- (1) NONE

F. APPOINTMENTS TO BOARDS / COMMITTEES / COMMISSIONS

- (1) Budget Review Committee - 1 Vacancy

9. ORDINANCES/RESOLUTIONS

A. Public Hearings

- (1) Resolution 114-19 Public Input Initial Assessment Resolution for Lot Mowing Services

WHAT THE RESOLUTION ACCOMPLISHES:

The resolution relates to the funding of lot mowing services within Lot Mowing Assessment Areas (Districts 1, 2, 3, & 4), determines that certain real property will be specially benefited by the lot mowing services, establishes the terms and conditions of proposed special assessments to fund the lot mowing services, establishes a public hearing to consider imposition of the proposed special assessments and the method of their collection, and directs the provision of notice in connection therewith. (Applicant: Brought forward by City Management.)

- (2) Resolution 115-19 Public Input Solid Waste Preliminary Assessment Resolution

WHAT THE RESOLUTION ACCOMPLISHES:

The resolution relates to the collection and disposal of solid waste in the city and establishes the estimated assessment rate for solid waste service assessments against assessed property located within the city for the fiscal year beginning October 1, 2019, directs the preparation of an assessment roll, authorizes a public hearing, and directs the provision of notice thereof. (Applicant: Brought forward by City Management.)

- (3) Resolution 116-19 Public Input Fire Protection Assessment Preliminary Resolution

WHAT THE RESOLUTION ACCOMPLISHES:

The resolution relates to the provision of fire protection services, facilities, and programs in the City of Cape Coral; establishes the estimated fire protection assessed cost and assessment rates for the Fiscal Year beginning October 1, 2019; directs the preparation of an assessment roll; and authorizes a public hearing to consider the adoption of the annual assessment resolution. (Applicant:

Brought forward by City Management.)

- (4) Resolution 117-19 Public Input Stormwater Fee for FY 2019-2020

WHAT THE RESOLUTION ACCOMPLISHES:

The resolution approves a stormwater fee for FY 2019-2020 that exceeds the maximum amount established for FY 2018-2019, authorizes a public hearing, and directs the provision of notice thereof. (Applicant: Brought forward by City Management.)

- (5) Ordinance 17-19 First Public Hearing (After 5:00 p.m.) Set Second and Final Public Hearing Date for August 5, 2019

WHAT THE ORDINANCE ACCOMPLISHES:

An ordinance repealing Articles I - X and XII and amending Article XI of the City of Cape Coral Land Use and Development Regulations; establishing Article 1, General Provisions; Article 2, Decision Making and Administrative Bodies; Article 3, Development Review; Article 4, Zoning Districts; Article 5, Development Standards; Article 6, Parking; Article 7, Sign Regulations; Article 8, Nonconformities and Lawfully Existing Uses; Article 9, Floodplain Management; Article 10, Subdivisions; Article 12, Building Code and Engineering Design Standards; and Article 13, Reasonable Accommodation & Dispute Resolution, of the new City of Cape Coral Land Development Code; incorporating Article XI, as amended, into the new City of Cape Coral Land Development Code as Article 11, Definitions. (Applicant: Brought forward by City Management)

Planning & Zoning Recommendation: At their June 5, 2019 Regular Meeting, the Planning & Zoning Commission voted 7-0 to recommend approval of Ordinance 17-19.

City Management Recommendation: City Management recommends approval.

- (6) Ordinance 4-19 (ZA 18-0013) First Public Hearing Set Second and Final Public Hearing Date for August 5, 2019

WHAT THE ORDINANCE ACCOMPLISHES:

An ordinance amending the City of Cape Coral Official Zoning District Map by rezoning approximately 9,786 acres to be consistent with the changes to the Future Land Use Map, the Comprehensive Plan, and the new Land Development Code. (Applicant: City of Cape Coral) (9,786 acres)

Hearing Examiner Recommendation: To be added after the Recommendation is issued as a result of the Hearing on June 18, 2019.

City Management Recommendation: City Management recommends approval.

- (7) Ordinance 23-19 Final Public Hearing

WHAT THE ORDINANCE ACCOMPLISHES:

An ordinance amending the City of Cape Coral Comprehensive Plan by amending Policy 1.15 of the Future Land Use Element.

NOTE: Ordinance 23-19 changes Policy 1.15 of the Future Land Use (Comprehensive Plan) by removing affordable housing density doubling language and reducing Commercial Activity Center residential densities from 25 to 16 units/acre per direction received in the February Council public hearings. In addition, Downtown Mixed residential densities are proposed to be increased from 75 to 125 units/acre per City Manager direction (Applicant: Brought forward by City Management.) P&Z Recommendation: At their May 1, 2019 Regular Meeting, the Planning and Zoning Commission/Local Planning Agency voted unanimously to recommend approval of Ordinance 23-19.

City Management Recommendation: City Management recommends approval.

(8) Ordinance 29-19 Public Hearing

WHAT THE ORDINANCE ACCOMPLISHES:

An ordinance amending the City of Cape Coral Code of Ordinances, Chapter 12, "Offenses and Miscellaneous Provisions," Article II, "Offenses Creating Nuisances," by repealing and replacing Section 12-22, "Noise Control," providing for short title, providing for findings and purpose, providing for definitions, providing for prohibitions of unreasonably excessive noise, providing for exemptions, providing for enforcement and penalties. (Applicant: Brought forward by City Management.)

(9) Ordinance 33-19 (PDP 19-0001*) Public Hearing

*Quasi-Judicial, All Persons Testifying Must be Sworn In

WHAT THE ORDINANCE ACCOMPLISHES:

An ordinance amending Ordinance 42-10, which approved a Planned Development Project entitled "Downtown Village Square" for certain property described as Block 62A, Unit 6, Part 1, and Block 62A, Unit 8, Cape Coral Subdivision, extending the project buildout date, amending the phasing schedule and conditions of approval; property is located between SE 47th Terrace to the north, SE 9th Place to the east, Cape Coral Parkway to the south, and SE 8th Court to the west. (Applicants: Red Rock Land Corporation, Downtown Village Square, LLC, and Downtown Village Square II, LLC) Hearing Examiner Recommendation: The Hearing Examiner recommends approval with staff conditions.

City Management Recommendation: City Management recommends approval with no modifications to the existing term sheet.

(10) Ordinance 35-19 Public Hearing

WHAT THE ORDINANCE ACCOMPLISHES:

An ordinance authorizing the City Manager to sell municipal surplus real property described as Lots 53-54, Block 5195, Unit 83 Cape Coral Subdivision, pursuant to Section 2-155 of the Code of Ordinances; authorizing and directing the Mayor and Clerk to execute a deed conveying the surplus real property to Daniel Lynn Nuckolls and Sandra Kay Nuckolls. (Applicant: Daniel Lynn Nuckolls and Sandra Kay Nuckolls)

B. Introductions

- (1) Resolution 142-19 (VP 19-0006*) Set Public Hearing Date for July 29, 2019

Quasi-Judicial, All Persons Testifying Must Be Sworn In

WHAT THE RESOLUTION ACCOMPLISHES:

A resolution providing for the vacation of plat for the 7.5-foot wide platted public utility and drainage easement located along the south property line of Lot 5 and the 7.5-foot wide platted public utility and drainage easement located along the north property line of Lot 4, both in Block 6400, Cape Coral, Unit 76, The Islands; property located at 218 Old Burnt Store Road South. (Applicant: Marion Mochrie, Trustee)

Hearing Examiner Recommendation: The Hearing Examiner recommends that City Council approve the application for the requested vacations, subject to the conditions set forth in VP HEX Recommendation 7-2019.

City Management Recommendation: City Management recommends approval.

- (2) Resolution 143-19 (VP 18-0008*) Set Public Hearing Date for July 29, 2019

Quasi-Judicial, All Persons Testifying Must Be Sworn In

WHAT THE RESOLUTION ACCOMPLISHES:

A resolution providing for the vacation of plat for a street right-of-way and the underlying public utility and drainage easement being a part of Sorrento Court, located between Lots 37 and 39, Block 101, Cape Coral Unit 2, Part 2; providing for the vacation of plat for a portion of the public utility and drainage easement associated with Lot 37, Block 101, Cape Coral Unit 2, Part 2; providing for the vacation of plat for a street right-of-way being a part of Sorrento Court, located along lots 36 and 37, Block 101, Cape Coral Unit 2, Part 2; property located at 5088 and 5095 Sorrento Court. (Applicants: Wilhelm Vullriede and Jerome and Catherine Lievre)

Hearing Examiner Recommendation: The Hearing Examiner recommends that City Council approve the application for the requested vacations, subject to the conditions set forth in VP HEX recommendation 8-2019.

City Management Recommendation: City Management recommends approval.

- (3) Resolution 244-19 Set First Public Hearing Date for July 29, 2019

WHAT THE RESOLUTION ACCOMPLISHES:

A resolution adopting the 2019-2020 One Year Action Plan for the Community Development Block Grant Entitlement Program including the Regional Analysis of Impediments to Fair Housing Choice 2019-2023; authorizing and directing the City Manager to prepare and submit the One Year Action Plan for the 2019-2020 fiscal year including the Regional Analysis of Impediments to Fair Housing Choice 2019-2023 to the United States Department of Housing and Urban Development (HUD); authorizing the City Manager or his designee to accept and execute the grant agreement for the 2019-2020 CDBG program when received from HUD; authorizing the City Manager or his designee to accept and execute grant agreements with subrecipients. (Applicant: Brought forward by City Management.)

- (4) Resolution 251-19 (VP 19-0009*) Set Public Hearing Date for July 29, 2019

*Quasi-Judicial, All Persons Testifying Must be Sworn In

WHAT THE RESOLUTION ACCOMPLISHES:

A resolution providing for the vacation of plat for the platted interior lot line and public utility and drainage easements located between Lots 73 and 74, Block 5483, Cape Coral Unit 90; property is located at 4740 NW 36th Street. (Applicant: Joseph and Amy Walden)

Hearing Examiner Recommendation: The Hearing Examiner recommends that City Council approve the applications for the requested vacations, subject to the conditions set forth in Hearing Recommendation Order 10-2019.

City Management Recommendation: City Management recommends approval with conditions.

- (5) Ordinance 55-18 Set Public Hearing Date for July 29, 2019

WHAT THE ORDINANCE ACCOMPLISHES:

An ordinance amending the City of Cape Coral Code of Ordinances, Chapter 2, Administration, Article III, Personnel Rules and Regulations, to allow exempt employees to earn additional pay during a declared emergency subject to terms and conditions. (Applicant: Brought forward by City Management.)

12. REPORTS OF THE MAYOR AND COUNCIL MEMBERS

13. REPORTS OF THE CITY ATTORNEY AND CITY MANAGER

14. TIME AND PLACE OF FUTURE MEETINGS

- A. A Regular Meeting of the Cape Coral City Council is Scheduled for Monday, July 29, 2019 at 4:30 p.m. in Council Chambers

15. MOTION TO ADJOURN

GENERAL RULES AND PROCEDURES REGARDING THE CAPE CORAL CITY COUNCIL AGENDA

In accordance with the Americans with Disabilities Act and Section of 286.26, Florida Statutes, persons with disabilities needing special accommodation to participate in this meeting should contact the Office of the City Clerk at least forty-eight (48) hours prior to the meeting. If hearing impaired, telephone the Florida Relay Service Numbers, 1-800-955-8771 (TDD) or 1-800-955-8770 (v) for assistance.

Persons wishing to address Council under Citizens Input or the Consent Agenda may do so during the designated times at each meeting. No prior scheduling is necessary. All speakers must have their presentations approved by the City Clerk's office no later than 3:00 PM the day of the meeting.

Any citizen may appear before the City Council at the scheduled PUBLIC HEARING/INPUT to comment on the specific agenda item being considered. No prior scheduling is necessary.

When recognized by the presiding officer, a speaker shall address the City Council from the designated speaker's lectern, and shall state his or her name and whom, if anyone, he or she represents. An address shall only be required if necessary to comply with a federal, state or local law.

Copies of the agenda are available in the main lobby of Cape Coral City Hall and in the City Council Office, 1015 Cultural Park Boulevard. Copies of all back-up documentation are also available for review in the lobby of Council Chambers. You are asked to refrain from removing any documentation. If you desire copies, please request they be made for you. Copies are 15 cents per page. Agendas and back-up documentation are also available on-line on the City website (capecoral.net) after 4:00 PM on the Thursday prior to the Council Meeting.

***PUBLIC HEARINGS DEPARTMENT OF COMMUNITY DEVELOPMENT CASES**

In all public hearings for which an applicant or applicants exist and which would affect a relatively limited land area, including but not limited to PDPs, appeals concerning variances or special exceptions, and small-scale rezonings, the following procedures shall be utilized in order to afford all parties or their representatives a full opportunity to be heard on matters relevant to the application:

1. The applicant, as well as witnesses offering testimony or presenting evidence, will be required to swear or affirm that the testimony they provide is the truth.
2. The order of presentation will begin with the City staff report, the

presentation by the applicant and/or the applicant's representative; witnesses called by the applicant, and then members of the public.

3. Members of the City Council may question any witness on relevant issues, by the applicant and/or the applicant's representative, City staff, or by any member of the public.
4. The Mayor may impose reasonable limitations on the offer of testimony or evidence and refuse to hear testimony or evidence that is not relevant to the issue being heard. The Mayor may also impose reasonable limitations on the number of witnesses heard when such witnesses become repetitive or are introducing duplicate testimony or evidence. The Mayor may also call witnesses and introduce evidence on behalf of the City Council if it is felt that such witnesses and/or evidence are necessary for a thorough consideration of the subject.
5. After the introduction of all-relevant testimony and evidence, the applicant shall have the opportunity to present a closing statement.
6. If a person decides to appeal any decision made by the City Council with respect to any matter considered at such meeting or hearing, he or she will need a record of the proceedings, and that, for such purpose, he or she may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.

**MINUTES FOR THE REGULAR MEETING OF THE
CAPE CORAL CITY COUNCIL**

June 3, 2019

Council Chambers

4:30 p.m.

Meeting called to order by Mayor Pro Tem Carioscia at 4:30 p.m.

Invocation/Moment of Silence – Councilmember Gunter

Pledge of Allegiance – Urijah Vickery – Skyline Elementary School

Roll Call: Mayor Pro Tem Carioscia, Councilmembers Gunter, Nelson, Stokes, and Stout were present. Mayor Coviello and Councilmembers Cosden and Williams were excused.

CHANGES TO AGENDA/ADOPTION OF AGENDA

Mayor Pro Tem Carioscia asked if anyone had any changes to the agenda.

Councilmember Gunter moved, seconded by Councilmember Stout, to adopt the agenda, as presented (Resolution 118-19 was removed at the request of City Management).

Council polled as follows: Gunter, Nelson, Stokes, Stout, and Carioscia voted "aye." Five "ayes." Motion carried 5-0.

RECOGNITIONS/ACHIEVEMENTS

City of Cape Coral employees placed 1st in the Million Mile Movement sponsored by Healthy Lee Coalition

Kristen Collins, Executive with Oversight of the Healthy Lee Coalition, along with colleague Cheryl, thanked the City of Cape Coral for once again being on top of the Leaderboard and rallying their employees in a health and wellness movement. This is the third year that Healthy Lee has sponsored the Million Mile Movement, and this year collectively over the 90-day challenge, Lee County moved 450,000 miles of which the employees of the City of Cape Coral had just under 74,000 miles. Ms. Collins recognized the recipient of the cruise drawing, Chris Lucas, who moved over 45 miles individually.

Human Resources Director Sonego accepted the cruise award on behalf of Chris Lucas. She discussed how fortunate the City was to have a community partner in Healthy Lee Coalition. She noted that the City has a robust wellness program and highly participates in anything the Coalition puts together. She recognized our wellness coordinator, Deana Watson, who serves as a great ambassador for these events.

APPROVAL OF MINUTES

Regular Meeting – May 6, 2019

Councilmember Stokes moved, seconded by Councilmember Nelson, to approve the minutes for the May 6, 2019 regular meeting as presented. Voice Poll: All "ayes." Motion carried.

Regular Meeting – May 13, 2019

Councilmember Nelson moved, seconded by Councilmember Stout, to approve the minutes for the May 13, 2019 regular meeting as presented. Voice Poll: All "ayes." Motion carried.

BUSINESS

PUBLIC COMMENT - CONSENT AGENDA

Dennis Winchester requested additional details for Resolution 108-19. The amount was lowered by the State Appropriations and that amount was unknown at this time of how much we would get of that \$2.7 million request. He requested information on when this money would be received to help fund this project and when will the plans be developed. What kind of contingency will be available to cover the shortfall? He discussed the 2019-2021 proposed budget where the Police Impact Fee Reserves show approximately \$5.2 million versus the \$5.5 million. He questioned how those shortfalls would be handled through contingency plans.

City Manager Szerlag explained this was a request to approve the design of the Police Facility and when funds become available, there would be a budget request to construct the facility at that point in time.

Financial Services Director Bateman stated that \$650,000 is available today for the design. There is more than enough money in the Police Impact Fee Fund. There will also be approximately \$5 million or \$6 million available after next year in the Impact Fee Fund, and there is a state grant coming.

Chief of Police Newlan confirmed that we applied to State Appropriations which has been approved. There is no exact amount available at this time. He noted that the City can apply again as we're going through the process next December as well. The main objective is to get the concept and design done to get an exact cost. The estimated cost is about \$8 million.

Director Bateman confirmed that they would have the necessary funding.

Councilmember Stout stated she initially had doubts about approving this Resolution, but with a growing City, it needs to be designed regardless of when it is built. Having State Funds to help do this is a good direction.

Councilmember Stokes agreed with Councilmember Stout. He would support this to keep the public safe.

City Attorney Menendez stated she wanted the record to be clear that item 8(B)(8) has been removed and was no longer part of the agenda.

Mayor Pro Tem Carioscia responded in the affirmative.

CONSENT AGENDA

- 1) Resolution 78-19 Approve Agreement CON-UT18-97/MC for Professional Design Services for the Southwest Water Reclamation Facilities Operations Building project with Stantec Consulting Services Inc. for a not to exceed cost of \$1,202,904 with a 10% City controlled contingency in the amount of \$120,290 for a total project cost of \$1,323,194. The ranking was approved by City Council on December 10, 2018 via Resolution 260-18; Department: Utilities; Dollar Value: \$1,323,194; (Water & Sewer Fund)
- 2) Resolution 81-19 Award ITB-PW19-61/MM Palm Additions to Yacht Club Medians to Brent's Lawn and Tree Service, Inc., as the lowest responsive responsible bidder, to install palms and trees in the medians leading to the Yacht Club in the amount of \$73,935 with a 10% City controlled contingency of \$7,394 for a total project cost of \$81,329 and authorize the City Manager or Designee to execute the agreements, amendment and any renewals; Department: Public Works; Dollar Value \$81,329; (General Fund)

- 3) Resolution 94-19 Award ITB-PW19-44/AP Channel Grates & Drains to Core & Main, LP and TWC Distributors, Inc. as the lowest responsive, responsible bidder in the respective awarded areas, for the Purchase of Channel Grates & Drains which are used in swale grading projects to expedite the stormwater flow to the adjacent swales, at the unit price bid, respectively, for an estimated annual dollar value of \$100,000 not to exceed budgetary limits and authorize the City Manager or Designee to execute the agreement, renewals, amendments and Purchase Orders; Department: Public Works; Estimated Annual Dollar Value: \$100,000; (Stormwater Fund).
- 4) Resolution 105-19 Award ITB-PW19-55/CV FY2019 Local Road Resurfacing Phase II to Community Asphalt Corporation, for the milling, resurfacing, and select structural repairs on streets in Cape Coral in the area bordered by Del Prado Blvd on the west, the Caloosahatchee River on the east, Everest Parkway on the north and the Moody Canal on the south, as the lowest responsive, responsible bidder, in the amount of \$1,849,000 with a 10% city controlled contingency of \$184,900 for a total project cost of \$2,033,900; Authorize the use of Fund Balance/Reserves from the Transportation Capital Project (6-cents gas tax) and the W&S Capital Project Reserves; And authorize the City Manager or Designee to execute the agreement, renewals, amendments and Purchase Orders; Department: Public Works; Dollar Value: \$2,033,900; (General Fund - \$1,785,850/Water & Sewer-\$248,050 Fund balance reserves)
- 5) Resolution 108-19 Approve the use of Police Impact Fee Reserves to fund the Design of the Police Department Gun Range at an estimated total dollar value of \$650,000. The corresponding contract will be brought forward, for approval, at a later Council meeting after the procurement is completed; Department: Police Department; Estimated Dollar Value \$650,000; (Impact Fee Reserve Fund)
- 6) Resolution 109-19 Approve Staff Cost Proposal (SCP) SCP JE-11 with Johnson Engineering, Inc. to provide Professional Engineering Services for Weir 29 Improvements project including Design, Construction Specifications, Drawings, Administration, Inspection, and Permitting Services for a Not-to-Exceed (NTE) amount of \$165,500 and authorize the City Manager or designee to execute the agreement; Department: Utilities; Dollar Value \$165,500; (Water and Sewer Fund)
- 7) Resolution 110-19 Approve the use of \$15,000 from the Yacht Basin Enterprise Fund for the inspection of 580 linear feet of seawall at the Cape Coral Yacht Club (north and east of the boat ramp parking) and the review of a report/inspection of 585 feet of seawall east of the Harbor Master's office; Department: Public Works; Dollar Value \$15,000; (Yacht Basin Enterprise Fund)
- 8) REMOVED AT THE REQUEST OF CITY MANAGEMENT Resolution 118-19 Discretionary letter of intent between City of Cape Coral and Phelan Brands, providing limited authorization to Phelan Family Brands; Department: City Manager; EDO Division; Dollar Value: N/A; (Fund N/A)
- 9) Resolution 119-19 Approving a Right of Entry & Hold Harmless Agreement for the benefit of Lee County Electric Cooperative (LCEC) which authorizes the City to enter the Everest Parkway LCEC Substation site to maintain and paint the exterior perimeter wall of the City's Everest Facility; and authorizing the City Manager to execute said Agreement. Department: Financial Services / Real Estate Division; Dollar Value: N/A (Fund: N/A)

Councilmember Gunter moved, seconded by Councilmember Stokes, to approve items 8(B)(1), 8(B)(2), 8(B)(3), 8(B)(4), 8(B)(5), 8(B)(6), 8(B)(7), and 8(B)(9), as presented.

Council polled as follows: Gunter, Nelson, Stokes, Stout, and Carioscia voted "aye." Five "ayes." Motion carried 5-0.

CITIZENS INPUT TIME

Richard Osman appeared to discuss last year's drought and how the City brought water in from Charlotte County for our canals. He mentioned the low level of the canal off of Nicholas Parkway where he launches his kayak. He questioned if it was in the plans again to buy water from Charlotte County to keep our canals maintained at a decent level.

Lynne Rosko appeared to discuss Council Rules and Procedures regarding speakers that address Council. She displayed page 7 from that document. She also discussed the trip to China and questioned dealing with a communist country in the middle of a major trade war.

Craig Owings appeared to discuss procedural issues about the trip to China. He discussed how the Resolution was not on the agenda for the meeting when the vote was taken. Technically, that was not a violation of Section 286.011 of Florida's Government in the Sunshine Laws, but it appeared to be a violation of 286.014 Paragraph 2 which he read into the record.

Joyce Easton appeared to discuss Resolution 87-19. She noted there were a few changes requested by the Mayor to change the verbiage of "good cause" to "extraordinary circumstances." She questioned the reason for that request and others such as no applause and Council Reports. She requested that Councilmembers use prayers for invocation rather than a moment of silence. She discussed the trip to China regarding the discrepancy in ticket prices and using a travel agency from Georgia. Resolution 22-05 notes that economy rates shall be used.

Jay Goshito appeared to discuss the violation with drones in neighborhoods and the lack of privacy in your yards. He requested the creation of an Ordinance for drone usage in order to have a reasonable expectation of privacy.

Lou Navarra displayed a letter addressed to him regarding proper performance of duty and an excerpt from his false arrest, as well as a letter from the Fort Myers Police Department. He stated he would be sending a letter to all of Council that he would be sending to the Governor about qualifications for police officers and teachers. He also displayed A.R. Number 25 regarding gratuities accepted by City of Cape Coral employees which he felt needed to be updated.

MaryAnne Sweeney discussed the recent efforts in the City to protect our children. She mentioned an article in the paper concerning a bracelet for finding lost people with dementia. The County was dropping this program although Cape Coral was keeping it. She pointed out that the media should be brought in to bring average citizens up to date on some of the programs that are offered in the City. She stated Cape Coral needed to be recognized at the airport, just like the welcome signs for all the surrounding cities.

Mitch McCowan appeared to discuss the need to ban the use of Roundup in order to protect our waterways. He questioned getting a bond for the sidewalks and streetlights.

Unknown speaker discussed the police shooting range and whether or not the public would be able to use it.

Andrew Gerk appeared to discuss the blue green algae problem. Does the City have any plans for a combatant for this issue? He questioned if there were any plans for improvement or additions for soccer fields and basketball courts. He inquired if there were any plans to bring multi-cultural sports into Cape Coral.

John Karcher appeared to discuss the recent real estate rates released by the Property Appraiser. Real estate values in Cape Coral show an increase in taxable values of 6.48%, the highest in Lee County. Budget season is just around the corner and Council should start thinking about it. He hoped that Council would get more engaged than ever in this year's budget process and to provide adequate time for public input at meetings. He stated the residents needed complete transparency for funding. He discussed the rollback rate history. He stated there was a \$3.8 million overage in the General Fund which should come back to the taxpayers with substantial rollback this year. He requested that Council make a substantial rollback a top priority.

Renee Schiele stated this has been the fourth Council meeting she has attended where she discussed the loss of her seawall after the hurricane. She requested assistance for the failed repairs that the City did. Her property is the only one with a storm drain on her entire street. She discussed the investigation by the Public Works Director which has been going on for ages with no conclusion. She stated she has a sinkhole in her backyard, and the front yard is disintegrating.

Councilmember Stout discussed why she voted yes on the trip to China, noting how the number of people going was reduced from eight to five. She opined that the Mayor should go since the China delegation came here.

Councilmember Gunter requested that Chief Newlan address Mr. Navarra's charges.

Chief of Police Newlan discussed the charges against Mr. Navarra. He noted it was not a false arrest; he was arrested for burglary. He noted Mr. Navarra pleaded trespass and got diversion. He discussed the list of complaints Mr. Navarra had against some officers, and they were continuing to look into them.

Councilmember Gunter requested that Chief Newlan discuss the diversion program.

Chief of Police Newlan explained the program was pleading to a lesser charge and would still be on the record.

Councilmember Gunter requested that Public Works Director Clinghan address the seawall issue.

Public Works Director Clinghan stated they hired an independent structural engineer to evaluate the seawall. The report determined that it was not on the City to fix that seawall. He noted they had a meeting with Ms. Schiele and re-investigated. That report from the independent structural engineer is forthcoming, and he will expedite that as soon as he can.

Councilmember Nelson requested that the Chief of Police address Ms. Sweeney's concern about the dementia program.

Chief of Police Newlan explained Project Lifesaver, a program that has been in place for years. GPS devices are distributed to those who have Alzheimer's so in the event they wander off the property, they can be tracked and located. He stated he will work with Public Affairs staff to get the word out to the public.

Councilmember Nelson provided an update on the fertilizer ordinance and to keep a policy that would be consistent in our region. She explained why they cannot ban the sale of fertilizer in stores. She stated they have not finalized the rewrite of that ordinance, and she has asked the Assistant City Manager to work out with staff when that will happen. The Roundup piece should be addressed in it. She hoped it would come forward when Council returns from hiatus. She addressed Mr. Gerk's question about the long-term effects of blue green algae and asked Mr. Gerk to contact her about their expert from FGCU who is working on the Governor's Blue Green Algae Task Force.

She noted that Festival Park will have soccer fields by 2023, and there may be the possibility of adding soccer fields at Academic Village. She was excited about opportunities with China.

Mayor Pro Tem Carioscia suggested that City Manager Szerlag may want to consider putting some of the available programs in *On the Move*.

City Manager Szerlag responded in the affirmative.

Councilmember Stokes stated it was great that our property values went up 6.5%. He addressed the request about the rollback rate, noting that there was \$17 million that has not been received yet from FEMA. He stated three members were missing from Council tonight, and he would request that the discussion on Council Rules and Procedures be continued until there is a full Council present.

City Attorney Menendez clarified that Ordinance 8-19 only applied to City employees.

PERSONNEL ACTIONS

None.

PETITIONS TO COUNCIL

None.

APPOINTMENTS TO BOARDS / COMMITTEES / COMMISSIONS

Select City Recommendation for FLC Board of Directors Nominee

Mayor Pro Tem Carioscia stated since the Mayor and two other Councilmembers were not present tonight that a motion be entertained to continue this to June 10, 2019.

Councilmember Stokes moved, seconded by Councilmember Nelson, to continue the item on the FLC Board of Directors Nominee to the June 10, 2019 regular Council meeting.

Council polled as follows: Gunter, Nelson, Stokes, Stout, and Carioscia voted "aye." Five "ayes." Motion carried 5-0.

Youth Council - 2 Vacancies

City Clerk Bruns explained that there were two vacancies to be filled. The first one is for the Junior At Large (seat expires 5/1/2021). One application was received from Payton Zeigler from Canterbury School (10th grader).

Councilmember Stout moved, seconded by Councilmember Stokes, to appoint Payton Zeigler from Canterbury School to the Youth Council as Junior At Large.

Council polled as follows: Gunter, Nelson, Stokes, Stout, and Carioscia voted "aye." Five "ayes." Motion carried 5-0.

City Clerk Bruns stated the second action item was for the Oasis High School vacancy for their senior member, noting how this position was not anticipated due to Junior Member Zivkovic graduating. Oasis has not submitted any applications as of yet. The options are to keep the vacancy open or make a selection from the remaining applicants that have applied for the other position.

Youth Council – Vacancies

Applicants:

Shannon Dougherty/Cape Coral High School (10th grader)
Isabelle Jobe/Island Coast High School (11th grader)
Alisha Smaller/Mariner High School 10th grader)

Michael Rusinko /Oasis High School (10th grader)

City Clerk Brunns compiled a tally for the applicants, Shannon Dougherty, Isabelle Jobe, Alisha Smaller, and Michael Rusinko.

Councilmember Gunter – Dougherty, Councilmember Nelson – Smaller, Councilmember Stokes – Dougherty, Councilmember Stout – Dougherty, Mayor Pro Tem Carioscia – Dougherty

The results were as follows: 4 for Dougherty, and 1 for Smaller.

Councilmember Stout moved, seconded by Councilmember Gunter, to appoint Shannon Dougherty to the Youth Council as Oasis Rising Senior Member.

Council polled as follows: Gunter, Nelson, Stokes, Stout, and Carioscia voted "aye." Five "ayes." Motion carried 5-0.

ORDINANCES/RESOLUTIONS

PUBLIC HEARINGS

Ordinance 6-19 Public Hearing

WHAT THE ORDINANCE ACCOMPLISHES:

The ordinance amends Chapter 2, Administration, of the Code of Ordinances to establish Article VIII entitled "General Union Health Benefits Trust" and provides for the creation of a Health Benefits Trust and the appointment of a Health Benefits board. (Applicant: Brought forward by City Management.)

City Clerk Brunns read the title of the Ordinance.

Human Resources Director Sonego and Assistant City Manager Barron were available for any questions concerning Ordinance 6-19.

Public Hearing opened.

Lora Guglielmini, Treasurer, Executive Board of the General Employees of IUPAT Local 2301, read an email into the record that was sent by Richard Jones to the Councilmembers who was out of town and unavailable to attend the Council meeting. The main objection was the composition for this Board of Trustees. The Ordinance states that there will be three City representatives and two Union representatives. She noted they disagreed with this configuration and believe it should be two City representatives, two Union representatives, and one representative selected by the Board of Trustees. This is identical to the makeup of the Pension Board. She noted they also objected to the requirement that the General Union's President's designee be a current City employee and a member of the Union. They believed if the requirement is going to be restricted, it should require that the General Union's President's designee be a participant as defined by this Ordinance. The makeup should not be on the heavy side of City management who should not be the deciding factor alone on how these funds be used without equal input from the employees who will be contributing to this fund.

Public Hearing closed.

Councilmember Stokes moved to adopt Ordinance 6-19, with an amendment. There was no second; motion died.

Councilmember Stokes agreed with the suggestions from Ms. Guglielmini, noting how well the composition of the Pension Boards has worked very well for the past 20 years. He mentioned allowing retirees to be on this Board because of their vast experience.

Councilmember Nelson asked Assistant City Manager Barron to clarify where the money for this comes from.

Assistant City Manager Barron stated at this point there was no revenue identified to actually fund the trust. This Board is an advisory board and does not have any true decision-making authority. This is a committee who would make recommendations to the Financial Investment Committee established by Ordinance. The Investment Committee would then determine where funds get invested as far as long-term gains. She discussed the City's self-insured medical plan.

Councilmember Nelson asked for clarification about the main difference between this Board and the Pension Board.

Assistant City Manager Barron responded that the Pension Board does have decision making abilities regarding where pension funds are invested.

Councilmember Nelson questioned the concern about the composition of this Board is to make sure that since it is 85% City money that we have the majority deciding.

Assistant City Manager Barron stated this is a Board created by the City and agreed to in previous Union negotiations. They had previously proposed four City administrators and one Union rep because the agreement did not specify the number. She discussed the compromise of the City's 4-1 versus the Union's 2-2-1. The City then came back with 3-2, and the Union was firm on their 2-2-1.

Councilmember Nelson questioned how both groups would vote on that one and may come to a consensus faster.

Financial Services Director Bateman stated there was no money in the trust and won't be for years. The Union would like for this trust to manage the Self-Insurance Fund. The Self-Insurance Fund has \$27 million and about \$18 million in claims. The concern was to allow this Board to advise the City on how to do a Self-Insurance Program. This Board will allow the Financial Advisory Committee which she chairs with an outside investment firm. The idea initially is for the Board to advise her on how to invest \$100; the pool is about \$229 million invested. Any funds that go into this trust for the benefit of the Health Trust Plan would go into the pooled investments. This is not for the Board to do what the Union wants and that is to have a say on our insurance proceeds, claims, and premiums.

Councilmember Nelson asked for clarification that this Board would only give recommendations.

Director Bateman stated they would only be giving recommendations if the City or through Union negotiations decides to put money into this trust. This Board would advise the Financial Advisory Committee on whether or not to invest the money. The concern is if the City is not controlling this Board, they might say they want more money from the Self-Insurance Fund into the Trust.

Councilmember Nelson still questioned the Board's authority to do that.

Director Bateman responded that she wanted to provide Council with the background from past discussions that she has had with Ms. Barron and Human Resources Director Sonogo during Union negotiations. A Self-Insurance Fund needs to be in business for 8-10 years before they have money. The purpose of this Advisory Board would be to advise the Public Financial Advisor on how to invest the money.

Discussion held regarding the differences between certain boards.

Councilmember Stout stated when she spoke with Ms. Barron and Ms. Sonego earlier today, she was leaning towards the 2-2-1 prior to that. Afterwards when she learned that our City's employee's total health care is covered by our General Fund, that led her to support the City's proposal. She inquired if it was proper to make a motion to approve.

Mayor Pro Tem Carioscia stated there were a few more Councilmembers wanting to provide their input at this point before Councilmember Stout makes that motion.

Councilmember Stokes stated this 2-2-1 scenario for our pensions has made our pension funds more financially stable and healthier than a lot of cities in Florida. He was in favor of going with the same formula for this advisory board. He stated when it was appropriate to do so, he wanted to make a motion with the amendment.

Councilmember Gunter wanted to know how many City employees are in this self-insured health care program.

Assistant City Manager Barron stated there were 3,000 in the fund which included dependents.

Councilmember Gunter asked how many people in the General Union use this plan.

Assistant City Manager Barron stated about 75% of the General Union employees participate; Fire has their own plan.

City Attorney Menendez stated pursuant to the Council rules, it states that there shall be no discussion by City Council on the Ordinance until a motion is made and seconded. It does not have to be a motion to approve; it could be a motion to deny. In this case, Councilmember Stokes was wanting to do a motion to approve the Ordinance with a modification or an amendment to the Ordinance before you. That motion would be proper for Councilmember Stokes to make if he so chooses.

Councilmember Stokes clarified his motion to adopt Ordinance 6-19, as amended, with the following changes: 2-2-1 (two employees, two from management, and one they agree on between them), and that retirees be allowed to be a participant (they don't have to be a current employee and a current member of the union). There was no second. Motion died.

Mayor Pro Tem Carioscia asked if there were any other motions.

Councilmember Stout moved, seconded by Councilmember Gunter, to adopt Ordinance 6-19, as presented.

Council polled as follows: Gunter and Stout voted "aye." Nelson, Stokes, and Carioscia voted "nay." Two "ayes." Three "nays." Motion failed 2-3.

City Attorney Menendez stated if there is no other motion, then this Ordinance will not be approved this evening, and it will be denied. She encouraged Council to try and see if they can reach some decision. The creation of this Board was something that was stated in our Collective Bargaining Agreement with the Union. The composition of the Board was not a part of it, other than there was going to be Union representation.

Councilmember Gunter asked if Council could entertain the idea where we have two City employees, two General Union employees, and a fifth person that is voted on by all persons that are outside of both of those organizations.

Councilmember Stout questioned if Council could determine the fifth person.

Councilmember Gunter questioned if this could be similar to a Board where there is a voting member.

City Attorney Menendez questioned Council appointing a fifth person.

Councilmember Gunter clarified that a Councilmember would be on as the fifth person.

Councilmember Stout explained that she meant Council would vote for who that fifth person would be, but she agreed with Councilmember Gunter's idea.

City Attorney Menendez stated this may not be a Board where you want to have a Councilmember on since they are ultimately making recommendations as to how the money should be spent and Council will already have a role in that at some point. She understood that Councilmember Gunter is suggesting that the composition of the Board be revised to be two members that are appointed by the City Manager. Currently it identifies the three positions, but it does not have to identify the three. It could be two that are appointed by the City Manager or Council, two appointed by the General Union, and Council is willing to have that composition. She noted it should be addressed whether those can be retirees. Those four would then appoint a fifth, that fifth member would not fall into any of those categories. They would not be a City employee, retiree, or a participant in the plan. She asked Councilmember Gunter if that was his intent.

Councilmember Gunter stated that could be one scenario; the other could be for Council to appoint that fifth person. He was comfortable either way.

City Attorney Menendez stated the other two management seats would be appointed by the City Manager.

Councilmember Gunter stated there would be two people from the City, two people from the General Union, and City Council would appoint the fifth person.

Councilmember Stokes agreed.

City Attorney Menendez asked if he was open to those two people from the General Union to be as stated in the draft Ordinance where it is limited to a current employee and a current union member or would he be open to a retiree.

Councilmember Stokes stated it would be up to Council.

Councilmember Nelson stated currently the way it is written they are current employees and Union members.

Councilmember Gunter stated he would be inclined to leave that alone. He stated if Council decides to put a fifth person in there and it's a retiree, Council could decide at that time.

City Attorney Menendez clarified that if a retiree is a participant in the plan, then it would not be total non-involvement. She asked for clarification on that fifth person. If you want two appointed by the City Manager, two appointed by the Union who have to be current Union members and/or current participants, the fifth can be anyone else appointed by Council. She asked if Council wanted to limit on who that fifth person can or cannot be. Should it be a participant in the plan? Retirees are participants in the plan as are other people who have a relationship to other members in the plan. Does Council want any restriction on the fifth person?

Councilmember Gunter asked for more input from Council before he finalized his motion.

City Manager Szerlag stated the fifth person could be someone selected by the other four members on the Board and not be a participant of the plan (no employee or retiree). He asked Ms. Bateman what professional qualifications a fifth member needs.

Director Bateman stated a fifth member should have a background in investments and would require investment training every year according to State Statute.

City Manager Szerlag stated that person could be selected by the City Council given a set of criteria that we recommend so that person would be knowledgeable and not have any skin in the game in terms of any direct benefit. It could be a CPA, financial planner or financial consultant and could be selected by the governing body or by the four members on the Advisory Board (two selected by management and two selected by the Union).

Councilmember Gunter agreed. He liked the idea of having an independent person and not being affiliated with the General Union or the City.

Councilmember Stout agreed.

Councilmember Nelson also agreed since it offered a balance.

City Attorney Menendez asked if Councilmember Gunter's motion was to have two members appointed by the City Manager, two members that are appointed by the General Union President, and those two members would have to be current employees and current members of the Union, not necessarily the President and the President's designee but any two appointed by the Union. She questioned who would appoint the fifth person.

Councilmember Gunter stated he liked the idea of the fifth person to be appointed by the four members on the Board.

City Attorney Menendez asked about the criteria for that fifth person. Would it be that they are not a participant in the plan? Not a current employee? Do they have any special requirements such as a CPA or Certified Financial Advisor? Is that part of the motion?

Councilmember Gunter stated that would only benefit that Board and agreed that they should have some type of finance background, whether it be a Financial Planner or a CPA.

City Attorney Menendez asked for more clarification.

Councilmember Gunter stated it should be a Certified Financial Advisor or a CPA.

Director Bateman stated to be certified is very costly, but someone that is experienced in investments usually has a CPA or Licensed Financial Analyst.

Councilmember Gunter agreed to go that route.

City Attorney Menendez asked for clarification whether that would be a Licensed Financial Analyst.

Councilmember Gunter stated it would be a licensed individual in the finance industry.

Assistant City Manager Barron stated she saw that Ms. Guglielmini nodded.

Mayor Pro Tem Carioscia stated there was a motion on the floor. Councilmember Stokes seconded.

City Attorney Menendez stated ***the motion on the floor is to have two appointed by the City Manager, two appointed by the Union President who have to be current employees and members of the Union, and those four would select the fifth and that fifth cannot be a current employee or participant which includes retirees, and they have to be either a CPA or licensed in the financial industry.***

Councilmember Gunter agreed to adopt Ordinance 6-19 with those amendments. Councilmember Stokes (second) agreed.

Council polled as follows: Gunter, Nelson, Stokes, Stout, and Carioscia voted "aye." Five "ayes." Motion carried 5-0.

Resolution 27-19 Public Input Adopt Declaration of Trust for the General Union Health Benefits Trust

WHAT THE RESOLUTION ACCOMPLISHES:

The resolution approves the Declaration of Trust for the City of Cape Coral General Union Health Benefits Trust for the purpose of holding assets and income to be used for providing employee benefits for employees in the General Union. (Applicant: Brought forward by City Management.)

City Clerk Bruns read the title of the Resolution.

Assistant City Manager Barron stated this Resolution established the Health Care Trust.

Public Hearing opened.

No speakers.

Public Hearing closed.

Councilmember Gunter moved, seconded by Councilmember Nelson, to approve Resolution 27-19, as presented.

Council polled as follows: Gunter, Nelson, Stokes, Stout, and Carioscia voted "aye." Five "ayes." Motion carried 5-0.

Ordinance 8-19 Public Hearing

WHAT THE ORDINANCE ACCOMPLISHES:

The ordinance amends the City of Cape Coral Code of Ordinances, Chapter 2, Administration, Article IV, Travel Expenses and Auto Allowances, to update provisions for reimbursement for travel when on City business, to provide for establishing a travel policy as an administrative regulation rather than by resolution, and repealing resolution 22-05 which set forth the travel policy previously. (Applicant: Brought forward by City Management)

City Clerk Bruns read the title of the Ordinance.

Financial Services Director Bateman stated this related to the City's travel policy, not Council's and was cleanup language. She explained the following displayed slides:

- Code of Ordinances, Chapter 2 Administration Article IV: Travel Expenses and Travel Allowances
- Summary of Changes

Public Hearing opened.

Joyce Easton questioned the definition of a traveler which can be a public official, public employee, or authorized person when performing authorized travel and if that included City Council.

Public Hearing closed.

Councilmember Stokes moved, seconded by Councilmember Stout, to adopt Ordinance 8-19, as presented.

City Attorney Menendez explained what the Ordinance states under applicability and that it included all individuals employed by the City of Cape Coral. Council has a separate travel policy. She stated when this Ordinance has been voted on, there is a need to go back to Resolution 27-19 and address the composition of the trust.

Council polled as follows: Gunter, Nelson, Stokes, Stout, and Carioscia voted "aye." Five "ayes." Motion carried 5-0.

Resolution 27-19 Public Input Adopt Declaration of Trust for the General Union Health Benefits Trust

WHAT THE RESOLUTION ACCOMPLISHES:

The resolution approves the Declaration of Trust for the City of Cape Coral General Union Health Benefits Trust for the purpose of holding assets and income to be used for providing employee benefits for employees in the General Union. (Applicant: Brought forward by City Management.)

City Attorney Menendez pointed out to Council that the attached trust agreement has an Article 6.a. relating to the trusteeship of the trust. Currently, it matches Ordinance 6-19 as it was presented to Council prior to the vote on the amendments regarding membership. It would be appropriate to seek reconsideration of the motion to approve Resolution 27-19 and to change the composition to match what was just approved in Ordinance 6-19.

Mayor Pro Tem Carioscia questioned the verbiage to use for clarification.

City Attorney Menendez stated it would be a motion to reconsider the vote on Resolution 27-19.

Councilmember Stokes moved, seconded by Councilmember Nelson, to reconsider Resolution 27-19 so that it will match Ordinance 6-19.

Council polled as follows: Gunter, Nelson, Stokes, Stout, and Carioscia voted "aye." Five "ayes." Motion carried 5-0.

City Attorney Menendez stated technically the motion to approve is back on the floor.

Councilmember Gunter moved, seconded by Councilmember Nelson, to approve Resolution 27-19.

Council polled as follows: Gunter, Nelson, Stokes, Stout, and Carioscia voted "nay." Five "nays." Motion failed 5-0.

City Attorney Menendez stated it would be appropriate at this time to have a motion to approve Resolution 27-19 with the amendments to the composition of the Trusteeship to coincide with the changes that were just made to Ordinance 6-19.

Councilmember Gunter moved, seconded by Councilmember Stout, to approve Resolution 27-19 with the amendments to the composition of the Trusteeship to coincide with the changes that were just made to Ordinance 6-19.

Council polled as follows: Gunter, Nelson, Stokes, Stout, and Carioscia voted "aye." Five "ayes." Motion carried 5-0.

Ordinance 22-19 Second and Final Public Hearing

WHAT THE ORDINANCE ACCOMPLISHES:

An ordinance amending the City of Cape Coral Land Use and Development Regulations, Article II, District Regulations, Section 2.7, District Regulations, Subsection .15, South Cape Downtown District (SC), by eliminating the South Cape Redevelopment Incentive Program (SCRIP), amending the maximum floor area ratio, maximum residential

density, and maximum building height in the South Cape Downtown District, establishing regulations to allow certain architectural elements in City easements and rights-of-way in the South Cape Downtown District, and establishing regulations to allow outdoor dining on public rights-of-way and City-owned parking lots in the South Cape Downtown District.

NOTE: Ordinance 22-19 is a City-initiated change to Section 2.7.15, Land Use and Development Regulations (South Cape Downtown Zoning District). The changes will increase the maximum density to 75 units per acre, increase the maximum Floor Area Ratio to 4.0, and increase the maximum height to 160'. This will allow more design flexibility in downtown Cape Coral to encourage economic development. With these changes the South Cape Redevelopment Incentive Program (SCRIP) regulations are no longer needed. This change also permits architectural improvements such as colonnades and balconies to project into public easements and rights-of-way. Regulations for outdoor dining are also included. (Applicant: Brought forward by City Management.)

P&Z Recommendation: At their May 1, 2019 Regular Meeting, the Planning and Zoning Commission/Local Planning Agency voted unanimously to recommend approval of Ordinance 22-19.

City Management Recommendation: City Management recommends approval.

City Clerk Brunns read the title of the Ordinance.

Planning Team Coordinator Daltry explained the purpose of the Ordinance. He displayed the following slides:

- Ordinance 22-19
- Purpose
- Conclusion

Public Hearing opened.

No speakers.

Public Hearing closed.

Councilmember Stout moved, seconded by Councilmember Gunter, to adopt Ordinance 22-19, as presented.

Council polled as follows: Gunter, Nelson, Stokes, Stout, and Carioscia voted "aye." Five "ayes." Motion carried 5-0.

Ordinance 24-19 Public Hearing

WHAT THE ORDINANCE ACCOMPLISHES:

An ordinance amending the City of Cape Coral Land Use and Development Regulations, Article II, District Regulations, Section 2.7, District Regulations, Subsection .13, Corridor District (CORR), to remove the maximum building height regulations of 45 feet for non-residential buildings in the Corridor District. Building heights will be regulated by floor area ratio rather than a fixed height. This change will also greater flexibility in project design and architectural features for non-residential projects, particularly for hotel development. (Applicant: Brought forward by City Management.)

P&Z Recommendation: At their May 1, 2019 Regular Meeting, the Planning and Zoning Commission/Local Planning Agency voted unanimously to recommend approval of Ordinance 24-19.

City Management Recommendation: City Management recommends approval.

City Clerk Brunns read the title of the Ordinance.

Planning Team Coordinator Daltry explained the purpose of the Ordinance. He displayed the following slides:

- Ordinance 24-19
- Ordinance 24-19 (continued)

Mayor Pro Tem Carioscia asked if there was any correspondence.

Mr. Daltry responded that there were no letters of correspondence received.

Public Hearing opened.

John Karcher questioned if this referred to the example of 14 ft. ceilings and that was the reason for taking away the 45 ft. away. Was there a height limitation?

Mr. Daltry explained using Floor Area Ratio (FAR) as a height limitation as opposed to just a standard number.

Public Hearing closed.

Councilmember Stokes moved, seconded by Councilmember Nelson, to adopt Ordinance 24-19, as presented.

Council polled as follows: Gunter, Nelson, Stokes, Stout, and Carioscia voted "aye." Five "ayes." Motion carried 5-0.

Ordinance 26-19 Public Hearing

WHAT THE ORDINANCE ACCOMPLISHES:

An ordinance approving and granting to South Florida Water Management District a perpetual Conservation Easement upon property owned by the City located in the area of the Academic Village; authorizing and directing the Mayor to execute the Deed of Conservation Easement - Passive Recreational Uses. (Applicant: Brought forward by City Management.)

City Clerk Bruns read the title of the Ordinance.

Property Broker Andrews explained the purpose of the Ordinance. She displayed an aerial of the site which is located at the northwest corner of Del Prado Boulevard and Kismet Parkway.

Public Hearing opened.

No speakers.

Public Hearing closed.

Councilmember Gunter moved, seconded by Councilmember Nelson, to adopt Ordinance 26-19, as presented.

Council polled as follows: Gunter, Nelson, Stokes, Stout, and Carioscia voted "aye." Five "ayes." Motion carried 5-0.

Ordinance 27-19 Public Hearing

WHAT THE ORDINANCE ACCOMPLISHES:

An ordinance authorizing the City Manager to exchange municipal surplus property described as Lots 27 and 28, Block 5162, Unit 83, Cape Coral Subdivision, for real property described as Lot 25, Block 5162, Unit 83, Cape Coral Subdivision; authorizing the conveyance of surplus real property described herein pursuant to Section 2-155 of the City of Cape Coral Code of ordinances; authorizing and directing the Mayor and Clerk to execute a deed conveying the aforementioned surplus real property. (Applicant: Brought forward by City Management.)

City Clerk Bruns read the title of the Ordinance.

Property Broker Andrews explained the purpose of the Ordinance. She displayed an aerial of the site and noted this was located along the North Spreader Waterway.

Public Hearing opened.

No speakers.

Public Hearing closed.

Councilmember Nelson moved, seconded by Councilmember Gunter, to adopt Ordinance 27-19, as presented.

Council polled as follows: Gunter, Nelson, Stokes, Stout, and Carioscia voted "aye." Five "ayes." Motion carried 5-0.

Ordinance 30-19 Public Hearing

WHAT THE ORDINANCE ACCOMPLISHES:

An ordinance amending the City of Cape Coral Code of Ordinances, Chapter 12 1/2, "Parks and Recreation," Article I, "Regulations," Section 12 1/2-2, "Definitions," and Section 12 1/2-4, "Rules and Regulations," to regulate commercial activity in City parks. (Applicant: Brought forward by City Management.)

City Clerk Bruns read the title of the Ordinance.

Parks and Recreation Director Runyon explained the purpose of the Ordinance and noted the changes that would be made to definitions to add boats or watercraft. Under Section 2 Rules and Regulations, there is the addition of commercial activity without approval from the City.

Public Hearing opened.

No speakers.

Public Hearing closed.

Councilmember Gunter moved, seconded by Councilmember Stout, to adopt Ordinance 30-19, as presented.

Councilmember Gunter noted why this was added because of some of the boat rental places at the Yacht Club where access area was taken away from the general public.

Council polled as follows: Gunter, Nelson, Stokes, Stout, and Carioscia voted "aye." Five "ayes." Motion carried 5-0.

INTRODUCTIONS

Ordinance 31-19 (ZA 19-0004*) Set Public Hearing Date for June 10, 2019

*Quasi-Judicial, All Persons Testifying Must Be Sworn In

WHAT THE ORDINANCE ACCOMPLISHES:

An ordinance amending the City of Cape Coral Zoning District Map by rezoning property located at 244 Santa Barbara Boulevard South from Single-Family Residential (R-1B) to Pedestrian Commercial (C-1) zone. (Applicant: Cape Coral Lodge No. 367 Free and Accepted Masons of Florida) (3.63 acres)

HEX Recommendation: The Hearing Examiner recommends the City Council grant the requested rezone.

City Management Recommendation: City Management recommends approval of the rezone request.

City Clerk Bruns read the title of the Ordinance.

The public hearing was scheduled for June 10, 2019 in Council Chambers.

Planning Team Coordinator Daltry stated he was available if Council had any questions.

Ordinance 32-19 Set Public Hearing Date for June 10, 2019

WHAT THE ORDINANCE ACCOMPLISHES:

An ordinance amending the City of Cape Coral Comprehensive Plan by amending the Conservation and Coastal Management Element, Infrastructure Element, and Intergovernmental Coordination Element by adopting policies to provide consistency with the Cape Coral Water Supply Facilities Work Plan; adopting the 2017 Cape Coral Water Supply Facilities Work Plan as Appendix "A" to the Comprehensive Plan. (Applicant: City of Cape Coral)

Planning & Zoning Recommendation: The Planning & Zoning Commission recommendation to be added after their meeting on June 5, 2019.

City Management Recommendation: City Management recommends approval.

City Clerk Bruns read the title of the Ordinance.

The public hearing was scheduled for June 10, 2019 in Council Chambers.

Planning Team Coordinator Daltry stated he was available if Council had any questions.

UNFINISHED BUSINESS

WATER QUALITY – UPDATE

Public Works Director Clinghan provided the Water Quality Update. He noted the release schedules being done by the Army Corps of Engineers over the last few months have been beneficial. The levels of Lake Okeechobee are approximately 11 feet now; typically, the high is 16 ft. and the minimum is 10.5 ft. They are releasing approximately 450 cfs.

FOLLOW UP ITEMS REQUESTED BY COUNCIL

None.

Resolution 87-19 Amend City Council Rules of Procedure

The resolution amends Resolution 3-01, as amended, which adopted Rules of Procedure for the City Council Agendas and Meeting, to provide clarification in scheduling of various items, and types of meetings; to provide for attendance at meetings remotely by electronic means; and to establish guidelines for Council reports. (Applicant: Brought forward by Councilmember Cosden)

Mayor Pro Tem Carioscia requested that this be continued to June 10, 2019 since the Mayor and two Councilmembers were not present.

Councilmember Stokes moved, seconded by Councilmember Gunter, to continue Resolution 87-19 to June 10, 2019.

Council polled as follows: Gunter, Nelson, Stokes, Stout, and Carioscia voted "aye." Five "ayes." Motion carried 5-0.

NEW BUSINESS

Discussion Regarding Drones - Brought Forward by Mayor Pro Tem Carioscia

Mayor Pro Tem Carioscia stated four years ago an Ordinance was put together regarding drones. He noted constituents have contacted him who are concerned about drones in the area. He requested a second so that the City Attorney's Office can research this topic.

Councilmember Stout provided the second.

REPORTS OF THE MAYOR AND COUNCIL MEMBERS

Councilmember Gunter – Topics: No Report

Councilmember Nelson – Topics: Participated in the Memorial Day Parade by driving a 93-year old veteran.

Councilmember Stokes – Topics: No Report

Councilmember Stout – Topics: No Report

Councilmember Williams – Topics: Excused

Councilmember Cosden – Topics: Excused

Mayor Pro Tem Carioscia – Topics: No Report

Mayor Coviello – Topics: Excused

REPORTS OF THE CITY ATTORNEY AND CITY MANAGER

City Attorney: Topics: No Report

City Manager: Topics: No Report

TIME AND PLACE OF FUTURE MEETINGS

A Regular Meeting of the Cape Coral City Council was scheduled for Monday, June 10, 2019 at 4:30 p.m. in Council Chambers.

MOTION TO ADJOURN

There being no further business, the meeting adjourned at 6:45 p.m.

Submitted by,

Kimberly Bruns, CMC
City Clerk

**MINUTES FOR THE REGULAR MEETING OF THE
CAPE CORAL CITY COUNCIL**

June 10, 2019

Council Chambers

4:30 p.m.

Meeting called to order by Mayor Coviello at 4:30 p.m.

Invocation/Moment of Silence – Councilmember Nelson

Pledge of Allegiance – Mayor Coviello

Roll Call: Mayor Coviello, Councilmembers Carioscia, Cosden, Gunter, Nelson, Stokes, Stout, and Williams were present.

CHANGES TO AGENDA/ADOPTION OF AGENDA

Mayor Coviello requested moving item 11A under New Business to follow immediately after voting on the adoption of the agenda.

Councilmember Stout moved, seconded by Councilmember Nelson, to adopt the agenda, as amended, to move 11A to follow directly after changes to the agenda.

Council polled as follows: Nelson, Stokes, Stout, Williams, Carioscia, Cosden, Coviello, and Gunter voted "aye." Eight "ayes." Motion carried 8-0.

**Lee County Clerk of Courts - Days of Operation/Services 5 days a week and
Office Updates - Linda Doggett**

Lee County Clerk of Courts Doggett announced that the Cape Coral Branch is being restored to five days a week beginning on Monday, July 1, 2019. On November 1, 2016 she was forced to close the Cape Coral Branch to three days a week due to significant budget reductions. In addition, her office struggled with long wait lines in the Justice Center's downtown lobby and unbearably long phone wait times. In response, better technology solutions have been implemented, as well as improving efficiencies and customer service online and on the phone. She noted the long-awaited approval from our legislature to use some of the excess revenues to fund critical operations.

Ms. Doggett noted the following services will be available, some of which are new:

- Pay traffic fines
- Pay other court fees and fines including probation
- Clear driver's license suspensions
- Purchase driver's history records
- Request court dates
- Submit traffic school compliance certificates
- Ability to file civil cases (eviction, small claims, divorce)
- Record documents into the official records
- Apply for marriage licenses and have marriage ceremonies at that branch office

Ms. Doggett stated that computers will be available for residents to do their online research to look at electronic court case files, public records, and other documents. She encouraged the use of online services for all customers so that they can save time and help the government be more efficient.

RECOGNITIONS/ACHIEVEMENTS

None.

APPROVAL OF MINUTES

None.

**BUSINESS
PUBLIC COMMENT - CONSENT AGENDA**

No speakers.

CONSENT AGENDA

- 1) Resolution 90-19 Award to Pavement Maintenance, LLC., the Saratoga Lake Park Shoreline Improvement project in the amount of \$29,500; and award to Northeast Products and Services, Inc. the purchase of an Adaptive Kayak Launch in the amount of \$38,600 for a total of \$68,100 and approve a City controlled contingency of \$3,950 (\$2,950 for the Shoreline improvement and \$1,000 for the Kayak Launch) for a total project cost of \$72,050 and authorize the City Manager or Designee to execute the contract, contract amendment, purchase order and any related documents for the project. The Grant #12-00653 Saratoga Lake Park Improvements project awarded by the State of Florida Department of Environmental Protection Land and Water Conservation Fund Program for a maximum amount of \$143,000 was accepted by Council via Resolution 60-16 on 5/9/16; Department: Parks and Recreation; Estimated dollar value: \$72,050; (Government Capital Project Fund)
- 2) Resolution 103-19 Award ITB-PW19-40/MM Re-Roof of Fleet Management Building to Crowther Roofing and Sheet Metal of Florida, Inc., as the lowest responsive responsible bidder, to replace the Cape Coral Fleet Management's Building roof in the amount of \$109,000 with a 10% City Controlled contingency of \$10,900 for a total project cost of \$119,900 and authorize the City Manager or Designee to execute the agreements, amendment and any renewals; Department: Public Works; Dollar Value \$119,900; (Fleet Internal Service Fund)
- 3) Resolution 104-19 Approve the Selection Advisory Committee (SAC) ranking of the Request for Proposal (RFP) RFP-UT19-29/MC to engage a firm to provide Professional Engineering Services for the Comprehensive Utilities Master Plan Update project and authorize the City Manager or Designee to enter into negotiation with the number one ranked firm, AECOM Technical Services, Inc.; Department: Utilities; Dollar Value: N/A; (Fund: N/A)
- 4) Resolution 111-19 - UEP North 2 FDEP Total Maximum Daily Load (TMDL) Grant to assist with the offsetting North 2 UEP Stormwater Improvement costs and will enhance water quality in the City's canal system and Pine Island Sound; Department: Public Works (UEP); FDEP Grant Dollar Value: \$310,000; (Matching Stormwater Fund: \$310,000)
- 5) Resolution 113-19 Award ITB-UT19-50/KR Southwest Reverse Osmosis (RO) Water Treatment Plant (WTP) Roadway Repaving Project to Pavement Maintenance, LLC of Fort Myers, FL to replace approximately of 5,831 square yards (SY) of existing asphalt pavement for parking lot and drainage improvements, as the lowest responsive, responsible bidder, in the amount of \$351,692 with a City controlled contingency of 10%, \$35,169 for a total \$386,861 dollars; Authorize use of reserves/unassigned fund balance; and authorize City Manager or designee to execute the contract, amendments, change orders required to complete the work. Department: Utilities Dollar Value: \$386,861 (W&S- reserves/unassigned fund balance)
- 6) Resolution 123-19 Approve the Selection Advisory Committee (SAC) ranking of the Request for Proposal RFP-PW19-20/KR to engage a firm to provide Professional Engineering Services for the Design of the Reclaimed Water Transmission Main Caloosahatchee River Crossing and authorize the City Manager or Designee to enter into negotiation with the number one ranked firm, Cardno, Inc. The vendors awarded were as follows: Brent's Lawn and Tree Service, Inc; Superior Landscape Lawn Services, Inc. and John Fideli Landscape, LLC. The project is for ongoing irrigation system repairs and landscaping replacement due to accidents and for replacement of landscaping that reached the full lifecycle. Department: Public Works Department Dollar Amount \$65,000. (General Fund)
- 12) Resolution 136-19 Acceptance of Drainage Easement in a portion of Lots 16 and 17, plus the vacated alley, in Block 3236, Cape Coral Unit 66, 3321-3409 SW 8th Place (Strap #03-45-23-C2-03236.0130), to provide access to and maintenance of City drainage facilities at this location, as conditioned in site plan SP18-0050; Department: Financial Services / Real Estate Division; Dollar Value: N/A; (Fund: N/A)
- 13) Resolution 137-19 Approval of Contract for Purchase of Lots 25 and 26, Block 3028, Unit 43, Cape Coral Subdivision, 1313 Wilmington Parkway, Cape Coral, for the Festival Park project for the purchase price of \$12,500 plus closing costs not to exceed \$1,500; Department: Financial Services / Real Estate Division; Dollar Value: \$14,000 (Parks Capital Project/GO Bond Fund) Note: Trade offer rejected by Seller
- 14) Approve a General Release for all claims arising from the damage done to a City water main located at or near 1615 NE 2nd Street, on August 26, 2017, and authorize the Mayor to execute the General Release.

Councilmember Carioscia moved, seconded by Councilmember Stokes, to approve items 8(B)(1), 8(B)(2), 8(B)(3), 8(B)(4), 8(B)(5), 8(B)(6), 8(B)(7), 8(B)(8), 8(B)(9), 8(B)(10), 8(B)(11), 8(B)(12), 8(B)(13), and 8(B)(14), as presented.

Council polled as follows: Nelson, Stokes, Stout, Williams, Carioscia, Cosden, Coviello, and Gunter voted "aye." Eight "ayes." Motion carried 8-0.

CITIZENS INPUT TIME

Carl Veaux inquired about using Cape High Schools as hurricane shelters.

Lou Navarra displayed letters on the overhead that he sent to Council on how he was never charged with a felony burglary, as well as a letter he was sending to the Governor. He discussed his desire to have the CCPD sit down with him and review the body cams. He also commented on the recent China trip.

John Karcher appeared to discuss three meetings coming up: June 18th, July 22nd, and August 5th. He questioned why the current online zoning map on the City's website is dated 2018. He requested 100% transparency and that Council direct staff to include full complete accurate details for all three meetings.

Dennis Winchester displayed four properties in the Northwest that shows specific details using the City's Land Use and Zoning Map that have been previously discussed in this meeting and others. He reinforced that Council has the continued support of the NWNA for these properties as long as there are no changes.

Joyce Easton requested the definitions of "good cause" and "extraordinary circumstances" in Resolution 87-19. She agreed it was a good addition to address only issues relevant to City business under Section V Councilmember Reports. She also discussed Resolution 133-19 and if there was any effect on the properties that were already required by the City under Resolution 5-05. She questioned the travel details on the trip to China. She also questioned if the City was covering Joanne Killion's extended stay in China.

Renee Schihl appeared to discuss the storm drain issue on her property. She stated she was contacted this morning by Gary Gasperini who provided her with papers from the engineer who examined her situation. She noted the findings were that the City was not responsible. She mentioned this was her third seawall failure; the City fixed it twice previously. It all originated from the dredging. She opined that the City needs to take another look at her problem since initially it was never fixed correctly.

Councilmember Stokes requested that the City Manager address the situation regarding Renee Schihl's seawall.

PW Director Clinghan stated the City hired an independent consultant who concluded that the entire 80 ft. of seawall has failed along the subject property due to extreme hydrostatic and saturated soil pressures in combination with the absence of canal waters during the hurricane. This type of failure along the seawall is similar in nature to the over 300 other seawall failures. It was the consultant's professional opinion that neither the stormwater outfall pipe nor canal dredging contributed in any way to the seawall failure.

Councilmember Stokes questioned the City replacing the seawall twice before.

Director Clinghan recalled that the last time was in 2004. He reiterated that there were over 300 other seawall failures due to the extreme hydrostatic pressure.

Councilmember Stokes requested that Mr. Clinghan forward that information to him.

Director Clinghan stated he sent the report this past weekend.

City Manager Szerlag stated staff has been analyzing this issue after Hurricane Irma. At that time the number of damaged seawalls was unknown. He stated there are about 60 left that need a disposition of how they would be fixed. He noted that there has been discussion which would require Council's approval to have a Special Assessment on

seawalls for homeowners who meet certain low-income criteria to be reviewed confidentially by the Finance Department. He discussed how this Revolving Fund would work.

Councilmember Nelson questioned if there was any way to assist these residents who are in similar situations. She inquired when Ms. Schihl's seawall failed in the past, was it also due to the similar situation we had with Hurricane Irma?

Director Clinghan stated he did not have the information available on what occurred to Ms. Schihl's property in 2004 and prior to that. He discussed the surveying of the canal, and it was determined that the dredging did not cause this failure.

Councilmember Nelson asked the City Manager if any discussion has been made with the lobbyists since Hurricane Irma to see if there could be any type of insurance reform state-wide to help out homeowners with seawalls.

City Manager Szerlag stated they have been working on that since Hurricane Irma. He noted they have been unable to find an insurance carrier willing to handle issues of this type. He noted he would talk to the lobbyists to see if the insurance industry, upon an inspection of a seawall, would determine if there could be a rider on a homeowner's policy.

Councilmember Nelson addressed Mr. Veaux's question concerning shelters in Cape Coral. She noted that FEMA has stated that there cannot be shelters in Cape Coral because of the storm surge and the lack of elevation.

City Manager Szerlag responded that it was his understanding as well. A storm shelter needs to have an elevation higher than the storm surge in any particular zone.

Councilmember Nelson asked if information could be posted online and on social media that would educate the residents on the nearest storm shelter.

City Manager Szerlag responded that they would work with the Fire Department to make that information available. He noted it was important to educate the public about storm surge.

Mayor Coviello asked if the ability to provide shelters were the City's or County's responsibility.

City Manager Szerlag stated it was his understanding that shelters are approved by the County. He asked Fire Chief Lamb to respond to this matter.

Fire Chief Lamb displayed new maps for 2019 on storm zones titled Proposed New Evacuation Zones. He confirmed that the County manages the shelters. He stated he had a conversation with Lee Mayfield, Lee County Public Safety Director, about the possibility of Cape Coral getting an additional shelter. However, because of the geography of our community, it is being studied more significantly. There are a lot of people in a vulnerable zone. He stated there was no need to run to Georgia; we just need to get outside of those surge zones. There is a lot of information being posted on our social media, and there are pieces on our website. A hurricane seminar was just held a few weeks ago, and another one is coming up at Mohawk Library. They will continue to advertise those as well.

Mayor Coviello inquired what the contingency plan was if we are faced with another storm surge threat and cannot use the shelters in Cape Coral.

Fire Chief Lamb stated the County has taken the lead on shelters through FEMA hazard mitigation grants. Opening some shelters as a last resort is not something we like to advocate on a consistent basis. There is a deficit of shelters throughout Lee County, but they are working with FEMA to improve or harden structures in Lee County.

Councilmember Gunter discussed Special Assessments for the repairs of seawalls and inquired if there were any entities willing to participate in the PACE program. He suggested looking at that again.

City Manager Szerlag stated they would be happy to do that.

Councilmember Williams commented on watching the meetings as a resident and not a council person. He asked Mr. Karcher to make an appointment to meet with him in his office. He confirmed that meeting packets are posted online for the public's review.

Councilmember Stout addressed the seawall issue and discussed her own experience with a damaged seawall. She suggested that Ms. Schihl contact her homeowner's insurance provider.

Mayor Coviello addressed the questions concerning the recent trip to China. He stated he did not have all that information available at the meeting but asked Ms. Easton to make an appointment to meet with him.

PERSONNEL ACTIONS

Resolution 125-19 Approval and ratification of the Collective Bargaining Agreement between the City of Cape Coral and the International Union of Painters and Allied Trades, AFL/CIO District Council #78 - Local Union 2301 (General Union - Blue Collar)

City Clerk Bruns read the title of the Resolution.

Councilmember Stokes moved, seconded by Councilmember Nelson, to approve Resolution 125-19, as presented.

City Manager Szerlag stated this Resolution was a testament to the good relations that we have with the collective bargaining groups. He called the following to the podium: HR Director Lisa Sonego, Union President Richard Jones, as well as others who were involved in the negotiation process. Besides this blue-collar agreement, there are also subsequent resolutions relating to the white collar, the non-supervisory professional unit, and the supervisory unit. He noted that he was informed by the City Attorney that a motion could be made for all four resolutions.

Resolution 126-19 Approval and ratification of the Collective Bargaining Agreement between the City of Cape Coral and the International Union of Painters and Allied Trades, AFL/CIO District Council #78 - Local Union 2301 (General Union - White Collar)

Resolution 127-19 Approval and ratification of the Collective Bargaining Agreement between the City of Cape Coral and the International Union of Painters and Allied Trades, AFL/CIO District Council #78 - Local Union 2301 (General Union - Non-supervisory Professional Unit)

Resolution 128-19 Approval and ratification of the Collective Bargaining Agreement between the City of Cape Coral and the International Union of Painters and Allied Trades, AFL/CIO District Council #78 - Local Union 2301 (General Union - Supervisory Unit)

Councilmember Stokes amended his motion to approve all four Resolutions (125-19, 126-19, 127-19, and 128-19) as presented. Councilmember Nelson (the second) agreed.

Mayor Coviello asked the City Attorney if it was appropriate to approve all four Resolutions in one motion.

City Attorney Menendez responded in the affirmative if that was the intent of the motion maker and second to approve Resolutions 125-19, 126-19, 127-19, and 128-19.

Councilmembers Stokes and Nelson agreed.

Council polled as follows: Nelson, Stokes, Stout, Williams, Carioscia, Cosden, Coviello, and Gunter voted "aye." Eight "ayes." Motion carried 8-0.

Resolution 139-19 Approval for funding an additional .25% in payroll for Police and Fire unions, and non-bargaining employees (excluding contract employees) effective October 1, 2018.

City Clerk Bruns read the title of the Resolution.

City Manager Szerlag explained what this Resolution would accomplish. He recommended approving an additional .25% for the Police and Fire unions, as well as non-bargaining employees effective October 1, 2018. He noted a memorandum explaining that was included in the meeting packet.

City Attorney Menendez clarified that there would be no further action by Council for the non-bargaining employees. However, for the police and fire unions, Council would be authorizing that the money be made available, and an amendment to the contract would be required.

City Manager Szerlag explained that management and the unions will determine the best way to apportion that .25%.

Councilmember Stokes moved, seconded by Councilmember Gunter, to approve Resolution 139-19, as presented.

Councilmember Stokes commented that he was glad that our City was keeping up with the national economy in order to be competitive in the labor market.

Council polled as follows: Nelson, Stokes, Stout, Williams, Carioscia, Cosden, Coviello, and Gunter voted "aye." Eight "ayes." Motion carried 8-0.

PETITIONS TO COUNCIL

None.

APPOINTMENTS TO BOARDS / COMMITTEES / COMMISSIONS

Select City Recommendation for FLC Board of Directors Nominee - Continued from the June 3, 2019 Regular Meeting

Mayor Coviello stated Councilmember Williams has expressed an interest in remaining on this seat through his memo sent to all of Council.

Councilmember Gunter moved, seconded by Councilmember Nelson, to appoint Councilmember Williams as the FLC Board of Directors Nominee.

Council polled as follows: Nelson, Stokes, Stout, Williams, Carioscia, Cosden, Coviello, and Gunter voted "aye." Eight "ayes." Motion carried 8-0.

Councilmember Williams thanked all for their support. He stated he has learned a lot being on this Board and will continue to do a good job for the City.

ORDINANCES/RESOLUTIONS

PUBLIC HEARINGS

Resolution 88-19 (VP 19-0005*) Public Hearing

*Quasi-Judicial, All Persons Testifying Must Be Sworn In

WHAT THE RESOLUTION ACCOMPLISHES:

A resolution providing for the vacation of plat for public utility and drainage easements underlying a previously vacated alley located between Lots 26-31 and Lots 42-47, Block 1484, Cape Coral Unit 17; providing for the vacation of plat for public utility and drainage easements along the east side of Lots 26-31 and the west side of Lots 42-47, Block 1484, Cape Coral Unit 17; property located at 112 Del Prado Boulevard North. (Applicant: Floriland Real Estate Investments, LLC)

Hearing Examiner Recommendation: The Hearing Examiner recommends that City Council approve the application for the requested vacations, subject to the conditions set forth in HEX Recommendation Order 6-2019.

City Management Recommendation: City Management recommends approval of both vacation requests with conditions. Conditions of approval recommended by staff mirror the conditions of approval recommended by the Hearing Examiner for this case.

City Clerk Bruns read the title of the Resolution and administered the oath.

Planning Team Coordinator Struve explained the purpose of this Resolution. He displayed the following slides:

- Resolution 88-19 VP 19-0005
- VP 19-0005, applicant, requests, location
- Aerial Site, Subject Parcel
- Current Zoning Map
- Background
- Vacation Requests
- Analysis (LUDR, Section 8.11), Vacate Underlying and Adjacent Easements to the Vacated Alley ROW
- Recommendations
- Correspondence – One informational phone call

Public Hearing opened.

Linda Miller, Senior Planner, Avalon Engineering, authorized representative, explained the reason for this request. She thanked Mr. Struve for his presentation and was available for any questions.

Public Hearing closed.

Councilmember Carioscia moved, seconded by Councilmember Gunter, to approve Resolution 88-19, as presented.

Council polled as follows: Nelson, Stokes, Stout, Williams, Carioscia, Cosden, Coviello, and Gunter voted "aye." Eight "ayes." Motion carried 8-0.

Resolution 106-19 (AP 19-0001*) Public Hearing

*Quasi-Judicial, All Persons Testifying Must be Sworn In

WHAT THE RESOLUTION ACCOMPLISHES:

A resolution either affirming or reversing the decision of the Hearing Examiner rendered on January 18, 2019, in DE HEX Order 1-2019, that denied a deviation of nine (9) feet from the minimum side setback requirement of twelve (12) feet for marine improvements that extend more than six (6) feet into a waterway to allow a side setback of three (3) feet for expansion of an existing dock in a Single-Family Residential (R-1B) zone; property located at 2523 SE 23rd Place. (Applicant: Donald C. Frick)

City Clerk Bruns read the title of the Resolution and administered the oath.

Senior Planner Heller explained the purpose of this Resolution. He displayed the following slides:

- Resolution 106-19 AP 19-0001
- Appellant, Rep, Location, Request
- Subject Parcel
- Current Zoning Map
- Background
- Proposed dock addition
- Hearing Examiner's Findings of Fact (6 slides)
- Findings and Conclusions
- Recommendation
- Correspondence – one informational phone call

Planning Manager Pederson summarized the request of the appellant. The Code requires a 12 ft. side setback on this lot for a dock, and the applicant is requesting a 9 ft. deviation which results in a 3 ft. setback.

Public Hearing opened.

Joe Mazurkiewicz, President, BJM Consulting, Inc., authorized representative, addressed the issues specifically raised by the Hearing Examiner. This was not contrary to the public interest, and the deviation would be in harmony with the general intent and purpose of the regulations. The only reason it was denied because conditions exist in the eyes of the Hearing Examiner that are a result of the owner of the property. He displayed the subject property showing the existing boat dock, boat lift, and boat cover. All was put in by the prior owner. He explained how a workaround dock required could be built to the south and not infringe on the setback at all. He noted it would cost \$8,000 to \$10,000 to remove the pre-existing marine infrastructure. He believed that the Hearing Examiner erred when determining the difference what a hardship is and is not. He requested that Council passes the Resolution to reverse the Hearing Examiner's order and grant the deviation of 9 ft. to the side setback in the marine improvement area.

Public Hearing closed.

Councilmember Stout moved, seconded by Councilmember Williams, to approve Resolution 106-19, as presented, reversing the Decision of the Hearing Examiner.

Councilmember Williams stated he hated to overturn decisions, but he opined that this one should be reversed. He explained that he had a similar situation on his own property.

City Attorney Menendez clarified that the motion was to reverse the decision of the Hearing Examiner and approve the requested deviation of 9 ft.

Motion maker and second agreed.

Councilmember Stout stated she also did not like to go against the decision of staff and the Hearing Examiner. She stated the feelings of the neighbor to the north should be considered and since he is agreeable, it makes sense to approve the deviation.

Councilmember Nelson echoed the prior statements from other Councilmembers. She asked staff about how the Hearing Examiner denied this while remarking about harmonious situations.

Planning Manager Pederson explained there is not always unanimity in deviation standards. He stated finding a fit in that geographic space can be a challenge.

Councilmember Nelson stated she would support the reversal of the Hearing Examiner's decision.

City Attorney Menendez elaborated on the several criteria that need to be met for deviation regulations. She noted how the conditions were not the result of the applicant.

Mayor Coviello questioned if there was enough room on the property to the south to have a dock built.

Mr. Mazurkiewicz stated there was no home currently on the property to the south. He explained that from the existing boat lift, the navigation for making the move into the lift does not start until the property owner would get behind his property. There is no negative impact on the adjoining marine improvement properties.

Council polled as follows: Nelson, Stokes, Stout, Williams, Carioscia, Cosden, Coviello, and Gunter voted "aye." Eight "ayes." Motion carried 8-0.

Ordinance 20-19 Public Hearing

WHAT THE ORDINANCE ACCOMPLISHES:

An ordinance amending the City of Cape Coral Code of Ordinances, Chapter 23, "Protected Species," Article II, "Burrowing Owl Protection," by renaming Article II to read "Burrowing Owl and Gopher Tortoise Protection," and to include protections for gopher tortoises located in the city. (Applicant: Brought forward by Councilmember Carioscia)

City Clerk Bruns read the title of the Ordinance.

Planning Manager Pederson stated this was parallel to the Ordinance recently adopted for the protection of the burrowing owls in the City where we mirrored the State guidelines. It allows flexibility for the CCPD and Code Enforcement to take any action if there is a violation. This extends the same protection to the gopher tortoise which is a protected species.

Public Hearing opened.

Mitchell Cohen appeared to discuss the excitement from children and the unique ecology of having Burrowing Owls in the City. He supported approval of this Ordinance.

Public Hearing closed.

Councilmember Carioscia moved, seconded by Councilmember Cosden, to adopt Ordinance 20-19, as presented.

Council polled as follows: Nelson, Stokes, Stout, Williams, Carioscia, Cosden, Coviello, and Gunter voted "aye." Eight "ayes." Motion carried 8-0.

Ordinance 21-19 Public Hearing

WHAT THE ORDINANCE ACCOMPLISHES:

An ordinance amending the City of Cape Coral Code of Ordinances, Chapter 6, "Contractors and Construction Regulation Board," Article I, "General Provisions," Section 6-10.1, pertaining to disciplinary proceedings for contractor violations in the City. (Applicant: Brought forward by City Management.)

City Clerk Bruns read the title of the Ordinance.

Planning Manager Pederson explained that this Ordinance eliminates a step in the process which should lead to clear and quick decision-making. This Ordinance would eliminate the provision for a probable cause hearing before an actual hearing and go directly to a hearing. This change was reviewed by the Board (Construction Regulation Board) who unanimously approved this.

Public Hearing opened.

No speakers.

Public Hearing closed.

Councilmember Stout moved, seconded by Councilmember Williams, to adopt Ordinance 21-19, as presented.

Council polled as follows: Nelson, Stokes, Stout, Williams, Carioscia, Cosden, Coviello, and Gunter voted "aye." Eight "ayes." Motion carried 8-0.

Ordinance 28-19 (VP 18-0007*) Public Hearing

*Quasi-Judicial, All Persons Testifying Must be Sworn In

WHAT THE ORDINANCE ACCOMPLISHES:

An ordinance providing for the release of the right-of-way easement reserved by the City within Ordinance 56-02; authorizing the Mayor to execute a Release of said easement; providing for the vacation of plat for a portion of Rose Canal right-of-way and the underlying public utility and drainage easements located adjacent to Lot 23, Block 4944, Unit 74, Cape Coral Subdivision, as more particularly described herein; providing for the vacation of plat for public utility and drainage easements associated with Lot 23, Block 4944, Unit 74, Cape Coral Subdivision, as more particularly described herein; property located at 4033 Oasis Boulevard. (Applicants: Keith D. Finkelstein and Elizabeth A. Macguidwin)

Hearing Examiner Recommendation: The Hearing Examiner recommends that City Council approve the application for the requested vacations and release, subject to the conditions set forth in VP HEX Recommendation 3-2019.

City Management Recommendation: City Management recommends approval.

City Clerk Bruns read the title of the Ordinance and administered the oath.

Planning Team Coordinator Struve explained the purpose of this Ordinance. He displayed the following slides:

- Ordinance 28-19 VP 18-0007
- VP 18-0007, applicants, requests, location
- Aerial Site, Subject Parcel
- Current Zoning Map
- Background
- Aerial of Site
- Analysis (LUDR, Section 8.11) Request to Vacate ROW of "Quit Claim" Area
- Request to Vacate Underlying Easements of the "Quit Claim" Area
- Easements to be Deeded to the City from the Owners
- Request to Vacate Platted Easements Along the North Property Line of Lot 23
- Request to Release Easements Associated with the "Quit Claim" Area
- Recommendations
- Correspondence – one phone call – additional information sought

Public Hearing opened.

No speakers.

Public Hearing closed.

Councilmember Stout moved, seconded by Councilmember Gunter, to adopt Ordinance 28-19, as presented.

Councilmember Williams questioned if there was any agreement from the owner, upon receiving that piece of property, to be required to put a seawall in.

Mr. Struve stated the intention here is that the owner would put a seawall in for the entire perimeter that follows the water frontage line. There are plans to construct a single-

family home on that property. He noted that a seawall cannot be installed unless the City vacates that right of way area.

Keith Finkelstein, property owner, stated there was a seawall constructed (not by him) in 2002 that goes around the entire perimeter.

Mayor Coviello asked if the property owner was responsible for the seawall going forward.

Mr. Struve stated they would certainly be if it becomes part of their property.

Council polled as follows: Nelson, Stokes, Stout, Williams, Carioscia, Cosden, Coviello, and Gunter voted "aye." Eight "ayes." Motion carried 8-0.

Council recessed at 6:11 p.m. and reconvened at 6:28 p.m.

Ordinance 31-19 (ZA 19-0004*) Public Hearing

*Quasi-Judicial, All Persons Testifying Must Be Sworn In

WHAT THE ORDINANCE ACCOMPLISHES:

An ordinance amending the City of Cape Coral Zoning District Map by rezoning property located at 244 Santa Barbara Boulevard South from Single-Family Residential (R-1B) to Pedestrian Commercial (C-1) zone. (Applicant: Cape Coral Lodge No. 367 Free and Accepted Masons of Florida) (3.63 acres)

HEX Recommendation: The Hearing Examiner recommends the City Council grant the requested rezone.

City Management Recommendation: City Management recommends approval of the rezone request.

City Clerk Bruns read the title of the Ordinance and administered the oath.

Planning Team Coordinator Daltry explained the purpose of this Ordinance. He displayed the following slides:

- Background
- Site
- Aerial view of subject parcel
- Current Zoning Map
- Proposed Zoning Map
- Future Land Use Map
- Analysis
- Comprehensive Plan/LUDR
- Conclusion
- Received no correspondence

Public Hearing opened.

Bill Counts appeared to discuss his approval of the Ordinance. He noted the lack of communication regarding the City's Future Land Use and the real estate community. He noted that he has been a lot salesman in the City for over 35 years, and many of his clients look to him for confirmation on the current and proposed zoning. He stated for the past two years the realtors have been waiting for the Comprehensive Map to be completed. He stated in his office he has a 4x4 map of Future Land Use going back from 2002. When he tried to buy a new map, he was told that they were no longer printing these maps, and he would have to go to an outside source to get it. He asked Council to reconsider this and possibly go back to selling these land use maps in City Hall so that he would have current information.

Public Hearing closed.

Councilmember Williams moved, seconded by Councilmember Nelson, to adopt Ordinance 31-19, as presented.

Councilmember Williams suggested the City should start selling City maps again.

City Manager Szerlag stated we are going to a brand-new Land Use Development Code which may be an indication of why the maps are not being sold at this point in time. He requested Planning Manager Pederson to address why the maps are not being sold and when they can expect to be sold again.

Mr. Pederson stated they would be happy to print a map for Mr. Counts. Sales of these maps has usually been through the Clerk's Office. We've encouraged people not to go to the extent of printing one out if it is going to change soon. The last change was April 1st for the land use maps.

Mayor Coviello questioned using the map on our website with today's advanced technology.

Mr. Pederson stated anyone can go to our website at www.capecoral.net and search any property in the City of Cape Coral and get the accurate future land use and zoning. Nine out of ten realtors go to www.leepa.com which uses the Department of Revenue's codes which is not the land use for the City. That information is available and accessible on our website. He stated staff always coaches people on what links to follow.

Councilmember Gunter stated that hopefully by the middle of August it should be crystal clear exactly what our zoning and future land use is. Possibly at that time the maps can be updated and make sure that it is available to the public.

Mr. Counts stated it was evident that anyone can use the GIS system. However, in his business it is difficult to show someone on a monitor that their future home is not sitting in a commercial future land use zone. He stated that was the purpose of the 4x4 maps that the City has had for years that he was able to purchase. He reiterated that it would be a great benefit to the Real Estate Community to be able to point out on a map. He stated he has sold over 12,000 lots in this City. He mentioned Dawn Andrews could verify that he has been here a long time.

City Clerk Brunns noted that in the past the City Clerk's Office has been in charge of the sale of maps. The cost at that time was \$20.00 apiece. It is something that we would work with I.T. with a large format printer. When the large format printer had phased out and was no longer able to be serviced, it was determined that the cost was less for the resident to have it printed at an outside service.

Mayor Coviello asked the City Clerk if Mr. Counts could contact her office to find out how to get the map he was seeking.

City Clerk Brunns stated currently it would not come from the City Clerk's Office since we don't have a large format printer. She had the link that could be accessed on a flash drive or through email.

Mayor Coviello stated to figure out how to get that done and make it available and known to the real estate community.

Councilmember Stokes thanked Mr. Counts for bringing 12,000 new residents to the community.

City Manager Szerlag mentioned it was time for us to buy a new printer.

Council polled as follows: Nelson, Stokes, Stout, Williams, Carioscia, Cosden, Coviello, and Gunter voted "aye." Eight "ayes." Motion carried 8-0.

Ordinance 32-19 Public Hearing for Transmittal

WHAT THE ORDINANCE ACCOMPLISHES:

An ordinance amending the City of Cape Coral Comprehensive Plan by amending the Conservation and Coastal Management Element, Infrastructure Element, and Intergovernmental Coordination Element by adopting policies to provide consistency with the Cape Coral Water Supply Facilities Work Plan; adopting the 2017 Cape Coral Water Supply Facilities Work Plan as Appendix "A" to the Comprehensive Plan. (Applicant: City of Cape Coral)

Planning & Zoning Recommendation: At their June 5, 2019 Regular Meeting, the Planning & Zoning Commission voted 7-0 to recommend approval of Ordinance 32-19.

City Management Recommendation: City Management recommends approval.

City Clerk Bruns read the title of the Ordinance.

Planning Team Coordinator Daltry explained the purpose of this Ordinance. He displayed the following slides:

- Purpose (two slides)
- Conclusion
- No correspondence received

Public Hearing opened.

No speakers.

Public Hearing closed.

Councilmember Stout moved, seconded by Councilmember Nelson, to adopt Ordinance 32-19, as presented.

City Attorney Menendez clarified that this was being approved for transmittal.

Councilmember Stout responded in the affirmative.

Council polled as follows: Nelson, Stokes, Stout, Williams, Carioscia, Cosden, Coviello, and Gunter voted "aye." Eight "ayes." Motion carried 8-0.

INTRODUCTIONS

Ordinance 17-19 Set First Public Hearing Date for July 22, 2019

WHAT THE ORDINANCE ACCOMPLISHES:

An ordinance repealing Articles I - X and XII and amending Article XI of the City of Cape Coral Land Use and Development Regulations; establishing Article 1, General Provisions; Article 2, Decision Making and Administrative Bodies; Article 3, Development Review; Article 4, Zoning Districts; Article 5, Development Standards; Article 6, Parking; Article 7, Sign Regulations; Article 8, Nonconformities and Lawfully Existing Uses; Article 9, Floodplain Management; Article 10, Subdivisions; Article 12, Building Code and Engineering Design Standards; and Article 13, Reasonable Accommodation & Dispute Resolution, of the new City of Cape Coral Land Development Code; incorporating Article XI, as amended, into the new City of Cape Coral Land Development Code as Article 11, Definitions. (Applicant: Brought forward by City Management)

Planning & Zoning Recommendation: At their June 5, 2019 Regular Meeting, the Planning & Zoning Commission voted 7-0 to recommend approval of Ordinance 17-19.

City Management Recommendation: City Management recommends approval.

City Clerk Bruns read the title of the Ordinance.

The first public hearing was scheduled for July 22, 2019 in Council Chambers.

Planning Team Coordinator Daltry stated he was available if Council had any questions.

Ordinance 4-19 (ZA 18-0013) Set First Public Hearing Date for July 22, 2019

WHAT THE ORDINANCE ACCOMPLISHES:

An ordinance amending the City of Cape Coral Official Zoning District Map by rezoning approximately 9,786 acres to be consistent with the changes to the Future Land Use Map, the Comprehensive Plan, and the new Land Development Code. (Applicant: City of Cape Coral) (9,786 acres)

Hearing Examiner Recommendation: To be added after the Recommendation is issued as a result of the Hearing on June 18, 2019.

City Management Recommendation: City Management recommends approval.

City Clerk Bruns read the title of the Ordinance.

The first public hearing was scheduled for July 22, 2019 in Council Chambers.

Ordinance 29-19 Set Public Hearing Date for July 22, 2019

WHAT THE ORDINANCE ACCOMPLISHES:

An ordinance amending the City of Cape Coral Code of Ordinances, Chapter 12, "Offenses and Miscellaneous Provisions," Article II, "Offenses Creating Nuisances," by repealing and replacing Section 12-22, "Noise Control," providing for short title, providing for findings and purpose, providing for definitions, providing for prohibitions of unreasonably excessive noise, providing for exemptions, providing for enforcement and penalties. (Applicant: Brought forward by City Management.)

City Clerk Bruns read the title of the Ordinance.

The public hearing was scheduled for July 22, 2019 in Council Chambers.

Ordinance 33-19 (PDP 19-0001*) Set Public Hearing Date for July 22, 2019

*Quasi-Judicial, All Persons Testifying Must be Sworn In

WHAT THE ORDINANCE ACCOMPLISHES:

An ordinance amending Ordinance 42-10, which approved a Planned Development Project entitled "Downtown Village Square" for certain property described as Block 62A, Unit 6, Part 1, and Block 62A, Unit 8, Cape Coral Subdivision, extending the project buildout date, amending the phasing schedule and conditions of approval; property is located between SE 47th Terrace to the north, SE 9th Place to the east, Cape Coral Parkway to the south, and SE 8th Court to the west. (Applicants: Red Rock Land Corporation, Downtown Village Square, LLC, and Downtown Village Square II, LLC)

Hearing Examiner Recommendation: The Hearing Examiner recommends approval with staff conditions.

City Management Recommendation: City Management recommends approval with no modifications to the existing term sheet.

City Clerk Bruns read the title of the Ordinance.

The public hearing was scheduled for July 22, 2019 in Council Chambers.

Councilmember Gunter asked for a report prior to the July 22nd meeting regarding the economic viability of this project. There were benchmarks for the first phase of this project noted and asked if the benchmarks would be added for the remainder of this five-year project.

City Manager Szerlag stated he spoke with Planning Staff today, and it is possible to articulate benchmarks for the next five years, once the PDP is approved. Then it can be identified on what we want to see for each subsequent year. He stated that Economic Development Manager Noguera and DCD Director Cautionero have been in contact with the developer to negotiate the benchmarks. Regarding the economic viability, he understood that we are allowed to ask for that to make sure that we are allowed to require that. If not, he will find a way to make it a requirement for this project. He believed that if Finance does not receive the information they request, the application is not complete.

City Attorney Menendez explained economic viability of any particular project is not part of a normal PDP. Economic viability came into play with regard to Village Square because the City partnered with them in a way. As part of hoping that this was going to be a transformational project for the downtown area, the City agreed in that PDP to bear the cost of all of the permitting fees and to relocate the electric pole up to a certain amount of money. There were some other commitments as well. When that project did not develop in a timely manner a few years ago, the City was concerned about their commitments and were not persuaded of the economic viability of the project. There were references in a few resolutions when extensions were given contingent on the economic viability. She stated we would have to look into whether or not economic viability was continued into the current process.

City Manager Szerlag stated he assumed because we wanted to have economic viability for the first part of the project which had a PDP several years ago, that we would just automatically make that same slate of assumptions. We did sell the property at a very cheap price. There still were some incentives for the developer by the City. There was a request for 95% of the TIF revenues to make the project viable. He would ask the Attorney's Office to indicate that we would need to acquire a statement from the Finance Director and the Economic Development Manager that this is a viable project, based on the financial portfolio of the developer. If we don't get a complete application, it was his position that we don't have an application.

City Attorney Menendez recollected from one of the previous resolutions that it dealt with the EB5 and the applicant met that. This most recent PDP is based on the term sheet that the Council approved which was entered into with the applicant and the City Manager brought forward to Council. She did not recall if economic viability was part of that term sheet. If it wasn't, it may not have been incorporated, but she will check on that.

Mayor Coviello stated this project has gone on for nine years and makes us question whether there is financial stability in order to move that project forward. It was not unreasonable for us to request information to inform us whether or not we should continue on this path or make some changes.

City Attorney Menendez pointed out that the TIF agreement is not with the City, but with the CRA. She understood that if these changes are made to the PDP, that the applicant will have to go back to the CRA to ask them to amend the TIF agreement. The TIF agreement is still in effect, but it has already reduced the 90% down to about 50% because of the timing and the failure to meet certain benchmarks already.

Ordinance 34-19 (ZA 19-0007*) Set First Public Hearing Date for July 29, 2019

*Quasi-Judicial, All Persons Testifying Must be Sworn In

WHAT THE ORDINANCE ACCOMPLISHES:

An ordinance amending the City of Cape Coral Official Zoning Map by rezoning property located at the intersection of Agualinda Boulevard and Beach Parkway from Marketplace Residential (MR) to Residential Multi-Family Low (RML) and Commercial (C) zones. (4.54 acres) (Applicant: City of Cape Coral)

Hearing Examiner Recommendation: Hearing Examiner recommendation to be added after the recommendation is issued.

City Management Recommendation: City Management recommends approval.

City Clerk Bruns read the title of the Ordinance.

The first public hearing was scheduled for July 29, 2019 in Council Chambers.

Ordinance 35-19 Set Public Hearing Date for July 22, 2019**WHAT THE ORDINANCE ACCOMPLISHES:**

An ordinance authorizing the City Manager to sell municipal surplus real property described as Lots 53-54, Block 5195, Unit 83 Cape Coral Subdivision, pursuant to Section 2-155 of the Code of Ordinances; authorizing and directing the Mayor and Clerk to execute a deed conveying the surplus real property to Daniel Lynn Nuckolls and Sandra Kay Nuckolls. (Applicant: Daniel Lynn Nuckolls and Sandra Kay Nuckolls)

City Clerk Bruns read the title of the Ordinance.

The public hearing was scheduled for July 22, 2019 in Council Chambers.

Property Broker Andrews stated she was available if Council had any questions.

UNFINISHED BUSINESS**WATER QUALITY – UPDATE**

Public Works Director Clinghan provided the Water Quality Update. As of June 7th, the elevation of Lake Okeechobee was approximately 11 ft. which is 2 ft. below average. The Army Corps of Engineers was releasing a 7-day average of 657 cfs. Last May we had a lot of rain so last June they were releasing 4,000 cfs. The fertilizer ban was in effect on June 1st and will continue until September 30th. Red tide remains below background concentration.

FOLLOW UP ITEMS REQUESTED BY COUNCIL

None.

Resolution 87-19 Amend City Council Rules of Procedure - Continued from the June 3, 2019 Regular Meeting

The resolution amends Resolution 3-01, as amended, which adopted Rules of Procedure for the City Council Agendas and Meeting, to provide clarification in scheduling of various items, and types of meetings; to provide for attendance at meetings remotely by electronic means; and to establish guidelines for Council reports. (Applicant: Brought forward by Councilmember Cosden)

Councilmember Cosden stated this Resolution remains in its original form. Nothing has changed since no consensus was reached the last time we discussed this Resolution. She stated more discussion was needed.

Mayor Coviello asked if anyone had any input. There was none.

Councilmember Cosden moved to approve Resolution 87-19, as presented. Councilmember Gunter provided the second for discussion.

Mayor Coviello stated he noticed other areas where the words "good cause" were exchanged with "extraordinary circumstances." The biggest concern he had was that we already had the right to do what this document is saying. Any Councilmember can already request to call in and exercise our voting rights, provided there is a quorum.

Councilmember Gunter agreed with Mayor Coviello that the policy in place gives Council the ability to do what is already stated in the Council Rules. The circumstances for not attending a meeting should be extraordinary and should be handled on a case by case basis. The Charter states that Councilmembers must attend meetings. He was not in favor of approving the Resolution since what we have now is working.

Councilmember Stokes stated his only concern was one sentence and requested that it be stricken. It referred to V. Councilmember Reports that states "to report or address issues or actions that have no relevance to City business."

Councilmember Cosden stated she tested the call-in system a couple of weeks ago that she hopes to use in the next couple of months. This change provides for at least two days' notice, if not longer. She inquired from staff how much notice they needed to set up the system or if it could be a last-minute decision in cases of an emergency. She asked the City Attorney what this would do for Council if we add this section regarding remote attendance.

City Attorney Menendez stated she believed the intention was to provide more of a route, even though these types of requests are infrequent. It would provide a vehicle for everyone to be prepared. She noted that sometimes you can't always get a request two days ahead of time. Electronic does not mean it has to be Skype or video and can be a basic telephone conference call.

Mayor Coviello stated if a Councilmember calls in the morning of the Council meeting and informs the Clerk where there is a situation that they cannot attend the meeting, a determination can be made at the beginning of the meeting that day.

City Attorney Menendez stated participating electronically is just like participating in person.

Mayor Coviello asked for confirmation that the Council could vote at the meeting for the electronic participation to occur.

City Attorney Menendez responded in the affirmative.

Mayor Coviello asked Assistant City Manager Barron how long it would take for set up for a Councilmember to phone in to the meeting.

Assistant City Manager Barron responded that if we knew by noon, we would be able to set something up. Once a process is in place, it would be pretty easy to do. She preferred the Skype option better than the phone in option which is more challenging.

Councilmember Cosden mentioned that if someone knows that they will be out of town and still wants to participate at the Council meeting, they can plan ahead. She was fine with removing this section if it made everyone comfortable.

Mayor Coviello asked Councilmember Cosden if she would agree with striking Section C. 1.

Councilmember Cosden stated Section 1, but not 2 since it refers to unexcused absences.

Mayor Coviello clarified that we would strike C.(1) (a), (b), (c), and (4 but should be d). He questioned if the next paragraph starting with "good cause" should be removed.

Councilmember Cosden opined that it was relevant, but it was up to Council to determine if it was "good cause" or "extraordinary circumstances." Council already had the discretion to decide between excused or unexcused absences.

Councilmember Cosden amended her motion to remove C. (1) (a through d). The two paragraphs following (d) belong to (d). No second received.

City Attorney Menendez stated the sentence immediately following (1)(a-d) starting with "good cause" should be removed as well: "Good cause means that the member cannot attend in person due to illness, personal or family matter, absence from the area, unavoidable scheduling conflict, or other good reason." The only other issue would be if you want to leave that one sentence in that starts with "when appearing remotely, the member is by law deemed to be present for all purposes and has all participation rights and voting privileges as if physically present." If you rely on State Law which authorizes

you to be able to do this, that sentence is not needed. She stated if Council removes (1)(a-d), any part of (1) will not serve a purpose. She recommended keeping (2) as part of C but now the numbers and letters will flow better and (2) will become just "C" – absences.

Mayor Coviello asked if there was a consensus with the removal of the sentence that Councilmember Stokes referred to which he agreed with. If everyone agreed, he suggested that this document be brought back. He informed Councilmember Cosden that currently she has the right to call in. He asked that the document be revised to remove that section and strike that one sentence that Councilmember Stokes requested.

Councilmember Cosden asked if everyone agreed.

City Attorney Menendez inquired if Council was good with taking out C (as Councilmember Cosden indicated she would be fine with) and only leaving the language you currently have at the end of the document which would move to C regarding Councilmember absences and with deleting that second sentence in Part V regarding Reports relating to "report or address issues or actions that have no relevance to City business." If those are the only two changes that Council wishes to make to this document and Council is comfortable with doing that, then we can accomplish that tonight with a motion to approve Resolution 87-19 with those two changes.

Councilmember Gunter asked if a revised document could be brought back to a proposed special meeting next Monday.

City Attorney Menendez stated it was recommended that special meetings have only one topic. If Council is not comfortable with this Resolution, this can be brought back. If the only concerns are those two changes, they could be addressed with Council's direction tonight.

Councilmember Cosden agreed. She asked for input regarding the sentence concerning reports.

Councilmember Stokes stated he was the only Councilmember who wanted that removed.

Councilmember Cosden assumed no comment meant to remove that sentence.

Councilmember Cosden amended her motion, seconded by Councilmember Williams, to approve Resolution 87-19 removing Section C.1 in its entirety, striking the line in Section V. stating "Councilmembers shall not use this time to report on or address issues or actions that have no relevance to City business."

Councilmember Gunter stated he was the original second for discussion, but he agreed as well for the amendment.

Councilmember Stokes stated it would be hard who would decide what the definition of City business is.

Council polled as follows: Nelson, Stokes, Stout, Williams, Carioscia, Cosden, Coviello, and Gunter voted "aye." Eight "ayes." Motion carried 8-0.

Resolution 133-19 Repeal Resolution 5-05, a resolution of necessity for the acquisition of certain properties for the purpose of creating and developing "Festival "Park": Department: Finance/Real Estate Division/City Attorney; Dollar Value: N/A; (Fund: N/A)

Property Broker Andrews explained what this Resolution would accomplish. It would repeal 2005's Resolution of Necessity in Festival Park. She displayed the following slides:

- Resolution 133-19
- Festival Park Background
- Aerial Map

City Attorney Menendez addressed Ms. Easton's question concerning the acquisition. There are currently no problems that we know of with regard to any of the properties that had been acquired previously. There are 68 properties still outstanding for which Council will receive 68 Resolutions to consider on July 22nd.

Councilmember Williams moved, seconded by Councilmember Gunter, to approve Resolution 133-19, as presented.

Council polled as follows: Nelson, Stokes, Stout, Williams, Carioscia, Cosden, Coviello, and Gunter voted "aye." Eight "ayes." Motion carried 8-0.

NEW BUSINESS

Lee County Clerk of Courts - Days of Operation/Services 5 days a week and Office Updates - Linda Doggett
Moved to immediately after Council's vote on adoption of agenda

Mayor Coviello requested a motion to approve a Special Meeting of the Cape Coral City Council at 4:30 p.m. on Monday, June 17, 2019, in Council Chambers. The item appearing on that agenda for voting is Resolution 135-19 which is the agreement for Professional Design Services for the design of Neighborhood and Community Park Projects. The previously scheduled COW meeting will follow immediately after the Special Meeting.

Councilmember Stout moved, seconded by Councilmember Gunter, to approve a Special Meeting on 6/17/2019 at 4:30 p.m. in Council Chambers for Resolution 135-19; the COW meeting to follow directly after; topic: Resolution 135-19.

Council polled as follows: Nelson, Stokes, Stout, Williams, Carioscia, Cosden, Coviello, and Gunter voted "aye." Eight "ayes." Motion carried 8-0.

REPORTS OF THE MAYOR AND COUNCIL MEMBERS

Councilmember Nelson – Topics: Attended the largest ALS Bucket Challenge yesterday at Cape Coral High School. Asked Councilmember Gunter if he would be willing to take over as liaison for the Budget Review Committee since her schedule would not allow her to attend all meetings.

Councilmember Gunter agreed to take on being Council Liaison to the Budget Review Committee.

Councilmember Nelson stated she would be fine taking this seat back after the budget season.

Councilmember Stokes moved, seconded by Councilmember Stout, to switch Councilmember Nelson with Councilmember Gunter as Liaison for the Budget Review Committee.

Council polled as follows: Nelson, Stokes, Stout, Williams, Carioscia, Cosden, Coviello, and Gunter voted "aye." Eight "ayes." Motion carried 8-0.

Councilmember Stokes – Topics: Encouraged residents to take their kids to Sun Splash.

Councilmember Stout – Topics: No Report

Councilmember Williams – Topics: Informed everyone why he had taken time off due to a minor stroke on May 6th.

Councilmember Carioscia – Topics: No Report

Councilmember Cosden – Topics: Attended Coral Ridge's Memorial Day Service; First Memorial Day Parade; Charlotte Harbor National Estuary Program Policy Committee meets quarterly, name change to Coastal and Heartland National Estuary Program; She recalled a second (Councilmember Williams) in the past to work on an Ordinance allowing for Medical Marijuana use by City employees, staff has worked on it, but it will be placed on hold pending more information. She stated this was the last regular meeting before hiatus; the baby is due within the next 4-6 weeks. She asked Council to excuse her up to three meetings and up to three regular meetings to call or Skype in. Within that time period to include any workshops for remote attendance. She asked the City Attorney if a vote was needed.

City Attorney Menendez stated it was appropriate to ask for a vote if the intention was to participate electronically.

Councilmember Stokes moved, seconded by Councilmember Nelson, to allow enough time for Councilmember Cosden to perform her good mothering duties at her discretion.

Council polled as follows: Nelson, Stokes, Stout, Williams, Carioscia, Cosden, Coviello, and Gunter voted "aye." Eight "ayes." Motion carried 8-0.

Councilmember Gunter – Topics: Attended the CRA Workshop and the CRA regular meeting, Planning and Zoning Commission regular meeting; Budget Review Committee meeting; will be in Orlando Thursday and Friday to participate on the FLC's Land Use and Economic Development Committee.

Mayor Coviello – Topics: Attended the Regional Luncheon hosted by Senator Benacquisto on May 15th; Guest Speaker at Do the Right Thing; CRA meeting; 7-Eleven Ribbon Cutting; Oasis High School Graduation at FGCU; Issued a Safe Boating Week Proclamation; Unveiling of the DUI Car by CCPD at the Dodge Chrysler Dealership; Iraqi War Monument Remembrance Ceremony on Memorial Day at Eco Park, as well as the dedication of the Merchant Marine Monument; speaker at the Coral Ridge Memorial Day Remembrance; Also participated in the Memorial Day Parade hosted by the Military Museum; Grand Opening Ribbon Cutting at Dunkin Donuts; Annual Do the Right Thing Scholarship Luncheon; CCCIA Dinner Meeting; May 31-June 7 in China in the cities of Baise and Chengdu, strengthened relationships there, have a signed Memorandum of Understanding that refers to a year from now the potential to become a Sister City, report being created for the public that will be available shortly.

REPORTS OF THE CITY ATTORNEY AND CITY MANAGER

City Attorney: Topics: Mentioned the vote for the Special Meeting at 4:30 on June 17th. The COW Meeting is scheduled for 4:30. She understood that it was Council's intention that the Special Meeting occur at 4:30 and that the COW would follow immediately. It would be appropriate if Council so desired that the Special Meeting be advertised for 4:30 and when the COW meeting is noticed, that it also be indicated for 4:30 but indicate that it will occur at the close of the Special Meeting. She asked if that was the Council's intention.

Mayor Coviello responded in the affirmative.

City Manager: Topics: Advised that he has instructed the Planning Manager to work with the City Clerk to purchase a large-scale format printer to reinstate the printing and sale of current and future land use maps.

TIME AND PLACE OF FUTURE MEETINGS

A Special Council Meeting was scheduled for Monday, June 17, 2019 at 4:30 p.m. in Council Chambers.

A Committee of the Whole Meeting was scheduled for Monday, June 17, 2019 to immediately follow at the close of the Special Meeting in Council Chambers.

MOTION TO ADJOURN

There being no further business, the meeting adjourned at 7:49 p.m.

MINUTES FOR THE SPECIAL MEETING OF THE
CAPE CORAL CITY COUNCIL

June 17, 2019

Council Chambers

4:30 p.m.

Meeting called to order by Mayor Coviello at 4:33 p.m.

Invocation/Moment of Silence – Councilmember Nelson

Pledge of Allegiance

Roll Call: Mayor Coviello, Council Members Carioscia, Cosden, Gunter, Nelson, Stokes, and Stout were present. Councilmember Williams was excused.

CHANGES TO AGENDA/ADOPTION OF AGENDA

Mayor Coviello asked if anyone had any changes to the agenda.

Councilmember Gunter moved, seconded by Councilmember Nelson, to adopt the agenda, as presented.

Council polled as follows: Stokes, Stout, Carioscia, Cosden, Coviello, Gunter, and Nelson voted "aye." Seven "ayes." Motion carried 7-0.

CITIZENS INPUT TIME

Steve Dimino appeared to discuss questionable surveys that were being done in the northwest part of the Cape. He stated he spoke to the Parks and Recreation Department who knew nothing of these surveys. He stated he and a few of his neighbors had concerns about the draft of the park and wanted to know when they could provide input.

Pauline Zolick appeared to discuss questions about Crystal Lake Park. She stated the original plan before voting on the GO Bond was beautiful. However, she was now concerned about the proposed rest room which would be in front of her house, as well as a parking lot on the other side.

Karen Konszierski read a letter she sent to the City Council and the Parks and Recreation Director concerning the \$60M Bond for designing new neighborhood and/or improvements to existing parks. She stated it completely ignored the one type of recreation you would expect in Florida – swimming.

Yolonda Olsen appeared to discuss her pleasure for a park planned in the Southwest. She inquired why there was no space for an owl habitat in that park.

Mayor Coviello noted that the neighborhood parks would be subject to community meetings. He inquired who was out in the City performing surveys.

City Manager Szerlag stated he was not aware of any surveys being done. He addressed comments regarding the methodology of the \$60M GO Bond. He noted that the City showed concepts to the residents as opposed to a blank slate. On the agenda tonight is a Resolution to award a contract to AECOM whose primary role is to go from a concept to an actual design. AECOM is required to generate neighborhood meetings before any design work is performed. The next step would be to take public input and bring it to Council. He stated he has asked Michael Ilczynszyn to be the Project Manager for all of the parks inherent in the GO Bond.

Mayor Coviello stated if we were still in the design phase and we don't know the surveyors that were out there, chances are they are not affiliated with the City.

He stated this should be looked into. He noted possibly it had to do with the School Bus Stop Program looking for the right-of-way for the location of a bench.

Councilmember Cosden inquired if there would also be meetings for the four community parks.

City Manager Szerlag responded in the affirmative and added that recommendation would be provided on July 22, 2019. He stated he would have Parks and Recreation Director Runyon get together with the residents who had questions tonight and provide a report to Council.

NEW BUSINESS

Resolution 135-19 Approve Agreement CON-PW19-45/AP for Professional Design Services for the Neighborhood Park project with AECOM Technical Services, Inc. for a not to exceed amount of \$2,929,890 with a 5% City Controlled Contingency for additional services, if needed, of \$149,494 for a total amount of \$3,076,384. The agreement for the Community Parks will be brought forward at the next available Council meeting for approval. The ranking was approved by City Council on April 15, 2019 via Resolution 65-19 Department(s): Public Works/Parks & Recreation Dollar value: \$3,076,384 (Governmental Capital Project Fund – funded by GO Bond).

Senior Public Works Manager Ilcyszyn stated he has been appointed the Project Manager for the Parks and Rec GO Bond, both community and neighborhood. He discussed the following:

- On the agenda tonight for Council's consideration is the contract with AECOM Technical Services, Inc. which will be the design firm for the seven neighborhood parks.
- Included in their scope of work will be shade shelters and pavilions at some of the existing parks.
- It has been broken up into several phases.
- The first phase will be the Master Planning and public engagement where there will be community meetings, gathering input, and reviewing the concept and input.
- They will develop one alternative concept or plan that will be brought to Council for approval.
- If Council approves, AECOM will move forward with designing that final concept which will basically be a culmination of these concept plans and all the community input, as well as stakeholder input.
- These concepts were developed based on the items that were in the Master Plan, and some items can be moved around such as the rest rooms.
- Once we get to the final concept that comes out of the public engagement and Master Plan and Council approves, that is what will be designed.
- The public should have plenty of time to provide input.
- Some things that need to happen prior to the design is the survey and the environmental assessment.
- While we're doing the public engagement and the Master Planning, there will be surveyors out in the field gathering the data that we need to actually start the design.
- In order to meet the schedule of December 2021, some procedures will be done in tandem.
- All of that will be communicated.
- For consideration tonight is the design of the seven neighborhood parks, and some improvements at existing parks to be done by AECOM.

Councilmember Gunter inquired about supplying criteria to the company doing the public announcements as far as how many meetings and how they will be posted so that the public hears about it.

Mr. Ilczyszyn stated that was in the contract within Exhibit A: Consultant's Scope of Professional Services. Within that exhibit, there is a section for public engagement, section 2.2.5, page 15 of 36 which specifically identifies any tenants on the property and preparing a fact sheet for distribution to the City. Staff is planning on sending information out to the individual homes within a certain area (1-2 miles depending on location). He also noted more information could be found on 2.2.5. through 2.2.8, pages 15 and 16.

Mayor Coviello inquired about the procurement process in selecting AECOM, and if this was just addressing the seven neighborhood parks and not the three community parks.

Mr. Ilczyszyn stated when staff brought forward the resolutions for the community and the neighborhood parks, there was a ranking. The ranking for the #1 firm for the community parks was Kimley-Horn, and the ranking for the #1 firm for the neighborhood parks was AECOM. Negotiations have been completed with AECOM, and that is why the contract is being presented tonight for Council's approval. There are still some items outstanding with Kimley-Horn, and it is the intention to present that to Council when they return from hiatus.

Councilmember Stout moved, seconded by Councilmembers Carioscia to approve Resolution 135-19, as presented.

Council polled as follows: Stokes, Stout, Carioscia, Cosden, Coviello, Gunter, and Nelson voted "aye." Seven "ayes." Motion carried 7-0.

TIME AND PLACE OF FUTURE MEETINGS

A Committee of the Whole Meeting was scheduled for Monday, June 17, 2019 at 4:30 p.m. in Council Chambers.

MOTION TO ADJOURN

There being no further business, the meeting adjourned at 4:55 p.m.

CITY OF CAPE CORAL

TITLE:

Resolution 120-19 Approve the contract Extension with Life Extension Clinics, Inc., d/b/a Life Scan Wellness Centers for Pre-Employment and Wellness Physicals for the Police Department Bi-Annual Physicals and Fire Department Pre-Employment and Bi-Annual Physicals at the unit prices contracted for an estimated amount of \$160,000 not to exceed budgetary limit for an additional one year term while a competitive solicitation is issued and authorize the City Manager or designee to execute the contract extension and any related documents. This service is exempt from the City of Cape Coral Procurement Ordinance; Department: Police and Fire; Estimated Annual Dollar Value: \$160,000; (General Fund)

REQUESTED ACTION:

Approve or Deny

STRATEGIC PLAN INFO:

1. Will this action result in a Budget Amendment? No
 2. Is this a Strategic Decision? Yes
- If Yes, Priority Goals Supported are listed below.
- If No, will it harm the intent or success of the Strategic Plan?

ELEMENT E: INCREASE QUALITY OF LIFE FOR OUR CITIZENS BY DELIVERING PROGRAMS AND SERVICES THAT FOSTER A SAFE COMMUNITY

PLANNING & ZONING/HEARING EXAMINER/STAFF RECOMMENDATIONS:

SUMMARY EXPLANATION AND BACKGROUND:

1. Life Extension Clinics, Inc., d/b/a Life Scan Wellness Center currently provides physicals for the Fire Department, and Police Department providing a detailed physical designed specifically for public safety personnel, providing great success.
2. The contract was approved on July 28, 2014 under Resolution 57-14 for Fire Department Bi-Annual Physicals at an estimated annual dollar value of \$58,000 and amended on March 28, 2016 under Resolution 20-16 to include Fire Department Pre-Employment and the Police Department Bi-Annual Physicals increasing the estimated annual amount to \$150,000.
3. The original term of this agreement started in July 28, 2014 through July 27, 2017 with two one year renewals, with the final renewal ending on July 27, 2019.
4. If approved, the contract extension with Life Extension Clinics, Inc., d/b/a Life Scan Wellness Centers will be for an estimated amount of \$160,000 for up to an additional year.
5. Health Services is a service exempt from competitive solicitation per the City of Cape Coral Procurement Ordinance, Section 2-141 (12) Health services involving examination, diagnosis, treatment, prevention, medical consultation or administration. Even though this

service is exempt, a competitive solicitation will be forthcoming.

6. This is a budgeted item.

7. Funding Source: From the respective Department budget – Fire Department and Police Department

CITY OF CAPE CORAL
OFFICE OF THE FIRE CHIEF

TO: John Szerlag, City Manager
Victoria Bateman, Financial Services Director
Wanda Roop, Procurement Manager

FROM: Ryan W. Lamb, Fire Chief 

DATE: June 27, 2019

SUBJECT: Life Extension Clinics, Inc., dba Life Scan Wellness Centers, Contract Extension

Background

The Collective Bargaining Agreement (CBA) between the City of Cape Coral and the Cape Coral Professional Firefighters Local 2424 of the International Association of Firefighters Representing Supervisory and Rank & File Bargaining Units, Article 13, Section 2, specifies that all certified personnel of the Cape Coral Fire Department (CCFD) complete a full and comprehensive biennial physical exam. The City shall bear the cost of this biennial physical.

The City of Cape Coral entered into an agreement with Life Scan for providing the City a non-exclusive basis pre-employment and wellness physicals on July 28, 2014. The initial term of the contract was three years from the date of award, ending on July 27, 2017, with two additional one-year optional periods, upon mutual agreement by the City and Life Scan. The City has optioned both additional years, and the contract will expire on July 27, 2019.

Recommendation

The CCFD recommends that the current contract be extended until a new contract is in place through the issuance of a competitive solicitation. Until a contract is awarded, the extended contract would be utilized to comply with the CBA.

Life Scan has agreed to extend contract pricing until a contract is awarded. Physicals cost \$712 each for biennial or hazmat and \$689 for new hires. There are an estimated total of 136 physicals to be performed in the fiscal year 2020, 16 of which will be new hire, for a total cost of \$96,464.

Fund Availability

Funds are budgeted annually to perform the required physicals from account #122301.634110.

RWL/SRO:ekk

CAPE CORAL POLICE DEPARTMENT

Office of the Chief of Police

TO: John Szerlag, City Manger
Victoria Bateman, Financial Services Director
Wanda Roop, Procurement Manager

FROM: Anthony Sizemore, Acting Chief of Police 

DATE: June 26, 2019

SUBJECT: Life Scan Wellness Centers Contract Extension Request

Background

The Cape Coral Police Department currently utilizes Life Scan Wellness Centers (Life Scan) for sworn personnel bi-annual physical evaluations. The current contract, dated August 11, 2014, approved by Council on July 28, 2014 per Resolution 57-14 and amended on April 5, 2016 per Resolution 20-16 to include the Police Department, is set to expire on July 27, 2019.

Recommendation

The department is recommending to extend the current contract for one additional year, during which time an RFP will be conducted jointly by the Cape Coral Police and Fire Departments.

If extended, all terms and conditions and specifications of the Contract dated August 11, 2014, Contract Amendment #1 dated April 5, 2016, and Contract Renewal #1 dated July 28, 2017, and Contract Renewal #2 dated July 28, 2018 would be incorporated herein by reference and remain in full force and effect.

Due to a recent market analysis, Life Scan is still the lowest, most responsive, and responsible vendor. The estimated contract value for the department's FY2020 bi-annual physicals is \$63,700.

Fund Availability

Funding is available in the FY2020 Proposed Budget under 121101.634111.

RESOLUTION 120 - 19

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF CAPE CORAL, FLORIDA, APPROVING THE EXTENSION OF THE TERMS OF THE CONTRACT BETWEEN LIFE EXTENSION CLINICS, INC., D/B/A LIFE SCAN WELLNESS CENTERS AND THE CITY OF CAPE CORAL THROUGH JULY 27, 2020; AUTHORIZING EXECUTION OF THE CONTRACT EXTENSION BY THE CITY MANAGER OR HIS DESIGNEE; PROVIDING AN EFFECTIVE DATE.

WHEREAS, on July 28, 2014, City Council adopted Resolution 57-14, approving a contract with Life Extension Clinics, Inc., d/b/a Life Scan Wellness Centers for pre-employment and wellness physicals for the Fire Department for a term of three years with two additional one-year renewals; and

WHEREAS, on March 28, 2016, City Council adopted Resolution 20-16, approving an amendment to the contract to include annual physicals for the Police Department; and

WHEREAS, the final contract renewal expires on July 27, 2019; and

WHEREAS, although health services involving examination, diagnosis, treatment, prevention, medical consultation, or administration are exempt from City procurement procedures, staff will be conducting a competitive solicitation for Fire and Police Department physicals; and

WHEREAS, staff has requested an extension of the current contract with Life Extension Clinics, Inc., d/b/a Life Scan Wellness Centers for an additional year, during which time a competitive solicitation will be conducted; and

WHEREAS, the Police and Fire Departments recommend that the contract between Life Extension Clinics, Inc., d/b/a Life Scan Wellness Centers and the City of Cape Coral be extended through July 28, 2019, at an estimated cost of \$160,000.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF CAPE CORAL, FLORIDA:

Section 1. The City Council hereby approves the extension of the contract between Life Extension Clinics, Inc., d/b/a Life Scan Wellness Centers and the City of Cape Coral through July 27, 2020, at an estimated cost of \$160,000.

Section 2. The City Council hereby authorizes the City Manager or his designee to execute the Contract Extension, attached hereto as Exhibit A.

Section 3. Effective Date. This resolution shall take effect immediately upon its adoption by the Cape Coral City Council.

ADOPTED BY THE CITY COUNCIL OF THE CITY OF CAPE CORAL AT ITS REGULAR COUNCIL SESSION THIS _____ DAY OF _____, 2019.

CITY OF CAPE CORAL
CONTRACT EXTENSION
LIFE EXTENSION CLINICS, INC., dba LIFE SCAN WELLNESS CENTERS

Reference is made to the contract entered into between the City of Cape Coral and Life Extension Clinics, Inc., doing business as Life Scan Wellness Centers for providing Pre-employment and Wellness Physicals.

All terms and conditions and specifications of the aforementioned Contract dated August 11, 2014, Contract Amendment #1 dated April 5, 2016, Contract Renewal #1 dated July 28, 2017 and Contract Renewal #2 dated July 25, 2018, and the contractor's offer are incorporated herein by agreement of both contracting parties, this contract is hereby extended at the unit prices outlined in the Contract Documents effective July 28, 2019 through July 27, 2020.

Amended to include:

Pursuant to FL Statute §166.241, the City's performance and obligation to pay under this Contract is contingent upon an annual appropriation by the City Council. This Contract is not a commitment of future appropriations. Authorization for continuation and completion of work and any associated payments may be rescinded, with proper notice, at the discretion of the City if the City Council reduces or eliminates appropriations.

RESOLUTION 57 - 14

A RESOLUTION OF THE CITY OF CAPE APPROVING THE CONTRACT WITH LIFE EXTENSION CLINICS, INC., D/B/A LIFE SCAN WELLNESS CENTERS FOR PRE-EMPLOYMENT & WELLNESS PHYSICALS FOR THE FIRE DEPARTMENT AT THE UNIT PRICES IDENTIFIED IN THE CONTRACT; PROVIDING FOR SUBSEQUENT EXECUTION OF THE CONTRACT AND ANY FUTURE RENEWALS BY THE CITY MANAGER; PROVIDING AN EFFECTIVE DATE.

WHEREAS, pre-employment physicals and bi-annual wellness check are provided to Fire Department personnel per the rank and file contract; and

WHEREAS, based on research, it has been concluded that a more detailed physical designed specifically for public safety personnel would be beneficial; and

WHEREAS, the department, on a trial basis, utilized the services of Life Extension Clinics, Inc., d/b/a Life Scan Wellness Centers with great success. The physicals were specific to the Fire Department along with basic fitness profiles and diagnostic testing; and

WHEREAS, the services are provided onsite with minimal impact to the City, e.g., down time, travel issues and the turnaround time for testing are greatly reduced; and

WHEREAS, the City estimates a not-to-exceed yearly amount of \$58,000; and

WHEREAS, pursuant to Section 2-141(b) of the City of Cape Coral Code of Ordinances, contracts for health services involving examination, diagnosis, treatment, prevention, medical consultation, or administration are excepted from the purchasing and procurement requirements of Chapter 2, Administration, Article VII, Purchase and Sale of Real and Personal Property; and

WHEREAS, the City Manager recommends the approval of the contract from Life Extension Clinics, Inc. d/b/a Life Scan Wellness.

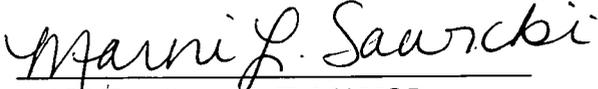

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF CAPE CORAL, FLORIDA, AS FOLLOWS:

Section 1. The City Council hereby approves the contract between the City of Cape Coral and Life Extension Clinics, Inc. d/b/a Life Scan Wellness Centers, for the Pre-Employment & Wellness Physicals in the estimated amount of \$58,000, subject to the availability of funds lawfully appropriated for this purpose in the City's budget.

Section 2. The City Council hereby authorizes the City Manager or City Manager's designee to execute the contract between the City of Cape Coral and Life Extension Clinics, Inc. d/b/a Life Scan Wellness Centers and authorizes the City Manager or his designee to approve and execute any authorized contract amendments or renewals to this Contract, provided that any such renewal or amendment does not exceed \$50,000 during any one year period.

Section 3. This Resolution shall take effect immediately upon its adoption.

ADOPTED BY THE CITY COUNCIL OF THE CITY OF CAPE CORAL AT ITS REGULAR COUNCIL SESSION THIS 28th DAY OF July, 2014.

RESOLUTION 20-16

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF CAPE CORAL APPROVING AMENDMENT #1 TO THE LIFE SCAN WELLNESS CENTERS CONTRACT FOR PRE-EMPLOYMENT AND WELLNESS PHYSICALS BETWEEN LIFE EXTENSION CLINICS, INC., D/B/A LIFE SCAN WELLNESS CENTERS AND THE CITY OF CAPE CORAL IN ORDER TO INCREASE THE CONTRACT AMOUNT TO \$150,000 PER YEAR; AUTHORIZING THE CITY MANAGER OR HIS DESIGNEE TO EXECUTE THE CONTRACT AMENDMENT; PROVIDING AN EFFECTIVE DATE.

WHEREAS, on July 28, 2014, the City Council approved a contract with Life Extension Clinics, Inc., d/b/a Life Scan Wellness Centers, for pre-employment and wellness physicals for the Fire Department in an amount not to exceed \$58,000 per year for a period of three years; and

WHEREAS, the Police Department is currently utilizing Lee Memorial Health Systems for annual physicals, but finds that Life Extension Clinics, Inc., d/b/a Life Scan Wellness Centers provides a more detailed physical designed specifically for public safety personnel; and

WHEREAS, in order to utilize Life Extension Clinics, Inc., d/b/a Life Scan Wellness Centers rather than Lee Memorial Health Systems for their annual physicals, the Police Department has requested an amendment to the Contract with Life Extension Clinics, Inc., d/b/a Life Scan Wellness Centers to increase the Contract amount to an annual amount not to exceed \$150,000; and

WHEREAS, pursuant to Section 2-141(b) of the City of Cape Coral Code of Ordinances, contracts for health services involving examination, diagnosis, treatment, prevention, medical consultation, or administration are excepted from the purchasing and procurement requirements of Chapter 2, Administration, Article VII, Purchase and Sale of Real and Personal Property; and

WHEREAS, the City Manager recommends amending the Contract with Life Extension Clinics, Inc., d/b/a Life Scan Wellness Centers, to increase the contract amount to a total annual amount of \$150,000, not to exceed budgetary limits, for physical examinations for both fire and police personnel.

WHEREAS, the City Council desires to approve Amendment #1 to the contract between the City of Cape Coral and Life Extension Clinics, Inc., d/b/a Life Scan Wellness Centers, increasing the estimated annual amount to \$150,000.

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF CAPE CORAL, FLORIDA, AS FOLLOWS:

Section 1. The City Council hereby approve Amendment #1 to the contract between the City of Cape Coral and Life Extension Clinics, Inc., d/b/a Life Scan Wellness Centers, increasing the estimated annual amount to \$150,000, not to exceed budgetary limits, and authorizes the City Manager to execute Amendment #1, attached hereto as Exhibit A.

Section 2. This Resolution shall take effect immediately upon its adoption.

Amend Contract-Life Scan Wellness Centers

CONTRACT – LIFE SCAN WELLNESS CENTERS

THIS CONTRACT is made this 11th day of August, 2014 by and between the CITY OF CAPE CORAL, FLORIDA, hereinafter called "CITY", and LIFE EXTENSION CLINICS, INC., d/b/a LIFE SCAN WELLNESS CENTERS hereinafter called "CONTRACTOR".

WITNESSETH: For and in consideration of the payments and agreements mentioned hereinafter:

1. The Contractor will provide on a non-exclusive basis Pre-employment and Wellness Physicals in accordance with the Contract Documents. The City reserves the right to engage other providers at its sole discretion to provide the Pre-employment and Wellness Physicals for its employees.
2. The Contractor will furnish all of the material, supplies, tools, equipment, labor and other services necessary for the completion of the services described in the Contract Documents. The Contractor to come to designated City facility to provide service described in the Contract Documents.
3. The Contractor agrees to perform services described in the Contract Documents at the unit prices identified in Exhibit A, attached hereto and made a part hereof.
4. The term of the contract to be awarded shall be for three years from date of award by City Council starting on JULY 28, 2014 and ending on JULY 27, 2017 and may be renewed for two additional, one-year periods upon mutual agreement by the City and the Contractor.
5. The Contract sum is a not to exceed amount of \$58,000 per year.
6. The City Manager or his designee shall have the authority to approve and execute any authorized Contract Amendments or Renewals to this Contract, provided that any such Renewal or Amendment does not exceed \$50,000, during any one year period.
7. This Contract may be terminated by the City for its convenience upon thirty (30) days prior written notice to the Contractor. In the event of termination, the Contractor shall be paid as compensation in full for work performed to the day of such termination, an amount prorated in accordance with the work substantially performed under this Contract.
8. The Term "Contract Documents" shall include this Contract and the Contractor's offer, more specifically "Exhibit A".
9. **Assignment:** This Contract may not be assigned except with the written consent of the City, and if so assigned, shall extend and be binding upon the successors and assigns of the Contractor.
10. **Disclosure:** The Contractor warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Contractor to solicit or secure this Contract and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for the Contractor, any fee, commission, percentage, gift, or other compensation contingent upon or resulting from the award or making of the Contract.
11. **Administration of Contract:** The Fire Chief, or their representative, shall administer this Contract for the City.
12. **Governing Law:** The validity, construction and effect of this Contract shall be governed by the laws of the State of Florida. All claim and/or dispute resolution under this Agreement, whether by mediation, arbitration, litigation, or other method of dispute resolution, shall take place in Lee County, Florida. More specifically, any litigation between the parties to this Agreement shall be conducted in the Twentieth Judicial Circuit, in and for Lee County, Florida. In the event of any litigation arising out of this

Contract, the prevailing party shall be entitled to recover from the non-prevailing party reasonable costs and attorney's fees.

13. **Amendments:** No Amendments or variation of the terms or conditions of this Contract shall be valid unless in writing and signed by the parties.
14. **Indemnity:** City and Contractor agree to indemnify each other to the extent permitted by law. Nothing contained herein shall constitute a waiver by either party of its sovereign immunity or the provisions of section 768.28, Florida Statutes.
15. **Invalid Provision:** The invalidity or unenforceability of any particular provision of this Contract shall not affect the other provisions hereof, and the Contract shall be construed in all respects as if such invalid or unenforceable provisions were omitted.
16. **Project Records:** The Contractor shall maintain auditable records concerning the procurement adequate to account for all receipts and expenditures, and to document compliance with the specifications. These records shall be kept in accordance with generally accepted accounting principles, and the City reserves the right to determine the record-keeping method in the event of non-conformity. These records shall be maintained for five (5) years after final payment has been made, and shall be readily available to City personnel with reasonable notice, and to other persons in accordance with the Florida Public Disclosure Statutes.

Records of the Contractor's personnel, sub-consultants, and the costs pertaining to the Project shall be kept in accordance with generally accepted accounting practices.

Contractor shall keep full and detailed accounts and financial records pertaining to the provision of services for the City. Prior to commencing work, Contractor shall review with and obtain the City's approval of the accounting procedures and records to be utilized by the Contractor on the Project. Contractor shall preserve the aforementioned Project records for a period of ten (10) years after final payment, or for such longer period as may be required by law.

17. **Public Records:** The City is a public agency subject to Chapter 119, Florida Statutes. The Contractor shall comply with Florida's Public Records Law. Specifically, the Contractor shall:
 - Keep and maintain public records that ordinarily and necessarily would be required by the City in order to perform the service;
 - Provide the public with access to such public records on the same terms and conditions that the City would provide the records and at a cost that does not exceed that provided in chapter 119, FS, or as otherwise provided by law;
 - Ensure that public records that are exempt or that are confidential and exempt from public record requirements are not disclosed except as authorized by law;
 - Meet all requirements for retaining public records and transfer to the City, at no cost, all public records in possession of the Contractor upon termination of the Agreement and destroy any duplicate public records that are exempt or confidential and exempt. All records stored electronically must be provided to the City in a format that is compatible with the information technology systems of the agency.

The failure of Contractor to comply with the provisions set forth in this Article shall constitute a Default and Breach of this Agreement and the City shall enforce the Default in accordance with the provisions set forth in Article 21.

18. **Insurance:** The following insurance will be required by the CITY OF CAPE CORAL. Any questions regarding the insurance requirements should be directed to the Risk Manager, (239) 574-0529.

Workers' Compensation: Coverage to apply for all employees for statutory limits in compliance with the applicable state and federal laws.

Comprehensive General Liability: Shall have minimum limits of \$1,000,000.00 per occurrence. Combined Single Limit for Bodily Injury Liability and Property Damage Liability. This shall include Premises and/or Operations, Independent Contractors and Products and/or Completed Operations, Broad Form Property Damage, XCU Coverage, and a Contractual Liability Endorsement.

Certificate of Insurance: The City of Cape Coral is to be specifically included as an additional insured. This does not pertain to Workers' Compensation.

Notification of expiration of insurance shall be provided to the additional named insured as per the certificate of insurance.

Unless otherwise specified, it shall be the responsibility of the contractor to ensure that all subcontractors comply with the same insurance requirements spelled out above.

All certificates of insurance must be on file with and approved by the City of Cape Coral before the commencement of any work activities.

19. **Unauthorized Aliens:**

The employment of unauthorized aliens by any Contractor is considered a violation of Section 274A(e) of the Immigration and Nationality Act. If the Contractor knowingly employs unauthorized aliens, such violation shall be cause for unilateral cancellation of any contract resulting from this solicitation. This applies to any sub-contractors used by the Contractor as well.

20. **Entire Agreement:** This Contract constitutes the entire and exclusive agreement between the parties and supersedes any and all prior communications, discussions, negotiations, understandings, or agreements, whether written or verbal.

(this section intentionally left blank)

IN WITNESS WHEREOF, the parties hereto have executed, or caused to be executed, by their duly authorized officials this Contract which shall be deemed original on the date last signed as below written:

Resolution 121-19 Approve contract renewal with Saba Software, Inc. for a Talent Management System (Learning Management System) to include Open Sesame and Saba Publisher in the amount of \$90,432.36 and approve the purchase of the recurring annual software support not to exceed budgetary limit and authorize the City Manager or designee to execute the contract renewals, amendments and corresponding documents; Department: Human Resources/ITS; Estimated Annual Dollar Value \$90,433; (General Fund)

REQUESTED ACTION:

Approve or Deny

STRATEGIC PLAN INFO:

1. Will this action result in a Budget Amendment? No

2. Is this a Strategic Decision?

If Yes, Priority Goals Supported are listed below.

If No, will it harm the intent or success of the Strategic Plan?

PLANNING & ZONING/HEARING EXAMINER/STAFF RECOMMENDATIONS:

SUMMARY EXPLANATION AND BACKGROUND:

1. Request for Proposal RFP-HR16-34/KS was issued for a Talent Management System for the Human Resources Department to enter into a multi year contract for software implementation services for an employee training system. Staff evaluated the proposals and vetted Saba Software as the #1 ranked firm.
2. The contract and subscription services were included as part of Resolution 107-15 approved by Council on August 3, 2015, in the amount of \$122,000.
3. This request is to authorize approval of the contract renewal and future recurring annual software support for an annual estimated amount of \$90,433 not to exceed budgetary limits.
4. This request includes the following amounts for the remainder of FY19: Saba Cloud Talent Package subscription in the amount of \$8,847.55; Open Sesame Package \$4,328.64 and Saba Publisher Inspire in the amount of \$310.68, for a total for FY19 in the amount of \$13,486.87.
5. The request for FY20 includes Saba Cloud Talent Package subscription in the amount of \$50,458.70; Open Sesame in the amount of \$24,686.79 and Saba Publisher Inspire in the amount of \$1,800, for a total for FY20 in the amount of \$76,945.49
6. This item is budgeted
7. Funding: The funding is available in the respective ITS and HR related budget: 118201.652122 ITS Business Application and 125501.652122 HR Employee Development

SUBJECT: Contract Renewal of SABA Learning Management System, SABA Publisher Inspire and OpenSesame Plus 25 – Order Q00024635

The Human Resources and IT Departments are requesting approval to renew the maintenance agreements for our learning management system within the current contract parameters, SABA, its course content, OpenSesame Plus 25 and SABA Publisher Inspire.

Background

In 2016, the City performed a formal Request for Proposal for a learning management system which resulted in the selection of SABA. This contract includes SABA Cloud talent package with OpenSesame content for 1430 users with SABA Publisher Inspire for 3 users.

In 2017, the City reached a need for additional/enhanced learning content. A cost and services comparison was performed and OpenSesame was recognized as the best value and ease of use. Due to this content already having been utilized in the first SABA contract, a short-term contract was permitted to coordinate with the next SABA contract renewal.

Recommendation

Staff recommends a contract renewal with SABA, SABA Publisher Inspire, and OpenSesame Plus 25. Contract time frame of 15-months to bring the timeframe in line with the City's fiscal year budgeting for a total cost of \$90,432.36 (\$13,486.87 in FY19 and \$76,945.49 in FY20).

Funds Availability

Funds are currently available in the FY2019 budget in the following structure:

\$8,847.55 for SABA – General Fund / BU 118201, Account 652122;
\$ 310.68 for SABA Publisher Inspire – General Fund / BU 118201, Account 65122; and
\$4,328.64 for OpenSesame – General Fund / BU 125501, Account 652122.

Funds are allocated in the FY2020 budgets in the following structure:

\$50,458.70 for SABA – General Fund / BU 118201, Account 652122;
\$ 1,800.00 for SABA Publisher Inspire – General Fund / BU 118201, Account 65122; and
\$24,686.79 for OpenSesame – General Fund / BU 125501, Account 652122.

RESOLUTION 121 – 19

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF CAPE CORAL APPROVING RENEWAL OF THE CONTRACT WITH SABA SOFTWARE, INC., AND THE PURCHASE OF RECURRING ANNUAL SOFTWARE SUPPORT; AUTHORIZING THE CITY MANAGER OR HIS DESIGNEE TO EXECUTE THE CONTRACT RENEWAL AND CORRESPONDING DOCUMENTS; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, Request for Proposal RFP-HR16-34/KS was issued for a Talent Management System for the Human Resources Department for a multi-year contract for software implementation services for an employee training system; and

WHEREAS, staff evaluated the proposals and ranked Saba Software, Inc., as the #1 firm; and

WHEREAS, the Saba Software, Inc. contract and subscription services were included in Resolution 107-15, in the amount of \$122,000; and

WHEREAS, staff is requesting approval to renew the contract with Saba Software, Inc., and to purchase future recurring annual software support for the Saba Cloud Talent Package, Open Sesame Package, and Saba Publisher Inspire through the end of FY2020 in the estimated total amount of \$90,433, not to exceed budgetary limits; and

WHEREAS, the City Council desires to authorize the renewal of the contract with Saba Software, Inc., and the purchase of future recurring annual software support for the Saba Cloud Talent Package, Open Sesame Package, and Saba Publisher Inspire through the end of FY2020, as specified in the attached Exhibit 1.

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF CAPE CORAL, FLORIDA, AS FOLLOWS:

Section 1. The City Council hereby approves the renewal of the contract with Saba Software, Inc., and the purchase of the recurring annual software support as specified in the attached Exhibit 1, in the estimated total amount of \$90,433, not to exceed budgetary limits.

Section 2. The City Council hereby authorizes the City Manager or his designee to execute the contract renewal, attached hereto as Exhibit 1, and any necessary corresponding documents.

Section 3. This Resolution shall take effect immediately upon its adoption.

ADOPTED BY THE CITY COUNCIL OF THE CITY OF CAPE CORAL AT ITS REGULAR COUNCIL SESSION THIS _____ DAY OF _____, 2019.

Products and Services

SKU	Product Name	QTY	UOM	Term	Total Price
CLD-SPC-303	Saba Cloud Talent Package	1,430	Employees	7/29/2019 - 9/30/2019	\$8,847.55
The Saba Cloud Talent Package includes Recruiting@Work, Learning@Work, Performance@Work, Succession@Work, Compensation@Work, Advanced Testing and Assessment, Collaboration, and Basic Organizational Charting features within Saba Cloud. There is a concurrency restriction that applies to the Saba Meeting / Classroom / Webinar features within Saba Cloud that limits the number of users that are allowed to attend a meeting, classroom, or webinar session at any one time. A Saba Cloud Talent Package subscription includes a flat 500 concurrent users. If the customer anticipates a higher number of participants will be attending future parallel meetings or classroom sessions, then the customer will need to also license additional concurrent users to meet their needs (use SKU CLD-SPC-450 for additional meeting, classroom, and webinar users).					
CNT-OPS-005	OpenSesame Plus 25 - Selected Courses. Minimum of 180 days between course selection changes.	1,400	Per Concurrent User	7/29/2019 - 9/30/2019	\$4,328.64
Customer's subscription includes up to 25 courses curated from the OpenSesame Plus bundle					
MKT-OPS-101	OpenSesame Connector for 501-1500 Users	1	Each	7/29/2019 - 9/30/2019	\$0.00
Only sell 1 connector per organization. The connector enables customers to search, sync, and manage OpenSesame content (content is purchased separately). Customers must purchase content from OpenSesame.					
CLD-SPC-303	Saba Cloud Talent Package	1,430	Employees	10/01/2019 - 9/30/2020	\$50,458.70

Terms:

The terms and conditions of any purchase order shall not apply. The pricing included in this Order is not valid unless an executed copy of this Order is received by Saba on or before 7/29/2019. The above-listed pricing is exclusive of all taxes, duties, withholdings and similar charges. Customer acknowledges that this Order is not reliant or contingent upon the delivery, or promise of delivery, of any future functionality, features, or products. This Order is subject to the terms and conditions of the Saba Cloud Subscription Agreement located at: <http://www.saba.com/legal/Saba-Cloud-Subscription-Agreement-201512.pdf> (the "Agreement"). Open Sesame Content is governed by the terms set out in the City of Cape Coral Contract Amendment #1, inclusive of all exhibits and attachments thereto, dated October 31, 2018.

Notwithstanding anything to the contrary in the Agreement:

(1) The validity, construction and effect of the Agreement and this Order shall be governed by the laws of the State of Florida. All claim and/or dispute resolution under this Agreement, whether by mediation, arbitration, litigation, or other method of dispute resolution, shall take place in Lee County, Florida.

To ensure you receive uninterrupted support and are not charged any reinstatement fees, payment must be received on or prior to the period of performance end date. This quote is for support and maintenance fees for the above services period pursuant to the agreement between Saba and you (the "Agreement"). These support fees entitle you to receive software updates and enhancements, as well as access to Saba Customer Support and services, in accordance with the Agreement. Any applicable taxes are not included. All terms and conditions agreed upon in the Agreement still apply unless otherwise stated in this quote. Lapsed support agreements are subject to all back-due support costs at 150% of the annual fees.

To accept this quotation, simply reply via email indicating your acceptance

ATTACHMENT A

OpenSesame Content Terms and Conditions

With respect to any OpenSesame course content created and/or made available by OpenSesame and resold by Saba Software, Inc. ("Saba") pursuant to an Order (collectively, "OS Courses"), use of such OS Courses is subject to the following terms and conditions. For the avoidance of doubt, in the event of any conflict or inconsistency between the below and the Agreement in place between Saba and Customer, only the below will apply with respect to the OS Courses:

Terms and Conditions

What Customer Is Buying and Usage

When Customer purchases an OS Course, Customer is purchasing a non-exclusive license to use that OS Course consistent with the purchased license type. Ownership of all intellectual property rights, including all copyright, trademarks, designs and patents whether registered or unregistered, and all other intellectual property, software and goodwill relating to the OS Course will remain with OpenSesame. All OS Course seats are sold for single person usage only and not to be broadcast, or otherwise shared.

Customer agrees not to copy, record, edit or alter or otherwise interfere with the OS Courses. This shall include without limitation: a) not using recording equipment to record during playback of the OS Courses; b) not overlaying the OS Courses with other audio, video or images or distorting the quality of the training programs; and c) not removing, editing or otherwise interfering with (or attempting to remove, edit or otherwise interfere with) any names, marks, logos or branding on the OS Courses.

Customer agrees not to (or attempt to) interfere with or disrupt the proper operation of Saba's or OpenSesame's software, hardware, systems or networks or the OS Courses, including (but not limited to) not knowingly or negligently transmitting files that may interrupt, damage, destroy or limit the functionality of any computer software, hardware, systems or networks, including (without limitation) corrupted files or files that contain viruses, trojans, worms, spyware or other malicious content.

Customer may not use the OS Courses for any purpose other than for the purpose for which it has been provided and Customer agrees not to use the OS Courses for illegal or inappropriate purposes. In particular, Customer agrees that Customer will not use the OS Courses to do any of the following: a) convey any false, unlawful, harassing, defamatory, abusive, hateful, racial, threatening, harmful, vulgar, obscene, seditious or otherwise objectionable or offensive material of any kind or nature; b) carry out any commercial business, send any unsolicited commercial emails, advertise or offer to sell any goods or services or conduct or forward surveys, contests or chain letters; or c) falsify the origin or source of any content or other material.

Customer's right to access and use the OS Courses may not be assigned, transferred or sublicensed by Customer, except that Customer may sublicense to Affiliates, as permitted pursuant to the Agreement between Saba and Customer.

Warranty; Indemnity; Liability; Security

Warranty. With respect to the OS Courses, the below warranty supersedes and replaces any warranty provision in the Agreement between Saba and Customer:

OpenSesame warrants that each OS Course will conform in all material respects with OpenSesame's standard end user documentation for such OS Course.

OpenSesame further warrants that (i) it has the legal right and authority to permit Saba to enter into this Agreement and perform its obligations hereunder, (ii) it will not introduce into the OS Courses any virus, worm, Trojan horse, time bomb, or other malicious or harmful code and (iii) the performance of its obligations hereunder and delivery and use of the OS Courses will not violate any applicable laws or regulations (including without limitation those related to privacy, security, and/or the collection, use, transmission and/or retention of data within or between any jurisdiction(s)).

OpenSesame further warrants that the OS Courses will be Available (as defined and further described in Exhibit A hereto) at least 99.9% of the time, measured monthly, as further described in the Service Level Agreement set forth in Exhibit A hereto. For any breach of the foregoing warranty, OpenSesame will provide a Service Credit, as defined and further described in Exhibit A.

Except as expressly set forth herein, OpenSesame and Saba do not make, and hereby disclaim, any and all other express and/or implied warranties with respect to the OS Courses. Customer is responsible for conducting its own research before choosing a course. This is the case even in the event that Customer requests assistance from OpenSesame or Saba in selecting courses.

Indemnity. With respect to the OS Courses, the below indemnity supersedes and replaces any indemnity provision in the Agreement between Saba and Customer:

OpenSesame shall defend or settle, at its expense, any claim or action ("Claim") against Saba and/or Customer that the OS Courses, as made available by OpenSesame, infringe any copyright, trade secret, patent or other proprietary right; and OpenSesame shall pay all final judgment awards against Saba and/or Customer, or settlement costs in connection with such Claim.

With respect to any OS Course(s) that are found to be infringing, or in Saba's opinion are likely to be found infringing, OpenSesame may, at its option, (a) obtain the right for Customer to continue using the OS Course(s); (b) replace or modify the OS Course(s) so they are no longer infringing but still provide substantially similar functionality, or (c) terminate the applicable OS Course(s). In the event of such termination, OpenSesame will refund any subscription fees pre-paid by Customer for the terminated OS Course(s), pro-rated for the remainder of Customer's subscription term after the effective date of termination.

Liability. With respect to the OS Courses, the below limit on liability supersedes and replaces any limit on liability set out in the Agreement between Saba and Customer:

Excepting OpenSesame's obligations to indemnify and defend, as set forth herein, OpenSesame's and Saba's cumulative liability for any claim will be limited to the fees received via the sale of OS Courses to Customer over the preceding 12 months.

Security. With respect to the OS Courses and any Customer Confidential Information stored or accessed by OpenSesame related thereto, the below security obligations supersede and replace any obligations related to security set out in the Agreement between Saba and Customer:

The security obligations applicable to the OS Courses is set forth in Exhibit B hereto.

Course Substitutions

OS Courses OpenSesame Plus and OpenSesame Basics are licensed per user on annual term(s) and licensed Customers may access all licensed OS Courses on an unlimited basis during the annual term.

The OpenSesame Plus and OpenSesame Basics libraries are specific subsets of OS Courses and are subject to change from time to time at OpenSesame's discretion.

EXHIBIT A

OS COURSES SERVICE LEVEL AND SUPPORT AGREEMENT

1. Definitions

- a. "Available" or "Availability" shall mean that the OS Courses are responsive and available for use. Availability is measured 24x7, on a calendar monthly basis. Unavailability does not mean an inability to connect to the OS Courses due to (i) a failure between Customer's computer(s) and the Internet; (ii) factors outside of OpenSesame's reasonable control; (iii) any action or inaction of Customer; or (iv) scheduled maintenance periods (every Monday 8PM-11:59PM US Pacific Time) and necessary but unscheduled maintenance of which Customer has reasonable notice.
- b. "Availability Assurance" means 99.9% for OS Courses resold by Saba.
- c. "Severity 1" shall mean that the all OS Courses are not Available (i.e. a "system down" support issue).
- d. "Report" shall mean submitting the reported issue via the electronic interface to OpenSesame's support tracking system, or in a telephonic or chat conversation with an OpenSesame support representative.
- e. "Resolve" or "Resolution" shall mean that OpenSesame has tested the affected OS course(s) and has notified Saba electronically or telephonically that the OS Course is accessible and usable.
- f. "Respond" or "Response" shall mean an electronic or telephonic notification to Saba, confirming that OpenSesame has logged the reported issue in OpenSesame's support tracking system.
- g. "Service Credit" shall mean a credit calculated in accordance with Section 3 below. A Service Credit shall be issued by discounting Customer's next payment for the OS Courses by the amount of the Service Credit.

2. Service Level Agreement. OpenSesame warrants that the OS Courses will perform in accordance with and subject to this Service Level Agreement.

2.1 Availability SLA. OpenSesame's target is 100% Availability of the OS Courses. If Customer experiences a Severity 1 issue or issues resulting in less than the applicable Availability Assurance, Saba is eligible to offer a Service Credit to Customer as set forth in Section 3.1 below.

2.2 Response and Resolution SLA. For a Severity 1 issue for OS Courses, OpenSesame commits to Respond to the issue within thirty (30) minutes and to Resolve the issue within forty-three (43) minutes after receiving a Report from Saba. If OpenSesame does not Respond to and/or Resolve a Severity 1 issue within the applicable defined time interval, OpenSesame shall issue Saba a Service Credit.

3. Service Credits.

3.1 Severity 1 / Unavailability. The amount of the Service Credit shall be calculated by multiplying Customer's pro-rated monthly fees for the OS Courses for the calendar month in which the Service Credit was incurred, by the percentage shown in the table below that corresponds to the actual Availability of the OS Courses during that month.

Availability Percentage	Percentage Credit
99% or over, but below 99.9%	25%
95% or over but below 99%	50%
Below 95%	100%

3.2 Service Credits apply only for OS Courses used in Customer production environment(s), and not to any development, staging, testing, QA or other non-production environment. Response and Resolution shall be measured from the time-stamp recorded at the time that the issue is submitted electronically by Saba.

EXHIBIT B
INFORMATION SECURITY

OpenSesame's ("Service Provider") security efforts will include, without limitation:

Logical Access Controls: Service Provider agrees to employ effective logical access control measures over all systems used to create, transmit, or process Customer Confidential Information, including but not limited to:

- User authentication must use unique identifiers ("User ID's") consistent with individual accountability;
- A complex password policy, including the prohibition of clear-text credentials must be enforced;
- User access rights/privileges to information resources containing Customer Confidential Information must be granted on a need-to-know basis consistent with role-based authorization.
- User access to Customer Confidential Information must be removed immediately upon user separation or role transfer eliminating valid business need for continued access.
- Default passwords and security parameters must be changed in third-party products/applications used to support Customer Confidential Information.

Network Security Architecture: Service Provider agrees to employ effective network security control measures over all systems used to create, transmit, or process Customer Confidential Information including but not limited to:

- Firewalls shall be operational at all times and shall be installed at the network perimeter between Service Provider's Internal (private) and public (Internet) networks.
- Properly configured and monitored IDS/IPS (Intrusion Detection/Prevention Systems) must be used on Service Provider's network.
- Databases or any data domains storing Customer data must be logically or physically separated from the web server, and the database may not reside on the same host as the web server, where applicable.
- The database and other information systems used for the purposes of processing Customer Confidential Information must have only those services/processes and ports enabled to perform routine business. All other services/processes on the host must be disabled.
- All information systems, repositories, etc. used for Customer by Service Provider, or its business partners, must be physically located in a controlled data center environment used for the purpose of protecting information systems.
- Secure channels (e.g., SSL, SFTP, SSH, IPSEC, etc.) must be used at all times for administering devices.

Physical Access Controls: Service Provider agrees to maintain servers, databases, and other hardware and/or software components that store information related to Customer's business activities in an access controlled and consistently monitored Data Center secured by appropriate alarm systems. The facility storing Customer data must follow best practices for infrastructure systems to include fire extinguishing, temperature control and employee safety.

Risk Assessment/Audit: Service Provider agrees to perform regular security vulnerability assessments. To the extent applicable, Service Provider agrees to maintain appropriate PCI certifications of its data security controls.

Security Policy: Service Provider agrees to maintain and enforce security policies consistent with security best practices, and all applicable regulatory and legal security and privacy requirements, including but not limited to ISO 27001, NIST 800-53 or other applicable laws communicated by Saba from time to time.

Training and Awareness: Service Provider agrees to provide necessary training to ensure security awareness in Service Provider personnel that are directly or indirectly engaged in handling Customer Confidential Information and systems, onsite or remotely, upon hire and at least annually.

Protection of Confidential Information: Service Provider agrees to protect all Customer Confidential Information as it would its own.

Additionally, Service Provider agrees to adhere to the following controls surrounding the use and protection of Customer Confidential Information:

- Customer Confidential Information must be encrypted with key sizes of 256-bit for symmetric and 2048-bit for asymmetric encryption.
- Clear text (ftp, telnet, etc.) protocols may not be used to access or transfer Customer Confidential Information. Customer Confidential Information must be encrypted when stored on portable media, which by way of example shall include USB Sticks, Portable hard drives, Laptops, DVD/CDs, and when transmitted on wireless networks or across public networks.
- Customer Confidential Information may not be copied, sold or used for solicitation purposes by the Service Provider or its business partners. Customer Confidential Information may only be used in conjunction with and within the scope of the Agreement to which this Exhibit is attached.
- Customer data must be segregated from other Service Provider customers, systems, or applications unrelated to Customer. Appropriate data security controls must be used over data at rest, including, access controls and encryption.
- Where applicable, Payment Card information must be masked on display rendering in a manner consistent with the Payment Card Industry Data Security Standard (PCI-DSS), the Fair and Accurate Credit Transaction Act (FACTA) and all other applicable laws and regulations.
- Service Provider must disclose where Customer data will be stored and processed. Storage and Processing of Customer Confidential Information shall take place within the agreed geographies between Saba and Service Provider.

System Monitoring: Service Provider agrees to regularly audit and monitor information systems to ensure the protection of Customer Confidential Information. Monitoring includes, but is not limited to, potential breaches or hacking activity and access to devices. Service Provider has defined processes for security alerting, escalation and remediation. Service Provider will ensure that event logs with Customer data are not provided to

other subscribers. If Service Provider uses virtual machines, it must ensure there is granular monitoring of traffic that is crossing the virtual machine backplanes.

Vulnerability Management Controls: Service Provider agrees to employ effective vulnerability management control measures over all of its systems used to create, transmit, or process Customer Confidential Information, including; but, not limited to:

- Deploy and maintain currency of up-to-date commercially available anti-virus, anti-spam, anti-malware software on all information system components including personal computers, laptops, and interconnecting networks, where applicable, used for the purpose of managing Customer Confidential Information. Additionally, provide for regular scanning for viral infections and update virus signature files frequently.
- Maintain a standard patch management process and practice to ensure the protection of any devices used to access, process or store Customer Confidential Information.
- Regularly auditing and monitoring to ensure the protection of Customer Confidential Information.

Data Destruction: Service Provider shall ensure that residual magnetic, optical, or electrical representation of Customer Confidential Information that has been deleted may not be retrieved or reconstructed when storage media is transferred, become obsolete or is no longer usable or required by Customer.

- Service Provider data retention and destruction will comply with applicable laws or regulations.
- Confidential information stored on Service Provider media (e.g., hard drive, optical discs, digital media, tapes, paper, etc.) will be rendered unreadable or unattainable using the NIST Guidelines for Media Sanitization (Special Pub 800-88), prior to the media being recycled, disposed of, or moved off-site.

RESOLUTION 107 - 15

A RESOLUTION OF THE CITY OF CAPE CORAL CITY COUNCIL APPROVING THE PURCHASE BY THE CITY MANAGER OF VEHICLE AND EQUIPMENT CAPITAL ASSETS FUNDED BY THE GENERAL FUND AND IDENTIFIED IN THE ATTACHED EXHIBIT A, AND TO DISPOSE OF ANY CITY-OWNED SURPLUS TANGIBLE PERSONAL PROPERTY THAT IS NO LONGER NEEDED BY THE CITY AS THE RESULT OF THE PURCHASE OF SUCH CAPITAL ASSETS FROM THE AFOREMENTIONED PURCHASES IN ACCORDANCE WITH THE REQUIREMENTS OF SECTION 2-154 OF THE CITY CODE AND THIS RESOLUTION; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, City staff has identified the need for the purchase of new and replacement vehicles, equipment, and software for the Police Department, Fire Department, Department of Community Development, Public Works, Parks and Recreation, and ITS, as outlined in the attached Exhibit A; and

WHEREAS, pursuant to the Code of Ordinances, Section 2-142(e), the City Manager has the authority to execute all procurement-related purchase orders, contracts, contract amendments and contract renewals in excess of \$50,000 after City Council approval; and

WHEREAS, pursuant to the Code of Ordinances, Section 2-141(c), the City Council may authorize the waiver of procurement procedures upon the recommendation of the City Manager that it is in the City's best interest to do so to obtain goods and services which cannot be acquired through the normal purchasing process due to insufficient time, the nature of the goods or services, or other factors; and

WHEREAS, the Code of Ordinances, Section 2-154 identifies the procedures and requirements for the proper disposition of surplus City-owned tangible personal property; and

WHEREAS, the City Manager requests City Council approval to purchase the vehicles, equipment, and software identified in the attached Exhibit A, to be funded by the General Fund; and

WHEREAS, the City Manager requests City Council to authorize the waiver of procurement procedures for the purchase of the items identified in Exhibit A if the City Manager finds that it is in the City's best interest to do so to obtain goods and services which cannot be acquired through the normal purchasing process due to insufficient time, the nature of the goods or services, or other factors; and

WHEREAS, the City Council finds that, in order to avoid unnecessary delays due to vehicle and equipment failures and to eliminate redundancy in the administrative process, it is in the best interest of the City to approve at this time the execution by the City Manager of all procurement-related purchase orders, contracts, contract amendments and contract renewals in excess of \$50,000, and to authorize the waiver of procurement procedures if the City Manager finds that it is in the City's best interest to do so for the purchase of any and all of the new and replacement equipment, vehicles, and software identified in the attached Exhibit A.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF CAPE CORAL, FLORIDA:

Section 1. The City Council hereby approves the execution by the City Manager of all procurement-related purchase orders, contracts, contract amendments and contract renewals in excess of \$50,000 for the purchase of new and replacement equipment, vehicles and software identified in the attached Exhibit A, pursuant to Section 2-142(e).

