motel parking provisions.

734

Hotels and motels are considered business enterprises, therefore, trucks, trailers, buses, and other
commercial vehicles, as well as vehicles for human habitation may be parked on the premises of such
businesses. Such vehicles must not be parked in streets, alleys, or other rights-of-way.

738

# 739 Section 6.2.6 Boats and boat trailers.740

741 A. It shall be unlawful for any person to park, store, keep, maintain, or permit to be parked, stored, 742 kept, or maintained in front or side yard of a single or multi-family residence, or on a vacant lot in 743 a residential area, any boat or empty boat trailer. A maximum or two boats on trailers, or an empty 744 boat trailer may be parked on the rear yard provided the same is not allowed to fall into a state of 745 disrepair. If grass or weeds are allowed to grow around or under it to a height exceeding 12 inches, 746 then it may be declared a nuisance and the owner charged accordingly. An empty boat trailer may 747 be parked at a launching site during the period of time that the boat is launched therefrom for a 748 single voyage and while in the process of loading or unloading the boat or trailer. A boat, empty 749 boat trailer, or a boat on a trailer may be parked entirely within the confines of a garage or carport 750 meeting the requirements of this ordinance. 751

- B. All boats and boat trailers parked, stored, kept, or maintained in the R-1, RE, RML, or RMM zoning
  districts must have a current registration from the State of Florida. This requirement also applies to
  any boats moored at docks or seawalls or stored on boat lifts or davits.
- 756 C. For purposes of this section, two personal watercraft shall equal one boat.

757 758 D. When a boat is owned or leased by the person who also owns or leases the residential property on 759 which such vehicle is to be parked, such boat may be parked upon the premises of the resident for 760 a period not exceeding 72 hours for loading and cleaning provided that a permit is first obtained 761 from the City. A boat may be parked upon the premises of the resident for unloading after a trip for 762 a period of 72 hours provided that a permit is first obtained from the City. There shall be a minimum 763 of a 48-hour interval between the expiration of one permit and the issuance of another. The permit 764 for each such period shall be affixed to the boat in a conspicuous place on the street side thereof. 765 The city shall not charge a fee for the permits to park a boat upon the premises of the resident as 766 required by this section.

767

755

- 768 Section 6.2.7 Vacant lots.
- 769

11 It shall be unlawful for any person to park, store, keep, maintain at any time, or permit to be parked, stored, kept, or maintained at any time on any unimproved property in any zoning district any motor vehicle, boat, or trailer of any kind, type, or description, including any boat and trailer in combination, except that this prohibition shall not apply to any unimproved property on which temporary parking of such motor vehicles, boats, or trailers has been authorized by the property owner(s), in writing, and

approved by the City in association with a special event that has been approved by the City. Throughout
this subsection, the term **TRAILER** shall be deemed to mean and include both a boat mounted on a
trailer and the trailer itself.

778

779 A. In the event a motor vehicle, boat, or trailer is parked, stored, kept, or maintained on an 780 unimproved property in any zoning district at any time, a City Code Compliance Officer shall place 781 a written notice of violation on the vehicle, boat, or trailer indicating that it is in violation of this 782 section and that it must be removed within three calendar days from the date of the notice or it 783 will be subject to removal by the city. The Code Compliance Officer shall make every reasonable 784 attempt to ascertain the owner of the vehicle, boat, or trailer and the owner of the real property, 785 and shall notify such owner(s) with a written notice delivered by mail or personal service at their 786 current address, last known address, or the address appearing on the certificate of title for the 787 vehicle, boat, or trailer. The notice placed on the vehicle, boat, or trailer and all notices provided to 788 the owners or apparent owners of the vehicle, boat, trailer, and the land shall advise of the possible 789 appeal provided for in the following subsection B.

790

791 B. Within the three-calendar day period specified in the aforesaid notice, the owner of the vehicle, 792 boat, trailer, or the owner of the real property may appeal to a Special Master utilized by the city 793 to conduct hearings concerning violations involving vehicle(s), boat(s), or trailers) parked, stored, 794 kept, or otherwise maintained on vacant real property. The appeal shall be filed at the office of the 795 City Manager, must attach a copy of the notice of violation appealed, and must include the name 796 of the person filing the appeal and an address at which such person may be served notice of the 797 hearing on the appeal. The hearing on the appeal shall be conducted the same as a code 798 enforcement hearing for a case initiated by a Code Compliance Officer pursuant to §§ 2-799 85 through 2-92 of the Code of Ordinances of the City of Cape Coral, Florida. The Special Master 800 shall determine the validity of the violation and may for good cause extend the time for compliance 801 or removal. If such an appeal is instituted, no removal of the vehicle, boat, or trailer shall be 802 required until the appeal has been dismissed or finally determined by the Special Master with a 803 finding of a violation.

C. If no appeal is made or if an appeal is made but dismissed and the vehicle, boat, or trailer remains
in violation after the three calendar day period, or if an appeal is resolved with a finding of a
violation and the vehicle, boat, or trailer is not removed within whatever time period is allowed by
the Special Master, the City Code Compliance Manager shall cause such vehicle, boat, or trailer to
be towed from the property and thereafter stored and disposed of in accordance with applicable
state law or city ordinance. The Special Master may also assess fines and costs; the same as for any
code enforcement violation.

812

804

The city shall not be responsible for the towing charges resulting from the removal of the vehicle, boat, or trailer from the property. Instead, the owner(s) of the vehicle, boat or trailer shall be responsible for all such charges.

816

D. The authorization in this section for the towing of vehicles, boats, or trailers parked, kept, stored, or otherwise maintained on unimproved property shall be construed as supplementary to any other means of enforcement available to the city and shall not be construed so as to negate the authority of the Special Master to hear and adjudicate appropriate cases.

E. The City Manager shall at least annually recruit qualified persons to serve as Special Masters. The
City Council shall, on an annual basis, appoint at least one qualified person to serve as the Special
Master and at least one qualified person to serve as an alternate Special Master in the event the
Special Master is unable to attend a meeting. Applicants for the Special Master position must be
attorneys. The appointment(s) shall be in the sole discretion of the City Council. However, any
person appointed to the position of Special Master pursuant to this section must be an attorney
duly licensed by the Florida Bar Association to practice law in the State of Florida.

829

843

F. Each Special Master shall serve for a term of one year though Special Masters may be reappointed for consecutive one-year terms. Although appointed for one-year terms, Special Masters shall be subject to removal, with or without cause, from their positions at any time during their term by the City Council in its sole discretion. Special masters shall not be considered to be city employees though, if authorized by the City Council, they may receive compensation for their service and also may be reimbursed for such travel, mileage, and per diem expenses as may be authorized by the Site City Council.

- 837
  6. The Special Master shall convene hearings concerning appeals of alleged violations of this section within a reasonable time from the date the appeal request is made. Minutes shall be kept of all hearings by the Special Master and all hearings and proceedings shall be open to the public. The City Manager shall provide clerical and administrative personnel as may be reasonably required by the Special Master for the proper performance of his or her duties.
- H. The Special Master shall proceed to hear the cases on the agenda for that day. If the alleged violator
  has been duly notified of the hearing, the hearing may proceed in the absence of the named
  violator. All testimony shall be under oath or affirmation and shall be recorded.

848 The Special Master shall take testimony from the Code Compliance Officer, the alleged violator, and 849 any other witnesses who have personal knowledge concerning the alleged violation. Documentary 850 evidence may be presented in support, of or in defense of the charge. Irrelevant, immaterial, or 851 unduly repetitious evidence shall be excluded. All other evidence of the type commonly relied upon 852 by reasonably prudent persons in the conduct of their affairs shall be admissible, whether or not 853 such evidence would be admissible in the courts of Florida. Hearsay evidence may be introduced 854 and used for supplementing or explaining other evidence, but it shall not be sufficient in itself to 855 support a finding by the Special Master unless it would be admissible over objections in a civil 856 action. Formal rules of evidence shall not apply, but fundamental due process shall be observed and govern said proceedings. 857

- 858
- In order to render an order finding the alleged violator guilty and denying the appeal, the Special
   Master must find that a preponderance of the evidence indicates that the named violator was
   responsible for the violation as alleged.
- 862
- J. At the conclusion of the hearing, the Special Master shall issue an order containing findings of fact,
  based on evidence of record, and conclusions of law.
- 866 Section 6.2.8 Vehicles and trailers for sale.
- 867

868 It shall be unlawful for any person to park, store, keep, maintain at any time, or permit to be parked, 869 stored, kept, or maintained on any unimproved property in any zoning district, or outside of a 870 completely enclosed building on any improved property in a W, C, CC, P<sub>2</sub> or I zoning district, any motor 871 vehicle or trailer of any kind, type, or description<sub>7</sub> including any boat mounted on a trailer, which is 872 being displayed for sale, hire, or rental except as provided in subsections I., J.<sub>2</sub> and K. below. Throughout 873 this subsection, the term "trailer" shall be deemed to mean and include both a boat mounted on a 874 trailer and the trailer itself.

875

876 A. In the event a motor vehicle or trailer is displayed for sale, hire, or rental in violation of this section, 877 City Code Compliance Officer(s), law enforcement officer(s), or such other city employee(s) as may 878 be designated by the City, are authorized to cause such vehicle or trailer to be immobilized or towed 879 from the property to a garage or other place of safety, and thereafter disposed of in accordance 880 with applicable state law or city ordinance. The city shall not be responsible for the towing charges resulting from the removal of the vehicle from the property. Instead, the owner(s) of the vehicle 881 882 shall be responsible for all such charges. Immobilization and towing shall be accomplished in 883 accordance with the following subsections B. through H.

885 B. A motor vehicle or trailer parked in violation of this section may be immobilized with a "wheel lock,"
886 "boot," or other suitable device as long as a notice of violation is placed by the Code Compliance
887 Officer on the vehicle or trailer indicating all of the following:

- That the vehicle or trailer is in violation of this section and that it must be removed from the property within ten calendar days from the date of the notice or it will be subject to removal by the city;
- 2. That the notice of violation may be appealed as provided in the following subsection D.;
  - That the wheel lock, boot, or other immobilization device will be removed from the vehicle or trailer upon the posting with the city of a \$200 bond, in the form of cash, certified check, or surety bond; and
    - 4. The name of the city official or department with which such bond must be posted and the street address thereof.
- C. The Code Compliance Officer shall make every reasonable attempt to ascertain the owner of the motor vehicle or trailer and the owner of the real property on which it is unlawfully parked, and to provide such owner(s) with a copy of the written notice of violation placed on the vehicle or trailer, such copy to be delivered by mail or personal service at their current address, last known address, or the address appearing on the certificate of title for the vehicle.
- D. Within the ten-calendar day period specified in the aforesaid notice, the owner of the vehicle or trailer or the owner of the real property may appeal to a Special Master appointed under § 6.2.6.E.
  of this chapter. The appeal shall be filed at the office of the City Manager, must attach a copy of the notice of violation appealed, and must include the name of the person filing the appeal and an address at which such person may be served notice of the hearing on the appeal. The hearing on the appeal shall be conducted the same as a code enforcement hearing for a case initiated by a Code Compliance Officer pursuant to §§ 2-85 through 2-92 of the Code of Ordinances of the City of

- Cape Coral, Florida. The Special Master shall determine the validity of the violation and may for good cause extend the time for compliance or removal. If such an appeal is instituted, no removal of the vehicle or trailer shall be required until after said appeal has been dismissed or finally determined by the Special Master with a finding of a violation of this subsection .8.

E. If no appeal is made or if an appeal is made but dismissed and the vehicle or trailer remains in violation after the ten calendar day period, or if an appeal is resolved with a finding of a violation of this subsection and the vehicle or trailer is not removed within whatever time period is allowed by the Special Master, the City Code Compliance Manager shall cause such vehicle to be towed from the property and thereafter stored and disposed of in accordance with applicable state law or city ordinance. The Special Master may also assess fines and costs, the same as for any code violation.

- 927The city shall not be responsible for the towing charges resulting from the removal of the vehicle928from the property. Instead, the owner(s) of the vehicle shall be responsible for all such charges.
- F. The authorization in this section for the towing of vehicles and trailers unlawfully displayed for sale,
   hire, or rental shall be construed as supplementary to any other means of enforcement available to
   the city and shall not be construed so as to negate the authority of the Special Master to hear and
   adjudicate appropriate cases.
- G. The provisions above, regarding Special Masters and Special Master hearings, shall apply equallywith regard to this section.

H. Code Compliance Officer shall be notified and the wheel lock, boot, or other immobilization device 938 939 shall, as soon as practicable, be removed from the vehicle or trailer. If no appeal of the violation is 940 timely filed, or if an appeal is filed and is dismissed, the bond shall be forfeited to the city to cover 941 the cost of inspection, notice of violation, and immobilization of the vehicle or trailer. If an appeal 942 is filed and ultimately results in a finding by the Special Master that no violation of this subsection 943 .8 occurred, the bond shall be returned to the person who posted it. If an appeal is filed and 944 ultimately results in a finding by the Special Master that a violation of this subsection .8 occurred, 945 the bond shall be applied to any fines and costs assessed against the violator by the Special Master.

- 947 I. If a motor vehicle being displayed for sale, hire, or rental is parked by the owner outside of a 948 completely enclosed building in a designated parking space on any improved property in a C, NC, 949 CC, P1, or I zoning district, while the owner of the vehicle is attending or participating in activities 950 or is being treated or served by or is shopping at a facility located on such property, the motor 951 vehicle and its owner shall not be in violation of this subsection .8. However, the leaving of any such 952 vehicle on the same property for a period of eight consecutive hours shall create a rebuttable 953 presumption that the owner is not attending or participating in activities or is being treated or 954 served by or is shopping at a facility located on such property and that the motor vehicle and its 955 owner are in violation of this subsection .8.
- 956
- J. This subsection .8 shall not apply to any motor vehicle or trailer offered for sale on property developed and used for a licensed business which includes the sale of such vehicles or trailers or to any motor vehicle or trailer while it is being repaired on property developed and used for a licensed business which includes the repair of such vehicles or trailers.
- 961

- 962 K. This subsection .8 shall not apply to motor vehicles or trailers offered for sale on any property 963 pursuant to a City Council special event approval.

### 965 Section 6.2.9 Exemptions.

- 967 A. The provisions of this section shall not apply to vehicles parked on the premises of churches, clinics, 968 schools, child care facilities, assisted living facilities, public libraries, public buildings, public and club 969 swimming pools, private clubs, golf courses, utilities, hotels and motels, and parks and recreational 970 areas, while the persons transported thereby are attending or participating in activities or being 971 treated or served thereat, nor to buses, trucks, or trailers parked at any time in a space prepared 972 or designated therefore on said premises, if such vehicles are used or operated by or for the 973 operation of the places or institutions designated, except that such vehicles cannot be used for 974 residential purposes.
- B. The provisions of this section shall not apply to vehicles parked on unimproved or vacant lots within
   the boundaries of the South Cape zoning district, provided the following requirements are met:
- The unimproved or vacant property must be zoned for commercial use and must be immediately adjacent to the business premises for which parking is being provided. For purposes of this section, the phrase IMMEDIATELY ADJACENT shall mean sharing all or part of a property line with the business premises or directly across a street or alley from the business premises, provided that the width of such street or alley is 50 feet or less and provided that all or part of the unimproved or vacant property lies within an extension of the property lines of the business premises across the street or alley.

30 31	CHAPTER 1. GENERAL PROVISIONS
32	Section 7.1.1. Purpose and Intent
33	
34	It is the purpose of this Article to promote the public health, safety, and general welfare through
35	reasonable, consistent, and non-discriminatory sign standards. The sign regulations in this Article are not
36	intended to censor speech or to regulate viewpoints, but instead are intended to regulate the adverse
37	secondary effects of signs. The sign regulations are especially intended to address the secondary effects
38	that may adversely impact aesthetics and traffic and pedestrian safety. The sign regulations are designed
39	to serve substantial governmental interests and, in some cases, compelling governmental interests, such
40	as traffic safety and warning signs of threats to bodily injury or death. This Article is not intended to extend
41	its regulatory regime to objects that are not traditionally considered signs for purpose of government
42	regulation.
43	
44	In order to preserve and promote the City as a desirable community in which to live, visit, work, play, and
45	do business, a pleasing, visually attractive, and safe environment is of foremost importance. The

regulation of signs within the City is a highly contributive means by which to achieve this desired end. 

Further it continues to be the purpose of this Article to promote optimum conditions for serving sign owners' needs and respecting their rights to identification while balancing the aesthetic and safety interests of the community. The regulation of signs within the City is necessary and in the public interest, and these regulations have been prepared with the intent of enhancing the visual environment of the City and promoting its continued well-being, and are intended more specifically to:

52

53 A. Aesthetics. To maintain and enhance the beauty, unique character, aesthetic environment, and 54 quality of the City, that will attract commerce, businesses, economic development, residents, and 55 visitors; to preserve, conserve, protect, and enhance the aesthetic quality and scenic beauty of all 56 zoning districts of the City; to regulate the appearance and design of signs in a manner that promotes 57 and enhances the beautification of the City and that complements the natural surroundings in 58 recognition of the City's reliance on its natural surroundings and beautification efforts in retaining 59 economic advantage for its community; and to assure that the benefits derived from the expenditure 60 of public funds for the improvement and beautification of streets, sidewalks, public parks, public 61 rights-of-way, and other public places and spaces, are protected by exercising reasonable controls 62 over the physical characteristics and structural design of signs.

B. Traffic and Pedestrian Safety. To maintain and improve traffic and pedestrian safety through properly
located signs; to regulate signs in a manner so as to not interfere with, obstruct the vision of, or
distract motorists, bicyclists, or pedestrians; to allow for traffic control devices consistent with
national standards and whose purpose is to promote roadway safety and efficiency by providing for
the orderly movement of road users on streets and roadways, and that notify users of regulations and
provide warning and guidance necessary for the safe, uniform, and efficient operation of all elements
of the traffic stream.

71

75

78

81

- 72 C. Economic Development. To promote economic development and the value of nonresidential
   73 properties, through sensitivity to surrounding land uses and maintaining an attractive community
   74 appearance.
- D. Effective Communication. To encourage signs which are clear and legible; and to encourage the
   effective use of signs as a means of communication.
- F. Identification of Goods and Services. To aid the public and private sectors in identifying the locationof goods and services.
- F. Compatibility with Surroundings. To allow signs that are compatible with their surroundings and aid
  orientation, while precluding the placement of signs that contribute to sign clutter or that conceal or
  obstruct adjacent land uses or signs; to preclude signs from conflicting with the principal permitted
  use of the site and adjoining sites; and to minimize the possible adverse effect of signs on nearby
  public and private property.
- 87
- 88 G. Reduction of Visual Clutter. To reduce visual clutter that may otherwise be caused by the proliferation,
   89 improper placement, illumination, animation, excessive height, and excessive size (area) of signs
   90 which compete for the attention of pedestrian and vehicular traffic.
- 91

H. Zoning District Considerations. To encourage and allow signs that are appropriate to the zoning district
 in which they are located.

94

- Scale, Integration, and Design. To establish sign size in relationship to the scale of the lot and building
  on which the sign is to be placed or to which it pertains; to foster the integration of signs with
  architectural and landscape designs; to provide flexibility and encourage variety in signs, and to relate
  signage to the basic principles of good design; and to promote the use of signs that positively
  contribute to the aesthetics of the community, are appropriate in scale to the surrounding buildings
  and landscape, and advance the City's goals of quality development.
- 101

105

111

- J. Maintenance and Safety. Except to the extent expressly preempted by state or federal law, to ensure
   that signs are constructed, installed, and maintained in a safe and satisfactory manner, and to protect
   the public from unsafe signs.
- K. Property Values. To protect property values by precluding, to the maximum extent possible, sign types
   that create a nuisance to the occupancy or use of other properties because of their physical
   characteristics such as their size (area), height, number, illumination, and movement; and to protect
   property values by ensuring that the number of signs are in harmony with buildings, neighborhoods,
   and conforming signs in the area.
- L. Enforcement. To enable the fair and consistent enforcement of these sign regulations; and to provide
   standards regarding the non-communicative aspects of signs, which are consistent with local, county,
   state, and federal law.

# 116 Section 7.1.2. Scope

117

120

115

118 This article shall control the regulation of signs and other outdoor displays. If any part of this article 119 conflicts with any other codes adopted by the city, the most restrictive provision shall apply.

- 121 Section 7.1.3. Compliance with Codes and Ordinances
- 122

No sign shall be erected or maintained in the city, except in accordance with the provisions of this article.
All signs erected, installed, or located in the City of Cape Coral shall conform to all requirements of the
National Electrical Code, the Florida Building Code, this article, and other applicable law.

#### 126 127 Section 7.1.4. Substitution

128

129 It is not the purpose of this article to regulate or control the copy, content, or viewpoint of signs. Nor is it 130 the intent of this article to afford greater protection to commercial speech than to non-commercial 131 speech. Any sign, display, or device allowed under this article may contain, in lieu of any other copy, any 132 otherwise lawful non-commercial message that complies with all other requirements of this article. The 133 non-commercial message may occupy the entire sign area or any portion thereof and may substitute for 134 or be combined with the commercial message. The sign message may be changed from commercial to 135 non-commercial or from one non-commercial message to another, as frequently as desired by the sign's 136 owner, if the sign is not prohibited and the sign continues to comply with all requirements of this article. 137

#### 138 Section 7.1.5. Severability

A. Generally. If any part, section, subsection, paragraph, subparagraph, sentence, phrase, clause, term, or word of this article is declared unconstitutional by the final and valid judgment or decree of any court of competent jurisdiction, this declaration of unconstitutionality or invalidity shall not affect any other part, section, subsection, paragraph, subparagraph, sentence, phrase, clause, term, or word of this article.

145

151

158

139

- B. Severability where less speech results. This subsection shall not be interpreted to limit the effect of
   Section 7.1.5.A above, or any other applicable severability provisions in the code or any adopting
   ordinance. The City Council specifically intends that severability shall be applied to these sign
   regulations even if the result would be to allow less speech in the city, whether by subjecting
   currently exempt signs to permitting or by some other means.
- C. Severability of provisions pertaining to prohibited signs. This subsection shall not be interpreted to
   limit the effect of Section 7.1.5.A above, or any other applicable severability provisions in the code
   or any adopting ordinance. The City Council specifically intends that severability shall be applied to
   Section 7.2.1 of this article, "Prohibited signs," so that each of the prohibited sign types listed in that
   section shall continue to be prohibited irrespective of whether another sign prohibition is declared
   unconstitutional or invalid.
- D. Severability of prohibition on off-premises signs and commercial signs. This subsection shall not be interpreted to limit the effect of Section 7.1.5.A above, or any other applicable severability provisions in the code or any adopting ordinance. If any, or all, of this article or any other provision of the code seclared unconstitutional or invalid by the final and valid judgment of any court of competent jurisdiction, the City Council specifically intends that that declaration shall not affect the prohibition of off-site signs in Section 7.2.1 of this article.

268 269 270 271 272 273 274 275	В.	moval and forfeiture of unauthorized sign in the public right-of-way. The city shall have the right to move from the public right-of-way any sign which is erected, installed, or located in such public tht-of-way and which does not conform to the requirements of this article. Such signs shall be emed to have been forfeited to the city and the city shall have the right to dispose of such signs as sees fit. In addition to other remedies, the city shall have the right to recover from the owner of ch sign or the person responsible for placing the sign in the public right-of-way all costs associated th the removal or disposal of the sign.				

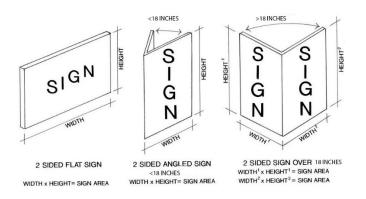

276 277	Sec	tion 7.2.3. Activities Exempt from Permitting
278 279	The	e following types of activities are exempt from the permitting requirements of this article:
280 281 282 283	A.	Changing the advertising copy, announcement, or message on a marquee or changeable copy sign board so designed to alter such copy; subject to any restrictions in this article, including frequency limitations;
284 285 286	В.	Cleaning, painting, electrical, or comparable general maintenance or repair of a sign that does not alter any regulated feature of such sign; and
287 288	C.	Changing the message or locating official public notices or traffic control signs.
289 290	Sec	tion 7.2.4. Requirements Applicable to All Signs
291 292 293 294 295 296	Α.	Computation of sign area. The area of a sign shall be measured from the outside edges of the sign or the sign frame, whichever is greater, excluding the area of the supporting structures provided that the supporting structures are not used for advertising purposes and are of an area equal to or less than the permitted sign area. Supporting framework and bracing which are incidental to the display itself shall not be included in the computation of the area unless, by the nature of their design, they form a continuation of the sign.

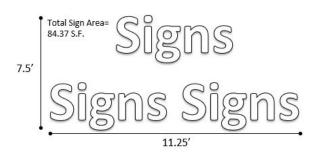

- The area of a multi-faced sign shall be computed on one face in the same manner as the sign area of an individual sign, provided that the faces of the sign are not separated at any point by more than 18 inches. If the faces of a multi-faced sign are separated at any point by more than 18 inches, then each face constitutes a separate sign.
- 301 302

297 298

299

2. Where individual characters are used without a supporting panel (channel letters), the overall dimensions from the beginning of the first character to the end of the last character in the longest line and from the top of the uppermost character to the bottom of the lowermost character shall be regarded as the extreme dimensions in calculating the overall sign area of the sign.

B. Computation of height. The vertical height of a freestanding sign shall be computed from the
established mean grade of the development site to the highest component of the sign or supporting
framework, whichever is higher. The maximum vertical height of a building mounted sign shall not
exceed the roof line of the structure.

C. Location of signs on property.

- Setbacks. The distance of a sign from a property line, right-of-way, or other point shall be computed by measuring a perpendicular line from the foremost part of the sign to the ground and then measuring from that point to the nearest point of the property line, right-of-way, etc.
- 2. Distance between freestanding signs. A minimum distance of 25 feet shall be maintained between freestanding signs regardless of whether such signs are on one site or whether they are located on adjacent sites.
- 327
  3. Location. No sign may project beyond the property line(s) of the property on which the sign is

#### Section 7.2.5. Maximum Total Sign Area Per Site

- A. Residential uses in residential zoning districts. Except for signs identified as permitted, no signs are
   allowed on sites containing residential uses in residential zoning districts. Any sign on a residential site
   in a residential zoning district shall comply with the provisions for such sign(s).
- B. Non-residential uses in all zoning districts. Except as otherwise provided in this chapter, the number of building signs located on property lawfully used for non-residential purposes shall not be limited so long as the cumulative total sign area (in square feet) of all such signs, except exempt signs, does not exceed the building sign allowance for the property. The allowable building sign area (in square feet) of all signs, except exempt signs, erected, installed, or located on a site lawfully containing a non-residential use in any zoning district shall be computed as follows:
  - 1. Building mounted signs.
    - a. If a building contains more than one floor or story, the dimension of the primary side of the building shall be determined by measuring (in linear feet) the overall width of the first floor or story of the building on the side that faces the front lot line and the sign allowance for each business establishment or other entity occupying the building shall be shared by such business establishments or other entities as determined by the property owner based on the frontage of the building.

  - c. If all or part of the exterior of a building has been subdivided into two or more fully enclosed units capable of containing one or more business establishments or other entities (such as a multiple unit shopping center), the front dimension of each such unit shall be considered the building frontage of the unit and the sign allowance for each business establishment or other entity occupying such unit shall be shared among the business establishments or other entities occupying such unit in the manner prescribed by the property owner. Any remaining part of the exterior of the building which has not been subdivided into fully enclosed units shall be treated the same as a building which has not been subdivided into units.

f. In addition to the sign area otherwise allowed in this section, business establishments or other entities which meet the following criteria shall be allowed additional sign area for buildingmounted signs as follows:

393				
394				i. Businesses or other entities fronting on more than one platted street shall be permitted
395				an additional sign area allowance of one-half square foot per linear foot of building
396				frontage on such additional street up to a maximum of 50 square feet per street. Such
397				additional sign area allowance for a second street shall be added to the building-
398				mounted sign area allowance resulting from the building frontage calculation. If a
399				business or other entity fronts on three or four streets, then the additional sign
400				allowance resulting from frontage on the third or fourth streets shall be used on the
401				building face actually abutting the third or fourth streets. For purposes of this article,
402				when a business or other entity fronts three or four streets, the side(s) of the business
403				establishment or other entity shall be deemed to be fronting on the second and, if
404				applicable, the fourth streets and the rear of the business establishment or other entity
405				shall be deemed to front on the third street.
406				ii. Businesses or other entities whose side or rear building frontages abut a public alley,
407				public parking area, or mall parking area shall be permitted an additional allowance of
408				one-half square foot per linear foot of such side or rear building frontage up to a
409				maximum of 50 square feet. Such additional allowance shall only be used on the side or
410				rear of the building which actually abuts the public alley, public parking area, or mall

These features shall apply to the sign frame and supporting materials, not to the sign panel or panels that provide the actual advertising area.
- b. On sites that are approved through a Planned Unit Development which contain commercial, professional, industrial, mixed use, or agricultural uses together with residential properties as part of the same Planned Unit Development, and the residential uses front the road on which the development faces with non-residential uses located inside the development not visible from the road, the Director may allow signs that are used to direct motorists to facilitate finding the non-residential component of the development. The Director shall take into consideration factors that include:
  - (i) The location of the non-residential uses within the development;
- (ii) The location of permitted signage for the non-residential uses within the development; and
- 455 (iii) Roadway conditions.

c. Although the distribution of freestanding signage among the tenants or occupants of a multiple business or entity site shall be the responsibility of the real property site owner, the following limitations concerning maximum number, sign area, and height of freestanding signs shall apply to all multiple business or entity sites containing non-residential uses:

## 463 Section 7.2.6. Sign Permits

- 464
- A. Required. Except as otherwise required, no sign shall be located, placed, erected, constructed, altered, extended, or displayed without first obtaining a sign permit and meeting all requirements of the Florida Building Code. In the event a sign is located, installed, or maintained upon real property without any required permits, after the expiration or lapse of a sign permit, after the closure of a business, or otherwise in violation of the requirements of this article, the owner of the real property shall be deemed to be responsible for the prompt removal of such sign and shall be responsible for and subject to all fines or penalties which shall result from such violation.
- 472
- B. Procedure. The procedure for obtaining a sign permit shall in conformance with applicationrequirements in Article 3.1.
- 475

458 459 460

461

- Upon request by the Department, the applicant shall provide such supplementary information as
   may be specifically requested by the Department to determine compliance with this article.
- The Department shall review the application, plans, and specifications to determine whether the
  proposed sign conforms to all applicable requirements of this article and, based on such review,
  shall either approve or deny the application for the sign permit.
- a. Sign permit applications which include a request for a deviation to this article, pursuant to
  Section 7.2.8 of this article, shall either be approved or denied. However, if the applicant has
  applied for a building permit or certificate of use for the non-residential use at the subject site
  or for an electrical permit for the illumination of a sign, no sign permit shall be issued by the
  city until after the requested building or electrical permit or certificate of use has been issued
  by the city.
- 490 b. In no event shall the issuance of a sign permit following the issuance of a building permit, but 491 prior to the completion of the construction project, result in an increase in the sign(s) allowed 492 under this article based on the structure as it is eventually completed. In other words, if the 493 city issues sign permit(s) following the issuance of a building permit, but before the 494 construction of the building or structure is completed, and one or more sign(s) are installed 495 or erected pursuant to such sign permit, but then the building plans are modified in such a 496 way as to reduce the number, size, etc. of the sign(s) which would be allowed under this 497 article, then the property owner shall be required to bring such sign(s) into compliance with 498 the provisions of this article and to obtain a valid sign permit for such sign(s).
- Submission requirements. No request for a sign permit shall be considered complete until all required
   documents and fees are received.
- 503 D. Plans and specifications. Plans and specifications for any proposed sign shall be drawn to scale and 504 shall include the following:
  - 1. Dimensions and elevations, including the message of the sign;
- 508 2. Parcel frontage on all street rights-of-way for freestanding signs only;
- 510 3. Linear dimension(s) of the subject building or unit(s) adjacent to all public rights-of-way, such as 511 streets, alleys, or public parking lots for freestanding signs only;
- 4. Maximum height of the sign, as measured in accordance with this article;
- 515 5. Location of the sign in relation to property lines, public rights-of-way, easements, buildings, and 516 other signs on the property;
- 518 6. Dimensions and anchoring of the sign's supporting members;
- 520 7. For illuminated signs, the type, location, and direction of illumination sources;

- 522 8. Construction and electrical specifications, enabling determination that the sign meets all 523 applicable structural and electrical requirements of the building code; and
- 9. Number, type, location, and surface area of all existing signs on the same property or building on which the sign is to be placed, except that in the event all or part of the exterior of a building has been subdivided into two or more fully enclosed units capable of containing one or more business or entity establishments, such as a multiple unit shopping center, the number, type, location, and surface area of all building mounted signs on the unit for which the proposed sign is sought and all freestanding signs on the property shall be included.