Section 2. The City Council hereby approves the waiver of procurement procedures in the event the City Manager believes that it would be in the City's best interest to obtain any equipment, vehicles or software identified in the attached Exhibit A outside of the normal procurement procedures identified in Section 2-144 of the City Code, pursuant to Section 2-141(c).

Section 3. If, as the result of a purchase of a replacement capital asset identified in the attached Exhibit A, the City Manager determines that any City-owned tangible personal property is surplus,

the City Manager is hereby authorized to dispose of the surplus property as provided in Section 2-154(c) of the City Code of Ordinances. Pursuant to Section 2-154(c)(6), a periodic report shall be submitted for any items sold at auction.

Section 4. Effective Date. This resolution shall take effect immediately upon its adoption by the Cape Coral City Council.

ADOPTED BY THE CITY COUNCIL OF THE CITY OF CAPE CORAL AT ITS REGULAR COUNCIL SESSION THIS 3rd DAY OF AUGUST, 2015.

Item Type: CONSENT AGENDA

AGENDA REQUEST FORM
CITY OF CAPE CORAL

TITLE:

Resolution 138-19 Award ITB-PW19-66/MM Hurricane Irma Tree Replacements – Phase 1 to DeAngelo Brothers, LLC., d/b/a Aquagenix as the lowest responsive responsible bidder, to replace palms and trees in various medians throughout the City, in the amount of \$84,820 with a City Controlled contingency of \$8,500 for a total project cost of \$93,320 and authorize the City Manager or Designee to execute the agreements, amendment and any renewals; Department: Public Works; Dollar Value \$93,320; (Transportation Capital Project Fund)

REQUESTED ACTION:

Approve or Deny

STRATEGIC PLAN INFO:

1. Will this action result in a Budget Amendment? No

2. Is this a Strategic Decision?

If Yes, Priority Goals Supported are listed below.

If No, will it harm the intent or success of the Strategic Plan?

PLANNING & ZONING/HEARING EXAMINER/STAFF RECOMMENDATIONS:

SUMMARY EXPLANATION AND BACKGROUND:

1. This project is to replace 114 palms and trees in various medians throughout the City. The scope includes the replacement of palms, trees, installing bracing, supports, banding, straps, removal of miscellaneous stumps, adding additional irrigation line to install bubblers, leveling or grading, augment soil and disposal of all debris. A large quantity of these palms and trees were loss resultant the wind and effect of Hurricane Irma in September 2017.
2. On April 3, 2019, the City issued Invitation to Bid ITB-PW19-66/MM for experienced and qualified firms to replace the palms and trees.
3. On May 10, 2019, two (2) firms responded to the Invitation to Bid. The two (2) firms in alphabetical order are: DeAngelo Brothers, LLC., d/b/a Aquagenix and Superior Landscaping & Lawn Service, Inc.
4. After evaluation and review, Staff recommends award to DeAngelo Brothers, LLC., d/b/a Aquagenix as the lowest responsive, responsible bidder meeting the requirements and specifications outlined in the bid documents.
5. If approved, the contract amount is for \$84,820 with a city-controlled contingency of \$8,500 for a total of \$93,320 to be substantially completed within 90 days from the City issuing a Notice to Proceed
6. The Department is requesting a City Controlled Contingency. The expenditure of the contingency, if any, will be subject to approval of specific change orders by the Project manager, if justified upon identified needs with an appropriate scope and cost to address

specific needs.

7. This is a budgeted item

8. Funding: Business Unit 3010610 Median Maintenance

DATE: May 15, 2019

SUBJECT: Hurricane Irma Tree Replacements – Phase 1 Bid No. ITB-PW19-66/MM

BACKGROUND: This project is to replace a total of 114 palms and trees in various medians throughout the City, lost as a result of Hurricane Irma in September 2017. Nursery stock, also damaged during the hurricane, is more widely available now.

RECOMMENDATION: An Invitation to Bid was advertised and two (2) bids were submitted and opened on May 10, 2019. Based upon the bid opening results, the Public Works Department recommends awarding the Hurricane Irma Tree Replacements-Phase 1 to Aquagenix. A check of Aquagenix's references showed a satisfactory rating. The contract includes a substantial completion time frame of ninety (90) days after the notice to proceed is issued.

Staff recommends awarding the contract in the amount of \$84,820 for the Hurricane Irma Tree Replacements-Phase 1 project. The contract price including a City controlled contingency of \$8,500 totaling \$93,320.

If you have any questions regarding this request, please contact John Castle, Senior Project Manager, Public Works at 239-242-3945 or jcastle@capecoral.net.

FUND AVAILABILITY: Transportation-Capital Improvements: Business Unit 3010610-\$84,820 plus a City controlled contingency of \$8,500 for a total project cost of \$93,320.

RESOLUTION 138 – 19

A RESOLUTION OF THE CITY OF CAPE CORAL AWARDING A BID FOR HURRICANE IRMA TREE REPLACEMENTS – PHASE I TO DEANGELO BROTHERS, LLC D/B/A AQUAGENIX; PROVIDING FOR SUBSEQUENT EXECUTION OF THE CONTRACT DOCUMENTS BY THE CITY MANAGER OR HIS DESIGNEE; PROVIDING FOR APPROVAL OF A CONTINGENCY AMOUNT; PROVIDING AN EFFECTIVE DATE.

WHEREAS, on April 3, 2019, INVITATION TO BID ITB-PW19-66/MM was issued for the replacement of 114 palms and trees in various medians throughout the City lost as a result of Hurricane Irma; and

WHEREAS, having received two bids, the City Manager recommends the award of the bid to DeAngelo Brothers, LLC d/b/a Aquagenix as the lowest qualified responsible and responsive bidder meeting the requirements and criteria set forth in the invitation to bid, in the amount of \$84,820, subject to a City-controlled contingency amount not to exceed ten (10) percent of the total amount of the contract.

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF CAPE CORAL, FLORIDA, AS FOLLOWS:

Section 1. The City Council hereby awards the bid for Hurricane Irma Tree Replacements – Phase I to DeAngelo Brothers, LLC d/b/a Aquagenix in the amount of \$84,820, subject to a City-controlled contingency amount not to exceed ten (10) percent of the total amount of the contract.

Section 2. The City Council hereby approves Contract #CON-PW19-66/MM between the City of Cape Coral and DeAngelo Brothers, LLC d/b/a Aquagenix for Hurricane Irma Tree Replacements – Phase I, and authorizes the City Manager or his designee to execute the Contract. A copy of the Contract is attached hereto as Exhibit 1.

Section 3. The City Council hereby authorizes the City Manager or the City Manager's designee to enter into change orders for work required other than as contemplated in the contract documents with an appropriate scope and cost to address those needs, subject to payment of a City-controlled contingency amount not to exceed ten (10) percent of the total amount of the contract.

Section 4. This Resolution shall take effect immediately upon its adoption.

ADOPTED BY THE CITY COUNCIL OF THE CITY OF CAPE CORAL AT ITS REGULAR COUNCIL SESSION THIS _____ DAY OF _____, 2019.

City of Cape Coral
HURRICANE IRMA TREE REPLACEMENTS – PHASE 1
Contract CON-PW19-66/MM

THIS CONTRACT is made this _____ day of _____, 2019 by and between the CITY OF CAPE CORAL, FLORIDA, hereinafter called "CITY", and DEANGELO BROTHERS, LLC., d/b/a AQUAGENIX, doing business as a corporation, located at 100 North Conahan Drive, Hazelton, PA 18201 hereinafter called "CONTRACTOR"

WITNESSETH For and in consideration of the payments and agreements mentioned hereinafter

1. Contractor shall install additional palms and trees as shown on the Site Plans. This work will include installing bracing, supports, banding, straps, removal of miscellaneous stumps, adding additional irrigation line to install bubblers and disposal of all debris in accordance with the Contract Documents.
2. The CONTRACTOR will commence work as required by the CONTRACT DOCUMENTS within 10 calendar days after the receipt of the written Notice to Proceed and will complete the same in accordance within ninety (90) days unless otherwise amended in writing.
3. The CONTRACTOR agrees to perform all of the WORK described in the CONTRACT DOCUMENTS for the total lump sum price of \$84,820.00 said amount being the Total quoted amount as listed on the CONTRACTOR'S Official Bid Proposal Form for this project, specifically Exhibit A hereto and made a part hereof. At the City's discretion items listed as Additional Bid Items in the Contract Documents may or may not be purchased.
4. This Contract may be terminated by the CITY for its convenience upon thirty (30) days prior written notice to the CONTRACTOR. In the event of termination, the CONTRACTOR shall be paid as compensation in full for work performed to the day of such termination, an amount prorated in accordance with the work substantially performed under this Contract. Such amount shall be paid by the CITY after inspection of the work to determine the extent of performance under this Contract, whether completed or in progress.
5. The Term "Contract Documents" shall include this Contract, addenda, Contractor's Bid except when it conflicts with any other contractual provision, the Notice to Proceed, the Bonds, and the Bid Package which includes the Site Plans for the tree replacements prepared and issued by the City. In the event of conflict between any provision of any other document referenced herein as part of the contract and this Contract, the terms of this Contract shall control.
6. Assignment. This Contract may not be assigned except with the written consent of the CITY and if so assigned, shall extend and be binding upon the successors and assigns of the CONTRACTOR.
7. Disclosure. The CONTRACTOR warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the CONTRACTOR to solicit or secure this Contract and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for the CONTRACTOR, any fee, commission, percentage gift, or other compensation contingent upon or resulting from the award or making of the Contract.
8. Administration of Contract. The Public Works Director or his representative, shall administer this Contract for the CITY.

1
Exhibit 1

City of Cape Coral
HURRICANE IRMA TREE REPLACEMENTS – PHASE 1
Contract CON-PW19-66/MM

9. Governing Law: The validity, construction and effect of this Contract shall be governed by the laws of the State of Florida. All claim and/or dispute resolution under this Agreement, whether by mediation, arbitration, litigation, or other method of dispute resolution, shall take place in Lee County, Florida. More specifically, any litigation between the parties to this Agreement shall be conducted in the Twentieth Judicial Circuit, in and for Lee County, Florida. In the event of any litigation arising out of this Contract, each party shall be responsible to pay for its own reasonable costs and attorney fees.
10. Amendments: No Amendments or variation of the terms or conditions of this Contract shall be valid unless in writing and signed by the parties
11. Payments
CITY shall make payment and CONTRACTOR shall be in receipt of all sums properly invoiced within thirty (30) days of the City's receipt of such invoice unless, within a fifteen (15) day period, CITY notifies CONTRACTOR in writing of its objection to the amount of such invoice, together with CITY'S determination of the proper amount of such invoice. CITY shall pay any undisputed portion of such invoice within such thirty (30) day period.
- If CITY shall give such notice to the CONTRACTOR within such fifteen (15) day period, such dispute over the proper amount of such invoice shall be resolved, and after final resolution of such dispute, CITY shall promptly pay the CONTRACTOR the amount so determined, less any amounts previously paid by CITY with respect to such invoice. In the event it is determined that CITY has overpaid such invoice, the CONTRACTOR shall promptly refund to the CITY the amount of such overpayment.
12. Contractor's Representations: In order to induce CITY to enter into the Contract CONTRACTOR makes the following representations
- CONTRACTOR has been familiarized with the Contract Documents and the nature and extent of the work required to be performed, locality, local conditions, and Federal, State, and Local laws, ordinances, rules and regulations that in any manner may affect costs, progress or performance of the work.
- CONTRACTOR has made or caused to be made examinations, investigations and tests and studies as deemed necessary for the performance of the Work at the Contract Price, within the Contract Time and in accordance with the other terms and conditions of the Contract
- Documents, and no additional examinations, investigations, tests, reports or similar data are or will be required by CONTRACTOR for such purposes
- CONTRACTOR has correlated the results of all such observations, examinations, investigations, tests, reports and data with the terms and conditions of the Contract Documents.
- CONTRACTOR has given CITY written notice of all conflicts, errors or discrepancies that have been discovered in the CONTRACT DOCUMENTS and the written resolution thereof by CITY is acceptable to CONTRACTOR
13. Indemnity: To the extent permitted by law (F.S. 768.28), the CONTRACTOR shall indemnify and hold harmless the CITY, its officers and employees, from liabilities, damages, losses and costs, including, but not limited to, reasonable attorney's fees to the extent caused by the negligence, recklessness, or intentional wrongful misconduct of the CONTRACTOR and any persons employed or utilized by CONTRACTOR in the performance of this Contract

City of Cape Coral
HURRICANE IRMA TREE REPLACEMENTS - PHASE 1
Contract CON-PW19-66/MM

14. Damage Liability. The awarded CONTRACTOR shall be responsible for all claims filed for damage to private property, windows, screen enclosures, real estate signs, etc. Additionally, the CONTRACTOR shall be responsible for damage to all public property or utility property, fire hydrants, catch basins, guy wires, telephone pedestals, etc. Copies of all damage claims shall be submitted to the Procurement Division.
15. Invalid Provision. The invalidity or unenforceability of any particular provision of this Contract shall not affect the other provisions hereof, and the Contract shall be construed in all respects as if such invalid or unenforceable provisions were omitted.
16. Project Records. The CONTRACTOR shall maintain auditable records concerning the procurement adequate to account for all receipts and expenditures, and to document compliance with the specifications. These records shall be kept in accordance with generally accepted accounting methods, and the CITY reserves the right to determine the record-keeping method in the event of non-conformity. These records shall be maintained for three (5) years after final payment has been made and shall be readily available to CITY personnel with reasonable notice, and to other persons in accordance with the Florida Public Disclosure Statutes.
17. Insurance. Without limiting its liability under this contract, CONTRACTOR shall procure and continuously maintain, without interruption, at its own expense the following insurance (limits and specifications) during the life of this Contract:
 - a. Worker's Compensation Insurance covering all employees meeting Statutory Limits in compliance with the applicable state and federal laws. The policy must include Employer's Liability with a minimum limit of \$1,000,000.00 for each accident.
 - b. Comprehensive General Liability coverage shall have minimum limits of \$1,000,000.00 per occurrence, combined single limit for Bodily Injury Liability and Property Damage Liability. This shall include Premises and/or Operations, Independent Contractors and Products and/or Completed Operations, Broad Form Property Damage, and Contractual Liability Endorsement.
 - c. Business Vehicular Liability coverage shall have minimum limits of \$1,000,000.00 per occurrence. Combined Single Limit for Bodily Injury Liability, and Property Damage Liability. This shall include Owned Vehicles, Hired and non-Owned Vehicles and Employees Non-Ownership.
 - d. The City shall be listed as an Additional Insured on all policies. In the event the insurance coverage expires prior to completion of the project, a renewal certificate shall be issued 30 days prior to said expiration date. The policy shall provide a 30-day notification clause in the event of cancellation or modification to the policy.
 - e. Unless otherwise specified, it shall be the responsibility of the proposing firm to ensure that all sub-Contractors comply with the same insurance requirements herein. All certificates of insurance must be on file with and approved by the City before the commencement of work activities. Waivers of subrogation shall also be provided upon approval of the applicable insurers.
 - f. The proposing firm shall "flow down" the requirements of this provision to all sub-Contractors.
 - g. The limits of insurance required above must be retained throughout the term of the contract. The proposing firm must notify the City immediately if any of the required coverage limits are reduced due to claim activity or for any other reason.

City of Cape Coral
HURRICANE IRMA TREE REPLACEMENTS – PHASE 1
Contract CON-PW19-66/MM

18. Annual Appropriation Contingency: Pursuant to Florida Statute §166.241, the City's performance and obligation to pay under this Contract is contingent upon an annual appropriation by the City Council. This Contract is not a commitment of future appropriations. Authorization for continuation and completion of work and any associated payments may be rescinded, with proper notice, at the discretion of the City if the City Council reduces or eliminates appropriations.
19. Unauthorized Aliens: The employment of unauthorized aliens by any Contractor is considered a violation of Section 274A(e) of the Immigration and Nationality Act. If the Contractor knowingly employs unauthorized aliens, such violation shall be cause for unilateral cancellation of any contract resulting from this ITB. This applies to any sub-contractors used by the Contractor as well.
20. Entire Agreement: This Contract constitutes the entire and exclusive agreement between the parties and supersedes any and all prior communications, discussions, negotiations, understandings, or agreements, whether written or verbal.

Wanda Roop, Procurement Manager

FROM: Kerry Runyon, Parks and Recreation Director 
Keith Locklin, Recreation Superintendent 
Julie Gerhard, Arts Studio Recreation Program Supervisor 

DATE: July 3, 2019

SUBJECT: Jean Inman Sculpture Pavilion

Background

The Stone sculpture program is in desperate need of a protected outdoor workspace that is conducive to their processes which includes chiseling, sanding, grinding and polishing, all which must take place outdoors in a ventilated area. Resolution 6-11 of the City of Cape Coral accepted the bequest from the late Norma Jean Inman for improving and advancing the stone sculpture program at the City's Arts Studio. She was recognized for her many years of devoted teaching, imparting her skills to many students. Her work and accomplishments as a team leader are evident in the sculpture, "The Florida Panther" that graces the foyer of City Hall. This project is intended to enhance the Stone Sculpture program and recognize the generocity and wishes Norma Jean Inman.

Recommendation

The Cape Coral Parks and Recreation Department requests funds in the total of \$24,959.00 to cover the construction of the Norma Jean Inman Bequest to construct a 20' Charleston hexagon pavilion, the "Jean Inman Sculpture Pavilion". The bequest funds are held by the Cape Coral Community Foundation and require a "Certificate of Use" be issued prior to releasing funds. The project to be constructed and completed by Playmore Recreational Products and Services. The City of Cape Coral Facilities Division will connect the structure to water and electric. Playmore has an active contract with the School Distric of Manatee Manatee County 16-0025-MR.

Project total: \$24,959.00

Fund Availability

Funding is available in 185006.699901 and will be reimbursed by the Cape Coral Community Foundation, Norma Jean Inman Bequest.

RESOLUTION 140 – 19

A RESOLUTION OF THE CITY OF CAPE CORAL CITY COUNCIL APPROVING THE USE OF GENERAL FUND UNDESIGNATED RESERVES FOR THE CONSTRUCTION OF THE JEAN INMAN SCULPTURE PAVILION; PROVIDING AN EFFECTIVE DATE.

WHEREAS, on February 28, 2011, City Council adopted Resolution 6-11, accepting a bequest from the late Norma Jean Inman for the purpose of improving and advancing the stone sculpture program of the City's Arts Studio; and

WHEREAS, the Parks and Recreation Department is requesting a release of funds to construct a pavilion that is conducive to the work involved in the sculpting program, such as chiseling, sanding, grinding and polishing, at an estimated cost of \$24,959; and

WHEREAS, funding is available in the General Fund Undesignated Reserves, which will be reimbursed by the Cape Coral Community Foundation, which holds the Norma Jean Inman bequest funds, upon completion of the project; and

WHEREAS, City Council desires to approve the use of General Fund Undesignated Reserves for the funding of the Jean Inman Sculpture Pavilion project, to be reimbursed by funds from the Norma Jean Inman Memorial Trust held by the Cape Coral Community Foundation upon completion of the project.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF CAPE CORAL, FLORIDA:

Section 1. The City Council hereby approves the use of General Fund Undesignated Reserves for the funding of the Jean Inman Sculpture Pavilion project, in the estimated amount of \$24,959, to be reimbursed by funds from the Norma Jean Inman Memorial Trust held by the Cape Coral Community Foundation upon completion of the project.

Section 2. Effective Date. This resolution shall take effect immediately upon its adoption by the Cape Coral City Council.

RESOLUTION 6 - 11

A RESOLUTION OF THE CITY OF CAPE CORAL ACCEPTING A BEQUEST FROM THE LATE NORMA JEAN INMAN FOR THE PURPOSE OF IMPROVING AND ADVANCING THE STONE SCULPTURE PROGRAM OF THE CITY'S ARTS STUDIO; ACKNOWLEDGING AND RECOGNIZING HER SERVICE TO THE CITY OF CAPE CORAL'S FINE ARTS PROGRAM IN THE AREA OF STONE SCULPTURE; RECOGNIZING HER MANY YEARS OF DEVOTED TEACHING IMPARTING HER SKILLS TO HER MANY STUDENTS; ACKNOWLEDGING HER WORK AND ACCOMPLISHMENTS AS THE TEAM LEADER OF THE PROJECT TEAM THAT SCULPTED THE SCULPTURE OF THE FLORIDA PANTHER THAT GRACES THE FOYER OF CITY HALL; PROVIDING TERMS AND CONDITIONS FOR USE OF THE BEQUEST: PROVIDING AN EFFECTIVE DATE.

WHEREAS, the late Norma Jean Inman provided instruction in stone sculpture to numerous students for 18 years at the City's Arts Studio and,

WHEREAS, she was truly an inspiration to many students and patrons of the arts and unselfishly gave of her time and talents and,

WHEREAS, she continued to serve as an inspiration and example by continuing to teach even when her eye sight was failing due to macular degeneration and,

WHEREAS, an example of her great talent is exemplified by her leading the project team that produced the stunning sculpture of the Florida panther that graces the foyer of city hall and is admired by all visitors and,

WHEREAS, Norma Jean Inman's devotion to the City Arts Studio is continued by her generous bequest in support of the sculpting program and,

WHEREAS, as a result of her bequest the City desires to support the City Arts Studio stone sculpture program by establishing the Norma Jean Inman Memorial Fund (Fund).

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF CAPE CORAL, FLORIDA, AS FOLLOWS:

Section 1. City Council authorizes the City of Cape Coral to accept the generous \$50,000 bequest from the estate of the late Norma Jean Inman and establish the Norma Jean Inman Memorial Fund (Fund). The Finance Director is authorized to establish a separate line item in the City's budget to be designated as The Norma Jean Inman Memorial Trust (Trust). All income earned from the bequest shall be deposited in the Trust to be used solely for the purposes prescribed by this resolution. The Cape Coral Community Foundation is authorized to invest the funds of the bequest in interest bearing instruments that yield the highest income consistent with prudence, safety, and the purposes of the bequest. All income generated by the bequest funds shall be segregated and set apart from other City funds. The City will not charge any fees for managing the funds of the bequest.

Section 2. The interest from the corpus may be used to support any activities or functions of the City Art Studio's sculpting program including but not limited to purchase of supplies, equipment, materials, holding exhibitions and paying prizes for works submitted, providing financial support to students, bringing renowned artists to instruct, commissioning sculptured works, or for any other purpose that fosters appreciation of, benefits, or enhances the City Art Studio's sculpting program. Where funds from the corpus or income generated from the bequest is used to support the sculpting program, the City will provide appropriate acknowledgement that the support was made possible by funds from the Norma Jean Inman Memorial Fund.

Section 3. Only the income generated from the corpus will be used to support the City Art Studio's sculpting programs. However, the corpus of the Fund may be invaded in whole or in part and the funds used to renovate, remodel, create, equip or construct a portion of a building or a structure such as a room, studio, or exhibition gallery, or to construct a separate structure or

building dedicated to the art of sculpting. In any event, the buildings or any part thereof for which monies from the corpus of the Fund are used shall be dedicated in the memory of and named after the decedent, Norma Jean Inman.

Section 4. Effective Date. This resolution shall take effect immediately upon its adoption by the Cape Coral City Council.

ADOPTED BY THE CITY COUNCIL OF THE CITY OF CAPE CORAL AT ITS REGULAR COUNCIL SESSION THIS 28th DAY OF FEBRUARY, 2011.

AGENDA REQUEST FORM
CITY OF CAPE CORAL

TITLE:

Resolution 146-19 Award ITB-PR19-65/MM Parks and Recreation: Pavilions to Sussman Enterprises Southern Division Inc, as the lowest responsive responsible bidder, to install four (4) pavilion shade structures in the amount of \$189,000 with a City controlled contingency of \$11,000 for a total project cost of \$200,000 and authorize the City Manager or Designee to execute the agreements, amendment and any renewals; Department: Parks and Recreation; Dollar Value \$200,000; (Governmental Capital Project Fund-funded by GO Bond)

REQUESTED ACTION:

Approve or Deny

STRATEGIC PLAN INFO:

1. Will this action result in a Budget Amendment? Yes
2. Is this a Strategic Decision? Yes

If Yes, Priority Goals Supported are listed below.

If No, will it harm the intent or success of the Strategic Plan?

ELEMENT E: INCREASE QUALITY OF LIFE FOR OUR CITIZENS BY DELIVERING PROGRAMS AND SERVICES THAT FOSTER A SAFE COMMUNITY

PLANNING & ZONING/HEARING EXAMINER/STAFF RECOMMENDATIONS:

SUMMARY EXPLANATION AND BACKGROUND:

1. This project is to install two (2) pavilion shade structures at the Northwest Softball Complex and two (2) at Horton Park as part of the GO Bond Park Improvement Plan. These pavilion structures will provide shade for residents attending sporting events and for families using the adjacent playgrounds.
2. On April 17, 2019, the City issued Invitation to Bid ITB-PR19-65/MM for experienced and qualified firms to install pavilions at the Northwest Softball Complex and Horton Park.
3. On May 22, 2019, three (3) firms responded to the Invitation to Bid. The three (3) firms in alphabetical order are: Playmore West, Inc., Sussman Enterprises Southern Division, Inc., and ZEP Construction, Inc..
4. After evaluation, Staff recommends award to Sussman Enterprises Southern Division, Inc as the lowest responsive, responsible bidder meeting the requirements and specifications outlined in the bid documents.
5. If approved, the contract amount is for \$189,000 with a City-controlled contingency of \$11,000 for a total of \$200,000 to be completed within 60 days from the written Notice to Proceed.
6. The Department is requesting an \$11,000 City Controlled Contingency. The expenditure of

the contingency, if any, will be subject to approval of specific change orders by the Project manager, if justified upon identified needs with an appropriate scope and cost to address specific needs.

7. Funding Information: Governmental Capital Project Fund- funded by GO Bond - Business Units: 3112002 Northwest Softball Complex and 3112003 Horton Park - Funded through General Obligation debt proceeds and to approve the expenditure appropriation, it will be presented with Budget Amendment # 2

A RESOLUTION OF THE CITY OF CAPE CORAL AWARDING A BID FOR THE PARKS AND RECREATION: PAVILIONS PROJECT TO SUSSMAN ENTERPRISES SOUTHERN DIVISION INC.; PROVIDING FOR SUBSEQUENT EXECUTION OF THE CONTRACT DOCUMENTS BY THE CITY MANAGER OR HIS DESIGNEE; PROVIDING FOR APPROVAL OF A CONTINGENCY AMOUNT; PROVIDING AN EFFECTIVE DATE.

WHEREAS, on April 17, 2019, INVITATION TO BID ITB-PR19-65/MM was issued for the installation of two pavilion shade structures at the Northwest Softball Complex and two pavilion shade structures at Horton Park; and

WHEREAS, having received three bids, the City Manager recommends the award of the bid to Sussman Enterprises Southern Division Inc. as the lowest qualified responsible and responsive bidder meeting the requirements and criteria set forth in the invitation to bid, in the amount of \$189,000, subject to a City-controlled contingency amount not to exceed \$11,000.

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF CAPE CORAL, FLORIDA, AS FOLLOWS:

Section 1. The City Council hereby awards the bid for the Parks and Recreation: Pavilions project for the installation of two pavilion shade structures at the Northwest Softball Complex and two pavilion shade structures at Horton Park to Sussman Enterprises Southern Division Inc. in the amount of \$189,000, subject to a City-controlled contingency amount not to exceed \$11,000.

Section 2. The City Council hereby approves Contract #CON-PR19-65/MM between the City of Cape Coral and Sussman Enterprises Southern Division Inc. for the Parks and Recreation: Pavilions project, and authorizes the City Manager or his designee to execute the Contract. A copy of the Contract is attached hereto as Exhibit 1.

Section 3. The City Council hereby authorizes the City Manager or the City Manager's designee to enter into change orders for work required other than as contemplated in the contract documents with an appropriate scope and cost to address those needs, subject to payment of a City-controlled contingency amount not to exceed ten (10) percent of the total amount of the contract.

Section 4. This Resolution shall take effect immediately upon its adoption.

City of Cape Coral
PARKS AND RECREATION: PAVILIONS
Contract CON-PW19-65/MM

THIS CONTRACT is made this _____ day of _____, 2019 by and between the CITY OF CAPE CORAL, FLORIDA, hereinafter called "CITY", and SUSSMAN ENTERPRISES SOUTHERN DIVISION INC., doing business as a corporation, located at 9349 Hialeah Terrace, Port Charlotte, FL 33981 hereinafter called "CONTRACTOR".

WITNESSETH: For and in consideration of the payments and agreements mentioned hereinafter:

1. The CONTRACTOR will commence and complete the Parks and Recreation: Pavilions project in accordance with the Contract Documents.
2. The CONTRACTOR will furnish all of the material, supplies, tools, equipment, labor and other services necessary for the completion of the project described in the Contract Documents.
3. The CONTRACTOR will commence work as required by the CONTRACT DOCUMENTS as stipulated in the written NOTICE TO PROCEED and will complete the same within sixty (60) calendar days from and including the date of commencement unless the period for completion is extended otherwise by the CONTRACT DOCUMENTS. Time is of the essence in the performance of this agreement.
4. The CONTRACTOR agrees to perform all of the WORK described in the CONTRACT DOCUMENTS for a total sum of \$189,000.00, said amount being the Total Bid Amount as listed on the CONTRACTOR'S Official Bid Proposal Form as submitted for this project, specifically Exhibit A hereto and made a part hereof.
5. This agreement may be terminated by the CITY for its convenience upon thirty (30) days prior written notice to the CONTRACTOR. In the event of termination, the CONTRACTOR shall be paid as compensation in full for work performed to the day of such termination, an amount prorated in accordance with the work substantially performed under this agreement. Such amount shall be paid by the CITY after inspection of the work to determine the extent of performance under this agreement, whether completed or in progress.
6. The Term "Contract Documents" shall include this Contract, addenda, Contractor's Bid except when it conflicts with any other contractual provision, the Notice to Proceed, the Bonds, the Bid Package prepared and issued by the CITY, the General Conditions, the Specifications and Drawings AS-SQ20-04-MG and AS-SQ20-04 Sheets 1, 2 and 3, any Special Conditions, together with all Written Amendments, Change Orders, Work Change Directives or Field Orders. In the event of conflict between any provision of any other document referenced herein as part of the contract and this agreement, the terms of this agreement shall control.
7. Assignment: This agreement may not be assigned except with the written consent of the CITY, and if so assigned, shall extend and be binding upon the successors and assigns of the CONTRACTOR.
8. Disclosure: The CONTRACTOR warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the CONTRACTOR, to solicit or secure this agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for the CONTRACTOR, any fee, commission, percentage, gift, or other compensation contingent upon or resulting from the award or making of the agreement.
9. Administration of Agreement: The Public Works Director or his representative shall administer this agreement for the CITY.

City of Cape Coral
PARKS AND RECREATION: PAVILIONS
Contract CON-PW19-65/MM

10. Governing Law: The validity, construction and effect of this Contract shall be governed by the laws of the State of Florida. All claim and/or dispute resolution under this Agreement, whether by mediation, arbitration, litigation, or other method of dispute resolution, shall take place in Lee County, Florida. More specifically, any litigation between the parties to this Agreement shall be conducted in the Twentieth Judicial Circuit, in and for Lee County, Florida. In the event of any litigation arising out of this Contract, each party shall be responsible to pay for its own reasonable costs and attorney's fees.
11. Amendments: No Amendments or variation of the terms or conditions of this agreement shall be valid unless in writing and signed by the parties.
12. Payment Procedures: CONTRACTOR shall submit Applications for Payment in accordance with PART 17, General Conditions of the Invitation to Bid. Applications for Payment will be processed by the CITY as provided in the General Conditions.

Progress Payments: As long as progress on the Work is satisfactory according to the CONTRACTOR'S Work schedule, the CITY shall make payments on account of the contract as follows:

On no later than the fifth (15) day of every month the CONTRACTOR shall present to the CITY an invoice covering the total quantities under each item of work that have been completed from the start of the job up to and including the last day of the preceding month, and the value of the work so completed is in accordance with the schedule of unit prices.

All such invoices are approximate only and are subject to corrections by the final estimate. Measures shall be in accordance with Paragraph 17.1 of the General Conditions. No later than thirty (30) days after submittal by the CONTRACTOR and approval by CITY, the CITY shall, after deducting previous payments made, pay the CONTRACTOR 90% of the amount of the invoice. The 10% retained percentage shall be held by the CITY until final completion. When 50 percent of the contract sum specified in section 4 of this contract, together with all costs associated with existing change orders and other additions or modifications to the construction services provided for in this contract is expended, thereafter the retainage shall be reduced to 5%.

Substantial Completion: The time at which the Work (or a specified part thereof) has progressed to the point where, in the opinion of the CITY'S Engineer, the Work (or a specified part thereof) is sufficiently complete, in accordance with the Contract Documents, so that the Work (or a specified part thereof) can be utilized for the purposes for which it is intended. The terms "substantially complete" and "substantially completed" as applied to all or part of the Work, refer to Substantial Completion thereof. The CITY'S Engineer will issue a "Certificate of Substantial Completion" establishing the date of substantial completion.

Final Payment: Upon final completion and acceptance of the Work in accordance with Paragraph 17.7 of the General Conditions, CITY shall pay the remainder of the Contract Price as recommended by A/E as provided in paragraph 17.7 of the Invitation to Bid.

13. Contractor's Representations: In order to induce CITY to enter into the Agreement CONTRACTOR makes the following representations:

CONTRACTOR has been familiarized with the Contract Documents and the nature and extent of the work required to be performed, locality, local conditions, and Federal, State, and Local laws, ordinances, rules and regulations that in any manner may affect costs, progress or performance of the work.

City of Cape Coral
PARKS AND RECREATION: PAVILIONS
Contract CON-PW19-65/MM

CONTRACTOR has studied carefully all reports of investigations and tests of subsurface, and latent physical conditions at the site which may affect cost, progress or performance of the Work. This information was relied upon by ENGINEER in the preparation of the Drawings and Specifications.

CONTRACTOR has made or caused to be made examinations, investigations and tests and studies as deemed necessary for the performance of the Work at the Contract Price, within the Contract Time and in accordance with the other terms and conditions of the Contract Documents; and no additional examinations, investigations, tests, reports or similar data are or will be required by CONTRACTOR for such purposes.

CONTRACTOR has correlated the results of all such observations, examinations, investigations, tests, reports and data with the terms and conditions of the Contract Documents.

CONTRACTOR has given CITY written notice of all conflicts, errors or discrepancies that have been discovered in the CONTRACT DOCUMENTS and the written resolution thereof by CITY is acceptable to CONTRACTOR.

14. Indemnity: The CONTRACTOR shall indemnify and hold harmless the CITY, its officers and employees, from liabilities, damages, losses and costs, including, but not limited to, reasonable attorney's fees, to the extent caused by the negligence, recklessness, or intentional wrongful misconduct of the CONTRACTOR and any persons employed or utilized by CONTRACTOR in the performance of this Contract.
15. Other Provisions: The CITY reserves unto itself sole authority to execute and authorize the issuance of change order(s), directives, or other documents to the CONTRACTOR which impact on or change the contract time or price. These actions by the CITY will be taken after due consideration of the recommendations and analysis of the ENGINEER. This provision supersedes any other contradictory provisions within the Contract Documents.
16. Invalid Provision: The invalidity or unenforceability of any particular provision of this agreement shall not affect the other provisions hereof, and the agreement shall be construed in all respects as if such invalid or unenforceable provisions were omitted.
17. Record Keeping: The awarded bidder shall maintain auditable records concerning the procurement adequate to account for all receipts and expenditures, and to document compliance with the specifications. These records shall be kept in accordance with generally accepted accounting principles, and the City of Cape Coral reserves the right to determine the record-keeping method in the event of non-conformity. If a Public Construction Bond is required records shall be maintained for ten (10) years, after final payment has been made and shall be readily available to City personnel with reasonable notice, and to other persons in accordance with the Florida Public Disclosure Statutes.

Records of the Contractor's personnel, sub-consultants, and the costs pertaining to the Project shall be kept in accordance with generally accepted accounting practices.

Contractor shall keep full and detailed accounts and financial records pertaining to the provision of services for the City. Prior to commencing work, Contractor shall review with and obtain the City's approval of the accounting procedures and records to be utilized by the Contractor on the Project. Contractor shall preserve the aforementioned Project records for a period of ten (10) years after final payment, or for such longer period as may be required by law.

City of Cape Coral
PARKS AND RECREATION: PAVILIONS
Contract CON-PW19-65/MM

18. Public Record: Pursuant to Florida Statute §287.058 (1) (c), this contract may be unilaterally cancelled by the City if the Consultant, refuses to allow public access to all documents, papers, letters, or other material made or received by the Consultant in conjunction with this contract, unless the records are exempt from disclosure.
19. Unauthorized Aliens: The employment of unauthorized aliens by any Contractor is considered a violation of Section 274A(e) of the Immigration and Nationality Act. If the Contractor knowingly employs unauthorized aliens, such violation shall be cause for unilateral cancellation of any contract resulting from this ITB. This applies to any sub-contractors used by the Contractor as well.
20. Guarantee: The Contractor shall warrant all materials furnished and work performed for a period of one year from the date of written acceptance by the City or by the date on the substantial completion letter. The making and acceptance of final payment shall not waive any claim for faulty work appearing after final payment or for failure to adhere strictly to the Construction Documents. If any part of the project is guaranteed for a longer period, such longer period shall prevail. Except as otherwise specified, all work shall be guaranteed by the Contractor against defects resulting from the use of inferior materials, equipment or workmanship for one year from the date of final completion and acceptance by the City.
21. Annual Appropriation Contingency: Pursuant to Florida Statute §166.241, the City's performance and obligation to pay under this Contract is contingent upon an annual appropriation by the City Council. This Contract is not a commitment of future appropriations. Authorization for continuation and completion of work and any associated payments may be rescinded, with proper notice, at the discretion of the City if the City Council reduces or eliminates appropriations.
22. Entire Agreement: This Contract constitutes the entire and exclusive agreement between the parties and supersedes any and all prior communications, discussions, negotiations, understandings, or agreements, whether written or verbal.

City of Cape Coral

TO: John Szerlag, City Manager
Vicki Bateman, Financial Services Director
Wanda Roop, Procurement Manager

FROM: Kerry Runyon, Parks and Recreation Director 
Matthew Creed, Parks Superintendent 

DATE: June 3, 2019

SUBJECT: Pavilions – Northwest Softball and Horton Park

The Parks Division is requesting approval to purchase pavilions at Northwest Softball Complex and Horton Park from Sussman Enterprises, Inc. in the amount of \$189,000.

Background

The Cape Coral Parks Department would like to add two (2) pavilion shade structures at NW Softball Complex and two (2) pavilion shade structures at Horton Park as part of the GO Bond Park Improvement Plan. These pavilion structures will provide shade for residents attending sporting events and families using the adjacent playgrounds.

Recommendation

The Procurement Division advertised this project via formal bidding process. The pavilion design and construction documents went out for Invitation to Bid and received three competitive bids. The City of Cape Coral received bids from Zep Construction, Inc. at a total cost of \$297,198.00, Playmore Recreational Products and Services at a total cost of \$261,040.00, and Sussman Enterprises, Inc. Southern Division at a total cost of \$189,000.00.

It is the recommendation of the Parks Division to accept the bid from Sussman Enterprises, Inc. for the total cost of \$189,000.00 to complete construction of the four (4) pavilions at NW Softball Complex and Horton Park. Also, requesting a City Controlled Contingency in the amount of \$11,000.

The Procurement Division has vetted Sussman Enterprises, Inc. and found it to be a fair bid and is justified for scope of project.

Funds Availability

Funds for these projects have been budgeted in the Go Bond Park Improvement Plan.

Business Unit 3112002 (Northwest Softball Complex)
Business Unit 3112003 (Horton Park)

If you have any questions and/or need any additional information on a specific item(s) please let me know.

AGENDA REQUEST FORM
CITY OF CAPE CORAL

TITLE:

Resolution 147-19 Award Bid #UT19-28/MC to Odyssey Manufacturing Co as the lowest, responsive and responsible bidder for the Sodium Hypochlorite Tank Replacement and Containment Structure Rehabilitation Project, at the bid price of \$99,070 with a 10% City controlled contingency of \$9,907 for a total amount of \$108,977 and authorize the City Manager or his designee to execute the contract, amendments, purchase orders, change orders and all required documents; Department: Utilities; Estimated Dollar Value: \$108,977; (Water and Sewer unassigned/reserve Fund)

REQUESTED ACTION:

Approve or Deny

STRATEGIC PLAN INFO:

1. Will this action result in a Budget Amendment? Yes
 2. Is this a Strategic Decision? Yes
- If Yes, Priority Goals Supported are listed below.
- If No, will it harm the intent or success of the Strategic Plan?

ELEMENT C: INVEST IN COMMUNITY INFRASTRUCTURE INCLUDING UTILITIES EXPANSION IMPROVEMENTS TO ENHANCE THE CITY'S ABILITY TO MEET THE NEEDS OF ITS CURRENT AND FUTURE RESIDENTS AND BUSINESSES

PLANNING & ZONING/HEARING EXAMINER/STAFF RECOMMENDATIONS:

SUMMARY EXPLANATION AND BACKGROUND:

1. The Sodium Hypochlorite Tank Replacement and Containment Structure Rehabilitation project consists of replacing two existing Sodium Hypochlorite tanks with temporary tanks while rehabilitating the containment area then installing two new City owned tanks at the Everest Water Reclamation Facility. The work includes any required maintenance of traffic, demolition of existing tanks, repair, restoration of the site and installation of new tanks in compliance with City specifications.
2. Invitation to Bid #ITB-UT19-28/MC was issued on May 1, 2019 to secure a contractor to replace the two existing Sodium Hypochlorite Tanks at the Everest Water Reclamation Facility. Thirty vendors obtained the bid and ten vendors obtained all documents.
3. On June 5, 2019, one bid was received. The bidder is Odyssey Manufacturing Co of Tampa, FL.
4. The other bidders were polled regarding their "no bid" reasons which ranged from current workloads at capacity, manufacturer's representative, work being outside normal scope of services, size of project and being a bid service.

5. After evaluation, City staff recommends awarding the bid to Odyssey Manufacturing Co, as the lowest, responsive and responsible bidder having met the requirements and specifications outlined in the bid documents.
6. If approved, the term of the contract will be for approximately 120 calendar days.
7. This is a budgeted item.
8. Funding: Funding for this project has been included in the Utilities Department's proposed revised FY19 CIP Budget and will be forthcoming from the Water & Sewer unassigned fund balance which will be reflected in the Budget Department's amendment #2.

DATE: June 21, 2019

SUBJECT: Utilities Department's Recommendation of Award for the Sodium Hypochlorite Tank Replacement and Secondary Containment Structure Rehabilitation, ITB-UT19-28/MC

Project Scope:

This Contract is for the construction necessary to replace the two existing 11,800-gallon Fiberglass Reinforced Plastic (FRP) sodium hypochlorite tanks with two new 10,500 Snyder High Density Linear Polyethylene (HDLPE) tanks including the replacement of the existing chemical feed pump skid and associated piping and appurtenances. The Work shall consist of, but is not limited to, the following:

- Acquire and install two temporary double-walled tanks (6,550-gal./each, minimum).
- Acquire and install a temporary triplex pump skid.
- Install all temporary piping, power and control wiring to make the system operational.
- Remove existing FRP sodium hypochlorite tanks and select piping and appurtenances.
- Prepare and recoat the secondary containment area.
- Install the new HDLPE tanks and associated piping and appurtenances.
- Test the new system for proper operation prior to placing into full operation.
- Remove the temporary double-wall tanks and temporary triplex pump skid.

Project Bids:

On Wednesday, June 5, 2019, the City of Cape Coral received one (1) Bid from a qualified contractor for the Sodium Hypochlorite Tank Replacement and Secondary Containment Structure Rehabilitation, ITB-UT19-28/MC. The Bid was received from: Odyssey Manufacturing Company out of Tampa, Florida. The bid item extensions and the summation of the bid items was checked for accuracy.

The Total Estimated Construction Cost was as follows:

Odyssey Manufacturing Company	\$99,070.00
-------------------------------	-------------

Utilities Department Recommendation:

The Procurement Department reviewed the bid total and the bidder's qualifications as submitted along with additional requested documentation and has determined that Odyssey Manufacturing Company is a responsive responsible bidder for the Sodium Hypochlorite Tank Replacement and Secondary Containment Structure Rehabilitation, ITB-UT19-28/MC. The Utilities Department concurs with the Procurement Department's determination that Odyssey Manufacturing Company is a responsive responsible bidder. The Utilities Department therefore recommends award of the Sodium Hypochlorite Tank Replacement and Secondary Containment Structure Rehabilitation, ITB-UT19-28/MC to Odyssey Manufacturing Company for the Total Estimated Construction Cost of \$99,070.00.

Contingency Funds:

In conjunction with recommending the award of the Sodium Hypochlorite Tank Replacement and Secondary Containment Structure Rehabilitation Project, the Utilities Department requests a contingency amount of ten percent (10%) of the Total Estimated Construction Cost be allocated for this project. The project involves working around existing infrastructure. With this type of work, the Utilities Department may encounter unforeseen obstacles requiring extra attention on behalf of the contractor. The Utilities Department must be prepared to deal with these situations in a timely manner to assure the project is completed in an expeditious manner thereby minimizing disruption to Everest Water Reclamation Facility. Additional costs requested by the contractor will be reviewed by the Utilities Department prior to the work being performed.

Fund Availability:

The construction cost of \$99,070.00 plus the city controlled contingency amount of \$9,907.00 totals \$108,977.00 for the project. Funding for this project has been included in the Utilities Department's proposed Revised FY19 CIP Budget and will be forthcoming from the Water and Sewer-reserves/unassigned fund balance.

Thank you for your attention to this important matter. Should you have any questions or if we can be of further assistance please give William H. (Bill) Sperry, PE a call at 574-0729.

RESOLUTION 147 – 19

A RESOLUTION OF THE CITY OF CAPE CORAL AWARDING A BID FOR THE SODIUM HYPOCHLORITE TANK REPLACEMENT AND CONTAINMENT STRUCTURE REHABILITATION PROJECT TO ODYSSEY MANUFACTURING CO.; PROVIDING FOR SUBSEQUENT EXECUTION OF THE CONTRACT DOCUMENTS BY THE CITY MANAGER OR HIS DESIGNEE; PROVIDING FOR APPROVAL OF A CONTINGENCY AMOUNT; PROVIDING AN EFFECTIVE DATE.

WHEREAS, on May 1, 2019, INVITATION TO BID ITB-UT19-28/MC was issued for the Sodium Hypochlorite Tank Replacement and Containment Structure Rehabilitation Project; and

WHEREAS, having received one bid, the City Manager recommends the award of the bid to Odyssey Manufacturing Co. as the lowest qualified responsible and responsive bidder meeting the requirements and criteria set forth in the invitation to bid, in the amount of \$99,070, subject to a City-controlled contingency amount not to exceed ten (10) percent.

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF CAPE CORAL, FLORIDA, AS FOLLOWS:

Section 1. The City Council hereby awards the bid for the Sodium Hypochlorite Tank Replacement and Containment Structure Rehabilitation Project to Odyssey Manufacturing Co., in the amount of \$99,070, subject to a City-controlled contingency amount not to exceed ten (10) percent.

Section 2. The City Council hereby approves Contract CON-UT19-28/MC between the City of Cape Coral and Odyssey Manufacturing Co., for the Sodium Hypochlorite Tank Replacement and Containment Structure Rehabilitation Project and authorizes the City Manager or his designee to execute the Contract. A copy of the Contract is attached hereto as Exhibit 1.

Section 3. The City Council hereby authorizes the City Manager or the City Manager's designee to enter into change orders for any work other than as contemplated in the contract documents with an appropriate scope and cost to address those needs, subject to payment of a City-controlled contingency amount not to exceed ten (10) percent of the total amount of the contract.

Section 4. This Resolution shall take effect immediately upon its adoption.

ADOPTED BY THE CITY COUNCIL OF THE CITY OF CAPE CORAL AT ITS SPECIAL COUNCIL SESSION THIS _____ DAY OF _____, 2019.

THIS CONTRACT is made this ____ day of _____, 2019 by and between the **CITY OF CAPE CORAL, FLORIDA**, hereinafter called "**OWNER**", and Odyssey Manufacturing Co., 1484 Massaro Blvd, Tampa, FL 33619 doing business as a corporation, hereinafter called "**CONTRACTOR**".

WITNESSETH: For and in consideration of the payments and agreements mentioned hereinafter:

1. The CONTRACTOR will commence and complete the Sodium Hypochlorite Tank Replacement and Containment Structure Rehabilitation project in accordance with the Contract Documents.
2. The CONTRACTOR will furnish all of the material, supplies, tools, equipment, labor and other services necessary for the completion of the project described in the Contract Documents.
3. The CONTRACTOR will commence work as required by the CONTRACT DOCUMENTS as stipulated in the written NOTICE TO PROCEED and the Work will be substantially complete within Ninety (90) calendar days from the date Contract Times commence to run and be completed and ready for final payment within One-hundred twenty (120) calendar days from the date Contract Times commence to run. The CONTRACTOR agrees that liquidated damages will be assessed in the amount of Three-Hundred Fifty Dollars (\$350.00) per calendar day for each calendar day that contract is not completed beyond the completion date required by the CONTRACT DOCUMENTS.

Any sums due and payable hereunder by the CONTRACTOR shall be payable, not as a penalty, but as liquidated damages representing an estimate of delay damages likely to be sustained by the OWNER, estimated at the time of executing this Contract. When the OWNER reasonably believes that Completion will be inexcusably delayed, the OWNER shall be entitled, but not required, to withhold from any amounts otherwise due the CONTRACTOR an amount then believed by the OWNER to be adequate to recover liquidated damages applicable to such delays. If and when the CONTRACTOR overcomes the delay in achieving Completion, or any part thereof, for which the OWNER has withheld payment, the Owner shall promptly release to the CONTRACTOR those funds withheld, but no longer applicable, as liquidated damages.

4. The CONTRACTOR agrees to perform all of the WORK described in the CONTRACT DOCUMENTS for a total sum of Ninety-Nine Thousand Seventy Dollars (\$99,070), said amount being the Total Bid Amount as listed on the CONTRACTOR'S Official Bid Proposal Form (Attachment A) as submitted for this project. The OWNER reserves the right to negotiate additional related services.
5. This agreement may be terminated by the OWNER for its convenience upon thirty (30) days prior written notice to the CONTRACTOR. In the event of termination, the CONTRACTOR shall be paid as compensation in full for work performed to the day of such termination, an amount prorated in accordance with the work substantially performed under this agreement. Such amount shall be paid by the OWNER after inspection of the work to determine the extent of performance under this agreement, whether completed or in progress.
6. The Term "Contract Documents" shall include this Contract, addenda, Contractor's Bid except when it conflicts with any other contractual provision, the Notice to Proceed, the Bonds (if applicable), the Bid Package prepared and issued by the Owner, the General Conditions, the General Requirements, the Specifications and Drawings, any Special Conditions, together with all Written Amendments, Change Orders, Work Change Directives or Field Orders. In the event of conflict between any provision of any other document referenced herein as part of the contract and this agreement, the terms of this agreement shall control.
7. Assignment: This agreement may not be assigned except with the written consent of the OWNER, and if so assigned, shall extend and be binding upon the successors and assigns of the CONTRACTOR.

CON-UT19-28/MC
SODIUM HYPOCHLORITE TANK REPLACEMENT
AND CONTAINMENT STRUCTURE REHABILITATION
Page 2 of 5

8. Disclosure: The CONTRACTOR warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the CONTRACTOR to solicit or secure this agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for the CONTRACTOR, any fee, commission, percentage, gift, or other compensation contingent upon or resulting from the award or making of the agreement.

9. Administration of Agreement: The Utilities Director or his representative shall administer this agreement for the OWNER.

10. Governing Law: The validity, construction and effect of this Contract shall be governed by the laws of the State of Florida. All claim and/or dispute resolution under this Agreement, whether by mediation, arbitration, litigation, or other method of dispute resolution, shall take place in Lee County, Florida. More specifically, any litigation between the parties to this Agreement shall be conducted in the Twentieth Judicial Circuit, in and for Lee County, Florida. In the event of any litigation arising out of this Contract, the prevailing party shall be entitled to recover from the non-prevailing party reasonable costs and attorney's fees.

11. Amendments: No Amendments or variation of the terms or conditions of this agreement shall be valid unless in writing and signed by the parties.

12. Payment Procedures: OWNER shall make payment and Contractor(s) shall be in receipt of all sums properly invoiced within thirty (30) days of the OWNER's receipt of such invoice unless, within a fifteen (15) day period, OWNER notifies Contractor(s) in writing of its objection to the amount of such invoice, together with OWNER's determination of the proper amount of such invoice. OWNER shall pay any undisputed portion of such invoice within such thirty (30) day period.

If OWNER shall give such notice to the Contractor(s) within such fifteen (15) day period, such dispute over the proper amount of such invoice shall be resolved, and after final resolution of such dispute, OWNER shall promptly pay the Contractor(s) the amount so determined, less any amounts previously paid by OWNER with respect to such invoice. In the event it is determined that OWNER has overpaid such invoice, the Contractor(s) shall promptly refund to the OWNER the amount of such overpayment.

13. Contractor's Representations: In order to induce OWNER to enter into the Agreement CONTRACTOR makes the following representations:

CONTRACTOR has been familiarized with the Contract Documents and the nature and extent of the work required to be performed, locality, local conditions, and Federal, State, and Local laws, ordinances, rules and regulations that in any manner may affect costs, progress or performance of the work.

CONTRACTOR has studied carefully all reports of investigations and tests of subsurface, and latent physical conditions at the site which may affect cost, progress or performance of the Work. This information was relied upon by Project Manager in the preparation of the Drawings and Specifications.

CONTRACTOR has made or caused to be made examinations, investigations and tests and studies as deemed necessary for the performance of the Work at the Contract Price, within the Contract Time and in accordance with the other terms and conditions of the Contract Documents; and no additional examinations, investigations, tests, reports or similar data are or will be required by CONTRACTOR for such purposes.

CONTRACTOR has correlated the results of all such observations, examinations, investigations, tests, reports and data with the terms and conditions of the Contract Documents.

CONTRACTOR has given OWNER written notice of all conflicts, errors or discrepancies that have been discovered in the CONTRACT DOCUMENTS and the written resolution thereof by OWNER is acceptable to CONTRACTOR.

CON-UT19-28/MC
SODIUM HYPOCHLORITE TANK REPLACEMENT
AND CONTAINMENT STRUCTURE REHABILITATION
Page 3 of 5

14. Indemnity: The CONTRACTOR shall indemnify and hold harmless the OWNER, its officers and employees, from liabilities, damages, losses and costs, including, but not limited to, reasonable attorney's fees, to the extent caused by the negligence, recklessness, or intentional wrongful misconduct of the CONTRACTOR and any persons employed or utilized by CONTRACTOR in the performance of this Contract.
15. Other Provisions: The OWNER reserves unto itself sole authority to execute and authorize the issuance of change order(s), directives, or other documents to the CONTRACTOR which impact on or change the contract time or price. These actions by the OWNER will be taken after due consideration of the recommendations and analysis of the Project Manager. This provision supersedes any other contradictory provisions within the Contract Documents.
16. Damage Liability: The awarded CONTRACTOR shall be responsible for all claims filed for damage to all private property, including but not exclusive of, windows, screen enclosures, real estate signs. Additionally, the CONTRACTOR shall be responsible for damage to all public property or utility property, including but not exclusive of, fire hydrants, catch basins, guy wires and telephone pedestals. Copies of all damage claims shall be submitted to the Procurement Division.
17. Invalid Provision: The invalidity or unenforceability of any particular provision of this agreement shall not affect the other provisions hereof, and the agreement shall be construed in all respects as if such invalid or unenforceable provisions were omitted.
18. Project Records: The Contractor shall maintain auditable records concerning the procurement adequate to account for all receipts and expenditures, and to document compliance with the specifications. These records shall be kept in accordance with generally accepted accounting methods, and the City of Cape Coral reserves the right to determine the record-keeping method in the event of non-conformity. These records shall be maintained for five (5) years, and ten (10) years on capital projects, after final payment has been made and shall be readily available to City personnel with reasonable notice, and to other persons in accordance with the Florida Public Disclosure Statutes.
19. Public Records: Pursuant to Florida Statute §287.058 (1) (c), this contract may be unilaterally cancelled by the City if the Contractor refuses to allow public access to all documents, papers, letters, or other material made or received by the Contractor in conjunction with this contract, unless the records are exempt from disclosure.
20. Performance and Payment Bond (If Applicable): Any Contractor entering into a contract for the construction of a public building or public work, or for any repairs upon a building or public work shall, before commencing work, execute, deliver to the City of Cape Coral, and record in the public records of Lee County, Florida, a public construction bond issued by a surety authorized to do business in the State of Florida. The amount of the bond shall be 100% of contract amount.
21. Unauthorized Aliens: The employment of unauthorized aliens by any Contractor is considered a violation of Section 274A(e) of the Immigration and Nationality Act. If the Contractor knowingly employs unauthorized aliens, such violation shall be cause for unilateral cancellation of any contract resulting from this ITB. This applies to any sub-contractors used by the Contractor as well.
22. Warranty: The Contractor shall warrant all materials furnished and work performed in accordance to General Project Requirements Section XI: Warranties and Bonds
23. Annual Appropriation Contingency: Pursuant to FL Statute §166.241, the City's performance and obligation to pay under this Contract is contingent upon an annual appropriation by the City Council. This Contract is not a commitment of future appropriations. Authorization for continuation and completion of work and any associated payments may be rescinded, with proper notice, at the discretion of the City if the City Council reduces or eliminates appropriations.

AND CONTAINMENT STRUCTURE REHABILITATION
Page 4 of 5

24. **Insurance:** Unless otherwise specified, Contractor shall, at its own expense, carry and maintain the following minimum insurance coverage, as well as any insurance required by law.

Workers' Compensation: Submitting firm shall have Workers Compensation Insurance covering all employees meeting Statutory Limits in compliance with the applicable state and federal laws. The policy must include Employer's Liability with a minimum limit of \$1,000,000.00 for each accident.

Comprehensive General Liability: Shall have minimum limits of \$1,000,000 per occurrence, combined Single Limit for Bodily Injury Liability and Property Damage Liability. This shall include Premises and/or Operations, Independent Contractors and Products and/or Completed Operations, Broad Form Property Damage, and a Contractual Liability Endorsement.

Business Vehicular Liability: Shall have minimum limits of \$1,000,000 per occurrence. Combined Single Limit for Bodily Injury and Property Damage Liability. This shall include Owned Vehicles, Hired and Non-Owned Vehicles, and Employees' Non-Ownership.

Pollution Liability: Covering a transporter moving hazardous products or waste as cargo aboard the transporter's truck. Shall have a minimum limit of \$1,000,000 per occurrence. Combined Single Limit for Bodily Injury, Property Damage Liability and Cleanup, including wrongful delivery. This shall include owned vehicles, hired and non-owned vehicles

Certificate of Insurance: The City of Cape Coral is to be specifically included as an additional insured on the General Liability policy and the contract number (CON-UT19-28/MC) shall be listed under the comments section. This does not pertain to Workers' Compensation.

In the event the insurance coverage expires prior to the completion of the project, a renewal certificate shall be issued thirty (30) days prior to said expiration date.

The policy shall provide a 30-day notification clause in the event of cancellation or modification to the policy.

Unless otherwise specified, it shall be the responsibility of the contractor to ensure that all subcontractors comply with the same insurance requirements spelled out above.

All certificates of insurance must be on file with and approved by the City of Cape Coral before the commencement of any work activities.

25. **Safety and OSHA Compliance:** The Contractor shall comply in all respects with all Federal, State and Local Safety and health regulations. Copies of the Federal regulations may be obtained from the U.S. Department of Labor, Occupation Safety and Health Administration (OSHA), Washington DC 20210 or their regional offices.

The Contractor shall comply in all respects with the applicable Workman's Compensation Laws.

26. **Entire Agreement:** This Contract constitutes the entire and exclusive agreement between the parties and supersedes any and all prior communications, discussions, negotiations, understandings, or agreements, whether written or verbal.

AGENDA REQUEST FORM
CITY OF CAPE CORAL

TITLE:

Resolution 148-19 Award ITB-UT19-49/KR Everest Water Reclamation Facility (WRF) – Clarifier 1, 2 & 4 Duct Bank Replacement Project to Cogburn Bros, Inc. of Jacksonville, FL to provide construction modifications to the existing Duct Bank and electrical service serving clarifiers 1, 2 and 4 at the Everest WRF, as the lowest responsive, responsible bidder, in the amount of \$1,328,550 with a City controlled contingency of 10% (\$132,855) for a total amount of \$1,461,405 and authorize the City Manager or designee to execute the contract, amendments, change orders required to complete the work; Department: Utilities; Dollar Value: \$1,461,405; (Water and Sewer unassigned reserves)

REQUESTED ACTION:

Approve or Deny

STRATEGIC PLAN INFO:

1. Will this action result in a Budget Amendment? Yes

2. Is this a Strategic Decision? Yes

If Yes, Priority Goals Supported are listed below.

If No, will it harm the intent or success of the Strategic Plan?

ELEMENT C: INVEST IN COMMUNITY INFRASTRUCTURE INCLUDING UTILITIES EXPANSION IMPROVEMENTS TO ENHANCE THE CITY'S ABILITY TO MEET THE NEEDS OF ITS CURRENT AND FUTURE RESIDENTS AND BUSINESSES

PLANNING & ZONING/HEARING EXAMINER/STAFF RECOMMENDATIONS:

SUMMARY EXPLANATION AND BACKGROUND:

1. The proposed project is located at the Everest Water Reclamation Facility (WRF) and is for construction modifications to the existing Duct Bank and electric service serving Clarifiers 1, 2 and 4. The work will generally be comprised of removal and replacement of all power, instrumentation and control conduits, conductors and cables.
2. On February 27, 2019, Invitation to Bid, ITB-UT19-49/KR, was issued, for the Everest WRF – Clarifiers 1, 2 and 4 Duct Bank Replacement. There were 40 plan holders that reviewed the documents. The City held two separate pre-bid meetings to ensure all questions were addressed.
3. On May 15, 2019, one (1) bid was received, from Cogburn Bros, Inc., of Jacksonville, Florida.
4. Cogburn Bros, Inc. of Jacksonville, Florida was deemed the lowest responsive and responsible bidder meeting all requirements as outlined in the bid documents.
5. If approved, the contract amount is for \$1,328,550 plus a requested 10% City controlled

contingency in the amount of \$132,855 for a project total of \$1,461,405.00

6. The Department Director is requesting 10% City Controlled Contingency. The expenditure of contingency funds, if any, will be subject to approval of a specific change order request by the Utilities Department Director, if justified upon identified needs with an appropriate scope and cost to address the specific need(s).
7. If approved, the term of this Contract shall be for 365 days for Substantial completion and 395 days for Final completion.
8. This Item is a budgeted item.
9. Funding: Funding for this project has been included in the Utilities Department's Revised FY19 CIP Budget Business Unit 4050182.662601, WRE-10 MCC Blower Conduit to Clarifiers with an unencumbered balance of \$351,558 and the additional funding in the amount of \$1,109,847 will come from the W&S unassigned fund balance which will be reflected in Budget amendment #2.

DATE: June 6, 2019

SUBJECT: Utilities Department's Recommendation of Award for the
Everest WRF Clarifier Ductbank Replacement, ITB-UT19-49/KR

Project Scope:

This Contract is for the construction modifications to the existing duct bank and electrical service serving clarifiers 1,2 and 4 at the City of Cape Coral's Everest Water Reclamation Facility (WRF). The Work shall consist of, but is not limited to, the following:

- Remove and replace all power, instrumentation and control conduit, conductors and cables to existing clarifiers 1, 2 and 4. Power will be maintained to existing clarifiers throughout construction.
- Construction of new red colored concrete encased ductbank systems to clarifiers 1, 2 & 4 along with installation of wall mounted power and instrumentation pull boxes.
- Removal and replacement of all hangers, supports, fasteners from clarifier structures and building ceilings and walls. Patching and painting of all existing ceilings and walls.
- Install applicable conduit, wire and field connections for all motors, motor controllers, control devices, control panels and electrical.
- Remove and replace select concrete slabs and asphalt paving.
- Complete applicable site work and restoration including, but not limited to, sodding, paving, mulching, and grading.

Project Bids:

On Wednesday, May 15, 2019, the City of Cape Coral received one (1) Bid from a qualified contractor for the Everest WRF Clarifier Ductbank Replacement Project, ITB-UT19-49/KR. The Bid was received from: Cogburn Bros., Inc. out of Jacksonville, Florida. The bid item extensions and the summation of the bid items was checked for accuracy.

The Total Estimated Construction Cost was as follows:

Cogburn Bros., Inc.	\$1,328,550.00
---------------------	----------------

A copy of the Procurement Department's Bid Tabulation is included as an attachment.

Utilities Department Recommendation:

The Procurement Department reviewed the bid total and the bidder's qualifications as submitted along with additional requested documentation and has determined that Cogburn Bros., Inc is a responsive responsible bidder for the Everest WRF Clarifier Ductbank Replacement Project, ITB-UT19-49/KR. The Utilities Department concurs with the Procurement Department's determination that Cogburn Bros., Inc. is a responsive responsible bidder. The Utilities Department therefore recommends award of the Everest WRF Clarifier Ductbank Replacement Project, ITB-UT19-49/KR to Cogburn Bros., Inc. for the Total Estimated Construction Cost of \$1,328,550.00. References were checked by the Utilities Department as a part of the review process.

Contingency Funds:

In conjunction with recommending the award of the Everest WRF Clarifier Ductbank Replacement Project, the Utilities Department requests a contingency amount of ten percent (10%) of the Total Estimated Construction Cost be allocated for this project. The project involves working around existing infrastructure. With this type of work, the Utilities Department may encounter unforeseen obstacles requiring extra attention on behalf of the contractor. The Utilities Department must be prepared to deal with these situations in a timely manner to assure the project is completed in an expeditious manner thereby minimizing disruption to Everest Water Reclamation Facility. Additional costs requested by the contractor will be reviewed by the Engineer and the Utilities Department prior to the work being performed.

Fund Availability:

Funding for this project has been included in the Utilities Department's Revised FY19 CIP Budget, Business Unit 4050182.662601, WRE-10 MCC Blower Conduit to Clarifiers and is presented as a line item in the proposed Revised FY2019 Budget. The WRE-10 MCC Blower Conduit to Clarifiers account has an unencumbered balance of \$351,558.00. Additional funding in the amount of \$1,109,847.00 will come from the Water and Sewer-reserves/unassigned fund balance. The combined funding (\$1,461,405.00) will be sufficient to cover the construction cost of \$1,328,550.00, plus the 10% contingency amount of \$132,855.00 equaling the entire project cost of \$1,461,405.00.

Thank you for your attention to this important matter. Should you have any questions or if we can be of further assistance please give William H. (Bill) Sperry, PE a call at 574-0729.

Everest WRF Clarifier Ductbank Replacement Project, ITB-UT19-49/KR

RESOLUTION 148 – 19

A RESOLUTION OF THE CITY OF CAPE CORAL AWARDING A BID FOR THE EVEREST WATER RECLAMATION FACILITY CLARIFIER 1, 2 & 4 DUCT BANK REPLACEMENT PROJECT TO COGBURN BROS, INC.; PROVIDING FOR SUBSEQUENT EXECUTION OF THE CONTRACT DOCUMENTS BY THE CITY MANAGER OR HIS DESIGNEE; PROVIDING FOR APPROVAL OF A CONTINGENCY AMOUNT; PROVIDING AN EFFECTIVE DATE.

WHEREAS, on February 27, 2019, INVITATION TO BID ITB-UT19-49/KR was issued for the Everest Water Reclamation Facility Clarifier 1, 2 & 4 Duct Bank Replacement Project; and

WHEREAS, having received one bid, the City Manager recommends the award of the bid to Cogburn Bros, Inc., as the lowest qualified responsible and responsive bidder meeting the requirements and criteria set forth in the invitation to bid, in the amount of \$1,328,550, subject to a City-controlled contingency amount not to exceed ten (10) percent.

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF CAPE CORAL, FLORIDA, AS FOLLOWS:

Section 1. The City Council hereby awards the bid for the Everest Water Reclamation Facility Clarifier 1, 2 & 4 Duct Bank Replacement Project to Cogburn Bros, Inc., in the amount of \$1,328,550, subject to a City-controlled contingency amount not to exceed ten (10) percent.

Section 2. The City Council hereby approves Contract CON-UT19-49/KR between the City of Cape Coral and Cogburn Bros, Inc., for the Everest Water Reclamation Facility Clarifier 1, 2 & 4 Duct Bank Replacement Project and authorizes the City Manager or his designee to execute the Contract. A copy of the Contract is attached hereto as Exhibit 1.

Section 3. The City Council hereby authorizes the City Manager or the City Manager's designee to enter into change orders for any work other than as contemplated in the contract documents with an appropriate scope and cost to address those needs, subject to payment of a City-controlled contingency amount not to exceed ten (10) percent of the total amount of the contract.

Section 4. This Resolution shall take effect immediately upon its adoption.

ADOPTED BY THE CITY COUNCIL OF THE CITY OF CAPE CORAL AT ITS SPECIAL COUNCIL SESSION THIS _____ DAY OF _____, 2019.

SECTION 00500
AGREEMENT
CON-UT19-49/KR
BETWEEN OWNER AND CONTRACTOR
FOR CONSTRUCTION CONTRACT (STIPULATED PRICE)

THIS AGREEMENT is by and between **City of Cape Coral, Florida** ("Owner") and

Cogburn Bros, Inc.
3300 Faye Road
Jacksonville, FL 32226

("Contractor").

Owner and Contractor hereby agree as follows:

ARTICLE 1 – WORK

1.01 Contractor shall complete all Work as specified or indicated in the Contract Documents. The Work is generally described as follows:

ARTICLE 2 – THE PROJECT

2.01 The Project, of which the Work under the Contract Documents is a part, and is generally described as follows:

TYPE OF WORK: It is the intent of this project to remove and replace all power, instrumentation and control conduit, conductors and cables to existing clarifiers 1, 2 and 4. General outline as shown below:

1. Maintain power & control to existing clarifiers throughout construction.
2. Demolition of existing non-encased clarifier 4 ductbank systems.
3. Full or partial demolition of existing concrete encased clarifier 1&2 ductbank systems.
4. Maintain all existing clarifier electrical & control systems unless noted otherwise. Including but not limited to existing electrical equipment, field instrumentation and lighting.
5. Construction of new red colored concrete encased ductbank systems to clarifiers 1,2 & 4.
6. Installation of wall mounted power and instrumentation pull boxes.
7. Removal and replacement of scum pit float switches.
8. Provide and install Scum pit pump combination motor starter disconnect panels.
9. Installation of flush on grade underground power and instrumentation pull boxes.
10. Complete removal and replacement of all hangers, supports, fasteners etc. from clarifier structures and building ceilings and walls. Patching and painting of all existing ceilings and walls.
11. Paint exterior surfaces of modified walls to match existing buildings or structures.
12. Removal and restoration of site and landscaping to facilitate construction of above.
13. Construction of all ancillary facilities required to demo and place into service the systems described above.
14. Construct above such that plant is fully operational with both stand-by and Utility power sources available the entire duration of construction

15. Conduit, wire and field connections for all motors, motor controllers, control devices, control panels and electrical.
16. Conduit, wiring and terminations for all existing field mounted instruments, including process instrumentation primary elements, transmitters, local indicators and control panels. Lightning and surge protection equipment wiring at process instrumentation transmitters.
17. Power and signal surge suppression systems.
18. Select concrete pump slab removal and replacement.
19. Select asphalt driveway removal and replacement.
20. Instrumentation and control conduit and wiring systems and installation of field instrumentation.
21. Lightning protection, bonding and grounding systems.
22. Complete applicable site work and restoration including, but not limited to, sodding, paving, mulching, and grading.

The Work to be performed shall consist of furnishing all tools, equipment, materials, supplies, and manufactured articles, furnishing all labor, supervision, transportation, and services, including but not limited to fuel, power, water, essential communications, and performing all Work or other operations required in accordance with the Drawings and Bid Specifications. The Work shall be complete, and all Work, materials, and services not expressly indicated or called for in the Contract Documents, which may be necessary for the complete and proper construction of the Work, in good faith shall be provided by the Contractor as though originally so indicated, at no increase in cost to the City.

ARTICLE 3 – ENGINEER

- 3.01 The Owner has retained RKS Consulting Engineers, Inc. (“Engineer”) to assist the Owner and act in limited capacity as the Owner’s representative, assume all duties and responsibilities, and have the rights and authority assigned to the Engineer in the Contract Documents in connection with the completion of the Work in accordance with the Contract Documents.
- 3.02 The Contract Documents; Division 00 – Bidding and Contract Requirements have been prepared by the City of Cape Coral. The Division 01 – General Requirements have been prepared by the City of Cape Coral and RKS Consulting Engineers, Inc. and, Divisions 02-26 – Technical Specifications have been prepared by RKS Consulting Engineers, Inc.

ARTICLE 4 – CONTRACT TIMES

- 4.01 *Time of the Essence*
 - A. All time limits for Milestones, Substantial Completion, and completion and readiness for final payment as stated in the Contract Documents are of the essence of the Contract.
- 4.02 *Contract Times: Days*
 - A. The Work will be substantially completed within 365 calendar days after the date when contract times commence to run as provided in Paragraph 4.01 of the General Conditions (Section 00700); and, all Work will be completed and ready for final payment in accordance with Paragraph 15.06 of the General Conditions within 395 days of Notice to Proceed.
- 4.03 *Liquidated Damages*
 - A. Contractor and Owner recognize that time is of the essence as stated in Paragraph 4.01 above and that Owner will suffer financial and other losses if the Work is not completed and Milestones not achieved within the times specified in Paragraph 4.02.A above, plus any extensions thereof allowed in accordance with the Contract. The parties also recognize the delays, expense, and difficulties

involved in proving in a legal or arbitration proceeding the actual loss suffered by Owner if the Work is not completed on time. Accordingly, instead of requiring any such proof, Owner and Contractor agree that as liquidated damages for delay (but not as a penalty):

1. Substantial Completion: Contractor shall pay Owner \$500.00 for each day that expires after the time (as duly adjusted pursuant to the Contract) specified in Paragraph 4.02.A above for Substantial Completion until the Work is substantially complete.
2. Completion of Remaining Work: After Substantial Completion, if Contractor shall neglect, refuse, or fail to complete the remaining Work within the Contract Time (as duly adjusted pursuant to the Contract) for completion and readiness for final payment, Contractor shall pay Owner \$500.00 for each day that expires after such time until the Work is completed and ready for final payment.
3. Liquidated damages for failing to timely attain Substantial Completion and final completion are not additive and will not be imposed concurrently.

4.04 *Special Damages*

- A. In addition to the amount provided for liquidated damages, Contractor shall reimburse Owner (1) for any fines or penalties imposed on Owner as a direct result of the Contractor's failure to attain Substantial Completion according to the Contract Times, and (2) for the actual costs reasonably incurred by Owner for engineering, construction observation, inspection, and administrative services needed after the time specified in Paragraph 4.02.A for Substantial Completion (as duly adjusted pursuant to the Contract), until the Work is substantially complete.
- B. After Contractor achieves Substantial Completion, if Contractor shall neglect, refuse, or fail to complete the remaining Work within the Contract Times, Contractor shall reimburse Owner for the actual costs reasonably incurred by Owner for engineering, construction observation, inspection, and administrative services needed after the time specified in Paragraph 4.02.A for Work to be completed and ready for final payment (as duly adjusted pursuant to the Contract), until the Work is completed and ready for final payment.

ARTICLE 5 – CONTRACT PRICE

- 5.01 Owner shall pay Contractor for completion of the Work in accordance with the Contract Documents the amounts that follow, subject to adjustment under the Contract:

For all work, at the prices stated in the Contractor's bid, a total bid cost of: **\$1,328,550.00** (One-Million, Three-Hundred Twenty-Eight Thousand, Five-Hundred Fifty Dollars and zero cents in words). – **Not to Exceed Amount** All specific cash allowances are included in the above price in accordance with Paragraph 13.02 of the General Conditions.

ARTICLE 6 – PAYMENT PROCEDURES

6.01 *Submittal and Processing of Payments*

- A. Contractor shall submit Applications for Payment in accordance with Article 15 of the General Conditions. Applications for Payment will be processed by Engineer as provided in the General Conditions.

6.02 *Progress Payments; Retainage*

- A. Owner shall make progress payments on account of the Contract Price on the basis of Contractor's Applications for Payment on or about 25 business days after the date on which the payment request or invoice is stamped as received by the Engineer. Payment for the Work shall be as provided in Paragraph 6.02.A.1 below, provided that such Applications for Payment have been submitted in a timely manner and otherwise meet the requirements of the Contract. All such payments will be

measured by the Schedule of Values established as provided in the General Conditions (and in the case of Unit Price Work based on the number of units completed) or, in the event there is no Schedule of Values, as provided elsewhere in the Contract.

1. Prior to Substantial Completion, progress payments will be made in an amount equal to the percentage indicated below but, in each case, less the aggregate of payments previously made and less such amounts as Owner may withhold, including but not limited to liquidated damages, in accordance with the Contract.
 - a. 90 percent of Work completed (with the balance being retainage). If the Work has been completed as determined by Engineer, and if the character and progress of the Work have been satisfactory to Owner and Engineer, then as long as the character and progress of the Work remain satisfactory to Owner and Engineer, there will be no additional retainage; and
 - b. 90 percent of cost of materials and equipment not incorporated in the Work (with the balance being retainage).
- B. Upon 50 percent Completion, Owner shall pay an amount sufficient to increase total payments to Contractor to 95 percent of the Work completed, less such amounts set off by Owner pursuant to Paragraph 15.01.E of the General Conditions, and less 5 percent of Engineer's estimate of the value of Work to be completed or corrected as shown on the punch list of items to be completed or corrected prior to final payment.

6.03 *Final Payment*

Upon final completion and acceptance of the Work in accordance with Paragraph 15.06 of the General Conditions, Owner shall pay the remainder of the Contract Price as recommended by Engineer as provided in said Paragraph 15.06.

ARTICLE 7 – INTEREST

7.01 All amounts not paid when due shall bear interest at the rate of one-percent (1.0%) per month.

ARTICLE 8 – CONTRACTOR'S REPRESENTATIONS

- 8.01 In order to induce Owner to enter into this Contract, Contractor makes the following representations:
- A. Contractor has examined and carefully studied the Contract Documents, and any data and reference items identified in the Contract Documents.
 - B. Contractor has visited the Site, conducted a thorough, alert visual examination of the Site and adjacent areas, and become familiar with and is satisfied as to the general, local, and Site conditions that may affect cost, progress, and performance of the Work.
 - C. Contractor is familiar with and is satisfied as to all Laws and Regulations that may affect cost, progress, and performance of the Work.
 - D. Contractor has carefully studied all: (1) reports of explorations and tests of subsurface conditions at or adjacent to the Site and all drawings of physical conditions relating to existing surface or subsurface structures at the Site that have been identified in the Supplementary Conditions, especially with respect to Technical Data in such reports and drawings, and (2) reports and drawings relating to Hazardous Environmental Conditions, if any, at or adjacent to the Site that have been identified in the Supplementary Conditions, especially with respect to Technical Data in such reports and drawings.
 - E. Contractor has considered the information known to Contractor itself; information commonly known to contractors doing business in the locality of the Site; information and observations obtained from visits to the Site; the Contract Documents; and the Site-related reports and drawings identified in the

 - d. Field Orders.

B. The documents listed in Paragraph 9.01.A are attached to this Agreement (except as expressly noted otherwise above).

C. There are no Contract Documents other than those listed above in this Article 9.

The Contract Documents may only be amended, modified, or supplemented as provided in the General Conditions.

ARTICLE 10 – MISCELLANEOUS

10.01 *Terms*

A. Terms used in this Agreement will have the meanings stated in the General Conditions and the Supplementary Conditions.

10.02 *Assignment of Contract*

A. Unless expressly agreed to elsewhere in the Contract, no assignment by a party hereto of any rights under or interests in the Contract will be binding on another party hereto without the written consent of the party sought to be bound; and, specifically but without limitation, money that may become due and money that is due may not be assigned without such consent (except to the extent that the effect of this restriction may be limited by law), and unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under the Contract Documents.

10.03 *Successors and Assigns*

A. Owner and Contractor each binds itself, its successors, assigns, and legal representatives to the other party hereto, its successors, assigns, and legal representatives in respect to all covenants, agreements, and obligations contained in the Contract Documents.

10.04 *Severability*

A. Any provision or part of the Contract Documents held to be void or unenforceable under any Law or Regulation shall be deemed stricken, and all remaining provisions shall continue to be valid and binding upon Owner and Contractor, who agree that the Contract Documents shall be reformed to replace such stricken provision or part thereof with a valid and enforceable provision that comes as close as possible to expressing the intention of the stricken provision.

10.05 *Appropriations*

A. Pursuant to FL Statute §166.241, the City's performance and obligation to pay under this Contract is contingent upon an annual appropriation by the City Council. This Agreement is not a commitment of future appropriations. Authorization for continuation and completion of work and any associated payments may be rescinded, with proper notice, at the discretion of the City, if the City Council reduces or eliminates appropriations.

10.06 *Contractor's Certifications*

- A. Contractor certifies that it has not engaged in corrupt, fraudulent, collusive, or coercive practices in competing for or in executing the Contract. For the purposes of this Paragraph 10.05:
1. "corrupt practice" means the offering, giving, receiving, or soliciting of any thing of value likely to influence the action of a public official in the bidding process or in the Contract execution;
 2. "fraudulent practice" means an intentional misrepresentation of facts made (a) to influence the bidding process or the execution of the Contract to the detriment of Owner, (b) to establish Bid or Contract prices at artificial non-competitive levels, or (c) to deprive Owner of the benefits of free and open competition;
 3. "collusive practice" means a scheme or arrangement between two or more Bidders, with or without the knowledge of Owner, a purpose of which is to establish Bid prices at artificial, non-competitive levels; and
 4. "coercive practice" means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the bidding process or affect the execution of the Contract.

10.07 Other Provisions

- A. Owner stipulates that if the General Conditions that are made a part of this Contract are based on EJCDC® C-700, Standard General Conditions for the Construction Contract, published by the Engineers Joint Contract Documents Committee®, and if Owner is the party that has furnished said General Conditions, then Owner has plainly shown all modifications to the standard wording of such published document to the Contractor, through a process such as highlighting or "track changes" (redline/strikeout), or in the Supplementary Conditions.
- B. Owner stipulates that if the General Conditions that are made a part of this Contract are based on EJCDC® C-700, Standard General Conditions for the Construction Contract, published by the Engineers Joint Contract Documents Committee®, and if Owner is the party that has furnished said General Conditions, then Owner has plainly shown all modifications to the standard wording of such published document to the Contractor, through a process such as highlighting or "track changes" (redline/strikeout), or in the Supplementary Conditions.

ARTICLE 11 – PUBLIC RECORDS

- A. Pursuant to Florida Statute §287.058 (1) (c), this contract may be unilaterally cancelled by the City if the Consultant, refuses to allow public access to all documents, papers, letters, or other material made or received by the Consultant in conjunction with this contract, unless the records are exempt from disclosure.

1.01 This Bid is submitted to:

City of Cape Coral, Procurement Division, 1015 Cultural Park Blvd., 2nd Floor, Cape Coral, FL 33990

1.02 The undersigned Bidder proposes and agrees, if this Bid is accepted, to enter into an Agreement with Owner in the form included in the Bidding Documents to perform all Work as specified or indicated in the Bidding Documents for the prices and within the times indicated in this Bid and in accordance with the other terms and conditions of the Bidding Documents.

1.03 EXECUTION OF BID: The Official Bid Form must contain a manual signature of an authorized representative. Bid must be typed or printed in ink. Use of erasable ink is not permitted. All corrections made by bidder to his/her bid price must be initialed.

AWARD: The City Council reserves the right to waive minor variations to specifications, informalities, irregularities and technicalities in any bids; to reject any and all bids in whole or in part with or without cause, and/or to accept bids that in its judgment will be in the best interest of the City. Following complete investigation of each bid received by the City, the City Council reserves the right to make awards on a multiple, lump sum, or individual item basis or in combination as shall best serve the interest of the City. The City reserves the right to negotiate additional related services.

1.04 PRICES: Bidder warrants by virtue of bidding that any orders placed within the bid period shall be honored at the prices, items and conditions quoted in his/her Official Bid Form. When a yearly quote is being obtained, bidder must contractually commit that bid amount on bid form is firm with no escalation in unit price or otherwise for 365 days from award date. Prices must be stated in units of quantity specified in the bid specifications. In case of discrepancy in computing the amount of the bid, the unit price will prevail.

1.05 LIABILITY INSURANCE: Where bidders are required to enter City property to deliver materials or perform work or service as a result of bid award, the bidder assumes full duty obligation and expense of obtaining all necessary insurance and associated licenses and/or permits. Insurance requirements are identified in SC-Article 6 of the Supplementary Conditions (Section 00800).

ARTICLE 2 – BIDDER'S ACKNOWLEDGEMENTS

2.01 Bidder accepts all of the terms and conditions of the Instructions to Bidders, including without limitation those dealing with the disposition of Bid security. This Bid will remain subject to acceptance for 120 days after the Bid opening, or for such longer period of time that Bidder may agree to in writing upon request of Owner. All bids will be publicly opened at the designated time and location specified within the Legal Notice.

**SECTION 00300
BID FORM**

ARTICLE 3 – BIDDER’S REPRESENTATIONS

3.01 In submitting this Bid, Bidder represents that:

- A. Bidder has examined and carefully studied the Bidding Documents, and any data and reference items identified in the Bidding Documents, and hereby acknowledges receipt of the following Addenda:

<u>Addendum No.</u>	<u>Addendum Date</u>
<u>No. 1</u>	<u>3/11/2019</u>
<u>No. 2</u>	<u>4/2/2019</u>
<u>No. 3</u>	<u>4/18/2019</u>
<u>No. 4</u>	<u>5/13/2019</u>

- B. Bidder meets the minimum qualifications as set forth in Specification Section 00100, Article 3 – Qualifications of Bidders and all required verifiable documentation and/or information is contained in Specification Section 00301, Bidder’s Information Statement and Questionnaire submitted herewith as a part of this bid package. EACH member of a partnership or qualifying joint venture has completed and submitted as a part of the Bid package, a completed Bidder’s Information Statement and Questionnaire (Specification Section 00301).
- C. Bidder has visited the Site, conducted a thorough, alert visual examination of the Site and adjacent areas, and become familiar with and satisfied itself as to the general, local, and Site conditions that may affect cost, progress, and performance of the Work.
- D. Bidder is familiar with and has satisfied itself as to all Laws and Regulations that may affect cost, progress, and performance of the Work.
- E. Bidder has carefully studied all: (1) reports of explorations and tests of subsurface conditions at or adjacent to the Site and all drawings of physical conditions relating to existing surface or subsurface structures at the Site that have been identified in the Supplementary Conditions, especially with respect to Technical Data in such reports and drawings, and (2) reports and drawings relating to Hazardous Environmental Conditions, if any, at or adjacent to the Site that have been identified in the Supplementary Conditions, especially with respect to Technical Data in such reports and drawings.
- F. Bidder has considered the information known to Bidder itself; information commonly known to contractors doing business in the locality of the Site; information and observations obtained from visits to the Site; the Bidding Documents; and any Site-related reports and drawings identified in the Bidding Documents, with respect to the effect of such information, observations, and documents on (1) the cost, progress, and performance of the Work; (2) the means, methods, techniques, sequences, and procedures of construction to be employed by Bidder; and (3) Bidder’s safety precautions and programs.
- G. Bidder agrees, based on the information and observations referred to in the preceding paragraph, that no further examinations, investigations, explorations, tests, studies, or data are necessary for the determination of this Bid for performance of the Work at the price bid and within the times required, and in accordance with the other terms and conditions of the Bidding Documents.

**SECTION 00300
BID FORM**

- H. Bidder is aware of the general nature of work to be performed by Owner and others at the Site that relates to the Work as indicated in the Bidding Documents.
- I. Bidder has given Engineer written notice of all conflicts, errors, ambiguities, or discrepancies that Bidder has discovered in the Bidding Documents and confirms that the written resolution thereof by Engineer is acceptable to Bidder.
- J. The Bidding Documents are generally sufficient to indicate and convey understanding of all terms and conditions for the performance and furnishing of the Work.
- K. The submission of this Bid constitutes an incontrovertible representation by Bidder that Bidder has complied with every requirement of this Article, and that without exception the Bid and all prices in the Bid are premised upon performing and furnishing the Work required by the Bidding Documents.

ARTICLE 4 – BIDDER’S CERTIFICATION

4.01 Bidder certifies that:

- A. This Bid is genuine and not made in the interest of or on behalf of any undisclosed individual or entity and is not submitted in conformity with any collusive agreement or rules of any group, association, organization, or corporation;
- B. Bidder has not directly or indirectly induced or solicited any other Bidder to submit a false or sham Bid;
- C. Bidder has not solicited or induced any individual or entity to refrain from bidding; and
- D. Bidder has not engaged in corrupt, fraudulent, collusive, or coercive practices in competing for the Contract. For the purposes of this Paragraph 4.01.D:
 - 1. “corrupt practice” means the offering, giving, receiving, or soliciting of any thing of value likely to influence the action of a public official in the bidding process;
 - 2. “fraudulent practice” means an intentional misrepresentation of facts made (a) to influence the bidding process to the detriment of Owner, (b) to establish bid prices at artificial non-competitive levels, or (c) to deprive Owner of the benefits of free and open competition;
 - 3. “collusive practice” means a scheme or arrangement between two or more Bidders, with or without the knowledge of Owner, a purpose of which is to establish bid prices at artificial, non-competitive levels; and
 - 4. “coercive practice” means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the bidding process or affect the execution of the Contract.

ARTICLE 5 – BASIS OF BID

- 5.01 Bidder will complete the Work in accordance with the Contract Documents for the following price(s):

**SECTION 00300
BID FORM**

Time of Completion

- 5.02 Bidder agrees that the Work will be substantially completed within 365 calendar days after the date when the Contract Times commence to run as provided in Paragraph 4.01 of the General Conditions (Section 00700) and will be completed and ready for final payment in accordance with Paragraph 15.06 of the General Conditions within -395 calendar days of Notice to Proceed. No work is to begin prior to the issuance of a fully executed Purchase Order (PO) and a Notice to Proceed (NTP).
- 5.03 Bidder accepts the provisions of the Agreement (Section 00500) as to liquidated damages in the amount of \$500.00 for each day.

ARTICLE 6 – ATTACHMENTS TO THIS BID

6.01 The City of Cape Coral **requires** the following signed documents to be returned with all bids in order for a bid to be considered "Responsive": Please provide the documents in the following order for ease of verification of completeness of your bid package.

- A. Section 00300 – Bid Form
 - Subcontractor Listing
 - Sworn Statement on Public Entity Crimes
 - Form 3A – Interest In Competitive Bid For Public Business
 - Drug Free Work Place Certification
 - Trench Safety Form
 - Acknowledgement of Insurance Requirements
 - Contractor's Self-Performed Work Evaluation Form
 - Scrutinized Companies Certification

- B. Section 00301 - Bidder's Information Statement and Questionnaire and applicable Attachments (Each member of a partnership or qualifying joint venture must submit a completed Bidder's Information Statement and Questionnaire, Section 00301.)
Financial Statements – To be provided in a Separate Sealed Envelope

- C. Section 00410 Bid Bond

- D. Section 00420 Corporate Resolution

- E. Section 00480 Non-Collusion Affidavit

- F. Section 00481 Business Ethics Requirements

One (1) original and two (2) hard copies, and one (1) electronic copy (CD, flash drive, or DVD), exactly mirroring the entire Bid Proposal Package is required to be submitted with the Bid Package.

FAILURE TO RETURN ALL OF THE ABOVE REQUIRED ITEMS WITH A BID MAY RESULT IN YOUR BID BEING CONSIDERED NON-RESPONSIVE AND WILL NOT BE CONSIDERED FOR AWARD.

SECTION 00481

BUSINESS ETHICS REQUIREMENTS

1. During the course of pursuing contracts with Owner and while performing contract work in accordance with this agreement, Contractor agrees to maintain business ethics standards aimed at avoiding any impropriety or conflict of interest which could be construed to have an adverse impact on the Owner best interests.
2. Contractor shall take reasonable actions to prevent any actions or conditions which could result in a conflict with Owner's best interests. These obligations shall apply to the activities of contractor employees, agents, subcontractors, subcontractor employees, consultants of contractor, etc.

Contractor employees, agents, subcontractors, material suppliers (or their representatives) should not make or cause to be made any cash payments, commissions, employment, gifts, entertainment, free travel, loans, free work, substantially discounted work, or any other considerations to Owner's representatives, employees or their relatives.

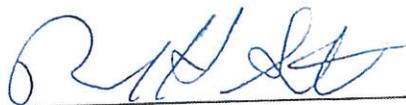

Contractor employees, agents or subcontractors (or their relatives) should not receive any cash payments, commissions, employment, gifts, entertainment, free travel, loans, free work, or substantially discounted work or any other considerations from representatives of subcontractors, or material suppliers or any other individuals, organizations, or businesses receiving funds in connection with the project.

3. Contractor agrees to notify a designated Owner representative within 48 hours of any instance where the Contractor becomes aware of a failure to comply with the provisions of this article.
4. The e-mail address and/or telephone number to report any concerns related to any possible violations of the Owner's Business Ethics Expectations are as follows:

E-mail: Kathy Rose, krrose@capecoral.net Telephone: 239-242-3679

5. Upon request by Owner, Contractor agrees to provide a certified Management Representation Letter executed by selected Contractor representatives in a form agreeable to Owner stating that they are not aware of any situations violating the business ethics expectations outlined in this contract or any similar potential conflict of interest situations.
6. Contractor agrees to include this clause in all contracts with subcontractors and material suppliers receiving more than \$25,000 in funds in connection with the Owner's project.
7. Contractor shall permit interviews of employees, reviews and audits of accounting or other records by Owner representative(s) to evaluate compliance with the business ethics standards. Such reviews and audits will encompass all dealings and activities of Contractor's employees, agents, representatives, vendors, subcontractors, and other third parties paid by Contractor in their relations with Owner's current or former employees or employee relatives.
8. Contractor agrees to implement a program requiring their employees sign acknowledgements that they have read and understand Owner's Business Ethics Expectations and the related obligations outlined in this contract exhibit.

AGENDA REQUEST FORM
CITY OF CAPE CORAL

TITLE:

Resolution 149-19 Approve Staff Cost Proposal (SCP) SCP AI-08 with AECOM Technical Services, Inc. to provide professional engineering services for the Design, Bidding assistance and Construction Management of the Gleason Parkway Waste Activated Sludge (WAS) line and Fiber Optic Conduit Project for a Not to Exceed Fee of \$167,561 and authorize the City Manager or designee to execute the agreement; Department: Utilities; Dollar Value: \$167,561; (Water & Sewer Fund)

REQUESTED ACTION:

Approve or Deny

STRATEGIC PLAN INFO:

1. Will this action result in a Budget Amendment? No
2. Is this a Strategic Decision? Yes

If Yes, Priority Goals Supported are listed below.

If No, will it harm the intent or success of the Strategic Plan?

ELEMENT C: INVEST IN COMMUNITY INFRASTRUCTURE INCLUDING UTILITIES EXPANSION IMPROVEMENTS TO ENHANCE THE CITY'S ABILITY TO MEET THE NEEDS OF ITS CURRENT AND FUTURE RESIDENTS AND BUSINESSES

PLANNING & ZONING/HEARING EXAMINER/STAFF RECOMMENDATIONS:

SUMMARY EXPLANATION AND BACKGROUND:

1. On August 8, 2016, Resolution 106-16 was approved by City Council creating a Miscellaneous Professional Engineering Services Library. It allows any project specific contract via a SCP, which is greater than \$50,000 but less than the Florida Statute (287.055) (g) threshold, which is currently \$200,000, to be brought to Council for approval.
2. Staff is requesting to utilize AECOM Technical Services, Inc. from the Miscellaneous Professional Engineering Services Library to provide design, permitting, surveying, bid, plan and specification document development, construction management and bidding assistance for the Gleason Parkway Waste Activated Sludge (WAS) line and Fiber Optic Conduit Project.
 1. Staff has reviewed and negotiated the tasks, deliverables, and associated fee and is recommending the award to AECOM Technical Services, Inc. for a Not-to Exceed (NTE) fee of \$167,561 for the scope of services
 2. If approved, the SCP, with AECOM Technical Services, Inc., to perform the outlined services noted above would be for a not-to-exceed fee in the amount of \$167,561.
 3. The time for completion of the Staffing Cost Proposal after the Notice to Proceed is 430

days.

4. This is a budgeted item.

5. Funding Source: Water & Sewer Fund: Business Unit Number 4050178.662601 (ADM-63 WAS Line – Improvements Other Than Buildings).

SUBJECT: AECOM SCP# AI-08 Gleason Parkway Waste Activated Sludge and
Fiber Optic Conduit Project

PROJECT DESCRIPTION

The scope of services provides for the engineering & design, permitting, and any additional required surveying, associated with the installation of the WAS line, and Fiber-Optics conduit, between SW 15th Avenue and Santa Barbara Boulevard.

The CITY previously installed a 6-inch waste activated sludge (WAS) line from the Everest Water Reclamation Facility (EWWRF) west along Gleason Parkway to Pelican Boulevard. As part of the current 42" Force Main (FM) Replacement projects, the CITY is working to install a 6-inch Waste Activated Sludge (WAS) line and Fiber Optics conduit from the Southwest Water Reclamation Facility (SWWRF) east to SW 15th Avenue & Gleason Pkwy.

With completion of the current project, there is still a portion required, which includes approximately 1.4-mile section of WAS line between SW 15th Avenue and Pelican Boulevard and an approximate 1.8-mile section of Fiber-Optics conduit between SW 15th Avenue and Santa Barbara Blvd required to link the two lines between the Everest WRF and Southwest WRF.

AECOM Technical Services, Inc. has submitted a Not – to – Exceed fee in the amount of One-Hundred, Sixty-Seven Thousand, Five-Hundred and Sixty-One Dollars and No Cents (\$167,561.00).

This design SCP is budgeted in FY19 and will come out of JDE Account Business Unit/Object Number 4050178.662601 (ADM-63 WAS Line – Improvements Other Than Buildings) which has an unencumbered balance of \$1,364,686.00. If you have any questions, please feel free to contact Jim Diviesta at x3693.

RESOLUTION 149 – 19

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF CAPE CORAL, FLORIDA, APPROVING STAFFING AND COST PROPOSAL NO. AI-08 BETWEEN THE CITY OF CAPE CORAL AND AECOM TECHNICAL SERVICES, INC., FOR PROFESSIONAL ENGINEERING SERVICES FOR THE GLEASON PARKWAY WASTE ACTIVATED SLUDGE LINE AND FIBER OPTIC CONDUIT PROJECT; PROVIDING FOR SUBSEQUENT EXECUTION OF THE STAFFING AND COST PROPOSAL BY THE CITY MANAGER OR HIS DESIGNEE; PROVIDING AN EFFECTIVE DATE.

WHEREAS, on August 8, 2016, the City Council adopted Resolution 106-16, creating a Miscellaneous Professional Engineering Services Library of firms to be utilized on an as-needed basis, by various City Departments, for project-specific contracts via Staffing and Cost Proposals negotiated with the best qualified firms for each particular project and providing that any project with an estimated cost exceeding \$50,000, but below the threshold set by Florida Statute, will be brought back to Council for approval; and

WHEREAS, a Staffing and Cost Proposal for professional engineering services including engineering and design, permitting, and any additional required surveying associated with the Gleason Parkway Waste Activated Sludge line and Fiber-Optics conduit project was obtained from AECOM Technical Services, Inc., for an amount not to exceed \$167,561; and

WHEREAS, the Staffing and Cost Proposal is governed by the City's Miscellaneous Engineering Services Contract #CON UT15-21/KR-B with AECOM Technical Services, Inc.; and

WHEREAS, the City Manager recommends the approval of Staffing and Cost Proposal AI-08 between the City of Cape Coral and AECOM Technical Services, Inc., for an amount not to exceed \$167,561 for professional engineering services for the Gleason Parkway Waste Activated Sludge line and Fiber-Optics conduit project.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF CAPE CORAL, FLORIDA:

Section 1. The City Council hereby approves Staffing and Cost Proposal AI-08 between the City of Cape Coral and AECOM Technical Services, Inc., for professional engineering services for the Gleason Parkway Waste Activated Sludge line and Fiber-Optics conduit project for an amount not to exceed \$167,561, and authorizes the City Manager or his designee to execute Staffing and Cost Proposal AI-08. A copy of the Staffing and Cost Proposal is attached hereto as Exhibit 1.

Section 2. Effective Date. This resolution shall take effect immediately upon its adoption by the Cape Coral City Council.

ADOPTED BY THE CITY COUNCIL OF THE CITY OF CAPE CORAL AT ITS REGULAR COUNCIL SESSION THIS _____ DAY OF _____, 2019.

STAFFING and COST PROPOSAL NO. AI-08

AGREEMENT for MISCELLANEOUS PROFESSIONAL ENGINEERING SERVICES

Between

The City of Cape Coral

and

AECOM Technical Services, Inc.

THIS DOCUMENT, executed this day of , 2019, is STAFFING COST PROPOSAL (SCP) No. AI-08, following all terms and conditions per Master Contract Agreement, CON-UT15-21/KR-B, Miscellaneous Professional Engineering Services executed between the City of Cape Coral (CITY) and **AECOM Technical Services, Inc.** (Engineer) on August 31st, 2016, (hereafter called "Agreement") shall be in effect for the time noted in this agreement, or as mutually agreeable to meet the requirements of the Staffing Cost Proposal.

A. GENERAL

The CITY and ENGINEER have entered into an Agreement to provide professional engineering services for the Design, Bidding, and Construction Management, in connection with the City's water, wastewater and irrigation system improvements. The Agreement provides for services to be performed on the basis of a Staffing and Cost Proposal (SCP) to be prepared by the ENGINEER. The SCP will be executed once ENGINEER and CITY have a fully signed Staffing Cost Proposal and a Purchase Order has been provided to the ENGINEER by the CITY for services described in the Staffing Cost Proposal. The CITY's expectation is for work under this Staffing Cost Proposal to be self-performed by the ENGINEER, whenever possible.

B. DESCRIPTION OF ASSIGNMENT

ENGINEER is to provide professional engineering services for the Design, Bidding and Construction Management of the Gleason Pkwy Waste Activated Sludge (WAS) Line and Fiber Optic Conduit project.

C. PROJECT OVERVIEW:

The CITY previously installed a 6-inch waste activated sludge (WAS) line from the Everest Water Reclamation Facility (EVWRF) west along Gleason Parkway to Pelican Boulevard. As part of the current 42" Force Main (FM) Replacement projects, the CITY is working to install a 6-inch Waste Activated Sludge (WAS) line and Fiber Optics conduit from the Southwest Water Reclamation Facility (SWWRF) east to SW 15th Avenue & Gleason Pkwy.

With completion of the current project, there is still a portion required, which includes approximately 1.4-mile section of WAS line between SW 15th Avenue and Pelican Boulevard and an approximate 1.8-mile section of Fiber-Optics conduit between SW 15th Avenue and Santa Barbara Blvd required to link the two lines between the Everest WRF and Southwest WRF.

D. SCOPE OF SERVICES

The scope of services below provides for the engineering & design, permitting, and any additional required surveying, associated with the installation of the WAS line, and Fiber-Optics conduit, between SW 15th Avenue and Santa Barbara Boulevard.

E. PROJECT TASKS

Design Requirements

The use of the CITY's Utility Standards will be required for all water, wastewater, and irrigation utility projects within the City of Cape Coral unless authorized by the CITY's Utilities Department. The City of Cape Coral has established a comprehensive set of Utility Standards which consist of the Design Procedures Manual, Front End Documents, Technical Specifications, and Standard Utility Drawings & Details, to provide for the planning and design of utility infrastructure within the CITY. The ENGINEER will review all documents relevant to the project and contact the CITY's Utilities Department with any questions, concerns, or clarifications, of the Utility Standards. Additional CITY guidelines; Qualified Products List (QPL), Engineering Design Standards. Project documents may be required to be submitted under a CITY selected Project Management Information System (PMIS).

Task 1 – Preliminary Design

After written authorization to proceed, the ENGINEER shall;

- a. Inspect the designated route and consult with the CITY to clarify and define the requirements for the project.
- b. Perform surveying to GIS support level or engineering required level, to perform final design of the project.
- c. Review available data, including, but not limited to record drawings, GIS, pump specifications, run time data, any existing survey data, and/or geotechnical reports.
- d. Scopes of work for Geotechnical, Subsurface Utility Exploration, survey, for the remainder length to be surveyed and Listed Species Survey were requested from Subconsultants and secured. See attached.
- e. Design Management
 - i. ENGINEER will prepare for and conduct kick-off meeting with project team and CITY staff. The meeting will be attended by the project manager and the project engineer. Meeting minutes will be prepared.
 - ii. Coordinate project activities – ENGINEER will perform project coordination and management functions for the duration of the project.

Task 2 - Final Design & Permitting

- a. Prepare for incorporation in the Contract Documents, drawings which provide the general scope, extent and character of the work to be furnished, and performed by the Contractor. Design submittals shall proceed to and be submitted to the CITY at the 30-, 60-, and 90-percent completion stages. 100-percent will arrive from the final approved 90% drawings. Design will be based on data to be provided by the CITY for surveying, subsurface utility exploration and geotechnical. Submittals for review will be made electronically in PDF format. Documents shall include drawings and specifications ready for bidding:
 - General Sheets consisting of:
 - i. Cover Sheet
 - ii. General Notes Sheet
 - iii. Legend Sheet
 - iv. Key Map
 - v. Fiber Optics Master Plan
 - Civil plan & profile sheets for the proposed force main and fiber optic improvements between SW 15th Avenue and Santa Barbara Blvd. Sheet layouts will be at 1:30-scale, prepared for 22x34 inch drawings sheets (to allow for production at half scale on 11x17 inch sheets while maintaining a 1:60 scale). – 14 sheets anticipated
 - Detail sheets including MOT, connection details to existing force main and related standard details and picture data (as available) for the SUE efforts performed by others.
- b. Advise the CITY of any adjustments to the latest preliminary opinion of probable construction costs based on changes in general scope, extent or character or design requirements of the project. Furnish to the CITY a revised preliminary opinion of probable construction costs based on the drawings and specifications at the 60- and 100-percent completion stages of design.
- c. Develop and provide technical specifications to the CITY for incorporation with the City-prepared front-end documents (the Division 00 documents to be sent to Procurement). The CITY will assemble the bidding documents.
- d. Perform permitting services required with the Florida Department of Environmental Protection (FDEP) regarding the proposed project. Permitting efforts will include preparation and submittal of the required FDEP wastewater permit application and required signed/sealed design documents along with addressing requests for additional information related to the proposed improvements to be permitted. The ENGINEER has based the level of effort and fee upon the premise that the proposed project will be processed by FDEP using Form 62-604.300(8)(a), FAC and by the United States Army Corps of Engineers through the Pre-Construction Notification (PCN) process as a Nationwide Permit 12 to authorize work under waters of the United States. The ENGINEER will conduct a desktop review of readily available Geographic Information Systems (GIS) data layers to establish the existing conditions narrative required to generate permit applications. Wetland and/or listed species impacts and compensatory mitigation are not anticipated. All permit fees are to be paid for by the CITY.

- e. Conduct four (4) project design meetings between CITY and the ENGINEER to review comments from the CITY on the draft contract documents.

Task 3 – Bidding

1. Bidding Services

With the exception of the following, bidding services will be performed by the CITY.

ENGINEER will assist with the following:

- a. Attend a Pre-Bid meeting for the project to describe the proposed improvements.
- b. Answer bidder questions through preparation of addenda for each project. The ENGINEER will address those technical items associated with design, with the CITY addressing administrative/contractual questions and releasing documents through addenda.
- c. Attend (1) Bid -Opening and review bids/make a recommendation of award.

Task 4 – Construction Management

1. Pre-Construction Phase

Following procurement of the Construction Contractor, the ENGINEER shall perform the following:

- a. ENGINEER Meetings –
 - i. Attend (1) pre-construction meetings as necessary to review construction procedures and material requirements establish party contacts and familiarize all party members with goals and manner in which they should be accomplished.
 - ii. Attend (1) internal meetings to review the proposed shop drawings with the CITY.
- b. ENGINEER shall review and approve shop drawings, samples and other data which Contractor is required to submit for conformance with the design concept of the project and compliance with the information given in the Contract Documents.
- c. ENGINEER shall evaluate and determine the acceptability of substitute materials and equipment proposed by Contractor.

2. Construction and Closeout Phase

During the Construction Phase, ENGINEER shall provide general administration of the construction contract, which shall include the following services:

- a. Meetings – Schedule and attend progress meetings in order to review the project progress with the CITY and Contractor. This scope of services considers that bi-weekly progress meetings will be held for a total of ten (10) progress meetings.

- b. ENGINEER shall make visits to the construction site at intervals appropriate to the various stages of construction in order to observe as an experienced and qualified design professional the progress and quality of the various aspects of contractor's work. Based on information obtained during such visits and on such observations, ENGINEER will determine if such work is proceeding in accordance with the Contract Documents and ENGINEER shall keep the CITY informed of the work's progress. The purpose of ENGINEER's visits to the sites will be to enable ENGINEER to better carry out the duties and responsibilities assigned to and undertaken by ENGINEER during the Construction Phase, and, in addition, by exercise of ENGINEER's efforts as an experienced and qualified design professional, to provide for the CITY with a greater degree of confidence that the completed work of Contractor will conform to the Contract Documents and that the integrity of the design concept as reflected in the Contract Documents has been implemented and preserved by Contractor. ENGINEER will not, during such visits or as a result of such observations of Contractor's work in progress, supervise, direct or have control over Contractor work, nor shall ENGINEER have authority over or responsibility for the means, methods, techniques, sequences or procedures of construction selected by Contractor for safety precautions and programs incident to the work of Contractor or for any failure of Contractor to comply with laws, rules, regulations, ordinances, codes or orders applicable to Contractor furnishing and performing their work.
- c. ENGINEER shall issue necessary interpretations and clarifications of the Contract Documents and in connection therewith prepare for the CITY's and ENGINEER's signatures any work directive changes and change orders as required.
- d. ENGINEER will, with the CITY's concurrence, have authority as the CITY's representative, to require special inspection or testing of the work, and will receive and review all certificates of inspections, testing and approvals required by laws, rules, regulations, ordinances, codes, orders or the Contract Documents to determine that their content complies with the Contract Documents. CONTRACTOR responsible for material testing and submittal of results to ENGINEER for approval.
- e. ENGINEER shall act as initial interpreter of the requirements of the Contract Documents and judge of the acceptability of the work thereunder and make decisions on all claims of the CITY and Contractor relating to the acceptability of the work or the interpretation of the requirements of the Contract Documents pertaining to the execution and progress of the work.
- f. Based on ENGINEER's on-site observations as an experienced and qualified design professional, ENGINEER will review applications for payment and the accompanying data and schedules. ENGINEER will determine the amounts owing to Contractor and recommend in writing to the CITY, payments to Contractor in such amounts. Such recommendations of payment will constitute a representation to the CITY, based on such observations and input from the CITY's field inspector and periodic visits to the project by ENGINEER, that the work has progressed to the point indicated, and that, to the best of ENGINEER's knowledge, information and belief, the quality of such work is in accordance with the Contract Documents. In the case of unit price work, ENGINEER's recommendations of payment will include final determinations of quantities and classifications of such work (subject to any subsequent adjustments allowed by the Contract Documents).

- g. ENGINEER shall receive and review for adequacy, schedules, guarantees, bonds and certificates of inspection, tests and approvals assembled by Contractor in accordance with the Contract Documents and forward to the CITY.
- h. ENGINEER shall conduct an inspection to determine if the work is substantially complete and a final inspection to determine if the completed work is acceptable so that ENGINEER may recommend, in writing, final payment to Contractor and give written notice to the CITY and the Contractor that the work is acceptable.
- i. ENGINEER shall prepare a set of reproducible Record Drawings showing those changes made during the construction process, based on the marked-up prints, drawings, surveys and other data furnished by Contractor to ENGINEER and which the ENGINEER and the CITY considers significant.
- j. ENGINEER shall prepare and submit certifications of completion of construction as may be required by the regulatory agencies issuing permits for the project.
- k. ENGINEER shall coordinate manufacturer's startup and/or training. (if required)

Additional Services

Should the CITY request assistance that is outside of the scope of services as described above, that work would need to be addressed under a separate proposal.

Items to Be Furnished at No Expense to the ENGINEER

The CITY will assist the ENGINEER by furnishing, at no cost to the ENGINEER, available pertinent information including data relative to performance of the above services for the project including but not limited to: pump design data, any known survey data, as-built and GIS information available for the existing wastewater, potable water, and/or irrigation, systems in the vicinity of the proposed project. It is agreed and understood that the accuracy and veracity of said information and data may be relied upon by ENGINEER without independent verification of the same.

F. DELIVERABLES

The following deliverables are anticipated:

- 1. Copies of Meeting Minutes.
- 2. Four (4) sets of record drawing prints plus reproducible, one copy to be 36" x 24".
- 3. An electronic file of record drawing.
- 4. Copies of all test and/or start-up forms.
- 5. Copies of certification of completion forms.
- 6. All survey documents/data.

G. PROPOSED STAFFING

(Firm's staffing summary)

The following staff is proposed for performing the services authorized in this SCP. These position titles and fees should match those shown in the Master Agreement for Miscellaneous Professional Services.

Labor Classification	Assignment
Principal in Charge \$258/hr.	Design, Permitting, Bidding and Construction Management – Tasks 1, 2, 3 and 4
Project Manager \$189/hr.	Design, Permitting, Bidding and Construction Management – Tasks 1, 2, 3 and 4
Engineer 2 \$129/hr.	Design, Permitting, Bidding and Construction Management – Tasks 1, 2, 3 and 4
CADD Technician 2 \$112/hr.	Design, Permitting, Bidding and Construction Management – Tasks 1, 2, 3 and 4
Project Administrator \$76/hr.	Design, Permitting, Bidding and Construction Management – Tasks 1, 2, 3 and 4

(Proposed Sub-consultants' staff)

Sub consultant assignment:

Labor Classification	Assignment
RWA Engineering	Survey – Task 1 Preliminary Design
GFA International	Geotechnical – Task 1 Preliminary Design
Passarella & Associates, Inc.	Environmental/Permitting – Task 1

H. TIMELINES by TASK

- Task 1 - 90 days
- Task 2 - 90 days
- Task 3 - 30 days
- Task 4 - 220 days
- Completion – 430 days

I. SCHEDULE

The services described herein will commence upon receipt by the ENGINEER of a Purchase Order from the CITY. Receipt of the Purchase Order will serve as ENGINEER'S Notice to Proceed.

J. CITY RESPONSIBILITIES

The CITY will designate Dennis Morgan, Senior Project Manager, as the CITY'S representative and primary contact for the ENGINEER. The ENGINEER will rely on the CITY'S designated project representative for instructions and approval of ENGINEER'S'S services.

K. COMPENSATION

Based on the scope of services and the schedule outlined above, ENGINEER has prepared a detailed labor disaggregation for the proposed tasks. Summarized in **Attachment A** – (hereby attached and incorporated herein) is a summary spreadsheet that details the man-hours for each task for ENGINEER'S personnel titles as shown in the contract and sub-consultants service fees. All anticipated other direct expenses are outlined in spreadsheet. Sub-consultant fees are also shown on the spreadsheet and additional attachment on Sub-consultant's Letterhead as an attachment to the

Staffing Cost Proposal. No Mark-up on Sub-consultant fees will be accepted. All fees will be shown as "Not to Exceed". No LUMP SUM fees will be accepted.

For the professional services as set forth in this SCP, the CITY shall pay ENGINEER a not-to-exceed fee in the amount of (\$167,561) as displayed in the attached price proposal. Payment is estimated to be distributed to the Firm in monthly progress payments based on work performed during each monthly billing period. Certain assumptions have been made in developing the fees for services. To the extent possible, all fees are shown in the proposal. If changes to the work should result in changes in the level of effort presented in this proposal the scope of services and fee budget will be revised by mutual agreement and will follow CITY guidelines for authorization and approval.

L. All Other Direct Cost (ODC):

All other direct costs (Examples Include: Travel, Hotel, Mileage, Meals, Copies, Equipment Rental, etc.) will be shown at actual cost as shown in Master Agreement for miscellaneous professional services. No mark up on Sub-consultant Services or Other Direct Cost Expenses will be accepted.

Pursuant to FL Statute §166.241, the City's performance and obligation to pay under this Contract is contingent upon an annual appropriation by the City Council. This Contract is not a commitment of future appropriations. Authorization for continuation and completion of work and any associated payments may be rescinded, with proper notice, at the discretion of the City, if the City Council reduces or eliminates appropriations.

(END OF SECTION)

IN WITNESS WHEREOF, the parties hereto have executed STAFFING COST PROPOSAL No. AI-08 to be effective as of this day _____ of _____ 2019.

RE: Cape Coral WAS Force Main and Fiber Optic Project
City of Cape Coral Listed Species Survey
Project No. 19AEC3070

Dear Francisco:

Passarella & Associates, Inc. (Consultant) is pleased to offer the following services to AECOM (Client) for Cape Coral WAS Force Main and Fiber Optic Project located in Sections 2, 3, 34, and 35; Township 44 and 45 South; Range 23 East; Lee County, Florida. The services to be provided are as follows:

<u>Task</u>	<u>Description</u>	<u>Cost</u>
1.0	City of Cape Coral Listed Species Survey	\$3,500.00
1.1	Conduct updated listed species survey per City of Cape Coral standards.	
1.2	Prepare map showing approximate location of listed species documented during survey.	
1.3	Prepare report summarizing results of survey per City of Cape Coral requirements.	
2.0	General Consultation and Meetings	\$1,200.00
2.1	Attend meeting and/or conference calls with Project team.	

The total fee for Tasks 1.0 and 2.0 is four thousand seven hundred dollars (\$4,700.00). Invoicing will be monthly based on percentage of the work completed.

In witness whereof the parties hereto have made and executed this contract as of the day and year above written.

Client:

Press Subject: Professional Service Proposal for Design Survey, along Gleason Parkway, Pelican Boulevard to Santa Barbra Boulevard (RWA Project No. 190054.00.00)

Dear Fransico,

RWA, Inc. is pleased to submit the following proposal for land surveying services associated with the development of the subject project. Outlined below is our understanding of the project profile and the assumptions we have used to develop our scope and associated fees in response to your request for proposal. The deliverable will be a CADD file, with the data overlaid on the best available aerial photograph, and a signed and sealed Surveyor's Report.

PROJECT PROFILE

- The project is generally located in Section 02 Township 45 South, Range 23 East, City of Cape Coral, in Lee County, Florida.
- The Client desires to retain the services of RWA, Inc. (Consultant) and proceed with the Project as described within this proposal.
- All surveying activities to be performed under the direct supervision of a licensed Professional Surveyor & Mapper and shall adhere to Chapter 472, Florida Statutes, and the Standards of Practice as specified in section 5J-17, Florida Administrative Code.

PROJECT ASSUMPTIONS

- The Client will make available all pertinent information, permits, and documents associated with the required Project, including, but not limited to, existing surveys, title policies, O&E reports and engineering/civil plans in Auto CADD electronic format, if any exist.
- This proposal includes performing all services described within on a one-time basis.
- Client will assist RWA with access to the site during normal working hours. If we foresee the need to work after hours, or on the weekend, we will notify the client to insure access.

- The vertical and horizontal datum will be Florida State Plane Coordinates, Florida West Zone, and NGVD 29. The survey provided as a basis for this task, prepared by Hole Montes, dated Dec. 2018, is noted to be in NGVD 29. We can show either datum on the deliverable, and also list the conversion from NGVD 29 to NAVD 88.
- There is no Boundary Survey component to this project.

SCOPE OF SERVICES

1.0 Limited Topographic Survey

The project area is along Gleason Parkway, between Pelican Boulevard, extending easterly approximately 2,700 feet to the intersection with Santa Barbara Boulevard.

- 1.1. RWA will recover or establish a baseline along Gleason Parkway, from Pelican Boulevard to the intersection with Santa Barbara. This will be the basis for the topographic survey, and will give us a basis to compare the data we collect, with that shown on the Hole Montes survey.
- 1.2. RWA shall locate existing platted property corners, along the southerly right of way line of Gleason Parkway. This will be used as a basis for establishing the basemap for the project area. RWA will then use the recorded plat to establish the lot lines of the properties adjacent to the southern right of way line. We will also mine the Lee County Property Appraisers website to obtain the lot number, names of the owners and strap numbers of those adjacent properties.
- 1.3. RWA shall collect topographic information on the existing improvements on the southern right of way, from the center median, to the right of way line, within the project limits. This shall include any fixed improvements such as evidence of utilities, driveway aprons, signage, mail boxes, light, signal or utility poles, and sidewalks. We will collect information the visible existing utilities, hard surfaces and drainage swales.
- 1.4. RWA shall set up to four (4) new horizontal control points and up to (6) benchmarks in the project area.
- 1.5. RWA shall locate both horizontally and vertically, the utilities uncovered and marked by CARDNO, and add that data to the survey

2.0 Subsurface Utility Locations

RWA shall employ the services of CARDNO as a subcontractor, to perform six (6) pot hole excavations.

2.1 Limits of Investigation:

The test hole locations will be determined by the client but generally understood to be located as follows: 2 at Gleason / SW 15th Avenue, 2 at Gleason / Pelican and 2 at Gleason and Santa Barbara.

Scope of Services:

1. Cardno will complete six test holes in the locations as described above.
2. Photographs will be taken at each location showing the exposed utility.
3. Measurements will be taken from a reference point set next to each test hole.
4. All data will be recorded on data sheet including utility type, size and depth.

3.0 Reimbursable Expenses

- 3.1 Expenses for copies, blueprints, reproduction services, overnight or express delivery and, services not specifically specified herein shall be reimbursable to RWA, Inc.

PROFESSIONAL SERVICE FEES

The professional service fees for the associated scope of services are listed below:

<u>Scope of Service</u>	<u>Fee</u>	<u>Type</u>
1.0 Limited Topographic Survey	\$ 12,500.00	Fixed
2.0 Subsurface Utility Locates	\$ 3,700.00	Fixed
3.0 Reimbursable Expenses	\$ 100.00	T/M/E

EXCLUDED SERVICES

The professional services to be provided by the Consultant are limited to those described in the Scope of Services. All other services are specifically excluded. Listed below are some excluded services that may be required or desired by the Client:

- Jurisdictional Wetland line determination/surveys
- Title/Official Record Searches
- Legal description preparation
- As-built record verifications
- Construction Staking
- As-Built Surveys
- FEMA Certificates

These services will appear on future invoices as *Limited Topographic Survey* Please sign this authorization on page 3 and return it to our office as notice to proceed with the work. Please feel free to contact me at (239) 597-0575 if you have any questions or require additional information.

Sincerely,

Michael A. Ward, PLS

**RE: Proposal for Geotechnical Exploration
Gleason Parkway WAS FO Installation
Gleason Pkwy. from SW 15th Ave. to Santa Barbara Blvd.
Proposal No. 19-3484.00**

Dear Mr. Bohorquez:

GFA International, Inc. (GFA) appreciates the opportunity to become a part of your project team. Our team of professionals are dedicated to making this project a success, both on schedule and within budget. We are proud of our commitment to maintaining the highest levels of customer service and client satisfaction, and respectfully submit the following for your consideration.

PROJECT DESCRIPTION

GFA understands that the project will consist of the installation of approximately 1.4 miles of 6-inch force main and 1.8 miles of fiber optics conduit along Gleason Parkway from SW 15th Avenue to Pelican Boulevard (6-inch force main) and Santa Barbara Boulevard (fiber optics conduit) in Cape Coral, Lee County, Florida. We also understand that most of the installation will consist of cut-and-cover operations, with the exception of canal crossings and major intersections where installation will consist of directional drilling. Project documentation provided to GFA was a Topographic Survey dated 4/2/19 prepared by Hole Montes along Gleason Parkway from SW 15th Avenue to Pelican Boulevard. No other documents were provided at this time.

Per the City of Cape Coral Drilling requirements, the owner of the property (Gleason Parkway Right-of-way) must authorize drilling for the referenced site in order for the drilling permit to be obtained. The attached Owner's Authorization Form must be completed and returned before any work can be performed. Absence of this form will delay scheduling of the project.

SCOPE OF SERVICES

GFA anticipates that the following services will be required for this project:

1. Geotechnical Drilling and Engineering Services

1. GEOTECHNICAL DRILLING AND ENGINEERING SERVICES

The objective of GFA's services on this project will be to collect site and subsurface data along the proposed project route and summarize test results in the form of a Geotechnical Engineering Report. GFA anticipates that the following services will be required:

- Where applicable, GFA will obtain city drilling and county right-of-way permits for proposed work listed above.
- A representative from GFA's office will locate the borings in the field based on measured and estimated distances from existing site features.
- GFA will contact Sunshine State One Call to have any known utilities at the test boring locations identified. Utility locates will take a minimum of 72 hours for completion. GFA cannot be responsible for underground utilities or structures not identified to us.
- Mobilize a truck-mounted drill rig. **This proposal is based on the site being accessible to our truck-mounted drilling equipment.**
- GFA will perform seven (7) Standard Penetration Test (SPT) borings advanced to a depth of twenty-five (25) feet and five (5) SPT borings advanced to a depth of ten (10) feet below the existing site grade. (Please note that the number and depths of borings may be adjusted in the field based on existing soil conditions.)
- GFA will visually classify and stratify the soil/rock samples recovered and perform laboratory testing as necessary to facilitate classification of samples.
- Summarize our activities on this project in the form of a Geotechnical Engineering Report, which will include the test procedures used, the data collected, a discussion of project specific geotechnical concerns, our engineering evaluation and recommendations, a site plan showing the test locations, and a software generated log of each test boring.

We have assumed that the current property owner(s) and/or current property user(s) will grant site access to our personnel for the performance of the work. If this assumption is incorrect, we must be notified prior to the start of our work.

An Estimated Budget for the scope of services detailed above is presented below:

Description	Rate	Est. Qty.	Estimated Total
Field Services**			
Cape Coral Drilling Permit	\$330.00 Each	2	\$660.00
Cape Coral Right-of-way Permit (if required)	\$100.00 Each	2	\$200.00
Mobilization of Drilling Equipment	\$500.00 Each	1	\$500.00
Drilling and Grouting of Borings*	\$16.00 Foot	225	\$3,600.00
Staff Engineer for permits and utility locates	\$85.00 Hour	8	\$680.00
Laboratory Services			
Gradation Testing (if required)	\$55.00 Each		TBD
#200 Wash (if required)	\$50.00 Each		TBD
Organic Content (if required)	\$50.00 Each		TBD
Engineering Services			
Project Engineer	\$135.00 Hour	2	\$270.00
Staff Engineer	\$85.00 Hour	8	\$680.00
CAD Technician	\$55.00 Hour	6	\$330.00
Admin. Asst.	\$35.00 Hour	2	\$70.00
ESTIMATED TOTAL:			\$6,990.00

*Billing will be based on actual work performed and the unit rates shown.

**If MOT services are required, a daily rate of \$2,000 per day will be incurred. If private locating services are required a daily rate of \$1,000 per day will be incurred.

We will not exceed the fee stated above unless unsuitable and/or unstable soil conditions are encountered. If casing is required due to loss of drilling fluid circulation during drilling operations – an additional fee of \$5.00 per foot of casing required will be charged. If unsuitable and/or unstable soil conditions are encountered, the boring depth will be increased to obtain sufficient data to provide geotechnical recommendations.

CONDITIONS AND QUALIFICATIONS

Please note that GFA’s services do not include supervision or direction of the actual work. Also, be aware that neither the presence of our field representative nor the observation and testing by our firm shall imply GFA’s responsibility for defects discovered in the construction work. It is understood that GFA will not be responsible for job or site safety on this project. Job site safety will be the sole responsibility of the contractor.

In this proposal the words “inspection” and “verify” are used to mean observation of the work and the conducting of tests by GFA to determine substantial compliance with plans, specifications and design concepts.

These services include an engineering technician or inspector, field sampling, travel, test equipment and a typed report signed and sealed by a State of Florida Registered Professional Engineer. The rates for professional engineering services apply to report review, site visits and meetings, consultations, engineering letters, and letters of intent and certification.

The overall cost of construction quality control programs is dependent upon the contractor’s scheduling, weather and other factors beyond our control. However, you will only be invoiced for services rendered. Hourly rates will be charged in whole hour increments with fractions of an hour rounded up to the next full hour. All hourly labor rates are portal to portal.

GFA will provide detailed invoices on a bi-weekly basis for services rendered. Our terms are C.O.D. (credit cards are accepted) unless a credit application has been approved or credit has been previously established. If credit is established, our terms will be net-30 days. All GFA services must be paid in full, including final letter, prior to delivery of any Final Letters of Compliance. The pricing contained herein is subject to change if this proposal is not authorized within 90 days from the date of this proposal. If more than 90 days have passed since the date of this proposal, please contact us for an updated proposal. Additional items not listed in this proposal will be quoted upon request.

Reports will be distributed promptly to a maximum of three (3) interested parties without charge (Ex: Building Department, Owner, and Contractor). Additional reports will be billed at 1% of the monthly invoice for each additional party. All GFA services must be paid in full, including final letter, prior to delivery of any Final Letters of Compliance.

AUTHORIZATION

All services will be conducted in accordance with this proposal and attached Terms and Conditions. To initiate services, please complete and return the included Proposal Acceptance Agreement form. The Terms and Conditions are part of this agreement. **The signed proposal acceptance agreement form must be received by GFA via fax or email prior to any work being performed, and an original copy must be received before completed reports can be distributed.**

CLOSING

GFA appreciates the opportunity to submit this proposal and looks forward to working with you as a member of the project team. Please contact the undersigned at 239.489.2443 if you have any questions or comments.

From our team to yours,

AGENDA REQUEST FORM
CITY OF CAPE CORAL

TITLE:

Resolution 150-19 Approve Agreement CON-PW19-45/AP-1(CP) for Professional Design Services for the Community Park project with Kimley-Horn and Associates, Inc. for a not to exceed cost of \$3,204,076 with a 5% City controlled contingency for additional services, if needed, of \$160,204 for a total cost \$3,364,280. The ranking was approved by City Council on 4/15/19 via Resolution 65-19; Department: Public Works/Parks & Recreation; Dollar Value: \$3,364,280; (Governmental Capital Project Fund-funded by GO Bond)

REQUESTED ACTION:

Approve or Deny

STRATEGIC PLAN INFO:

1. Will this action result in a Budget Amendment? Yes
2. Is this a Strategic Decision? Yes

If Yes, Priority Goals Supported are listed below.

If No, will it harm the intent or success of the Strategic Plan?

ELEMENT F: ENHANCE THE QUALITY OF LIFE THROUGH ARTS AND CULTURE TO CREATE AND PROMOTE A VIBRANT, CULTURALLY DIVERSE COMMUNITY.

ELEMENT G: WORK TOWARD EFFICIENT AND COST-EFFECTIVE SOLUTIONS TO PROTECT AND CONSERVE NATURAL RESOURCES, WHILE PROMOTING ENVIRONMENTAL AWARENESS AND SUSTAINABILITY IN THE COMMUNITY.

PLANNING & ZONING/HEARING EXAMINER/STAFF RECOMMENDATIONS:

SUMMARY EXPLANATION AND BACKGROUND:

1. On February 4, 2019 Request for Proposal RFP-PW19-45/AP was issued seeking qualified firms to provide Professional Design Services for the Design of Neighborhood & Community Park project.
2. On March 1, 2019, five (5) firms responded to the RFP. The five (5) firms in alphabetical order are: AECOM Technical Services, Inc.; CPH, Inc.; Kimley-Horn and Associates, Inc.; Q. Grady Minor & Associates, P.A.; and Stantec Consulting Services, Inc.
3. Proposals were evaluated based on City of Cape Coral, Code of Ordinance Article VII: Purchase and Sale of Real and Personal Property Section 2-144 (h) Consultant's Competitive Negotiation Act.
4. Firms that were shortlisted were asked to present to the Selection Advisory Committee on March 26, 2019 for Neighborhood Parks and on March 27, 2019 for Community Parks. The firms shortlisted were, in alphabetical order: AECOM Technical Services, Inc.; Kimley-Horn

and Associates, Inc; and Stantec Consulting Services, Inc.

5. On March 26 and 27, the Selection Advisory Committee (SAC) interviewed the three (3) firms recommended by the evaluation committee. The SAC ranked the firms in the following order #1 Kimley-Horn and Associates, Inc.; #2 AECOM Technical Services, Inc.; #3 Stantec Consulting Services, Inc.
6. On April 15, 2019, via Resolution 65-19, City Council approved the ranking and authorized the City Manager to enter into contract negotiations with the #1 ranked firm for the Neighborhood and Community Parks – and Rank #1 AECOM Technical Services, Inc and Rank #1 Kimley-Horn and Associates, Inc., respectively
7. The Agreement for the Community Parks with Kimley-Horn and Associates, if approved, is for a not to exceed cost of \$3,204,076 with a 5% City Controlled Contingency for any additional services of \$160,204 for a total cost \$3,364,280. This agreement includes the design of four (4) community parks.
8. The Department Director is requesting City Controlled contingency for additional services, if needed. The Expenditure of Contingency, if any, will be subject to approval of specific change orders by the Project Manager, if justified upon identified needs with an appropriate scope and cost to address specific needs.
9. Funding Information: Governmental Capital Project Fund- funded by GO Bond. Business units have been created for the four (4) Community Parks; four (4) Community Parks. Funded through General Obligation debt proceeds to approve the expenditure appropriation, to be presented with Budget Amendment # 2

CITY OF CAPE CORAL
PUBLIC WORKS DEPARTMENT

TO: John Szerlag, City Manager
Victoria Bateman, Finance Director
Wanda Roop, Procurement Manager

FROM: *pot* Paul Clinghan, Public Works Director *PC*
Kerry Runyon, Parks and Recreation Director *AA-1/5/19*

DATE: July 5, 2019

SUBJECT: Design of Community Parks GO Bond Project: Kimley-Horn and Associates, Inc.

BACKGROUND:

In November 2018 the electorate approved the use of General Obligation funding to deliver up to \$60 million in parks improvements identified in the 2016 Parks and Recreation Master Plan. The City Council passed Ordinance 54-19, authorizing the issuance of \$10.2M to begin purchasing improvements at existing parks and to fund the design work at 11 other parks—seven (7) neighborhood and four (4) community parks.

The City issued a request for proposal (RFP) to various engineering firms to review and identify the most qualified firm(s) to perform the work. Upon closure of the RFP the SAC ranked the firms for award and, subsequently, City Council approved Resolution 65-19, ranking the firms for negotiations as follows: Community Parks-Kimley Horn and Neighborhood Parks-AECOM. City Administration has completed its negotiations with Kimley-Horn and Associates for the master planning, design, and development of bid documents needed to construct the four (4) community parks for a total amount of \$3,204,076, with a 5% city-controlled contingency in the amount of \$160,204. The total amount including contract contingency and the possible additional services is \$3,364,280.

RECOMMENDATION:

The City and Kimley-Horn and Associates have entered into an Agreement to provide professional engineering services in connection with the Civil Site Design Improvements for the following four (4) community parks: 1) Festival Park, 2) Lake Kennedy Park, 3) The Yacht Club, and 4) Yellow Fever Creek Park. The agreement provides for various professional services to be performed including the following: 1) master planning, 2) public engagement, 3) design services, 4) bidding, and 5) engineer of record.

Staff recommends awarding the contract based on the agreement provided. If you have any questions regarding this request, please contact Michael Ilczyszyn, Senior Public Works Manager at 239-574-0457 or milczysz@capecoral.net.

FUND AVAILABILTY:

GO Bond - Parks & Recreation: Festival Park 3112032, Lake Kennedy Park 3112033, Yacht Club 3112031, and Yellow Fever Creek Park 3112034

RESOLUTION 150 – 19

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF CAPE CORAL, FLORIDA, APPROVING AGREEMENT CON-PW19-45/AP-1 (CP) FOR PROFESSIONAL DESIGN SERVICES FOR THE COMMUNITY PARKS PROJECT BETWEEN THE CITY OF CAPE CORAL AND KIMLEY-HORN AND ASSOCIATES, INC.; PROVIDING FOR SUBSEQUENT EXECUTION OF THE CONTRACT BY THE CITY MANAGER OR HIS DESIGNEE; PROVIDING FOR APPROVAL OF A CONTINGENCY AMOUNT; PROVIDING AN EFFECTIVE DATE.

WHEREAS, on February 4, 2019, the City issued Request for Proposal RFP-PW19-45/AP for Professional Design Services for the Design of Neighborhood Parks & Community Parks General Obligation (GO) Bond Project; and

WHEREAS, the City received five (5) proposals; and

WHEREAS, the proposals were evaluated based on the criteria set forth in the City of Cape Coral Code of Ordinances, Section 2-144(h), Consultants' Competitive Negotiation Act; and

WHEREAS, on March 26, 2019, and March 27, 2019, the SAC interviewed the top three firms and ranked the firms as follows: Kimley-Horn and Associates, Inc., ranked #1; AECOM Technical Services, Inc., ranked #2; and Stantec Consulting Services, Inc., ranked #3; and

WHEREAS, the SAC further ranked the firms for the two separate projects as follows: AECOM Technical Services, Inc., ranked #1 for the Design of the Neighborhood Parks GO Bond Project; and Kimley-Horn and Associates, Inc., ranked #1 for the Design of the Community Parks GO Bond Project; and

WHEREAS, based on the SAC ranking, which was approved by City Council on April 15, 2019, via Resolution 65-19, staff began negotiations with Kimley-Horn and Associates, Inc., the #1 ranked firm for the Design of Community Parks; and

WHEREAS, based on the negotiations, the City Manager recommends the approval of Agreement CON-PW19-45/AP-1 (CP) between the City of Cape Coral and Kimley-Horn and Associates, Inc., for the Design of Community Parks for an amount not to exceed \$3,204,076, subject to a City-controlled contingency amount not to exceed five (5) percent of the total amount of the contract.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF CAPE CORAL, FLORIDA:

Section 1. The City Council hereby approves Agreement CON-PW19-45/AP-1 (CP) between the City of Cape Coral and Kimley-Horn and Associates, Inc., for Professional Design Services for the Community Parks GO Bond Project for an amount not to exceed \$3,204,076, subject to a City-controlled contingency amount not to exceed five (5) percent of the total amount of the contract, and authorizes the City Manager or his designee to execute Agreement CON-PW19-45/AP-1 (CP). A copy of the Agreement is attached hereto as Exhibit 1.

Section 2. The City Council hereby authorizes the City Manager or the City Manager's designee to enter into change orders for work required other than as contemplated in the contract documents with an appropriate scope and cost to address those needs, subject to payment of a City-controlled contingency amount not to exceed five (5) percent of the total amount of the contracts.

Section 3. Effective Date. This resolution shall take effect immediately upon its adoption by the Cape Coral City Council.

ADOPTED BY THE CITY COUNCIL OF THE CITY OF CAPE CORAL AT ITS REGULAR COUNCIL SESSION THIS _____ DAY OF _____, 2019.

PROFESSIONAL
SERVICES AGREEMENT

THIS AGREEMENT is made and entered into this ____ day of _____, 2019, by and between the City of Cape Coral, Florida, a municipal corporation of the State of Florida, hereinafter referred to as the “City” and “Kimley-Horn and Associates, Inc.” a North Carolina incorporated company, hereinafter referred to as “Consultant” or “Engineer”.

WITNESSETH:

WHEREAS, the City is a municipality providing to its citizens a comprehensive range of municipal services including general government, public safety, community development, public works, planning, utilities, and parks and recreation; and

WHEREAS, the City desires to contract with the Consultant to provide Professional Design Services for the Design of Four (4) Community Parks. The Consultant shall include all work necessary for the master planning, design, permitting, bidding assistance and optional Construction Engineering Inspection (CEI) services of the project per the scope of professional services; and

WHEREAS, the Consultant hereby certifies that it has been granted and possesses valid, current licenses to do business in the State of Florida, Lee County, Florida and the City of Cape Coral, issued by the respective agencies responsible for regulating and licensing the professional services to be provided and performed by the Consultant pursuant to this Agreement; and

WHEREAS, Consultant has reviewed the professional services required pursuant to this Agreement and is qualified, willing and able to provide and perform all such services in accordance with the provisions, conditions and terms hereinafter set forth; and

WHEREAS, the selection and engagement of the Consultant has been made by the City in accordance with the provisions of the Consultant’s Competitive Negotiation Act, Section 287.055, Florida Statutes, and in accordance with the provisions of all City procurement standards.

NOW, THEREFORE, for and in consideration of the mutual covenants and agreements set forth herein and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the City and Consultant, intending to be legally bound, covenant and agree as follows:

ARTICLE 1
RECITALS

The recitals set forth above are true and correct and are incorporated herein by reference.

ARTICLE 2
DEFINITIONS

- 2.1 City: The term “City” shall mean the City of Cape Coral
- 2.2 Consultant: The term “Consultant” shall mean prime consultant “Kimley-Horn”, with professional design services for this project being performed by personnel located at 1777 Main Street, Ste 200, Sarasota, FL.
- 2.3 Contract Documents: The term “Contract Documents” shall mean this Agreement, the City’s Request for Proposals for the Project (“RFP-PW19-45/AP-1 (CP)”), the Consultant’s responses and submissions to the RFP, and all drawings and specifications prepared and/or adopted by Consultant and its sub-consultants. Any special conditions, together with all written amendments, change orders, addendums, attached exhibits and signed forms will become a part of this agreement and are incorporated herein.
- 2.4 Work: The term “Work” shall mean everything expressly or implicitly required to be furnished or performed for the design of a fully, constructible, operational and functioning Project, including but not limited to, that work described in Exhibit “A” - “Consultant’s Scope of Professional Services” as attached hereto.
- 2.5 Construction: The term “Construction” shall mean everything expressly or implicitly required to construct a fully operational and functioning Project.
- 2.6 Project: The term “Project” shall mean the Professional Design Services for the Design of Four (4) Community Parks.
- 2.7 Project Area: The term “Project Area” shall mean the established geographical boundaries within the City of Cape Coral, or other areas, that will be defined by “City and/or City’s Project Manager”, see Exhibit “F” – “Project Map”.
- 2.8 Substantial Completion: Completion of the Services outlined in the Scope of Professional Services with completion and readiness for final payment, as set forth in this Agreement, as per Scope of Services and per the timelines as outlined in Exhibit “C” – “Consultant’s Work Schedule”.
- 2.9 Final Completion of Design: Acceptance of Work in accordance with this Agreement and designated City Project Manager, with any necessary corrections completed, so that the Professional Services can be utilized for the purposes for which it is intended.
- 2.10 Contract Duration: The time for this agreement will be “910” calendar days for substantial completion which shall be completed as required in Exhibit “C” – “Consultant’s Work Schedule”.

ARTICLE 3
SCOPE OF PROFESSIONAL SERVICES

Consultant hereby agrees to provide and perform the professional services required and necessary to complete the services and Work as set forth in Exhibit “A”, entitled “Consultant’s Scope of Professional Services” as indicated in said exhibit which is attached hereto and made a part of this Agreement (“Professional Services”). Consultant shall be responsible for providing and performing all services, work, equipment, material, personnel, supplies, facilities, transportation and administrative support that are necessary and required to complete all of the tasks and work set forth in the “Consultant’s Scope of Professional Services” as attached hereto as Exhibit “A”. The purpose of the Scope of Work for the Professional Services is to Design Four (4) Community Parks.

ARTICLE 4
CONTRACT MODIFICATIONS

The City reserves the right to make any contract modifications it so desires, including but not limited to the deletion or removal of specific tasks or activities from the scope of the Work to be performed hereunder. All contract modifications shall be performed in accordance with the terms and conditions of this Agreement. No extra Work shall be performed unless ordered in writing by the City prior to the installation of such Work and upon the terms agreed to in advance by the City.

ARTICLE 5
ADDITIONAL PROFESSIONAL SERVICES

The City may, without invalidating this Agreement, require that Consultant perform professional services (“Additional Professional Services”) in addition to those identified as Professional Services in this Agreement. If the Consultant believes a professional service to be beyond those included in the Professional Services, Consultant shall notify the City in writing, and obtain the City’s written authorization to proceed with such service as an Additional Professional Service for such service to be considered an Additional Professional Service. These Additional Professional Services shall be provided by the Consultant if directed and authorized in advance, in writing, by the City and if Consultant is reasonably qualified to provide the services. Additional Professional Services shall be performed under and governed by the terms and provisions of this Agreement. The City shall pay Consultant for all Additional Professional Services directed and authorized in writing and in advance by the City, except that the City shall not be obligated to pay for any such Additional Professional Services or any other services which result from or are caused by Consultant’s breach of its obligations under this Agreement.

Furthermore, and notwithstanding the foregoing and the City’s right to require performance of Additional Professional Services under this Agreement, the City may desire to enter into subsequent agreement(s) with Consultant for Consultant to provide further construction bidding services and inspection services. In such event, the City and Consultant will negotiate and endeavor to enter into subsequent agreement(s) for the furnishing of such further services.

ARTICLE 6
TIME FOR PERFORMANCE

- 6.1 Following the execution of this Agreement by both parties and after Consultant has complied with the insurance requirements set forth herein, the City shall issue to Consultant a written notice to proceed. Following the issuance of such a written notice to proceed, Consultant shall commence Work within fourteen (14) calendar days and shall carry on all services and work in a timely and diligent manner to substantial completion within nine-hundred and ten (910) calendar days, which shall be completed as required in Exhibit “C” – “Consultant’s Work Schedule”.
- 6.2 Should Consultant be obstructed or delayed in the prosecution or completion of its obligations under this Agreement as a result of causes beyond the control of Consultant, or its subconsultants and/or subcontractors and not due to their fault or neglect, Consultant shall notify the City, in writing, within five (5) calendar days after the commencement of such delay stating the cause(s) thereof and requesting an extension of Consultant’s time of performance. Upon receipt of Consultant’s request for an extension of time, the City shall grant the extension if the City, in its sole discretion, determines that the delay(s) encountered by Consultant or its sub consultant(s) and/or subcontractor(s), is due to unforeseen causes and not attributable to their fault or neglect.
- 6.3 Consultant shall be required as a condition of this Agreement to prepare and submit to the City, Consultant’s Work schedule. The Consultant’s Work schedule shall set forth in an understandable fashion the schedule for all the various phases and/or tasks required to perform and complete all the services set forth or described in Exhibit “C” – “Consultant’s Work Schedule”. The Consultant’s Work schedule of planned and actual Work progress shall be updated and submitted by Consultant to the City no later than the tenth day of each month, commencing with the issuance of the notice to proceed.
- 6.4 Consultant’s services shall be performed as expeditiously as is consistent with professional skill and care in the orderly progress of the Project. Consultant represents to the City that it shall deliver its services in accordance with the Consultant’s Schedule of Work established for the Project which is attached hereto as Exhibit “C” - “Consultant’s Work Schedule” and shall appropriately adjust the delivery of its services if necessary and approved by the City, as the Project proceeds. Consultant acknowledges that time is of the essence with respect to the delivery of its services hereunder and that the time limits set forth in the City’s schedule shall not, except for a written determination by the City that reasonable cause exists for the schedule to be exceeded by Consultant.
- 6.5 NOTWITHSTANDING ANYTHING CONTAINED HEREIN TO THE CONTRARY, CONSULTANT SHALL NOT BE ENTITLED TO RECOVER ANY MONETARY DAMAGES IT MAY SUSTAIN AS A RESULT OF ANY DELAY CAUSED BY THE CITY, ANY SEPARATE DESIGN PROFESSIONAL EMPLOYED BY THE CITY, CONSULTANT OR ANY OTHER CAUSES WHATSOEVER. CONSULTANT FURTHER AGREES THAT IT SHALL MAKE NO CLAIM FOR COMPENSATION FOR SUCH

DELAYS AND WILL ACCEPT IN FULL SATISFACTION FOR SUCH DELAYS ANY EXTENSIONS OF TIME WHICH ARE GRANTED TO IT BY THE CITY.

ARTICLE 7
QUALITY CONTROL

Consultant shall develop and employ a comprehensive quality control program designed to protect the City from patent or latent defects in any Work related to the Project or in Construction Work performed at the Project by third parties. At a minimum, Consultant will follow guidelines listed in the Consultant's most recent quality control and/or practices manual, and any subsequent revisions or updates, provided such guidelines do not conflict with any of the Contract Documents.

ARTICLE 8
CONSULTANT'S PERSONNEL

- 8.1 Licensing. Consultant agrees to obtain and maintain throughout the period this Agreement is in effect, all such licenses as are required to do business in the State of Florida, Lee County, Florida and the City of Cape Coral, including but not limited to, licenses required by the respective state boards and other governmental agencies responsible for regulating and licensing the professional services provided and performed by Consultant pursuant to this Agreement. Consultant is required to notify City within five (5) calendar days of any pending, or newly initiated, disciplinary or other actions imposed on Consultant or its subconsultants by any regulatory or licensing authority.
- 8.2 Qualified Personnel. Consultant agrees when the services to be provided and performed related to a professional service(s) which, under Florida Statutes, requires a license, certificate of authorization or other form of legal entitlement to practice such services, to employ and/or retain only qualified personnel to be in responsible charge of all Basic Professional Services and Additional Professional Services to be provided pursuant to this Agreement as attached hereto as Exhibit "H" – "Title Classifications".
- 8.3 Consultant's Project Manager. Consultant agrees to employ and designate in writing, a qualified, and if required by law, a licensed professional to serve as the Consultant's Project Manager. Consultant's Project Manager shall be authorized and responsible to act on behalf of Consultant with respect to directing, coordinating and administering all aspects of the services to be provided and performed under this Agreement. Consultant's Project Manager shall have full authority to bind and obligate Consultant on any matters arising under this Agreement unless substitute arrangements have been furnished and agreed to with the City in writing. Consultant agrees that the Project Manager shall devote whatever time is required to satisfactorily direct, supervise and manage the services provided and performed by Consultant throughout the entire period this Agreement is in effect. During the term of the Project, Consultant's Project Manager shall neither have nor undertake any other assignment or engagement on behalf of Consultant other than serving as Project Manager in connection with the Project, if such assignment interferes with the abilities of Project Manager to complete the work on this assignment or unless otherwise agreed in advance by the City. The

person selected to serve as Consultant's Project Manager shall be subject to the prior approval and acceptance of the City.

- 8.4 Removal of Personnel. Consultant agrees, within ten (10) calendar days of receipt of a written request from the City, to promptly remove and replace the Consultant's Project Manager or any other personnel employed or retained by Consultant or any personnel of a sub consultant or subcontractor engaged by Consultant to provide and/or perform services and or Work pursuant to the requirements of this Agreement, who the City shall request in writing to be removed, which request may be made by the City with or without cause.

ARTICLE 9 SUBCONSULTANTS AND SUBCONTRACTORS

- 9.1 Definition. A subconsultant or subcontractor is a person or organization who has a direct contract with Consultant to perform any part of the Work associated with the Project. Nothing contained in this Agreement shall create any type of contractual relationship between the City and any subcontractor and/or subconsultant.
- 9.2 Consultant's Selection of Subcontractors and Subconsultants. Consultant, within fourteen (14) calendar days after execution of this Agreement, shall furnish, in writing to the City, the names of persons or entities proposed to be subconsultants and/or subcontractors on the Project (referred to in this paragraph as "subconsultants"), along with copies of proposals and contracts between Consultant and such subconsultant(s). The City shall promptly reply to Consultant in writing whether the City, after due investigation, has reasonable objections to any such proposed person or entity. Failure of the City to reply within fourteen (14) days after its receipt of such information shall constitute notice of no reasonable objection. All subconsultants shall be duly licensed pursuant to any applicable requirements and regulations of the State of Florida. Consultant shall use its best efforts to propose and retain subconsultants appropriately qualified, locally based (Cape Coral - Fort Myers - Lee County, Florida) and/or minority owned and operated Consultants with experience in the Lee County area. Consultant shall not, without reasonable cause and after obtaining the approval of the City (which approval shall not be unreasonably withheld) change a subconsultant or its role which has been previously selected and approved by the City. Consultant shall be responsible to the City for the damages to the extent caused by the negligent acts or omissions of, or services provided by or through its subconsultants. The City's review, approval or rejection of proposed subconsultants or their respective proposals or contracts will not relieve Consultant of its responsibilities under this Agreement, or for the actions or omissions of such subconsultants.
- 9.3 Sub-contractual Relations. By an appropriate written agreement, Consultant shall require each subcontractor or subconsultant, to the extent of the Work to be performed by the subcontractor or subconsultant, to be bound to Consultant by the terms of this Agreement and to assume toward Consultant all obligations and responsibilities which Consultant, by this Agreement, assumes towards the City. Consultant shall make available to each proposed subcontractor or subconsultant prior to the execution of any such agreement, a copy of this Agreement.

- 9.4 Responsibilities for Acts and Omissions. Consultant shall be responsible to the City for the acts and omissions of its employees and agents and its subcontractors and/or subconsultants, their agents and employees, and all other persons performing any Work or supplying any service under a contract with Consultant.

ARTICLE 10
COOPERATION WITH PROJECT PARTICIPANTS

- 10.1 Consultant shall cooperate with the City, and others working on the Project to avoid interference, inconvenience or damage. To aid in avoiding conflicts, Consultant, without additional charge or compensation, shall make all reasonable modifications in its services or the scheduling of its services as may be directed by the City. Consultant agrees that it has become familiar with the Project and accepts responsibility for all necessary coordination of its services with the work of other parties working on the Project or any adjacent projects affected thereby.
- 10.2 Consultant will assume primary coordination of its Work with the work of others. As part of said service, Consultant shall be primarily responsible for the coordination and compilation of all design documents pertaining to the Project.
- 10.3 In the event of a dispute between Consultant and others working on the Project, Consultant and the others working on the project shall present their dispute to the City, who shall make a decision with respect to the matter in dispute. Consultant agrees to proceed with the furnishing of its services in accordance with any decision which is rendered by the City.

ARTICLE 11
COMPENSATION

11. Contract Price. The City shall pay to the Consultant in full and complete satisfaction for all professional services, construction and administrative services, inspection services, sub-consultation services, suppliers, vendors, materials and equipment, transportation, furnished by the Consultant under the terms of this Agreement for the not to exceed total fee sum of Three million two hundred four thousand seventy-six dollars and 24/100, as per the attached Exhibit "B" – "Schedule of Values" Total – Not to Exceed Amount. Any additional services for work required by the City will be negotiated and authorized as necessary and will utilize the hourly rates shown in Exhibit "D" – "Personnel Hourly Rates" contained in this agreement.

Billing and Payment of Contract Price.

- 11.1 Basic Compensation. Subject to the Not to Exceed Price and the satisfaction of the conditions precedent set forth in paragraph 11.3 below, and in exchange for the proper performance of the Basic Professional Services, Consultant shall be compensated on an hourly basis in conformity with the "Personnel Hourly Rates" -

Exhibit “D” wherein such rates are fixed for the duration of this contract. Exhibit “D” shall set forth the name of the identity of each individual performing services on the Project for which compensation shall be paid to Consultant by the City together with the corresponding billable rate for each individual. The City shall not be liable to Consultant for payment of services performed by any individual not identified on Exhibit “D” – “Personnel Hourly Rates” absent written approval by the City prior to the individual performing services. The billable rate for each individual who is an employee of the Consultant is based upon actual hourly rate of compensation paid by Consultant to the employee as set forth in Exhibit “D” times the agreed upon multiplier. Notwithstanding the foregoing or any provision of Exhibit “D”, the Consultant shall not be entitled to recover any mark-up on services furnished by Consultant’s subcontractors or other third parties provided.

- 11.2 Schedule of Values. The Consultant billing shall be based on Exhibit “B” - “Schedule of Values” establishing a separate estimated amount for each Task of the Consultant’s work. In no event, shall the Consultant be entitled to receive compensation in excess of the amount ascribed to any task unless otherwise previously approved by the City in writing. The not to exceed amounts set include not only the fees to the Consultant for its services to be performed but also any third-party costs associated with a Task. Reimbursable Expenses incurred by Consultant are defined in Exhibit “E” – “Reimbursable Expenses”.
- 11.3 Applications for Payment. The Consultant shall deliver to the City an Application for Payment reflecting the tasks completed in Exhibit “B” - “Schedule of Values”, which shall be approved in writing. Provided the Application for Payment is received not later than the last day of the month, the City shall make payment to the Consultant not later than the last day of the following month. With each Application for Payment, the Consultant shall submit such evidence as may be necessary, in the opinion of the City, to demonstrate the work performed during such month and the percentage of completion of each category of the Work. In no event, shall the cost of the Work exceed the Contract Price referred to in Article 11 shown above.
- 11.4 Certification and Release Documentation. In each Application for Payment, the Consultant shall certify that there are no known claims outstanding at the date of this application, that all due and payable bills with respect to the Work have been paid to date or shall be paid from the proceeds of this Application for Payment, and that there is no known basis for the filing of any claims on account of the Work, and that all work has been performed in strict conformity with the requirements of the Contract Documents and that the Consultant is unaware of any defective work. This certification will include that all subconsultants have been paid for outstanding work. Concurrent with each Application for Payment, the Consultant shall execute and furnish waiver of claims through the effective date of the previous Application for Payment.
- 11.5 Joint Checks and or Direct Payments. The City reserves the right to issue joint checks to the Consultant and its subcontractors and materialmen, or, to make direct payments to the Consultant’s subcontractors or materialmen, if, in the City’s sole

judgment, it is necessary to do so to ensure payment to the aforesaid parties. The amounts of said joint or direct checks shall be deducted from the Contract Price.

- 11.6 Final Payment. Provided that the Consultant has fully performed its obligations hereunder, final payment, including retainage amounts, shall be made by the City to the Consultant on or about thirty (30) calendar days following final performance of all Work and the Consultant's submittal of a final Application for Payment therefore and final Affidavit. In this regard, it is further agreed that the final Application for Payment shall not be made until the Consultant has fully and finally completed all tasks and delivers to the City a complete release of all claims arising or which could arise out of this Agreement. The acceptance of final payment by the Consultant shall constitute a waiver of all claims by the Consultant except those previously made in writing and identified by the Consultant as unsettled at the time of the final Application for Payment.
- 11.7 Payment is Not Acceptance. The payment of any Application for Payment by the City, including the final Application for Payment does not constitute approval of, or acceptance of that portion of the Work to which such payment relates nor shall such payment relieve the Consultant of its obligations nor constitute a waiver of any claim which the City may then have or thereafter discover.
- 11.8 Payments Withheld. The City may decline to pay an application for payment submitted by Consultant, in whole or in part, to the extent reasonably necessary to protect the City if:
- 11.8.1 Consultant is not entitled to payment in the amount specified in the application for payment;
 - 11.8.2 Consultant is in default of its obligations hereunder;
 - 11.8.3 Appropriate backup data and documentation required by the City is not submitted with the application for payment;
 - 11.8.4 The application for payment is not otherwise appropriately substantiated;
 - 11.8.5 Any known or alleged, willful, wanton or negligent act, error or omission of Consultant which gives rise to a claim by the City or by some other party against the City; or
 - 11.8.6 Any other reason the City is permitted to withhold payment under any other provision of this Agreement.
- 11.9 Interest. In the event of a bona fide dispute by the City for any sums for which payment has been requested, no interest shall be due on such disputed sums until the dispute is resolved, provided that all undisputed sums shall have been paid in due course.
- 11.10 Compensation for Additional Professional Services. For Additional Professional Services of Consultant directed and authorized in writing in advance by the City, as described in Article 5, the City shall pay to Consultant a Not to Exceed Amount, as mutually agreed upon in writing by the parties which shall be the sole and exclusive compensation payable to Consultant in connection with the performance of such Additional Professional Services.

ARTICLE 12
INSURANCE

Consultant shall, at all times during the performance of this Agreement, provide and maintain the following types of insurance protecting the interests of the City of Cape Coral, including their employees and officers, and the Consultant with coverages and limits of liability not less than those set forth below:

12.1 Workers Compensation Insurance. Consultant shall maintain worker's compensation insurance, insuring its liability under the Workers Compensation and Occupational Disease Laws of the State of Florida, in accordance with Chapter 440 F.S., with limits of liability not less than the minimum statutory limits imposed by applicable State and Federal laws. The worker's compensation insurance policy must include employer's liability with a minimum limit of \$1,000,000.00 for each accident and shall cover all employees engaged in any work under the agreement.

12.2 Comprehensive General Liability Insurance. Consultant shall maintain comprehensive general liability insurance which shall be written on an "occurrence" basis and afford the following coverages:

12.2.1 Premises – operation

12.2.2 Explosion, collapse and underground property damage (XCU)

12.2.3 Products/completed operations

12.2.4 Blanket contractual liability

12.2.5 Personal injury

12.2.6 Advertising injury

12.2.7 Premises medical payments

12.2.8 Property damage

12.2.9 Additional insureds - employees and temporary workers

12.2.10 Newly acquired organizations

12.2.11 Property damage liability

12.2.12 Independent contractors

12.2.13 The commercial general liability insurance to be maintained by Consultant must include products and completed operations, and contractual liability. The City of Cape Coral shall be named as an additional, named insured on the comprehensive general liability policy. The limits of liability associated with Consultant's comprehensive general liability policy shall not be less than the following:

12.2.13.1 \$4,000,000.00 each occurrence

12.2.14 Notwithstanding anything contained herein to the contrary, the coverages under the comprehensive general liability policy to be furnished by Consultant must be afforded on a policy form no more restrictive than the

last edition of the commercial general liability policy filed by the Insurance Services Office.