- 532 E. Deviations. Certain deviations to the requirements of this article are authorized pursuant to Section533 7.2.8. No other deviations are permitted.
- 534 535 F. Lapse. A sign permit shall lapse automatically if the business tax receipt for the premises lapses, is 536 revoked, or is not renewed. A sign permit shall also lapse if the business activity on the premises is 537 discontinued for a period of 30 days and is not renewed within 30 days from the date a written notice 538 is sent from the city to the last permittee that the sign permit will lapse if such activity is not resumed. 539 A sign permit shall also lapse if the sign for which it is issued either is not erected or placed within 180 540 days following the issuance of the sign permit or is removed for a period of 60 days. Once a sign permit has lapsed, it shall be considered void and a new application and review process shall be necessary to 541 542 have such a permit reissued.
- 544 G. Identification. All signs requiring a permit shall have the permit number permanently imprinted or 545 otherwise placed in the lower right-hand corner of the sign.
- 547 H. Removal. The permittee or property owner shall be responsible for the removal of a sign once the
  548 sign permit has expired or lapsed, without an application for a new permit, or the purpose in
  549 displaying the sign has ended.
- 551 Section 7.2.7. Non-Conforming Signs.
- 552 553 A. Non-conforming sign compliance. All signs lawfully erected prior to February 1, 2019 that do not 554 comply with the requirements of this article shall be considered non-conforming signs. All non-555 conforming signs shall be removed or brought into conformity with this article no later than February 556 1, 2029. The owners of the real property on which such non-conforming signs exist shall be 557 responsible for ensuring that such signs are removed or brought into conformity. Non-conforming 558 signs shall not be altered, replaced, or repaired if such alteration, replacement, or repair would 559 constitute more than 50% of the replacement value of the non-conforming sign. All other signs that 560 were not lawfully erected prior to February 1, 2019 that do not comply with the requirements of this 561 article shall be removed no later than December 31, 2024.
- 562

B. Effect of annexation on sign compliance. Any sign that was lawfully erected on property that was
located outside of the jurisdiction of the city at the time the sign was erected but which was annexed
into the city prior to February 1, 2019 and that does not comply with the requirements of this article
shall be considered a non-conforming sign and shall be removed or brought into conformity with this
article no later than February 1, 2029. Any sign that was or is lawfully erected on property that was

located outside of the jurisdiction of the city at the time the sign is erected but which was annexed
into the city on or after February 1, 2019 and that does not comply with the requirements of this
article, shall be considered a non-conforming sign and shall be removed or brought into conformity
with this article no later than ten years from the effective date of the annexation.

572

579

C. Restrictions on permitting certain non-conforming signs. Sign permits will not be issued for the alteration, replacement, or repair of a non-conforming sign if such alteration, replacement, or repair constitutes more than 50% of the replacement value of the existing non-conforming sign. Changing the information on the face of an existing non-conforming sign shall not be deemed an action increasing the degree or extent of the non-conformity to constitute a violation of this article. Any other alteration to an existing non-conforming sign will be required to conform to this article.

580 D. Exceptions. A sign which is erected, located, or installed prior to the adoption of this ordinance and which was approved by a dimensional variance from the Board of Zoning Adjustment and Appeals, Hearing Examiner, or the City Council shall retain such variance approval. A sign which is erected, located, or installed prior to the adoption of this ordinance and which was approved by a deviation from the Director shall retain such deviation approval. However, any sign which has been approved by such a dimensional variance or deviation and is then changed to conform to this article shall forfeit the sign variance or deviation.

Section 7.2.8. Sign Deviations.

- A. Deviations. A deviation may be granted from the strict application of the regulations in this chapterwhich apply to:
  - 1. Allow a 25% increase in allowable sign area;
  - 2. Allow a 25% increase in allowable sign height;
- 597 3. Allow for decrease in minimum distance between freestanding signs; or
  - 4. Allow an additional freestanding sign.

B. Requests for deviations shall be initiated by the applicant in the application for a sign permit and shall be accompanied by documentation including sample detail drawings, schematic architectural drawings, site plans, elevations, and perspectives which shall graphically demonstrate the proposed deviation(s) and illustrate how each deviation would operate to the benefit, or at least not to the detriment, of the public interest. Deviations listed in Sec. 7.2.8.A may be approved by the Director provided that such deviation will not be contrary to the public interest and in harmony with the general intent and purpose of this article and where one or both of the following criteria are satisfied:

- 6091. Conditions exist that are not the result of the applicant and which are such that a literal610enforcement of the regulations involved would result in unnecessary or undue hardship; or
- 611

- 612 2. There is something unique about the building or site configuration that would cause the signage
  613 permitted by this article to be ineffective in identifying a use or structure that would otherwise
  614 be entitled to a sign.
- C. Subject to the standards and criteria stated above, the Director shall approve only the minimum deviation from the provisions of this article necessary to avoid the undue hardship or to cause the signage for the site to be effective in identifying the use or structure on the site. However, no deviation shall be approved that would have the effect of allowing a type or category of sign that would 620 otherwise be prohibited by this article.
- D. Any person aggrieved by the decision of the Director concerning a deviation may apply for a variance.

626 A. Maintenance Required.

Section 7.2.9. Maintenance of Signs.

628 It is unlawful for any owner of record, lessor, lessee, manager, or other person having lawful 629 possession or control over a building, structure, or parcel of land to fail to maintain any signs on the 630 building, structure, or parcel in compliance with this chapter. Failure to maintain a sign constitutes a 631 violation of this chapter and shall be subject to enforcement under the enforcement provisions of 632 Chapter 1.6.

All signs, if in existence prior to adoption of this chapter, shall be maintained and kept in good repair and in a safe condition. Maintenance of a sign shall include periodic cleaning, replacement of flickering, burned out or broken light bulbs or fixtures, repair or replacement of any faded, peeled, cracked, or otherwise damaged or broken parts of a sign, and any other activity necessary to restore the sign so that it continues to comply with the requirements and contents of the sign permit issued for its installation, if required, and the provisions of this chapter.

640 641 B. Removal.

Every person maintaining a sign must, upon vacating the premises where a sign is maintained, remove or cause to be removed the sign within 180 days from the date of vacating the premises.
When the Director determines that the sign has not been removed within the required period, the Director shall remedy and enforce said violation in accordance with the enforcement provisions of this chapter.

- Any vacant or unused sign support structures, angle irons, sign poles, or other remnants of old
   signs which are currently not in use or are not proposed for immediate reuse by a sign permit
   application for a permitted sign, shall be removed.
- 6533. The Director shall have the authority to require the repair, maintenance, or removal of any sign654or sign structure which has become dilapidated or represents a hazard to the safety, health, or655welfare of the public, at the cost of the sign or property owner.

- Any sign posted in violation of this chapter on public property or on public rights-of-way shall besubject to summary removal by the City.
- 659
- Any person responsible for any sign posting made in violation of this chapter shall be liable to the
   City for the costs incurred by the City in removal thereof and, in event of failure to pay, for billing
   and collection charges, including interest and reasonable attorneys' fees.

## Chapter 7.3 Temporary Signs.

664 665

663

- A. Temporary signs, identified in this chapter as not requiring a sign permit, unless indicated below, must
   otherwise meet all the applicable requirements of this section and this article. Any temporary sign not
   meeting these requirements, in any way, including quantity, shall be treated as a non-exempt sign
   subject to permitting. The area of temporary signs displayed on a site shall not be included in the
   calculation of the total signs on such site.
- 671

B. A-Frame Signs		
Applicable Zoning	Non-Residential Zoning Districts and lawfully existing Non-Residential Uses in	
District/Use	Residential Zoning Districts	
Sign permit required	No	
Number of signs	1 per business, as identified by business tax receipt	
Maximum Area	An A-frame sign shall not have a copy area wider than 24 inches by 36 inches	
Maximum Height	3 feet 6 inches

#### 47 Section 8.1.2. Definitions.

The terms "Nonconforming," "Nonconforming, Legally," "Nonconforming Lots of Record,"
"Nonconforming Sign," "Nonconforming Structure," and "Nonconforming Use" are defined in Article 11
of this Code and are incorporated by reference for purposes of applying the standards and requirements
of this Article.

## 54 Chapter 2. NONCONFORMING LOTS OF RECORD

55

53

## 56 Section 8.2.1. General.

57

The majority of the City was platted in the Cape Coral Subdivision (Units 1 – 98) with 5,000 square foot lots, with two adjoining lots combined as a 10,000-square foot "Parcel" to construct a single-family residence. A 10,000-square foot parcel is the minimum lot size required for subdivision or development of a single-family residence or a two-family dwelling (LDC Article 4. Section 4.3 Zoning District Development Standards). Platted lots with less than 5,000 square feet and parcels less than 10,000 square feet are defined as nonconforming lots of record or parcels, respectively.

## Section 8.2.2 Residential development on nonconforming lots of record.

- 67 Residential development on nonconforming lots of record may be permitted subject to the following 68 requirements:
- A. Development of single-family residences under this provision is limited to the R-1 and RML zoning
   districts.
- B. Development of single-family residences defined as "Micro cottages" may be permitted on lots of
   record in the RML zoning district provided such lots are 5,000 square feet or more in area.
- 76 C. Development of two-family residences under this provision is limited to the RML zoning district.
- D. Development of single-family or two-family residences is permitted on nonconforming lots of record
   and parcels less than 10,000 square feet in area, without a variance, provided that:
  - 1. Such lots or parcels are larger than 7,500 square feet in area; and
  - 2. The proposed development meets all requirements of this Code for setbacks, maximum building height, and off street parking.
- E. The nonconforming lots of record or parcels less than 10,000 square feet in area have not been
   subdivided or their boundaries altered through the "lot split and combine" process.
- 8889 Chapter 3. NONCONFORMING STRUCTURES

# 9091 Section 8.3.1. Continuation of nonconforming structures.

	Article 6 – Noncomornities and Lawiuny Existing Uses				
93 94 95	Except as may be provided for elsewhere in these regulations, a non-conforming structure may be continued subject to the standards and conditions of this Chapter.				
96 97	Section 8.3.2. Destruction of nonconforming structures.				
98 99 100 101 102	A. Except for residential structures as identified in subsection B, below, a nonconforming structure that is damaged or destroyed to an extent exceeding 50 percent of the fair market value of the structure and improvements at the time of its destruction, shall not be reconstructed except in conformity with these regulations.				
102 103 104 105 106 107	B. Nonconforming residential structures (including accessory structures) in residential zoning districts may be reconstructed if damaged or destroyed to any extent, (less than 50%) if such reconstruction does not increase the extent of the nonconformity(ies) existing prior to destruction and the footprint of the structure is not enlarged or changed.				
108	Section 8.3.3. Alterations to nonconforming structures.				
109 110 111 112 113	A structure that is nonconforming in any way, shall not be altered or enlarged in a way that increases the extent of any nonconformity. Normal maintenance and repair is permitted. Alterations and additions which do not increase the nonconformity may be permitted.				
114	Chapter 4. NONCONFORMING SIGNS				
115 116 117	Section 8.4.1. Requirements for nonconforming signs.				
118 119 120	All signs with approved sign permits but which are not in conformance with the sign requirements of Article 7, may continue as nonconforming signs, subject to the standards and conditions of Article 7.				
121	Chapter 5. NONCONFORMING USES				
122 123 124	Section 8.5.1. Continuation of nonconforming uses.				
125 126 127	Except as may be provided for elsewhere in these regulations, a non-conforming use may be continued subject to the standards and conditions of this Chapter.				
128	Section 8.5.2. Extension or expansion of nonconforming use.				
129 130 131 132	A nonconforming use shall not be enlarged or expanded, except for nonconformities created by amendments to the comprehensive plan, as described in Chapter 6 of this Article.				
133	Section 8.5.3 Discontinuance of nonconforming use.				
134 135 136 137 138	Whenever a nonconforming use of property has been discontinued for a period of one year or more, such non-conforming use shall not thereafter be re-established, and the future use of the property shall be in conformity with the provisions of these regulations.

This exception does not apply either to conjoined residential dwellings or to multi-family residential dwellings, regardless of number.

192

193 C. In the event the property owner who owned the real property containing the single- family or duplex 194 dwelling use at the time the Comprehensive Plan amendment was adopted conveys or otherwise 195 transfers ownership of the real property, subsequent to the adoption of the amendment, to another 196 person or entity, then this exception shall terminate and the dwelling shall be subject to the 197 limitations identified by Chapters 4 and 5 of this Article, that apply to non-conforming structures generally and, prior to the conveyance or other transfer of property ownership, the property owner 198 199 shall notify in writing the person or entity to whom ownership is being transferred of the change in 200 the status of the property. The failure of a property owner to provide notice as required herein of the 201 change in the status of the property shall not affect the change in the status of the property.

# 205 Section 8.7.1. Nonconformities created by eminent domain.

206

Any structure, use, or lot made nonconforming as a direct result of eminent domain proceedings instituted by the City of Cape Coral or other condemning authority, or through a voluntary conveyance by such lot owner in lieu of formal eminent domain proceedings, which lot or parcel, except for such eminent domain or voluntary conveyance, would be an otherwise conforming lot or parcel, shall be deemed to be a conforming lot or parcel for all purposes under the City of Cape Coral Land Development Code, without the necessity for a variance from any land development ordinance. This subsection shall not apply to any lot or parcel which is reduced in size by more than 25 percent by such action.

		ARTICLE 9 – FLOODPLAIN MANAGEMENT
93 94	СН	APTER 1: ADMINISTRATION
95 96	Se	ction 9.1.1. Title.
90 97 98	Th	ese regulations shall be known as the Floodplain Management Ordinance of the City of Cape Coral.
99 100	Se	ction 9.1.2. Scope.
101 102 103 104 105 106 107	flo ins rel Co ins	e provisions of this Article shall apply to all development that is wholly within or partially within any od hazard area, including the subdivision of land; filling, grading, other site improvements, and utility tallations; construction, alteration, remodeling, enlargement, improvement, replacement, repair, ocation, or demolition of buildings, structures, and facilities that are exempt from the Florida Building de; placement, installation, or replacement of manufactured homes and manufactured buildings; tallation or replacement of tanks; placement of recreational vehicles; installation of swimming pools; d any other action or activity defined as development.
108 109		ction 9.1.3. Purpose and Intent.
110 111 112 113 114 115	Flo gei	e purposes of this Article and the flood load and flood resistant construction requirements of the rida Building Code are to establish minimum requirements to safeguard the public health, safety, and neral welfare and to minimize public and private losses due to flooding through regulation of velopment in flood hazard areas to:
116 117	Α.	Minimize unnecessary disruption of commerce, access, and public service during times of flooding;
118 119 120	В.	Require the use of appropriate construction practices in order to prevent or minimize future flood damage;
121 122 123 124	C.	Manage filling, grading, dredging, mining, paving, excavation, drilling operations, storage of equipment or materials, and other development which may increase flood damage or erosion potential;
125 126 127	D.	Manage the alteration of flood hazard areas, watercourses, and shorelines to minimize the impact of development on the natural and beneficial functions of the floodplain;
128 129	E.	Minimize damage to public and private facilities and utilities;
130 131 132	F.	Help maintain a stable tax base by providing for the sound use and development of flood hazard areas;
133 134 135	G.	Minimize the need for future expenditure of public funds for flood control projects and response to and recovery from flood events; and
136 137 138	Н.	Meet the requirements of the National Flood Insurance Program for community participation as set forth in the Title 44 Code of Federal Regulations, Section 59.22.