- 12.3 Vehicular Liability Insurance. Consultant shall maintain business vehicular liability insurance covering all owned, non-owned, and hired vehicles used in connection with the Work to be provided hereunder with combined minimum limits of \$1,000,000.00 single limit for bodily injury and property damage per occurrence/aggregate.
- 12.4 Excess Liability Insurance. Consultant shall maintain excess liability insurance in an amount not less than \$4,000,000 combined single limit bodily/property damage, in excess of the general liability insurance described above.
- 12.5 Professional Liability Insurance. Consultant shall maintain professional liability insurance with a minimum level of liability coverage of not less than \$4,000,000.00 per occurrence insuring the City against losses arising out of the delivery of professional services by Consultant and its sub-consultants. Consultant shall also ensure that each of its subconsultants shall maintain professional liability insurance with minimum limits of liability coverage not less than \$1,000,000.00 per occurrence insuring the City against losses arising out of the provision of professional services by each in connection with the Project. The deductibles associated with the professional liability insurance policies to be furnished by Consultant and its subconsultants shall be the responsibility of the Consulting firm and/or their Sub-Consultant. Consultant shall provide to the City certificates reflecting the City of Cape Coral as a certificate holder with respect to the professional liability insurance policies maintained by Consultant and subconsultants.
- 12.6 Property Insurance. It is Consultant's responsibility to carry its own property insurance including insurance on equipment that will not become an integral part of the Project.
- 12.7 Certificate of Insurance. Prior to performing any services hereunder, Consultant shall file with the City a certificate of insurance in a form acceptable to the City. The certificate of insurance shall reflect the City of Cape Coral as an additional named insured, and its employees and officers on Consultant's comprehensive general liability, excess liability, and business vehicular liability policies. In addition, the City of Cape Coral shall be reflected as the certificate holder with respect to Consultant's professional liability and worker's compensation insurance. The certificate of insurance furnished by Consultant shall contain a provision that the coverages afforded under the policy described thereon will not be cancelled until at least thirty (30) days prior written notice has been given to the City. **Also, to be included on the policy for the Certificate of Insurance under the "Description of Operations /Locations/Vehicles/Exclusions added by endorsement/Special Provisions" section, the Contract Number "CON-PW19-45/AP-1 (CP)" and Title of Project - "Design of Community Parks Project".**

- 12.8 Ratings of Companies. All companies issuing the policies provided for herein shall be licensed or approved by the Department of Insurance, State of Florida, and shall have a financial rating no lower than II and a policy holder surplus rating no lower than (A) as listed in A.M. Best TK Rating Guide, current edition or interim report. Companies with ratings lower than those specified herein will be acceptable only upon the written consent of the City.
- 12.9 Primary Coverage. The insurance required hereunder is primary and direct and shall apply to any loss prior to any insurance coverage carried by the City or any other party.
- 12.10 Extent of Coverages. The insurance coverages referred to above are set forth in full in their respective policy forms. The foregoing descriptions of such policies are not intended to be complete or to limit any provision of the actual policies and should said description be narrower than the coverages afforded under the actual policies of insurance, the provisions of the actual policies of insurance shall govern.
- 12.11 Waiver of Subrogation. Consultant's insurance policies shall be endorsed to provide that the insurers waive their rights of subrogation against the City of Cape Coral and to provide that the policies afford primary coverage over any other applicable insurance coverage.
- 12.12 Subconsultant Insurance Requirements. Except as otherwise specified herein, Consultant shall require that all subconsultants and subcontractors performing Work on the Project to maintain the same coverages and policy limits as Consultant is required to furnish hereunder. An insurance provision, including waivers of subrogation, identical to the provisions of Article 12 of this Agreement and shall be included by Consultant in each written subcontract or subconsultant agreement issued by it in conjunction with the Project.
- 12.13 Deductibles: The City of Cape Coral is exempt from, and are in no way liable for, any sums of money representing a deductible in any insurance policy. The payment of such deductible(s) shall be the sole responsibility of the firm providing such insurance.

In the event the insurance coverage expires prior to the completion of the project, a renewal certificate shall be issued thirty (30) days prior to said expiration date. The policy shall provide a 30-day notification clause in the event of cancellation or modification to the policy.

ARTICLE 13
INDEMNIFICATION

In consideration of the first One Hundred and No/100 Dollars (\$100.00) to be paid hereunder and to the fullest extent permitted by law, Consultant agrees to indemnify and hold harmless the City of Cape Coral, and its agents, servants and employees, from and against any and all claims, costs, expenses, damages, or liability (including reasonable attorneys' fees and costs of defense) to the extent caused by, attributable to, arising out of, or resulting from Consultant's negligence, recklessness, or intentional wrongful conduct in the performance of professional services under this Agreement and those of its subconsultants, agents and employees. Consultant is not obligated to indemnify the City in any manner whatsoever for the City's own negligence. This indemnity provision shall be considered a material part of the specifications governing Consultant's performance under this Agreement. This indemnity provision is intended to comply with Florida laws on indemnity and, specifically, to comply with Sections 725.06 and 725.08, Florida Statutes, and is to be interpreted in such a manner as to be enforceable.

ARTICLE 14
DRAFTING FORMATS AND STANDARDS

In performing professional services hereunder, Consultant shall review and incorporate the City's drafting formats and office drafting standards into any drawings and specifications generated in connection with the provisions of this Agreement.

ARTICLE 15
COPYRIGHTS AND LICENSES

All drawings, sepias, electronic media and specifications prepared in connection with the Project shall remain the property of the City and Consultant shall not be entitled to a repeat design fee or any other compensation should the City elect to utilize said drawings, sepias, electronic media and specifications in connection with additional alterations or remodeling or additions to the Project to which said design documents originally pertain. Consultant hereby assigns to the City any and all right, title, and interest it may possess in the design documents and materials produced in connection with this Agreement, including but not limited to, all statutory and common law copyrights it possesses in said documents and materials. The future use of said materials shall be at the sole discretion of the City. The City agrees to hold Consultant harmless from any claims based upon the future use of said materials in connection with any purpose other than the Project or future maintenance or support of the Project.

ARTICLE 16
PERMITS

Consultant will be responsible for preparing and submitting all required applications and other supportive information necessary to assist the City in obtaining all reviews, approvals and permits, with respect to the Consultant's design, the Existing Design, drawings and specifications required by any governmental body having authority over the Project. Consultant will be similarly responsible for preparing and submitting all required

specifications and other supportive information necessary to assist the City in obtaining any renewals and/or extensions of reviews, approvals or permits that may be required while this Agreement is in effect. The City shall, at Consultant's request, assist in obtaining required signatures and provide Consultant with all information known to be available to the City to assist the Consultant in the preparation and submittal of any original, renewal or extension of required reviews, approvals or permits.

ARTICLE 17 CITY'S RESPONSIBILITIES

- 17.1 The City's Representative. The City shall designate a Project Representative who shall be fully acquainted with the Project and shall define the lines of City authority to approve changes in the Project. He or she shall render decisions promptly and furnish information expeditiously.
- 17.2 Lines of Authority. The City shall establish and maintain lines of authority for its personnel and shall provide this definition to the Consultant and all other affected parties.
- 17.3 Existing Design. The City shall provide to Consultant all design documentation in its possession pertaining to the Project.
- 17.4 Funding. The City shall furnish reasonable evidence satisfactory to Consultant that sufficient funds will be available and committed for the cost of the Project.
- 17.5 Project Fault or Defect. If the City becomes aware of any fault or defect in the Project, or in the specifications or drawings for the Project, it shall give prompt written notice thereof to Consultant.

ARTICLE 18 CONSULTANT'S REPRESENTATIONS

In order to induce the City to enter this Agreement, Consultant makes the following express representations:

- 18.1 Consultant has reviewed and confirmed that the basis and approach taken by the City in its Project planning represents sound programming and provides an adequate basis for the performance of Consultant's services hereunder.
- 18.2 Consultant has familiarized itself with the Scope of Work and the nature and extent of the Work to be performed, local conditions, and federal, state and local laws, ordinances, rules and regulations that in any manner affect costs, progress or performance of the work.

- 18.3 Consultant represents that the Work can be performed within the time frames contemplated in the Consultant's Work Schedule, a copy of which is attached hereto as Exhibit "C".
- 18.4 Consultant has reviewed the Scope of Work and has provided the City with written notice of all conflicts, errors or discrepancies it has discovered in the Scope of Work and the cost to the City of addressing such conflicts, errors or discrepancies.
- 18.5 Consultant has familiarized itself with the nature and the extent of the proposed Project contemplated under the City's program and local field conditions and affirmatively represents that no field conditions are known to exist which would have a cost or scheduling impact on the Project.

ARTICLE 19
ACCURACY, TECHNICAL SUFFICIENCY OF SERVICES
PROVIDED BY CONSULTANT

- 19.1 Notwithstanding anything contained herein to the contrary, it is understood and agreed between the parties that the City is not examining any data, surveys, studies, designs, specifications, calculations, plans, drawings, or any other documents furnished hereunder by Consultant for accuracy and technical sufficiency and is not under any obligation to inspect the Project. Furthermore, it is understood and agreed between the parties that neither the review, approval, nor acceptance by the City of data, surveys, studies, designs, specifications, calculations, plans, drawings, or any other documents furnished hereunder by Consultant shall in any way relieve Consultant of responsibility for the adequacy, completeness, and accuracy of its work, and in no event shall the City's review, approval, acceptance of or payment for such services be construed to operate as a waiver of any of the City's rights under this Agreement or of any cause of action it may have, arising out of the performance of this agreement.
- 19.2 Consultant further acknowledges that it, alone, is responsible for the accuracy, completeness, and technical sufficiency of all Work performed under this Agreement, and that the information contained in the City's Request for Proposals and Project descriptions does not relieve, release, or in any way whatsoever diminish the Consultant's ultimate responsibility for the accuracy, completeness, and technical sufficiency of the Project and any work performed hereunder.
- 19.3 Consultant agrees to be responsible for the professional quality, technical adequacy and accuracy, timely completion, adoption and coordination of all data, surveys, designs, specifications, calculations, estimates, plans, drawings, construction documents, photographs, reports, memoranda, other documents and instruments and other services, work and materials performed, provided and/or furnished by Consultant or by any subconsultant retained or engaged by Consultant pursuant to this Agreement. Consultant shall, without additional compensation, correct or revise any errors, omissions or other deficiencies in such data, studies, surveys, designs, specifications, calculations, estimates, plans, drawings, construction

documents and instruments, and other services or materials resulting from the negligent act, errors or omissions or any intentional misconduct of Consultant or any subconsultants engaged by Consultant.

ARTICLE 20
TERMINATION OR SUSPENSION OF AGREEMENT

- 20.1 The City reserves the right to terminate this Agreement without cause and without regard to fault or breach upon ten (10) calendar days written notice to Consultant, effective immediately, unless otherwise provided in said notice. In the event of a termination for the City's convenience, the Consultant shall only be due those sums which are due for Work performed as of the date of termination. Upon Consultant's receipt of such payment, the parties shall have no further obligation hereunder. It is understood and agreed that no fee or other compensation or payment shall be due and payable to Consultant for unperformed Work associated with this Agreement.
- 20.2 If the City fails to make payment on conforming or non-disputed invoices when due for Consultant's services and expenses, Consultant may, upon ten (10) calendar days written notice to the City, suspend performance of services under this Agreement. Unless payment in full is received by Consultant within ten (10) calendar days from the date of the notice, the suspension shall take effect without further notice. In the event of a suspension of services, Consultant shall have no liability to the City for delay or damages caused the City because of such suspension of services. Should the City fail to satisfy the payment due Consultant within sixty (60) calendar days from the date the payment was originally due, Consultant shall be entitled to terminate this Agreement for cause. If Consultant fails to perform the services described herein or fails to respond with responsible promptness to the City, the City, without waiving the City's right to terminate as a result thereof, may suspend performance of the City's obligations under this Agreement (including, but not limited to, the City's obligation to make payment) on ten (10) calendar days written notice to Consultant.
- 20.3 Notwithstanding anything contained herein to the contrary, the City shall be entitled to terminate this Agreement for cause should Consultant fail to perform the services contemplated herein, perform any of its obligations hereunder, or otherwise fail to respond with reasonable promptness to the requests of the City. In the event of such a termination for cause, the City shall be entitled to recover from Consultant such additional costs as it incurs in procuring performance of Consultant's remaining obligations hereunder. If the City terminates this Agreement hereunder and it is determined, for any reason, that sufficient ground did not exist for the City to terminate this Agreement hereunder, the Consultant as its sole and exclusive remedy shall be entitled to and due only those sums which are due for Work performed as of the date of termination as if the termination were for no fault or breach.

ARTICLE 21
SPECIAL PROVISIONS

- 21.1 Consultant accepts the relationship of trust and confidence established between it and the City by this Agreement.
- 21.2 Consultant warrants that it has not employed or retained any company or person, other than an employee working solely for Consultant, to solicit or secure this Agreement and that it has not paid any person, company, corporation, individual or Consultant, other than a bona fide employee working solely for Consultant any fee, commission, percentage, gift, or other consideration contingent upon or resulting from the award or making of this Agreement.
- 21.3 Any person or affiliate who has been placed on the Convicted Vendor List following a conviction for a public entity crime may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract or subcontract with a public entity, for construction or repair of a public building or public work, may not submit bids or leases of real property to a public entity, may not be awarded or perform any Work a contractor, supplier, subcontractor, or Consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY 2 for a period of thirty-six (36) months from the date of being placed on the Convicted Vendors List. Consultant agrees not to use any subconsultants whose names appear on the Convicted Vendors List.
- 21.4 Consultant represents to the City that it is experienced in design and that it will perform its services under this Agreement in a skillful and competent manner.
- 21.5 Consultant represents that it presently has no interest and shall acquire no interest either direct or indirect, which would conflict in any manner with the performance of services required hereunder. Consultant further agrees that no person having any such interest shall be employed or engaged by Consultant for said performance. If Consultant, for itself or on behalf of its subconsultants, is about to engage in representing another client, which it in good faith believes would result in a conflict of interest with the Work being performed by Consultant or such subconsultant under this Agreement, then it will promptly bring such potential conflict of interest to the City's attention, in writing. The City will advise Consultant in writing, within ten (10) calendar days as to the period of time required by the City to determine if such a conflict of interest exists. If the City determines there is a conflict of interest, Consultant or such subconsultant shall decline the representation upon written notice by the City. If the City determines that there is not such a conflict of interest, then the City shall give its written consent to such representation.
- 21.6 If Consultant or subconsultant accepts such a representation without obtaining the City's prior written consent, and if the City subsequently determines that there is a conflict of interest between such representation and the Work being performed

by Consultant or such subconsultant under this Agreement, then Consultant or such subconsultant agrees to promptly terminate such representation. Consultant shall require each of its subconsultants to comply with the provisions of this section. Should the Consultant fail to advise or notify the City as provided herein above, of representation which could, or does, result in a conflict of interest, or should Consultant fail to discontinue such representation, the City may consider such failure a justifiable cause to terminate this Agreement.

21.7 Consultant agrees to maintain the business ethics expected by the City. In that regard, Consultant shall:

21.7.1 During the course of pursuing contracts with City and while performing contract work in accordance with this agreement, Consultant agrees to maintain business ethics standards aimed at avoiding any impropriety or conflict of interest which could be construed to have an adverse impact on the City's best interests. Consultant shall take reasonable actions to prevent any conditions which could result in a conflict with the City's best interests. These obligations shall apply to the activities of Consultant's employees, agents, subconsultants, subcontractor employees, etc. Consultant employees, agents, subcontractors, material suppliers (or their representatives) should not make or cause to be made any cash payments, commissions, employment, gifts, entertainment, free travel, loans, free work, substantially discounted work, or any other considerations to the City's representatives, employees or their relatives. Consultant's employees, agents, or subcontractors (or their relatives) should not receive any cash payments, commissions, employment, gifts entertainment, free travel, loans, free work, or substantially discounted work or any other considerations from contractors, representatives of contractors, subcontractors, representatives of subcontractors, or material suppliers or any other individuals, organizations, or businesses receiving funds in connection with the Project. Consultant agrees to notify the City within 48 hours of any instance where the Consultant becomes aware of a failure to comply with these provisions. The email address to report any concerns related to any possible violations is apearce@capecoral.net. Upon request of the City, Consultant agrees to provide a certified Management Representation Letter executed by selected Consultant representatives in a form agreeable to City stating that they are not aware of any situations violating the business ethics expectations outlines above or any similar potential conflict of interest situations. Consultant agrees to include this clause in all contracts with subconsultants and suppliers receiving more than twenty-five thousand (\$25,000) dollars in funds in connections with the City's project. Consultant shall permit interviews of employees, reviews and audits of accounting or other records by City representative(s) to evaluate compliance with the business ethics standards. Such reviews and audits will encompass all dealings and activities of Consultant's employees, agents, representatives, vendors, subconsultants, and other third parties paid by Consultant in their relations with the City's current or former employees or

employee relatives. This provision survives the expiration of this Agreement. Consultant agrees to implement a program requiring their employees sign acknowledgements that they have read and understand City's business ethics expectations and the related obligation outlined in this contract.

21.7.2 Consultant, subconsultants, subcontractors, contractors, suppliers, and other entities connected with this Project shall permit interviews of employees, reviews and audits of accounting or other records by authorized City representative(s) to evaluate compliance with the business ethics expectations stated in this article. Such reviews and audits will encompass all dealings and activities of Consultant's employees, agents, representatives, vendors, subconsultants, subcontractors, suppliers, and other third parties paid by Consultant in their relations with the City's current or former employees or employee relatives.

21.7.3 Consultant, subconsultants, subcontractors, contractors, suppliers, and other entities connected with this Project agree to implement a program requiring their key employees in any connection with this Project to read and understand the City's Business Ethics Expectations and related obligations outlined in this article. The Prime Firm's signed Business Ethics Requirements Form is included as an attachment to this agreement and is shown as Exhibit "J".

21.7.4 Consultant, by execution of this Agreement, represents that it possesses that degree of care, learning, skill, ability and is properly licensed and qualified to perform the Basic Professional Services and any Additional Professional Services (as directed and approved in Article 3 hereof) and that it and its subconsultants and/or subcontractors, and suppliers will undertake to use the degree of skill and care of performance of obligations under this Agreement, which are utilized by professionals in the same field performing the same or similar services under the same or similar circumstances for similar infrastructure projects. Consultant acknowledges that all professional services provided under this Agreement will meet or exceed the requirements of this Agreement, including without limitation, the standard of care required by this Agreement; that any design documents prepared by Consultant with respect to the Project will meet or exceed the City's Project requirements as specified in this Agreement or otherwise provided by the City to Consultant. Consultant agrees to use the services of competent, qualified personnel, and, when required by law, properly licensed subconsultants and other professionals for the execution of its services. Consultant will use commercially reasonable efforts and skill to endeavor to protect the interests of the City and the City's residents at all times.

ARTICLE 22
CONSULTANT'S RECORDS

- 22.1 Records of the Consultant's personnel, subconsultants, suppliers, and the costs pertaining to the Project shall be kept in accordance with generally accepted accounting practices.
- 22.2 Consultant shall keep full and detailed accounts and financial records pertaining to the provision of services for the City. Prior to commencing work, Consultant shall review with and obtain the City's approval of the accounting procedures and records to be utilized by the Consultant on the Project. Consultant shall preserve the Project records for a period of ten (10) years after final payment, or for such longer period as may be required by law.
- 22.3 As the City is subject to the public records requirements of Chapter 119, Florida Statutes, the Consultant shall comply with Florida's Public Records Law. Specifically, the Consultant shall:
- 22.3.1 Keep and maintain public records required by the City to perform the service.
- 22.3.2 Upon request from the City's custodian of public records, provide the City with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.
- 22.3.3 Ensure that public records that are exempt or confidential and from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the Consultant does not transfer the records to the City.
- 22.3.4 Upon completion of the contract, transfer, at no cost, to the City all public records in possession of the Consultant or keep and maintain public records required by the City to perform the service. If the Consultant transfers all public records to the City upon completion of the contract, the Consultant shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of the contract, the Consultant shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the City, upon request from the City's custodian of public records, in a format that is compatible with the information technology systems of the City.

IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT 239-574-0411, cityclk@capecoral.net, City of Cape Coral, 1015 Cultural Park Boulevard, Cape Coral, FL 33990

ARTICLE 23
RIGHT OF AUDIT
EXAMINATION OF RECORDS

Records for all contracts, specifically including but not limited to “Not to Exceed” subcontracts (i.e. fixed price or stipulated sum contracts, unit price, costs plus or time & material contracts with or without a guaranteed maximum (or not-to-exceed amounts) shall upon seven (7) calendar days written notice from the City shall be open to inspection and subject to audit, scanning, and/or reproduction during normal business working hours. Such audits may be performed by any City representative or any outside representative engaged by the City for the purpose of examining such records. Such records must be complete and made available at Consultant’s offices located in Lee County, Florida. The City or its designee may conduct such audits or inspections throughout the term of this Agreement and for a period of four (4) years after final payment or longer if required by law. The City’s representatives may (without limitation) conduct verifications such as counting employees at the construction site, witnessing the distribution of payroll, verifying information and amounts through interviews and written confirmations with Consultant’s employees, field and agency labor, subcontractors and vendors.

23.1 Consultant’s “records” as referred to in this Agreement shall include any and all information, materials, and data of every kind and character, including without limitation, records, books, papers, documents, subscriptions, recordings, agreements, purchase orders, leases, contracts, commitments, arrangements, notes, daily diaries, superintendent reports, drawings, receipts, vouchers and memoranda, and any and all other agreements, sources of information and matters that may in the City’s judgment have any bearing on or pertain to any matters, rights, duties or obligations under or covered by any contract document. Such records shall include (hard copy, as well as computer readable data if it can be made available), written policies and procedures; time sheets, payroll registers, payroll records; cancelled payroll checks, subcontract files (including proposals of successful and unsuccessful bidders, bid recaps, negotiation notes, etc.); original bid estimates; estimating worksheets; correspondence; change order files (including documentation covering negotiated settlements); back charge logs and supporting documentation; invoices and related payment documentation; general ledger, information detailing cash and trade discounts earned, insurance rebates and dividends; and any other Consultant records which may have a bearing on matters of interest to the City in connection with the Consultant’s dealings with the City (all foregoing hereinafter referred to as “records”) to the extent necessary to adequately permit evaluation and verification of any and all of the following:

- 23.1.1 Compliance with contract requirements for deliverables;
- 23.1.2 Compliance with approved plans and specifications;
- 23.1.3 Compliance with the City’s business ethics expectations;
- 23.1.4 Compliance with contract provisions regarding the pricing of change orders;

- 23.1.5 Accuracy of Consultant's representations regarding the pricing of invoices; and
 - 23.1.6 Accuracy of Consultant representations related to claims submitted by Consultant or any of its payees.
- 23.2 Consultant shall require all payees (examples of payees include subconsultants, subcontractors, material suppliers, insurance carriers, etc.) to comply with the provisions of this article by including the requirements hereof in a written contract agreement between Consultant and payee. Consultant will ensure that all payees (including those entering into lump sum contracts) have the same right to audit provisions contained in this Agreement.
- 23.3 Owner authorized representative(s) shall have reasonable access to Consultant's facilities, shall be allowed to interview all current or former employees to discuss matters pertinent to the performance of this Agreement and shall be provided adequate and appropriate workspace, in order to conduct audits in compliance with this article.
- 23.4 If an audit inspection or examination in accordance with this article discloses overpricing or overcharges to the City (of any nature) by Consultant and/or Consultant's subcontractors and/or subconsultants the City shall be entitled to adjustment and reimbursement or recovery in the amount of such overpricing or overcharging. If the amount of the overpricing or overcharging is determined, in addition to making adjustments for the overcharges, the reasonable actual cost of the City's audit shall be reimbursed to the City by Consultant. Any adjustments and/or payments which must be made as a result of any such audit or inspection of Consultant's invoices and/or record shall be made within a reasonable amount of time (not to exceed thirty (30) calendar days) from presentation of the City's findings to Consultant. This provision shall survive the expiration of this Agreement.
- 23.5 In addition to the normal paperwork documentation Consultant typically furnishes to the City, in order to facilitate efficient use of the City's resources when reviewing and/or auditing Consultant's billings and related reimbursable cost records, Consultant agrees to furnish (upon request) the following types of information in the specified computer (PC) readable file format(s):

Type of Record	PC Readable File Format
Monthly Job Cost Detail	.pdf and Excel
Detailed job Cost History To Date	.pdf and Excel
Monthly Labor Distribution detail (if not already separately detailed in the Job Cost Detail)	.pdf and Excel
Total Job to date Labor Distrubution detail (if not already included in the detailed Job Cost History to date)	.pdf and Excel
Employee Timesheets documenting time worked by all individuals who charge reimbursable time to the project	.pdf
Weely Task Reports listing names and hours and tasks of personnel who worked on Project	.pdf
Weekly Project Manager Reports	.pdf
Detailed Subcontractor/Subconsultant Status Reports (showing original subcontract value, approved subcontract change orders, subcontractor invoices, payment to subcontractors, etc.	.pdf and Excel
Copies of Executed Subcontracts with all Subcontractors	.pdf
Copies of all executed change orders issued to Subcontractors	.pdf
Copies of all documentation supporting all reimbursable job costs (subcontractor payment applications, vendor invoices, internal cost charges, etc.)	.pdf

ARTICLE 24
CLAIMS AND DISPUTES

24.1 Prior to the filing of any litigation by the City or Consultant against the other (and, except as described below, as a precondition to any such filing), the City and Consultant shall engage in pre-suit non-binding mediation. Such mediation may be requested by either party, at any time, and shall be conducted the same as if such mediation were ordered by a Florida Circuit Court (i.e., in accordance with, and subject to, all of the laws and rules applicable to court-ordered mediation). Such mediation shall be conducted within a reasonable period of time after the same is requested in writing by either party. If the parties are unable to agree upon the selection of a mediator, either party may petition or request that the Circuit Court in Lee County, Florida (or the Mediation Coordinator for the Courts of Lee County, Florida) appoint a mediator. A mediator who is so appointed may only be challenged for cause, and not peremptorily. While the request for and the conducting of such a mediation may be a precondition to the filing of a civil action, in the event either party is in jeopardy of losing its right to sue (e.g., the statute of limitations is about to expire), then suit may be filed before a mediation is conducted provided that mediation is requested before, or simultaneously with the filing of such suit, and is conducted before the named defendant in the suit is required to respond to the complaint. If the scheduling of the mediation requires, the plaintiff in the suit shall grant the defendant an appropriate extension of time to respond to the complaint so as to permit the mediation to be conducted before the defendant

must so respond. The mediation contemplated hereunder shall be conducted, unless otherwise agreed by the parties, in Lee County, Florida. The parties shall bear the mediator's fee and any filing fees associated with the mediation equally.

- 24.2 The City and Consultant agree that any litigation between them arising out of, resulting from, or relating to this Agreement or the Project shall be a venue in a state court of competent jurisdiction in Lee County, Florida.

ARTICLE 25
ANNUAL APPROPRIATION CONTINGENCY

Pursuant to Florida Statute §166.241, the City's performance and obligation to pay under this Contract is contingent upon an annual appropriation by the City Council. This Contract is not a commitment of future appropriations. Authorization for continuation and completion of work and any associated payments may be rescinded, with proper notice, at the discretion of the City if the City Council reduces or eliminates appropriations.

ARTICLE 26
DAMAGE TO PROPERTY

Consultant shall be responsible for all claims filed for damage to private property owned by third parties as well as all damage to public property relating in any fashion whatsoever to Consultant's performance of Work hereunder. The Consultant will work cooperatively with the City in establishing a damage claim program acceptable to the City for processing and satisfying property damage which arises during the course of the Project.

ARTICLE 27
SAFETY AND OSHA COMPLIANCE

- 27.1 The Contractor shall comply in all respects with all Federal, State and Local Safety and health regulations. Copies of the Federal regulations may be obtained from the U.S. Department of Labor, Occupation Safety and Health Administration (OSHA), Washington DC 20210 or their regional offices.
- 27.2 The Contractor shall comply in all respects with the applicable Workman's Compensation Laws.

ARTICLE 28
EQUAL EMPLOYMENT OPPORTUNITY

During the term of the Agreement, Consultant agrees it will not discriminate against any employee or applicant for employment because of race, color, religion, sex, age, or national origin. Consultant will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, age or national origin. Consultant shall comply with all aspects of the Americans with Disabilities Act ("ADA") during the performance of this Agreement.

ARTICLE 29
PROPRIETARY INFORMATION

Except as otherwise provided in this Agreement, Consultant agrees not to divulge, furnish, or make available to any third parties, Consultant or organization, without the City's prior written consent, or unless instant to the proper performance of Consultant's obligations hereunder, or in the course of any judicial or legislative proceeding where such information has been properly subpoenaed, any nonpublic information concerning services to be rendered by Consultant or any of its subconsultants or subcontractors under this Agreement.

ARTICLE 30
COMPLIANCE WITH IMMIGRATION LAWS

The City will not intentionally award contracts to any party who knowingly employs unauthorized alien workers, constituting a violation of the employment provisions contained in 8 U.S.C. Section 1324 A(e) Section 274 A(e) of the Immigration and Nationality Act ("INA"). The City may consider the employment by Consultant of unauthorized aliens to be a violation of Section 274 A(e) of the INA. Such violation by Consultant of the employment provisions contained in Section 274 A(e) of the INA shall be grounds for unilateral termination of this Agreement by the City. Consultant affirmatively represents to the City that it is fully compliant with all applicable immigration laws, including but not limited to, the 1986 Immigration Act and subsequent amendments.

ARTICLE 31
COMPLIANCE SCRUTINIZED COMPANIES

The Consultant affirms and attests that they are eligible to enter into this agreement and are not prohibited against contracting, base on not being a scrutinized company as outlined in Florida Statutes 287.012; Florida Statute 215.473 and Florida Statute 215.4725. The consultant further agrees that if they are included on the list of scrutinized firms list in the future, located at (<http://www.sbafla.com>), that this agreement may be terminated at the City's option. The Consultant firm understands that pursuant to section 287.125, Florida Statutes, the submission of a false certification may subject the Consultant to civil penalties, attorney's fees, and/or costs.

ARTICLE 32
OBSERVANCE OF LAWS,
RULES, REGULATIONS, CODES
AND ORDINANCES

Consultant shall observe and at all times fully comply with all applicable laws, rules, regulations, codes and ordinances of any federal, state or local government agency or regulatory body which in any manner affect or apply to the Work or Consultant's performance hereunder. Consultant shall require all of its agents, representatives,

employees and sub-consultants to observe and comply with the said laws, rules, regulations, codes and ordinances.

ARTICLE 33
PUBLICITY

Publicity and public announcements pertaining to the Project shall be approved by the City in writing prior to release.

ARTICLE 34
MISCELLANEOUS

- 34.1 This Agreement shall be governed by and construed in accordance with the laws of the State of Florida.
- 34.2 No modification, waiver, amendment, discharge, or change of this Agreement shall be valid unless the same is in writing, signed by the parties against whom the enforcement of such modification, waiver, amendment, discharge, or change is sought.
- 34.3 Nothing contained in this Agreement shall create a contractual relationship or cause of action in favor of a third party against either the City or Consultant.
- 34.4 This Agreement and the Exhibits attached hereto constitute the entire Agreement between the parties relating to the transactions contemplated hereby and all prior or contemporaneous agreements, understandings, representations, and statements, oral or written, are merged herein.
- 34.5 This Agreement shall be executed in any number of counterparts, each of which shall be deemed an original, but all of which together shall constitute a single instrument.
- 34.6 All pronouns and any variations thereof shall be deemed to refer to the masculine, feminine, neuter, singular, or plural as the identity of the person(s) or entity may require.
- 34.7 In the event of any conflict between the terms of this Agreement and any other Contract Documents including Specifications for the Project, the provisions of this Agreement shall govern and control.
- 34.8 If any provision or any portion of any provision of this Agreement or the application of any such provision or portion thereof to any person or circumstance shall be held invalid or unenforceable, the remaining portion of such provision and the remaining provisions of this Agreement, or the application of such provision held invalid, or unenforceable to persons or circumstances other than those to which it has been invalid or unenforceable, shall not be affected thereby.

- 34.15 The parties hereto shall, at any time and from time to time following the execution hereof, execute and deliver all such further instruments and take all such further action as may be reasonably necessary or appropriate in order to carry out more effectively the purposes of this Agreement.
- 34.16 Every covenant, term, and provision of this Agreement shall be construed simply according to its fair meaning and shall not be strictly construed for or against any party.

END OF SECTION

IN WITNESS, WHEREOF, OWNER AND CONTRACTOR HAVE SIGNED THIS AGREEMENT. THIS AGREEMENT WILL BE EFFECTIVE ON _____ (WHICH IS THE EFFECTIVE DATE OF THE CONTRACT).

OWNER:

City of Cape Coral, Florida

Signature: _____

Typed Name: A. John Szerlag

Title: City Manager

Date: _____

Signature Attest: _____

Title: City Clerk

Typed Name: Kimberly Bruns, CMC

Date: _____

Address for giving notices:
City of Cape Coral (Attn: Procurement)

Exhibit "J"	Business Ethics Requirements

EXHIBIT “A”

Consultant’s Scope of Professional Services

CAPE CORAL YACHT CLUB

Rev. 7 – 6/26/2019

A. Assumptions and Clarifications

The following list of assumptions are intended to clarify CONSULTANT'S understanding of the Yacht Club project:

1. No modifications to the existing seawall are included.
2. The site is assumed to not have soil or groundwater contamination, or historical use of landfill, dumping, or hazardous activities.
3. Existing water and sewer are available to service the site.
4. Submerged Resource Survey. All areas where proposed changes will be made are examined by divers to verify the presence or absence of protected resources (sponges, oysters, scallops, corals (hard/soft). Any resources found will be identified and mapped by CONSULTANT.
5. Dock/Boat Ramp Plans & Permit Drawings. CONSULTANT'S Marine engineers will prepare plans and permit drawings for new/renovated docks and a new boat ramp (if that design is chosen).
6. Bathymetric surveys required for both the docks and the ramp/new channel shall be provided by the CITY.
7. Location of boat ramp / launch may be shifted to an interior location within the basin area.
8. Coordination on the Manatee Protection Plan. CONSULTANT will coordinate with Lee County, the CITY and FWC regarding the use of additional linear feet shoreline in other locations to increase onsite slip counts.
9. New Channel Marker Coordination and Permitting. If the boat ramp is moved and a new entrance channel designed, then new channel markers will have to be approved and permitted by FWC and the U.S. Coast Guard (USCG).
10. FDEP, USACE, and USCG Water Park Coordination. Over water construction out in the water will require State Lands and USACE authorizations with USCG input for navigational issues.
11. ERP Permitting. CONSULTANT will prepare the environmental permit packages needed to permit the approved plan. Once submitted CONSULTANT will process these applications with the appropriate agencies and respond to questions from the various groups (agency and NGO) that comment. It is expected that the CITY will pay application fees directly if needed.
12. Requirements of permitting of State Lands Fill (Beach extension) to be determined upon completion and acceptance of final concept plan.
13. Construction and permitting documents exclude Future Phase items as identified on the Opinion of Probable Cost.

14. Final topographic survey limits to be based on approved master plan and Phase 1 implementation.
15. Survey Project Area: The parcels that make up this Survey Project Area are as follows: Lots 1-17, Block 8; Lots 49-52, Block 12; Lots 1-7, Block 13; and the "Yacht Club Area" all as shown on the Cape Coral Unit One Part Two subdivision plat (Plat Book 11, Pages 29-36), Public Records of Lee County, Florida.

B. Program Elements

The following program and architectural elements are included in the design and construction documents of the scope of work:

1. Vehicular circulation modifications including parking lots, drive aisles and a parking deck
2. Pedestrian sidewalks and multi-use paths
3. Boat slip extension
4. Day dock expansion
5. Boat ramp launch
6. Boat trailer parking lot
7. Beach area expansion picnic shelters with grills (park and beach area)
8. Re-alignment of Dolphin Dr. to allow for the new boat trailer parking
9. Large picnic pavilions (prefabricated, to match existing CITY structures)
10. Small picnic pavilions (prefabricated, to match existing CITY structures)
11. Event area with utility infrastructure adjacent to boat ramps
12. Multi-purpose open space with picnic areas
13. Yacht basin parking lot
14. Shade structure for playground (prefabricated, to match existing CITY structures)
15. Site lighting
16. Stormwater management facilities
17. Splashpad
18. Finger piers

Architectural Elements:

1. Improvements to include the following:
 - Harbor Master Building with Office Space for Staff and Restrooms (2,500 SF)
 - New beachfront restroom building to replace the existing (with showers, restrooms, wash stations, 500 SF)
 - Large Picnic Pavilion
 - (9-10) Picnic Shelter (with grills selected and located by Landscape Architect)
 - Parking Deck – one-story parking deck, approximately 200 Stalls
 - CONSULTANT to provide parking garage functional design and full structural engineering (including foundations). CONSULTANT will also

provide aesthetic enhancements, stairs/elevator design, life safety design, and MEPF design.

2. Construction budget for vertical improvements is \$1,350,000
3. Construction budget for parking deck is \$3,600,000.00
4. Picnic shelters are assumed to be prototypical. Services include design of (1) shelter

C. Existing to Remain (Not Included in Design)

The following existing site elements are understood to remain in place with no modifications (unless specifically noted), and will be incorporated into the overall park design:

1. Tony Rotino Senior Center
2. Maintenance Building
3. Office Building
4. Yacht Club Aquatic Center
5. Boat House Tiki Bar and Grill
6. Fishing Pier
7. Boat Slips and Day Docks
8. Pool and Toddler Pool
9. Driftwood Parkway
10. Racquetball Courts
11. Parking Lot and Vehicular Circulation surrounding Racquetball Courts, Yacht Club Building, and Pool
12. Playgrounds (Beach and Pool Area)
13. Fountain in Center Island of Yacht Club Building Drop Off Roundabout

SCOPE OF SERVICES OUTLINE

The scope of services outlined below represents the scope and process CONSULTANT will undertake through the design process.

Task 1 - Project Administration and Meetings

- A. Includes project set up, scheduling, status reports, budgeting and invoicing.
- B. Quality assurance / quality control.
- C. Meetings and coordination with sub CONSULTANTS.
- D. Kick-off meeting
- E. Monthly progress report and meeting with CITY Staff
- F. Quarterly progress report for City Council / public dissemination by CITY.

- G. Misc. correspondence with the CITY, assumed to be one (1) conference call every two weeks to review project status throughout the design process.
- H. Preparation for, and attendance at up to four (4) City Council meetings throughout the design process.
- I. Meetings and coordination with Construction Manager (assumed to commence at start of construction documents).

Task Deliverables will include:

- a. Monthly progress update with proposed schedule outlook for upcoming period;
- b. Meeting minutes
- c. Written responses to CITY comments at each design submittal stage via letter or email no later than fourteen (14) calendar days after receiving the comments.

Task 2 – Boundary and Topographic Survey

Prepare a Boundary and Topographic Survey of the above described lands which will include the following tasks:

- A. Recover or re-establish the perimeter boundary corners of the combined parcels described above based on found monumentation, recorded subdivision plats, deeds of record and current title work (the latter two to be provided by CITY).
- B. Show rights-of-ways and platted easements per the recorded subdivision plats or as shown in current title work to be provided by CITY.
- C. Locate above ground and visible improvements within the Survey Project Area. This will include buildings, pools/decks, playground areas, shelters, road pavement, curbs, medians, driveways, sidewalks, parking lots (and parking space lines and types), fences, seawalls, docks, street signs, light poles, power poles, drainage swales, drainage structures, culvert pipes, sanitary sewer manholes, fire hydrants, water valves, water meters, telephone and cable service boxes.
- D. The approximate locations of underground utilities will be shown within the existing adjacent roadways based on investigations and markings set by CONSULTANT'S subsurface utility locating company, based on Electromagnetic and GPR methodologies. Confirmations of these locations by soft-dig excavation methods is not included in this scope but can be provided as an additional service if needed.
- E. Elevations will be obtained for the Survey Project Area on a 50-foot grid and will also include the locations of grade breaks, ditches, swales and other features as needed to reflect the existing terrain. The area 100 feet beyond the Survey Project Area will also be included except for single family lots where only ground elevations and finished floor elevations will be

obtained and except for the canals where the elevations will only be obtained 5 feet off the edge of the seawalls and except for within the Godman Yacht Basin area where elevations will only be obtained in the boat slip extension area and except for the shoreline where elevations will be obtained to the Mean High-Water Line.

- F. Approximately four project control points will be set (and noted on the survey) for use during the construction phase of the project. The horizontal datum to be used for this project is NAD 83 (CORS) and the vertical datum to be used is NGVD 1929.
- G. Pipe sizes, materials and invert elevations as measured from manhole openings and catch basins will be obtained when possible (depth of pipes, recessed pipes, lack of access due to covering or excessive debris may sometimes prevent the obtaining of this data).
- H. Locate and show trees 6" or larger in diameter (DBH). Clusters or rows of trees will be located along the perimeter edges.
- I. Show Flood Zone Classification, gross land area and names of adjoining land owners.
- J. Provide a signed and sealed Boundary and Topographic Survey along with an Autocad Drawing file (Civil3D 2018), DTM Surface file and a Point file.
- K. Provide a signed and sealed Sketch and Legal Description of Floridian Court and a portion of Dolphin Drive for vacating purposes.

Task Deliverables to include:

- a. Signed and sealed copies of the Boundary and Topographic Survey
- b. Autocad drawing file with ground surface contours/TIN in Civil 3D format
- c. Text file of survey data collected showing, Point Number, Northing, Easting, Description, and Elevation

Task 3 – Stakeholder and Community Engagement

- A. Kickoff meeting with CITY to review community engagement process.
- B. Set up and administration of online survey. Prepare a draft on-line survey questionnaire, for use by the CITY to solicit residents' input regarding proposed improvements. Submit the draft to the CITY for review and comment, and revise and resubmit the survey for the CITY'S use. The CITY will host the survey on the CITY'S website, and use social media and other communications to encourage residents to participate.
- C. Focus Group / Interviews (Public Works, Parks and Rec, Emergency Services Stakeholder Meetings; City Council One on One Interviews). CONSULTANT will facilitate up to two (2) contiguous days of interviews and focus group meetings to identify residents' needs and priorities for the park. Meetings and interviews will be scheduled on the hour from 8 am – 12

noon, and 1 pm – 5 pm. The CITY will be responsible for all logistics, including meeting space reservations, participant invitations and confirmations, and scheduling.

- D. Public Workshop: Review and input on existing concept plan.
- E. Development of One (1) alternate concept plan to include digital design vignettes incorporating stakeholder input.
- F. Prepare a preliminary Opinion of Probable Construction Cost (OPCC) for concept plan.
- G. Public Workshop: Present alternate concept plan for public feedback in an open house format.
- H. Refine concept plan into a consolidated final concept plan including 3D model with static images and video fly-through.
- I. Prepare Opinion of Probable Construction Cost (OPCC) final concept plan.
- J. Present final concept plan and OPCC to City Council for approval. Comments on the final concept plan will be incorporated into 30% construction documents.

Task Deliverables to include:

- a. Copy of online survey questionnaire
- b. Summary of online survey results, interviews, and public workshop input.
- c. One (1) electronic alternate concept plan in “pdf” format
- d. One (1) preliminary opinion of probable construction cost for alternate concept plan
- e. 3D model static images.
- f. One (1) electronic set of final concept plan in “pdf” format
- g. One (1) preliminary opinion of probable construction cost for final concept plan

Task 4 – Environmental Due Diligence and Permitting

A. Data Collection

- 1. Listed species survey (upland). All listed species will be documented if found onsite. Cost includes Listed Species Report. Listed Species Report will also include aquatic species such as West Indian manatee, smalltooth sawfish, swimming sea turtles, etc.
- 2. Submerged Resource Survey. All areas where proposed changes will be made are examined by divers to verify the presence or absence of protected resources (seagrasses, sponges, oysters, scallops, corals (hard/soft)). Any resources found will be identified and mapped.

3. FLUCFCS Mapping of Existing Conditions using the Florida Land Use Cover Forms Classification System. Map will be required for all future permitting.
4. Inspect condition of existing seawall to determine if it has reached or is nearing its life expectancy.

B. Marine Design

1. Dock/Boat Ramp Plans & Permit Drawings. CONSULTANT will prepare plans and permit drawings for new/renovated docks and a new/renovated boat ramp. Signage and information needed to address manatee and smalltooth sawfish provisions will also be included.

C. Permitting

1. Pre-Application Meetings. Once the scope and plan are finalized, CONSULTANT will take the plan and meet with state and federal agencies, or whichever agencies might be needed for final authorizations. With the potential for State Lands involvement and a wide scope of issues in this project a second set of pre-app meetings will be held once the applications have been prepared to ensure everything needed has been provided.
2. Coordination on the Manatee Protection Plan. CONSULTANT will coordinate with Lee County, the CITY and FWC regarding the use of additional linear feet shoreline in other locations to increase onsite slip counts.
3. FDEP, USACE, and USCG Water Park Coordination. Over water construction out in the water will require State Lands and USACE authorizations with USCG input for navigational issues.

Note: channel realignment may be required depending on bathymetry and site plan chosen. This task is not included per CITY comments.

4. ERP Permitting. CONSULTANT will prepare the environmental permit packages needed to permit the approved plan. It is expected that the CITY will pay application fees directly if needed.
5. ERP Processing. Once submitted CONSULTANT will process these applications with the appropriate agencies and respond to questions from the various groups (agency and NGO) that comment.
6. Coordinate with National Marine Fisheries on Smalltooth Sawfish.
7. Permitting of State Lands Fill (Beach extension) dependent on final concept. CONSULTANT will coordinate with the state to get them to allow us to fill state lands

by extending the beach to meet the new boat ramp. Potential mitigation of some kind may be required.

Task Deliverables to include:

- a. Copy of each submittal package to the governing agencies.
- b. Copy of written responses to requests for additional information letter from the governing agencies.

Task 5 – Site Civil Due Diligence

- A. Provide coordination with following Governmental Agencies and CITY departments for design parameters of the Project and pre-application meetings:
 1. City of Cape Coral Fire Department
 2. City of Cape Coral Community Development
 3. City of Cape Coral Public Works
 4. City of Cape Coral Utilities
 5. FDEP
 6. SFWMD
 7. FDOH
- B. Review readily available data pertinent to the project: existing construction plans, existing SFWMD permits, as-built information, and existing utility locates or record drawings, as provided by the CITY.
- C. Site visit to review and document existing conditions.
- D. Zoning review.
- E. Coordinate with Geotech subconsultant for the following geotechnical services:
 1. Contact the local underground utility clearance agency prior to beginning the field exploration
 2. Perform SPT test borings for Pond design: The test borings for the pond will be performed at a depth of 25 feet below existing grade surface. The soil samples from the pond test borings will be tested for soil classification, evaluate fill suitability for the project site development. Based on the results for the test borings and soils classification, an estimate of the deep confining layer will be determined.

CONSULTANT assumes a scope of twelve (12) SPT borings for the pond areas for each park site.

3. Perform SPT test borings for Building structures: The test borings for the building structures will be performed to a depth of 20 feet below existing grade surface. The building test borings will be used to evaluate the soils condition, soils classification and soil bearing capacity to support the structures. CONSULTANT assumes a scope of ten (10) borings for the building structures for each park site.
4. Perform hand augers borings: Hand auger borings will be performed to a depth of 5 feet below existing grades. These borings will be used to evaluate the seasonal high groundwater levels for the pond area for the sites. Hand augers will also be performed for pavement areas to test subgrade soils for pavement section recommendations. CONSULTANT assumes a scope of twenty (20) hand auger borings for pavement areas and seasonal high groundwater evaluation for each park site.
5. Perform Double Ring Infiltrometer Tests: The DRI test is performed in general accordance with ASTM D 3385, "Standard Test Method for Infiltration Rate of Soils in Filed Using Double Ring Infiltrometer". CONSULTANT assumes a scope of four (4) DRI tests for each park site.
6. All boring locations will be backfilled/grouted to grade upon work completion.
7. Visually classify the soil samples at each test interval and place them in clean containers which are labeled for future identification. Groundwater levels will be obtained in the boring upon initial encounter.
8. The soil samples will be transported for visual classification testing, and to evaluate the pertinent engineering properties. At the completion of the field and laboratory testing services we will prepare a report under the direction of a registered professional engineer which contains the following information at a minimum:
 - Soil boring logs and visual soil classifications
 - Existing groundwater levels
 - Estimated seasonal high groundwater level
 - Settlement estimates, total and differential
 - Foundation recommendations and soil bearing capacity
 - Site preparation recommendations
 - DRI test results
 - Laboratory testing results
 - Pavement Recommendations

F. Coordinate with SUE subconsultant to obtain existing utility locations and depths.

G. Traffic Analysis

Task Deliverables to include:

- a. Summary report indicating data found including source and date of information.
- b. Two (2) copies of geotech report.

Task 6 – Site Construction Documents

A. Schematic Design (30%) Plan Package

1. Preparation of 30% plans based on the approved final concept plan. The 30% plan set will be utilized on the initial permit submittals for USACE permitting.
2. Attendance at a site visit to observe and confirm existing conditions and design assumptions.
3. 30% Plans will include Preliminary Landscape and Hardscape Plans with appropriate design studies/enlargements and site feature selections/cut sheets; Preliminary Master Site Plan; Preliminary Master Paving, Grading and Drainage Plans; and Preliminary Utility Plan.
4. The 30% plans will incorporate parking layout; locations of proposed site features; ingress/egress into the park; locations of buildings and other structures; alignment of sidewalks and pathways; and other hardscape/landscape features.
5. Specifications will be provided as notes on plans. Written specification book not included.
6. Preparation of preliminary drainage calculations to establish pre/post conditions, location of storm water management facilities, and storm pipe layout.
7. Confirm location of existing utilities and capacity to serve the site. Prepare preliminary calculations for water and sewer demands for the project.
8. Confirm design and permitting requirements for the utility services to the park.
9. Confirm design and permitting requirements for the storm water treatment, attenuation, and incorporation where possible of Low Impact Design (LID) practices for the park.
10. Incorporation of zoning, tree preservation, and environmental constraints for the park.
11. Attendance at pre-application meetings with governing agencies.

12. Preparation of an Engineer's Opinion of Probable Construction Cost (EOPC) based on the 30% plans.
13. QA/QC of 30% plans and EOPC.

B. Design Development (60%) Plan Package

1. Preparation of 60% plans based on CITY comments during the 30% plan review process. The 60% plan set will be utilized on the initial permit submittals to the governing agencies.
2. 60% plans will include the following sheets: Existing Conditions, Site plan, Paving Grading and Drainage Plans, Storm Water Management Facility Plans and details, Utility Plans, Best Management Practices Plans and details, Pavement Marking and Signage Plans, Lighting Plans and details, Landscape and Hardscape Plans and details; Tree mitigation plans; Schematic irrigation plans.
3. Preliminary Drainage Calculations modified per any modifications from the 30% plans.
4. Utility Pipe Routing adjusted per any modifications from the 30% plans.
5. Preparation of an EOPC based on the 60% plans.
6. QA/QC of 60% plans and EOPC.

C. Final Plans Package

1. Preparation of 100% plans based on the 60% plans, CITY comments during the 60% plan review process and any remaining comments from the governing agencies.
2. Establishment of finalized quantities, and bid proposal form.
3. Constructability review of plans.
4. CITY coordination.
5. Preparation of final specifications including CITY front-end contract documents.
6. Preparation of final EOPC.
7. QA/QC of final 100% plans package and EOPC.

Task Deliverables

The CONSULTANT shall provide the following deliverables to the CITY during the design and permitting phase:

- A. Preliminary Design (30%)
 - 1. One (1) electronic set of construction documents in "pdf" format
 - 2. Two (2) 24"x36" sets of construction documents
 - 3. One (1) 30% opinion of probable construction cost with bid quantities
- B. Intermediate Design (60%)
 - 1. One (1) electronic set of construction documents in "pdf" format
 - 2. Two (2) 24"x36" sets of construction documents
 - 3. One (1) electronic set of outline specifications in "pdf" format
 - 4. One (1) updated opinion of probable construction cost with bid quantities
- C. Final Design (100%)
 - 1. One (1) electronic set of construction documents for permitting and bidding.
 - 2. Two (2) sets of Signed and Sealed 24"x36" construction documents
 - 3. One (1) electronic set of specifications in "pdf" format
 - 4. One (1) final opinion of probable construction cost with bid quantities

Task 7 - Architectural Design, Construction Plans, Permitting and Coordination

CONSULTANT to provide professional architectural design services as described in the following phases. Each phase shall be approved by the CITY in writing prior to beginning the next phase of work. CONSULTANT'S services include the following engineering consultant services for the vertical construction only.

- A. Structural Engineering
 - 1. Structural Engineering services will be performed as part of the phases outlined below for vertical construction. Structural Engineering scope to include:
 - a. Foundation plans and load bearing component design
 - b. Floor and roof framing plans
 - c. Structural member sizing and type of construction
 - d. Footing inverts and top of wall and/or steel elevations
 - e. Technical specifications
- B. Mechanical, Electrical, Plumbing & Fire Protection Engineering (MEPFP)
 - 1. MEPFP Engineering services will be performed as part of the phases outlined below. MEPFP Engineering scope to include:
 - 2. Mechanical scope:
 - a. Floor plans showing all ductwork and piping layouts

- b. Equipment room layouts and sizes of ductwork
- c. Fixtures and equipment selection and schedule
- d. Controls systems selection
- e. Technical specifications
- 3. Electrical scope:
 - a. Electrical distribution plans and riser diagrams
 - b. Fixtures and equipment schedules
 - c. Lighting plans
 - d. Electrical equipment room layouts
 - e. System details and location of receptacles and fixed appliances
 - f. Technical specifications
- 4. Plumbing scope:
 - a. Plumbing plans, fixtures and locations
 - b. Hot and cold-water generation systems
 - c. Sanitary system design (to 5' outside building)
 - d. Plumbing isometric diagrams
- 5. Fire Protection scope:
 - a. Fire suppression system and/or specification design where required by code.
 - b. Fire Alarm system design where required by code.

A. SCHEMATIC DESIGN (30%)

1. CONSULTANT shall review the program and other information furnished by the CITY, and shall review codes and regulations applicable to CONSULTANT'S services.
2. CONSULTANT shall prepare a preliminary evaluation of the CITY'S program, schedule, budget, site, and the proposed procurement or delivery method, and other initial information, to ascertain the requirements of the project. CONSULTANT shall notify the CITY of (1) any inconsistencies discovered in the information, and (2) other information or consulting services that may be reasonably needed for the Project.
3. CONSULTANT shall present its preliminary evaluation to the CITY and shall discuss with the CITY alternative approaches to design and construction. CONSULTANT shall reach an understanding with the CITY regarding the requirements of the project.
4. Based on the Project's requirements agreed upon with the CITY, CONSULTANT shall prepare and present for the CITY approval a preliminary design illustrating the scale and relationship of the Project components.
5. Based on the CITY'S approval of the preliminary design, CONSULTANT shall prepare Schematic Design Documents for the CITY'S approval. The Schematic Design Documents shall consist of drawings and other documents including a site plan, if appropriate, and preliminary building plans, section and elevations; and may include some combination of study models, perspective sketches, or digital modeling. Preliminary narrative selections of major building systems and construction materials shall be noted on the drawings or described in writing.

6. CONSULTANT shall submit the Schematic Design Documents to the CITY, and request the CITY'S approval.
7. CONSULTANT will attend (1) stakeholder engagement meeting.
8. During Schematic Design Phase, CONSULTANT will attend (1) on-site design meeting per month. Additional design meetings will be attended via web or conference call.

B. DESIGN DEVELOPMENT (60%)

1. Based on the CITY'S approval of the Schematic Design Documents, and on the CITY'S authorization of any adjustments in the Project requirements and the budget for the Cost of the Work, CONSULTANT shall prepare Design Development Documents for the CITY'S approval.
2. The Design Development Documents shall illustrate and describe the development of the approved Schematic Design Documents and shall consist of drawings and other documents including plans, sections, elevations, typical construction details, and diagrammatic layouts of building systems to fix and describe the size and character of the Project as to architectural, structural, mechanical and electrical systems, and such other elements as may be appropriate. The Design Development Documents shall also include outline specifications that identify major materials and systems and establish in general their quality levels.
3. CONSULTANT will submit the Design Development Documents to the CITY and request the CITY'S approval.
4. During Design Development Phase, CONSULTANT will attend (1) on-site design meeting per month. Additional design meetings will be attended via web or conference call.

C. CONSTRUCTION DOCUMENTS (Final Plans Package, 100%)

1. Based on the CITY'S approval of the Design Development Documents, and on the CITY'S authorization of any adjustments in the Project requirements and the budget for the Cost of the Work, CONSULTANT shall prepare Construction Documents for the CITY'S approval.
2. The Construction Documents shall illustrate and describe the further development of the approved Design Development Documents and shall consist of Drawings and Specifications setting forth in detail the quality levels of materials and systems and other requirements for the construction of the work, in a manner consistent with locally accepted standards for professional skill and care.
3. CONSULTANT will incorporate into the Construction Documents the design requirements of governmental authorities having jurisdiction over the Project.
4. The CITY and CONSULTANT acknowledge that in order to construct the Work the CONTRACTOR will provide additional information, including Shop Drawings, Product Data,

Samples and other similar submittals, which CONSULTANT shall review in accordance with the Construction Administration Phase outlined below.

5. The CONSULTANT will submit the Construction Documents to the CITY and request the CITY'S approval.
6. During Construction Document Phase, CONSULTANT will attend (1) on-site design meeting per month. Additional design meetings will be attended via web or conference call.

D. BIDDING AND PERMITTING

1. Based upon CITY'S approval of the Construction Documents, provide permitting assistance necessary (unless specifically excluded below) to achieve signed/sealed drawings ready for the CONTRACTOR'S bidding process and/or construction.
2. Submission of Construction Documents to applicable agencies for permit processing [OR, submit to CONTRACTOR for submission to applicable agencies for permit processing].
3. Answer review questions required by permitting agencies and CONTRACTOR Assembly of addenda material and information as may be required to clarify issues.
4. Assist the CITY and CONTRACTOR in bid evaluation, as requested.

E. CONSTRUCTION ADMINISTRATION

1. Monthly site visits during construction to determine, in general, if the work observed is being performed in a manner that, when completed, will be in accordance with the contract documents. Agreement includes a total of (18) site visits during construction. Additional requested site visits will be billed as Additional Services.
2. Review and respond to CONTRACTOR requests for information (RFIs) and Submittals during construction.
3. Review CONTRACTOR Certificates for Payment.
4. At Project Completion, review Punch List prepared by CONTRACTOR and issue Certificate of Substantial Completion when appropriate.
5. Certify a final Certificate for Payment based upon a final site visit indicating the work complies with the requirements of the contract documents.

Task Deliverables

CONSULTANT will provide the following deliverables to the CITY during the design and permitting phase:

- A. Schematic Design (30%)

1. One (1) electronic set of construction documents in "pdf" format
 2. Two (2) 24"x36" sets of construction documents
 3. One (1) 30% opinion of probable construction cost with bid quantities
- B. Design Development (60%)
1. One (1) electronic set of construction documents in "pdf" format
 2. Two (2) 24"x36" sets of construction documents
 3. One (1) electronic set of outline specifications in "pdf" format
 4. One (1) updated opinion of probable construction cost with bid quantities
- C. Construction Documents (100%)
1. One (1) electronic set of construction documents for permitting and bidding.
 2. Two (2) sets of Signed and Sealed 24"x36" construction documents
 3. One (1) electronic set of specifications in "pdf" format
 4. One (1) final opinion of probable construction cost with bid quantities

Task 8 – Site Civil Permit Application Packages

- A. Preparation of the required plans, applications, and supporting documents for submittal to the following agencies:
1. City Site Development Permit
 2. City Right-of-Way Vacation and Platting
 3. South Florida Water Management District
 4. Florida Department of Environmental Protection (FDEP)
 5. Florida Department of Health (FDOH)
 - Water
 - Sewer
 6. National Pollutant Discharge Elimination System (NPDES)
 7. Army Corps of Engineers (USACE) Permitting for Marine Improvements
- B. Respond to requests for information (RAI) from the governing agencies.

- C. Scheduling and attendance at follow up meetings with agency reviewers to clarify comments.
- D. Preparation of revised plans, response letters, and resubmittal packages.
- E. QA/QC of permit application packages.

Task Deliverables to include:

- a. Copy of each submittal package to the governing agencies.
- b. Copy of written responses to requests for additional information letter from the governing agencies

Task 9 – Construction Phase Services

CONSULTANT will provide professional construction phase services for the purpose of providing assistance to CITY during construction. The following services will be conducted for the project as follows:

- A. *Bid Document Preparation and Contractor Notification.* It has been assumed that this task will be completed by the CITY except for quantity review and verification, should this be requested by the CITY.
- B. *Contract Documents Preparation.* It has been assumed that this task will be completed by the CITY.
- C. *Pre-Construction Conference.* CONSULTANT will attend a Pre-Construction Conference with the CITY and CONTRACTOR prior to commencement of Work at the Site.
- D. *Wire Utilities.* The CITY will contact wire utilities (power, telephone, CATV, and natural gas). CONSULTANT will prepare a composite drawing comprised of road crossing data provided by each of the utility companies. CONSULTANT will also add road crossing data as provided by the CITY that pertain to street lighting, irrigation and controls, and entrance features. CONSULTANT will provide the various utilities necessary drawings and AutoCAD disks for their design. This agreement assumes that the CITY will contact and follow-up with each of the wire utilities in order to obtain the required information for the preparation of a crossing plan for the project.
- E. *Construction Progress Meetings.* CONSULTANT'S field representative will attend will attend progress meeting as established by the CITY.
- F. *Visits to Site and Construction Observation.* CONSULTANT will provide on-site construction observation services during the construction phase. CONSULTANT will make visits twice a month, in addition to site visits required for testing, to observe the progress of the duration of

the project. Observations will vary depending on the type of work being performed by the CONTRACTORS, the location, and the CONTRACTOR'S schedules.

Such visits and observations by CONSULTANT are not intended to be exhaustive or to extend to every aspect of CONTRACTOR'S work in progress. Observations are to be limited to spot checking, selective measurement, and similar methods of general observation of the Work based on CONSULTANT'S exercise of professional judgment. Based on information obtained during such visits and such observations, CONSULTANT will evaluate whether CONTRACTOR'S work is generally proceeding in accordance with the Contract Documents, and CONSULTANT shall keep CITY informed of the general progress of the Work.

The purpose of CONSULTANT'S visits to the site will be to enable CONSULTANT to better carry out the duties and responsibilities assigned in this Agreement to CONSULTANT during the construction phase by CITY, and, in addition, by the exercise of CONSULTANT'S efforts, to provide CITY a greater degree of confidence that the completed Work will conform in general to the Contract Documents and that the integrity of the design concept of the completed Project as a functioning whole as indicated in the Contract Documents has been implemented and preserved by CONTRACTOR. CONSULTANT shall not, during such visits or as a result of such observations of CONTRACTOR'S work in progress, supervise, direct, or have control over CONTRACTOR'S work, nor shall CONSULTANT have authority over or responsibility for the means, methods, techniques, equipment choice and usage, sequences, schedules, or procedures of construction selected by CONTRACTOR, for safety precautions and programs incident to CONTRACTOR'S work, nor for any failure of CONTRACTOR to comply with laws and regulations applicable to CONTRACTOR'S furnishing and performing the Work. Accordingly, CONSULTANT neither guarantees the performance of any CONTRACTOR nor assumes responsibility for any CONTRACTOR'S failure to furnish and perform its work in accordance with the Contract Documents.

- G. *Shop Drawings and Samples.* CONSULTANT will review and approve or take other appropriate action in respect to Shop Drawings and Samples and other data which CONTRACTOR is required to submit, but only for conformance with the information given in the Contract Documents and compatibility with the design concept of the completed Project as a functioning whole as indicated in the Contract Documents. Such review and approvals or other action will not extend to accuracy or completeness of details or construction means or methods. CONSULTANT is not responsible for any deviations from the Contract Documents not brought to CONSULTANT'S attention in writing by the CONTRACTOR.
- H. *Clarifications and Interpretations.* CONSULTANT will respond to reasonable and appropriate CONTRACTOR requests for information and issue necessary clarifications and interpretations of the Contract Documents to CITY. Such clarifications and interpretations will be consistent with the intent of the Contract Documents. Field Orders authorizing variations from the requirements of the Contract Documents will be made by CITY. Responses to CONTRACTOR requests for information that are due to an error in the plans or missing

information will not be billed under this task to the CITY but rather included with the design effort of the project.

- I. *Inspections and Tests.* CONSULTANT may require such special inspections or tests of CONTRACTOR'S work as the CONSULTANT deems appropriate, and receive and review certificates of inspections within the CONSULTANT'S area of responsibility or of tests and approvals required by laws and regulations or the Contract Documents. The CONSULTANT'S review of such certificates will be for the purpose of determining that the results certified indicate compliance with the Contract Documents and will not constitute an independent evaluation that the content or procedures of such inspections, tests, or approvals comply with the requirements of the Contract Documents. CONSULTANT shall be entitled to rely on the results of such tests and the facts being certified. Any retesting that is required due to initial test failure will be considered and additional service. This Agreement is based on a single site visit for the water main testing, and a single site visit for the sewer system testing, and a single visit for the lift station startup.
- J. *Applications for Payment.* Based on CONSULTANT'S observations and on review of applications for payment and accompanying supporting documentation:

CONSULTANT will determine and recommend to the CITY the amounts that CONTRACTOR be paid. Such recommendations of payment will be in writing and will constitute CONSULTANT'S representation to CITY, based on such observations and review, that, to the best of CONSULTANT'S knowledge, information and belief, CONTRACTOR'S work has progressed to the point indicated, such work-in-progress is generally in accordance with the Contract Documents (subject to an evaluation of the Work as a functioning whole prior to or upon Substantial Completion, to the results of any subsequent tests called for in the Contract Documents, and to any other qualifications stated in the recommendation), and the conditions precedent to CONTRACTOR'S being entitled to such payment appear to have been fulfilled insofar as it is CONSULTANT'S responsibility to so determine. In the case of unit price work, CONSULTANT'S recommendations of payment will include final determinations of quantities and classifications of CONTRACTOR'S work, based on observations and measurements of quantities provided with pay requests.

By recommending any payment, CONSULTANT shall not thereby be deemed to have represented that observations made by CONSULTANT to check CONTRACTOR'S work as it is performed and furnished have been exhaustive, extended to every aspect of CONTRACTOR'S work in progress, or involved detailed inspections of the Work beyond the responsibilities specifically assigned to CONSULTANT in this Agreement. Neither CONSULTANT'S review of CONTRACTOR'S work for the purposes of recommending payments nor CONSULTANT'S recommendation of any payment including final payment will impose on CONSULTANT responsibility to supervise, direct, or control CONTRACTOR'S work in progress or for the means, methods, techniques, equipment choice and usage, sequences, or procedures of construction of safety precautions or programs incident thereto, nor CONTRACTOR'S compliance with Laws and Regulations applicable to CONTRACTOR'S

- furnishing and performing the Work. It will also not impose responsibility on CONSULTANT to make any examination to ascertain how or for what purposes CONTRACTOR has used the moneys paid on account of the Contract Price, nor to determine that title to any portion of the work in progress, materials, or equipment has passed to CITY free and clear of any liens, claims, security interests, or encumbrances, nor that there may not be other matters at issue between CITY and CONTRACTOR that might affect the amount that should be paid.
- K. *Record Drawings.* CONSULTANT will review CONTRACTOR'S or CITY'S surveyor's record drawings for compliance to the approved Construction Drawings and applicable regulatory agency standards. Provide Surveyor and or CONTRACTOR with comments on the draft record drawings and one follow up set of comments. Coordinate with Surveyor to receive final sets of record drawings consistent to the requirements of the appropriate regulatory agency. This task includes the initial review and coordination with the surveyor and or CONTRACTOR and follow-up reviews.
- L. *Certification Documents.* Based on the results of the final observations of the site, test reports, record drawings, and other documentation pertinent to the project CONSULTANT will prepare and submit to the appropriate regulatory agency the certificates of completion of construction.
- M. *Change Orders.* CONSULTANT will recommend Change Orders to CITY, as appropriate. CONSULTANT will also review and make recommendations related to Change Orders submitted or proposed by the CONTRACTOR.
- N. *Substitutes and "or-equal."* CONSULTANT will evaluate and determine the acceptability of substitute or "or-equal" materials and equipment proposed by CONTRACTOR in accordance with the Contract Documents, but subject to the provisions of applicable standards of state or local government entities.
- O. *Substantial Completion.* Promptly after notice from CONTRACTOR that CONTRACTOR considers the entire Work ready for its intended use, in company with CITY and CONTRACTOR, CONSULTANT will conduct a site visit to determine if the Work is substantially complete. Work will be considered substantially complete following satisfactory completion of all items with the exception of those identified on a final punch list. If after considering any objections of CITY, CONSULTANT considers the Work substantially complete; CONSULTANT shall notify CITY and CONTRACTOR.
- P. *Final Notice of Acceptability of the Work.* CONSULTANT will conduct a final site visit to determine if the completed Work of CONTRACTOR is generally in accordance with the Contract Documents and the final punch list so that CONSULTANT may recommend, in writing, final payment to CONTRACTOR. Accompanying the recommendation for final payment, CONSULTANT shall also provide a notice that the Work is generally in accordance with the Contract Documents to the best of CONSULTANT'S knowledge, information, and belief and based on the extent of the services provided by CONSULTANT under this

Agreement and based upon information provided to CONSULTANT upon which it is entitled to rely.

- Q. *Limitation of Responsibilities.* CONSULTANT shall not be responsible for the acts or omissions of any CONTRACTOR, or of any of their subcontractors, suppliers, or of any other individual or entity performing or furnishing the Work. CONSULTANT shall not have the authority or responsibility to stop the work of any CONTRACTOR.

Task Deliverables to include:

- a. Copy of electronic bid form and bid package consisting of plans, copies of permits, and book specifications to include measurement and payment sections.
- b. Bid Tabulation Results
- c. Copy of construction progress meeting minutes.
- d. Copy of Permit Certification Packages to the governing agencies.
- e. Record drawing deliverable to the CITY to include:
 - One (1) electronic set of record drawings in "pdf" format.
 - One (1) sets of certified 24"x36"" record drawings;
 - One (1) CD (or flash drive) with record drawing base files, including text fonts, in AutoCAD "dwg

Additional Services

Any services not specifically provided for in the above scope will be considered additional services and can be performed at our then current hourly rates, or for a negotiated fee prior to commencing additional services work. Additional services we can provide include, but are not limited to, the following:

1. Permitting services beyond those outlined in the scope of services above.
2. Additional responses to agency comments, beyond those identified in the scope of services above.
3. Revisions to the plans or preparation of applications for permit modification based on CITY requested revisions.
4. Services required by additional governmental regulations, which might be put into effect after the date of this agreement.
5. Public meetings and hearings notices, beyond those identified in the scope of services.
6. Attendance at additional meetings beyond those specified.
7. Comprehensive plan or zoning changes.
8. Transportation/traffic engineering related services.
9. Enhanced landscape, hardscape plans or amenity design.
10. Planning, design, or permit applications for off-site improvements.
11. Traffic signal study or design.

12. Construction Phase Services
13. Archeological services
14. Preparation of a SWFWMD Water Use Permit for irrigation
15. Construction phase services associated with one or two-year warranty inspections as called for by the CITY or regulatory agency
16. Interior Design services not otherwise expressly indicated in Scope of Services
17. Furniture selections and procurement
18. LEED consulting and certification services
19. 3D physical presentation model
20. Tide Study to determine Mean High-Water Line elevation
21. Bathymetric Surveying of canals, basins, river
22. Submerged Land Lease Surveys
23. Location of Fishing Pier
24. Soft-dig excavations for location and/or confirmation of underground utilities
25. Sketches and Legal Descriptions for additional street or easement vacations or creations, easements, etc.
26. Subdivision platting
27. Any surveying services other than those described above
28. Seawall Inspection for integrity
29. Meeting with cabinet aides and Governor / Cabinet for the filling of state lands or the creation of a new entrance channel. If a hearing is to take place, CONSULTANT will attend the hearing in Tallahassee upon written approval by CITY.

FESTIVAL PARK

Rev. 7 – 6/26/2019

A. Assumptions / Clarifications

The following list of assumptions are intended to clarify CONSULTANT'S understanding of the Festival Park project:

1. Utility Service Extensions to Park will be required to accommodate the approved master plan. Assumes +/- 1/2-mile water main extension, onsite distribution and collection system, and lift station
2. ROW Vacation of +/- 12 existing streets and Wilmington Parkway
3. Re-platting of parcels
4. Property acquisition of existing residential houses / lots will need to be coordinated by CITY Staff.
5. The site is assumed to not have soil or groundwater contamination, or historical use of landfill, dumping, or hazardous activities.
6. Onsite fill material to be reused onsite.
7. FAA radius setback criteria for Seahawk Air Park to be provided to CONSULTANT.
8. Construction and permitting documents exclude Future Phase items as identified on the Opinion of Probable Cost.
9. Final topographic survey limits to be based on approved master plan and Phase 1 implementation.
10. The proposed portion of the park area to be surveyed is located within the lands bounded by the Gator Slough Canal on the north, Zanzibar Canal on the east, Northwind Canal on the south and NW 14th Avenue, NW 27th Street and Chiquita Boulevard on the west. This total area is made up of Blocks 3000–3002, 3009, 3013-3028 and part of Block 3003, all as shown on the Cape Coral Unit 43 subdivision plat (Plat Book 17, Pages 48-57), Public Records of Lee County, Florida.

B. Program Elements

The following program and architectural elements are included in the design and construction documents of the scope of work:

1. Pedestrian Sidewalks, access and circulation
2. Parking for 2,500+/- spaces
3. Overflow Parking Area (grass)
4. Vehicular Circulation for Parking
5. Six (6) Natural Turf Soccer Fields
6. Open Space North of the Seahawk Air Park

7. Recreation Trail
8. ERP permitting for canal / lake enhancements (stormwater treatment area conversion)
9. Site lighting
10. Stormwater management facilities

Architectural Elements:

1. Improvements to include the following:
 - Restroom Building with Concessions @ 3,800 square feet
 - Concessions will be “grab and go”. No commercial cooking equipment or commercial hood system. Food Service consultant/design services are not included.
 - (1) Large Pavilion @ 1,000 square feet each (foundations only)
 - (2) Small Pavilions @ 400 square feet each (foundations only)
2. Construction budget for vertical improvements is \$1,160,000.00

C. Existing to Remain (Not Included in Design):

The following existing site elements are understood to remain in place with no modifications (unless specifically noted) and be incorporated into the overall park design:

1. Seahawk Air Park with the exception of the Clubhouse

SCOPE OF SERVICES OUTLINE

The scope of services outlined below represents the scope and process CONSULTANT will undertake through the design process.

Task 1 - Project Administration and Meetings

- A. Includes project set up, scheduling, status reports, budgeting and invoicing.
- B. Quality assurance / quality control.
- C. Meetings and coordination with sub consultants.
- D. Kick-off meeting
- E. Monthly progress report and meeting with CITY Staff
- F. Quarterly progress report for City Council / public dissemination by CITY.

- G. Misc. correspondence with the CITY, assumed to be one (1) conference call every two weeks to review project status throughout the design process.
- H. Preparation for, and attendance at up to four (4) City Council meetings throughout the design process.
- I. Meetings and coordination with CONTRACTOR (assumed to commence at start of construction documents).

Task Deliverables will include:

- a. Monthly progress update with proposed schedule outlook for upcoming period;
- b. Meeting minutes
- c. Written responses to CITY comments at each design submittal stage via letter or email no later than fourteen (14) calendar days after receiving the comments.

Task 2 – Boundary and Topographic Survey

Prepare a Topographic Survey of a portion of the above described lands (the limits of which will be determined at a later date) which will include some or all of the following tasks:

- A. Recover or re-establish the boundary corners based on found monumentation, recorded subdivision plats, deeds of record and current title work (the latter two to be provided by the CITY).
- B. Show rights-of-ways and platted easements per the recorded subdivision plats or as shown in current title work to be provided by CITY.
- C. Locate above ground and visible improvements within the Survey Project Area to be determined. This will potentially include buildings, rc airstrip, picnic shelters, road pavement, medians, driveways, boat ramps, spoil piles, fences, street signs, light poles, power poles, drainage swales, drainage structures, culvert pipes, sanitary sewer manholes, fire hydrants, water valves, water meters, telephone and cable service boxes.
- D. The approximate locations of underground utilities will be shown within the existing adjacent roadways based on investigations and markings set by the CONSULTANT'S subsurface utility locating company, based on Electromagnetic and GPR methodologies. Confirmations of these locations by soft-dig excavation methods is not included in this scope but can be provided as an additional service if needed.
- E. Elevations will be obtained for the Survey Project Area on a 50-foot grid and will also include the locations of grade breaks, ditches, swales and other features as needed to reflect the existing terrain. The area 100 feet beyond the Survey Project Area will also be included except for single family lots where only ground elevations and finished floor elevations will be

obtained and except for the canals where the elevations will only be obtained 5 feet off the edge of the top of banks.

- F. Approximately four project control points will be set (and noted on the survey) for use during the construction phase of the project. The horizontal datum to be used for this project is NAD 83 (CORS) and the vertical datum to be used is NGVD 1929.
- G. Pipe sizes, materials and invert elevations as measured from manhole openings and catch basins will be obtained when possible (depth of pipes, recessed pipes, lack of access due to covering or excessive debris may sometimes prevent the obtaining of this data).
- H. Obtain cross-sections of existing ponds within the proposed project area.
- I. Locate wetland delineation lines and seasonal high-water table marks (to be set by others).
- J. Locate and show trees 6" or larger in diameter (DBH). Clusters or rows of trees will be located along the perimeter edges.
- K. Show Flood Zone Classification, gross land area and names of adjoining land owners.
- L. Provide a signed and sealed Topographic Survey along with an Autocad Drawing file (Civil3D 2018), DTM Surface file and a Point file.
- M. Provide a signed and sealed Sketch and Legal Description of road rights-of-way (number of which to be determined).

Task Deliverables to include:

- a. Signed and sealed copies of the Boundary and Topographic Survey
- b. AutoCAD drawing file with ground surface contours/TIN in Civil 3D format
- c. Text file of survey data collected showing, Point Number, Northing, Easting, Description, and Elevation

Task 3 – Stakeholder and Community Engagement

- A. Kickoff meeting with CITY to review community engagement process.
- B. Set up and administration of online survey. Prepare a draft on-line survey questionnaire, for use by the CITY to solicit residents' input regarding proposed improvements. Submit the draft to the CITY for review and comment, and revise and resubmit the survey for the CITY's use. The CITY will host the survey on the CITY's website, and use social media and other communications to encourage residents to participate.

- C. Focus Group / Interviews (Public Works, Parks and Rec, Emergency Services Stakeholder Meetings; City Council One on One Interviews). CONSULTANT will facilitate up to two (2) contiguous days of interviews and focus group meetings to identify residents' needs and priorities for the park. Meetings and interviews will be scheduled on the hour from 8 am – 12 noon, and 1 pm – 5 pm. The CITY will be responsible for all logistics, including meeting space reservations, participant invitations and confirmations, and scheduling.
- D. Public Workshop: Review and input on existing concept plan.
- E. Development of One (1) alternate concept plan to include digital design vignettes incorporating stakeholder input.
- F. Prepare a preliminary Opinion of Probable Construction Cost (OPCC) for concept plan.
- G. Public Workshop: Present alternate concept plan for public feedback in an open house format.
- H. Refine concept plan into a consolidated final concept plan including 3D model with static images and video fly-through.
- I. Prepare Opinion of Probable Construction Cost (OPCC) final concept plan.
- J. Present final concept plan and OPCC to City Council for approval. Comments on the final concept plan will be incorporated into 30% construction documents.

Task Deliverables to include:

- a. Copy of online survey questionnaire
- b. Summary of online survey results, interviews, and public workshop input.
- c. One (1) electronic alternate concept plan in "pdf" format
- d. One (1) preliminary opinion of probable construction cost for alternate concept plan
- e. 3D model static images.
- f. One (1) electronic set of final concept plan in "pdf" format
- g. One (1) preliminary opinion of probable construction cost for final concept plan

Task 4 – Environmental Due Diligence and Permitting

- A. Data Collection
 - 1. Listed species survey. Primarily concerned with gopher tortoises and burrowing owls, but all listed species will be documented if found onsite. Existing permits, such as Scrub Jay will be reviewed as well. Cost includes Listed Species Report. Listed

species survey does not include acoustic monitoring for Florida bonneted bats. If required by FWS, acoustic monitoring will be conducted under a separate scope.

2. FLUCFCS Mapping of Existing Conditions using the Florida Land Use Cover Forms Classification System. Map will be required for all future permitting.

B. Permitting

1. Pre-Application Meetings. Once the scope and plan are finalized, CONSULTANT will meet with state and federal agencies, or whichever agencies might be needed for final authorizations along with the engineering and design team.
2. CONSULTANT will provide the Environmental supplement needed for the agency applications. Due to the reconfiguration of the embayment, we anticipate permit applications with both the state and federal permitting agencies. The type of federal permit required will be dependent on the area of reconfiguration and the amount of material to be dredged out or filled in. We have anticipated having to submit for an Individual permit with the USACE. Scope and costs will be reduced if the work qualifies for a nationwide authorization instead of the individual permit.
3. Once submitted, CONSULTANT will work with the team to coordinate with appropriate agencies and respond to questions from the various groups (agency and NGO) that comment.
4. Listed Species Permitting. If listed species are found during the initial data collection phase, then permit applications to remove/relocation those species will be made to the Florida Fish and Wildlife Conservation Commission (FWC). Those permits could entail flushing and collapsing burrowing owl nests and/or removal of gopher tortoises from the site. Application fees are dependent on the numbers of burrows and type of species and mitigation bank fees also vary. It is expected that the CITY will pay application fees and mitigation bank fees directly if needed.

C. Listed Species Physical Relocation

1. Gopher Tortoises. Any tortoise relocation will be conducted either by hand, digging, bucket trapping, or backhoe extraction depending on the number and status of the burrow(s). CONSULTANT'S FWC approved Gopher Tortoise Agent is certified in the use of the backhoe for burrow excavation if needed. We have provided a single day's rate assuming there are enough burrows to require a day of labor with CONSULTANT running a backhoe and two biologists assisting with the manual labor. If there are no burrows requiring relocation, then the fees associated with this work will be zero (\$0).

Once the tortoises are collected, CONSULTANT will house them and care for them until they can be transferred to the permitted recipient site. Upon release, CONSULTANT will then close out the FWC tortoise permit with an after-action report.

2. Burrowing Owls. Once it is established that the burrow is not active (no eggs or young) then the adults may be flushed out of the burrow by a biologist and the burrow then will be collapsed. One biologist can perform this task and close the permit out with FWC.

Task Deliverables to include:

- a. Copy of each submittal package to the governing agencies.
- b. Copy of written responses to requests for additional information letter from the governing agencies.

Task 5 – Site Civil Due Diligence

- A. Provide coordination with following Governmental Agencies and CITY departments for design parameters of the Project and pre-application meetings:
 1. City of Cape Coral Fire Department
 2. City of Cape Coral Community Development
 3. City of Cape Coral Public Works
 4. City of Cape Coral Utilities
 5. FDEP
 6. SFWMD
 7. FDOT
- B. Review readily available data pertinent to the project: existing construction plans, existing SFWMD permits, as-built information, and existing utility locates or record drawings, as provided by the CITY.
- C. Site visit to review and document existing conditions.
- D. Zoning review.
- A. Coordinate with Geotech for the following geotechnical services:

1. Contact the local underground utility clearance agency prior to beginning the field exploration
2. Perform SPT test borings for Pond design: The test borings for the pond will be performed at a depth of 25 feet below existing grade surface. The soil samples from the pond test borings will be tested for soil classification, evaluate fill suitability for the project site development. Based on the results for the test borings and soils classification, an estimate of the deep confining layer will be determined. CONSULTANT assumes a scope of twelve (12) SPT borings for the pond areas for each park site.
3. Perform SPT test borings for Building structures: The test borings for the building structures will be performed to a depth of 20 feet below existing grade surface. The building test borings will be used to evaluate the soils condition, soils classification and soil bearing capacity to support the structures. CONSULTANT assumes a scope of ten (10) borings for the building structures for each park site.
4. Perform hand augers borings: Hand auger borings will be performed to a depth of 5 feet below existing grades. These borings will be used to evaluate the seasonal high groundwater levels for the pond area for the sites. Hand augers will also be performed for pavement areas to test subgrade soils for pavement section recommendations. CONSULTANT assumes a scope of twenty (20) hand auger borings for pavement areas and seasonal high groundwater evaluation for each park site.
5. Perform Double Ring Infiltrometer Tests: The DRI test is performed in general accordance with ASTM D 3385, "Standard Test Method for Infiltration Rate of Soils in Filed Using Double Ring Infiltrometer". CONSULTANT assumes a scope of four (4) DRI tests for each park site.
6. All boring locations will be backfilled/grouted to grade upon work completion.
7. Visually classify the soil samples at each test interval and place them in clean containers which are labeled for future identification. Groundwater levels will be obtained in the boring upon initial encounter.
8. The soil samples will be transported for visual classification testing, and to evaluate the pertinent engineering properties. At the completion of the field and laboratory testing services we will prepare a report under the direction of a registered professional engineer which contains the following information at a minimum:
 - Soil boring logs and visual soil classifications
 - Existing groundwater levels

- Estimated seasonal high groundwater level
- Settlement estimates, total and differential
- Foundation recommendations and soil bearing capacity
- Site preparation recommendations
- DRI test results
- Laboratory testing results
- Pavement Recommendations

E. Coordinate with SUE subconsultant to obtain existing utility locations and depths.

F. Traffic Analysis; including on-site traffic circulation and emergency response.

Task Deliverables to include:

- a. Summary report indicating data found including source and date of information.
- b. Two (2) copies of geotech report.

Task 6 – Site Construction Documents

A. Schematic Design (30%) Plan Package

1. Preparation of 30% plans based on the approved final concept plan. The 30% plan set will be utilized on the initial permit submittals for USACE permitting.
2. Attendance at a site visit to observe and confirm existing conditions and design assumptions.
3. 30% Plans will include Preliminary Landscape and Hardscape Plans with appropriate design studies/enlargements and site feature selections/cut sheets; Preliminary Master Site Plan; Preliminary Master Paving, Grading and Drainage Plans; and Preliminary Utility Plan.
4. The 30% plans will incorporate parking layout; locations of proposed site features; ingress/egress into the park; locations of buildings and other structures; alignment of sidewalks and pathways; and other hardscape/landscape features.
5. Specifications will be provided as notes on plans. Written specification book not included.
6. Preparation of preliminary drainage calculations to establish pre/post conditions, location of storm water management facilities, and storm pipe layout.
7. Design / sizing of the on-site septic system.

8. Confirm location of existing utilities and capacity to serve the site. Prepare preliminary calculations for water and sewer demands for the project.
9. Confirm design and permitting requirements for the utility services to the park.
10. Confirm design and permitting requirements for the storm water treatment, attenuation, and incorporation where possible of Low Impact Design (LID) practices for the park.
11. Incorporation of zoning, tree preservation, and environmental constraints for the park.
12. Attendance at pre-application meetings with governing agencies.
13. Preparation of an Engineer's Opinion of Probable Construction Cost (EOPC) based on the 30% plans.
14. QA/QC of 30% plans and EOPC.

B. Design Development (60%) Plan Package

1. Preparation of 60% plans based on CITY comments during the 30% plan review process. The 60% plan set will be utilized on the initial permit submittals to the governing agencies.
2. 60% plans will include the following sheets: Existing Conditions, Site plan, Paving Grading and Drainage Plans, Storm Water Management Facility Plans and details, Utility Plans, Best Management Practices Plans and details, Pavement Marking and Signage Plans, Lighting Plans and details, Landscape and Hardscape Plans and details; Tree mitigation plans; Schematic irrigation plans.
3. Preliminary Drainage Calculations modified per any modifications from the 30% plans.
4. Utility Pipe Routing adjusted per any modifications from the 30% plans.
5. Preparation of an EOPC based on the 60% plans.
6. QA/QC of 60% plans and EOPC.

C. Final Plans Package

1. Preparation of 100% plans based on the 60% plans, CITY comments during the 60% plan review process and any remaining comments from the governing agencies.
2. Establishment of finalized quantities, and bid proposal form.

3. Constructability review of plans.
4. CITY coordination.
5. Preparation of final specifications including CITY front-end contract documents.
6. Preparation of final EOPC.
7. QA/QC of final 100% plans package and EOPC.

Task Deliverables

The CONSULTANT shall provide the following deliverables to the CITY during the design and permitting phase:

- A. Preliminary Design (30%)
 1. One (1) electronic set of construction documents in "pdf" format
 2. Two (2) 24"x36" sets of construction documents
 3. One (1) 30% opinion of probable construction cost with bid quantities
- B. Intermediate Design (60%)
 1. One (1) electronic set of construction documents in "pdf" format
 2. Two (2) 24"x36" sets of construction documents
 3. One (1) electronic set of outline specifications in "pdf" format
 4. One (1) updated opinion of probable construction cost with bid quantities
- C. Final Design (100%)
 1. One (1) electronic set of construction documents for permitting and bidding.
 2. Two (2) sets of Signed and Sealed 24"x36" construction documents
 3. One (1) electronic set of specifications in "pdf" format
 4. One (1) final opinion of probable construction cost with bid quantities

Task 7 - Architectural Design, Construction Plans, Permitting and Coordination

CONSULTANT to provide professional architectural design services as described in the following phases. Each phase shall be approved by the CITY in writing prior to beginning the next phase of

work. CONSULTANT'S services include the following engineering consultant services for the vertical construction only.

A. Structural Engineering

1. Structural Engineering services will be performed as part of the phases outlined below for vertical construction. Structural Engineering scope to include:
 - a. Foundation plans and load bearing component design
 - b. Floor and roof framing plans
 - c. Structural member sizing and type of construction
 - d. Footing inverts and top of wall and/or steel elevations
 - e. Technical specifications

B. Mechanical, Electrical, Plumbing & Fire Protection Engineering (MEPFP)

1. MEPFP Engineering services will be performed as part of the phases outlined below. MEPFP Engineering scope to include:
2. Mechanical scope:
 - a. Floor plans showing all ductwork and piping layouts
 - b. Equipment room layouts and sizes of ductwork
 - c. Fixtures and equipment selection and schedule
 - d. Controls systems selection
 - e. Technical specifications
3. Electrical scope:
 - a. Electrical distribution plans and riser diagrams
 - b. Fixtures and equipment schedules
 - c. Lighting plans
 - d. Electrical equipment room layouts
 - e. System details and location of receptacles and fixed appliances
 - f. Technical specifications
4. Plumbing scope:
 - a. Plumbing plans, fixtures and locations
 - b. Hot and cold-water generation systems
 - c. Sanitary system design (to 5' outside building)
 - d. Plumbing isometric diagrams
5. Fire Protection scope:
 - a. Fire suppression system and/or specification design where required by code.
 - b. Fire Alarm system design where required by code.

A. SCHEMATIC DESIGN (30%)

1. CONSULTANT shall review the program and other information furnished by the CITY, and shall review codes and regulations applicable to CONSULTANT'S services.
2. CONSULTANT shall prepare a preliminary evaluation of the CITY'S program, schedule, budget, site, and the proposed procurement or delivery method, and other initial information, to ascertain the requirements of the project. CONSULTANT shall notify the CITY of (1) any

- inconsistencies discovered in the information, and (2) other information or consulting services that may be reasonably needed for the Project.
3. CONSULTANT shall present its preliminary evaluation to the CITY and shall discuss with the CITY alternative approaches to design and construction. CONSULTANT shall reach an understanding with the CITY regarding the requirements of the project.
 4. Based on the Project's requirements agreed upon with the CITY, CONSULTANT shall prepare and present for the CITY approval a preliminary design illustrating the scale and relationship of the Project components.
 5. Based on the CITY'S approval of the preliminary design, CONSULTANT shall prepare Schematic Design Documents for the CITY'S approval. The Schematic Design Documents shall consist of drawings and other documents including a site plan, if appropriate, and preliminary building plans, section and elevations; and may include some combination of study models, perspective sketches, or digital modeling. Preliminary narrative selections of major building systems and construction materials shall be noted on the drawings or described in writing.
 6. CONSULTANT shall submit the Schematic Design Documents to the CITY, and request the CITY'S approval.
 7. CONSULTANT will attend (1) stakeholder engagement meeting.
 8. During Schematic Design Phase, CONSULTANT will attend (1) on-site design meeting per month. Additional design meetings will be attended via web or conference call.
- B. DESIGN DEVELOPMENT (60%)
1. Based on the CITY'S approval of the Schematic Design Documents, and on the CITY'S authorization of any adjustments in the Project requirements and the budget for the Cost of the Work, CONSULTANT shall prepare Design Development Documents for the CITY'S approval.
 2. The Design Development Documents shall illustrate and describe the development of the approved Schematic Design Documents and shall consist of drawings and other documents including plans, sections, elevations, typical construction details, and diagrammatic layouts of building systems to fix and describe the size and character of the Project as to architectural, structural, mechanical and electrical systems, and such other elements as may be appropriate. The Design Development Documents shall also include outline specifications that identify major materials and systems and establish in general their quality levels.

3. CONSULTANT will submit the Design Development Documents to the CITY and request the CITY'S approval.
 4. During Design Development Phase, CONSULTANT will attend (1) on-site design meeting per month. Additional design meetings will be attended via web or conference call.
- C. CONSTRUCTION DOCUMENTS (Final Plans Package, 100%)
1. Based on the CITY'S approval of the Design Development Documents, and on the CITY'S authorization of any adjustments in the Project requirements and the budget for the Cost of the Work, CONSULTANT shall prepare Construction Documents for the CITY'S approval.
 2. The Construction Documents shall illustrate and describe the further development of the approved Design Development Documents and shall consist of Drawings and Specifications setting forth in detail the quality levels of materials and systems and other requirements for the construction of the work, in a manner consistent with locally accepted standards for professional skill and care.
 3. CONSULTANT will incorporate into the Construction Documents the design requirements of governmental authorities having jurisdiction over the Project.
 4. The CITY and CONSULTANT acknowledge that in order to construct the Work the CONTRACTOR will provide additional information, including Shop Drawings, Product Data, Samples and other similar submittals, which CONSULTANT shall review in accordance with the Construction Administration Phase outlined below.
 5. The CONSULTANT will submit the Construction Documents to the CITY and request the CITY'S approval.
 6. During Construction Document Phase, CONSULTANT will attend (1) on-site design meeting per month. Additional design meetings will be attended via web or conference call.
- D. BIDDING AND PERMITTING
1. Based upon CITY'S approval of the Construction Documents, provide permitting assistance necessary (unless specifically excluded below) to achieve signed/sealed drawings ready for the CONTRACTOR'S bidding process and/or construction.
 2. Submission of Construction Documents to applicable agencies for permit processing [OR, submit to CONTRACTOR for submission to applicable agencies for permit processing].
 3. Answer review questions required by permitting agencies and CONTRACTOR. Assembly of addenda material and information as may be required to clarify issues.

4. Assist the CITY and CONTRACTOR in bid evaluation, as requested.

E. CONSTRUCTION ADMINISTRATION

1. Monthly site visits during construction to determine, in general, if the work observed is being performed in a manner that, when completed, will be in accordance with the contract documents. Agreement includes a total of (18) site visits during construction. Additional requested site visits will be billed as Additional Services.
2. Review and respond to CONTRACTOR requests for information (RFIs) and Submittals during construction.
3. Review CONTRACTOR Certificates for Payment.
4. At Project Completion, review Punch List prepared by CONTRACTOR and issue Certificate of Substantial Completion when appropriate.
5. Certify a final Certificate for Payment based upon a final site visit indicating the work complies with the requirements of the contract documents.

Task Deliverables

CONSULTANT shall provide the following deliverables to the CITY during the design and permitting phase:

- A. Schematic Design (30%)
 1. One (1) electronic set of construction documents in "pdf" format
 2. Two (2) 24"x36" sets of construction documents
 3. One (1) 30% opinion of probable construction cost with bid quantities
- B. Design Development (60%)
 1. One (1) electronic set of construction documents in "pdf" format
 2. Two (2) 24"x36" sets of construction documents
 3. One (1) electronic set of outline specifications in "pdf" format
 4. One (1) updated opinion of probable construction cost with bid quantities
- C. Construction Documents (100%)
 1. One (1) electronic set of construction documents for permitting and bidding.

2. Two (2) sets of Signed and Sealed 24"x36" construction documents
3. One (1) electronic set of specifications in "pdf" format
4. One (1) final opinion of probable construction cost with bid quantities

Task 8 – Site/Civil Permit Application Packages

- A. Preparation of the required plans, applications, and supporting documents for submittal to the following agencies:
 1. City Site Development Permit
 2. City Right-of-Way Vacation and Platting
 3. South Florida Water Management District
 - Environmental Resource Permit (ERP)
 - Irrigation Water use
 - Construction Dewatering
 4. Florida Department of Environmental Protection (FDEP)
 5. Florida Department of Health (FDOH)
 - Water
 - Sewer
 6. National Pollutant Discharge Elimination System (NPDES)
- B. Respond to requests for information (RAI) from the governing agencies.
- C. Scheduling and attendance at follow up meetings with agency reviewers to clarify comments.
- D. Preparation of revised plans, response letters, and resubmittal packages.
- E. QA/QC of permit application packages.

Task Deliverables to include:

- a. Copy of each submittal package to the governing agencies.
- b. Copy of written responses to requests for additional information letter from the governing agencies

Task 9 – Construction Phase Services

CONSULTANT will provide professional construction phase services for the purpose of providing assistance to CITY during construction. The following services will be conducted for the project as follows:

- A. *Bid Document Preparation and Contractor Notification.* It has been assumed that this task will be completed by the CITY except for quantity review and verification, should this be requested by the CITY.
- B. *Contract Documents Preparation.* It has been assumed that this task will be completed by the CITY.
- C. *Pre-Construction Conference.* CONSULTANT will attend a Pre-Construction Conference with the CITY and CONTRACTOR prior to commencement of Work at the Site.
- D. *Wire Utilities.* The CITY will contact wire utilities (power, telephone, CATV, and natural gas). CONSULTANT will prepare a composite drawing comprised of road crossing data provided by each of the utility companies. CONSULTANT will also add road crossing data as provided by the CITY that pertain to street lighting, irrigation and controls, and entrance features. CONSULTANT will provide the various utilities necessary drawings and AutoCAD disks for their design. This agreement assumes that the CITY will contact and follow-up with each of the wire utilities in order to obtain the required information for the preparation of a crossing plan for the project.
- E. *Construction Progress Meetings.* CONSULTANT'S field representative will attend will attend progress meeting as established by the CITY.
- F. *Visits to Site and Construction Observation.* CONSULTANT will provide on-site construction observation services during the construction phase. CONSULTANT will make visits twice a month, in addition to site visits required for testing, to observe the progress of the duration of the project. Observations will vary depending on the type of work being performed by the CONTRACTORS, the location, and the CONTRACTOR'S schedules.

Such visits and observations by CONSULTANT are not intended to be exhaustive or to extend to every aspect of CONTRACTOR'S work in progress. Observations are to be limited to spot checking, selective measurement, and similar methods of general observation of the Work based on CONSULTANT'S exercise of professional judgment. Based on information obtained during such visits and such observations, CONSULTANT will evaluate whether CONTRACTOR'S work is generally proceeding in accordance with the Contract Documents, and CONSULTANT shall keep CITY informed of the general progress of the Work.

- The purpose of CONSULTANT'S visits to the site will be to enable CONSULTANT to better carry out the duties and responsibilities assigned in this Agreement to CONSULTANT during the construction phase by CITY, and, in addition, by the exercise of CONSULTANT'S efforts, to provide CITY a greater degree of confidence that the completed Work will conform in general to the Contract Documents and that the integrity of the design concept of the completed Project as a functioning whole as indicated in the Contract Documents has been implemented and preserved by CONTRACTOR. CONSULTANT shall not, during such visits or as a result of such observations of CONTRACTOR'S work in progress, supervise, direct, or have control over CONTRACTOR'S work, nor shall CONSULTANT have authority over or responsibility for the means, methods, techniques, equipment choice and usage, sequences, schedules, or procedures of construction selected by CONTRACTOR, for safety precautions and programs incident to CONTRACTOR'S work, nor for any failure of CONTRACTOR to comply with laws and regulations applicable to CONTRACTOR'S furnishing and performing the Work. Accordingly, CONSULTANT neither guarantees the performance of any CONTRACTOR nor assumes responsibility for any CONTRACTOR'S failure to furnish and perform its work in accordance with the Contract Documents.
- G. *Shop Drawings and Samples.* CONSULTANT will review and approve or take other appropriate action in respect to Shop Drawings and Samples and other data which CONTRACTOR is required to submit, but only for conformance with the information given in the Contract Documents and compatibility with the design concept of the completed Project as a functioning whole as indicated in the Contract Documents. Such review and approvals or other action will not extend to accuracy or completeness of details or construction means or methods. CONSULTANT is not responsible for any deviations from the Contract Documents not brought to CONSULTANT'S attention in writing by the CONTRACTOR.
- H. *Clarifications and Interpretations.* CONSULTANT will respond to reasonable and appropriate CONTRACTOR requests for information and issue necessary clarifications and interpretations of the Contract Documents to CITY. Such clarifications and interpretations will be consistent with the intent of the Contract Documents. Field Orders authorizing variations from the requirements of the Contract Documents will be made by CITY. Responses to CONTRACTOR requests for information that are due to an error in the plans or missing information will not be billed under this task to the CITY but rather included with the design effort of the project.
- I. *Inspections and Tests.* CONSULTANT may require such special inspections or tests of CONTRACTOR'S work as the CONSULTANT deems appropriate, and receive and review certificates of inspections within the CONSULTANT'S area of responsibility or of tests and approvals required by laws and regulations or the Contract Documents. The CONSULTANT'S review of such certificates will be for the purpose of determining that the results certified indicate compliance with the Contract Documents and will not constitute an independent evaluation that the content or procedures of such inspections, tests, or

approvals comply with the requirements of the Contract Documents. CONSULTANT shall be entitled to rely on the results of such tests and the facts being certified. Any retesting that is required due to initial test failure will be considered and additional service. This Agreement is based on a single site visit for the water main testing, and a single site visit for the sewer system testing, and a single visit for the lift station startup.

- J. *Applications for Payment.* Based on CONSULTANT'S observations and on review of applications for payment and accompanying supporting documentation:

CONSULTANT will determine and recommend to the CITY the amounts that CONTRACTOR be paid. Such recommendations of payment will be in writing and will constitute CONSULTANT'S representation to CITY, based on such observations and review, that, to the best of CONSULTANT'S knowledge, information and belief, CONTRACTOR'S work has progressed to the point indicated, such work-in-progress is generally in accordance with the Contract Documents (subject to an evaluation of the Work as a functioning whole prior to or upon Substantial Completion, to the results of any subsequent tests called for in the Contract Documents, and to any other qualifications stated in the recommendation), and the conditions precedent to CONTRACTOR'S being entitled to such payment appear to have been fulfilled insofar as it is CONSULTANT'S responsibility to so determine. In the case of unit price work, CONSULTANT'S recommendations of payment will include final determinations of quantities and classifications of CONTRACTOR'S work, based on observations and measurements of quantities provided with pay requests.

By recommending any payment, CONSULTANT shall not thereby be deemed to have represented that observations made by CONSULTANT to check CONTRACTOR'S work as it is performed and furnished have been exhaustive, extended to every aspect of CONTRACTOR'S work in progress, or involved detailed inspections of the Work beyond the responsibilities specifically assigned to CONSULTANT in this Agreement. Neither CONSULTANT'S review of CONTRACTOR'S work for the purposes of recommending payments nor CONSULTANT'S recommendation of any payment including final payment will impose on CONSULTANT responsibility to supervise, direct, or control CONTRACTOR'S work in progress or for the means, methods, techniques, equipment choice and usage, sequences, or procedures of construction of safety precautions or programs incident thereto, nor CONTRACTOR'S compliance with Laws and Regulations applicable to CONTRACTOR'S furnishing and performing the Work. It will also not impose responsibility on CONSULTANT to make any examination to ascertain how or for what purposes CONTRACTOR has used the moneys paid on account of the Contract Price, nor to determine that title to any portion of the work in progress, materials, or equipment has passed to CITY free and clear of any liens, claims, security interests, or encumbrances, nor that there may not be other matters at issue between CITY and CONTRACTOR that might affect the amount that should be paid.

- K. *Record Drawings.* CONSULTANT will review CONTRACTOR'S or CITY'S surveyor's record drawings for compliance to the approved Construction Drawings and applicable regulatory agency standards. Provide Surveyor and or CONTRACTOR with comments on the draft record drawings and one follow up set of comments. Coordinate with Surveyor to receive final sets of record drawings consistent to the requirements of the appropriate regulatory agency. This task includes the initial review and coordination with the surveyor and or CONTRACTOR and follow-up reviews.
- L. *Certification Documents.* Based on the results of the final observations of the site, test reports, record drawings, and other documentation pertinent to the project CONSULTANT will prepare and submit to the appropriate regulatory agency the certificates of completion of construction.
- M. *Change Orders.* CONSULTANT will recommend Change Orders to CITY, as appropriate. CONSULTANT will also review and make recommendations related to Change Orders submitted or proposed by the CONTRACTOR.
- N. *Substitutes and "or-equal."* CONSULTANT will evaluate and determine the acceptability of substitute or "or-equal" materials and equipment proposed by CONTRACTOR in accordance with the Contract Documents, but subject to the provisions of applicable standards of state or local government entities.
- O. *Substantial Completion.* Promptly after notice from CONTRACTOR that CONTRACTOR considers the entire Work ready for its intended use, in company with CITY and CONTRACTOR, CONSULTANT will conduct a site visit to determine if the Work is substantially complete. Work will be considered substantially complete following satisfactory completion of all items with the exception of those identified on a final punch list. If after considering any objections of CITY, CONSULTANT considers the Work substantially complete; CONSULTANT shall notify CITY and CONTRACTOR.
- P. *Final Notice of Acceptability of the Work.* CONSULTANT will conduct a final site visit to determine if the completed Work of CONTRACTOR is generally in accordance with the Contract Documents and the final punch list so that CONSULTANT may recommend, in writing, final payment to CONTRACTOR. Accompanying the recommendation for final payment, CONSULTANT shall also provide a notice that the Work is generally in accordance with the Contract Documents to the best of CONSULTANT'S knowledge, information, and belief and based on the extent of the services provided by CONSULTANT under this Agreement and based upon information provided to CONSULTANT upon which it is entitled to rely.
- Q. *Limitation of Responsibilities.* CONSULTANT shall not be responsible for the acts or omissions of any CONTRACTOR, or of any of their subcontractors, suppliers, or of any other

individual or entity performing or furnishing the Work. CONSULTANT shall not have the authority or responsibility to stop the work of any CONTRACTOR.

Task Deliverables to include:

- a. Copy of electronic bid form and bid package consisting of plans, copies of permits, and book specifications to include measurement and payment sections.
- b. Bid Tabulation Results
- c. Copy of construction progress meeting minutes.
- d. Copy of Permit Certification Packages to the governing agencies.
- e. Record drawing deliverable to the CITY to include:
 - One (1) electronic set of record drawings in "pdf" format.
 - One (1) sets of certified 24"x36"" record drawings;
 - One (1) CD (or flash drive) with record drawing base files, including text fonts, in AutoCAD "dwg

Additional Services

Any services not specifically provided for in the above scope will be considered additional services and can be performed at our then current hourly rates, or for a negotiated fee prior to commencing additional services work. Additional services we can provide include, but are not limited to, the following:

1. Permitting services beyond those outlined in the scope of services above.
2. Additional responses to agency comments, beyond those identified in the scope of services above.
3. Revisions to the plans or preparation of applications for permit modification based on Client requested revisions.
4. Services required by additional governmental regulations, which might be put into effect after the date of this agreement.
5. Public meetings and hearings notices beyond those identified in the scope of services above.
6. Attendance at additional meetings beyond those specified.
7. Comprehensive plan or zoning changes.
8. Transportation/traffic engineering related services beyond those identified in the scope of services above.
9. Enhanced landscape, hardscape plans or amenity design.
10. Planning, design, or permit applications for off-site improvements beyond those identified in the scope of services above.
Traffic signal study or design.
11. Archaeological services

12. Preparation of a SWFWMD Water Use Permit for irrigation
13. Construction phase services associated with one or two-year warranty inspections as called for by the client or regulatory agency
14. Interior Design services not otherwise expressly indicated in Scope of Services
15. Furniture selections and procurement
16. LEED consulting and certification services
17. 3D physical presentation model
18. Tide Study to determine Mean High-Water Line elevation
19. Bathymetric Surveying of canals, basins, river
20. Submerged Land Lease Surveys
21. Location of Fishing Pier
22. Soft-dig excavations for location and/or confirmation of underground utilities
23. Sketches and Legal Descriptions for additional street or easement vacations or creations, easements, etc.
24. Subdivision platting
25. Surveying services other than those described above
26. Seawall Inspection for integrity
27. Meeting with cabinet aides and Governor / Cabinet for the filling of state lands or the creation of a new entrance channel. If a hearing is to take place, CONSULTANT will attend the hearing in Tallahassee, upon written approval of CITY.

LAKE KENNEDY PARK

REV. 7 – 6/26/2019

A. Assumptions / Clarifications

The following list of assumptions are intended to clarify CONSULTANT'S understanding of the Lake Kennedy Park project:

1. ROW Vacation of SW 3rd Place south of SW 4th Street, SW 4th Terrace, and SW 5th Street
2. The site is assumed to not have soil or groundwater contamination, but is known to have historical use of landfill, dumping, or hazardous activities.
 - This scope of services does not include specialized geotechnical or engineering services for landfill conditions, landfill remediation, permitting, methane monitoring or methane venting system design for structures.
3. Existing water and sewer is available to service the site
4. No proposed changes to W Lake Kennedy Drive or changes to Lake Kennedy Senior Center and Special Populations Parking lots.
5. Construction and permitting documents exclude Future Phase items as identified on the Opinion of Probable Cost.
6. Final topographic survey limits to be based on approved master plan and Phase 1 implementation.
7. The proposed portion of the park area to be surveyed is located within the lands bounded by the Lake Kennedy on the west and south, Santa Barbara Boulevard on the east and SW 4th Street (along with its easterly and westerly extensions) and the northerly line of the current Lake Kennedy Park parcel boundary on the north (excluding the current Sun Splash Family Waterpark development). This total area is made up of a portion of Section 14, Township 44 South, Range 23 East, as well as Blocks 1955-1956 and parts of Blocks 1957 and 1958, all as shown on the Cape Coral Unit 29 subdivision plat (Plat Book 16, Pages 15-25), Public Records of Lee County, Florida.

B. Program Elements

The following program and architectural elements are included in the design and construction documents of the scope of work:

1. Vehicular circulation modifications including parking lots and drive aisles
2. Pedestrian sidewalks and access throughout site
3. Multiuse path
4. Sun splash parking pay booth and driveway modifications

5. W. Lake Kennedy Dr. Alignment modifications from sun splash to south Florida canoe / kayak club
6. Six (6) tennis courts
7. Twelve (12) pickleball courts
8. Covered spectator seating over center court (on sides above seating only, not entire court)
9. Court parking
10. Outdoor covered dining area outside concession / café
11. Multi-purpose open space east of tennis courts
12. Site lighting
13. Stormwater management facilities

Architectural Elements

1. Improvements to include the following:
 - Ticket booth (300 SF)
 - Pro Shop with restrooms and maintenance storage and outdoor covered dining area (2,500 SF)
 - Covered tournament court seating is assumed to be a prefabricated structure (roof /no walls) designed by others. CONSULTANT to provide foundation design only
 - Concession building (500 SF)
 - Concessions will be “grab and go”. No commercial cooking equipment or commercial hood system. Food Service consultant/design services are not included.
2. Construction budget for all vertical improvements is assumed at \$835,000

C. Existing to Remain (Not Included in Design)

The following existing site elements are understood to remain in place with no modifications (unless specifically noted), and will be incorporated into the overall park design:

- Community Center
- Cape Coral Special Populations
- Sun Splash Family Waterpark
- Boardwalk south of Sun Splash Family Waterpark

SCOPE OF SERVICES

The scope of services outlined below represents the scope and process CONSULTANT will undertake through the design process.

Task 1 - Project Administration and Meetings

- A. Includes project set up, scheduling, status reports, budgeting and invoicing.
- B. Quality assurance / quality control.
- C. Meetings and coordination with sub consultants.
- D. Kick-off meeting
- E. Monthly progress report and meeting with CITY Staff
- F. Quarterly progress report for City Council / public dissemination by CITY.
- G. Misc. correspondence with the CITY, assumed to be one (1) conference call every two weeks to review project status throughout the design process.
- H. Preparation for, and attendance at up to four (4) City Council meetings throughout the design process.
- I. Meetings and coordination with CONTRACTOR (assumed to commence at start of construction documents).

Task Deliverables will include:

- a. Monthly progress update with proposed schedule outlook for upcoming period;
- b. Meeting minutes
- c. Written responses to CITY comments at each design submittal stage via letter or email no later than fourteen (14) calendar days after receiving the comments.

Task 2 – Boundary and Topographic Survey

- A. Recover or re-establish the perimeter boundary corners of the combined parcels described above based on found monumentation, recorded subdivision plats, deeds of record and current title work (the latter two to be provided by the CITY).
- B. Show rights-of-ways and platted easements per the recorded subdivision plats or as shown in current title work to be provided by the CITY).
- C. Locate above ground and visible improvements within the Survey Project Area. This will include buildings, pools/decks, playground areas, shelters, road pavement, curbs, medians, driveways, sidewalks, parking lots (and parking space lines and types), fences, seawalls, docks, street signs, light poles, power poles, drainage swales, drainage structures, culvert pipes, sanitary sewer manholes, fire hydrants, water valves, water meters, telephone and cable service boxes.

- D. The approximate locations of underground utilities will be shown within the existing adjacent roadways based on investigations and markings set by the CONSULTANT'S subsurface utility locating subconsultant company, based on Electromagnetic and GPR methodologies. Confirmations of these locations by soft-dig excavation methods is not included in this scope but can be provided as an additional service if needed.
- E. Elevations will be obtained for the Survey Project Area on a 50-foot grid and will also include the locations of grade breaks, ditches, swales and other features as needed to reflect the existing terrain. The area 100 feet beyond the Survey Project Area will also be included except for single family lots where only ground elevations and finished floor elevations will be obtained and except for the canals where the elevations will only be obtained 5 feet off the edge of the seawalls.
- F. Approximately four project control points will be set (and noted on the survey) for use during the construction phase of the project. The horizontal datum to be used for this project is NAD 83 (CORS) and the vertical datum to be used is NGVD 1929
- G. Pipe sizes, materials and invert elevations as measured from manhole openings and catch basins will be obtained when possible (depth of pipes, recessed pipes, lack of access due to covering or excessive debris may sometimes prevent the obtaining of this data).
- H. Locate and show trees 6" or larger in diameter (DBH). Clusters or rows of trees will be located along the perimeter edges.
- I. Obtain cross-sections of existing ponds within the proposed project area.
- J. Locate wetland delineation lines and seasonal high-water table marks (to be set by others).
- K. Provide a signed and sealed Topographic Survey along with an Autocad Drawing file (Civil3D 2018), DTM Surface file and a Point file.
- L. Provide a signed and sealed Sketch and Legal Description of road rights-of-way (number of which to be determined).
- M. Show Flood Zone Classification, gross land area and names of adjoining land owners.

Task Deliverables to include:

- a. Signed and sealed copies of the Boundary and Topographic Survey
- b. Autocad drawing file with ground surface contours/TIN in Civil 3D format
- c. Text file of survey data collected showing, Point Number, Northing, Easting, Description, and Elevation

Task 3 – Stakeholder and Community Engagement

- A. Kickoff meeting with CITY to review community engagement process.
- B. Set up and administration of online survey. Prepare a draft on-line survey questionnaire, for use by the CITY to solicit residents' input regarding proposed improvements. Submit the draft to the CITY for review and comment, and revise and resubmit the survey for the CITY'S use. The CITY will host the survey on the CITY'S website, and use social media and other communications to encourage residents to participate.
- C. Focus Group / Interviews (Public Works, Parks and Rec, Emergency Services Stakeholder Meetings; City Council One on One Interviews). CONSULTANT will facilitate up to two (2) contiguous days of interviews and focus group meetings to identify residents' needs and priorities for the park. Meetings and interviews will be scheduled on the hour from 8 am – 12 noon, and 1 pm – 5 pm. The CITY will be responsible for all logistics, including meeting space reservations, participant invitations and confirmations, and scheduling.
- D. Public Workshop: Review and input on existing concept plan.
- E. Development of One (1) alternate concept plan to include digital design vignettes incorporating stakeholder input.
- F. Prepare a preliminary Opinion of Probable Construction Cost (OPCC) for concept plan.
- G. Public Workshop: Present alternate concept plan for public feedback in an open house format.
- H. Refine concept plan into a consolidated final concept plan including 3D model with static images and video fly-through.
- I. Prepare Opinion of Probable Construction Cost (OPCC) final concept plan.
- J. Present final concept plan and OPCC to City Council for approval. Comments on the final concept plan will be incorporated into 30% construction documents.
- K. CONSULTANT'S Racquet Center Operations subconsultant will provide the following services as part of the concept development phase:
 1. **Kick-off Meeting** (Conference Call)
 - a. Project overview and update
 - b. Identify constraints and parameters including
 - Market
 - Site/location
 - Mission and goals
 - c. Review operational goals including revenue generation
 2. **Programming Assistance**
 - a. Project component recommendation/prioritization

- Validate or adjust any existing facility program
 - Determine sizing and space allocation requirements
 - Component relationships and interaction
 - b. Review of program options and or phasing plan
 - Determine preferred option
 - Operational impact
- 3. Concept Plan Review**
- a. Review of initial design and lay-out of the center
 - Sizing and adjacencies
 - b. Written documentation of plan review
- 4. Revised Concept Plan Review**
- a. Review any changes made to the initial concept plan.
 - b. Provide a systematic review of the final concept plans.
 - c. Determination of potential operational impacts
 - d. Written documentation of plan review
- 5. Operations and Maintenance Recommendations**
- a. Provide recommendations on operations of the facility
 - Management structure
 - Maintenance policies
 - Programs and services
 - Fees and charges
 - b. Written documentation of recommendations
- 6. Other**
- a. Conference Calls (up to 6)
 - b. Site visit (1)

Task Deliverables to include:

- a. Copy of online survey questionnaire
- b. Summary of online survey results, interviews, and public workshop input.
- c. One (1) electronic alternate concept plan in “pdf” format
- d. One (1) preliminary opinion of probable construction cost for alternate concept plan
- e. 3D model static images
- f. One (1) electronic set of final concept plan in “pdf” format
- g. One (1) preliminary opinion of probable construction cost for final concept plan
- h. Electronic copy of written documentation of plan review
- i. Electronic copy of written documentation of recommendations

Task 4 – Environmental Due Diligence and Permitting

A. Data Collection

1. Listed species survey. Primarily concerned with gopher tortoises and burrowing owls. While initial investigation showed neither of these present on the project lands, they are present on nearby properties and could relocate. Any listed species will be documented if found onsite. Cost includes Listed Species Report needed for State and Federal applications
2. FLUCFCS Mapping of Existing Conditions using the Florida Land Use Cover Forms Classification System. Map will be required for all future permitting.

B. Permitting

1. Pre-Application Meetings. Once the scope and plan are finalized, we will meet with state and federal agencies, or whichever agencies might be needed for final authorizations along with the engineering and design team.
2. The most recent scope indicated that the boardwalk and kayak launch would be undertaken in a later phase so no overwater or in water work is included in this revised scope. If all work is kept on the uplands, then federal authorizations from the Corps of Engineers will not be needed.
3. CONSULTANT will provide the Environmental supplement needed for the agency applications.
4. Once submitted CONSULTANT will work with the team to coordinate with appropriate agencies and respond to questions from the various groups (agency and NGO) that comment.
5. Listed Species Permitting. Since no tortoises or burrowing owls have been documented currently on the project site, no listed species permitting (tortoise relocation, burrowing owl take, etc) is expected or included in this scope.

Task Deliverables to include:

- a. Copy of each submittal package to the governing agencies.
- b. Copy of written responses to requests for additional information letter from the governing agencies.

Task 5 – Site Civil Due Diligence

- A. Provide coordination with following Governmental Agencies and City departments for design parameters of the Project and pre-application meetings:
 1. City of Cape Coral Fire Department
 2. City of Cape Coral Community Development

3. City of Cape Coral Public Works
 4. City of Cape Coral Utilities
 5. FDEP
 6. SFWMD
 7. FDOT
- B. Review readily available data pertinent to the project: existing construction plans, existing SFWMD permits, as-built information, and existing utility locates or record drawings, as provided by the CITY.
- C. Site visit to review and document existing conditions.
- D. Zoning review.
- E. Coordinate with Geotech subconsultant for the following geotechnical services:
1. Contact the local underground utility clearance agency prior to beginning the field exploration
 2. Perform SPT test borings for Pond design: The test borings for the pond will be performed at a depth of 25 feet below existing grade surface. The soil samples from the pond test borings will be tested for soil classification, evaluate fill suitability for the project site development. Based on the results for the test borings and soils classification, an estimate of the deep confining layer will be determined. CONSULTANT assumes a scope of twelve (12) SPT borings for the pond areas for each park site.
 3. Perform SPT test borings for Building structures: The test borings for the building structures will be performed to a depth of 20 feet below existing grade surface. The building test borings will be used to evaluate the soils condition, soils classification and soil bearing capacity to support the structures. CONSULTANT assumes a scope of ten (10) borings for the building structures for each park site.
 4. Perform hand augers borings: Hand auger borings will be performed to a depth of 5 feet below existing grades. These borings will be used to evaluate the seasonal high groundwater levels for the pond area for the sites. Hand augers will also be performed for pavement areas to test subgrade soils for pavement section recommendations. CONSULTANT assumes a scope of twenty (20) hand auger borings for pavement areas and seasonal high groundwater evaluation for each park site.
 5. Perform Double Ring Infiltrometer Tests: The DRI test is performed in general accordance with ASTM D 3385, "Standard Test Method for Infiltration Rate of Soils in

Filed Using Double Ring Infiltrometer". CONSULTANT assumes a scope of four (4) DRI tests for each park site.

6. All boring locations will be backfilled/grouted to grade upon work completion.
7. Visually classify the soil samples at each test interval and place them in clean containers which are labeled for future identification. Groundwater levels will be obtained in the boring upon initial encounter.
8. The soil samples will be transported for visual classification testing, and to evaluate the pertinent engineering properties. At the completion of the field and laboratory testing services we will prepare a report under the direction of a registered professional engineer which contains the following information at a minimum:
 - Soil boring logs and visual soil classifications
 - Existing groundwater levels
 - Estimated seasonal high groundwater level
 - Settlement estimates, total and differential
 - Foundation recommendations and soil bearing capacity
 - Site preparation recommendations
 - DRI test results
 - Laboratory testing results
 - Pavement Recommendations

F. Coordinate with SUE subconsultant to obtain existing utility locations and depths.

G. Traffic Analysis

Task Deliverables to include:

- a. Summary report indicating data found including source and date of information.
- b. Two (2) copies of geotech report.

Task 6 – Site Construction Documents

A. Schematic Design (30%) Plan Package

1. Preparation of 30% plans based on the approved final concept plan. The 30% plan set will be utilized on the initial permit submittals for USACE permitting.
2. Attendance at a site visit to observe and confirm existing conditions and design assumptions.
3. 30% Plans will include Preliminary Landscape and Hardscape Plans with appropriate design studies/enlargements and site feature selections/cut sheets; Preliminary Master

Site Plan; Preliminary Master Paving, Grading and Drainage Plans; and Preliminary Utility Plan.

4. The 30% plans will incorporate parking layout; locations of proposed site features; ingress/egress into the park; locations of buildings and other structures; alignment of sidewalks and pathways; and other hardscape/landscape features.
5. Specifications will be provided as notes on plans. Written specification book not included.
6. Preparation of preliminary drainage calculations to establish pre/post conditions, location of storm water management facilities, and storm pipe layout.
7. Confirm location of existing utilities and capacity to serve the site. Prepare preliminary calculations for water and sewer demands for the project.
8. Confirm design and permitting requirements for the utility services to the park.
9. Confirm design and permitting requirements for the storm water treatment, attenuation, and incorporation where possible of Low Impact Design (LID) practices for the park.
10. Incorporation of zoning, tree preservation, and environmental constraints for the park.
11. Attendance at pre-application meetings with governing agencies.
12. Preparation of an Engineer's Opinion of Probable Construction Cost (EOPC) based on the 30% plans.
13. QA/QC of 30% plans and EOPC.

B. Design Development (60%) Plan Package

1. Preparation of 60% plans based on CITY comments during the 30% plan review process. The 60% plan set will be utilized on the initial permit submittals to the governing agencies.
2. 60% plans will include the following sheets: Existing Conditions, Site plan, Paving Grading and Drainage Plans, Storm Water Management Facility Plans and details, Utility Plans, Best Management Practices Plans and details, Pavement Marking and Signage Plans, Lighting Plans and details, Landscape and Hardscape Plans and details; Tree mitigation plans; Schematic irrigation plans.
3. Preliminary Drainage Calculations modified per any modifications from the 30% plans.
4. Utility Pipe Routing adjusted per any modifications from the 30% plans.

5. Preparation of an EOPC based on the 60% plans.
 6. QA/QC of 60% plans and EOPC.
- C. Final Plans Package
1. Preparation of 100% plans based on the 60% plans, CITY comments during the 60% plan review process and any remaining comments from the governing agencies.
 2. Establishment of finalized quantities, and bid proposal form.
 3. Constructability review of plans.
 4. CITY coordination.
 5. Preparation of final specifications including CITY front-end contract documents.
 6. Preparation of final EOPC.
 7. QA/QC of final 100% plans package and EOPC.

Task Deliverables

The CONSULTANT shall provide the following deliverables to the CITY during the design and permitting phase:

- A. Preliminary Design (30%)
 1. One (1) electronic set of construction documents in "pdf" format
 2. Two (2) 24"x36" sets of construction documents
 3. One (1) 30% opinion of probable construction cost with bid quantities
- B. Intermediate Design (60%)
 1. One (1) electronic set of construction documents in "pdf" format
 2. Two (2) 24"x36" sets of construction documents
 3. One (1) electronic set of outline specifications in "pdf" format
 4. One (1) updated opinion of probable construction cost with bid quantities
- C. Final Design (100%)
 1. One (1) electronic set of construction documents for permitting and bidding.
 2. Two (2) sets of Signed and Sealed 24"x36" construction documents
 3. One (1) electronic set of specifications in "pdf" format

4. One (1) final opinion of probable construction cost with bid quantities

Task 7 - Architectural Design, Construction Plans, Permitting and Coordination

CONSULTANT to provide professional architectural design services as described in the following phases. Each phase shall be approved by the CITY in writing prior to beginning the next phase of work. CONSULTANT'S services include the following engineering consultant services for the vertical construction only.

A. Structural Engineering

1. Structural Engineering services will be performed as part of the phases outlined below for vertical construction. Structural Engineering scope to include:
 - a. Foundation plans and load bearing component design
 - b. Floor and roof framing plans
 - c. Structural member sizing and type of construction
 - d. Footing inverts and top of wall and/or steel elevations
 - e. Technical specifications

B. Mechanical, Electrical, Plumbing & Fire Protection Engineering (MEPFP)

1. MEPFP Engineering services will be performed as part of the phases outlined below. MEPFP Engineering scope to include:
2. Mechanical scope:
 - a. Floor plans showing all ductwork and piping layouts
 - b. Equipment room layouts and sizes of ductwork
 - c. Fixtures and equipment selection and schedule
 - d. Controls systems selection
 - e. Technical specifications
3. Electrical scope:
 - a. Electrical distribution plans and riser diagrams
 - b. Fixtures and equipment schedules
 - c. Lighting plans
 - d. Electrical equipment room layouts
 - e. System details and location of receptacles and fixed appliances
 - f. Technical specifications
4. Plumbing scope:
 - a. Plumbing plans, fixtures and locations
 - b. Hot and cold-water generation systems
 - c. Sanitary system design (to 5' outside building)
 - d. Plumbing isometric diagrams
5. Fire Protection scope:
 - a. Fire suppression system and/or specification design where required by code.
 - b. Fire Alarm system design where required by code.

A. SCHEMATIC DESIGN (30%)

1. CONSULTANT shall review the program and other information furnished by the CITY, and shall review codes and regulations applicable to CONSULTANT'S services.

2. CONSULTANT shall prepare a preliminary evaluation of the CITY'S program, schedule, budget, site, and the proposed procurement or delivery method, and other initial information, to ascertain the requirements of the project. CONSULTANT shall notify the CITY of (1) any inconsistencies discovered in the information, and (2) other information or consulting services that may be reasonably needed for the Project.
 3. CONSULTANT shall present its preliminary evaluation to the CITY and shall discuss with the CITY alternative approaches to design and construction. CONSULTANT shall reach an understanding with the CITY regarding the requirements of the project.
 4. Based on the Project's requirements agreed upon with the CITY, CONSULTANT shall prepare and present for the CITY approval a preliminary design illustrating the scale and relationship of the Project components.
 5. Based on the CITY'S approval of the preliminary design, CONSULTANT shall prepare Schematic Design Documents for the CITY'S approval. The Schematic Design Documents shall consist of drawings and other documents including a site plan, if appropriate, and preliminary building plans, section and elevations; and may include some combination of study models, perspective sketches, or digital modeling. Preliminary narrative selections of major building systems and construction materials shall be noted on the drawings or described in writing.
 6. CONSULTANT shall submit the Schematic Design Documents to the CITY, and request the CITY'S approval.
 7. CONSULTANT will attend (1) stakeholder engagement meeting.
 8. During Schematic Design Phase, CONSULTANT will attend (1) on-site design meeting per month. Additional design meetings will be attended via web or conference call.
- B. DESIGN DEVELOPMENT (60%)
1. Based on the CITY'S approval of the Schematic Design Documents, and on the CITY'S authorization of any adjustments in the Project requirements and the budget for the Cost of the Work, CONSULTANT shall prepare Design Development Documents for the CITY'S approval.
 2. The Design Development Documents shall illustrate and describe the development of the approved Schematic Design Documents and shall consist of drawings and other documents including plans, sections, elevations, typical construction details, and diagrammatic layouts of building systems to fix and describe the size and character of the Project as to architectural, structural, mechanical and electrical systems, and such other elements as may be appropriate. The Design Development Documents shall also include outline specifications that identify major materials and systems and establish in general their quality levels.

3. CONSULTANT will submit the Design Development Documents to the CITY and request the CITY'S approval.
 4. During Design Development Phase, CONSULTANT will attend (1) on-site design meeting per month. Additional design meetings will be attended via web or conference call.
- C. CONSTRUCTION DOCUMENTS (Final Plans Package, 100%)
1. Based on the CITY'S approval of the Design Development Documents, and on the CITY'S authorization of any adjustments in the Project requirements and the budget for the Cost of the Work, CONSULTANT shall prepare Construction Documents for the CITY'S approval.
 2. The Construction Documents shall illustrate and describe the further development of the approved Design Development Documents and shall consist of Drawings and Specifications setting forth in detail the quality levels of materials and systems and other requirements for the construction of the work, in a manner consistent with locally accepted standards for professional skill and care.
 3. CONSULTANT will incorporate into the Construction Documents the design requirements of governmental authorities having jurisdiction over the Project.
 4. The CITY and CONSULTANT acknowledge that in order to construct the Work the CONTRACTOR will provide additional information, including Shop Drawings, Product Data, Samples and other similar submittals, which CONSULTANT shall review in accordance with the Construction Administration Phase outlined below.
 5. The CONSULTANT will submit the Construction Documents to the CITY and request the CITY'S approval.
 6. During Construction Document Phase, CONSULTANT will attend (1) on-site design meeting per month. Additional design meetings will be attended via web or conference call.
- D. BIDDING AND PERMITTING
1. Based upon CITY'S approval of the Construction Documents, provide permitting assistance necessary (unless specifically excluded below) to achieve signed/sealed drawings ready for the CONTRACTOR'S bidding process and/or construction.
 2. Submission of Construction Documents to applicable agencies for permit processing [OR, submit to CONTRACTOR for submission to applicable agencies for permit processing].
 3. Answer review questions required by permitting agencies and CONTRACTOR Assembly of addenda material and information as may be required to clarify issues.
 4. Assist the CITY and CONTRACTOR in bid evaluation, as requested.

E. CONSTRUCTION ADMINISTRATION

1. Monthly site visits during construction to determine, in general, if the work observed is being performed in a manner that, when completed, will be in accordance with the contract documents. Agreement includes a total of (18) site visits during construction. Additional requested site visits will be billed as Additional Services.
2. Review and respond to CONTRACTOR requests for information (RFIs) and Submittals during construction.
3. Review CONTRACTOR Certificates for Payment.
4. At Project Completion, review Punch List prepared by CONTRACTOR and issue Certificate of Substantial Completion when appropriate.
5. Certify a final Certificate for Payment based upon a final site visit indicating the work complies with the requirements of the contract documents.

Task Deliverables

CONSULTANT shall provide the following deliverables to the CITY during the design and permitting phase:

- A. Schematic Design (30%)
 1. One (1) electronic set of construction documents in "pdf" format
 2. Two (2) 24"x36" sets of construction documents
 3. One (1) 30% opinion of probable construction cost with bid quantities
- B. Design Development (60%)
 1. One (1) electronic set of construction documents in "pdf" format
 2. Two (2) 24"x36" sets of construction documents
 3. One (1) electronic set of outline specifications in "pdf" format
 4. One (1) updated opinion of probable construction cost with bid quantities
- C. Construction Documents (100%)
 1. One (1) electronic set of construction documents for permitting and bidding.
 2. Two (2) sets of Signed and Sealed 24"x36" construction documents
 3. One (1) electronic set of specifications in "pdf" format
 4. One (1) final opinion of probable construction cost with bid quantities

Task 8 – Site/Civil Permit Application Packages

- A. Preparation of the required plans, applications, and supporting documents for submittal to the following agencies:
 - 1. City Site Development Permit
 - 2. South Florida Water Management District
 - 3. Florida Department of Environmental Protection (FDEP)
 - 4. National Pollutant Discharge Elimination System (NPDES)
- B. Respond to requests for information (RAI) from the governing agencies.
- C. Scheduling and attendance at follow up meetings with agency reviewers to clarify comments.
- D. Preparation of revised plans, response letters, and resubmittal packages.
- E. QA/QC of permit application packages.

Task Deliverables to include:

- a. Copy of each submittal package to the governing agencies.
- b. Copy of written responses to requests for additional information letter from the governing agencies

Task 9 – Construction Phase Services

CONSULTANT will provide professional construction phase services for the purpose of providing assistance to CITY during construction. The following services will be conducted for the project as follows:

- A. *Bid Document Preparation and Contractor Notification.* It has been assumed that this task will be completed by the CITY except for quantity review and verification, should this be requested by the CITY.
- B. *Contract Documents Preparation.* It has been assumed that this task will be completed by the CITY.
- C. *Pre-Construction Conference.* CONSULTANT will attend a Pre-Construction Conference with the CITY and CONTRACTOR prior to commencement of Work at the Site.
- D. *Wire Utilities.* The CITY will contact wire utilities (power, telephone, CATV, and natural gas). CONSULTANT will prepare a composite drawing comprised of road crossing data provided by each of the utility companies. CONSULTANT will also add road crossing data as provided

- by the CITY that pertain to street lighting, irrigation and controls, and entrance features. CONSULTANT will provide the various utilities necessary drawings and AutoCAD disks for their design. This agreement assumes that the CITY will contact and follow-up with each of the wire utilities in order to obtain the required information for the preparation of a crossing plan for the project.
- E. *Construction Progress Meetings.* CONSULTANT'S field representative will attend will attend progress meeting as established by the CITY.
- F. *Visits to Site and Construction Observation.* CONSULTANT will provide on-site construction observation services during the construction phase. CONSULTANT will make visits twice a month, in addition to site visits required for testing, to observe the progress of the duration of the project. Observations will vary depending on the type of work being performed by the CONTRACTORS, the location, and the CONTRACTOR'S schedules.

Such visits and observations by CONSULTANT are not intended to be exhaustive or to extend to every aspect of CONTRACTOR'S work in progress. Observations are to be limited to spot checking, selective measurement, and similar methods of general observation of the Work based on CONSULTANT'S exercise of professional judgment. Based on information obtained during such visits and such observations, CONSULTANT will evaluate whether CONTRACTOR'S work is generally proceeding in accordance with the Contract Documents, and CONSULTANT shall keep CITY informed of the general progress of the Work.

The purpose of CONSULTANT'S visits to the site will be to enable CONSULTANT to better carry out the duties and responsibilities assigned in this Agreement to CONSULTANT during the construction phase by CITY, and, in addition, by the exercise of CONSULTANT'S efforts, to provide CITY a greater degree of confidence that the completed Work will conform in general to the Contract Documents and that the integrity of the design concept of the completed Project as a functioning whole as indicated in the Contract Documents has been implemented and preserved by CONTRACTOR. CONSULTANT shall not, during such visits or as a result of such observations of CONTRACTOR'S work in progress, supervise, direct, or have control over CONTRACTOR'S work, nor shall CONSULTANT have authority over or responsibility for the means, methods, techniques, equipment choice and usage, sequences, schedules, or procedures of construction selected by CONTRACTOR, for safety precautions and programs incident to CONTRACTOR'S work, nor for any failure of CONTRACTOR to comply with laws and regulations applicable to CONTRACTOR'S furnishing and performing the Work. Accordingly, CONSULTANT neither guarantees the performance of any CONTRACTOR nor assumes responsibility for any CONTRACTOR'S failure to furnish and perform its work in accordance with the Contract Documents.

- G. *Shop Drawings and Samples.* CONSULTANT will review and approve or take other appropriate action in respect to Shop Drawings and Samples and other data which CONTRACTOR is required to submit, but only for conformance with the information given in the Contract Documents and compatibility with the design concept of the completed Project

as a functioning whole as indicated in the Contract Documents. Such review and approvals or other action will not extend to accuracy or completeness of details or construction means or methods. CONSULTANT is not responsible for any deviations from the Contract Documents not brought to CONSULTANT'S attention in writing by the CONTRACTOR.

- H. *Clarifications and Interpretations.* CONSULTANT will respond to reasonable and appropriate CONTRACTOR requests for information and issue necessary clarifications and interpretations of the Contract Documents to CITY. Such clarifications and interpretations will be consistent with the intent of the Contract Documents. Field Orders authorizing variations from the requirements of the Contract Documents will be made by CITY. Responses to CONTRACTOR requests for information that are due to an error in the plans or missing information will not be billed under this task to the CITY but rather included with the design effort of the project.
- I. *Inspections and Tests.* CONSULTANT may require such special inspections or tests of CONTRACTOR'S work as the CONSULTANT deems appropriate, and receive and review certificates of inspections within the CONSULTANT'S area of responsibility or of tests and approvals required by laws and regulations or the Contract Documents. The CONSULTANT'S review of such certificates will be for the purpose of determining that the results certified indicate compliance with the Contract Documents and will not constitute an independent evaluation that the content or procedures of such inspections, tests, or approvals comply with the requirements of the Contract Documents. CONSULTANT shall be entitled to rely on the results of such tests and the facts being certified. Any retesting that is required due to initial test failure will be considered and additional service. This Agreement is based on a single site visit for the water main testing, and a single site visit for the sewer system testing, and a single visit for the lift station startup.
- J. *Applications for Payment.* Based on CONSULTANT'S observations and on review of applications for payment and accompanying supporting documentation:

CONSULTANT will determine and recommend to the CITY the amounts that CONTRACTOR be paid. Such recommendations of payment will be in writing and will constitute CONSULTANT'S representation to CITY, based on such observations and review, that, to the best of CONSULTANT'S knowledge, information and belief, CONTRACTOR'S work has progressed to the point indicated, such work-in-progress is generally in accordance with the Contract Documents (subject to an evaluation of the Work as a functioning whole prior to or upon Substantial Completion, to the results of any subsequent tests called for in the Contract Documents, and to any other qualifications stated in the recommendation), and the conditions precedent to CONTRACTOR'S being entitled to such payment appear to have been fulfilled insofar as it is CONSULTANT'S responsibility to so determine. In the case of unit price work, CONSULTANT'S recommendations of payment will include final determinations of quantities and classifications of CONTRACTOR'S work, based on observations and measurements of quantities provided with pay requests.

- By recommending any payment, CONSULTANT shall not thereby be deemed to have represented that observations made by CONSULTANT to check CONTRACTOR'S work as it is performed and furnished have been exhaustive, extended to every aspect of CONTRACTOR'S work in progress, or involved detailed inspections of the Work beyond the responsibilities specifically assigned to CONSULTANT in this Agreement. Neither CONSULTANT'S review of CONTRACTOR'S work for the purposes of recommending payments nor CONSULTANT'S recommendation of any payment including final payment will impose on CONSULTANT responsibility to supervise, direct, or control CONTRACTOR'S work in progress or for the means, methods, techniques, equipment choice and usage, sequences, or procedures of construction of safety precautions or programs incident thereto, nor CONTRACTOR'S compliance with Laws and Regulations applicable to CONTRACTOR'S furnishing and performing the Work. It will also not impose responsibility on CONSULTANT to make any examination to ascertain how or for what purposes CONTRACTOR has used the moneys paid on account of the Contract Price, nor to determine that title to any portion of the work in progress, materials, or equipment has passed to CITY free and clear of any liens, claims, security interests, or encumbrances, nor that there may not be other matters at issue between CITY and CONTRACTOR that might affect the amount that should be paid.
- K. *Record Drawings.* CONSULTANT will review CONTRACTOR'S or CITY'S surveyor's record drawings for compliance to the approved Construction Drawings and applicable regulatory agency standards. Provide Surveyor and or CONTRACTOR with comments on the draft record drawings and one follow up set of comments. Coordinate with Surveyor to receive final sets of record drawings consistent to the requirements of the appropriate regulatory agency. This task includes the initial review and coordination with the surveyor and or CONTRACTOR and follow-up reviews.
- L. *Certification Documents.* Based on the results of the final observations of the site, test reports, record drawings, and other documentation pertinent to the project CONSULTANT will prepare and submit to the appropriate regulatory agency the certificates of completion of construction.
- M. *Change Orders.* CONSULTANT will recommend Change Orders to CITY, as appropriate. CONSULTANT will also review and make recommendations related to Change Orders submitted or proposed by the CONTRACTOR.
- N. *Substitutes and "or-equal."* CONSULTANT will evaluate and determine the acceptability of substitute or "or-equal" materials and equipment proposed by CONTRACTOR in accordance with the Contract Documents, but subject to the provisions of applicable standards of state or local government entities.
- O. *Substantial Completion.* Promptly after notice from CONTRACTOR that CONTRACTOR considers the entire Work ready for its intended use, in company with CITY and CONTRACTOR, CONSULTANT will conduct a site visit to determine if the Work is substantially complete. Work will be considered substantially complete following satisfactory

completion of all items with the exception of those identified on a final punch list. If after considering any objections of CITY, CONSULTANT considers the Work substantially complete; CONSULTANT shall notify CITY and CONTRACTOR.

- P. *Final Notice of Acceptability of the Work.* CONSULTANT will conduct a final site visit to determine if the completed Work of CONTRACTOR is generally in accordance with the Contract Documents and the final punch list so that CONSULTANT may recommend, in writing, final payment to CONTRACTOR. Accompanying the recommendation for final payment, CONSULTANT shall also provide a notice that the Work is generally in accordance with the Contract Documents to the best of CONSULTANT'S knowledge, information, and belief and based on the extent of the services provided by CONSULTANT under this Agreement and based upon information provided to CONSULTANT upon which it is entitled to rely.
- Q. *Limitation of Responsibilities.* CONSULTANT shall not be responsible for the acts or omissions of any CONTRACTOR, or of any of their subcontractors, suppliers, or of any other individual or entity performing or furnishing the Work. CONSULTANT shall not have the authority or responsibility to stop the work of any CONTRACTOR.

Task Deliverables to include:

- a. Copy of electronic bid form and bid package consisting of plans, copies of permits, and book specifications to include measurement and payment sections.
- b. Bid Tabulation Results
- c. Copy of construction progress meeting minutes.
- d. Copy of Permit Certification Packages to the governing agencies.
- e. Record drawing deliverable to the CITY to include:
 - One (1) electronic set of record drawings in "pdf" format.
 - One (1) sets of certified 24"x36"" record drawings;
 - One (1) CD (or flash drive) with record drawing base files, including text fonts, in AutoCAD "dwg

Additional Services

Any services not specifically provided for in the above scope will be considered additional services and can be performed at our then current hourly rates, or for a negotiated fee prior to commencing additional services work. Additional services we can provide include, but are not limited to, the following:

1. Permitting services beyond those outlined in the scope of services above.
2. Additional responses to agency comments, beyond those identified in the scope of services above.
3. Revisions to the plans or preparation of applications for permit modification based on Client requested revisions.

4. Services required by additional governmental regulations, which might be put into effect after the date of this agreement.
5. Public meetings and hearings notices beyond those identified in the scope of services above.
6. Attendance at additional meetings beyond those specified.
7. Comprehensive plan or zoning changes.
8. Transportation/traffic engineering related services, beyond those identified in the scope of services above.
9. Enhanced landscape, hardscape plans or amenity design.
10. Planning, design, or permit applications for off-site improvements.
11. Traffic signal study or design.
12. Archaeological services
13. Preparation of a SWFWMD Water Use Permit for irrigation
14. Post-Construction phase services associated with one or two-year warranty inspections as called for by the client or regulatory agency
15. Interior Design services not otherwise expressly indicated in Scope of Services
16. Furniture selections and procurement
17. LEED consulting and certification services
18. 3D physical presentation model
19. Tide Study to determine Mean High-Water Line elevation
20. Bathymetric Surveying of canals, basins, river
21. Submerged Land Lease Surveys
22. Location of Fishing Pier
23. Soft-dig excavations for location and/or confirmation of underground utilities
24. Sketches and Legal Descriptions for additional street or easement vacations or creations, easements, etc.
25. Subdivision platting
26. Surveying services other than those described above
27. Seawall Inspection for integrity

YELLOW FEVER CREEK PRESERVE

Rev. 7 – 6/26/2019

A. Assumptions / Clarifications

The following list of assumptions are intended to clarify CONSULTANT'S understanding of the Yellow Fever Creek Preserve project:

1. It is assumed that design and construction improvements are to occur on the City of Cape Coral owned parcels (+/- 200 AC). The Lee County owned parcels (+/- 340 AC) will be included in the master plan, but it is not anticipated to be included in the construction documents or permitting based on current Phase 1 Budget.
2. Lee County involvement and coordination for the improvements on their part of the parcel is unknown based on available information at this time, but will need to be defined with the final scope and fee.
3. The site is assumed to not have soil or groundwater contamination, or historical use of landfill, dumping, or hazardous activities.
4. The extension of 24th Avenue is not included in this project and is to be considered a future extension planned beyond the construction of this project. Improvements to vehicular circulation are only to serve access to new parking lots as shown on the concept plan from Del Prado Blvd.
5. Lighting shall be provided in small localized areas around proposed buildings / parking areas for site security only. Lighting of trails not included.
6. Survey limits need to be identified and updated based on final master plan. It is anticipated that the limits of survey will coincide with the final limits of improvements.
7. Due to the adjacent presence of Florida Bonneted Bat colonies on parcel immediately to the north, it will be a federal review requirement to establish the presence of any bat roosts onsite through a site inspection. Acoustical survey can be provided as an additional service.
8. If listed species are found during the initial data collection phase that cannot be avoided, then permit applications to remove/relocation those species will be made to the Florida Fish and Wildlife Conservation Commission (FWC). Those permits could entail flushing and collapsing burrowing owl nests and/or removal of gopher tortoises from the site. Application fees are dependent on the numbers of burrows and type of species and mitigation bank fees also vary. It is expected that the CITY will pay application fees and mitigation bank fees directly if needed.
9. Bald Eagle Nest Surveying will be required due to a new, currently unlisted nest just off the southeast corner of the site. Coordination with USFWS will be likely required to ensure compliance with the Migratory Bird Protection Act. If the eagle nest does have an effect on the project, then coordination with USFWS will be needed to ensure the project does not violate the Bald and Golden Eagle Protection Act or Migratory Bird Treaty Act.

10. ERP permitting will be required for any impacts to jurisdictional wetlands. The design of the park is a Preserve and will entail avoidance of wetland impacts and species to the greatest extent possible. If unavoidable, wetland impacts and associated permitting can be provided as an additional service.
11. Site utilities to be provided by well and septic.
12. Construction and permitting documents exclude Future Phase items as identified on the Opinion of Probable Cost.
13. Final topographic survey limits to be based on approved master plan and Phase 1 implementation.
14. The proposed portion of the park area to be surveyed is located within the lands having the Tax I.D. Numbers of 30-43-24-C2-00004.0020, 29-43-24-C1-00001.0010, 20-43-24-C3-00002.0000 and 28-43- 24-00-00001.0010.
15. This Topographic Survey will only include a portion of the perimeter park boundary and therefore will not be a complete Boundary Survey.

B. Program Elements:

The following program and architectural elements are included in the design and construction documents of the scope of work:

1. Equestrian Trailhead Parking Lot
2. Equestrian Trails
3. Walking Trails
4. Wayfinding and Trail Marking Signage
5. Entry Boulevard Road to Welcome Center and Dog Park Areas.
6. Del Prado Boulevard Modifications for Two (2) Park Entries
7. Welcome Center Parking Lot
8. One (1) Naturalized Stormwater Ponds with Created Wading Bird Habitat
9. 18 Hole Frisbee Golf Course
10. Primitive Camping Area with Camp Sites
11. (4) Shade Pavilions (400 SF ea., prefabricated)

Architectural Elements:

1. Improvements to include the following:
 - Camp ground restrooms (500 SF)
 - (4) Shade Pavilions @ 400 square feet each
 - Welcome/Environmental Center @ 6,000 square feet
 - Exhibit design services are excluded. Signage design will be code minimum.
2. Construction budget for vertical improvements is \$1,700,000.00

C. Existing to Remain (Not Included in Design)

The following existing site elements are understood to remain in place with no modifications (unless specifically noted) and be incorporated into the overall park design:

1. Wetlands and Vegetation (To the greatest extent possible)
2. Existing listed species habitat such as gopher tortoise burrows, burrowing owl locations, Bald Eagle nests, and Bonneted Bat roosts.

SCOPE OF SERVICES OUTLINE

The scope of services outlined below represents the scope and process CONSULTANT will undertake through the design process.

Task 1 - Project Administration and Meetings

- A. Includes project set up, scheduling, status reports, budgeting and invoicing.
- B. Quality assurance / quality control.
- C. Meetings and coordination with sub consultants.
- D. Kick-off meeting
- E. Monthly progress report and meeting with CITY Staff
- F. Quarterly progress report for City Council / public dissemination by CITY.
- G. Misc. correspondence with the CITY, assumed to be one (1) conference call every two weeks to review project status throughout the design process.
- H. Preparation for, and attendance at up to four (4) City Council meetings throughout the design process.
- I. Meetings and coordination with CONTRACTOR (assumed to commence at start of construction documents).

Task Deliverables will include:

- a. Monthly progress update with proposed schedule outlook for upcoming period;
- b. Meeting minutes
- c. Written responses to CITY comments at each design submittal stage via letter or email no later than fourteen (14) calendar days after receiving the comments.

Task 2 – Boundary and Topographic Survey

Prepare a Boundary and Topographic Survey of the above described lands which will include the following tasks:

- A. Recover or re-establish the perimeter boundary corners of the combined parcels described above based on found monumentation, recorded subdivision plats, deeds of record and current title work (the latter two to be provided by the CITY).
- B. Show rights-of-ways and platted easements per the recorded subdivision plats or as shown in current title work to be provided by the CITY.
- C. Locate above ground and visible improvements within the Survey Project Area. This will include buildings, pools/decks, playground areas, shelters, road pavement, curbs, medians, driveways, sidewalks, parking lots (and parking space lines and types), fences, seawalls, docks, street signs, light poles, power poles, drainage swales, drainage structures, culvert pipes, sanitary sewer manholes, fire hydrants, water valves, water meters, telephone and cable service boxes.
- D. The approximate locations of underground utilities will be shown within the existing adjacent roadways based on investigations and markings set by the CONSULTANT'S subsurface utility locating company, based on Electromagnetic and GPR methodologies. Confirmations of these locations by soft-dig excavation methods is not included in this scope but can be provided as an additional service if needed.
- E. Elevations will be obtained for the Survey Project Area on a 50-foot grid and will also include the locations of grade breaks, ditches, swales and other features as needed to reflect the existing terrain. The area 100 feet beyond the Survey Project Area will also be included except for single family lots where only ground elevations and finished floor elevations will be obtained.
- F. Approximately four project control points will be set (and noted on the survey) for use during the construction phase of the project. The horizontal datum to be used for this project is NAD 83 (CORS) and the vertical datum to be used is NGVD 1929
- G. Pipe sizes, materials and invert elevations as measured from manhole openings and catch basins will be obtained when possible (depth of pipes, recessed pipes, lack of access due to covering or excessive debris may sometimes prevent the obtaining of this data).
- H. Locate and show trees 6" or larger in diameter (DBH). Clusters or rows of trees will be located along the perimeter edges.
- I. Obtain cross-sections of existing ponds within the proposed project area.

- J. Locate wetland delineation lines and seasonal high-water table marks (to be set by others).
- K. Provide a signed and sealed Topographic Survey along with an Autocad Drawing file (Civil3D 2018), DTM Surface file and a Point file.
- L. Provide a signed and sealed Sketch and Legal Description of road rights-of-way (number of which to be determined).

Task Deliverables to include:

- a. Signed and sealed copies of the Topographic Survey
- b. AutoCAD drawing file with ground surface contours/TIN in Civil 3D format
- c. Text file of survey data collected showing, Point Number, Northing, Easting, Description, and Elevation

Task 3 – Stakeholder and Community Engagement

- A. Kickoff meeting with CITY to review community engagement process.
- B. Set up and administration of online survey. Prepare a draft on-line survey questionnaire, for use by the CITY to solicit residents' input regarding proposed improvements. Submit the draft to the CITY for review and comment, and revise and resubmit the survey for the CITY'S use. The CITY will host the survey on the CITY'S website, and use social media and other communications to encourage residents to participate.
- C. Focus Group / Interviews (Public Works, Parks and Rec, Emergency Services Stakeholder Meetings; City Council One on One Interviews). CONSULTANT will facilitate up to two (2) contiguous days of interviews and focus group meetings to identify residents' needs and priorities for the park. Meetings and interviews will be scheduled on the hour from 8 am – 12 noon, and 1 pm – 5 pm. The CITY will be responsible for all logistics, including meeting space reservations, participant invitations and confirmations, and scheduling.
- D. Public Workshop: Review and input on existing concept plan.
- E. Development of One (1) alternate concept plan to include digital design vignettes incorporating stakeholder input.
- F. Prepare a preliminary Opinion of Probable Construction Cost (OPCC) for concept plan.
- G. Public Workshop: Present alternate concept plan for public feedback in an open house format.
- H. Refine concept plan into a consolidated final concept plan including 3D model with static images and video fly-through.
- I. Prepare Opinion of Probable Construction Cost (OPCC) final concept plan.

- J. Present final concept plan and OPCC to City Council for approval. Comments on the final concept plan will be incorporated into 30% construction documents.

Task Deliverables to include:

- a. Copy of online survey questionnaire
- b. Summary of online survey results, interviews, and public workshop input.
- c. One (1) electronic alternate concept plan in “pdf” format
- d. One (1) preliminary opinion of probable construction cost for alternate concept plan
- e. 3D model static images.
- f. One (1) electronic set of final concept plan in “pdf” format
- g. One (1) preliminary opinion of probable construction cost for final concept plan

Task 4 – Environmental Due Diligence and Permitting

A. Data Collection

1. Listed species survey. On-site field investigations and surveys will be conducted to look for evidence of listed species utilization. Species of increased concern on this property include gopher tortoises, burrowing owls, and Florida bonneted bats but the site could potentially host several other species as well. Cost includes the field investigations as well as the Listed Species Report. It is important to note that this site has been previously used as a tortoise relocation recipient site, so a thorough population count may need to be established, especially if trying to relocate tortoises out of the development area into other on-site locations. It could potentially still serve as a bank depending the population count, quality of habitat and type of habitat.
2. Florida Bonneted Bat Survey. Lands directly north of this site under conservation are known to having Florida Bonneted Bat colonies, therefore it will likely be a federal review requirement to establish the presence of any bat roosts onsite. The cost provided includes inspection of the site for cavity trees and other potential roosting locations. The listed species survey does not include acoustic monitoring for Florida bonneted bats. FWS may want acoustic surveying conducted if the scope and location of the Preserve improvements (buildings, paths, campsites, boardwalks, etc.) warrant. Cost for the acoustic surveying across the entire project site is provided as an optional service in case it is required by FWS. It is probable that even if the acoustic monitoring is required by FWS, the areal extent of the survey could be limited to the immediate development areas and the provided cost would be adjusted down accordingly.
3. Bald Eagle Nest Surveying. A new bald eagle nest has been built just off the southeast corner of the project on other lands. It is not currently known whether the location of the nest will affect the project in any way, but if any of it lies within the

primary or secondary protection zones then a nesting survey may have to be performed if the proposed park activities could impact the nest. It is also possible that the eagle pair could re-build on the project site if their nest is lost to storms, overtaken by owls or found unsuitable for other reasons. The nest monitoring will also be helpful to establish and deal with any unexpected changes.

4. FLUCFCS Mapping of Existing Conditions using the Florida Land Use Cover Forms Classification System. Map will be required for all future permitting.
5. Jurisdictional Determinations. It is already known that there are both upland and wetland habitats onsite. Their boundaries will be delineated by CONSULTANT, mapped, wetland data sheets will be produced and then requests for state and federal determinations will be made. CONSULTANT will also walk with the agencies onsite to verify the wetland lines.
6. Inspect condition of existing seawall to determine if it has reached or is nearing its life expectancy.

B. Permitting

1. The design of this park as primarily a preserve will entail avoidance of wetland impacts and species to the greatest extent possible. The scope provided is in response to the comments that master planning will be done to avoid all wetland impacts except for potentially stormwater outfalls. The CONSULTANT will provide federal permitting with USACE for a potential Nationwide or Letter of Permission authorization. Costs for a full Individual permit with the USACE as an additional service should the CITY decide to expand the scope of impacts may be provided.
2. Pre-Application Meetings. Once the scope and plan are finalized, CONSULTANT will meet with state and federal agencies, or whichever agencies might be needed for final authorizations along with the engineering and design team.
3. ERP Permitting. CONSULTANT will provide the Environmental supplement needed for the agency applications and assist the design team with the respective agency submittals.
4. Once submitted CONSULTANT will coordinate with appropriate agencies and respond to questions from the various groups (agency and NGO) that comment.
5. Listed Species Permitting. If listed species are found during the initial data collection phase that cannot be avoided, then permit applications to remove/relocation those species will be made to the Florida Fish and Wildlife Conservation Commission (FWC). Those permits could entail flushing and collapsing burrowing owl nests and/or removal of gopher tortoises from the site. Application fees are dependent on the numbers of burrows and type of species and mitigation bank fees also vary. It is

expected that the CITY will pay application fees and mitigation bank fees directly if needed.

6. Bald Eagle Coordination. If the eagle nest does have an effect on the project, then coordination with USFWS will be provided by CONSULTANT to ensure the project does not violate the Bald and Golden Eagle Protection Act or Migratory Bird Treaty Act.

C. Listed Species Physical Relocation

1. Gopher Tortoises. Any tortoise relocation will be conducted either by hand, digging, bucket trapping, or backhoe extraction depending on the number and status of the burrow(s). CONSULTANT'S Gopher Tortoise Agent is certified with FWC in the use of the backhoe for burrow excavation if needed. A single day's rate is estimated assuming there are enough burrows to require a day of labor with a backhoe and two biologists assisting with the manual labor. If there are no burrows requiring relocation, then the fees associated with this work will be zero (\$0).
2. Once the tortoises are collected, CONSULTANT will house them and care for them until they can be transferred to the permitted recipient site. Upon release, CONSULTANT will then close out the FWC tortoise permit with an after-action report.
3. Burrowing Owls. Once it is established that there are no young in the burrow then the adults may be flushed out of the burrow by a biologist and the burrow then will be collapsed. One biologist can perform this task and close the permit out with FWC.
4. Bonneted Bats. Once the new pathways/structures have been staked, any cavity trees to be removed will likely have to be peeped prior to clearing.

Task Deliverables to include:

- a. Copy of each submittal package to the governing agencies.
- b. Copy of written responses to requests for additional information letter from the governing agencies.

Task 5 – Site Civil Due Diligence

- A. Provide coordination with following Governmental Agencies and City departments for design parameters of the Project and pre-application meetings:
 1. City of Cape Coral Fire Department
 2. City of Cape Coral Community Development
 3. City of Cape Coral Public Works

4. City of Cape Coral Utilities
 5. FDEP
 6. FDOH
 7. SFWMD
 8. Lee County
 9. USACOE
- B. Review readily available data pertinent to the project: existing construction plans, existing SFWMD permits, as-built information, and existing utility locates or record drawings, as provided by the CITY.
- C. Site visit to review and document existing conditions.
- D. Zoning review.
- E. Coordinate with Geotech subconsultant for the following geotechnical services:
1. Contact the local underground utility clearance agency prior to beginning the field exploration
 2. Perform SPT test borings for Pond design: The test borings for the pond will be performed at a depth of 25 feet below existing grade surface. The soil samples from the pond test borings will be tested for soil classification, evaluate fill suitability for the project site development. Based on the results for the test borings and soils classification, an estimate of the deep confining layer will be determined. CONSULTANT assumes a scope of twelve (12) SPT borings for the pond areas for each park site.
 3. Perform SPT test borings for Building structures: The test borings for the building structures will be performed to a depth of 20 feet below existing grade surface. The building test borings will be used to evaluate the soils condition, soils classification and soil bearing capacity to support the structures. CONSULTANT assumes a scope of ten (10) borings for the building structures for each park site.
 4. Perform hand augers borings: Hand auger borings will be performed to a depth of 5 feet below existing grades. These borings will be used to evaluate the seasonal high groundwater levels for the pond area for the sites. Hand augers will also be performed for pavement areas to test subgrade soils for pavement section recommendations. CONSULTANT assumes a scope of twenty (20) hand auger borings for pavement areas and seasonal high groundwater evaluation for each park site.

5. Perform Double Ring Infiltrometer Tests: The DRI test is performed in general accordance with ASTM D 3385, "Standard Test Method for Infiltration Rate of Soils in Filed Using Double Ring Infiltrometer". CONSULTANT assumes a scope of four (4) DRI tests for each park site.
6. All boring locations will be backfilled/grouted to grade upon work completion.
7. Visually classify the soil samples at each test interval and place them in clean containers which are labeled for future identification. Groundwater levels will be obtained in the boring upon initial encounter.
8. The soil samples will be transported for visual classification testing, and to evaluate the pertinent engineering properties. At the completion of the field and laboratory testing services we will prepare a report under the direction of a registered professional engineer which contains the following information at a minimum:
 - Soil boring logs and visual soil classifications
 - Existing groundwater levels
 - Estimated seasonal high groundwater level
 - Settlement estimates, total and differential
 - Foundation recommendations and soil bearing capacity
 - Site preparation recommendations
 - DRI test results
 - Laboratory testing results
 - Pavement Recommendations

F. Coordinate with SUE subconsultant to obtain existing utility locations and depths.

G. Traffic Analysis (internal to project site and external to adjacent streets).

Task Deliverables to include:

- a. Summary report indicating data found including source and date of information.
- b. Two (2) copies of geotech report.

Task 6 – Site Construction Documents

A. Schematic Design (30%) Plan Package

1. Preparation of 30% plans based on the approved final concept plan. The 30% plan set will be utilized on the initial permit submittals for USACE permitting.
2. Attendance at a site visit to observe and confirm existing conditions and design assumptions.