## 139 Section 9.1.4. Coordination with the Florida Building Code.

140

141 This Article is intended to be administered and enforced in conjunction with the Florida Building Code.

142 Where cited, ASCE 24 refers to the edition of the standard that is referenced by the Florida Building

143 Code. 144

## 145 Section 9.1.5. Warning.

## 146

147 The degree of flood protection required by this Article and the Florida Building Code is considered the 148 minimum reasonable for regulatory purposes and is based on scientific and engineering considerations. 149 Larger floods can and will occur. Flood heights may be increased by man-made or natural causes. This 150 Article does not imply that land outside of mapped special flood hazard areas or that uses permitted 151 within such flood hazard areas will be free from flooding or flood damage. The flood hazard areas and 152 base flood elevations contained in the Flood Insurance Study and shown on Flood Insurance Rate Maps 153 and the requirements of Title 44 Code of Federal Regulations, Sections 59 and 60 may be revised by the 154 Federal Emergency Management Agency, requiring this city to revise these regulations to remain eligible 155 for participation in the National Flood Insurance Program. No guaranty of vested use, existing use, or

- 156 future use is implied or expressed by compliance with this Article.
- 157

# 158 Section 9.1.6. Disclaimer of liability.

159

This Article shall not create liability on the part of the City of Cape Coral or by any officer or employee
 thereof for any flood damage that results from reliance on this Article or any administrative decision
 lawfully made thereunder.

163

# 164 Section 9.1.7. Applicability.

165

168

A. Where there is a conflict between a general requirement and a specific requirement, the specific
 requirement shall be applicable.

B. This Article shall apply to all development in flood hazard areas within the City of Cape Coral, as
established in § 9.1.8. of this Article.

# 172 Section 9.1.8. Basis for establishing flood hazard areas.

173

171

The Flood Insurance Study for Lee County, FL and Incorporated Areas dated August 28, 2008, the accompanying Flood Insurance Rate Maps (FIRM), and all subsequent amendments and revisions are adopted by reference as a part of this Article and shall serve as the minimum basis for establishing flood hazard areas. Studies and maps that establish flood hazard areas are on file at the City Clerk's office, City of Cape Coral City Hall, 1015 Cultural Park Boulevard, Cape Coral, Florida.

179

# 180 Section 9.1.9. Submission of additional data to establish flood hazard areas.

181

182 To establish flood hazard areas and base flood elevations pursuant to § 9.1.8 of this Article, the

- 183 Floodplain Administrator may require submission of additional data. Additional data may be required
- 184 where field surveyed topography prepared by a Florida licensed professional surveyor or digital

185 186	topography accepted by the city indicates that ground elevations:
187 187 188 189 190	A. Are below the closest applicable base flood elevation, even in areas not delineated as a special flood hazard area on a FIRM, the area shall be considered as flood hazard area and subject to the requirements of this Article and, as applicable, the requirements of the Florida Building Code: or
191 192 193 194	B. Are above the closest applicable base flood elevation, the area shall be regulated as special flood hazard area unless the applicant obtains a Letter of Map Change that removes the area from the special flood hazard area.
195 196	Section 9.1.10. Other laws.
197 198	The provisions of this Article shall not be deemed to nullify any provisions of local state or federal law.
199 200	Section 9.1.11. Abrogation and greater restrictions.
201 202 203 204 205 206 207	This Article supersedes any regulation in effect for management of development in flood hazard areas. However, it is not intended to repeal or abrogate any existing regulations, including land development regulations, zoning ordinances, stormwater management regulations, or the Florida Building Code. In the event of a conflict between this Article and any other regulation, the more restrictive shall govern. This Article shall not impair any deed restriction, covenant, or easement but any land that is subject to such interests shall also be governed by this Article.
207 208 209	Section 9.1.12. Interpretation.
210 211	In the interpretation and application of this Article, all provisions shall be:
212 213	A. Considered as minimum requirements;
214 215	B. Liberally construed in favor of the governing body; and
216 217	C. Deemed neither to limit nor repeal any other powers granted under state statutes.
218 219	CHAPTER 2. DUTIES AND POWERS OF THE FLOODPLAIN ADMINISTRATOR.
220 221	Section 9.2.1. Designation.
222 223 224 225	The Director of the Department of Community Development is designated as the Floodplain Administrator. The Floodplain Administrator may delegate performance of certain duties to other employees.
226 227	Section 9.2.2. General.
228 229 230	The Floodplain Administrator is authorized and directed to administer and enforce the provisions of this Article. The Floodplain Administrator shall have the authority to render interpretations of this Article consistent with the intent and purpose of this Article and may establish policies and procedures in order

231 232 233 234	to clarify the application of its provisions. Such interpretations, policies, and procedures shall not have the effect of waiving requirements specifically provided in this Article without the granting of a variance pursuant to § 9.6.1. of this Article.				
234 235 236	Sec	Section 9.2.3. Applications and permits.			
230 237 238	The	e Floodplain Administrator, in coordination with other pertinent offices of the city, shall:			
239 240 241	A.	Review applications and plans to determine whether proposed new development will be located in flood hazard areas.			
242 243 244	В.	Review applications for modification of any existing development in flood hazard areas for compliance with the requirements of this Article.			
245 246 247 248	C.	Interpret flood hazard area boundaries where such interpretation is necessary to determine the exact location of boundaries; a person contesting the determination shall have the opportunity to appeal the interpretation.			
249 250	D.	Provide available flood elevation and flood hazard information.			
251 252 253	E.	Determine whether additional flood hazard data shall be obtained from other sources or shall be developed by an applicant.			
254 255 256	F.	Review applications to determine whether proposed development will be reasonably safe from flooding.			
257 258 259 260 261	G.	Issue floodplain development permits or approvals for development other than buildings and structures that are subject to the Florida Building Code, including buildings, structures, and facilities exempt from the Florida Building Code, when compliance with this Article is demonstrated, or disapprove the same in the event of noncompliance.			
262 263 264 265	н.	Coordinate with and provide comments to the Building Official to assure that applications, plan reviews, and inspections for buildings and structures in flood hazard areas comply with the applicable provisions of this Article.			
266 267	Sec	tion 9.2.4. Substantial improvement and substantial damage determinations.			
268 269 270 271 272 272	mo ren woi	applications for building permits to improve buildings and structures, including alterations, vement, enlargement, replacement, repair, change of occupancy, additions, rehabilitations, ovations, substantial improvements, repairs of substantial damage, and any other improvement of or rk on such buildings and structures, the Floodplain Administrator, in coordination with the Building icial, shall:			
273 274 275 276	A.	Estimate the market value or require the applicant to obtain an appraisal of the market value prepared by a qualified independent appraiser, of the building or structure before the start of construction of the proposed work; in the case of repair, the market value of the building or			

277 278		structure shall be the market value before the damage occurred and before any repairs are made.
279 280 281 282	B.	Compare the cost to perform the improvement, the cost to repair a damaged building to its pre- damaged condition, or the combined costs of improvements and repairs, if applicable, to the market value of the building or structure.
283 284 285 286	C.	Determine and document whether the proposed work constitutes substantial improvement or repair of substantial damage; the determination requires evaluation of previous permits issued for improvements and repairs as specified in the definition of substantial improvement.
287 288 289 290	D.	Notify the applicant if it is determined that the work constitutes substantial improvement or repair of substantial damage and that compliance with the flood resistant construction requirements of the Florida Building Code and this Article is required.
291 292	Sec	tion 9.2.5. Modifications of the strict application of the requirements of the Florida Building Code.
293 294 295 296 297	to r Flo	e Floodplain Administrator shall review requests submitted to the Building Official that seek approval modify the strict application of the flood load and flood resistant construction requirements of the rida Building Code to determine whether such requests require the granting of a variance pursuant to .6.1. of this Article.
298	Sec	tion 9.2.6. Notices and orders.
299 300 301 302		e Floodplain Administrator shall coordinate with appropriate local agencies for the issuance of all cessary notices or orders to ensure compliance with this Article.
303 304	Sec	tion 9.2.7. Inspections.
305 306 307 308 309	dev faci	e Floodplain Administrator shall make the required inspections as specified in this Article for velopment that is not subject to the Florida Building Code, including buildings, structures, and ilities exempt from the Florida Building Code. The Floodplain Administrator shall inspect flood hazard as to determine if development is undertaken without issuance of a permit.
310	Sec	tion 9.2.8. Other duties of the Floodplain Administrator.
311 312 313	The	e Floodplain Administrator shall have other duties, including:
314 315 316 317	A.	Establish, in coordination with the Building Official, procedures for administering and documenting determinations of substantial improvement and substantial damage made pursuant to § 9.2.4. of this Article.
318 319 320 321	В.	Require that applicants proposing alteration of a watercourse notify adjacent communities and the Florida Division of Emergency Management, State Floodplain Management Office, and submit copies of such notifications to the Federal Emergency Management Agency (FEMA).
322	C.	Require applicants who submit hydrologic and hydraulic engineering analyses to support permit

- applications to submit to FEMA the data and information necessary to maintain the Flood Insurance
   Rate Maps if the analyses propose to change base flood elevations, flood hazard area boundaries, or
   floodway designations; such submissions shall be made within six months of such data becoming
   available.
- 327

331

- 328 D. Review required design certifications and documentation of elevations specified by this Article and
   329 the Florida Building Code and this Article to determine that such certifications and documentations
   330 are complete.
- E. Notify the Federal Emergency Management Agency when the corporate boundaries of the City ofCape Coral are modified.
- F. Advise applicants for new buildings and structures, including substantial improvements, that are
  located in any unit of the Coastal Barrier Resources System established by the Coastal Barrier
  Resources Act (Pub. L. 97-348) and the Coastal Barrier Improvement Act of 1990 (Pub. L. 101-591)
  that federal flood insurance is not available on such construction; areas subject to this limitation are
  identified on Flood Insurance Rate Maps as "Coastal Barrier Resource System Areas" and "Otherwise
  Protected Areas."
- 341

# 342 Section 9.2.9 Floodplain management records.

343

344 Regardless of any limitation on the period required for retention of public records, the Floodplain 345 Administrator shall maintain and permanently keep and make available for public inspection all records 346 that are necessary for the administration of this Article and the flood resistant construction 347 requirements of the Florida Building Code, including Flood Insurance Rate Maps; Letters of Change; 348 records of issuance of permits and denial of permits; determinations of whether proposed work 349 constitutes substantial improvement or repair of substantial damage; required design certifications and 350 documentation of elevations specified by the Florida Building Code and this Article; notifications to 351 adjacent communities, FEMA and the state related to alterations of watercourses; assurances that the 352 flood carrying capacity of altered watercourses will be maintained; documentation related to appeals 353 and variances, including justification for issuance or denial; and records of enforcement actions taken 354 pursuant to this Article and the flood resistant construction requirements of the Florida Building Code. 355 These records shall be available for public inspection at the City Clerk's office, City of Cape Coral City 356 Hall, 1015 Cultural Park Boulevard, Cape Coral, Florida. 357

# 358 CHAPTER 3. PERMITS

359

# 360 Section 9.3.1. Permits required.

361

Any owner or owner's authorized agent (hereinafter "applicant") who intends to undertake any development activity within the scope of this Article, including buildings, structures, and facilities exempt from the Florida Building Code, which is wholly within or partially within any flood hazard area shall first make application to the Floodplain Administrator and the Building Official, if applicable, and shall obtain the required permit(s) and approvals). No such permit or approval shall be issued until compliance with the requirements of this Article and all other applicable codes and regulations has been satisfied.

415 416 B. Describe the land on which the proposed development is to be conducted by legal description, street address, or similar description that will readily identify and definitively locate the site. 417 418 419 C. Indicate the use and occupancy for which the proposed development is intended. 420 421 D. Be accompanied by a site plan or construction documents as specified in § 9.4 of this Article. 422 423 E. State the valuation of the proposed work. 424 425 F. Be signed by the applicant or the applicant's authorized agent. 426 427 G. Give such other data and information as required by the Floodplain Administrator. 428 429 Section 9.3.5. Validity of permit or approval. 430 431 The issuance of a floodplain development permit or approval pursuant to this Article shall not be 432 construed to be a permit for, or approval of, any violation of this Article, the Florida Building Codes, or 433 any other regulation of the City of Cape Coral. The issuance of permits based on submitted applications, 434 construction documents, and information shall not prevent the Floodplain Administrator from requiring 435 the correction of errors and omissions. 436 437 Section 9.3.6. Expiration. 438 439 A floodplain development permit or approval shall become invalid unless the work authorized by such 440 permit is commenced within 180 days after its issuance, or if the work authorized is suspended or 441 abandoned for a period of 180 days after the work commences. Extensions for periods of not more than 442 180 days each shall be requested in writing and justifiable cause shall be demonstrated. 443 444 Section 9.3.7. Suspension or revocation. 445 446 The Floodplain Administrator is authorized to suspend or revoke a floodplain development permit or 447 approval if the permit was issued in error; on the basis of incorrect, inaccurate, or incomplete 448 information; or in violation of this Article or any other regulation or requirement of the City of Cape 449 Coral. 450 451 Section 9.3.8. Other permits required. 452 453 Floodplain development permits and building permits shall include a condition that all other applicable 454 state or federal permits be obtained before commencement of the permitted development, including 455 the following: 456 457 A. The South Florida Water Management District; F.S. § 373.036. 458 459 B. Florida Department of Health for onsite sewage treatment and disposal systems; F.S. § 381.0065 460 and Chapter 64E-6, F.A.C.

475	СН	APTER 4. SITE PLANS AND CONSTRUCTION DOCUMENTS.
476		
477	Se	ction 9.4.1. Information for development in flood hazard areas.
478		
479	Α.	The site plan or construction documents for any development subject to the requirements of this
480		Article shall be drawn to scale and shall include, as applicable to the proposed development:
481		
482		1. Delineation of flood hazard areas, floodway boundaries and flood zone(s), base flood
483		elevation(s), and ground elevations if necessary for review of the proposed development;
484		
485		2. Where base flood elevations or floodway data are not included on the FIRM or in the Flood
486		Insurance Study, they shall be established in accordance with § 9.4.2.(B) or (C) of this Article;
487		
488		3. Where the parcel on which the proposed development will take place will have more than 50
489		lots or is larger than five acres and the base flood elevations are not included on the FIRM or in
490		the Flood Insurance Study, such elevations shall be established in accordance with § 9.4.2.(A) of
491		this Article;
492		
493		4. Location of the proposed activity, and structures, and locations of existing buildings and
494		structures; in coastal high hazard areas, new buildings shall be located landward of the reach of
495		mean high tide;
496		
497		5. Location, extent, amount, and proposed final grades of any filling, grading, or excavation;
498		
499		6. Where the placement of fill is proposed, the amount, type, and source of fill material;
500		compaction specifications; a description of the intended purpose of the fill areas; and evidence
501		that the proposed fill areas are the minimum necessary to achieve the intended purpose;
502		
503		7. Delineation of the coastal construction control line or notation that the site is seaward of the
504		coastal construction control line, if applicable;
505		
506		8. Extent of any proposed alteration of sand dunes or mangrove stands, provided such alteration is

507 508		approved by the Florida Department of Environmental Protection; and
509		9. Existing and proposed alignment of any proposed alteration of a watercourse.
510		
511 512	В.	The Floodplain Administrator is authorized to waive the submission of site plans, construction documents, and other data that are required by this Article but that are not required to be prepared
513 514		by a registered design professional if it is found that the nature of the proposed development is such that the review of such submissions is not necessary to ascertain compliance with this Article.

516	Sec	tion 9.4.2. Information in flood hazard areas without base flood elevations (approximate Zone A).
517		
518	Wh	ere flood hazard areas are delineated on the FIRM and base flood elevation data have not been
519	pro	vided, the Floodplain Administrator shall:
520	•	
521	Α.	Require the applicant to include base flood elevation data prepared in accordance with currently
522		accepted engineering practices.
523		
524	В.	Obtain, review, and provide to applicants base flood elevation and floodway data available from a
525		federal or state agency or other source or require the applicant to obtain and use base flood
526		elevation and floodway data available from a federal or state agency or other source.
527		
528	C.	Where base flood elevation and floodway data are not available from another source, where the
529		available data are deemed by the Floodplain Administrator to not reasonably reflect flooding
530		conditions, or where the available data are known to be scientifically or technically incorrect or
531		otherwise inadequate:
532		
533		1. Require the applicant to include base flood elevation data prepared in accordance with
534		currently accepted engineering practices; or
535		
536		2. Specify that the base flood elevation is two feet above the highest adjacent grade at the location
537		of the development, provided there is no evidence indicating flood depths have been or may be
538		greater than two feet; and
539	_	
540	D.	Where the base flood elevation data are to be used to support a Letter of Map Change from FEMA,
541		advise the applicant that the analyses shall be prepared by a Florida licensed engineer in a format
542		required by FEMA, and that it shall be the responsibility of the applicant to satisfy the submittal
543		requirements and pay the processing fees.
544		
545	Sec	tion 9.4.3. Additional analyses and certifications.
546		
547		applicable to the location and nature of the proposed development activity, and in addition to the
548		uirements of this section, the applicant shall have the following analyses signed and sealed by a
549	Flo	ida licensed engineer for submission with the site plan and construction documents:
550		
551	Α.	For development activities in a regulatory floodway, a floodway encroachment analysis that
552		demonstrates that the encroachment of the proposed development will not cause any increase in

base flood elevations; where the applicant proposes to undertake development activities that do
increase base flood elevations, the applicant shall submit such analysis to FEMA as specified in §
9.4.4. of this Article and shall submit the Conditional Letter of Map Revision, if issued by FEMA, with
the site plan and construction documents.