3. 30% Plans will include Preliminary Landscape and Hardscape Plans with appropriate design studies/enlargements and site feature selections/cut sheets; Preliminary Master Site Plan; Preliminary Master Paving, Grading and Drainage Plans; and Preliminary Utility Plan.
 4. The 30% plans will incorporate parking layout; locations of proposed site features; ingress/egress into the park; locations of buildings and other structures; alignment of sidewalks and pathways; and other hardscape/landscape features.
 5. Specifications will be provided as notes on plans. Written specification book not included.
 6. Preparation of preliminary drainage calculations to establish pre/post conditions, location of storm water management facilities, and storm pipe layout.
 7. Design and sizing of an on-site septic system.
 8. Confirm location of existing utilities and capacity to serve the site. Prepare preliminary calculations for water and sewer demands for the project.
 9. Confirm design and permitting requirements for the utility services to the park.
 10. Confirm design and permitting requirements for the storm water treatment, attenuation, and incorporation where possible of Low Impact Design (LID) practices for the park.
 11. Incorporation of zoning, tree preservation, and environmental constraints for the park.
 12. Attendance at pre-application meetings with governing agencies.
 13. Preparation of an Engineer's Opinion of Probable Construction Cost (EOPC) based on the 30% plans.
 14. QA/QC of 30% plans and EOPC.
- B. Design Development (60%) Plan Package**
1. Preparation of 60% plans based on CITY comments during the 30% plan review process. The 60% plan set will be utilized on the initial permit submittals to the governing agencies.
 2. 60% plans will include the following sheets: Existing Conditions, Site plan, Paving Grading and Drainage Plans, Storm Water Management Facility Plans and details, Utility Plans, Best Management Practices Plans and details, Pavement Marking and Signage Plans, Lighting Plans and details, Landscape and Hardscape Plans and details; Tree mitigation plans; Schematic irrigation plans.

3. Preliminary Drainage Calculations modified per any modifications from the 30% plans.
 4. Utility Pipe Routing adjusted per any modifications from the 30% plans; including septic field.
 5. Preparation of an EOPC based on the 60% plans.
 6. QA/QC of 60% plans and EOPC.
- C. Final Plans Package
1. Preparation of 100% plans based on the 60% plans, CITY comments during the 60% plan review process and any remaining comments from the governing agencies.
 2. Establishment of finalized quantities, and bid proposal form.
 3. Constructability review of plans.
 4. CITY coordination.
 5. Preparation of final specifications including CITY front-end contract documents.
 6. Preparation of final EOPC.
 7. QA/QC of final 100% plans package and EOPC.

Task Deliverables

CONSULTANT shall provide the following deliverables to the CITY during the design and permitting phase:

- A. Preliminary Design (30%)
 1. One (1) electronic set of construction documents in "pdf" format
 2. Two (2) 24"x36" sets of construction documents
 3. One (1) 30% opinion of probable construction cost with bid quantities
- B. Intermediate Design (60%)
 1. One (1) electronic set of construction documents in "pdf" format
 2. Two (2) 24"x36" sets of construction documents
 3. One (1) electronic set of outline specifications in "pdf" format
 4. One (1) updated opinion of probable construction cost with bid quantities
- C. Final Design (100%)

1. One (1) electronic set of construction documents for permitting and bidding.
2. Two (2) sets of Signed and Sealed 24"x36" construction documents
3. One (1) electronic set of specifications in "pdf" format
4. One (1) final opinion of probable construction cost with bid quantities

Task 7 - Architectural Design, Construction Plans, Permitting and Coordination

CONSULTANT to provide professional architectural design services as described in the following phases. Each phase shall be approved by the CITY in writing prior to beginning the next phase of work. CONSULTANT'S services include the following engineering consultant services for the vertical construction only.

A. Structural Engineering

1. Structural Engineering services will be performed as part of the phases outlined below for vertical construction. Structural Engineering scope to include:
 - a. Foundation plans and load bearing component design
 - b. Floor and roof framing plans
 - c. Structural member sizing and type of construction
 - d. Footing inverts and top of wall and/or steel elevations
 - e. Technical specifications

B. Mechanical, Electrical, Plumbing & Fire Protection Engineering (MEPFP)

1. MEPFP Engineering services will be performed as part of the phases outlined below. MEPFP Engineering scope to include:
2. Mechanical scope:
 - a. Floor plans showing all ductwork and piping layouts
 - b. Equipment room layouts and sizes of ductwork
 - c. Fixtures and equipment selection and schedule
 - d. Controls systems selection
 - e. Technical specifications
3. Electrical scope:
 - a. Electrical distribution plans and riser diagrams
 - b. Fixtures and equipment schedules
 - c. Lighting plans
 - d. Electrical equipment room layouts
 - e. System details and location of receptacles and fixed appliances
 - f. Technical specifications
4. Plumbing scope:
 - a. Plumbing plans, fixtures and locations
 - b. Hot and cold-water generation systems
 - c. Sanitary system design (to 5' outside building)
 - d. Plumbing isometric diagrams
5. Fire Protection scope:
 - a. Fire suppression system and/or specification design where required by code.
 - b. Fire Alarm system design where required by code.

A. SCHEMATIC DESIGN (30%)

1. CONSULTANT shall review the program and other information furnished by the CITY, and shall review codes and regulations applicable to CONSULTANT'S services.
2. CONSULTANT shall prepare a preliminary evaluation of the CITY'S program, schedule, budget, site, and the proposed procurement or delivery method, and other initial information, to ascertain the requirements of the project. CONSULTANT shall notify the CITY of (1) any inconsistencies discovered in the information, and (2) other information or consulting services that may be reasonably needed for the Project.
3. CONSULTANT shall present its preliminary evaluation to the CITY and shall discuss with the CITY alternative approaches to design and construction. CONSULTANT shall reach an understanding with the CITY regarding the requirements of the project.
4. Based on the Project's requirements agreed upon with the CITY, CONSULTANT shall prepare and present for the CITY approval a preliminary design illustrating the scale and relationship of the Project components.
5. Based on the CITY'S approval of the preliminary design, CONSULTANT shall prepare Schematic Design Documents for the CITY'S approval. The Schematic Design Documents shall consist of drawings and other documents including a site plan, if appropriate, and preliminary building plans, section and elevations; and may include some combination of study models, perspective sketches, or digital modeling. Preliminary narrative selections of major building systems and construction materials shall be noted on the drawings or described in writing.
6. CONSULTANT shall submit the Schematic Design Documents to the CITY, and request the CITY'S approval.
7. CONSULTANT will attend (1) stakeholder engagement meeting.
8. During Schematic Design Phase, CONSULTANT will attend (1) on-site design meeting per month. Additional design meetings will be attended via web or conference call.

B. DESIGN DEVELOPMENT (60%)

1. Based on the CITY'S approval of the Schematic Design Documents, and on the CITY'S authorization of any adjustments in the Project requirements and the budget for the Cost of the Work, CONSULTANT shall prepare Design Development Documents for the CITY'S approval.
2. The Design Development Documents shall illustrate and describe the development of the approved Schematic Design Documents and shall consist of drawings and other documents

- including plans, sections, elevations, typical construction details, and diagrammatic layouts of building systems to fix and describe the size and character of the Project as to architectural, structural, mechanical and electrical systems, and such other elements as may be appropriate. The Design Development Documents shall also include outline specifications that identify major materials and systems and establish in general their quality levels.
3. CONSULTANT will submit the Design Development Documents to the CITY and request the CITY'S approval.
 4. During Design Development Phase, CONSULTANT will attend (1) on-site design meeting per month. Additional design meetings will be attended via web or conference call.
- C. CONSTRUCTION DOCUMENTS (Final Plans Package, 100%)
1. Based on the CITY'S approval of the Design Development Documents, and on the CITY'S authorization of any adjustments in the Project requirements and the budget for the Cost of the Work, CONSULTANT shall prepare Construction Documents for the CITY'S approval.
 2. The Construction Documents shall illustrate and describe the further development of the approved Design Development Documents and shall consist of Drawings and Specifications setting forth in detail the quality levels of materials and systems and other requirements for the construction of the work, in a manner consistent with locally accepted standards for professional skill and care.
 3. CONSULTANT will incorporate into the Construction Documents the design requirements of governmental authorities having jurisdiction over the Project.
 4. The CITY and CONSULTANT acknowledge that in order to construct the Work the CONTRACTOR will provide additional information, including Shop Drawings, Product Data, Samples and other similar submittals, which CONSULTANT shall review in accordance with the Construction Administration Phase outlined below.
 5. The CONSULTANT will submit the Construction Documents to the CITY and request the CITY'S approval.
 6. During Construction Document Phase, CONSULTANT will attend (1) on-site design meeting per month. Additional design meetings will be attended via web or conference call.
- D. BIDDING AND PERMITTING
1. Based upon CITY'S approval of the Construction Documents, provide permitting assistance necessary (unless specifically excluded below) to achieve signed/sealed drawings ready for the CONTRACTOR'S bidding process and/or construction.
 2. Submission of Construction Documents to applicable agencies for permit processing [OR, submit to CONTRACTOR for submission to applicable agencies for permit processing].

3. Answer review questions required by permitting agencies and CONTRACTOR Assembly of addenda material and information as may be required to clarify issues.
4. Assist the CITY and CONTRACTOR in bid evaluation, as requested.

E. CONSTRUCTION ADMINISTRATION

1. Monthly site visits during construction to determine, in general, if the work observed is being performed in a manner that, when completed, will be in accordance with the contract documents. Agreement includes a total of (18) site visits during construction. Additional requested site visits will be billed as Additional Services.
2. Review and respond to CONTRACTOR requests for information (RFIs) and Submittals during construction.
3. Review CONTRACTOR Certificates for Payment.
4. At Project Completion, review Punch List prepared by CONTRACTOR and issue Certificate of Substantial Completion when appropriate.
5. Certify a final Certificate for Payment based upon a final site visit indicating the work complies with the requirements of the contract documents.

Task Deliverables

CONSULTANT shall provide the following deliverables to the CITY during the design and permitting phase:

- A. Schematic Design (30%)
 1. One (1) electronic set of construction documents in "pdf" format
 2. Two (2) 24"x36" sets of construction documents
 3. One (1) 30% opinion of probable construction cost with bid quantities
- B. Design Development (60%)
 1. One (1) electronic set of construction documents in "pdf" format
 2. Two (2) 24"x36" sets of construction documents
 3. One (1) electronic set of outline specifications in "pdf" format
 4. One (1) updated opinion of probable construction cost with bid quantities
- C. Construction Documents (100%)
 1. One (1) electronic set of construction documents for permitting and bidding.

2. Two (2) sets of Signed and Sealed 24"x36" construction documents
3. One (1) electronic set of specifications in "pdf" format
4. One (1) final opinion of probable construction cost with bid quantities

Task 8 – Site/Civil Permit Application Packages

- A. Preparation of the required plans, applications, and supporting documents for submittal to the following agencies:
 1. City Site Development Permit
 2. South Florida Water Management District (SWFWMD)
 - Environmental Resource Permit (ERP)
 - Irrigation Water Use
 - Construction Dewatering
 3. Florida Department of Environmental Protection (FDEP)
 - Water
 - Sewer
 4. National Pollutant Discharge Elimination System (NPDES)
- B. Respond to requests for information (RAI) from the governing agencies.
- C. Scheduling and attendance at follow up meetings with agency reviewers to clarify comments.
- D. Preparation of revised plans, response letters, and resubmittal packages.
- E. QA/QC of permit application packages.

Task Deliverables to include:

- a. Copy of each submittal package to the governing agencies.
- b. Copy of written responses to requests for additional information letter from the governing agencies

Task 9 – Construction Phase Services

CONSULTANT will provide professional construction phase services for the purpose of providing assistance to CITY during construction. The following services will be conducted for the project as follows:

- A. *Bid Document Preparation and Contractor Notification.* It has been assumed that this task will be completed by the CITY except for quantity review and verification, should this be requested by the CITY.
- B. *Contract Documents Preparation.* It has been assumed that this task will be completed by the CITY.
- C. *Pre-Construction Conference.* CONSULTANT will attend a Pre-Construction Conference with the CITY and CONTRACTOR prior to commencement of Work at the Site.
- D. *Wire Utilities.* The CITY will contact wire utilities (power, telephone, CATV, and natural gas). CONSULTANT will prepare a composite drawing comprised of road crossing data provided by each of the utility companies. CONSULTANT will also add road crossing data as provided by the CITY that pertain to street lighting, irrigation and controls, and entrance features. CONSULTANT will provide the various utilities necessary drawings and AutoCAD disks for their design. This agreement assumes that the CITY will contact and follow-up with each of the wire utilities in order to obtain the required information for the preparation of a crossing plan for the project.
- E. *Construction Progress Meetings.* CONSULTANT'S field representative will attend will attend progress meeting as established by the CITY.
- F. *Visits to Site and Construction Observation.* CONSULTANT will provide on-site construction observation services during the construction phase. CONSULTANT will make visits twice a month, in addition to site visits required for testing, to observe the progress of the duration of the project. Observations will vary depending on the type of work being performed by the CONTRACTORS, the location, and the CONTRACTOR'S schedules.

Such visits and observations by CONSULTANT are not intended to be exhaustive or to extend to every aspect of CONTRACTOR'S work in progress. Observations are to be limited to spot checking, selective measurement, and similar methods of general observation of the Work based on CONSULTANT'S exercise of professional judgment. Based on information obtained during such visits and such observations, CONSULTANT will evaluate whether CONTRACTOR'S work is generally proceeding in accordance with the Contract Documents, and CONSULTANT shall keep CITY informed of the general progress of the Work.

The purpose of CONSULTANT'S visits to the site will be to enable CONSULTANT to better carry out the duties and responsibilities assigned in this Agreement to CONSULTANT during the construction phase by CITY, and, in addition, by the exercise of CONSULTANT'S efforts, to provide CITY a greater degree of confidence that the completed Work will conform in general to the Contract Documents and that the integrity of the design concept of the completed Project as a functioning whole as indicated in the Contract Documents has been implemented and preserved by CONTRACTOR. CONSULTANT shall not, during such visits or as a result of such observations of CONTRACTOR'S work in progress, supervise, direct,

- or have control over CONTRACTOR'S work, nor shall CONSULTANT have authority over or responsibility for the means, methods, techniques, equipment choice and usage, sequences, schedules, or procedures of construction selected by CONTRACTOR, for safety precautions and programs incident to CONTRACTOR'S work, nor for any failure of CONTRACTOR to comply with laws and regulations applicable to CONTRACTOR'S furnishing and performing the Work. Accordingly, CONSULTANT neither guarantees the performance of any CONTRACTOR nor assumes responsibility for any CONTRACTOR'S failure to furnish and perform its work in accordance with the Contract Documents.
- G. *Shop Drawings and Samples.* CONSULTANT will review and approve or take other appropriate action in respect to Shop Drawings and Samples and other data which CONTRACTOR is required to submit, but only for conformance with the information given in the Contract Documents and compatibility with the design concept of the completed Project as a functioning whole as indicated in the Contract Documents. Such review and approvals or other action will not extend to accuracy or completeness of details or construction means or methods. CONSULTANT is not responsible for any deviations from the Contract Documents not brought to CONSULTANT'S attention in writing by the CONTRACTOR.
- H. *Clarifications and Interpretations.* CONSULTANT will respond to reasonable and appropriate CONTRACTOR requests for information and issue necessary clarifications and interpretations of the Contract Documents to CITY. Such clarifications and interpretations will be consistent with the intent of the Contract Documents. Field Orders authorizing variations from the requirements of the Contract Documents will be made by CITY. Responses to CONTRACTOR requests for information that are due to an error in the plans or missing information will not be billed under this task to the CITY but rather included with the design effort of the project.
- I. *Inspections and Tests.* CONSULTANT may require such special inspections or tests of CONTRACTOR'S work as the CONSULTANT deems appropriate, and receive and review certificates of inspections within the CONSULTANT'S area of responsibility or of tests and approvals required by laws and regulations or the Contract Documents. The CONSULTANT'S review of such certificates will be for the purpose of determining that the results certified indicate compliance with the Contract Documents and will not constitute an independent evaluation that the content or procedures of such inspections, tests, or approvals comply with the requirements of the Contract Documents. CONSULTANT shall be entitled to rely on the results of such tests and the facts being certified. Any retesting that is required due to initial test failure will be considered additional service. This Agreement is based on a single site visit for the water main testing, and a single site visit for the sewer system testing, and a single visit for the lift station startup.
- J. *Applications for Payment.* Based on CONSULTANT'S observations and on review of applications for payment and accompanying supporting documentation:

CONSULTANT will determine and recommend to the CITY the amounts that CONTRACTOR be paid. Such recommendations of payment will be in writing and will constitute CONSULTANT'S representation to CITY, based on such observations and review, that, to the best of CONSULTANT'S knowledge, information and belief, CONTRACTOR'S work has progressed to the point indicated, such work-in-progress is generally in accordance with the Contract Documents (subject to an evaluation of the Work as a functioning whole prior to or upon Substantial Completion, to the results of any subsequent tests called for in the Contract Documents, and to any other qualifications stated in the recommendation), and the conditions precedent to CONTRACTOR'S being entitled to such payment appear to have been fulfilled insofar as it is CONSULTANT'S responsibility to so determine. In the case of unit price work, CONSULTANT'S recommendations of payment will include final determinations of quantities and classifications of CONTRACTOR'S work, based on observations and measurements of quantities provided with pay requests.

By recommending any payment, CONSULTANT shall not thereby be deemed to have represented that observations made by CONSULTANT to check CONTRACTOR'S work as it is performed and furnished have been exhaustive, extended to every aspect of CONTRACTOR'S work in progress, or involved detailed inspections of the Work beyond the responsibilities specifically assigned to CONSULTANT in this Agreement. Neither CONSULTANT'S review of CONTRACTOR'S work for the purposes of recommending payments nor CONSULTANT'S recommendation of any payment including final payment will impose on CONSULTANT responsibility to supervise, direct, or control CONTRACTOR'S work in progress or for the means, methods, techniques, equipment choice and usage, sequences, or procedures of construction of safety precautions or programs incident thereto, nor CONTRACTOR'S compliance with Laws and Regulations applicable to CONTRACTOR'S furnishing and performing the Work. It will also not impose responsibility on CONSULTANT to make any examination to ascertain how or for what purposes CONTRACTOR has used the moneys paid on account of the Contract Price, nor to determine that title to any portion of the work in progress, materials, or equipment has passed to CITY free and clear of any liens, claims, security interests, or encumbrances, nor that there may not be other matters at issue between CITY and CONTRACTOR that might affect the amount that should be paid.

- K. *Record Drawings.* CONSULTANT will review CONTRACTOR'S or CITY'S surveyor's record drawings for compliance to the approved Construction Drawings and applicable regulatory agency standards. Provide Surveyor and or CONTRACTOR with comments on the draft record drawings and one follow up set of comments. Coordinate with Surveyor to receive final sets of record drawings consistent to the requirements of the appropriate regulatory agency. This task includes the initial review and coordination with the surveyor and or CONTRACTOR and follow-up reviews.
- L. *Certification Documents.* Based on the results of the final observations of the site, test reports, record drawings, and other documentation pertinent to the project CONSULTANT will

prepare and submit to the appropriate regulatory agency the certificates of completion of construction.

- M. *Change Orders.* CONSULTANT will recommend Change Orders to CITY, as appropriate. CONSULTANT will also review and make recommendations related to Change Orders submitted or proposed by the CONTRACTOR.
- N. *Substitutes and "or-equal."* CONSULTANT will evaluate and determine the acceptability of substitute or "or-equal" materials and equipment proposed by CONTRACTOR in accordance with the Contract Documents, but subject to the provisions of applicable standards of state or local government entities.
- O. *Substantial Completion.* Promptly after notice from CONTRACTOR that CONTRACTOR considers the entire Work ready for its intended use, in company with CITY and CONTRACTOR, CONSULTANT will conduct a site visit to determine if the Work is substantially complete. Work will be considered substantially complete following satisfactory completion of all items with the exception of those identified on a final punch list. If after considering any objections of CITY, CONSULTANT considers the Work substantially complete; CONSULTANT shall notify CITY and CONTRACTOR.
- P. *Final Notice of Acceptability of the Work.* CONSULTANT will conduct a final site visit to determine if the completed Work of CONTRACTOR is generally in accordance with the Contract Documents and the final punch list so that CONSULTANT may recommend, in writing, final payment to CONTRACTOR. Accompanying the recommendation for final payment, CONSULTANT shall also provide a notice that the Work is generally in accordance with the Contract Documents to the best of CONSULTANT'S knowledge, information, and belief and based on the extent of the services provided by CONSULTANT under this Agreement and based upon information provided to CONSULTANT upon which it is entitled to rely.
- Q. *Limitation of Responsibilities.* CONSULTANT shall not be responsible for the acts or omissions of any CONTRACTOR, or of any of their subcontractors, suppliers, or of any other individual or entity performing or furnishing the Work. CONSULTANT shall not have the authority or responsibility to stop the work of any CONTRACTOR.

Task Deliverables to include:

- a. Copy of electronic bid form and bid package consisting of plans, copies of permits, and book specifications to include measurement and payment sections.
- b. Bid Tabulation Results
- c. Copy of construction progress meeting minutes.
- d. Copy of Permit Certification Packages to the governing agencies.
- e. Record drawing deliverable to the CITY to include:
 - One (1) electronic set of record drawings in "pdf" format.

- One (1) sets of certified 24"x36"" record drawings;
- One (1) CD (or flash drive) with record drawing base files, including text fonts, in AutoCAD ".dwg"

Additional Services

Any services not specifically provided for in the above scope will be considered additional services and can be performed at our then current hourly rates, or for a negotiated fee prior to commencing additional services work. Additional services we can provide include, but are not limited to, the following:

1. Permitting services beyond those outlined in the scope of services above.
2. Additional responses to agency comments, beyond those identified in the scope of services above.
3. Revisions to the plans or preparation of applications for permit modification based on Client requested revisions.
4. Services required by additional governmental regulations, which might be put into effect after the date of this agreement.
5. Public meetings and hearings notices, beyond those identified in the scope of services above.
6. Attendance at additional meetings beyond those specified.
7. Comprehensive plan or zoning changes.
8. Transportation/traffic engineering related services, beyond those identified in the scope of services above.
9. Enhanced landscape, hardscape plans or amenity design.
10. Planning, design, or permit applications for off-site improvements, beyond those identified in the scope of services above.
11. Traffic signal study or design.
12. Archaeological services
13. Preparation of a SFWMD Water Use Permit for irrigation
14. Construction phase services associated with one or two-year warranty inspections as called for by the client or regulatory agency
15. Interior Design services not otherwise expressly indicated in Scope of Services
16. Furniture selections and procurement
17. LEED consulting and certification services
18. 3D physical presentation model
19. Tide Study to determine Mean High-Water Line elevation
20. Bathymetric Surveying of canals, basins, river
21. Submerged Land Lease Surveys

22. Location of Fishing Pier
23. Soft-dig excavations for location and/or confirmation of underground utilities
24. Sketches and Legal Descriptions for additional street or easement vacations or creations, easements, etc.
25. Subdivision platting
26. Surveying services other than those described above
27. Seawall Inspection for integrity

Reimbursables		\$22,000.00	\$22,000.00	\$22,000.00	\$22,000.00	\$88,000.00
Total Not-to-Exceed Fee for 4 Community Parks		\$523,158.03	\$1,397,879.14	\$660,450.00	\$622,589.07	\$3,204,076.24
<p>Note: Optional Services totaling \$140,105 for surveying services are included in the summary fee. These fees will be expended only at the City's request.</p>						

EXHIBIT ‘H’

Title Classifications

DESIGN OF NEIGHBORHOOD & COMMUNITY PARKS: TITLE CLASSIFICATIONS

Classification	Min Yrs. Exp.	License Requirements	Role Synopsis and Progression
Engineer 1	0	BS or BA & EIT or PE Required	Entry level, EIT Certification with BS degree. Performs calculations and design tasks under immediate and daily supervision.
Engineer 2	3	BS or BA & EIT or PE Required	Typically has 3-5 years of experience. Trusted developing engineer, preparing for PE registration. Capable of performing tasks with general guidance and minimal supervision.
Project Engineer 1	5	BS or BA & PE Required	Newly registered PE and/or has PHD, taking leadership and ownership of projects or significant project tasks. Responsible for direct client interface on questions of technical nature. Heavily relied on by Project Manager. Limited project management responsibilities on small projects.
Project Engineer 2	10	BS or BA & PE Required	Has significant coordination responsibility for large project tasks and/or various engineering disciplines.
Sr. Engineer 1	15	BS or BA & PE Required	Relied on for design team leadership & QA on complex projects. May be designated as the Project Manager on less complex projects.
Sr. Engineer 2	20	BS or BA & PE Required	Typically, responsible for the most complex technical designs and has QA oversight for the entire project. Provides a higher level of expertise in specialized areas.
Sr. Engineer 3	25	BS or BA & PE Required	Considered a regional expert in a specialized discipline of engineering. Provides highest level of QA/QC and engineering design leadership for the most complex projects.
Sr. Project Manager	15	BS or BA & PE or PG Required	Primary interface with client. Entrusted to function independently on behalf of firm with regard to contracts, change orders, business development with existing and new clients, critical decisions and negotiations with clients. Coordinating and leading project teams. Clients see as a preferred point of contact.
Architect	10	BS or BA & AIA Registration Req.	Typically has 10 years or more experience, licensed architect with diverse knowledge of architecture principles and practices. Responsible for finished plans, specifications and material approvals. Is also responsible for large project tasks and/or deliverables. May supervise a small staff of architects and technicians.
Construction Administrator	8	High School or GED; Associates degree preferred	Responsible for handling and organizing administrative documentation associated with construction services. Responsible for reviewing status of construction services being provided against timelines and schedules.

Classification	Min Yrs. Exp.	License Requirements	Role Synopsis and Progression
Construction Project Representative 1	5	High School or GED	With routine supervision, evaluates construction projects. Determines compliance with building codes, ordinances, zoning regulations and contract specifications.
Construction Project Representative 2	10	High School or GED	Evaluates construction projects to determine compliance with building codes, ordinances, zoning regulations and contract specifications. Works with less on-site supervision, however, reports directly to a more experienced construction project representative.
Construction Manager 1	15	High School or GED	Responsible for supervision of construction project representatives on large scale projects. Duties may also include training and mentoring, balancing workload and making project recommendations.
Construction Manager 2	20	High School or GED	Responsible for supervision of construction project representatives on large scale projects. Duties may also include training and mentoring, balancing workload and making project recommendations. Has more senior experience than a Construction Manager 1.
Survey Technician	2	High School or GED	Rodman or surveying capable of performing with less detailed instruction. Works under the direction of a survey crew chief.
Survey Crew Chief	5	High School or GED	Supervisor of survey crew working under the direction of a Licensed Surveyor.
Sr. Land Surveyor	10	PLS Required	Must be licensed Land Surveyor in the State of Florida; Involved in survey data/drawings production process under guidance of engineers or more senior survey staff. Provides Survey Leadership to Technicians, CAD staff, and or less experienced Surveyors for production of survey data/drawings for clients. Responsible for QA/QC of own work and work of others.
Sr. CAD Designer	10	High School or GED; Associates Degree Preferred	Performs many of the less complex tasks typically performed by engineers/architects with significant independence; typically spending 70% of the time actually designing for engineer/architect's approval; designs at a level comparable to an experienced EIT or non-licensed architect; works with clients and consultants to ensure that deliverables will be properly formatted and all data can be exchanged efficiently. Prepares complete set(s) of complex drawings.

Classification	Min Yrs. Exp.	License Requirements	Role Synopsis and Progression
CAD Technician 1	2	High School or GED	Performs standard CAD assigned duties. Performs some more advanced CAD duties as part of training and development. Resolves routine questions and problems and defers more complex issues to higher levels.
CAD Technician 2	5	High School or GED; Associates preferred	Edits to plan sheets are more advanced, yet still supervised; produces exhibits, details and maps from concept drawings or sketches, performs unsupervised simple calculations; more advanced calculations are supervised; detailed instruction provided only on new work assignments; begins to get non-routine assignments; able to recognize gaps in knowledge and proactively seeks guidance. Duties and tasks are frequently non-routine. Resolves most questions and problems and refers only the most complex issues to higher level.
Project Administrator	8	High School or GED; Associates preferred	Integrated with the technical production process and is relied on to understand the needs of the project team and apply skill set to areas of need without instructed to do so.
Project Analyst	5	High School or GED Associates preferred	Typically, responsible for an accounting process such as Accounts Payable or Accounts Receivable.
Scientist	3	BS or BA Required	Trusted "junior" scientist. Becoming a relied upon resource for technical work product.
Sr. Scientist 1	5	BS or BA Required	Takes on leadership and ownership of projects or significant project tasks and deliverables. Management comfortable with employee having direct client interface. Heavily relied on by Project Manager.
Sr. Scientist 2	10	BS or BA Required	Clearly understands/grasps the implications of scientific findings and their relationship to engineering solutions.
Project Manager	10	BS or BA & PE or PG Required	Coordinates and leads project teams. Demonstrates high level of competency in project accounting. Functions independently with regard to contracts and change orders.
Operations Manager	20	BS or BA & PE Required	Responsible for ensuring project quality and client satisfaction with specific geographic, client and/or market sectors. Coordinates with and/or supervises project managers or other professionals performing work within the programs.

Classification	Min Yrs. Exp.	License Requirements	Role Synopsis and Progression
GIS Specialist I	0-3	High School or GED; A.A.S. preferred in GIS or other related technical field of study	Performs skilled digital mapping involving preparation and maintenance of digital maps, converting hand drawn maps into a digital format for use in a Geographic Information System (GIS), managing data in such a way that historical records will reflect changes; ArcGIS experience including but not limited to constructing polygons using coordination geometry, heads up digitizing over imagery, mixed project creation, use and manipulation of geodatabases.
GIS Specialist II	3-5	High School or GED; A.A.S. in GIS or other related technical field of study and plus 3-5 years of experience	Performs all of the duties of a GIS Specialist I with less guidance and supervision, plus: the ability to perform more advanced editing functions and query related operations; performs more of a supervision/mentor role to those in the position of GIS Specialist I.
Sr. GIS Analyst	6	BS or PA plus 6 years if no degree, 8 years of experience	4-year degree (or equivalent combination of education and experience) that includes GIS coursework with typically 6+ years of experience, including responsible ownership of GIS projects or significant tasks. Has strong understanding of GIS methodologies and GIS technology. Able to mentor and supervise other GIS analysts and review and direct their work.
I&C Project Manager	5	BS or BA & PE or if no degree 5 years of experience in related field	Coordinates and leads project teams. Demonstrates high level of competency in project accounting. Functions independently with regard to contracts and change orders. Has knowledge of industrial control systems or motor control centers or security/surveillance systems or power generating equipment.
I&C Engineer 3	3	BS or BA & PE Required	Typically has 3-5 years of experience. Trusted developing engineer. Capable of performing tasks with general guidance and minimal supervision. Has knowledge of industrial control systems or motor control centers or security/surveillance systems.
I&C Sr CAD Designer	5	High School or GED; Associates Preferred	Performs many of the less complex tasks typically performed by engineers with significant independence; typically spending 70% of the time actually designing for engineer approval; works with clients and consultants to ensure that deliveries will be properly formatted, and that data can be exchanged efficiently; prepare complete sets of complex drawings.

Classification	Min Yrs. Exp.	License Requirements	Role Synopsis and Progression
I&C Field Engineer	5	BS or PA plus 6 years if no degree, 8 years of experience	Responsible for installation and/or maintenance of industrial control systems, analytic systems, high power equipment, electronic surveillance and access control. Coordinates with city personnel and contractors to perform work outlined in contracts.
* Hydrogeologist 1	0-3	BS or BA Required	Entry level with BS degree. Performs calculations and design tasks under immediate and daily supervision.
Hydrogeologist 2	3	BS or BA & preparing for PG	Typically has 3-5 years of experience. Trusted developing engineer, preparing for PG registration. Capable of performing tasks with general guidance and minimal supervision.
* Project Scientist 1	5	BS or BA & PG Required	Newly registered PG and/or has PHD, taking leadership and ownership of projects or significant project tasks. Responsible for direct client interface on questions of technical nature. Heavily relied on by Project Manager. Limited project management responsibilities on small projects.
* Project Scientist 2	10	BS or BA & PG Required	Has significant coordination responsibilities for large project tasks and deliverables for various engineering disciplines.
* Sr. Hydrogeologist 1	15	BS or BA & PG Required	Relied on for design team leadership & QA on complex projects. May be designated as the project Manager on less complex projects.
* Sr. Hydrogeologist 2	20	BS or BA & PG Required	Typically has responsibility for the most complex technical designs and has QA oversight for the work project. Provides higher level expertise in specialized areas.
* Sr. Hydrogeologist 3	25	BS or BA & PG Required	Considered a regional expert in a specified discipline of engineering. Provides highest level of QA/QC and engineering design leadership for the most complex projects.
Surface/Ground Water Hydrogeologist	3	BS or BA & PG or PE	Typically has 3-5 years of experience. Trusted developing engineer, registered as PG or PE. Has specialized experience in integrated surface/ground water modeling. Capable of performing tasks with general guidance and minimal supervision.
* Sr. Surface/Ground Water Hydrogeologist 1	15	MS & PG or PE Required	Relied on for design team leadership & QA on complex projects. Has specialized experience in integrated surface/ground water modeling. May be designated as the project Manager on less complex projects.
* Sr. Surface/Ground Water Hydrogeologist 2	20	MS & PG or PE Required	Typically has responsibility for the most complex technical designs and has QA oversight for the work project. Has specialized experience in integrated surface/ground water modeling. Provides higher level expertise in specialized areas.

Classification	Min Yrs. Exp.	License Requirements	Role Synopsis and Progression
Clerical	0-3 yrs	High School or GED	Receives Direction and review from Project Team Members to assist with clerical tasks; Assists to prepare and organize visual exhibits. Engaged in Office Work
Senior Clerical	3-5 yrs.	High School or GED; Associates Preferred	Provide complete administrative support to department or project. Approves clerical staff work.
Principal in Charge	20	BS or BA & PE Required	The Principal in Charge is a Registered Professional Engineer who holds full project responsibility and authority to represent the firm. It is his responsibility to assure that all necessary corporate and staff resources are available. The authority of the Principal in Charge, combined with an extensive understanding of the work to be performed, provides the project team and staff with strong leadership, technical direction and expert supervisory guidance of all work undertaken by the firm. The Principal is ultimately the lead for the firm.
Landscape Designer		BA in Landscape Architecture	May supervise other design staff. Responsible for creating a rough design, working on drawing, concentrating on specs and significant factors, and determining the overall expenses involved in the project. They contribute widely in the development of state parks, recreational sites, and landscape design of highway roadsides. Their obligations also include drafting a long-term outline of a project and creating an elaborated strategy with the help of certain specifications in building sites which very well matched with the landscape. They may conduct an on-field investigation to guide the environmental design. They utilize their creative skills to blend the construction with the beauty of nature for developing a suitable, pleasant, and esthetically delighting piece of area. These areas may be customized lawns, parks, walks, main roads, etc. Landscape designers carry out detailed construction site examinations which include analysis of soil, grown plants and trees, natural and landscape lighting, visual conception, and architectural style of the intended project or property.
Ecologist	2	Bachelor of Science in Biology, Environmental Science or Similar	Certified Ecologist. Ecologist are scientists who study the environment. Using knowledge of a variety of scientific disciplines, ecologists may collect, examine, and report information on the quality of soil, food, air, and water. Some typical tasks of ecologist include conducting field research, which comprises scientific processes to examine animals over a long period of time and observe characteristics sch as the animals' life history patterns, population numbers, diet, behavior, and habitat use; analyze laboratory data; prepare written reports; monitor animal population; may supervise work of technicians and technologists' and advise clients.

Classification	Min Yrs. Exp.	License Requirements	Role Synopsis and Progression
Professional Surveyor	0	Licensed Surveyor & Mapper, State of Florida Registered Land Surveyor	Plans, organizes, and direct work of one or more survey parties engaged in surveying earth's surface to determine precise location and measurements of points, elevations, lines, areas, and contours for construction, mapmaking, land division, titles, mining or other purposes. Researches previous survey evidence, maps, deeds, physical evidence, and other records to obtain data needed for surveys. Develops new data from photogrammetric records. Determines methods and procedures for establishing or re-establishing survey control. Keeps accurate notes, records, sketches to describe and certify work performed. Coordinates findings with work of engineering and architectural personnel, clients and other concerned with project. Assumes legal responsibility for work.

Business Ethics Requirements

BUSINESS ETHICS REQUIREMENTS

1. During the course of pursuing contracts with Owner and while performing services in accordance with this agreement, Consultant and/or Contractor agrees to maintain business ethics standards aimed at avoiding any impropriety or conflict of interest which could be construed to have an adverse impact on the Owner best interests.
2. Consultant and/or Contractor shall take reasonable actions to prevent any actions or conditions which could result in a conflict with Owner's best interests. These obligations shall apply to the activities of contractor employees, agents, subcontractors, subcontractor employees, sub-consultants of consultant and/or contractor, etc.

Consultant and/or Contractor employees, agents, subcontractors, material suppliers (or their representatives) should not make or cause to be made any cash payments, commissions, employment, gifts, entertainment, free travel, loans, free work, substantially discounted work, or any other considerations to Owner's representatives, employees or their relatives.

Consultant and/or Contractor employees, agents or subcontractors (or their relatives) should not receive any cash payments, commissions, employment, gifts, entertainment, free travel, loans, free work, or substantially discounted work or any other considerations from representatives of subcontractors, or material suppliers or any other individuals, organizations, or businesses receiving funds in connection with the project.

3. Consultant and/or Contractor agrees to notify a designated Owner representative within 48 hours of any instance where the Contractor becomes aware of a failure to comply with the provisions of this article.
4. The e-mail address and/or telephone number to report any concerns related to any possible violations of the Owner's Business Ethics Expectations are as follows:

E-mail: Alicia Pearce, apearce@capecoral.net Telephone: 239-574-0841

5. Upon request by Owner, Consultant and/or Contractor agrees to provide a certified Management Representation Letter executed by selected Consultant and/or Contractor representatives in a form agreeable to Owner stating that they are not aware of any situations violating the business ethics expectations outlined in this contract or any similar potential conflict of interest situations.
6. Consultant and/or Contractor agrees to include this clause in all contracts with subcontractors and material suppliers receiving more than \$25,000 in funds in connection with the Owner's project.
7. Consultant and/or Contractor shall permit interviews of employees, reviews and audits of accounting or other records by Owner representative(s) to evaluate compliance with the business ethics standards. Such reviews and audits will encompass all dealings and activities of Consultant and/or Contractor's employees, agents, representatives, vendors, subcontractors, and other third parties paid by Contractor in their relations with Owner's current or former employees or employee relatives.
8. Consultant and/or Contractor agrees to implement a program requiring their employees sign acknowledgements that they have read and understand Owner's Business Ethics Expectations and the related obligations outlined in this contract exhibit.

Meeting Date: 7/22/2019
Item Type: CONSENT AGENDA

AGENDA REQUEST FORM
CITY OF CAPE CORAL

TITLE:

Resolution 151-19 Approve a Change Order in the amount of \$20,000 to Purchase Order (PO) #51180 to Sam Galloway Ford increasing said Purchase Order to \$69,000. This PO was established for preventative maintenance and repairs for fleet vehicles, in October 2018, by piggybacking Lee County Contract No. B180548TJM, Ford Vehicle Service & Repairs which expires in April 23, 2020; And authorize the City Manager or Designee to sign the change order and purchase order; Department: Public Works; Estimated dollar value \$20,000 for increase; (Total \$69,000 - Fleet Internal Service Fund)

REQUESTED ACTION:

Approve or Deny

STRATEGIC PLAN INFO:

1. Will this action result in a Budget Amendment? No
2. Is this a Strategic Decision? No
If Yes, Priority Goals Supported are listed below.
If No, will it harm the intent or success of the Strategic Plan? No

PLANNING & ZONING/HEARING EXAMINER/STAFF RECOMMENDATIONS:

SUMMARY EXPLANATION AND BACKGROUND:

1. A Purchase Order (PO#51180) was established for preventative maintenance and repairs for fleet vehicles with Sam Galloway Ford in October 2018 by piggybacking Lee County Contract No. B180548TJM, Ford Vehicle Service & Repairs, expiring April 23, 2020.
2. The initial purchase order was issued in the amount of \$25,000 and has been subject to two change orders to increase the value to \$49,000. As vehicle repair and maintenance is subject to a variety of conditional factors and is difficult to predict, there has been an increased need for services over the projection for this fiscal year.
3. This procurement was conducted by utilizing Lee County Contract B180548TJM which is governed by the City of Cape Coral Code of Ordinances, Article VII, Division 1, §2-144(f) which authorizes the City to purchase goods or services from contracts awarded by other governmental entities by competitive bid or request for proposal
4. The Public Works Department is requesting an increase of \$20,000 which would make the value of the PO \$69,000. This increase will cover the needed repairs until the end of FY19.
5. Funding: Account 500241.634120 – Fleet Outside Services

FROM: Paul Clinghan, Public Works Director
Marilyn Rawlings, Fleet Manager *MR PRL*

DATE: June 3, 2019

SUBJECT: Open Purchase Order over \$50,000 – Sam Galloway Ford

Background

An open purchase order was established for preventative maintenance and repairs for fleet vehicles with Sam Galloway Ford in October 2018 by piggybacking on Lee County Contract No. B180548TJM, *Ford Vehicle Service & Repairs*, expiring April 23, 2020. The initial purchase order was issued in the amount of \$25,000 and has been subject to two change orders to increase the value to \$49,000. As vehicle repair and maintenance is subject to a variety of conditional factors and is difficult to predict, there has been an increased need for services over the projection this fiscal year. It is anticipated that Fleet may require an additional \$30,000 in services from Sam Galloway Ford the remainder of FY19.

Actual expenses and work in progress to date equals \$36,041 leaving an unencumbered balance of \$12,959. As the Ford fleet ages and warranties expire, it is difficult to accurately estimate repair expenses. The current fiscal year has exceeded the previous 3-year average of \$31,325. This year we have experienced 3 unusual repairs totaling \$30,690.

Sam Galloway Ford provides factory trained technicians and Ford factory parts for services and repairs. Under Lee County Contract No. B180548TJM, the City is provided services at an \$80 per hour labor rate and a flat 10% markup on parts.

Recommendation

Fleet Management recommends the increase of Purchase Order 51180 from \$49,000 to \$69,000.

Funding Availability

Fleet Management will utilize Sam Galloway Ford for preventative maintenance and repairs by piggybacking on the Lee County Contract No. B180548TJM, *Ford Vehicle Service & Repairs*, expiring April 23, 2020. The budgeted \$69,000 is in account 500241.634120 (Fleet-Outside Services).

RESOLUTION 151 - 19

A RESOLUTION OF THE CITY OF CAPE CORAL APPROVING A CHANGE ORDER TO PURCHASE ORDER #51180 TO SAM GALLOWAY FORD IN ACCORDANCE WITH LEE COUNTY CONTRACT #B180548TJM; AUTHORIZING THE EXECUTION OF THE CHANGE ORDER AND PURCHASE ORDER BY THE CITY MANAGER OR HIS DESIGNEE; PROVIDING AN EFFECTIVE DATE.

WHEREAS, in October 2018, Purchase Order #51180 was issued in the amount of \$25,000 to Sam Galloway Ford for preventative maintenance and repairs for fleet vehicles by piggybacking Lee County Contract #B180548TJM, Ford Vehicle Service & Repairs; and

WHEREAS, vehicle repairs and maintenance are subject to a variety of factors and difficult to predict, and there has been an increased need for services over the initial projection for this fiscal year; and

WHEREAS, two change orders have previously been issued, increasing the amount of the initial purchase order to \$49,000; and

WHEREAS, the Public Works Department is requesting approval of an additional change order in the amount of \$20,000 to cover the needed repairs through the end of Fiscal Year 2019, bringing the total value of Purchase Order #51180 to \$69,000.

WHEREAS, Section 2-144(f) of the City of Cape Coral Code of Ordinances authorizes the City to purchase goods or services under a contract awarded by another governmental entity by competitive bid; and

WHEREAS, the Procurement Manager has made the determination required by Section 2-144(f) of the City of Cape Coral Code of Ordinances that time and expense factors make it financially advantageous for the City to purchase from a contract awarded by another governmental entity; and

WHEREAS, the Procurement Manager has considered the requirements stated in Section 2-144(f) of the Code of Ordinances in making her determination to use the Lee County Contract.

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF CAPE CORAL, FLORIDA, AS FOLLOWS:

Section 1. The City Council hereby approves a Change Order in the amount of \$20,000 to Purchase Order #51180 to Sam Galloway Ford for preventative maintenance and repairs for fleet vehicles, in accordance Lee County Contract #B180548TJM, increasing the total amount of the purchase order to \$69,000, and authorizes the City Manager or his designee to execute the change order and purchase order.

Section 2. This Resolution shall take effect immediately upon its adoption.

ADOPTED BY THE CITY COUNCIL OF THE CITY OF CAPE CORAL AT ITS REGULAR COUNCIL SESSION THIS _____ DAY OF _____, 2019.

Dear Ms. Cradit:

In compliance with State of Florida *Rule 11D-9*, F.A.C., the City of Cape Coral approves the distribution of \$188,768 (total allocation available) of the Federal Fiscal Year 2018 Edward Byrne Memorial Justice Assistance Grant (JAG) Program funds for the following projects within Lee County:

<u>SUBGRANT (City or County)</u>	<u>Title of Project</u>	<u>Federal funds</u>
City of Cape Coral (Law Enforcement)	Purchase of license plate readers	\$93,616
City of Fort Myers (Law Enforcement)	Purchase of license plate readers	\$45,652
Lee County Port Authority (Law Enforcement)	Purchase of license plate readers	\$22,000
Lee County Port Authority (Law Enforcement)	Purchase of evidence storage locker and two radar units for vehicles	\$10,787
Lee County (Human and Veteran Services)	Lee County Triage Center/Low Demand Shelter Operation	\$27,500
	Total:	\$188,768

Sincerely,

Joe Coviello
Mayor, City of Cape Coral

DATE

Ms. Rona Kay Cradit
Bureau Chief
Office of Criminal Justice Grants
Florida Department of Law Enforcement
P.O Box 1489
Tallahassee, Florida 32302-1489

Dear Ms. Cradit:

In compliance with State of Florida *Rule 11D-9*, F.A.C., the City of Cape Coral approves the distribution of \$188,768 (total allocation available) of the Federal Fiscal Year 2018 Edward Byrne Memorial Justice Assistance Grant (JAG) Program funds for the following projects within Lee County:

<u>SUBGRANT (City or County)</u>	<u>Title of Project</u>	<u>Federal funds</u>
City of Cape Coral (Law Enforcement)	Purchase of license plate readers	\$93,616
City of Fort Myers (Law Enforcement)	Purchase of license plate readers	\$45,652
Lee County Port Authority (Law Enforcement)	Purchase of license plate readers	\$22,000
Lee County Port Authority (Law Enforcement)	Purchase of evidence storage locker and two radar units for vehicles	\$10,787
Lee County (Human and Veteran Services)	Lee County Triage Center/Low Demand Shelter Operation	\$27,500
	Total:	\$188,768

Sincerely,

Joe Coviello
Mayor, City of Cape Coral

The Florida Department of Law Enforcement has allocated Lee County \$188,768 in FY 18 Edward Byrne Memorial Justice Assistance Grant Program funding. Eligible applicants met June 20, 2019, to reach consensus on the allocation of those funds. Below are the recommended proposals and allocation amounts:

Cape Coral Police Department

Amount: \$93,616

Funding will be used to purchase license plate readers for agency operations. Cape Coral Police Department, Fort Myers Police Department, Lee County Sheriff's Office and the Port Authority Police, all access the same software application, providing for a countywide collaboration.

Fort Myers Police Department

Amount: \$45,652

Funding will be used to purchase license plate readers for agency operations. Cape Coral Police Department, Fort Myers Police Department, Lee County Sheriff's Office and the Port Authority Police, all access the same software application, providing for a countywide collaboration.

Lee County Port Authority Police

Amount: \$22,000

Funding will be used to purchase license plate readers for agency operations. Cape Coral Police Department, Fort Myers Police Department, Lee County Sheriff's Office and the Port Authority Police, all access the same software application, providing for a countywide collaboration.

Lee County Human and Veteran Services

Amount \$27,500

Funding will be used to pay a portion of the per diem rate to house individuals at the Bob Janes Triage Center/Low Demand Shelter. The Triage Center is a single point of entry that allows an alternative to incarceration for individuals at risk of being charged with minor ordinance violation or non-violent offenses and to provide access to behavioral health services. Many individuals brought to the Triage Center are homeless and have a substance use disorder or mental illness, often an underlying reason for the nuisance type crimes that brought them to the attention of law enforcement.

RESOLUTION 246 – 19

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF CAPE CORAL APPROVING THE PLAT FOR THE BURNT STORE CENTRE SUBDIVISION; PROVIDING AN EFFECTIVE DATE.

WHEREAS, Section 177, Florida Statutes, and Sections 4.2.5.H. and 4.2.5.I. of the Land Use and Development Regulations set forth the regulations and procedures for the subdivision of land and the final subdivision plat approval; and

WHEREAS, after the adoption of a planned development project, the City of Cape Coral requires the submission of a final subdivision plat for review by the Department of Community Development for compliance with all regulations; and

WHEREAS, before a plat is offered for recording, the Plat must be approved by the City Council; and

WHEREAS, upon approval of the subdivision plat by City Council, the Mayor shall indicate the approval by signing the certificate of approval for recording; and

WHEREAS, an approved subdivision plat shall be recorded at the expense of the applicant with the Lee County Clerk of Court; and

WHEREAS, the City of Cape Coral adopted Ordinance 45-14 on February 9, 2015, approving the "Burnt Store Centre Subdivision" planned development project which included the subdivision of property; and

WHEREAS, the Director of Community Development has approved the plat attached hereto as Exhibit A as being in conformance with the approved development plan and all other applicable regulations.

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF CAPE CORAL, FLORIDA, AS FOLLOWS:

Section 1. The City Council hereby approves the plat for the Burnt Store Centre Subdivision as being substantially in accordance with the approved Subdivision Plan as set forth in Ordinance 45-14 and all other applicable regulations. A copy of the proposed "Burnt Store Centre Subdivision" plat is attached hereto as Exhibit A.

Section 2. This Resolution shall take effect immediately upon its adoption.

LEASE RIGHT-OF-WAY EASEMENT (INSTRUMENT# 2008000294707)

Item Number: B.(13)
Meeting Date: 7/22/2019
Item Type: CONSENT AGENDA

AGENDA REQUEST FORM
CITY OF CAPE CORAL

TITLE:

Resolution 252-19 Approval of American Tower's request for consent to modify T-Mobile equipment at the communication tower located at Fire Station #6 on Chiquita Boulevard and authorization for the City Manager to execute said consent letter; Department: Financial Services / Real Estate; Dollar Value: N/A; (Fund: N/A))

REQUESTED ACTION:

Approve or Deny

STRATEGIC PLAN INFO:

1. Will this action result in a Budget Amendment? No
2. Is this a Strategic Decision? No
If Yes, Priority Goals Supported are listed below.
If No, will it harm the intent or success of the Strategic Plan? No

PLANNING & ZONING/HEARING EXAMINER/STAFF RECOMMENDATIONS:

SUMMARY EXPLANATION AND BACKGROUND:

1. The City entered into a Ground Lease with PrimeCo Personal Communications, L.P. in February 1997, which was subsequently assigned to American Tower Corporation.
2. In July 2009, City Council approved the Second Amendment to Ground Lease Agreement between the City of Cape Coral and American Tower Corporation.
3. American Tower is requesting the City's consent to modify T-Mobile's equipment at the tower site and will obtain all necessary permits for these modifications.
4. Pursuant to Section 3 of the Second Amendment to Ground Lease Agreement, which governs the site, the City must approve any modifications or substitutions of equipment.
5. Staff recommends approval of and authorization for the City Manager to execute American Tower's consent letter requesting the modification of T-Mobile's equipment within the existing leased tower premises.

RESOLUTION 252 – 19

A RESOLUTION OF THE CITY OF CAPE CORAL APPROVING AMERICAN TOWER'S REQUEST FOR APPROVAL OF PROPOSED INSTALLATION OF EQUIPMENT FOR T-MOBILE AT THE COMMUNICATION TOWER LOCATED AT FIRE STATION #6; PROVIDING AN EFFECTIVE DATE.

WHEREAS, in 1997 the City adopted Ordinance 4-97, authorizing the leasing of City property to PrimeCo Personal Communications, L.P., for the construction of a communication tower at Fire Station #6; and

WHEREAS, in 2009 the City Council adopted Ordinance 40-09, approving the Second Amendment to Ground Lease Agreement between the City and American Tower, L.P., successor in interest to PrimeCo Personal Communications, L.P.; and

WHEREAS, American Tower has requested the City's consent to modify T-Mobile's equipment at the tower site and will obtain all necessary permits for the modification; and

WHEREAS, pursuant to Section 3 of the Second Amendment to Ground Lease Agreement, the City must consent to any modifications or substitutions of equipment; and

WHEREAS, staff recommends approval of American Tower's Request for Approval of Proposed Installation of Equipment requesting the modification of T-Mobile's equipment within the existing leased tower premises.

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF CAPE CORAL, FLORIDA, AS FOLLOWS:

Section 1. The City Council hereby approves American Tower's request to modify T-Mobile's equipment at the communication tower located at Fire Station #6. A copy of the Request for Approval of Proposed Installation of Equipment is attached hereto as Exhibit A.

Section 2. The City Council hereby authorizes the City Manager or his designee to execute the Request for Approval of Proposed Installation of Equipment for T-Mobile's equipment at the communication tower located at Fire Station #6.

Section 3. This Resolution shall take effect immediately upon its adoption.

ADOPTED BY THE CITY COUNCIL OF THE CITY OF CAPE CORAL AT ITS REGULAR COUNCIL SESSION THIS _____ DAY OF _____, 2019.

Cape Coral, Florida 33914-6357 4540 CHIQUITA BLVD. SOUTH		Ground Lease Agreement dated February 3, 1997 (as amended)	

* any reference to T-MOBILE includes one or more of its related entities

Dear Landlord:

We, Tower Alliance, are assisting American Tower in the management of this site, including requesting consent from landlords on behalf of American Tower when such consent is required. We are writing to request your approval of a proposed equipment installation by T-MOBILE, at this site. T-MOBILE is an existing user of the tower at this site, however pursuant the ground agreement we are required to obtain your approval before we allow them to install their equipment. Specifically, T-MOBILE will be undertaking the following installations:

At a RAD height of 140':

- Removing (9) nine Panels and (6) six RRUs
- Installing (9) nine Panels and (9) RRUs

As wireless technology and coverage demands continue to change, providers routinely replace and upgrade equipment. Below are a few answers to frequently asked questions we receive from landlords on this type of project:

- All work will take place within the existing compound and on the existing tower.
- The overall appearance of the tower will remain similar.
- The modification of T-MOBILE's equipment will not change the overall height of the tower.
- You may receive revenue share pursuant to the ground lease as a result of this equipment modification.

If you could please approve of this proposed equipment modification by signing this letter below and returning it to my attention, either by mail or email, I would appreciate it. American Tower values our relationship with you so if there are any questions please do not hesitate to contact me directly.

Exhibit A

Thank you for your time.

Sincerely,

Melanie Catanese

Melanie Catanese

Lease Consultant

□ Resolution 253-19	Resolution

RESOLUTION 253 – 19

A RESOLUTION OF THE CITY OF CAPE CORAL APPROVING AMERICAN TOWER’S REQUEST FOR APPROVAL OF PROPOSED INSTALLATION OF BACKHAUL FIBER EQUIPMENT FOR VERIZON WIRELESS AT THE COMMUNICATION TOWER LOCATED AT FIRE STATION #6; PROVIDING AN EFFECTIVE DATE.

WHEREAS, in 1997 the City adopted Ordinance 4-97, authorizing the leasing of City property to PrimeCo Personal Communications, L.P., for the construction of a communication tower at Fire Station #6; and

WHEREAS, in 2009 the City Council adopted Ordinance 40-09, approving the Second Amendment to Ground Lease Agreement between the City and American Tower, L.P., successor in interest to PrimeCo Personal Communications, L.P.; and

WHEREAS, American Tower has requested the City’s consent to remove the existing fiber equipment and install upgraded fiber equipment for Verizon Wireless at the tower site and will obtain all necessary permits for the modification; and

WHEREAS, pursuant to Section 3 of the Second Amendment to Ground Lease Agreement, the City must consent to any modifications or substitutions of equipment; and

WHEREAS, staff recommends approval of American Tower’s Request for Approval of Proposed Installation of Backhaul Fiber Equipment requesting approval to install upgraded fiber equipment for Verizon Wireless within the existing leased tower premises.

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF CAPE CORAL, FLORIDA, AS FOLLOWS:

Section 1. The City Council hereby approves American Tower’s request for consent to install upgraded fiber equipment for Verizon Wireless at the communication tower located at Fire Station #6. A copy of the Request for Approval of Proposed Installation of Backhaul Fiber Equipment is attached hereto as Exhibit A.

Section 2. The City Council hereby authorizes the City Manager or his designee to execute the Request for Approval of Proposed Installation of Backhaul Fiber Equipment for Verizon Wireless’s equipment at the communication tower located at Fire Station #6.

Section 3. This Resolution shall take effect immediately upon its adoption.

ADOPTED BY THE CITY COUNCIL OF THE CITY OF CAPE CORAL AT ITS REGULAR COUNCIL SESSION THIS _____ DAY OF _____, 2019.

SITE ADDRESS		GROUND AGREEMENT	
Cape Coral, Florida 33914-6357 4540 CHIQUITA BLVD. SOUTH		Ground Lease Agreement dated February 3, 1997 (as amended)	

* any reference to VERIZON WIRELESS includes one or more of its related entities

Dear Landlord:

We, Tower Alliance, are assisting American Tower in the management of this site, including requesting consent from landlords on behalf of American Tower when such consent is required. We are writing to request your approval of a proposed installation of backhaul fiber equipment by VERIZON WIRELESS, at this site. VERIZON WIRELESS is an existing user of the tower at this site, however pursuant the ground agreement we are required to obtain your approval before we allow them to install their equipment.

Included for your convenience please find the associated Construction Drawings for this work.

As wireless technology and coverage demands continue to change, providers routinely upgrade their equipment. In allowing our customers to make such upgrades we ensure that all work will take place within the existing lease and/or easement area(s) and that any disturbance to the site will be minimal. We will also ensure that the site is returned to its current condition after the installation is completed.

If you could please approve of this proposed equipment modification by signing this letter below and returning it to my attention, either by mail or email, I would appreciate it.

American Tower values our relationship with you so if there are any questions please do not hesitate to contact me directly.

Thank you for your time.

Sincerely,

Melanie Catanese

A 50' X 66.5' PARCEL OF LAND LYING AND BEING WITHIN LOTS 6, 7, 48 AND 49, BLOCK 4745, OF THE PLAT "CAPE CORAL SUBDIVISION UNIT 70", AS RECORDED IN PLAT BOOK 22, PAGES 58 THROUGH 87, OF THE PUBLIC RECORDS OF LEE COUNTY, FLORIDA, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

COMMENCE AT A FOUND CAPPED 1/2" IRON ROD AT THE NORTHWEST CORNER OF LOT 7, BLOCK 4745 THENCE RUN S 89°43'07" E ALONG THE NORTH BOUNDARY OF SAID LOT 7 A DISTANCE OF 73.91 FEET; THENCE RUN S 00°41'05" E, A DISTANCE OF 3.67 FEET TO THE POINT OF BEGINNING; THENCE RUN S 89°43'07" E, A DISTANCE OF 66.5 FEET; THENCE RUN S 00°41'05" E, A DISTANCE OF 50.00 FEET; THENCE RUN N 89°43'07" W, A DISTANCE OF 66.5 FEET; THENCE RUN N 00°41'05" W, A DISTANCE OF 50.00 FEET; TO THE POINT OF BEGINNING.

SAID LEASE PARCEL CONTAINING 3,325 SQUARE FEET OR 0.0763 ACRES MORE OR LESS.

ACCESS & UTILITY EASEMENT

A PARCEL OF LAND LYING IN THE SOUTHEAST 1/4 OF SECTION 9, TOWNSHIP 45 SOUTH, RANGE 23 EAST BEING A PORTION OF CAPE CORAL SUBDIVISION, UNIT 70, AS RECORDED IN PLAT BOOK 22 AT PAGES 58 THROUGH 87 OF THE PUBLIC RECORDS OF LEE COUNTY, FLORIDA, FOR A 20 FOOT WIDE NON-EXCLUSIVE EASEMENT FOR INGRESS, EGRESS, AND UTILITIES PURPOSES, SAID EASEMENT LYING 10 FEET ON EACH SIDE OF THE CENTERLINE AND BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

COMMENCING AT THE NORTHWESTERLY CORNER OF LOT 7 IN THE AFORESAID BLOCK 4745; THENCE S 00°39'33" E ALONG THE EASTERLY RIGHT OF WAY LINE OF SW 16TH PLACE, A DISTANCE OF 118.14 FEET TO THE POINT OF BEGINNING; THENCE S 89°42'10" E A DISTANCE OF 8.29 FEET LEAVING SAID RIGHT OF WAY LINE; THENCE N 13°16'19" E A DISTANCE OF 71.38 FEET; THENCE S 83°08'32" E A DISTANCE OF 78.80 FEET; THENCE N 00°39'33" W A DISTANCE OF 18.92 FEET TO THE SOUTHERLY LINE OF THE LEASE PARCEL RECORDED IN D.R. BOOK 3604 AT PAGE 2561, OF THE PUBLIC RECORDS OF LEE COUNTY, FLORIDA, AND THE POINT OF TERMINUS.

THE SIDELINES OF SAID EASEMENT TO BE LENGTHENED AND FORESHORTENED TO TERMINATE AT THE SOUTHERLY LINE OF SAID LEASE PARCEL AND THE EASTERLY RIGHT OF WAY LINE OF SW 16TH PLACE, AND TO FORM ONE CONTIGUOUS SHAPE.

SURVEYOR'S NOTES

- THIS IS A BOUNDARY SURVEY OF THE AMERICAN TOWER LEASE PARCEL. THE PARENT TRACT INFORMATION SHOWN HEREON IS BASED ON A BOUNDARY SURVEY PREPARED BY THOMAS S. CLANCY, JOB NUMBER 00-5073, DATED MARCH 26, 2002, AND IS FOR INFORMATIONAL PURPOSES ONLY.
- THE AMERICAN TOWER LEASE PARCEL DEPICTED HEREON LIES ENTIRELY WITHIN THE DESCRIBED PARENT TRACT.
- THIS SURVEY WAS PREPARED WITHOUT THE BENEFIT OF A TITLE SEARCH.
- BEARINGS SHOWN HEREON ARE ASSUMED AND BASED ON THE NORTHERLY RIGHT OF WAY LINE OF SW 46TH STREET BEING NORTH 89°43'07" WEST PER ABOVE REFERENCED SURVEY (SEE NOTE 1).
- UNDERGROUND UTILITIES AND IMPROVEMENTS HAVE NOT BEEN LOCATED.
- INTERIOR IMPROVEMENTS HAVE NOT BEEN LOCATED.
- AFTER REVIEW OF FLOOD INSURANCE RATE MAP, COMMUNITY PANEL NO. 125095 0000 C, DATED SEPTEMBER 18, 1985, THE AMERICAN TOWER LEASE PARCEL DEPICTED HEREON LIES IN ZONE "X8" (SPECIAL FLOOD HAZARD AREAS INUNDATED BY 100 YEAR FLOOD, BASE FLOOD ELEVATION OF 9.0 FEET).
- (D) DENOTES DESCRIPTION; (F) DENOTES FIELD MEASURED; (P) DENOTES PLAT; (C) DENOTES CALCULATED.
- GEODETIC AND VERTICAL INFORMATION SHOWN HEREON IS BASED ON G.P.S. OBSERVATIONS PERFORMED HOLDING NGS STATION DESIGNATION PINELAND 1934 2 MM RESET, N.A.D.83(1993), (ELEVATION=6.4 FEET (N.G.V.D.1929)), SITE BENCHMARK IS 4.1 ELEVATION= FEET (N.G.V.D.1929), AS SHOWN HEREON. ALL ELEVATIONS SHOWN HEREON ARE ABOVE MEAN SEA LEVEL (A.M.S.L.).
- ALL GEODETIC AND VERTICAL DATA, DEPICTED HEREON IS WITHIN THE 10 ACCURACY TOLERANCES AS SET FORTH BY THE F.L.A.C.

SURVEYOR'S CERTIFICATION

I HEREBY CERTIFY THAT THIS BOUNDARY SURVEY PERFORMED ON SEPTEMBER 29, 2004, IS IN ACCORDANCE WITH THE TECHNICAL STANDARDS AS REQUIRED BY CHAPTER 61017-6, FLORIDA ADMINISTRATIVE CODE.

AGENDA REQUEST FORM
CITY OF CAPE CORAL

TITLE:

Resolution 254-19 Approval of Contract for Purchase of an improved property located at 1121-1123 NE 22nd Terrace, Cape Coral (Lots 21 and 22, Block 2158, Unit 32, Cape Coral Subdivision), for the Lake Meade Park Expansion project for the purchase price of \$223,000 plus closing costs not to exceed \$4,000; Department: Financial Services / Real Estate Division; Dollar Value: \$227,000; (Parks Capital Project/GO Bond Fund) Note: Trade offer rejected by Seller.

REQUESTED ACTION:

Approve or Deny

STRATEGIC PLAN INFO:

1. Will this action result in a Budget Amendment? No
2. Is this a Strategic Decision? Yes
If Yes, Priority Goals Supported are listed below.
If No, will it harm the intent or success of the Strategic Plan?

ELEMENT F: ENHANCE THE QUALITY OF LIFE THROUGH ARTS AND CULTURE TO CREATE AND PROMOTE A VIBRANT, CULTURALLY DIVERSE COMMUNITY.

PLANNING & ZONING/HEARING EXAMINER/STAFF RECOMMENDATIONS:

SUMMARY EXPLANATION AND BACKGROUND:

1. The subject property is improved with a duplex located in the Lake Meade Park expansion area. In 1989 the City of Cape Coral adopted a Future Land Use map designating this area with a future land use of Parks and Recreation. Over the years, Staff has been working with various owners in the park area to purchase additional properties on a voluntary basis based on current independent state-certified appraisals.
2. The City currently owns 88 of the 103 required park parcels, with one additional property currently under contract. Included in the remaining 15 properties are two improved properties; the subject duplex and a single family residence.
3. With the recent GO Bond approval, City Staff has notified property owners within the Lake Meade Park area of the City's desire to complete its acquisitions within the park. Staff submitted an offer to purchase the site based on an appraisal of the property by an independent state-certified appraiser, which was accepted by the Seller. The contract requires the City to pay the closing costs incurred by the title company and the tenants to vacate the property prior to the closing.
4. Staff recommends approval of the purchase contract to purchase 1121-1123 NE 22nd Terrace, Cape Coral for the Lake Meade Park Expansion for the purchase price of \$223,000 plus closing costs not to exceed \$4,000.

RESOLUTION 254 - 19

A RESOLUTION OF THE CITY OF CAPE CORAL AUTHORIZING THE CITY MANAGER TO ENTER INTO A "CONTRACT FOR SALE AND PURCHASE" BETWEEN JOSEPH C. & MARY SHARON HEEB, HUSBAND AND WIFE AS TRUSTEES OF THE HEEB FAMILY REVOCABLE TRUST AND THE CITY OF CAPE CORAL FOR THE PURCHASE OF LOTS 21-22, BLOCK 2158, UNIT 32, CAPE CORAL SUBDIVISION, FOR THE LAKE MEADE PARK EXPANSION; PROPERTY LOCATED AT 1121-1123 NE 22ND TERRACE; PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City of Cape Coral has been working with various property owners in the Lake Meade Park area to purchase additional properties on a voluntary basis to expand the park; and

WHEREAS, the subject contract is for an off-water site improved with a duplex; and

WHEREAS, staff submitted an offer to purchase the property based on a recent independent state-certified appraisal pursuant to Section 2-152 of the City of Cape Coral Code of Ordinances; and

WHEREAS, City staff recommends that the City purchase the subject property pursuant to the terms and price set forth in the contract; and

WHEREAS, the City Manager requests approval to enter into the "Contract for Sale and Purchase."

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF CAPE CORAL, FLORIDA, AS FOLLOWS:

Section 1. The City Council hereby authorizes the City Manager to execute a "Contract for Sale and Purchase" between Joseph C. & Mary Sharon Heeb, husband and wife as trustees of the Heeb Family Revocable Trust and the City of Cape Coral for the purchase of Lots 21-22, Block 2158, Unit 32, Cape Coral Subdivision, as more fully described in the Contract, in the amount of \$223,000, plus closing costs not to exceed \$4,000. The property is located at 1121-1123 NE 22nd Terrace. A copy of the Contract for Sale and Purchase is attached hereto as Exhibit A.

Section 2. This resolution shall take effect immediately upon its adoption.

ADOPTED BY THE CITY COUNCIL OF THE CITY OF CAPE CORAL AT ITS REGULAR COUNCIL SESSION THIS _____ DAY OF _____, 2019.

CONTRACT FOR SALE AND PURCHASE

THIS IS A LEGALLY BINDING CONTRACT WHEN PROPERLY COMPLETED AND EXECUTED. IF NOT FULLY UNDERSTOOD, SEEK LEGAL ADVICE BEFORE SIGNING.

PARTIES: Joseph C. & Mary Sharon Heeb, husband and wife as Trustees of the Heeb Family Revocable Trust dated the 24th day of March, 2009, 2580 Bayshore Drive, Matlacha, Florida 33993 as "**SELLER**", and City of Cape Coral, a Florida Municipal Corporation, P.O. Box 150027, Cape Coral, Florida 33915-0027, successors or assigns, as "**BUYER**", hereby agree that the **SELLER** shall sell and **BUYER** shall buy the following (hereinafter referred to as "**PROPERTY**") described property upon the following terms and conditions:

1. **LEGAL DESCRIPTION** of real estate located in Lee County, Florida:
Lots 21 & 22, Block 2158, Unit 32, Cape Coral Subdivision, as recorded in Plat Book 16, Pages 1 through 13, inclusive of the Public Records of Lee County, Florida.
2. **PURCHASE PRICE** **\$223,000.00**
3. **CONDITIONAL CONTRACT.** This contract for sale and purchase is a binding contract once it is executed by the **SELLER** and by the City Manager on behalf of the **BUYER**. However, this contract is expressly subject to approval by the Cape Coral City Council. If the Cape Coral City Council fails or refuses to approve the purchase within 45 calendar days of the date when the City Manager has signed this contract, then this contract shall be null and void. This contract is subject to applicable Florida probate proceedings, if required. **BUYER** and **SELLER** understand and agree that in the event probate proceedings are necessary, **SELLER** shall be solely responsible for any and all expenses necessary to complete said probate proceedings.

4. **EFFECTIVE DATE & CLOSING DATE.** The Effective Date of this contract shall be the date of Council authorization. This contract shall be closed and the deed shall be delivered within 30 business days after Council authorization unless extended by other provisions of this contract. Such other provisions shall include, but not be limited to, paragraph 7. Possession shall be granted on the day of closing unless otherwise agreed in writing.
5. **CONVEYANCE.** **SELLER** shall convey title to the property to **BUYER** by Warranty Deed subject only to matters contained in this contract and taxes for the year of closing.
6. **RESTRICTIONS AND EASEMENTS.** **BUYER** shall take title subject to:
 - (a) Zoning and restrictions and prohibitions imposed by governmental authority;
 - (b) Restrictive covenants of record;
 - (c) Public utility easements of record, provided however said easements are located along the perimeter of the property and are not more than six feet (6') in width;
 - (d) Taxes for the year of closing and subsequent years;

Provided, however, that none of the foregoing shall prevent use of the entire property for the purpose of right-of-way or any other governmental purpose.

7. **EVIDENCE OF TITLE.** Within fifteen (15) days from the date of this contract, **BUYER** shall at **BUYER'S** expense, obtain a title insurance binder issued by a qualified title insurer of its choice, agreeing to issue to **BUYER**, upon the recording of the deed hereafter mentioned, a title insurance policy in the amount of the purchase price insuring the title to that real property. **BUYER** shall have fifteen (15) days from the date of receiving the evidence of title to examine same. If title is found to be defective, **BUYER** or closing agent shall, within said period of time, notify **SELLER** in writing specifying defects that need to be cured. For purposes of this contract, a requirement by the title insurer that the **SELLER** institute and complete a quiet title action shall be deemed to be a title defect that shall be cured by **SELLER**. If said defects render the title unmarketable or uninsurable **SELLER**

shall have ninety (90) days from the receipt of such notice to cure the defects, and if after said period **SELLER** shall not have cured the defects, then **BUYER** shall have the option of (1) accepting the title as it then is; (2) affording **SELLER** additional time to cure the defect(s); or (3) terminate the contract by providing written notice to the **SELLER**.

8. **EXISTING MORTGAGES.** **SELLER** shall furnish estoppel letters from mortgagee(s) setting forth the principal balance, escrow balance, method of payment, and whether the mortgage is in good standing. It shall be **SELLER'S** obligation to obtain any satisfactions of mortgage required for closing.
9. **SURVEY.** If **BUYER** desires a survey, **BUYER** shall have the property surveyed at its expense prior to closing date. If the survey shows an encroachment, the same shall be treated as a title defect.
10. **OTHER AGREEMENTS.** No agreements or representations, unless incorporated in this contract, shall be binding upon any of the parties, unless they be in writing and agreed to by all parties.
11. **MECHANIC'S LIENS.** **SELLER** shall execute an affidavit that there have been no improvements to the subject property and that **SELLER** has not entered any contracts for the provision of goods or services that could give rise to a mechanic's lien for the ninety (90) days immediately preceding the date of closing.
12. **TIME IS OF THE ESSENCE** in the performance of this contract.
13. **DOCUMENTS FOR CLOSING.** **SELLER** shall execute a Warranty Deed, Seller's Affidavit and other necessary closing documents provided by closing agent.
14. **EXPENSES.** Documentary stamps, title insurance, title search, title exam and settlement fee shall be paid by **BUYER**.
15. **PRORATION OF TAXES (REAL AND PERSONAL).** Taxes shall be prorated based upon the current year's tax without regard to discount. If the closing takes place and the current year's taxes are not fixed, and the current year's assessment is available, taxes will

be prorated based upon such assessment and the prior year's millage. If the current year's assessment is not available, then taxes will be prorated on the prior year's tax, provided, however, if there is a completed improvement of the subject premises by January 1 of the year of closing, then the taxes shall be prorated to the date of closing based upon the prior year's millage. It is further agreed that should, upon receipt of current tax statement, the taxes be different by more than Ten Dollars (\$10.00) than those estimated, the proration shall be adjusted.

16. **ATTORNEY'S FEES AND COSTS.** In connection with any litigation arising out of the contract, the prevailing party shall be entitled to recover all costs incurred, including reasonable attorney's fees. The parties agree to venue in Lee County, Florida for any action arising out of this Contract.
17. **DEFAULT BY SELLER.** If **SELLER** fails to perform any of the covenants of this contract other than the failure of **SELLER** to render his title marketable after diligent effort **BUYER** may proceed at law or in equity to enforce its legal rights under this contract, including, but not limited to, the right to bring suit for specific performance.
18. All covenants and agreements herein contained shall extend to and be obligatory upon the heirs, executors, administrators, successors and assigns of the respective parties.
19. This agreement shall be interpreted, construed, and governed according to the Laws of the State of Florida.
20. The invalidity or unenforceability of any particular provision of this agreement shall not affect the other provisions hereof, and the agreement shall be construed in all respects as if such invalid and unenforceable provisions were omitted.
21. **SELLER** and **BUYER** hereby agree that this contract to purchase the real property described above is for a proper municipal purpose and grants the **BUYER** the right to enter the real property described above for the purpose of surveying, soil borings, or any other work as deemed necessary by the **BUYER**. The parties herein further agree that the

purchase of this property does not destroy or cause any damage whatsoever to **SELLER** or his successor or assigns with respect to any commercial or residential property owned by them whose lands are being so purchased or located upon adjoining lands.

22. The place of closing and delivery of the deed to **BUYER** shall be at any office designated by **BUYER**.
23. **ENVIRONMENTAL AUDIT.** **BUYER** may perform or have performed, at **BUYER'S** expense, an environmental audit of the property. If such an audit identifies environmental problems unacceptable to the **BUYER** then **BUYER** may elect to accept the property in its existing condition or **BUYER** may terminate this Contract without obligation.
24. **REAL ESTATE COMMISSIONS.** **BUYER** and **SELLER** understand and agree that in the event **BUYER** has knowledge of any listing agreement for the subject property, then **BUYER**, at its option, may elect to notify and provide a copy of this contract to the listing Broker. **SELLER** shall be solely responsible for any Broker compensation, Realtor notification or any other terms and conditions of any listing agreement. **SELLER** shall also be responsible for any Realtor transaction fee or administration fee.
25. **DISCLOSURE OF BENEFICIAL INTERESTS.** **SELLER** agrees to comply with the provisions of Section 286.23(1), Florida Statutes. Said section requires that, before property that is owned by a partnership, limited partnership, corporation, trust or any other form of representative capacity whatsoever for others, is conveyed to a governmental unit, the representative of the owner/entity shall make a public disclosure in writing, under oath and subject to the penalties prescribed for perjury, which shall state the names and addresses of every person having a beneficial interest in the Real Property, however small or minimal.
26. Subject property is being sold in "as-is" condition and unfurnished. All fixtures will remain with the subject property, including but not limited to, lighting, plumbing, ceiling fans, air

conditioning/heating components, refrigerator, range/oven, and dishwasher. **BUYER** to walk through the subject property one (1) day prior to closing.

27. **EXISTING TENANTS:** Notwithstanding anything to the contrary in this contract, **SELLER** shall be responsible for ensuring that the existing **Tenants** vacate the property prior to the parties closing on the property. **SELLER** shall be responsible for returning the security deposit to each respective **Tenant**.

IN WITNESS THEREOF, BUYER and SELLER have signed this contract on the date set forth below.

Re: Property: 1121/1123 NE 22nd Ter
Cape Coral, FL 33909-4494
Borrower: N/A
File No.: 19040216

Opinion of Value: \$ 223,000
Effective Date: 4/26/2019

In accordance with your request, we have appraised the above referenced property. The report of that appraisal is attached.

The purpose of the appraisal is to develop an opinion of market value for the property described in this appraisal report, in unencumbered fee simple title of ownership.

This report is based on a physical analysis of the site and improvements, a locational analysis of the neighborhood and city, and an economic analysis of the market for properties such as the subject. The appraisal was developed and the report was prepared in accordance with the Uniform Standards of Professional Appraisal Practice.

The opinion of value reported above is as of the stated effective date and is contingent upon the certification and limiting conditions attached.

It has been a pleasure to assist you. Please do not hesitate to contact me or any of my staff if we can be of additional service to you.

Sincerely,

Scott H. Simmons

Demand/supply: <input type="checkbox"/> Shortage <input checked="" type="checkbox"/> In Balance <input type="checkbox"/> Over Supply		<input type="checkbox"/> Vacant (>5%)		500+ High 40		Comm'l 5 %				
Marketing time: <input checked="" type="checkbox"/> Under 3 Mos. <input type="checkbox"/> 3-6 Mos. <input type="checkbox"/> Over 6 Mos.		<input type="checkbox"/> Vacant (>5%)		250 Pred 15		Vacant 55 %				
Market Area Boundaries, Description, and Market Conditions (including support for the above characteristics and trends):								The subject's neighborhood boundaries are the Lee/Charlotte County Line to the north, Burnt Store Road to the west, Pine Island Road to the south, and U.S. 41 to the east. The neighborhood is composed primarily of average to good quality residential uses of varying design and appeal. Larger, newer properties represent the upper end of the one-unit housing price range. Support facilities including shopping, banks, medical and recreational uses are located nearby along Pine Island Road, Santa Barbara Boulevard, Chiquita Boulevard, and Del Prado Boulevard. Financing trends are toward conventional mortgages and cash sales. Property values increased at a rapid pace from 2011 through 2017. During 2018, values began to stabilize in the market area as additional supply began to come online from new construction. Over the past several months, trends indicate continued stabilization. However, inventory levels remain relatively low and interest rates continue to remain at near historically low levels. Exposure Time is similar to Marketing Time at less than 3 months.		
Dimensions: 80' x 125', per Lee County GIS		Site Area: 10,000 sf		Zoning Classification: R-1B		Description: Residential Single-Family				
Zoning Compliance: <input type="checkbox"/> Legal <input checked="" type="checkbox"/> Legal nonconforming (grandfathered) <input type="checkbox"/> Illegal <input type="checkbox"/> No zoning		Are CC&Rs applicable? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Unknown		Have the documents been reviewed? <input type="checkbox"/> Yes <input type="checkbox"/> No		Ground Rent (if applicable) \$ N/A/				
Comments:		Highest & Best Use as improved: <input checked="" type="checkbox"/> Present use, or <input type="checkbox"/> Other use (explain)		Actual Use as of Effective Date: Two-Family Residential		Use as appraised in this report: Two-Family Residential				
Summary of Highest & Best Use:		The site is subject to R-1B zoning. This zoning allows for single-family uses. The subject's current use represents the highest and best use as improved. Although the R-1B zoning allows for single-family uses, the future land use 'Parks' limits the potential uses as vacant. Therefore, the highest and best use as vacant would be assemblage for use consistent with the 'Parks' future land use.

2-4 UNIT RESIDENTIAL APPRAISAL REPORT

File No.: 19040216

IMPROVEMENTS (cont.)
 Additional features: The subject units feature tile flooring, ceiling fans, appliances, and screened porches.
 Describe the condition of the property (including physical, functional and external obsolescence): The subject is in overall above average condition for its age and neighborhood. There have been no substantial renovations to the kitchen or bathrooms. However, all materials appear to have been well maintained. The subject's roof appears to be nearing the end of its economic life. Several shingles appeared to be missing or damaged (see Photograph Addendum). This has been considered within the opinion of effective age.

The following properties are representative current, similar, and proximate rental properties comparable to the subject property. This analysis is intended to support the opinion of the market rent for the subject property.

Indicated Monthly Market Rent		\$ 1,957	\$ 1,950	\$ 1,043	

Analysis of rental data: The rental data above represents recent rentals of duplex units in the Northeast Cape Coral market area. The monthly rental price per square foot indicates a range of \$1.01/sf to \$1.09, with the opinion of market rent for the subject property commanding a rate within this range. Adjustments for Comparable 3 GBA have been applied for differences in one unit only. Adjustments for differences in effective ages, GBA, bathroom count, and other amenities were also warranted within the grid.

Rent Schedule: The appraiser must reconcile the applicable indicated monthly market rents to provide an opinion of the market rent for each unit in the subject property.

Unit #	Leases		Actual Rents			Opinion of Market Rent		
	Lease Dates		Per Unit		Total Rents	Per Unit		Total Rents
	Begin Date	End Date	Unfurnished	Furnished		Unfurnished	Furnished	
1			\$ 750	\$	\$ 750	\$ 975	\$	\$ 975

3			\$	\$	\$	\$	\$	\$
4			\$	\$	\$	\$	\$	\$
Comments on lease data: The subject's current rental rates are below market rates and are not consistent with rates for comparable properties in this area.			Total Actual Monthly Rent		\$ 1,500	Total Gross Monthly Rent		\$ 1,950
			Other Monthly Income (itemize)		\$	Other Monthly Income (itemize)		\$
			Total Actual Monthly Income		\$ 1,500	Total Estimated Monthly Income		\$ 1,950
Utilities included in estimated rents: <input type="checkbox"/> Electric <input checked="" type="checkbox"/> Water <input checked="" type="checkbox"/> Sewer <input type="checkbox"/> Gas <input type="checkbox"/> Oil <input checked="" type="checkbox"/> Trash collection <input type="checkbox"/> Multimedia <input type="checkbox"/> Telephone <input type="checkbox"/> Other								
Comments on actual or estimated rents and other monthly income (including personal property): The opinion of market rent is based upon actual rents that are considered to be reliable indicators of current market rent. The opinion of market rent is based upon current condition of the subject property and is subject to change based upon changes in condition of the subject. Typical leases in the subject's market are annual rentals. The subject units are currently tenant occupied. However, the current rental rates are not consistent with rental rates for comparable properties in this area.								

INCOME APPROACH TO VALUE The Income Approach was not developed for this appraisal.

Gross Rent Multiplier Analysis:

Address	Date	Sale Price	Gross Rent	GRM	Comments
1415 NE 8th Terr, Cape Coral, FL 33909	10/31/2018	231,500	2,100	110.24	
1835/1905 Andalusia Blvd, Cape Coral, FL 33909	8/18/2017	221,000	2,000	110.5	
1401/1403 NE 8th Terrace, Cape Coral, FL 33909	7/31/2018	215,100	1,875	114.72	
Opinion of Monthly Market Rent \$ 1,950		X Gross Rent Multiplier 114	= \$ 222,300	Indicated Value by Income Approach	

Summary of Income Approach (including support for market rent and GRM): The Income Approach has been developed based on the opinion of market rent as demonstrated above rather than actual rents, due to the subject's below-market current rental rates. The gross rent multiplier has been derived from the sales provided above as well as sales in the Sales Comparison Approach with current rental rates.

Summary of Sales Comparison Approach	The sales utilized represent the most similar sales from the subject's neighborhood. All sales are duplex uses located in the subject's neighborhood as described on Page 1, and feature similar room count, functional utility, and general appeal to the market. Due to varying levels of updating and maintenance, adjustments for age/condition have been based on effective ages rather than actual ages. These adjustments have been applied at a lower rate than indicated by the Age/Life Method due to the reduced impact of depreciation on rental rates. Although property values in this area have stabilized, an adjustment for favorable market conditions was warranted for Comparable 6. This adjustment has been applied at a rate of 0.5% per month from the date of contract through December of 2017. Adjustments for differences in gross building area and other amenities (parking amenities, porch/patio, etc.) were also warranted for several sales utilized. After consideration for differences in property characteristics and market conditions, the four primary indicators above indicate a range of \$220,000 to \$229,680 with the subject commanding a value within this range.						

Indicated Value by Sales Comparison Approach \$ 225,000

Assumptions, Limiting Conditions & Scope of Work

File No.: 19040216

Property Address: 1121/1123 NE 22nd Ter City: Cape Coral State: FL Zip Code: 33909-4494

Client: City of Cape Coral Address: P.O. Box 150027, Cape Coral, FL 33915

Appraiser: Scott H. Simmons Address: 12600 World Plaza Lane, Suite 1, Fort Myers, FL 33907

STATEMENT OF ASSUMPTIONS & LIMITING CONDITIONS

- The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership.
- If so indicated, the appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in the appraisal report whether the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand.
- The appraiser has noted in the appraisal report any adverse conditions (including, but not limited to, needed repairs, depreciation, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property, or that he or she became aware of during the normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any hidden or unapparent conditions of the property, or adverse environmental conditions (including, but not limited to, the presence of hazardous wastes, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered as an environmental assessment of the property.
- The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.
- The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.
- If this appraisal is indicated as subject to satisfactory completion, repairs, or alterations, the appraiser has based his or her appraisal report and valuation conclusion on the assumption that completion of the improvements will be performed in a workmanlike manner.
- An appraiser's client is the party (or parties) who engage an appraiser in a specific assignment. Any other party acquiring this report from the client does not become a party to the appraiser-client relationship. Any persons receiving this appraisal report because of disclosure requirements applicable to the appraiser's client do not become intended users of this report unless specifically identified by the client at the time of the assignment.
- The appraiser's written consent and approval must be obtained before this appraisal report can be conveyed by anyone to the public, through advertising, public relations, news, sales, or by means of any other media, or by its inclusion in a private or public database.
- An appraisal of real property is not a 'home inspection' and should not be construed as such. As part of the valuation process, the appraiser performs a non-invasive visual inventory that is not intended to reveal defects or detrimental conditions that are not readily apparent. The presence of such conditions or defects could adversely affect the appraiser's opinion of value. Clients with concerns about such potential negative factors are encouraged to engage the appropriate type of expert to investigate.

Scope of Work

1. A complete inspection of the subject property.
2. Obtain dimensions for the property under appraisal.
3. Analyze the site pertaining to the subject property.
4. Obtain available comparable sales and listings data to compare with the subject.
5. Analyze the data that has been collected and apply the results appropriately to the valuation of the subject property.
6. Analyze the cost data applicable to the subject's improvements.
7. Using the data collected and the analyses performed to complete the appropriate approaches to value.
8. Explain the reasons why any approaches to value were not completed.
9. Analyze each of the approaches to value that have been completed to arrive at a value for each valuation analysis.
10. Reconcile the approaches to value to arrive at a final estimate of value.
11. Relay the data collected and analyzed to the client in summary format throughout the final appraisal report.

Hypothetical Conditions

None

Extraordinary Assumptions

None

Additional Comments (5/20/2019)

This report has been revised from its original submission to provide clarification for questions from the client regarding the subject's numerical address and discrepancies in GLA and GBA. The date of signature represents the most recent date of report delivery.

APPRAISER'S CERTIFICATION

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct.
- The credibility of this report, for the stated use by the stated user(s), of the reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions, and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- I have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- I did not base, either partially or completely, my analysis and/or the opinion of value in the appraisal report on the race, color, religion, sex, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property, or of the present owners or occupants of the properties in the vicinity of the subject property.
- Scott H. Simmons (Cert Res RD6203) made a personal inspection of the property that is the subject of this report.
- No one provided significant real property appraisal assistance to the person(s) signing this certification.

DEFINITION OF MARKET VALUE *:

The most probable price that a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus.

Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

- a. Buyer and seller are typically motivated.
- b. Both parties are well informed or well advised, and acting in what they consider their best interests.
- c. A reasonable time is allowed for exposure in the open market.
- d. Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
- e. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

Item Number: B.(16)
Meeting Date: 7/22/2019
Item Type: CONSENT AGENDA

AGENDA REQUEST FORM
CITY OF CAPE CORAL

TITLE:

Resolution 255-19 Approval of Contract for Purchase of Lots 93 and 94, Block 3025, Unit 43, Cape Coral Subdivision, 1305 NW 27th Street, Cape Coral, for the Festival Park project for the purchase price of \$12,000 plus closing costs not to exceed \$1,500; Department: Financial Services / Real Estate Division; Dollar Value: \$13,500; (Parks Capital Project/GO Bond Fund)
Note: Trade offer rejected by Seller.

REQUESTED ACTION:

Approve or Deny

STRATEGIC PLAN INFO:

1. Will this action result in a Budget Amendment? No
2. Is this a Strategic Decision? Yes
If Yes, Priority Goals Supported are listed below.
If No, will it harm the intent or success of the Strategic Plan?

ELEMENT F: ENHANCE THE QUALITY OF LIFE THROUGH ARTS AND CULTURE TO CREATE AND PROMOTE A VIBRANT, CULTURALLY DIVERSE COMMUNITY.

PLANNING & ZONING/HEARING EXAMINER/STAFF RECOMMENDATIONS:

SUMMARY EXPLANATION AND BACKGROUND:

1. In 2003 at a Strategic Planning Session City Council directed staff to begin purchasing property in Cape Coral Subdivision Unit 43 for a future park site, now known as Festival Park. Over the years, Staff had been working with various owners in the park area to purchase additional properties on a voluntary basis based on current independent state-certified appraisals.
2. Currently, the City owns 449 of the 517 parcels required for Festival Park, with one additional property contract currently pending. Included in the remaining properties to purchase is one (1) improved property located on the Northwind Canal. The subject contract is for a two-lot off-water parcel located within the designated Festival Park area.
3. With the recent GO Bond approval, City Staff has notified property owners within the Festival Park area of the City's desire to complete its acquisitions within the park. Staff submitted an offer to purchase the site based on an appraisal of a similar two-lot site by an independent state-certified appraiser, which has been accepted by the Seller. The contract requires the City to pay the closing costs incurred by the title company.
4. Staff recommends approval of the purchase contract to purchase Lots 93 and 94, Block 3025,

Unit 43, Cape Coral Subdivision, for the purchase price of \$12,000 plus closing costs not to exceed \$1,500.

RESOLUTION 255 - 19

A RESOLUTION OF THE CITY OF CAPE CORAL AUTHORIZING THE CITY MANAGER TO ENTER INTO A "CONTRACT FOR SALE AND PURCHASE" BETWEEN HANCOCK BUILDERS, LLC, AND THE CITY OF CAPE CORAL FOR THE PURCHASE OF LOTS 93-94, BLOCK 3025, UNIT 43, CAPE CORAL SUBDIVISION, FOR THE FESTIVAL PARK PROJECT; PROPERTY LOCATED AT 1305 NW 27TH STREET; PROVIDING AN EFFECTIVE DATE.

WHEREAS, in 2003, City Council directed staff to begin purchasing property in Unit 43, Cape Coral Subdivision, for the purpose of creating and developing Festival Park; and

WHEREAS, City staff has been working with various owners in the park area to purchase additional properties on a voluntary basis based on current independent state-certified appraisals; and

WHEREAS, the City has obtained a recent appraisal of a similar off-water property pursuant to Section 2-152 of the City of Cape Coral Code of Ordinances; and

WHEREAS, City staff recommends that the City purchase the subject property pursuant to the terms and price set forth in the contract; and

WHEREAS, the City Manager requests approval to enter into the "Contract for Sale and Purchase."

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF CAPE CORAL, FLORIDA, AS FOLLOWS:

Section 1. The City Council hereby authorizes the City Manager to execute a "Contract for Sale and Purchase" between Hancock Builders, LLC, and the City of Cape Coral for the purchase of Lots 93-94, Block 3025, Unit 43, Cape Coral Subdivision, as more fully described in the Contract, in the amount of \$12,000, plus closing costs not to exceed \$1,500. The property is located at 1305 NW 27th Street. A copy of the "Contract for Sale and Purchase" is attached hereto as Exhibit A.

Section 2. This resolution shall take effect immediately upon its adoption.

ADOPTED BY THE CITY COUNCIL OF THE CITY OF CAPE CORAL AT ITS REGULAR COUNCIL SESSION THIS _____ DAY OF _____, 2019.

CONTRACT FOR SALE AND PURCHASE

THIS IS A LEGALLY BINDING CONTRACT WHEN PROPERLY COMPLETED AND EXECUTED. IF NOT FULLY UNDERSTOOD, SEEK LEGAL ADVICE BEFORE SIGNING.

PARTIES: Hancock Builders, LLC, 1985 Cedar Bridge Avenue Suite 1, Lakewood, New Jersey 08701 as "**SELLER**", and City of Cape Coral, a Florida Municipal Corporation, P.O. Box 150027, Cape Coral, Florida 33915-0027, successors or assigns, as "**BUYER**", hereby agree that the **SELLER** shall sell and **BUYER** shall buy the following (hereinafter referred to as "**PROPERTY**") described property upon the following terms and conditions:

1. **LEGAL DESCRIPTION** of real estate located in Lee County, Florida:
Lots 93 and 94, Block 3025, Unit 43, Cape Coral Subdivision, as recorded in Plat Book 17, Pages 48-57, inclusive of the Public Records of Lee County, Florida.

2. **PURCHASE PRICE** **\$12,000.00**

3. **CONDITIONAL CONTRACT.** This contract for sale and purchase is a binding contract once it is executed by the **SELLER** and by the City Manager on behalf of the **BUYER**. However, this contract is expressly subject to approval by the Cape Coral City Council. If the Cape Coral City Council fails or refuses to approve the purchase within 45 calendar days of the date when the City Manager has signed this contract, then this contract shall be null and void. This contract is subject to applicable Florida probate proceedings, if required. **BUYER** and **SELLER** understand and agree that in the event probate proceedings are necessary, **SELLER** shall be solely responsible for any and all expenses necessary to complete said probate proceedings.

4. **EFFECTIVE DATE & CLOSING DATE.** The Effective Date of this contract shall be the date of Council authorization. This contract shall be closed, and the deed shall be delivered within 30 business days after Council authorization unless extended by other provisions of this contract. Such other provisions shall include, but not be limited to, paragraph 7. Possession shall be granted on the day of closing unless otherwise agreed in writing.
5. **CONVEYANCE.** **SELLER** shall convey title to the property to **BUYER** by Warranty Deed subject only to matters contained in this contract and taxes for the year of closing.
6. **RESTRICTIONS AND EASEMENTS.** **BUYER** shall take title subject to:
 - (a) Zoning and restrictions and prohibitions imposed by governmental authority;
 - (b) Restrictive covenants of record;
 - (c) Public utility easements of record, provided however said easements are located along the perimeter of the property and are not more than six feet (6') in width;
 - (d) Taxes for the year of closing and subsequent years;

Provided, however, that none of the foregoing shall prevent use of the entire property for the purpose of right-of-way or any other governmental purpose.

7. **EVIDENCE OF TITLE.** Within fifteen (15) days from the date of this contract, **BUYER** shall at **BUYER'S** expense, obtain a title insurance binder issued by a qualified title insurer of its choice, agreeing to issue to **BUYER**, upon the recording of the deed hereafter mentioned, a title insurance policy in the amount of the purchase price insuring the title to that real property. **BUYER** shall have fifteen (15) days from the date of receiving the evidence of title to examine same. If title is found to be defective, **BUYER** or closing agent shall, within said period of time, notify **SELLER** in writing specifying defects that need to be cured. For purposes of this contract, a requirement by the title insurer that the **SELLER** institute and complete a quiet title action shall be deemed to be a title defect that shall be cured by **SELLER**. If said defects render the title unmarketable or uninsurable **SELLER** shall have ninety (90) days from the receipt of

- such notice to cure the defects, and if after said period **SELLER** shall not have cured the defects, then **BUYER** shall have the option of (1) accepting the title as it then is; (2) affording **SELLER** additional time to cure the defect(s); or (3) terminate the contract by providing written notice to the **SELLER**.
8. **EXISTING MORTGAGES.** **SELLER** shall furnish estoppel letters from mortgagee(s) setting forth the principal balance, escrow balance, method of payment, and whether the mortgage is in good standing. It shall be **SELLER'S** obligation to obtain any satisfactions of mortgage required for closing.
 9. **SURVEY.** If **BUYER** desires a survey, **BUYER** shall have the property surveyed at its expense prior to closing date. If the survey shows an encroachment, the same shall be treated as a title defect.
 10. **OTHER AGREEMENTS.** No agreements or representations, unless incorporated in this contract, shall be binding upon any of the parties, unless they be in writing and agreed to by all parties.
 11. **MECHANIC'S LIENS.** **SELLER** shall execute an affidavit that there have been no improvements to the subject property and that **SELLER** has not entered any contracts for the provision of goods or services that could give rise to a mechanic's lien for the ninety (90) days immediately preceding the date of closing.
 12. **TIME IS OF THE ESSENCE** in the performance of this contract.
 13. **DOCUMENTS FOR CLOSING.** **SELLER** shall execute a Warranty Deed, Seller's Affidavit and other necessary closing documents provided by closing agent.
 14. **EXPENSES.** Documentary stamps, title insurance, title search, title exam, and settlement fees shall be paid by **BUYER**.

15. **PRORATION OF TAXES (REAL AND PERSONAL).** Taxes shall be prorated based upon the current year's tax without regard to discount. If the closing takes place and the current year's taxes are not fixed, and the current year's assessment is available, taxes will be prorated based upon such assessment and the prior year's millage. If the current year's assessment is not available, then taxes will be prorated on the prior year's tax, provided, however, if there is a completed improvement of the subject premises by January 1 of the year of closing, then the taxes shall be prorated to the date of closing based upon the prior year's millage. It is further agreed that should, upon receipt of current tax statement, the taxes be different by more than Ten Dollars (\$10.00) than those estimated, the proration shall be adjusted.
16. **ATTORNEY'S FEES AND COSTS.** In connection with any litigation arising out of the contract, the prevailing party shall be entitled to recover all costs incurred, including reasonable attorney's fees. The parties agree to venue in Lee County, Florida for any action arising out of this Contract.
17. **DEFAULT BY SELLER.** If **SELLER** fails to perform any of the covenants of this contract other than the failure of **SELLER** to render his title marketable after diligent effort **BUYER** may proceed at law or in equity to enforce its legal rights under this contract, including, but not limited to, the right to bring suit for specific performance. If **BUYER** fails to perform any of the covenants of this contract, **SELLER** may proceed at law or in equity to enforce its legal rights under this contract, including, but not limited to, the right to bring suit for specific performance.
18. All covenants and agreements herein contained shall extend to and be obligatory upon the heirs, executors, administrators, successors and assigns of the respective parties.
19. This agreement shall be interpreted, construed, and governed according to the Laws of the State of Florida.

20. The invalidity or unenforceability of any particular provision of this agreement shall not affect the other provisions hereof, and the agreement shall be construed in all respects as if such invalid and unenforceable provisions were omitted.
21. **SELLER** and **BUYER** hereby agree that this contract to purchase the real property described above is for a proper municipal purpose and grants the **BUYER** the right to enter the real property described above for the purpose of surveying, soil borings, or any other work as deemed necessary by the **BUYER**. The parties herein further agree that the purchase of this property does not destroy or cause any damage whatsoever to **SELLER** or his successor or assigns with respect to any commercial or residential property owned by them whose lands are being so purchased or located upon adjoining lands.
22. The place of closing and delivery of the deed to **BUYER** shall be at any office designated by **BUYER**.
23. **ENVIRONMENTAL AUDIT.** **BUYER** may perform or have performed, at **BUYER'S** expense, an environmental audit of the property. If such an audit identifies environmental problems unacceptable to the **BUYER** then **BUYER**, within fifteen (15) days of receipt of said environmental audit, may elect to accept the property in its existing condition or **BUYER** may terminate this Contract without obligation.
24. **REAL ESTATE COMMISSIONS.** **BUYER** and **SELLER** understand and agree that in the event **BUYER** has knowledge of any listing agreement for the subject property, then **BUYER**, at its option, may elect to notify and provide a copy of this contract to the Listing Broker. **SELLER** shall be solely responsible for any Broker compensation, Realtor notification or any other terms and conditions of any listing agreement. **SELLER** shall also be responsible for any Realtor transaction fee or administration fee.

Re.: Owners : William and Delilah Turpin
Property Address : 1010 NW 25th Terrace
County : Lee
City : Cape Coral

Dear Mrs. Andrews:

As requested, I have personally inspected and appraised the above referenced property. At the date of value, the subject property consisted of a 10,000 square foot lot. The property is located along the southern side of NW 25th Terrace, about 160 feet west of NW 10th Avenue, within the City of Cape Coral, in Lee County, Florida. The subject property is located in an area that will be developed as Festival Park by the City of Cape Coral.

The intended use of this Restricted Appraisal Report is to assist the client in determining the market value of the subject property. The purpose of the appraisal is to report the market value of the subject property. The format of the report is Restricted Appraisal Report, in that the findings and analysis of the report were prepared for exclusive use by the client, in conformance with Standards Rule 2-2(b) of the Uniform Standards of Professional Appraisal Practice (USPAP). Portions of the supporting data analyzed in the appraisal process have been included in this appraisal report. Additional data and other material are contained in the appraisal file, which is incorporated herein by reference.

The City of Cape Coral
Real Estate Division
c/o Dawn Andrews
May 30, 2019
Page Two

Based upon those factors discussed herein, the market value of the subject property, as of May 3, 2019 (date of last inspection), is:

\$12,000

Please do not hesitate to contact me if you have any questions or comments.

Sincerely,

Calhoun, Collister & Parham, Inc.

Richard H. Parham
State-Certified General
Real Estate Appraiser

CERTIFICATION STATEMENT

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- I have not performed other services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- I have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the *Uniform Standards of Professional Appraisal Practice*.
- I have made a personal inspection of the property that is the subject of this report.
- The following have provided significant real property appraisal assistance to the person signing this certification: Brett A. Meyers, State-Certified General Real Estate Appraiser RZ3409. This does not include any other professional assistance involving other disciplines, which are summarized under the "Scope of Appraisal" portion of the report.

Certification Statement (Continued)

- The reported analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Code of Professional Ethics and Standards of Professional Appraisal Practice of the Appraisal Institute.
- The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.
- As of the date of this report, I Richard H. Parham, State-Certified General Real Estate Appraiser RZ2256, have completed the Standards and Ethics Education Requirements for Candidates/Practicing Affiliates of the Appraisal Institute.

Richard H. Parham
State-Certified General
Real Estate Appraiser
RZ2256

GENERAL ASSUMPTIONS AND LIMITING CONDITIONS

1. No responsibility is assumed for the legal description or for matters including legal or title considerations. Title to the property is assumed to be good and marketable unless otherwise stated. The legal description is assumed to be correct for the purposes of this report.
2. The property has been appraised as free and clear, unencumbered by mortgages, liens, delinquent taxes, assessments, special or unusual deed conditions or restrictions, but subject to zoning regulations.
3. The plot plans and illustrative material in this report are included only to assist the reader in visualizing the property.
4. It is assumed there are no hidden or unapparent conditions of the property, subsoil, or structures. The appraiser(s) assumes no liability for any hidden or unapparent conditions of the property. No responsibility is assumed for such conditions, or for arranging for engineering studies that may be required to discover them.
5. Possession of this report, or a copy thereof, does not carry with it the right of publication.
6. Neither all nor any part of the contents of this report (especially any conclusions as to value, the identity of the appraisers, or the firm with which the appraisers are connected) shall be disseminated to the public through advertising, public relations, news, sales, or other media without the prior written consent and approval of the appraiser.
7. This report is based on the best data available. If additional facts and/or data become available, the appraiser reserves the right to make adjustments and to update the value conclusions contained in this report.

EXTRAORDINARY ASSUMPTIONS

There are no extraordinary assumptions for this report.

HYPOTHETICAL CONDITIONS

There are no hypothetical conditions for this report.

SUMMARY OF IMPORTANT FACTS AND CONCLUSIONS

Report Type: Restricted Appraisal Report

Date of Value: May 3, 2019 (date of last inspection)

Date of Report: May 30, 2019

Type of Value: Market Value

Location: The subject property is located along the southern side of NW 25th Terrace, about 160 feet west of NW 10th Avenue, within the City of Cape Coral, in Lee County, Florida.

Owners: William and Delilah Turpin

Tax I.D. No.: 27-43-23-C3-03014.0200

Rights Appraised: Fee Simple Estate

Site Data: The subject property contains 10,000 square feet. The site has about 80 feet of frontage along the south side of NW 25th Terrace, at a depth of 125 feet. Access to the property is from NW 25th Terrace.

Improvement Data: The subject property consists of vacant land.

Zoning: R-1B, Single-Family Residential, City of Cape Coral

Land Use Designation: PK, Parks and Recreation, City of Cape Coral

Market Value: **\$12,000**

IMPORTANT DEFINITIONS

Appraisal (noun) is the act or process of developing an opinion of value; an opinion of value. (adjective) of or pertaining to appraising and related functions such as appraisal practice or appraisal services.¹

Client is the party or parties who engage, by employment or contract, an appraiser in a specific assignment.²

Easement is the right to use another's land for a stated purpose.³

Exposure Time is an estimated length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal.⁴

Extraordinary Assumption is an assignment-specific assumption as of the effective date regarding uncertain information used in an analysis which, if found to be false, could alter the appraiser's opinions or conclusions.⁵

Fee Simple is absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power, and escheat.⁶

Highest and Best Use (in appraising real property) is the reasonably probable and legal use of vacant land or an improved property that is physically possible, appropriately supported, financially feasible, and that results in the highest value.⁷

Hypothetical Condition is a condition, directly related to a specific assignment, which is contrary to what is known by the appraiser to exist on the effective date of the assignment results, but is used for the purpose of analysis.⁸

Intended Use is the use(s) of an appraiser's reported appraisal or appraisal review assignment results, as identified by the appraiser based on communication with the client at the time of the assignment.⁹

Intended User is the client and any other party as identified, by name or type, as users of the appraisal or appraisal review report by the appraiser, based on communication with the client at the time of the assignment.¹⁰

⁹ *Ibid, Page 5.*

¹⁰ *Ibid.*

Jurisdictional Exception is an assignment condition established by applicable law or regulation, which precludes an appraiser from complying with a part of USPAP.¹¹

Leased Fee Interest is the ownership interest held by the lessor, which includes the right to the contract rent specified in the lease plus the reversionary right when the lease expires.¹²

Leasehold Interest is the right held by the lessee to use and occupy real estate for a stated term and under the conditions specified in the lease.¹³

Market Value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition are the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. Buyer and seller are typically motivated;
2. Both parties are well informed or well advised and acting in what they consider their own best interests;
3. A reasonable time is allowed for exposure in the open market;
4. Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
5. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.¹⁴

Replacement Cost is the estimated cost to construct, at current prices as of the effective appraisal date, a substitute for the building being appraised, using modern materials and current standards, design, and layout.¹⁵ Such replacement cost sometimes offsets functional obsolescence.

Report is any communication, written or oral, of an appraisal or appraisal review that is transmitted to the client or a party authorized by the client upon completion of an assignment.¹⁶

Reproduction Cost is the estimated cost to construct, at current prices as of the effective date of the appraisal, an exact duplicate or replica of the building being appraised, using the same materials, construction standards, design, layout, and quality of workmanship and embodying all the deficiencies, superadequacies, and obsolescence of the subject building.¹⁷

¹⁷ *The Dictionary of Real Estate Appraisal, 6th Edition, Published by the Appraisal Institute, Page 198.*

Scope of Work is the type and extent of research and analyses in an appraisal or appraisal review assignment.¹⁸

Special Purpose Property is a property with a unique physical design, special construction materials, or a layout that particularly adapts its utility to the use for which it was built.¹⁹

Workfile is documentation necessary to support an appraiser's analyses, opinions, and conclusions.²⁰

IDENTITY OF CLIENT

This appraisal report has been prepared for Dawn Andrews with the City of Cape Coral, who is considered the client for this appraisal assignment.

INTENDED USERS

The intended users of this report are the above identified client. The use of this report by others is not intended.

INTENDED USE

The intended use of this report is to assist the client in determining the market value of the subject property.

PURPOSE

The purpose of the appraisal is to report the market value of the subject property.

TYPE OF VALUE

The type of value determined herein is market value, as defined within the previous Important Definitions section.

DATE OF VALUE

The date of value is May 3, 2019, which represents the date of last inspection.

DATE OF REPORT

The date of this report is May 30, 2019.

PROPERTY RIGHTS APPRAISED

The property rights or interest to be appraised is the undivided fee simple interest as if free and clear of all liens, mortgages, encumbrances, and/or encroachments, unless otherwise provided for herein.

LEGAL DESCRIPTION

Cape Coral Unit 43, Block 3014, Lots 20 and 21, as recorded in Lee County Official Records Book 17 Page 50.

OWNERSHIP AND SALES HISTORY

A search of the public records of Lee County indicates there have been no arm's length transfers of the subject property within the three years prior to the date of value. I am unaware of any contracts or agreements of sale involving the subject property at the date of value.

SCOPE OF APPRAISAL

The scope of work performed in completing this appraisal includes:

- discussions with the client;
- the identification and inspection of the subject property;
- the determination of the appraisal problem and appropriate scope of work for this assignment;
- research into physical and economic factors regarding properties in the market area as related to value;
- a highest and best use analysis of the subject property, taking into consideration development trends in the area;
- the identification and inspection of all comparable sales utilized herein;
- extensive data research;
- the valuation of the subject property via the sales comparison approach.

The subject property is located along the southern side of NW 25th Terrace, about 160 feet west of NW 10th Avenue, within the City of Cape Coral, in Lee County, Florida. The vacant site contains 10,000 square feet.

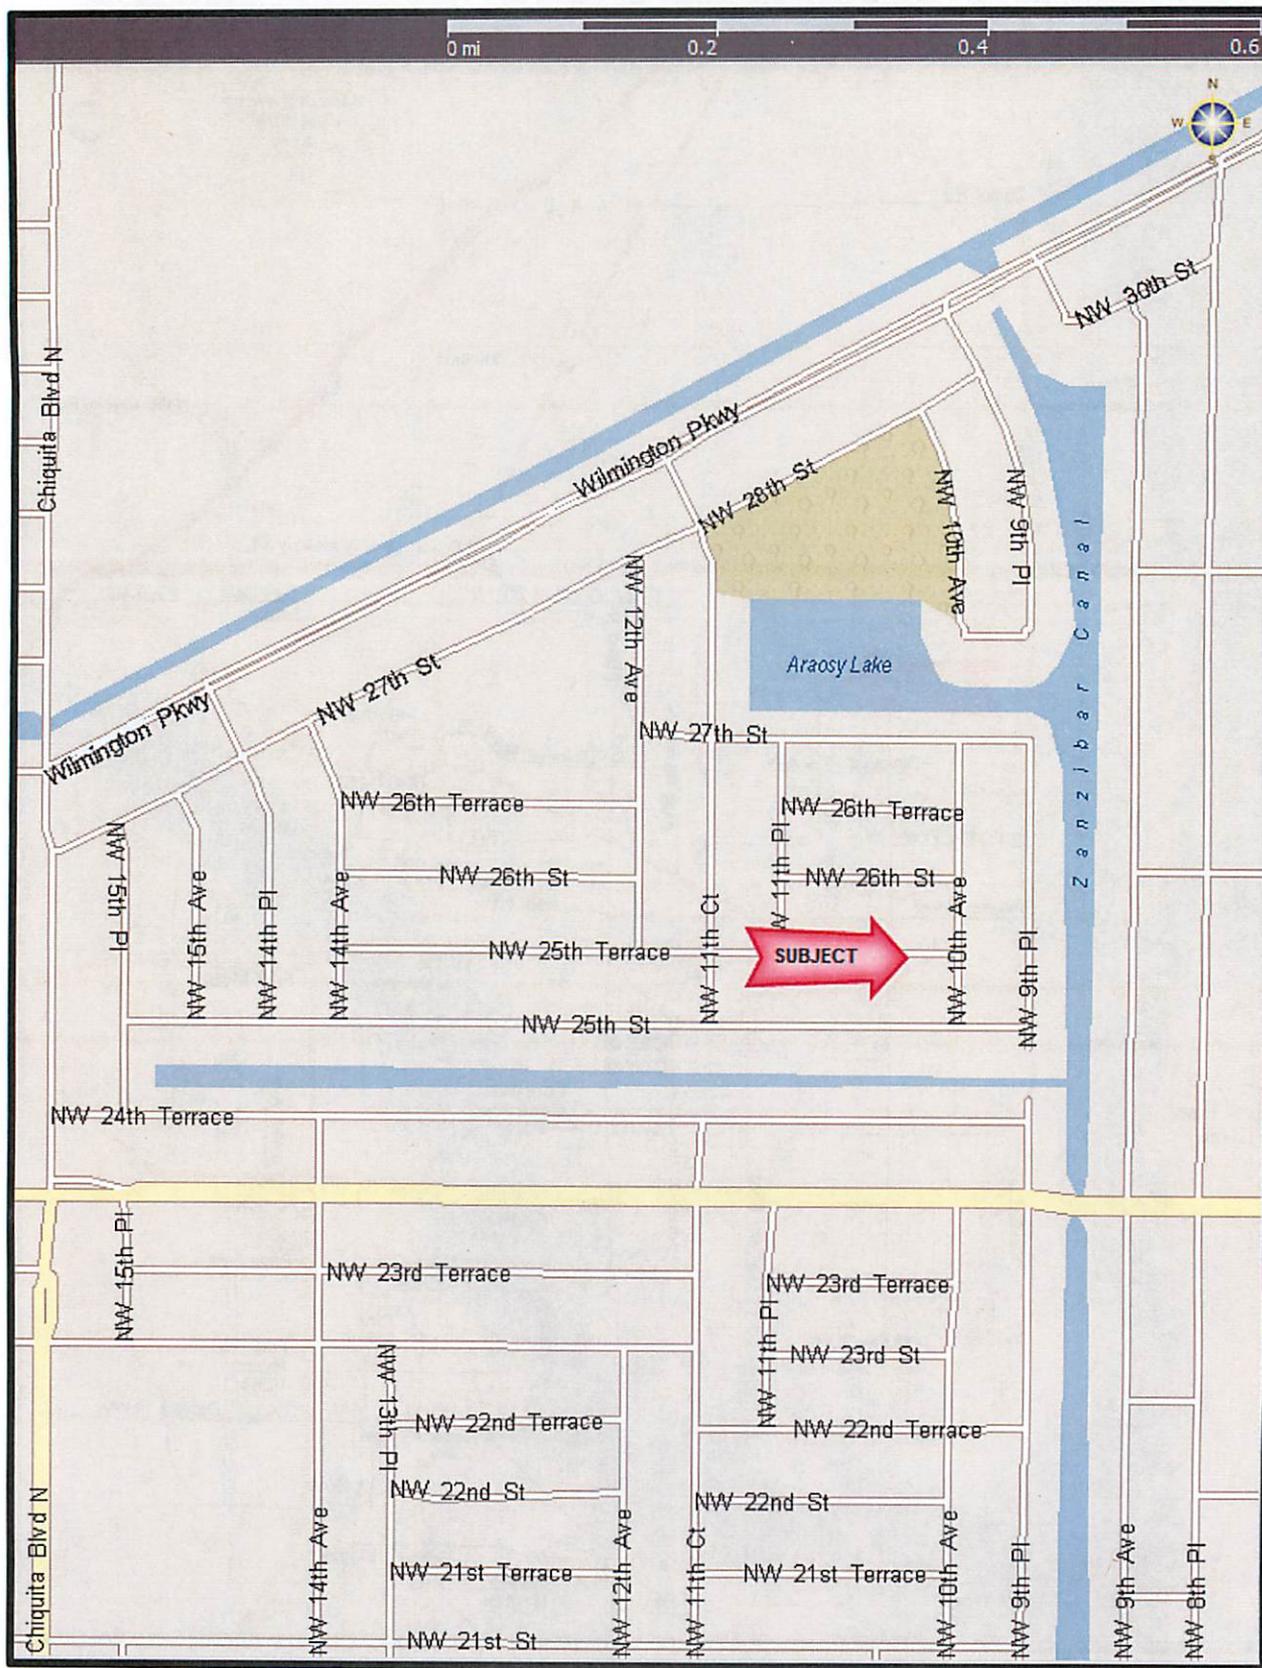

Within this report, the cost, sales comparison, and income approaches will be considered. Those approaches deemed applicable will be utilized, and if any particular approach is not considered applicable, then a summary explanation as to why this particular approach is excluded will be given.

Extensive and detailed research has been completed to research and analyze sales of properties similar to the subject. These properties are located in Lee County, with those utilized to value the subject summarized within the body of this report. Additional data is also contained within the appraisers' files. Therefore, these files are an integral part of this appraisal assignment and are incorporated herein by reference. In the process of researching each sale, the deed and mortgage (as applicable) of each transaction were obtained.

AERIAL MAP

SUBJECT PHOTOGRAPHS

Photo #1 – Southeasterly view of subject property from NW 25th Terrace.

Photo #2 – Southwesterly view of subject property from NW 25th Terrace.

PROPERTY DESCRIPTION

Location

The subject property is located along the southern side of NW 25th Terrace, about 160 feet west of NW 10th Avenue, within the City of Cape Coral, in Lee County, Florida.

Street/Roads

NW 25th Terrace is a two-lane, asphalt-paved roadway.

Land

The subject property contains two platted lots containing a total of 10,000 square feet. The site has about 80 feet of frontage along the south side of NW 25th Terrace, at a depth of 125 feet. The property is generally level, near road grade, and partially cleared.

A physical inspection of the subject property indicates its soils appear capable of supporting development, especially considering the surrounding development patterns. Electric and telephone services are available.

Ingress/Egress

The subject property has access from NW 25th Terrace.

Easements/Encroachments

Although title work was not provided, a review of public records indicates there are no easements or encroachments that would have an adverse impact on the development potential of the site.

Utilities

The subject property has access to electricity and telephone. Well and septic systems are typical in the subject's market area.

Improvements

The subject property consists of vacant land.

ZONING/FUTURE LAND USE

The subject property has a zoning designation of R-1B, Single-Family Residential District by the City of Cape Coral. The subject's future land use designation is PK, and Parks and Recreation by the City of Cape Coral.

HIGHEST AND BEST USE

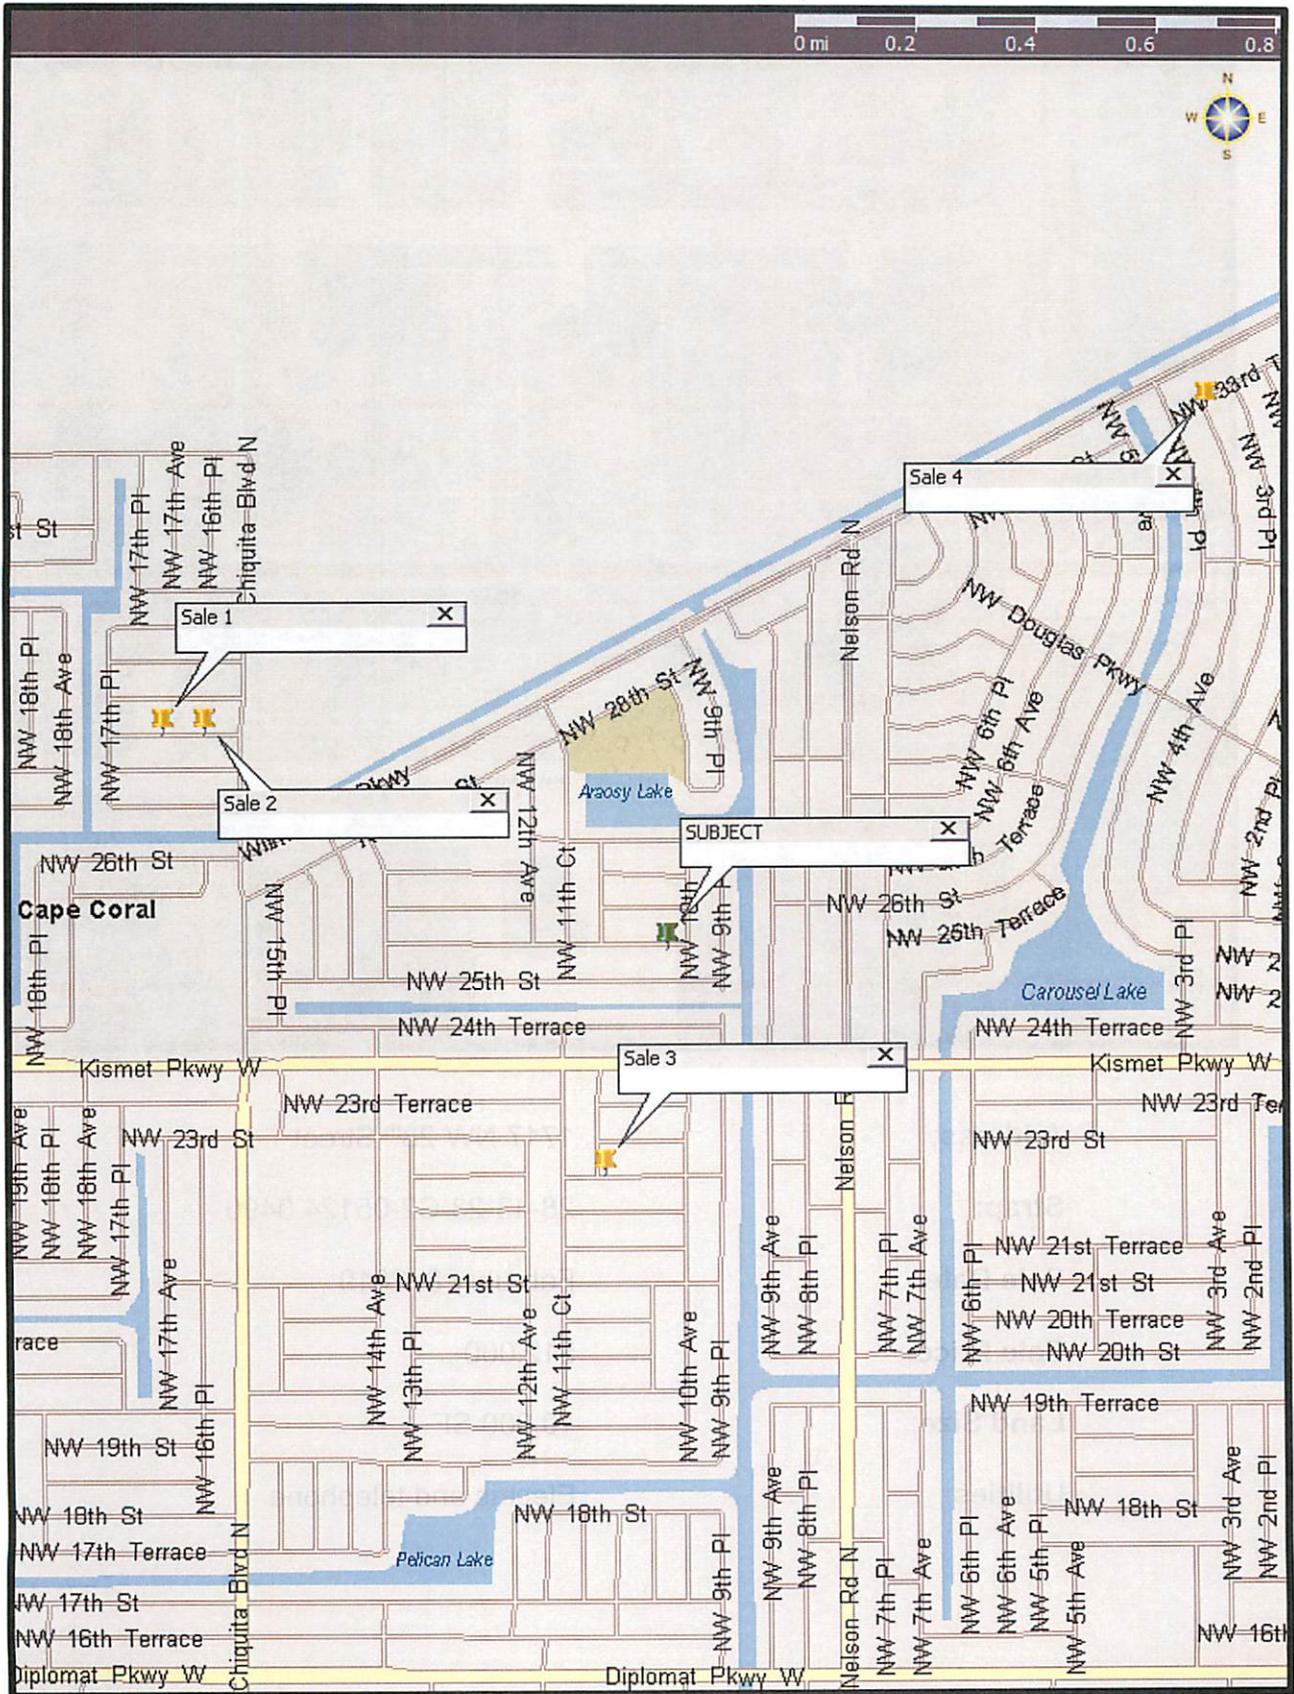

Highest and Best Use Conclusion

The highest and best use for the subject property is for a single-family residential use.

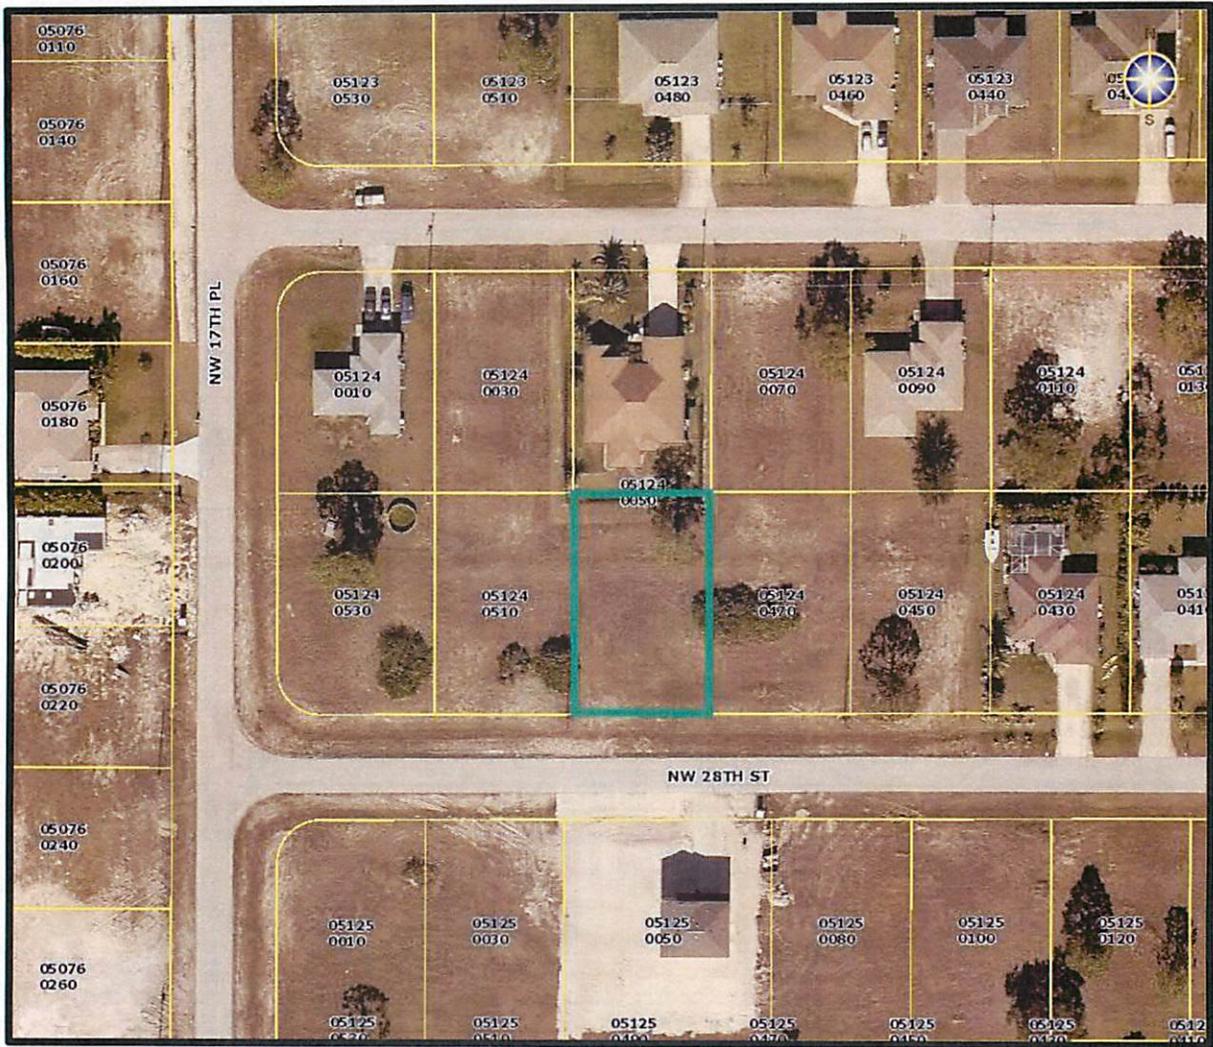

APPRAISAL METHODOLOGY

In determining the market value of the subject property, consideration was given to the cost, sales comparison, and income capitalization approaches to value. The subject property consists of vacant land. Therefore, the sales comparison approach is applicable in valuing the property. The income and cost approaches are not applicable in valuing the subject property.

SALES MAP

SALE 1

Address: 1717 NW 28th Street
Strap: 28-43-23-C2-05124.0490
Sale Date: February 8, 2019
Sale Price: \$12,000
Land Size: 10,000 SF
Utilities: Electric and telephone

SALE 2

Address: 1625 NW 28th Street
Strap: 28-43-23-C2-05124.0390
Sale Date: April 19, 2019
Sale Price: \$12,000
Land Size: 10,000 SF
Utilities: Electric and telephone

SALE 3

Address: 1101 NW 22nd Terrace
Strap: 34-43-23-C2-02984.0310
Sale Date: March 1, 2019
Sale Price: \$12,000
Land Size: 10,625 SF
Utilities: Electric and telephone

SALE 4

Address:	3230 NW 4 th Avenue
Strap:	23-43-23-C3-02775.0320
Sale Date:	March 18, 2019
Sale Price:	\$11,500
Land Size:	10,000 SF
Utilities:	Electric and telephone

LAND VALUE

The subject property consists of a 10,000 square foot site with a highest and best use for a single-family residential use. In determining the subject's land value, a sales search was conducted for vacant sites similar in size, location, and highest and best use characteristics to the subject. As a result of the sales search, the land sales below have been researched, verified, analyzed, and compared to the subject.

I have analyzed the comparable sales based on the unit value paid and the qualitative method which gives consideration to the various similarities and differences between the sales and the subject but does not apply specific adjustments in the analysis.

The research of comparable land sales is summarized below:

Sale No.	Sale Date	Sale Price	Size (SF)
1	02/08/2019	\$12,000	10,000
2	04/19/2019	\$12,000	10,000
3	03/01/2019	\$12,000	10,625
4	03/18/2019	\$11,500	10,000

Conclusion of Land Value

The comparable sales have similar single-family residential highest and best use as the subject and range in price from \$11,500 to \$12,000. Considering the similarities and differences between the comparable sales and the subject, the indicated value for the subject, as of May 3, 2019 (date of last inspection), is:

\$12,000

EXPOSURE TIME

The previously reported value estimate is based upon a reasonable market exposure time. Based on current market conditions and research in the market, the estimated exposure time is in the range of three to six months to achieve the market value as shown above. This assumes a competitive open market, and further assumes a reasonable asking price relative to the value reported.

GENERAL RELEASE

KNOW ALL MEN BY THESE PRESENTS that THE CITY OF CAPE CORAL, its heirs, assigns, legal representatives, successors and personal representatives, hereinafter referred to as the Releasing Party, for and in consideration of the total sum of ONE HUNDRED SEVENTY-SIX THOUSAND and NO/100 DOLLARS (\$176,000.00), receipt of which is hereby acknowledged, has released, acquitted, and discharged, and by these presents do hereby release, acquit, and forever discharge LAMBERT'S CABLE SPLICING COMPANY, Gallagher, Bassett Services Inc. LLC, L&S CABLE, LLC, NORTH AMERICAN RISK SERVICES, INC, and HOUSTON SPECIALTY INSURANCE COMPANY, any reinsurer or insurer thereof, their respective administrators, successors, assigns, employees, agents, attorneys, officers, directors, and representatives, hereinafter referred to as the Released Parties, of and from any and all claims, actions, causes of action, damages or demands, both compensatory and punitive, in whatever name or nature, in tort, in contract or by statute, in any manner arisen, arising, or growing out of any and all property damage claims, property damage causes of action, and any property matter arising or growing out of or on account of a property loss, including but not limited to the damage done to a water main, which occurred on or about August 26, 2017, at or near 1615 NE 2nd Street, Cape Coral, Lee County, Florida.

This release covers any and all property damage claims of the Releasing Party whether past, present, or future and any and all other claims for benefits, loss or damage, lost profits, lost sales, delay damages, property loss of use, property loss or damage, contractual or extra contractual claims or claims of consequential damages and expenses which have arisen, arise, or which may hereafter arise out of the incidents or matters which were alleged to have occurred at or near 1615 NE 2nd Street, Cape Coral, Lee County, Florida.

The Releasing Party further agrees to release, acquit and forever discharge the Released Parties for any claim or claims for bad faith, extra contractual or punitive damage claims of any nature arising out of the investigation, claims handling and/or adjustment of claims arising from the incidents.

ALL PARTIES TO THIS GENERAL RELEASE ARE TO BEAR THEIR OWN RESPECTIVE ATTORNEY'S FEES AND COSTS.

It is understood and agreed that the payment made herein is not to be construed as an admission of any liability by or on behalf of the Released Parties; but, instead, the monies being paid hereunder as consideration for this release are being given in order to avoid litigation, the uncertainties stemming from litigation, as well as to protect and secure the good name and good will of the Released Parties.

To secure this settlement and the payment of the aforesaid sum, the undersigned hereby declares that it is of the legal age and that it relies wholly upon its own judgment, belief, and knowledge of the nature, extent, and duration of its damages and that no representations or statements about any such claims, past, present, or future, made by

any agent, adjuster, attorney, or employee of the Released Parties, or their insurers, have influenced the undersigned in making or induced the undersigned to make this settlement.

It is further acknowledged that there is no agreement or compromise on the part of the Released Parties to do or omit to do any act or thing not herein mentioned and that the within consideration is in full and complete settlement of any and all claims, damages, or demands of the undersigned for all claims arising from or out of any and all matters referenced in this release against the Released Parties, as mentioned above.

The parties further acknowledge and agree that they will keep the terms, amount and facts of this Release completely and wholly confidential and that they will not directly or indirectly hereafter reveal, show or otherwise disclose the terms hereof to anyone not a party to this Release, absent express written consent of all parties except to (a) the parties' attorneys and accountants on a need to know basis all of whom will be informed of and be bound to the provisions of this paragraph; (b) as may be required by the Internal Revenue Service; (c) regulatory required disclosures (d) order by a court of competent jurisdiction; and (e) to the extent permitted under public records law.

I HAVE READ THIS GENERAL RELEASE AND HEREBY ACKNOWLEDGE THAT I UNDERSTAND AND ACCEPT ALL OF THE TERMS AND CONDITIONS THEREIN AND THAT I HAVE DONE SO WITH THE ADVICE OF MY COUNSEL.

IN WITNESS WHEREOF, I have hereunto set my hand and seal this ____ day of _____, 2019.

SALARY RANGE

\$17.80 - \$28.47 Hourly
\$37,024.00 - \$59,217.60 Annually

GENERAL STATEMENT OF JOB:

SAFETY SENSITIVE: No

FINGERPRINTING REQUIRED: Yes

Under general supervision of the Council Officer Manager or designee, performs diversified office support and administrative functions. Position exercises considerable discretion due to the sensitive and confidential nature of information processed at this location; and usually performs such independently with periodic supervision or review.

Responsibilities and Reporting During an Emergency Situation: If assigned, employees in this classification will be required to report and carry out duties as directed for the duration of an emergency. Depending on the nature of the emergency, this may require working around the clock for several days on short notice.

SPECIFIC DUTIES AND RESPONSIBILITIES:

The intent of this job description is to provide a representative summary of the major duties and responsibilities performed by incumbents of this job. Incumbents may be requested to perform job-related tasks other than those specifically presented in this description.

- Provides public assistance in person, via telephone, internet, e-mail, or by mail. Directs people to appropriate entities for assistance.
- Researches information and provides follow-up as applicable.
- Processes data and information received into a variety of formats specific to department or government agency requirements including database updates, reports, purchase orders, billing statements, forms, digital media, scanned images and applications.
- Operates computer applications in transferring, tracking, transcribing and composing various documentation including division correspondence, memoranda, reports, spreadsheets, department logs and records.
- Arranges scheduling for meetings, travel, equipment repair and service, and department functions as needed.
- Receives, processes and distributes division mail, and prepares forms, letters, and parcels for mailing.

- Prepares and distributes various division records, reports, notices, and other relevant materials.
- Maintains professional contact with other agencies as applicable.
- Orders department materials and supplies as required.
- Performs other related duties as required.

MINIMUM QUALIFICATIONS:

Education and Experience

- High School diploma/GED.
- Two (2) years of experience in modern office support functions (i.e., data entry, computer use, and records maintenance).

Licenses or Certifications

- None.

OTHER JOB REQUIREMENTS

- None.

PREFERRED QUALIFICATIONS

- None.

ADDITIONAL MINIMUM QUALIFICATIONS REQUIRED: KNOWLEDGE, SKILLS, AND ABILITIES:

Knowledge of:

- Modern office support functions.
- Report and record keeping principles and techniques.
- Alphabetic and numeric filing principles and methods.
- Business English, the application of such to a variety of formats and styles and editing principles and techniques.
- Cash management, business mathematics, and basic accounting principles and practices.

Skill in:

- Written, verbal, electronic, and visual communications for effective expression and clarity.
- The operation of various computer or other electronic devices and applications, to include Microsoft Office Word and Excel.
- Customer service.
- Organization, attention to detail, prioritization, and time management.
- Scheduling and department calendar maintenance.

Ability to:

- Learn and follow Federal, State, City and Department laws, regulations, policies and practices and terminology for City Council Offices.
- Relate to people beyond giving and receiving instructions, to include applying consistent courtesy and tact in considerable public contact and/or confrontational

situations.

- Adapt to performing under frequent deadlines and/or in response to emergencies.
- Apply sound judgment and interpretation based on acquired knowledge in circumstances where limited standardization exists.
- Utilize various modern computer word processing, spreadsheet, and database applications.
- Exercise discretion and maintain confidentiality of sensitive information received and processed.
- Utilize a variety of modern office equipment, i.e., computers, facsimile machines, copiers and scanners.
- Establish and maintain effective working relationships with supervisor, support staff and other departments.
- Organize and review work for efficient results and accuracy.

MINIMUM STANDARDS REQUIRED:

WORK ENVIRONMENT/ CONDITIONS

The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Tasks are performed in a common office environment.

PHYSICAL DEMANDS

The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

The position is generally *sedentary*. Employees sit most of the time but may walk or stand for brief periods. Tasks may require some unassisted lifting, carrying, pushing and/or pulling of lightweight objects up to 20 pounds. Tasks may require prolonged periods of visual concentration or keyboard/mouse use.

Requires the ability to speak, hear (perceive sound) and/or signal people to convey and exchange information; differentiate between colors or shades of color; read a variety of materials, at times complex; apply principles of rational problem-solving; record and deliver information, explain procedures, issue and follow oral and written instructions; and communicate effectively and efficiently in Standard English.

Subject: [EXTERNAL] - Resignation

Chairman Starner,

It is with some regrets that I inform you that my wife and I are building a new home in Babcock Ranch. It is located in the portion of Babcock Ranch located in Charlotte County, although only a very short distance from Lee County. Since I will no longer be a resident of Cape Coral, I am resigning from the Budget Review Committee. I could wait a few weeks, but I think it would be better all around if the committee were composed of people who will actually be in Cape Coral during the time the upcoming budget is in effect. Therefore, I am resigning effective immediately. It has been a pleasure serving with you and the other members of the committee.

Sincerely,

Gene Smith

TITLE:

Resolution 114-19 Public Input Initial Assessment Resolution for Lot Mowing Services

REQUESTED ACTION:

Approve or Deny

STRATEGIC PLAN INFO:

1. Will this action result in a Budget Amendment? No
2. Is this a Strategic Decision? Yes
 - If Yes, Priority Goals Supported are listed below.
 - If No, will it harm the intent or success of the Strategic Plan?

ELEMENT E: INCREASE QUALITY OF LIFE FOR OUR CITIZENS BY DELIVERING PROGRAMS AND SERVICES THAT FOSTER A SAFE COMMUNITY

PLANNING & ZONING/HEARING EXAMINER/STAFF RECOMMENDATIONS:

SUMMARY EXPLANATION AND BACKGROUND:

The Resolution establishes a not-to-exceed annual lot mowing assessment rate for lot mowing and owl nest trimming. It also allows staff to prepare an updated Assessment Roll for the Fiscal Year (FY) beginning October 1, 2019 and sets the Final Public Hearing date.

The resolution sets forth a maximum estimated cost per Equivalent Lot Unit for lot mowing services for FY 2020 as follows:

- District 1- \$32.70
- District 2- \$24.99
- District 3- \$25.31
- District 4- \$24.24

The not-to-exceed rate is used for notification. It can't be raised, but can be lowered by Council at the Final Public Hearing.

DATE: July 16, 2019

SUBJECT: Lot Mowing Assessment FY 2020

On April 1, 2018, the City entered into a contract with CBI, Inc. to provide mowing services. The mowing contract is for five years with three one-year renewal periods. CBI, Inc. also provides trimming services for the Burrowing Owl Nest Protection Program. The trimming contract expires on 9/26/2019 and has three one-year renewal periods available.

The table below presents FY 2018, FY 2019 and proposed rates for FY 2020 and all are based on the average 10,000 sq. ft. lot.

District	FY 2018 Rate Per 10,000 Sq. Ft. Lot	FY 2019 Rate Per 10,000 Sq. Ft. Lot with One-Time \$ 15.00 Hurricane Debris Removal Charge	FY 2019 Rate Per 10,000 Sq. Ft. Lot Without One-Time \$15.00 Hurricane Debris Removal Charge	Proposed FY 2020 Rate Per 10,000 Sq. Ft. Lot
District 1	\$ 65.54	\$ 80.40	\$ 65.40	\$ 65.40
District 2	\$ 49.64	\$ 64.98	\$ 49.98	\$ 49.98
District 3	\$ 49.64	\$ 65.62	\$ 50.62	\$ 50.62
District 4	\$ 49.62	\$ 63.48	\$ 48.48	\$ 48.48

The Lot Mowing Rate Resolution 114-19 is scheduled for Introduction at the July 22, 2019 Regular Council Meeting. At that time, a not-to-exceed rate will be determined by Council for notification to the public prior to the Public Hearing on August 26, 2019.

JC/PC/VB/SM:sm

Lot Mowing Assessment

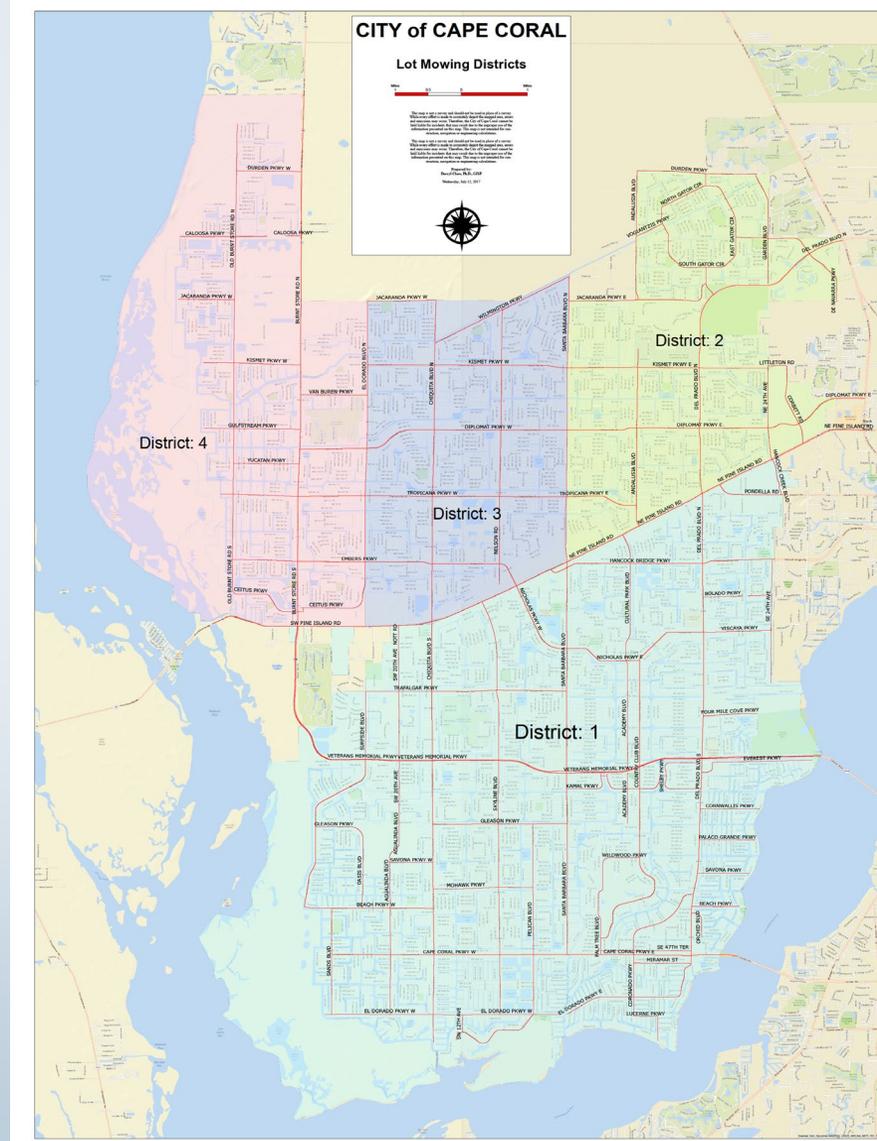

Resolution 114-19

July 22, 2019

Annual Assessment Process

- Established by Ordinance
- Requires Initial Resolution
 - Sets not-to-exceed amount
 - Sets public hearing date for final resolution
 - Provides notification requirements
- Lot Mowing of Vacant Parcels in 4 Districts
 - Based on 7 mows a year of a typical home site (10,000 sq. ft. parcel), over 400,000 mows are performed annually

Lot Mowing Districts

Lot Mowing Program

- Lots on program are mowed seven times a year
- Program begins in March and continues through December
- Pepper Tree removal
- Owl Nest Trimming was added to the program in FY 2017
- Owl Nest Trimming begins in July and continues through January

Assessments

District	FY 2018 Rate Per 10,000 Sq. Ft. Lot	FY 2019 Rate Per 10,000 Sq. Ft. Lot with One-Time \$ 15.00 Hurricane Debris Removal Charge	FY 2019 Rate Per 10,000 Sq. Ft. Lot Without One-Time \$ 15.00 Hurricane Debris Removal Charge	Proposed FY 2020 Rate Per 10,000 Sq. Ft. Lot
District 1	\$ 65.54	\$ 80.40	\$ 65.40	\$ 65.40
District 2	\$ 49.64	\$ 64.98	\$ 49.98	\$ 49.98
District 3	\$ 49.64	\$ 65.62	\$ 50.62	\$ 50.62
District 4	\$ 49.62	\$ 63.48	\$ 48.48	\$48.48

Pepper Tree Removal Program

- FY 2020: \$ 492,900 will be used for Pepper Tree Removal Program. To continue current \$850,000 Level of Service of approximately \$ 357,100 will be used from fund balance
- FY 2020 will be the last year this program can be supplemented by fund balance
- To continue the \$850,000 Level of Service, rates will need to increase in FY 2021

Any Questions?

RESOLUTION 114 - 19

AN INITIAL RESOLUTION OF THE CITY OF CAPE CORAL, FLORIDA, RELATING TO THE FUNDING OF LOT MOWING SERVICES WITHIN LOT MOWING ASSESSMENT AREAS (DISTRICTS 1, 2, 3, & 4); DETERMINING THAT CERTAIN REAL PROPERTY WILL BE SPECIALLY BENEFITED BY THE LOT MOWING SERVICES; ESTABLISHING THE TERMS AND CONDITIONS OF PROPOSED SPECIAL ASSESSMENTS TO FUND THE LOT MOWING SERVICES; ESTABLISHING A PUBLIC HEARING TO CONSIDER IMPOSITION OF THE PROPOSED SPECIAL ASSESSMENTS AND THE METHOD OF THEIR COLLECTION; DIRECTING THE PROVISION OF NOTICE IN CONNECTION THEREWITH; AND PROVIDING AN EFFECTIVE DATE.

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF CAPE CORAL, FLORIDA, AS FOLLOWS:

ARTICLE I. DEFINITIONS AND CONSTRUCTION

SECTION 1.01. DEFINITIONS. This Resolution constitutes the Initial Assessment Resolution for Lot Mowing Services in Fiscal Year 2019-20. As used herein, the following terms shall have the following meanings, unless the context hereof otherwise requires. Capitalized terms not otherwise defined herein shall have the meanings set forth in the Assessment Ordinance.

"Annual Cost Component" means the amount computed for each Tax Parcel pursuant to Section 4.03(A) hereof.

"Assessed Parcel" means a Tax Parcel subject to the Assessments contemplated hereunder.

"Assessment" means collectively, the District 1 Assessment, the District 2 Assessment, the District 3 Assessment, and District 4 Assessment.

"Assessment Area" means collectively, the proposed District 1 Lot Mowing Assessment Area, District 2 Lot Mowing Assessment Area, District 3 Lot Mowing Assessment Area, and District 4 Lot Mowing Assessment Area.

"Assessment Coordinator" means the person or entity designated by the Council to be responsible for coordinating Assessments, or such person's designee.

"Assessment Ordinance" means Ordinance No. 8-99, adopted by the City on March 8, 1999, as codified in Chapter 17, Article III of the City Code, as amended and supplemented.

"Assessment Roll" means collectively, the District 1 Assessment Roll, the District 2 Assessment Roll, the District 3 Assessment Roll, and the District 4 Assessment Roll.

"City" means the City of Cape Coral, Florida, a municipal corporation established by the State of Florida.

"Collection Cost" means the estimated cost to be incurred by the City during any Fiscal Year in connection with the collection of Assessments.

"Collection Cost Component" means the amount computed for each Tax Parcel pursuant to Section 4.03(B) hereof.

"Council" means the City Council of the City of Cape Coral, Florida.

"District 1 Assessment" means an annual special assessment imposed against Unimproved Lots located within the District 1 Assessment Area to fund District 1 Operating Costs related to the District 1 Lot Mowing Service, computed in the manner described in Section 4.03 hereof.

"District 2 Assessment" means an annual special assessment imposed against Unimproved Lots located within the District 2 Assessment Area to fund District 2 Operating Costs related to the District 2 Lot Mowing Service, computed in the manner described in Section 4.03 hereof.

"District 3 Assessment" means an annual special assessment imposed against Unimproved Lots located within the District 3 Assessment Area to fund District 3 Operating Costs related to the District 3 Lot Mowing Service, computed in the manner described in Section 4.03 hereof.

"District 4 Assessment" means an annual special assessment imposed against Unimproved Lots located within the District 4 Assessment Area to fund District 4 Operating Costs related to the District 4 Lot Mowing Service, computed in the manner described in Section 4.03 hereof.

"District 1 Assessment Area" means the District 1 Lot Mowing Assessment Area described in Section 3.01 hereof.

"District 2 Assessment Area" means the District 2 Lot Mowing Assessment Area described in Section 3.01 hereof.

"District 3 Assessment Area" means the District 3 Lot Mowing Assessment Area described in Section 3.01 hereof.

"District 4 Assessment Area" means the District 4 Lot Mowing Assessment Area described in Section 3.01 hereof.

"District 1 Assessment Roll" means the non-ad valorem assessment roll apportioning the District 1 Operating Costs among the Assessed Parcels comprising the District 1 Assessment Area.

"District 2 Assessment Roll" means the non-ad valorem assessment roll apportioning the District 2 Operating Costs among the Assessed Parcels comprising the District 2 Assessment Area.

"District 3 Assessment Roll" means the non-ad valorem assessment roll apportioning the District 3 Operating Costs among the Assessed Parcels comprising the District 3 Assessment Area.

"District 4 Assessment Roll" means the non-ad valorem assessment roll apportioning the District 4 Operating Costs among the Assessed Parcels comprising the District 4 Assessment Area.

"District 1 Lot Mowing Service" means the mowing of each equivalent lot unit, median, and right of way at least seven (7) times a year in the District 1 Assessment Area, pursuant to a contract between the City and a third-party contractor selected pursuant to the then existing policies of the City.

"District 2 Lot Mowing Service" means the mowing of each equivalent lot unit, median, and right of way at least seven (7) times a year in the District 2 Assessment Area, pursuant to a contract between the City and a third-party contractor selected pursuant to the then existing policies of the City.

"District 3 Lot Mowing Service" means the mowing of each equivalent lot unit, median, and right of way at least seven (7) times a year in the District 3 Assessment Area, pursuant to a contract between the City and a third-party contractor selected pursuant to the then existing policies of the City.

"District 4 Lot Mowing Service" means the mowing of each equivalent lot unit, median, and right of way at least seven (7) times a year in the District 4 Assessment Area, pursuant to a contract between the City and a third-party contractor selected pursuant to the then existing policies of the City.

"District 1 Operating Cost" means all or any portion of the expenses that are properly attributable to (A) District 1 Lot Mowing Service (less costs attributable to City-owned property such as medians and rights-of-way and less costs attributable to parcels that elect out of the District 1 Assessment Area), (B) other services related to the District 1 Lot Mowing Service which are provided by City staff (e.g., vegetation removal, etc.), and (C) imposition and collection of the District 1 Assessments including but not limited to Collection Costs, all under generally accepted accounting principles, including, without limiting the generality of the foregoing, reimbursement to the City for any funds advanced for such purposes, and interest on any interfund or intrafund loan.

"District 2 Operating Cost" means all or any portion of the expenses that are properly attributable to (A) District 2 Lot Mowing Service (less costs attributable to City-owned property such as medians and rights-of-way and less costs attributable to parcels that elect out of the District 2 Assessment Area), (B) other services related to the District 2 Lot Mowing Service which are provided

by City staff (e.g., vegetation removal, etc.), and (C) imposition and collection of the District 2 Assessments including but not limited to Collection Costs, all under generally accepted accounting principles, including, without limiting the generality of the foregoing, reimbursement to the City for any funds advanced for such purposes, and interest on any interfund or intrafund loan.

"District 3 Operating Cost" means all or any portion of the expenses that are properly attributable to (A) District 3 Lot Mowing Service (less costs attributable to City-owned property such as medians and rights-of-way and less costs attributable to parcels that elect out of the District 3 Assessment Area), (B) other services related to the District 3 Lot Mowing Service which are provided by City staff (e.g., vegetation removal, etc.), and (C) imposition and collection of the District 3 Assessments including but not limited to Collection Costs, all under generally accepted accounting principles, including, without limiting the generality of the foregoing, reimbursement to the City for any funds advanced for such purposes, and interest on any interfund or intrafund loan.

"District 4 Operating Cost" means all or any portion of the expenses that are properly attributable to (A) District 4 Lot Mowing Service (less costs attributable to City-owned property such as medians and rights-of-way and less costs attributable to parcels that elect out of the District 4 Assessment Area), (B) other services related to the District 4 Lot Mowing Service which are provided by City staff (e.g., vegetation removal, etc.), and (C) imposition and collection of the District 4 Assessments including but not limited to Collection Costs, all under generally accepted accounting principles, including, without limiting the generality of the foregoing, reimbursement to the City for any funds advanced for such purposes, and interest on any interfund or intrafund loan.

"Equivalent Lot Unit" means 5,000 square feet, the standard unit to be used in calculating Assessments, generally representing a rectangular platted lot measuring 40 feet by 125 feet in area, as determined for each Tax Parcel in accordance with Section 3.02 hereof.

"Final Assessment Resolution" means the resolution described in Section 17-36 of the Assessment Ordinance which shall confirm, modify, or repeal this Initial Assessment Resolution and which shall be the final proceeding for the imposition of the Assessments within the respective Assessment Areas to fund the provision of Lot Mowing Services therein for Fiscal Year 2019-2020.

"Fiscal Year" means the period commencing on October 1st of each year and continuing through the next succeeding September 30th, or such other period as may be prescribed by law as the fiscal year for the City.

"Fiscal Year 2019-2020" means the Fiscal Year commencing October 1, 2019.

"Government Property" means property owned by the United States of America, the State of Florida, a county, a special district, a municipal corporation, or any of their respective agencies or political subdivisions.

"Lot Mowing Service" means collectively, the District 1 Lot Mowing Service, the District 2 Lot Mowing Service, the District 3 Lot Mowing Service, and the District 4 Lot Mowing Service.

"Operating Cost" means collectively, the District 1 Operating Cost, the District 2 Operating Cost, the District 3 Operating Cost, and the District 4 Operating Cost.

"Parcel Area" means the geographic area of a Tax Parcel or portion thereof measured in square feet.

"Property Appraiser" means the Lee County Property Appraiser.

"Statutory Discount Amount" means the amount computed for each Tax Parcel pursuant to Section 4.03(C) hereof.

"Tax Parcel" means a parcel of property to which the Property Appraiser has assigned a distinct ad valorem property tax identification number.

"Tax Roll" means the real property ad valorem tax assessment roll maintained by the Property Appraiser for the purpose of the levy and collection of ad valorem taxes.

"Uniform Assessment Collection Act" means Sections 197.3632 and 197.3635, Florida Statutes, or any successor statutes authorizing the collection of non-ad valorem assessments on the same bill as ad valorem taxes, and any applicable regulations promulgated thereunder.

"Unimproved Lot" means a Tax Parcel within the Assessment Area that contains no improvements and those properties complying with the provisions of Section 4.06 hereof.

SECTION 1.02. INTERPRETATION. Unless the context indicates otherwise, words importing the singular number include the plural number, and vice versa; the terms "hereof," "hereby," "herein," "hereto," "hereunder," and similar terms refer to this Resolution; and the term "hereafter" means after, and the term "heretofore" means before, the effective date of this Resolution. Words of any gender include the correlative words of the other gender, unless the sense indicates otherwise.

SECTION 1.03. LEGISLATIVE FINDINGS. It is hereby ascertained, determined, and declared that:

- (A) Pursuant to Article VIII, Section 2(b) of the Florida Constitution, and Sections 166.021 and 166.041, Florida Statutes, the Council has all powers of local self-government to perform municipal functions and to render municipal services, except when prohibited by law, and such power may be exercised by the enactment of legislation in the form of City ordinances.
- (B) The Council may exercise any governmental, corporate, or proprietary power for a municipal purpose except when expressly prohibited by law, and the Council may legislate on any subject matter on which the Legislature may act, except those subjects described in paragraphs (a), (b), (c), and (d) of Section 166.021(3), Florida Statutes. The subject matter of paragraphs (a), (b), (c), and (d) of Section 166.021(3), Florida Statutes, is not relevant to imposition of assessments within the City.
- (C) The Council enacted the Assessment Ordinance to authorize, and provide a process for, the imposition and collection of special assessments, sometimes referred to as non-ad valorem assessments, to fund the costs of capital improvements and municipal services which provide a special benefit to the real property subject to the assessment.
- (D) In accordance therewith, the City imposes annual Assessments within the Assessment Areas to fund the provision of Lot Mowing Services therein for each Fiscal Year.
- (E) The Lot Mowing Service constitutes a Benefit Service as defined in Section 17-26 of the Assessment Ordinance.
- (F) The Lot Mowing Service preserves and enhances the value, use, marketability and enjoyment of Unimproved Lots located in the Assessment Area by improving the aesthetic appearance of each of the parcels in the Assessment Area, facilitating each owner's obligation to keep their property in compliance with the City Code and providing a safe environment for the property owners to engage in certain outdoor activities on such parcels.
- (G) Because the Unimproved Lots in the Assessment Area vary in size, shape, and potential use, land area is a reasonable indicator of the relative amount of benefit conveyed to and cost associated with providing each parcel with the Lot Mowing Service and is a fair method of allocating such benefit and cost to real property within the Assessment Area.
- (H) It is hereby ascertained, determined, and declared by the Council that each Assessed Parcel will be benefited by the City's provision of Lot Mowing Services in an amount not less than the Assessment for such Assessed Parcel, computed in the manner set forth in this Resolution.
- (I) Certain parcels of real property that elect out of the Assessment Area will not derive a special benefit from the Lot Mowing Service and, therefore, will not be included in the Assessment Area.
- (J) Any owner of a Tax Parcel that elects out of the Assessment Area shall provide, or cause to be provided, routine lot mowing services for such real property in accordance with applicable City Code provisions.
- (K) Failure of an owner of a Tax Parcel that elects out of the Assessment Area to maintain such property may result in the City providing Lot Mowing Services to such Tax Parcel, imposition of an Assessment against such parcel for Fiscal Year 2019-2020 and inclusion of the Assessment on the subsequent year's assessment roll in an amount equal to the prior year's Assessment, plus the Assessment for the upcoming year.

- (L) The Council hereby finds and determines that the Assessments, to be imposed in accordance with this Resolution, provide an equitable method of funding the annual Operating Costs related to the Lot Mowing Service for each Fiscal Year by fairly and reasonably allocating such Operating Costs based on the special benefit derived by the Unimproved Lots, in the manner hereinafter described.
- (M) The term “Lot Mowing Service” as used herein shall be liberally construed to include all costs and services to comply with Section 9-16 of the City of Cape Coral Code of Ordinances, whether provided by City staff or third-party contractors, associated with the maintenance of Unimproved Lots through the mowing of weeds, grass, vines, palmetto scrub, or other noxious vegetative growth and the clearance and removal of vegetation (including, but not limited to, invasive species such as Brazilian Pepper, Australian Pine, Carrotwood, Earleaf Acacia, and Melaleuca Species), using conventional mowing techniques, tractors, brush grinders, herbicides, and equipment appropriate for the landscape being serviced, such as push or riding mowers, trimmers, or such other mowing equipment as may be necessary to prevent disturbance of wildlife or protected species.