557

571

575

B. For development activities in a riverine flood hazard area for which base flood elevations are
included in the Flood Insurance Study or on the FIRM and floodways have not been designated,
hydrologic and hydraulic analyses that demonstrate that the cumulative effect of the proposed
development, when combined with all other existing and anticipated flood hazard area
encroachments, will not increase the base flood elevation more than one foot at any point within
the City of Cape Coral. This requirement does not apply in isolated flood hazard areas not connected
to a riverine flood hazard area or in flood hazard areas identified as Zone AO or Zone AH.

- 565
  566 C. For alteration of a watercourse, an engineering analysis prepared in accordance with standard
  567 engineering practices which demonstrates that the flood-carrying capacity of the altered or
  568 relocated portion of the watercourse will not be decreased, and certification that the altered
  569 watercourse shall be maintained in a manner which preserves the channel's flood-carrying capacity;
  570 the applicant shall submit the analysis to FEMA as specified in § 9.4.4. of this Article.
- 572 D. For activities that propose to alter sand dunes or mangrove stands in coastal high hazard areas
  573 (Zone V), an engineering analysis that demonstrates that the proposed alteration will not increase
  574 the potential for flood damage.
- 576 Section 9.4.4. Submission of additional data.

577
578 When additional hydrologic, hydraulic, or other engineering data, studies, and additional analyses are
579 submitted to support an application, the applicant has the right to seek a Letter of Map Change from
580 FEMA to change the base flood elevations, change floodway boundaries, or change boundaries of flood
581 hazard areas shown on FIRMs, and to submit such data to FEMA for such purposes. The analyses shall be
582 prepared by a Florida licensed engineer in a format required by FEMA. Submittal requirements and
583 processing fees shall be the responsibility of the applicant.

- 588

591

589 Development for which a floodplain development permit or approval is required shall be subject to 590 inspection.

592 Section 9.5.2. Development other than buildings and structures.

593
594 The Floodplain Administrator shall inspect all development to determine compliance with the
595 requirements of this Article and the conditions of issued floodplain development permits or approvals.
596

# 597 Section 9.5.3. Buildings, structures and facilities exempt from the Florida Building Code.

- 599 The Floodplain Administrator shall inspect buildings, structures, and facilities exempt from the Florida 600 Building Code to determine compliance with the requirements of this Article and the conditions of 601 issued floodplain development permits or approvals. 602 603 Section 9.5.4. Buildings, structures, and facilities exempt from the Florida Building Code, lowest floor 604 inspection. 605 606 Upon placement of the lowest floor, including basement, and prior to further vertical construction, the 607 owner of a building, structure, or facility exempt from the Florida Building Code shall submit to the 608 Floodplain Administrator: 609 610 A. If a design flood elevation was used to determine the required elevation of the lowest floor, the 611 certification of elevation of the lowest floor prepared and sealed by a Florida licensed professional 612 surveyor; or 613 614 B. If the elevation used to determine the required elevation of the lowest floor was determined in 615 accordance with § 9.4.2.(C)(2) of this Article, the documentation of height of the lowest floor above 616 highest adjacent grade, prepared by the owner. 617 618 Section 9.5.5. Buildings, structures, and facilities exempt from the Florida Building Code, final 619 inspection. 620 621 As part of the final inspection, the owner shall submit a final certification of elevation of the lowest floor 622 or final documentation of the height of the lowest floor above the highest adjacent grade; such 623 certifications and documentations shall be prepared as specified in § 9.5.4. of this Article. 624 625 Section 9.5.6. Manufactured homes. 626 627 The Floodplain Administrator shall inspect manufactured homes that are installed or replaced in flood 628 hazard areas to determine compliance with the requirements of this Article and the conditions of the issued permit. Upon placement of a manufactured home, certification of the elevation of the lowest 629 630 floor shall be submitted. 631 **CHAPTER 6. VARIANCES AND APPEALS.** 632 633 634 Section 9.6.1. Variances. 635 636 The Cape Coral Hearing Examiner shall hear and decide on requests for requests for variances from the 637 strict application of this Article. Pursuant to F.S. § 553.73(5), the Cape Coral Hearing Examiner shall hear 638 and decide on requests for appeals and requests for variances from the strict application of the flood 639 resistant construction requirements of the Florida Building Code. This section does not apply to Section 640 3109 of the Florida Building Code, Building. 641 642 Section 9.6.2. Appeals. 643
- The Cape Coral Hearing Examiner shall hear and decide appeals when it is alleged there is an error in any

- requirement, decision, or determination made by the Floodplain Administrator in the administration
- and enforcement of this Article. Any person aggrieved by the decision of Cape Coral Hearing Examiner
- 647 may appeal such decision to the Cape Coral City Council, as provided by Article 2 of the Land
- 648 Development Code.649
- 650 Section 9.6.3. Limitations on authority to grant variances.
- The Cape Coral Hearing Examiner shall base his or her decisions on variances on technical justifications submitted by applicants, the considerations for issuance in § 9.6.7. of this Article, the conditions of issuance set forth in § 9.6.8. of this Article, and the comments and recommendations of the Floodplain Administrator and the Building Official. The Cape Coral Hearing Examiner has the right to attach such conditions as deemed necessary to further the purposes and objectives of this Article.
- 656
- 657 Section 9.6.4. Restrictions in floodways.
- 658

A variance shall not be issued for any proposed development in a floodway if any increase in base flood
 elevations would result, as evidenced by the applicable analyses and certifications required in § 9.4.3. of
 this Article.

662

# 663 Section 9.6.5. Historic buildings.

664

665 A variance is authorized to be issued for the repair, improvement, or rehabilitation of a historic building 666 that is determined eligible for the exception to the flood resistant construction requirements of the 667 Florida Building Code, Existing Building, Chapter 11 Historic Buildings, upon a determination that the 668 proposed repair, improvement, or rehabilitation will not preclude the building's continued designation 669 as a historic building and the variance is the minimum necessary to preserve the historic character and 670 design of the building. If the proposed work precludes the building's continued designation as a historic 671 building, a variance shall not be granted and the building and any repair, improvement, and 672 rehabilitation shall be subject to the requirements of the Florida Building Code.

673

# 674 Section 9.6.6. Functionally dependent uses.

Section 9.6.7. Considerations for issuance of variances.

675

A variance is authorized to be issued for the construction or substantial improvement necessary for the
conduct of a functionally dependent use, as defined in this Article, provided the variance meets the
requirements of § 9.6.4., is the minimum necessary considering the flood hazard, and all due
consideration has been given to use of methods and materials that minimize flood damage during
occurrence of the base flood.

- 681
- 682
- 683

In reviewing requests for variances, the Cape Coral Hearing Examiner shall consider all technical
evaluations, all relevant factors, all other applicable provisions of the Florida Building Code, this Article,
and the following:

- 687
  688 A. The danger that materials and debris may be swept onto other lands resulting in further injury or
  689 damage;
- 690

691 692	В.	The danger to life and property due to flooding or erosion damage;		
693 694	C.	The susceptibility of the proposed development, including contents, to flood damage and the effect of such damage on current and future owners;		
695 696 697	D.	The importance of the services provided by the proposed development to the City of Cape Coral;		
698 699	E.	The availability of alternate locations for the proposed development that are subject to lower risk of flooding or erosion;		
700 701 702	F.	The compatibility of the proposed development with existing and anticipated development;		
703 704	G.	The relationship of the proposed development to the comprehensive plan and floodplain management program for the area;		
705 706 707	Н.	The safety of access to the property in times of flooding for ordinary and emergency vehicles;		
708 709 710	I.	The expected heights, velocity, duration, rate of rise, and debris and sediment transport of the floodwaters and the effects of wave action, if applicable, expected at the site; and		
711 712 713	J.	The costs of providing governmental services during and after flood conditions including maintenance and repair of public utilities and facilities such as sewer, gas, electrical and water systems, streets, and bridges.		
714 715 716	Sec	ction 9.6.8. Conditions for issuance of variances.		
716 717 718	Va	iances shall be issued only upon:		
718 719 720 721 722	A.	Submission by the applicant of a showing of good and sufficient cause that the unique characteristics of the size, configuration, or topography of the site limit compliance with any provision of this Article or the required elevation standards;		
722 723 724	В.	Determination by the Cape Coral Hearing Examiner that:		
725 726 727 728		<ol> <li>Failure to grant the variance would result in exceptional hardship due to the physical characteristics of the land that render the lot undevelopable; increased costs to satisfy the requirements, or inconvenience do not constitute hardship;</li> </ol>		
729 730 731		<ol> <li>The granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public, or conflict with existing local laws and ordinances; and</li> </ol>		
732 733 734		3. The variance is the minimum necessary, considering the flood hazard, to afford relief;		
735 736	C.	Receipt of a signed statement by the applicant that the variance, if granted, shall be recorded in the Office of the Clerk of the Court in such a manner that it appears in the chain of title of the affected		

737 parcel of land; and

738
739 D. If the request is for a variance to allow construction of the lowest floor of a new building or substantial improvement of a building below the required elevation, a copy in the record of a
740 written notice from the Floodplain Administrator to the applicant for the variance, specifying the
742 difference between the base flood elevation and the proposed elevation of the lowest floor, stating
743 that the cost of federal flood insurance will be commensurate with the increased risk resulting from
744 the reduced floor elevation (up to amounts as high as \$25 for \$100 of insurance coverage), and
745 stating that construction below the base flood elevation increases risks to life and property.

746

# 747 Chapter 7. VIOLATIONS.

# 749 Section 9.7.1. Violations.

750

748

Any development that is not within the scope of the Florida Building Code but that is regulated by this Article that is performed without an issued permit, that is in conflict with an issued permit or that does not fully comply with this Article, shall be deemed a violation of this Article. A building or structure without the documentation of elevation of the lowest floor, other required design certifications, or other evidence of compliance required by this Article or the Florida Building Code is presumed to be a violation until such time as that documentation is provided.

757

# 758 Section 9.7.2. Authority.

759

For development that is not within the scope of the Florida Building Code but regulated by this Article and determined to be a violation, the Floodplain Administrator is authorized to serve notices of violation or stop work orders to owners of the property involved, to the owner's agent, or to the person or persons performing the work.

764

# 765 Section 9.7.3. Unlawful continuance.

766

Any person who shall continue any work after having been served with a notice of violation or a stop
work order, except such work as that person is directed to perform to remove or remedy a violation or
unsafe condition, shall be subject to penalties as prescribed by law.

770

# 771 CHAPTER 8. FLOOD RESISTANT DEVELOPMENT

772

# Section 9.8.1. Design and construction of buildings, structures, and facilities exempt from the Florida Building Code.

775

Pursuant to § 9.3.3. of this Article, buildings, structures, and facilities that are exempt from the Florida Building Code, including substantial improvement or repair of substantial damage of such buildings, structures, and facilities, shall be designed and constructed in accordance with the flood load and flood resistant construction requirements of ASCE 24. Structures exempt from the Florida Building Code that are not walled and roofed buildings shall comply with the requirements of § 9.8.14. of this Article.

783 784	Sec	tion 9.8.2. Buildings and structures seaward of the coastal construction control line.		
785 786		If extending, in whole or in part, seaward of the coastal construction control line and also, in whole or in part, in a flood hazard area:		
787	р с			
788 789 790 791	A.	Buildings and structures shall be designed and constructed to comply with the more restrictive applicable requirements of the Florida Building Code, Building Section 3109 and Section 1612 or Florida Building Code, Residential Section R322; and		
792 793 794	В.	Minor structures and non-habitable major structures as defined in F.S. § 161.54, shall be designed and constructed to comply with the intent and applicable provisions of this Article and ASCE 24.		
795	Sor	ction 9.8.3. Subdivision Minimum requirements.		
796	500			
797 798		odivision proposals, including proposals for manufactured home parks and subdivisions, shall be riewed to determine that:		
799				
800 801	A.	Such proposals are consistent with the need to minimize flood damage and will be reasonably safe from flooding;		
802	_			
803 804	В.	All public utilities and facilities such as sewer, gas, electric, communications, and water systems are located and constructed to minimize or eliminate flood damage; and		
805 806 807	C.	Adequate drainage is provided to reduce exposure to flood hazards; in Zones AH and AO, adequate drainage paths shall be provided to guide floodwaters around and away from proposed structures.		
808	<b>C</b>			
809	Sec	ction 9.8.4. Subdivision plats.		
810 811 812		nere any portion of proposed subdivisions lies within a flood hazard area, the following shall be juired:		
813 814 815	A.	Delineation of flood hazard areas, floodway boundaries and flood zones, and design flood elevations, as appropriate, shall be shown on preliminary plats;		
816 817 818 819	В.	Where the subdivision has more than 50 lots or is larger than five acres and base flood elevations are not included on the FIRM, the base flood elevations determined in accordance with § 9.4.2. of this Article; and		
820				
821 822	C.	Compliance with the site improvement and utilities requirements of § 9.8.5., 9.8.6., 9.8.7., 9.8.8., 9.8.9., and 9.8.10. of this Article.		
823				
824 825	Sec	ction 9.8.5. Minimum requirements for site improvements, utilities, and limitations.		
826 827	All	proposed new development shall be reviewed to determine that:		
828	Α.	Such proposals are consistent with the need to minimize flood damage and will be reasonably safe		

829 from flooding;

- 831 B. All public utilities and facilities such as sewer, gas, electric, communications, and water systems are 832 located and constructed to minimize or eliminate flood damage; and
- 833

830

- 834 C. Adequate drainage is provided to reduce exposure to flood hazards; in Zones AH and AO, adequate 835 drainage paths shall be provided to guide floodwaters around and away from proposed structures.
- 836

838

#### 837 Section 9.8.6. Sanitary sewage facilities.

839 All new and replacement sanitary sewage facilities, private sewage treatment plants (including all 840 pumping stations and collector systems), and on-site waste disposal systems shall be designed in 841 accordance with the standards for onsite sewage treatment and disposal systems in Chapter 64E-6, F.A.C. 842 and ASCE 24 Chapter 7 to minimize or eliminate infiltration of floodwaters into the facilities and discharge 843 from the facilities into flood waters, and impairment of the facilities and systems.

844

#### 845 Section 9.8.7. Water supply facilities.

846

847 All new and replacement water supply facilities shall be designed in accordance with the water well 848 construction standards in Chapter 62-532.500, F.A.C. and ASCE 24 Chapter 7 to minimize or eliminate 849 infiltration of floodwaters into the systems.

- 851

850

# Section 9.8.8. Limitations on sites in regulatory floodways.

- 853 No development, including site improvements and land disturbing activity involving fill or regrading shall 854 be authorized in the regulatory floodway unless the floodway encroachment analysis required in § 9.4.3. 855 of this Article demonstrates that the proposed development or land disturbing activity will not result in 856 any increase in the base flood elevation. 857
- 858 Section 9.8.9. Limitations on placement of fill.
- 859 860 Subject to the limitations of this Article, fill shall be designed to be stable under conditions of flooding 861 including rapid rise and rapid drawdown of floodwaters, prolonged inundation, and protection against 862 flood-related erosion and scour. In addition to these requirements, if intended to support buildings and 863 structures (Zone A only), fill shall comply with the requirements of the Florida Building Code.
- 864

#### 865 Section 9.8.10. Limitations on sites in coastal high hazard areas (Zone V).

866

867 In coastal high hazard areas, alteration of sand dunes and mangrove stands shall be permitted only if such 868 alteration is approved by the Florida Department of Environmental Protection and only if the engineering 869 analysis required by § 9.4.3.(D) of this Article demonstrates that the proposed alteration | will not increase 870 the potential for flood damage. Construction or restoration of dunes under or around elevated buildings 871 and structures shall comply with § 9.8.14.(H) of this Article.