ARTICLE II. NOTICE AND PUBLIC HEARING

SECTION 2.01. PUBLIC HEARING. A public hearing will be conducted by the Council at 4:30 P.M. or as soon thereafter as the matter can be heard, on August 26, 2019, in the Council Chambers of City Hall located at 1015 Cultural Park Boulevard, Cape Coral, Florida, to consider (A) creation of the Assessment Area, (B) imposition of the Assessments, and (C) collection of the Assessments pursuant to the Uniform Assessment Collection Act.

SECTION 2.02. NOTICE BY PUBLICATION. Upon completion of the Assessment Roll, the Assessment Coordinator shall publish a notice of the public hearing authorized by Section 2.01 hereof in the manner and the time provided in Section 17-34 of the Assessment Ordinance. Such notice shall be in substantially the form attached hereto as APPENDIX A.

SECTION 2.03. NOTICE BY MAIL. Upon completion of the Assessment Roll, the Assessment Coordinator shall, at the time and in the manner specified in Section 17-35 of the Assessment Ordinance, provide first class mailed notice of the public hearing authorized by Section 2.01 hereof to each property owner proposed to be assessed at the address indicated on the Tax Roll. Such notice shall be in substantially the form attached hereto as APPENDIX B; provided, however, such notice may be combined with other annual special assessment notices sent to such property owner so long as the information contained in APPENDIX B is contained in such combined notice.

ARTICLE III. ASSESSMENT AREAS

SECTION 3.01. DESCRIPTION OF ASSESSMENT AREAS.

- (A) **DISTRICT 1.** The District 1 Assessment Area includes the Unimproved Lots located in the area of the City described as follows:

Properties located in the area South of NE and SW Pine Island Road, East of the westerly boundary of the City of Cape Coral, North of the southerly boundary of the City, and West of the easterly boundary of the City.

The District 1 Assessment Area is further described in APPENDIX C attached hereto. A map depicting the Assessment Areas is attached hereto as APPENDIX D.

- (B) **DISTRICT 2.** The District 2 Assessment Area includes the Unimproved Lots located in the area of the City described as follows:

Properties located North of NE Pine Island Road, East of Santa Barbara Boulevard North, West of the easterly boundary of the City and South of the northerly boundary of the City.

The District 2 Assessment Area is further described in APPENDIX C attached hereto. A map depicting the Assessment Areas is attached hereto as APPENDIX D.

- (C) DISTRICT 3. The District 3 Assessment Area includes the Unimproved Lots located in the area of the City described as follows:

Properties located North of SW Pine Island Road, East of El Dorado Parkway and the southerly extension of El Dorado Parkway to SW Pine Island Road, West of Santa Barbara Boulevard North, and South of the northerly boundary of the City.

The District 3 Assessment Area is further described in APPENDIX C attached hereto. A map depicting the Assessment Areas is attached hereto as APPENDIX D.

- (D) DISTRICT 4. The District 4 Assessment Area includes the Unimproved Lots located in the area of the City described as follows:

Properties located North of SW Pine Island Road, East of the westerly boundary of the City, West of El Dorado Parkway and the southerly extension of El Dorado Parkway to SW Pine Island Road, and South of the northerly boundary of the City.

The District 4 Assessment Area is further described in APPENDIX C attached hereto. A map depicting the Assessment Areas is attached hereto as APPENDIX D.

SECTION 3.02. ASSIGNMENT OF EQUIVALENT LOT UNITS. To reflect the relative amount of special benefit to be derived from the Lot Mowing Service, the number of Equivalent Lot Units attributable to each Tax Parcel within the Assessment Area shall be equal to the amount computed by dividing the Parcel Area by 5,000 square feet and rounding the result to the nearest tenth.

ARTICLE IV. ASSESSMENTS

SECTION 4.01. ESTIMATED COST. The maximum estimated Operating Cost for Fiscal Year 2019-2020 is as follows:

- (A) District 1 Operating Cost: \$863,371.56;
- (B) District 2 Operating Cost: \$753,810.86;
- (C) District 3 Operating Cost: \$814,035.41; and
- (D) District 4 Operating Cost: \$731,635.92.

The Operating Cost will be funded through the imposition of Assessments against Unimproved Lots located in the Assessment Area.

SECTION 4.02. IMPOSITION OF ASSESSMENTS. The Assessments shall be imposed against all Unimproved Lots located within the Assessment Area for each Fiscal Year hereafter and shall be computed in accordance with this Article IV. When imposed, the Assessments for each Fiscal Year shall constitute a lien upon the Tax Parcels located in the Assessment Area, pursuant to Section 17-39 of the Assessment Ordinance; provided, however, those Tax Parcels that elect out, pursuant to Section 4.05 hereof, shall be removed from the Assessment Roll upon compliance with the provisions therein and those Tax Parcels that elect in, pursuant to Section 4.06 hereof, shall be added to the Assessment Roll upon compliance with the provision therein.

The maximum estimated cost per Equivalent Lot Unit is as follows for the 2019-2020 Fiscal Year:

District 1	\$32.70
District 2	\$24.99
District 3	\$25.31
District 4	\$24.24

SECTION 4.03. COMPUTATION OF ASSESSMENTS. The annual Assessments shall be computed for each Assessed Parcel located in the Assessment Area in the manner set forth in this Section 4.03.

- (A) **ANNUAL COST COMPONENT.** The "Annual Cost Component" shall be calculated for each Fiscal Year for each Tax Parcel by (1) dividing the number of Equivalent Lot Units attributable to such Tax Parcel by the total Equivalent Lot Units attributable to all Tax Parcels within the particular Assessment Area in which the Tax Parcel is located, and (2) multiplying the result by the Operating Cost for the particular Assessment Area in which the Tax Parcel is located.
- (B) **COLLECTION COST COMPONENT.** The "Collection Cost Component" shall be computed each Fiscal Year for each Tax Parcel by (1) dividing the number of Equivalent Lot Units attributable to such Tax Parcel by the total Equivalent Lot Units attributable to all Tax Parcels within the entire Assessment Area, and (2) multiplying the result by the Collection Cost for the entire Assessment Area.
- (C) **STATUTORY DISCOUNT AMOUNT.** The "Statutory Discount Amount" shall be computed for each Tax Parcel as the amount allowed by law as the maximum discount for early payment of ad valorem taxes and non-ad valorem assessments, such amount to be calculated by deducting (1) the sum of the Annual Cost Component and the Collection Cost Component, from (2) the amount computed by dividing the sum of the Annual Cost Component and the Collection Cost Component by the factor of 0.96.
- (D) **ASSESSMENT.** The annual Assessment for each Tax Parcel shall be computed as the sum of (1) the Annual Cost Component, (2) the Collection Cost Component, and (3) the Statutory Discount Amount.
- (E) **DELINQUENCY.** Any delinquency or past due amounts attributable to each unimproved lot that has not been previously billed on the tax bill, is hereby approved inclusion on the Assessment Roll for Fiscal Year 2019-2020. Such Amount shall include Collections Costs and the Statutory Discount Amount.

SECTION 4.04. ASSESSMENT ROLL. The Assessment Coordinator is hereby directed to prepare a final estimate of the District 1 Operating Cost, District 2 Operating Cost, District 3 Operating Cost, and District 4 Operating Cost and to prepare the preliminary Assessment Roll for each Assessment Area in the manner provided in Section 17-33 of the Assessment Ordinance. The Assessment Coordinator shall apportion each Operating Cost among the parcels of real property within the related Assessment Area as reflected on the Tax Roll in conformity with Sections 3.02 and 4.03 hereof. The estimate of Operating Cost for each Assessment Area and each Assessment Roll shall be maintained on file in the offices of the Assessment Coordinator and open to public inspection. The foregoing shall not be construed to require that each Assessment Roll be in printed form if the amount of the Assessment for each Assessed Parcel can be determined by use of a computer terminal available to the public.

SECTION 4.05. OPTION TO ELECT OUT OF ASSESSMENT AREA. The Assessment Coordinator shall determine whether any property owner wishes to elect out of the Assessments if the property owner agrees to provide, or has provided, routine mowing service for such property in accordance with the City's requirements. As part of the first class mailed notice provided pursuant to Section 2.03 hereof, the Assessment Coordinator shall provide the following information:

- (A) Tax Parcel identification information;
- (B) the City requirements for maintaining Unimproved Lots;

- (C) a description of what will happen if the property owner fails to maintain their Unimproved Lot in accordance with City requirements, including the inclusion of the property in subsequent assessment years and the inclusion of any costs associated with providing Lot Mowing Services to that parcel in the current Fiscal Year, as well as any necessary administrative costs, on the next ad valorem tax bill due; and
- (D) a description, deadline, and method of informing the City of the owner's decision whether to elect out of the Assessment Area. Unless a response from a property owner in the manner described in such notice is received by the City by the deadline set forth in such notice, the real property shall remain on the Assessment Roll.

SECTION 4.06. OPTION TO ELECT IN ASSESSMENT AREA. The Assessment Coordinator may add Tax Parcels to an Assessment Roll in the event the City receives a request from the owner of such Tax Parcel to provide Lot Mowing Service. The owner of Any Tax Parcels added to an Assessment Roll in this manner shall either (1) consent to imposition of the Assessments in writing, or (2) must be provided the notice and other protections afforded pursuant to the Uniform Assessment Collection Act.

SECTION 4.07. APPLICATION OF THE ASSESSMENT PROCEEDS. Proceeds from the Assessments received during each Fiscal Year shall be applied by the City for payment of Operating Costs related to the Lot Mowing Services for such Fiscal Year in the Assessment Area in which the Tax Parcel is located. In the event the amounts collected through the levy of the Assessments are in excess of the amount required to pay costs of the Lot Mowing Service for that particular Assessment Area and the City's annual administration and collection costs for such year, such excess amount will be used to fund any remaining administrative and collection costs attributable to that particular Assessment Area and other services that specially benefit the properties in that particular Assessment Area (e.g., removal of vegetation, etc.), and any remaining funds will be applied to reduce the amount of the Assessments to be levied within that particular Assessment Area for the following year.

ARTICLE V. GENERAL PROVISIONS

SECTION 5.01. METHOD OF COLLECTION. The Assessments shall be collected pursuant to the Uniform Assessment Collection Act; provided, however, that any Assessment against Government Property shall be collected pursuant to Section 17-46 of the Assessment Ordinance.

SECTION 5.02. SEVERABILITY. If any clause, section, or provision of this Resolution shall be declared unconstitutional or invalid for any reason or cause, the remaining portion of said Resolution shall be in full force and effect and be valid as if such invalid portion thereof had not been incorporated herein.

SECTION 5.03. EFFECTIVE DATE. This Initial Resolution shall take effect immediately upon its adoption.

APPENDIX A

FORM OF NOTICE TO BE PUBLISHED

To Be Published on or before August 5, 2019

[MAP OF EACH DISTRICT LOT MOWING ASSESSMENT AREA]

NOTICE OF HEARING TO IMPOSE AND PROVIDE FOR
COLLECTION OF NON-AD VALOREM ASSESSMENTS

Notice is hereby given that the City Council of Cape Coral, Florida, will conduct a public hearing to consider the annual imposition of non-ad valorem special assessments in the District 1, 2, 3, and 4 Lot Mowing Assessment Areas, as shown above, and collection of the assessments on the ad valorem tax bill. The hearing will be held at 4:30 P.M., or as soon thereafter as the matter can be heard, on August 26, 2019, in the City Council Chambers of City Hall located at 1015 Cultural Park Boulevard, Cape Coral, Florida. In accordance with the Americans with Disabilities Act, persons needing a special accommodation or an interpreter to participate in this proceeding should contact the City Clerk's office at 239-574-0411 at least 3 days prior to the date of the hearing. All affected property owners have a right to appear at the hearing and to file written objections with the City Council prior to or at the public hearing. Any person wishing to appeal any decision of the City Council with respect to any matter considered will need a written record and may wish to ensure that a verbatim written record is made.

The assessments fund the annual costs incurred by the City in providing lot mowing and other related services in each Low Mowing Assessment Area for the fiscal year commencing October 1, 2019. The assessment for each unimproved property within each Lot Mowing Assessment Area will be based upon its relative parcel area (expressed in "equivalent lot units" of 5,000 square feet) compared to other parcels in that particular assessment area. A more specific description of the methodology, the assessment areas, and the process by which property owners may elect out of an assessment area is set forth in the Initial Assessment Resolution adopted by the City Council on [date]. Copies of the Initial Assessment Resolution, the estimate of costs, and the preliminary assessment roll are available for inspection at the Clerk's office, located at City Hall, 1015 Cultural Park Boulevard, Cape Coral, Florida.

Annual assessments to fund costs related to the lot mowing service in each assessment area will be collected on the ad valorem tax bill commencing with the tax bill to be mailed in November 2019. Failure to pay the assessments will cause a tax certificate to be issued against the property, which may result in a loss of title.

If you have any questions, please contact the Assessment Coordinator's office at 239-242-3852, Monday through Friday, between 7:30 a.m. and 4:30 p.m.

APPENDIX B

FORM OF NOTICE TO BE MAILED

***** THIS IS NOT A BILL *****

CITY OF CAPE CORAL, FLORIDA, NOTICE OF HEARING TO IMPOSE AND PROVIDE FOR COLLECTION OF ASSESSMENTS IN THE DISTRICT [1][2][3][4] LOT MOWING ASSESSMENT AREA

_____, 2019

[Property Owner's Name]
[Street Address]
[City, State, and Zip]

Re: Tax Parcel Number [Insert Number] District [1][2][3][4] Lot Mowing Assessment Area

Dear Property Owner:

The City of Cape Coral imposes annual non-ad valorem special assessments against real property located in the District [1][2][3][4] Lot Mowing Assessment Area, including the parcel identified above, to fund the cost of providing lot mowing services within such area. The assessment for each parcel of property is based on its relative parcel area (expressed in "equivalent lot units" of 5,000 square feet) compared to other parcels in that particular assessment area. The City Council will hold a public hearing at 4:30 P.M., or as soon thereafter as the matter can be heard, on August 26, 2019, in the City Council Chambers of City Hall located at 1015 Cultural Park Boulevard, Cape Coral, Florida, for the purpose of receiving comments on the imposition of assessments to fund the provision of lot mowing services in the City's fiscal year commencing October 1, 2019. You are invited to attend and participate in the hearing. You may also file written objections with the City Council prior to or during the hearing. If you decide to appeal any decision made by the City Council with respect to any matter considered at the hearing, you will need a written record of the proceedings and may need to ensure that a verbatim written record is made, including the testimony and evidence upon which the appeal is based. In accordance with the Americans with Disabilities Act, persons needing a special accommodation or an interpreter to participate in this proceeding should contact the City Clerk's office at 239-574-0411 at least 3 days prior to the date of the hearing.

A more specific description of the methodology, the assessment areas, and the process by which property owners may elect out of an assessment area are set forth in the Initial Assessment Resolution adopted by the City Council on [date]. Copies of the Initial Assessment Resolution, the estimate of costs, and the preliminary assessment roll, including the assessments, are available for your review at the Clerk's office, located at City Hall, 1015 Cultural Park Boulevard, Cape Coral, Florida. Information regarding the assessment for your specific property, including the parcel area assigned to your property (expressed in "equivalent lot units" of 5,000 square feet), is attached to this letter.

The annual assessment will include:

- your share of the operating cost attributable to lot mowing service;
- your share of the collection cost of the assessments; and
- the maximum discount allowed for early payment under the Uniform Assessment Collection Act.

The City expects to collect approximately \$[DISTRICT TOTAL] per year for the purposes described in this notice. The City intends to include the annual assessment on your ad valorem tax bill including the tax bill mailed in November 2019. Failure to pay your assessments will cause a tax certificate to be issued against the property, which may result in a loss of title.

You may also choose to elect out of the assessment and provide your own lot mowing service. IN ORDER TO ELECT OUT OF THE ASSESSMENT, YOU MUST CONTACT THE CITY'S ASSESSMENT COORDINATOR AT 239-242-3852 AND REQUEST A LOT MOWING ELECTION CARD TO BE SENT TO YOU. ONCE RECEIVED, YOU MUST RETURN THE LOT MOWING ELECTION CARD TO THE CITY NO LATER THAN SEPTEMBER 1, 2019. IF THE LOT MOWING ELECTION CARD IS NOT POSTMARKED ON OR EARLIER THAN SEPTEMBER 1, 2019, YOU WILL AUTOMATICALLY REMAIN ON THE ASSESSMENT ROLL FOR UPCOMING YEAR.

If you have any questions, please contact the Assessment Coordinator's office at 239-242-3852, Monday through Friday, between 7:30 a.m. and 4:30 p.m.

TITLE:

Resolution 115-19 Public Input Solid Waste Preliminary Assessment Resolution

REQUESTED ACTION:

Approve or Deny

STRATEGIC PLAN INFO:

- 1. Will this action result in a Budget Amendment? No
- 2. Is this a Strategic Decision? Yes
 - If Yes, Priority Goals Supported are listed below.
 - If No, will it harm the intent or success of the Strategic Plan? No

ELEMENT E: INCREASE QUALITY OF LIFE FOR OUR CITIZENS BY DELIVERING PROGRAMS AND SERVICES THAT FOSTER A SAFE COMMUNITY

PLANNING & ZONING/HEARING EXAMINER/STAFF RECOMMENDATIONS:

SUMMARY EXPLANATION AND BACKGROUND:

The Resolution establishes a not-to-exceed annual solid waste service assessment rate for solid waste collection and disposal services, facilities, and programs. It also allows staff to prepare an updated Assessment Roll for the Fiscal Year (FY) beginning October 1, 2019 and sets the Final Public Hearing date.

The not-to-exceed rate includes an increase in the total amount of annual tonnage generated and a requested 1.64% increase for collection service based on the Consumer Price Index (CPI).

The proposed not-to-exceed rate for residential Solid Waste services for FY 2020 is \$199.59.

The not-to-exceed rate is used for notification. It can't be raised, but can be lowered by Council at the Final Public Hearing.

DATE: July 16, 2019

SUBJECT: Residential Solid Waste Rates FY 2020

Effective October 1, 2010, the City entered into a contract with Waste Pro. It is in effect until September 30, 2020, with a possible additional 5-year renewal to September 30, 2025. The contract includes providing residents with a weekly pickup of solid waste, recyclables, and horticulture. Bulk and white goods are removed as needed. Staff will be presenting recommendations to Council on the possible additional 5-year renewal at a later date. See attached memo dated June 24, 2019.

The table below presents the FY 2018, FY 2019 and FY 2020 proposed rates. Lee County has proposed no increase for disposal for FY 2020 (Option 1).

Per the contract, Waste Pro may request rate adjustments based on the CPI. Waste Pro is requesting a rate adjustment of 1.64% based on the CPI for accounts for Fiscal Year (FY) 2020 (Option 2).

FY 2018 Residential Rate	FY 2019 Residential Rate	Proposed FY 2020 Residential Rate Option 1 (No increase in collection)	Proposed FY 2020 Residential Rate Option 2 (1.64% increase in collection)
\$190.19	\$196.22	\$197.46	\$199.59

The Solid Waste Rate Resolution 115-19 is scheduled for Introduction at the July 22, 2019 Regular City Council Meeting. At that time, a not-to-exceed rate will be approved by Council for notification prior to the Public Hearing on August 26, 2019.

Stacy Maine, Public Works Strategic Business Analyst *SM*

DATE: June 24, 2019

SUBJECT: Solid Waste Removal Contract

BACKGROUND

The City of Cape Coral's solid waste removal contract with Waste Pro became effective October 1, 2010 until September 30, 2015, with an automatic 5-year renewal to September 30, 2020 and a possible additional 5-year renewal to September 30, 2025.

The intent to negotiate or terminate the Agreement shall be communicated in writing by either the Contractor or the City not less than twelve (12) months prior to the expiration of the franchise period, but not more than eighteen (18) months prior to such expiration. Waste Pro has indicated they would like to negotiate the additional 5-year renewal to September 30, 2025.

The City is under no obligation to exercise the final 5-year renewal. The deadline for the City's determination and notification to Waste Pro, regarding the additional 5-year renewal, is September 30, 2019.

For comparison of residential solid waste collection and removal costs, Lee County was surveyed. The following graphs present the results:

1. Graph 1 - Collection Cost within Lee County - when comparing Cape Coral with the five (5) areas of unincorporated Lee County, Cape Coral is 2nd lowest.
2. Graph 2 – Collection and Disposal within Lee County - compared with the same five (5) areas, Cape Coral is lowest.

CURRENT STATUS

As a best practice, City management is doing the following:

1. The City Manager selected a team comprised of the Public Works Director, Finance Director, Procurement Manager and Public Works Strategic Business Analyst to start a dialogue with Waste Pro regarding the Level of Service (LOS) and any other factors that may impact a new contract.
2. This team will continue to research and analyze data obtained from similar size Florida municipalities regarding costs and their recent solicitation experience. The preliminary research indicates that it may be beneficial to negotiate with the current vendor. Municipalities that are or have recently gone through the RFP process have seen large increases in costs for removal along with, in many cases, a lower LOS.

During this process, staff will not be making a commitment with Waste Pro on the 5-year renewal. The dialogue will be focused on LOS and/or any other factor that may impact the contract.

As there may be a possibility of issuing a Request for Proposal (RFP), based on the information obtained and future direction from Council, staff is requesting Council to forward any communication and/or questions from any other solid waste vendor to the Procurement Manager and refrain from discussing any items with these companies. By refraining from communication, it protects the vendor from non-compliance with the City's lobbying clause.

After conducting due diligence, the management team will provide the required information to Council to either:

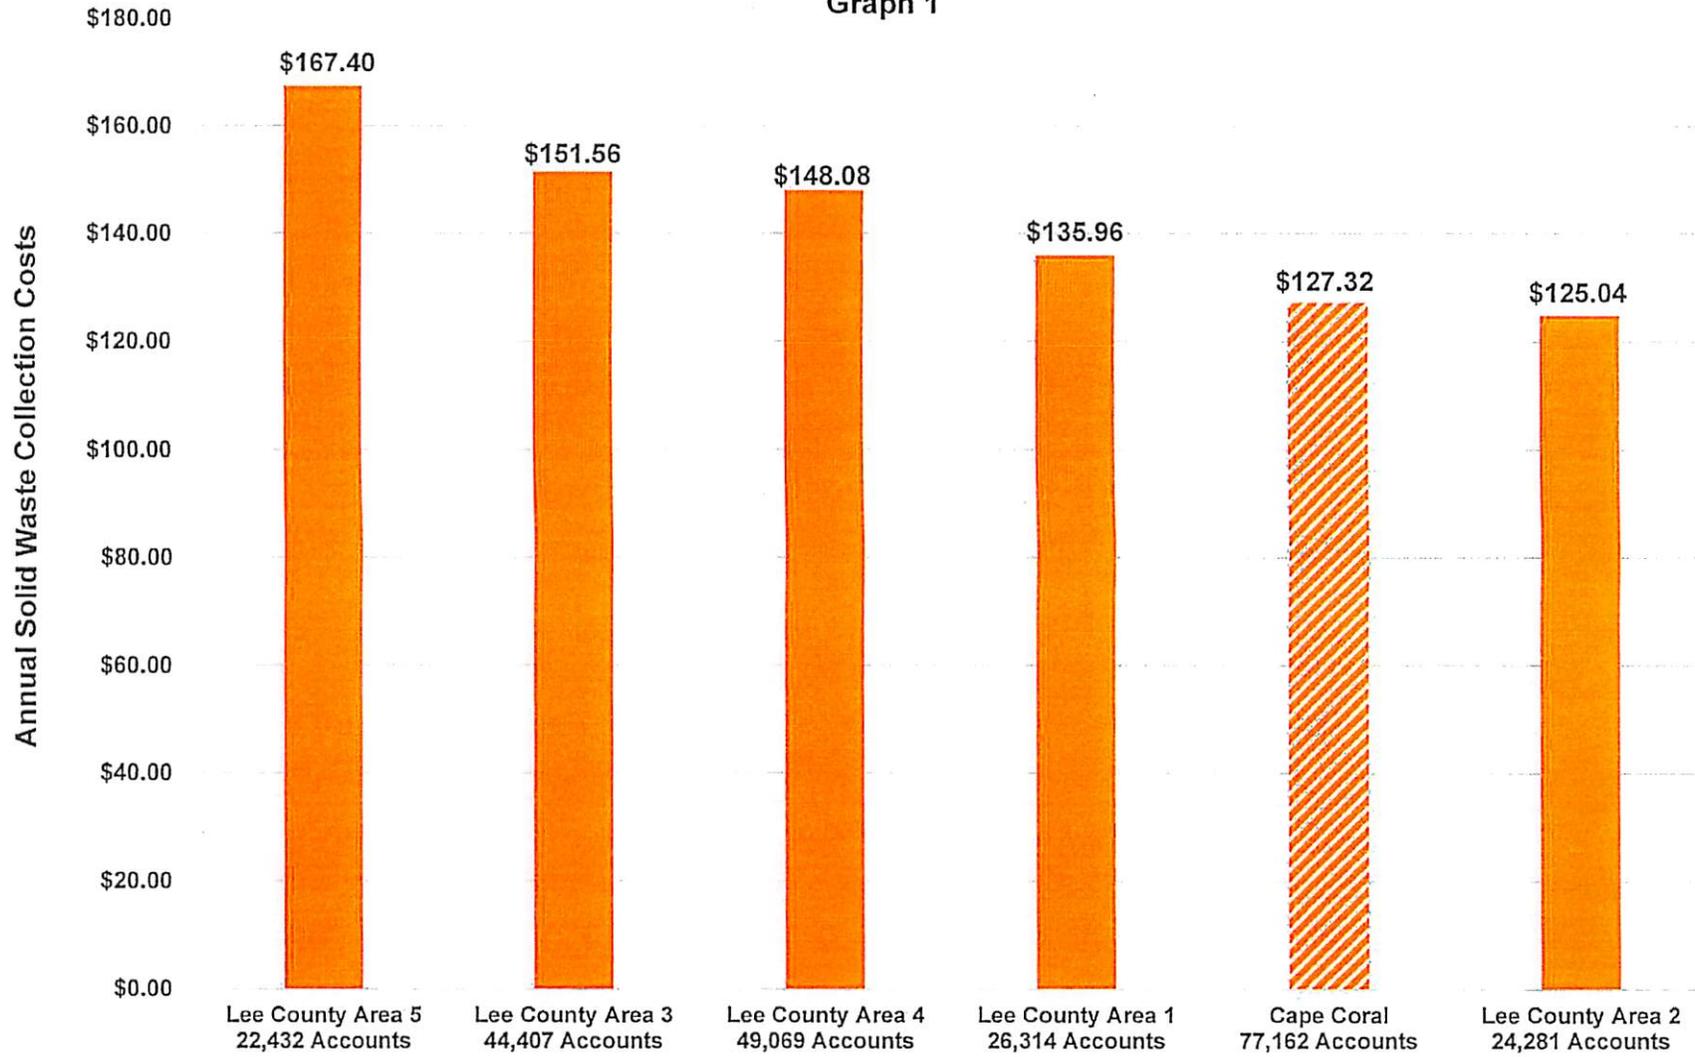

1. Issue a Request for Proposal
2. Negotiate with the current vendor – Waste Pro

The information will be brought forward to Council prior to September 30, 2019.

If there are any questions, please contact Wanda Roop, Procurement Manager, at 239-574-0831 or wroop@capecoral.net.

RESOLUTION 115 - 19

A RESOLUTION OF THE CITY OF CAPE CORAL, FLORIDA, RELATING TO THE COLLECTION AND DISPOSAL OF SOLID WASTE IN THE CITY OF CAPE CORAL, FLORIDA; ESTABLISHING THE ESTIMATED ASSESSMENT RATE FOR SOLID WASTE SERVICE ASSESSMENTS AGAINST ASSESSED PROPERTY LOCATED WITHIN THE CITY OF CAPE CORAL, FLORIDA, FOR THE FISCAL YEAR BEGINNING OCTOBER 1, 2019; DIRECTING THE PREPARATION OF AN ASSESSMENT ROLL; AUTHORIZING A PUBLIC HEARING AND DIRECTING THE PROVISION OF NOTICE THEREOF; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City Council of the City of Cape Coral, Florida (the "City") adopted Ordinance 64-01, establishing Chapter 9, Article III-1/2, of the City of Cape Coral Code of Ordinances (the "Code"), to provide for the re-imposition of annual Solid Waste Service Assessments for Solid Waste collection and disposal services, facilities or programs against certain Assessed Property within the City; and

WHEREAS, the imposition of a Solid Waste Service Assessment for Solid Waste collection and disposal services, facilities or programs for each Fiscal Year is an equitable and efficient method of allocating and apportioning Solid Waste Costs among parcels of Assessed Property; and

WHEREAS, the City Council desires to re-impose the annual Solid Waste collection and disposal assessment program within the City, using the tax bill collection method for the Fiscal Year beginning on October 1, 2019 ("Fiscal Year 2019-2020").

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF CAPE CORAL, FLORIDA, AS FOLLOWS:

SECTION 1. AUTHORITY

This resolution is adopted pursuant to the provisions of Chapter 9, Article III-1/2, Solid Waste Service Assessment of the City of Cape Coral Code of Ordinances, the Initial Assessment Resolution (Resolution 46-01), the Final Assessment Resolution (Resolution 56-01), Sections 166.021 and 166.041, Florida Statutes, and other applicable provisions of law.

SECTION 2. PURPOSE AND DEFINITIONS

This resolution constitutes the Preliminary Rate Resolution as defined in Chapter 9, Article III-1/2 of the Code which initiates the annual process for updating the Assessment Roll and directs the re-imposition of Solid Waste Service Assessments for Fiscal Year 2019-2020. All words and terms not otherwise defined herein shall have the meanings set forth in Chapter 9, Article III-1/2 of the Code. Unless the context indicates otherwise, words imparting the singular number, include the plural number, and vice versa.

SECTION 3. PROVISION AND FUNDING OF SOLID WASTE SERVICES

- (A) Upon the imposition of Solid Waste Service Assessments for Solid Waste collection and disposal against Assessed Property located within the City, the City shall provide Solid Waste collection and disposal services to such Assessed Property.
- (B) It is hereby ascertained, determined, and declared that each parcel of Assessed Property will be benefited by the City's provision of Solid Waste collection and disposal services in an amount not less than the Solid Waste Service Assessment imposed against such parcel, computed in the manner set forth in this Preliminary Rate Resolution.

SECTION 4. LEGISLATIVE DETERMINATIONS OF SPECIAL BENEFIT AND FAIR APPORTIONMENT

The legislative determinations of special benefit and fair apportionment embodied in Chapter 9, Article III-1/2 of the Code, the Initial Assessment Resolution and the Final Assessment Resolution are affirmed and incorporated herein by reference.

SECTION 5. ESTABLISHMENT OF ANNUAL SOLID WASTE SERVICE ASSESSMENT RATE

- (A) For Fiscal Year 2019-2020, for which Solid Waste Service Assessments for Solid Waste collection and disposal services, facilities and programs are to be re-imposed, the Solid Waste Cost shall be allocated among all parcels of Assessed Property, based upon each parcel's classification as Residential Property (4 units or less) and the number of Dwelling Units for such parcels. The Solid Waste Cost for Fiscal Year 2019-2020 is estimated to be \$15,262,846.89. Accordingly, a rate of assessment equal to \$199.59 for each Dwelling Unit for Solid Waste collection and disposal services, plus any delinquency or past due amounts attributable to each Dwelling Unit for Solid Waste services and facilities that have not been previously billed on the tax bill, is hereby approved for Fiscal Year 2019-2020.
- (B) The City Clerk is hereby directed to prepare, or cause to be prepared, an updated Assessment Roll for Fiscal Year 2019-2020, in the manner provided in Chapter 9, Article III-1/2 of the Code. Such updated Assessment Roll shall contain the following: (1) a summary description of all Assessed Property within the City conforming to the description contained on the Tax Roll, (2) the name and address of the Owner of record of each parcel as shown on the Tax Roll, and (3) the amount of the Solid Waste Service Assessment attributable to each Dwelling Unit for Solid Waste collection and disposal services. A copy of this Preliminary Rate Resolution, applicable provisions of the Code, the Initial Assessment Resolution, the Final Assessment Resolution and the updated Assessment Roll is maintained on file in the office of the City Clerk and open to public inspection. The foregoing shall not be construed to require that the updated Assessment Roll be in printed form if the amount of the Solid Waste Service Assessment for each parcel of property can be determined by use of a computer terminal available to the public. The Solid Waste Service Assessment for each parcel of Assessed Property shall be computed by multiplying the assessment rate by the number of Dwelling Units on such parcel.
- (C) It is hereby ascertained, determined, and declared that the foregoing method of determining the Solid Waste Service Assessments for Solid Waste collection and disposal services is a fair and reasonable method of apportioning the Solid Waste Cost among parcels of Assessed Property.

SECTION 6. AUTHORIZATION OF PUBLIC HEARING

There is hereby established a public hearing to be held at 4:30 p.m. on August 26, 2019, in City Council Chambers, City Hall, 1015 Cultural Park Boulevard, Cape Coral, Florida, for the purpose of (A) receiving and considering any comments on the Solid Waste Service Assessments from affected property owners and (B) authorizing the re-imposition of such Solid Waste Service Assessments for solid waste collection and disposal for Fiscal Year 2019-20, and collecting such assessments on the same bill as ad valorem taxes.

SECTION 7. NOTICE BY PUBLICATION

The City Clerk shall publish a notice, as required by Section 9-75.16 of the City of Cape Coral Code of Ordinances, in substantially the form attached hereto as Appendix A. Such notice shall be published not later than August 5, 2019, in a newspaper generally circulated in the City of Cape Coral.

SECTION 8. NOTICE BY MAIL

The City Clerk shall also provide notice, or direct the provision of notice, by first class mail substantially in the form attached hereto as Appendix B to the Owner of each parcel of Assessed Property, as required by Sections 9-75.17 and 9-75.20 of the City of Cape Coral Code of Ordinances. Such notices shall be mailed not later than August 5, 2019. The notices contemplated herein may be combined with other assessment notices in the interest of efficiency and economy.

SECTION 9. EFFECTIVE DATE

This Preliminary Rate Resolution shall take effect immediately upon its passage and adoption.

ADOPTED BY THE CITY COUNCIL OF THE CITY OF CAPE CORAL AT ITS REGULAR COUNCIL SESSION THIS _____ DAY OF _____, 2019.

APPENDIX A

FORM OF NOTICE TO BE PUBLISHED

To Be Published by **August 5, 2019**

**NOTICE OF HEARING TO REIMPOSE AND PROVIDE FOR
COLLECTION OF SOLID WASTE SERVICE SPECIAL
ASSESSMENTS**

[INSERT MAP OF CITY]

Notice is hereby given that the City Council of Cape Coral will conduct a public hearing to consider re-imposing solid waste service assessments for the Fiscal Year beginning October 1, 2019, against certain improved residential properties located within the incorporated area of the City, as depicted in the map above, to fund the cost of solid waste collection and disposal services, facilities and programs provided to such properties and to authorize collection of such assessments on the tax bill.

The public hearing will be held at 4:30 p.m. on August 26, 2019, in City Council Chambers, City Hall, 1015 Cultural Park Boulevard, Cape Coral, Florida, for the purpose of receiving public comment on the proposed assessments. All affected property owners have a right to appear at the hearing and to file written objections with the City Council within 20 calendar days of the date of this notice. If a person decides to appeal any decision made by the City Council with respect to any matter considered at the hearing, such person will need a record of the proceedings and may need to ensure that a verbatim record is made, including the testimony and evidence upon which the appeal is to be made. In accordance with the Americans with Disabilities Act, persons needing a special accommodation or an interpreter to participate in this proceeding should contact the City at (239) 574-0411 at least seven days prior to the date of the hearing.

The estimated assessment for the Fiscal Year 2019-2020 shall be \$199.59 per dwelling unit. The assessments will be computed by multiplying the number of dwelling units on each parcel by the rate of assessment plus any unpaid or delinquent charges for Solid Waste services that have not been previously billed on the tax bill. Copies of the Preliminary Rate Resolution initiating the annual process of updating the Assessment Roll and re-imposing the Solid Waste Service Assessments, Chapter 9, Article III-1/2, of the City of Cape Coral Code of Ordinances, the Initial Assessment Resolution, the Final Assessment Resolution and the updated Assessment Roll for the upcoming fiscal year are available for inspection at the City Clerk's office, located at City Hall. The solid waste assessment is an annual assessment which will continue from year to year.

If you have any questions, please contact the Financial Services Department, Customer Service Division at (239) 574-7722, Monday through Friday between 7:30 a.m. and 4:30 p.m.

The assessments will be collected on the ad valorem tax bill to be mailed in November 2019, as authorized by section 197.3632, Florida Statutes. Failure to pay the assessments will cause a tax certificate to be issued against the property which may result in a loss of title.

Kimberly Bruns

******* NOTICE TO PROPERTY OWNER *******

***** THIS IS NOT A BILL *****

As required by Section 197.3632, Florida Statutes, notice is given by the City of Cape Coral, Florida, that an annual assessment for solid waste services using the tax bill collection method, may be levied on your property. The purpose of this assessment is to fund solid waste services benefiting residential property (4 units or less) located within the City. The total annual solid waste assessment revenue to be collected for residential property with 4 units or less is estimated to be \$15,262,846.89. The estimated maximum annual solid waste service assessment is based on the number of residential dwelling units contained on each parcel of property plus any delinquent charges for solid waste services.

The estimated maximum solid waste assessment rate to be imposed without further notice for fiscal year 2019-2020 for the above parcel is \$199.59 per dwelling unit.

Total number of residential dwelling units on the above parcel:	
Estimated maximum solid waste service assessment for Fiscal Year 2019-2020:	\$
Delinquent solid waste charge for the above parcel:	\$

The solid waste assessment is an annual assessment which will continue from year to year.

A public hearing will be held at 4:30 p.m. on August 26, 2019, in City Council Chambers, City Hall, 1015 Cultural Park Boulevard, Cape Coral, Florida for the purpose of receiving public comment on the proposed assessments. You and all other affected property owners have a right to appear at the hearing and to file written objections with the City Council within 20 days of this notice. If you decide to appeal any decision made by the City Council with respect to any matter considered at the hearing, you will need a record of the proceedings and may need to ensure that a verbatim record is made, including the testimony and evidence upon which the appeal is to be made. In accordance with the Americans with Disabilities Act, persons needing a special accommodation or an interpreter to participate in this proceeding, should contact the City at (239) 574-0411 at least seven days prior to the date of the hearing.

Unless proper steps are initiated in a court of competent jurisdiction to secure relief within 20 days from the date of City Council action at the above hearing (including the method of apportionment, the rate of assessment and the imposition of assessments), such action shall be the final adjudication of the issues presented.

Copies of the Preliminary Rate Resolution, Chapter 9, Article III-1/2, of the City of Cape Coral Code of Ordinances, the Initial Assessment Resolution, the Final Assessment Resolution and the updated assessment roll are available for inspection at the City Clerk's office located at 1015 Cultural Park Boulevard, Cape Coral, Florida.

The final approved Solid Waste Service Assessment amount (which will not exceed \$199.59 per Dwelling Unit for Fiscal Year 2019-2020), as well as any other non-ad valorem assessments, plus the ad valorem taxes for the above parcel will be collected on the ad valorem tax bill mailed in November 2019. Failure to pay the assessments to the Lee County Tax Collector will cause a tax certificate to be issued against the property, which may result in a loss of title.

If there is a mistake on this notice or if you have any questions regarding your Solid Waste Service Assessment, please call the Financial Services Department, Customer Service Division, at (239) 574-7722, Monday through Friday between 7:30 a.m. and 4:30 p.m., or write the City at the following address.

Resolution 116-19 Public Input Fire Protection Assessment Preliminary Resolution

REQUESTED ACTION:

Approve or Deny

STRATEGIC PLAN INFO:

1. Will this action result in a Budget Amendment? No
2. Is this a Strategic Decision? Yes

If Yes, Priority Goals Supported are listed below.

If No, will it harm the intent or success of the Strategic Plan?

ELEMENT B: ENHANCE FINANCIAL SUSTAINABILITY DURING ALL ECONOMIC TIMES

PLANNING & ZONING/HEARING EXAMINER/STAFF RECOMMENDATIONS:

SUMMARY EXPLANATION AND BACKGROUND:

Ordinance 41-13, adopted in July 2013, established an annual assessment for Fire Protection Services, Facilities, and Programs against certain assessed property within the City. Each year a resolution is required to re-impose the assessment using an equitable and efficient method of allocating and apportioning Fire Protection Costs among parcels of assessed property. The annual assessment, when imposed, is collected by using the tax bill collection method.

This resolution establishes the estimated Fire Protection assessed cost and assessment rates for Fiscal Year 2019, directs the preparation of an assessment roll, and authorizes a public hearing to consider the adoption of the Annual Assessment resolution.

RESOLUTION 116 - 19

A RESOLUTION OF THE CITY OF CAPE CORAL, FLORIDA, RELATING TO THE PROVISION OF FIRE PROTECTION SERVICES, FACILITIES, AND PROGRAMS IN THE CITY OF CAPE CORAL, FLORIDA; ESTABLISHING THE ESTIMATED FIRE PROTECTION ASSESSED COST AND ASSESSMENT RATES FOR THE FISCAL YEAR BEGINNING OCTOBER 1, 2019; DIRECTING THE PREPARATION OF AN ASSESSMENT ROLL; AUTHORIZING A PUBLIC HEARING TO CONSIDER THE ADOPTION OF THE ANNUAL ASSESSMENT RESOLUTION; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City Council of the City of Cape Coral, Florida (the "City") adopted Ordinance 41-13, establishing Chapter 8, Article V, Sections 8-35 through 8-57 of the City of Cape Coral Code of Ordinances (the "Code"), to provide for an Annual Assessment for Fire Protection Services, Facilities, and Programs against certain Assessed Property within the City; and

WHEREAS, thereafter, the City adopted Resolution 30-13 (the "Initial Assessment Resolution"), Resolution 32-13 (the "Final Assessment Resolution"), and Resolution 56-13 (the "Supplemental Resolution") (collectively, the "Assessment Resolutions"), to further provide an Annual Assessment for Fire Protection Services, Facilities, and Programs against certain Assessed Property within the City; and

WHEREAS, the annual re-imposition of an Assessment for Fire Protection Services, Facilities, and Programs for each Fiscal Year is an equitable and efficient method of allocating and apportioning Fire Protection Costs among parcels of Assessed Property; and

WHEREAS, the City Council desires to impose the Annual Assessment for Fire Protection Services, Facilities, and Programs within the City by using the tax bill collection method for the Fiscal Year beginning on October 1, 2019.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF CAPE CORAL, FLORIDA, AS FOLLOWS:

SECTION 1. AUTHORITY

This Resolution is adopted pursuant to the provisions of Chapter 8, Article V, Sections 8-35 through 8-57 of the Code, Sections 166.021, 166.041, and 197.3632 of the Florida Statutes, and other applicable provisions of law.

SECTION 2. PURPOSE AND DEFINITIONS

This Resolution constitutes the Preliminary Assessment Resolution, as defined in Section 8-35 of the Code, which initiates the annual process for updating the Assessment Roll and directs the re-imposition of Fire Protection Assessments for the Fiscal Year beginning October 1, 2019. All words and terms not otherwise defined herein shall have the meanings set forth in Section 8-35 of the Code. Unless the context indicates otherwise, words imparting the singular number include the plural number, and vice versa.

SECTION 3. PROVISION AND FUNDING OF FIRE PROTECTION SERVICES, FACILITIES, AND PROGRAMS

- (A) Upon the imposition of Assessments for Fire Protection Services, Facilities, and Programs against Assessed Property located within the City, the City shall provide Fire Protection Services, Facilities, and Programs to and for such Assessed Property. Such Services, Facilities, and Programs include, but are not limited to, personnel, equipment, and capital facilities necessary to maintain continual readiness; and to provide fire protection to tax parcels in the City as well as resources, materials, and consumables expended in actual deployments.
- (B) It is hereby ascertained, determined, and declared that each parcel of Assessed Property will be benefitted by the City's provision of Fire Protection Services, Facilities, and Programs in an amount not less than the Annual Assessment imposed against such parcel, computed in the manner set forth in this Preliminary Assessment Resolution.

SECTION 4. LEGISLATIVE DETERMINATIONS OF SPECIAL BENEFIT AND FAIR APPORTIONMENT

The legislative determinations of special benefit and fair apportionment embodied in Sections 8-38 and 8-39 of the Code, the Initial Assessment Resolution, and the Final Assessment Resolution are affirmed and incorporated herein by reference.

SECTION 5. ESTABLISHMENT OF ANNUAL FIRE PROTECTION ASSESSMENT RATE

- (A) For the Fiscal Year beginning October 1, 2019, for which Assessments for Fire Protection Services, Facilities, and Programs are to be re-imposed, the Fire Protection Assessed Cost shall be allocated among all parcels of Assessed Property, based upon assessment rates of \$144.88 for Tier 1 and \$2.54 per Equivalent Benefit Unit ("EBU") for Tier 2.
- (B) The Assessment Coordinator is hereby directed to prepare, or cause to be prepared, an updated Assessment Roll for the Fiscal Year beginning October 1, 2019, in the manner provided in Section 8-41 of the Code and in the Assessment Resolutions.
- (C) Such updated Assessment Roll shall contain the following: (1) a summary description of all Assessed Property within the City conforming to the description contained on the Tax Roll; (2) the name of the Owner of the assessed property, if available; and (3) the amount of the Fire Protection Assessment to be imposed against each parcel of assessed property. A copy of this Preliminary Assessment Resolution, applicable provisions of the Code, and the updated Assessment Roll is maintained on file in the office of the City Clerk and open to public inspection. The foregoing shall not be construed to require that the updated Assessment Roll be in printed form if the amount of the Fire Protection Assessment for each parcel of property can be determined by use of a computer terminal available to the public. The Fire Protection Assessment for each parcel of assessed property shall be computed in the manner set forth in the Assessment Resolutions.
- (D) Section 170.01(4), Florida Statutes, provides that notwithstanding any other provision of law, a municipality may not levy special assessments for the provision of fire protection services on land classified as agricultural lands under section 193.461, Florida Statutes, unless the land contains a residential dwelling or nonresidential farm building, with the exception of an agricultural pole barn, provided the nonresidential farm building exceeds a just value of \$10,000. The Assessment Coordinator shall apply the provisions of Section 170.01(4), Florida Statutes in preparing the preliminary Assessment Roll for Fiscal Year 2019-2020.
- (E) It is hereby ascertained, determined, and declared that the foregoing method of determining the Fire Protection Assessments is a fair and reasonable method of apportioning the Fire Protection Cost among parcels of assessed property.

SECTION 6. AUTHORIZATION OF PUBLIC HEARING

There is hereby established a public hearing to be held at 4:30 p.m. on August 26, 2019, in City Council Chambers, City Hall, 1015 Cultural Park Boulevard, Cape Coral, Florida, for the purpose of (A) receiving and considering any comments on the Fire Protection Assessments from affected property owners and (B) authorizing the re-imposition of such Fire Protection Assessments for services, facilities, and programs for the Fiscal Year beginning October 1, 2019, and collecting such assessments on the same bill as ad valorem taxes.

SECTION 7. NOTICE BY PUBLICATION

The Assessment Coordinator shall publish a notice, as required by Section 8-42 of the Code, in substantially the form attached hereto as Appendix A. Such notice shall be published not later than August 5, 2019, in a newspaper generally circulated in the City of Cape Coral.

SECTION 8. NOTICE BY MAIL

The Assessment Coordinator shall also provide notice, or direct the provision of notice, by first class mail substantially in the form attached hereto as Appendix B to the Owner of each parcel of Assessed Property, as required by Section 8-43 of the Code. Such notices shall be mailed not later than August 5, 2019.

SECTION 9. EFFECTIVE DATE

This Preliminary Assessment Resolution shall take effect immediately upon its passage and adoption.

APPENDIX A

FORM OF NOTICE TO BE PUBLISHED

To Be Published by **August 5, 2019**

**CITY OF CAPE CORAL, FLORIDA
NOTICE OF HEARING TO RE-IMPOSE AND PROVIDE FOR
COLLECTION OF FIRE PROTECTION ASSESSMENTS**

[INSERT MAP OF CITY]

Notice is hereby given that the City Council of Cape Coral will conduct a public hearing to consider re-imposing fire protection assessments for the Fiscal Year beginning October 1, 2019, against properties located within the City, as depicted in the map above, to fund the cost of fire protection services, facilities and programs provided to such properties and to authorize collection of such assessments as ad valorem taxes on property tax bills.

The public hearing will be held at 4:30 p.m. on August 26, 2019, in City Council Chambers, City Hall, 1015 Cultural Park Boulevard, Cape Coral, Florida, for the purpose of receiving public comment on the proposed assessments. All affected property owners have a right to appear at the hearing and to file written objections with the City Council within 20 calendar days of the date of this notice. If a person decides to appeal any decision made by the City Council with respect to any matter considered at the hearing, such person will need a record of the proceedings and may need to ensure that a verbatim record is made, including the testimony and evidence upon which the appeal is to be made. In accordance with the Americans with Disabilities Act, persons needing a special accommodation or an interpreter to participate in this proceeding should contact the City at (239) 574-0411 at least seven days prior to the date of the hearing.

The assessment for each parcel of property will be based upon the two-tiered methodology approved by City Resolution No. 30-13 (the "Initial Assessment Resolution") and Resolution No. 32-13 (the "Final Assessment Resolution"), pursuant to which a portion of the costs attributable to the City's continual readiness to provide fire protection services will be shared equally among all tax parcels on a per parcel basis (Tier 1), and a portion of the remaining costs will be shared in accordance with the value of improvements or structures associated with each parcel, with each \$5,000 increment of structure value comprising an equivalent benefit unit or "EBU" (Tier 2). The assessment rates proposed for Fiscal Year 2019-2020 are \$_____ per tax parcel for Tier 1 and \$_____ per EBU for Tier 2. The fire protection assessment is an annual assessment which will continue from year to year.

Copies of the Preliminary Assessment Resolution initiating the annual process of updating the Assessment Roll and re-imposing the Fire Protection Assessments, Sections 8-35 through 8-57 of Article V of the City of Cape Coral Code of Ordinances, and the updated Assessment Roll for the upcoming fiscal year are available for inspection at the City Clerk's office, located at City Hall.

If you have any questions, please contact the Financial Services Department, Customer Service Division at (239) 574-7722, Monday through Friday between 7:30 a.m. and 4:30 p.m.

The assessments will be collected on the ad valorem tax bill to be mailed in November 2019, as authorized by section 197.3632, Florida Statutes. Failure to pay the assessments will cause a tax certificate to be issued against the property which may result in a loss of title.

NOTICE DATE: _____, 2019

***** NOTICE TO PROPERTY OWNER*****

***** THIS IS NOT A BILL *****

Dear Property Owner:

As required by Section 197.3632 Florida Statutes, notice is given by the City Council of the City of Cape Coral, Florida (the "City"), that an annual non-ad valorem special assessment for fire protection services, facilities and programs using the tax bill collection method, may be levied on your property. The purpose of this assessment is to fund fire protection services throughout the City for the fiscal year commencing October 1, 2019 ("Fiscal Year 2019-2020"). The total annual fire protection assessment revenue to be collected is estimated to be \$_____. The fire protection assessment is an annual assessment which began in 2013 and will continue from year to year.

The assessment for each parcel of property will be based upon the two-tiered methodology approved by City Resolution 30-13 (the "Initial Assessment Resolution") and Resolution 32-13 (the "Final Assessment Resolution"), pursuant to which a portion of the costs attributable to the City's continual readiness to provide fire protection services will be shared equally among all tax parcels on a per parcel basis (Tier 1), and a portion of the remaining costs will be shared in accordance with the value of improvements or structures associated with each parcel, with each \$5,000 increment of structure value comprising an equivalent benefit unit or "EBU" (Tier 2). The assessment rates proposed for Fiscal Year 2019-2020 are \$_____ per tax parcel for Tier 1 and \$_____ per EBU for Tier 2.

The proposed assessment for the above referenced parcel is:

Total number of Tier 1 EBUs attributed to the above parcel:	
Total number of Tier 2 EBUs attributed to the above parcel:	
Total amount to be collected:	

Copies of Chapter 8, Article V, of the City of Cape Coral Code of Ordinances, the Initial Assessment Resolution, the Final Assessment Resolution and the updated assessment roll for Fiscal Year 2019-2020 are available for inspection at the offices of the City Clerk, located at City Hall, 1015 Cultural Park Boulevard, Cape Coral, Florida.

The special assessment is an annual assessment which will continue from year to year. The final approved fire protection assessment amount, as well as any other non-ad valorem assessments, plus the ad valorem taxes for the above parcel will be collected by the Lee County Tax Collector on the ad valorem tax bill mailed in November 2019. Florida law provides that failure to pay the

assessments will cause a tax certificate to be issued against the assessed property, which may result in a loss of title.

A public hearing will be held at 4:30 PM on August 26, 2019, in City Council Chambers, City Hall, 1015 Cultural Park Boulevard, Cape Coral, Florida, to receive public comment on the proposed special assessments. All affected property owners have a right to appear at the hearing and to file written objections with the City Council within 20 days of this notice. If a person decides to appeal any decision made by the City Council with respect to any matter considered at the hearing, such person will need a record of the proceedings and may need to ensure that a verbatim record is made, including the testimony and evidence upon which the appeal is to be made. Persons with disabilities needing assistance to participate in any of these proceedings should contact the city clerk at least 48 hours in advance of the meeting at (239) 574-0411.

If there is a mistake on this notice or if you have any questions regarding your Fire Protection Service Assessment, please contact the Assessment Coordinator at (239) 242-3851, Monday through Friday between 7:30 a.m. and 4:30 p.m., or write the City at the following address:

City of Cape Coral
Financial Services Department
Customer Billing Services Division
PO Box 150006
Cape Coral, FL 33915-0006.

TITLE:

Resolution 117-19 Public Input Stormwater Fee for FY 2019-2020

REQUESTED ACTION:

Approve or Deny

STRATEGIC PLAN INFO:

1. Will this action result in a Budget Amendment? No
2. Is this a Strategic Decision? Yes

If Yes, Priority Goals Supported are listed below.

If No, will it harm the intent or success of the Strategic Plan?

ELEMENT E: INCREASE QUALITY OF LIFE FOR OUR CITIZENS BY DELIVERING PROGRAMS AND SERVICES THAT FOSTER A SAFE COMMUNITY

ELEMENT G: WORK TOWARD EFFICIENT AND COST-EFFECTIVE SOLUTIONS TO PROTECT AND CONSERVE NATURAL RESOURCES, WHILE PROMOTING ENVIRONMENTAL AWARENESS AND SUSTAINABILITY IN THE COMMUNITY.

PLANNING & ZONING/HEARING EXAMINER/STAFF RECOMMENDATIONS:

SUMMARY EXPLANATION AND BACKGROUND:

The Resolution establishes a not-to-exceed stormwater rate for properties that utilizes the City's stormwater system. It also allows staff to prepare an updated Assessment Roll for the Fiscal Year (FY) beginning October 1, 2019 and sets the Final Public Hearing date.

The proposed not-to-exceed rate for the stormwater user fees for FY 2020 is \$119.00 per Equivalent Residential Unit (ERU). This rate is recommended in the 2016 and 2018 CDM Smith rate studies.

The not-to-exceed rate is used for notification. It can't be raised, but can be lowered by Council at the Final Public Hearing.

MEMORANDUM

CITY OF CAPE CORAL
PUBLIC WORKS DEPARTMENT

TO: Mayor Coviello and Council Members

FROM: John Szerlag, City Manager *JS*
Paul Clinghan, Public Works Director *PRC*
Victoria Bateman, Financial Services Director *CP for VLB*
Persides Zambrano, Public Works Planning Manager *PZ*

DATE: July 16, 2019

SUBJECT: FY 2020 Stormwater Fee

Background:

Starting in Fiscal Year (FY) 2016, Council adopted the CDM Smith Stormwater Recovery Cost recommended fees. Rather than adopting a blended rate that would keep the same fee for a 5-year period, Council decided for an annual adoption of the recommended fee as presented below:

FY 2016	FY 2017	FY 2018	FY 2019	Proposed FY 2020	Proposed FY 2021
\$80	\$87	\$111	\$115	\$119	\$125

The proposed fees are consistent with keeping the current level of service for maintenance of the stormwater system, capital improvements in conjunction with the UEP project, weir repairs and flood prevention projects.

Staff retained CDM Smith to update the Stormwater Recovery Cost from FY 2019 through FY 2023.

Recommended Action:

CDM reviewed the City's stormwater fee structure and provided the following 5-year plan. Staff recommends adopting the proposed fees to keep the current level of service for stormwater system maintenance, adding capital improvements as part of the UEP program, weir repairs and flood prevention projects.

FY 2019	Proposed FY 2020	Proposed FY 2021	Proposed FY 2022	Proposed FY 2023
\$115	\$119	\$125	\$130	\$135

As part of the budget process, a not-to-exceed Stormwater Rate Resolution is scheduled for introduction on July 22, 2019. Once the not-to-exceed rate is set by Council, notices are sent to rate payers. Final adoption of the stormwater rate for FY 2020 is scheduled for the August 26, 2019 Council meeting.

JS/PC/VB/PZ:sk

FY 2020 Stormwater Assessments

Resolution 117-19
July 22, 2019

Summary

- In FY 2016 Council adopted the annual stormwater fees recommended by CDM Smith, which was updated in FY 2018.

FY 2019	Proposed FY 2020	Proposed FY 2021	Proposed FY 2022	Proposed FY 2023
\$115	\$119	\$125	\$130	\$135

Stormwater Fee Update

- Chapter 22 of the City Code of Ordinances requires an annual stormwater user fee rate resolution in conjunction with the annual budget process.
- July 22, 2019 - Council to approve the not-to-exceed rate for FY 2020 in order to notice rate payers.

Stormwater Fee Update

- Notices will be mailed to stormwater utility customers advising them of proposed annual rate and public hearing date on rate resolution.
- August 26, 2019 - Annual rate resolution public hearing and adoption.
- Every year the stormwater rate must go through this approval process.

Stormwater Operations

- Catch Basin Replacement
- Drain Pipe Replacement
- Residential Driveway Inspection
- Drain Pipe Relocation
- Swale Regrading
- Drainage Management
- Flotsam, Weirs
- Canal Dredging
- Street Sweeping
- Vacuum Truck

Catch Basin Replacement

- Maintain +23,000 basins on a yearly schedule to comply with the National Pollutant Discharge Elimination System (N.P.D.E.S.) under the Clean Water Act.
- In addition, responds to complaint driven inspections.

Drain Pipe Replacement

- Repair, replacement and modification of existing underground Stormwater drainage systems throughout the City.
- 18% of the City's pipe is 40+ year old corroded metal pipe and needs to be replaced.

Swale Regrading

- Swale restoration on developed and undeveloped properties to re-establish grades on an as-needed basis allowing the proper movement and treatment of Stormwater runoff.
- As required by the N.P.D.E.S. permit.

Canal Dredging

- Responsible for maintaining over 400 miles of freshwater and saltwater canal systems within the City.
- The dredge operates in the center of the canal and does not come within 20 feet of seawalls per Army Corp Of Engineers permit requirements.

2018 Bimini Basin Culvert Cleaning and Lining

2018 Bimini Basin Culvert Cleaning and Lining

2018 Bimini Basin Culvert Cleaning and Lining

2018 Bimini Basin Culvert Cleaning and Lining

FY 2019 Highlights

- Catch basin and pipe replacement and upsizing as part of North 2 UEP.
- Coordinated pipe replacement with repaving of major roads.
- Weekly field monitoring for presence/absence of blue green algae.
- Implementation of Asset Management Software – Cartegraph OMS.

FY 2020

- Keep current LOS for maintenance.
- Cash contributions and debt payments for stormwater improvements within UEP areas.
- \$900,000 Bio-swale grant match in North 2 UEP.
- Weir improvements in coordination with Utilities Department.
- Proactive flood prevention.

FY 2020 (cont.)

- Canal bathymetric survey to prioritize future dredging areas.
- Review technologies approved by DEP to reduce nutrients and mitigate blue green algae.

Recommendation

- Adopt FY 2020 rate of \$119.00 per ERU as recommended by CDM Smith, City Management and consistent with Council's actions since FY 2016.

2019	Proposed 2020	Proposed 2021	Proposed 2022	Proposed 2023
\$115	\$119	\$125	\$130	\$135

RESOLUTION 117 - 19

A RESOLUTION OF THE CITY OF CAPE CORAL, FLORIDA, APPROVING A STORMWATER FEE FOR FY 2019-2020 THAT EXCEEDS THE MAXIMUM AMOUNT ESTABLISHED FOR FY 2018-2019, AND AUTHORIZING A PUBLIC HEARING AND DIRECTING THE PROVISION OF NOTICE THEREOF; PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City of Cape Coral sets a stormwater fee annually for imposition on properties that utilize the City's stormwater system; and

WHEREAS, the City desires to increase the fee for FY 2019-2020 from \$115.00 per Equivalent Residential Unit to \$119.00 per Equivalent Residential Unit (ERU); and

WHEREAS, the City of Cape Coral Code of Ordinances, Chapter 22, Stormwater Management Utility, provides that, in the event the proposed stormwater fee exceeds the fee from that established in the stormwater resolution the previous year, then the City shall provide notice to the owners of affected property and conduct a public hearing prior to the adoption of the annual stormwater resolution.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF CAPE CORAL, FLORIDA, AS FOLLOWS:

SECTION 1. The City Council hereby approves a proposed increase in the stormwater fee for FY 2019-2020 that exceeds the maximum amount established for FY 2018-2019 from \$115.00 per Equivalent Residential Unit to \$119.00 per Equivalent Residential Unit (ERU).

SECTION 2. The Stormwater Director shall apply such rate in preparation of the non-ad valorem assessment roll for FY 2019-2020. For developments and condominium complexes that contain common elements, the number of ERU's otherwise attributed to the common elements shall instead be divided equally among the remainder of parcels within the development. For such parcels, the number of ERUs attributed to each parcel shall be rounded to the nearest one hundredth to facilitate ease of administration and economy.

SECTION 3. In accordance with Section 22-4 of the City of Cape Coral Code of Ordinances (the "City Code"), the City Council will conduct a public hearing at 4:30 p.m., or as soon thereafter as the matter can be heard, on August 26, 2019, in the Council Chambers of City Hall located at 1015 Cultural Park Boulevard, Cape Coral, Florida, to receive and consider comments from affected property owners prior to approving such proposed rate increase and adoption of the annual stormwater resolution for FY 2019-2020.

SECTION 4. The City Clerk and Stormwater Director shall provide notice of the public hearing established herein in the manner and at the time provided in Section 22-4 of the City Code and the Uniform Assessment Collection Act. Capitalized terms not otherwise defined herein shall have the meanings set forth in Chapter 22 of the City Code.

SECTION 5. This Resolution shall take effect immediately upon its adoption.

ADOPTED BY THE CITY COUNCIL OF THE CITY OF CAPE CORAL AT ITS REGULAR COUNCIL SESSION THIS _____ DAY OF _____, 2019.

23 This Code shall be known as and referred to as the Land Development Code (“LDC” or “these regulations”
24 or the “Code”) of the City of Cape Coral, Florida.
25

26 **Section 1.2. Authority.**
27

28 These regulations are enacted pursuant to the requirements and authority of Section 163.3161 et seq.,
29 Florida Statutes (the Local Government Comprehensive Planning and Land Development Regulation Act),
30 the Charter of the City of Cape Coral, and the powers and authority in Chapters 60, 162, 166, 171, 177,
31 286, 380, and 823, Florida Statutes, as amended.
32

33 **Section 1.3. Purpose and Intent of the City of Cape Coral Land Development Code.**
34

35 The purpose of the City of Cape Coral Land Development Code is to implement the Comprehensive Plan
36 of the City pursuant to Chapter 163, Florida Statutes for the protection and promotion of the safety,
37 health, comfort, appearance, and general welfare of the City and its inhabitants and specifically for the
38 following intent:
39

- 40 A. Continue to foster community pride and a sense of stewardship in the City;
- 41
- 42 B. Preserve and implement the comprehensive plan;
- 43
- 44 C. Ensure the application and administration of these regulations continues to improve the overall
45 quality of life and promote development of the City;
- 46

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 1 - GENERAL PROVISIONS**

- 47 D. Establish zoning districts as a means of achieving unified civic design and proper relationship between
48 the uses of land by regulating the location and use of buildings and other structures;
49
50 E. To minimize and reduce conflicts among various land uses through the application of regulations
51 designed to assure harmonious relationships among land uses;
52
53 F. To ensure safe and convenient traffic circulation, adequate utilities, recreation areas, and the
54 development of economically stable and healthful neighborhoods;
55
56 G. To prevent periodic and seasonal flooding by providing flood control and drainage facilities;
57
58 H. To discourage haphazard, premature, uneconomical, or scattered land development; and
59
60 I. To ensure that the citizens and taxpayers of the city will not have to bear the costs resulting from
61 haphazard land development or the lack of adequate and necessary physical improvements incidental
62 to land development.
63

64 **Section 1.4. Jurisdiction and applicability.**

- 65
66 A. These regulations shall govern the development and use of land, buildings, and structures within the
67 municipal boundary of the City.
68
69 B. No building, structure, water, or land shall be used, occupied, or developed unless in conformity with
70 all provisions of the zoning district in which it is located, all other applicable regulations, and all
71 development approvals.
72

73 **Section 1.5. Compliance with regulations.**

- 74
75 A. No building shall be erected, converted, enlarged, reconstructed, moved, or structurally altered
76 except in conformance with:
77
78 1. The applicable zoning district regulations;
79
80 2. The bulk, area, and dimensional regulations of the zoning district;
81
82 3. The off-street parking and loading regulations for the use in the building in question;
83
84 4. The floor area regulations of the zoning district;
85
86 5. The established flood criteria, as indicated on the most current edition of the federal flood
87 insurance rate maps and the requirements in Article 9 applicable to the development site; and
88
89 6. All other applicable laws, rules, and regulations.
90
91 B. No building shall be erected or enlarged after the effective date of these regulations, which reduces
92 any level of service standard established in the City of Cape Coral adopted comprehensive plan.

Section 1.6. Violations, enforcement, and penalties.

The procedures for enforcement and penalties for violations of this Code are set forth in Chapter 2, Article 5, Divisions 3 and 4 of the City of Cape Coral Code of Ordinances. The provisions of this Code are supplemental to any other procedures and remedies available to the City of Cape Coral. Nothing contained in this Code prohibits the City of Cape Coral from enforcing its codes or ordinances by other Code Enforcement provisions of the City of Cape Coral Code of Ordinances or other applicable law.

Section 1.7. Buildings under construction.

Any building or structure for which a lawful building permit has been issued prior to the effective date of this article may be completed and used in accordance with the plans and specifications upon which such building permit was granted, provided construction is completed within the life of the building permit.

Section 1.8. Outstanding permits.

Where there are outstanding and valid building or development permits authorizing construction of buildings, structures, additions, or alterations, the use or construction of which do not conform to the requirements of this article, such permits shall be valid for the life of the permit.

Section 1.9. Time limitation of approvals.

Time limits for permits issued under this Code are specified for each type of development permit. Conditions of approval attached to permit approvals may establish additional time limits on the life of a permit or establish specific timeframes for certain actions.

Section 1.10. Annexed lands.

In accordance with FS 171.062, all land annexed in to the City of Cape Coral shall retain the Lee County Future Land Use and Zoning Designations until the City Council adopts a comprehensive plan amendment that includes the annexed area and adopts an ordinance establishing a zoning district for the annexed area.

Section 1.11. Comprehensive Plan and Future Land Use Map.

The Comprehensive Plan and Future Land Use Map of the City of Cape Coral are the official statements of policy for the City regarding the use of land. All use or development of land undertaken pursuant to these regulations shall be consistent with the Comprehensive Plan and the Future Land Use Map.

Section 1.12. Official Zoning Map.

- A. The Official Zoning Map is established and incorporated into these regulations by this reference. The Official Zoning Map shows the boundaries of all Zoning Districts as adopted by the City Council pursuant to the procedures of these regulations.

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 1 - GENERAL PROVISIONS**

- 139 B. The Official Zoning Map shall be the official record of zoning status of land within the city. The Official
140 Zoning District Map shall be maintained by the city electronically. The city is divided into districts, or
141 zones, as provided by this ordinance. The electronic format of the map will reside within the city
142 Geographic Information System (GIS) as the zoning layer and shall be maintained by the Department
143 of Community Development - Planning Division. The map will be updated on a continuous basis
144 following approval of zoning changes by City Council. The electronic format of the map will be
145 viewable via the Internet and paper copies can be produced on demand.
146
- 147 C. Pursuant to Laws of Fla. Ch. 78-540, § 8, the city shall exercise extraterritorial zoning powers within
148 an area extending 600 feet into the tidal waters adjacent to the corporate city limits. All such areas
149 shall have the same zoning as the adjacent uplands.
150
- 151 D. The Official Zoning Map, as amended from time to time, shall be kept on file and made available for
152 public reference in the Office of the City Clerk and the Community Development Department.
153 Amendments to zoning on the Official Zoning District Map shall be consistent with the adopted Cape
154 Coral Comprehensive Plan, including the Future Land Use Map and its accompanying text.
155 Amendments shall be made on or after the effective date of such zoning change. The Director of the
156 Department of Community Development shall ensure that amended zoning district boundaries are
157 accurately placed on the zoning map. The City Clerk shall keep records on file which identify the official
158 action by which a map amendment was made, the date of such action, the land area affected and the
159 date of posting.
160
- 161 E. Should the map or any portion thereof become damaged, destroyed, or lost the City Council is
162 authorized, by ordinance, to replace the map or damaged portion and the new map shall supersede
163 the one replaced. The new map may correct drafting or other errors, but no replacement shall have
164 the effect of changing the official zoning status of property unless the prior map has been totally
165 destroyed. The City Clerk shall preserve any records relating to its adoption and amendment.
166
- 167 F. Unauthorized changes. Substantial changes of the nature affecting the zoning of property is strictly
168 prohibited and unlawful, unless in conformity with the requirements and procedures of this ordinance
169 or applicable law.
170

171 **Section 1.13. Transitional rules.**
172

- 173 A. Existing unlawful uses, lots, and structures. A structure, lot, or use not lawfully existing at the time of
174 the adoption of these regulations is lawful only if it conforms with all of the requirements of these
175 regulations. All other violations of prior regulations of the City as of the effective date of this ordinance
176 shall continue to be violations and shall not be considered to be legal nonconformities under this code
177 unless such violation(s) becomes lawful by adoption of this code.
178
- 179 B. Existing approved uses. An existing use which is lawful on the date of adoption of these regulations,
180 whether as a “permitted use”, or a “special exception use” in the zoning district in which it is located,
181 shall not be deemed nonconforming solely because the procedure for approval has changed through
182 the adoption of these regulations.
183

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 1 - GENERAL PROVISIONS**

- 184 C. Previously granted variances. Unless becoming conforming pursuant to Subsection A, above, all
185 variances granted under any prior edition of the Land Development Code and which are still in effect
186 upon adoption of these regulations shall remain in full force and effect, including any conditions
187 attached thereto, and the owner may proceed to develop the property in accordance with the
188 approved variance.
189
- 190 D. Previously approved special exceptions. All special exceptions approved prior to the adoption of these
191 regulations, and any conditions attached thereto, shall remain in full force and effect, and the owner
192 may proceed to develop the property in accordance with the previous approval. However, if
193 construction has not commenced before the approval expires or if the approval is abandoned, the
194 provisions of these regulations shall govern.
195
- 196 E. Prior zoning districts. Unless provided otherwise on the Official Zoning Map, upon adoption of these
197 regulations, all existing zoning classifications shall be reclassified with one of the zoning classifications
198 set forth in Article 4, Zoning Districts, as follows:
199
- 200 1. Residential zoning districts.
201
 - 202 a. Single-family residential (R-1)
203
 - 204 b. Multi-family residential low density (RML)
205
 - 206 c. Multi-family medium density (RMM)
207
 - 208 d. Residential Estate (RE)
209
 - 210 e. Agriculture (A)
211
 - 212 2. Non-residential zoning districts.
213
 - 214 a. Commercial (C)
215
 - 216 b. Professional Office (P)
217
 - 218 c. Industrial (I)
219
 - 220 d. Institutional (INST)
221
 - 222 e. Preservation (PV)
223
 - 224 3. Mixed Use zoning districts.
225
 - 226 a. Commercial Corridor (CC)
227
 - 228 b. Neighborhood Commercial (NC)
229

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 1 - GENERAL PROVISIONS**

- 230 c. Mixed Use Seven Islands (MX7)
231
232 d. Mixed Use Bimini (MXB)
233
234 d. South Cape (SC)
235
236 e. Planned Unit Development (PUD)
237
- 238 F. Prior approved PDP projects and PUD zoning.
239
- 240 1. PUD zoning is consistent with all Future Land Use Classifications under the Comprehensive Plan,
241 except for the Preservation FLUC. All uses in a PUD zoning category must be consistent with the
242 underlying FLUC.
243
- 244 2. No existing sites with active and valid PDP approval will be rezoned to the PUD zoning category at
245 the time of adoption of this code. Sites with PDP approvals may be designated with a new or
246 different Comprehensive Plan Future Land Use Classification or a new or different zoning district
247 in conjunction with adoption of this code without effect to the status of the approved PDP.
248
- 249 3, All planned development projects (PDPs) approved prior to the adoption of these regulations, and
250 any approved site plan and conditions attached thereto, shall remain in full force and effect upon
251 adoption of this code. All such approved PDPs may be developed in accordance with the previous
252 approval, unless:
253
- 254 a. The existing PDP approval expires or substantial construction pursuant to the PDP approval
255 has not commenced before the approval expires or if the approval is abandoned, the
256 provisions of these regulations shall govern;
257
- 258 b. The owner chooses to develop the site under the FLUC and zoning district in effect for the site
259 at the time of application and the scope of the development does not require an amendment
260 to the existing PDP or require a new PUD approval;
261
- 262 c. A PUD is approved by City Council to replace an existing PDP approval; or
263
- 264 d. The owner applies for and the City Council has approved a PUD for a substantial change or
265 modification to the prior PDP approval. For purposes of this section, a substantial change or
266 modification is one that exceeds the scope of administrative amendments to a PUD approval
267 in Section 3.4.7.K. of this code.
268

269 **Section 1.14. General rules of construction.**
270

271 For the purposes of these regulations, the following rules of construction apply:
272

- 273 A. These regulations shall be deemed the minimum requirements for the promotion of the health,
274 safety, order, convenience, and general welfare of the community.
275

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 1 - GENERAL PROVISIONS**

- 276 B. These regulations shall be construed to achieve the purposes and intent for which they are adopted.
277
- 278 C. Nothing in these regulations is intended to repeal any easement, covenant, deed restriction, or other
279 private agreement; however, where these regulations are more restrictive or impose higher standards
280 or requirements than such easement, covenant, deed restriction, or other private agreement, these
281 regulations shall govern.
282
- 283 D. In the event of a conflict:
284
- 285 1. Between the text of these regulations and any caption, figure, illustration, table, or map, the text
286 of these regulations shall control;
287
- 288 2. Between a chart and an illustration, the chart shall control. All illustrations included in these
289 regulations are for illustrative purposes only;
290
- 291 3. When limitations, restrictions, or standards apply to an individual lot, use, or structure the more
292 restrictive provisions shall apply; and
293
- 294 4. Between these regulations and any federal, state, or county law or regulation which pre-empt
295 local regulation, the federal, state, or county law or regulation shall apply.
296
- 297 E. Words and phrases shall be construed according to the rules of grammar and according to the
298 common and approved usage. Technical words and terms that are used and that may have a particular
299 meaning based on law shall be defined according to that meaning.
300
- 301 F. The terms "Ordinance," "Code," "Law," "Statute," "Title," and "Act" are understood to include the
302 term "as amended", unless the context clearly indicates otherwise. References to technical manuals,
303 resource materials, code references, the comprehensive plan, and similar documents are understood
304 to include the term "as amended" unless the context clearly indicates otherwise.
305
- 306 G. The words "shall," "must," and "will" are mandatory in nature, implying an obligation or duty to
307 comply with the particular provision.
308
- 309 H. The word "or" is alternative in nature.
310
- 311 I. The word "may" is permissive in nature.
312
- 313 J. The word "including" shall be construed to include the phrase "but not limited to."
314
- 315 K. Words used in the present tense include the future tense.
316
- 317 L. The singular number includes the plural number and the plural, the singular.
318
- 319 M. Words utilizing the masculine gender include the feminine gender and use of the feminine gender
320 includes the masculine.
321

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 1 - GENERAL PROVISIONS**

- 322 N. The words “used” and “occupied” as applied to any land or building shall be construed to include the
323 words “intended, arranged, or designed to be used or occupied.”
324
- 325 O. The word “herein” means “these regulations.”
326
- 327 P. The words “building” or “structure” includes any of its parts.
328
- 329 Q. The word “person” includes an individual, a corporation, a partnership, an incorporated association,
330 or any other similar entity.
331
- 332 R. The word “owner” includes his or her agents or authorized representatives unless the context clearly
333 indicates otherwise.
334
- 335 S. Any act authorized by these regulations to be carried out by a specific official or agency of the City is
336 authorized to be carried out by a designee of such official or agency, unless the context clearly
337 indicates otherwise.
338
- 339 T. The time within which an act is to be done shall be computed by excluding the first and including the
340 last day; if the last day is a Saturday, Sunday, or a legal holiday the timeframe shall be extended to the
341 next working day.
342

343 **Section 1.15. Measurements.**
344

- 345 A. Number of Residential Units Allowed (Density). The maximum number of residential units allowed on
346 a site is determined by multiplying the maximum density allowed under the Comprehensive Plan by
347 the parcel size (i.e., allowable comp plan density (x) parcel size), except when the zoning district of a
348 parcel permits lot sizes that equate to a smaller maximum density for that parcel.
349
- 350 B. Distance requirements. Unless otherwise provided herein, distances shall be measured in accordance
351 with the following:
352
- 353 1. When the LDC requires a distance between uses or developments on different development
354 parcels or there are LDC requirements for a development within a certain distance from another
355 development parcel, the distance shall be measured using a straight-line measurement from the
356 closest point of one parcel to the closest point of the parcel(s) involved.
357
 - 358 2. When the LDC imposes requirements on a development within a certain distance of a zoning
359 district, the distance shall be measured using a straight-line measurement from the closest point
360 of a zoning district boundary to to the closest point of the parcel(s) involved.
361
- 362 When there is a distance requirement between a structure or building on the same development
363 site, the distance shall be measured from the exterior of the buildings or structures, using a
364 straight-line measurement from the closest points between the structures being measured.
365
- 366 3. When a portion of a parcel or development site lies within a certain distance of a zoning district
367 or development and the LDC imposes requirements or regulations on a development or parcel

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 1 - GENERAL PROVISIONS**

368 within that distance, the requirements and regulations shall be applicable to the entire parcel or
369 development site and not just to the portion within the specified distance.

370

371 C. Floor area, gross. The sum of the floor areas of all floors of a building or structure from the exterior
372 face of exterior walls, or from the centerline of a wall separating two buildings, excluding covered
373 parking, loading areas, or parking garages. When an entire level of a building or structure is below
374 ground as measured from floor to floor or ceiling slab to ceiling slab, the floor area of this level shall
375 be excluded from the calculation of gross floor area. Unless otherwise specified, gross floor area for
376 food service establishments shall also include any outdoor or patio floor area on the property used or
377 designed for customer service.

378

379 D. Floor area, net. The total floor area of all floors of a building shall be measured by excluding from the
380 gross floor area stairwells and elevator shafts, equipment rooms, interior vehicular parking, loading,
381 and all floors below the first or ground floor, except when such areas are used or intended to be used
382 for human habitation or service to the public.

383

384 E. Floor area ratio (FAR). The floor area ratio is measured by the net floor area of all buildings or
385 structures on a lot, parcel, or site divided by the total lot, parcel, or site area.

386

387 F. Fractional measurements.

388

389 1. When units or measurements result in a requirement of a fraction, any such fraction equal to or
390 greater than exactly fifty percent (50%) shall require the full requirement, unless otherwise
391 provided for in these regulations.

392

393 2. Density fractional measurements. When calculating density, any fraction of a unit shall be
394 rounded down to the nearest whole number, unless otherwise provided for in these regulations.

395

396 G. Grade.

397

398 1. When used to measure habitable structures, grade shall be the highest elevation of:

399

400 a. The natural elevation of the ground when compared to abutting properties. Natural elevation
401 of the ground when compared to abutting properties, shall be derived by selecting a minimum
402 of two (2) elevation points on each adjoining property line and calculating the average of all
403 the selected elevation points. This calculation will determine the reference plane for
404 calculating the height of habitable structures only;

405

406 b. The base flood elevation requirement for the lowest floor as shown on the flood insurance
407 rate map published by the Federal Emergency Management Agency (FEMA);

408

409 c. Eighteen (18) inches above the FEMA base flood elevation requirement for the bottom of the
410 Lowest Horizontal Structural Member (LHSM) of the lowest floor; or

411

412 d. Eighteen (18) inches above the State of Florida, Department of Environmental Protection
413 minimum requirement for the bottom of the LHSM of the lowest floor. For purposes of the

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 1 - GENERAL PROVISIONS**

414 definition of grade, the term floor shall be defined as the top of the lowest inside surface of
415 an enclosed area in a building, including the basement. For example, the top of the slab in a
416 concrete slab construction or the top of wood flooring in wood frame construction. The term
417 does not include an unfurnished or flood resistant enclosure, usable solely for parking of
418 vehicles, building access, or storage in an area other than a basement area.
419

420 2. When used to measure non-habitable accessory structures, grade shall be the finished ground
421 surface at the base of the accessory structure being measured. If a retaining wall elevates the
422 non-habitable accessory structure, grade shall be the finished ground surface at the base of the
423 retaining wall.
424

425 H. Building Height. The height of buildings shall be measured from the lowest finished floor elevation to
426 the lowest point of the highest horizontal eave or the top of the roof slab for structures with flat roofs.
427 Church spires and steeples, chimneys, parapet walls, machine rooms, elevator towers, and similar
428 features necessary to the design and function of a building but not designed for human occupancy,
429 shall not be included in the measurement of overall building height.
430

431 I. Lot coverage. That portion of a lot that is covered by all principal and accessory buildings.
432

433 J. Lot depth. The depth of a lot is the distance measured from the mean direction of the side lines of the
434 lot from the midpoint of the street lot line to the midpoint of the opposite main rear line of the lot.
435

436 K. Lot width. The horizontal distance between the side lines of a lot measured at the front building
437 setback line, or at the front property line where no front setback is required.
438

439 L. Setback. A setback is the minimum horizontal distance between a structure and a property line.
440 Setbacks shall extend and be measured perpendicular and inward from the respective property lines.
441

442 **Section 1.16. Interpretation of zoning district boundaries.**
443

444 Zoning district boundaries are usually depicted along streets, alleys, shorelines, property lines, or
445 extensions thereof. Where an uncertainty exists with respect to the boundaries of districts as shown on
446 the Official Zoning Map, the following rules shall apply:
447

448 A. Centerlines. Boundaries indicated as approximately following the centerlines of streets, highways, or
449 alleys shall be construed to follow such centerlines;
450

451 B. Lot, section, and tract lines. Boundaries indicated as approximately following platted lot lines shall be
452 construed as following such lot lines;
453

454 C. Political boundaries. Boundaries indicated as approximately following City limits shall be construed as
455 following City limits;
456

457 D. Shorelines. Boundaries indicated as following shorelines shall be construed to follow such shorelines.
458 In the event of a change in the shoreline, the zoning district boundary shall be construed as moving

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 1 - GENERAL PROVISIONS**

- 459 with the actual shoreline. Boundaries indicated as approximately following the centerline of streams,
460 rivers, canals, lakes, or other bodies of water shall be construed to follow such centerlines;
461
- 462 E. Vacations. Whenever any street, alley, or other public way is vacated by official action of the City
463 Council, the zoning district of the property abutting each side of the street, alley, or public way shall
464 be automatically extended to the center of such vacation and all area included within the vacation
465 shall thereafter be subject to all regulations of the extended districts;
466
- 467 F. Filled lands. Where land is built-up by fill upon areas formerly submerged under water, the district
468 regulations applying to the land immediately adjoining such built-up land shall be automatically
469 extended thereto;
470
- 471 G. Parallel lines. Boundaries indicated as parallel to or extensions of features indicated in subsections A
472 through F of this section shall be so construed. Distances not specifically indicated on the official
473 zoning map shall be determined by the scale of the map;
474
- 475 H. Bisecting lines. Where district boundary lines approximately bisect blocks, the boundaries are the
476 median line of such blocks, between the centerlines of boundary streets;
477
- 478 I. Uncertainties. Where physical or cultural features existing on the ground are at variance with those
479 shown on the official zoning map or if any other uncertainty exists, the Director of Community
480 Development shall interpret the intent of the official zoning map as to the location of district
481 boundaries; and
482
- 483 J. Excluded areas. Where land or water areas have been inadvertently excluded from a zoning district
484 classification in any manner, such areas shall be classified in conformance with the most restrictive
485 zoning district which abuts the excluded area until or unless changed pursuant to amendment
486 procedures set forth in Article 3, Sec. 3.4.6.
487

488 **Section 1.17. Severability.**
489

- 490 A. It is the intent of the City Council of the City of Cape Coral that the articles, chapters, sections,
491 subsections, paragraphs, sub-paragraphs, sentences, clauses, and phrases of this Code are severable,
492 and if any are declared invalid or unconstitutional by the valid judgment or decree of a court of
493 competent jurisdiction, such invalidity or unconstitutionality shall not affect the balance of these
494 regulations.
495
- 496 B. It is the further intent of the City Council of the City of Cape Coral that all property within the City be
497 governed by these regulations. Therefore, if the zoning district of a parcel is declared invalid or
498 unconstitutional, either on its face or as-applied, it is the intent of the City Council that the zoning
499 district applied to the parcel shall be the next more restrictive zoning district that is consistent with
500 the future land use district within which the parcel is located.
501

CHAPTER 1. PLANNING AND ZONING COMMISSION

Section 2.1.1. Powers and duties.

- A. Pursuant to and in accordance with F.S. § 163.3174 of the Local Government Comprehensive Planning and Land Development Regulation Act, as amended, the City Council finds that planning of land use and continuing growth management evaluation within the City is a public purpose benefiting the safety, economic well-being, and cultural welfare of the citizens of the City. The City Council further finds that this public purpose can best be achieved by establishing the Planning and Zoning Commission, which is established and designated as the local planning agency (LPA) for the City.
- B. Pursuant to and in accordance with F.S. § 163.3175(5) and F.S. § 163.3177(1) of the Local Government Comprehensive Planning and Land Development Regulation Act, the City Council finds that there is a public purpose in coordinating the planning of the City with the Lee County School Board.
- C. The Planning and Zoning Commission/Local Planning Agency (hereinafter Commission) shall have the authority and responsibility to review land use in the City and evaluate planning and regulatory techniques for resolving physical, economic, social, environmental and fiscal issues. The City Council directs the Commission to carry out functions and powers identified in the Land Development Code.

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 2 – DECISION MAKING AND ADMINISTRATIVE BODIES

47 The Commission shall use the power and authority conferred upon it by the Land Development Code
48 to further its stated public purpose.

49

50 D. Any power or duty delegated by the City Council.

51

52 **Section 2.1.2. Membership; vacancy; compensation.**

53

54 A. Membership. The Commission shall consist of seven members. All members shall be residents of the
55 City and will be appointed by a majority vote of the City Council. The term of office for each member
56 shall be three years, or until a successor is appointed. Terms of office shall commence on the first day
57 of March of the year in which appointed. In addition to the seven members, two alternate members
58 shall be appointed by a majority vote of the City Council to serve as alternates for the term of one
59 year, or until a successor is appointed. Alternate members shall be residents of the City. Alternate
60 members shall substitute for absent members on a rotating basis. When substituting for an absent
61 member, an alternate member may vote and participate in all discussions of the Commission in the
62 same manner and to the same extent as the other members of the Commission. When not
63 substituting for an absent member(s), alternate members shall not vote on any matter, but may
64 participate in all discussions in the same manner and to the same extent as the other members.
65 Alternate members shall have the same attendance requirements as the other members of the
66 Commission. Board members and alternate members shall be subject to the forfeiture of office
67 provisions of Section 2.58 of the Cape Coral Code of Ordinances. Whenever a vacancy occurs on the
68 Commission, the city shall fill the vacancy for the remainder of the term as soon as practicable after
69 the vacancy occurs.

70

71 B. Vacancies.

72

73 1. If a vacancy occurs on the Commission as the result of the resignation, death, or removal of a
74 member, the senior alternate member shall temporarily fill such vacancy without action by the
75 City Council, until the City Council appoints a successor regular member. In the event both
76 alternates have served for the same continuous period of time then the alternate who is next
77 scheduled to substitute for an absent regular member according to the rotation schedule shall
78 temporarily fill the vacancy until the City Council appoints a successor regular member. In the
79 event that the alternate member dies, resigns, is removed, or becomes a member, the City Council
80 shall promptly appoint a qualified person to the unexpired term of the alternate.

81

82 2. In the event a vacancy occurs on the Commission; an alternate member may apply to be a regular
83 member in the same manner as other applicants. In the event an alternate member is appointed
84 to be regular member, then such appointment shall simultaneously terminate such person's
85 position as an alternate member. In that event, the City Council may then appoint another person
86 to fill the resulting alternate member vacancy.

87

88 C. Compensation. Members of the Commission shall receive no salary for their services, but may receive
89 such travel and other expenses while on official business for the City as are made available by the City
90 Council for these purposes.

91

92

93

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 2 – DECISION MAKING AND ADMINISTRATIVE BODIES**

94 **Section 2.1.3. Meetings; Quorum; Required vote.**

95

96 A. Meetings. The Commission shall schedule and hold at least one public hearing each month unless
97 there is no business to transact for the regular meeting date. The Commission shall also meet at the
98 call of the chairperson and other times as may be determined by a majority of the Commission.

99

100 B. Quorum. Four voting members of the Commission shall constitute a quorum for the transaction of
101 business, but a smaller number may act only to adjourn meetings for lack of a quorum. The affirmative
102 vote of a majority of the quorum shall be required to pass any action of the Commission.

103

104 C. Officers. The Commission shall annually elect a chairperson and a vice-chairperson from among its
105 members. All officers shall be elected for one-year terms and shall be eligible for re-election.

106

107 **Section 2.1.4. Staff; Attorney.**

108

109 A. Staff. The City Manager shall provide staff support necessary to the planning functions of the
110 Commission and provide secretarial support for the Commission in the execution of its duties and to
111 record and transcribe in summary form the minutes of all Commission meetings.

112

113 B. Attorney. The City Attorney shall serve as legal counsel to the Commission.

114

115 **Section 2.1.5. Rules and records.**

116

117 A. The Commission shall adopt its own rules of procedure as may be deemed necessary; provided such
118 rules shall not be contrary to the spirit and intent of the Land Development Code or to the policies of
119 the City. The Commission shall keep minutes of its meetings and records of all transactions and
120 deliberations. Such minutes and records shall be filed in the appropriate offices of the City and shall
121 be public records.

122

123 B. All meetings of the Commission shall be open to the public.

124

125 C. The Commission shall set up rules of procedure to monitor and oversee the effectiveness and status
126 of the Comprehensive Plan in order to make any recommendation to the City Council for changes in
127 the Comprehensive Plan as may from time to time be required consistent with the intent and purposes
128 of the Cape Coral Land Development Code relating to the Comprehensive Plan.

129

130 **CHAPTER 2. HEARING EXAMINER**

131

132 **Section 2.2.1. Establishment.**

133

134 There is hereby created a Hearing Examiner with authority to conduct quasi-judicial and other hearings in
135 accordance with provisions of this code in an equitable, expeditious, and effective manner. Nothing in this
136 section shall prohibit the City Council from enforcing any code by other means.

137

138 **Section 2.2.2. Appointment of Hearing Examiner(s); Vacancy; Recusal.**

139

140 A. The city shall utilize the services of one or more Hearing Examiner(s) to conduct quasi-judicial hearings

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 2 – DECISION MAKING AND ADMINISTRATIVE BODIES**

141 in accordance with provisions of this code.

142

143 B. The City Council shall appoint at least one qualified person to serve as the Hearing Examiner, and may
144 appoint at least one qualified person to serve as an alternate Hearing Examiner.

145

146 C. The appointment(s) shall be in the sole discretion of the City Council. However, any person appointed
147 to the position of Hearing Examiner must be an attorney duly licensed by the Florida Bar Association
148 to practice law in the State of Florida. Appointment(s) shall be made by written contract approved by
149 the City Council. The contract shall set out the terms and conditions, including compensation, travel,
150 mileage, and any additional powers and duties delegated or assigned to the Hearing Examiner.
151 Although appointed by contract, Hearing Examiners shall be subject to removal, with or without
152 cause, at any time during their term by the City Council in its sole discretion.

153

154 D. Hearing Examiners shall not be considered to be city employees.

155

156 E. If a Hearing Examiner vacancy occurs as a result of resignation, death, removal, or the Hearing
157 Examiner recuses, disqualifies himself or herself, or does not otherwise hear a particular case, and an
158 alternate Hearing Examiner is unavailable or otherwise unable to hear a case, these cases shall be
159 heard by the Planning and Zoning Commission in an advisory capacity and then heard by the City
160 Council for the final decision.

161

162 **Section 2.2.3 Exercise of power; powers and duties.**

163

164 A. Exercise of power. In exercising its powers, a Hearing Examiner may, upon appeal and in conformity
165 with the provisions of this code, reverse or affirm, wholly or partly, or may modify the order,
166 recommendation, requirement, decision, or determination made by the Director or an administrative
167 official in the application, interpretation, or enforcement of this code and may make any necessary
168 order, recommendation, requirement, decision, or determination, and to that end shall have all the
169 powers of the administrative official from whom the appeal is taken.

170

171 B. Powers and duties. A Hearing Examiner shall hear and decide or, when applicable, make
172 recommendations, on the following:

173

174 1. Applications for special exceptions;

175

176 2. Applications for variances. The Hearing Examiner may impose any reasonable conditions or
177 restrictions on a variance it decides to grant;

178

179 3. Applications for deviations;

180

181 4. Applications for vacations;

182

183 5. Applications for rezoning property;

184

185 6. Applications for PUD master control plans; and

186

187 7. Appeals of administrative decisions under the Land Development Code.

Section 2.2.4. City Attorney; City Clerk.

- A. City Attorney. The City Attorney is the legal officer for the city. Because only attorneys may hold the position of Hearing Examiner, the city shall not be required to provide legal representation to the Hearing Examiner(s).
- B. City Clerk. The City Clerk, shall attend all hearings and record (audio, video, or both) all hearings. The city shall retain the original recording(s) in accordance with the laws of the State of Florida, and, if requested, provide a duplicate of the recording(s) to the Hearing Examiner.

Section 2.2.5. Decisions; Recommendations.

The Hearing Examiner shall provide the City Clerk with all original decisions or recommendations for transmission to the applicant or if the applicant is the city, to the Director of Community Development and City Attorney.

CHAPTER 3. ADMINISTRATIVE DECISION MAKERS AND ENFORCEMENT OFFICERS

Section 2.3.1. City Manager.

The City Manager is the chief executive officer for the City of Cape Coral with ultimate authority over the implementation of these regulations. The City Manager has the authority to delegate his authority to City staff as necessary for the effective administration and enforcement of the regulations.

Section 2.3.2. Department of Community Development.

The Department of Community Development is the City department charged with administration and enforcement of the Land Development Code.

Section 2.3.3. Community Development Director.

The Community Development Director is responsible for the administration of these regulations. Specifically, the Community Development Director is responsible for receiving applications for development approval, determining whether they are complete, and coordinating review of the applications. The Community Development Director shall have administrative responsibility to interpret the Land Development Code.

Section 2.3.4. Building Official.

The Building Official is responsible for the implementation of the various building codes adopted pursuant to the Florida Building Code and other applicable state statutes. The Building Official issues building permits and certificates of occupancy, upon a determination by the City of compliance of permit applications with the City regulations and any prior approvals by the City.

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 2 – DECISION MAKING AND ADMINISTRATIVE BODIES**

235 **Section 2.3.5. Planning Manager.**

236

237 The Planning Manager is responsible for duties under this Code or as assigned by the Community
238 Development Director. The Planning Manager is responsible for the implementation and interpretation
239 of the Land Development Code.

240

241 **Section 2.3.6. Public Works Director.**

242

243 The Public Works Director is charged with the development and maintenance of the City's Engineering
244 Design Standards and implementation related to City maintained facilities.

245

246 **Section 2.3.7. Development Services Manager.**

247

248 The Development Services Manager is responsible for the review and approval of applications for land
249 development permits. The Development Services Manager reviews and approves Site Development Plans,
250 Preliminary Subdivisions, Construction Plan approvals, Development Permits, and Certificates of
251 Completion.

252

253 **Section 2.3.8. Code Enforcement Manager.**

254 The Code Enforcement Officer is charged with the initiation of and prosecution of enforcement actions
255 pursuant to Chapter 2, Article 5, Divisions 3 and 4 of the City of Cape Coral Code of Ordinances.

59

60 **CHAPTER 1. DEVELOPMENT REVIEW PROCEDURES**

61

62 **Section 3.1.1. Purpose.**

63

64 The purpose of this article is to establish the standards and procedures for review and approval of
65 proposed development within the City of Cape Coral, and to provide a development review process that
66 will be comprehensive, consistent, and efficient in the implementation of the goals, objectives, and
67 policies of the City of Cape Coral Comprehensive Plan and this Code.

68

69 **Section 3.1.2. Classification of Development Review Procedures**

70

71 All development applications under this Article are subject to the procedural review requirements in this
72 Chapter, unless otherwise exempted by the terms of this Article. Development applications are classified
73 according to the decision-making authority for each type of application, as set forth below.

74

75 A. Administrative. The following shall be treated as administrative decisions:

76

77 1. Zoning and Flood Zone Verification Letters

78 2. Certificates of Zoning Compliance

79 3. Administrative Interpretations and Similar Use Determinations

80 4. Sign Permits (See Article 6)

81 5. Lot Splits and Lot Combines

82 6. Conditional Uses

83 7. Master Concept Plan (PUD) Amendments

84 8. Administrative Deviations

85 9. Site Development and Subdivision Construction Plans

86 10. Preliminary Subdivision Plans (See Article 10)

87 11. Site Improvement Permits

88 12. Temporary Use Permits:

89 a. Firework, pumpkin, and Christmas tree sales.

90 b. Outdoor display of merchandise.

91 c. Garage sales.

92 d. Temporary construction or field office.

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

- 93 e. Construction staging areas for essential public facilities and post disaster debris staging
- 94 f. Temporary sales office.
- 95 g. Temporary Storage Containers.
- 96 h. Temporary Habitable Structures.
- 97 i. Temporary Off-Site Vehicle Sales.
- 98 j. Tents for other than Special Events.
- 99 k. Other events not named.
- 100 l. Temporary Seawall Staging Areas.

101
102 13. Reasonable Accommodations (See Article 13)

103
104 B. Quasi-judicial. The following shall be treated as quasi-judicial decisions:

- 105
- 106 1. Deviations (other than Administrative Deviations)
- 107 2. Variances
- 108 3. Special Exceptions
- 109 4. Vacations of Plats, Easements, and Rights-of-way
- 110 5. Rezones
- 111 6. Planned Unit Developments (PUDs) and Master Concept Plans
- 112 7. Appeals

113
114 C. Legislative. The following shall be treated as legislative decisions:

- 115
- 116 1. Annexations
- 117 2. Future Land Use Map Amendments
- 118 3. Comprehensive Plan Text Amendments
- 119 4. Land Development Code Text Amendments
- 120 5. Plats

121
122 D. Other Approvals.

- 123
- 124 1. Outdoor Display of Merchandise
- 125 2. Special Events

126
127 E. Certain buildings, structures, improvements, and installations are exempted by the Florida Building Code
128 from building permit issuance but must otherwise comply with the minimum requirements of this chapter.
129 Therefore, such buildings, structures, improvements, and installations shall be subject to review under the
130 Site Development Plan or Certificate of Zoning Compliance standards contained in this Article, as well as the
131 regulations of the underlying zoning district.

132
133 F. The Community Development Director shall have the authority to require a certificate of zoning compliance
134 or site improvement permit review for other buildings, structures, improvements and installations that are
135 newly created or come about by changes in the state or local building codes; or other improvements
136 deemed necessary for approval.

- A. Unless otherwise indicated by a specific provision of this Article, the applicant for a permit or approval under this Code must be the owner of the property that is the subject of the application or a duly authorized agent of the owner. An applicant who is a contract purchaser must provide proof that the applicant is an authorized agent of the property owner.
 - 1. For rezone and comprehensive plan amendments involving multiple properties or ownerships, the owners of at least fifty-one percent of the number of parcels or the land area included in the application, whichever is greater, must join in the application.
 - 2. For applications to vacate public rights-of-way or alleys, the owners of all parcels abutting the street or alley or portion thereof to be vacated must join in the application.
 - 3. For applications to vacate easements, all owners of parcels abutting the easement and all owners entitled to use of the easement to be vacated must join in the application.
 - 4. For applications to vacate any portion of a platted subdivision, all owners in the subdivision must join in the application.
- B. Unless otherwise indicated by a specific provision of this Article or another City ordinance or regulation, applications for permits and approvals under this Chapter shall be submitted to the Community Development Department.
- C. Applications shall contain all information required for the type of application being filed and shall include all plans, data, studies, or supporting documents required under this code or specified in the application forms.
- D. The Community Development Department shall establish application forms and submittal requirements for all development applications referenced in this Article.
- E. Applications for various approvals and permits may be submitted for concurrent or simultaneous review at the option and sole risk of the applicant. This provision shall not apply to any comprehensive plan amendments, rezones, or permit approvals associated with a proposed annexation into the City.
- F. Applications for permits or development approvals which have been made available as on-line may be required to file an on-line application only, as determined by the Director.
- G. The Community Development Director shall have the authority to require a zoning or site improvement permit review for other buildings, structures, improvements, or installations that are newly created or come about by changes in the state or local building codes; or other improvements deemed necessary for approval.

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

192 **Section 3.1.5. Pre-application and Neighborhood meetings.**

193
194 A. Upon request of an applicant, the director may schedule pre-application meetings with applicants and
195 appropriate City staff, for the purpose of reviewing proposed development prior to the formal
196 submission of an application. Applicants are encouraged, though not required, to request a pre-
197 application meeting. A pre-application meeting is required for Planned Unit Development
198 applications.

199
200 B. The pre-application meeting shall be informal, and its purpose shall be to discuss the proposals, views,
201 and concepts of the applicant. The purpose is also to discuss whether any additional information will
202 be required. Failure of staff to identify any required permits or procedures at a pre-application
203 meeting shall not relieve the applicant of any such requirements in this code or constitute waiver of
204 the requirement by the decision-making body.

205
206 C. At the pre-application meeting staff will:

207
208 1. Review the proposed project and any preliminary plans with the applicant.

209
210 2. Discuss and inform the applicant about the zoning requirements relevant to the proposal,
211 information necessary for an application, and the approval process(es) for the project. This does
212 not preclude the department from requesting additional information or waiving certain
213 requirements for information later during the review process.

214
215 3. Advise the applicant whether the proposed project conforms to the Comprehensive Plan or the
216 requirements of this title.

217
218 D. Any recommendations or determinations reached during pre-application meetings are purely
219 advisory and shall not be binding either on the applicant or the City.

220
221 E. Applicants are encouraged, though not required, to conduct a neighborhood meeting to advise nearby
222 residents of upcoming development applications. The City will provide a list of surrounding property
223 owners for applicants to notify when a neighborhood meeting is scheduled.

224
225 **Section 3.1.6. Fees Required.**

226
227 Each applicant for a permit, approval, or appeal under this Article shall be required to pay any application
228 fee(s) as established by the City Council.

229
230 **Section 3.1.7. Complete Applications Required.**

231
232 A. Incomplete Applications. No application for a permit, approval, or appeal under this Article shall be
233 accepted or reviewed by staff that does include all required application materials and the required
234 application fee(s). The burden of providing complete and accurate information required by the
235 Community Development Department for each type of application shall be on the applicant.

236
237 B. Determination of Completeness.

1. When an application for development approval is submitted, the director shall make a threshold determination as to whether the application is complete and in conformance with the land uses, density, and intensity allowed by the future land use designation and zoning district classification.
 2. All applications shall be reviewed for completeness within ten days of receipt. If the application does not meet the requirements of this Article, the director shall notify the applicant or agent in writing, stating the additional information required or the modification(s) necessary for conformance.
 3. No further action shall be taken on the application unless and until the additional information is submitted and determined to be complete by the director. If the incompleteness has not been remedied within sixty (60) calendar days of receipt of notice thereof, the application shall be automatically voided and the director shall return the application to the applicant.
- C. Review. When an application for development approval is determined to be complete, the department shall notify the applicant, and commence detailed review and processing of the application in accordance with this Code.

Section 3.1.8. Review for Sufficiency and Code Requirements.

Once an application is determined to be complete, the Department shall commence detailed review of the application, consult with other agencies, issue comments to the applicant, consult with the applicant as necessary, and determine whether the application and supporting materials are sufficient to proceed forward, as applicable for the type of application for review. For purposes of this section, "sufficiency" shall constitute an analysis of whether a proposed application:

- A. Meets the stated objective requirements of the comprehensive plan, this Code, and the City Code of Ordinances; and
- B. Includes the necessary analysis and information in sufficient detail to enable the decision-making body or official to make the necessary determinations under the comprehensive plan and this Code.
- C. The sufficiency and code requirements set forth herein shall be used by the City to evaluate the demands created on public services and facilities by a proposed development, as required by this code. The following public services and facilities shall be evaluated:
 1. Drainage facilities;
 2. Environmentally sensitive lands;
 3. Fire protection;
 4. Parks and open space;
 5. Police protection;

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

- 284
285 6. Potable water;
286
287 7. Wastewater;
288
289 8. Solid waste;
290
291 9. Storm water; and
292
293 10. Transportation facilities. A traffic impact study is required for any development anticipated to
294 generate more than 300 p.m. peak hour average daily trips.
295
296 D. If an application is determined to be insufficient, the director shall notify the applicant or agent in
297 writing, stating the additional information required or the modification(s) necessary for conformance.
298
299 E. No further action shall be taken on an application determined to be insufficient unless and until the
300 insufficiency(ies) are resolved, as determined by the director. If the insufficiencies have not been
301 remedied within sixty (60) calendar days, the director may void the application.
302

Section 3.1.9. Decision-making.

- 303
304
305 A. Administrative approvals. Upon determining that an application and all supporting information are
306 sufficient to render a decision, the Director shall take administrative action required by this code and
307 approve the application, approve the application with conditions, or deny the application.
308
309 B. Quasi-judicial and legislative approvals. Upon determining that an application and all supporting
310 information are sufficient to render a decision and any inadequacies have been resolved, the Director
311 shall prepare a report and recommendation to the appropriate decision-making or recommending
312 body.
313

Section 3.1.10. Public Hearing Scheduling and Notice Requirements.

- 314
315
316 A. Scheduling for consideration. When an application is deemed sufficient pursuant to LDC Section 3.1.8,
317 the Director shall schedule a public hearing for an appropriate date. No application shall be scheduled
318 for consideration by the Hearing Examiner, Commission, or City Council until either:
319
320 1. All specified insufficiencies have been resolved; or
321
322 2. The applicant has elected in writing to proceed notwithstanding the unresolved insufficiencies.
323
324 B. Required notice of public hearings. Notice of public hearings shall be provided by publication of an
325 advertisement in a newspaper of general circulation, mailed notice to surrounding property owners,
326 and posting of the development site pursuant to the requirements of this section. Table 3.1.2 depicts
327 the public hearing notice requirements for quasi-judicial and legislative applications under this Code:
328

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

- 329 C. Website posting. Notices of public hearings for development applications shall be posted on the City
330 of Cape Coral website but failure to post a case on the City website shall not constitute a violation of
331 City noticing requirements. In addition, information about public notice and public hearings may be
332 posted by the City on social media outlets.
333
- 334 D. Publication. Publication of advertisements for public hearings concerning comprehensive plan
335 amendments shall meet the requirements of Chapter 163, Florida Statutes. Publications for public
336 hearings concerning zoning amendments shall meet the requirements of Chapter 166 Florida
337 Statutes.
338
- 339 E. Posting. The application site shall be posted with a notice of the public hearing on a sign provided by
340 the Community Development Department at least ten (10) calendar days in advance of any public
341 hearing. The number and placement of public notice signs should be determined by the Department.
342 The signs shall be removed by the City after a final decision. The failure to remove posted notice after
343 a final decision shall not be deemed a failure to comply with this requirement or be grounds to
344 challenge the validity of any final decision on the application(s).
345
- 346 F. Mailed notice. Notice of a public hearing on a proposed development application(s) shall be mailed
347 to all owners of real property within five hundred (500) feet of the periphery of the site in question,
348 whose names and addresses are known by reference to the latest published ad valorem tax records
349 of the Lee County Property Appraiser.
350
- 351 1. Individually owned multi-family units. When real property consists of individually owned multi-
352 family units, notice shall be given to the homeowner’s association, if applicable, all individual unit
353 owners, and all real property owners within five hundred (500) feet. If any area adjacent to the
354 development site is owned by the applicant or any partner listed on the application, the five
355 hundred (500) foot notification boundary shall be extended from these parcels. All property
356 owner associations in the notice area shall be notified.
357
- 358 2. Notice to other jurisdictions. If there are unincorporated lands within 500 feet of the property,
359 Lee County shall also be notified.
360
- 361 3. Applicant responsibility for notice. When the notice radius specified in this section includes
362 property outside of the City limits, the applicant is responsible for obtaining the list of property
363 owners to be notified from the Lee or Charlotte County Property Appraisers and providing this list
364 to the department in sufficient time to comply with noticing requirements. The applicant is
365 responsible for any errors or omissions in the list provided.
366
- 367 4. Content. Generally, all public hearing notices shall contain the following information:
368
- 369 a. The scheduled date, time, and location of the hearing;
370
- 371 b. A general description of the nature of the matter to be addressed, written in layman's terms;
372
- 373 c. The address of the property;
374

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

- 375 d. That persons may appear and be heard;
- 376
- 377 e. That written comments filed with the department will be entered into the record;
- 378
- 379 f. That the hearing may be continued from time to time as necessary;
- 380
- 381 g. A telephone number and contact for more information;
- 382
- 383 h. The case number or title of the ordinance under consideration, if applicable; and
- 384
- 385 i. Such additional information as may be required pursuant to this code or applicable law for
- 386 specific types of development approval.
- 387
- 388 5. Timing of mailed notice. Notice shall be mailed a minimum ten (10) calendar days prior to the
- 389 date set for the public hearing by first class mail. A copy of the notice shall be available for public
- 390 inspection during regular business hours at the Community Development Department. If the
- 391 application includes a simultaneous future land use map amendment and a rezone, the notice for
- 392 the rezone may be included in the notice required for the land use amendment.
- 393
- 394 G. Electronic Notice. The Community Development Department may, as a courtesy, send electronic
- 395 notice to any persons or organizations in the City, or to any governmental, public, or quasi-public
- 396 organization regarding any matter that may affect the interests of that person or organization, or on
- 397 any matter on which any such person or organization has requested notice. The failure of the
- 398 Department to send such notice or the failure of any resident or property owner to receive such
- 399 courtesy notice shall not affect the validity of the public notice requirements.
- 400
- 401 H. Exceptions to Mailing and Posting. The mailing and posting notice requirements shall not apply to a
- 402 land use map amendment initiated by the Council, in response to a judicial order or compliance
- 403 agreement as described by Section 163.3184(6) and (7), Florida Statutes.
- 404
- 405 I. Continued or Rescheduled Meetings. Notice of subsequent hearings shall be mailed and published in
- 406 accordance with this section for:
- 407
- 408 1. Any hearing for which the Hearing Examiner, Community Development Director, or City Attorney
- 409 determines new notice should be provided, because of the time elapsed from the original notice,
- 410 to correct any defect, or apprise affected parties of significant changes to the application as
- 411 originally noticed;
- 412
- 413 2. Any hearing continued to an unspecified date, time, and place; or
- 414
- 415 3. Any hearing where such new notice is required pursuant to applicable law or this Code.
- 416

Section 3.1.11 Public Hearing Procedures.

- 417
- 418
- 419 A. General. All public hearings shall be open to the public. Members of the public shall be permitted to
- 420 testify at all public hearings. A copy of the hearing procedures shall be made available at the hearing.

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

421 The applicant may withdraw an application by requesting such withdrawal in writing prior to the
422 commencement of the hearing.

423
424 B. Record of hearings. The City Clerk shall attend all hearings, and the City shall record (audio, video, or
425 both) all hearings. The City shall retain the original recording(s) in accordance with the laws of the
426 State of Florida, and, if requested, provide a duplicate of the recording(s).

427
428 C. Official file. All written communication received by the decision-making body, the Hearing Examiner,
429 or staff concerning an application, the staff report on the application, any petitions or other
430 submissions from the public, and all other documents pertaining to the application shall be filed in
431 the official file for the application, which shall be maintained by staff. The Comprehensive Plan, the
432 City Code of Ordinances, and the Land Development Code shall be deemed to be part of the official
433 file. The official file shall be available for inspection during normal business hours.

434
435 D. Order of public hearings. The hearing shall, to the extent possible, be conducted as follows:

436
437 1. The Clerk shall read into the record the ordinance or resolution title and number, or the
438 applicant's name, file number, and the subject matter to be decided if there is no ordinance or
439 resolution.

440
441 2. For quasi-judicial hearings, the applicant, staff, and all participants requesting to speak or present
442 evidence or both at the hearing shall be collectively sworn by an oath or affirmation by the Clerk.

443
444 3. The applicant may waive the applicant's right to an evidentiary hearing if applicant agrees with
445 the staff recommendation and no one from the audience wishes to speak for or against the
446 application. The decision-making body may then vote on the item or the Hearing Examiner shall
447 rule on the matter or make a recommendation, based upon the staff report and any other
448 materials contained within the official file. Regardless of a waiver by the applicant, a public
449 hearing shall be held for all decisions requiring an ordinance or resolution.

450
451 4. If there is an evidentiary hearing, the order of the presentation shall be as follows, unless the
452 Hearing Examiner or Mayor determines to proceed in a different order, taking proper
453 consideration of fairness and due process:

454
455 a. The applicant shall make the applicant's presentation, including offering any documentary
456 evidence, and introduce any witnesses as applicant desires. The applicant shall present the
457 applicant's entire case in 30 minutes.

458
459 b. Staff shall have the responsibility of presenting the case on behalf of the city. The staff
460 report on the application shall be made available by staff to the applicant and the decision-
461 making body or the Hearing Examiner no later than five business days prior to the quasi-
462 judicial hearing on the application. Staff shall present a brief synopsis of the application;
463 introduce any appropriate additional exhibits from the official file that have not already been
464 transmitted to the Hearing Examiner or City Council with the agenda materials, summarize
465 issues; and make a recommendation on the application. Staff shall also introduce any
466 witnesses that it wishes to provide testimony at the hearing. Staff shall present its entire case

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

- 467 in 30 minutes.
468
- 469 c. Public comment. Participants in opposition to or support of the application shall make their
470 presentation in any order as determined by the Chair, Hearing Examiner, or Mayor. Each
471 participant shall present their argument in five minutes.
472
- 473 d. For hearings on quasi-judicial matters only, the applicant may cross-examine any witness and
474 respond to any testimony presented.
475
- 476 e. For hearings on quasi-judicial matters only, staff may cross-examine any witness and respond
477 to any testimony presented.
478
- 479 f. The Chair, Hearing Examiner, or Mayor may choose to allow participants to respond to any
480 testimony if the Chair, Hearing Examiner, or Mayor deems the response to be necessary to
481 ensure fairness and due process.
482
- 483 g. Members of the Planning and Zoning Commission, Hearing Examiner, or City Council may ask
484 any questions of the staff, applicant, and participants.
485
- 486 h. Final argument may be made by the applicant, related solely to the evidence in the record.
487
- 488 i. Final argument may be made by the staff, related solely to the evidence in the record.
489
- 490 j. For good cause shown, the Planning and Zoning Commission, Hearing Examiner, or City
491 Council may grant additional time to any of the above time limitations.
492
- 493 k. The Chair, Hearing Examiner, or Mayor shall keep order, and without requiring an objection,
494 may direct a party conducting the direct examination or the cross-examination to stop a
495 particular line of questioning that, in the sole judgment of the Chair, Hearing Examiner, or
496 Mayor merely harasses, intimidates, or embarrasses the individual testifying or being cross-
497 examined; is unduly repetitious or is not relevant; or is beyond the scope of the application
498 or, in the case of cross-examination, is beyond the scope of the testimony by the individual
499 being cross-examined. If the party conducting the direct examination or cross-examination
500 continues to violate directions from the Chair, Hearing Examiner, or Mayor to end a line of
501 questioning deemed improper as set forth herein, the Chair, Hearing Examiner, or Mayor may
502 terminate the direct examination or the cross-examination.
503
- 504 l. The Planning and Zoning Commission, Hearing Examiner, or City Council may, on its own
505 motion or at the request of any person, continue the hearing to a fixed date, time, and place.
506 The applicant shall have the right to one continuance; however, all subsequent continuances
507 shall be granted at the sole discretion of the Commission, Hearing Examiner, or City Council.
508
- 509 E. Decisions. For all quasi-judicial hearings in which a decision is made regarding an application for any
510 development permit, the decision to approve or deny shall be based on whether the application
511 meets all applicable requirements of the Comprehensive Plan, the City Code of Ordinances, and the
512 Land Development Code, based on the entirety of the record before the Hearing Examiner or City

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

513 Council. The Hearing Examiner or Council decisions must be based upon competent substantial
514 evidence in the record.

- 515
- 516 F. Rules of Evidence for quasi-judicial hearings.
- 517
- 518 1. The decision-making body or the Hearing Examiner shall not be bound by the strict rules of
519 evidence and shall not be limited only to consideration of evidence which would be admissible in
520 a court of law. The decision-making body or the Hearing Examiner shall have the ability, but not
521 the duty, to conduct site visits in their sole discretion and to consider any evidence so adduced in
522 their deliberations.
 - 523
 - 524 2. The Chair or Hearing Examiner may exclude evidence or testimony that is not relevant, material,
525 or competent or testimony which is unduly repetitious or defamatory.
 - 526
 - 527 3. The Chair, with the advice of the City Attorney, will determine the relevancy of evidence. In
528 matters decided by the Hearing Examiner, the Hearing Examiner, without the advice of the City
529 Attorney, will determine the relevancy of evidence.
 - 530
 - 531 4. Matters relating to an application's consistency with the Comprehensive Plan, the City Code of
532 Ordinances, or the Land Development Code will be presumed to be relevant and material.
 - 533
 - 534 5. Hearsay evidence may be used for the purpose of supplementing or explaining other evidence,
535 but it shall not be sufficient by itself to support a finding unless it would be admissible over
536 objection in court.
 - 537
 - 538 6. Documentary evidence may be presented in the form of a copy of the original, if available. A copy
539 shall be made available to the decision-making body or the Hearing Examiner and to the staff no
540 later than three business days prior to the hearing on the application. Upon request, the applicant
541 and staff shall be given an opportunity to compare the copy with the original. Oversized exhibits
542 shall be copied and reduced for convenient record storage.
 - 543
 - 544 7. Only the applicant, an authorized representative of the applicant, staff, and the decision-making
545 body or the Hearing Examiner shall be entitled to conduct cross-examination when testimony is
546 given or documents are made part of the record.
 - 547
 - 548 8. The City Attorney shall represent the decision-making body and advise it as to procedures to be
549 followed.
 - 550
 - 551 9. The Planning and Zoning Commission, Hearing Examiner, or City Council shall take judicial notice
552 of all state and local laws, ordinances, and regulations and may take judicial notice of such other
553 matters as are generally recognized by the courts of the State of Florida.
 - 554
 - 555 10. Supplementing the record after the quasi-judicial hearing is prohibited, unless specifically
556 authorized by an affirmative vote of the decision-making body, or authorized by the Hearing
557 Examiner, under the following conditions:
 - 558

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

- 559 a. The supplementation occurs after a quasi-judicial hearing is continued but prior to final action
560 being taken on the application or appeal.
561
- 562 b. If a question is raised by the Planning and Zoning Commission, Hearing Examiner, or City
563 Council at the hearing which cannot be answered at the hearing, the party to whom the
564 question is directed will submit the requested information in writing to the City Clerk and the
565 decision-making body or Hearing Examiner after the quasi-judicial hearing, with copies to the
566 other parties, provided the hearing has been continued or another hearing has been
567 scheduled for a future date and no final action has been taken by the decision-making body
568 or Hearing Examiner. The information requested will be presented to the decision-making
569 body or the Hearing Examiner at least two business days prior to the time of the continued
570 hearing.
571
- 572 c. All parties and participants shall have the same right with respect to the additional
573 information as they had for evidence presented at the hearing.
574
- 575 G. Final decision. The City Council or the Hearing Examiner shall reach a written decision without
576 unreasonable or unnecessary delay. The Hearing Examiner shall provide a copy of the decision to the
577 City Clerk for transmission to the applicant, if the applicant is not the City, to the Director of the
578 Department of Community Development, and the City Attorney.
579
- 580 H. The Record. All evidence admitted into the record at the hearing, the official file, and the adopted
581 development order, ordinance, or resolution of the City Council or the written decision of the Hearing
582 Examiner shall be maintained by the City Clerk or the Department of Community Development.
583
- 584 I. Adjournment. The Chairperson, upon a vote of the majority present, or Hearing Examiner, as
585 applicable, may adjourn a hearing to a date certain without the necessity of additional notice.
586 Adjournment to an uncertain date shall require notice as required for the original hearing and by the
587 Land Development Code.
588
- 589 J. Deferrals. If a hearing is concluded, but action is deferred until a future date, formal notice shall not
590 be required prior to action being taken.
591
- 592 K. Joint hearings. Where deemed necessary, joint hearings may be conducted after proper public notice.
593 In such instances, public notice need only be given by one public body, which shall be the City Council
594 in instances where it is one of the hearing bodies.
595
- 596 L. Regularly scheduled public hearing dates. The Hearing Examiner or the City Council may establish
597 regular dates for public hearings on zoning amendments. Such dates, if established by the Hearing
598 Examiner, or the City Council, shall not prevent the Hearing Examiner or City Council from scheduling
599 additional public hearings whenever such public hearings are deemed necessary.
600
- 601 M. Reading of ordinances. Except for ordinances initiated by the City Council which rezone a parcel or
602 parcels of land involving ten or more contiguous acres, or change permitted, special exception, or
603 prohibited use categories in zoning districts, all ordinances shall be read, either by title or in full, on
604 two separate days at a duly noticed public hearing of the City Council.

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

605
606 N. The printed agenda for the meeting at which the quasi-judicial hearing is scheduled to take place shall
607 identify the hearing as quasi-judicial and indicate where copies of the procedures that apply may be
608 obtained.
609

610 **Section 3.1.12. Decisions under this Article.**

611
612 A. When this Article authorizes the Community Development Director, Hearing Examiner, or City Council
613 to make decisions under this Chapter, that decision shall be made pursuant to the specific criteria
614 applicable to the application in Chapter 2 (Specific Review Procedures). If Chapter 2 does not include
615 specific criteria for that type of decision, the Community Development Director or Department,
616 Hearing Examiner, Commission, or Council shall make the decision based on whether the application
617 complies with this Article and any regulations authorized by this Code, and will protect the public
618 health, safety, and welfare.
619
620 B. Unless otherwise indicated in a specific provision of this Article, the Community Development
621 Director, Hearing Examiner, or City Council may approve the application, deny the application, or
622 approve the application subject to conditions as stated in Section 3.1.13, below.
623
624 C. Unless otherwise stated in this Article, or unless a different condition is attached to a permit or
625 approval, permits and approvals granted under this Article are not affected by changes in ownership
626 or tenancy of the property.
627

628 **Section 3.1.13. Conditions on Approvals.**

629
630 A. The Community Development Director, Hearing Examiner, or City Council may attach conditions to
631 any quasi-judicial permit or approval under this Chapter, provided the condition is required to bring
632 the development proposed in the application into compliance with the requirements of the
633 Comprehensive Plan or the LDC.
634
635 B. The Community Development Director, Hearing Examiner, or City Council may also attach conditions
636 to any quasi-judicial development permit or approval under this Code, provided the condition is
637 necessary to minimize or ameliorate potential adverse impacts of the development proposal. Such
638 conditions shall be reasonably related to the actual or potential impact(s) of the specific use, activity,
639 or structure in question.
640

641 **Section 3.1.14. Appeals.**

642
643 A. Review by the Director. Applicants for administrative permits and approvals may request a formal
644 review by the Community Development Director of staff decisions, within thirty (30) calendar days of
645 the date the administrative decision was made. The request for review shall be accompanied by any
646 relevant documents related to the review as determined by the Planning Manager or Development
647 Services Manager. The respective manager shall review the relevant standards and present a written
648 finding to the Community Development Director. The request for review shall be considered by the
649 Community Development Director within 10 days of submittal of a complete request. The Community
650 Development Director may consult with the City Attorney's office on the matter.

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

651
652 The Community Development Director shall provide a written determination to affirm the staff
653 decision, grant the relief requested in the review, with or without conditions, or respond to the
654 applicant or respective manager for further information, documentation, or proceedings. The written
655 determination by the Director shall be the final administrative decision.

656
657 B. Appeals of Community Development Director decisions (Administrative Appeal). An applicant desiring
658 to appeal a decision of the Community Development Director, shall, within ten (10) calendar days
659 from the date of such decision, file a written Notice of Appeal with the Department of Community
660 Development. The appeal shall then be heard by the Hearing Examiner at a regularly scheduled
661 meeting, provided there is sufficient time to review the appeal and provide the required public notice.
662 A staff or Director’s recommendation is not a decision and is not appealable.

663
664 C. Appeals from decisions of the Hearing Examiner on Administrative Appeals. Any aggrieved party by a
665 decision of the Hearing Examiner on a administrative appeal may file an appeal to the City Council
666 within 30 days by filing a written Notice of Appeal with the City Clerk. All such appeals shall be based
667 on the record.

668
669 D. Appeals from decisions of the Hearing Examiner on Quasi-judicial matters. Any aggrieved party by a
670 decision of the Hearing Examiner on a quasi-judicial matter may file an appeal to the City Council
671 within 30 days by filing a written Notice of Appeal with the City Clerk. All such appeals shall be based
672 on the record.

673
674 E. Appeals from decisions of the City Council. An action to review any decision of the City Council under
675 these regulations may be taken by any person or persons aggrieved by such decision by presenting to
676 the Circuit Court a petition for issuance of a Writ of Certiorari, duly certified, setting forth that such
677 decision is illegal, in whole or in part, certifying the grounds of the illegality, provided same is done in
678 the manner and within the time provided by Florida Rules of Appellate Procedure.

679
680 F. Stay of proceedings. An appeal shall stay all proceedings in the matter appealed from until the final
681 disposition of the appeal by the City Council or Hearing Examiner. The pendency of an appeal shall toll
682 all time periods applicable to the decision which is subject to appeal until final disposition of the
683 appeal by the City Council or Hearing Examiner with regard to the appeal.

684
685 G. Record. The record to be considered in the appeal shall include any application, exhibits, appeal
686 papers, written objections, waivers, or consents considered by staff, the Hearing Examiner, or City
687 Council, as well as transcripts and recordings taken at a public hearing, the Hearing Examiner or City
688 Council minutes, and resolutions or ordinances showing the decision or action being appealed. The
689 record shall also include the record made as a result of any prior applications for development
690 approval on the same property. The City Clerk shall identify all exhibits used at the hearing. All exhibits
691 so identified or introduced shall be a part of the City record.

CHAPTER 2. GENERAL REVIEW PROCEDURES

Section 3.2.1. All Permits and Approvals.

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

- 697 A. General Requirements for all permit applications.
698
699 1. Applications for permits or approvals shall be submitted with forms supplied by the Department
700 and any required supporting documentation, plans, or materials required by this Code or specified
701 in the application form(s).
702
703 2. Applications shall include any required fee(s) as established by the City Council.
704
705 3. Incomplete applications will not be accepted.
706
707 4. Before any use of land, building, or structure is established or any established use of land, building,
708 or structure is changed to a different use than that identified in the previously-issued certificate of
709 use under the prior LUDR, a certificate of zoning compliance under this code, or a business tax receipt
710 for the property, the person seeking to establish the use must obtain a certificate of zoning
711 compliance. Failure to secure a certificate of zoning compliance before establishing a use of land,
712 building, or structure or before changing the use of the property from the use recognized in a duly-
713 issued certificate of use under the prior LUDR or a certificate of zoning compliance under this Code
714 to another use, shall be a violation of this Code, and punishable as such.
715
716 B. Withdrawal of applications. An applicant may withdraw an application at any time by submitting a
717 letter of request to DCD or providing testimony of the requested withdrawal in a public hearing.
718
719 C. Effective date. All permits shall take effect on the day the permit is issued or an approval granted.
720
721 D. Reliance on permits during pendency of appeals. Any action(s) taken by a permittee during the
722 pendency of an administrative or quasi-judicial appeal shall be at the sole risk of the permittee.
723
- 724 **CHAPTER 3. SPECIFIC REVIEW PROCEDURES - ADMINISTRATIVE PERMITS AND APPROVALS**
- 725
- 726 **Section 3.3.1. Zoning Verification Letter or Flood Verification Letter.**
- 727
- 728 A. Purpose and Intent.
729
730 1. Zoning Verification Letter. To provide an official determination of the zoning of specific property
731
732 2. Flood Zone Verification Letter. To provide an official determination of the FEMA Flood zone, as
733 shown on the Flood Insurance Rate Map (FIRM) for specific property.
734
735 B. Review Criteria.
736
737 1. The Department will review the applicable City records, maps, and any supporting information
738 and issue a Zoning or Flood Zone verification letter.
739
740 2. Verification letters are valid for the date upon which they are issued and may be subject to
741 change.
742

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

743 **Section 3.3.2. Certificate of Zoning Compliance.**
744

745 A. Purpose and Intent.
746

- 747 1. To determine whether a proposed activity or use is permitted in the zoning district of the property
748 in question, prior to application for a building or site development permit.
749
- 750 2. To determine whether all structures and site development requirements (e.g., building setbacks,
751 parking requirements, etc.) are in compliance with the requirements of this Code prior to
752 application for or review of a building or site development permit.
753
- 754 3. Miscellaneous certificates of zoning compliance. The Community Development Director is authorized
755 to approve, approve with conditions, or deny a certificate of zoning compliance for the following
756 buildings, structures, improvements and installations:
757
- 758 a. Above ground pools that contain water over 24 inches deep;
 - 759 b. Agricultural or farm buildings and non-habitable structures on A, Agriculture zoned sites;
 - 760 c. Canopy carports, canopies, and other fabric covered framework on residential properties;
 - 761 d. Chickee huts constructed by Miccosukee or Seminole Indians;
 - 762 e. Chain-link fences, picket fences, ornamental iron fences, and other fences installed on residential
763 property that are deemed non-wind resistant; provided, however, any pool safety barrier fence
764 and any fence with concrete columns shall require a building permit;
 - 765 f. Decorative reflective pools and fishponds that contain water less than 24 inches deep, that contain
766 less than 250 square feet in area, and contain less than 2,250 gallons in volume;
767
 - 768 g. Decorative garden-type water fountains and other similar hardscape features;
769
 - 770 h. Portable mini-storage unit, subject to the conditions and limitations of contained in Article 5;
771
 - 772 i. Donation bins, recycling bins, mobile medical, and professional units in accordance with Article 5;
773 and
774
 - 775 j. Anchoring, mooring, docking, or storage of a houseboat.
776

777 C. Review Criteria.
778

- 779 1. To determine whether the proposed use is a permitted use, a conditional use, or a special
780 exception under this code.
781
- 782 2. Submittals will be reviewed for compliance with applicable code requirements (e.g., parking,
783 setbacks, conditional use criteria, conditions of approval, etc.)

- D. Specific Requirements for Certificates of Zoning Compliance.
 - 1. Posting required. The original certificate of zoning compliance shall be posted in a conspicuous location accessible to the public on the business premises at all times.
 - 2. Revocation. The Community Development Director shall notify the holder of any certificate of zoning compliance, in writing, of the City’s intent to revoke a certificate of zoning compliance for any of the following reasons:
 - a. The City has reasonable grounds to believe that the premises are being used in a manner that is inconsistent with, or contrary to, the provisions of the City Code or any other applicable code or statute.
 - b. In the event of a conviction of any owner, operator, manager, supervisor, or any employee acting at the direction or with the knowledge of the owner, operator, manager, or supervisor, by a court of competent jurisdiction, for the violation of any criminal statute committed in conjunction with the business operation.
 - c. It has been ascertained that the holder of the certificate of zoning compliance falsified information on the application for the certificate of zoning compliance.
 - d. The holder of the certificate of zoning compliance, or the designated manager, operator, or supervisor, refuses to permit an authorized law enforcement officer or code enforcement officer to inspect the premises during normal business hours for the purpose of investigating a complaint which has been filed against the business operation.
- E. Notice of revocation. When a notice of revocation is issued it shall state the following:

THE HOLDER OF THE CERTIFICATE OF ZONING COMPLIANCE SHALL HAVE TEN (10) DAYS FROM THE DATE OF THIS NOTIFICATION TO EITHER BRING THE PREMISES INTO COMPLIANCE OR TO REQUEST A HEARING, IN WRITING, BEFORE THE SPECIAL MAGISTRATE.

IF THE VIOLATION IS NOT CURED OR IF NO WRITTEN REQUEST FOR A HEARING IS RECEIVED BY THE CITY OF CAPE CORAL WITHIN TEN (10) DAYS OF THE DATE OF THIS NOTIFICATION BY THE CERTIFICATE HOLDER, THE CERTIFICATE OF ZONING COMPLIANCE SHALL BE CONSIDERED REVOKED.
- F. Stay pending hearing. If the holder of the certificate of zoning compliance requests a hearing before the City Council, the certificate of zoning compliance shall remain in effect during the pendency of the action before the City Council.

Section 3.3.3. Administrative Interpretations and Similar Use Determinations.

- A. Purpose and Intent.
 - 1. To determine whether a proposed use, activity, or site design complies with comprehensive plan.

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

- 835
- 836 2. To interpret specific comprehensive plan policies.
- 837
- 838 3. To interpret whether a proposed use, activity, or site “design” complies with the LDC.
- 839
- 840 4. To determine how specific code requirements may apply to a site or a development proposal
- 841 when application of such requirements is not explicitly set forth in the LDC.
- 842
- 843 5. To interpret the application of conditions of approval.
- 844
- 845 6. To determine whether a proposed use that is not otherwise classified as a permitted, permitted
- 846 with special regulations, conditional, or special exception use in a zoning district or is not
- 847 currently defined in this code may classified as a similar use.
- 848
- 849 B. Review Criteria.
- 850
- 851 1. To determine whether a proposed use activity or site design complies with specific provisions of
- 852 the comprehensive plan and is in keeping with the spirit and intent of the comprehensive plan.
- 853
- 854 2. Consistency with LDC.
- 855
- 856 3. Whether the proposed use or activity complies with DCD policies and procedures.
- 857
- 858 C. Similar Use Determinations.
- 859
- 860 1. Interpretation of Similar Uses. Notwithstanding the requirements of Section 4.4.D., the Director
- 861 may determine that a specific proposed use may be allowed as a permitted, permitted with
- 862 specific regulations, conditional, or special exception use in a specific zoning district(s).
- 863
- 864 2. Similar Use Determination Process.
- 865
- 866 a. A similar use determination may be issued if all of the following findings can be made:
- 867
- 868 i. The characteristics and activities associated with the proposed use are similar to those
- 869 of one or more of the allowed uses listed in the zoning district and will not involve a
- 870 greater level of activity, population density, intensity, traffic generation, parking, dust,
- 871 odor, noise, or similar impacts than the uses listed in the zoning district;
- 872 ii. The proposed use will meet the purpose and intent of the zoning district that applies to
- 873 the location of the use;
- 874 iii. The proposed use is consistent with the goals, objectives, and policies of the
- 875 Comprehensive Plan; and
- 876 iv. The proposed use is not listed a permitted, permitted with specific regulations,
- 877 conditional, or special exception use in another zoning district.
- 878

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

- 879 b. If a similar use determination is approved, the Director shall establish whether the use shall
880 be a permitted use, permitted with specific regulations, a conditional use, or special
881 exception use.
882
883 c. Upon approval of a similar use determination, the department shall prepare a text
884 amendment to this ordinance to include the use in the appropriate district, along with any
885 appropriate use regulations.
886

Section 3.3.4. Lots Splits and Lot Combines.

- 887
888
889 A. Purpose and Intent.
890
891 1. To provide standards for the split and combination of lots and tax parcels along existing platted
892 lot or parcel lines.
893
894 2. To provide standards for the split and combination of lots or tax parcels that do not require a
895 replat.
896
897 3. To provide for a one time split of property when the lot split or combine does not require approval
898 as a new subdivision plat or replat.
899
900 4. This section shall not apply to unrecorded subdivisions.
901
902 B. General Requirements
903
904 1. All divisions of land in the City shall occur only as a new subdivision plat, a replat, or a lot split.
905 The requirements for subdivisions and replats are set forth in Article 10 of this Code. A lot split
906 that does not meet the requirements of this chapter is deemed a subdivision or a replat and shall
907 be defined and processed as set forth in Article 10.
908
909 2. No lot split shall be recognized by the City, no lot that is part of a lot split shall be sold, and no
910 building permit shall be issued unless the lot split has been approved by the City prior to recording
911 in accordance with the requirements of this Article.
912
913 3. Lot combinations do not vacate platted property lines or public utility easements. See Section
914 3.4.5 for Vacations.
915
916 C. Review Criteria and Standards
917
918 1. Whether the lot split or combine creates nonconforming lots and structures.
919
920 2. The lot split or combine shall not cause marine improvements to become nonconforming for
921 setbacks or any other standards regarding such structures.
922
923 3. Ensure that the lot split or combine does not create split zoning on a parcel.
924

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

- 925 4. The newly configured lots parcels must have at least twenty-five feet (25') of frontage on an
926 existing right-of-way, private road, canal, lake, basin, or river. The minimum lot width of the
927 zoning district must be met when measured at the front or rear setback, where applicable.
928
- 929 5. The newly created parcels shall not result in private utility lines crossing property lines.
930
- 931 6. A survey sketch prepared by a professional surveyor and mapper (PSM) indicating the legal
932 description of the parent parcel, boundaries, dimensions, easements, restrictions or agreements
933 affecting the property, rights-of-way, utilities, location of existing buildings, and other pertinent
934 information including wetland boundaries and location of specimen and historic trees. The survey
935 shall be required to be signed, sealed, dated, and certified to the City.
936
- 937 7. Approval and recording. The Community Development Department shall review the proposed lot
938 split for compliance with the criteria listed in this subsection and Article 10, Subdivisions. Once
939 approved the applicant may proceed with the lot split and record the lot split with the Lee County
940 Property Appraiser. Approval shall expire within one (1) year of issuance if not recorded.
941

Section 3.3.5. Conditional Uses.

- 942
- 943 A. Purpose and Intent.
- 944
- 945 1. To provide standards and criteria for review and approval of specified conditional uses for a
946 specific site.
947
- 948 2. To provide reasonable limitations or special conditions for conditional uses, in order to address,
949 minimize, or ameliorate potential impacts of the use on surrounding property and for the
950 protection of the public health, safety, and welfare.
951
- 952
- 953 B. General Requirements. Proposed conditional uses must meet the following requirements:
954
- 955 1. The conditional use standards identified in Article 5 for the specific zoning district use and
956 conditional use in question.
957
- 958 C. Review Criteria. A Conditional Use may be approved by the Director based on criteria identified in
959 Article 5. These criteria are specific to each conditional use.
960

Section 3.3.6. Administrative Deviations.

- 961
- 962
- 963 A. Purpose and Intent. To grant relief from strict application of LDC requirements to allow minor
964 deviations.
965
- 966 B. Scope. Administrative Deviations may be granted for the following:
967
- 968 1. Setback requirements where the setback is not decreased by more than 10% in the applicable
969 zoning district and the encroachment does not extend into an easement, right-of-way, or is an
970 encroachment over the property line for a zero-lot line site.

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

- 971
972 2. Reduction in the overall required parking by 5%.
973
974 3. Landscaping or buffers. Up to a 10 % reduction in the width of required buffers or the required
975 number of trees and shrubs.
976
977 4. Preservation of Vegetation. A deviation from the following regulations to accommodate the
978 preservation of existing native specimen tree(s):
979
980 a. Up to five (5) percent of a required setback; or
981
982 b. Up to five (5) percent of the required parking spaces.
983
984 5. Minor sign deviations as set forth in Article 6 of this code.
985
986 6. Maximum lot coverage of impervious surfaces. Up to a 10% increase in the maximum
987 percentage of lot coverage by impervious surfaces, provided the applicant submits calculations
988 by a Florida Registered Professional Engineer showing that the conveyance system for the
989 contributing drainage basin can accommodate the additional stormwater run-off from greater
990 than 60% impervious. A property owner may also add retention storage on-site to compensate
991 for the additional runoff in situations where they propose to exceed 60% impervious surfaces.
992 All such calculations and drainage plans must be approved by the City Public Works Department
993 prior to issuance of any building permits.
994
995 7. Non-residential design standards in all non-residential and mixed use zoning districts, except for
996 the Neighborhood Commercial district.
997
998 C. Review Criteria. An Administrative Deviation may be approved based on the following criteria:
999
1000 1. The proposed deviation will not result in development that is inconsistent with the intended
1001 character of the applicable zoning district.
1002
1003 2. The normally required code standard(s) is determined to significantly inhibit development of the
1004 site.
1005
1006 3. The deviation will not impede the ability of the project or site to adequately provide for service
1007 areas and other development features for the project.
1008
1009 4. Access for service and emergency vehicles will not be impeded.
1010
1011 5. The proposed deviations will result in a building and site design of equal or superior quality.
1012
1013 D. Effective date of approval. A deviation shall take effect upon approval.
1014
1015 E. If an Administrative Deviation is not approved, the applicant may subsequently apply for a Variance.

- A. Applicability. The procedures contained in this Section are applicable to all projects involving land development, including Site Development Plans (SDP) for individual sites, Subdivision Construction Plans (SCP), and sites without structures such as parking lots. Also included are projects which involve the construction of any facility, the expansion of a site through acquisition or lease, alteration or conversion of an existing site or structures, or the change of use of a site or structure where the site or structure does not meet the current standards or criteria of these regulations. The provisions of this Section, where appropriate, are to be applied to on-site and off-site development activity. No land development activity (including land clearing, excavation, or placement of fill) shall commence without obtaining the appropriate approvals and permits required by this code.

- B. Exceptions. The requirements of this section do not apply to:
 - 1. Single-family dwellings; or
 - 2. Duplex dwellings on existing platted lots or parcels.

- C. Plan Preparation. A professional engineer registered in the state of Florida shall design all required improvements such as streets, drainage systems, water and sewage facilities, etc. All plans, drawings, reports, and calculations shall be prepared, signed, and sealed by the appropriate licensed professional, such as engineers, architects, landscape architects, professional surveyors and mappers, or attorneys, registered in the state of Florida. Other specialized consultants, such as environmental consultants, structural engineers, archaeologists, etc., may be required to assist in the preparation of the plans, drawings, reports, or other documents required for application submittals.

- D. Review Process. The application review and approval process follows the administrative review procedure as established in Sections 3.1.4 through 3.1.8 of this Article.

- E. Criteria. The Development Services Manager may approve, approve with conditions, or deny the application, after consideration and review of the following:
 - 1. The development, as proposed, conforms to the comprehensive plan and is consistent with the recommendations of any applicable PUD Master Concept Plan, Preliminary Subdivision Plan, or master plans which have been approved or accepted by the City Council;
 - 2. The proposed development plans, landscape plans, engineering plans, lighting plans, and other required plans conform or will conform with all applicable City codes, the Engineering Design Standards, and design standards as set forth in this code;
 - 3. The development will efficiently use or not unduly burden drainage, water, sewer, solid waste disposal, education, recreation, or other necessary public facilities which have been constructed or planned and budgeted for construction in the area;
 - 4. The development provides sufficient on-site storm water management improvements to meet state water quality and flood protection standards;

1104
1105
1106
1107
1108
5. The development will efficiently use or not unduly burden or affect public transportation facilities, including mass transit, public streets, roads, and highways which have been planned and budgeted for construction in the area, and if the development is or will be accessible by private or public roads, streets, or highways; and
 6. The development provides necessary and adequate vehicular circulation, pedestrian access, ingress and egress, and is configured in a manner to minimize hazards and impacts on adjacent properties and adjacent rights-of-way.
 7. Projects subject to SDP review comprised of 2 or more parcels with unique strap numbers must be combined into a single parcel with one strap number prior to approval of the Site Development Plan.
 8. Projects subject to SDP review required to provide easements shall provide executed copies of staff approved easements to the City prior to approval of the Site Development Plan. The City may require such easements be accepted by City Council and recorded in the public records prior to approval of the Site Development Plan.
 9. Projects that involve a vacation of plat or release of easement may have review or approval withheld until such vacation or release of easement has been approved or recorded, as determined by the Director.
 10. The City may attach any reasonable conditions, safeguards, limitations, or requirements to the approval of a plan which are found necessary and consistent with the review to effectuate the purpose of this section and to carry out the purpose of this Code and the Comprehensive Plan.
- F. Plats. If the development is a subdivision, a plat meeting the requirements of F.S. Ch. 177, Part 1 and the City of Cape Coral Technical Requirements for Plat Approval, which are hereby incorporated by reference, must be submitted prior to approval of Subdivision Construction Plans. The preliminary plat submittal is not required until after the first round of SCP sufficiency comments, though it may be submitted earlier. Refer to Article 10 Subdivisions.
- G. Plan Approval. Upon successfully addressing departmental comments, the Development Services Manger shall approve the application provided all departmental reviewers have accepted the plans or accepted the plans with conditions. Upon receiving plan approval and meeting any applicable conditions, written consruction authorization shall be provided for the applicant to begin those construction activities specifically covered by the plan approval.
- H. Effect of Plan Approval. Site Development Plans and Subdivision Construction Plans are valid for two years from the date of approval. If written construction authorization to construct the improvements has not been obtained prior to the expiration date, the approval expires and becomes null and void. An applicant may apply for a one-year extension for good cause. Such an extension may be granted for any plan approved after the effective date of this ordinance and two years prior to adoption. The extension request must be filed prior to the expiration date of plan approval. If the project is within a PDP, a PUD, or a phased development, the expiration of plan approvals may differ, as established in

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

1109 the original approval. See Phased Projects Section 3.3.7.T for addition information regarding expiration
1110 of permits and plan approvals in phased projects.

1111
1112 I. Engineer’s Opinions of Probable Construction Costs. The City shall review and approve all cost
1113 opinions prior to acceptance of same.

1114
1115 1. Inspection fees applied to development permits are based on a percentage of the estimated
1116 construction cost, of Developer installed improvement, to be turned over to the City for ownership
1117 and maintenance.

1118
1119 2. Opinions of Probable Construction Costs shall be prepared, signed, and sealed by the professional
1120 engineer of record.

1121
1122 3. Cost opinions shall be a unit quantity itemized estimate of the required improvements including:
1123 mobilization, material and other testing, survey stake out, and a 10% contingency. Lump sums are
1124 only to be used for items typically not contracted as unit price items.

1125
1126 4. Subdivisions. Cost opinions for subdivision improvements are to be provided as required in Article
1127 10 of this code. The cost of improvements required to support a subdivision that will be turned
1128 over to the City for ownership and maintenance will be utilized in determining inspection fees for
1129 the subdivision infrastructure permit. Cost opinions for assuring the completion of subdivision
1130 improvements shall include, in addition to the items listed above, the cost of providing electrical
1131 service for lift stations, pump stations, or other components that may require electric service to
1132 function and setting PCP’s. upon completion of construction.

1133
1134 J. Amendments. Plan amendments include changes to projects which impact multiple aspects of the
1135 development, may affect multiple plans, and will require multiple departmental reviews to evaluate
1136 the proposed amendment to the plan(s).

1137
1138 1. The amendment process may not be used to substantively modify the scheme of development as
1139 originally approved under an approved SDP or SCP.

1140
1141 2. Proposed amendments that impact a PDP or PUD approval criteria or conditions must receive
1142 approval of an amendment to the PDP or PUD prior to receiving SDP or SCP approval.

1143
1144 3. Amendments may apply to projects that are currently under review, projects under construction
1145 or phased projects that have yet to be completed.

1146
1147 4. The applicant shall submit a letter of intent, the applicable fee, the amended plan(s) and any other
1148 documentation required to review the proposed amendment.

1149
1150 5. The Development Services Manger shall determine if the proposed changes to the plan can be
1151 processed as an amendment, qualify for a lesser review process or requires a greater review
1152 process.

1153

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

- 1154 K. Revisions. Revisions to an approved plan while under construction which do not increase the gross
1155 square footage of a building or adversely impact compliance with the approved plan, and would not
1156 alter the required infrastructure and improvements necessary to serve the project, may be approved
1157 in writing by the Development Services Manager provided such revisions fully conform to all existing
1158 City regulations. The Development Services Manager will determine if the revision requires an
1159 approved plan revision or if the revision can be shown on the Record Drawings.
1160
- 1161 L. Limited Review. A Limited SDP Review for a new improvement or alteration of existing improvements
1162 to an approved project may be requested. Limited Reviews are for proposed improvements which do
1163 not substantially affect projects minimum technical requirements of this Code or do not require a
1164 review by three or more of the following review disciplines: zoning, planning transportation, drainage,
1165 fire, utilities, and landscaping. Changes that exceed the criteria for the scope of a Limited SDP review
1166 as specified in this subsection or, as determined by the Development Services Manager, may be
1167 processed as an amendment or a full SDP review in accordance with this section. Applications
1168 reviewed under this process will be reviewed for compliance with the following general criteria:
1169
- 1170 1. The development must have no significant adverse effect upon surrounding land uses;
 - 1171
 - 1172 2. The development must have no significant adverse effect upon public facilities in the area;
 - 1173
 - 1174 3. The development must not adversely affect the environmental quality of the area; and
 - 1175
 - 1176 4. The development proposal must be consistent with the City Comprehensive Plan.
1177
- 1178 M. Site Improvement Permit for minor changes. A permit review of minor changes to an existing
1179 development which does not require a separate Site Development Plan review. This approval process
1180 may be utilized when the existing project is in full compliance with an approved plan or the site
1181 proposed for a minor change meets the following criteria: Any changes to an approved Site
1182 Development Plan or project will not increase density, parking requirements, water or sewer usage,
1183 or enlarge a structure for human occupancy or assembly by more than 5% of the existing approved
1184 plan. For sites lawfully developed without Site Plan review, the 5% exception may be applied if the
1185 applicant submits all of the information required under SDP review. Determination of the 5% shall be
1186 cumulative based on the originally approved development.
1187
- 1188 1. All infrastructure exists on the site to service the site;
 - 1189
 - 1190 2. Engineering is not required for the proposed change;
 - 1191
 - 1192 3. Parking meets all parking code requirements;
 - 1193
 - 1194 4. The improvement does not significantly alter the traffic circulation system or significantly change
1195 the use of property;
 - 1196
 - 1197 5. The existing project is in compliance with an approved landscape plan or the code in effect at the
1198 time of the original construction; and
1199

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

1200 6. The existing project meets all storm water management requirements.

1201

1202 **Section 3.3.8 Site Development Permits and Construction Authorization.**

1203

1204 A. The Development Services Manager shall be authorized to approve, approve with conditions, or deny
1205 a site development permit application and construction authorization for the following improvements
1206 and installations:

1207

1208 1. Site Development Plan – Construction Authorization;

1209

1210 2. Subdivision Infrastructure – Construction Authorization;

1211

1212 3. Site Improvements;

1213

1214 4. Landscaping;

1215

1216 5. Full Demolition;

1217

1218 6. Parking lot seal coating or re-striping of existing parking lots;

1219

1220 7. Underground Fire Lines;

1221

1222 8. Utility Service Relocations;

1223

1224 9. Land Clearing and Fill;

1225

1226 10. Relocation of Residential Storm Drains;

1227

1228 11. Backflow Prevention; and

1229

1230 12. Spot Dredging.

1231

1232 B. Review. The Development Services Manger shall act upon applications for site development permits
1233 within 10 calendar days from the date of their submission.

1234

1235 C. Approvals.

1236

1237 1. All approvals will be issued in compliance with the approved plans, if applicable, and may contain
1238 relevant conditions of the associated plan approval.

1239

1240 2. If the proposed construction or alteration conforms with all applicable provisions of this Code and
1241 all other applicable law, the Development Services Manager shall issue a development permit or
1242 construction authorization for such construction or alteration.

1243

1244 3. If the proposed construction or alteration fails to conform, he shall refuse to approve and shall
1245 deliver written notice to the applicant stating the reason for the refusal.

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

- 1246
- 1247 D. Effect of Approval, Expiration, and Extensions. A site development permit or construction
- 1248 authorization shall expire six months from the date of issuance unless the permitted improvements
- 1249 are under construction and have passed a required inspection within the 90 days prior to the
- 1250 expiration of the approval. Erosion control inspections will not extend the expiration date. An
- 1251 approval may be extended for an additional 90 days. Failure to either pass a required inspection or
- 1252 request an extension within the 90-day period provided will result in expiration of the approval.
- 1253 Thereafter, a new approval will be required to continue construction.
- 1254
- 1255 E. Commencement of Construction. After approval of the plans, the applicant may construct the required
- 1256 improvements, subject to obtaining all required permits and written construction authorization. The
- 1257 Development Services Manager shall be notified in advance of the date of commencement of such
- 1258 construction and the applicant shall schedule a preconstruction meeting where representatives of the
- 1259 developer, the City, contractors, and franchise utilities shall discuss the construction of the planned
- 1260 improvements. No work shall take place prior to the preconstruction meeting.
- 1261
- 1262 F. Inspections and Certification of Compliance. The developer shall retain the engineer of record or another
- 1263 professional engineer registered in the state of Florida and other professionals, if needed, to inspect
- 1264 the construction progress and certify the construction of all required improvements such as streets,
- 1265 parking areas, drainage structures, drainage systems, water and sewer facilities, landscaping and
- 1266 buffers, and all other improvements, for substantial compliance with the approved plans.
- 1267
- 1268 G. Right to enter. The Development Services Manager or duly authorized representative shall have the
- 1269 right to enter upon the property for the purpose of inspecting the quality of materials and
- 1270 workmanship and reviewing the construction of required improvements during the progress of such
- 1271 construction.
- 1272
- 1273 H. Periodic inspection required; correction of deficiencies. The Development Services Manager or his
- 1274 designated engineering and utility inspectors shall periodically inspect all phases of construction of
- 1275 streets, drainage improvements and utility installations including those improvements which are not
- 1276 to be dedicated to the public but are subject to this chapter. The Development Services Manager will
- 1277 immediately call to the attention of the developer, or the developer's engineer, any nonconforming
- 1278 work or deficiencies in the work. Correction of deficiencies in the work is the responsibility of the
- 1279 developer. It is the responsibility of the developer's contractor to schedule the appropriate
- 1280 inspections as identified on the approvals or permits.
- 1281
- 1282 I. Stop work orders. The Development Services Manager shall have authority to stop work if
- 1283 improvements not authorized in the approved plan are being installed or upon failure of the applicant
- 1284 or his engineer to coordinate the construction of the required improvements so as to minimize
- 1285 activities which may have adverse impacts on surrounding property.
- 1286
- 1287 1. Authority. Whenever the Development Services Manger finds any work regulated by this code being
- 1288 performed in a manner either contrary to the provisions of this code or dangerous or unsafe, the
- 1289 Development Services Manager is authorized to issue a stop work order. In addition, the Development
- 1290 Services Manager is authorized to issue a stop work order for the failure to contain or remove
- 1291 construction refuse as required in the Code of Ordinances, Chapter 9, Health and Sanitation.

1333
1334
1335
1336
1337
2. Issuance. The stop work order shall be in writing and shall be given to the owner of the property involved, to the owner's agent, or to the person doing the work. Upon issuance of a stop work order, all work on the construction site shall immediately cease. The stop work order shall state the reason for the order, and the conditions under which the cited work will be permitted to resume.
 3. Unlawful continuance. Any person who shall continue any work after having been served with a stop work order, except such work as that person is directed to perform to remove a violation or unsafe condition, shall be subject to penalties as prescribed by law.
- J. Final inspections by Engineer of Record. Upon completion of all improvements required under the approved plans or phase thereof, an inspection must be performed by the developer's engineer and the landscape architect. Upon finding the development to be completed and in substantial compliance with the approved plans, the engineer and landscape architect must each submit a letter of substantial compliance along with record drawings to the City. No final inspection will be performed by the City until the letter(s) of substantial compliance and record drawings have been accepted. The letter(s) of substantial compliance may include a description of minor changes as shown on the record drawings. Only minor changes which do not substantially affect the technical requirements of the approved plans and this code are to be indicated on the Record Drawings.
1. Letters of substantial compliance shall be digitally signed and sealed in PDF format. Substantial compliance requires that the development, as determined by an on-site inspection by a professional engineer, is completed to all the specifications of the approved plans and that any deviation between the approved plans and actual as-built construction is so inconsequential that, on the basis of accepted engineering practices, it is not significant enough to be shown on the Record Drawings.
 2. The respective professionals shall prepare and submit to the City digitally signed and sealed Record Drawings, in PDF format, of the completed project improvements. Record drawings shall be provided for the complete civil engineering and landscape features of the project.
 3. Record drawings shall be the complete set of approved plans which show strikethrough and markup of the as-built information obtained from direct field observation, survey, or contractor "as-built" drawings. Topographic surveys will not be accepted.
- K. Final Inspections by the City. Upon acceptance of the letter of substantial compliance and record drawings, the Development Services Manager will perform final inspections.
1. If the final inspections reveal that the development or phase is in substantial compliance with the approved plans, a certificate of completion will be issued. A certificate of completion is required prior to the issuance of a certificate of occupancy from the building division for any buildings associated with the project.
 2. If the final inspections reveal that the development or phase thereof is not in substantial compliance with the approved plans, a list of all deviations will be forwarded to the engineer. All deviations must be corrected prior to reinspection. A new letter of substantial compliance may

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

1338 be required prior to reinspection. Reinspection fees will be charged for each reinspection in
1339 accordance with the adopted fee schedule and must be paid prior to receiving a Certificate of
1340 Completion.

1341
1342 3. Projects involving permits or approvals issues by County, State, or Federal agencies shall provide
1343 evidence that the respective agencies have approved, accepted, or certified that the improvements or
1344 work subject to their review have been satisfactorily completed and are ready for use or to be placed
1345 into service.

1346
1347 L. Turnover of developer installed improvements. Projects that include construction of improvements that will
1348 be turned over to the City for ownership and maintenance must also provide a complete package of
1349 turnover documents, acceptable to the City, as required by the Director.

1350
1351 1. Improvements shall be conveyed to the City by bill of sale in a form satisfactory to the City Attorney,
1352 together with such other evidence as may be required by the City that the improvements proposed
1353 to be transferred to the City are free of all liens and encumbrances.

1354
1355 2. Turnover documents must be provided to the Development Services Manager with the submittal of
1356 the Certification of Substantial Completion and Record Drawings.

1357
1358 3. Improvements constructed pursuant to this Section may not be placed into service or otherwise
1359 utilized until the required certificate of compliance has been issued.

1360
1361 M. Ongoing compliance. A development project must remain in compliance with the approved SDP or
1362 SCP, including all conditions, after a letter of substantial compliance, certificate of compliance, or
1363 certificate of occupancy has been issued by the City. This requirement applies to any property covered
1364 by the SDP or SCP, whether or not it continues to be owned by the original developer. For purposes
1365 of determining compliance, the SDP or SCP as approved and constructed, or subsequently amended
1366 in accordance with this section, will control. The standards applicable to review for compliance
1367 purposes will be based upon the regulations in effect at the time the plan approval, any applicable
1368 amendment, or revision was constructed.

1369
1370 N. Violation of an approved SDP or SCP.

1371
1372 1. Where construction is commenced for improvements not authorized by a SDP or SCP, the
1373 applicant will be issued a stop work order until an application to amend or correct the respective
1374 plan approval has been submitted and approved.

1375
1376 2. An application to amend or correct a SDP or SCP after construction has commenced in violation
1377 of the original approval will be charged an application fee equal to four times the original
1378 application base fee.

1379
1380 3. Submittal of the application and payment of the application fee does not protect the applicant
1381 from the remedies described in Article 1, Section 1-6 of this Code. Any of these forms of relief can
1382 be sought or maintained by the City until the problem is abated.

1383

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

- 1384 4. Failure to maintain a development in compliance with a SDP or SCP issued and approved by a
1385 certificate of completion constitutes a violation of this Code.
1386
- 1387 O. Phased Projects. Development projects may be split into phases to accommodate the development
1388 plans and schedules of the developer.
1389
- 1390 1. Site Development Plans. The phasing plan shall show all required facilities, infrastructure, and
1391 buildings, if applicable, on the entire parcel that is covered by the SDP approval.
1392
- 1393 a. If more than one building is covered by the SDP and the developer does not intend to
1394 receive certificates of occupancy (CO) for all the buildings at one time, a separate Site
1395 Development Permit or written construction authorization will be required for each build
1396 or buildings to receive a CO apart from the other buildings.
1397
- 1398 b. A certificate of compliance for streets, utilities, parking areas, and drainage serving each
1399 building(s) will be required from the engineer of record prior to the City performing final
1400 inspection and closing that phase of the project and prior to receiving a certificate of
1401 occupancy from the Building Division.
1402
- 1403 c. If a final inspection is requested for only a portion of a development, that portion must be
1404 an approved phase of the development in accordance with the approved SDP.
1405
- 1406 2. Subdivision Construction Plans. Phasing of the SCP shall be in accordance with the PSP
1407 approval as established in Article 10.
1408

Section 3.3.9 Temporary Use Permits.

- 1409
- 1410
- 1411 A. Purpose and Intent. To authorize the temporary uses and activities which do not exceed specific
1412 time frames.
1413
- 1414 B. General Standards.
1415
- 1416 1. Only those uses that are listed below or otherwise approved as temporary uses in Article 5, may
1417 be allowed as temporary uses.
1418
- 1419 2. Each temporary use shall be evaluated by the Community Development Department for
1420 compliance with the standards and conditions set forth in the LDC and the applicable zoning
1421 district. Special event uses are evaluated by the Parks and Recreation Department.
1422
- 1423 3. A temporary use permit shall take effect at the time of permit issuance and is in effect only for
1424 the specific time-period established in the temporary use approval.
1425
- 1426 C. Review Criteria. When considering an application for a temporary use, the Community Development
1427 Director or Parks and Recreation Director, as appropriate, shall consider whether and the extent to
1428 which:
1429

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

- 1430 1. The temporary use is consistent with the purposes, goals, objectives, and policies of the
1431 Comprehensive Plan;
1432
- 1433 2. The temporary use complies with all relevant and appropriate portions of Article 5, Development
1434 Standards;
1435
- 1436 3. The temporary use is not incompatible with the character of the immediate surrounding area;
1437
- 1438 4. The design, duration, and hours of operation of the temporary use minimizes adverse impacts on
1439 nearby properties, including visual and noise impacts;
1440
- 1441 5. Whether the use complies with all relevant standards related to health, sanitation, and
1442 transportation;
1443
- 1444 6. The temporary use complies with all other applicable provisions of this Code;
1445
- 1446 7. Any permanent structures used in conjunction with a temporary use must comply with the
1447 requirement for adequate public facilities referenced in the comprehensive plan; and
1448
- 1449 8. Whether any public safety detail will be necessary.
1450

1451 D. Allowable temporary uses: The following temporary use shall require a permit:
1452

- 1453 1. Firework, pumpkin, and Christmas tree sales.
1454 2. Outdoor display of merchandise.
1455 3. Garage sales.
1456 4. Temporary construction or field office.
1457 5. Construction staging areas for essential public facilities and post disaster debris staging
1458 6. Temporary sales office.
1459 7. Temporary Storage Containers.
1460 8. Temporary Habitable Structures.
1461 9. Temporary Off-Site Vehicle Sales.
1462 10. Tents for other than Special Events.
1463 11. Other events not named.
1464 12. Temporary Seawall Staging Areas.
1465

1466 **Section 3.3.10 Special Events.**
1467

- 1468 A. Special events in the city are administered and permitted by the Parks and Recreation Department.
1469
- 1470 B. Application and general requirements. Special events permits may be issued provided the following
1471 requirements are met:
1472
- 1473 1. A completed, signed, and notarized application shall be submitted no less than 60 days prior to
1474 the opening of the event. The application shall include the name and address of each applicant
1475 sponsoring the special event, the dates, times, and specific details of the event, and a list of all

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

1476 special events that the applicant has sponsored in the City for the past three years. Exceptions
1477 to the 60-day requirement may be approved by the Director of Parks and Recreation based on
1478 the size, duration, or nature of the event. The city reserves the right to verify the applicant's
1479 previous history of sponsoring special events with other jurisdictions.

1480
1481 1. A refundable clean-up deposit is submitted. The property shall be cleaned within 48 hours of
1482 the close of the event and returned to substantially the same condition that existed just prior
1483 to the start of the event or better. The clean-up deposit will be refunded upon satisfactory
1484 inspection of the property by the city after the event closes. If the property is not returned to
1485 substantially the same condition that existed just prior to the start of the event, or better, the
1486 city, in its sole discretion, may utilize the clean-up deposit to do so and refund the remainder,
1487 if any, to the applicant.

1488
1489 2. A site plan of the event venue and surrounding property shall be submitted. The site plan
1490 shall show the layout of all activities, such as stages, equipment, including location(s) where
1491 sound amplification equipment, if any, will be allowed, amusement rides, animal displays,
1492 etc., and all support facilities including egress and ingress locations, parking, refuse
1493 collection, sanitation, and lighting. The site plan shall also identify the presence of any
1494 environmentally sensitive issues including eagles, burrowing owls, tortoises, osprey, etc.

1495
1496 3. If the applicant does not own the property for the special event or associated parking, a signed
1497 and notarized letter of permission from the property owner is required, along with a release
1498 and indemnification agreement in a form accepted by the City Attorney. If the applicant intends
1499 to transport patrons to the special event from a specified parking area, complete details
1500 including all traffic routes to be utilized shall be submitted to the city for approval.

1501
1502 4. Insurance requirements.

1503
1504 a. Certificates of insurance for all properties used for the event must be submitted to the
1505 Parks and Recreation Department for approval by the City Risk Manager no less than 21
1506 days prior to the event.

1507
1508 b. Applicants and vendors shall have commercial and general liability insurance, including
1509 coverage for independent contractors, premises and operations, contractual liability,
1510 products and completed operations, personal injury, and property damage. Insurance
1511 coverage shall be no less than \$1,000,000 combined single limit for bodily injury and
1512 property damage and no less than \$1,000,000 for liquor liability, if applicable.

1513
1514 c. Vendors shall also have motor vehicle liability insurance of no less than \$1,000,000 per
1515 vehicle and worker's compensation coverage as required by statute.

1516
1517 d. The City of Cape Coral shall be named as additional insured. Certificates of insurance shall
1518 show the City of Cape Coral as the certificate holder.

1519
1520 5. All applicable city ordinances and building, fire, and electrical codes shall be met.

1521

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

- 1522 6. Most events shall require off-duty City of Cape Coral police officers to be hired for the
1523 duration of any event to include one hour before opening and one hour after closing. The
1524 Police Chief shall determine the exact number of officers required, if any, based upon the
1525 size and nature of the event and past experience with similar events. The cost for the off-
1526 duty detail shall be set using the present rate charged by the Police Department which shall
1527 be paid by the applicant prior to the issuance of the permit. All applicants must comply with
1528 any rules or regulations imposed by the Police Chief which are consistent with this section.
1529
- 1530 7. Most events shall require off-duty City of Cape Coral firefighters or paramedics, to be hired
1531 for the duration of any event to include one hour before opening and one hour after closing.
1532 The Fire Chief shall determine the exact number of firefighters or paramedics required, if
1533 any, based upon the size and nature of the event and past experience with similar events.
1534 The cost for the off-duty detail shall be set using the present rate charged by the Fire
1535 Department which shall be paid by the applicant prior to the issuance of the permit. All
1536 applicants must comply with any rules or regulations imposed by the Fire Chief which are
1537 consistent with this section. In the event the Fire Chief determines that special equipment
1538 such as all-terrain vehicles, trailers, fireboats, fire and rescue assets, and appropriate
1539 personnel for the special equipment are necessary, the city reserves the right to request
1540 reimbursement for all or part of the discretionary cost from the applicant.
1541
- 1542 8. No open flame or other device emitting flames or fire shall be used in any tent or air
1543 supported structure while open to the public.
1544
- 1545 9. All equipment including tents, stages, amusement rides, utility areas, ingress and egress
1546 points, and cooking areas shall be inspected and approved by city fire inspectors or state
1547 officials, if applicable, prior to the opening of the event. If applicable, inspection certificates
1548 and annual permits as required by the State of Florida, shall be submitted to the city prior to
1549 the opening of the event. All equipment or amusement rides, other than those which are
1550 patron-operated or controlled, shall only be operated by persons over 18 years of age who
1551 are employed by the applicant and who are thoroughly familiar with the operation of said
1552 equipment or amusement rides. The operator of such equipment or amusement rides shall
1553 be in the immediate vicinity of the operating controls at all times during the operation of the
1554 equipment or amusement rides and no unauthorized person shall be permitted to handle the
1555 controls during operation.
1556
- 1557 10. Any person, entity, group, or organization engaging in speech, expression, or assembly, which
1558 is protected by the First Amendment of the United States Constitution or by Article I, Section
1559 4 of the State of Florida Constitution, may do so during a Special Event, subject to the
1560 following reasonable time, place, and manner regulations.
1561
- 1562 11. If sound amplifying equipment is present on public or private property at the special event,
1563 the Director of Parks and Recreation shall establish one or more designated areas where such
1564 amplified sound may occur. If amplified sound is not permitted for the special event, all
1565 amplified sound shall be prohibited; however, nothing in this regulation shall serve to
1566 prohibit protected speech, expression, or assembly utilizing non-amplified, reasonable
1567 sound. For purposes of this paragraph, amplified sound caused by the police or fire

Land Development Code
Article 3 – Development Review

1568 departments of the city in the performance of their official duties, and public background
1569 sound, shall not be considered amplified sound so as to allow others to use sound amplifying
1570 equipment.
1571

1572 12. The Director of Parks and Recreation shall be responsible for the provisions of this section,
1573 department rules and regulations, and city ordinances. No action shall be taken to enforce
1574 this section until a warning to cease such a violation has been issued by a person authorized
1575 to enforce this section and the violator continues such violation.
1576

1577 13. No person shall be permitted into, or remain on, private property covered by any special
1578 event permit for an event open to the public without the consent of the permittee.
1579

1580 14. If a special event is open to the public only upon a payment of an entry fee or charge, no
1581 person shall be permitted into the special event without first paying the entry fee or charge.
1582

1583 15. No person shall unreasonably hamper, obstruct, impede, or interfere with any person, entity,
1584 group, or organization hosting a permitted special event.
1585

1586 16. All requirements of this section are subject to modification or waiver by the City Council
1587 based upon the size, duration, nature of the event, and the city's involvement.
1588

1589 C. Review Criteria. In determining whether a permit shall be issued, the Director of Parks and
1590 Recreation shall consider certain criteria including:
1591

1592 1. The size, duration, and nature of the event;
1593

1594 2. Previous history of organizing one or more events within the City and whether any events
1595 created hazards or safety situations;
1596

1597 3. Other events previously scheduled during the same time period within the city; and
1598

1599 4. If the applicant has been adjudicated guilty of violating any provision of this section. Any
1600 adjudication may constitute grounds for denial of future special events permits by the city.
1601

1602 D. Permit Decision.
1603

1604 1. The Director of Parks and Recreation may, in his or her sole discretion, deny the applicant a
1605 permit for the special event within the City of Cape Coral.
1606

1607 2. The Director of Parks and Recreation shall have the authority to designate one or more areas
1608 during any Special Event for specific activities and to prohibit other activities within designated
1609 areas. Designated areas shall be posted when such posting is appropriate.
1610

1611 3. Order to cease operation. If the Director of Parks and Recreation Department determines
1612 that proper provisions have not been made for the protection of the public health, safety, or

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

1613 welfare he or she may issue an order to cease operating said special event until such time as
1614 satisfactory corrective action has been taken.

1615
1616 E. Violations and Penalties.

1617
1618 1. Intentional underestimation of the expected number of persons attending the event or
1619 failure to comply with any provision of this section, shall constitute a violation of this section,
1620 and shall subject the applicant to the code enforcement provisions and procedures provided
1621 in §§ 2-81 through 2-96 of the City of Cape Coral Code of Ordinances including any and all
1622 provisions that allow the city to seek relief as otherwise provided by law.

1623
1624 2. Penalty. A violation of this section shall be punishable by a minimum fine of \$100 and a
1625 maximum fine of \$500, in addition to the taxation of any court costs, or imprisonment for a
1626 term not to exceed 60 days, or by both a fine and imprisonment.

1627
1628 **Section 3.3.11. Outdoor Dining Permit**

1629
1630 A. Purpose and Intent.

- 1631
1632 1. To provide standards for outdoor dining on public or private property.
1633
1634 2. To ensure that outdoor dining on public property does not interfere with pedestrian access,
1635 ingress or egress to buildings, or sight visibility triangles.

1636
1637 B. General Requirements

- 1638
1639 1. All standards for outdoor dining are in Article 5, Section 5.1.16.
1640
1641 2. An outdoor dining permit is required.
1642
1643 3. A site plan indicating location of outdoor dining area including seating, furniture, heaters, or
1644 similar equipment or improvements.

1645
1646 C. Review Criteria and Standards

- 1647
1648 1. The outdoor dining area shall not interfere with pedestrian access.
1649
1650 2. The outdoor dining area shall allow for ingress or egress to a building.
1651
1652 3. Does not interfere with public safety.
1653
1654 4. The outdoor dining area shall not be placed in any required off-street parking spaces.

1655
1656 **Section 3.3.12. Preliminary Subdivision Plans**

CHAPTER 4. SPECIFIC REVIEW PROCEDURES - QUASI-JUDICIAL PERMITS AND APPROVALS

Section 3.4.1 General Requirements

Effective Date. All quasi-judicial permits where the Hearing Examiner issues the final decision shall take effect on the date the Hearing Examiner Order for the application in question is recorded in the public record.

Section 3.4.2 Deviations

- A. Purpose and Intent. To grant relief from strict application of LDC requirements to allow minor deviations.
- B. Scope. Deviations may be granted for the following:
 - 1. Non-residential design standards in Article 5, Chapter 8.
 - 2. Landscaping deviations in Article 5, Chapter 5, which do not qualify for an administrative deviation.
 - 3. Design standards in the NC district.
- C. Review Criteria. A Deviation may be approved based on the following criteria:
 - 1. The proposed deviation will not result in development that is inconsistent with the intended character of the applicable zoning district.
 - 2. The normally required code standard(s) is determined to significantly inhibit development of the site.
 - 3. The deviation will not impede the ability of the project or site to adequately provide for service areas and other development features for the project.
 - 4. Access for service and emergency vehicles will not be impeded.
 - 5. The proposed deviations will result in a building and site design of equal or superior quality.
- D. Effective date of approval. A deviation shall take effect upon approval by the Hearing Examiner.

Section 3.4.3 Variances.

- A. General.
 - 1. A variance may be sought from any bulk, area, or dimensional standard contained in Article 4, Zoning Districts or Article 5, Development Standards of the LDC.

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

- 1705
1706 2. No nonconforming use of neighboring lands, structures, or buildings in the same district, and no
1707 permitted use of land, structures, or buildings in other districts, shall be considered grounds for
1708 the issuance of a variance.
1709
1710 B. Approval Criteria. In order to authorize a variance, the Hearing Examiner must find that the application
1711 meets all of following criteria:
1712
1713 1. That special conditions and circumstances exist which are peculiar to the land, structure, or
1714 building involved and which are not applicable to other lands, structures, or buildings in the same
1715 zoning district;
1716
1717 2. That the special conditions and circumstances do not result from the actions of the applicant;
1718
1719 3. That granting the variance requested will not confer on the applicant any special privilege that is
1720 denied by these regulations to other lands, buildings, or structures in the same zoning district;
1721
1722 4. That literal interpretation of the provisions of the regulations would deprive the applicant of rights
1723 commonly enjoyed by other properties in the same zoning district under the terms of these
1724 regulations and would cause or impart unnecessary and undue hardship on the applicant;
1725
1726 5. That the variance granted is the minimum variance that will make possible the reasonable use of
1727 the land, building, or structure;
1728
1729 6. That granting the variance will not change the use to one that is not permitted in the zoning
1730 district or different from other land in the same district; and
1731
1732 7. That the granting of the variance will be in harmony with the general intent and purpose of these
1733 regulations, and that the variance will not be injurious to the area involved or otherwise
1734 detrimental to the public welfare.
1735
1736 C. Effect of Approval. An approved variance shall run with the land.
1737

Section 3.4.4. Special Exceptions.

The intent of this section is to permit Special Exception uses which are essential to, or would promote the public health, safety, or welfare in one or more zoning districts, but which might impair the integrity and character of the zoning district or in adjoining districts, such that restrictions or conditions on location, size, extent, and character of performance may be imposed in addition to those standards already imposed in the Land Development Code.

- 1746 A. General.
1747
1748 1. No variances shall be granted that would reduce or eliminate minimum requirements for special
1749 exception uses.
1750

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

- 1751 2. The Hearing Examiner may prescribe appropriate conditions and safeguards in conformity with
1752 the special exception use requirements. All such conditions shall be part of the terms under
1753 which the special exception is granted.
1754
- 1755 3. A special exception shall be deemed abandoned if:
1756
1757 a. The use is discontinued for more than 1 year; or
1758
1759 b. The special exception has not obtained a certificate of zoning compliance.
1760
- 1761 4. The proposed use shall comply with all requirements of the underlying zoning district(s), the
1762 Land Development Code, and all other applicable law.
1763
- 1764 B. Standards and Criteria. The following standards shall apply to all applications for special exception
1765 uses.
1766
- 1767 1. Consistency with the Comprehensive Plan?
1768
- 1769 2. The site must be suitable for the type of special exception use proposed by virtue of its location,
1770 shape, topography, and the nature of surrounding development.
1771
- 1772 3. All buildings shall be setback an adequate distance from property lines and rights-of-way.
1773 Greater building setbacks may be required when deemed necessary to protect surrounding
1774 properties.
1775
- 1776 4. Potential adverse impact to surrounding property must be mitigated to the maximum extent
1777 possible.
1778

Section 3.4.5. Vacations of Plats, Easements, and Rights-of-way.

1779 The purpose and intent of this section is to provide procedures for City Council to vacate rights-of-way,
1780 easements, and plats pursuant to authority granted under Florida law. The City Council may adopt
1781 ordinances vacating plats in whole or in part of subdivisions within the corporate limits of the city,
1782 returning the property covered by such plats either in whole or in part into acreage for the purpose of
1783 taxation, or vacating public rights-of-way, public easements, or other property in response to
1784 applications filed from adjoining property owners.
1785
1786

1787
1788 A. General.
1789

- 1790 1. The city may retain an easement for utilities or drainage over any vacated right-of-way and that
1791 no use may be made of vacated right-of-way which will be inconsistent with or interfere with
1792 the retained easement. The party seeking vacation of a plat, city street, alley, canal, other right-
1793 of-way, public easement, or other property must show or submit the following:
1794
- 1795 a. Petitioner has color of title to the tract or parcel of land covered by the plat or portion of
1796 the plat of which vacation is sought, unless the petitioner is the City of Cape Coral;

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

- 1797
1798 b. Letter of approval from Lee County Electric Cooperative, Inc.;
- 1799
1800 c. Letter of approval from affected telephone companies;
- 1801
1802 d. Letter of approval from affected cable companies; and
- 1803
1804 e. Letter of approval from any other affected utility companies (e.g., water, sewer);
- 1805
1806 2. Applicants requesting to vacate rights-of-way or easements shall provide a recent boundary
1807 survey or survey sketch of the property prepared by a registered surveyor showing the area to
1808 be vacated and provide a complete legal description(s). The survey or sketch shall show all
1809 pavement and all utility and drainage facilities, including water, sewer, cable lines, utility poles,
1810 swales, ditches, manholes, and catch basins. Separate drawings and legal descriptions are
1811 required for each vacation area when right-of-way and easement configurations differ.
- 1812
1813 B. Standards and Criteria. Applications for vacations shall be reviewed in accordance with the
1814 following criteria:
- 1815
1816 1. Whether the plat, easements, or rights-of-way are required by the City for any future
1817 transportation, access, water management, or public utility purposes.
- 1818
1819 2. Whether any required easements are necessary to accommodate the vacation of any plat,
1820 easement, or right-of-way.
- 1821
1822 3. If alternate routes are required or available that do not cause adverse impacts to surrounding
1823 areas.
- 1824
1825 4. If the closure of a right-of-way negatively affects areas utilized for vehicles to turn around and exit
1826 an area.
- 1827
1828 5. Whether local utility providers have given consent to the vacation of the plat, easements, or
1829 rights-of-way. The local utility providers may require additional easements or relocation of
1830 existing utilities facilities to complete the vacation.
- 1831
1832 C. Additional Procedures and Noticing Requirements. In addition to the standard notice requirements
1833 required by this Code, the following additional notice requirements apply for vacations:
- 1834
1835 1. Specific notice requirements for vacations. Public hearing notices to vacate a plat or portion
1836 thereof shall be published once a week for two consecutive weeks, the first publication being
1837 not less than two weeks prior to the date of public hearing on the petition.
- 1838
1839 2. If the parcel to be vacated includes an alley, all property owners serviced by the alley and all
1840 property owners serviced by a connecting alley shall be noticed.
- 1841

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

- 1842 3. Adoption and recording of resolution and ordinance. After public hearing, the City Council may
1843 approve an application for a vacation if it determines there is no reasonably foreseeable public
1844 use for the vacated area. Approval of a vacation shall be by resolution or ordinance. The City
1845 may retain easements for utilities or drainage in and upon the vacated area. Upon adoption of
1846 the resolution vacating the plat or portion thereof, the City Clerk shall furnish to the petitioner
1847 a certified copy thereof and the petitioner shall cause the same to be recorded in the public
1848 records of the county and shall return a copy, showing the recording information, to the
1849 Department of Community Development.
1850
- 1851 4. Effect. The adoption and recording of a vacation shall have the effect of vacating all streets and
1852 alleys and city-owned easements shown on the portion of the plat so vacated, unless the
1853 resolution or ordinance specifically reserved unto the city such city-owned easements or such
1854 streets or alleys. If public rights-of-way are vacated, the resolution or ordinance shall specify
1855 whether or not easements are reserved therein for utilities and drainage. The resolution or
1856 ordinance shall not have the effect of vacating any public canal shown on the portion of the plat
1857 vacated, unless the resolution or ordinance specifically so provides.
1858
- 1859 5. Petitioner's responsibility. The city, City Council, and all officers, employees, and agents thereof
1860 shall not assume any responsibility or liability for any matters and things to be done or
1861 completed by the petitioner pursuant to the provisions hereof. It is recognized that this
1862 procedure may affect substantial interests in real property and other proprietary rights, and the
1863 petitioner shall assume full and complete responsibility for compliance with the requirements
1864 of law and these procedures in connection with or arising out of any vacation proceedings
1865 instituted by the petitioner.
1866

Section 3.4.6. Rezones

- 1867
- 1868
- 1869 A. Manner of Initiation. Applications for a change in zoning may be initiated in the following manner:
1870
- 1871 1. The City Council upon its own motion;
1872
- 1873 2. The Planning and Zoning Commission upon its own motion;
1874
- 1875 3. The property owner(s) of at least fifty-one percent of the land in the proposed rezone area;
1876
- 1877 4. The City Manager for a City initiated rezone; or
1878
- 1879 5. The Community Development Department, following approval of a similar use determination.
1880
- 1881 B. Review Criteria. An application for a rezone shall be reviewed in accordance with the following
1882 criteria:
1883
- 1884 1. Whether the proposed zoning district proposed is consistent with the City Comprehensive Plan;
1885
- 1886 2. Whether the full range of uses allowed in the proposed zoning district will be compatible with
1887 existing uses in the area under consideration;

3. Whether the range of uses allowed in the proposed zoning district will be compatible with existing and potential uses in the area under consideration;
 4. Whether the proposed zoning district will serve a community need or broader public purpose;
 5. The characteristics of the proposed rezone area are suitable for the uses permitted in the proposed zoning district; and
 6. Whether a zoning district other than the district requested will create fewer potential adverse impacts to existing uses in the surrounding area.
- C. Effective date of approval. A rezone shall take effect upon City Council adoption of the ordinance approving the rezone.
- D. New application after denial. No application for a rezone which has been previously denied by the City Council shall be accepted for at least one year after the date of denial. An application to rezone property to a designation that is different than the designation which was denied by the City Council, will be accepted and considered without consideration of time since the previous application was denied.

Section 3.4.7. Planned Unit Developments (PUD)

- A. General.
1. A Planned Unit Development (PUD) is an area designed for development as a cohesive unit, where uses and innovations in design and layout of the development provide public benefits when compared to standard zoning or uniform lot and block subdivision patterns and design features.
 2. In a PUD, the various land use elements are designed so that they interrelate with each other. The boundary between a PUD and adjacent land area(s) requires particular attention to ensure transition and that land use patterns are compatible.
 3. Permitted uses in a PUD must be consistent with the Comprehensive Plan future land use classification for the site(s) in question.
- B. Purpose and Intent. The purpose and intent of a PUD are to:
1. Innovation in Design. To encourage innovations in residential, commercial, mixed-use, and industrial development so that the needs of the population may be met by greater variety in type, design and layout of buildings and land uses and by the conservation and more efficient use of the space.
 2. Appropriate Land Use. To promote the most appropriate use(s) of the land.

1979
3. High Quality Development. To improve the design, character, and quality of new development.
 4. Infrastructure. To facilitate the adequate and efficient provisions of roads and utilities.
 5. Increased Compatibility. To achieve compatibility with surrounding neighborhoods and developments.
 6. Provision of Open Space. To preserve open space as development occurs.
 7. Clustering of Uses. To provide for necessary commercial, recreational, and public facilities that are conveniently located to housing.
 8. Increased Flexibility. To provide for flexibility in design for new development and future redevelopment.
 9. Comprehensive Plan. To achieve the goals of the Comprehensive Plan.
 10. To provide a method for previously approved Planned Development Projects to continue to develop under the terms of an approved PDP Development Order and to allow modification to existing PDP approvals under the PUD procedures.
- C. Minimum Parcel Size. The minimum parcel size for a PUD is:
1. Non-residential or mixed use PUD. One acre.
 2. All other PUDs. Three acres.
- D. PUD approval steps. The PUD review and approval process includes:
1. A rezone to the PUD zoning district, which establishes the densities, intensities, and permitted uses within the PUD; and
 2. A Master Concept Plan (MCP), which establishes the design, layout, and dimensional standards of the PUD.
- E. Application and submittal requirements. Application and submittal requirements for a PUD are established in Sections 3.1.4 through 3.1.8 of this Article. In addition, a PUD requires:
1. An application for a rezone to the PUD zoning district; and
 2. A Master Concept Plan application.
 3. Submittal of the specific PUD application requirements listed in subsection G., below.
- A PUD application for parcels 10 acres or larger may apply for a rezone to the PUD zoning district without submitting a MCP for concurrent review and processing.

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

- 1980
- 1981 F. Preapplication conference required. A pre-application conference shall be held with the Community
- 1982 Development Department prior to the submittal of a PUD. The applicant shall indicate the requested
- 1983 PUD zoning district and a sketch of the PUD Master Concept Plan, if applicable.
- 1984
- 1985 G. Specific PUD Submittal Requirements. A PUD application shall include the following:
- 1986
- 1987 1. A Letter of Intent, including:
- 1988
- 1989 a. Reasons the PUD procedure is more desirable than a conventional plan;
- 1990
- 1991 b. General site description including acreages; and
- 1992
- 1993 c. General project description.
- 1994
- 1995 2. A PUD Master Concept Plan indicating:
- 1996
- 1997 a. Location of the uses within the site;
- 1998
- 1999 b. Dimensional standards such as height, setbacks, and lot sizes;
- 2000
- 2001 c. Vehicle circulation patterns, parking areas, and points of access;
- 2002
- 2003 d. Pedestrian and bicycle circulation with links to other external path systems;
- 2004
- 2005 e. Open space plan; and
- 2006
- 2007 f. Landscape and buffer plans.
- 2008
- 2009 3. Sample formation of HOA or other organization to operate and maintain open space and other
- 2010 on-site public or private improvements.
- 2011
- 2012 4. Phasing plan, if applicable.
- 2013
- 2014 H. PUD Zoning Districts. Each PUD shall be rezoned to one of the following designations, based on
- 2015 proposed development:
- 2016
- 2017 RPUD - Residential PUD
- 2018 CPUD - Commercial PUD
- 2019 IPUD - Industrial PUD
- 2020 MXPUD - Mixed Use PUD
- 2021 PFPUD - Public Facilities PUD
- 2022
- 2023 The proposed PUD zoning district must meet the criteria for rezones as set forth by this Code.

2068
2069
2070
2071

1. Every PUD shall be in conformance with the City Comprehensive Plan. The maximum density or intensity within any PUD shall be consistent with the future land use designation of the site as determined by the Comprehensive Plan.
2. Specific uses, densities, and intensities for each PUD are established in the PUD rezone ordinance. The approved uses, densities, and intensities for a PUD shall take precedence over other standards and requirements in these regulations. The uses approved in a PUD shall be permitted uses.
3. Specific bulk, area, and dimensional standards for each PUD are approved in the MCP for a PUD and shall take precedence over the standards and requirements in these regulations for development that is not within an approved PUD. Elements to be evaluated for a PUD shall include:
 - a. Appropriateness of the proposed or density or intensity of the development;
 - b. Internal and external compatibility of the development and surrounding uses;
 - c. Transition and separation between surrounding uses;
 - d. Vehicular and pedestrian circulation patterns;
 - e. Arrangement and functionality of open space;
 - f. Access points;
 - g. Public amenities, if applicable;
 - h. Additional amenities that will serve the project; and
 - i. Details and design of internal and external buffers.
4. Open Space.
 - a. For all PUDs except for IPUDs, a minimum of twenty-five percent of the total land area shall consist of common open space. The City may consider a request by the applicant for less than twenty-five percent common open space when deemed appropriate because of size, location, or nature of the proposed development.
 - b. The amenities or off-site improvements shall be utilized by the City or developed by the applicant to mitigate the reduction of open space or to fulfill the recreational needs of the City.
 - c. Areas that Do Not Count as Open Space. Parking and loading areas, streets, and rights-of-way shall not count toward usable open space.

- 2117
- d. Areas that Count as Open Space. Water bodies, surface water retention areas, preservation areas, and riparian areas that are preserved as open space shall count towards this minimum standard, even when they are not usable by or accessible to the residents of the PUD. All other open space shall be conveniently accessible from all occupied structures in the PUD.
 - e. Improvements Required. All common open space and recreational facilities shall be shown on the PUD Plan and shall be constructed and fully improved according to the development schedule established for each development phase of the PUD.
 - f. Landscaping along Sidewalks. All sidewalks within a PUD must be shaded by canopy trees. The area used for shading the sidewalks can be considered as part of the minimum open space requirement.
 - g. Maintenance of Open Space. All open space shall continue to conform to its intended use, as specified on the PUD Master Concept Plan. To ensure that public open space identified in the PUD will be used as open space, restrictions, easements, or covenants shall be recorded in deeds or the open space areas may be dedicated to the public to ensure their maintenance and to prohibit the division of any public open space. Any subdivision of land will require a Property Owners Association (POA) or Home Owners Association (HOA) to ensure that open spaces within a PUD are maintained. The City is not required to accept dedication of open space areas.
5. PUD Perimeter Buffers. The boundary between a PUD and adjacent land uses shall be landscaped with a buffer that has sufficient width and shall include screening to ensure a proper transition and increase compatibility between land uses. The buffer shall be approved by City Council.
6. Street Standards. All streets, roads, and drive aisles shall be designed and constructed in conformance with the City Engineering and Design Standards.
7. Phasing. When a PUD is developed in phases, a proportional amount of the open space and recreations areas shall be included in each phase, in order to comply with the open space requirements of this chapter at the completion of each phase of the development.
- J. Master Concept Plan and concurrent Preliminary Subdivision Plan review. The approved Master Concept Plan may be used for Preliminary Subdivision Plan approval, as defined in Article 10, provided required details and information for PSP review are included in the MCP.
- K. Amendments to Planned Unit Developments.
- 1. Administrative Amendments. Amendments to an approved PUD may be approved administratively if they meet the following criteria:
 - a. Density or intensity is increased by less than ten percent.

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

- 2118 b. Open space is not decreased by more than five percent.
2119
2120 c. There are no changes to any condition of approval.
2121
2122 d. There is no change in permitted uses or types of structures.
2123
2124 e. Dimensional standards are changed by no more than ten percent.
2125
2126 2. Review Standards for amendments. An approved PUD Master Concept Plan may be amended if
2127 the applicant demonstrates that the proposed modification:
2128
2129 a. Is consistent with the efficient development and preservation of the entire PUD;
2130
2131 b. Does not affect in a substantially adverse manner either the enjoyment of the land abutting
2132 upon, adjoining or across a street from the planned unit development;
2133
2134 c. Is not granted solely to confer a special benefit upon any person;
2135
2136 d. Does not contain proposed uses that detract from other uses approved in the PUD;
2137
2138 e. Does not contain an open space plan that differs substantially in quantity or quality from the
2139 originally approved plan; and
2140
2141 f. Contains streets and utilities that are coordinated with planned and existing street and
2142 utilities for the remainder of the PUD.
2143
2144 3. Amendments that require City Council Approval. Any amendment to a PUD that does not meet
2145 the criteria in subsection 1 through 2, above must be approved by the City Council.
2146
2147 L. Effect of PUD approvals.
2148
2149 1. PUD zoning. A rezone to a PUD zoning district shall run with the land.
2150
2151 2. Master Concept Plans. A MCP shall be valid for any time period established in the conditions of
2152 approval for the MCP. If a specific time period is not specified then the MCP shall run with the
2153 land.
2154 OR
2155 3. If a Site Development Plan, a building permit for vertical construction, or a subdivision plat has
2156 not been approved within 10 years, the Master Concept Plan shall be null and void, unless an
2157 extension has been approved by City Council.
2158
2159 M. Extensions. A PUD may receive one extension that is valid for two years. Upon expiration of the
2160 extension, the Master Concept Plan shall be null and void.
2161

CHAPTER 5. SPECIFIC REVIEW PROCEDURES - LEGISLATIVE APPROVALS

2163

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

2164 **Section 3.5.1. Annexations**
2165

- 2166 A. Purpose of Annexations. Annexations shall be considered for the following reasons:
2167
2168 1. The annexation implements the Comprehensive Plan.
2169
2170 2. The annexation increases the City’s inventory of non-residential lands.
2171
2172 3. The annexation results in the removal of enclaves.
2173
2174 4. The annexation results in the logical extension of City boundaries.
2175
2176 B. Manner of Initiation. Applications to annex property in to the City may be initiated in the following
2177 manner:
2178
2179 1. The City Council; or
2180
2181 2. By a petition of one or more owners of property within an area proposed for annexation.
2182
2183 C. Review Criteria. Proposed annexations shall be reviewed in accordance with the requirements of
2184 Chapter 171, Florida Statutes.
2185
2186 D. Effective date of approval: The effective date of an annexation will take place in accordance with
2187 Chapter 171, Florida Statutes.
2188

2189 **Section 3.5.2. Future Land Use Map Amendments**
2190

- 2191 A. Purpose of Amendments. Future Land Use Map amendments shall be considered for the following
2192 reasons:
2193
2194 1. The amendment implements the goals, objectives, and policies of the Comprehensive Plan.
2195
2196 2. The amendment promotes compliance with changes to other city, state, or federal regulations.
2197
2198 3. The amendment results in compatible land uses within the a specific area.
2199
2200 4. The amendment implements findings of reports, studies, or other documentation regarding
2201 functional requirements, contemporary planning practices, environmental requirements, or
2202 similar technical assessments.
2203
2204 5. The amendment is consistent with the City’s ability to provide adequate public facilities and
2205 services.
2206
2207 6. The amendment prepares the City for future growth, such as reflecting changing development
2208 patterns, identifying demands for community services, reflecting changes necessary to

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

2209 accommodate current and planned growth in population, and facilitating community
2210 infrastructure and public services.

2211
2212 B. Manner of Initiation. Applications for a Future Land Use Map Amendment (FLUMA) may be initiated
2213 in the following manner:

- 2214
2215 1. The City Council by its own motion;
2216
2217 2. The Planning and Zoning Commission by its own motion;
2218
2219 3. The City Manager for City initiated requests; or
2220
2221 4. By a petition of one or more property owners of at least 51% of the property owners of an area
2222 proposed for amendment.

2223
2224 C. Review Criteria. Proposed future land use map amendments shall be reviewed in accordance with the
2225 requirements of Chapter 163, Florida Statutes, and the following criteria:

- 2226
2227 1. Whether the proposed future land use amendment is consistent with the goals, policies, and
2228 future land use designations of the City Comprehensive Plan;
2229
2230 2. The amendment protects the health, safety, and welfare of the community;
2231
2232 3. The proposed amendment and all of the consistent zoning districts, and the underlying permitted
2233 uses, are compatible with the physical and environmental features of the site;
2234
2235 4. The range of zoning districts and all of the allowed uses in those districts are compatible with
2236 surrounding uses in terms of land suitability or density and that a change will not result in negative
2237 impacts on the community or traffic that cannot be mitigated through application of the
2238 development standards in this Code;
2239
2240 5. The site is capable of accommodating all of the allowed uses, whether by right or otherwise,
2241 considering existing or planned infrastructure for roads, sanitary and water supply systems,
2242 stormwater, parks, etc.; and
2243
2244 6. Other factors deemed appropriate by the Commission and City Council.

2245
2246 D. Effective date of approval. The effective date of a future land use map amendment shall be in
2247 accordance with Chapter 163, Florida Statutes.

2248
2249 **Section 3.5.3. Comprehensive Plan Text Amendments**

2250
2251 A. Purpose of Amendments. Comprehensive Plan text amendments shall be considered for the following
2252 reasons:

- 2253
2254 1. The amendment clarifies the intent of the Comprehensive Plan.

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

- 2255
- 2256 2. The amendment corrects an error in the Comprehensive Plan.
- 2257
- 2258 3. The amendment addresses changes to state legislation, recent case law, or opinions from the
- 2259 Attorney General of the State of Florida.
- 2260
- 2261 4. The amendment implements the Comprehensive Plan.
- 2262
- 2263 5. The amendment promotes compliance with changes to other city, state, or federal regulations.
- 2264
- 2265 6. The amendment results in compatible land uses within the future land use designation.
- 2266
- 2267 7. The amendment implements findings of reports, studies, or other documentation regarding
- 2268 functional requirements, contemporary planning practices, environmental requirements, or
- 2269 similar technical assessments.
- 2270
- 2271 8. The amendment promotes the City’s ability to provide adequate public facilities and services.
- 2272
- 2273 B. Manner of Initiation. Comprehensive Plan Text Amendments may be initiated in the following
- 2274 manner:
- 2275
- 2276 1. The City Council;
- 2277
- 2278 2. The Planning and Zoning Commission; or
- 2279
- 2280 3. The City Manager for City initiated requests.
- 2281
- 2282 C. Review Criteria. Proposed comprehensive plan text amendments shall be reviewed in accordance with
- 2283 the requirements of Florida Statutes, Chapter 163, and the following criteria:
- 2284
- 2285 1. The amendment is consistent with the goals and policies of the City Comprehensive Plan;
- 2286
- 2287 2. The amendment protects the health, safety, and welfare of the community; or
- 2288
- 2289 3. Other factors deemed appropriate by the Planning and Zoning Commission and City Council.
- 2290
- 2291 D. Effective date of approval. The effective date of a comprehensive plan text amendment shall be in
- 2292 accordance with Chapter 163, Florida Statutes.
- 2293

Section 3.5.4. Land Development Code Text Amendments

- 2294
- 2295
- 2296 A. Purpose of Amendments. Land Development Code (LDC) text amendments shall be considered for
- 2297 the following reasons:
- 2298
- 2299 1. The amendment clarifies the intent of the LDC.
- 2300

City of Cape Coral, Florida
Land Development Code
Article 3 – Development Review

- 2301 2. The amendment corrects an error in the LDC.
2302
2303 3. The amendment addresses changes to state legislation, recent case law, or opinions from the
2304 Attorney General of the State of Florida.
2305
2306 4. The amendment implements the LDC or Comprehensive Plan.
2307
2308 5. The amendment promotes compliance with changes to other city, state, or federal regulations.
2309
2310 6. The amendment adds district uses that are consistent with the character of the current range of
2311 allowed uses.
2312
2313 7. The amendment results in providing compatible land uses within Cape Coral.
2314
2315 8. The amendment implements findings of reports, studies, or other documentation regarding
2316 functional requirements, contemporary planning practices, environmental requirements, or
2317 similar technical assessments.
2318
2319 B. Manner of Initiation. Applications for a LDC text amendment may be initiated in the following
2320 manner:
2321
2322 1. The City Council by its own motion;
2323
2324 2. The Planning and Zoning Commission by its own motion; or
2325
2326 3. The City Manager for City initiated requests, including text amendments associated with a similar
2327 use determination.
2328
2329 C. Review Criteria. Proposed LDC text amendments shall be reviewed in accordance with the following
2330 criteria:
2331
2332 1. Whether the proposed LDC text amendment is consistent with the goals, policies, and future land
2333 use designations of the City Comprehensive Plan;
2334
2335 2. The amendment results in compatible land uses within a zoning designation;
2336
2337 3. The amendment protects the health, safety, and welfare of the community; or
2338
2339 4. Other factors deemed appropriate by the Planning and Zoning Commission and City Council.
2340
2341 D. Effective date of approval. The effective date of a LDC text amendment shall take place upon
2342 adoption.
2343

A. Purpose and Intent.

1. To provide standards and criteria for review and approval of outdoor display of merchandise.
2. To provide reasonable limitations or special conditions for outdoor display to address, minimize, or ameliorate potential impacts of the use on surrounding property and for the protection of the public health, safety, and welfare.

B. General Requirements.

1. Outdoor display of merchandise is prohibited in all residential districts (except for the A district) and in the P1, MX7, MXB, PV, INST.
2. Unless otherwise permitted, outdoor display of merchandise in C, CC, NC, SC, and A districts is prohibited, except on improved property in accordance with the following standards.
3. The following items may be displayed in conjunction with an existing licensed business location which retails these items: boats; new or used cars by auto dealerships or auto rental companies; bicycles; motorcycles; garden equipment such as lawnmowers; landscaping nursery items displayed by a nursery business; tires at auto repair businesses; and temporary uses authorized in Article 5, Chapter 9.
4. In addition to outdoor display listed above, the outdoor displays of fruit, vegetables, flowers, jewelry, books or antiques are allowed in the SC zoning district.
5. This restriction shall not apply to special events approved pursuant to Article 5, Section 5.9.10. Special Events.
6. All other outdoor display of merchandise must be approved by the City Council following review at a public meeting.
7. Except in the downtown zoning district(s), such displays may be no closer than ten feet to the front or rear property lines and five feet to side property lines or 15 feet to the side property line on corner lots. Such displays may not be placed in required parking. In the SC district, such displays are not required to be set back from any property lines. If such displays are placed on a public sidewalk, such displays shall comply with the following regulations:
 - a. Displays may be placed on the public sidewalk only directly in front of the lawfully existing business which retails the items being displayed.
 - b. Displays shall be placed on tables, shelves and/or racks that are moved indoors during any hours the business is not open and that do not exceed six feet in height and do not extend more than two feet onto the public sidewalk.

CHAPTER 1 – GENERAL PROVISIONS

Section 4.1.1 Purpose and Intent.

- A. The purpose of this article is to encourage and promote the safety, health, and general welfare of the citizens of Cape Coral, Florida by providing for:
 - 1. Efficiency and economy in the process of development;
 - 2. Appropriate and best use of land;
 - 3. Convenience of traffic and circulation of people and goods;
 - 4. Adequate public utilities and facilities;
 - 5. Promotion of the civic amenities of beauty and visual interest;
 - 6. Development in accord with the comprehensive plan by establishing zoning districts;

- 7. Regulation of the location and use of buildings, structures, and land; and
- 8. Regulation of:
 - a. Height, bulk, and access to light and air of buildings and structures;
 - b. The area of yards and other open spaces; and
 - c. The density or intensity of development on a given site.

B. To accomplish these objectives, the regulations and districts and accompanying zoning map have been designed with reasonable consideration, among other things, to reflect the character of the districts and their suitability for particular uses.

Section 4.1.2. Establishment of Zoning Districts

For regulating and restricting the use of land and the erection, construction, reconstruction, altering, moving, or use of buildings and structures, the City of Cape Coral is divided into zoning districts. The City zoning districts are classified as follows:

A. Residential Zoning Districts

- 1. Residential Single Family (R-1). This district is established to encourage and protect single-family development and to permit other uses generally compatible with single-family residential uses.
- 2. Residential Multi-Family Low (RML). This district is to accommodate multi-family housing to meet the needs of a diverse community, while ensuring that there is a transition to single-family neighborhoods which protects the integrity of those neighborhoods. The RML district acts as a transition zone from lower density residential to higher density residential or non-residential uses or zoning districts. The RML zoning district should only be established where City water and sewer services are available.
- 3. Residential Multi-Family Medium (RMM). This zoning district is to accommodate multi-family housing at a higher density than RML to meet the needs of a diverse community. The RMM district also acts as a transition zone from lower density residential areas to non-residential land uses or zoning districts.
- 4. Residential Estate (RE). This district is established to provide areas for single-family dwellings typically on parcels of 40,000 square feet or more in areas of the city that are rural in character. The RE district permits the keeping of some domesticated livestock for use by the occupants.
- 5. Agriculture (A). This district is to accommodate agricultural activities and operations which may include crop cultivation; the breeding, raising, or keeping of livestock or fur bearing animals; dairy farming; apiculture; and to allow all accessory uses and structures customarily incidental to those activities.

B. Non-Residential Zoning Districts

1. Commercial (C). This district is designed to encourage and facilitate commercial activities intended to serve a relatively large trade area, appropriate commercial locations on major thoroughfares in developed areas, and is intended to meet the needs of motorists and other consumers through the provision of automobile-oriented commercial activities to meet the needs of several types and varieties of general commercial activities.
2. Professional Office (P). This district is designed to encourage the compatible development of major professional and related office complexes in areas which are suitable for such activities. The P District may serve as a transition between commercial corridors and nearby residential uses.
3. Industrial (I). This district is to accommodate manufacturing, fabrication, warehousing, and other related activities that typically utilize large work forces, generate semi-tractor trailer traffic, and may produce external impacts such as noxious smells, smoke, or noise.
4. Institutional (INST). This district is to allow for development of nonprofit or quasi-public uses such as religious institutions, libraries, public or private schools, hospitals, or government owned or operated structures. Many of these uses provide meeting places for the citizens of Cape Coral and valuable civic engagement opportunities.
5. Preservation (PV). This district is to identify environmental resources or natural features as areas intended to remain in a predominately natural or undeveloped state to provide resource protection and opportunities for passive recreation and environmental education for present and future generations.

C. Mixed Use Zoning Districts

1. Commercial Corridor (CC). This district is established to implement the recommendations of the Pine Island Road Master Plan and to promote such uses as retail, office, limited warehouse and light manufacturing, multi-family residential and large-scale commercial retail uses.
2. Neighborhood Commercial (NC). This district is intended to create a variety of dynamic walkable, mixed-use environments; provide a range and mix of commercial and housing choices near each other; and to create quality usable public spaces. The NC District utilizes form-based design standards and provides development options based on parcel size.
3. Mixed Use Seven Islands (MX7). This district is intended to implement master plan recommendations for the Seven Islands Area consistent with the Seven Islands Sub District. A further objective is to foster a sense of place and create a destination environment in northwestern Cape Coral. To achieve these objectives, the MX7 district allows a more flexible

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 4 – ZONING DISTRICTS**

141 approach to comprehensive design and coordinated development of a multi-use neighborhood
142 than is possible under other zoning classifications.
143

144 4. Mixed Use Bimini (MXB). This district is to promote redevelopment and enhancement of the
145 Bimini Basin area of Cape Coral to create a destination for residents and visitors, consistent with
146 the Downtown Mixed Future Land Use Classification and the Bimini Basin Revitalization and
147 Implementation Plan. This district encourages mixed-use development. Existing commercial and
148 professional buildings will be supplemented with entertainment activities and a wide diversity of
149 housing types to create a vibrant work, live, shop, and play district that serves the entire city and
150 region.
151

152 5. This district is intended to implement master plan recommendations for the Bimini Basin Area. A
153 further objective is to foster a sense of place and create a destination environment in
154 southeastern Cape Coral. To achieve these objectives, the MXB district allows a more flexible
155 approach to comprehensive design and coordinated development of a multi-use neighborhood
156 than is possible under other zoning classifications.
157

158 6. South Cape (SC). This district is to promote redevelopment and enhancement of the traditional
159 commercial center of Cape Coral into a more compact and walkable form growth and to create a
160 destination for residents and visitors. This district encourages mixed-use development. Existing
161 commercial and professional buildings will be supplemented with entertainment activities and a
162 wide diversity of housing types to create a vibrant work, live, shop, and play district that serves
163 the entire city and region.
164

165 It is intended that the South Cape regulations act as a stimulus to development through provisions
166 that permit a flexible approach to infill development on various lot sizes, as well as special
167 provisions related to particular locations within the district. Therefore, many of the provisions
168 contained herein, including uses and dimensional regulations, are regulated by lot size, or the
169 extent of roadway frontage or a combination thereof.
170

171 7. Planned Unit Development (PUD). This district is designed for development as a cohesive unit,
172 where uses and innovations in design and layout of the development provide public benefits when
173 compared to standard zoning or uniform lot and block subdivision patterns and design features.
174

Section 4.1.3. Zoning District Development Dimensional Standards

175
176
177 The purpose of this section is to identify the bulk, area, and dimensional standards for construction in
178 each zoning district.

Section 4.1.4 Setbacks for Residential-Zoned Sites Abutting Platted Waterways.

For irregularly shaped residential-zoned sites abutting platted waterways, the front, side, and rear setbacks may be assigned by the Director based on one or more of the following factors:

- A. The setbacks promote reasonable development of the site;
- B. The setbacks are generally consistent with the front, side, and rear setbacks of adjacent sites; or
- C. The setbacks do not constitute a special privilege with respect to the limitations placed on other properties in the area.

Section 4.1.5 Projections and Encroachments into Setbacks

Encroachments into required setbacks. Every part of the required setbacks on a parcel shall be open and unobstructed from 30 inches above the ground, as measured from the average elevation of the crown of road along the property frontage, except as provided below or as shown in Table 4.1.5., below.

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 4 – ZONING DISTRICTS**

- 221
222 A. Structures less than 30 inches in height are not considered encroachments into minimum required
223 setbacks.
224
225 B. Bermed earth, plant materials, sidewalks, and driveways are not considered encroachments.
226
227 C. Encroachments into required setbacks:
228
229 1. Cornices, overhangs, decorative awnings with no ground support installed over windows and at
230 entrances, eaves and gutters, balconies, and means of egress may project a maximum of three
231 feet into required setbacks.
232
233 2. Awnings requiring pole supports to be placed in a setback area, or those without pole supports
234 which encroach more than 3 feet into required setbacks, may be approved, in districts other than
235 RE or R1, at the discretion of the Director of Community Development. Such awnings must
236 function as decorative architectural elements as opposed to garage, carport, or other similar
237 storage facilities.
238
239 3. All existing air conditioning, pool equipment, and generators may be maintained and replaced
240 provided the new equipment does not encroach more than three feet into any required setback.
241 All newly installed or replacement air conditioners, generators, and pool equipment must comply
242 with all setback requirements and shall not be placed in any easement.
243
244 4. Permitted encroachments into required setbacks are not allowed to encroach into utility
245 easements (See Article 5, Section 5.1.6).
246
247 5. Railings and any elements associated with ADA accessibility may encroach into required setbacks,
248 regardless of height.
249
250 6. Awnings, canopies, colonnades, arcades, and balconies may encroach into required setback, an
251 easement, or a public right-of-way if approved by the City Manager pursuant to the criteria
252 provided in Sections 4.2.15.D.5 and 5.8.9.E. Such encroachments are only allowed in the South
253 Cape Zoning District.
254

Section 4.1.6. Uses by Zoning District – Use Hierarchy.

A. Classification of Uses Listed in Table 4.1.6.

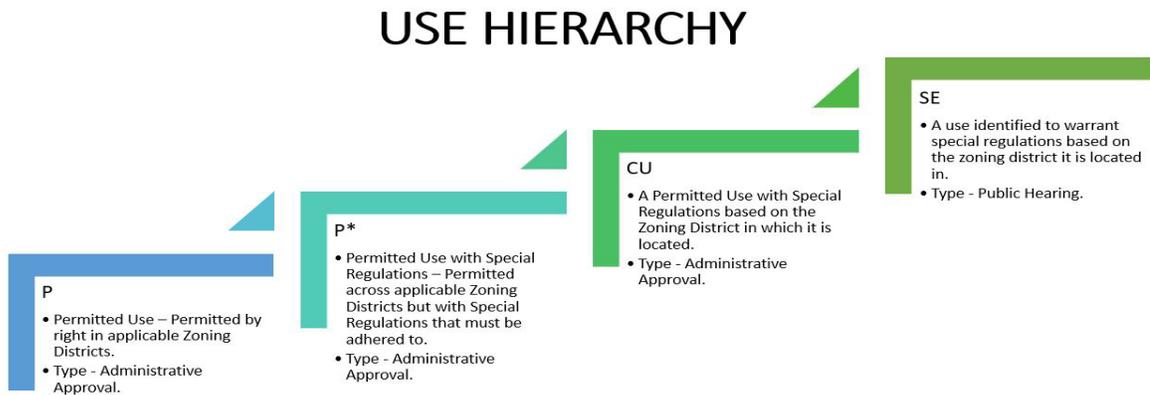

1. Permitted Uses. Uses that are allowed by right. These uses are shown in the table with a “P”.
2. Permitted Uses with Specific Regulations. Uses that are permitted with specific regulations that apply in all zoning districts where those uses are permitted. The specific regulations are provided in Article 5, Chapter 10. These uses are shown in the table with a “P*”.
3. Conditional Uses. Uses which are generally appropriate in a Zoning district. Conditional uses are permitted uses which, because of potential impacts, may require reasonable special limitations or conditions of approval peculiar to the use for the protection of the public health, safety, or welfare and the integrity of the Comprehensive Plan. The specific requirements for conditional uses are provided in Article 5, Chapter 11. These uses are shown in the table with a “CU”.
4. Special Exception Uses. Those uses or structures that may not be appropriate generally or without restriction throughout a district but which, if controlled as to, area, location, or their relationship and potential impacts to nearby residences or neighborhoods, would be acceptable. These uses are shown in the table with an “SE”.
5. Prohibited Uses. Any use not specifically listed as a permitted use, a permitted use with specific regulations, a conditional use, a special exception use, a permitted accessory use, or permitted through a similar use determination shall be considered expressly prohibited.

B. Uses not listed in Table 4.1.6.

1. Accessory Uses. Accessory uses are customarily associated with and are incidental and subordinate to such principal uses. An accessory use shall be subject to the same regulations that apply to the principal use in each district, except as otherwise provided.

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 4 – ZONING DISTRICTS**

- 289 2. Temporary Uses. Uses that are deemed temporary in nature regulated by Article 5, Chapter 9 or
 290 the City Code of Ordinances, shall not be subject to the standards and requirements as set forth
 291 in this article, except that the City may impose conditions which may include limiting the period
 292 of approval, imposing hours of operations, location of any aspect of the temporary use,
 293 operational standards to minimize impacts on surrounding properties, and any other conditions
 294 deemed necessary to minimize detrimental impacts to the welfare of the community. These uses
 295 are listed in Article 5, Chapter 9 or the City Code of Ordinances.
 296
 297 3. Similar Use Determinations. See Article 3 Section 3.3.3.
 298

299
300
301 **Table 4.1.6 Use Table**

302 The following table of permitted uses, when read together with the definitions set forth in Article 11 shall
 303 be used to determine the zoning district in which a given use may be established.

CHAPTER 2. SPECIFIC REGULATIONS BY DISTRICT

This chapter establishes specific regulations for uses, activities, or structures within a zoning district.

Section 4.2.1. Single-Family Residential (R1)

- A. Specific regulations for model homes and home occupations are established in Article 5, Chapter 10.
- B. Specific conditions for home-based businesses and religious institutions are established in Article 5, Chapter 11.

Section 4.2.2. Residential Multi-Family Low (RML)

- A. Specific regulations for duplexes, model homes, and home occupations are established in Article 5, Chapter 10.
- B. Specific conditions for multi-family residences, single-family attached, home-based businesses, and religious institutions are established in Article 5, Chapter 11.

Section 4.2.3. Residential Multi-Family Medium (RMM)

- A. Specific regulations for home occupations are established in Article 5, Chapter 10.
- B. Specific conditions for day care facilities and religious institutions are established in Article 5, Chapter 11.

Section 4.2.4. Residential Estate (RE)

- A. Specific regulations for model homes and home occupations are established in Article 5, Chapter 10.

Specific conditions for home-based businesses, and religious institutions are established in Article 5, Chapter 11.
- B. Non-domestic animals.
 - 1. Non-domestic animals regulated in this section are considered to be a pet or for household consumption and shall not be used for any commercial purposes.
 - 2. Non-domestic animals are only allowed in the Residential Estate zoning district for sites with a Low Density Residential II Future Land Use Map classification pursuant to the regulations below and the requirements of the City Code of Ordinances.

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 4 – ZONING DISTRICTS**

- 398 3. Horses. The keeping of horses, including foals and yearlings, is permitted in the Residential
399 Estate zoning district regardless of the Future Land Use Map classification. Any roofed structure
400 for shelter of such animals shall be setback at least 100 feet from any property line.
401
- 402 4. Cattle, mules, goats, sheep, swine, and poultry. The keeping, raising, and breeding of non-
403 domestic animals, including cattle, mules, goats, sheep, swine, and poultry may be permitted
404 in the Residential Estate as follows:
405
- 406 a. Lot size. The minimum lot area required for the keeping, raising, and breeding of non-
407 domestic animals, as identified in this section, is 100,000 square feet.
408
- 409 b. Animals within this subsection may not be kept or allowed to run within 100 feet of any
410 zoning district other than the Residential Estate (RE) within the Low Density Residential II
411 Future Land Use Map classification and Agricultural zoning districts.
412
- 413 c. Buildings or other roofed structures or enclosures for the keeping of animals within this
414 subsection must be set back a minimum of 150 feet from any zoning district other than
415 Residential Estate (RE) or Agricultural (A) zoning districts, under separate ownership.
416
- 417 d. The keeping and raising of non-domestic animals within this subsection is permitted in the
418 Residential Estate zoning district for personal use only, or for youth or farm-education
419 programs such as 4-H or The National FFA Organization.
420
- 421 C. Accessory structures. Accessory structures in the Residential Estate zoning district shall not have a
422 maximum size.
423

Section 4.2.5. Agricultural (A)

- 424
425
- 426 A. Specific regulations for, RV resorts, wireless communication facilities, and home occupations are
427 established in Article 5, Chapter 10.
428
- 429 B. Carports, garages or other buildings not used as a dwelling and customarily incidental to the
430 principal permitted use of the premises.
431
- 432 C. A minimum of five acres is required for all non-residential uses.
433

Section 4.2.6. Commercial (C)

- 434
435
- 436 Specific regulations for: commercial parking lots and parking garages as a standalone use; craft brewery,
437 distillery, and wineries; building and construction with outdoor display or storage; mobile food vendors;
438 and wireless communication facilities are found in Article 5, Chapter 10.
439
- 440 Specific conditions for vehicle repair, minor, vehicle fueling stations, and self-storage facilities, are
441 established in Article 5, Chapter 11.
442

Section 4.2.7. Professional Office (P)

- 443
444

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 4 – ZONING DISTRICTS**

445 Specific regulations for mobile food vendors and wireless communication facilities are found in Article 5,
446 Chapter 10.

447
448 **Section 4.2.8. Industrial (I)**
449

450 Specific regulations for mobile food vendors and wireless communication facilities are found in Article 5,
451 Chapter 10.

452
453 **Section 4.2.9. Institutional (INST)**
454

455 A. Specific regulations for mobile food vendors and wireless communication facilities are found in Article
456 5, Chapter 11.

457
458 B. Outdoor storage that is accessory to a principal use shall be screened from view from all rights-of-way
459 by an opaque fence or wall.

460
461 **Section 4.2.10. Preservation (PV)**
462

463 Reserved.

464
465 **Section 4.2.11. Commercial Corridor (CC)**
466

467 **Table 4.2.11.**
468

Commercial Corridor Development Parameters		
	Development Area	
	0 – 3.99 acres	4 acres or greater
Free-standing Commercial Development Area Maximum FAR	Up to 100% 1.0	
Free-standing Residential Minimum Density Maximum Density	Not allowed Not allowed	10 du/acre or 50 units 50 du/acre
Mixed-Use Minimum Density Maximum Density Maximum FAR	3 du/acre 12 du/acre 1.0	10 du/acre or 50 units 50 du/acre 2.0
Minimum Front Setback	20 ft.	20 ft.
Minimum Side Setback	6 ft.	6 ft.
Min. Rear Setback	10 ft.	10 ft.

469
470 A. Specific regulations for: craft brewery, distilleries, and wineries; mobile food vendors; building and
471 construction with outdoor display or storage; and wireless antennas are found in Article 5, Chapter
472 10.
473

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 4 – ZONING DISTRICTS**

474 B. Specific conditions for multi-family residential, single-family attached with 3 units or greater, outdoor
475 screened storage, and self-storage facilities are in Article 5, Chapter 11.
476

477 **Section 4.2.12. Neighborhood Commercial (NC)**
478

479 A. Specific regulations for multi-family residences; single family attached 3 units or greater; commercial
480 parking lots and parking garages as a standalone use; vehicle fueling stations; craft brewery,
481 distilleries, and wineries; wireless antennas; and home occupations are found in Article 5, Chapters
482 10 and 11.
483

484 B. Mix of uses. Development in the NC district is encouraged to have a mix of residential and non-
485 residential uses, however, a mix of uses is not required.
486

487 C. Use areas. All land areas within developments in the NC District shall be categorized as one of the
488 three following use areas:
489

490 1. Free-standing non-residential. Free-standing non-residential areas include the footprint and
491 land areas associated with buildings that contain no residential units.
492

493 2. Free-standing residential. Free-standing residential areas include the footprint and land areas
494 associated with buildings that contain residential units and buildings that contain non-
495 residential floor area usage that is less than 30% of the building's floor area. In calculating the
496 floor area of the building, the total floor area of the building is the floor area of the building
497 remaining after the area of any structured parking is excluded. Also, any pre-existing single-
498 family residences do not necessarily constitute free-standing residential development, unless
499 such residences otherwise meet the criteria for such development.
500

501 3. Mixed-Use. Mixed-use areas include the footprint and land areas associated with compound
502 use buildings that shall mean buildings with at least 30% of their floor areas allocated to non-
503 residential uses.
504

505 D. Density, intensity, and use area allocations.
506

507 1. The allowable densities, intensities, and use area allocations within the NC District may vary
508 with the land area allocated to each use in a development project.
509

510 2. A development can consist of one or more properties that are the subject of a single application
511 for development.
512

513 3. If an application includes properties that are not contiguous, the application must demonstrate
514 that the properties function as a unified development.
515

516 4. The land area that may be allocated to any of the three use area allocations varies with the size
517 of the development project, with generally increasing flexibility as a function of the total land
518 area of the development. Densities and intensities associated with any of the three use area
519 categories apply only to the land area of the project that is allocated to that specific use. In
520 determining the land area within any of the three use area allocations, the area of any common

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 4 – ZONING DISTRICTS**

521 areas for surface water management, parking, landscaping, and circulation shall be apportioned
522 among the three use area allocations in the same proportion as the non-common areas relate
523 to the area of the development, excluding common areas.

524
525 **Table 4.2.12.**

Neighborhood Commercial Development Parameters			
	Land Area of Development Project		
	1 acre or less	1 acre – 19.99 acres	20 acres or greater
Free-standing Commercial Development Area Maximum FAR	0-100% 1.0	15%-100% 1.0	20%-75% 1.0
Free-standing Residential Development Area Minimum Density Maximum Density	N/A N/A N/A	15%-85% 12 d.u./acre or 50 units 16 d.u./acre	25%-80% 12 d.u./acre or 75 units 16 d.u./acre
Mixed-Use Development Area Minimum Density Maximum Density Maximum FAR	0-100% 3 d.u./acre 12 du/acre 1.0	0-100% 12 d.u./acre or 50 units 16 d.u./acre 2.0	0-100% 12 d.u./acre or 75 units 16 d.u./acre 2.0
Build-to / Front Setback	6 ft. – 10ft.	10 ft.	10 ft.
Minimum Side Setback	0 or 6	0 or 6	0 or 6
Min. Rear Setback	6	6	6

527
528 E. Limitations on density and intensity within the NC District. In the Urban Services Reserve Area,
529 residential uses are restricted to 4.4 dwelling units per acre and non-residential development is
530 limited to uses that do not generate an estimated flow of more than 880 gallons of sewage per acre
531 per day.

532
533 F. Use area allocations. All developments in the NC District shall be categorized as one of the three
534 following use areas:

- 535
- 536 1. Free-standing non-residential. Free-standing non-residential areas contain no residential units.
 - 537
 - 538 2. Free-standing residential. Free-standing residential areas include the footprint and land areas
539 associated with buildings that contain residential units and buildings that contain non-
540 residential floor area usage that is less than 50% of the building's ground floor area.
 - 541
 - 542 3. Pre-existing single-family residences do not constitute free-standing residential development.
 - 543
 - 544 4. Mixed-Use. Mixed-use areas include the footprint and land areas associated with mixed-use
545 buildings with at least 50% of the ground floor areas allocated to non-residential uses.

G. Use Area Calculations

1. The uses of a building (residential, non-residential, mixed-use) shall be calculated by the floor area occupied by a use excluding any structured parking areas.
2. Developments that incorporate non-residential and residential uses shall clearly indicate the land areas (square footage, percentage of development site, and locations) to be used for non-residential, residential, and mixed-use, as well as the uses proposed within each of the designated areas.
3. In determining land area within any of the three use area allocations common areas, including surface water management, parking, landscaping, and circulation shall be distributed among the three use area allocations in the same proportion as the non-common areas.

H. Development Standards

1. Drive-thru facilities are prohibited.
2. Loading Docks and Service Areas.

I. All loading docks and building service areas containing air handling equipment, generators, meters, etc., shall be screened by a masonry wall from a pedestrian-level view from any adjacent residential future land use category, public sidewalk, or public street, excluding alleys.

J. Such walls shall be designed to appear as an architectural extension of the principal building and incorporate architectural trim and features consistent with the adjacent facade.

K. Walls required for screening loading docks or building service areas shall not exceed the height limitations provided in Article 5 of this code unless approved by the DCD Director.

L. On sites greater than one acre the following shall apply:

1. The first story of the building frontage shall be at least 75% of the parcel width as measured along the front property line. For adjoining parcels that are being developed simultaneously as one site with one or more buildings, this percentage applies to the combination of lots and building frontages.
2. At least 40% of the building frontage shall be built at the minimum front setback line.
3. Off-street parking spaces shall not be within the front yard.
4. Outdoor display of cars, boats, motorcycles, and vehicles is prohibited.
5. Deviations from the requirements of this section may be approved pursuant to Article 3 of this code.

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 4 – ZONING DISTRICTS**

593 **Section 4.2.13. Mixed-Use Bimini (MXB)**
594

- 595 A. Mix of Uses Allowed. Any type of dwelling unit as well as any accessory use is allowed, so long as the
596 location and mix of types is consistent with the Bimini Basin Revitalization and Implementation Plans.
597 A residential use may be intermixed with a nonresidential use or uses in the same block, lot, or
598 building.
599
- 600 B. Maximum Height and Density.
601
- 602 1. The maximum density shall be 125 dwelling units per acre.
603
- 604 2. The maximum height shall be 12 stories or 160 feet.
605
- 606 C. Compatibility and design standards. All uses must conform to the guidelines of the Bimini Basin
607 Revitalization and Implementation Plan. Uses must be compatible with existing or planned
608 development on or adjacent to the site.
609
- 610 1. Orientation, and Design.
611
- 612 a. A building facing public streets, excluding alleys, must provide a public entrance.
613
- 614 b. The first story of all non-civic buildings within the MXB shall provide shade via awnings,
615 canopies, or similar features for no less than 50% of the building length. These shade
616 structures or other required architectural features may project across the front property line,
617 or the front and side property lines for corner lots into the public right-of-way, provided the
618 feature(s) do not interfere with use of any street, pedestrian sidewalk, or utility infrastructure.
619 When permitted, such features shall have at least 8' of vertical clearance from the ground
620 level.
621
- 622 c. Office uses may only comprise 20% of the ground floor public street facing building façade.
623
- 624 d. For properties with frontages on more than one street, ground floor storefront windows shall
625 be located on a minimum of two public streets.
626
- 627 e. No less than 30% of all upper floor street facing building facades shall have windows.
628
- 629 f. With the exception for bathroom and kitchen mirrors, windows shall be transparent; no
630 mirror-type or dark-tinted is permitted for windows and doors in the MXB district.
631
- 632 g. Window signs are prohibited.
633
- 634 h. No wall-in or window-in air conditioning units are permitted.
635
- 636 i. All HVAC, mechanical and electrical equipment shall not be visible from the street.
637
- 638 2. External access and internal circulation.
639

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 4 – ZONING DISTRICTS

- 640 a. Drive-thru facilities are prohibited.
- 641
- 642 b. The internal vehicular circulation system must follow a pattern of intersecting streets that
- 643 provide alternative routes.
- 644
- 645 c. Points of external access and alignments of internal roadways must facilitate use of public
- 646 transit. This includes dedication of rights-of-way sufficient for bus pull-outs and bus shelters,
- 647 as well as transit easements on private streets.
- 648
- 649 d. A comprehensive pedestrian and bicycle circulation system must link all uses, with the intent
- 650 of minimizing walking distances and reducing dependence on the private automobile for
- 651 internal travel and external access; and include:
- 652
- 653 i. Pedestrian sidewalks within the rights-of-way of Cape Coral Parkway;
- 654 ii. Pedestrian pathways and bikeways within open space areas, in addition to the sidewalks;
- 655 and
- 656 iii. Safe and convenient access to retail and service uses, community and public facilities, and
- 657 public transit, carpool, or vanpool services.
- 658
- 659 3. Public facilities and utilities.
- 660
- 661 a. All utility lines must be placed underground.
- 662
- 663 b. Street lighting must be provided.
- 664
- 665 D. Green area and public use space requirements. The minimum amount of green area is 10 percent of
- 666 the gross area of the site. This green area must include the following:
- 667
- 668 1. Within the nonresidential area, a plaza for public use;
- 669
- 670 2. Within the residential area, a public park or common open space suitable for active or passive
- 671 recreation within a reasonable walking distance of any area devoted to multi-family or single-
- 672 family attached dwelling units; and
- 673
- 674 3. Street trees are required on public streets. Street trees shall be placed at a maximum of 30' on
- 675 center.
- 676
- 677 E. Outdoor sound amplification. The following regulations shall apply:
- 678
- 679 1. Sound amplification devices shall be oriented toward the use hosting the device, and shall not
- 680 be oriented toward surrounding residential uses.
- 681
- 682 2. A proposal to establish an outdoor venue in the MXB district is required to submit a site plan
- 683 amendment. All proposed outdoor venues associated with a new business shall submit a site
- 684 plan application to the City which shall be subject to review and approval by the HEX. The site
- 685 plan amendment shall be reviewed in accordance with the following:
- 686

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 4 – ZONING DISTRICTS**

- 687 a. For waterfront properties, no site plan amendment shall be approved unless the
688 information provided by the applicant indicates that the outdoor sound amplification
689 equipment will be oriented and located in a way that sound will not be projected directly
690 towards the water, unless, the information provided shows that sound barriers or other
691 means of noise attenuation shall be placed so as to substantially reduce the amplified sound
692 that would otherwise impact adjacent properties or adjacent street right-of-way.
693
- 694 b. For all other properties, no outdoor amplified sound plans shall be approved unless the
695 information provided by the applicant indicates that the outdoor sound amplification
696 equipment will be oriented toward the interior of the property, unless the information
697 provided shows that sound barriers or other means of noise attenuation shall be placed to
698 substantially reduce the amplified sound that would otherwise impact adjacent properties
699 or adjacent street right-of-way.
700
- 701 i. The outdoor amplified sound equipment and any sound barriers or other attenuation
702 devices approved as part of the plan shall comply with any applicable requirements of
703 the Florida Building Code, including any local amendments.
704 ii. No amplified sound equipment shall be operated in a manner which violates Cape Coral
705 Code of Ordinances Chapter 23, Protected species; and
706 iii. Amplified sound equipment shall be placed no higher than six feet above grade.
707
- 708 F. Specific regulations for multi-family residences; single family attached 3 units or greater; commercial
709 parking lots and parking garages as a standalone use; bars; craft brewery, distilleries, and wineries;
710 arenas and amphitheaters; and home occupations are found in Article 5, Chapter 12 and 13.
711

712 **Section 4.2.14. Mixed-Use Seven Islands District (MX7)**
713

- 714 A. Intent and purpose. It is the intent of this district to implement City Council adopted plans to create a
715 comprehensively planned, mixed-use development for the Seven Islands area. The specific purposes
716 of the Mixed-Use Seven Islands District are:
717
- 718 1. To provide for an integrated mix of uses that includes:
719
- 720 a. A diversity of housing options;
721
- 722 b. A diversity of commercial, office, research and development, and institutional uses providing
723 employment as well as goods and services; and
724
- 725 c. Adequate open space for active and passive recreation that encourages public interaction.
726
- 727 2. To provide for access via a circulation system and pattern that encourages travel on foot and by
728 bicycle within the neighborhood and the use of public transit for external travel, augmented by
729 locations for automobile parking that do not inhibit such circulation.
730
- 731 3. To provide, where appropriate, for integration and compatibility of residential uses with
732 commercial, office, research and development, or institutional uses.
733

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 4 – ZONING DISTRICTS**

- 734 4. To establish land use and design standards that will ensure compatibility with surrounding uses.
735
- 736 5. To establish standards and procedures through which the land use objectives and guidelines of
737 an approved and adopted master or area plan serve as the basis for evaluating an individual multi-
738 use neighborhood proposal.
739
- 740 6. To authorize development that is consistent or may be shown to be consistent with applicable
741 laws, regulations, and restrictions addressing environmental protection.
742
- 743 B. Where applicable. Land classified MX7 must be in an area for which an approved and adopted Use
744 same language as above master or area plan recommends mixed use development at an appropriate
745 scale.
746
- 747 C. Location. The location of properties identified as MX7 are limited to those identified in the Seven
748 Islands Master Plan. Properties identified as MX7 are limited to Tracts A-G, and I, and Blocks 6400-
749 6408, Unit 76, Cape Coral Subdivision.
750
- 751 D. Residential. Any type of dwelling unit as well as any accessory use is allowed, so long as the location
752 and mix of types must be consistent with the Seven Islands Master Plan. A residential use may be
753 intermixed with a nonresidential use or uses in the same block, lot, or building.
754
- 755 E. Maximum residential dwelling units and non-residential square footage. The maximum number of
756 residential dwelling units is 995 dwelling units, and non-residential square footage is 110,000 square
757 feet, no less than 40,000 of which is a community center. The mix of residential dwelling units and
758 non-residential square footage shall be in accordance with the Seven Islands Master Plan, concept D1.
759
- 760 F. Compatibility and design standards. All uses must conform to the guidelines of the Seven Islands
761 Master Plan. Uses must be compatible with existing or planned development on or adjacent to the
762 site.
763
- 764 1. Height and Orientation.
765
- 766 a. No building may be constructed to a height greater than 8 stories or 115 feet, or as indicated
767 in the Seven Islands Master Plan, Concept D1.
768
- 769 b. A building primarily used for retail or office use must be oriented toward the street on which
770 it fronts. Off-street parking shall be kept to a minimum between the building and the front
771 lot line.
772
- 773 2. External access and internal circulation.
774
- 775 a. The internal vehicular circulation system must follow a pattern of intersecting streets that
776 provide alternative routes.
777
- 778 b. Points of external access and alignments of internal roadways must facilitate use of public
779 transit. This includes providing sufficient rights-of-way for bus pull-outs and bus shelters, as
780 well as transit easements on private streets.

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 4 – ZONING DISTRICTS**

- 781
782 c. A comprehensive pedestrian and bicycle circulation system must link all uses, with the intent
783 of minimizing walking distances and reducing dependence on the private automobile for
784 internal travel and external access; and include:
- 785 i. Pedestrian sidewalks within the rights-of-way of Old Burnt Store Road and Tropicana
786 Parkway;
 - 787 ii. Pedestrian pathways and bikeways within open space areas, in addition to the sidewalks,
788 when environmental factors do not prohibit the construction of paths and bikeways; and
 - 789 iii. Safe and convenient access to retail and service uses, community and public facilities, and
790 public transit, carpool, or vanpool services.
- 791
- 792 3. Public facilities and utilities.
- 793
 - 794 a. All utility lines must be placed underground.
 - 795
 - 796 b. Street lighting must be provided in accordance with the site plan.
 - 797
- 798 G. Green area and public use space requirements. The minimum amount of green area is 30 percent of
799 the gross area of the site. This green area must include the following:
- 800
 - 801 1. Within the nonresidential area, a plaza for public use;
 - 802
 - 803 2. Within the residential area, a public park or common open space suitable for active or passive
804 recreation within a reasonable walking distance of any area devoted to multi-family or single-
805 family attached dwelling units; and
 - 806
 - 807 3. Integration of active and passive spaces to encourage joint use by employees and residents,
808 subject to the following criteria:
 - 809
 - 810 a. Active open spaces include large, open play fields, local parks, and small recreation areas;
 - 811
 - 812 b. Passive open space areas and preserve natural features such as trees and wetlands; and
 - 813
 - 814 c. Active and passive open spaces will not be isolated from the Seven Islands development.
 - 815
- 816 H. Surface parking. The form, arrangement, and landscaping of off-street surface parking for multi-family
817 dwellings and commercial uses are designed to avoid large expanses of paved area. Parking shall be
818 away from the street frontage and in the interior of the lot, unless the City Council makes a finding
819 that parking between the building and front lot line will serve the purposes of the district more
820 effectively than an interior location.
- 821
- 822 I. Drive-thru lanes prohibited. To encourage pedestrian-friendliness, no use may utilize drive-thru lanes
823 in the MX7 district.
- 824
- 825 J. Specific regulations for multi-family residences; single family attached 3 units or greater; commercial
826 parking lots and parking garages as a standalone use; movie theaters; craft brewery, distilleries, and
827 wineries; mobile food trucks; and home occupations are found in Article 5, Chapter 12 and 13.

Section 4.2.15. South Cape District

The South Cape District special regulations are intended to act as a stimulus to development through provisions that permit a flexible approach to infill development within the City’s Community Redevelopment Area.

Specific conditions for multi-family residential and vehicle fueling stations are in Article 5, Chapter 12.

A. Maximum Density and Height

Table 4.2.15. Maximum Density and Height

	Maximum Height (stories/feet, whichever is less)	Maximum Density (d.u./acre)
Baseline	10/120	125

1. All buildings or portions of buildings within 200 feet of the R1 zoning district shall be limited to six stories or 95 feet, whichever is less.
 2. Maximum building height shall not apply to the following building components: elevator and stair bulkheads; solar energy systems; shade devices associated with parking structures or recreational amenities; skylights or similar components associated with daylighting; and mechanical equipment, provided that such equipment is architecturally screened on all sides.
- B. Standards for site design. Sites shall be designed to incorporate safe and convenient vehicular use areas and pedestrian ways, with landscape, lighting, and signage treatments intended to result in a comprehensive design.
1. Streets. Streets in the South Cape zoning district are classified as follows:
 - a. Primary streets
 - i. Cape Coral Parkway
 - ii. Coronado Parkway
 - iii. SE 47th Terrace
 - b. Secondary streets. All streets other than those included as a primary street within the boundaries of the SC district.
 - i. Del Prado Boulevard
 - ii. Miramar Street
 - iii. Lafayette Street
 - iv. SE 46th Lane, Street
 - v. SE 10th Lane
 - vi. Leonard Street
 - c. Local streets. All streets other than those included as a primary or secondary.

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 4 – ZONING DISTRICTS**

- 893
894 D. Building setbacks and architectural features.
895
896 1. Front Setback . 0 feet.
897
898 2. Side Setback.
899
900 a. If adjacent to an alley, a 5-foot setback is required; otherwise, 0.
901
902 b. If adjacent to single family property, a minimum ten-foot setback is required, inclusive of a
903 five-foot landscaped strip.
904
905 c. If adjacent to existing ROW, see subsection (a) above.
906
907 d. If adjacent to a navigable waterway, fifteen feet.
908
909 e. If adjacent to a public utility easement, a minimum 6-foot setback is required.
910
911 3. Rear Setback.
912
913 a. If adjacent to an alley, a 5-foot setback is required.
914
915 b. If adjacent to single family property, a minimum ten-foot setback is required, inclusive of a
916 five-foot landscaped strip; otherwise 0.
917
918 c. If adjacent to existing ROW, see subsection (a) above.
919
920 d. If adjacent to a navigable waterway, fifteen feet
921
922 4. Variations in required in setbacks may be approved by the DCD Director to accommodate
923 pedestrian amenities, such as public plazas, pedestrian entries, outdoor dining areas and similar
924 public use areas, or landscaping.
925
926 5. Architectural features, such as colonnades, awnings, canopies, signs, etc., may project into
927 required setback and across the front property line, or the front and side property lines for corner
928 lots into the public right-of-way, provided the feature(s) do not interfere with use of any street,
929 pedestrian sidewalk, or utility infrastructure. This includes required design elements specified in
930 Article 5, Section 5.8.9 “Building Design Standards in the SC and MXB Districts. When permitted,
931 such features shall have at least 8’ of vertical clearance from the ground level. If such elements
932 encroach, the City may require the property owner to enter into a formal easement agreement
933 or right-of-way agreement in a form acceptable to the City Attorney. The owner of the structure
934 containing the elements encroaching into the setback, easement, or right-of-way is solely
935 responsible for repairing any damage to encroachments in the setback, easement, or public right-
936 of-way that result from maintenance or public infrastructure improvements.
937
938 6. Street Frontage Standards:
939

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 4 – ZONING DISTRICTS**

- 940 a. Parking structures or buildings elevated over surface parking lots shall have an occupied
941 ground floor space for a minimum depth of 20 feet from the frontage lines.
942
- 943 b. Properties with a frontage along a primary street, residential 1st floors are permitted beyond
944 a depth of 50 feet from the building setback. Buildings shall have a principal pedestrian
945 entrance on a primary frontage line.
946
- 947 c. Properties with a frontage along a primary that abut an alley, vehicular egress shall be
948 provided from the alley rather than a frontage line.
949
- 950 d. No loading docks and service areas shall be on primary street frontage lines.
951
- 952 e. Outdoor storage areas are not permitted on primary street frontages.
953
- 954 E. Parking Requirements. Parking requirements for the South Cape district can be found in Article 6.
955
- 956 E. Specific regulations for: multi-family residences; commercial parking lots and parking garages as a
957 standalone use; vehicle fueling stations; craft brewery, distilleries, and wineries; wireless antennas;
958 and home occupations are found in Article 5, Chapter 10 and 11.
959
- 960 F. The minimum dwelling unit size in the South Cape District may be 500 square feet provided all
961 requirements of the Florida Building Code are met.
962

Section 4.2.16. Planned Unit Development Districts (PUD)

- 963
- 964
- 965 A. A Planned Unit Development (PUD) are intended to allow development as a cohesive unit, where
966 uses and innovations in design and layout of the development provide public benefits when
967 compared to standard zoning or uniform lot and block subdivision patterns and design features.
968
- 969 B. The procedures for PUDs are provided in Article 3, Section 3.4.7.

150

151 **CHAPTER 1. GENERAL REQUIREMENTS FOR ALL DEVELOPMENT**

152

153 **Section 5.1.1. Purpose and Intent**

154

155 The purpose of this article is to provide standards for all development in the City of Cape Coral.

156

157 **Section 5.1.2. Connection to utilities.**

158

159 All development is required to connect to public or private utilities, as required as by the City of Cape
160 Coral Code of Ordinances, Chapter 19 Water and Sewer Utilities.

161

162 **Section. 5.1.3. Requirements for underground utilities.**

163

164 A. In new residential subdivisions, all utility lines (including electrical power distribution, telephone,
165 communication, street lighting, and cable television signal service) shall be installed underground.
166 This Section shall apply to all cable, conduits, or wires forming part of an electrical distribution system,
167 including service lines to individual properties.

168

169 However, this Section shall not apply to wires, conductors, or associated apparatus and supporting
170 structures whose exclusive function is in transmission of electrical energy between generating
171 stations, substations, transmission lines of other utility systems, and main distribution feeder electric
172 lines delivering power to local distribution systems. Appurtenances such as transformer boxes,
173 pedestal-mounted terminal boxes, and meter cabinets may be placed above ground and in such a
174 manner as to minimize noise effects upon the surrounding residential properties.

175

176 B. The developer shall provide for the necessary costs and other arrangements for such underground
177 utility installation.

178

179 C. For all new buildings in the Commercial Corridor, South Cape, and PUD zoning districts all onsite
180 utilities including telephone, electricity, cable television, and other wires of all kinds shall be placed
181 underground. However, appurtenances to these systems that require aboveground installation,
182 including utility panel boxes, are exempt from this requirement if the appurtenances are not placed
183 in front yards. When such appurtenances are placed in utility easements abutting a platted alley,
184 they shall be placed at least ten and one-half feet from the centerline of the platted alley. These

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

185 underground requirements also apply to those improvements to non-conforming structures that
186 exceed the 50% thresholds as described in Article 8, Nonconformities. All utility infrastructure,
187 including electric utility poles and power lines, shall be concealed from public view wherever
188 possible. All new electric distribution lines shall be located in utility easements abutting platted
189 alleys and the utility poles shall be positioned so that a minimum clearance of ten and one-half feet
190 from the centerline of any platted alley is maintained. For properties that do not have a rear platted
191 alley, the electric distribution lines and utility poles shall be placed in the rear utility easement
192 wherever possible.

193
194 D. In the South Cape zoning district where overhead or underground utility lines have been placed in
195 the six-foot PUE, a property owner shall choose one of the following options:

- 196
197 1. Relocate the utility lines to the alley or other acceptable location, at the property owner's sole
198 expense, and subject to approval by the affected utility provider(s) and the City of Cape Coral;
199 or
200
201 2. Place a concrete sidewalk or architectural elements on the front six-foot property setback. If
202 overhead electric lines are in place, no awnings, canopies, balconies, colonnades, arcades, or
203 front porches may be constructed forward of this line even if otherwise required by this code.
204 If underground lines of any type are in place, the property owner is solely responsible for
205 repairing any damage to lawful encroachments into the six-foot easement resulting from
206 maintenance or improvements to utility lines.

207
208 **Section 5.1.4. Access required.**

209
210 Except as otherwise provided, all building sites shall have access on a street or a road shown on an
211 approved and recorded final plat. One or more buildings may have no direct access to a street provided
212 that the approving authority finds that such building site(s) have adequate indirect access to a street such
213 as a recorded easement or right-of-way through or over another parcel. The city may prohibit direct access
214 from a parcel or building site to a street when the approving authority finds that prohibition of direct
215 access would promote the public health, safety, and welfare based on factors including traffic or
216 transportation safety and when the parcel or building site could be afforded indirect access to a street or
217 other road via another parcel or building site.

218
219 **Section 5.1.5. Protection of underground pipelines and utilities.**

220
221 A. Intent. It is the intent of the City Council to protect underground pipelines and utilities from
222 destruction or damage to prevent:

- 223
224 1. Death or injury to persons;
225
226 2. Property damage to private and public property; and
227
228 3. Loss of essential pipeline or utility services to the general public.
229

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

230 B. All excavation on public property, rights-of-way, or dedicated easements shall comply with the
231 requirements of F.S. 556. Underground Facility Damage Prevention and Safety.

232
233 C. Penalties for violation. Any person violating this section shall be punished as provided in the Code
234 of Ordinances of the City of Cape Coral.

235
236 **Section 5.1.6. Protection of easements.**

237
238 A. In the R-1, RML, RE, and A zoning districts, the six-foot easement around the perimeter of sites shall
239 be preserved and nothing shall be placed or constructed on such easements other than a paved
240 driveway, walkway, sidewalk, fences, or well. In addition, for non-residential uses lawfully located
241 in residential zoning districts, paved off-street parking areas may be placed or constructed on the
242 six-foot easement around the perimeter of the site.

243
244 B. In the RMM zoning district, where lot depth is greater than 131 feet, the six-foot easement around
245 the perimeter of the sites shall be preserved and nothing shall be placed or constructed on such
246 easement other than a paved driveway, walkway, sidewalk, paved off-street parking areas, or a well
247 when site conditions make it impractical to locate elsewhere. On sites with a depth of less than 131
248 feet, paving of the front easement for parking purposes shall be permitted.

249
250 C. Lawn sprinkler systems and landscaping may be placed in the 6' PUE easements as permitted by the
251 Code of Ordinances or the Land Development Code.

252
253 D. In the C, CC, I, INST, MXB, MX7, NC, P, and SC zoning districts, paved off-street parking areas, paved
254 driveways, sidewalks, wells, walkways at ground level, lawn sprinkler systems, or landscaping may
255 be placed in an easement provided that all other requirements of the Code of Ordinances or the
256 Land Development Code are met.

257
258 E. Nothing in this section shall prohibit the construction of seawalls, davits, docks, or other structures
259 as permitted by the Cape Coral Code of Ordinances.

260
261 F. If a utility removes, damages, or disturbs the construction or other material within an easement as
262 allowed by this section, the property owner shall be responsible for the cost of its removal,
263 relocation, repair, or replacement. If any plant material in an easement required by Chapter 5 of
264 this Article of the Land Development Code is removed or damaged, the property owner shall replace
265 all such material within 30 days of the completion of the utility work. These requirements also
266 include repair or replacement of sod within the right-of-way. In addition, prior to issuing a permit
267 to locate, place, construct, or install any structure, construction, driveway, or other material in an
268 easement, the city may require the property owner to agree to indemnify and to hold the city
269 harmless from any or all costs or expenses incurred as a result of such location, placement,
270 construction, or installation in the easement.

271
272 G. The city may deny applications to place wells, fences, walls, or other materials in an easement if
273 such would conflict with existing or proposed utilities or drainage functions.

274
275 **Section. 5.1.7. Required visibility triangles.**

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

276
277 As an aid to allow for safe operation of vehicles, pedestrians, and cyclists in the proximity of intersecting
278 streets, driveways, alleys, and bicycle paths, there shall be limitations on the height of fences, walls,
279 gateways, ornamental structures, signs, hedges, shrubbery, and other fixtures as visually depicted in
280 the Cape Coral Engineering and Design Standards and as follows:

- 281
282 A. All landscaping and signs within the visibility triangle shall provide unobstructed visibility between
283 30 inches and eight feet, with the exception of tree trunks that do not create a traffic hazard.
284
285 B. The property owner shall be responsible for maintaining all landscaping within the visibility triangle
286 to provide the unobstructed visibility.
287
288 C. The Community Development Director shall make the final determination regarding visibility
289 triangles.

290
291 **Section 5.1.8. Sidewalks and alleys.**

- 292
293 A. Non-Residential Zoning Districts. As part of construction of each building erected in non-residential
294 or mixed-use zoning districts (C, CC, I, INST, MXB, MX7, NC, P, and SC) right-of-way improvements
295 (including sidewalks) shall be installed prior to the issuance of a certificate of occupancy pursuant
296 to the standards and specifications set forth in the City of Cape Coral Engineering Design Standards.
297
298 B. All sidewalks shall be constructed in accordance with the City of Cape Coral Engineering Design
299 Standards, except where a sidewalk has been installed and the established width is less than five
300 feet, the minimum width of the sidewalk to be installed shall be the width of the existing sidewalk.
301
302 C. Lot owners who develop property, erect buildings, or change the use on only a portion of a lot must
303 provide the curbs, sidewalks, gutters, and lane widening for the entirety of the property, as required
304 by this subsection, which shall be at the expense of the lot owner.
305
306 D. As part of property development and construction of each building erected in the C, CC, I, INST,
307 MXB, MX7, NC, P, and SC zoning districts adjacent to a platted alley the alley shall be improved prior
308 to the issuance of a certificate of occupancy. Such alley portion shall be constructed in accordance
309 with the Engineering Design Standards along the length of the property line of the site lying adjacent
310 to the platted alley. In addition to new construction in the C, CC, I, INST, MXB, MX7, NC, P, and SC
311 zoning districts, alterations to existing sites lying adjacent to a platted alley shall be required to
312 make the alley improvements required by this section if the value of such alterations exceeds 50%
313 of the replacement value of the site improvements. These improvements include parking areas,
314 internal curbing, and retention areas but exclude internal, previously existing modifications to the
315 building.
316
317 E. Payment in Lieu of Construction. At the discretion of the City, the City may accept payment in lieu of
318 construction for all or part of the off-site improvements required by the City. For projects where
319 payment in lieu of construction will be employed, the developer shall submit to the City 110% of the
320 estimated cost of the improvements as prepared by a professional engineer licensed in the state of

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

321 Florida, which shall be reviewed and approved by the City. The developer shall provide the City with
322 payment for all construction costs prior to the issuance of a development permit for the site.
323

324 F. Right-of-way improvements shall be constructed only if the city has developed construction designs
325 for that roadway segment. In areas without city approved construction designs for a roadway
326 segment, construction of improvements shall be done through a city established special assessment
327 district.

328
329 G. Residential. New residential subdivisions and Planned Unit Developments of 20 or more lots or units
330 and multi-family development of 50 or more units shall install sidewalks along all street frontages
331 abutting and within the development. This does not apply to existing structures that are being
332 remodeled or repaired.
333

334 **Section 5.1.9. Work in the Public Right-of-Way and Public Utility Easements.**
335

336 A. General. Except as provided below, no construction, change, modification, or alteration of any
337 type or nature whatsoever, including the addition or removal of fill, vegetation, or other
338 materials, or the placement, installation, or erection of any object or vegetation, shall be allowed
339 within a city-owned right-of-way or swale, except as provided in Chapter 1 of this Article.
340

341 B. No permit required. The following work or activities shall be allowed in the public right-of-way or
342 roadway easement areas without the necessity of a city permit:
343

344 1. Trimming, cutting, or maintenance of trees, shrubs, and other vegetation existing as of the
345 effective date of this ordinance in the public rights-of-way or swales;
346

347 2. Markers, commonly known as buttons, turtles, or half-moons, may be placed 18 inches from
348 the edge of the pavement in residential zoning districts provided that such markers shall not
349 exceed a height of four inches. However, no markers shall be placed within any public right-
350 of-way which is adjacent to a roadway with four or more lanes;
351

352 3. Mailboxes may be placed in the public rights-of-way or swales so long as they are in
353 accordance with the City of Cape Coral Engineering Design Standards. The mailbox may be
354 immediately surrounded by a small bed consisting of landscape edging materials or concrete
355 curbing, bedding plants or groundcover, and mulch or decorative rock provided that such
356 decorative rock shall not exceed four inches when measured in any direction, pursuant to
357 Chapter 5 of this Article. In no event shall the diameter of the plant bed exceed two feet
358 when measured from the outer-most edges of any landscape edging material or concrete
359 curbing utilized. and
360

361 4. A Registration Certificate is required to install landscaping material in the lateral right-of-way
362 areas between the roadway pavement and the private property line in accordance with
363 Section 5.5.19 of this Article.
364

365 C. Permit required. The following work or activities shall be allowed in the public right-of-way or
366 roadway easement areas provided that the property owner first obtains a permit from the city:

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 367
368 1. Culvert installation and appurtenant work;
369
370 2. Sod installation and appurtenant work;
371
372 3. Driveway installation and appurtenant work;
373
374 4. Curb, gutter, sidewalk, sod, and paving;
375
376 5. Alley improvements;
377
378 6. Installation of sprinkler systems. However, if the sprinkler system is disturbed, damaged, or
379 destroyed by the City performing work in the public right-of-way, the owner shall be solely
380 responsible for any cost resulting from such disturbance, damage to, or destruction of the
381 sprinkler system in the right-of-way; and
382
383 7. Planting in medians, cul-de-sacs, and roundabouts as permitted in Section 5.5.17 of this
384 Article.
385
386 D. Under no circumstances shall any of the activities permitted above result in any change,
387 modification, or alteration of any type whatsoever, to the established grade, slope, or contour of
388 the public swale or right-of-way not specifically addressed by the City of Cape Coral Engineering
389 Design Standards.
390
391 E. None of the prohibitions contained in this ordinance shall apply to any construction, change,
392 modification, or alteration within a public right-of-way or swale which is performed by or
393 required by a governmental entity or public utility.
394
395 F. Public Utilities. No public utility including electric, phone, cable tv, internet, cellular, or gas
396 company will be allowed to install or maintain facilities, begin construction, change, modify, or
397 alter in any way whatsoever the public right-of-way, swale, or adjacent public utility easements,
398 including the addition or removal of fill, vegetation, or other materials, without a permit as
399 required by the City of Cape Coral Code of Ordinances.

400
401 **Section 5.1.10. Maintenance of city rights-of-way.**
402

403 All property owners shall be responsible to either maintain or construct the city-owned right-of-way
404 lying between their property boundaries and the city pavement, to include the following standards.
405

- 406 A. Prior to preparation of a building lot for construction, the building permit holder shall obtain the
407 correct swale flow line elevations from the City and proceed immediately to create the required
408 swale needed to allow continuous uninterrupted flow of stormwater throughout the construction
409 process.
410

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 411 B. During construction or reconstruction approved erosion control devices shall be placed in the swale
412 adjacent to both property lines to impede all foreign matter from entering the stormwater system.
413 The erosion control devices shall remain in place until placement of final sod in the right-of-way.
414
- 415 C. No excavated material or construction material shall restrict stormwater flow within the swale area.
416
- 417 D. Upon issuance of the certificate of occupancy, the owner shall maintain the swale indefinitely to
418 the same standard that is applied to privately-owned property.
419
- 420 E. All pavement damage must be repaired to meet or exceed the City of Cape Coral Engineering Design
421 Standards.
422

423 **Section 5.1.11. Building numbers and addresses.**
424

425 All buildings in the City of Cape Coral shall display a proper building number at least four feet from the
426 ground level. All building numbers shall be visible from the public right-of-way which the front of the
427 building faces. Building numbers of sufficient size which are affixed to both sides of mail boxes on such
428 right-of-way or building numbers which are affixed to lawful signs not attached to the building may be
429 substituted for number affixed to buildings.
430

431 **Section 5.1.12. General regulations for lots, yards, and setbacks.**
432

- 433 A. Double frontage other than corner lots. Double frontage other than corner lots shall meet front
434 setback regulations on all adjacent streets.
435
- 436 B. Corner lots. In the SC and MXB zoning district(s), corner lots shall be deemed to have front lot lines
437 abutting all street right-of-way lines. For corner lots in all other zoning districts, the following shall
438 apply:
439
- 440 1. The front of any building site shall be determined by the lesser dimension of a single lot (not
441 building site). This frontage shall have the established setback for the particular zoning district,
442 but in no instance be less than 25 feet.
443
 - 444 2. The remaining street frontage shall have a setback of no less than ten feet in all zoning districts.
445 The remaining street frontage shall be maintained as a front yard and the regulations for fences,
446 shrubbery, and walls of this ordinance shall apply.
447
 - 448 3. On sites bounded by three streets, one lot line shall be designated by the Director as the rear
449 and maintained as the rear setback of that zoning district. For purposes of this section, all but
450 the rear yard shall be maintained as a front yard and the regulations for fences, shrubbery, and
451 walls of this ordinance shall apply.
452
 - 453 4. The front of a single-family residential building shall not be offset from the front property line
454 by an angle greater than 45 degrees.
455

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 456 C. No parcel shall be reduced below the minimum dimensional requirements in the zoning district.
457 This provision shall not apply when a portion of a parcel is acquired for a public purpose.
458

459 **Section 5.1.13. Single-family residential standards.**
460

461 In addition to all other provisions of this Code, single-family residential uses shall be subject to the
462 following requirements.
463

- 464 A. In the A, R1, and RE zoning districts only one single family residence shall be permitted per parcel.
465
466 B. Ornamental walls. Ornamental walls attached to the principal building shall have the following
467 requirements
468
469 1. Ornamental walls shall not be higher than four feet at any point where they extend beyond the
470 roof overhang and into the side setback.
471
472 2. Ornamental walls may extend into the side setback but shall not extend into the six-foot
473 perimeter easements.
474
475 3. An ornamental wall not to exceed 30 inches in height may be installed in the front yard.
476
477 4. Ornamental walls may be in the form of a planter.
478
479 4. A planter may be incorporated into the construction of a wingwall.
480
481 C. Water discharge. All gutter downspouts or similar water discharge devices shall direct the discharge
482 to the front or rear property lines. Refer to the City of Cape Coral Engineering Design Standards,
483 Section L, Drainage Design Standards for lot grading and drainage information.
484
485 D. For single-family or duplex construction activities on any site in a Special Flood Hazard Area, the
486 maximum amount of fill on-site shall be limited to 12 inches, unless otherwise approved by the
487 Building Official.
488

489 **Section 5.1.14. Multi-family residential.**
490

491 In addition to other provisions of this ordinance, single-family attached structures, duplexes, and multi-
492 family residential uses shall be subject to the following requirements.
493

- 494 A. Distance between buildings.
495
496 1. Clustered buildings. Buildings may be constructed on proper building sites in cluster style
497 providing a minimum of 20 feet is maintained between the buildings up to a height of 38 feet.
498
499 a. One foot shall be added to the 20-foot distance for every foot of height increase over 38
500 feet.
501

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

502 b. Carports will not be considered in determining the 20-foot distance between buildings.

503

504 B. Water discharge.

505

506 1. All gutter downspouts or roof drains from multi-family buildings shall be directed to the water
507 management system.

508

509 2. All gutter downspouts or similar water discharge devices from duplexes shall direct the
510 discharge to the front or rear property lines. Refer to the City of Cape Coral Engineering Design
511 Standards, Section L, Drainage Design Standards for lot grading and drainage information.

512

513 C. Maximum Fill. For duplex construction activities on any site in a Special Flood Hazard Area, the
514 maximum amount of fill on-site shall be limited to 12 inches, unless otherwise approved by the
515 Building Official.

516

517 **Section 5.1.15. Dumpster Enclosures.**

518

519 Except where noted below, all sites with uses other than single-family residences and duplexes, shall
520 provide commercial trash receptacles in accordance with the regulations in this section.

521

522 A. Screening.

523

524 1. Except for the SC and MXB Districts, when commercial trash receptacles are in a rear yard that
525 abuts an alley, all commercial trash receptacles shall be enclosed from view on at least three sides
526 by an opaque visual barrier.

527

528 2. When a commercial trash receptacle is visible from an adjacent property or an adjacent street, at
529 ground level, then the commercial trash receptacle shall be enclosed on the fourth side by an
530 opaque gate that shall be the same height as the opaque visual barrier on the other three sides.

531

532 3. The principal structure may be used as the opaque visual barrier on one or more sides provided
533 the commercial trash receptacle is completely concealed from view.

534

535 B. Materials.

536

537 1. The following materials, either singly or in any combination, are the only materials that may be
538 used for the opaque visual barrier and gate:

539

540 a. Wood fencing;

541

542 b. Plastic or vinyl fencing;

543

544 c. Concrete block and stucco wall;

545

546 d. Brick wall; or

547

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 548 e. Formed, decorative, or precast concrete.
549
- 550 2. Chain link fencing, whether singly, or combination with other materials, including plastic slats,
551 shall be prohibited.
552
- 553 3. Gates shall be constructed of a durable, opaque material, consistent or complimentary in color
554 with the enclosure and of a height to screen the container.
555
- 556 C. Location.
557
- 558 1. Commercial trash receptacles shall not be located on unimproved sites.
559
- 560 2. Commercial trash receptacles and accompanying visual barriers, are subject to the following
561 minimum setbacks:
562
- 563 a. Six feet from the front property lines in the SC and MXB Districts.
564
- 565 b. Three feet from alley rights-of-way.
566
- 567 3. When located in a public utility or drainage easement, the property owner shall be solely
568 responsible for removal of the commercial trash receptacle as well as for any cost resulting from
569 disturbance, damage, destruction, or restoration of the receptacle resulting from work associated
570 with utilities in such easement. Prior to issuing a permit, the City may require the property owner
571 to agree, in writing, to indemnify and to hold the city harmless from any costs or expenses
572 resulting from placing a commercial trash receptacle in an easement.
573
- 574 4. A commercial trash receptacle may be placed on an adjoining property provided that the premises
575 are adjacent to or directly behind the development and written consent of the adjoining property
576 owner is submitted to and approved by the Director. The adjoining property owner may revoke
577 this consent upon written notice to the development and the Director. The development shall
578 have 30 days from revocation to relocate the commercial trash receptacle and to comply with all
579 requirements of this section.
580
- 581 5. Developments within 25 feet of a City-owned parking lot may, upon approval by the Director,
582 locate enclosures on the City-owned parking lot. Approval may be revoked at any time, upon
583 reasonable notification, by the City.
584
- 585 D. Dimensions. The dumpster enclosure shall have a minimum interior dimension of ten feet by ten feet
586 and a height at least six inches higher than the enclosed commercial trash receptacle. Neither the
587 dumpster enclosure or the gate providing access to the commercial trash receptacle shall be
588 considered a fence or a wall pursuant to the City Code of Ordinances or Land Development Code.
589
- 590 E. All dumpster enclosures shall be located so that a sanitation vehicle has physical access to the
591 commercial trash receptacle that is adequate for safely servicing the facility.
592
- 593 F. Each commercial trash receptacle shall be located on a concrete pad.

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 594
595 G. All solid waste or other refuse, including recycling materials stored in commercial trash receptacles,
596 shall be concealed by a lid attached that shall remain in the closed position unless materials are being
597 placed into the receptacle or the receptacle is being serviced. No material shall be permitted to
598 overflow the receptacle.
599
600 H. In the event a commercial trash receptacle is in a dumpster enclosure that includes a gate, regardless
601 of whether such a gate would have been required pursuant to this section, the gate shall be of a type
602 that opens sufficiently to allow unimpeded access to the trash receptacle by the sanitation vehicle
603 and shall have drop pins, hooks, or other devices installed to hold the gate open while the receptacle
604 is being serviced. All gates shall remain closed unless the receptacle is being serviced.
605
606 I. Deviations. In the event an owner is unable to comply with the requirements of this section, the owner
607 may request an administrative deviation from the Director. In determining whether to approve an
608 administrative deviation, the Director shall consider factors such as dimensions of the property, site
609 constraints such as existing development, or other location factors that may make compliance with
610 this section impossible or impractical. The determination to approve an administrative deviation shall
611 be at the sole discretion of the Director.
612
613 J. Maintenance. Commercial trash containers shall be maintained in a manner which is not a nuisance
614 to surrounding uses.
615
616 1. The receptacle shall be stored in the enclosure and the gate(s) to the enclosure shall remain closed
617 at all times unless it is being accessed at that time.
618
619 2. Refuse may not be left outside of the enclosure or on the ground within the enclosure.
620

621 **Section 5.1.16. Outdoor dining.**
622

623 Outdoor dining may be permitted as an accessory use to a restaurant, hotel, bar, or fraternal organization
624 provided the following conditions are met:
625

- 626 A. All outdoor dining:
627
628 1. Music may be permitted to be performed or amplified in outdoor dining areas, in accordance with
629 Section 12-22 of the City's Code of Ordinances, or in accordance with a permit per Chapter 9 of
630 this Article.
631
632 2. Parking shall be provided at a rate of 1 parking space per 4 seats of outdoor dining are, except in
633 the SC, MX7, or MXB zoning districts, where no additional parking is required.
634
635 3. Outdoor dining in common areas, such as shopping centers, must have written authorization from
636 the property owner.
637
638 B. Outdoor dining on public rights-of-way.

684

1. Stanchions, planters, or other features approved by the City may be used to delineate outdoor dining areas.
2. The number of outdoor seats and tables shall be limited to that number that can be reasonably accommodated according to the available widths of the associated storefront and sidewalk or patio area. Only the area(s) adjacent to the associated storefront and with 50' may be used for outdoor dining. No fixtures or furniture may be attached to the right-of-way or public property.
3. Clear pedestrian access shall be maintained at all times, and no seating or tables shall interfere with ingress and egress to buildings or create an unsafe situation with street traffic.
4. The owner or operator of the outdoor dining area shall remove any seating or tables when necessary for special events or when an authorized agent of the City makes such a request.
5. Public sidewalks adjacent to any approved outdoor dining area shall be properly maintained for safety and cleanliness by the owner or operator on a daily basis. Litter, dirt, grime, grease, and food shall not be permitted to accumulate at any time. The sidewalk must be cleaned by pressure washing on a regular basis or when an authorized agent of the city makes such a request. The Public Works Department must approve the method and equipment used for pressure washing.
6. Portable lighting may be used in the outdoor dining area. Extension cords may not be run from any nearby buildings. The use of generators is prohibited. City light poles may not be used for electrical connections. Portable heaters may be used if approved by the Fire Department.
7. An indemnity agreement, provided by the City shall be signed and provided by the outdoor dining owner or operator, along with proof of public liability insurance as approved by the city attorney.
8. The use of glass table tops or furniture is prohibited. The use of plastic or PVC furniture, wooden picnic tables, or couches and chairs intended for indoor use is prohibited. All furniture and fixtures to be used shall be specified in the outdoor dining permit and approved by the City.
9. The City Manager may revoke an outdoor dining permit for locations on the public right-of-way for noncompliance with these regulations.

Section 5.1.17 Mixed-use Buildings.

- A. The minimum dwelling unit size in mixed-use buildings shall be 500 square feet provided all requirements of the Florida Building Code are met.
 - (2) The non-residential design standards set forth in Article 5, Chapter 8 shall apply to all mixed-use buildings.

Section 5.1.18 Abandoned Vehicles or Watercraft.

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

685 In addition to all other provisions of this ordinance, automotive and watercraft uses are subject to the
686 following regulations.

- 687
- 688 A. Abandoned vehicles and watercraft are prohibited from being parked or stored on any
689 property in the City of Cape Coral including in driveways, carports, or on unimproved lots.
690
- 691 B. For locations where abandoned vehicles are prohibited, if an abandoned vehicle or watercraft
692 is not removed from the premises within five days from date of written notice to do so, the
693 vehicle or watercraft shall be deemed a nuisance and shall be in violation of this ordinance.
694
- 695 C. Vehicles that are in garages on improved property shall not be deemed to be "abandoned"
696 under this ordinance.
- 697 D. Repairs may be made on the premises if an emergency exists or if performed on an occasional
698 basis. In all cases, repairs must be performed in such a manner as to not cause unsightliness,
699 noise, or obnoxious odors.
700

701 **Section 5.1.19. Newspaper Racks.**

- 702
- 703 A. Purpose. To establish standards and criteria for the placement of newsracks and newspaper
704 vending machines. It is the purpose of this section to establish reasonable time, place, and
705 manner restrictions to further the city's objective in public safety and aesthetics.
706
- 707 B. Standards.
- 708
- 709 1. No person shall place, install, or maintain any newsrack that projects or rests onto,
710 into, or over any part of the roadway of any public street.
711
- 712 2. No person shall place, install, use or maintain a newsrack that endangers the safety of
713 persons or property when such site interferes with public utility uses or other
714 governmental use; when such newsrack impedes the flow of pedestrian or vehicular
715 traffic, the ingress into or egress from any residence or place of business or any legally
716 parked or stopped vehicle, or the use of light poles, posts, traffic signs or signals,
717 hydrants, mailboxes, or any other objects permitted at or near such location; when
718 such newsrack interferes with the cleaning of any sidewalk by use of any sidewalk
719 cleaning machinery or the mowing of grass by mechanical mowing machinery or when
720 such newsrack interferes with the ordinary use of public property.
721
- 722 3. Newsracks are prohibited in any median within a public right-of-way, roadway, or
723 street.
724
- 725 4. All newsracks shall comply with the following standards:
726
- 727 i. The newsracks shall be anchored, set, and maintained on a concrete pad.
728
- 729 b. Newsracks shall not be placed, installed, used, or maintained:
730 i. Within 10 feet of any marked crosswalk.

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 731 ii. Within 15 feet of the curb return of an unmarked crosswalk.
732 iii Within 10 feet of any fire hydrant.
733 iv. Within 10 feet of any driveway.
734 v. Within 15 feet of any designated mass transit bus stop.
735 vi. Within 15 feet of a "No Parking" sign or zone.
736
737 5. Newsracks shall not be used for the display of signs or placement of placards, other
738 than to promote the newspaper, periodical, or other publications contained therein.
739
740 6. Every person who places or maintains a newsrack in the city shall affix on the rear of the
741 newsrack a weather resistant decal no larger than five inches x seven inches that states the
742 distributor's name, address, and telephone number.
743
744 C. Indemnification. All distributors of publications utilizing newsracks within the city shall execute an
745 indemnification, in a form approved by the City Attorney, which will hold the city, its officers,
746 employees and agents harmless from any claim, demand or judgment in favor of any person or
747 entity arising out or resulting from the placement of any newsrack in or over a public right-of-way.
748
749 (3) Enforcement. Removal of any and all newsracks shall be determined by the following criteria:
750
751 1. Upon determination by a code enforcement officer (as specified in [§ 2-82.1](#) of the
752 Code of Ordinances) that a newsrack has been installed or maintained in violation of
753 the provisions of this section, a citation shall be issued, in a form prescribed by the
754 city, and shall state:
755
756 2. The time and date of issuance;
757
758 3. The name and address of the distributor and in the case of a newspaper vending machine, the
759 publisher of the respective newspaper, to whom the citation shall be issued to and served
760 upon;
761
762 4. The time and date of the violation;
763
764 5. A brief description of the violation and the facts constituting reasonable cause;
765
766 6. The number or section of this code violated;
767
768 7. The name of the code enforcement officer;
769
770 8. Shall specify a reasonable time, not to exceed ten days, in which corrective action should be
771 taken;
772
773 9. The procedure for the person cited to follow in order to pay the civil penalty or to contest the
774 citation;
775

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 776 10. The applicable minimum (\$25) and maximum (\$200) civil penalty if the person elects to contest
777 the citation;
778
- 779 11. The applicable civil penalty if the person elects not to contest the citation;
780
- 781 12. A conspicuous statement that if the person fails to pay the civil penalty within the time
782 allowed, or fails to appear in court, as the case may be, to contest the citation, the person will
783 be deemed to have waived his right to contest the citation and that in such case, judgment
784 may be entered against the person for the amount stated in the citation;
785
- 786 13. A copy of the citation shall be affixed on the respective newsrack.
787
- 788 (4) Any aggrieved party may appeal a final order to the Circuit Court. Such an appeal shall not be
789 a hearing *de novo*, but shall be limited to appellate review of the record created before the
790 County Court. An appeal must be filed within 30 days of the execution of the order to be
791 appealed.
792
- 793 F. Should any newsrack constitute a threat to public health or safety, or is in violation of this section
794 after notice and hearing on said violation, the newsrack shall be subject to removal by the city
795 within 48 hours, unless conditions warrant a shorter time period, following the issuance and
796 service of a citation accompanied by a notice of intent to remove the newsrack. Upon removal,
797 the code enforcement officer shall deliver a notice of removal to the distributor and, in the case
798 of a newspaper vending machine, to the newspaper publisher such notice to describe the location
799 from which the newsrack was removed, the address of the location where the newsrack is being
800 stored and a brief explanation of the procedures by which the publisher or distributor may obtain
801 a release of the newsrack.
802
- 803 G. A newsrack removed hereunder shall be stored in a secure location for a period not to exceed 30
804 days. The newsrack shall be released to its distributor, upon proof of ownership and payment of
805 reasonable and actual storage charges. A \$25 pick-up and collection charge will be assessed in
806 addition to the actual and reasonable storage charge for any newsrack not picked up within 48
807 hours. If any newsrack is not claimed within 30 days, the newsrack shall be deemed abandoned
808 and shall become the property of the city, and thereafter be sold at public auction. Approximately
809 ten days prior to the auction, the City Clerk shall furnish a description of the newsrack, the location
810 from which it was removed and a notice of the auction in a newspaper of general circulation within
811 Lee County. The proceeds of the sale shall be applied first to storage charges and then paid to the
812 General Fund of the City of Cape Coral. The city may otherwise dispose of the newsrack in
813 accordance with Florida law, as the city deems appropriate.
814
- 815 H. Amortization period. Each newsrack legally located and placed on the adoption date of this section
816 shall have 90 days from the adoption date of this section to comply with the provisions of this
817 section to recoup any investment from that newsrack and to have sufficient time to transition
818 nonconforming units out of locations throughout the city and to provide conforming newsracks
819 for placement within city limits. Any newsrack not in compliance with this section following the
820 90-day amortization period may be removed by the city in accordance with this section.

822 **CHAPTER 2 ACCESSORY STRUCTURES**

823

824 **Section. 5.2.1. General Requirements.**

825

826 A. This chapter shall pertain to residential properties unless otherwise specifically stated herein.
827 Accessory structures on non-residential properties shall be reviewed per the standards of that zoning
828 district. Agriculturally zoned properties shall not be considered residential for purposes of this section.
829

830 B. Accessory buildings shall be constructed to conform to the minimum building requirements and shall
831 meet all other regulations applicable to the district.
832

833 C. Residential accessory buildings shall be in the rear yard, other than those listed in Section 5.2.1, and
834 shall comply with all of the requirements found in this Section.
835

836 D. Accessory structures, such as pergolas, arbors, trellises, and flag poles may be in the rear, side, or
837 front yard of the primary structure. Fences and sheds may be permitted in the rear or side yard of the
838 primary structure.
839

840 E. No accessory structure, including fences, shall be constructed on any residential parcel not containing
841 a primary structure.
842

843 F. Accessory buildings shall be elevated above the base flood elevation (BFE) or provide hydrostatic
844 vents consistent with FEMA regulations.
845

846 G. All nonconforming accessory structures shall be subject to the requirements of Article 8
847 Nonconformities.
848

849 H. Any accessory structure not listed in this chapter may be reviewed and considered for approval
850 through a similar use determination process.
851

852 I. In non-residential districts, all accessory structures shall be reviewed and held to the same standard
853 as a non-residential structure.
854

855 J. Setbacks shall be measured from the property line and must be considered in addition to all other
856 locational requirements.
857

858

859 **Table 5.2.1.A. Setback Requirements for Accessory Structures.**

Section 5.2.2. Reserved

Section. 5.2.3. Arbors, trellises, and pergolas.

- A. Arbors, trellises, and pergolas shall be allowed as freestanding or attached structures. There is no limit on the number of attached pergolas, arbors, and trellises per primary structure.

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 909 B. Freestanding pergolas and arbors are limited to 200 square feet of coverage per single-family
910 detached residential property. Freestanding pergolas and arbors are limited to 100 square feet per
911 unit of a duplex property.
912
- 913 C. The amount of freestanding square footage coverage for multi-family residential developments may
914 be determined by the Community Development Director. The criteria for this determination include:
915
- 916 1. Design, size, location, and number of proposed arbors, trellises, and pergolas;
 - 917
 - 918 2. Design, size of property, location, and number of units of the multi-family residential
919 development; and
 - 920
 - 921 3. Whether the structure will be contrary to the public interest.
922
- 923 D. Attached pergolas.
- 924
 - 925 1. Attached pergolas may be placed over the front entrance or walkway into a residence and must
926 not extend beyond the most forward portion of the primary structure.
927
 - 928 2. A pergola is considered attached if a minimum of 20% of the pergola’s perimeter is attached to
929 the primary structure.
930
 - 931 3. A pergola that is attached to a previously-attached pergola is considered to be an extension of
932 the original attached pergola; the enlarged pergola must abide by the setback requirements listed
933 in Table 5.2.1.A.
934
- 935 E. Pergolas, generally.
- 936
 - 937 1. Pergolas must conform to all zoning requirements in terms of height and setbacks.
938
 - 939 2. The only exception to the prohibition of the placement of a pergola in the rear setback is for
940 pergolas on docks.
941
 - 942 3. If placed in the rear yard of a waterfront property, or on a dock, pergolas must not unreasonably
943 restrict or block the view of the canal or waterway of an adjoining lot.
944

945 **Section. 5.2.4. Attached and detached garages.**
946

- 947 A. All single-family detached and each unit of a duplex structures shall include a garage with minimum
948 dimensions of 14 feet by 20 feet. Carports are prohibited on single-family detached and duplex
949 residential properties requiring a garage.
950
- 951 B. For attached garages, the following shall apply:
952
- 953 1. A garage shall be considered attached if it shares at least a five-foot length of common wall with
954 the principal structure. The common wall shall include an internal access door to the principal

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

955 structure. Attachment through a roof or breezeway structure only shall not be adequate to
956 consider the garage attached.

957

958 2. For purposes of this LDC, an attached garage shall be considered to be a part of the principal
959 structure and shall comply with all district regulations for the zoning district in which it is located.

960

961 3. An operable garage door capable of providing access to the garage by a motor vehicle is required.

962

963 4. A driveway providing vehicular access to the garage is required and shall be constructed and
964 maintained in a condition that is safe and free of potholes, and in accordance with the City of
965 Cape Coral Engineering Design Standards.

966

967 5. The garage shall not be included in determining the living area.

968

969 6. No garage or storage area shall be used as living quarters unless another garage is constructed
970 prior to conversion.

971

972 7. The exterior building materials of an attached garage shall conform to the exterior building
973 materials of the principal structure.

974

975 C. For detached garages, the following shall apply:

976

977 1. A detached garage shall meet all of the setback requirements of the principal structure.

978

979 2. A detached garage shall be on the same parcel as the principal structure.

980

981 3. A detached garage shall not exceed 1,000 square feet in area.

982

983 4. The height of a detached garage shall not exceed 14 feet in height when measured according to
984 the definition of "building height" in the Land Development Code.

985

986 5. An operable garage door capable of providing access to the garage by a motor vehicle is required.

987

988 6. The maximum size and height restrictions shall not apply in the RE district.

989

990 7. No plumbing shall be allowed in a detached garage except that a single one-compartment sink
991 shall be allowed.

992

993 8. The exterior building materials of a detached garage shall conform to the exterior building
994 materials of the principal structure.

995

996 9. A parcel may contain both an attached and detached garage, but only one detached garage shall
997 be permitted.

998

999 **Section. 5.2.5. Courts and playing surfaces.**

1000

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 1001 A. Requirements in the R1, RE, RML, and A districts.
1002
1003 1. Lighting is prohibited on all outdoor recreation facilities on all properties containing single-family
1004 detached and duplex dwellings.
1005
1006 2. An opaque landscape hedge shall be planted between a recreational facility and a side or rear
1007 property line of different ownership. The landscaping shall be maintained at a minimum of four
1008 feet in height and shall be provided along the entire length of the recreational facility.
1009
- 1010 B. Requirements in the RMM or other districts with permitted multi-family uses.
1011
1012 1. Lighting may be installed to allow evening use of the facility. All outdoor lighting shall be installed
1013 and maintained in such a manner that the light falls substantially within the perimeter of the
1014 property through the use of shielding and limitations on intensity. In no instance shall the facility
1015 lighting create glare off of the property exceeding 0.3 foot candles which impacts any roadway.
1016 Directional lighting may not be installed which shines directly into any dwelling unit.
1017
1018 2. An opaque landscape buffer, a minimum of four feet in height, shall be installed which shields the
1019 recreational facility from any adjacent right-of-way. Fencing may be installed to a maximum
1020 height of ten feet.
1021

1022 **Section. 5.2.6. Decks.**
1023

- 1024 A. Decks extending into rear or side yard may not exceed a height of 30 inches above grade. Decks over
1025 30 inches in height shall meet all setbacks.
1026
1027 B. Deck height shall be measured from the walking surface of the deck, not the railing.
1028
1029 C. Railing shall be spaced in such a way as to allow air and light to pass through.
1030

1031 **Section. 5.2.7. Fences and walls.**
1032

- 1033 A. General Requirements.
1034
1035 1. All fences shall be of sound construction and not detract from the surrounding area.
1036
1037 2. No barbed wire, spire tips, sharp objects, or electrically charged fences shall be erected, except
1038 as otherwise provided herein. This shall not be interpreted to mean that bona fide agricultural
1039 users cannot use barbed wire or electrically charged fences to control livestock when located in
1040 districts permitting the raising, keeping, or breeding of livestock.
1041
1042 3. No fences shall be placed within the visibility triangle.
1043
1044 4. If a fence or wall is located in a public utility or drainage easement, the property owner shall be
1045 solely responsible for removal of the fence or wall as well as for any cost resulting from
1046 disturbance, damage, or destruction of the fence or wall resulting from work associated with

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 1047 utilities or drainage facilities, including those related to alley improvements within such
1048 easement.
1049
- 1050 5. Unless the posts or other supports used in connection with the fence or wall are visible from
1051 and identical in appearance from both sides of the fence, all posts or other supports used in
1052 connection with the fence or wall shall be on the side of the fence or wall that faces the property
1053 on which it is to be erected. If a fence or wall is constructed in such a way that only one side of
1054 the fence is "finished", then the "finished" side of the fence shall face outward toward the street
1055 or adjoining property (facing away from the property on which it is erected). The "finished" side
1056 of the fence shall be the side that is painted, coated, or smoothed so as to be more decorative
1057 in appearance.
1058
- 1059 6. Fencing for critical public utilities infrastructure, including water and wastewater facilities and
1060 electric and natural gas facilities, which may enclose either an entire site or only an area
1061 containing equipment, may be maintained at a height of eight feet. Barbed wire, spire tips,
1062 sharp objects, or electrically charged fencing are permitted on the top of fencing around critical
1063 infrastructure sites or equipment, however, the height of the fencing together with any barbed
1064 wire, spire tips, sharp objects, or electrically charged fencing may not exceed eight feet, and
1065 only the top two feet may contain barbed wire, spire tips, sharp objects, or electrically charged
1066 fencing.
1067
- 1068 8. Fences are not permitted on any unimproved property in a residential zoning district.
1069
- 1070 9. Fences may be installed on unimproved sites in non-residential or mixed-use zoning districts,
1071 when the Director determines that such fence is necessary for:
1072
- 1073 a. Site security or safety reasons;
1074
- 1075 b. To secure temporary utility infrastructure storage areas; and
1076
- 1077 c. Temporary fencing for demolition sites or sites with pending building permit or site
1078 development applications.
1079
- 1080 9. No wall or fence of any kind whatsoever shall be constructed on any lot until after the height,
1081 type, design, and location has been approved in writing and proper permit issued by the
1082 Director.
1083
- 1084 10. Fencing for recreational facilities may be increased in height to ten feet. Such fencing must
1085 immediately enclose the recreational facility. Hooded backstops for diamond sports may be
1086 increased to a maximum height of 28 feet. For sports other than diamond sports, backstops
1087 may be increased to a height of 12 feet. All fencing at recreational facilities must be constructed
1088 of at least nine-gauge fence fabric and schedule 40 tubing.
1089
- 1090 11. A may be maintained at a height greater than otherwise allowed herein if a higher fence height
1091 is required by the city for the purpose of screening a special exception use.
1092

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 1093 12. A fence or wall shall be constructed of one or more of the following materials or finishes:
1094
1095 a. Wood (decay resistant or pressure treated only), shall be painted or stained;
1096
1097 b. Concrete block with stucco (CBS);
1098
1099 c. Reinforced concrete with stucco;
1100
1101 d. Stone or brick, including cast (simulated) stone or brick;
1102
1103 e. Concrete;
1104
1105 f. Wrought iron;
1106
1107 g. Aluminum;
1108
1109 h. Plastic or vinyl;
1110
1111 i. Galvanized steel privacy panels painted with alkali-resistant coatings. Alkali-resistant coatings
1112 include heavy-bodied bituminous paint or methacrylate lacquer; or
1113
1114 j. Chain-link without slats
1115
1116 All other finishes and materials are prohibited.
1117
1118 14. For fences or walls located in a public utility or drainage easement, only the following materials
1119 or finishes are permitted:
1120
1121 a. Wood (decay resistant or pressure treated only);
1122
1123 b. Aluminum;
1124
1125 c. Chain-link without slats;
1126
1127 d. Plastic or vinyl; or
1128
1129 e. Galvanized steel privacy panels painted with alkali-resistant coatings. Alkali-resistant coatings
1130 include heavy-bodied bituminous paint or methacrylate lacquer.
1131
1132 14. Multi-family developments over 1 acre in size may construct a fence or wall around the entire
1133 perimeter of the property or in a location not otherwise allowed by this subsection.
1134
1135 15. Maintenance. All fences shall be properly maintained, in accordance with the International
1136 Property Management Code Sec. 304.2 Protective Treatment, as referenced by Article 12,
1137 Section 12.1.C of this code.
1138

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

1139 B. Residential Zoning Districts.

1140

1141 1. A No fence shall be maintained at a height greater than six feet, and no wall or fence shall be
1142 erected or placed within the front setback lines of any residential lot, except if a residential use
1143 abuts property used for commercial or professional purposes, a fence may be maintained at a
1144 height up to eight feet along the side(s) of the property which abut(s) the property or properties
1145 containing commercial or professional uses. For purposes of this section, a property shall be
1146 deemed to abut another property if the two properties are either immediately adjacent to each
1147 other or separated only by an alley. Properties separated by a street, canal, lake, or other body
1148 of water shall not be deemed to be abutting properties.

1149

1150 2. Any fencing within 20 feet of the rear property line on waterfront sites must be open mesh
1151 above a height of three feet. The Director may, in his or her discretion, approve minor
1152 projections above the restricted heights for architectural features.

1153

1154 3. No part of a fence shall be located forward of the forward-most part of the side of the principal
1155 structure to which the fence is closest. In no instance shall a fence enclose any portion of the
1156 front facade of the principal structure.

1157

1158 4. No fence, hedge, or other growth shall be erected on any residential property within the city
1159 which shall unreasonably restrict or block the view of a canal or other waterway from an
1160 adjoining lot, or except as required to screen a special exception use. No fence or hedge or
1161 other growth shall be erected on property which would obstruct the view of either a pedestrian
1162 or driver of a moving vehicle so as to create a hazard to the health and welfare of its citizens.

1163

1164 C. Non-Residential and Mixed-Use Zoning Districts.

1165

1166 1. Construction of fences must meet the following restrictions:

1167

1168 a. Maximum height: six feet (except that property in a commercial, professional, or mixed-use
1169 zoning district, which contains a non-residential use, and which abuts a residential use,
1170 whether such use is in a residential zoning district or mixed-use zoning district, may erect a
1171 fence up to eight feet in height along the side(s) of the property which abut(s) a residential
1172 use. A property shall be deemed to abut another property if the two properties are
1173 immediately adjacent to each other or separated by only an alley. Properties separated by
1174 a street, canal, lake, or other body of water shall not be deemed to be abutting properties.

1175

1176 b. Required setbacks:

1177

Front	No part of a fence shall be located forward of the forward-most part of the side of the principal structure to which the fence is closest. In no instance shall a fence enclose any portion of the front facade of the principal structure.
Side (not on a corner site)	None
Side (corner site)	None for free-standing residential uses in mixed-use zoning districts; 7 feet for non-residential and compound uses in Marketplace Residential zoning district; 10 feet for non-residential and compound uses in all other commercial, professional, and mixed-use zoning districts
Rear (not on alley)	None

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

Rear (on alley)	10 feet
-----------------	---------

- 1178
1179 D. Multi-family developments over 1 acre in size may construct a fence or wall around the entire
1180 perimeter of the property or in a location not otherwise allowed by this subsection.
1181
1182 E. Industrial zoning district:
1183
1184 1. Maximum height: eight feet.
1185
1186 2. Required setbacks: none, except that fences shall be setback 10' from alleys.
1187
1188 3. Fencing shall provide an opaque visual barrier, constructed of materials which conform to
1189 applicable codes, to conceal storage areas.
1190
1191 F. Agricultural zoning district:
1192
1193 1. Maximum height: eight feet.
1194
1195 2. Required setbacks: none.
1196
1197 G. Institutional zoning district:
1198
1199 1. Maximum height: eight feet.
1200
1201 2. Required setbacks: none, except that fences shall be setback 10' from alleys.
1202
1203 3. Fencing shall provide an opaque visual barrier, constructed of materials which conform to
1204 applicable codes, to conceal storage areas.
1205
1206 H. Preservation zoning district:
1207
1208 1. Maximum height: eight feet.
1209
1210 2. Required setbacks: none.
1211
1212 I. South Cape and MXB zoning district(s):
1213
1214 1. Maximum height.
1215
1216 a. When placed in front yards, 42 inches.
1217
1218 b. When not placed in front yards, six feet (except that a property which contains a non-
1219 residential use, and which abuts a property containing a residential use, whether such use
1220 is in a residential zoning district or mixed-use zoning district, may erect a fence up to eight
1221 feet in height along the side(s) of the property which abut(s) a property containing a
1222 residential use). For purposes of this subsection, a property shall be deemed to abut
1223 another property if the two properties are either immediately adjacent to each other or

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 1224 separated by only an alley. Properties which are separated by a street, canal, lake, or other
1225 body of water shall not be deemed to be abutting properties.
1226
1227 c. Fences, walls, and hedges may be maintained at a height greater than otherwise allowed
1228 herein if a higher height is required by the city for the purpose of screening a special
1229 exception use.
1230
1231 d. Fencing for recreational facilities may be increased in height to ten feet. Such fencing must
1232 immediately enclose the recreational facility. Hooded backstops for diamond sports may be
1233 increased to a maximum height of 28 feet.
1234
1235 e. Required setbacks:
1236

Front	None
Side or rear (not on alley)	None
Side or rear (on an alley)	15 feet from the alley centerline
Abutting a navigable waterway	10 feet

1237
1238 **Section.5.2.8. Flags and Flagpoles.**
1239

- 1240 A. Residential zoning districts or sites with residential uses shall be limited to no more than two flagpoles.
1241
1242 B. In non-residential zoning districts, in mixed use zoning districts, and on sites containing non-
1243 residential uses in residential zoning districts, no more than three flagpoles are allowed on a site.
1244
1245 C. Flagpoles shall not exceed 35 feet in height other than those on non-residential properties abutting
1246 Pine Island Road which shall not exceed 80 feet in height.
1247
1248 D. The installation of a flag standard on a site does not require a permit. The number of flags that may
1249 be displayed on a flagpole or on a single flag standard is not limited.
1250
1251 E. For the purposes of this article, flags on non-residential, private property which contain a symbol
1252 other than that of a nation, government, political subdivision, or other entity shall be presumed
1253 commercial; however, it shall be considered a rebuttable presumption, which may be overturned by
1254 the Director if the evidence contradicting it is true or if a reasonable person of average intelligence
1255 could logically conclude from the evidence that the presumption is not valid.
1256

1257 **Section. 5.2.9. Fountains, reflecting pools, and sculptures.**
1258

- 1259 A. Fountains and sculptures shall not to exceed 12 feet in height.
1260
1261 B. Reflecting pools greater than 24 inches in depth deep shall be fenced for safety.
1262

1263 **Section. 5.2.10. Gazebos, sun shelters, and similar structures.**
1264

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 1265 A. Gazebos, sun shelters, and similar structures on residential single-family detached or duplex parcels
1266 may not exceed 150 square feet in roof coverage. The total area of all such structures shall not exceed
1267 300 square feet.
1268
1269 B. All structures in all other zoning districts may not exceed 300 square feet.
1270
1271 C. The maximum height shall not exceed 14 feet above grade from the lowest point of the grade under
1272 the shelter, including overhangs.
1273
1274 C. These structures shall not be constructed within six feet of any rear lot line except on waterfront lots
1275 where sun shelters are permitted to be constructed on docks. These structures shall not overhang the
1276 edges of the dock or be constructed over an easement.
1277

Section. 5.2.11. Guest houses.

- 1278
1279
1280 A. Detached structures serving as a guest house shall only be permitted in the Residential Estate (RE)
1281 zoning district and must comply with the following:
1282
1283 1. Guest Houses shall only be on constructed on sites with a principal residential dwelling unit.
1284
1285 2. May not exceed one story.
1286
1287 3. Maximum building height shall not exceed 14 ft.
1288
1289 4. May not exceed 30% of the area of the primary structure or 800 square feet, whichever is less.
1290
1291 B. A guest house is not a dwelling unit to be rented, it provides only guest accommodations and shall
1292 meet the following requirements:
1293
1294 1. A guesthouse may not contain more than two bedrooms.
1295
1296 2. A guesthouse may not contain a kitchen or the electrical or gas connections to install a stove or
1297 oven.
1298
1299 3. An additional parking space must be provided for a guesthouse.
1300

Section. 5.2.12. Play or recreation equipment.

- 1301
1302
1303 A. On residential single-family detached and duplex properties, the City shall not be responsible for
1304 permitting and inspection of play equipment.
1305
1306 B. Play equipment for other than single-family detached and duplex properties must be permitted and
1307 inspected prior to any use.
1308

Section. 5.2.13. Sheds and greenhouses.

1309
1310

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 1311 A. The maximum height of a shed or greenhouse shall not exceed 15 feet in overall height.
1312
1313 B. The maximum floor area shall not exceed 200 square feet.
1314
1315 C. Sheds and greenhouses are allowed in the R1, RML, RE, and A districts.
1316
1317 D. A lot may contain no more than one shed and one greenhouse.
1318
1319 E. Sheds and greenhouses may be within the side yard of a parcel so long as the shed or greenhouse is
1320 screened. Screening is required for that portion of the wall of the shed or greenhouse that is visible
1321 from the right-of-way and the nearest adjoining residential property. A wall, fence, shrubs, or a
1322 combination thereof may be used to meet screening requirements as follows:
1323
1324 1. If an opaque wall or fence is used for screening, the wall or fence shall be six-feet in height. The
1325 wall or fence may be constructed of wood, vinyl, or a material that has the appearance of wood
1326 or vinyl, or the wall may be masonry, but not be unfinished concrete block. All other materials are
1327 prohibited. A screening wall with a continuous foundation may not encroach into any easement.
1328
1329 2. Alternatively, sheds or greenhouses may be screened with shrubs that meet the following
1330 requirements:
1331
1332 a. A row of shrubs planted along both sides of the shed and extend at least five feet beyond the
1333 walls of the shed or greenhouse.
1334
1335 b. All shrubs required for screening within this subsection shall be a minimum of 32 inches in
1336 height and be in at least a seven-gallon container size at the time of planting. All shrubs shall
1337 be planted no more three feet apart as measured on center.
1338
1339 c. All shrubs shall be maintained at a minimum height of six feet at maturity and shall be
1340 maintained in good condition as long as the shed requires screening pursuant to this
1341 subsection.
1342
1343 3. A shed or greenhouse that would be visible from the right-of-way or from the nearest adjoining
1344 property, but for an existing fence, wall, or landscaping that shields the shed or greenhouse is
1345 exempt from additional screening requirements. In the event the screening is removed or altered
1346 to cause the shed or greenhouse to be visible from the right-of-way or nearest adjoining property,
1347 the shed or greenhouse shall be screened in accordance with those requirements outlined above
1348 or moved to fully comply with this Section.
1349
1350 4. On a double frontage lot, sheds or greenhouses shall be screened from view from rights-of-way
1351 and adjoining properties. See Diagram 5.2.1.B. Double frontage lot fence and accessory structure
1352 requirements.
1353
1354 5. On double frontage lots, sheds or greenhouses in the rear yard shall be setback to a distance
1355 equivalent to the front setback of any adjacent lots that are not double frontage lots.

A. General requirements.

1. Permitted accessory equipment. Rooftop photovoltaic solar systems shall be deemed permitted accessory equipment for all buildings in all zoning categories. Nothing contained in this chapter shall be deemed to prohibit the installation of rooftop photovoltaic solar systems on buildings containing legally nonconforming uses.
2. Maintenance. The photovoltaic system shall be properly maintained and be kept free from hazards, including faulty wiring, loose fastenings, or being maintained in a condition that is unsafe or detrimental to public health, safety, or general welfare.
3. Abandonment. Abandoned or unused freestanding solar energy systems not in use for a period of 18 months shall be removed at the owner's expense.

B. Building-mounted PV systems.

1. Roof mounted:

- a. Notwithstanding the height limitations of the zoning district, building mounted solar energy systems shall not extend higher than three feet above the ridge level of a roof, for structures with gable, hip, or gambrel roofs and shall not extend higher than 10 feet above the surface of the roof when installed on flat or shed roof.
- b. The solar collector surface and mounting devices shall be set back not less than one foot from the exterior perimeter of a roof for every one foot that the system extends above the roof surface on which the system is mounted. Solar energy systems that extend less than one foot above the roof surface shall be exempt from this provision.

2. Wall mounted or flush to a building or structure:

- a. PV arrays are allowed on the walls or sides of any building or structure but shall not encroach into the required front yard setback and may not encroach into side and rear yard setback by more than three feet and shall not extend into or over an easement.
- b. A minimum of nine feet vertical distance shall be maintained under the PV array where needed to provide adequate clearance for pedestrians.
- c. To the maximum extent possible, wall mounted PV arrays shall be designed as compatible to the structure and surface to which it is attached.

C. At-grade PV systems.

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 1401 1. Exemptions. The restrictions of this Subsection with respect to height, location, and setbacks are
1402 not applicable to any accessory component to a freestanding outdoor lighting fixture, telephone
1403 pole, parking meter, or any other similar structure, as determined by the city.
1404
- 1405 2. Height. The maximum height of any at-grade PV array shall not exceed twelve feet, except for
1406 residential locations, as established in subsection 3., below.
1407
- 1408 3. Residential location. For PV arrays in or abutting residential zoning districts, the following
1409 requirements apply:
1410
- 1411 a. PV arrays up to six feet in height are allowed;
1412
- 1413 b. PV arrays shall be setback at least seven and one-half feet from interior side property lines
1414 and 10' from rear property lines;
1415
- 1416 c. PV arrays are not allowed within the front setback or front yard of a residentially zoned
1417 property; and
1418
- 1419 d. The area of the solar collector surface of freestanding solar energy systems shall not exceed
1420 five percent of the lot area.
1421
- 1422 4. Commercial location. For PV arrays in non-residential zoning districts and not adjacent to
1423 residentially zoned property, at-grade PV systems must meet all setback requirements for a
1424 structure within the zoning district.
1425
- 1426 5. The supporting framework for freestanding solar energy systems shall not include unfinished
1427 lumber.
1428

1429 **Section. 5.2.15. Swimming Pools.**
1430

1431 A. Location of pools; fencing, safety rails; solar screens.
1432

- 1433 1. The construction of a swimming pool, spa, or hot tub is prohibited in the front or side of any
1434 single-family or duplex residential structure, except as permitted in the RE district on parcels of
1435 3 acres or larger. All residential swimming pools, spas, or hot tubs shall be enclosed by
1436 screening. The pool area or the entire back yard shall be enclosed with a minimum four-foot
1437 high fence. When fencing a waterfront yard, the fence shall extend to and no further than the
1438 water side of the seawall cap, otherwise the fence shall extend across the back yard to the rear
1439 of the swimming pool. This fencing or enclosure must be completed before the pool is filled
1440 with water over 24 inches in height and before a final inspection.
1441
- 1442 2. Swimming pools, unroofed pools, enclosed pools, or screen enclosures only with open-mesh
1443 screening shall be placed at the rear of the principal structure only, and not less than ten feet
1444 from the rear property line of any residential parcel. Pools, enclosed pools, or screen enclosures
1445 may not extend more than ten feet beyond the side of the structure or into required side setbacks.
1446 Any part of a pool or screen enclosure covered by a roof or enclosed by side walls over six feet in

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

1447 height shall be subject to the limitations regarding location of the structure. The minimum
1448 distance requirement from a lot line shall be measured from the exterior of the screen enclosure
1449 for a screen enclosure or an enclosed pool and from the waterline of an unenclosed pool. In no
1450 instance shall any pool, pool enclosure, or screen enclosure, be placed within a utility or drainage
1451 easement.

1452
1453 B. In the event that the swimming pool, spa, or hot tub is secured by a screened enclosure or
1454 permanent fence and the screened enclosure or permanent fence is damaged by a fire, accident,
1455 or severe weather event such as a hurricane, to the extent that the screened enclosure or
1456 permanent fence is no longer securing the swimming pool, spa, or hot tub, then a temporary mesh
1457 safety barrier that meets the minimum requirements set forth in subsection .1B.2. above shall be
1458 installed to secure the swimming pool, spa, or hot tub.

1459
1460 The temporary mesh safety barrier shall be installed as soon as practical but in no event more than
1461 ten days after such fire, accident, or severe weather event.

1462
1463 The temporary mesh barrier may remain in place for a period not to exceed 90 days after the fire,
1464 accident, or severe weather event. The Director of the Department of Community Development,
1465 may extend the time period stated herein upon satisfactory evidence that the property owner has
1466 contracted with a licensed contractor to replace the screened enclosure or permanent fence that
1467 was damaged by the fire, accident, or severe weather event.

1468
1469 C. All swimming pools shall have adequate safety rails. When swimming pools are constructed in front
1470 or at the side of a single-family attached or multi-family dwelling of three or more units, an opaque
1471 or semi-opaque screen not less than four feet nor more than six feet in height shall be erected in
1472 addition to the fence or screening requirements of § 3.10.1A.

1473
1474 1. Parallel to and toward the street lot line no less than the length of the pool when the pool is on
1475 the street side of the building; and

1476
1477 2. Parallel to the side and front lot lines no less than the length and width of the pool when the
1478 pool is on the side or end of the building.

1479
1480 D. Pools, hot tubs, and pool decks in rear or side yards may not exceed a height of 30 inches above grade.

1481
1482 E. All swimming pools and enclosures constructed or erected on any parcel, other than accessory to a
1483 single-family detached or duplex residence, shall meet the minimum yard requirements specified for
1484 buildings or structures in the zoning district the construction occurs.

1485
1486 F. Portable swimming pools. Portable swimming pools are prohibited in the front or the side of any
1487 residential lot. Portable swimming pools capable of holding 24 inches in depth or more of water shall
1488 be anchored into the ground sufficiently to prohibit movement during a hurricane. Portable pools
1489 shall be enclosed by a fence or other protective material, or otherwise shall be covered, when not in
1490 use, by a protective cover so that a child cannot accidentally enter the pool. Drainage of pools so as
1491 to permit the water to run onto property of other people is prohibited. Wading or splash pools not
1492 capable of holding 12 inches or more of water are exempt from the provisions of this subsection.

Section. 5.2.16. Unattended donation bins.

- A. Unattended donation bins are prohibited except within commercial developments and subject to the following requirements:
- B. Unattended donation bins are permitted only on sites with a minimum of 125 parking spaces;
- C. Bins may not be in a required parking space or a drive aisle;
- D. Bins may not be placed in required landscape buffers and trees may not be removed in order to locate a bin;
- E. Bins shall be maintained in good condition and appearance with no structural damage, holes, or visible rust and shall be free of graffiti;
- F. Bins shall be locked or otherwise secured;
- G. Bins shall contain contact information in accordance with F.S. Chapter 496.4121; and
- H. Bins shall be serviced and emptied as needed, but at least once per month, or within five business days of a request by the City. Boxes, garbage, and donation goods shall not be permitted to accumulate around unattended donation bins.

CHAPTER 3. Land Clearing, Filling, Extraction, and Construction Sites.

Section 5.3.1. Borrow pits; regulation of removal or extraction of dirt, soil, sand, rock, oil, gas, etc.; procedures.

- A. Removal or extraction of dirt, soil, and sand.
 - 1. All borrow pits from which dirt, sand or soil has been removed shall be completely enclosed by a fence or earth berm at least six feet in height.
 - 2. Prior to any such removal or excavation, the following shall be submitted to the Department of Community Development: drainage plans, aerial photo of the site, a plan for development of the total site when the removal is completed, the estimated costs of restoring the site to a safe and developable condition, and a deposit of funds or other financial instruments payable to the City of Cape Coral is required equal to the estimated cost of restoring the site. The estimated cost for restoring the site shall include fence or berm removal, lake bank sloping and stabilization, site grading, seeding or mulching, drainage, and any other items that the Department, Hearing Examiner, or Council deems appropriate to ensure that the site is restored to a safe and usable condition. The plans shall be reviewed by the Hearing Examiner and written recommendation made to the Council prior to application for an excavation permit.

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 1538 3. Determination of the size of buffer strip necessary shall be made by the Hearing Examiner
1539 subject to final approval of the City Council.
1540
- 1541 B. Removal or extraction of rock, gravel, shell, aggregate, or marl.
1542
- 1543 1. All such excavations and extractions shall be sealed by fencing or grading or other device from
1544 general public access. All entrances to said excavation shall be fenced and locked during
1545 nonbusiness hours.
1546
- 1547 2. Prior to any such removal or excavation, the following shall be submitted to the Department of
1548 Community Development: drainage plans, aerial photograph of the site, a plan for development
1549 of the total site when the removal is completed, the estimated costs of restoring the site to a
1550 safe and developable condition, and a deposit of funds or other financial instruments payable
1551 to the City of Cape Coral is required equal to the estimated cost of restoring the site. The
1552 estimated cost for restoring the site shall include fence or berm removal, lake, bank sloping and
1553 stabilization, site grading, seeding or mulching, drainage, and any other items that the
1554 Department, HEX, or Council deems appropriate to ensure that the site is restored to a safe and
1555 usable condition. The plans shall be reviewed by the HEX and written recommendation made
1556 to the Council prior to application for an excavation permit.
1557
- 1558 3. Determination of the size of buffer strip necessary shall be made by the Hearing Examiner
1559 subject to final approval by the City Council.
1560
- 1561 4. No excavation or extraction may be made with explosives without express permission of the
1562 Council. Excavation or borrow pit permits involving explosives must be renewed every 90 days.
1563
- 1564 C. Excavations, removal, or extraction for purposes of oil or gas exploration or production.
1565
- 1566 1. All such excavations, removals, or extractions shall be sealed by fencing or grading or other
1567 device from general public access. All entrances shall be fenced and locked during nonbusiness
1568 hours.
1569
- 1570 2. Prior to any such excavation, removal, or extraction the following shall be submitted to the
1571 Department of Community Development: drainage plans, aerial photograph of the site, a plan
1572 for development of the total site when the removal is completed, the estimated costs of
1573 restoring the site to a safe and developable condition, and a deposit of funds or other financial
1574 instruments payable to the City of Cape Coral is required equal to the estimated cost of
1575 restoring the site. The estimated cost for restoring the site shall include fence or berm removal,
1576 lake, bank sloping and stabilization, site grading, seeding or mulching, drainage, and any other
1577 items that the Department, Hearing Examiner, or Council deems appropriate to ensure that the
1578 site is restored to a safe and usable condition. The plans shall be reviewed by the HEX and
1579 written recommendation made to the Council prior to application for an excavation permit. No
1580 permit to drill a gas or oil well shall be issued unless City Council approves the application for
1581 such permit by resolution.
1582

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 1583 3. Determination of the size of buffer strip necessary shall be made by the Hearing Examiner
1584 subject to final approval by the City Council.
1585
- 1586 4. No excavation or extraction may be made with explosives without express permission of the
1587 Council. Excavation permits involving explosives must be renewed every 90 days.
1588
- 1589 5. No person or entity may engage in any oil and gas exploration or production that utilizes well
1590 stimulation within the corporate boundaries of the City of Cape Coral or, consistent with F.S.
1591 §377.24(6), within the tidal waters of the state abutting or immediately adjacent to the
1592 corporate limits of the municipality, or within three miles of the City's corporate limits
1593 extending from the line of the mean high tide. As used in this section, the term "well
1594 stimulation" shall mean a well intervention, exploration, operation, or maintenance procedure
1595 performed by injecting fluid into a rock formation in order to increase production at an oil or
1596 gas well by improving the flow of hydrocarbons from the formation into the wellbore. Well
1597 stimulation does not include routine well cleaning that does not affect the integrity of the well
1598 or the formation.
1599

1600 D. Procedures.
1601

- 1602 1. The applicant shall meet with the Director and other city staff deemed appropriate by the
1603 Director prior to a public hearing with the Hearing Examiner to review staff concerns and to
1604 establish the basis for determining cost estimates as required.
1605
- 1606 2. All excavation or borrow pit requests shall be reviewed by the city staff, the Lee County Health
1607 Department, and the Hearing Examiner. After their review and recommendation, the City
1608 Council shall call for a public hearing on the application and shall determine whether or not said
1609 application shall be granted.
1610
- 1611 3. If the conceptual plan as presented by the applicant will require a zoning amendment for
1612 development, the applicant must prepare and submit a planned development project for the
1613 entire project prior to approval of the excavation.
1614
- 1615 4. If the excavation or borrow pit application is approved, the applicant may then apply for an
1616 excavation or borrow pit permit.
1617

1618 **Section. 5.3.2. Land Clearing, Filling, and, Excavation.**
1619

- 1620 A. Proposed alterations to ground elevation or vegetative cover not associated with an approved Site
1621 Development Plan, Final Subdivision Plan, or building permit shall be submitted to the Director with
1622 an application for a permit for Land Clearing and Fill containing the required plans and documentation.
1623 The director may require certification by a registered professional engineer that site improvements
1624 have been made in accordance with permits issued pursuant to this Section.
1625
- 1626 B. The following activities shall require a site improvement permit:
1627
- 1628 1. Clearing of trees and vegetation without disturbing the soil surface;

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 1629
- 1630 2. Clearing including stump removal and grubbing of top soils; and
- 1631
- 1632 3. Filling.
- 1633
- 1634 C. Maintenance:
- 1635
- 1636 1. The applicant shall be responsible for the maintenance, repair, and replacement of all existing
- 1637 vegetation as may be required by the provisions of Chapter 8.
- 1638
- 1639 2. In buffer areas and areas outside the impervious cover, plant material shall be tended and
- 1640 maintained in a healthy growing condition and free from refuse and debris. Plant materials
- 1641 required by Chapter 8 of this article which is unhealthy, dying, or dead shall be replaced during
- 1642 the next planting season.
- 1643
- 1644 D. Excavation involving more than surface contouring for erosion control is only permitted with approval
- 1645 of a Site Development Plan or Subdivision Construction Plan.
- 1646
- 1647 E. In all districts, other than agriculture zoning, the city shall not permit any new borrow pits or mining
- 1648 activities, however, reshaping or restoration of existing borrow pits may only be permitted incidental
- 1649 to an approved Site Development Plan or Subdivision Construction Plan. Agriculturally zoned lands
- 1650 may propose new borrow pits as a Special Exception.
- 1651
- 1652 F. The following land clearing activities shall not require a permit:
- 1653
- 1654 1. Removal of invasive plants without disturbance of the soil; or
- 1655
- 1656 2. Land clearing for agricultural uses.
- 1657

1658 **Section. 5.3.3. Construction Site Maintenance.**

1659

1660 Construction sites shall be maintained in a manner which is non-deleterious to nearby properties. The

1661 requirements of this Section set minimum standards for the operation of the project site to eliminate or

1662 minimize impacts to the site and to the neighborhood to include vehicle parking and loading area, traffic

1663 control, fencing, placement of materials, safety, neatness, and cleanliness.

1664

- 1665 A. Construction site management plan required. All development and building permit applications must
- 1666 be accompanied by a construction site management plan, unless waived by the building official or
- 1667 development services manager.
- 1668
- 1669 1. Parking plan shall include:
- 1670
- 1671 a. Location of on-site and adjacent unpaved portion of the right-of-way parking and the
- 1672 maximum number of vehicles that will be parked along the unpaved portion of the right-of-
- 1673 way.
- 1674

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 1675 b. Parking plan for worker vehicles and machinery on the site.
1676
1677 c. A single access with dimensions.
1678
1679 2. A temporary fence location, height, and type shall comply with the following:
1680
1681 a. For the purposes of construction site screening only, chain link fencing is permitted and shall
1682 be faced with a screen mesh.
1683
1684 b. A maximum height of six feet in residential zoned properties and eight feet in commercially
1685 zoned properties.
1686
1687 c. Fencing may not be required in agriculture or preservation zoned properties, upon a
1688 determination by the Director.
1689
1690 3. Construction trailers, loading and unloading areas, and material storage areas shall not be stored
1691 in areas intended for stormwater retention or rain gardens.
1692
1693 4. Traffic control plans shall include:
1694
1695 a. Access points with dimensions;
1696
1697 b. Area to be stabilized and a written plan on staging of construction related traffic including
1698 adequate parking (both on and off-site); and
1699
1700 c. Plan for delivery of materials.
1701
1702 B. Approval of plan and waivers. The building official or development services manager shall review,
1703 approve, or deny the construction site management plan and is authorized to grant waivers from
1704 submittal requirements:
1705
1706 1. If the requirement is unrelated to proposed development;
1707
1708 2. If the impact of the proposed development is negligible in that submittal requirement area; or
1709
1710 3. If unusual site conditions do not allow full compliance with this Section.
1711

CHAPTER 4. MARINE IMPROVEMENTS.

Section. 5.4.1. Purpose and Intent

1716 In order to allow all waterfront property the same ability to utilize and access adjacent waterways, the
1717 development of docks, wharves, mooring piles, and watercraft moorings must be accomplished in a
1718 standard and unified manner. Boat slips and docks may be constructed by the owner of a waterfront lot,
1719 with adequate water frontage, where a principal building exists.
1720

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

1721 **Section. 5.4.2. General Requirements.**

- 1722
- 1723 A. An applicant who disagrees with the measurement of the calculated waterway width by the city's
- 1724 Geographic Information System (GIS) may submit a survey of the waterway width, prepared by a
- 1725 professional surveyor licensed in the state of Florida, to support the applicant's contention that the
- 1726 calculated waterway width is inaccurate.
- 1727
- 1728 B. No dock or piling shall be permitted that interferes with the right to navigate safely within the
- 1729 waterways of the city. In no event shall the navigable area be reduced to less than 50% of the
- 1730 calculated waterway width.
- 1731
- 1732 C. The elevation of pilings shall not exceed 10 feet above the seawall cap or, if no seawall exists, 13 feet
- 1733 above mean water level.
- 1734
- 1735 D. The elevation of the decking of a marine improvement shall not exceed two feet above the seawall
- 1736 cap, or if no seawall exists, five feet above mean water level. For marine improvements in the
- 1737 Caloosahatchee River, and for marine improvements in canals within 300 feet of the platted shoreline
- 1738 of the Caloosahatchee River, the elevation of the decking shall not exceed four feet above the seawall
- 1739 cap, or if no seawall exists, seven feet above mean water level.
- 1740
- 1741 E. All pilings or mooring posts shall be offset a minimum of two and one-half feet from any storm drain
- 1742 outfall pipe. Such measurement shall be made from the outside edge of the outfall pipe to the center
- 1743 of the piling or mooring post.
- 1744
- 1745 F. All docks permitted under this Section that project from a parcel with a seawall shall have a ladder
- 1746 extending from the dock into the waterway. No ladder extending from a dock into a waterway shall
- 1747 be made of wood.
- 1748
- 1749 G. The property owner shall be solely responsible for compliance with all applicable provisions of the Lee
- 1750 County Manatee Protection Plan.
- 1751
- 1752 H. Prior to the final inspection by the City, the owner shall submit a final signed and sealed survey
- 1753 showing that all construction is in compliance with the requirements of this Code.
- 1754

1755 **Section. 5.4.3. Dimensional Standards**

- 1756
- 1757 A. Protrusions into waterway.
- 1758
- 1759 1. Marine improvements may extend 25% of the calculated waterway width or 40 feet, whichever
- 1760 is less, as measured from the water frontage line, provided the marine improvements are setback
- 1761 12 feet from each extended side property line.
- 1762
- 1763 2. Marine improvements which extend six feet or less into a waterway such as captains' walks, as
- 1764 measured from the water frontage line, may extend the full length of the water frontage of the
- 1765 parcel.
- 1766

3. Marine improvements in the Caloosahatchee River shall be subject to state and federal regulations.
 4. Marine improvements for outside corner parcels, excluding a "T" intersection, of two canals, may extend into the waterways as follows:
 - a. Extend the two waterfrontage lines (Diagram 5.4.3.A.) of the property to a point equal to 25% of the canal width or 40 feet, whichever is less.
 - b. Then, in each intersecting canal, the extended waterfrontage lines shall run parallel to the waterfrontage lines and shall be setback 12 feet from the extended side property line.
 - c. The area formed by the aforesaid lines and area of intersection, shall be the area permitted for marine improvements.
 5. Marine improvements for end parcels. Parcels at or adjacent to canal ends or parcels on lakes and basins (excluding outside corner parcels) are subject to the following:
 - a. Except for parcels governed by Section 5.4.3.A, end parcels shall be permitted to have marine improvements projecting into the waterway up to a maximum of 30 feet. Adjacent parcels shall be permitted to have marine improvements projecting into the waterway up to a maximum of 30 feet or 25% of the calculated canal width, whichever is less.
 - b. With respect to end parcels with at least 80 feet of water frontage line, no part of a marine improvement which extends more than six feet in to a canal shall be located less than 12 feet from the ends of the water frontage line of the parcel. See Diagrams 5.4.3.A. & J
 - c. With respect to end parcels with more than 40 feet, but less than 80 feet, of water frontage line, any part of a marine improvement which extends more than six feet into a canal shall be set back from the ends of the water frontage line of the parcel in accordance with the following formula: $(\text{Parcel Waterfrontage} - 40 \text{ feet}) \times 0.3$. The foregoing restrictions shall apply to marine improvements projecting from adjacent parcels (based on the length of their waterfrontage lines) in the same manner as end parcels, except that on the side of the adjacent parcel that abuts an end parcel, a marine improvement may be built up to the side boundary of the adjacent parcel's marine improvement area, as determined pursuant to paragraph 10.b below. See Diagram 5.4.3.H
 - d. With respect to end and adjacent parcels with 40 feet or less of water frontage, no marine improvement shall extend more than six feet into the canal except in accordance with the following: $(\text{Parcel Waterfrontage} - 40 \text{ feet}) \times 0.3$. The foregoing restrictions shall apply to marine improvements projecting from adjacent parcels (based on the length of their waterfrontage lines) in the same manner as end parcels, except that on the side of the adjacent parcel that abuts an end parcel, a marine improvement may be built up to the side boundary of the adjacent parcel's marine improvement area, as determined pursuant to paragraph 10.b below.

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 1813 e. With respect to end and adjacent parcels with 40 feet or less of water frontage, no marine
1814 improvement shall extend more than six feet into the canal except in accordance with the
1815 following:
- 1816 i. Such a parcel may have either a platform dock not more than ten feet wide and extending
1817 not more than 16 feet into the canal or not more than two finger piers (with or without a
1818 boat lift) that together total no more than six feet in deck width and that extend not more
1819 than 30 feet into the canal.
- 1820 ii. No marine improvement that projects more than six feet into the canal shall extend more
1821 than ten feet either side of the center point of the water frontage line of the parcel.
1822 Furthermore, no marine improvement shall extend beyond the ends of the water
1823 frontage line of the parcel. All marine improvements shall be centered on the centerline
1824 of the waterfront parcel's marine improvement area. See Diagram 5.4.3.F
1825
- 1826 7. When a parcel is at the corner of a waterway so as to include water frontage (all under the same
1827 ownership) on both the side and end of a waterway, the property owner may install or erect a
1828 marine improvement that extends from the side of the waterway to a maximum distance of 25%
1829 of the calculated width of the waterway or 30 feet, whichever is less, and from the end of the
1830 waterway a distance of 30 feet into the waterway.
1831
- 1832 8. Except as otherwise provided herein for joint marine improvements, no marine vessel (or any part
1833 thereof) when secured in any way to a marine improvement projecting from an end parcel, an
1834 adjacent parcel, or a parcel on a lake or basin (excluding outside corner parcels) shall extend
1835 beyond the boundaries of the marine improvement area of the parcel unless prior written consent
1836 of the affected property owner is obtained. Such consent shall be revocable by the affected
1837 property owner and shall automatically terminate in the event the ownership of the affected
1838 property changes. In the event ownership changes, the written consent of the new owner must
1839 be obtained if the marine vessel is to continue to extend beyond the ends of the water frontage
1840 of the parcel.
1841
- 1842 9. Marine improvements that do not project more than six feet into a waterway as measured from
1843 the water frontage line may extend the full length of the water frontage of the parcel. However,
1844 where the end of a parcel water frontage line abuts the water frontage line of another parcel, the
1845 angle at which such two water frontage line ends meet shall be bisected and apportioned equally
1846 between the two waterfront parcels. In that event, no marine improvement shall extend beyond
1847 the bisector of the angle.
1848
- 1849 10. No marine improvement that projects more than six feet from the water frontage line of the
1850 property shall be permitted to be outside of the marine improvement area for a waterfront parcel.
1851 The boundaries and dimensions of the marine improvement area shall be determined as follows:
1852
- 1853 a. End parcels.
- 1854
- 1855 i. The access width of the waterway shall be calculated by subtracting from the calculated
1856 waterway width twice the maximum distance that a marine improvement along one side
1857 of the waterway could lawfully project as determined pursuant to Section 5.4.4.A.1.