		ARTICLE 9 – FLOODPLAIN MANAGEMENT
875 876	Se	ction 9.8.11. Manufactured homes.
877 878 879 880 881	Α.	General. All manufactured homes installed in flood hazard areas shall be installed by an installer that is licensed pursuant to F.S. § 320.8249, and shall comply with the requirements of Chapter 15C-1, F.A.C. and the requirements of this Article. If located seaward of the coastal construction control line, all manufactured homes shall comply with the more restrictive of the applicable requirements.
882 883 884	В.	Foundations. All new manufactured homes and replacement manufactured homes installed in flood hazard areas shall be installed on permanent, reinforced foundations that:
885 886 887 888		1. In flood hazard areas (Zone A) other than coastal high hazard areas, are designed in accordance with the foundation requirements of the Florida Building Code, Residential Section R322.2 and this Article; and
889 890 891		<ol> <li>In coastal high hazard areas (Zone V), are designed in accordance with the foundation requirements of the Florida Building Code, Residential Section R322.3 and this Article.</li> </ol>
892 893 894 895 896	C.	Anchoring. All new manufactured homes and replacement manufactured homes shall be installed using methods and practices which minimize flood damage and shall be securely anchored to an adequately anchored foundation system to resist flotation, collapse, or lateral movement. Methods of anchoring include use of over-the-top or frame ties to ground anchors. This anchoring requirement is in addition to applicable state and local anchoring requirements for wind resistance.
897 898 899 900	D.	Elevation. Manufactured homes that are placed, replaced, or substantially improved shall comply with one of the following requirements, as applicable:
900 901 902 903 904 905 906 907 908 909		1. General elevation requirement. Unless subject to the requirements of § 9.8.11.D.2. of this Article, all manufactured homes that are placed, replaced, or substantially improved on sites: (a) outside of a manufactured home park or subdivision; (b) in a new manufactured home park or subdivision; (c) in an expansion to an existing manufactured home park or subdivision; or (d) in an existing manufactured home park or subdivision upon which a manufactured home has incurred substantial damage as the result of a flood, shall be elevated such that the bottom of the frame is at or above the elevation required, as applicable to the flood hazard area, in the Florida Building Code, Residential Section R322.2 (Zone A) or Section R322.3 (Zone V);
909 910 911 912 913 914 915 916 917		<ol> <li>Elevation requirement for certain existing manufactured home parks and subdivisions. Manufactured homes that are not subject to § 9.8.11.D.1. of this Article, including manufactured homes that are placed, replaced, or substantially improved on sites located in an existing manufactured home park or subdivision, unless on a site where substantial damage as result of flooding has occurred, shall be elevated such that either the:</li> <li>a. Bottom of the frame of the manufactured home is at or above the elevation required, as applicable to the flood hazard area, in the Florida Building Code, Residential Section R322.2</li> </ol>
918 919 920		(Zone A) or Section R322.3 (Zone V); or b. Bottom of the frame is supported by reinforced piers or other foundation elements of at least

921 equivalent strength that are not less than 36 inches in height above grade. 922 923 E. Enclosures. Enclosed areas below elevated manufactured homes shall comply with the requirements 924 of the Florida Building Code, Residential Section R322 for such enclosed areas, as applicable to the 925 flood hazard area. 926 927 F. Utility equipment. Utility equipment that serves manufactured homes, including electric, heating, 928 ventilation, plumbing, air conditioning equipment, and other service facilities shall comply with the 929 requirements of the Florida Building Code, Residential Section R322, as applicable to the flood hazard 930 area. 931 932 Section 9.8.12. Recreational vehicles and park trailers. 933 934 A. Temporary placement. Recreational vehicles and park trailers placed temporarily in flood hazard areas 935 shall: 936 937 1. Be on the site for fewer than 180 consecutive days; and 938 939 2. Be fully licensed and ready for highway use, which means the recreational vehicle or park model is on wheels or jacking system, is attached to the site only by quick-disconnect type utilities and 940 941 security devices, and has no permanent attachments such as additions, rooms, stairs, decks, and 942 porches. 943 944 B. Permanent placement. Recreational vehicles and park trailers that do not meet the limitations in § 945 9.8.12.A. of this Article for temporary placement shall meet the requirements of § 9.8.11. of this Article for manufactured homes. 946 947 Section 9.8.13. Tanks. 948 949 950 A. Underground tanks. Underground tanks in flood hazard areas shall be anchored to prevent flotation, 951 collapse, or lateral movement resulting from hydrodynamic and hydrostatic loads during conditions 952 of the design flood, including the effects of buoyancy assuming the tank is empty. 953 954 B. Above-ground tanks, not elevated. Above-ground tanks that do not meet the elevation requirements of § 9.8.13.C. of this Article shall: 955 956 957 1. Be permitted in flood hazard areas (Zone A) other than coastal high hazard areas, provided the 958 tanks are anchored or otherwise designed and constructed to prevent flotation, collapse, or 959 lateral movement resulting from hydrodynamic and hydrostatic loads during conditions of the 960 design flood, including the effects of buoyancy assuming the tank is empty and the effects of 961 flood-borne debris; and 962 963 2. Not be permitted in coastal high hazard areas (Zone V). 964 965 C. Above-ground tanks, elevated. Above-ground tanks in flood hazard areas shall be attached to and 966 elevated to or above the design flood elevation on a supporting structure that is designed to prevent

967 968 969			tation, collapse, or lateral movement during conditions of the design flood. Tank-supporting uctures shall meet the foundation requirements of the applicable flood hazard area.
970 971	D.	Tar	nk inlets and vents. Tank inlets, fill openings, outlets, and vents shall be:
972 973		1.	At or above the design flood elevation or fitted with covers designed to prevent the inflow of floodwater or outflow of the contents of the tanks during conditions of the design flood; and
974 975 976		2.	Anchored to prevent lateral movement resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy, during conditions of the design flood.
977 978 970	Se	ction	9.8.14. Other development.
979 980 981 982	A.	imp	neral requirements for other development. All development, including man-made changes to proved or unimproved real estate for which specific provisions are not specified in this Article or Florida Building Code, shall:
983 984 985		1.	Be located and constructed to minimize flood damage;
985 986 987		2.	Meet the limitations of § 9.8.8. of this Article if located in a regulated floodway;
988 989 990		3.	Be anchored to prevent flotation, collapse, or lateral movement resulting from hydrostatic loads, including the effects of buoyancy, during conditions of the design flood;
991 992		4.	Be constructed of flood damage- resistant materials; and
993 994 995 996 997		5.	Have mechanical, plumbing, and electrical systems above the design flood elevation, except that minimum electric service required to address life safety and electric code requirements is permitted below the design flood elevation provided it conforms to the provisions of the electrical part of building code for wet locations.
998 999 1000 1001	В.	pas	nces in regulated floodways. Fences in regulated floodways that have the potential to block the stage of floodwaters, such as stockade fences and wire mesh fences, shall meet the limitations of .8.8. of this Article.
1001 1002 1003 1004 1005	C.	driv	taining walls, sidewalks and driveways in regulated floodways. Retaining walls and sidewalks and veways that involve the placement of fill in regulated floodways shall meet the limitations of § .8. of this Article.

**ARTICLE 9 – FLOODPLAIN MANAGEMENT** 1013 nonstructural uses in coastal high hazard areas (Zone V). 1014 1015 In coastal high hazard areas, concrete slabs used as parking pads, enclosure floors, landings, decks, 1016 walkways, patios, and similar nonstructural uses are permitted beneath or adjacent to buildings and 1017 structures provided the concrete slabs are designed and constructed to be: 1018 1019 1. Structurally independent of the foundation system of the building or structure; 1020 1021 2. Frangible and not reinforced, to minimize debris during flooding that is capable of causing 1022 significant damage to any structure; and 1023 1024 3. Have a maximum slab thickness of not more than four inches. 1025 1026 F. Decks and patios in coastal high hazard areas (Zone V). In addition to the requirements of the Florida 1027 Building Code, in coastal high hazard areas decks and patios shall be located, designed, and 1028 constructed in compliance with the following: 1029 1030 1. A deck that is structurally attached to a building or structure shall have the bottom of the lowest 1031 horizontal structural member at or above the design flood elevation and any supporting members 1032 that extend below the design flood elevation shall comply with the foundation requirements that 1033 apply to the building or structure, which shall be designed to accommodate any increased loads 1034 resulting from the attached deck; 1035 1036 2. A deck or patio that is located below the design flood elevation shall be structurally independent 1037 from buildings or structures and their foundation systems and shall be designed and constructed 1038 either to remain intact and in place during design flood conditions or to break apart into small 1039 pieces to minimize debris during flooding that is capable of causing structural damage to the 1040 building or structure or to adjacent buildings and structures; 1041 1042 3. A deck or patio that has a vertical thickness of more than 12 inches or that is constructed with more than the minimum amount of fill necessary for site drainage shall not be approved unless 1043 1044 an analysis prepared by a qualified registered design professional demonstrates no harmful 1045 diversion of floodwaters or wave runup and wave reflection that would increase damage to the 1046 building or structure or to adjacent buildings and structures; and 1047 1048 4. A deck or patio that has a vertical thickness of 12 inches or less and that is at natural grade or on 1049 nonstructural fill material that is similar to and compatible with local soils and is the minimum 1050 amount necessary for site drainage may be approved without requiring analysis of the impact on 1051 diversion of floodwaters or wave runup and wave reflection. 1052 1053 G. Other development in coastal high hazard areas (Zone V). 1054 1055 In coastal high hazard areas, development activities other than buildings and structures shall be 1056 permitted only if also authorized by the appropriate federal, state, or local authority; if located outside 1057 the footprint of and not structurally attached to buildings and structures; and if analyses prepared by 1058 qualified registered design professionals demonstrate no harmful diversion of floodwaters or wave

1059		rur	nup and wave reflection that would increase damage to adjacent buildings and structures. Such
1060		otł	ner development activities include but are not limited to:
1061			
1062		1.	Bulkheads, seawalls, retaining walls, revetments, and similar erosion control structures;
1063			
1064		2.	Solid fences, privacy walls, and fences prone to trapping debris, unless designed and constructed
1065			to fail under flood conditions less than the design flood or otherwise function to avoid obstruction
1066			of floodwaters; and
1067			
1068		3.	On-site sewage treatment and disposal systems defined in 64E-6.002, F.A.C., as filled systems or
1069		-	mound systems.
1070			
1071	Н.	No	nstructural fill in coastal high hazard areas (Zone V).
1072			
1073		1.	Minor grading and the placement of minor quantities of nonstructural fill shall be permitted for
1074			landscaping and for drainage purposes under and around buildings.
1075			
1076		2.	Nonstructural fill with finished slopes that are steeper than one unit vertical to five units
1077			horizontal shall be permitted only if an analysis prepared by a qualified registered design
1078			professional demonstrates no harmful diversion of floodwaters or wave runup and wave
1079			reflection that would increase damage to adjacent buildings and structures.
1080			
1081		3.	Where authorized by the Florida Department of Environmental Protection or applicable local
1082		0.	approval, sand dune construction and restoration of sand dunes under or around elevated
1083			buildings are permitted without additional engineering analysis or certification of the diversion of
1084			floodwater or wave runup and wave reflection if the scale and location of the dune work is
1085			consistent with local beach-dune morphology and the vertical clearance is maintained between
1085			the top of the sand dune and the lowest horizontal structural member of the building.
1080			the top of the sund dure and the lowest horizontal structural member of the building.

1 2	Ch	hapter 1. Subdivisions			
2 3 4	Sec	Section 10.1.1. Purpose and Intent			
5 6 7	sub	e purpose and intent of this Article is to establish the procedures for review and approval of proposed odivisions and plats within the City of Cape Coral in accordance with Chapter 177 Part 1 of the Florida stutes, the City of Cape Coral Technical Requirements for Plat Approval, and this Code.			
8 9 10	Sec	ction 10.1.2 Applicability and Process.			
10 11 12	A.	Applicability. This Section shall apply to any subdivision or re-subdivision of land in the City.			
13 14 15 16		1. No subdivision shall be platted or recorded, no lot shall be sold, and no building or development permit be issued unless the subdivision meets all applicable laws of the state, this code, and has been approved by the City in accordance with the requirements of this Article.			
17 18 19 20		2. This section shall not apply to any land forming part of a subdivision created and recorded prior to effective date of the ordinance from which this article is derived, but it shall apply to any resubdividing (replats) of previously approved subdivisions and all new subdivisions.			
20 21 22 23 24 25 26		3. It is not intended by the provisions of these regulations to repeal, abrogate, annul, or in any way impair or interfere with private restrictions placed upon property by deed, covenant, or private agreement, except that where this article imposes higher standards than imposed by such deeds, covenants, or private agreements then the provisions of this article shall apply. The City shall not be responsible for enforcement of such deeds, covenants, or agreements.			
27 28	В.	Unless otherwise exempt from this Section or approved as a lot split, all subdivision of land is subject to a three-step review process consisting of:			
29 30 31		1. Preliminary Subdivision Plan (PSP) approval;			
32 33		2. Subdivision Construction Plan (SCP) approval; and			
34 35		3. Plat approval and recording.			
36 37 38	C.	PSP approval is optional for lot splits and those projects in compliance with zoning regulations. SCP approval is required prior to Plat approval.			
39 40	Sec	ction 10.1.3 General Requirements.			
41 42 43	A.	All division of land in the City shall occur only as a new subdivision plat, a replat, or a lot split. The requirements for lot splits are set forth in Article 3, Chapter 3, Section 3.3.4.			
44 45 46	В.	No lot split shall be recognized by the City, no lot that is part of a lot split shall be sold, and no building permit shall be issued unless the lot split has been approved by the City prior to recording in accordance with the requirements of Article 3, Chapter 3, Section 4.			

- 47 48 C. A PSP depicts the proposed subdivision layout and the preliminary design of any required 49 improvements which may include off-site improvements. A Preliminary Subdivision Plan is an 50 administrative approval, pursuant to Article 3 of this Code. 51 52 D. Following PSP approval, applicants may then seek approval of the SCP and Plat. 53 54 E. The SCP shall depict the detailed engineering and construction plans to develop a subdivision and all 55 required improvements, in accordance with the approved PSP. 56 57 F. Subdivisions may be approved for phased development. Phasing must be shown on the PSP. 58 59 G. An application for Plat review shall not be submitted prior to application for SCP approval. The 60 applications may be submitted concurrently. 61 H. Electronic file. In addition to any hard copies that may be required all PSPs, SCPs, and Plats shall 62 63 submitted as electronic files in a format acceptable to the City. 64 65 I. No plat or replat of any subdivision shall be recorded in the office of the Lee County Clerk until the 66 plat has been duly approved by City Council in the manner prescribed herein. 67 68 J. All plats approved by the City Council shall be recorded by the developer at the Lee County Clerk of 69 Circuit Court within 20 business days of receiving the approved plat from the City. 70 71 K. Employment of engineers, surveyors, and other design consultants. A professional engineer licensed 72 in the State of Florida shall prepare the respective plans to be included in all applications for approval. 73 The engineer shall design all required improvements such as streets, drainage systems, water and 74 sewage facilities, etc. Plats shall be prepared by a professional surveyor and mapper licensed in the 75 State of Florida. All plans, drawings, reports, and calculations shall be prepared, signed, and sealed by 76 the appropriate licensed professional, such as engineers, architects, landscape architects, land 77 surveyors, and attorneys registered in the state. Other specialized consultants, such as environmental 78 consultants, structural engineers, archaeologists, etc., may be required to assist in the preparation of 79 the plans, drawings, reports, and other documents required as application submittals. 80 81 L. It shall be unlawful for the owner or agent of the owner of any land in the City to transfer, sell, or 82 convey land by reference to, exhibition of, or other use of a plat of a subdivision of such land without 83 having recorded an approved plat with the Lee County Clerk as required herein. If such unlawful use 84 is made of a plat before it is properly approved and recorded, the owner or agent shall be guilty of a misdemeanor of the first degree, punishable as provided in Florida Statutes 665.083 or Florida 85 86 Statutes 775.082. Provided, however, that nothing herein shall affect the validity of transfers on sales of interests in property. 87 88 89 Section 10.1.4 Preliminary Subdivision Plan Approval. 90 91 A. Purpose and intent. The purpose of Preliminary Subdivision Plan approval is to help prevent
- 91 A. Purpose and intent. The purpose of Preliminary Subdivision Plan approval is to help prevent 92 unnecessary and costly revisions during the Subdivision Construction Plan and Plat preparation stage

93 of the subdivision development process. The Preliminary Subdivision Plan depicts the proposed 94 subdivision layout and preliminary design of the proposed improvements in sufficient detail in order 95 that it may be evaluated and granted preliminary approval pursuant to this Code.