- ii. The waterway access ratio shall be calculated by dividing the waterway access width by the calculated width of the waterway.
 - iii. The waterway center point (WCP) is a point on the centerline of the canal 30 feet from the water's end. All marine improvement area lines and intersections are calculated and plotted from the WCP. See Diagram 5.4.3.B.
 - iv. Offset points for the parcel are determined as follows: If the parcel has 80 feet or more of water frontage line, then the offset points shall be located 12 feet from each end of the water frontage line of the parcel. If the parcel has more than 40 feet, but less than 80 feet of water frontage line, then the offset points shall be located in from the ends of the water frontage line the distance (in feet) resulting from the following formula: (Feet of Water Frontage Line - 40) x 0.3. If the parcel has 40 feet or less of water frontage line, then the ends of the parcel's water frontage line shall be the offset points. See Diagram 5.4.3.C.
 - v. From the WCP, plot a line having the same relationship to the WCP as the water frontage line has to the center of the canal end, but with all distances reduced in size by the waterway access ratio. This line is the offset line for the parcel. See Diagram 5.4.3.D.
 - vi. The marine improvement area is that area enclosed by the water frontage line, the offset line, and lines connecting the ends of the offset line to corresponding offset points. See Diagram 5.4.3.E.
- b. Adjacent parcels. The marine improvement area for an adjacent parcel shall be calculated in the same manner as that for an end parcel except as follows:
- i. Adjacent parcel that abuts an end parcel with 40 feet or less of water frontage line. On the side of the adjacent parcel that abuts an end parcel with 40 feet or less of water frontage line, the side boundary of the marine improvement area shall constitute the side boundary of such adjacent parcel's marine improvement area. See Diagram 5.4.3.I. & J.
 - ii. Adjacent parcel that abuts an end parcel with more than 40 feet of water frontage line. On the side of the adjacent parcel that abuts an end parcel with more than 40 feet of water frontage line, the side boundary of the adjacent parcel's marine improvement area shall be determined by drawing a line from the end of the subject adjacent parcel's water frontage line (on the same side as the subject end parcel) to the nearest terminus point of the subject end parcel's offset line and passing through the adjacent parcel's offset line. The side boundary shall be that portion of the aforesaid line between the end of the adjacent parcel water frontage line and the parcel's offset line. However, in no event shall the side boundary extend beyond the bisector of the angle formed where the adjacent parcel's water frontage line abuts the end parcel's water frontage line. The bisector shall be extended into the waterway the maximum distance a marine improvement could lawfully project within the marine improvement area. See Diagram 5.4.3.G.
- c. Parcels on lakes and basins (excluding outside corner parcels). A waterfront parcel shall be deemed to be on a lake or a basin if the parcel abuts a body of water identified as a lake or a basin on the officially adopted Future Land Use Map of the City of Cape Coral. Except for outside corner parcels, all waterfront parcels on lakes or basins shall be categorized as corner parcels, adjacent parcels, or end parcels. A corner lake or basin parcel shall be a parcel that either touches or is on both sides of an interior corner of a lake or basin. In other words, a

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

1904 corner lake or basin parcel may be one with a water frontage line that is V-shaped because it
1905 physically runs along the edge of the lake or basin, turns at the corner, and continues along
1906 the edge of the lake or basin, or it may be a parcel the water frontage line of which ends at a
1907 corner of the lake or basin where another side of the lake or basin begins, or it may be a parcel
1908 that is angled in such a way that each end of its water frontage line touches a different side
1909 of the lake or basin. Also, an adjacent lake or basin parcel shall be a parcel that is on a lake or
1910 basin and that abuts at least one corner parcel. All other parcels on lakes or basins and that
1911 are neither corner parcels or adjacent parcels shall be treated as end parcels.
1912

- 1913 d. The marine improvement area for parcels on lakes or basins shall be calculated as follows:
1914
- 1915 i. For an end parcel, the side of the lake or basin upon which the parcel is physically located
1916 shall be deemed to be the end of the lake or basin and the sides of the lake or basin shall
1917 be deemed to be the sides of the lake or basin running roughly perpendicular to the end
1918 of the lake or basin and to the left and to the right of the parcel (when facing the lake or
1919 basin). For purposes of this Section, the waterway access ratio for all end lake and basin
1920 parcels shall be one. In addition, the WCP for end lake or basin parcels shall be 40 feet
1921 into the lake or basin as measured perpendicularly to the lake or basin end from the
1922 center of the lake or basin end. All marine improvement area lines and intersections are
1923 calculated and plotted from the WCP. The remainder of the marine improvement area
1924 boundary calculations for end lake or basin parcels shall be the same as those performed
1925 with respect to canal end parcels.
 - 1926 ii. For corner lake or basin parcels, the configuration of the marine improvement area shall
1927 be determined by the physical configuration of the particular corner parcel. With respect
1928 to a corner parcel the water frontage line of which lies entirely on one side or end of a
1929 lake or basin, but terminates at the corner of the lake or basin where the other side of
1930 the lake or basin begins, the marine improvement area shall be calculated in the same
1931 manner as for end lake or basin parcels except that the side boundary of such marine
1932 improvement area (on the side where the corner of the lake or basin is located) shall be
1933 formed by a line bisecting the angle of such corner and extending to the offset line of the
1934 marine improvement area. See Diagram 5.4.3.K.
 - 1935 iii. With respect to a corner parcel that is angled so that each end of its water frontage line
1936 is on a different side of the lake or basin or for a corner parcel with a V-shaped water
1937 frontage line, the marine improvement area configuration shall be determined as follows:
1938 First, calculate the waterway access ratio for each side of the lake or basin in the same
1939 manner as the waterway access ratio for a canal is determined. Then measure the
1940 distance from the center of each side of the lake or basin touched by the corner property
1941 to the end of the water frontage line, or to the offset point, if any, on such side of the lake
1942 or basin. Multiply each of the aforesaid distances by the waterway access ratio for the
1943 relative side of the lake or basin to obtain the length of the waterway line for each side of
1944 the lake or basin. Plot the waterway line from the center of the side of the lake or basin
1945 for which it was calculated to a point that is 30 feet waterward from the water frontage
1946 line. The offset line for a corner parcel marine improvement area is formed by connecting
1947 the two foregoing points. The marine improvement area for the corner parcel is that area
1948 enclosed by the parcel water frontage line, the offset line, and lines connecting the ends

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

1949 of the offset line to the corresponding offset points for the parcel, if any, or to the ends
1950 of the water frontage line. See Diagrams 5.4.3.L & M.

1951 iv. For adjacent lake or basin parcels, the marine improvement area shall be calculated in the
1952 same manner as that for end lake or basin parcels except as follows: With respect to an
1953 adjacent lake or basin parcel that abuts a corner parcel with 40 feet or less of water
1954 frontage line, the side boundary of the corner parcel marine improvement area (on the
1955 side where it abuts the adjacent parcel) shall form the side boundary of the adjacent
1956 parcel marine improvement area. With respect to an adjacent lake or basin parcel that
1957 abuts a corner parcel with more than 40 feet of water frontage line, the side boundary of
1958 the adjacent parcel (on the same side as the subject corner parcel) shall be determined
1959 by drawing a line from the end of the adjacent parcel water frontage line to the nearest
1960 terminus point of the subject corner parcel offset line and passing through the adjacent
1961 parcel offset line. The side boundary of the adjacent parcel shall be that portion of the
1962 aforesaid line between the end of the adjacent parcel waterfrontage line and such
1963 parcel's offset line. See Diagram 5.4.3.M

1964 v. Owners of waterfront parcels on a lake or basin aggrieved by the interpretation or
1965 application of this Section to such parcel due to the physical configuration of the
1966 particular lake or basin, then the Director may interpret and apply the provisions of this
1967 Section so as to alleviate the hardship resulting from the configuration of the lake or basin
1968 and so as to enable the waterfront parcel a reasonable marine improvement area.

1969
1970 6. In the event a significant portion of a waterway is not developable on one side due to ecological
1971 or other constraints, a marine improvement on the opposite side of the unnavigable portion
1972 shall be permitted to project into the waterway up to 50% of the calculated waterway width or
1973 40 feet, whichever is less, as measured from the waterfrontage line. See Diagram 5.4.3.N

1974
1975 7. No marine vessel (or any part thereof) when secured in any way to a marine improvement shall
1976 extend beyond the ends of the water frontage of the parcel from which the marine
1977 improvement projects.

1978
1979 8. All properties adjacent to bridges shall be reviewed individually by the city to determine what,
1980 if any, marine improvement may project from that property. Factors to be considered in making
1981 this determination include, but are not limited to, public safety and the impact of a planned
1982 marine improvement on navigability.

1983
1984 B. Maximum dock surface area.

1985
1986 1. For parcels with more than 40 feet of waterfrontage, the maximum deck surface area
1987 coverage shall be calculated as follows: the linear feet of water frontage of the parcel minus
1988 24 feet - times one-half times the linear feet of the maximum projection into the waterway
1989 (25% of the calculated width of the waterway or 40 feet, whichever is less).

1990
1991 Maximum Dock Surface Area = Linear Feet of Waterfrontage – 24 (1/4 Maximum Projection)
1992 Maximum Projection = 25% of width of waterway or 40 feet whichever is less

1993

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 1994 2. For parcels with 40 feet or less of waterfrontage, the maximum deck surface area shall be
- 1995 calculated as follows: the linear feet of waterfrontage of the parcel times one-quarter times
- 1996 the linear feet of the maximum projection into the waterway (25% of the calculated width of
- 1997 the waterway or 40 feet, whichever is less).

1998

1999 Maximum Dock Surface Area = Linear Feet of Waterfrontage * 1/4 Maximum Projection

2000 Maximum Projection = 25% of width of waterway or 40 feet whichever is less

This diagram illustrates a corner parcel classified as "V-Shaped".

Marine improvement area shall be determined as follows:

Calculate the waterway access ratio for each "side" of the lake or basin in the same manner as the waterway access ratio for a canal is determined.

Measure the distance from the center of each "side" of the lake or basin touched by the "corner" property to the end of the subject property's waterfrontage line, or to the offset point.

Multiply each of the aforesaid distances by the waterway access ratio for the relative "side" of the lake or basin to obtain the length of the waterway line for each "side".

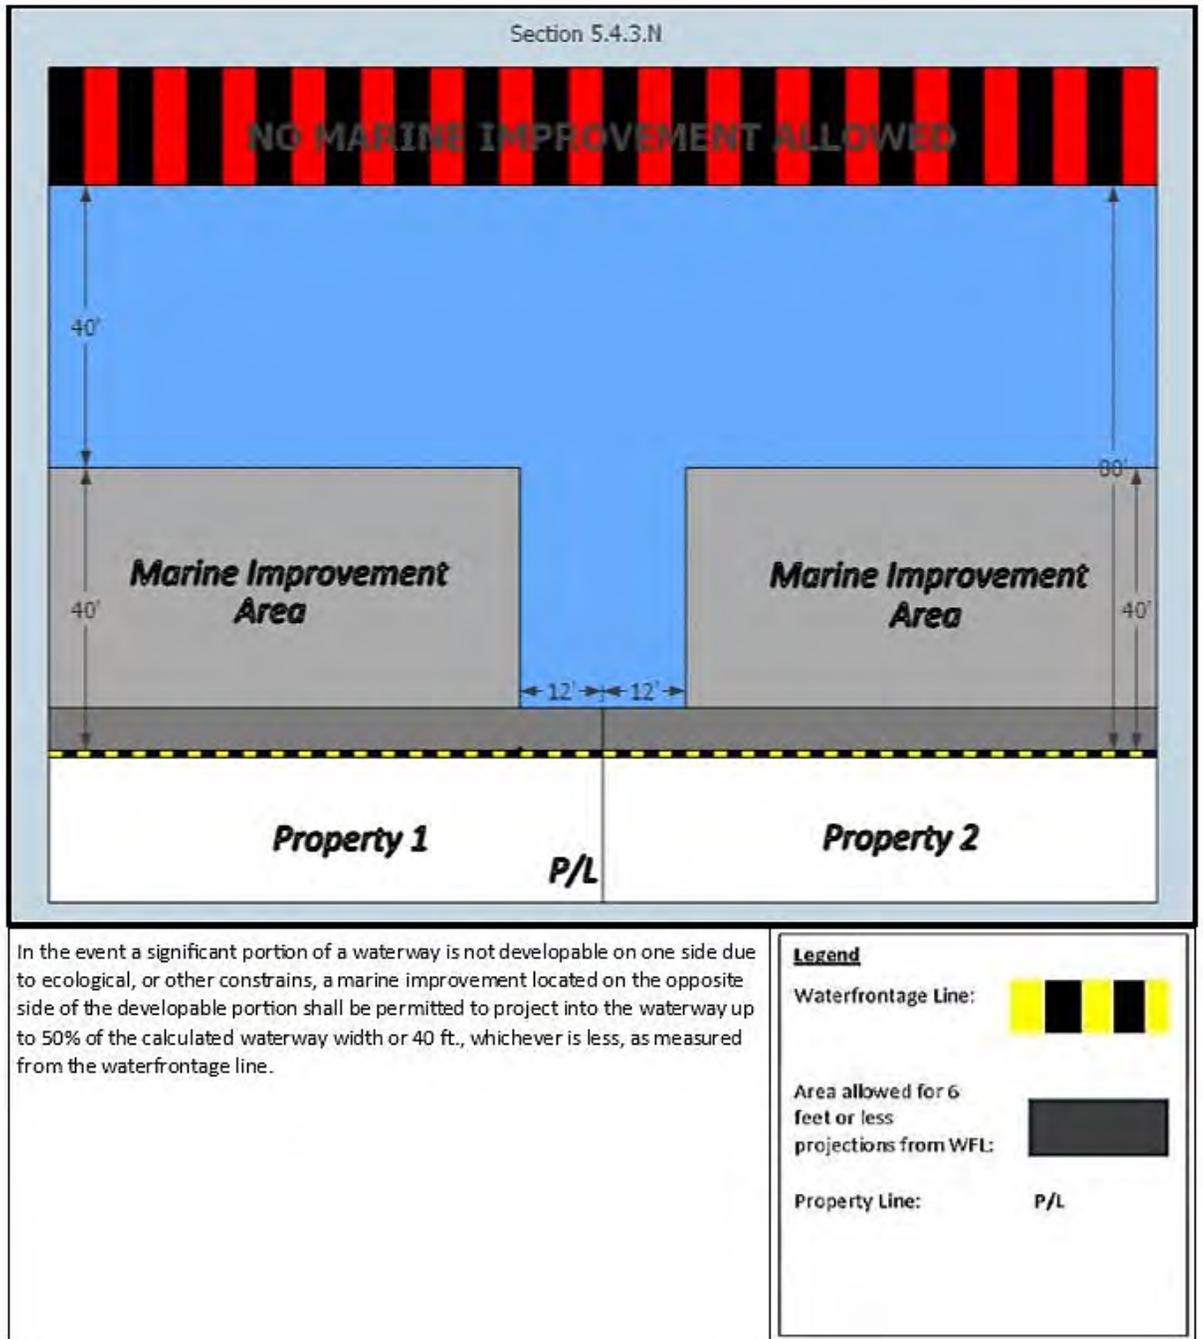

Plot the "waterway line" from the center of the "side" of the lake or basin for which it was calculated to a point that is 3 feet waterward from the subject parcel's water-frontage line.

Legend

Waterfrontage Line:

2033 **Section 5.4.4. Joint Marine Improvements.**
2034

2035 Owners of adjoining waterfront parcels may adjust their abutting marine improvement area boundaries
2036 and offset requirements by entering into a written joint use agreement, provided the marine
2037 improvements are connected. A captain’s walk does not constitute a connection for requiring a joint
2038 marine improvement. All limitations regarding the maximum area of marine improvements shall apply to
2039 each property and the maximum marine improvement area allowed for each parcel shall not be combined
2040 or modified in any way so as to increase the maximum marine improvement area allowed for either parcel.
2041 Marine vessels or boat canopies when secured in any way to a joint marine improvement may extend
2042 beyond the end of one of the waterfront parcels involved at the point where such parcel abuts the other
2043 parcel sharing the marine improvement. However, no marine vessel (or any part thereof) shall extend
2044 beyond the outer ends of the water frontage of the two waterfront parcels except as provided in §
2045 5.4.3.A.8 The joint use agreement shall, at a minimum, comply with the following requirements.
2046

- 2047 A. The agreement shall contain the name(s) and current home address(es) of both property owners.
2048
- 2049 B. The agreement shall identify the waterway upon which the subject parcels are located and shall
2050 identify the waterfront parcels involved by legal description and by STRAP number. The agreement
2051 shall also include a signed and sealed survey of the subject adjoining parcels.
2052
- 2053 C. The agreement shall include a drawing of the proposed marine improvement(s) to be constructed,
2054 showing the design and dimensions of the marine improvement(s), and where the marine
2055 improvements will project from the parcels.
2056
- 2057 D. The agreement shall identify those areas that would be subject to access (ingress and egress)
2058 easements in conjunction with the joint marine improvement. Such easement(s) shall identify by legal
2059 description the property to which the easement attaches and shall be irrevocable except with the
2060 written consent of the city. The rights of each party with respect to such easement(s) shall run with
2061 the title to the respective parcels. A drawing identifying the easements shall also be included with the
2062 agreement.
2063
- 2064 E. The agreement shall identify the responsibilities of each of the parties for the construction and
2065 maintenance of the facilities. However, identification or division of responsibilities between parties in
2066 the agreement shall not affect the ability of the city to enforce any and all provisions of its Code of
2067 Ordinances or Land Development Codes against the property owner(s) of the joint marine
2068 improvement, jointly and severally.
2069
- 2070 F. The agreement shall state that the parties understand and agree to abide by all applicable federal,
2071 state, and local regulations pertaining to the construction, maintenance, and use of the facilities.
2072
- 2073 G. The agreement shall run with the land and be binding upon the parties, their successors, heirs, and
2074 assignees and it shall provide that it may not be rescinded or amended without the written consent
2075 of the city.
2076
- 2077 H. The parties to the agreement shall record the agreement, at their own expense, in the public records
2078 of Lee County. The agreement shall satisfy all requirements for recording, including those contained

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

2079 in the Florida Statutes. No permit for the construction of a joint marine improvement or for the
2080 erection or installation of a boat canopy on a joint marine improvement shall be issued by the city
2081 until the parties have first provided to the city a copy of the fully executed agreement and evidence
2082 of recording that is satisfactory to the city, in its sole discretion.
2083

2084 I. Prior to execution and recording of the agreement, the parties shall submit a draft of the proposed
2085 agreement to the Community Development Director for review and comment.
2086

2087 **Section. 5.4.5. Quays and mooring piles.**
2088

2089 A. A seawall may be altered to accommodate the mooring of a vessel if it is determined that the seawall
2090 is structurally sufficient for that purpose.
2091

2092 B. Mooring piles may be installed directly adjacent to the seawall to allow for the mooring of watercrafts
2093 without a dock.
2094

2095 C. Pilings shall not be higher than eight feet above mean high water.
2096

2097 D. Any watercraft moored at a quay or a pile may not be any closer than 10 feet to the adjacent property
2098 line.
2099

2100 **Section. 5.4.6. Davits, watercraft lifts, and floating docks.**
2101

2102 A. Lifts: An electrical permit is required to install a lift within an existing u-shaped dock.
2103

2104 B. Davits:
2105

2106 1. The minimum side setback for davit installation shall be five feet from the side lot line to the
2107 center of the davit base.
2108

2109 2. Davits, including swinging lifts when extended over the water, may not extend further than 25%
2110 into the waterway or 30 feet whichever is less.
2111

2112 3. Overhead hoists, davits, or machinery shall not exceed eight feet above mean high water when
2113 not in use.
2114

2115 C. Floating docks and lifts:
2116

2117 1. For dimensional requirements refer to Section 5.4.3. above.
2118

2119 2. A floating dock or lift must be anchored in place so as not to impede the use of neighboring
2120 waterfront property.
2121
2122
2123
2124

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

2125 **Section. 5.4.7. Boathouses and canopies.**

2126

2127 A. No overhead structure shall be constructed on any dock other than an approved boat canopy or sun
2128 shelter. Sun shelters shall be erected or installed on docks only in accordance with Section 5.2.10. of
2129 this article. Boat canopies are permitted to be erected or installed on marine improvements for the
2130 purpose of protecting a vessel from the elements only in accordance with the following:

2131

2132 B. The support(s) and frame(s) of a boat canopy shall be constructed of a corrosion-resistant material.
2133 Boat canopy supports shall be arranged in an open design so as to allow visibility through the sides
2134 with openings no smaller than four feet in any dimension. No boat canopy support or frame shall be
2135 of a solid or opaque design so as to create a wall. No boat canopy shall have wooden framing or
2136 supports. No shutter roll-up design shall be permitted.

2137

2138 C. The canopy shall be fabric or a material which can be rolled and folded without damage. The canopy
2139 shall be attached to the boat canopy supports or frames in such a manner that it detaches in a wind
2140 load of 70 mph or greater.

2141

2142 D. The boat canopy shall not extend horizontally more than 30 inches over or beyond any dock to which
2143 the canopy is attached, except to the rear of a boat slip where it may extend up to 48 inches past the
2144 end of the structure. Canopies attached to marine improvements that are built to the maximum
2145 projection, may extend up to 30 inches beyond the structure.

2146

2147 E. No boat canopy shall exceed 40 feet in length or 18 feet in width.

2148

2149 F. Boat canopies, their supports, and frames shall be maintained in good repair at all times. No canopy,
2150 canopy support, or frame shall be allowed to fall into disrepair or to become dilapidated, structurally
2151 dangerous, or unsafe. In the event a boat canopy, canopy support, or frame falls into disrepair, it shall
2152 be the responsibility of the owner of the waterfront parcel to remove the offending structure.

2153

2154 G. Only one canopy may be permitted per parcel.

2155

2156 H. No boat canopy, when measured at its highest point, shall extend more than 14 feet above the seawall
2157 cap, or if no seawall exists, above the decking of the marine improvement.

2158

2159 **Section. 5.4.8. Bulkheads, seawalls, and retaining walls.**

2160

2161 A. Mandatory seawalls required; saline or brackish water. All parcels having frontage or direct and
2162 immediate access to frontage on any saline, brackish, or tidally influenced canal or other body of
2163 water within or bordering the boundaries of the city is required to have a seawall bulkheading the
2164 entire frontage exposed to contact with the water.

2165 B. Seawalls; fresh or non-saline water. All parcels having frontage or direct and immediate access to
2166 frontage on any freshwater or non-tidal canal or other body of water within or bordering the
2167 boundaries of the city are required to have a seawall bulkheading the entire frontage exposed to
2168 contact with the water or alternatives to vertical bulkheads as specified in the City of Cape Coral
2169 Engineering Design Standards. Seawalls or their alternative shall be structurally maintained at owner's
2170 expense so as not to cause a nuisance or hazard to safety. The provisions of this Section shall not apply

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

2171 to any parcels adjacent to or contiguous with any drainage ditch, canal, pond, or lake within any public
2172 or private golf course or public park.

2173
2174 C. Bulkheads under SFWMD jurisdiction. The construction of bulkheads, in association with water
2175 management system lake construction under jurisdiction of SFWMD, shall be in compliance with
2176 SFWMD criteria.

2177
2178 Single-family residential and duplex parcels. Parcels bounded by bulkheads shall construct an infiltration
2179 trench adjacent to and along the entire length of the bulkhead.

2180
2181 **CHAPTER 5. LANDSCAPING**

2182
2183 **Section 5.5.1. Purpose and intent.**

2184
2185 This section is established to provide general landscape regulations, to improve the appearance of certain
2186 setback and yard areas, including off-street vehicular parking, open lot sales and service areas, and to
2187 protect and preserve the appearance, character, and value of the surrounding neighborhoods. The
2188 principles of the Florida-Friendly Landscaping Program with regard to planning and design, soil
2189 improvement, efficient irrigation, limited turf areas, mulches, drought tolerant plants, and appropriate
2190 maintenance are the basis for the principles in this section and should be used as guidance in all new
2191 construction and landscape renovations so as to provide the most green with the least water and create
2192 a landscape that can survive largely undamaged in case of short term water restrictions.

2193
2194 **Section 5.5.2. Florida-Friendly Landscaping Program principles.**

2195
2196 The city strongly encourages adherence to the Florida-Friendly Landscaping Program that includes the
2197 following principles:

2198
2199 A. Right plant, right place. Plants selected to suit a specific site will require minimal amounts of water,
2200 fertilizer and pesticides.

2201
2202 B. Water efficiently. Irrigate only when lawn and landscape need water.

2203
2204 C. Fertilize appropriately. Less is often better. Over-use of fertilizer can be hazardous to your yard and
2205 the environment.

2206
2207 D. Mulch. Maintaining a layer of mulch will help retain soil moisture, prevent erosion and suppress
2208 weeds.

2209
2210 E. Attract wildlife. Plants in private yards that provide food, water and shelter can conserve Florida's
2211 diverse wildlife.

2212
2213 F. Manage yard pests responsibly. Unwise use of pesticides can harm people, pets, beneficial organisms,
2214 and the environment.

2215

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 2216 G. Recycle yard waste. Grass clippings, leaves, and yard trimmings recycled onsite provide nutrients to
2217 the soil and reduce waste disposal.
2218
- 2219 H. Reduce stormwater runoff. Water running off from private yards can carry pollutants such as soil,
2220 debris, fertilizer, and pesticides that can adversely impact water quality.
2221
- 2222 I. Protect the waterfront. Waterfront property is very fragile and should be carefully protected to
2223 maintain freshwater and marine ecosystems.
2224

Section 5.5.3. Applicability.

- 2225
- 2226
- 2227 A. Except as provided under Section 5.5.4, Exemption, the landscape standards of this section shall
2228 apply to all new construction of single-family homes and duplexes, and to all other new construction
2229 requiring SDP review under Article 3. The landscape standards of this section are in addition to any
2230 landscape standards for specific land uses as established in Chapter 10, Specific Use Regulations, of
2231 this Article.
2232
- 2233 B. Additionally, all landscape standards of this section shall apply to amendments to a site plan that
2234 would have the effect of:
2235
- 2236 1. Increasing the total square footage of any one building or the total square footage of all buildings
2237 on a site by more than 20%;
2238
- 2239 2. Increasing the number of buildings; or
2240
- 2241 3. Adding any new or expanding any existing off-street parking area.
2242
- 2243 C. The existing portion of an amended or expanded project which is demonstrated to be completely
2244 and fully in compliance with an approved landscape plan at the time of application is not required to
2245 be modified to comply with this section.
2246
- 2247 D. All areas of an existing project affected by an amendment or expansion or those areas that are not
2248 in full compliance with an approved landscape plan are required to comply with this section.
2249
- 2250 E. No certificate of occupancy or certificate of completion shall be issued until the Department of
2251 Community Development (DCD) has determined that the applicant has complied with all the
2252 provisions of this section and has approved the finished landscape product.
2253

Section 5.5.4. Exemption.

2254

2255

2256 These regulations do not apply to projects located where the City Council has established specific
2257 landscape standards for a unique area of the city; unless the specific landscape standards otherwise
2258 expressly state their applicability.
2259

2260
2261

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

2262 **Section 5.5.5. Conflicts.**

2263
2264 If any of the landscape standards of this section conflict with any other provision of the City of Cape Coral
2265 Code of Ordinances or the LDC the provision that establishes the more specific standard governs. If neither
2266 conflicting provision establishes a more specific standard, then the more stringent provision governs
2267 unless otherwise expressly provided.

2268
2269 **Section 5.5.6. Landscape plans.**

- 2270
2271 A. Landscape plan required. A landscape plan that meets the requirements below shall be provided as
2272 required by Article 3.
2273
2274 B. Landscape plan standards. Landscape plans for all projects that require a landscape plan, including
2275 Site Development Plans and Subdivision Construction Plans shall be signed and sealed by a landscape
2276 architect, or other licensed professional authorized pursuant to F.S. Chapter 481, Part II, as amended.
2277 All landscape plans shall meet the following requirements and contain the following information:
2278
2279 1. Scale of not less than one-inch equals 30 feet. This requirement shall not preclude the inclusion
2280 of a smaller-scaled drawing such as a key map for the purpose of establishing the orientation of
2281 landscape plans for large sites that, because of their size, cannot be displayed on a single sheet.
2282
2283 2. Zoning district and future land use classification for the subject parcel and all abutting parcels.
2284
2285 3. The approximate location, quantity, diameter/caliper, botanical and common name, and native
2286 status of all heritage trees and other existing trees with a caliper of two inches or greater, and
2287 whether they are proposed to be preserved or removed. Trees to be removed, if any, shall be
2288 indicated on a separate sheet.
2289
2290 4. Location, quantity, spacing, diameter/caliper, overall height (at time of planting) of proposed
2291 trees, palm trees, botanical and common name, and native status. Any existing trees located
2292 within the street right-of-way, between the closest outside edge of pavement and the subject
2293 property shall be shown.
2294
2295 5. Location, quantity, spacing, container size, overall height (at time of planting) of proposed shrubs
2296 and groundcover, botanical and common name, and native status.
2297
2298 6. Types, amounts, and placement of other hardscape materials such as berms and walls required
2299 by this section or Section 5.5.13, or both.
2300
2301 7. A statement or plan describing compliance with the irrigation standards of these regulations.
2302
2303 8. Location and type of existing and proposed utility lines, easements, electrical transformer boxes,
2304 fire hydrants or fire appliances, sidewalks, parking spaces, light poles, and stop signs.
2305
2306 9. Indication of existing and proposed grades if existing vegetation is to be retained on site.
2307

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 2308 10. Existing or proposed onsite curbing.
2309
2310 11. Calculations, notes, and installation details indicating how the proposed landscaping will be in
2311 compliance with requirements of this section.
2312
2313 12. Vegetation protection barricades to be used during construction, for all trees to be preserved.
2314
2315 13. Safe sight distance triangles.
2316
2317 14. Locations of proposed and existing off-street parking area lighting, if applicable.
2318
2319 15. A note that all existing prohibited vegetation shall be removed.
2320

Section 5.5.7. Planting near utility infrastructure.

2321 Landscaping shall not interfere with or obstruct any existing or proposed pad-mounted transformer,
2322 overhead or underground utility line, utility service, fire hydrant, or fire appurtenance.
2323
2324
2325

- 2326 A. Overhead power lines. Canopy tree branches or palm tree fronds within ten feet of existing overhead
2327 transmission or distribution lines, measured radially from the line, shall be subject to trimming or
2328 removal by the power company as necessary to maintain public overhead utilities in accordance with
2329 the National Electric Safety Code (NESC). No canopy trees or palm trees shall be planted closer to an
2330 overhead transmission or distribution line than as specified by the Minimum Separation Distance
2331 Between Center of Trees and Overhead Transmission or Distribution Lines indicated in Table 1. In
2332 order to avoid conflicts with power lines and avoid the need for removal or pruning that would harm
2333 or distort their natural shape, it is recommended that no canopy trees or palm trees should be planted
2334 closer to an overhead transmission or distribution line than as specified by the Recommended
2335 Separation Distance Between Trees and Overhead Transmission or Distribution Lines indicated in
2336 Table 1. The separation between a tree and an overhead transmission or distribution line shall be the
2337 distance from the center of the tree at ground level to the closest point on the ground that is within
2338 the vertical plane of an overhead transmission or distribution line at rest. A species of canopy tree or
2339 palm tree that is not listed in Tables 5.5.7.A and 5.5.7.B shall not be planted within 20 feet of existing
2340 overhead transmission or distribution lines without the prior written consent of the Department of
2341 Community Development Director.

Section 5.5.8. Existing trees.

- A. Generally. Except for trees on the Florida Exotic Pest Plant Council's list of Category I invasive exotics of those trees listed in Table 5.5.9, existing trees may be used to meet the minimum tree requirements for the site if they are indicated on the landscape plan (when a landscape plan is required), have a

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

2353 minimum diameter at breast height (DBH) of two inches, and are properly protected during any
2354 clearing or construction on the property.
2355

2356 Developers are encouraged to preserve existing heritage trees. For any site other than a single-family
2357 or duplex site, if during development or any time throughout the life of the development, regardless
2358 of change in ownership or use(s), any heritage tree is removed or damaged, it shall be replaced with
2359 a Florida native tree that meets the quality of materials standards in this article, with a minimum
2360 caliper of six inches measured at a height of 12 inches above the ground, with a height not less than
2361 20 feet; however, this requirement shall not increase the total number of trees otherwise required
2362 for the site by more than 10%.
2363

2364 B. Protection of trees during development activities. Prior to any land preparation or other development
2365 activities, a protective barrier shall be established around all trees that are not to be removed, as
2366 follows:
2367

2368 1. The protective barrier shall enclose at least that area within a radius of one foot for every inch of
2369 caliper DBH around the tree.
2370

2371 2. The protective barrier may encompass more than one tree, and shall be established with a barrier
2372 as follows:
2373

2374 a. Posts shall be implanted in the ground deep enough to be stable and with at least three feet
2375 visible above ground.
2376

2377 b. The protective posts shall be placed not more than six feet apart and shall be linked together
2378 at a height of at least three feet by rope, chain, silt fence fabric, or orange safety fence at least
2379 three feet in height, or any combination thereof.
2380

2381 3. Required protective barriers and perimeter lines shall remain in place until all construction
2382 activity, except landscaping within the protected area, is terminated.
2383

2384 C. Construction activity limitations.
2385

2386 1. No attachment, wires (other than supportive wires), signs or permits may be fastened to any tree
2387 that is not to be removed.
2388

2389 2. Landscaping activities within the area of the protective barrier (before and after it is removed)
2390 shall be accomplished with manual labor or light machinery that, if self-propelled, is not designed
2391 to bear the weight of the operator. Such light machinery may include string trimmers, walk-behind
2392 lawn mowers, or chainsaws. Except as necessary to perform landscaping activities as described
2393 above, no construction personnel shall enter the area within the protective barrier. Further, no
2394 equipment, tools, construction materials, debris of any kind, or more than six inches of soil shall
2395 be placed within the protective barrier.
2396

2397 3. If fill is deposited adjacent to a protective barrier, a suitable temporary or permanent retaining
2398 structure shall be constructed to prevent siltation within the area of the protective barrier.

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

2399 4. If it can be reasonably accomplished, water, sewer, and other utility lines should be routed around
2400 the protective barrier of trees that are not to be removed. If a line cannot reasonably be routed
2401 around the protective barrier, the line shall be tunneled beneath the area and shall be offset to
2402 one side of the trunk to prevent damage to the main tap roots.
2403

2404 D. Exempt trees. This subsection shall not apply to trees grown at commercial nurseries, as part of their
2405 stock.
2406

Section 5.5.9. Prohibited vegetation.

2407 A. The following invasive exotic plants are prohibited and shall be removed from the development site,
2408 in its entirety. For projects developed in phases, all invasive exotic plants shall be removed from areas
2409 to be developed under future phases at the time the first or any subsequent phase is developed.
2410 Methods to remove and control invasive exotic plants must be included on required landscape plans,
2411 for projects that require a landscape plan. Methods of removal and control that would damage native
2412 vegetation to be preserved are prohibited. The development sites shall be maintained free from
2413 invasive exotic plants in perpetuity. For purposes of this subsection, invasive exotic plants include the
2414 following listed plants, or those plants currently listed as a Category I invasive by the Florida Exotic
2415 Pest Plant Council (FLEPPC) at the time of development:
2416
2417
2418
2419

Table 5.5.9: PROHIBITED INVASIVE EXOTICS	
Common Name	Scientific Name
Earleaf Acacia	acacia auriculiformis
Woman's Tongue	Albizia lebeck
Bishopwood	Bischofia javanica
Australian Pines	All Casuarina species
Carrotwood	Cupianopsis anacardioide
Rosewood	Dalbergia sissoo
Air Potato	Dioscorea alata
Murray Red Gum	Eucalyptus camaldulersis
Cuban Laurel Fig	Ficus microcarpa
Japanese Climbing Fern	Lygodium japonicum
Old World Climbing Fern	Lygodium microphyllum
Melaleuca, Paper Tree	Melaleuca quinquenervia
Downy Rose Myrtle	Rhodomyrtus tomentosus
Chinese Tallow	Sapium sebiferum
Brazilian Pepper, Florida Holly	Schirus terebinthifolius

Java Plum	Syzygium viarum
Rose Apple	Syzygium jambos
Cork Tree	Thespesia populnea
Wedelia	Wedelia trilobata

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

2420
2421 B. The Weeping Fig (*Ficus benjamina*) is prohibited due to aggressive root systems unless it is maintained
2422 as a hedge with a maximum height of eight feet.

2423
2424 C. City of Cape Coral and state-prohibited vegetation shall be removed from all sites prior to issuance of
2425 certificate of occupancy or certificate of completion.

2426
2427 **Section 5.5.10. Quality, size, spacing, and species mix.**

2428
2429 All plant materials required by this section shall conform to the following at the time of planting:

2430
2431 A. Plant installation standards. Plant materials shall be installed in soil conditions that are conducive to
2432 the proper growth of the plant material. Soil in planting areas shall be loose, permeable, friable, and
2433 free of limestone and other construction materials, off-street parking area base material, rocks,
2434 noxious weeds, grasses, hard pan, clay, or other debris. For purposes of this section, noxious weeds
2435 are those plants listed in Section 5B-57.007, F.A.C, State Noxious Weed List, by the Florida Department
2436 of Agriculture and Consumer Services. It is recommended that such materials be removed to a depth
2437 of two and one-half feet for the well-being of plant materials. Required canopy trees, accent trees,
2438 palm trees, and shrubs shall be planted on grades not exceeding 3:1.

2439
2440 B. Plant species and grade. A minimum of 50% of all required canopy trees and accent trees and a
2441 minimum of 30% of all required shrubs and groundcovers, excluding turf grass areas, shall be Florida
2442 native as defined by this section. Any plant material on the Florida Exotic Pest Plant Council's list of
2443 Category I or 2 invasive exotics, as may be amended, shall not be counted toward the required
2444 plantings in this section. The City of Cape Coral prohibits the use of any plant material on the Florida
2445 Exotic Pest Plant Council's list of Category I invasive exotics, which are not expressly prohibited by
2446 Section 5.5.9. Plant materials used in conformance with the provisions of this section shall meet or
2447 exceed the Standards for Florida No. 1, as set forth in the latest edition of "Grades and Standards for
2448 Nursery Plants" published by the State Department of Agriculture and Consumer Services, including
2449 minimum crown spread diameter, root-ball sizes, and container volumes.

2450
2451 C. Tree standards.
2452
2453 1. Canopy tree size. Except in the South Cape Downtown District, all canopy trees required to meet
2454 minimum requirements shall have a minimum height of ten feet and shall have a minimum caliper
2455 of two inches measured at a height of 12 inches above the ground. In the South Cape Downtown
2456 District, all canopy trees required to meet minimum requirements shall have a minimum height
2457 of 12 feet and a minimum caliper of three inches measured at a height of 12 inches above the
2458 ground at planting.

2459
2460 2. Palm tree size. Palm trees required to meet minimum requirements shall have a minimum size of
2461 16 feet overall, unless located within ten feet of a walkway, in which case they shall have a
2462 minimum of ten feet of clear trunk at planting.

2463

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 2464 3. Accent tree size. Accent trees required to meet minimum requirements shall have a minimum
2465 height of eight feet and have a minimum caliper of one and one-half inches measured at a height
2466 of six inches above the ground at planting.
2467
- 2468 4. Tree species mix. A mix of species shall be provided according to the overall number of trees
2469 required to be planted. Species shall be planted in proportion to the required mix. The minimum
2470 number of species to be planted is indicated in Table 2.
2471

Table 5.5.10: Required Species Mix	
Required Number of Trees	Minimum Number of Species
1 - 4	1
5 - 10	2
11 - 20	3
21 - 30	4
31+	5

- 2472
- 2473 5. Shrub standards. Except as otherwise provided herein, shrubs planted in residential development
2474 shall be a minimum of 18 inches in height and be in at least a three-gallon container size at time
2475 of planting. Shrubs planted in all non-residential and mixed-use development must be a minimum
2476 of 24 inches in height and be in at least a seven-gallon container size at time of planting. Shrubs
2477 required for buffer yard plantings must be a minimum of 32 inches in height and be in at least a
2478 seven-gallon container size at time of planting. Ornamental grasses may be used in lieu of 20% of
2479 shrubs required. Saw palmettos (*Serenoa repens*) and coonties (*Zamia floridana*) may be used as
2480 shrubs, provided they are 12 inches in height at time of planting.
2481
- 2482 6. Groundcovers and sod.
- 2483
- 2484 a. Groundcovers shall be planted no more than 24 inches apart for one-gallon pots or 12 inches
2485 apart for four-inch pots.
2486
- 2487 b. Wherever used, sod shall be installed with no gaps or overlaps, so as to present a finished
2488 appearance and prohibit erosion of the planted area.
2489
- 2490 7. Firewise landscaping. Landscaping within areas subject to wildfire hazard and should incorporate
2491 firewise landscaping techniques promulgated by the Florida Department of Economic
2492 Opportunity and the Department of Agriculture and Consumer Services.
2493

Section 5.5.11. Planting in public drainage or utility easements.

2494 No canopy trees, accent trees, palm trees, or shrubs required by this section shall be planted within a
2495 public drainage or utility easement without approval of the city. The city may deny approval to place
2496 landscaping materials in an easement if such would conflict with existing or proposed utilities or drainage
2497 functions. If the city approves the placement of any plant material installed to meet the requirements of
2498 this section within a public drainage or utility easement and the landscape material is removed or
2499
2500

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

2501 damaged by construction or maintenance of drainage facilities or utilities, the property owner shall
2502 replace all such plant material within 30 days of the completion of the drainage or utility work, in
2503 accordance with the following criteria:

2504

2505 A. Canopy trees.

2506

2507 1. If planted back in the public drainage or utility easement, the property owner shall replace the
2508 canopy tree with a tree having a minimum caliper as the removed or damaged tree; however, if
2509 the removed or damaged tree is greater than four inches in caliper (measured at a height of 12
2510 inches above the ground), the replacement tree shall be required to be a minimum of four inches
2511 in caliper.

2512

2513 2. If planted in an alternate location that is not within a public drainage or utility easement, the
2514 property owner shall replace the canopy tree with one meeting the minimum size required within
2515 this Chapter and that is subject to all other requirements of this section. For sites required to have
2516 a site plan, such alternate plant location shall be indicated on a revised landscape plan and is
2517 subject to approval by the city.

2518

2519 B. Palm trees.

2520

2521 1. If planted back in the public drainage or utility easement, the property owner shall replace the
2522 palm tree with a palm tree having a minimum caliper as the removed or damaged palm tree;
2523 however, if the removed or damaged palm tree is greater than nine inches in caliper (measured
2524 at a height of 12 inches above the ground), the replacement palm tree shall be required to be a
2525 minimum of nine inches in caliper.

2526

2527 2. If planted in an alternate location that is not within a public drainage or utility easement, the
2528 property owner shall replace the palm tree with one meeting the minimum size required within
2529 this Chapter and that is subject to all other requirements of this section. For sites required to have
2530 a site plan, such alternate plant location shall be indicated on a revised landscape plan and is
2531 subject to approval by the city.

2532

2533 C. Shrubs. Regardless of whether the shrub is located in a public drainage or utility easement, the
2534 property owner shall replace the shrub with a shrub meeting the minimum size required within this
2535 chapter.

2536

2537 The property owner shall notify the city when the replacement planting required by this subsection
2538 have been installed and are ready for re-inspection.

2539

2540 **Section 5.5.12. Single-family homes and duplexes.**

2541

2542 The following landscape requirements shall be met for all single-family and duplex units.

2543

2544 A. Trees required for single-family homes. All newly constructed single-family homes shall have a
2545 minimum number of trees per building site in accordance with Table 5.5.12.A: Trees Required for

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

2546 Single-Family Homes. Where a home site includes a septic tank between the structure and the street,
2547 trees shall be planted a minimum of six feet from the septic tank or its drain field.
2548

Table 5.5.12.A: Trees Required for Single-Family Homes			
	Canopy Trees	Accent Trees	Palm Trees
Option A:	3	—	—
Option B:	2	—	3
Option C:	2	2	—
Option D:	1	2	3

2549
2550 B. Trees required for Duplexes. All newly constructed duplexes shall have a minimum number of trees
2551 per side in accordance with Table 5.5.12.B Trees Required for Duplexes. Where a site includes a septic
2552 tank between the structure and the street, trees shall be planted a minimum of six feet from the septic
2553 tank or its drain field.
2554

Table 5.5.12.B: Trees Required for Duplexes (PER SIDE)			
	Canopy Trees	Accent Trees	Palm Trees
Option A:	3	—	—
Option B:	2	—	3
Option C:	2	2	—
Option D:	1	2	3

2555
2556 C. Credit for larger, canopy trees. The required number of canopy trees may be reduced by one tree if
2557 an existing or proposed canopy tree is at least two inches of increased caliper above the minimum
2558 planting size specified in this Chapter. Single-family homes and duplexes are not eligible for the Tree
2559 Credit Program provided by Section 5.5.15.

2560
2561 D. Shrubs required. Each single-family home and duplex shall be landscaped with a minimum of 20 three-
2562 gallon shrubs of which a minimum of ten shall be planted at any location in the front yard.

2563
2564 E. Mulch, groundcover, and planting beds.

2565
2566 1. The soil surface of the land area not covered by structures or hardscape features shall be covered
2567 with sod or planting beds containing canopy trees, accent trees, palm trees, shrubs, groundcover,
2568 or any combination thereof. When shrubs are used in planting beds, shall be planted not more
2569 than 48 inches apart. Permeable synthetic turf may be used in lieu of sod, so long as it is not used
2570 to cover more than 20% of the total land area not covered by structures or hardscape features
2571 and is not within a front yard or right-of-way.

2572
2573 2. A two-inch minimum layer of organic mulch, measured after watering-in, shall be placed and
2574 maintained around all newly installed canopy trees, accent trees, palm trees, and shrubs. A two-
2575 inch minimum layer of organic mulch, measured after watering-in, shall be placed around all

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

2576 newly installed groundcover plants so that bare areas of sod are not exposed; however, the mulch
2577 around groundcover plants is not required to be maintained after the groundcover becomes
2578 established. Except as otherwise provided in these regulations, each canopy tree, accent tree, and
2579 palm tree shall have organic mulch no less than 36 inches beyond its trunk in all directions;
2580 however, the mulch shall be kept away from the trunks and stems of plants so as to avoid
2581 conditions that may be conducive to collar rot, basal canker, or other fungi. The use of cypress or
2582 cedar mulch is strongly discouraged.

2583
2584 3. The use of any inorganic mulch, including pebbles or shells to cover the soil surface is not
2585 recommended. Inorganic mulch should only be used to frame the outside of beds or to control
2586 erosion and should not be used to cover the root ball of newly planted trees or shrubs. Inorganic
2587 mulch shall not exceed 10% of the total land area not covered by hardscape features.

2588
2589 4. The right-of-way from the edge of the street pavement to the property line shall be planted with
2590 sod or other approved groundcovers, except as otherwise provided in the City of Cape Coral Code
2591 of Ordinances or Land Development Code.

2592
2593 F. Irrigation systems. Irrigation systems are encouraged but not required; however, where they are
2594 installed, they shall meet the standards of Section 5.5.14.

2595

2596 **Section 5.5.13. Landscaping for all development other than single-family homes and duplexes.**

2597
2598 The provisions of this section shall not apply to single-family homes and duplexes unless otherwise
2599 specifically stated herein. The soil surface of the land area not covered by structures or hardscape features
2600 shall be covered with sod or planting beds containing canopy trees, accent trees, palm trees, shrubs,
2601 groundcover, or any combination thereof. Shrubs in planting beds shall be planted not more than 48
2602 inches apart. Permeable synthetic turf may be used in lieu of sod, so long as it is not used to cover more
2603 than 20% of the total land area not covered by structures or hardscape features and is not within a front
2604 yard or right-of-way. The right-of-way from the edge of the street pavement to the property line shall be
2605 planted in accordance with the requirements of subsection B. below.

2606
2607 A. Tree planting requirements.

2608
2609 1. Except in the South Cape District, all sites, exclusive of buffer areas, shall have at least one canopy
2610 tree for each 1,000 square feet of gross land area, except that accent trees or palm trees may be
2611 substituted for a required canopy tree as indicated below. Trees required for buffers may be used
2612 for meeting the minimum number of trees required for a site. In the South Cape District, all sites
2613 shall have at least one canopy tree for each 3,500 square feet of gross land area, except that
2614 accent trees or palm trees may be substituted for a required canopy tree as indicated below. For
2615 all districts, in the event the calculation of required number of canopy trees yields a fractional
2616 number, that number shall be rounded up to the next highest whole number prior to any
2617 calculation of the quantity of substituted accent trees or palm trees. Trees planted to meet the
2618 other requirements of this section can be included in the calculation of total number of trees
2619 required by this section. Such trees may be planted singularly or grouped together. Required
2620 canopy trees shall not be spaced less than 20 feet on center. Except in the South Cape District,
2621 each canopy tree shall be planted in a minimum planting area of 100 square feet with a minimum

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

2622 dimension of seven feet in width unless an alternative minimum planting area or dimensions are
2623 approved by the Director, based on planting details that ensure reasonable soil surface and
2624 planting medium volumes.

2625
2626 2. In the South Cape District, each canopy tree shall be planted a minimum planting area of 24 square
2627 feet with a minimum dimension of four feet in width unless an alternative minimum planting area
2628 or dimensions are approved by the Director, based on planting details that ensure reasonable soil
2629 surface and planting medium volumes. Except in the South Cape District not more than 50% of
2630 the required canopy trees may be substituted with accent trees or palm trees in accordance with
2631 Section 5.5.13. In the South Cape District, not more than 25% of the required canopy trees may
2632 be substituted with accent trees or palm trees, in accordance with Section 5.5.13., as follows:

2633
2634 a. Accent trees may be substituted for required canopy trees at a rate of two accent trees for
2635 each canopy tree required; however, no canopy tree required for a landscape buffer yard shall
2636 be substituted with an accent tree, unless the minimum width of available buffer yard options
2637 would preclude compliance with the minimum separation distance between trees and
2638 overhead power lines.

2639
2640 b. The following palms shall not be substituted for required canopy trees:

2641

Table 5.5.13.A: PROHIBITED SUBSTITUTIONS FOR CANOPY TREES	
Common Name	Botanical Name
Areca Palm	Chrysalidocarpus lutescens (Dypsis lutescens)
Bamboo Palm	Chamedorea spp.
Christmas Palm	Adonidia merrillii (Veitchii merrillii)
Dwarf Palmetto	Sabal minor
European Fan Palm	Chamaerops humilis
Lady Palm	Rhapis excelsa
Majesty Palm	Ravenea glauca
Needle Palm	Rhapidophyllum hystrix
Pygmy Date Palm	Phoenix roebellini
Saw Palmetto	Serenoa repens
Silver Palm	Coccothrinax argentata
Thatch Palm	Thrinax spp.

2642
2643 To meet tree planting requirements in a landscape buffer yard or in off-street parking and
2644 vehicle use areas, palm trees, other than those listed above, may be substituted for canopy
2645 trees at a rate of three palm trees per each canopy tree substituted, regardless of the palm
2646 tree species. Except in the South Cape Downtown District, to meet tree planting requirements
2647 for areas other than a landscape buffer or off-street parking and vehicle use areas, palm trees
2648 may be substituted for required canopy trees at a rate of one palm tree per each canopy tree
2649 substituted. In the South Cape Downtown District, to meet tree planting requirements for
2650 areas other than a landscape buffer yard, palm trees may be substituted for required canopy
2651 trees at a rate of two palm trees per each canopy tree substituted.

- 2694
- 2695
- 2696
- c. Except for plantings in or near surface water management areas, a two-inch minimum layer of organic mulch, measured after watering-in, shall be placed and maintained around all newly installed canopy trees, accent trees, palm trees, and shrubs. Except in the South Cape District, each tree shall have organic mulch no less than 36 inches beyond its trunk in all directions. In the South Cape District, each tree shall have organic mulch no less than 18 inches beyond its trunk in all directions. All mulch shall be kept away from the trunks and stems of plants so as to avoid conditions that may be conducive to collar rot, basal canker, or other fungi.

The use of cypress or cedar mulch is strongly discouraged.
 - d. The use of any inorganic mulch, including pebbles or shells to cover the soil surface shall only be used to frame the outside of beds or to control erosion. Inorganic mulch shall not exceed 10% of the total land area not covered by structures, pools, accent boulders, driveways, sidewalks, or other paving. It be used to cover the root ball of newly planted trees or shrubs. The balance of the soil surface shall be covered with planting beds with a two-inch minimum layer of organic mulch.
 - e. Canopy trees shall not be planted within seven feet of any roadway, sidewalk, or public utility unless an acceptable root barrier material is installed between the tree and the roadway, sidewalk, or public utility. Acceptable root barrier material shall consist of one of the following: a manufactured root barrier material, installed in accordance with manufacturer's directions, reinforced concrete with a minimum depth of 16 inches, or a continuous sheet of aluminum with a minimum depth of 16 inches and a minimum thickness of 0.024 inches. Where a root barrier is required, it shall be installed for a minimum distance of 20 linear feet.
 - f. In the event a property owner installs a public sidewalk closer than seven feet to any extant canopy tree, the property owner shall install an acceptable root barrier material in accordance with manufacturer's directions, such as herbicide impregnated materials or reinforced concrete of sufficient width and length, which will prevent the encroachment or undermining by the tree's root system, prior to the installation of the sidewalk.
 - g. In the South Cape District, in the event that the tree requirements in this section cannot be met due to site constraints, the property owner may pay an in lieu of fee to the Downtown CRA Tree Fund. Such site constraints shall include size of site, access or circulation requirement making trees impracticable, or extant site layout. The City Council shall establish a fee based on the average cost of the aforementioned trees. The city will use the funds in the Downtown CRA Tree Fund to provide or enhance the landscaping and vegetation in public areas of the Downtown CRA. To qualify to pay an in lieu of tree fee, a property owner must apply for approval by the Director of the Department of Community Development. If the Director approves the application, then the property owner may pay an in lieu of tree fee meeting planting requirements. This provision does not preclude applicants from applying for deviations in accordance with Section 5.5.20.

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 2697 B. Right-of-way. The right-of-way from the edge of the street pavement to the property line shall be
2698 planted with sod or other approved groundcovers, except as otherwise provided in the City of Cape
2699 Coral Code of Ordinances or Land Development Code.
2700
- 2701 C. Landscape design features. Six types of landscaping may be required on a site, depending on the site
2702 location and the specific elements of the development: foundation landscaping, landscaping adjacent
2703 to roads, off-street parking and vehicle use areas, retention/detention areas, and buffers. Trees
2704 planted to meet the requirements of these landscape design features can be included in the
2705 calculation of total number of trees required by this section under tree planting requirements.
2706
- 2707 1. Foundation Landscaping. To provide aesthetic relief between a building and off-street parking or
2708 vehicular use areas, all new development, except development in the Industrial District and South
2709 Cape District, must provide foundation landscaped areas equal to 10% of the proposed building
2710 gross ground level floor area. These foundation landscaped areas must be between the off-street
2711 parking area and the building, between public streets and the building, or between vehicular
2712 access ways and the building, or any combination thereof, with emphasis on the side(s) most
2713 visible to the public. Foundation landscaping may consist of surface level landscaped areas, raised
2714 planters, planter boxes, or any combination thereof. The width of the foundation landscaped
2715 areas shall be five feet, except for sites less than one acre with an average depth less than or equal
2716 to 135 feet, in which case the width shall be three feet. Foundation landscaped areas may be
2717 planted with trees, but must be planted with shrubs spaced a maximum of three feet on centers.
2718
- 2719 2. Landscaping Adjacent to Roads. Where a development site abuts a public right-of-way, excluding
2720 a dedicated alley, the following shall apply except within Mixed-Use Districts:
2721
- 2722 a. Except as otherwise provided herein, a strip of land, a minimum of ten feet in width, shall be
2723 provided between the abutting right-of-way and any structure or off-street parking area. For
2724 sites or portions of sites that are 135 feet or less in depth, the width may be reduced to five
2725 feet.
2726
- 2727 b. At a minimum, perimeter landscaping in this area shall consist of the following:
2728
- 2729 i. One shrub for every three linear feet of landscaped area, planted separately or grouped,
2730 except where a carport or an off-street parking or vehicular use area abuts the strip of
2731 land that is required adjacent to roads. Where a carport or an off-street parking or
2732 vehicular use area abuts the strip of land required adjacent to roads, a continuous hedge,
2733 consisting of shrubs spaced no greater than three feet on center is required.
2734
- 2735 ii. The requirement for canopy trees or accent trees depends on the presence of overhead
2736 electric distribution or transmission lines. Shade or accent trees shall be provided as
2737 follows:
2738
- 2739 (a) Except as provided below, one canopy tree for each 30 linear feet of frontage is
2740 required. If the calculations yield a fractional number, that number shall be rounded
2741 up to the next highest whole number. Trees may be placed in any arrangement within

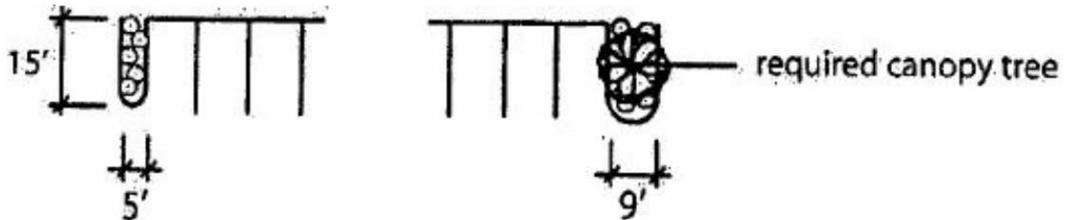

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 2742 the landscape strip provided that the spacing between tree trunks is no greater than
2743 60 feet.
- 2744 (b) In locations where an adequate separation distance from overhead distribution or
2745 transmission lines, as specified in Table 1, § 5.2.7., is not available, two accent trees
2746 may be substituted for any shade tree required for each 30 linear feet of frontage.
2747
- 2748 c. Ingress and egress from the public right-of-way through all such landscaping to off-street
2749 parking or other vehicular use areas shall be permitted and may be subtracted from the linear
2750 dimension used to determine the number of trees and shrubs required.
2751
- 2752 d. Visibility triangles. As an aid to allow for safe operation of vehicles, pedestrians, and cyclists
2753 in the proximity of intersecting streets, driveways, alleys, and bicycle paths, there shall be
2754 limitations on the height of fences, walls, gateways, ornamental structures, signs, hedges,
2755 shrubbery, and other fixtures as visually depicted in the Cape Coral Engineering and Design
2756 Standards and as follows:
- 2757 i. All landscaping and signs within the visibility triangle shall provide unobstructed
2758 visibility between 30 inches and eight feet, with the exception of tree trunks that do not
2759 create a traffic hazard.
- 2760 ii. The property owner shall be responsible for maintaining all landscaping within the
2761 visibility triangle to provide the unobstructed visibility.
- 2762 iii. The Community Development Director shall make the final determination regarding
2763 visibility triangles.
2764
- 2765 3. Off-street parking and vehicle use areas. The provisions of this section apply to all new off-street
2766 parking or other vehicular use areas not situated directly beneath a building containing habitable
2767 space.
2768
- 2769 a. Protection of landscaped areas from vehicular encroachment. When a landscaped area abuts
2770 or is within an off-street parking or vehicular use area, wheel stops or curbing shall be used
2771 to protect landscaped areas from encroachment. The placement of shrubs and trees shall be
2772 in accordance with the Parking Lot Standards of the City of Cape Coral Engineering Design
2773 Standards.
2774
- 2775 b. Except in the South Cape District, landscaping for sites with both of the following: 1) an average
2776 depth less than or equal to 135 feet; and 2) an area less than or equal to one acre. All off-
2777 street parking areas shall be landscaped to provide visual relief and cooling effects and to
2778 define logical areas for pedestrian and vehicular circulation, as follows:
- 2779
- 2780 i. Minimum landscaped area. Landscaped areas including, but not limited to, landscaped
2781 islands, foundation landscaping, and landscaping within divider medians shall equal or
2782 exceed a minimum of 5% of the total off-street parking and vehicle use areas.
- 2783 ii. Tree planting. At least one canopy tree shall be provided for every 150 square feet of
2784 required planting area. Palm trees may be substituted for canopy trees in accordance with
2785 this Chapter.
- 2786 iii. Divider medians. Where canopy trees are planted in divider medians, the minimum width
2787 of the divider median shall be nine feet.

- c. Except in the South Cape District, landscaping for sites with either of the following: 1) an average depth greater than 135 feet; or 2) an area greater than one acre. All off-street parking areas shall be landscaped to provide visual relief and cooling effects and to define logical areas for pedestrian and vehicular circulation, as follows:

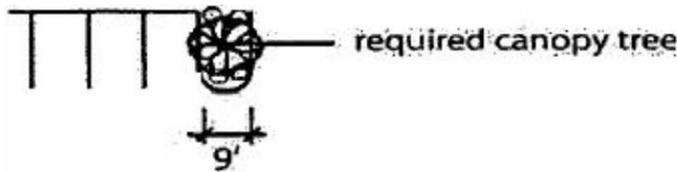

- i. Minimum landscaped area. Landscaped areas including landscaped islands, foundation landscaping, and landscaping within divider medians shall equal or exceed a minimum of 10% of the total paved surface area. Landscaped areas reserved for future parking spaces may not be included in this calculation.
- ii. Tree planting.
 - (1) At least one canopy tree shall be provided for every 150 square feet of required planting area. Palm trees may be substituted for canopy trees in accordance with this Chapter.
 - (2) No parking space may be more than 100 feet from a tree.
- iii. Divider medians. If a divider median is used to meet the landscaping requirements, it shall be a minimum width of nine feet.

- v. Landscape materials. All interior landscaped areas not dedicated to trees or to preservation of existing vegetation shall be landscaped with grass, groundcover, shrubs or other approved landscaping materials and this shall be noted on the landscape plans.
 - d. Landscaping for sites in the South Cape District. Except within city dedicated parking areas, all off-street parking areas and applicable off-street parking area setbacks shall be landscaped to provide visual relief and cooling effects and to define logical areas for pedestrian and vehicular circulation, as follows:
 - i. Minimum landscaped area.
 - i. Unless otherwise provided herein, all required landscape areas shall be planted with trees, shrubs, groundcover, sod, or any combination thereof. At a minimum, the landscape area(s) shall include low-lying shrubs or ground cover plants with a minimum 50% coverage of the landscape area at time of planting. When utilized, shrubs shall be planted at no more than three feet on center.
 - ii. All applicable minimum off-street parking area setbacks required by Article 4, Chapter 5, except rear when abutting an alley, shall be landscaped unless otherwise provided herein. This provision shall not apply to portions of setbacks areas utilized for shared curb cuts, joint driveways and shared off-street parking areas across lot lines.
 - iii. Ingress and egress from the right-of-way through any setback area is permitted and the width of the ingress and egress may be subtracted from required landscape areas.
 - ii. Landscaping for lots with a lot frontage greater than or equal to 125 feet. Off-street parking areas containing 24 or more parking spaces shall provide a landscaped area that measures not less than nine feet in width and not less than 15 feet in length for every 12 parking spaces. Such landscaped area(s) shall be located as intermediate within or terminal islands to parking space rows. Each such landscaped area shall be planted with at least one canopy tree and groundcovers or sod.
4. Retention or detention areas.
- a. Planting of trees, palm trees, shrubs, and groundcovers in retention or detention areas is encouraged, provided that the placement does not conflict with the volume of storage required for the retention or detention areas and does not significantly interfere with or impede the flow of runoff in the retention or detention area.
 - b. All retention or detention areas shall be stabilized with sod or other groundcover capable of stabilizing the soil. Organic mulch is not allowed.

- a. Determination of required buffer. Landscape buffer and screening shall be required to separate uses of differing zoning districts from each other. The type and width of buffer required shall be determined by using Table 5.5.13.B: Table of Minimum Buffer Requirements. If the developing property contains a non-residential use in a Residential District, the buffer shall be as indicated along the row labeled "Non-Residential Uses in Residential Districts"; otherwise, the buffer required shall be as indicated along the row of the developing property's zoning district under the applicable column. The buffer that is required along any segment of property line, if any, is dependent on the zoning of the abutting property and property separated by only a street containing not more than two lanes for motor vehicle traffic. A bicycle "lane" shall not be considered to be a lane for motor vehicle traffic. The specifications for each type of buffer are provided in Table 5.5.13.B.

TABLE 5.5.13.B MINIMUM BUFFER WIDTH With wall/Without wall

- b. Buffer specifications.
- i. The standards for minimum width, plant types and quantities, and opaque features shall be in accordance with Table 5.5.13.B: Minimum Buffer Width and Table 5.5.13 C, Buffer Plantings. All plants provided within a buffer are specific to, and must be located within the buffer area. The buffer landscaping is in addition to other landscaping required by this Chapter and this landscaping must be within the buffer area. For buffer options that include a wall, the wall must conform to the standards of Article 5, Chapter 2, including the setback requirements.
- ii. The buffer width shall be measured along a line perpendicular or radial to the property line.
- iii. The number of each type of plant required shall be determined by dividing the length of each side of the property requiring a given type of buffer by 100 and multiplied by the number of plants per 100 feet indicated for a selected option. If the calculations yield a fractional number, that number shall be rounded up to the next highest whole number.

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 2896 iv. If a wall is required, the wall shall extend the entire length of the property line, or until it
2897 connects to another wall.
2898 v. Ingress and egress from the right-of-way through any buffer shall be avoided; however,
2899 where it is determined by the city that avoidance is impractical or not preferable due to
2900 traffic flow or safety considerations, penetration through a buffer to ingress and egress
2901 from the right-of-way may be permitted and the width of the ingress and egress can be
2902 subtracted from the length of the buffer for the calculation of the number of plants
2903 required.
2904 vi. Plants, berms, or walls required for buffers within required sight triangles shall be in
2905 accordance with standards provided in Article 5, Section 1. Further, no fence, wall, or
2906 plant material shall be placed within a buffer that would impede the movement of or
2907 obstruct the view of either a pedestrian or driver of a vehicle that would create a potential
2908 safety hazard.

- 2910 c. Buffer requirements. No development within required buffer. Required buffer shall not
2911 contain any development other than drainage facilities, sidewalks, plants, walls, or berms.
2912 Driveways shall only be allowed in the required buffer if the buffer runs along a street. No
2913 grading, development, or land-disturbing activities shall occur within the buffer unless as part
2914 of an approved development or landscape plan.
2915
2916 d. Buffer maintenance.

2963
- i. Any landscape buffer required pursuant to this section shall be maintained in order to preserve such buffer.
 - ii. The plantings, walls, and berms that constitute screening for any buffer required pursuant to this section shall be maintained for the life of the development. Such maintenance shall include all actions necessary to keep the buffer free of litter and debris, and to keep plantings, walls, and berms in good repair and neat appearance.
 - iii. In the event that any buffer screening or any element thereof, is damaged or fails to live so that it no longer furthers the purpose and intent of this section, it shall be replanted or replaced, whichever is applicable, with the type and size of material specified on the landscape plan.
- e. Plant and tree arrangement. Required plants and trees shall be distributed in a manner to meet the intent of screening incompatible uses. In the event that plant materials are prohibited in a public drainage or utility easement which abuts or is coincident with a buffer, no new plant materials shall be centered closer than two feet from such easement.
- f. Existing vegetation.
- i. Retaining existing Florida native trees and other vegetation within a buffer is strongly encouraged.
 - ii. If existing plants do not fully meet the standards for the type of buffer required, additional plant materials shall be installed.
- g. Buffer walls and berms.
- i. Whenever a wall is required within a buffer, it is shown in Table 5.5.13.B.
 - ii. Where the buffer requires a berm, the berm shall be graded to appear smooth, rounded, and natural. Slopes shall not exceed a 3:1 grade.
 - iii. Whenever a wall is required within a buffer, the wall shall conform to all requirements of Article 5 Section 2, and the requirements herein, and all other requirements for a wall. The wall may be placed anywhere in the buffer, provided at least 75% of the required trees and 100% of the required shrubs are on the side facing outward toward the right-of-way or abutting property (facing away from the property on which the wall is erected). Bare concrete block, even if painted, is prohibited. The following materials, either singly or in any combination, are the only materials that may be used to form the wall:
 - (a) Concrete block coated with stucco;
 - (b) Textured concrete block;
 - (c) Stone;
 - (d) Brick; or
 - (e) Formed, decorative, or precast concrete.
 - iv. Whenever a wall is required within a buffer, it shall be 100% opaque and shall be the maximum height allowed for the use and the location of the wall.

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 2964 h. Gates. A gate may be allowed in a buffer wall, provided such gate is opaque, unless spanning
2965 a vehicular entrance, and meets the intent and purpose of this section. Gates shall be
2966 maintained in accordance with the maintenance standards for screening contained in this
2967 section.

- 2968
2969
2970 i. Staggered walls. Whenever a wall is required within a buffer, it may be divided along the
2971 length of a buffer so that a wall consists of a series of wall segments instead of a continuous
2972 line. Such a divided wall shall be allowed only if it meets the intent and purpose of this section
2973 and if the wall segments overlap by a minimum of one-half of the distance between the two
2974 wall segments.
2975
2976 j. Vehicular use areas. Concrete curbs or wheel stops at least five inches high shall be provided
2977 between vehicular use areas and buffer areas.
2978

- 2979
2980
2981 3. Location of buffer.
2982
2983 a. The landscape buffer required by this section shall be located along the perimeter of a
2984 property except at approved entrances or exits to the parcel.
2985
2986 b. Buffers shall extend to the lot line or right-of-way line, except where easements, covenants,
2987 visibility triangles, or natural features require the buffer to be set back from the property line.
2988 The presence of an easement, covenant, or natural feature does not necessarily preclude the
2989 placement of a buffer, unless due to the nature of the easement, covenant, or natural feature
2990 the placement of a buffer would be precluded.
2991

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

2992 c. Nothing other than open landscaped areas shall be located between the required buffer and
2993 the site perimeter unless the presence of an easement, covenant, or natural feature, which
2994 due to its nature, would preclude open landscaped areas.

2995
2996 d. Buffers may not be located on any portion of an existing or dedicated street right-of-way or
2997 roadway easement.

2998
2999 **Section 5.5.14. Irrigation.**

3000
3001 All landscaping shall contain an automatic irrigation system. All required irrigation systems shall be
3002 designed to minimize the application of water to impervious areas, including roads, drives, and other
3003 vehicle areas. Required irrigation shall also be designed to avoid damage to existing native vegetation
3004 from over watering or from physical conflicts with plant roots. The following standards shall apply to the
3005 design, installation, and maintenance of irrigation systems:

3006
3007 A. The irrigation system shall be properly maintained and operated consistent with watering
3008 schedules established by the South Florida Water Management District or the City of Cape Coral,
3009 whichever is more restrictive.

3010
3011 B. Existing native plants are exempt from this requirement.

3012
3013 C. Automatic control systems shall be equipped with an operable rain sensor or other devices, such
3014 as soil moisture sensors, to prevent unnecessary irrigation.

3015
3016 **Section 5.5.15. Tree credits.**

3017
3018 A. Tree credits for all development other than single-family homes and duplexes are available, to
3019 encourage the planting of larger trees than are otherwise required and to preserve trees existing on
3020 development sites. Based on the gross square feet of land area, each tree credit earned can count
3021 toward the number of trees required, subject to limitations indicated below. If tree credits are used,
3022 the credits shall be shown in the calculations on the landscape plan. Single-family homes and duplexes
3023 are not eligible for the tree credit program provided by this subsection. In no event, shall the number
3024 of trees required in a buffer be reduced.

3025
3026 B. Credit for planting larger canopy trees. One tree credit shall be applied to the overall tree count for
3027 each two inches of increased caliper above the minimum planting size specified in this Chapter. In no
3028 event, however, shall the actual number of trees be less than one-half of the total number required.

3029
3030 C. Credit for preserving existing canopy trees. Existing canopy trees in good health and meeting the
3031 minimum standards provided in this Chapter that are preserved on a site, and that are properly
3032 protected prior to and during the course of development activities, may be used to meet the
3033 requirements of this section for the site where the existing trees are located. For purposes of this
3034 subsection, development activities include land clearing, construction, grading, or placement of fill.
3035 Canopy trees that exceed the minimum size required by Article 5, Section 15 are credited at the
3036 following ratios for existing canopy trees:

3037

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

TABLE 5.5.13.D: CREDIT FOR PRESERVING EXISTING CANOPY TREES	
CREDITS	
1.	6" up to 12" caliper = credit for 2 trees
2.	12" up to 18" caliper = credit for 3 trees
3.	18" up to 24" caliper = credit for 4 trees
4.	24" or greater caliper = credit for 5 trees

3038

3039

No credit shall be given to canopy trees on the Florida Exotic Pest Plant Council list of Category I or Category II invasive exotics.

3040

3041

3042

- D. Credit for preserving existing palms. Existing palm trees in good health and having a minimum of ten feet of clear trunk that are preserved on a site and properly protected prior to and during the course of development activities, may be used to meet the requirements of this section for the site where the existing palm trees are located. This credit shall be available for palms preserved in place or transplanted within a site, using accepted horticultural procedures.

3043

3044

3045

3046

3047

3048

Section 5.5.16. Landscape maintenance.

3049

3050

- A. General maintenance required. The property owner shall maintain all landscaping in accordance with the approved landscape plan, if any, and with the standards contained in this section, including:

3051

3052

3053

1. Trees, palm trees, shrubs, and other vegetation shall be trimmed so as to not be an obstruction to pedestrian or vehicular traffic or traffic visibility;

3054

3055

3056

2. Trees, palm trees, shrubs, and tree bed(s) shall be kept free of refuse, debris, and disease;

3057

3058

3. Nonliving materials shall be maintained in good condition at all times.; and

3059

3060

3061

3062

3063

3064

4. Shrubs planted in non-residential and mixed-use developments shall grow and be maintained at all times according to the minimum size specified on the approved landscape plan or to a minimum height of 36 inches, if not specified on the approved landscape plan. Shrubs that do not meet the minimum height specified or the alternate minimum height of 36 inches shall be replaced with like kind species and be maintained at a height of 36 inches.

3065

3066

This requirement shall not preclude the placement of additional plant materials or other landscape features that comply with other requirements of these regulations.

3067

3068

3069

- B. Compliance required. For any development for which a landscape plan was submitted, the city shall not issue a certificate of occupancy or certificate of completion until the landscape architect or other licensed professional authorized pursuant to F.S. Chapter 481, Part II, who prepared, signed, and sealed the plan certifies to the city that all elements of the landscape plan have been installed in accordance with the approved plan. Each development will be inspected by the City of Cape Coral within two years after the certificate of occupancy or certificate of completion is issued, and from time to time thereafter to ensure compliance with the applicable landscape standards and with the

3070

3071

3072

3073

3074

3075

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

3076 approved landscape plan, if any. Any dead or missing plant, or plant that appears to be dying or unable
3077 to sustain healthy future growth shall be replaced by one that conforms to the requirements of this
3078 section and approved landscape plan, if any. Failure to comply with this requirement shall constitute
3079 a violation of the City of Cape Coral Code of Ordinances, subject to any penalty imposed by law.
3080

3081 C. Changes subsequent to landscape plan approval. The replacement of plants indicated on an approved
3082 landscape plan with plants of the same species, or the placement of hardscape features that comply
3083 with other requirements of these regulations shall not require the submission of an amended
3084 landscape plan. The substitution of plants indicated on an approved landscape plan with plants of an
3085 alternative species of the same size and plant category (canopy tree, accent tree, palm tree, shrub)
3086 shall not require the submission of an amended landscape plan, unless a specific species has been
3087 prescribed as a condition of approval by the Hearing Examiner or City Council; however, any such
3088 substitution shall meet all other landscape requirements, including the minimum separation distance
3089 between trees and overhead power lines, the Florida native plant percentage, the tree species mix,
3090 and species specific palm tree substitution requirements. Except as described above, after a landscape
3091 plan has been approved, it shall be unlawful to change, modify, alter, or otherwise deviate from the
3092 terms or conditions of the landscape plan without first obtaining written approval of an amendment
3093 to the landscape plan. The approval of an amendment to a landscape plan does not constitute an
3094 amendment to the site plan. Modifications that require approval of an amended landscape plan
3095 include:

- 3096
- 3097 1. Replacement of any plant indicated on an approved landscape plan with a plant of a different
3098 species; or
 - 3099
 - 3100 2. The reduction of any quantity or size of plants below the size that was indicated on the most
3101 recently approved landscape plan.
3102

3103 The city may impose a reasonable fee for the review and approval of an application for an amendment
3104 to a landscape plan. An application for an amendment to a landscape plan shall be reviewed in
3105 accordance with the standards herein, unless the landscaped area is a legal nonconformity. An
3106 application for an amendment to a nonconforming landscaped area shall be reviewed in accordance
3107 with Article 5, Section 6.
3108

- 3109 D. Nonconforming landscaped areas.
3110
- 3111 1. Legal nonconforming landscaped areas established. All landscaped areas which were lawful prior
3112 to the adoption of this Code but which fail by reason of adoption of such amendment to comply
3113 therewith, are hereby declared to be nonconforming. Such nonconforming landscaped areas are
3114 hereby declared to be lawful and shall not be required to be altered to conform with such
3115 regulations as adopted by the City of Cape Coral; provided, however, that such nonconforming
3116 landscaped areas are restricted and subject to the requirements of this section.
3117
 - 3118 2. Requirements for nonconforming landscaped areas.
3119
 - 3120 a. For sites with an approved landscape plan, nonconforming landscaped areas, including
3121 buffers, shall be maintained in accordance with approved landscape plans, as modified by

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

3122 requirements of any approval for PUD, PDP, special exception, or variance, if any. If the
3123 minimum requirements for landscaping are reduced subsequent to the most recently
3124 approved landscape plan, the property owner may request approval of an amended
3125 landscape plan meeting the minimum requirements pursuant to Article 5, Section 6.
3126

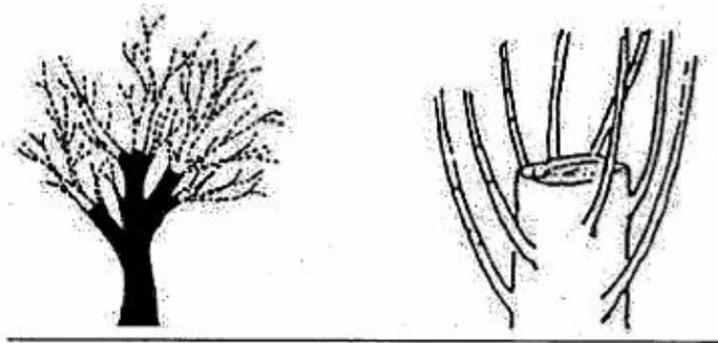

3127 b. For single-family and duplex sites, nonconforming landscaped areas shall be maintained in
3128 accordance with landscape regulations in effect at the time of issuance of the original building
3129 permit for the primary structure.
3130

3131 c. For sites without an approved landscape plan, other than single-family and duplex sites,
3132 nonconforming landscaped areas shall be maintained in accordance with landscape
3133 regulations in effect at the time of the most recent site plan approval.
3134

3135 E. Canopy tree pruning.
3136

3137 1. Except as otherwise provided herein, trees required by regulations in effect at the time of site
3138 development shall only be pruned to promote healthy, uniform, natural growth, to keep trees
3139 trimmed back from doors, windows, and public sidewalks or where necessary to promote health,
3140 safety, and welfare. Pruning shall be in accordance with "American National Standard for Tree
3141 Care Operations - Tree, Shrub, and Other Woody Plant Maintenance - Standard Practices (Pruning)
3142 (A300, Part 1)" by the American National Standard Institute and "Best Management Practices:
3143 Tree Pruning" by the International Society of Arboriculture (ISA). Pruning of trees on any site over
3144 one acre should be supervised by a certified arborist. Pruning necessary to maintain public
3145 overhead utilities shall be in accordance with the National Electric Safety Code (NESC).
3146

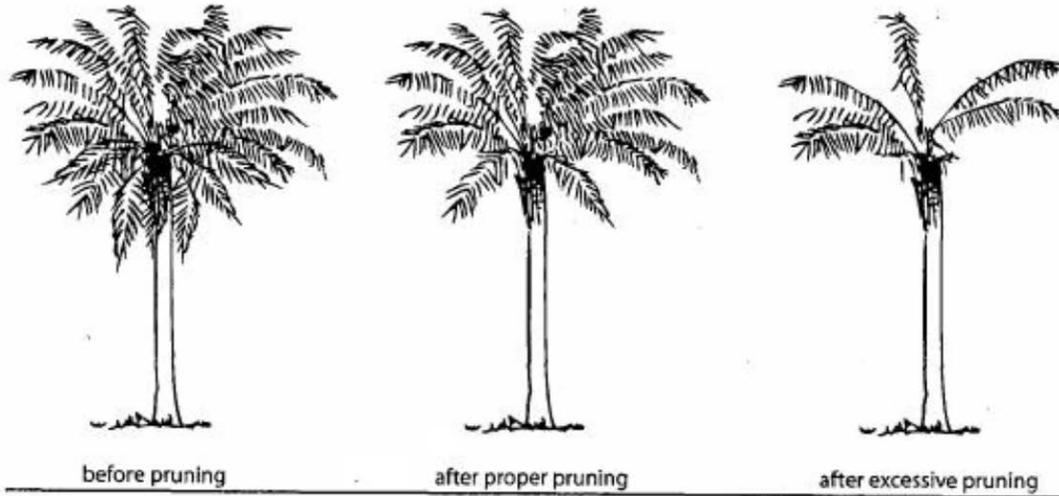

3147 2. Trees required by regulations in effect at the time of site development shall not be pruned so as
3148 to include topping of trees through removal of crown material or the central leader, or any other
3149 similar procedure to permanently limit growth to a reduced height or spread or that cause
3150 irreparable harm to the natural form of the tree, except where such procedures are necessary to
3151 maintain public overhead utilities. Severely pruned trees required by regulations in effect at the
3152 time of site development must be replaced by the property owner. Replacement trees must meet
3153 the tree size requirements of this Chapter. A tree's growth habit shall be considered in advance
3154 of conflicts that might arise (e.g., signs, power lines, sidewalks, buildings, and similar conflicts).
3155

3156
3157
3158 Excessively pruned trees.

1. Required. It shall be unlawful for any person to place any landscape material, including plant materials and hardscape materials other than mulch, in any median, cul-de-sac, or roundabout under the control of the city, without first obtaining a permit for such work from the City.
 2. Application. An application for a permit shall be submitted on a form provided by the city and include all required information as specified in the permit application forms, including:
 - a. A general vicinity map showing the nearest intersecting streets;
 - b. The location of existing public and private utilities, including overhead power lines and drainage facilities within twenty (20) feet of the proposed landscaping;
 - c. A planting plan showing all pertinent dimensions, the location of existing plant materials with indication if they are to be removed, the location of proposed plant materials indicating the size and species, the location of existing or proposed hardscape materials, and the proposed irrigation plan and source of water;
 - d. A description of the proposed monthly maintenance schedule and the primary and alternate contact information for the parties responsible for maintenance;
 - e. Any additional information reasonably required by the City because of unique circumstances of the project; and

CITY OF CAPE CORAL, FLORIDA

ARTICLE 5 – DEVELOPMENT STANDARDS

- 3193
3194 f. A non-refundable application fee as established by City Council.
3195
- 3196 B. Median design. Landscaping in medians shall be in accordance with the City of Cape Coral Engineering
3197 Design Standards.
3198
- 3199 C. Cul-de-sac or roundabout design. Landscaping in cul-de-sacs or roundabouts shall utilize the plants
3200 and materials identified below. Such plantings shall be in accordance with the City of Cape Coral
3201 Engineering Design Standards.
3202
- 3203 1. Trees. Trees shall be of at least ten-gallon size at the time of planting. The following trees are
3204 permitted: Mahogany, Wild Tamarind, Yellow or Pink Tabebuia, Buttonwood, Crepe Myrtle,
3205 Gumbo Limbo, Southern Magnolia, Paradise tree, Pigeon Plum, Sago Palm, or Pygmy Date Palm.
3206 Other types of trees may be permitted providing the criteria established in this section are met.
3207 The prohibited vegetation standards of this Chapter shall apply in cul-de-sacs and roundabouts.
3208
- 3209 2. Shrubs. Shrubs to be planted should be durable in harsh conditions with slow, unobtrusive growth
3210 habits. All shrubs shall be of at least three-gallon size at the time of planting. The following shrubs
3211 are recommended for planting: Carissa, Cocoplum, Yaupon Holly, Myrsine, Necklace Pod,
3212 Podocarpus, and Wax Myrtle. Other types of shrubs may be permitted providing the criteria
3213 established in this section are met.
3214
- 3215 3. Other vegetation. The planting of flowers or any vegetation (other than approved trees or shrubs)
3216 by any private person or entity on cul-de-sac or roundabout owned by the city is prohibited. In
3217 addition, cul-de-sacs or roundabouts shall be left in sod. A small bed immediately surrounding a
3218 tree or shrub may be mulched.
3219
- 3220 D. Prohibited vegetation. The prohibited vegetation standards of section 9 of this article shall apply in
3221 medians.
3222
- 3223 E. Review criteria. In determining whether a permit will be issued, the city shall consider factors that
3224 include, but are not limited to, the following:
3225
- 3226 1. Relationship to traffic and pedestrian safety;
3227
- 3228 2. Location of existing and proposed public utilities, power lines, and other right-of-way
3229 improvements;
3230
- 3231 3. Effect on surface waters and drainage patterns;
3232
- 3233 4. Aesthetic effect of the proposed landscaping, including whether the resultant theme would be
3234 consistent throughout the specific median, and whether the proposed landscaping would
3235 coordinate with the landscape theme, if any, established in the vicinity;
3236
- 3237 5. Type, size, and location of any extant plant materials and hardscape materials, if any;
3238

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 3239 6. Type, size, and location of proposed plant materials and hardscape materials on the median;
3240
3241 7. Method of removal of existing plant materials and hardscape materials;
3242
3243 8. Adequacy of proposed irrigation, its expense to the city, and availability of water supply;
3244
3245 9. The city's ability to maintain the landscaping in the event that the permittee fails to do so including
3246 economic ability, manpower, and location of the median, and
3247
3248 10. Potential sight obstructions and compliance with all standards and regulations regarding sight
3249 distances and clear zones.
3250
3251 F. Approval.
3252
3253 1. In its approval of any permit request, the city may request modifications, which may include:
3254
3255 a. The planting plan, including the design to ensure integration with the aesthetic character of
3256 the neighborhood, the requirement that the entire median be included in the design, as well
3257 as to plant sizes, species, location, and nature placement of hardscape materials;
3258
3259 b. Plant installation or removal methods or specifications;
3260
3261 c. Regulation of the commencement and completion date, work hours, or phasing of installation
3262 or removal;
3263
3264 d. The proposed maintenance schedule;
3265
3266 e. Requirement of a financial instrument to ensure maintenance or removal of the landscaping;
3267
3268 f. Requirement that all or part of the landscaping be installed and maintained by a licensed
3269 landscape contractor or certified arborist;
3270
3271 g. Requirement that temporary traffic control measures be implemented by a barricade
3272 company with certification by the American Traffic Safety Services Association (ATSSA) or the
3273 International Municipal Signal Association (IMSA);
3274
3275 h. Requirement that curbing be installed;
3276
3277 i. Requirement that erosion control measures be implemented; and
3278
3279 j. Submission of a hold harmless agreement acceptable to the city.
3280
3281 2. The permittee shall be responsible for compliance with the permit along with the maintenance of
3282 the landscaping. The limitation on the time for installing landscape materials shall not apply to
3283 replacement of materials as part of maintenance. The maintenance obligations shall remain in full
3284 force and effect for the life of the landscaping.

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

3285
3286 3. Approval of a permit to install landscape materials shall not obviate the requirement to obtain all
3287 other necessary permits, including permits for irrigation and signs.
3288

3289 G. Changes subsequent to approval. After a planting plan has been approved, it shall be unlawful to
3290 change, modify, alter, or otherwise deviate from the terms of the planting plan without first obtaining
3291 written approval of an amendment to the planting plan. Modifications that require approval of an
3292 amended landscape plan include the following:
3293

- 3294 1. Replacement of any plant indicated on an approved planting plan with a plant of a different
3295 species; or
3296
3297 2. Modification of the location of any plants or other landscape materials.
3298

3299 The city may impose a reasonable fee for the review and approval of an application for an
3300 amendment to a planting plan. An application for an amendment shall be reviewed in accordance
3301 with the standards herein. The replacement of plants indicated on an approved landscape plan
3302 with plants of the same species shall not require the submission of an amended landscape plan.
3303

3304 H. Permit expiration. A permit for installing landscape materials in any median under the control of the
3305 city shall be valid for a one-year period from the date of issuance, except as otherwise provided within
3306 the permit approval. The permittee is solely responsible for submitting an application for renewal of
3307 the. In determining whether the permit should be renewed, the city shall consider all of the factors
3308 listed in subsection D. above, as well as the condition in which any materials planted pursuant to the
3309 permit have been maintained.
3310

3311 I. Maintenance. Once any landscape materials are installed in a median, the materials are the property
3312 of the city. Except when the city determines that it is in its best interest to maintain portions of
3313 landscaping in medians permitted in accordance with this subsection, the permittee shall be
3314 responsible for maintaining any and all landscaping permitted by this subsection in accordance with
3315 Section 16 of this chapter. Should any plant material or other landscape material or portion thereof
3316 become a safety hazard, unsightly, or die or become diseased, or if it is installed or maintained in a
3317 manner inconsistent with the permitting requirements herein, the city shall have the option of
3318 performing maintenance, replacing, or removing it. The City will determine compliance with this
3319 subsection.
3320

3321 J. Removal. Any landscape materials planted or installed without the express written permission of the
3322 city shall be subject to removal by the city in its sole discretion. Except for the City and persons with
3323 a permit or other written authorization from the City, no person shall remove landscape materials
3324 from a median.
3325

- 3326 1. The authorization in this section for the removal of landscaping in medians shall be construed as
3327 supplementary to any other means of enforcement available to the city and shall not be construed
3328 so as to negate the authority of the Code Compliance Special Magistrate to hear and adjudicate
3329 appropriate cases.
3330

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

3331 2. The city may also, in its sole discretion, remove any landscape materials placed in any median
3332 under the city's control, for utility maintenance, safety, or any other reason. The City is not
3333 required to replace any landscaping removed pursuant to this section.
3334

3335 K. Revocation. If any requirements of the approval are not satisfied, the city may revoke or stop work on
3336 any permit issued pursuant to this subsection.
3337

3338 **Section 5.5.18. Lateral right-of-way planting.**
3339

3340 A. No permit required- Registration required. It shall be unlawful to install any trees or shrubs in the city-
3341 owned lateral right-of-way without first obtaining a registration certificate from the city.
3342

3343 B. Refer to Section 5.1.9 for landscaping that may be installed within the lateral right-of-way without a
3344 permit or registration certificate.
3345

3346 C. Placement of planting material. In the South Cape Downtown District, in order to provide a cohesive
3347 urban streetscape, applicants may enter into an agreement with the city for placement of planting
3348 material in the lateral right-of-way. In all other districts, the planting of trees, palm trees, and shrubs,
3349 and the placement of the tree bed(s) shall be allowed in the city-owned lateral right-of-way subject
3350 to the following restrictions:
3351

3352 1. The property owner must call the Sunshine 811 notification service to have all underground
3353 utilities located and marked on the ground prior to installation of any landscape material. All
3354 excavation on public property, rights-of-way, or dedicated easements shall comply with the
3355 requirements of F.S. 556. **UNDERGROUND FACILITY DAMAGE PREVENTION AND SAFETY.**
3356

3357 2. Where potable water, irrigation or sanitary sewer force mains are located within the right of
3358 way, the property owner must contact the Utility Department to confirm the location of
3359 proposed canopy trees and palm trees.
3360

3361 3. No canopy tree shall be planted within 10 feet of existing or proposed drainage inlet or potable
3362 water, irrigation and sanitary sewer force mains.
3363

3364 4. No palm tree with a mature diameter of 8 inches or greater shall be planted within 5 feet of
3365 existing or proposed drainage inlet or potable water, irrigation and sanitary sewer force mains
3366

3367 5. Planting near overhead utility infrastructure shall be in accordance with the requirements of
3368 Section 5.5.7 of this article;
3369

3370 6. One or more trees may be immediately surrounded by a bed consisting of landscape edging
3371 materials, bedding plants or groundcover, and mulch or decorative rock so long as the size of the
3372 bed is reasonably related to the size and number of trees contained therein. Groundcover or
3373 annual bedding plants shall be permitted within the tree bed. Unless otherwise permitted, no
3374 other landscape edging material, concrete curbing, bedding plant or groundcover, mulch, or
3375 decorative rock shall be allowed in the city-owned lateral right-of-way;
3376

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 3377 7. The property owner abutting the portion of the lateral right-of-way in which the plantings and the
3378 tree bed(s) are placed shall be responsible for any and all costs incurred by the city for damage
3379 sustained to any drainage system or underground utility facilities as a result of said plantings or
3380 placement of the tree bed(s), and shall indemnify and hold the city, its officers, employees, and
3381 agents, harmless from any and all claims for injuries and damages to persons and property, both
3382 real and personal resulting from said plantings or placement of the tree bed(s);
3383
- 3384 8. No tree, shrub, landscape edging material, concrete curbing, bedding plant, groundcover, mulch,
3385 or decorative rock shall be placed in the city-owned lateral right-of-way within five feet of the
3386 roadway. Canopy trees shall not be planted within seven feet of any roadway, sidewalk, or
3387 underground utility unless an acceptable root barrier material, installed in accordance with this
3388 Chapter.
3389
- 3390 9. No tree, shrub, landscape edging material, concrete curbing, bedding plant, groundcover, mulch,
3391 or decorative rock shall be placed in the city-owned lateral right-of-way:
3392 i. Within five feet of either side property boundaries, as measured perpendicular from the
3393 side property line;
3394 ii. Within three feet of the bottom on the swale in either direction;
3395 iii. Within three feet of a public sidewalk; or
3396 iv. So as to be an obstruction to pedestrian or vehicular traffic or traffic visibility and each
3397 shall be maintained accordingly.
3398
- 3399 D. Maintenance. Once any landscape materials are installed in a lateral right-of-way, the materials are
3400 the property of the city. The person or entity who owns the property abutting a portion of the lateral
3401 right-of-way along a city street in which the trees, palm trees, shrubs, landscape edging material,
3402 concrete curbing, bedding plants, or groundcover, mulch, or decorative rock have been placed shall
3403 be responsible for the following:
3404
- 3405 1. Maintaining all plantings and tree bed(s) in good condition so as to present a healthy, neat, and
3406 orderly appearance;
3407
- 3408 2. Trimming such trees, palm trees, shrubs, and tree bed(s) so as to not be an obstruction to
3409 pedestrian or vehicular traffic or traffic visibility; and
3410
- 3411 3. Keeping such trees, palm trees, shrubs, and tree bed(s) free of refuse, debris, and disease.
3412
- 3413 Failure to maintain such trees, palm trees, shrubs, and tree bed(s) in accordance with this provision
3414 shall constitute a violation of this section and shall be grounds for removal by the city of the trees,
3415 palm trees, shrubs, and tree bed(s) in the right-of-way.
3416
- 3417 E. Removal.
3418
- 3419 1. The authorization in this section for the removal of trees, palm trees, shrubs, and tree bed(s) shall
3420 be construed as supplementary to any other means of enforcement available to the city and shall
3421 not be construed so as to negate the authority of the Code Compliance Special Magistrate to hear
3422 and adjudicate appropriate cases.

- 3467
- 3468
- A. Deviations of up to 10% from the requirements of this section may be approved by the Director and as further provided herein) provided that the deviation will not be contrary to the public interest and will be in harmony with the general intent and purpose of this section and where either of the following applies:
 1. Conditions exist that are not the result of the applicant and which are such that a literal enforcement of the regulations involved would result in unnecessary or undue hardship; or
 2. Literal conformity with the regulations would inhibit innovation or creativity in design.
 - B. In determining whether a particular deviation request should be approved as the result of unnecessary or undue hardship, factors the Director shall consider include the following: site constraints such as shape, topography, dimensions, and area of the property, the effect other regulations would have on the proposed development, or other locational factors that may make compliance with this section impossible or impracticable, and the effect the requested deviation would have on the community appearance. Additionally, the Director shall find that the approval of the deviation(s) would serve the intent of this section to protect the health, safety, and welfare of the public while ensuring a high level of overall aesthetic appeal and visual interest in the city.
 - C. In determining whether a particular deviation request should be approved because literal conformity with the regulations would inhibit innovation or creativity in design, the Director may approve the request for deviation(s) if the applicant demonstrates that the design of the landscaping for which one or more deviations is sought is unique and innovative and, further, that the approval of the deviation(s) would enhance such unique and innovative design. Additionally, the Director shall find that the approval of the deviation(s) would serve the intent of this section to protect the health, safety, and welfare of the public while ensuring a high level of overall aesthetic appeal and visual interest in the city. For purposes of this section, indicia of unique and innovative design may include, but are not limited to, the following:

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 3469
- 3470 1. Landscape details that are unique or that are exceptional in quality by virtue of artistic
- 3471 composition, quality of materials, dimensional attributes, or any combination thereof;
- 3472
- 3473 2. Plant massing that evokes exceptional expression through use of angularity, curvature, or other
- 3474 means;
- 3475
- 3476 3. Design elements or other forms that achieve dynamic or symmetric aesthetic balance; or
- 3477
- 3478 4. Other details or forms that preclude visual monotony and are pleasing in aesthetic character.
- 3479
- 3480 D. Requests for deviations and the reasons therefore shall be set forth by the applicant in the application
- 3481 for deviation and shall be accompanied by documentation including, a narrative that clearly defines
- 3482 the section(s) of the regulations of the requested deviation, a narrative explanation as to the reason
- 3483 for the requested deviation and why it should be approved, sample detail drawings, elevations, and
- 3484 perspectives which shall graphically demonstrate the proposed deviation(s) and illustrate how each
- 3485 deviation would operate to the benefit, or at least not to the detriment, of the public interest.
- 3486
- 3487 E. For deviations to avoid unnecessary or undue hardship, the Director subject to these standards and
- 3488 criteria, shall approve only the minimum deviation from the provisions of this section. For deviations
- 3489 to avoid the inhibition of innovation or creativity in design, the Director shall approve deviations
- 3490 necessary to enhance the unique and innovative design. The Director may impose reasonable
- 3491 conditions of approval in conformity with this section. Violation of such conditions and safeguards,
- 3492 when made a part of the terms under which a deviation is granted, shall be deemed a violation of this
- 3493 section and shall be enforceable not only by revocation of the deviation, but also by all other remedies
- 3494 available to the city, including all code enforcement procedures.
- 3495

3496 **CHAPTER 6. LIGHTING.**

3497

3498 **Section. 5.6.1. Purpose and applicability.**

3499

3500 The purpose and intent of this Section is to create outdoor lighting standards that promote the health,

3501 safety, and welfare of the residents and decrease the impacts of ambient lighting on the natural sky by

3502 establishing maximum intensities of lighting and controlling glare from lighting fixtures. The provisions

3503 of this article shall apply to all permanent outdoor lighting from any light source in nonresidential

3504 development.

3505

3506 **Section. 5.6.2. Outdoor lighting standards.**

3507

- 3508 A. Outdoor lighting fixtures. All outdoor lighting fixtures shall be installed in such a manner that the
- 3509 source of each individual light is shielded, positioned, and maintained so as not to be visible off the
- 3510 premises.
- 3511
- 3512 B. Light shielding for parking lot illumination. All parking lot lighting shall have no light emitted above
- 3513 90 degrees.
- 3514

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 3515 C. Outdoor lighting fixtures adjacent to residential. Any outdoor lighting fixture providing light to any
3516 parcel adjacent to a residentially zoned parcel, whether adjoining or not, shall emit no more than
3517 0.1 foot-candles of light, as measured from the property line of the adjacent residential parcel, using
3518 a standard light meter, the cell of which is directed towards the source of the light.
3519
- 3520 D. All areas designed for use after daylight hours shall be adequately lit, in accordance with Table 5.6.2.
3521 below.
3522

Table 5.6.2. Lighting levels for commercial and industrial developments

Outdoor Lighting Area	Lighting Level minimum - maximum (foot-candles)
Entrance of commercial or industrial building	1 - 5
Sidewalk or walkway from parking area to entrance	.5 - 2
Parking lot	.5 - 3
Gas station canopy	10 - 15
Loading and unloading areas	15 - 20

- 3525
- 3526 E. Illumination ratio. Luminaire fixtures in parking lots shall be arranged in order to provide uniform
3527 illumination throughout the parking lot area of not more than a 4:1 ratio of average to minimum
3528 illumination, and not more than 12:1 ratio of maximum to minimum illumination.
3529
- 3530 F. Automatic Switching Requirements. Controls shall be provided that automatically extinguish all
3531 outdoor lighting when sufficient daylight is available using a control device or system such as a
3532 photoelectric switch, astronomic time switch, or equivalent functions from a programmable lighting
3533 controller, building automation system, or lighting energy management system, all with battery or
3534 similar backup power or device.
3535
- 3536 B. Modifications. Additions, modifications, or replacement of more than 25 percent of outdoor lighting
3537 fixtures existing as of the effective date of this ordinance shall require the submission of a complete
3538 inventory and photometric plan detailing all existing and any proposed new outdoor lighting. Any
3539 new lighting shall meet the requirements of this ordinance.
3540
- 3541 C. Exempt lighting. The provisions above shall not apply to streetlights, single-family residences,
3542 duplexes, or governmental facilities.
3543

CHAPTER 7. SCREENING

This Chapter shall not apply to single-family detached or duplex residential development.

Section. 5.7.1. Screening of rooftop equipment.

All rooftop equipment shall be screened from view from the right-of-way or adjacent properties by the use of a parapet wall or other architectural feature to screen the equipment or shall be set back adequately from the building edge to conceal the equipment from adjacent properties at ground level.

Section. 5.7.2. Screening of storage areas.

- A. All permitted storage areas shall be screened from adjacent properties and the right-of-way. Permissible screening materials include:
 - B. A six-foot high wall of concrete or similar approved material, Section. 5.2.7 on walls;
 - C. A six-foot high opaque fence of an approved material, Section. 5.2.7 fences; or
 - D. A vegetative buffer, consisting of two staggered rows of shrubs a minimum of three feet tall at planting. The buffer shall create a dense barrier, at 80% opacity, within two years.

Section. 5.7.3. Air conditioning units and mechanical equipment.

- A. All mechanical equipment at ground level shall be screened from adjacent property and the right-of-way. When possible, sound deadening materials shall be used. Permissible screening materials include:
 - 1. A wall or opaque fence of adequate height to screen the view of the equipment, see Section. 5.2.7 for approved materials.
 - 2. A vegetative buffer, which meets the specifications in Section 5.6 for a four-foot tall buffer.

Section. 5.7.4. Permanently installed stand-by generators.

Permanently installed stand-by generators serving all properties other than single-family and duplex residences where life and safety does not depend on the performance of the system.

- A. The generator may only be used in emergency situations when there is a power outage.
- B. Repairs and testing may only occur during daylight hours a maximum of once per week.
- C. Installation of a generator shall comply with the following restrictions:
 - 1. The generator shall not encroach more than three feet into any required setback, and in no case shall be any closer than two and one-half feet from any property line. The generator shall not be installed in an easement.
 - 2. The generator shall be screened from public view by:
 - a. A vegetative buffer which meets the specifications in Section 5.6 for a five-foot high hedge; or
 - b. A wall or opaque fence, of an adequate height to screen the equipment, which meets the specifications of Section 5.2.7.

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 3599
3600 3. Permanent signs shall be placed at the electrical service indicating the type and location of the
3601 generator.
3602

3603 **CHAPTER 8. NON-RESIDENTIAL DESIGN STANDARDS.**

3604
3605 **Section 5.8.1. Purpose and Intent.**
3606

3607 The appearance of non-residential and mixed-use development affects the visual image and
3608 attractiveness of the City of Cape Coral. Utilitarian design and developments with minimal architectural
3609 features detract from the city's image and character. The purpose and intent of the non-residential design
3610 standards is to promote the City as an attractive destination for tourists and residents, and to support
3611 economic vitality while protecting the public health, safety, and welfare. These regulations intend to:
3612

- 3613 A. Enhance the visual image and attractiveness of the City;
3614
3615 B. Establish reasonable standards that offer flexible and diverse design options;
3616
3617 C. Ensure development in Cape Coral is of consistent high quality and character; and
3618
3619 D. Regulate site layout and architectural features to ensure aesthetic and visual interest.
3620

3621 **Section 5.8.2. Applicability.**
3622

- 3623 A. The standards of this section shall apply to all non-residential and mixed-use development for which
3624 application for site plan approval, or a building permit is made.
3625
3626 B. These design standards shall apply to existing development if a building's gross floor area is increased
3627 by 50% or more.
3628
3629 C. Development on Industrial zoned sites shall be exempt from these standards.
3630
3631 D. The design standards of this section do not apply when the City Council has established specific design
3632 standards for a unique area of the city unless the specific design standards otherwise expressly state
3633 their applicability.
3634

3635 **Section 5.8.3. Exemptions.**
3636

3637 The following types of buildings shall be exempt from the non-residential design standards.

- 3638
3639 A. Any building that has received a temporary use permit.
3640
3641 B. Any accessory structure.
3642
3643 C. Bona fide agricultural buildings in the Agricultural and RE Districts such as barns and stables.
3644

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 3645 D. Guard houses.
3646
3647 E. Government facilities that are screened or not visible from a public street.
3648
3649 F. Model homes.
3650
3651 G. Municipal pump station buildings.
3652
3653 H. Self-storage buildings provided the buildings are enclosed with a wall with a minimum height of eight
3654 feet.
3655
3656 I. Pavilions, carports, gas canopies, and similar buildings that have support posts or columns but no sides
3657 except for roof treatments as required in Section 5.8.8.
3658
3659 J. Buildings similar to those listed above as determined by the Director.
3660

3661 **Section 5.8.4. Conflicts.**
3662

3663 If any of the non-residential and mixed-use design standards of this section conflict with any other
3664 provision of the City of Cape Coral Code of Ordinances or Land Development Code, the provision that
3665 establishes the more specific standard or architectural theme governs. If neither conflicting provision
3666 establishes a specific standard or architectural theme, then the more restrictive provision governs unless
3667 otherwise expressly provided.
3668

3669 **Section 5.8.5. Appearance, Building Mass, and Design Treatments.**
3670

- 3671 A. Consistency Within a Development. Except for buildings on outparcels that contain only one unit,
3672 designed and constructed to be occupied by a single end user, regardless of the number of business
3673 operations conducted within the single unit, buildings within a development shall be designed with
3674 color schemes, building materials, finishes, roof types, roof lines, and exterior roof finishing consistent
3675 with or that resemble those of the principal building or structure on the main parcel(s).
3676
3677 B. Consistency and Integrity of Building Components. All portions of any exterior side of a building,
3678 extending from finished grade to the top of the parapet wall or eaves, extending the entire width of
3679 the side of a building, must be designed with consistent architectural style, detail and trim features.
3680 All architectural features other than parapet walls, including towers or cupolas, shall be designed so
3681 as to have an equivalent character from any ground-level angle from which they can be viewed.
3682
3683 C. Glazing.
3684
3685 1. For buildings abutting and facing a public street, transparent windows, doors, or any combination
3686 thereof, shall cover at least 25% of the first story building wall area from grade to a height of 10
3687 feet.
3688

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 3689 2. For buildings with walls abutting but not facing a public street, transparent windows, doors, or
3690 any combination thereof, shall cover at least 15% of the first story building wall area from grade
3691 to a height of 10 feet
3692
- 3693 3. For lots abutting dedicated city parking areas or portions of alleys abutting dedicated city parking
3694 areas, transparent windows, doors, or any combination thereof, shall cover at least 25% of the
3695 first story building wall area from grade to a height of 10 feet.
3696
- 3697 D. Sides of a building. For buildings located on outparcels, all exterior sides of a building shall comply
3698 with this section. Additionally, except for a side of a building built flush with a side lot line, a side of a
3699 building that faces a rear lot line of an abutting property, and a side of a building that faces a property
3700 line that abuts an alley, all sides of a building shall comply with the standards of this section.
3701
- 3702 1. All exterior sides of a building subject to this subsection shall include a repeating or varying
3703 pattern and shall comply with both design elements listed below. At least one of the three design
3704 elements shall repeat horizontally. All elements shall repeat or alternate at intervals of no more
3705 than 50 feet, either horizontally or vertically.
3706
- 3707 a. Each wall shall provide visual differentiation of wall surfaces through variations in a minimum
3708 of one of the following:
3709 i. Building materials;
3710 ii. Finish textures; or
3711 iii. Color.
3712
- 3713 b. Each wall shall provide a minimum of two of the following architectural features:
3714 i. Columns;
3715 ii. Pilasters;
3716 iii. Awnings;
3717 iv. Canopies;
3718 v. Reveals (if provided shall have a minimum depth of ½ inch);
3719 vi. Corbels;
3720 vii. Quoins ;
3721 viii. Keystones;
3722 ix. Cornices (if provided shall have a minimum height of four inches); or
3723 x. Other features as determined by the DCD Director that provide articulation or reduce
3724 building massing.
3725
- 3726 2. All exterior sides of a building shall provide a minimum number of design elements among
3727 elements a. thru r. below in accordance with the gross square footage of a building, as provided
3728 herein. Required design elements may be located on an exterior wall of a building, on the roof of
3729 the building, or on both the wall(s) and the roof of a building, as applicable. If located on a roof,
3730 the design element shall be located on a portion of the roof that faces in the same direction as
3731 the exterior wall. It is not the intent of this section, however, to require the design elements to
3732 be on both the exterior wall(s) and the roof.
3733

Building Gross Floor Area (sq. ft.)	Minimum number of Design Elements Required
-------------------------------------	--

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

10,000 sq. ft. or less	3
10,001 to 49,999 sq. ft.	4
50,000 sq. ft. or greater	5

- 3734
- 3735 a. Architectural features and detailing that create a frame and definition to the primary public
- 3736 entrance;
- 3737
- 3738 b. One or more canopies or awnings that extend a total length of at least 30% of the length of
- 3739 any side of a building subject to this subsection;
- 3740
- 3741 c. One or more attached porticos;
- 3742
- 3743 d. Peaked or arched roof form;
- 3744
- 3745 e. Overhanging eaves a minimum of 18 inches wide on all portions of a building with a pitched
- 3746 roof;
- 3747
- 3748 f. Arcade;
- 3749
- 3750 g. Colonnade;
- 3751
- 3752 h. Arches or arched forms other than roof forms or an arcade;
- 3753
- 3754 i. Windows or glazing that exceed the minimum glazing requirements of Subsection 5.8.5.C. by
- 3755 a minimum of 10% for a wall;
- 3756
- 3757 j. Ornamental or structural details, including, banding or moldings used throughout the exterior
- 3758 building walls that add decoration and detail to a building roofline, building openings, or
- 3759 windows;
- 3760
- 3761 k. Two or more ornamental or structural details that are horizontally continuous (except for
- 3762 interruptions for doors and windows), which may include belt courses or any type of three-
- 3763 dimensional molding, banding, projections, recesses, or niches that help to define a base,
- 3764 body, and cap to the proposed building;
- 3765
- 3766 l. A tower such as a clock tower or bell tower;
- 3767
- 3768 m. A cupola;
- 3769
- 3770 n. Sculptured artwork (excluding corporate logos or advertising);
- 3771
- 3772 o. Vertical articulation of walls, including pilasters, columns, or other relief with maximum
- 3773 separation of one third of the wall on which they are located, not to exceed a separation of
- 3774 100 feet;
- 3775
- 3776 p. Planter boxes that are integrated into the building architecture or wing walls that incorporate
- 3777 landscaped areas or places for sitting; or

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 3778
- 3779 q. Curved wall containing an uninterrupted curve along at least 10% of the length of any side of
- 3780 a building subject to this subsection.
- 3781
- 3782 r. One or more vegetated trellises that occupy a minimum of 25% of the area of a single wall.
- 3783
- 3784 3. For buildings with a gross floor area of greater than 50,000 square feet, no exterior wall shall
- 3785 exceed 100 linear feet in a horizontal direction within a single, continuous wall plane, nor shall
- 3786 any single, continuous wall plane constitute more than 60% of the building's total length. A wall
- 3787 shall be deemed to be in a single, continuous wall plane unless it is offset (recessed or projected)
- 3788 by at least 24 inches from any adjacent wall plane or contains a pilaster that projects at least 36
- 3789 inches from the wall.
- 3790

3791 **Section 5.8.6. Wall Height Transition.**

3792

- 3793 A. Buildings that are more than twice the height of the height of extant buildings on abutting property
- 3794 shall incorporate one or more transitional height elements to segue the height of the new building to
- 3795 the height of the closest existing building. The transitional height element shall be incorporated on
- 3796 the new building at the approximate cornice or roof line of the nearest existing building, if any. Where
- 3797 there is no extant building on adjacent property, the requirements of this sub-section will not apply.
- 3798 Where no single building is "nearest" to the new building, but instead two or more buildings are
- 3799 located an equidistance from the new building, the property owner may select the approximate
- 3800 cornice or roof line of any of such equidistant buildings at which to incorporate the transitional height
- 3801 element on the new building.
- 3802
- 3803 B. Transitional height elements may include:
- 3804
- 3805 1. Cornices or other decorative elements that run the length and width of the building and project
- 3806 a minimum of six inches from the wall;
- 3807
- 3808 2. Upper story setbacks and offsets at the approximate cornice or roof line of the nearest existing
- 3809 building as provided above;
- 3810
- 3811 3. Variations in roof planes.
- 3812

3813 **Section 5.8.7. Building Materials.**

3814

- 3815 Only the following finish materials for exterior walls are permitted. All other finish materials are
- 3816 prohibited.
- 3817
- 3818 A. Concrete block with stucco finish (CBS), synthetic stucco (an exterior cladding system with a stucco-
- 3819 like outer finish applied over insulating boards or composite materials), or other exterior coating that
- 3820 is the visual equivalent of stucco. Non-textured concrete block with visible mortar joints, even if
- 3821 painted, is not an acceptable finished material.
- 3822
- 3823 B. Textured or ribbed concrete block, e.g. "split-face block".

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 3824
3825 C. Reinforced concrete of any finish.
3826
3827 D. Glass or other glazing, whether transparent, translucent, or applied as a veneer. For purposes of this
3828 subsection, glazing consists of glass or any material that resembles glass including, but not limited to,
3829 Plexiglass or polycarbonate.
3830
3831 E. Stone or brick, including simulated stone or brick.
3832
3833 F. Wood, other than plywood or T1-11 type paneling, if termite-resistant species, pressure-treated,
3834 painted, or stained.
3835
3836 G. Fiber-reinforced cement panels or boards.
3837
3838 H. Tile.
3839
3840 I. Architectural metal panels, provided that corrugated metal panels shall not exceed 30% of the surface
3841 of any wall.
3842
3843 J. Vinyl siding, provided that vinyl siding shall not exceed 30% of the surface of any wall.
3844
3845 K. Cargo or shipping containers, provided that any exterior wall of the container is completely sheathed
3846 with one of more of the allowable materials listed in this subsection.
3847

3848 **Section 5.8.8. Roofs.**

- 3849
3850 A. All non-residential and mixed-use buildings shall have variations in rooflines and roof features that
3851 are consistent with the building's mass and scale. In addition, roofs shall include features from at least
3852 two of the following five categories below.
3853
3854 1. Parapet wall provided the parapet extends completely around the building on all sides. However,
3855 this requirement shall not prohibit the substitution of a pitched roof in lieu of a parapet for part
3856 of a building.
3857
3858 2. A three-dimensional cornice treatment, a minimum of four inches high (not applicable along any
3859 portion of a wall that is built flush to the side lot line). Flashing at the top of a parapet shall not
3860 qualify as a cornice. Cornices shall return a minimum of eight feet around corners that transition
3861 from a building wall that requires a cornice to a building wall that does not require a cornice.
3862
3863 3. Varied roof lines with different roof heights and or separate or distinct roof segments that fall at
3864 different horizontal planes above the cornice line;
3865
3866 4. Overhanging eaves that extend at least 18 inches beyond the supporting walls, with a minimum
3867 fascia of six inches in height (not applicable along any portion of a wall that is built flush to the
3868 side lot line);
3869

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 3870 5. Vertical variation in the roof line with a minimum change in elevation of two feet.
3871
3872 B. Pitched roofs such as gable, hip, shed or mansard roofs shall be clad with highly durable materials such
3873 as standing seam metal, slate, ceramic, or fireproof composite tiles. Fiberglass and asphalt shingles
3874 are prohibited except for dimensional grade or better.
3875
3876 1. Allowed slope. Pitched roofs shall have a minimum slope of three feet vertical rise for every 12
3877 feet of horizontal run. The maximum slope of a pitched roof shall not exceed a one-foot vertical
3878 rise for every on foot of horizontal run.
3879
3880 C. Roofs covering pavilions, carports, gas canopies, and similar structures with support posts or columns
3881 but no sides. Buildings with roofs that lack walls, whether free-standing or attached to another
3882 building, shall have a minimum slope of three feet vertical rise for every 12 feet of horizontal run.
3883 Unless a roof with an alternative design is approved by the DCD Director, all roofs are required to
3884 possess a pitched roof with a minimum slope of three feet vertical rise for every 12 feet of horizontal
3885 run. The DCD Director shall consider the following two criteria in determining whether to approve a
3886 roof with an alternative design:
3887
3888 1. Whether the design of the roof evokes exceptional expression through the use of angularity,
3889 curvature, or other means; or
3890
3891 2. Whether the design of the roof precludes visual monotony and enhances the aesthetic character.
3892
3893 Flat and parapet roofs are prohibited for buildings covered by this subsection.
3894

Section 5.8.9. Building Design Standards in the SC and MXB Districts.

- 3895
3896
3897 A. All buildings, whether residential, nonresidential or compound use, shall conform to the design
3898 standards provided herein., except as superseded by the following requirements.
3899
3900 B. Public entrances. Public entrances shall be provided as follows:
3901
3902 1. Any building facade that faces a street (excluding alleys) shall provide a public entrance oriented
3903 toward such street. In the case of a corner lot where more than one building facade faces a street,
3904 a corner entrance may serve to meet the requirements for the two streets that intersect and
3905 create the corner. All public entrances shall have convenient pedestrian access providing a direct
3906 connection from the street to the entrance via a walkway a minimum of four feet in width and
3907 not traversing any portion of an off-street parking area. In the event the City determines that this
3908 provision cannot be met due to site constraints, such walkway may traverse the off-street parking
3909 area but shall be clearly delineated by a change in paving material, pavement markings, or similar
3910 treatment.
3911
3912 2. Any building facade that faces a dedicated city parking area shall provide a public entrance
3913 oriented toward such dedicated city parking area with convenient pedestrian access providing a
3914 direct connection via a walkway a minimum of four feet in width.
3915

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 3916 3. It is not the intent of these provisions to require more than two public entrances to any use
3917 intended to be occupied by a single tenant. In the event that the provisions above cumulatively
3918 require more than two public entrances, then the requirements may be reduced such that two
3919 public entrances shall be required. In determining the orientation of such public entrances.
3920 Parkway street designations and dedicated city parking areas shall have priority.
3921
- 3922 C. Transparency of building walls. Except for parking structures, building walls shall contain transparent
3923 windows, doors, or any combination thereof, meeting the following standards:
3924
- 3925 1. For lots abutting primary or secondary street designations, transparent windows, doors, or any
3926 combination thereof, shall cover at least 50% of the first story building wall area that faces the
3927 primary or secondary street designation. Above the first story, non-residential uses, except hotels,
3928 shall provide transparent windows, doors, or any combination thereof, covering at least 25% of
3929 the entire building wall area; residential and hotel uses shall provide at least 15%.
3930
- 3931 2. For lots abutting local street designations, non-residential uses, except hotels, shall provide
3932 transparent windows, doors, or any combination thereof, covering at least 25% of the entire
3933 building wall area that faces the secondary or tertiary street designations; residential and hotel
3934 uses shall provide at least 15%.
3935
- 3936 3. For lots abutting dedicated city parking areas or portions of alleys abutting dedicated city parking
3937 areas, non-residential uses, except hotels, shall provide transparent windows, doors, or any
3938 combination thereof, covering at least 25% of the entire building wall area that faces the
3939 dedicated city parking area; residential and hotel uses shall provide at least 15%.
3940
- 3941 4. Non-residential use building walls facing navigable waterways shall provide transparent windows,
3942 doors, or any combination thereof, covering at least 25% of the entire building wall area.
3943
- 3944 5. The exterior of windows and doors shall remain unshuttered at all times of the day. This provision
3945 shall not apply to the following:
3946
- 3947 a. Un-walled areas such as, but not limited to, dining and seating areas associated with
3948 restaurants and bars.
3949
- 3950 b. Hurricane shutters or flood-proofing panels during the time period in which a flood watch or
3951 warning, a tropical storm watch or warning, or a hurricane watch or warning is in effect for
3952 any portion of Lee County. Such shutters or panels shall be removed within a week from the
3953 time they are put up, unless a hurricane, tropical storm, or flood has impacted the area, in
3954 which case the shutters may remain up for not more than three months from the date of the
3955 incident, except for good cause shown to the City.
3956
- 3957 D. Non-residential buildings with a first story consisting of more than 35,000 square feet of floor area
3958 and consisting of a single use shall meet the following requirements:
3959
- 3960 1. One public entrance shall be provided for every 75 feet of overall building frontage; or
3961

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 3962 2. Liner buildings meeting the following requirements shall be provided:
3963
3964 a. Liner buildings shall be provided along at least 50% of the overall building frontage.
3965
3966 b. Liner buildings shall contain active uses with at least one public entrance provided for every
3967 75 feet of liner building frontage. Such liner buildings shall comply with all applicable building
3968 setbacks and building frontages.
3969
3970 c. Liner buildings shall have an interior depth of at least 15 feet.
3971
3972 d. Liner buildings may be detached from, attached to, or integrated into the principal building.
3973
3974 E. Architectural elements design standards: awnings, canopies, colonnades, arcades, balconies, front
3975 porches, stoops/landings, and cupolas. A first story facade facing a street or dedicated city parking
3976 area shall provide shade with awnings, canopies, colonnades, arcades, balconies, or any combination
3977 thereof, for at least 50% of its length or width, unless prohibited by Article 4, Chapter 5.
3978 Notwithstanding Section 5.1.6 of the LDC, architectural elements or any combination of architectural
3979 elements, may occur forward of the minimum setback, as applicable, but shall not extend forward of
3980 a lot line, except as provided herein. Notwithstanding Section 5.1.8 of the LDC, architectural elements,
3981 or any combination of architectural elements may extend forward of a lot line into the public right-
3982 of-way with the approval of the City Manager. The city may require the property the property owner
3983 to enter into a formal easement agreement or formal right-of-way agreement in a form acceptable to
3984 the City Attorney. The owner of the structure containing the architectural elements encroaching into
3985 the easement or right-of-way is solely responsible for repairing any damage to encroachments in the
3986 easement or right-of-way that result from maintenance or public infrastructure improvements. The
3987 property owner must comply with the provisions of Section 5.8.9.E.1-8 below.
3988
3989 1. The City Manager shall consider the following criteria in determining whether to approve an
3990 architectural element, or any combination of architectural elements, that would encroach into
3991 the easement or public right-of-way.
3992
3993 a. The extent to which the architectural element would encroach into the easement or right-of-
3994 way;
3995
3996 b. The effect of such encroachment on any utilities that are either currently located in the
3997 easement or right-of-way or that may be located in the easement or right-of-way in the
3998 future; and
3999
4000 c. The effect of such placement on any abutting properties or streetscape and on the navigability
4001 of the public right-of-way.
4002
4003 2. Awnings and canopies. Awnings and canopies extending from the first story, facing a street or
4004 dedicated city parking area, and serving to meet the 50% length/width requirement of Article 4,
4005 Chapter 5 shall conform to the following:
4006
4007 a. Depth shall be a five-foot minimum projection from the building facade.

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 4008
- 4009 b. Height shall be an eight-foot minimum clearance, including suspended signs.
- 4010
- 4011 3. Colonnades and arcades. Colonnades and arcades facing a street or dedicated city parking area
- 4012 shall conform to the following:
- 4013
- 4014 a. Depth shall be a minimum of five feet from the building wall to the inside column face.
- 4015
- 4016 b. Height shall be an eight-foot minimum clearance, including suspended signs. The lowest point
- 4017 on arches shall not extend below seven feet.
- 4018
- 4019 c. Openings between piers, columns, or similar supporting elements shall be at least 50% of the
- 4020 colonnade or arcade facade area.
- 4021
- 4022 d. Open multi-story verandas, awnings, balconies, and enclosed habitable space shall be
- 4023 permitted above the colonnade or arcade.
- 4024
- 4025 4. Balconies. Balconies shall be open and un-air-conditioned. Balconies may have roofs. Roofed
- 4026 balconies may be enclosed with screen and may contain privacy partitions. Balconies shall not
- 4027 project beyond the rear building setback requirement, as applicable. Balconies shall be located
- 4028 no closer than six feet from the abutting side lot line. Balconies facing a street or dedicated city
- 4029 parking area shall have a height clearance of ten feet minimum from grade; their decorative or
- 4030 supporting elements that project from building walls shall have a clearance of seven feet from
- 4031 grade.
- 4032
- 4033 5. Front porches. Front porches shall be un-air-conditioned. may be screened, and shall conform to
- 4034 the following:
- 4035
- 4036 a. Front porches facing a street or dedicated city parking area and serving to meet the minimum
- 4037 building frontage requirements of Article 4, Chapter 5 shall be a minimum of eight feet in
- 4038 depth.
- 4039
- 4040 b. Open multi-story verandas, awnings, balconies, and enclosed habitable space shall be
- 4041 permitted above front porches.
- 4042
- 4043 6. Stoops and landings. Stoops and landings may be roofed or unroofed, and shall maintain the
- 4044 required minimum building setback, as applicable. However, access to a stoop, whether by stairs,
- 4045 ramp, or other means, may extend forward of the minimum building setback as applicable, if
- 4046 approved by the Director but shall not be located less than three feet from the front lot line.
- 4047
- 4048 7. Cupolas. When provided, cupola(s) shall have a maximum of 400 square feet in horizontal
- 4049 dimension and shall be limited to two per building.
- 4050
- 4051 8. Garage doors associated with residential uses, when facing the front of the lot, shall be set back
- 4052 at least 20 feet behind the building line.
- 4053

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

4054 **Section 5.8.10. Equipment and Loading Areas**

4055
4056 A. For all non-residential and mixed-use developments, air conditioning, heating, and similar equipment
4057 shall be placed on the roof or the ground.

4058
4059 1. Air conditioning and heating equipment shall be prohibited from being mounted on the side of a
4060 building.

4061
4062 2. Rooftop equipment shall be screened on all sides in a manner consistent with the architectural
4063 design of the building. Such screening shall be at least as high as the highest portion of the
4064 equipment or apparatus being screened.

4065
4066 3. Equipment located on the ground shall be located or screened so as not to be visible from any
4067 property line abutting a public street other than an alley when viewed along a line perpendicular
4068 or radial to such property line. Screening shall consist of a wall, fence, plant material, or any
4069 combination thereof. Fences used for screening shall not be constructed of chain link with or
4070 without slats and are encouraged to be designed to appear to be constructed of material the same
4071 as the building, and to incorporate architectural trim features consistent with the building.

4072
4073 4. Electric meters and similar panels may be wall-mounted and are subject to the same screening
4074 requirements outlined in subsection c. above. In lieu of screening, the equipment may be painted
4075 to match the color of the building.

4076
4077 5. Attic vents and solar panels are exempt from the requirements of this subsection.

4078
4079 B. Loading areas that are visible from an abutting property with a residential future land use
4080 classification or that is separated from a property with a residential future land classification by an
4081 alley or a two-lane street shall be screened by a wall that is at least six feet in height, which is
4082 constructed of the same material as the building or is designed to appear to be constructed of material
4083 the same as the building, and that incorporates architectural trim features consistent with the
4084 building, by an earthen berm that is at least six feet in height, or by a combination of wall and berm
4085 that is at least six feet in height.

4086
4087 **Section 5.8.11. Deviations.**

4088
4089 A. Deviations from the provisions of this section may be approved by the Director provided that the
4090 deviation will not be contrary to the public interest and will be in harmony with the general intent
4091 and purpose of this section and where either of the following applies:

4092
4093 1. Conditions exist that are not the result of the applicant and which are such that a literal
4094 enforcement of the regulations involved would result in unnecessary or undue hardship; or

4095
4096 2. Literal conformity with the regulations would inhibit innovation or creativity in design.

4097
4098 B. In determining whether a particular deviation request should be approved as the result of
4099 unnecessary or undue hardship, factors the Director shall consider include, but are not limited to, the

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

4100 following: site constraints such as shape, topography, dimensions, and area of the property, the effect
4101 other regulations would have on the proposed development, or other locational factors that may
4102 make compliance with this section impossible or impracticable, the effect the requested deviation
4103 would have on the community appearance including, but not limited to, consideration of the mass,
4104 scale, and other characteristics of a proposed building relative to the characteristics of existing and
4105 approved surrounding buildings whether on the same or nearby sites, and the relative visibility and
4106 character of equipment or loading areas which are otherwise required to be screened along with
4107 constraints on alternative location of such equipment or loading areas. Additionally, the Director shall
4108 find that the approval of the deviation(s) would serve the intent of this section to protect the health,
4109 safety, and welfare of the public while ensuring a high level of overall aesthetic appeal and visual
4110 interest in the city.

4111
4112 C. In determining whether a particular deviation request should be approved because compliance with
4113 the regulations would inhibit innovation or creativity in design, the Director approve the request for
4114 deviation(s) if the applicant demonstrates that the design of the building or development for which
4115 one or more deviations is sought is unique and innovative and further, that the approval of the
4116 deviation(s) would enhance such unique and innovative design. Additionally, the Director shall find
4117 that the approval of the deviation(s) would serve the intent of this section to protect the health,
4118 safety, and welfare of the public while ensuring a high level of overall aesthetic appeal and visual
4119 interest in the city. For purposes of this section, indicators of unique and innovative design may
4120 include, but are not limited to, the following:

- 4121
4122 1. Architectural details that are unique or that are exceptional in quality by virtue of artistic
4123 composition, quality of materials, dimensional attributes, or any combination thereof;
4124
4125 2. Building forms that evoke exceptional expression through use of angularity, curvature, or other
4126 means;
4127
4128 3. Design elements or other forms that achieve dynamic or symmetric aesthetic balance; or
4129
4130 4. Other details or forms that preclude visual monotony and are pleasing in aesthetic character.

4131
4132 D. Requests for deviations and the reasons therefor shall be set forth by the applicant in the application
4133 for deviation and shall be accompanied by documentation including sample detail drawings,
4134 schematic architectural drawings, site plans, floor plans, elevations, and perspectives which shall
4135 graphically demonstrate the proposed deviation(s) and illustrate how each deviation would operate
4136 to the benefit or at least not to the detriment, of the public interest.

4137
4138 E. Subject to these standards and criteria, the Director shall approve only the minimum deviation from
4139 the provisions of this section necessary to avoid either the unnecessary or undue hardship or the
4140 inhibition of innovation or creativity in design. The Director may impose reasonable conditions of
4141 approval in conformity with this section. Violation of such conditions and safeguards, when made a
4142 part of the terms under which a deviation is granted, shall be deemed a violation of this section and
4143 shall be enforceable not only by revocation of the deviation, but also by all other remedies available
4144 to the city, including, but not limited to, all code enforcement procedures.

4145

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

4146 **CHAPTER 9. TEMPORARY USES.**

4147

4148 **Section. 5.9.1. Purpose and applicability.**

4149

4150 A. The purpose of this Section is to ensure all temporary events and activities are located and
4151 coordinated in harmony with the surrounding community. Temporary uses are authorized in this
4152 article as temporary accessory or principal uses for time periods proportionate and appropriate to the
4153 nature of the temporary use. Temporary uses permitted by this article may not be listed as a use in a
4154 particular zoning district. Temporary uses not listed in this article may be permitted through a
4155 temporary use agreement approved by the Director of Community Development

4156

4157 B. All temporary uses and special events approved subject to the standards and requirements set forth
4158 under this article are deemed to be a privilege and not a right, which may be revoked by the city for
4159 failure to comply with any of the provisions of this article or any other local, state, or federal law
4160 governing the event. Approved temporary uses and special events may also be revoked if such
4161 revocation is in the best interest of the city based on emergency, disorder, or other unforeseen
4162 conditions. Private events held on private property shall not require a temporary use permit. Signs
4163 shall be limited to the signs permitted in Section 5.9.10 of this article and shall not be allowed within
4164 the right-of-way.

4165

4166 C. Application for a temporary permit.

4167

4168 1. Temporary use permits shall be coordinated by the Community Development department who
4169 may request reviews from the Fire, Police, Building, and Public Works departments as necessary
4170 to ensure safety.

4171

4172 2. If a temporary use or event is proposed at a public park property, an application must be
4173 submitted to the Parks and Recreation Department along with any applicable fees and proof of
4174 insurance.

4175

4176 3. Private events held on private property shall not require a temporary use permit.

4177

4178 **Section. 5.9.2. Firework, pumpkin, and Christmas tree sales.**

4179

4180 Temporary outdoor sales are prohibited, except as provided here in. Excepted seasonal events involving
4181 outdoor sales of merchandise shall meet all appropriate requirements of the Building Code, Electrical
4182 Code, Fire (Life Safety) Code, and Plumbing Code, particularly regarding temporary sanitary facilities.
4183 Temporary outdoor sales are prohibited unless they have applied for and received all required permits in
4184 compliance with this Subsection. Firework, pumpkin, and Christmas tree sales may be in all nonresidential
4185 zoning districts except the Preservation and Public Zoning Districts subject to the following:

4186

4187 A. Application. A complete application must be submitted to the Department of Community
4188 Development, along with a conceptual site plan.

4189

4190 B. Dates and hours of operation:

4191

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 4192 1. Firework sales may be operated from December 15 through January 1 and from June 1 through
4193 July 10;
4194
4195 2. Pumpkin sales may be operated from October 1 through November 5;
4196
4197 3. Christmas tree sales may be operated from November 15 to January 1; and
4198
4199 4. Lots may be open from 8 AM to 10 PM.

4200
4201 C. Parking and facilities.
4202

- 4203 1. Temporary sales lots must provide five parking spaces per half acre. A paved parking lot shall not
4204 be required.
4205
4206 2. Permission to place one or more tents (up to a total of 425 square feet in size) on the site, provided
4207 that the applicant provides proof of fire-retardancy and adequate tie-down measures with the
4208 application. Tents larger than 425 square feet shall require a separate tent permit. The location
4209 and setback of the tent(s) shall be shown on the conceptual site plan. If a sales trailer is being
4210 used in lieu of a sales tent, the sales trailer shall be handicap-equipped and accessible in
4211 accordance with the Florida Accessibility Code for Building Construction and ADA requirements
4212 and shall be anchored in accordance with all applicable building code standards.
4213
4214 3. Permission to utilize an electric generator on site. A temporary electric pole shall not, however,
4215 be authorized by the temporary sale permit. A temporary electric pole shall require a separate
4216 permit to be applied for and issued to a licensed electrical contractor.

- 4217
4218 D. The Director may approve temporary outdoor seasonal sales in the RML zoning district, if it is
4219 determined that such sale would not result in adverse impacts on the surrounding neighborhood.
4220 Approval of a season sale in the RML district may include conditions to protect the surrounding
4221 neighborhood from adverse impacts.
4222

- 4223 E. The applicant shall request inspection by the city of the items authorized pursuant to this Section and
4224 shall receive approval thereof prior to beginning the sale activity. Inspection of items authorized
4225 pursuant to this Section shall be made by the Community Development and Fire Departments.
4226

4227 **Section. 5.9.3. Outdoor display of merchandise.**
4228

4229 Unless otherwise permitted, outdoor display of merchandise is prohibited, except on improved property
4230 in accordance with the following conditions:
4231

- 4232 A. All outdoor display of merchandise in non-residential districts are prohibited with the exception of
4233 the following items listed below when displayed in conjunction with an existing licensed business
4234 location which retails the items: boats; displays of new or used cars by auto dealerships or auto
4235 rental companies; bicycles; motorcycles; garden equipment such as lawnmowers, tillers, and
4236 edgers; landscaping nursery items displayed by a nursery business; tires as displayed in service
4237 stations; vehicles displayed as part of a temporary off-site vehicle sale approved pursuant to this

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

4238 Code; temporary sales approved pursuant to this Code; and seasonal fundraising events approved
4239 pursuant to this Code. In addition to the foregoing, the outdoor displays of fruit, vegetables,
4240 flowers, jewelry, books, or antiques are allowed in the South Cape zoning district. This restriction
4241 shall not apply to special events approved pursuant to the Code.

4242
4243 B. All outdoor display of merchandise for sale, in non-residential districts is permitted with the following
4244 conditions:

4245
4246 1. Except in the South Cape zoning district, such displays may be no closer than 10 feet to the front
4247 or rear property lines and five feet to side property lines or 15 feet to the side property line on
4248 corner lots.

4249
4250 2. Displays may not be placed in required parking areas.

4251
4252 3. Displays may be placed on the public sidewalk subject to the following requirements:

4253
4254 a. Displays may be placed only directly in front of the lawfully existing business which retails the
4255 items being displayed;

4256
4257 b. Displays shall be placed on tables, shelves, or racks that are moved indoors during any hours
4258 the business is not open.

4259
4260 c. Displays shall not impede pedestrian circulation, use of the sidewalk, or ingress and egress to
4261 nearby buildings.

4262
4263 C. Outdoor display of merchandise for sale on vacant property is prohibited, except as permitted for
4264 seasonal events in accordance with Section 5.9.2. or special events in accordance with Section 5.9.10.

4265
4266 D. All outdoor displays of merchandise must be approved the City Council. Notice of the Council meeting
4267 shall be mailed to surrounding property owners with 500' of the site in question.

4268
4269 **Section. 5.9.4. Garage sales.**

4270
4271 Garage sales may be permitted on a private property in accordance with the following regulations:

4272
4273 A. Garage sales are permitted to be held for a period not to exceed three days, on the basis of three such
4274 activities per residence per year, not to be held closer than 30 days apart.

4275
4276 B. Prior to conducting a garage sale, the person conducting such sale is required to obtain a permit online
4277 from the city website or at the Code Enforcement Division. Such permit shall be posted or otherwise
4278 displayed on the property where the sale is being held to be visible from the street. In the event a
4279 garage sale is conducted without a permit, such sale shall be closed by the Police Department or the
4280 Code Enforcement Division, and shall remain closed until a valid garage sale permit is received from
4281 the city. Garage sale permits shall include authorization for on-site signs and off-site signs in
4282 accordance with applicable portions of the City of Cape Coral Land Development Code. On-site or off-
4283 site garage sale signs shall not be attached to any utility pole, street sign, tree, or other landscaping.

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 4284
4285 C. The purchase of items for resale at a residence, which in essence establishes a residence as a second-
4286 hand store, is hereby prohibited.
4287
4288 D. A violation of this Section shall be punishable by a fine of not less than \$75 and not more than \$250.
4289 Each day any violation of any provision of this Section occurs or continues shall constitute a separate
4290 offense. As an alternative, violators may be cited by a Code Enforcement Officer to appear before the
4291 Code Enforcement Special Master. In such event, violators shall be subject to fine(s) not to exceed
4292 \$250 per day for first time violations or not to exceed \$500 per day for repeat violations, as imposed
4293 by the Code Enforcement Special Master pursuant to the City of Cape Coral Code of Ordinances or the
4294 Florida Statutes. A person is subject to arrest if he or she refuses to close down a garage sale for which
4295 no valid permit is in effect.
4296

4297 **Section. 5.9.5. Temporary construction or field office.**
4298

- 4299 A. Construction trailers in residential zoning districts are subject to the following requirements.
4300
4301 1. Construction trailers shall not be connected to potable water and sewer facilities. If the
4302 construction trailer is wired for electricity, the wiring must conform to all applicable city
4303 electric codes.
4304
4305 2. The construction trailer must be removed from the site prior to issuance of a certificate of
4306 occupancy.
4307
4308 3. No overnight residential use shall be permitted in a construction trailer.
4309
4310 4. Construction trailers must comply with the setback requirements of the zoning district or the
4311 site.
4312
4313 5. Construction trailers shall not be larger than 200 square feet.
4314
4315 B. Construction trailers in non-residential zoning districts are subject to the following
4316 requirements.
4317
4318 1. When a construction trailer is used as a temporary office, the trailer must be wired for
4319 electricity and must be connected to potable water and sewer facilities, if available. Wiring
4320 and plumbing must conform to applicable Electric and Plumbing Codes.
4321
4322 2. The construction trailer must be located at the construction site or an abutting site with the
4323 property owner's written permission.
4324
4325 3. The construction trailer must be removed from the site prior to issuance of a certificate of
4326 occupancy.
4327
4328 4. No overnight residential use shall be permitted in a construction trailer.
4329

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

4330 5. Construction trailers must comply with the setback requirements of the zoning district or the
4331 site.
4332

4333 **Section 5.9.6. Construction staging areas for essential public facilities and post disaster debris staging**
4334

4335 A. Contractor staging for essential public facilities. Contractor staging areas for materials used in
4336 construction of essential public facilities are permitted in all zoning districts, subject to the following
4337 requirements:

4338 1. The temporary staging area shall serve a project being carried out in the vicinity of the
4339 construction staging area;

4340 2. No land clearing, removal of vegetation, or fill shall occur to accommodate the staging area;
4341

4342 3. All activities at the staging area shall occur between 7:00 a.m. to 7:00 p.m. Monday through
4343 Saturday only;

4344 4. Temporary fencing may be used to enclose the staging area;
4345

4346 5. No structures other than a permitted construction trailer may be placed on the property; and
4347

4348 6. No outdoor lighting is permitted for any staging area in a residential zoning district.
4349

4350 7. The staging area shall be restored upon completion of the work and restoration of any damage
4351 to any City facilities, such as roadside swales, pipes, catch basins, pavement, signs, striping, etc.
4352

4353 B. Construction staging areas. Construction staging areas are a permitted activity in all zoning districts,
4354 provided the staging area is on the same parcel where construction activity is authorized by a valid
4355 building permit. Construction staging areas on vacant, adjoining, or nearby parcels is prohibited.
4356

4357 C. Post disaster debris staging areas. Post disaster debris staging areas are allowed in all zoning
4358 districts on sites designated by the City for such activity.
4359

4360 D. Post disaster construction staging. Staging areas for post disaster reconstruction efforts are allowed
4361 in all non-residential zoning districts.
4362

4363 **Section. 5.9.7. Temporary sales office.**
4364

4365 A. Temporary sales offices are mobile structures used only for the sale or lease of units within that
4366 development. For the purpose of this section, units to be located within the development shall
4367 mean residential, non-residential, or mixed use habitable space or leasable floor area, whether
4368 occupying all of a building or individual area within a building including residential units,
4369 residential or non-residential units, individual units in a multi-unit non-residential development,
4370 or freestanding residential or non-residential structures.
4371
4372
4373
4374

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 4375 B. Requirements for a temporary sales office. The following requirements must be met prior to the
4376 approval of a temporary sales office:
4377
- 4378 1. Connection to sewer and water is required. If sanitary sewer and potable water are unavailable
4379 to the site, bottled water and portable sanitary facilities may be utilized until such time as
4380 sanitary sewer and potable water are available. A temporary sales office shall be connected to
4381 such facilities within 90 days of availability or within 90 days of the permitted temporary sales
4382 office, whichever is less.
4383
 - 4384 2. The temporary sales office shall meet the setbacks of the zoning district in which it is located.
4385
 - 4386 3. A temporary sales office shall not be used as a place of habitation or abode by any person(s),
4387 and shall not be used or occupied for business, office, or other purpose(s) at any time except
4388 between the hours of 7:00 a.m. and 9:00 p.m.
4389
 - 4390 4. A minimum of three paved off-street parking spaces shall be provided for the temporary sales
4391 office.
4392
 - 4393 5. The entrance to the site on which the temporary sales office is located shall consist of a city
4394 approved driveway or construction entrance. Any impervious area added for the temporary
4395 sales office shall be subject to review and approval by the city.
4396
 - 4397 6. The base of any temporary sales office shall be fully obscured by landscaping and skirting.
4398 Shrubs must be planted on 30-inch centers and have a minimum planted height of two feet.
4399 The type of irrigation, if applicable, must also be provided on the plan. Erosion shall be
4400 minimized and prevented to the extent practicable around any disturbed area.
4401
 - 4402 7. The maximum duration of the permit shall not exceed one year. The Director may extend
4403 permits for up to six months each, based upon factors that include:
4404
 - 4405 a. Size of the project.
 - 4406
 - 4407 b. Number of lots or units in the development remaining to be sold or leased.
 - 4408
 - 4409 c. Effect that the extension would have on the surrounding properties.
 - 4410
 - 4411 d. Developer's need for an extension and efforts, if any, the developer has put forward
4412 toward completion of the development (e.g., effort to complete construction in a timely
4413 manner, delays beyond the reasonable control of the developer, etc.).
4414
 - 4415 8. A temporary sales office shall be removed no later than the date the development is completed
4416 or within 30 days after notice by the city that the application for development has been denied,
4417 whichever is applicable.
4418

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

4419 C. Permit application and submittal requirements. A permit shall be required for a temporary sales
4420 office. In order to obtain a permit for the use of a structure for a temporary sales office, the
4421 applicant shall submit the following to the Department of Community Development:

4422
4423 1. A scaled drawing of the site, identifying the location of the temporary sales office with
4424 dimensions. Construction plans shall also be submitted.

4425
4426 2. The names of the property owner and the operator of the temporary sales officer. In the
4427 event the operator is different from the property owner, written and notarized consent from
4428 the property owner must be submitted. Such written consent shall be revocable. In the event
4429 such consent is revoked, the temporary sales office shall be removed within 30 days.

4430
4431 3. The length of time the temporary mobile sales office is proposed for the site.

4432
4433 4. The description of potable water and sanitary facilities that will be available for the
4434 temporary office.

4435
4436 D. Inspection by city officials. To ensure compliance with all applicable laws and regulations, the
4437 temporary sales office shall be held open for reasonable inspection, without court order, by
4438 employees or agents of the City of Cape Coral or any other duly authorized governmental agency.

4439
4440 **Section. 5.9.8. Temporary Storage Containers.**

4441
4442 A. Temporary storage containers are prohibited in any zoning district of the city, except as follows:

4443
4444 1. Residential zoning districts. No more than one temporary storage container per dwelling unit is
4445 permitted in residential zoning districts.

4446
4447 2. Non-residential zoning districts. No more than two temporary storage containers are permitted
4448 in non-residential zoning districts. In the case of multi-tenant non-residential properties, each
4449 business or tenant may have a temporary storage container.

4450
4451 3. This section is not intended to restrict the storage or location of temporary storage
4452 containers on the premises of a business which is lawfully engaged in the sale, rental, or
4453 distribution of such containers so long as the containers are on the property of such business
4454 as "merchandise" and not for temporary storage of items or goods.

4455
4456 4. The provisions of this section shall not apply to prohibit or restrict the location of temporary
4457 storage containers on any property for which a valid City of Cape Coral building permit has
4458 been issued and is in effect provided that the construction on the property has not been
4459 abandoned or allowed to lie idle in violation of Article 5-2 of the City of Cape Coral Code of
4460 Ordinances.

4461
4462 B. General Requirements:

4463

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 4464 1. No temporary storage container may be placed in one or more parking spaces if the required
4465 number of parking spaces is reduced below the minimum number of spaces required for the
4466 site.
4467
- 4468 2. No temporary storage container shall block or reduce access to fire lane(s), handicapped
4469 parking area(s), or drainage facilities or structures, including swales and catch basins.
4470
- 4471 3. Temporary storage containers shall not be placed in an easement or in any area designated
4472 as a buffer.
4473
- 4474 4. The maximum size of temporary storage containers shall not exceed ten feet in width, ten
4475 feet in height, or 40 feet in length.
4476
- 4477 5. Non-residential zoning districts. Temporary storage container permits are valid for 30 days.
4478 A maximum of two temporary storage container permits may be issued for a property or, in
4479 the case of multi-use or multi-unit properties, for each business or commercial enterprise
4480 located on the property in any calendar year. Temporary container permits may run
4481 consecutively without any minimum period required to elapse between the issuance of
4482 permits.
4483
- 4484 6. Residential zoning districts. Temporary storage container permits are valid for seven days. A
4485 maximum of two temporary storage container permits may be issued in any calendar year.
4486 Temporary container permits may run consecutively without any minimum period required
4487 to elapse between the issuance of permits. No dwelling unit shall utilize a temporary storage
4488 container for more than 14 days in any 12-month period.
4489

Section 5.9.9. Temporary Habitable Structures

- 4490
4491
- 4492 A. Purpose and intent. The purpose of this ordinance is to provide a means by which residents,
4493 business owners, governmental agencies, and medical facilities are able to live and conduct
4494 business on the same site as their damaged structure using temporary housing and temporary
4495 business structures. When disasters result in significant destruction rendering homes and
4496 businesses uninhabitable, temporary housing and temporary business structures will provide
4497 residents and businesses with the ability to quickly resume normal activities during the restoration
4498 of their permanent structures.
4499
- 4500 B. Definitions. Terms used in this subsection shall have the meanings as defined in Article 11,
4501 Definitions, unless the context clearly indicates or requires a different meaning.
4502
- 4503 C. Declaration of habitable structure emergency. Following a disaster, the city shall evaluate the
4504 effect of the disaster on the public health, safety, and welfare. If the City Council finds that the
4505 disaster has negatively affected residential housing or business structures in the city by a
4506 significant degree, the City Council may, by a majority vote, declare the existence of a habitable
4507 structure emergency. Upon the declaration of a habitable structure emergency by vote of the
4508 City Council, the provisions of this subsection shall become effective. The habitable structure
4509 emergency shall identify the disaster which created the emergency situation, and may be

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

4510 declared for either a specified period of time or an indefinite period of time. If the emergency is
4511 for an indefinite period of time, the emergency shall continue until City Council, by a majority
4512 vote, terminates the habitable structure emergency.
4513

4514 D. Habitable structure emergencies. During a habitable structure emergency, the city will allow, in
4515 accordance with the provisions set forth herein, the use of temporary structures. Temporary
4516 residential structures and temporary business structures must be approved by the city with a
4517 temporary placement permit. Application and issuance criteria for a temporary placement permit
4518 are as set forth below.
4519

4520 E. Temporary business structures may be used for business owners to provide a means for a business
4521 to remain open during the time the permanent business structure is being repaired or replaced.
4522 Temporary business structures may be used to provide temporary facilities for governmental uses,
4523 critical public facilities, charitable, religious, or educational institutions that have been rendered
4524 uninhabitable. The regulations for temporary business structures shall apply to temporary business
4525 structures used for governmental uses, critical public facilities, charitable, religious, or educational
4526 institutions. For these institutions, the habitable structure regulations shall apply; however, the
4527 Building Official may waive any regulations when strict enforcement may preclude them from
4528 carrying out their normal or emergency functions. Critical facilities shall be limited to the following:
4529

4530 1. Federal, state, regional, or local government facilities;
4531

4532 2. State, county, or local emergency operations centers;
4533

4534 3. Police, fire, and emergency medical facilities;
4535

4536 4. Radio and television stations;
4537

4538 5. Public, semi-public, and privately-owned utilities;
4539

4540 6. Hospitals, emergency medical care facilities, infusion centers, dialysis centers, physician's
4541 offices; and
4542

4543 7. Nursing homes and assisted living facilities.
4544

4545 F. Temporary placement permit. Following the declaration of a habitable structure emergency, a
4546 property owner may apply for a temporary placement permit (TPP) to locate onsite while the
4547 permanent structure is being repaired or rebuilt. A temporary placement permit (TPP) may be
4548 considered by the Building Official when the following criteria are met:
4549

4550 1. The existing permanent habitable structure has been determined to be uninhabitable as the
4551 result of a disaster by inspection of the city Building Official;
4552

4553 2. The property owner or occupant of a damaged structure desires to locate in a temporary
4554 residential or business structure; and
4555

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 4556 3. A habitable structure emergency must be in effect at the time of application.
4557
4558 G. Applications for temporary placement permits.
4559
4560 1. Application forms and required fees.
4561
4562 2. The following permits are required prior to application for a TPP:
4563
4564 a. City permits for hook-up to electric, potable water, and wastewater utilities; and
4565
4566 b. A State Department of Health or State Department of Environmental Protection permit
4567 authorizing the connection of the temporary residence to an onsite or small domestic
4568 wastewater treatment system.
4569
4570 H. Time limits. Temporary structures may be located for a period not to exceed 30 days. At the end
4571 of that 30-day period, if no application has been filed, the temporary habitable structure must
4572 be immediately removed from the site. If an application has been filed within the 30-day time
4573 period, the temporary habitable structure may remain in place until the TPP is either approved
4574 or denied. Once approved, the temporary habitable structure may remain in accordance with the
4575 TPP. If denied, the temporary structure shall be removed within five days from the date of denial.
4576
4577 I. Terms of use of temporary habitable structures. Applicants for a temporary habitable structure
4578 shall be subject to the following:
4579
4580 1. Except as otherwise provided herein, temporary structures shall not be occupied until such
4581 time as a valid TPP has been issued and is in effect for the site.
4582
4583 2. Connection to sanitary sewer and potable water, or onsite water and wastewater facilities, and
4584 an external electrical system are required within 20 days of issuance of the TPP. Inspections for
4585 such connections shall be called into the city within two days of completion of each connection.
4586 Electrical and plumbing connections must be done by electricians or plumbers licensed to do
4587 business in the City of Cape Coral. If there is no electricity to the site due to a power outage, a
4588 generator may be used. Upon restoration of electricity to the property, connection to the local
4589 power grid must be made within 24 hours of power restoration.
4590
4591 3. An application for a building permit is required within three months from the date of issuance
4592 of the TPP for temporary residential structures or within six months for temporary business
4593 structures. Failure to apply for a building permit within the required time shall deem the TPP
4594 revoked pursuant.
4595
4596 4. If a building permit application has not been submitted within the required time-frames, an
4597 applicant may petition City Council for relief from the time restrictions of this subsection.
4598 City Council shall determine whether the failure to apply for a building permit is due to good
4599 cause shown by the applicant. If City Council denies the request for relief, the temporary
4600 structure shall be removed from the site within ten days from the date of denial, or at the

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 4601 end of the initial three-month period for temporary residential structures, or at the end of
4602 the initial six-month period for temporary business structures, whichever is later.
4603
- 4604 5. Temporary habitable structures with a TPP may be used until the earlier of: 1) completion of
4605 the rehabilitation or reconstruction of the damaged structure; or 2) until such time as the
4606 owner or occupants of the damaged structure are established in a permanent structure at
4607 another location.
4608
- 4609 6. Occupants must comply with all mandatory hurricane evacuation requirements.
4610
- 4611 J. Temporary structures. Temporary habitable structures must comply with the following:
4612
- 4613 1. Temporary residential structures may consist of a recreational vehicle or a travel trailer.
4614 Temporary business structures may consist of recreational vehicles, travel trailers, or mobile
4615 offices. At the discretion of the Building Official, additional types of temporary business
4616 structures may be allowed, consistent with applicable federal, state, and local regulations and
4617 the provisions of this ordinance.
4618
- 4619 2. Must meet all applicable National Fire Protection Association and Life Safety codes and
4620 regulations as well as all applicable state and local requirements for tie-downs.
4621
- 4622 3. Shall contain plumbing (both water and wastewater) and electrical connections and shall be
4623 capable of being hooked up or attached to external plumbing and electrical systems. Temporary
4624 residential structures shall contain a kitchen capable of being hooked up or attached to external
4625 plumbing and electrical systems. Requirements for temporary business structures shall be
4626 based upon the proposed use.
4627
- 4628 4. Shall meet the Florida Accessibility Code for building construction amenities.
4629
- 4630 L. Placement of temporary habitable structures. The following site considerations are required for
4631 placement of a temporary habitable structure:
4632
- 4633 1. Temporary residential structures may be anywhere on the site of the existing permanent
4634 residence; however, no a temporary residence is allowed within road rights-of-way or
4635 drainage or utility easements. The city may waive any development regulations regarding lot
4636 areas, dimensions, setbacks, lot coverage, height, and open space to accommodate
4637 temporary residential structures.
4638
- 4639 2. Where more than one existing permanent residence has been rendered uninhabitable, the
4640 Building Official may allow up to the number of damaged permanent residences or residential
4641 units on the site. Such determination shall be based upon consideration of life, health, and
4642 safety requirements.
4643
- 4644 3. For temporary business structures:
4645

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 4646 a. Temporary business structures may be anywhere on the parcel of the existing business;
4647 however, temporary business structures are not allowed within road rights-of-way or
4648 drainage or utility easements. The city may waive any development regulations regarding
4649 lot areas, dimensions, setbacks, lot coverage, height, and open space to accommodate
4650 temporary business structures.
4651
- 4652 b. Temporary business structures may be on property adjacent to the permanent business
4653 structure if a notarized, written consent from the property owner is submitted at the
4654 time of application for a TPP.
4655
- 4656 c. The establishment of an emergency response team center on a parcel containing a
4657 business does not necessarily preclude the placement of one or more temporary business
4658 structures on the same parcel.
4659
- 4660 d. Parking for a temporary business structure shall be provided based upon the square footage
4661 of the temporary business structure, including handicapped parking. However, a minimum
4662 of two handicapped parking spaces must be provided.
4663
- 4664 e. The entrance to the site shall have a city approved driveway or construction entrance.
4665 Any impervious area added for the temporary business structure shall be subject to
4666 review and approval by the city.
4667
- 4668 f. Additional conditions or restrictions may be placed on a temporary business structure as
4669 a condition of issuance in areas including, but not limited to, the following:
4670 i. Hours of operation;
4671 ii. Traffic control and access;
4672 iii. Lighting; and
4673 iv. Noise control.
4674
- 4675 M. Issuance and revocation. The Building Official may revoke a TPP upon finding that any of the
4676 following has occurred:
4677
- 4678 1. Failure to connect to water, sewer, and electrical within 20 days of the receipt of the TPP.
4679
- 4680 2. If an application for a building permit has not been submitted within required time from the
4681 date of receipt of the TPP, or relocation has not occurred before the time of expiration of the
4682 TPP, or, if a building permit later expires.
4683
- 4684 3. If, upon inspection by the Building Official, a temporary residence is not in compliance with
4685 the requirements of this subsection.
4686
- 4687 4. Failure to evacuate temporary residence during mandatory evacuation orders.
4688
- 4689 5. Upon revocation of a TPP, the temporary residence must be vacated and the temporary
4690 residence removed within five days of revocation. Failure to vacate or remove the temporary
4691 residence constitutes a violation subject to the penalty imposed herein.

- N. Extensions and expiration of temporary placement permits.
1. Residential TPPs shall be valid for six months from the date of issuance. The Building Official may, for good cause shown, issue up to two extensions for six months each, for an 18-month maximum period of validity from the date of issuance.
 2. Non-residential TPPs shall be valid for nine months from the date of issuance. The Building Official may, for good cause shown, issue up to two extensions for six months each, for a 21-month maximum period of validity from the date of issuance.
 3. All applications for extensions of time must be submitted prior to the date of expiration of the current TPP.
 4. Any further extensions after the second extension and maximum time period may not be issued by the Building Official: however, applicants may submit a request to City Council for their approval of any further extension of time for the TPP.
 5. Factors to be considered by the Building Official or the City Council in determining whether to grant an extension of time of the TPP shall include:
 - a. The ability of the property owner or occupant of the temporary residential or business structure to secure permanent quarters; and
 - b. Any hardship that, in the opinion of the Building Official or City Council, as applicable, would warrant a further extension of the TPP.
 6. Upon the, expiration of a TPP, a temporary residence or business structure must be removed or placed in proper storage on the property within 30 days. Failure to remove or properly store the temporary residence or business structure constitutes a violation subject to the penalty imposed herein.
 7. Termination of temporary habitable structure. Once an uninhabitable structure has been issued a certificate of occupancy or certificate of use for a new or rehabilitated residence, business, or institutional facility, the TPP shall be deemed to be terminated. A temporary residential or business structure must then be removed or placed in proper storage on the property within 30 days. Failure to remove or properly store the temporary residence or business structure constitutes a violation subject to the penalty imposed herein.
 8. Penalty. Any violation of the provisions of this subsection shall be subject to a \$500 fine. Each day of violation shall constitute a separate offense and shall be punishable as such.

Section. 5.9.10. Temporary Off-Site Vehicle Sales.

The display of vehicles, including, but not limited to, automobiles, trucks, vans, recreational vehicles such as camping trailers, motorcycles and recreational terrain vehicles, and water craft such as boats,

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

4738 jet skis and wave runners, displayed for the purpose of sale, lease, trade or rental, shall be permitted
4739 at an off-site location (that is, on an improved property that is not the approved location of the
4740 business).

4741

4742 A. Temporary Off-Site Vehicle Sales shall adhere to the following requirements:

4743

4744 1. The commercial establishment seeking the temporary sale permit must have the written
4745 permission of the owner, or an authorized representative of the owner, of the property on
4746 which the temporary sale will be conducted. The written permission shall state that, as a
4747 condition of the city's issuance of a permit for the temporary sale, the property owner agrees
4748 to be responsible for any damage to the city's right-of-way or utility systems as a result of the
4749 sale and that any such damage shall be repaired at the expense of the property owner. In
4750 addition, such written permission shall also state that, in consideration of the city's issuance of
4751 the permit, the property owner shall hold the city harmless from any claim, loss, damage, or
4752 cause of action that arises because of the temporary sale or the issuance of the permit
4753 therefore, including any loss or damage to the owner's property or improvements thereon. Such
4754 written permission shall have a notarized signature and shall be filed with the Department of
4755 Community Development.

4756

4757 2. The duration of any such temporary sale shall not exceed five consecutive days.

4758

4759 3. The property on which the off-site sale is conducted shall not have been used for temporary
4760 off-site sales for more than six occasions in the preceding one-year period.

4761

4762 4. Temporary sales shall only be conducted between the hours of 8:00 a.m. to 9:00 p.m.

4763

4764 5. The display of vehicles and the operation of the temporary sale shall not interfere with the
4765 normal parking and traffic circulation of the business(es) located on the site.

4766

4767 6. The temporary off-site vehicle sales permit shall, at all times during the permitted time period
4768 authorized for the sales, be displayed on the site upon which such sales are being conducted.

4769

4770 7. No temporary sale shall begin until a permit therefore has been approved and issued by the city
4771 and all fees are paid in accordance with the city's adopted fee schedule. Prior to the issuance
4772 of a temporary sale permit, a complete application must be submitted to the Department of
4773 Community Development, along with a conceptual site plan. In addition to the proposed site
4774 layout and setbacks, the conceptual site plan shall address vehicular traffic and parking
4775 measures, fire protection measures, sanitary facilities and lighting and areas of electric needs.
4776 The temporary sale permit shall include, as applicable:

4777

4778 a. The right to erect one sign or banner, a maximum of 32 square feet in size, or two such signs
4779 or banners for properties having frontage on more than one street. In lieu of such sign(s) or
4780 banner(s), the applicant may display an inflatable object in accordance with Article 7 of this
4781 code. The applicant shall include with the application sign details such as the placement of
4782 the sign and anchoring or tie-down measures. The placement and anchoring of the means
4783 of advertisement shall not interfere with the visual safety of motoring traffic.

- b. Permission to place one or more tents (up to a total of 425 square feet in size) on the site, provided that the applicant provides proof of fire-retardancy and adequate tie-down measures with the application. Tents larger than 425 square feet shall require a separate tent permit. The location and setback of the tent(s) shall be shown on the conceptual site plan. If a sales trailer is being used in lieu of a sales tent, the sales trailer shall be handicap-equipped and accessible in accordance with the Florida Accessibility Code for Building Construction and ADA requirements and shall be anchored in accordance with all applicable building code standards.
 - c. Permission to utilize an electric generator on site. A temporary electric pole shall not, however, be authorized by the temporary sale permit. A temporary electric pole shall require a separate permit to be applied for and issued to a licensed electrical contractor.
 - d. The applicant shall request inspection by the city of the items authorized under this section and shall receive approval thereof prior to beginning the off-site sale activity. Inspection of items authorized pursuant to subparagraphs a. through c. shall be made by the Department of Community Development. Items authorized pursuant to subparagraphs b. and c. shall also be made by the Fire Department.