- 97 B. Review Process.
- 98

96

- 99 1. Applications for a Preliminary Subdivision Plan approval are reviewed in the same manner as administrative approvals, as established in Article 3 of this Code. 100
- 101

104

102 103 2. All applications must be prepared by a Florida registered professional engineer and shall be submitted on forms provided by the Director.

- 105 C. Expiration. The PSP approval shall expire and be of no further force and effect if a completed 106 application for SCP approval is not filed within two years of PSP approval. After expiration of 107 two years, the applicant will be required to re-submit the PSP for review and approval as set forth in 108 this Article. Applicants may apply for an extension prior to the expiration date. The applicant shall 109 demonstrate good cause for the extension. The Community Development Director may extend the 110 approval period up to twelve (12) months if the applicant has progressed in good faith toward the 111 implementation of the subdivision. Subdivisions approved in conjunction with a PUD shall be governed by the Master Concept Plan (MCP)( and any, phasing, conditions, or requirements of the 112 PUD. 113
- 114
- 115 116

121

# Section 10.1.5 Subdivision Construction Plan Approval.

- 117 A. Application required. The applicant shall submit Subdivision Construction Plans for the required 118 subdivision improvements in compliance with the PSP approval or a PUD MCP. No construction shall 119 commence until the applicant has received requisite design approvals, permits, and complied with 120 applicable provisions of this article.
- 122 B. Timing. Applications for SCP approval must be submitted within two years of City approval of the PSP. 123 Applications for approval of subsequent phases, if any, shall occur within twelve (12) months of the issuance of a certification of completion of the previous phase. Failure to submit for SCP approval 124 125 within a specified amount of time shall require reapplication under the PSP requirements of this 126 Article. Applicants may not apply for SCP approval for any portion of the subdivision that is not to be 127 constructed within the following twelve (24) months. Failure to make application for SCP approval 128 within required time periods may result in revocation of a Preliminary Subdivision Plan, unless the 129 applicant has applied for an extension from the Community Development Director prior to the lapse. The request for the extension must be made prior to the expiration date. The applicant shall 130 131 demonstrate good cause for the extension. The Community Development Director may extend the 132 prescribed time period up to twelve (12) months if the applicant has progressed in good faith toward 133 the implementation of the PSP.
- 134
- C. Review Process. Application review and approval follows the administrative review procedure as 135 136 established in Sections 3.1.4 through 3.1.8 of Article 3. Specifically, SCP's are reviewed in accordance 137 with Section 3.3.7.
- 138

- D. Approval of the SCP. Upon approval of the SCP the developer may proceed with construction in
   accordance with Section 3.3.7. or the developer may complete the Plat review process for recording
   the Plat.
- 142

147

150

- E. When the developer elects to install the subdivision improvements prior to recording of the plat, a
  Certificate of Completion for the improvements must be obtained in accordance with Section 3.3.7.,
  prior recoding the plat. The final plat shall not be scheduled for City Council approval prior to receipt
  of the Certificate of Completion.
- F. When the developer intends to record the plat prior to installation of the required improvements thedeveloper shall provide assurance of completion of the improvements as approved in the SCP.
- Assurance of completion of improvements. Assurance of completion of the subdivision improvements as specified below will be required for all on and off-site improvements, required to support the subdivision. Assurance of completion of the improvements will be required prior to scheduling the plat for City Council approval. Those subdivision improvements that have been constructed, inspected, and approved by the Development Services Manger through the issuance of a Certificate of Completion may be excluded from the financial assurance provided.
- 157 2. Surety or cash performance bond. Security in the form of a surety or cash performance bond must 158 159 be posted with the Community Development Department and made payable to the City in an 160 amount equal to 110 percent of the full cost of installing the required improvements approved by 161 the City. If the proposed improvement will not be constructed within one year of issuance of the 162 subdivision infrastructure permit, the amount of the surety or cash performance bond must be 163 increased by ten percent compounded for each year of the life of the surety or bond. Alternatively, the surety or cash performance bond may be renewed annually at 110 percent of the cost of 164 completing the remaining required improvements if approved by the Director. Prior to 165 166 acceptance, bonds must be reviewed and approved by the City Attorney's Office. Surety 167 instruments will be reviewed and approved in accord with the provisions set forth in City of Cape 168 Coral Technical Requirements for Plat Approval.
- Other types of security. The Director may accept letters of credit or escrow account agreements or other forms of security provided that the reasons for not obtaining the bond are stated and the City Attorney approves the document. Review and approval of surety instruments will be in accord with the guidelines set forth in City of Cape Coral Technical Requirements for Plat Approval.
- 175
  176 G. Engineers Opinion of Probable Construction Costs. Cost opinions prepared to determine the amount 177 of the financial surety shall be prepared in accordance with Article 3 of this Code and shall also include 178 the cost of setting all permanent control points (PCPs) required by Section 10.1.7. of this Code.
- 179

- H. Phasing. The SCP may contain phases as provided on the PSP or MCP. Each phase of a subdivision
   shall install all required improvements to support that phase and provide continuation of
   improvements as may be required from previous phases and for future phases. No phase shall be
   approved if it is dependent on a future unconstructed phase of the subdivision.
- 184

- 185 I. Applicant's failure to complete required improvements.
- 187 1. Failure of applicant to complete required improvements. When a plat has been recorded and the applicant fails to complete the required improvements as required by this article, the City shall require the completion of the required improvements under the financial assurance provided by the Developer. In such case, the City shall call upon the financial surety to secure satisfactory completion of the required improvements. Legal notice of such action shall be deemed to have been duly served upon demand of the Director via certified mail return receipt requested.
- In cases where plat has not been recorded. Where an applicant has elected to install the required improvements prior to recording of the plat and fails to complete such improvements within the time limitations of this article, all approvals of the subdivision shall be null and void. No reference shall be made to the plat with respect to the sale of lots or issuance of building permits, unless and until the Developer submits a new application for SCP and Plat approval.

## 200 Section 10.1.6 Plat Approval.

- A. Plat approval procedures. Plats must be prepared in accordance with Chapter 177 Part 1 of the Florida
   Statutes, and the City of Cape Coral Technical Requirements for Plat Approval, which are hereby
   incorporated by reference. The preliminary plat must be submitted during the SCP review. SCP
   approval will not be granted prior to approval of the preliminary plat. The Final Plat shall incorporate
   all changes or modifications resulting from the review of the SCP and any remaining conditions or
   requirements of the PSP or MCP approval.
- B. Review Process. Application review and approval follows the administrative review procedure as
   established in Article 3 of this Code.

- 212 C. Supplemental information required for plat review.
- Operation and maintenance covenants. Where applicable, a copy of the covenants used for the maintenance and operation of the infrastructure improvements required by this Code including private streets and adjacent drainage, drainage and storm water management systems, utilities, public water and sewage systems, on-site bikeways, on-site pedestrian ways, open space, parks, recreation areas, and buffers. These documents must meet the criteria set forth in the City of Cape Coral Technical Requirements for Plat Approval.
- 220
- Articles of incorporation and bylaws or other legal documents for assignment of maintenance.
   The developer must submit a copy of the legal documents creating the legal mechanism to ensure
   that the drainage system, on-site bikeways, on-site pedestrian ways, roadways and rights-of-way
   are continuously maintained. These documents must meet the requirements set forth in the City
   of Cape Coral Technical Requirements for Plat Approval.
- 226
   227 D. After the final plat has been approved and certified by the Community Development Director, the City
   228 Surveyor, and the City Attorney that it complies with all applicable requirements of this Code, the
   229 Director shall schedule the Plat for acceptance by City Council. The plat will be scheduled as a consent
   230 agenda item on an upcoming City Council meeting. Upon City Council approval and acceptance of the

- plat, the Mayor and City Clerk shall indicate such approval on the final plat by signing the certificate
   of approval for recording. The Director will notify the developer when the approved Plat has been
   signed and ready for recording.
- E. Revisions after final plat approval by City Council and prior to recordation.
- Recording information for the property or home owner's association documents may be added to the plat at the time of recording of the documents.
- Any other changes, erasures, modifications, or revisions to an approved plat prior to recordation may only be made by the Community Development Director to correct scrivener's errors. No such request shall be considered unless made by the preparer of the plat.
  - 3. No other changes, erasures, modifications, or revisions may be made to an approved final plat prior to recordation unless a new application and fee are submitted for review and approval.
- F. Approval of the Plat by the City shall not constitute acceptance by the City of the dedication of any public street, other public way, easement, or improvement or the responsibility to construct or maintain any improvements unless so indicated in the dedication on the plat.
- G. Recording. The approved plat shall be recorded with Lee County Clerk of Circuit Court within twenty
   (20) days of receiving the approved plat from the City. After recordation of the plat, the
   developer shall provide to the Community Development Director a full size certified copy of the
   recorded plat.
- H. Building permits. No building permits for residential or residential accessory structures shall be issued
   until the final plat has been recorded and all subdivision improvements have either been completed or
   sufficient assurance of completion has been reviewed and approved by the City Attorney.
- 260 Phasing. The applicant may construct the proposed development and record plats for any phase ١. approved on the PSP or MCP. The phases shall have been specified on the approved Preliminary 261 262 Subdivision Plan and shall be of such a size and design that all phases completed at any time can exist 263 independently as a subdivision in complete conformity with the requirements of this article. Any 264 change in the sequence of phases must receive prior approval by the Development Services Manager. 265 If PSP or MCP is phased, the applicant shall have the option of platting one or more of the 266 development phases in a single plat in conformity with all the procedures and requirements of this 267 article.

- A. Monumentation. Monuments must be installed in accordance with F.S. Ch. 177.091(9).
- Permanent reference monuments. Permanent reference monuments (PRMs) must be placed on
   the boundary of all subdivisions as required by F.S. Ch. 177, as amended, and approved by a
   licensed, registered state professional surveyor and mapper.
- 276

- 2. Monuments must be set in the ground so that the top is flush or no more than one-half foot
  below the existing ground. Subsurface PRMs must be exposed for inspection when a plat is
  submitted for review. If development of the subdivision occurs after a plat is reviewed, the PRMs
  must be raised or lowered to be flush or no more than one-half foot below the finished ground.
  Subsurface PRMs must be exposed for inspection at the time of final inspection of the
  development.
- B. Permanent control points. Permanent control points (PCPs) must be installed in accordance with F.S.
   Ch. 177. When a plat is recorded prior to construction of the subdivision improvements, the PCPs
   must be set following completion of construction. The surveyor must certify that the PCPs have been
   set and must record the certification in the official record books of the County.

- 1. The widths and locations of all public or private streets in a proposed subdivision shall Conform to the City of Cape Coral Engineering Design Standards.
- 294 2. Street extensions.
  - a. The street layout of the proposed subdivision shall provide for the continuation or projection of streets already existing in areas adjacent to the area being subdivided unless such continuation or extension is for specific reasons of topography or design.
- b. Where it is necessary for public safety to provide street access to adjoining properties, proposed streets shall be extended by dedication to the boundaries of such properties.
   Where it is determined necessary for public safety, dead-end streets shall be provided with a temporary turnaround having a radius as specified in the City of Cape Coral Engineering Design Standards.
  - c. The street system for the proposed subdivision shall provide for extending existing streets at the same or greater width, but in no case, shall a street extension be of less width than the minimum width required by the City of Cape Coral Engineering Design Standards for a street in its category.
  - 3. Dedication of right-of-way for new streets.
    - a. The dedication of rights-of-way for new streets, measured from lot line to lot line, shall meet the standards specified in the City of Cape Coral Engineering Design Standards.
    - b. Dedication of one-half of the rights-of-way for proposed streets along the boundaries of land proposed for subdivision shall be prohibited.
- 319 4. Dedication of right-of-way for existing streets.

321 a. Subdivisions platted along existing streets shall dedicate additional rights-of-way if 322 necessary to meet the minimum street width requirements for new streets set forth in the City of Cape Coral Engineering Design Standards. 323 324 325 b. The entire minimum right-of-way width shall be dedicated where the subdivision is on 326 both sides of an existing street. When the subdivision is located on only one side of an 327 existing street, one-half of the required right-of-way width, measured from the center line of the existing right-of-way or street, as appropriate, shall be dedicated. 328 329 330 5. Intersections. Intersections shall be designed and spaced as set forth in the City of Cape Coral 331 Engineering Design Standards. 332 333 6. Curves in streets; horizontal and vertical. All curves in streets shall be designed and 334 constructed as set forth in the City of Cape Coral Engineering Design Standards. 335 336 7. Street grades and elevations. Street grades and elevations shall conform to the City of Cape 337 Coral Engineering Design Standards. 338 339 8. Frontage access streets. Where the proposed subdivision abuts upon or contains an existing 340 or proposed arterial street or highway on which traffic volumes and vehicular speeds warrant 341 special safety considerations, the City shall require that frontage access streets be provided in 342 order that no lots will front on such existing or proposed arterial street or highway. 343 344 9. Street jogs. Street jogs must be as set forth in the City of Cape Coral Engineering Design 345 Standards. 346 347 10. Dead-end streets (cul-de-sacs). Cul-de-sacs or dead-end streets must be designed to conform 348 to the City of Cape Coral Engineering Design Standards. 349 350 11. Street names. Proposed streets which are in alignment with other already existing and named 351 streets shall bear the names of such existing streets. The name of a proposed street which is 352 not in alignment with an existing street shall not duplicate the name of any existing street. 353 354 12. Alleys. Alleys may be provided to give access to the rear of all lots used for commercial and 355 industrial purposes. Alleys shall not be provided in residential blocks except in the SC district 356 or in cases where the developer produces evidence of the need for alleys which is satisfactory 357 to the City. 358 359 D. Blocks. Block lengths shall not exceed 1,200 feet or be less than 400 feet, except as approved by 360 the Director. 361 362 E. Lots. 363 364 1. Arrangement. Each lot in a subdivision shall be at right angles to straight street lines and radial 365 to curved street lines. 366

- Dimension and area regulations. Dimension and area regulations for all lots proposed within the subdivision, including the size, shape, width, depth, area, building setback lines, corner lot regulations, yard requirements, off-street parking areas, and minimum lot frontage on public streets shall comply with the zoning district requirements in which the proposed subdivision is located.

 Utility planning and coordination. To ensure that adequate and properly designed utility
 easements are provided, developers shall consult with City staff and other appropriate
 personnel of public utility authorities providing gas, electricity, telephone, water, sewer, or
 other services of a similar nature before and during the planning and preparation of a
 Preliminary Subdivision Plan.

- Width and location. A 10' public utility easement shall be provided across the front of all lots or parcels and shall be provided along each side of any street right of way or access easement.
  Where necessary or advisable in the opinion of the City, similar easements shall be provided alongside lot lines or across lots. Easement design should provide clear and orderly alignments from one block to the next and from one development to the next. The easement system should be continuous and well aligned to permit the efficient installation of utility service lines.
- 388 3. Underground wiring and installation. Developers shall contact overhead public utility
   authorities in the early stages of subdivision planning to determine the procedures for
   negotiating contracts for all underground utility service.
- 392 4. Storm drainage. Drainage easements shall be sized appropriately for the installation and

**Building Frontage,** is the dimension (measured in linear feet) of the overall width of the primary side of a building containing one or more business establishments or other entities. For purposes of this article, the primary side of a building shall be the side of the building that includes the primary entrance or the side of the building that faces the front lot line, at the option of the property owner. If the primary entrance is at an angle, the property owner may choose the building frontage. On a site with multiple buildings, if a building does not directly face a street, the building frontage will be considered the street that other adjacent or contiguous buildings face.

36 37	Building Sign, Is any sign attached to any part of a building, as contrasted to a freestanding sign.
38 39 90	<b>Changeable Copy Sign (Manual),</b> is a sign or portions thereof with characters, letters, or illustrations that can be changed or rearranged manually, on the sign itself, without altering the face or the surface of the sign.
91 92 93 94 95 96 97 98 99	<b>Commercial Sign,</b> is a sign that, directly or indirectly, names or calls attention to a business, product, service, or other commercial activity. For purposes of this article, all signs on non-residential property shall be presumed commercial; however, the presumption shall be considered rebuttable and may be overcome if a reasonable person could logically conclude that the presumption is invalid. For purposes of this article, terms such as sale, special, clearance, or other words which relate to commercial activity shall be deemed to be commercial messages. The identification by name of an apartment or condominium development on a residential sign at the apartment or condominium development site shall not be considered a commercial message.
)0 )1 )2 )3	<b>Development Identification Sign,</b> is a permanent sign, either ground sign or located on a subdivision entry feature or perimeter wall, at a main entrance to a subdivision or residential development identifying the name of the development or subdivision.
)4 )5 )6 )7 )8 )9	<b>Directional Sign,</b> is a sign denoting the business names, location, addresses (real or virtual), and/or occupations of those tenants located upon a subject site or which provides information as to the location of a parking lot, building entrance, or other destination, activity, or facility and contains no commercial message.

2786	Vehicle Sign, is any sign that is attached to or painted on a vehicle or trailer, parked to be visible from and
2787	to clearly provide advertising visible from the public right-of-way or parked on public property to clearly
2788	provide a commercial message close to the public right-of-way, unless the vehicle is used by a proprietor
2789	or employee of the business for commuting between the business location and home or is used in the
2790	usual course or operation of a business. Factors to be considered in determining whether a vehicle is used
2791	in the usual course or operation of a business shall include whether the vehicle is operable, whether the
2792	vehicle has a current registration in the State of Florida, the role the vehicle plays in the business, and the
2793	frequency with which the vehicle is used in the course or the operation of the business. In addition, any
2794	sign that is composed of fabric, paper, or other lightweight material, or wood (unless the wood is an
2795	integral part of the vehicle itself), or that is physically supported by a motor vehicle, but not applied
2796	directly to the surface of the motor vehicle, or that is attached to the vehicle in such a manner as to
2797	constitute a safety hazard if the vehicle were to be driven with the sign in place, such as signs located so
2798	as to impair the vision of the driver of the vehicle or insecurely mounted so as to present a danger of
2799	falling off the vehicles while it is being driven, shall be presumed to be a vehicle sign. Further, any sign
2800	bearing a commercial message that is attached to or painted on a vehicle or trailer which is routinely
2801	parked or otherwise located on a site or sites other than that at which the firm, product, or services
2802	advertised on such sign is offered shall be presumed to be a vehicle sign.
2803

Any person who is disabled (or qualifying entities) may request reasonable accommodation with respect to the City 's zoning and land use regulations, rules, ordinances, policies, and procedures as provided by the FHA and the ADA pursuant to the procedures set out in this Section. For purposes of this Section, a "qualifying entity" shall mean, a licensed service provider of the state of Florida as defined by Section 397.311, Florida Statutes. All qualifying entities shall submit as part of an application for a reasonable accommodation proof of the licensable service component the qualifying entity holds pursuant to Chapter 397, Florida Statutes.

- 21 B. Application Procedures. The following general provisions shall be applicable:
  - The City shall display a notice on the City's webpage (and shall maintain copies available for review in the City Clerk's Office) advising the public that disabled individuals (and qualifying entities) may request reasonable accommodation as provided herein.
    - 2. A disabled person may apply for a reasonable accommodation on his or her own behalf or may be represented at all stages of the reasonable accommodation process by a person designated, in writing, by the disabled person.
    - 3. The City shall provide assistance and accommodation as is required pursuant to the FHA and ADA in connection with a disabled person's request for reasonable accommodation, including without limitation, assistance with reading application questions, responding to questions, completing the necessary forms, filing an appeal, and appearing at a hearing to ensure the process is accessible.
- Reasonable accommodation request form. A request by an applicant for a reasonable accommodation under this Section shall be made in writing by completion of a reasonable accommodation request form and submitted to the Department of Community Development. The reasonable accommodation request form is maintained by the Department of Community Development and shall contain such questions and requests for information as are necessary for processing the reasonable accommodation request. The reasonable accommodation request form shall, at a minimum. require the following information:
  - a. Name and contact information for applicant;
- 46 b. Address of housing or other location at which accommodation is requested;

47			
48		с	. Name and mailing address of subject property owner;
49

96 3. If reasonably necessary to reach a determination on the request for reasonable accommodation, 97 the City Manager, may, prior to the end of said 45-day period, request additional information 98 from the requesting party, specifying in detail what information is required. Such additional information may include, additional medical information from the requesting party. The 99 requesting party shall have 15 days after the date of the request for additional information to 100 provide the requested information. In the event a request for additional information is made, the 101 102 45-day period to issue a written determination shall no longer be applicable, and the City 103 Manager, shall issue a written determination within 30 days after receipt of the additional 104 information. If the requesting party fails to provide the requested additional information within 105 said 15-day period, the City Manager shall issue a written notice advising that the requesting party 106 had failed to timely submit the additional information and therefore the request for reasonable 107 accommodation shall be deemed abandoned or withdrawn and no further action by the City with 108 regard to said reasonable accommodation request shall be required.

- E. Criteria for determination. In determining whether the reasonable accommodation request shall be granted or denied, the requesting party shall be required to establish that they are protected under the FHA or ADA by demonstrating that they are handicapped or disabled, as defined in the FHA or ADA. For purposes of this Section, the disabled individual must demonstrate to the City:
- 115 1. (i) A physical or mental impairment which substantially limits one or more major life activities; (ii) 116 a record of having such impairment; or (iii) that they are regarded as having such impairment; and
  - 2. That the proposed accommodation being sought is reasonable and necessary to afford handicapped or disabled persons equal opportunity to use and enjoy housing.
- F. Required findings. A request for reasonable accommodation pursuant to this Section shall be
   approved, with or without conditions, if the City Manager finds based upon all of the evidence
   presented, that all of the following findings are made:
- 125 1. The property or dwelling that is the subject of the request for reasonable accommodation will be 126 occupied by a disabled person;
- The requested accommodation is necessary to provide a disabled person with an equal opportunity to use and enjoy a dwelling;
- The requested accommodation will not impose an undue financial or administrative burden on the City; and
  - 4. The requested modification will not require a fundamental alteration in the nature of a City program or law.
- G. Conditions of approval. In granting a request for reasonable accommodation. the City Manager may
   impose conditions of approval deemed reasonable and necessary to ensure that the reasonable

- 139 accommodation would comply with the findings of this Section including, but not limited to the 140 following: 141 1. Inspection of the property periodically as specified, to verify compliance with this Section and any 142 143 conditions of approval. 144 145 2. Recordation of a deed restriction requiring removal of the improvements when the need for 146 which the accommodation was granted no longer exists, except where the City Manager finds 147 that removal would constitute an unreasonable financial burden or is physically integrated with 148 the structure and cannot feasibly be removed. If applicable, the restrictive covenant shall provide 149 that the reasonable accommodation does not run with the land and shall terminate upon any sale 150 transfer, lease, or other conveyance of the property. 151 152 3. Time limits or expiration of the approval, if the need for which the accommodation was granted 153 no longer exists. 154 155 4. Measures to reduce the impact on surrounding uses. 156 157 Measures in consideration of the physical attributes of the property and structures. 158 159 6. Other conditions necessary to protect the public health, safety, and welfare. 160 161 H. Appeal of determination. Within 30 days from the date of the City determination on a reasonable 162 accommodation request, or revocation, or modification of a reasonable accommodation, the 163 applicant may appeal the decision. All appeals shall contain a written statement containing sufficient detail of the grounds for the appeal. Appeals pursuant to this Section shall be to the City Council who 164 165 shall, after public notice and a public hearing, render a written determination as soon as reasonably 166 practicable, but in no event later than 60 days after an appeal has been filed. Notice of any public 167 hearing hereunder shall be provided to the applicant at least 10 days in advance of the public hearing. 168 169 Stay of enforcement. While an application for reasonable accommodation, or appeal or a Ι. determination of same, is pending before the City, the City will not enforce the subject zoning 170 171 ordinance, rules, policies, or procedures against the applicant. However, should the applicant 172 proceed with any property purchase, building, construction, or other work associated with 173 establishing a project or residence housing individuals covered by the FHA or the ADA while an 174 application or appeal for reasonable accommodation is pending, the applicant understands that any 175 of these actions are done at the applicant's own risk because the application or appeal may be denied. 176 Revocation of reasonable accommodation. Any reasonable accommodation received shall be subject 177 J. 178 to revocation or modification if the holder of the reasonable accommodation or the property upon 179 which the accommodation is granted is found in violation of any provision of the written 180 determination granting the reasonable accommodation by a court of law or by the special magistrate 181 hearing code enforcement cases, and the holder of the reasonable accommodation has failed to 182 correct such violation. The City shall send a notice of hearing on a proposed revocation or modification 183 of a reasonable accommodation by certified mail, return receipt requested, to the holder of the
- reasonable accommodation at least 30 days prior to the date of the hearing. The City Manager shall

have the authority to consider and act on a revocation or modification of a reasonable
accommodation, after notice and hearing during which the reasonable accommodation holder shall
have the opportunity to present evidence and be heard.

191 A. Purpose and intent. The purpose of this ordinance is to establish procedures for the initiation, 192 conduct, and conclusion of a Special Magistrate proceeding under the Florida Land Use and 193 Environmental Dispute Resolution Act (the "Act) involving a development approval (order) or 194 enforcement action by the City of Cape Coral. It is the intent of the City of Cape Coral that the 195 Special Magistrate process be a speedy, inexpensive, and simple method for owners and regulators 196 to settle land use and environmental permitting and enforcement disputes. To that end, owners and 197 regulators should meet face-to-face, in a non-adversarial atmosphere, to resolve disputes without the need for formal representation. Negotiations assisted by a Special Magistrate will enable an 198 199 owner and regulators to exert more control over their dispute, allowing the parties to shape a 200 resolution rather than having one imposed on them. The Special Magistrate and the parties should 201 exercise maximum flexibility to adapt these procedures to the exigencies of each particular case, 202 consistent with the requirements of state law and due process.

- B. Definitions. For the purpose of this ordinance, the following definitions shall apply; words used in the singular shall include the plural, and the plural, the singular; words used in the present tense
  shall include the future tense. The word "shall" is mandatory and not discretionary. The word "may" is permissive. Words not defined herein shall be construed to have the meaning given by common and ordinary use as defined in the latest editions of Webster's Dictionary.

A settlement agreement or other agreement as to the permissible use of the owner's land may 720 be executed subject to approval by the City Council. Any such agreement will not bind any party 721 until duly approved and executed by all parties to the agreement. 722 723 S. Post-hearing procedures. 724 1. Special Magistrate's recommendation. 725 726 727 a. The Special Magistrate shall file a recommendation with the Mayor within 14 days after the 728 conclusion of the hearing. The Special Magistrate shall also furnish a copy of the 729 recommendation to all parties and participants. 730

731 b. If a settlement agreement or other agreement as to the permissible use of the owner's land 732 is executed prior to the Special Magistrate's recommendation, the recommendation shall 733 only: 734 735 i. Set forth the date and location of the hearing; 736 ii. Identify the parties and other participants in attendance at the hearing; 737 iii. Record, without comment, the fact that a settlement agreement or other agreement as 738 to the permissible use of the owner's land has been executed; and 739 iv. Include as an attachment an executed copy of the settlement agreement or other agreement as to the permissible use of the owner's property. 740 741 742 c. If a settlement agreement or other agreement as to the permissible use of the owner's land 743 is not executed prior to the filing of the Special Magistrate's recommendation, the Special 744 Magistrate will consider the facts and circumstances set forth in the request for relief, any 745 responses, and any other information produced at the hearing to determine whether the 746 development order or enforcement action, by itself or in conjunction with an action of the 747 city or another governmental entity, is unreasonable or unfairly burdens the owner's land. 748 749 d. In making a determination, factors the Special Magistrate may consider include the 750 following: 751 752 i. The history of the land, including when it was purchased, how much was purchased, 753 where it is located, the nature of the title, the composition of the property, and how it 754 was previously used; 755 ii. The history of development and use of the land, including what was developed and by 756 whom, if it was subdivided and how and to whom it was sold, whether plats were filed 757 or recorded, and whether infrastructure and other public services or improvements may 758 have been dedicated to the public; 759 iii. The history of relevant environmental protection and land use controls and other 760 regulations, including how and whether the land was classified, any uses that may have 761 been proscribed, and what changes in classifications have occurred; 762 iv. The present nature and extent of the land, including natural and altered characteristics; 763 v. The reasonable expectations of the owner at the time of acquisition or immediately 764 prior to the implementation of the regulation at issue, whichever is later, under the 765 regulations then in effect and under common law; 766 vi. The public purpose sought to be achieved by the development order or enforcement 767 action, including the nature and magnitude of the problem addressed by the underlying regulations on which the development order or enforcement action is based; whether 768 the development order or enforcement action is necessary to the achievement of the 769 770 public purpose; and whether alternative development order or enforcement action 771 conditions would achieve the public purpose and allow for reduced restrictions on the 772 use of the owner's land; 773 vii. Uses authorized for and restrictions placed on similar property, including adjacent lands; 774 and 775

776 777 778			viii. Any other information determined to be relevant by the Special Magistrate or agreed by the parties to be addressed by the Special Magistrate.

816 817 818		i.	The Special Magistrate's recommendation is a public record. A copy shall be available for public inspection and copying at the City Clerk's office.
819 820	Т.	Effect	of Special Magistrate's recommendation.

821 1. The Special Magistrate's recommendation is advisory and not binding on the owner or the City 822 Council. 823 2. A Special Magistrate's recommendation constitutes data which shall be considered with respect 824 825 to any pertinent amendment to the Comprehensive Plan. 826 827 3. A Special Magistrate's determination that the development order or enforcement action, by 828 itself or in conjunction with actions of the city or another governmental entity, is unreasonable 829 or unfairly burdens the owner's land may serve as an indication of sufficient hardship to support modifications, variances, or special exception to the application of statutes, rules, regulations, or 830 831 ordinances to the subject property as otherwise authorized by applicable rules and regulations. 832 833 U. Disposition of Special Magistrate's recommendation. 834 835 1. Within 45 days of receipt of the Special Magistrate's recommendation, the City Council shall: 836 a. Accept the recommendation as submitted and implement it in the ordinary course and 837 838 consistent with all other rules and regulations; 839 b. Modify the recommendation as submitted and implement it in the ordinary course and 840 841 consistent with all other rules and regulations; and 842 843 c. Reject the recommendation as submitted. Failure to act within 45 days of receipt of the 844 recommendation shall be deemed a rejection, unless the owner and the city agree to an 845 extension of time. 846 847 2. If the City Council adopts a recommendation to grant a modification, variance, or special 848 exception to the application of ordinances or regulations as they otherwise would apply to the 849 land, the owner shall not be required to duplicate processes in which the owner previously has 850 participated in order to effectuate the modification, variance, or special exception. 851 852 If the Special Magistrate recommends relief or other action in conjunction with another 853 governmental entity, the City Manager and/or his or her designee shall confer with appropriate 854 staff from the other entities to review the recommendation and determine whether a joint staff 855 recommendation can be made to the heads of the respective governmental entities. 856 857 4. Within 15 days after final action on the Special Magistrate's recommendation by the City 858 Council, the City Clerk shall send a copy of the order or other document memorializing final 859 action to the Florida Department of Legal Affairs. 860 5. Within ten days of final action on the recommendation, the owner shall notify the City Manager 861 862 in writing whether the owner accepts the decision on the recommendation. 863 864 6. If the City Council accepts the recommendation or modifies it and the owner rejects the acceptance or modification, or if the City Council rejects the recommendation, the City Council 865 shall issue a written decision that describes as specifically as possible the use or uses available 866

- 867 on the owner's land. The decision shall be issued within 30 days of final action on the 868 recommendation.
- 869
- 870 7. After the City Council has acted on the Special Magistrate's recommendation and a written
- 871 decision has been issued describing the use or uses available on the owner's land, or if the City
- 872 Council has not acted within 45 days, the owner may seek a formal adjudication on the
- 873 development order or enforcement action as otherwise authorized by law.