Section. 5.9.12. Other events not named.

A person desiring to hold any temporary event, not listed herein, shall contact the Community Development department regarding the necessity of a permit and any additional permissions that may be required.

Section 5.9.13 Temporary seawall staging areas.

- A. Temporary seawall construction staging in residential zoning districts. Temporary off-site staging areas for seawall construction are allowed in residential zoning districts subject to the following requirements:
 - 1. Requirements for temporary seawall construction staging areas:
 - a. Time limits. Temporary seawall staging areas may be permitted for up two years;
 - b. Allowable storage of materials. Only materials used in the repair or reconstruction of seawalls may be stored on the permitted staging site. Materials shall not be located in the side yard setbacks of the staging site. All rubble or debris shall be stored in dumpsters;
 - c. No land clearing, removal of vegetation, or fill shall occur to accommodate the staging area;
 - d. All activities at the staging area shall occur between 7:00 a.m. to 7:00 p.m. Monday through Saturday only. No work shall occur on New Years Day, July 4th, Thanksgiving, or Christmas Day;
 - e. No structures other than a permitted construction trailer may be placed on the property;
 - f. No outdoor lighting is permitted for any staging area in a residential zoning district;
 - g. The permittee shall be responsible for restoration of the staging area upon completion of the work and restoration of any damage to any City facilities, such as roadside swales, pipes, catch basins, pavement, signs, striping, etc.;
 - h. Barges may not be docked or moored in any manner that obstructs navigation or use of docks or boats; and
 - i. Prohibited on-site activities. The following activities are prohibited:
 - i. Jackhammering or other methods of breaking up concrete or other demolition debris from damaged seawalls;
 - ii. Grinding or saw cutting of concrete or rebar debris; and
 - iii. Any dust creating operations.

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 4874 2. Permit application and submittal requirements. A permit shall be required for a temporary
4875 seawall staging area. The applicant shall submit the following information to the Department of
4876 Community Development:
4877
- 4878 a. A scaled drawing of the site showing the location of all material to be stored or staged for
4879 construction;
 - 4880
 - 4881 b. The name and notarized written consent of the property owner(s). Such written
4882 authorization may be revoked at any time;
 - 4883
 - 4884 c. The length of time the site is to be used for staging, including post-staging clean up; and
4885
 - 4886 d. The name, address, and contact information for the person(s) responsible for the staging
4887 area activities.
4888
- 4889 3. Notice to Neighbors. Mailed notice to surrounding property owners is required for any
4890 individual seawall staging area expected to be used for a period exceeding nine months. The
4891 notice shall be mailed to all property owners of record in a 500' radius from the site. The
4892 applicant shall be responsible for the cost of notice.
4893
- 4894 4. Extensions and expiration of seawall staging areas. Seawall staging area permits shall expire
4895 two-years from issuance unless an extension is granted. Permitted staging areas may apply for
4896 a (1) one-year extension.
4897
- 4898 5. Inspection by City officials. In order to ensure compliance with all applicable laws and
4899 regulations, temporary seawall construction staging areas shall be held open for reasonable
4900 inspection, without court order, by employees or agents of the City of Cape Coral or any other
4901 duly authorized governmental agency.
4902
- 4903 6. Penalty. Any violation of the provisions of this subsection shall be subject to a \$500 fine. Each
4904 day of violation shall constitute a separate offense and fines.
4905

4906 **Chapter 10. - SPECIFIC USE REGULATIONS (P* Uses in Table 4.4)**

4907
4908 **Section. 5.10.1. Purpose and applicability.**
4909

- 4910 A. The uses listed in this chapter are deemed to be appropriate uses when developed and operated in
4911 accordance with the requirements listed within each Section. Approval may be granted
4912 administratively as long as the requirements are met and maintained. The applicant shall provide all
4913 documents necessary to prove that the requirements are met prior to receiving approval to operate
4914 and on an ongoing basis as required for the specific use.
4915
- 4916 B. The landscape standards of this chapter are in addition to any landscape standards established in
4917 Chapter 5, Landscaping, of this Article.
4918

- A. Requirements. All craft breweries, distilleries, or wineries which produces alcoholic beverages for consumption on premise or provide retail sales, shall comply with the following requirements:
 - 1. The business owner shall submit semi-annual production records to the Department of Community Development for all alcohol and nonalcohol products produced within the establishment.
 - 2. All mechanical equipment used in the alcohol production process shall be behind a wall or fence that separates the equipment from any property line abutting a public street other than an alley when viewed along a line perpendicular or radial to such property line. The wall or fence shall be opaque and have a minimum height of six feet.
 - 3. Loading and unloading areas shall be provided to the side or rear of the building. Loading and unloading areas shall not be along the front of the building.
 - 4. Spent or used grain or similar wastes may be placed outdoors for a period not to exceed 24 hours. The temporary stockpiling for spent or used grain shall be:
 - a. Clearly shown on a detailed dimensional and labeled drawing that depicts the location of the stockpiled spent grains on the property and the distance of the stockpiled grains from the property lines and the building containing the artisan brewery, distillery, or winery;
 - b. Located only along the side or rear of the building; and
 - c. Fully enclosed in containers that are behind an opaque wall or fence. The wall or fence shall have a minimum height of six feet. Cargo containers and tractor trailers shall not be utilized for the temporary stockpiling of spent or used grains even if the cargo containers and tractor trailers are behind an opaque wall or fence.
- B. Waiver of requirements.
 - 1. Permitted and Conditional Uses.

To encourage the repurposing of existing buildings in the NC or SC districts, any craft brewery, distillery, or winery that is approved as a permitted use, the provisions of this Section may be waived in part or in their entirety by the Director for the purpose of spurring economic development based on the criteria contained in Subsection 2.
 - 2. Criteria. In determining whether to waive one or more of these standards the Community Development Director shall utilize the following criteria:
 - a. The visibility of the mechanical equipment and loading areas from any public street(s).
 - b. The proximity and visibility of the mechanical equipment and loading areas from existing residential development.

- c. The existence of site conditions that are not the result of the applicant and which are such that a literal enforcement of the regulations involved would result in unnecessary or undue hardship.
 - d. The effect other regulations would have on the proposed development or other locational factors that may make compliance with this Section impossible or impracticable.
 - e. The annual production of alcohol anticipated to be produced by the establishment.
 - f. The size and extent of the equipment requiring screening.

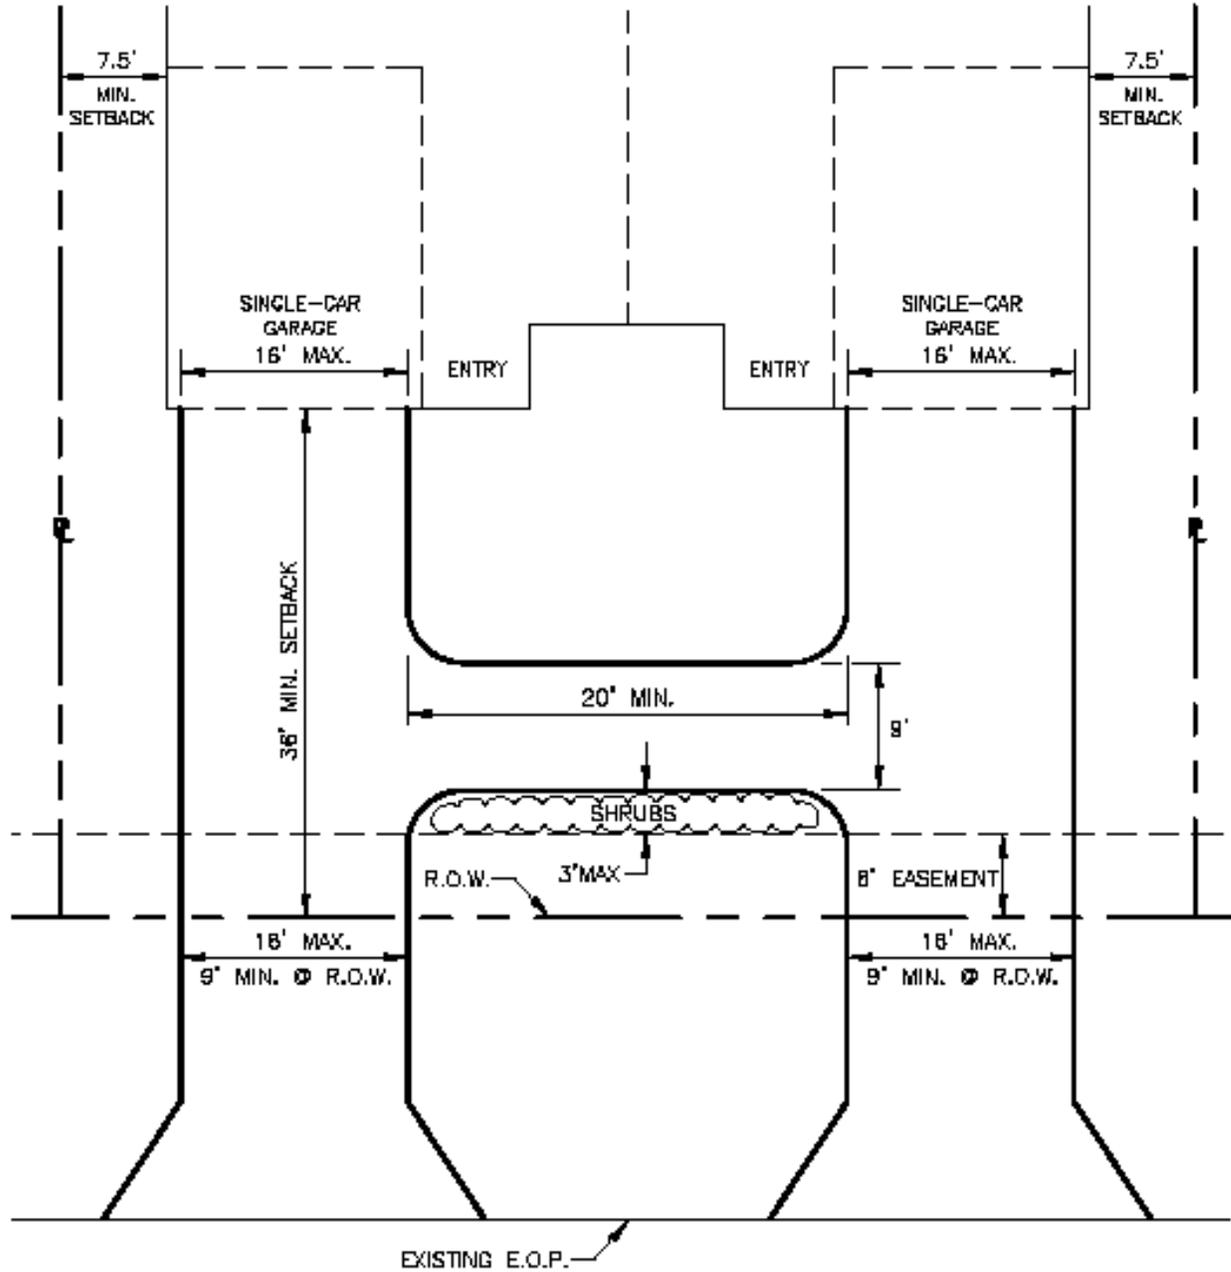

4978 **Section. 5.10.3. Duplexes and Single-family Semi-detached dwellings.**
4979

4980 Duplexes and Single-family Semi-detached dwellings must meet the following conditions:
4981

- 4982
4983
4984
4985
4986
4987
- A. All duplexes or single-family semi-detached dwellings on parcels less than 20,000 square feet in area must be served by public water and sewer.
 - B. All duplex and single-family semi-detached dwelling parking areas and driveways in the RML zoning district shall conform to one of the following Duplex Driveway and Parking Design Standards:

CITY OF CAPE CORAL, FLORIDA

LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 4995 C. Duplex structures in the RML zoning district may not be sold, subdivided, or conveyed by deed into
4996 individually owned parcels or dwelling units.
4997
- 4998 D. Landscaping shall be provided at a rate of two trees and six shrubs per each 2,500 square feet of the
4999 lot. A portion of the required landscaping shall be placed in the locations shown on the Duplex
5000 Driveway and Parking Design Standards.
5001
- 5002 E. All duplexes and single-family semi-detached structures shall incorporate three of the following
5003 design elements into each dwelling unit:
5004
- 5005 1. Dwelling entry as the primary façade feature;
 - 5006
 - 5007 2. Garage door recessed from the front façade, a preferred minimum of four feet;
 - 5008
 - 5009 3. Horizontal eaves broken up with gables, projection, and articulation;
 - 5010
 - 5011 4. Projecting eaves and gables, related to building massing;
 - 5012
 - 5013 5. Building massing and roof form which articulate individual unit definition;
 - 5014
 - 5015 6. Offset of four feet where two garage doors are adjacent to each other; or
 - 5016
 - 5017 7. Projections and decorative elements, such as trellises, for visual interest.
5018
- 5019 F. Duplexes on corner lots that have at least one dwelling unit entry on the side of a duplex shall not be
5020 required to provide a turn-around or a bump-out driveway on a 2-lane street.
5021
- 5022 G. As an alternative to the design requirements of subsection B, above, a duplex or single-family semi-
5023 detached dwelling unit in the RML zoning district may provide a two-car garage for each dwelling unit.
5024
- 5025 **Section. 5.10.4. Home occupations.**
5026
- 5027 Home occupations shall only be allowed as an accessory use to a residential use, provided the following
5028 conditions are met:
5029
- 5030 A. All home occupations operated in or from a residence shall comply with federal, state, and county
5031 rules and regulations, city license regulations specified herein, and any other applicable ordinances of
5032 the City of Cape Coral.
5033
 - 5034 B. No person other than members of the immediate family may be employed for a salary, commission
5035 or upon any other remunerative basis.
5036
 - 5037 C. No condition shall be permitted which tends to cause or increase the fire hazard to the residence,
5038 such as storage of paints or other flammable materials in excess of normal family use.
5039

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 5040 D. No storage of materials or supplies shall be allowed outside the structure nor shall any indoor display
5041 of materials be visible from the outside of the structure.
5042
- 5043 E. No home occupation shall occupy an area greater than 10% of the living area of the structure.
5044
- 5045 F. The home occupation shall not generate pedestrian or vehicular traffic beyond that which is
5046 reasonable to the district in which it is located and it shall not involve the use of commercial vehicles
5047 for delivery of materials to or from the residence.
5048
- 5049 G. The appearance of the structure shall in no way be altered for the conduct of the home occupation
5050 within the structure nor shall the conduct be such that the structure may be recognized as serving a
5051 non-residential use either by color, materials, construction, lighting, signs, sounds, noises, vibrations,
5052 audible or visible interference in any radio or television receiver off the premises, or cause fluctuations
5053 in the electric voltage line off the premises.
5054
- 5055 H. No business operated under a fictitious name shall be issued a license to operate under this Section.
5056

5057 **Section. 5.10.5. RV resorts**
5058

- 5059 A. General provisions. Within a recreational vehicle park, recreational vehicles that meet the
5060 requirements herein, whether self-propelled or pulled by a towing vehicle, and camping cabins, as
5061 regulated herein, may be used for temporary lodging. Facilities to accommodate administration,
5062 maintenance, recreation, dining, and personal care may be included within a recreational vehicle
5063 park. Recreational vehicle parks shall be deemed to be nonresidential uses, and any transient guest
5064 site occupied by a registered guest of a recreational vehicle park shall not be deemed to be a
5065 "residence", "dwelling." or "residential premises" within the meaning of other provisions of the City
5066 of Cape Coral regulations. The management of all transient guest sites and camping cabins must be
5067 performed by a single on-site management company or entity, regardless of whether the transient
5068 guest sites, camping cabins, or both are owned by more than one person or entity.
5069
- 5070 B. Lodging unit characteristics. Lodging shall only be allowed within recreational vehicles and camping
5071 cabins that have all of the following characteristics:
5072
- 5073 1. Recreational vehicles:
5074
- 5075 a. Shall be no more than eight and one-half feet in body width, exclusive of safety devices
5076 when slide outs are retracted;
5077
- 5078 b. Shall have water and wastewater systems designed for continuous connection to water and
5079 wastewater service facilities while parked at a transient guest site; and
5080
- 5081 c. Shall not be constructed with collapsible partial sidewalls that fold for towing in such a way
5082 as to be unusable for occupancy.
5083
- 5084 2. Camping cabins shall comply with all of the following criteria:
5085

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 5086 a. Cabins shall be constructed in compliance with the Florida Building Code;
5087
5088 b. The square footage of interior space shall be a minimum of 200 square feet and a maximum
5089 of 600 square feet;
5090
5091 c. Cabins shall be equipped with electric service and a full bathroom;
5092
5093 d. Cabins are exempt from non-residential design standards, however when there is more than
5094 one cabin in a development, the color scheme, exterior materials on walls, exterior roof
5095 finishing, and roof type must be consistent among all cabins;
5096
5097 e. Corrugated metal is prohibited for exterior walls; and
5098
5099 f. Roofs shall consist of pitched roofs, including but not limited to, gable, hip, or mansard
5100 roofs; however, mansard roofs with flat decks and shed style roofs are prohibited.
5101
5102 C. Location. Recreational vehicle parks are permitted only on property with a Mixed-Use future land
5103 use designation. No new recreational vehicle park shall be developed and no existing recreational
5104 vehicle park shall be expanded within a coastal high hazard area, as depicted in the Comprehensive
5105 Plan.
5106
5107 D. Minimum interior road standards. All interior roads shall be privately owned and maintained, and
5108 shall be constructed in accordance with the structural requirements within the City of Cape Coral
5109 Engineering Design standards.
5110
5111 E. Overall recreational vehicle park area and density. The following requirements shall apply to the
5112 recreational vehicle park net area:
5113
5114 1. Minimum recreational vehicle park net area: 25 acres;
5115
5116 2. Maximum net density: 10 transient guest sites per acre, based on net area; and
5117
5118 3. Minimum net density: For recreational vehicle parks with a net area of less than 50 acres, the
5119 minimum quantity of transient guest sites shall be 50; for recreational vehicle parks with a net
5120 area of 50 or more acres, there shall be no less than one transient guest site per acre, rounded
5121 to the nearest whole number.
5122
5123 For purposes of this section, the net area shall mean the area of the recreational vehicle park minus
5124 extant wetland areas and water areas (e.g. streams, waterways, lakes, estuaries). If an extant
5125 wetland or water area is expanded or contracted, the net area shall be based on the resultant
5126 wetland and water areas.
5127
5128 F. Transient guest sites. Transient guest sites can be designed with either: 1) a pad for parking one
5129 recreational vehicle; 2) one camping cabin; or 3) a pad for parking one recreational vehicle and one
5130 camping cabin. The following standards shall apply to transient guest sites within a recreational
5131 vehicle park:

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 5132
- 5133 1. Each transient guest site shall be clearly defined by a permanent marker, constructed of a
- 5134 durable material such as masonry or metal, placed at all corners;
- 5135
- 5136 2. No transient guest site shall include any space used for common areas, such as roadways,
- 5137 sidewalks, or community recreation areas;
- 5138
- 5139 3. No more than 25% of the total transient guest sites shall be developed with a camping cabin.
- 5140 Transient guest sites with a pad for parking one recreational vehicle and one camping cabin
- 5141 shall not be factored into the 25% limitation to the number of camping cabins;
- 5142
- 5143 4. All transient guest sites shall be designed to provide runoff of surface water to a drainage
- 5144 system or basin external to the transient guest site;
- 5145
- 5146 5. Impervious area shall not exceed 65% of any transient guest site. Pervious areas of each
- 5147 transient guest site shall be covered in turf, groundcover, shrubs, trees, or any combination
- 5148 thereof;
- 5149
- 5150 6. Each transient guest site shall have direct vehicular access to an interior road. No transient guest
- 5151 site shall have direct vehicular access to a public street;
- 5152
- 5153 7. No transient guest site shall be located closer than 40 feet to any public street right-of-way;
- 5154
- 5155 8. Separation: Each transient guest site shall be designed to ensure minimum separation between
- 5156 units. When measuring the distance from a recreational vehicle pad, paved areas that project
- 5157 more than four and one-half feet from the centerline of the pad, e.g., driveway apron flares,
- 5158 walkways, and patio areas, may be excluded. Distances of separation shall be as follows:
- 5159
- 5160 a. Between camping cabins: 15 feet;
- 5161
- 5162 b. Between a camping cabin and a recreational vehicle pad on the same transient guest site:
- 5163 15 feet;
- 5164
- 5165 c. Between a camping cabin and a recreational vehicle pad on a separate transient guest site:
- 5166 20 feet;
- 5167
- 5168 d. Between a transient guest site boundary line and a camping cabin: 7½ feet; and
- 5169
- 5170 e. Between transient guest site boundary line and a recreational vehicle pad: 7½ feet.
- 5171
- 5172 9. Each transient guest site designed with a pad for parking a recreational vehicle shall have the
- 5173 following standards:
- 5174
- 5175 a. Maximum number of recreational vehicles: 1;
- 5176
- 5177 b. Minimum site area: 2,000 square feet;

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 5178
- 5179 c. Maximum site area: 1 acre;
- 5180
- 5181 d. Minimum site width: 35 feet, measured at right angles to and between the designated side
- 5182 boundary lines; and
- 5183
- 5184 e. Pad and driveway materials: Each pad for a recreational vehicle and associated driveway
- 5185 shall be paved with concrete or pavers, or as otherwise approved by the city. The use of
- 5186 asphalt as a paving material for vehicle pads and driveways is prohibited.
- 5187
- 5188 10. Each transient guest site developed with a camping cabin shall have the following standards:
- 5189
- 5190 a. Maximum number of camping cabins: 1;
- 5191
- 5192 b. Minimum site: 2,500 square feet; and
- 5193
- 5194 c. Parking space: Each site developed with a camping cabin shall include a minimum of one
- 5195 automobile vehicle parking space, paved with concrete or pavers, or as otherwise approved
- 5196 by the city, with minimum dimensions of 9 feet by 18 feet. This limitation shall not apply to
- 5197 transient guest sites with a pad for parking one recreational vehicle and one camping cabin.
- 5198 The use of asphalt as a paving material for vehicle parking spaces is prohibited.
- 5199
- 5200 11. Each transient guest site developed with both a pad for parking a recreational vehicle and with
- 5201 a camping cabin shall have the following standards:
- 5202
- 5203 a. Maximum number of units: one camping cabin and a pad for parking no more than one
- 5204 recreational vehicle;
- 5205
- 5206 b. Minimum site area: 5,000 square feet;
- 5207
- 5208 c. Maximum site area: 1 acre;
- 5209
- 5210 d. Minimum site width: 35 feet, measured at right angles to and between the designated side
- 5211 boundary lines; and
- 5212
- 5213 e. Pad and driveway materials: Each pad for a recreational vehicle and associated driveway
- 5214 shall be paved with concrete or pavers, or as otherwise approved by the city. The use of
- 5215 asphalt as a paving material for vehicle pads and driveways is prohibited.
- 5216
- 5217 12. Each transient guest site may also include accessory structures for outdoor living, including, but
- 5218 not limited to, an outdoor kitchen, fire pit, spa, hot tub, gazebo, shade shelter, marine
- 5219 improvements, and other hardscape features.
- 5220
- 5221 G. Utilities. Each transient guest site shall have direct connections to central potable water, central
- 5222 wastewater, and electric services. All water and wastewater utility infrastructure within a
- 5223 recreational vehicle park shall be privately owned and maintained, except as otherwise approved

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

5224 by the City Council. Within the recreational vehicle park, all telephone, electric, television cable
5225 service, or other wires of all kinds must be underground, provided, however, that appurtenances
5226 to these systems which require aboveground installation may be exempted from these
5227 requirements and primary facilities providing service to the site of the development or necessary
5228 to service areas outside the planned development project may be exempted from this requirement.
5229

5230 H. Lighting. All roads, walkways and parking areas shall be provided with lighting adequate to ensure
5231 the safety of vehicular and pedestrian traffic. All lighting shall be designed so that it is not directed
5232 toward neighboring properties.
5233

5234 I. Parking. In addition to parking spaces on transient guest sites, a minimum of one parking space per
5235 ten recreational vehicle sites within the park shall be provided for visitors.
5236

5237 J. Designated storage. Except for boats at a rental facility or moored at a marine improvement, boats
5238 and utility trailers (tow dollies, "toy haulers", etc.) shall be stored in a designated storage area that
5239 shall occupy no more than 5% of the gross area of the park. Such storage area shall be for the
5240 exclusive use of registered guests. only during the period the guest is a registered occupant of a
5241 transient guest site. Designated storage areas shall be enclosed by an opaque visual barrier that is
5242 a minimum of eight feet in height. The following materials, either singly or in any combination, are
5243 the only materials that may be used to form the opaque visual barrier:
5244

- 5245 1. Wood, plastic, vinyl, or metal fencing;
 - 5246 2. Concrete block and stucco wall;
 - 5247 3. Brick wall; or
 - 5248 4. Formed, decorative, or precast concrete.
- 5249
5250
5251
5252

5253 No storage area shall be located closer than 40 feet to any exterior property line of the recreational
5254 vehicle park. No repair or maintenance other than cleaning shall be conducted within such storage
5255 area.
5256

5257 K. Recreation area. At least one recreation area shall be provided within the park, designed and
5258 improved to serve the recreational needs of the park users. The recreation area(s) shall be a
5259 minimum of 500 square feet per transient guest site. All recreation areas shall be accessible to all
5260 occupants of the park. If more than one recreation area is provided, no recreation area shall be less
5261 than 10,000 square feet. A minimum of 50% of the total required recreation area shall be comprised
5262 of recreation within a building, or outdoor facilities for active recreation, including, but not limited
5263 to, swimming pools, ball fields, tennis courts, or play lots with facilities. No portion of any transient
5264 guest site, perimeter buffer yard, internal road or road easement, or stormwater management area,
5265 except as provided below, shall be counted as required recreation area. Bodies of water may be
5266 counted toward required recreation area if recreational use is not otherwise prohibited on or in the
5267 body of water and if recreational amenities, including, but not limited to, a beach, boat rental or
5268 launching facilities, are provided. In no event, however, shall bodies of water comprise more than
5269 50% of the required recreation area.

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 5270
5271 L. Landscaping plan. Requests for approval for a recreational vehicle park shall be accompanied by a
5272 landscaping plan that provides, at a minimum, compliance with Section 5.5.
5273
- 5274 M. Phasing. The Director shall not issue a certificate of use for a recreational vehicle park prior to
5275 completion of construction of all of the transient guest sites, internal roads, drainage system,
5276 potable water and wastewater utilities, landscaping and buffering, and accessory structures
5277 approved for the park, unless the Hearing Examiner and Appeals (or the City Council, when
5278 applicable) approves a phasing plan that identifies size, location, sequence, and timing of the
5279 various phases of the development. If a phasing plan is approved, the Director shall not issue a
5280 certificate of use for any phase that has not been completed in its entirety.
5281
- 5282 N. Operation generally.
5283
- 5284 1. Responsibilities of management. The owner of a recreational vehicle park shall, at all times,
5285 maintain the park and its facilities in a clean, orderly and sanitary condition. The park
5286 management shall inform all registered occupants of transient guest sites of the provisions of
5287 this section and other related ordinances and statutes, and of their responsibilities thereunder.
5288
- 5289 2. Certificate of use required. No lodging within recreational vehicles or camping cabins shall occur
5290 prior to the issuance of a certificate of use for the recreational vehicle park.
5291
- 5292 3. Length of occupancy. No owner of any recreational vehicle park shall allow or permit any
5293 transient guest sites in a recreational vehicle park to be rented to or occupied by any person or
5294 recreational vehicle for any period of time that would permit or allow any person or recreational
5295 vehicle to remain at such recreational vehicle park for more than 180 days in any 365-day
5296 period.
5297
- 5298 4. Register of occupants. The owner or operator of any recreational vehicle park shall file a report
5299 with the Director showing the guest names and addresses, recreational vehicle license numbers,
5300 dates of arrival and departure, and the transient guest site occupied by each guest at the
5301 recreational vehicle park during the preceding calendar quarter. Such reports shall be filed not
5302 later than April 15th, July 15th, October 15th and January 15th for the immediately preceding
5303 calendar quarter.
5304
- 5305 O. Inspections authorized. The Director is hereby authorized to make periodic inspections of the
5306 recreational vehicle park and transient guest sites for the purpose of determining satisfactory
5307 compliance with the regulations of this section pertaining to the health, safety and welfare of the
5308 community.
5309
- 5310 P. Incidental facilities and amenities. Various facilities and amenities incidental to a recreational
5311 vehicle park are permissible, however, all facilities and amenities must meet all requirements stated
5312 herein together with any additional conditions of approval.
5313
- 5314 1. The following facilities may be approved as incidental to a recreational vehicle park:
5315

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 5316 a. Administrative offices;
5317
5318 b. Caretaker or watchperson residence (no more than one);
5319
5320 c. Car wash (Recreational vehicle washing facilities only);
5321
5322 d. Clubhouses;
5323
5324 e. Gatehouses;
5325
5326 f. Grounds maintenance facilities;
5327
5328 g. Laundry facilities:
5329
5330 h. Marine improvements;
5331
5332 i. Restrooms and community showers; and
5333
5334 j. Sanitary dump stations.
5335
- 5336 2. The following amenities are permitted as amenities incidental to the recreational vehicle park
5337 even though they are typically land use classifications identified as individual "uses" within
5338 other zoning districts.
5339
- 5340 a. Banquet halls;
5341
5342 b. Bars;
5343
5344 c. Commercial Recreation – indoor and outdoor;
5345
5346 d. Cultural and civic facilities;
5347
5348 e. Personal services;
5349
5350 f. Professional Offices;
5351
5352 g. Restaurant, no drive-thru; and
5353
5354 h. Retail.
5355
- 5356 3. For recreational vehicle parks with no frontage on any type of arterial or collector street, food
5357 stores, personal services, and restaurants shall be limited as follows:
5358
- 5359 a. Vehicular ingress/egress for parking lots supporting an amenity shall not be directly
5360 accessible from any public street, but shall only be accessible from a road within the park;
5361

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 5362 b. No signs shall be visible from outside the recreational vehicle park; and
5363
- 5364 c. The cumulative gross leasable floor area occupied by food stores, personal services, and
5365 restaurants shall not exceed 3% of the net area of the recreational vehicle park. For
5366 purposes of this section, the net area shall mean the area of the recreational vehicle park
5367 minus extant wetland areas and water areas (e.g. streams, waterways, lakes, estuaries). If
5368 an extant wetland or water area is expanded or contracted, the net area shall be based on
5369 the resultant wetland and water areas. Food stores shall not occupy more than 25,000
5370 square feet of contiguous gross leasable floor area.
5371
- 5372 4. For recreational vehicle parks with frontage on any type of arterial or collector street, food
5373 stores, personal services, and restaurants shall be limited as follows:
5374
- 5375 a. Vehicular ingress and egress for parking lots supporting food stores, personal services, and
5376 restaurants may be directly accessible from a public street. Visible evidence of the
5377 commercial character of food stores, personal services, and restaurants may be observable
5378 from a street outside the park. For food stores, personal services, and restaurants that have
5379 vehicular ingress/egress directly accessible from a public street, or present visible evidence,
5380 observable from a street outside the park, of their commercial character, no certificate of
5381 use shall be issued until a minimum of 20% of the total transient guest sites for the entire
5382 recreational vehicle park have been constructed or installed; and
5383
- 5384 b. The cumulative gross leasable floor area of food stores, personal services, and restaurants
5385 shall not occupy more than 3% of the net area of the park. Not more than 25,000 square
5386 feet of contiguous gross leasable floor area shall be devoted to food stores.
5387
- 5388 5. In the event that a recreational vehicle park fails to meet the minimum required number of
5389 transient guest sites as a result of removal of transient guest sites or conversion to another use,
5390 or if the offering of lodging at transient guest sites is discontinued for one year or more, any
5391 activity that had previously been approved as an amenity incidental to the recreational vehicle
5392 park use shall lose its status as an amenity and shall be treated in the same manner as a
5393 nonconforming use.
5394
- 5395 Q. Prohibitions. The following uses, activities or improvements listed below are prohibited within a
5396 recreational vehicle park:
5397
- 5398 1. Permanent residential use is prohibited, except in an approved caretaker/watchperson
5399 residence.
5400
- 5401 2. Lodging within any structure other than an approved recreational vehicle, camping cabin,
5402 caretaker, or watchperson residence (e.g., tent, mobile home, garage, shed, or agricultural
5403 building) is prohibited within a recreational vehicle park.
5404
- 5405 3. The storage of a recreational vehicle, boat, or accessory trailer during any period when the
5406 owner or lessee of the vehicle is not a registered occupant of a transient guest site is prohibited.

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

5407 Storage of boats and accessory trailers is prohibited on individual transient guest sites or on
5408 internal roads.

5409
5410 4. The parking of a recreational vehicle, automobile, or truck in an area not designated for parking
5411 is prohibited.

5412
5413 5. Drive-thru facilities for restaurants are prohibited.

5414
5415 6. Fuel pumps for retail sales of fuel are prohibited.

5416
5417 R. Evacuation plan. Prior to issuance of a certificate of use for a recreational vehicle park, the
5418 developer shall provide an emergency response plan, approved by the Fire Chief that requires the
5419 removal of all recreational vehicles in the event of a hurricane. At a minimum, all recreational
5420 vehicles and occupants shall evacuate when notified of a "Hurricane Watch" being issued for the
5421 city. Any amendment by the developer to an approved evacuation plan requires approval by the
5422 Fire Chief.

5423
5424 **Section. 5.10.6. Reserved**

5425
5426
5427 **Section 5.10.7. Roadside Food and Vegetable Stand.**

5428
5429 Roadside food and vegetable stands shall be subject to the following requirements:

5430
5431 A. Must meet the minimum building setback requirements for the district;

5432
5433 B. May be in operation during daylight hours only;

5434
5435 C. Shall provide a designated parking area at the side or rear of the roadside food and vegetable stand
5436 sufficient to accommodate ten vehicles;

5437
5438 D. Shall be no larger than eight feet by 32 feet in dimensions, and must be structurally sound;

5439
5440 E. Must meet state, county, or local access requirements;

5441
5442 F. May sell fruits, plants, and vegetables only;

5443
5444 G. Must be built with tie downs capable of withstanding 110 mph winds; and

5445
5446 H. Must contain adequate toilet facilities.

5447
5448 **Section 5.10.8. Accessory Parking Lots.**

5449
5450 Accessory parking lots shall meet the following requirements:

5451

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 5452 A. Accessory parking lots on RML property shall be used only in connection with an existing use or
5453 structure in the C, CC, or P zoning districts.
5454
- 5455 B. The parcel shall meet minimum dimensional requirements.
5456
- 5457 C. The lots in the RML zoning district proposed for accessory parking shall be composed of contiguous
5458 lots in that district and owned by the commercial or professional property owner or corporation
5459 served by the parking site.
5460
- 5461 D. A minimum of 40% of the required parking spaces for the use shall be in a Commercial or
5462 Professional zoning district. The number of required parking spaces shall be determined by Article
5463 6.
5464
- 5465 E. The location of accessory parking lots shall be immediately to the rear, or across any service alley,
5466 and within the extended side yard lot lines of the property that the parking is intended to serve.
5467
- 5468 F. Driveways from accessory parking in RML areas to streets with abutting R-1 zoning shall not be
5469 permitted. However, commercial property fronting on Del Prado Boulevard or Santa Barbara
5470 Boulevard with full block depth and abutting R-1 zoning, shall be permitted one driveway access to
5471 the street with abutting R-1 zoning, in accordance with the City of Cape Coral Engineering Design
5472 Standards.
5473
- 5474 G. The driveway shall be included in any traffic impact study for the property to determine the impact
5475 of commercial traffic on the local street and its intersections and if improvements are needed.
5476
- 5477 H. Where necessary for safe and efficient turn movements, the city may restrict certain turn
5478 movements at the driveway accessing the street with abutting R-1 zoning.
5479
- 5480 I. The parking area shall be classified as part of the entire non-residential building site.
5481
- 5482 J. A landscape plan for the accessory parking areas in RML zoning shall be submitted with the
5483 application for this use. Landscape plans shall be drawn to scale, including dimensions and
5484 distances, and shall clearly delineate:
5485
- 5486 1. Existing and proposed parking spaces, or other vehicular use areas, access aisles, driveways,
5487 and ingress and egress points;
5488
 - 5489 2. The location and floor area of existing building(s) to be served;
5490
 - 5491 3. The source of water supply for plantings and materials to be installed or, if existing, to be used
5492 in accordance with the requirements hereof.
5493
 - 5494 4. All parking areas shall be landscaped in accordance with the requirements of Section 5.5.13 of
5495 this Article.
5496

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 5497 5. There shall be a minimum of seven feet of green area in side setbacks and ten feet of green
5498 area in setbacks from street lot lines which face residential areas.
5499
- 5500 6. There shall be a continuous undulating 18 inch to three feet high by five feet deep berm of earth
5501 extending along the property facing streets.
5502
- 5503 K. Lighting. If any parking areas are artificially lighted, they shall be so designed and arranged that
5504 lighting is primarily directed on-site. Such areas shall not be lighted at any time other than during
5505 the same hours that the use to which the parking is appurtenant is open for business, except for
5506 necessary security lighting.
5507
- 5508 L. Stormwater Management. All parking areas shall incorporate appropriate stormwater quality
5509 design features to be reviewed with the SDP application.
5510

5511 **Section. 5.10.9. Solar Arrays.**

5512
5513 Solar Arrays shall meet the following requirements:

- 5514
- 5515 A. These facilities may only be permitted in the Agriculture, Institutional, or Industrial zoning districts.
5516
- 5517 B. Solar Arrays may only be permitted on lots over one acre in size.
5518
- 5519 C. Must maintain appropriate security fencing and signs for protection.
5520
- 5521 D. Solar Arrays shall be effectively screened with a fence, landscape material, or a combination thereof,
5522 where visible from an abutting property or right-of-way as determined by the Director.
5523
- 5524 1. The structures may be screened with an opaque wall or fence, up to the height allowed in that
5525 zoning district.
5526
- 5527 2. Alternatively, the structures may be screened with shrubs that meet the following requirements:
5528
- 5529 a. A row of shrubs shall be planted along all sides of the facility for which screening is required.
5530
- 5531 b. All shrubs required for screening shall be a minimum of 32 inches in height and be in at least
5532 a seven-gallon container size at the time of planting. All shrubs shall be planted at a spacing
5533 of three feet apart as measured on center.
5534
- 5535 c. All shrubs shall be maintained at a minimum height of six feet at maturity and shall be
5536 maintained in good condition as long as the structures requiring screening remain.
5537
- 5538 d. An adequate combination of the two screening options may be permitted.
5539

5540 **Section 5.10.10. Vehicle Sales, Light.**

5541
5542 Vehicle Sales, Light must meet the following requirements:

- D. All repairs must be ancillary and must be conducted within a building.
- E. Other than vehicles, no outdoor display of any other items shall be permitted.

Section 5.10.11. Wireless Communication Facilities

Wireless Communication Facilities are permitted with the following requirements:

1. Adequate documentation that co-location on an existing approved tower or on an existing building or structure, has been attempted and is not feasible. Such documentation shall include:
2. The results of a designed service study demonstrating to the satisfaction of the city that the equipment planned for a proposed communication tower cannot be accommodated on an existing or approved and un-built structure.
3. The designed service study analysis shall be based upon a search area radius of three-quarters of a mile minimum distance from the location of the intended WCF or tower, including areas outside the City of Cape Coral. At the discretion of the city, based on the city's knowledge of existing co-location opportunities, the city may allow an applicant to provide an affidavit from a professional radio frequency engineer which establishes the search area diameter for the proposed WCF or tower location and identifies all other alternatives in the area. Further information may be required by the city on the ability of the WCF or tower to be accommodated on specific sites within three-quarters of a mile of the proposed WCF or tower.
4. When co-location is determined by staff to be infeasible, the determination shall be based upon the results of the designed service study and other evidence provided by the applicant documenting one or more of the following reasons:
 - a. Structural limitation. The proposed equipment would exceed the structural capacity of the existing or approved structure, as documented by a licensed professional engineer, and the existing or approved structure cannot be reinforced, modified, or replaced to accommodate the planned or equivalent equipment at a reasonable cost.
 - b. Interference. The proposed equipment would cause interference or obstruction materially impacting the usability of other existing or planned equipment at the tower or building as documented by a qualified professional and the interference or obstruction cannot be prevented at a reasonable cost.

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 5588 c. Insufficient height. Existing or approved towers and buildings within the search radius cannot
5589 accommodate the planned equipment at a height necessary to function reasonably as
5590 documented by a licensed, if applicable, professional.
5591
- 5592 d. Lack of space. Evidence from the applicant, verified by a licensed professional, of the lack of
5593 space on existing towers or other structures within the search radius to accommodate the
5594 proposed facility.
5595
- 5596 e. Other factors. Other reasons that make it unfeasible to locate the planned equipment upon
5597 an existing or approved tower or building as documented by a qualified and licensed, if
5598 applicable, professional.
5599
- 5600 f. Technical consultants. The city shall have the right to retain independent technical
5601 consultants and experts that it deems necessary to properly evaluate applications for wireless
5602 telecommunications facilities or towers and to charge reasonable fees as necessary to offset
5603 the cost of such evaluations.
5604

Section. 5.10.12. Wireless Facility Design standards.

5605 In addition to any other applicable requirements provided elsewhere in the Land Development Code, an
5606 application for a communication tower shall include the following:
5607

- 5608 A. Fall zone. In the event of a catastrophic failure or collapse, towers shall be designed to collapse within
5609 an engineered fall zone lying wholly within the lot lines of the parcel containing the tower. Such fall
5610 zone shall be certified by a professional engineer, licensed in the State of Florida.
5611
- 5612 B. Tower design for co-location. A proposed tower shall be designed to allow for future rearrangement
5613 of antennas, to provide space for antennas to be mounted at varying elevations, and to accommodate
5614 co-location.
5615
- 5616 C. Monopoles or stealth. All towers shall be monopoles or stealth design.
5617
- 5618 D. Illumination. A tower shall not be artificially lighted except as may be required by federal or state
5619 regulations.
5620
- 5621 E. Surface or finish color. All towers shall be painted or have a non-contrasting finish that minimizes the
5622 visibility of the facility from public view, except where contrasting color is required by federal or state
5623 regulation. In addition, the exterior of support facilities shall be designed to be compatible with the
5624 architectural design prevailing among the structures in the surrounding developed area.
5625
- 5626 F. Sign. The main access gate in the tower shall have affixed to it a sign not to exceed two feet by three
5627 feet in size which displays the owner's or permittee's name and an emergency telephone number.
5628
- 5629 G. Maximum height. The maximum height of towers shall be 100 feet if the tower is designed for one
5630 service provider, 120 feet if the tower is designed to accommodate two service providers, or 140 feet
5631 if the tower is designed to accommodate three or more service providers.
5632
5633

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

5634
5635 H. Landscape screening. The accessory components to the tower shall be screened from view by shrubs
5636 maintained at a height of six feet, immediately adjacent to the fence surrounding the facility and
5637 minimum of eight trees planted outside of the shrub buffer
5638

5639 **Section. 5.10.13. Reserved.**

5640
5641 **Section. 5.10.14. Model homes.**

5642
5643 Model Homes shall meet the following requirements.
5644

5645 A. Model homes are intended to facilitate the sale of the model design, or products similar in design to
5646 the model and is not intended to allow the full scope of real estate activities and shall be restricted
5647 primarily to the sale and marketing of the model, or products similar to the model. Model homes shall
5648 be permitted as a temporary, conditional use, not to exceed 10 years, in residential zoning districts
5649 (R1, RE, RML) or within a Planned Development.
5650

5651 B. A model home must meet all of the zoning and building requirements for a residence in that zoning
5652 district as well as the following:
5653

5654 1. Parking. Three off-street vehicular parking spaces, including the garage, shall be provided on the
5655 model site or on an adjacent vacant property.
5656

5657 2. On-site parking. A parking space may be provided in the garage. A handicap parking space is
5658 required and shall count as one of the three required spaces.
5659

5660 3. Off-site parking. Adjacent vacant single-family lot(s) may be used for model home parking. A plan
5661 to provide parking on an adjacent parcel shall require ownership by the same or an affidavit of
5662 authorization from the property owner as well as a surety deposit payable to the City of Cape
5663 Coral to convert the property back to a residential or other permitted use when the structure is
5664 converted or sold. The deposit shall cover the costs associated with the conversion of the parking
5665 lot. The deposit shall be based on no less than 110% of the estimated cost by a professional
5666 engineer licensed in the State of Florida which shall be signed and sealed by the engineer, and
5667 found to be acceptable to the City. Funds and resulting interest shall be returned upon conversion
5668 of the site to a residential or other permitted use, the entire amount if the work is completed by
5669 the applicant, or the remaining funds if the City completes the work.
5670

5671 4. A hedge row of at least 36 inches in height shall be planted and maintained around the vehicular
5672 parking area.
5673

5674 5. On-site or off-site parking shall be a paved or approved impervious surface with appropriate signs
5675 and markings, including handicap parking.
5676

5677 6. Treatment of stormwater runoff will be required for the first inch of runoff from the paved area
5678 associated with the parking lot area only.
5679

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 5680 7. Model home parking lots require a Limited Site Development Plan approval prior to construction.
5681
5682 B. Handicapped standards shall be met throughout the home, including access per the Florida Building
5683 Code and handrail and grab bar requirements.
5684
5685 C. Garage office. For any garage being used as an office for a model home the applicant must submit the
5686 following:
5687
5688 1. Plan of garage-office facility, including false walls, temporary electrical and plumbing.
5689
5690 2. Plan showing how garage will be returned to its original use.
5691
5692 3. \$10,000.00 refundable surety to ensure that the garage is converted back to the FEMA standards
5693 for single-family home usage.
5694
5695 D. Sign standards as defined in Article 7 of this code.
5696
5697 F. Upon completion of the construction and approval of the unit as a model home, a "temporary
5698 certificate of occupancy" will be issued to the owner of the model home to remain open for a period
5699 of five years. Extensions beyond this five-year temporary certificate of occupancy may be granted for
5700 the structure in the event an extension is approved for the model's permit by the Director of
5701 Community Development. The initial approval and maximum extension will allow the use of an
5702 individual model home to exist for a cumulative 10 years. The decision to extend the initial permit
5703 shall be pursuant to the following considerations:
5704
5705 1. The number of existing model homes within the immediate area of the extension request and
5706 impacts of those on the neighborhood.
5707
5708 2. The adequacy of the right(s)-of-way upon which the model home fronts.
5709
5710 3. The character or makeup of the area surrounding the model home.
5711
5712 4. The potential effect of the model home on adjacent and surrounding properties.
5713
5714 5. The existence of complaints relating to that model home.
5715
5716 6. A demonstration of good cause from the applicant why the extension request is needed.
5717
5718 7. Approval as a model home shall be recorded against the title.
5719

Section 5.10.15. Buildings and Construction with outdoor storage and display.

5720 Buildings and construction with outdoor storage and display shall meet the following requirements:
5721
5722
5723

- 5724 A. No storage or display shall be in fire lanes or required parking areas.
5725

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

5726 B. Materials or equipment that are brought inside a building overnight shall not be considered as display.
5727

5728 **Section. 5.10.16. Self-storage Facility.**
5729

5730 Self-storage facilities in the I, C, or CC districts must meet the following conditions:
5731

5732 A. The facility must be designed so as to screen the interior of the development from all property lines.
5733 Screening features may consist of a free-standing wall, wall of a building, or a combination of the two.
5734 Free-standing walls used for screening shall be eight feet in height measured from grade.
5735

5736 1. The following materials, either singly or in any combination, are the only materials that may be
5737 used to form the wall:

5738 a. Concrete block coated with stucco;
5739

5740 b. Textured concrete block;
5741

5742 c. Stone;
5743

5744 d. Brick; or
5745

5746 e. Formed, decorative, or precast concrete.
5747
5748

5749 2. If the wall of a building is used to meet the opaque feature requirement, such wall shall be
5750 surfaced with stucco, brick, stone, textured concrete masonry units, or other concrete surface.
5751 Untreated concrete block is not an acceptable finished material. Building walls used as a screening
5752 feature shall not have doors or windows.
5753

5754 B. A landscaped area with a minimum width of 10 feet shall be provided around the perimeter of the
5755 site. Perimeter landscaping shall consist of a minimum of three canopy trees per 100 feet, three accent
5756 trees per 100 feet, and 33 shrubs per 100 feet. Palms trees cannot be used to meet the minimum
5757 planting requirement of this section. All shrubs shall be installed at a minimum height of 32 inches
5758 and be in a minimum seven-gallon container at the time of planting.
5759

5760 C. In the event a self-storage facility is designed as a multi-story building, the interior of the development
5761 is not required to be screened by a free-standing wall or a building wall, provided there are no visible
5762 exterior doors providing access to individual storage units. Multi-story self-storage facilities must
5763 comply with the nonresidential design standards established in Chapter 8 of this Article.
5764

5765 **Chapter 11. - CONDITIONAL USES**
5766

5767 **Section. 5.11.1. Purpose and applicability.**
5768

5769 A. Purpose and Intent
5770

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 5771 1. To provide standards and criteria for review and approval of specified conditional uses for a
5772 specific site.
5773
- 5774 2. To provide reasonable limitations or special conditions for conditional uses, in order to address,
5775 minimize, or ameliorate potential impacts of the use on surrounding property and for the
5776 protection of the public health, safety, and welfare.
5777
- 5778 B. General Requirements. Proposed conditional uses must meet the following requirements:
5779
- 5780 1. The conditional use standards identified in Article 4 for the specific zoning district use and
5781 conditional use in question.
5782
- 5783 2. The proposed conditional use will not result in development that is inconsistent with the intended
5784 character of the applicable zoning district.
5785
- 5786 3. A listed conditional use that does not meet the applicable conditional use standards may apply
5787 for approval as a Special Exception.
5788
- 5789 C. Review Criteria. A Conditional Use may be approved by the Director based on criteria identified in
5790 Article 4. These criteria are specific to each conditional use.
5791

5792 **Section. 5.11.2. Brewpubs.**
5793

5794 Brewpubs in the MXB district must meet the following conditions:
5795

- 5796 A. The area used for brewing, bottling, and kegging of all beverages produced by the establishment shall
5797 not exceed 40 percent of the total floor area of the restaurant, bar, or nightclub, or exceed a total
5798 floor area of 2,500 square feet devoted for brewing, bottling, and kegging, whichever is less.
5799
- 5800 B. An interior floor plan shall be submitted that clearly shows the area of the building that will be devoted
5801 to the brewing, bottling, and kegging component of the establishment.
5802
- 5803 C. No outdoor storage shall be allowed including the use of portable storage units, cargo containers, and
5804 tractor trailers, except as follows: spent or used grain may be placed outdoors for a period not to
5805 exceed 24 hours. The temporary stockpiling for spent or used grain shall be:
5806
- 5807 1. Clearly shown on a detailed dimensional and labeled drawing that depicts the location of the
5808 stockpiled spent grains and the distance of the stockpiled grains from property lines and the
5809 building containing the brewpub;
5810
- 5811 2. Placed only along the side or rear of the building; and
5812
- 5813 3. Fully enclosed in containers that are screened behind an opaque wall or fence. The wall or fence
5814 shall have a minimum height of six feet.
5815

5816 **Section. 5.11.3. Attached residential of three-units or more.**

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

5817
5818 Attached residential structures of three-units or more in the RML, CC, NC, MX7, MXB, or SC zoning districts
5819 must meet the following conditions:

- 5820
5821 A. The number of linearly attached units must be between three and nine.
5822
5823 B. Landscaping shall be provided at a rate of two trees and six shrubs per 2,500 square feet of lot,
5824 rounding up to the next full number.
5825
5826 C. Attached residential developments shall incorporate three of the following design elements into each
5827 dwelling unit:
5828
5829 1. Dwelling entry as the primary façade feature;
5830
5831 2. Garage door recessed from the front façade, a preferred minimum of four feet;
5832
5833 3. Horizontal eaves broken up with gables, projection, and articulation;
5834
5835 4. Projecting eaves and gables, related to building massing;
5836
5837 5. Building massing and roof form which articulate individual unit definition;
5838
5839 6. Offset of four feet where two garage doors are adjacent to each other; or
5840
5841 7. Projections and decorative elements, such as trellises, for visual interest.
5842

5843 **Section. 5.11.4. Multi-family dwellings.**

5844
5845 Multi-family dwellings in the RML, RMM, CC, NC, MXB, MX7, or SC districts must meet the following
5846 conditions:

- 5847
5848 A. Building Modulation and Articulation. All multi-family buildings shall provide a combination of
5849 volumetric and massing modulation and articulations to prevent the construction of ‘big boxes’, but
5850 rather buildings that harmonize their architectural quality in a stylistically pleasant manner. All
5851 buildings shall incorporate the following combined elements from the articulation criteria identified
5852 below.
5853
5854 1. A minimum of three of the following volumetric elements shall be provided:
5855
5856 a. Pitched roof forms, minimum pitch of 4/12, whose sum covers greater than 30% of the
5857 overall roof area;
5858
5859 b. Architectural roof overhangs four feet or greater in depth or cornices 12 inches or greater in
5860 height;
5861

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS

- 5862 c. Arcades. Arcades may be used as a means of sheltering pedestrian areas, and where
5863 provided, shall connect to entrances;
5864
5865 d. Accent elements such as tower elements, porticos, cupolas, or domes; or
5866
5867 e. A building with frontage 90 feet or less in length shall provide the following minimum
5868 massing articulations:
5869 i. A minimum of fifty percent (50%) of the cumulative frontage of each façade shall be
5870 setback a minimum of five feet from the primary façade and shall be distributed
5871 throughout the building frontage and shall not be provided as a single aggregated
5872 setback; and
5873 ii. A minimum of twenty percent (20%) of each frontage of each facade shall be setback
5874 a minimum of eight feet from the primary façade.
5875
5876 2. A minimum of four of the following architectural elements shall be provided:
5877
5878 a. Stoops on the ground floor and balconies on all floors above the ground floor;
5879
5880 b. Porches on the ground floor;
5881
5882 c. Pilasters, string courses, character lines, or other such means of subdividing the facade;
5883
5884 d. Structural or ornamental details clearly distinct from the primary wall surface, e.g., lintels,
5885 sills, door and window surrounds, decorative panels, etc.;
5886
5887 e. Decorative planters or planting areas a minimum of five feet in width, integrated into the
5888 building design; or
5889
5890 f. Masonry in at least two contrasting tones or textures, accomplished by a change in material
5891 or coursing such as brick, natural stone, brick or stone veneer, glass, masonry stucco,
5892 decorative concrete block, decorative concrete panels, tile glazing and framing systems, split
5893 face or fluted concrete masonry, factory glazed concrete masonry units, or architectural pre-
5894 cast concrete.
5895

Section. 5.11.5. Vehicle Repair, Minor.

5896 Vehicle Repair, Minor in the C and CC districts must meet the following conditions:
5897

- 5898 A. The number of cars being kept on site, not in a garage bay, shall be limited to three.
5899
5900 B. All cars kept on site for repairs must be visually screened from the right-of-way and adjacent
5901 properties.
5902
5903 C. All repair work shall be performed within the garage.
5904
5905 D. No outside storage of materials or chemicals, all installation to occur within garage.
5906
5907

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

5908
5909 E. Hours of operation for repair work shall be limited from 7 a.m. to 8 p.m. when adjacent to any
5910 residential development.

5911
5912 **Section. 5.11.6. Outdoor Screened Storage.**

5913
5914 Outdoor Screened Storage in the CC district must meet the following conditions:

- 5915
5916 A. The screening must consist of opaque fence or wall. Chain-link fencing (with or without slats) is
5917 prohibited for screening.
5918
5919 B. The minimum height of the screening shall be 6 feet.
5920
5921 C. The height of the screening shall be tall enough to screen items being stored.
5922
5923 D. All perimeter landscaping shall be on the outside of the screening.
5924
5925 E. The screened area must be used in conjunction with principal use.
5926
5927 F. The area used for storage must be an improved impervious surface such as asphalt or concrete.
5928
5929 G. No vehicular access to the storage area shall be allowed from a local street.

5930
5931 **Section. 5.11.7. Laboratory – Medical, Research, Testing, and Development.**

5932
5933 Medical, Research, Testing or Development Laboratory Facilities in the NC district must meet the following
5934 conditions:

- 5935
5936 A. The laboratory shall not produce any exterior impacts such as sound, smoke, or odor.
5937
5938 B. No outside storage of materials shall be permitted.

5939
5940 **Section. 5.11.8. Sporting Facilities, Indoor and Outdoor.**

5941
5942 Sporting Facilities, Indoor and Outdoor in the A district must be in conjunction with an agricultural use
5943 such as riding stadiums etc.

5944
5945 **Section. 5.11.9. Boat Sales**

5946
5947 Boat Sales in the SC district may only be permitted on sites with water frontage and direct access to
5948 Caloosahatchee River.

5949
5950 **Section 5.11.10. Home based businesses**

5951
5952 Home based businesses shall only be allowed as an accessory use to a single-family residential use and
5953 must meet the following conditions:

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 5954
5955 A. All home-based businesses operated in or from a residence shall comply with federal, state, and
5956 county rules and regulations, city license regulations specified herein and any other applicable
5957 ordinances of the City of Cape Coral.
5958
5959 B. No condition shall be permitted which tends to cause or increase the fire hazard to the residence,
5960 such as storage of paints or other flammable materials in excess of normal family use.
5961
5962 C. No storage of materials or supplies shall be allowed outside the structure nor shall any indoor display
5963 of materials be visible from the outside of the structure.
5964
5965 D. The appearance of the structure shall in no way be altered for the conduct of the home occupation
5966 within the structure nor shall the conduct be such that the structure may be recognized as serving a
5967 non-residential use either by color, materials, construction, lighting, signs, sounds, noises, vibrations,
5968 audible or visible interference in any radio or television receiver off the premises, or cause fluctuations
5969 in the electric voltage line off the premises.
5970
5971 F. Frontage and access shall be from arterial street.
5972
5973 G. No driveway with ingress or egress to a local street shall be utilized.
5974
5975 H. Hours of operation shall be 7:00 A.M. until 7:00 p.m.
5976
5977 I. Employees and customers shall be allowed as long as adequate parking is provided on-site.
5978
5979 J. No parking shall be allowed on any surrounding parcels.
5980

5981 **Section. 5.11.11. Vehicle fueling stations.**
5982

5983 Vehicle fueling stations in the C, N, and SC (along primary streets) districts must meet the following
5984 conditions:
5985

5986 A. General:
5987

- 5988 1. All buildings, including pump islands, shall have a 25' setback from all property lines.
5989
5990 2. In no case shall a lot have less than 100 feet of street frontage.
5991
5992 3. Underground storage is required for all receptacles for combustible materials in excess of 55
5993 gallons. Such storage shall comply with all building and fire codes and Environmental Protection
5994 Agency standards.
5995
5996 4. The accumulation and storage of waste petroleum products is forbidden, unless in compliance
5997 with Environmental Protection Agency standards.

5. Primary services and sales permissible include fueling stations and electric charging stations, and include only the following accessory uses:
 - a. Car wash services;
 - b. Sale of convenience goods; and
 - c. Accessory fast food services without a drive-through.
 6. Uses permissible at a gas station do not include body work, straightening of body parts, painting, welding (other than minor repairs), or other work involving noise, glare, fumes, smoke, or other characteristics to an extent greater than normally found in vehicle fueling stations. A vehicle fueling station is not a body shop.
 7. Outside materials storage is not permissible.
 8. Lighting at a gas station shall be designed and installed so as to prevent glare or excessive light above 0.1 foot-candles on adjacent property. No source of illumination shall be allowed if such source of illumination, unshielded, would be visible from a residentially-zoned district to the extent that it interferes with the residential use of that area.
 9. The minimum size parcel shall be 1.25 acres.
 10. An eight-foot tall opaque wall constructed of concrete block coated with stucco, textured concrete block, stone, brick, or concrete (formed, decorative or precast) shall be constructed between any residential properties and a gas station. The wall shall be constructed within the gas station property, seven and one-half feet from the property line shared by the gas station and any adjacent residential property. The wall shall not be within a sight triangle.
 - a. The residential side of the wall shall be landscaped with shrubs (seven-gallon and 32 inches at planting) which shall be maintained at a mature height between six and eight feet and 80 percent opacity.
 11. Stormwater runoff from the fueling and storage tank loading areas shall be directed to an oil/gas/water separator prior to entering the surface water treatment area for the project.
- B. Appearance:
1. All structures on the site shall have a unified architectural theme.
 2. Gas station roofs shall be pitched a minimum of 4:12.
 3. A minimum of 12-inch overhangs shall be provided
 4. Roof and exterior wall surfaces, with the exception of glass areas, shall be nonreflective. Any glass coating shall not reflect outward.

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 5 – DEVELOPMENT STANDARDS**

- 6045
- 6046 5. The use of flat steel or metal panels for the exterior walls of the gas station shall be prohibited.
- 6047
- 6048 6. The rear and sides of buildings shall be finished with material that in texture and color resembles
- 6049 the front of the building.
- 6050
- 6051 7. Glass windows and doors must make up at least 25 percent of the front elevation and 15 percent
- 6052 of the side elevations at eye level.
- 6053
- 6054 8. Any canopy shall be restricted to a clearance of 14 feet in height and shall be consistent with the
- 6055 primary structure design. The canopy columns and roof shall be architecturally finished to match
- 6056 the building.
- 6057
- 6058 9. The commercial advertising on the canopy shall be limited to 10 percent of the exterior area of
- 6059 the canopy and backlighting shall not be permitted on the canopy.
- 6060
- 6061 10. Perimeter walls, if utilized, shall be architecturally compatible with the principal structure.
- 6062

6063 C. Landscaping:

6064

- 6065 1. Front yard buffer. An enhanced front yard buffer shall be required for automobile service
- 6066 stations to limit the visual impact of the use. The following requirements shall be utilized:
- 6067
- 6068 2. Area to be landscaped. A strip of land at least 10 feet in depth, abutting the right-of-way and
- 6069 extending the length of the property except the entrance and exit drives, shall be landscaped.
- 6070
- 6071 3. Minimum tree requirements. Palm clusters on the ends of landscape buffers parallel to the gas
- 6072 pump canopy. The palm clusters shall consist of three palms with a minimum of 13 feet of gray
- 6073 wood, at planting. One cluster shall be provided for every 30 feet of road frontage;
- 6074
- 6075 4. Landscape accents. The use of landscape accents, such as planters and window boxes, shall be
- 6076 incorporated into the overall landscape design of the building and the site;
- 6077
- 6078 5. Other materials. The remainder of the required landscaped area shall be landscaped with grass,
- 6079 ground cover, or other approved landscaping treatment.
- 6080

6081 D. Vehicle Fueling Stations in the SC zoning district shall only be allowed with frontage along Del Prado

6082 Boulevard.

6083

6084 **Section. 5.11.12. Religious Institutions.**

6085

6086 Religious Institutions in the R1, RML, RMM, RE, and A districts shall have a minimum size of three acres.

CHAPTER 1. PARKING, LOADING, AND DRIVEWAY REQUIREMENTS.

Section. 6.1.1. Purpose and applicability.

The purpose of this Chapter is to ensure that required off-street space is provided to allow for loading, unloading, and parking on private property by motor vehicles, bicycles, and other allowed vehicles. It is further intended that the design of off-street parking areas ensure safe and efficient traffic circulation, with consideration given to the surrounding street plan, pedestrian movements, and safety. All development and redevelopment shall provide off-street parking in compliance with the standards set forth in this Chapter and the Engineering Design Standards.

Section. 6.1.2. Standards for parking and vehicular use areas.

Parking spaces and drive aisles shall conform to standard designs found in the City of Cape Coral Engineering and Design Standards.

Section. 6.1.3. Parking, driveway, and vehicular use areas: provision, location, and setbacks.

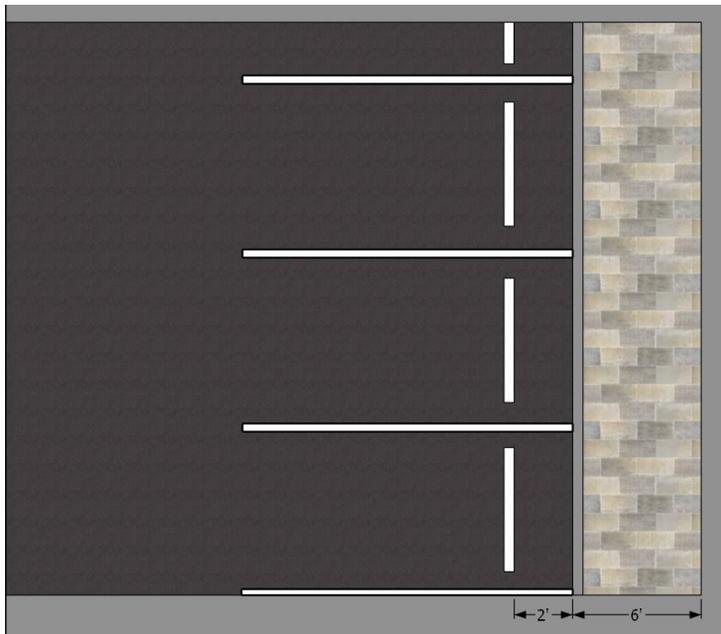

Off-street parking facilities required by this article shall be fully within the property lines of the parcel they are intended to serve unless an alternative location is approved as provided in this Chapter.

- A. Setbacks and buffering from property lines. Landscape buffers required by Article 6 shall be maintained along the perimeter of parking lots.

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 6 – PARKING**

- 48
49 B. Driveways. All driveways shall be designed and constructed per the requirements set forth in the
50 Engineering and Design Standards of Cape Coral.
51
52 C. Pedestrian Safety. All off-street parking facilities, including drive aisles, travel lanes, and driveways
53 shall be arranged to minimize hazards to pedestrian movement in the immediate area or encroach
54 upon fire lanes, walkways, and visibility triangles. Pedestrians must be protected from exiting a
55 building into vehicular traffic in an emergency. The applicant shall provide a walkway or a protected
56 area with a minimum width of the doorway plus five feet beyond the swing of the door. All exit
57 discharges from buildings shall be protected by permanent means to ensure pedestrian areas are
58 protected from vehicular encroachment.
59
60 D. Pedestrian Safety Zones. Within parking areas over 100 spaces for commercial uses, paved pedestrian
61 walkways at least six feet in width shall be provided at 200-foot intervals. Such walkways may be
62 interrupted by necessary drive aisles, but shall include adequate wheel chair ramps, if necessary.
63 Curbs or wheel stops shall be so placed to prevent any portion of the vehicle to encroach upon the
64 pedestrian safety zone. Diagram 6.1.3. illustrates a pedestrian safety zone.
65

66 **Diagram 6.1.3. Pedestrian Safety Zone**
67

- 68
69
70 **Section. 6.1.4. Off-street loading facilities.**
71
72 Appropriate and adequate loading facilities shall be required for businesses which receive regular
73 deliveries.
74

- 75 A. Design and location.
76
77 1. Loading spaces may not be blocked by parking spaces.
78

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 6 – PARKING

- 79 2. Design of the space shall be such that the delivery vehicles can maneuver without damaging
80 landscaped areas.
81
82 3. Loading spaces may be shared by adjacent properties when delivery schedules do not overlap
83 and an access agreement has been completed.
84
85 4. Loading zones may not be placed where they obstruct required fire lanes and access to
86 hydrants.
87
88 5. Loading zones shall be in a place which ensures convenient and safe entry and exit for the users
89 of the loading zone, and the convenience and safety of pedestrians and motorists using the
90 development.
91

92 **Section. 6.1.5. Required visibility triangles.**
93

94 As an aid to allow for safe operation of vehicles, pedestrians, and cyclists in the proximity of intersecting
95 streets, driveways, alleys, and bicycle paths there shall be limitations on the height of fences, walls,
96 gateways, ornamental structures, signs, hedges, shrubbery, and other fixtures as visually depicted in
97 the Cape Coral Engineering and Design Standards and as follows:
98

- 99 A. All landscaping and signs within the visibility triangle shall provide unobstructed visibility between
100 30 inches and eight feet, with the exception of tree trunks that do not create a traffic hazard.
101
102 B. The property owner shall be responsible for maintaining all landscaping within the visibility triangle
103 to provide the unobstructed visibility.
104
105 C. The Community Development Director or Public Works Director shall make the final determination
106 regarding visibility triangles.
107

108 **Section. 6.1.6. Common driveways, shared parking, and off-site parking.**
109

- 110 A. Common driveways shall be encouraged and may be required to reduce the number of curb cuts
111 along a right-of-way. Driveways shall be in accordance with the Engineering Design Standards.
112 Driveway access to State and County maintained roadways are regulated by FDOT or Lee County
113 and require separate permits from the respective agency prior to commencement of construction.
114 Approval of a common driveway will require submittal of a notarized shared access agreement and
115 easement, acceptable to the City, which shall be recorded against the title for each property
116 involved.
117
118 B. Off-site parking and shared parking. In an instance where a business is unable to provide adequate
119 parking on-site, off-site parking may be approved by the Director. Shared parking agreements and
120 off-site parking agreements shall be reviewed as often as is appropriate to ensure compliance and
121 adequacy of all provisions.
122
123 1. Approval of off-site parking shall be dependent upon:
124

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 6 – PARKING

- 125 a. Safe and convenient access to the off-site parking from the business which will be utilizing
126 the off-site parking;
127
- 128 b. Proof of ownership of the parking lot by the business or a recorded parking agreement
129 recorded against the title of the property to utilize the parking, which may not be eliminated
130 or modified without concurrence by the City;
131
- 132 c. Evidence that the parking will be available to the business during the times when the
133 parking will be needed; and
134
- 135 d. Appropriate paving, marking, and lighting of the off-site parking.
136
- 137 2. In addition to the above requirements, to qualify for shared parking approval one of the
138 following must apply:
139
- 140 a. It can be proven that the uses in question have peak parking demands during differing times
141 of the day or days of the week; or
142
- 143 b. A finding is made that there will be a lower demand for parking due to a high proportion of
144 multi-purpose visits. The applicant shall provide documentation to show that the proposed
145 parking for the multiple uses will be adequate. This documentation shall account for all the
146 potential uses allowed in the zoning district on the properties to be served by the shared
147 parking.
148
- 149 C. Proximity to dedicated city parking areas. Any development within 25 feet, excluding alleys and
150 walkways, of a dedicated city parking area may utilize that area to satisfy off-street parking
151 requirement, provided a sufficient number of improved spaces exist in the city parking area to
152 accommodate the number of spaces otherwise required by this ordinance for such development. If
153 a sufficient number of improved parking spaces do not exist at the time of application, the owner
154 or developer may improve the dedicated city parking area to the extent necessary to provide such
155 sufficient number of improved parking spaces in accordance with the City of Cape Coral Engineering
156 Design Standards. Once the dedicated city parking area has been properly improved and inspected,
157 the city shall be responsible for all maintenance of the public parking area.
158

159 **Section. 6.1.7. Amount of required parking.**
160

- 161 A. Generally.
162
- 163 1. The City shall not approve the construction of a parking lot with more than 125 percent of the
164 parking spaces required in Table 6.1.7.A. This shall not apply to development that have a
165 minimum off-street parking requirement of 50 spaces or less.
166
- 167 2. Accessible parking spaces shall meet ADA requirements.
168
- 169 3. Bicycle parking. Permanently placed bicycle parking shall be provide in accordance with
170 Subsection 6.1.7.B and Table 6.1.7.C.
171

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 6 – PARKING**

- 172 4. Opportunities for reduction in parking requirements. A developer may request a reduction in
173 parking during the site plan process by using the following methods:
174
- 175 a. If the Institute of Transportation Engineers (ITE) Reference Manual entitled Parking
176 Generation allows a lesser number of parking spaces for the proposed use or a use of similar
177 characteristics, then the number of parking spaces required for a development may be
178 reduced.
179
- 180 b. A reduction in the required number of spaces may be allowed if the developer provides the
181 city with credible evidence that the parking needs are actually less than those reflected in
182 the Table of Parking Standards or that the need for off-street parking spaces would be met
183 through alternative means. Such credible evidence may include parking generation studies
184 conducted within the City of Cape Coral or other similarly sized communities.
185

186 **TABLE 6.1.7.A. Required Number of Parking Spaces for Uses.**
187

Uses	Required Parking Spaces
Residential Uses	
Assisted Living Facility (ALF)	One space per four beds plus one space per employee on the largest shift
Community residential facility or home	A minimum of two spaces for up to six residents with one space for every four additional residents
Daycare Center (adult or child, in home or commercial)	A minimum of two spaces for up to five children with one space for every 10 additional children
Dormitories	One space for the first three residents plus one space per employee based on the largest shift
Model home	Three spaces per model home
Residential—mixed-use residential	Sum of unit type plus uses
Residential—multi-family residential	1 space per efficiency or studio unit
	1.5 spaces for one-bedroom units
	Two spaces for dwelling units with two or more bedrooms
	Developments shall provide additional spaces equal to 10% of the total required to accommodate guest parking, up to 50 guest parking spaces
Residential—single-family-detached residential	Two spaces, including space in garage if provided
Residential, Duplex	Two spaces per dwelling unit, including space in garages
Residential—Single-family attached	Two spaces per dwelling
Public and Institutional Uses	
Animal shelter	One space per 400 sq. ft. of gross floor area

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 6 – PARKING**

Community centers	One space per 250 sq. ft. of gross floor area
Cultural and civic facilities—libraries, museums	One space per 300 sq. ft. of gross floor area
Elementary and middle school educational facility—public or private	One space per classroom plus one space per employee
High school educational facilities—public or private	One space per four students of design capacity plus one space per classroom
Secondary educational facilities—technical, vocational, specialty—non-public	One space per 200 sq. ft. of gross floor area
Government facilities, including administrative, support and service	One space per 300 sq. ft. of gross floor area
Hospital—private, public	One space per 200 sq. ft. of gross floor area
Outdoor Amphitheater	1/4 seats, or 1/80 square feet of seating area ADD
Public parks and recreational facilities	3/acre of land designated for passive recreation + 1/2,000 square feet of playground or picnic area ADD
Sewage lift or pumping station	One space per facility
Solid waste transfer station	One space per employee on largest shift plus one space per facility vehicle
Utilities and related facilities, city or other	One space for unmanned facilities; One space per employee on largest shift at manned facilities
Vehicle Related Commercial Uses	
Car wash	One space per employee on largest shift
Rental—automobile, truck, and other vehicles	One space per 400 sq. ft. of gross floor area
Gas stations	One space per 300 sq. ft. of gross floor area
Vehicle major or minor repair and parts—mechanical, service, or body (new or used)	One space per 400 sq. ft. of gross floor area plus one space per bay
Vehicle sales—new or used automobiles	One space per 400 sq. ft. of gross floor area
Recreation, Entertainment Uses	
Sexually Oriented Business	One space per 100 sq. ft. of gross floor area
Marinas	One space for every two boat slips
Golf course	36 spaces per 9 holes plus one space per 200 sq. ft. of gross floor area
Driving range	One space for every two tees

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 6 – PARKING**

Golf, miniature	One space per hole
Gun, pistol range, gun clubs, archery clubs—indoor	One space per 250 sq. ft. of gross floor area
Sports fields, basketball courts, racket ball courts, sporting activities—indoor	One space per four seats
Sports fields, basketball courts, racket ball courts, sporting activities—outdoor	20 spaces per field
Indoor Commercial Entertainment	One space per 250 sq. ft. of gross floor area
Restaurant, Food and Beverage Service Uses*	
Bar/lounge	One space per 100 sq. ft. of gross floor area
Brewpub	One space per 100 sq. ft. of gross floor area
Catering Service, no public interface	One space per 400 sq. ft. of gross floor area
Nightclub, Discotheque, Club, Cabarets.	One space per 100 sq. ft. of gross floor area
Restaurant, sit down	One space per 100 sq. ft. of gross floor area plus one space for every four outdoor seats
Restaurant, fast food	One space per 100 sq. ft. of gross floor area
Micro-Brewery or Distillery	One space per employee on the largest shift plus one space per 100 sq. ft. of tasting room area
Places of Assembly Uses*	
Banquet hall	One space per 100 sq. ft. of gross floor area
Place of religious assembly	One space for every four seats
Private clubs, not public	One space per 100 sq. ft. of gross floor area
Theater (movie, performing arts)	One space for every four seats
Commercial Uses*	
All Retail Stores, other than those listed below	One space per 300 sq. ft. of gross floor area
Wholesale	One space per 400 sq. ft. of gross floor area
Retail—big box, club membership, department, home improvement	One space per 400 sq. ft. of gross floor area
Short Term Lodging	
Camp grounds, RV parks	One space per site plus one space for every 10 additional sites
Hotels, Motels, Resort, Lodging	One space per room plus one space per 400 sq. ft. of gross floor area for all other uses
Transient Housing—shelters	One space for every five beds plus one space for every employee or volunteer
Office Uses*	

**CITY OF CAPE CORAL, FLORIDA

Call center	One space per 300 sq. ft. of gross floor area
Office—business, sales, professional, semi-professional services	One space per 300 sq. ft. of gross floor area
Office—medical office/medical clinic	One space per 300 sq. ft. of gross floor area
Service Uses*	
Animal grooming and pet sitting—indoor	One space per 300 sq. ft. of gross floor area
Animal Hospital/Veterinarian clinic	One space per 300 sq. ft. of gross floor area
Animal kennel, boarding	One space per 300 sq. ft. of gross floor area
Blood banks, diagnostic medical treatment centers	One space per 300 sq. ft. of gross floor area
Check cashing, bill payments	One space per 300 sq. ft. of gross floor area
Copy, printing center	One space per 300 sq. ft. of gross floor area
Cosmetic Surgery, beauty clinics	One space per 300 sq. ft. of gross floor area
Customer service center	One space per 300 sq. ft. of gross floor area
Dry cleaning	One space per 300 sq. ft. of gross floor area
Financial institution - banks, credit unions, investment brokerage establishments	One space per 300 sq. ft. of gross floor area
Health club, fitness club	One space per 300 sq. ft. of gross floor area
Laundromat, self-service	1 per 3 machines and One space per 300 sq. ft. of gross floor area
Massage Therapy, body wrapping	One space per 300 sq. ft. of gross floor area
Package shipping, mail service	One space per 300 sq. ft. of gross floor area
Personal care services	One space per 300 sq. ft. of gross floor area
Repair and service shop—general merchandise	One space per 300 sq. ft. of gross floor area
Self-service storage facility	One space per 10,000 sq. ft. with a minimum of five spaces
Studios—photographic, and instructional	One space per 300 sq. ft. of gross floor area
Tattoo parlor, body piercing	One space per 300 sq. ft. of gross floor area
Other Uses	
Cemetery, mausoleums, crematory	One space for every four seats in an assembly area
Funeral Homes	One space for every four seats in an assembly area
Radio and transmitting station	One space per 400 sq. ft. of gross floor area
Wireless Antennas and support services	One space per facility
Industrial Uses	
Dry cleaning—commercial laundry plant	One space per 1,000 sq. ft. of gross floor area

- C. Electric vehicle charging stations. Charging stations for electric vehicles shall be required for all development sites of 200,000 square feet of gross floor area or more. One charging station shall be required for the initial 200,000 square feet of development and an additional charging station shall be provided for each additional 20,000 square feet over that.

Section. 6.1.8. Miscellaneous parking requirements.

- A. Access to buildings. Parking shall not interfere with ingress-egress doors for stairwells, transformer rooms, elevator machine rooms, trash rooms, or any other use requiring clear access aisles for services.
- B. Marking and identification. All parking and loading spaces other than for single-family detached and duplex dwellings, shall be marked in accordance with the Engineering Design Standards. Off-street parking facilities not clearly evident from a street or alley shall be identified as to location and purpose. Marking and curb stops for duplex dwelling parking areas shall be marked in accordance with the design requirements shown in Section 6.2.2.

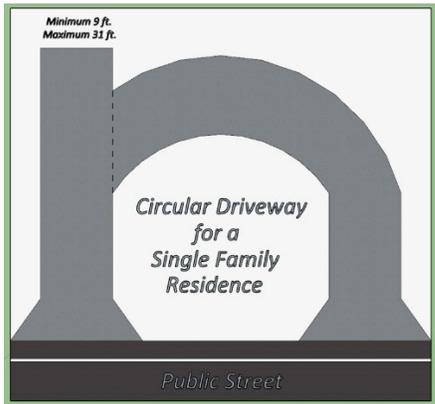

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 6 – PARKING

- 219
- 220 C. Use of spaces. All off-street parking facilities shall be used solely for the parking of vehicles in
- 221 operating condition. No automotive repair work except emergency service, no storage of
- 222 merchandise, and no motor vehicles which are being offered for sale by a business in the
- 223 development shall be permitted on or within any required off-street parking area.
- 224
- 225 D. Surfacing. All off-street parking (spaces and aisles) and drives connecting such areas with the street,
- 226 including spaces required for serving single-family detached residences or duplexes, shall be
- 227 surfaced in accordance with the Engineering Design Standards unless an alternative landscaped
- 228 area is approved for occasional parking as part of a development approval. All parking surfaces shall
- 229 be maintained in a condition that is safe and free of potholes.
- 230
- 231 E. Unpaved parking. Clearly identified, non-paved parking areas may be permitted, only in accordance
- 232 with this Subsection. Unpaved parking, which is graded and covered with sod to provide a surface
- 233 that is durable, stable, and will also assist in managing stormwater, dust, and erosion may be
- 234 provided for up to 50% of the off-street parking requirements for the following uses:
- 235
- 236 1. Agriculture or farming uses;
- 237
- 238 2. Cemeteries;
- 239
- 240 3. Funeral homes, mortuaries, and crematoria;
- 241
- 242 4. Places of worship;
- 243
- 244 5. Religious facilities; or
- 245
- 246 6. Parks and recreation facilities owned by a governmental entity.
- 247
- 248 F. Parking on unpaved areas shall be prohibited on all parcels other than those specifically allowed by
- 249 this code to utilize grass parking. Where parking occurs on unpaved areas, a violation may be issued.
- 250 Resolution of the violation may include providing additional parking spaces, not to exceed the
- 251 allowed pervious surface requirement for that use.
- 252
- 253 G. Off-street circulation and maneuvering.
- 254
- 255 1. Off-street parking facilities for multi-family, industrial, or commercial developments shall
- 256 provide for on-site vehicle circulation and maneuvering in accordance with the Engineering
- 257 Design Standards. Backing into the street right-of-way shall not be permitted for any uses other
- 258 than single-family detached residences on a local street.
- 259
- 260 2. Single-family detached residences which are on a right-of-way classified as a collector or higher
- 261 classified roadway, and all duplex residences shall be required to install a circular driveway to
- 262 eliminate the necessity to back into the roadway. See diagrams 6.1.8.A for the typical circular
- 263 driveway example.
- 264
- 265

266
267

Diagram 6.1.8.A. Single-family detached circular drive.

268
269

H. Drainage. Design and construction of all parking areas shall conform to the requirements of the City of Cape Coral Engineering Design Standards and all applicable South Florida Water Management District requirements for stormwater management. All design and construction shall be such that runoff from the property is intercepted and prevented from entering onto adjoining properties or right-of-way(s) prior to treatment. The developer shall be responsible for obtaining all required permits.

276

I. Parking along alleys. Parking on sites abutting alleys is allowed provided the following conditions are met:

279

1. The area of the site abutting the alley is needed to meet the minimum parking requirement for the site.

282

2. The alley is improved or will be improved to allow for the movement of vehicles in the alley along the site.

285

3. No portion of a parking space shall be closer than 3' from the platted alley. Vehicles can be parked in their entirety on the site. No part of any parked vehicle may extend into the alley right-of-way.

288

4. All parking spaces shall be striped consistent with those standards appearing in the City Engineering and Design Standards.

291

5. The minimum clear aisle width behind parking spaces adjacent to alleys shall be the same as the aisle widths required by the Engineering Design Standards for the specific parking space orientation. An additional setback for the parking space from the alley may be required to provide adequate aisle width.

296

J. Supplemental parking requirements within the South Cape District.

298

1. Development may count on-street parking within 500 feet of the property to meet the minimum required off-street parking spaces.

300
301

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 6 – PARKING**

302 2. As of December 1, 2005, sites within 25 feet, excluding alleys and walkways, of any of those
303 dedicated city parking areas identified in § 6.1.8.J.1.a, below shall be considered "parking area
304 sites". For parking area sites, the following parking and PILOP regulations shall apply:
305

306 a. Each of the following dedicated city parking areas in the Cape Coral CRA is hereby assigned
307 a parking allocation factor as provided below:
308

Table 6.1.8.A. Dedicated City Parking Area within South Cape.

309
310

DEDICATED CITY PARKING AREA			
Dedicated City Parking Area	Surrounding Blocks and Lots		Parking Allocation Factor
	Lots	Block	
Parking Area 1	1 through 24	62	0.000655
Parking Area 2	1 through 17	63A	0.001040
Parking Area 4	1 through 30	63	0.001515
Parking Area 5	1 through 61	64	0.001501
Parking Area 6	1 through 34	356	0.001572
	1 through 30	357	
Parking Area 7	11 through 14	56A	0.001330
	1 through 11	56B	
	1 through 12	56C	
	1 through 10	G	

311 b. For purposes of this subsection, when a "parking credit" must be calculated for a parking
312 area site, such parking credit shall be calculated by multiplying the area of the site (in square
313 feet) by the parking allocation factor related to the dedicated city parking area upon which
314 the site is located. This credit shall be deducted from the minimum parking requirements.
315
316

317 c. When the area of a parking area site changes, the following shall apply:
318 i. In the event the area of a parking area site is increased as the result of the acquisition
319 of property that was not a part of a parking area site as of December 1, 2005, the
320 increase in area that results from such acquisition shall, for purposes of this subsection,
321 be treated in the same manner as property, no part of which comprised a parking area
322 site.
323 ii. In the event the area of a parking area site is increased as the result of the acquisition
324 of property that was a part of a parking area site as of December 1, 2005, any PILOP
325 fees previously paid as the result of the use(s) or structure(s) on the conveyed property
326 shall be treated in the same manner as any PILOP fees, if any, previously paid by the
327 receiving site provided that the minimum total parking requirements for the conveying
328 site decrease as the result of the conveyance of property. If the minimum total parking
329 requirements for the conveying site do not decrease as the result of the transfer, then
330 any PILOP fees previously paid in regard to the conveying property shall continue to be
331 applied solely to the conveying property and shall not apply toward the parking
332 requirements of the enlarged (receiving) site.

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 6 – PARKING

- 333 iii. In the event the area of a parking area site is decreased as the result of the conveyance
334 of property that was a part of a parking area site as of December 1, 2005, regardless of
335 whether such conveyance is to another parking area site or to a property that is not a
336 parking area site, then any PILOP fees previously paid in regard to the conveying
337 property shall continue to be applied solely to the conveying property and shall not
338 apply toward the parking requirements of the receiving site unless the minimum total
339 parking requirements for the conveying site decrease as the result of the transfer. If the
340 minimum total parking requirements for the conveying site decrease as the result of
341 the transfer, and the conveying site had previously paid PILOP fees pursuant to this
342 subsection, then any such PILOP fees that are unnecessary to defray the decreased total
343 parking requirements of the conveying site shall be applied toward the parking
344 requirements of the receiving site.
345
- 346 d. A parking area site is altered, for purposes of this subsection, when any use located on the
347 site is changed, any structure located on the site is modified, or the land area of the site is
348 changed. Although a parking area site shall not be required to provide on-site parking, when
349 such site is altered so that the minimum total parking requirement for the site, pursuant to
350 Table 6.1.7.B contained in § 6.1.7.A. is increased, the parking requirement for the site shall
351 be determined in accordance with the following:
352
- 353 i. Parking area sites that are undeveloped as of December 1, 2005:
- 354
- 355 (1) A parking area site that is undeveloped as of December 1, 2005, the area of which
356 has not changed and which is being initially developed after December 1, 2005, shall
357 be required to provide the minimum parking that would be required pursuant to
358 Table 6.1.7.B contained in § 6.1.7.A. less a parking credit calculated pursuant to §
359 6.1.8.J.1.b The site would need to meet the aforesaid parking requirement prior to
360 receiving a certificate of occupancy (for residential uses) or a certificate of use (for
361 non-residential uses). If the land area of the parking area site increases prior to the
362 initial development of the site, then the requirements of this subsection shall apply
363 to the expanded portion of the site (and any structures thereon) as applicable based
364 on factors such as whether it was previously developed or had previously paid PILOP
365 fees.
366
- 367 (2) After such a parking area site has been initially developed pursuant to this
368 subsection, any further alteration of the site that would result in an increase to the
369 minimum parking requirement for the site, area of the site, shall require that the
370 site provide the minimum parking that would be required pursuant to Table 6.1.7.B
371 contained in § 6.1.7.A. less the parking credit calculated pursuant to § 6.1.8.J.1.b
372 and any PILOP fee(s) previously paid to offset the parking requirement of the site
373 or any part thereof.
374
- 375 (3) After the initial development of such a site, if the area of the site increases, any
376 further alteration of the site that would result in an increase to the minimum
377 parking requirement for the site shall require that the site provide the minimum
378 parking that would be required pursuant to Table 6.1.7.B. contained in § 6.1.7.A.
379 less a parking credit (to which the site would be entitled based on its land area at

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 6 – PARKING

380 the time of such further alteration) and any PILOP fee(s) previously paid to offset
381 the parking requirement of the site, including any PILOP fee(s) paid with respect to
382 the expanded area of the site, in accordance with § 6.1.8.J.1.c.
383

384 (4) Alternatively, if, after the initial development of such a site, the area of the site
385 decreases, any further alteration of the site that would result in an increase to the
386 minimum parking requirement for the site shall require that the site provide the
387 minimum parking that would be required pursuant to Table 6.1.7.B. less a parking
388 credit and any PILOP fee(s) previously paid to offset the parking requirement of any
389 use(s) or structure(s) located on the area of the site remaining after the decrease(s)
390 in area, in accordance with § 6.1.8.J.1.c.
391

392 ii. With respect to parking area sites that are developed and occupied as of December 1,
393 2005, the following shall apply:
394

395 (1) The first time such a site is altered after December 1, 2005, if the alteration would
396 result in an increase in the minimum parking requirement for the site of more than
397 25% over the amount required for the site for the use(s) and structure(s) located on
398 the site as of December 1, 2005, as reflected in the certificate(s) of use in effect for
399 such site as of that date, the site shall be required to provide the minimum parking
400 that would be required pursuant to Table 6.1.7.B. contained in § 6.1.7.A.. less a
401 parking credit calculated as provided in 6.1.8.J.1.b.
402

403 (2) Alternatively, if such an alteration of the site would result in an increase in the
404 minimum parking requirement for the site of not more than 25% over the amount
405 required for the site for the use(s) and structure(s) on the site as of December 1,
406 2005, as reflected in the certificate(s) of use in effect for such site as of that date,
407 then the alteration of such site shall require the site to provide the minimum
408 parking required for the site (pursuant to Table 6.1.7.B.) less the amount attributed
409 to the site for the use(s) and structure(s) on the site as of December 1, 2005, as
410 reflected in the certificate(s) of use in effect for the site as of that date. Further
411 alterations to the site that do not, either singularly or cumulatively, increase the
412 minimum parking requirement for the site by more than 25% over the amount
413 required for the site for the use(s) and structure(s) on the site as of December 1,
414 2005, as reflected in the certificate(s) of use in effect for such site as of that date,
415 shall require the site to provide the minimum parking required for the site (pursuant
416 to Table 6.1.7.B.) less the amount attributed to the site for the use(s) and
417 structure(s) on the site as of December 1, 2005, as reflected in the certificate(s) of
418 use in effect for the site as of that date and any PILOP fee(s) previously paid to offset
419 the parking requirement of the site or any part thereof including, for sites that have
420 increased or decreased in area any PILOP fee(s) applicable pursuant to § 6.1.8.J.1.c.
421

422 (3) If further alterations to a site, cumulatively, increase the parking requirement for
423 the site by more than 25% over the amount required for the site for the use(s) and
424 structure(s) on the site as of December 1, 2005, as reflected in the certificate(s) of
425 use as of that date (or, for residential uses, the residential occupancy in effect for
426 such site as of that date), then the alteration of such site that would result in the
increase by more than 25% shall require the site to provide the minimum parking
required for the site (pursuant to Table SC-5) less a parking credit calculated as

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 6 – PARKING

427 provided in § 6.1.8.J.1.b, based on the area of the site at the time of the alteration
428 that would result in the more than 25% increase, and any PILOP fee(s) previously
429 paid to offset the parking requirement of the site or any part thereof including, for
430 sites that have increased or decreased in area, any PILOP fee(s) applicable pursuant
431 to § 6.1.8.J.1.c.
432

433 iii. With respect to parking area sites that are developed and unoccupied as of December
434 1, 2005, the following shall apply: The first time such a site is occupied following
435 December 1, 2005, the site shall be required to provide the minimum parking that
436 would be required pursuant to Table 6.1.7.B. contained in § 6.1.7.A. less a parking credit
437 calculated by multiplying the area of the site (in square feet) by the parking allocation
438 factor related to the dedicated city parking area upon which the site is located. The site
439 would need to meet the aforesaid parking requirement prior to receiving, for non-
440 residential uses, a certificate of use and, for residential uses, prior to any residential
441 occupation of the structure. If the land area of the parking area site increases following
442 December 1, 2005, but prior to the occupancy of the site, then the requirements of this
443 subsection shall apply to the expanded portion of the site (and any structures thereon)
444 as applicable based on factors such as whether it was previously developed or had
445 previously paid PILOP fees.
446

447 iv. If the structure(s) on any parking area site are demolished, razed, or relocated to a site
448 other than a parking area site, then any subsequent redevelopment of such parking area
449 site shall require the site to provide the minimum parking required for the site (pursuant
450 to Table 6.1.7.B.) less a parking credit calculated as provided in § 6.1.8.J.1.b, based on
451 the area of the site at the time of the redevelopment, and any PILOP fee(s) previously
452 paid to offset the parking requirement of the site or any part thereof including, for sites
453 that have increased or decreased in area, any PILOP fee(s) applicable pursuant to §
454 6.1.8.J.1.c. After such redevelopment is completed, any alteration(s) to the site shall
455 be treated, for purposes of determining the parking requirements of the site, in the
456 same manner as alteration(s) of any other developed parking area site under this
457 subsection.
458

459 e. With respect to each dedicated city parking area located in the Cape Coral CRA. the City
460 Council shall, by resolution, identify all sites that would be parking area sites regulated by
461 this subsection and also, for all such sites that are developed as of December 1, 2005,
462 identify the minimum parking requirement for the use(s) or structure(s) on the site as of
463 December 1, 2005, as though such sites were within the South Cape Downtown District.
464

465 K. Satellite parking within the South Cape District. For purposes of this subsection, a satellite parking
466 arrangement exists when the minimum total parking (excluding on-site parking) required for a site
467 is to be provided on a site at a location different from the site which will be served by the parking
468 as required in § 6.1.7.A. When all or part of the minimum total parking (excluding on-site parking)
469 required for a site is to be satisfied by one or more satellite parking arrangements, such satellite
470 parking arrangements shall comply with the requirements of this subsection as follows:
471

472 1. Except as otherwise provided herein, satellite parking shall be located not more than 1,320 feet
473 from a public entrance to the principal building which contains the use associated with such

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 6 – PARKING

474 satellite parking, except that no satellite off-street parking area shall be located on parkway or
475 primary street designations or across Del Prado Boulevard or Cape Coral Parkway from the use
476 it is serving. When the site that contains the use(s) to be served by the satellite parking offers
477 valet parking at all times that such use(s) are open to the public so that valets will transport the
478 vehicles of patrons of such use(s) to the satellite parking site(s) and such valet service is
479 documented in an agreement entered into by the city and the owners of the property to be
480 served by the satellite parking and the property offering the satellite parking, then the satellite
481 parking site(s) may be more than 1,320 feet from a public entrance to the principal building
482 containing the use served by such valet parking.
483

484 The aforesaid agreement shall be in addition to the agreement required by § 6.1.8.K.1.4. and
485 shall be recorded in the public records of Lee County at the sole expense of the owner(s) of the
486 property to be served by the valet parking. Upon request by the owner of the property to be
487 served by a proposed satellite parking location, the City may allow satellite parking that does
488 not include valet parking to be located more than 1,320 feet from a public entrance to the
489 principal building which contains the use associated with the proposed satellite parking or to
490 be across Del Prado Boulevard or Cape Coral Parkway from the use it is serving, if the City finds
491 that the proposed satellite parking would not be detrimental to the public health, safety, and
492 welfare of the persons utilizing it. Factors which shall be considered by the City in making this
493 determination include, but are not limited to, the following: the proximity of the proposed
494 satellite parking to a signalized intersection, the availability of pedestrian crosswalks or other
495 pedestrian-oriented features at any intersections and any other locations between the
496 proposed satellite parking and the use(s) to be served by it, whether the satellite parking is to
497 be utilized by employees only or by patrons of the use(s) to be served, and the availability of
498 any complementary or supplementary services to such parking, such as trolley or tram systems
499 that would provide transportation for the public to and from the satellite off-street parking area
500 and the use(s) to be served. If the City approves satellite parking at a distance of more than
501 1,320 feet or across Del Prado Boulevard or Cape Coral Parkway, the City may impose conditions
502 on such satellite parking that would be reasonably designed to mitigate any negative effects
503 from such approval. Examples of such conditions include the requirement that a satellite off-
504 street parking area be clearly identified for only employee parking, the requirement that a
505 pedestrian walkway between the off-street parking area and the use(s) it serves be covered so
506 as to protect pedestrians from the elements, and that any supplementary or complementary
507 services be continued so long as the satellite parking is being used.
508

- 509 2. The satellite off-street parking area and the site which contains the use associated with such
510 satellite parking shall be shown on a site plan, development plan, or other equivalent plan. The
511 submitted plan shall show the pedestrian connection(s) between the two sites and shall
512 demonstrate that all pedestrian connections have sidewalks, or other paved walkways,
513 dedicated solely to pedestrians. In addition, the plan shall demonstrate that the distance
514 between the sites is not more than 1,320 feet when measured from a public entrance to the
515 principal building (on the site to be served by the satellite parking) to the closest point on the
516 proposed satellite parking site.
517
- 518 3. Satellite parking spaces on the off-site lot shall only be counted if they are above and beyond
519 the minimum parking requirement for uses on the off-site lot.
520

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 6 – PARKING

- 521 4. The owner of the off-site lot of land (and, the owner of the land intended to be served by such
522 off-site parking, if different than the owner of the lot to be used for parking) shall enter into an
523 agreement with the city, which shall be recorded in the public records of Lee County, Florida,
524 at the expense of the owner of the land intended to be served by the off-site parking.
525
- 526 5. The satellite off-street parking area shall never be sold or transferred except in conjunction with
527 the sale of the lot served by the off-site parking facilities unless:
528
- 529 a. The lot to be sold or transferred will continue to be used as provided in the off-site parking
530 agreement and the new owner or transferee executes a consent to assume and to be bound
531 by the obligations of the owner of the lot used for parking as provided in the agreement;
532
- 533 b. A different lot complying with the all provisions of the City of Cape Coal Code of Ordinances
534 and Land Use and Development Regulations and subject to a recorded off-site parking
535 agreement as specified herein is substituted for the lot of land subject to the off-site parking
536 agreement; or
537
- 538 c. The lot being served by the off-site parking no longer requires the parking as evidenced by
539 a written statement executed by the parties executing the off-site parking agreement and
540 as approved by the City. The aforesaid statement shall be recorded in the public records of
541 Lee County at the expense of the owner of the lot formerly being served by the off-site lot.
542

543 **CHAPTER 2. TRUCK AND VEHICLE PARKING**

544
545 **Section 6.2.1 Parking regulations for residential zoning districts.**
546

- 547 A. It shall be unlawful for any owner, agent, operator, or person in charge of a commercial vehicle or
548 trailer (private or commercial trailer) to park, store, or keep such vehicle or private or commercial
549 trailer on the pavement or in the swale of any public street within any single-family residential
550 district in the city. Furthermore, it shall be unlawful for any owner of privately owned real property
551 in the R1 and RE zoning districts in the city to park on, cause to be parked on, or allow to be parked
552 on such property any commercial vehicle or private or commercial trailer, except as otherwise
553 provided herein.
554
- 555 B. The prohibitions of § 6.2.1.A shall not apply to the following:
556
- 557 1. Temporary parking of any commercial vehicle or private or commercial trailer on private
558 property or in the adjoining swale of any public street in a residential district where construction
559 for which a current and valid permit has been issued by the city is underway on the property
560 and the permit is properly displayed on the premises. Provided that such private or commercial
561 trailer or commercial vehicle is only on the real property at the time the construction is actually
562 physically occurring. Nothing in this subsection is intended to require a permit where none is
563 otherwise required or to allow a private or commercial trailer or commercial vehicle to be
564 parked on private property or in the adjoining swale of any public street within a residential
565 district when construction is not actually physically occurring on the private property.
566
- 567 2. Deliveries by tradespeople or the use of commercial vehicles or trailers in making service calls.

613

3. Temporary parking of a commercial vehicle or recreational vehicle while such vehicle is being used by the operator for travel to and from the residential property for personal reasons of a temporary nature such as for a meal or to visit or serve an ill person. Such temporary parking shall not, however, exceed a total of two hours duration during any 24-hour time period.
 4. Emergency parking of a disabled commercial vehicle, recreational vehicle, or trailer. However, any such commercial vehicle, recreational vehicle, boat, or trailer shall be removed from the residential district within 24 hours by wrecker towing or other available means regardless of the nature of the emergency.
- C. Any combination of the following motor vehicles or trailers may be parked in single-family residential districts, on a parcel improved with a single-family residence:
1. Any light van, sports utility vehicle (SUV), pickup truck, jeep, motorcycle, automobile, or similar type of motor vehicle which is not a commercial vehicle. Furthermore, light vans, sports utility vehicles (SUVs), pickup trucks, jeeps, motorcycles, automobiles, or similar types of motor vehicles which would otherwise be considered to be "commercial vehicles" only because commercial lettering has been affixed to them may be parked outside of a permitted garage or carport provided that all commercial lettering has been concealed by a cover of a type that is applied directly to the surface of the motor vehicle or attached to the vehicle in such a manner that the vehicle can be safely driven on the public streets with the cover in place. If more than one such cover is attached to or is located on a vehicle, then all of such covers on or attached to such vehicle shall be the same color. For purposes of this section, covers located so as to impair the vision of the driver of the vehicle or insecurely mounted so as to present a danger of falling off the vehicle while it is being driven shall be presumed to be insufficient to bring the commercial vehicle within the exemption provided by this subsection. Furthermore, this exemption shall not apply to any motor vehicle that is considered to be a "commercial vehicle" under this section by virtue of the nature of its vehicle type and not solely because commercial lettering has been affixed to it regardless of whether such vehicle or any lettering affixed to it has been covered in part or in full of such vehicle is parked outside of the confines of a permitted garage or carport.
 2. Any trailer or motor vehicle described in § 6.2.1.G which is a commercial vehicle, provided that:
 - a. The commercial vehicle or trailer is parked in a permitted garage or carport;
 - b. When parked in a garage or carport, no part of such commercial vehicle or trailer may project horizontally beyond the roofline of the garage or carport; and
 - c. When parked in a carport, such commercial vehicle or trailer is screened on three sides.
- D. No vehicle for human habitation shall be kept or parked on premises zoned for residential purposes or on adjoining public rights-of-way, except when parked entirely within the confines of a garage or carport or in accordance with the following:

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 6 – PARKING

- 614 1. Non-resident. Vehicles for human habitation when used for transportation of visitors to this city
615 to visit friends or members of the visitors' family residing in this city may, upon obtaining a
616 permit (for which a charge shall not be made) from the Police Department, be parked upon the
617 premises of the visited family for a period not exceeding ten days. The permit shall be affixed
618 to the vehicle in a conspicuous place on the street side thereof. The City may, for good cause
619 shown, authorize the issuance of a second consecutive free permit not to exceed ten days. An
620 additional permit for the parking of such vehicle will not be issued until after the expiration of
621 15 days after termination of the last prior permit. For purposes of this section, a person who
622 owns or leases property in the City of Cape Coral shall not be deemed to be a "non-resident"
623 when he or she parks a vehicle for human habitation on property that he or she owns or leases
624 even if such person does not "reside" on the subject property.
625
- 626 2. Resident. When a vehicle for human habitation is owned or leased by the person who also owns
627 or leases the residential property on which such vehicle is to be parked, such vehicle for human
628 habitation may be parked upon the premises of the resident for a period not exceeding 72 hours
629 for loading and cleaning provided that a permit is first obtained from the City. A vehicle for
630 human habitation may be parked upon the premises of the resident for unloading after a trip
631 for a period of 72 hours provided that a permit is first obtained from the City. There shall be a
632 minimum of a 48-hour interval between the expiration of one permit and the issuance of
633 another. The permit for each such period shall be affixed to the vehicle in a conspicuous place
634 on the street side thereof. The city shall not charge a fee for the permits to park a vehicle for
635 human habitation upon the premises of the resident as required by this section.
636
- 637 3. Pop-up campers. A pop-up camper may be parked, only in a closed or folded condition, in the
638 rear yard of a residential lot improved with a principal residential building. For purposes of this
639 paragraph, a "pop-up camper" shall consist of a non-motorized trailer which includes, or on
640 which is mounted, a tent-like enclosure (but such enclosure may be made of canvas or similar
641 material, solid materials, or any combination thereof) to be used for camping purposes, which
642 enclosure opens or expands or unfolds to accommodate temporary occupancy and which closes
643 or folds up into itself in such a way as to be unusable for occupancy and to be no more than 55
644 inches in height when measured from ground level.
645
- 646 E. Parking of passenger cars or sports utility vehicles (SUVs) with commercial advertising signs setting
647 forth the name of the business, its address, business telephone number, and type of business (e.g.,
648 realtor, painter, etc.) thereon in residential areas outside the confines of a garage or carport is
649 permitted so long as the home (residential) address is not shown thereon.
650
- 651 F. The following are exempt from the provisions of this section:
652
- 653 1. Commercial vehicles or trailers in actual use or moving directly to or from the location of actual
654 use, which are owned or leased by:
655
- 656 a. The city for the accomplishment of a municipal purpose;
657
- 658 b. A contractor or subcontractor under agreement with the city to accomplish a municipal
659 purpose; or
660

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 6 – PARKING

661 c. A public utility operating within the city, or a contractor or subcontractor under agreement
662 with such public utility; for the installation, maintenance, adjustment, or repair of or to a
663 public utility facility.
664

665 However, no towing company, or other business entity, or any of its officers, employees, and
666 agents shall be exempt from the provisions of this ordinance solely because the towing
667 company or other business entity has been employed by the city to provide towing or other
668 services.
669

670 2. Commercial vehicles owned by or leased by governmental entities, including the city, Lee
671 County, or the State of Florida which are parked in residential districts on a parcel improved
672 with a permitted structure when such vehicles are lawfully in the possession of an authorized
673 agent or employee of the governmental entity. This category shall include police or sheriff's
674 vehicles which are permitted to be driven to residences of authorized employee(s) of such law
675 enforcement entities.
676

677 G. In applying the terms of this section, the following rules of construction shall apply:
678

679 1. Any motor vehicle or trailer which is partially built or in the process of conversion shall be
680 included under the most stringent definition that can be applied.
681

682 2. In case of doubt as to the proper classification of a specific vehicle, a determination by the
683 state's Department of Highway Safety and Motor Vehicles shall be controlling. The body
684 description and classification on the motor vehicle certificate of title shall be *prima facie*
685 evidence of such determination.
686

687 **Section 6.2.2 Parking regulations for property zoned multi-family residential.**
688

689 The restrictions for multi-family residential shall be the same as for single-family residential except that
690 the prohibitions contained in § 6.2.1.A shall not apply to the following commercial vehicles when parked
691 on properties zoned multi-family residential:
692

693 A. Pickup trucks from which the cargo boxes have been removed;
694

695 B. Pickup trucks or light vans containing commercial rack(s) regardless of whether such rack(s) are
696 visible from the street or from abutting residential property; and
697

698 C. Light vans, sports utility vehicles (SUVs), pickup trucks, jeeps, motorcycles, automobiles, or similar
699 types of motor vehicles which would otherwise be considered to be "commercial vehicles" only
700 because commercial lettering has been affixed to them.
701

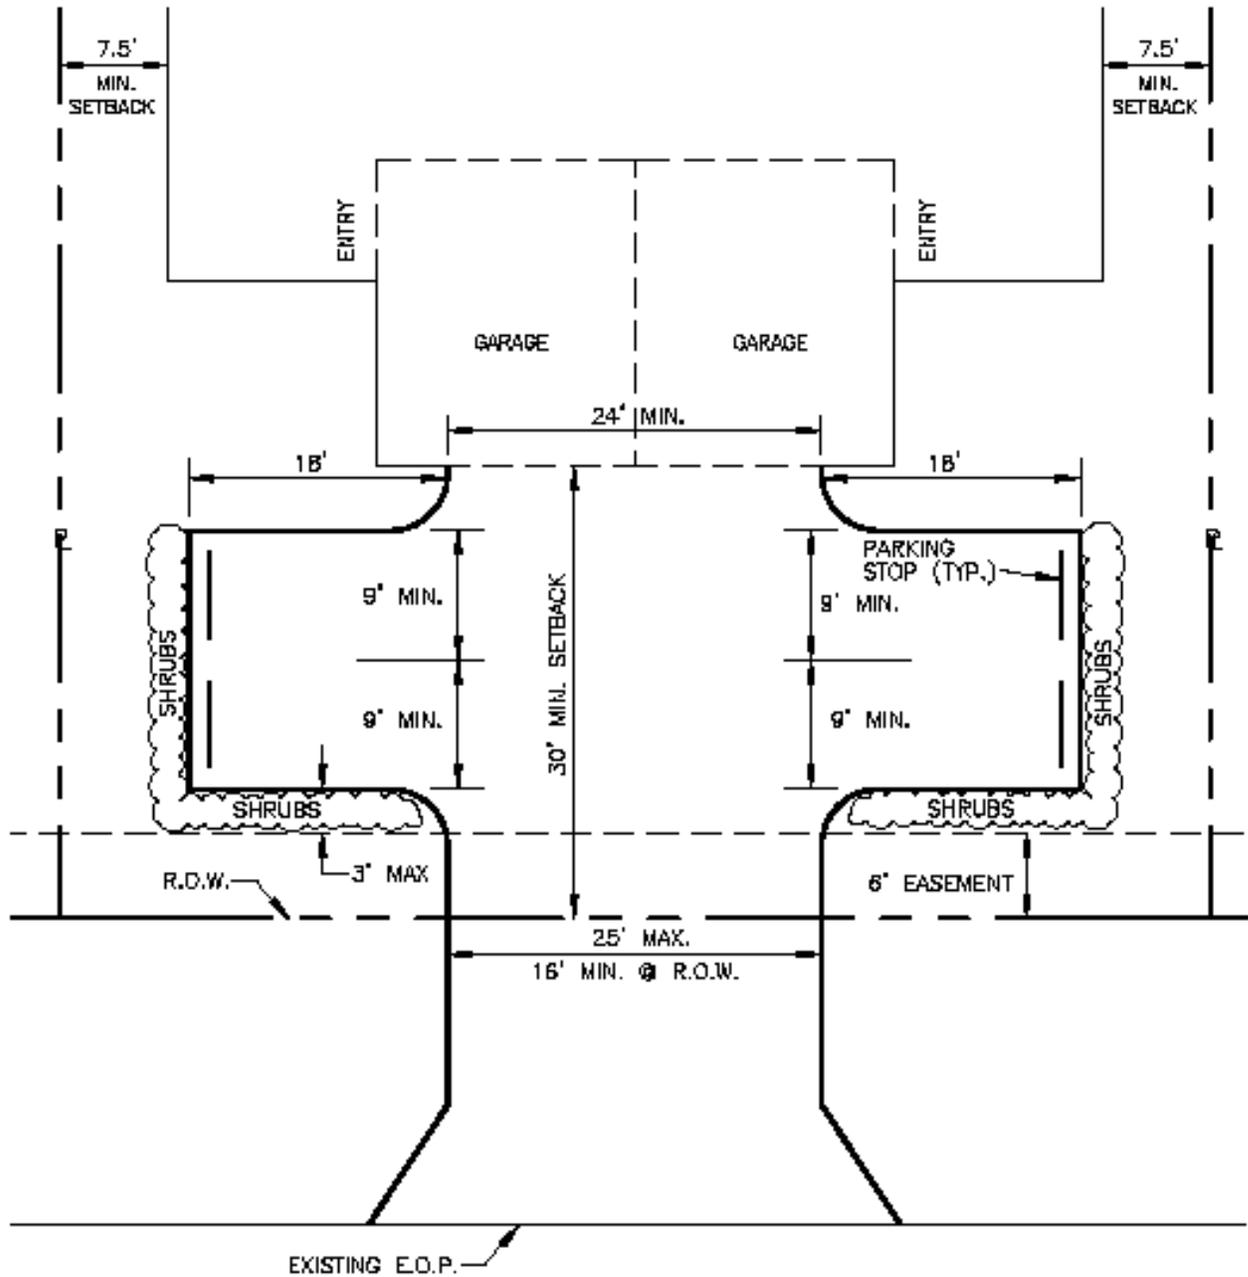

702 **Section 6.2.3 Parking area design requirements for duplex dwellings:**
703

704 Parking areas for duplex dwelling shall conform to one of the following designs:

Property zoned industrial and agricultural shall have no restrictions placed upon it as to the parking of trucks or unoccupied vehicles for human habitation, except as otherwise regulated within a recreational vehicle park, or as a condition of special exception or a planned unit development.

Section 6.2.5 Hotel and motel parking provisions.

Hotels and motels are considered business enterprises, therefore, trucks, trailers, buses, and other commercial vehicles, as well as vehicles for human habitation may be parked on the premises of such businesses. Such vehicles must not be parked in streets, alleys, or other rights-of-way.

Section 6.2.6 Boats and boat trailers.

- A. It shall be unlawful for any person to park, store, keep, maintain, or permit to be parked, stored, kept, or maintained in front or side yard of a single or multi-family residence, or on a vacant lot in a residential area, any boat or empty boat trailer. A maximum of two boats on trailers, or an empty boat trailer may be parked on the rear yard provided the same is not allowed to fall into a state of disrepair. If grass or weeds are allowed to grow around or under it to a height exceeding 12 inches, then it may be declared a nuisance and the owner charged accordingly. An empty boat trailer may be parked at a launching site during the period of time that the boat is launched therefrom for a single voyage and while in the process of loading or unloading the boat or trailer. A boat, empty boat trailer, or a boat on a trailer may be parked entirely within the confines of a garage or carport meeting the requirements of this ordinance.
- B. All boats and boat trailers parked, stored, kept, or maintained in the R-1, RE, RML, or RMM zoning districts must have a current registration from the State of Florida. This requirement also applies to any boats moored at docks or seawalls or stored on boat lifts or davits.
- C. For purposes of this section, two personal watercraft shall equal one boat.
- D. When a boat is owned or leased by the person who also owns or leases the residential property on which such vehicle is to be parked, such boat may be parked upon the premises of the resident for a period not exceeding 72 hours for loading and cleaning provided that a permit is first obtained from the City. A boat may be parked upon the premises of the resident for unloading after a trip for a period of 72 hours provided that a permit is first obtained from the City. There shall be a minimum of a 48-hour interval between the expiration of one permit and the issuance of another. The permit for each such period shall be affixed to the boat in a conspicuous place on the street side thereof. The city shall not charge a fee for the permits to park a boat upon the premises of the resident as required by this section.

Section 6.2.7 Vacant lots.

It shall be unlawful for any person to park, store, keep, maintain at any time, or permit to be parked, stored, kept, or maintained at any time on any unimproved property in any zoning district any motor vehicle, boat, or trailer of any kind, type, or description, including any boat and trailer in combination, except that this prohibition shall not apply to any unimproved property on which temporary parking of such motor vehicles, boats, or trailers has been authorized by the property owner(s), in writing, and

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 6 – PARKING

773 approved by the City in association with a special event that has been approved by the City. Throughout
774 this subsection, the term **TRAILER** shall be deemed to mean and include both a boat mounted on a
775 trailer and the trailer itself.

776

777 A. In the event a motor vehicle, boat, or trailer is parked, stored, kept, or maintained on an
778 unimproved property in any zoning district at any time, a City Code Compliance Officer shall place
779 a written notice of violation on the vehicle, boat, or trailer indicating that it is in violation of this
780 section and that it must be removed within three calendar days from the date of the notice or it
781 will be subject to removal by the city. The Code Compliance Officer shall make every reasonable
782 attempt to ascertain the owner of the vehicle, boat, or trailer and the owner of the real property,
783 and shall notify such owner(s) with a written notice delivered by mail or personal service at their
784 current address, last known address, or the address appearing on the certificate of title for the
785 vehicle, boat, or trailer. The notice placed on the vehicle, boat, or trailer and all notices provided to
786 the owners or apparent owners of the vehicle, boat, trailer, and the land shall advise of the possible
787 appeal provided for in the following subsection B.

788

789 B. Within the three-calendar day period specified in the aforesaid notice, the owner of the vehicle,
790 boat, trailer, or the owner of the real property may appeal to a Special Master utilized by the city
791 to conduct hearings concerning violations involving vehicle(s), boat(s), or trailers) parked, stored,
792 kept, or otherwise maintained on vacant real property. The appeal shall be filed at the office of the
793 City Manager, must attach a copy of the notice of violation appealed, and must include the name
794 of the person filing the appeal and an address at which such person may be served notice of the
795 hearing on the appeal. The hearing on the appeal shall be conducted the same as a code
796 enforcement hearing for a case initiated by a Code Compliance Officer pursuant to §§ 2-
797 85 through 2-92 of the Code of Ordinances of the City of Cape Coral, Florida. The Special Master
798 shall determine the validity of the violation and may for good cause extend the time for compliance
799 or removal. If such an appeal is instituted, no removal of the vehicle, boat, or trailer shall be
800 required until the appeal has been dismissed or finally determined by the Special Master with a
801 finding of a violation.

802

803 C. If no appeal is made or if an appeal is made but dismissed and the vehicle, boat, or trailer remains
804 in violation after the three calendar day period, or if an appeal is resolved with a finding of a
805 violation and the vehicle, boat, or trailer is not removed within whatever time period is allowed by
806 the Special Master, the City Code Compliance Manager shall cause such vehicle, boat, or trailer to
807 be towed from the property and thereafter stored and disposed of in accordance with applicable
808 state law or city ordinance. The Special Master may also assess fines and costs; the same as for any
809 code enforcement violation.

810

811 The city shall not be responsible for the towing charges resulting from the removal of the vehicle,
812 boat, or trailer from the property. Instead, the owner(s) of the vehicle, boat or trailer shall be
813 responsible for all such charges.

814

815 D. The authorization in this section for the towing of vehicles, boats, or trailers parked, kept, stored,
816 or otherwise maintained on unimproved property shall be construed as supplementary to any other
817 means of enforcement available to the city and shall not be construed so as to negate the authority
818 of the Special Master to hear and adjudicate appropriate cases.

819

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 6 – PARKING

820 E. The City Manager shall at least annually recruit qualified persons to serve as Special Masters. The
821 City Council shall, on an annual basis, appoint at least one qualified person to serve as the Special
822 Master and at least one qualified person to serve as an alternate Special Master in the event the
823 Special Master is unable to attend a meeting. Applicants for the Special Master position must be
824 attorneys. The appointment(s) shall be in the sole discretion of the City Council. However, any
825 person appointed to the position of Special Master pursuant to this section must be an attorney
826 duly licensed by the Florida Bar Association to practice law in the State of Florida.

827
828 F. Each Special Master shall serve for a term of one year though Special Masters may be reappointed
829 for consecutive one-year terms. Although appointed for one-year terms, Special Masters shall be
830 subject to removal, with or without cause, from their positions at any time during their term by the
831 City Council in its sole discretion. Special masters shall not be considered to be city employees
832 though, if authorized by the City Council, they may receive compensation for their service and also
833 may be reimbursed for such travel, mileage, and per diem expenses as may be authorized by the
834 City Council.

835
836 G. The Special Master shall convene hearings concerning appeals of alleged violations of this section
837 within a reasonable time from the date the appeal request is made. Minutes shall be kept of all
838 hearings by the Special Master and all hearings and proceedings shall be open to the public. The
839 City Manager shall provide clerical and administrative personnel as may be reasonably required by
840 the Special Master for the proper performance of his or her duties.

841
842 H. The Special Master shall proceed to hear the cases on the agenda for that day. If the alleged violator
843 has been duly notified of the hearing, the hearing may proceed in the absence of the named
844 violator. All testimony shall be under oath or affirmation and shall be recorded.

845
846 The Special Master shall take testimony from the Code Compliance Officer, the alleged violator, and
847 any other witnesses who have personal knowledge concerning the alleged violation. Documentary
848 evidence may be presented in support, of or in defense of the charge. Irrelevant, immaterial, or
849 unduly repetitious evidence shall be excluded. All other evidence of the type commonly relied upon
850 by reasonably prudent persons in the conduct of their affairs shall be admissible, whether or not
851 such evidence would be admissible in the courts of Florida. Hearsay evidence may be introduced
852 and used for supplementing or explaining other evidence, but it shall not be sufficient in itself to
853 support a finding by the Special Master unless it would be admissible over objections in a civil
854 action. Formal rules of evidence shall not apply, but fundamental due process shall be observed and
855 govern said proceedings.

856
857 I. In order to render an order finding the alleged violator guilty and denying the appeal, the Special
858 Master must find that a preponderance of the evidence indicates that the named violator was
859 responsible for the violation as alleged.

860
861 J. At the conclusion of the hearing, the Special Master shall issue an order containing findings of fact,
862 based on evidence of record, and conclusions of law.

863
864 **Section 6.2.8 Vehicles and trailers for sale.**

865

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 6 – PARKING

866 It shall be unlawful for any person to park, store, keep, maintain at any time, or permit to be parked,
867 stored, kept, or maintained on any unimproved property in any zoning district, or outside of a
868 completely enclosed building on any improved property in a ~~W~~, C, CC, P₂ or I zoning district, any motor
869 vehicle or trailer of any kind, type, or description, including any boat mounted on a trailer, which is
870 being displayed for sale, hire, or rental except as provided in subsections I., J., and K. below. Throughout
871 this subsection, the term "trailer" shall be deemed to mean and include both a boat mounted on a
872 trailer and the trailer itself.

873

874 A. In the event a motor vehicle or trailer is displayed for sale, hire, or rental in violation of this section,
875 City Code Compliance Officer(s), law enforcement officer(s), or such other city employee(s) as may
876 be designated by the City, are authorized to cause such vehicle or trailer to be immobilized or towed
877 from the property to a garage or other place of safety, and thereafter disposed of in accordance
878 with applicable state law or city ordinance. The city shall not be responsible for the towing charges
879 resulting from the removal of the vehicle from the property. Instead, the owner(s) of the vehicle
880 shall be responsible for all such charges. Immobilization and towing shall be accomplished in
881 accordance with the following subsections B. through H.

882

883 B. A motor vehicle or trailer parked in violation of this section may be immobilized with a "wheel lock,"
884 "boot," or other suitable device as long as a notice of violation is placed by the Code Compliance
885 Officer on the vehicle or trailer indicating all of the following:

886

887 1. That the vehicle or trailer is in violation of this section and that it must be removed from the
888 property within ten calendar days from the date of the notice or it will be subject to removal by
889 the city;

890

891 2. That the notice of violation may be appealed as provided in the following subsection D.;

892

893 3. That the wheel lock, boot, or other immobilization device will be removed from the vehicle or
894 trailer upon the posting with the city of a \$200 bond, in the form of cash, certified check, or
895 surety bond; and

896

897 4. The name of the city official or department with which such bond must be posted and the street
898 address thereof.

899

900 C. The Code Compliance Officer shall make every reasonable attempt to ascertain the owner of the
901 motor vehicle or trailer and the owner of the real property on which it is unlawfully parked, and to
902 provide such owner(s) with a copy of the written notice of violation placed on the vehicle or trailer,
903 such copy to be delivered by mail or personal service at their current address, last known address,
904 or the address appearing on the certificate of title for the vehicle.

905

906 D. Within the ten-calendar day period specified in the aforesaid notice, the owner of the vehicle or
907 trailer or the owner of the real property may appeal to a Special Master appointed under § 6.2.6.E.
908 of this chapter. The appeal shall be filed at the office of the City Manager, must attach a copy of the
909 notice of violation appealed, and must include the name of the person filing the appeal and an
910 address at which such person may be served notice of the hearing on the appeal. The hearing on
911 the appeal shall be conducted the same as a code enforcement hearing for a case initiated by a
912 Code Compliance Officer pursuant to §§ 2-85 through 2-92 of the Code of Ordinances of the City of

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 6 – PARKING

913 Cape Coral, Florida. The Special Master shall determine the validity of the violation and may for
914 good cause extend the time for compliance or removal. If such an appeal is instituted, no removal
915 of the vehicle or trailer shall be required until after said appeal has been dismissed or finally
916 determined by the Special Master with a finding of a violation of this subsection .8.
917

918 E. If no appeal is made or if an appeal is made but dismissed and the vehicle or trailer remains in
919 violation after the ten calendar day period, or if an appeal is resolved with a finding of a violation
920 of this subsection and the vehicle or trailer is not removed within whatever time period is allowed
921 by the Special Master, the City Code Compliance Manager shall cause such vehicle to be towed from
922 the property and thereafter stored and disposed of in accordance with applicable state law or city
923 ordinance. The Special Master may also assess fines and costs, the same as for any code violation.
924

925 The city shall not be responsible for the towing charges resulting from the removal of the vehicle
926 from the property. Instead, the owner(s) of the vehicle shall be responsible for all such charges.
927

928 F. The authorization in this section for the towing of vehicles and trailers unlawfully displayed for sale,
929 hire, or rental shall be construed as supplementary to any other means of enforcement available to
930 the city and shall not be construed so as to negate the authority of the Special Master to hear and
931 adjudicate appropriate cases.
932

933 G. The provisions above, regarding Special Masters and Special Master hearings, shall apply equally
934 with regard to this section.
935

936 H. Code Compliance Officer shall be notified and the wheel lock, boot, or other immobilization device
937 shall, as soon as practicable, be removed from the vehicle or trailer. If no appeal of the violation is
938 timely filed, or if an appeal is filed and is dismissed, the bond shall be forfeited to the city to cover
939 the cost of inspection, notice of violation, and immobilization of the vehicle or trailer. If an appeal
940 is filed and ultimately results in a finding by the Special Master that no violation of this subsection
941 .8 occurred, the bond shall be returned to the person who posted it. If an appeal is filed and
942 ultimately results in a finding by the Special Master that a violation of this subsection .8 occurred,
943 the bond shall be applied to any fines and costs assessed against the violator by the Special Master.
944

945 I. If a motor vehicle being displayed for sale, hire, or rental is parked by the owner outside of a
946 completely enclosed building in a designated parking space on any improved property in a C, NC,
947 CC, P1, or I zoning district, while the owner of the vehicle is attending or participating in activities
948 or is being treated or served by or is shopping at a facility located on such property, the motor
949 vehicle and its owner shall not be in violation of this subsection .8. However, the leaving of any such
950 vehicle on the same property for a period of eight consecutive hours shall create a rebuttable
951 presumption that the owner is not attending or participating in activities or is being treated or
952 served by or is shopping at a facility located on such property and that the motor vehicle and its
953 owner are in violation of this subsection .8.
954

955 J. This subsection .8 shall not apply to any motor vehicle or trailer offered for sale on property
956 developed and used for a licensed business which includes the sale of such vehicles or trailers or to
957 any motor vehicle or trailer while it is being repaired on property developed and used for a licensed
958 business which includes the repair of such vehicles or trailers.
959

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 6 – PARKING

960 K. This subsection .8 shall not apply to motor vehicles or trailers offered for sale on any property
961 pursuant to a City Council special event approval.
962

963 **Section 6.2.9 Exemptions.**
964

965 A. The provisions of this section shall not apply to vehicles parked on the premises of churches, clinics,
966 schools, child care facilities, assisted living facilities, public libraries, public buildings, public and club
967 swimming pools, private clubs, golf courses, utilities, hotels and motels, and parks and recreational
968 areas, while the persons transported thereby are attending or participating in activities or being
969 treated or served thereat, nor to buses, trucks, or trailers parked at any time in a space prepared
970 or designated therefore on said premises, if such vehicles are used or operated by or for the
971 operation of the places or institutions designated, except that such vehicles cannot be used for
972 residential purposes.
973

974 B. The provisions of this section shall not apply to vehicles parked on unimproved or vacant lots within
975 the boundaries of the South Cape zoning district, provided the following requirements are met:
976

977 1. The unimproved or vacant property must be zoned for commercial use and must be
978 immediately adjacent to the business premises for which parking is being provided. For
979 purposes of this section, the phrase **IMMEDIATELY ADJACENT** shall mean sharing all or part of
980 a property line with the business premises or directly across a street or alley from the business
981 premises, provided that the width of such street or alley is 50 feet or less and provided that all
982 or part of the unimproved or vacant property lies within an extension of the property lines of
983 the business premises across the street or alley.
984

985 2. If the vacant property which will be utilized for parking is not owned by the same person or
986 entity as the developed commercial property it is intended to serve, the owner of the developed
987 commercial property must have a bona fide lease for the adjacent vacant or unimproved
988 property.
989

990 3. Parking on the vacant or unimproved property shall be limited to only patrons of the adjacent
991 business and only during the hours that such business is in operation. The vacant or unimproved
992 property shall be posted with a sign that states the foregoing two restrictions.
993

994 **Section 6.2.10 Authority to signpost designated areas.**
995

996 The City Manager shall have the authority to post signs designating areas of regulated or restricted
997 parking as provided by F.S. §§ 316.006 and 316.008 (1973) or other applicable laws.
998

CHAPTER 1. GENERAL PROVISIONS

Section 7.1.1. Purpose and Intent

It is the purpose of this Article to promote the public health, safety, and general welfare through reasonable, consistent, and non-discriminatory sign standards. The sign regulations in this Article are not intended to censor speech or to regulate viewpoints, but instead are intended to regulate the adverse secondary effects of signs. The sign regulations are especially intended to address the secondary effects that may adversely impact aesthetics and traffic and pedestrian safety. The sign regulations are designed to serve substantial governmental interests and, in some cases, compelling governmental interests, such as traffic safety and warning signs of threats to bodily injury or death. This Article is not intended to extend its regulatory regime to objects that are not traditionally considered signs for purpose of government regulation.

In order to preserve and promote the City as a desirable community in which to live, visit, work, play, and do business, a pleasing, visually attractive, and safe environment is of foremost importance. The regulation of signs within the City is a highly contributive means by which to achieve this desired end.

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 7 – SIGN REGULATIONS**

47 Further it continues to be the purpose of this Article to promote optimum conditions for serving sign
48 owners' needs and respecting their rights to identification while balancing the aesthetic and safety
49 interests of the community. The regulation of signs within the City is necessary and in the public interest,
50 and these regulations have been prepared with the intent of enhancing the visual environment of the City
51 and promoting its continued well-being, and are intended more specifically to:

52

53 A. Aesthetics. To maintain and enhance the beauty, unique character, aesthetic environment, and
54 quality of the City, that will attract commerce, businesses, economic development, residents, and
55 visitors; to preserve, conserve, protect, and enhance the aesthetic quality and scenic beauty of all
56 zoning districts of the City; to regulate the appearance and design of signs in a manner that promotes
57 and enhances the beautification of the City and that complements the natural surroundings in
58 recognition of the City's reliance on its natural surroundings and beautification efforts in retaining
59 economic advantage for its community; and to assure that the benefits derived from the expenditure
60 of public funds for the improvement and beautification of streets, sidewalks, public parks, public
61 rights-of-way, and other public places and spaces, are protected by exercising reasonable controls
62 over the physical characteristics and structural design of signs.

63

64 B. Traffic and Pedestrian Safety. To maintain and improve traffic and pedestrian safety through properly
65 located signs; to regulate signs in a manner so as to not interfere with, obstruct the vision of, or
66 distract motorists, bicyclists, or pedestrians; to allow for traffic control devices consistent with
67 national standards and whose purpose is to promote roadway safety and efficiency by providing for
68 the orderly movement of road users on streets and roadways, and that notify users of regulations and
69 provide warning and guidance necessary for the safe, uniform, and efficient operation of all elements
70 of the traffic stream.

71

72 C. Economic Development. To promote economic development and the value of nonresidential
73 properties, through sensitivity to surrounding land uses and maintaining an attractive community
74 appearance.

75

76 D. Effective Communication. To encourage signs which are clear and legible; and to encourage the
77 effective use of signs as a means of communication.

78

79 E. Identification of Goods and Services. To aid the public and private sectors in identifying the location
80 of goods and services.

81

82 F. Compatibility with Surroundings. To allow signs that are compatible with their surroundings and aid
83 orientation, while precluding the placement of signs that contribute to sign clutter or that conceal or
84 obstruct adjacent land uses or signs; to preclude signs from conflicting with the principal permitted
85 use of the site and adjoining sites; and to minimize the possible adverse effect of signs on nearby
86 public and private property.

87

88 G. Reduction of Visual Clutter. To reduce visual clutter that may otherwise be caused by the proliferation,
89 improper placement, illumination, animation, excessive height, and excessive size (area) of signs
90 which compete for the attention of pedestrian and vehicular traffic.

91

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 7 – SIGN REGULATIONS**

- 92 H. Zoning District Considerations. To encourage and allow signs that are appropriate to the zoning district
93 in which they are located.
94
- 95 I. Scale, Integration, and Design. To establish sign size in relationship to the scale of the lot and building
96 on which the sign is to be placed or to which it pertains; to foster the integration of signs with
97 architectural and landscape designs; to provide flexibility and encourage variety in signs, and to relate
98 signage to the basic principles of good design; and to promote the use of signs that positively
99 contribute to the aesthetics of the community, are appropriate in scale to the surrounding buildings
100 and landscape, and advance the City’s goals of quality development.
101
- 102 J. Maintenance and Safety. Except to the extent expressly preempted by state or federal law, to ensure
103 that signs are constructed, installed, and maintained in a safe and satisfactory manner, and to protect
104 the public from unsafe signs.
105
- 106 K. Property Values. To protect property values by precluding, to the maximum extent possible, sign types
107 that create a nuisance to the occupancy or use of other properties because of their physical
108 characteristics such as their size (area), height, number, illumination, and movement; and to protect
109 property values by ensuring that the number of signs are in harmony with buildings, neighborhoods,
110 and conforming signs in the area.
111
- 112 L. Enforcement. To enable the fair and consistent enforcement of these sign regulations; and to provide
113 standards regarding the non-communicative aspects of signs, which are consistent with local, county,
114 state, and federal law.
115

Section 7.1.2. Scope

116
117
118 This article shall control the regulation of signs and other outdoor displays. If any part of this article
119 conflicts with any other codes adopted by the city, the most restrictive provision shall apply.
120

Section 7.1.3. Compliance with Codes and Ordinances

121
122
123 No sign shall be erected or maintained in the city, except in accordance with the provisions of this article.
124 All signs erected, installed, or located in the City of Cape Coral shall conform to all requirements of the
125 National Electrical Code, the Florida Building Code, this article, and other applicable law.
126

Section 7.1.4. Substitution

127
128
129 It is not the purpose of this article to regulate or control the copy, content, or viewpoint of signs. Nor is it
130 the intent of this article to afford greater protection to commercial speech than to non-commercial
131 speech. Any sign, display, or device allowed under this article may contain, in lieu of any other copy, any
132 otherwise lawful non-commercial message that complies with all other requirements of this article. The
133 non-commercial message may occupy the entire sign area or any portion thereof and may substitute for
134 or be combined with the commercial message. The sign message may be changed from commercial to
135 non-commercial or from one non-commercial message to another, as frequently as desired by the sign's
136 owner, if the sign is not prohibited and the sign continues to comply with all requirements of this article.
137

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 7 – SIGN REGULATIONS**

Section 7.1.5. Severability

- A. Generally. If any part, section, subsection, paragraph, subparagraph, sentence, phrase, clause, term, or word of this article is declared unconstitutional by the final and valid judgment or decree of any court of competent jurisdiction, this declaration of unconstitutionality or invalidity shall not affect any other part, section, subsection, paragraph, subparagraph, sentence, phrase, clause, term, or word of this article.
- B. Severability where less speech results. This subsection shall not be interpreted to limit the effect of Section 7.1.5.A above, or any other applicable severability provisions in the code or any adopting ordinance. The City Council specifically intends that severability shall be applied to these sign regulations even if the result would be to allow less speech in the city, whether by subjecting currently exempt signs to permitting or by some other means.
- C. Severability of provisions pertaining to prohibited signs. This subsection shall not be interpreted to limit the effect of Section 7.1.5.A above, or any other applicable severability provisions in the code or any adopting ordinance. The City Council specifically intends that severability shall be applied to Section 7.2.1 of this article, "Prohibited signs," so that each of the prohibited sign types listed in that section shall continue to be prohibited irrespective of whether another sign prohibition is declared unconstitutional or invalid.
- D. Severability of prohibition on off-premises signs and commercial signs. This subsection shall not be interpreted to limit the effect of Section 7.1.5.A above, or any other applicable severability provisions in the code or any adopting ordinance. If any, or all, of this article or any other provision of the code is declared unconstitutional or invalid by the final and valid judgment of any court of competent jurisdiction, the City Council specifically intends that that declaration shall not affect the prohibition of off-site signs in Section 7.2.1 of this article.

Section 7.1.6. Definitions

Article 11 of this code contains definitions as they relate to this article.

Chapter 2. Administration

Section 7.2.1. Prohibited Signs

The following signs are prohibited:

- A. Abandoned signs;
- B. Animated signs, except electronic message centers, provided such signs comply with the requirements of Section 7.4.3;
- C. Back Lit Awning Signs;
- D. Bandit Signs;

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 7 – SIGN REGULATIONS**

- 184 E. Blinking Signs;
185
- 186 F. Unless allowed under Section 7.2.2 of this article, signs on public property, rights-of-way, or attached
187 to trees or utility poles, other than by or with the permission of the owner of the public property or
188 right-of-way;
189
- 190 G. Signs attached to fences on improved, non-residential property; however, this prohibition shall not
191 extend to signs attached to recreational fences around activity fields, playgrounds, or playing fields
192 (such as football fields, baseball diamonds, etc.) in public parks owned and operated by one or more
193 governmental entities and where the signs:
194
 - 195 1. Are only visible from inside the park, or
196
 - 197 2. If visible from outside the park, face the inside of the park;
198
- 199 H. Figure structured signs;
200
- 201 I. Flashing signs;
202
- 203 J. Intermittent;
204
- 205 K. Moving;
206
- 207 L. Obscene signs;
208
- 209 M. Off-site signs;
210
- 211 N. Parasite signs;
212
- 213 O. Projected image signs;
214
- 215 P. Portable signs;
216
- 217 Q. Reflective;
218
- 219 R. Roof signs;
220
- 221 S. Rotating;
222
- 223 T. Signs or sign support structures that obstruct means of egress, including any fire escape, any window,
224 any door opening, any stairway, any opening, any exit, any walkway, any utility access or Fire
225 Department connection;
226
- 227 U. Signs that interfere with any opening required for ventilation;
228
- 229 V. Signs resembling Traffic Control Device Signs;

**CITY OF CAPE CORAL, FLORIDA

ARTICLE 7 – SIGN REGULATIONS**

- 230
- 231 W. Signs with exposed raceways;
- 232
- 233 X. Snipe Signs; and
- 234
- 235 Y. Vehicle signs.
- 236

Section 7.2.2. Signs in the Public Right-of-Way

- 237
- 238
- 239 A. Signs allowed in the public right-of-way. No signs shall be erected, installed, or located in the public
- 240 right-of-way or shall project over the public right-of-way, except permanent signs of the following
- 241 type(s):
- 242
- 243 1. Public signs erected by or on behalf of a governmental body to post legal notices, identify public
- 244 property, convey public information, announce public events, and direct or regulate pedestrian
- 245 or vehicular traffic.
- 246
- 247 2. Signs that are placed within or on structures that are public service related, including bus stop
- 248 signs, bench/shelter signs, and other informational signs. These structures shall be erected by or
- 249 on behalf of a public transit or communications company or the city. These structures and the
- 250 character, size, content, nature, and design of signs on such structures shall be approved by the
- 251 city through a contract or other agreement approved by the City Council prior to the erection of
- 252 such structures or the installation of such signs. If such structures cannot be in the public right-of-
- 253 way as the result of safety factors, right-of-way constraints, or other factors or if it is more
- 254 practicable to locate such structures on a site other than public right-of-way, the structure may
- 255 be placed on private property, provided that prior written consent is obtained from the property
- 256 owner.
- 257
- 258 3. Informational signs of a public utility regarding its poles, lines, pipes, or facilities.
- 259
- 260 4. Development identification signs in conformity with 7.4.2.
- 261
- 262 5. Directional signs in conformity with 7.4.2.
- 263
- 264 6. Non-commercial signs in conformity with 7.4.2.
- 265
- 266 7. Traffic Control Device Signs installed by or on behalf of a government body.
- 267
- 268 B. Removal and forfeiture of unauthorized sign in the public right-of-way. The city shall have the right to
- 269 remove from the public right-of-way any sign which is erected, installed, or located in such public
- 270 right-of-way and which does not conform to the requirements of this article. Such signs shall be
- 271 deemed to have been forfeited to the city and the city shall have the right to dispose of such signs as
- 272 it sees fit. In addition to other remedies, the city shall have the right to recover from the owner of
- 273 such sign or the person responsible for placing the sign in the public right-of-way all costs associated
- 274 with the removal or disposal of the sign.
- 275

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 7 – SIGN REGULATIONS**

Section 7.2.3. Activities Exempt from Permitting

276
277

The following types of activities are exempt from the permitting requirements of this article:

278
279

- A. Changing the advertising copy, announcement, or message on a marquee or changeable copy sign board so designed to alter such copy; subject to any restrictions in this article, including frequency limitations;
- B. Cleaning, painting, electrical, or comparable general maintenance or repair of a sign that does not alter any regulated feature of such sign; and
- C. Changing the message or locating official public notices or traffic control signs.

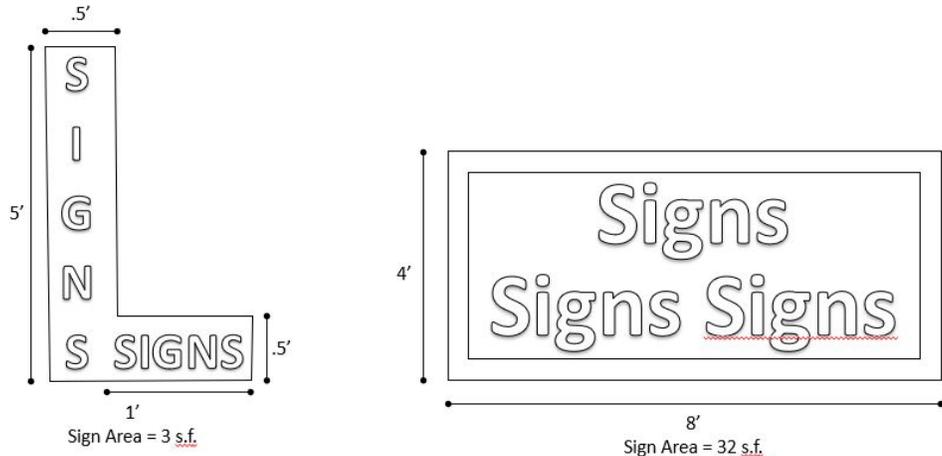

283
284
285
286

Section 7.2.4. Requirements Applicable to All Signs

287
288

- A. Computation of sign area. The area of a sign shall be measured from the outside edges of the sign or the sign frame, whichever is greater, excluding the area of the supporting structures provided that the supporting structures are not used for advertising purposes and are of an area equal to or less than the permitted sign area. Supporting framework and bracing which are incidental to the display itself shall not be included in the computation of the area unless, by the nature of their design, they form a continuation of the sign.

291
292
293
294
295
296

297

- 1. The area of a multi-faced sign shall be computed on one face in the same manner as the sign area of an individual sign, provided that the faces of the sign are not separated at any point by more than 18 inches. If the faces of a multi-faced sign are separated at any point by more than 18 inches, then each face constitutes a separate sign.

328
329
330

- B. Computation of height. The vertical height of a freestanding sign shall be computed from the established mean grade of the development site to the highest component of the sign or supporting framework, whichever is higher. The maximum vertical height of a building mounted sign shall not exceed the roof line of the structure.
- C. Location of signs on property.
 1. Setbacks. The distance of a sign from a property line, right-of-way, or other point shall be computed by measuring a perpendicular line from the foremost part of the sign to the ground and then measuring from that point to the nearest point of the property line, right-of-way, etc.
 2. Distance between freestanding signs. A minimum distance of 25 feet shall be maintained between freestanding signs regardless of whether such signs are on one site or whether they are located on adjacent sites.
 3. Location. No sign may project beyond the property line(s) of the property on which the sign is located, except that sign(s) may be flush-mounted to the walls of buildings which are constructed with a zero setback from the property line. Except as otherwise provided herein, signs shall be located on the same site on which the advertised goods or services are available. No part of any

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 7 – SIGN REGULATIONS**

331 banner, sign, flag, or flagpole shall be hung, attached, or erected in any manner as to project into
332 the right-of-way.
333

334 4. Freestanding signs are prohibited in the 6' perimeter utility easement.
335

336 D. Illumination. Signs may be illuminated by any method not prohibited by this article provided that any
337 light source shall be shielded in such a manner as to prevent direct rays of light from being cast into
338 an occupied residence, hotel or motel room, a commercial business, at any pedestrian traveling upon
339 a street or sidewalk, or any vehicle traveling upon a public street.
340

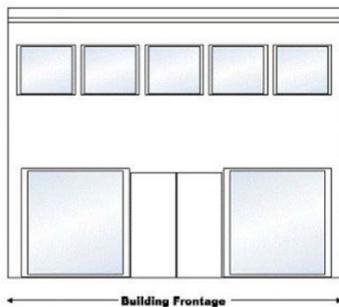

Section 7.2.5. Maximum Total Sign Area Per Site

341
342
343 A. Residential uses in residential zoning districts. Except for signs identified as permitted, no signs are
344 allowed on sites containing residential uses in residential zoning districts. Any sign on a residential site
345 in a residential zoning district shall comply with the provisions for such sign(s).
346

347 B. Non-residential uses in all zoning districts. Except as otherwise provided in this chapter, the number
348 of building signs located on property lawfully used for non-residential purposes shall not be limited
349 so long as the cumulative total sign area (in square feet) of all such signs, except exempt signs, does
350 not exceed the building sign allowance for the property. The allowable building sign area (in square
351 feet) of all signs, except exempt signs, erected, installed, or located on a site lawfully containing a non-
352 residential use in any zoning district shall be computed as follows:
353

354 1. Building mounted signs.

355
356 a. If a building contains more than one floor or story, the dimension of the primary side of the
357 building shall be determined by measuring (in linear feet) the overall width of the first floor
358 or story of the building on the side that faces the front lot line and the sign allowance for each
359 business establishment or other entity occupying the building shall be shared by such business
360 establishments or other entities as determined by the property owner based on the frontage
361 of the building.
362

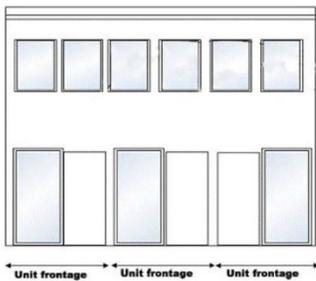

Structural Building Frontage Single Unit

363
364
365 b. If a building contains more than one business establishment or other entity, but the exterior
366 of the building has not been subdivided into units, the sign allowance for each business
367 establishment or other entity occupying the building shall be shared by such business

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 7 – SIGN REGULATIONS**

368 establishments or other entities as determined by the property owner based on the frontage
369 of the building.

370
371 c. If all or part of the exterior of a building has been subdivided into two or more fully enclosed
372 units capable of containing one or more business establishments or other entities (such as a
373 multiple unit shopping center), the front dimension of each such unit shall be considered the
374 building frontage of the unit and the sign allowance for each business establishment or other
375 entity occupying such unit shall be shared among the business establishments or other
376 entities occupying such unit in the manner prescribed by the property owner. Any remaining
377 part of the exterior of the building which has not been subdivided into fully enclosed units
378 shall be treated the same as a building which has not been subdivided into units.
379

Structural Building Frontage Multiple Unit Building

380
381
382 d. If a single business establishment or other entity occupies more than one consecutive fully
383 enclosed unit, the building frontage of such business or other entity shall be the total linear
384 dimension of building frontage of all such units combined.

385
386 e. The allowable signage to be mounted on a building shall be based on the building frontage of
387 a business or other entity as follows:
388

Linear Feet of Structural Frontage	Square Feet/Linear Feet of Structural Frontage	Maximum Area
≤100 Linear Feet	2 Square Feet	100 Square Feet
>100 Linear Feet to ≤300 Linear Feet	1 Square Foot	200 Square Feet
>300 Linear Feet	.75 Square Feet	300 Square Feet
In the event a building is located on a lot that does not abut a public street, the frontage shall be measured along the publicly dedicated parking lot or platted alley that the lot fronts		

389
390 f. In addition to the sign area otherwise allowed in this section, business establishments or other
391 entities which meet the following criteria shall be allowed additional sign area for building-
392 mounted signs as follows:

- i. Businesses or other entities fronting on more than one platted street shall be permitted an additional sign area allowance of one-half square foot per linear foot of building frontage on such additional street up to a maximum of 50 square feet per street. Such additional sign area allowance for a second street shall be added to the building-mounted sign area allowance resulting from the building frontage calculation. If a business or other entity fronts on three or four streets, then the additional sign allowance resulting from frontage on the third or fourth streets shall be used on the building face actually abutting the third or fourth streets. For purposes of this article, when a business or other entity fronts three or four streets, the side(s) of the business establishment or other entity shall be deemed to be fronting on the second and, if applicable, the fourth streets and the rear of the business establishment or other entity shall be deemed to front on the third street.
- ii. Businesses or other entities whose side or rear building frontages abut a public alley, public parking area, or mall parking area shall be permitted an additional allowance of one-half square foot per linear foot of such side or rear building frontage up to a maximum of 50 square feet. Such additional allowance shall only be used on the side or rear of the building which actually abuts the public alley, public parking area, or mall parking area.

C. Freestanding signs.

- 1. Individual business or entity sites.
 - a. Except as otherwise provided in Section 7.4.3 of this article, "Gasoline pricing signs," no site shall have more than two freestanding signs.
 - b. The allowable freestanding sign area (in square feet), the maximum number of freestanding signs, and the maximum height of freestanding signs erected, located, or placed on lawfully existing non-residential uses in all zoning districts shall be based on the street frontage of the site.
 - c. When only one freestanding sign is permitted, the sign shall provide architectural design features, including colors or materials or both consistent with those used in the design of the building to which the sign is accessory. These features shall apply to the sign frame and supporting materials, not to the sign panel or panels that provide the actual advertising area.
 - d. When two freestanding signs are permitted, signs must be similar in design, color and materials.
 - e. For all individual non-residential use sites, the following maximum freestanding sign(s) number, maximum freestanding sign area, and height limitations shall apply:

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 7 – SIGN REGULATIONS**

Freestanding Signs	Individual businesses or entities	Individual businesses or entities in Preserve Zoning Districts	Individual businesses or entities on Pine Island Road (SR 78), Veterans Parkway, US 41, and Burnt Store Road
Sign are based on street frontage (linear feet)			
100 feet or less	30 square feet	24 square feet	36 square feet
101-200 feet	40 square feet	24 square feet	48 square feet
201-300 feet	52 square feet	24 square feet	60 square feet
301+ feet	65 square feet	24 square feet	75 square feet
Height (feet):	20	20	25
Maximum Number:			
Site with less than 500 linear feet abutting a single street	1	1	1
Site with 500 or more linear feet abutting a single street	2	1	2
1. When more than one freestanding sign is permitted on the same site, signs must be spaced a minimum of 300 feet apart.

2. Multiple business or entity sites.
 - a. When only one freestanding sign is permitted, the sign shall provide architectural design features, including colors or materials consistent with those used in the design of the building the sign is accessory to. These features shall apply to the sign frame and supporting materials, not to the sign panel or panels that provide the actual advertising area.
 - b. On sites that are approved through a Planned Unit Development which contain commercial, professional, industrial, mixed use, or agricultural uses together with residential properties as part of the same Planned Unit Development, and the residential uses front the road on which the development faces with non-residential uses located inside the development not visible from the road, the Director may allow signs that are used to direct motorists to facilitate finding the non-residential component of the development. The Director shall take into consideration factors that include:
 - (i) The location of the non-residential uses within the development;
 - (ii) The location of permitted signage for the non-residential uses within the development; and
 - (iii) Roadway conditions.

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 7 – SIGN REGULATIONS**

457 c. Although the distribution of freestanding signage among the tenants or occupants of a
458 multiple business or entity site shall be the responsibility of the real property site owner, the
459 following limitations concerning maximum number, sign area, and height of freestanding
460 signs shall apply to all multiple business or entity sites containing non-residential uses:
461

Freestanding Signs	Multiple business or entity sites	Multiple business or entity sites in Preservation Zoning Districts	Multiple business or entity sites on Pine Island Road (SR 78), Veterans Parkway, US 41, and Burnt Store Road
Sign are based on street frontage (linear feet)			
100 feet or less	50 square feet	24 square feet	60 square feet
101-200 feet	64 square feet	24 square feet	75 square feet
201-300 feet	80 square feet	24 square feet	100 square feet
301+ feet	100 square feet	24 square feet	150 square feet
Height (feet):	20	20	25
Maximum Number:			
Site with less than 500 linear feet abutting a single street	1	1	1
Site with 500 or more linear feet abutting a single street	2	1	2
1. When more than one freestanding sign is permitted on the same site, signs must be spaced a minimum of 300 feet apart. 2. In the event the depth of the property is at least three times the length of the street frontage (linear feet), an additional 25% of sign area is allowed.			

462
463 **Section 7.2.6. Sign Permits**
464

465 A. Required. Except as otherwise required, no sign shall be located, placed, erected, constructed,
466 altered, extended, or displayed without first obtaining a sign permit and meeting all requirements of
467 the Florida Building Code. In the event a sign is located, installed, or maintained upon real property
468 without any required permits, after the expiration or lapse of a sign permit, after the closure of a
469 business, or otherwise in violation of the requirements of this article, the owner of the real property
470 shall be deemed to be responsible for the prompt removal of such sign and shall be responsible for
471 and subject to all fines or penalties which shall result from such violation.
472

473 B. Procedure. The procedure for obtaining a sign permit shall in conformance with application
474 requirements in Article 3.1.
475

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 7 – SIGN REGULATIONS**

- 476 1. Upon request by the Department, the applicant shall provide such supplementary information as
477 may be specifically requested by the Department to determine compliance with this article.
478
- 479 2. The Department shall review the application, plans, and specifications to determine whether the
480 proposed sign conforms to all applicable requirements of this article and, based on such review,
481 shall either approve or deny the application for the sign permit.
482
- 483 a. Sign permit applications which include a request for a deviation to this article, pursuant to
484 Section 7.2.8 of this article, shall either be approved or denied. However, if the applicant has
485 applied for a building permit or certificate of use for the non-residential use at the subject site
486 or for an electrical permit for the illumination of a sign, no sign permit shall be issued by the
487 city until after the requested building or electrical permit or certificate of use has been issued
488 by the city.
489
- 490 b. In no event shall the issuance of a sign permit following the issuance of a building permit, but
491 prior to the completion of the construction project, result in an increase in the sign(s) allowed
492 under this article based on the structure as it is eventually completed. In other words, if the
493 city issues sign permit(s) following the issuance of a building permit, but before the
494 construction of the building or structure is completed, and one or more sign(s) are installed
495 or erected pursuant to such sign permit, but then the building plans are modified in such a
496 way as to reduce the number, size, etc. of the sign(s) which would be allowed under this
497 article, then the property owner shall be required to bring such sign(s) into compliance with
498 the provisions of this article and to obtain a valid sign permit for such sign(s).
499
- 500 C. Submission requirements. No request for a sign permit shall be considered complete until all required
501 documents and fees are received.
502
- 503 D. Plans and specifications. Plans and specifications for any proposed sign shall be drawn to scale and
504 shall include the following:
505
- 506 1. Dimensions and elevations, including the message of the sign;
507
- 508 2. Parcel frontage on all street rights-of-way for freestanding signs only;
509
- 510 3. Linear dimension(s) of the subject building or unit(s) adjacent to all public rights-of-way, such as
511 streets, alleys, or public parking lots for freestanding signs only;
512
- 513 4. Maximum height of the sign, as measured in accordance with this article;
514
- 515 5. Location of the sign in relation to property lines, public rights-of-way, easements, buildings, and
516 other signs on the property;
517
- 518 6. Dimensions and anchoring of the sign's supporting members;
519
- 520 7. For illuminated signs, the type, location, and direction of illumination sources;
521

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 7 – SIGN REGULATIONS**

- 522 8. Construction and electrical specifications, enabling determination that the sign meets all
523 applicable structural and electrical requirements of the building code; and
524
- 525 9. Number, type, location, and surface area of all existing signs on the same property or building on
526 which the sign is to be placed, except that in the event all or part of the exterior of a building has
527 been subdivided into two or more fully enclosed units capable of containing one or more business
528 or entity establishments, such as a multiple unit shopping center, the number, type, location, and
529 surface area of all building mounted signs on the unit for which the proposed sign is sought and
530 all freestanding signs on the property shall be included.
531
- 532 E. Deviations. Certain deviations to the requirements of this article are authorized pursuant to Section
533 7.2.8. No other deviations are permitted.
534
- 535 F. Lapse. A sign permit shall lapse automatically if the business tax receipt for the premises lapses, is
536 revoked, or is not renewed. A sign permit shall also lapse if the business activity on the premises is
537 discontinued for a period of 30 days and is not renewed within 30 days from the date a written notice
538 is sent from the city to the last permittee that the sign permit will lapse if such activity is not resumed.
539 A sign permit shall also lapse if the sign for which it is issued either is not erected or placed within 180
540 days following the issuance of the sign permit or is removed for a period of 60 days. Once a sign permit
541 has lapsed, it shall be considered void and a new application and review process shall be necessary to
542 have such a permit reissued.
543
- 544 G. Identification. All signs requiring a permit shall have the permit number permanently imprinted or
545 otherwise placed in the lower right-hand corner of the sign.
546
- 547 H. Removal. The permittee or property owner shall be responsible for the removal of a sign once the
548 sign permit has expired or lapsed, without an application for a new permit, or the purpose in
549 displaying the sign has ended.
550

Section 7.2.7. Non-Conforming Signs.

- 551
- 552
- 553 A. Non-conforming sign compliance. All signs lawfully erected prior to February 1, 2019 that do not
554 comply with the requirements of this article shall be considered non-conforming signs. All non-
555 conforming signs shall be removed or brought into conformity with this article no later than February
556 1, 2029. The owners of the real property on which such non-conforming signs exist shall be
557 responsible for ensuring that such signs are removed or brought into conformity. Non-conforming
558 signs shall not be altered, replaced, or repaired if such alteration, replacement, or repair would
559 constitute more than 50% of the replacement value of the non-conforming sign. All other signs that
560 were not lawfully erected prior to February 1, 2019 that do not comply with the requirements of this
561 article shall be removed no later than December 31, 2024.
562
- 563 B. Effect of annexation on sign compliance. Any sign that was lawfully erected on property that was
564 located outside of the jurisdiction of the city at the time the sign was erected but which was annexed
565 into the city prior to February 1, 2019 and that does not comply with the requirements of this article
566 shall be considered a non-conforming sign and shall be removed or brought into conformity with this
567 article no later than February 1, 2029. Any sign that was or is lawfully erected on property that was

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 7 – SIGN REGULATIONS**

568 located outside of the jurisdiction of the city at the time the sign is erected but which was annexed
569 into the city on or after February 1, 2019 and that does not comply with the requirements of this
570 article, shall be considered a non-conforming sign and shall be removed or brought into conformity
571 with this article no later than ten years from the effective date of the annexation.
572

- 573 C. Restrictions on permitting certain non-conforming signs. Sign permits will not be issued for the
574 alteration, replacement, or repair of a non-conforming sign if such alteration, replacement, or repair
575 constitutes more than 50% of the replacement value of the existing non-conforming sign. Changing
576 the information on the face of an existing non-conforming sign shall not be deemed an action
577 increasing the degree or extent of the non-conformity to constitute a violation of this article. Any
578 other alteration to an existing non-conforming sign will be required to conform to this article.
579
- 580 D. Exceptions. A sign which is erected, located, or installed prior to the adoption of this ordinance and
581 which was approved by a dimensional variance from the Board of Zoning Adjustment and Appeals,
582 Hearing Examiner, or the City Council shall retain such variance approval. A sign which is erected,
583 located, or installed prior to the adoption of this ordinance and which was approved by a deviation
584 from the Director shall retain such deviation approval. However, any sign which has been approved
585 by such a dimensional variance or deviation and is then changed to conform to this article shall forfeit
586 the sign variance or deviation.
587

588 **Section 7.2.8. Sign Deviations.**

- 589
- 590 A. Deviations. A deviation may be granted from the strict application of the regulations in this chapter
591 which apply to:
592
- 593 1. Allow a 25% increase in allowable sign area;
 - 594
 - 595 2. Allow a 25% increase in allowable sign height;
 - 596
 - 597 3. Allow for decrease in minimum distance between freestanding signs; or
 - 598
 - 599 4. Allow an additional freestanding sign.
 - 600
- 601 B. Requests for deviations shall be initiated by the applicant in the application for a sign permit and shall
602 be accompanied by documentation including sample detail drawings, schematic architectural
603 drawings, site plans, elevations, and perspectives which shall graphically demonstrate the proposed
604 deviation(s) and illustrate how each deviation would operate to the benefit, or at least not to the
605 detriment, of the public interest. Deviations listed in Sec. 7.2.8.A may be approved by the Director
606 provided that such deviation will not be contrary to the public interest and in harmony with the
607 general intent and purpose of this article and where one or both of the following criteria are satisfied:
608
- 609 1. Conditions exist that are not the result of the applicant and which are such that a literal
610 enforcement of the regulations involved would result in unnecessary or undue hardship; or
611

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 7 – SIGN REGULATIONS**

612 2. There is something unique about the building or site configuration that would cause the signage
613 permitted by this article to be ineffective in identifying a use or structure that would otherwise
614 be entitled to a sign.
615

616 C. Subject to the standards and criteria stated above, the Director shall approve only the minimum
617 deviation from the provisions of this article necessary to avoid the undue hardship or to cause the
618 signage for the site to be effective in identifying the use or structure on the site. However, no deviation
619 shall be approved that would have the effect of allowing a type or category of sign that would
620 otherwise be prohibited by this article.
621

622 D. Any person aggrieved by the decision of the Director concerning a deviation may apply for a variance.
623

Section 7.2.9. Maintenance of Signs.

624
625
626 A. Maintenance Required.
627

628 It is unlawful for any owner of record, lessor, lessee, manager, or other person having lawful
629 possession or control over a building, structure, or parcel of land to fail to maintain any signs on the
630 building, structure, or parcel in compliance with this chapter. Failure to maintain a sign constitutes a
631 violation of this chapter and shall be subject to enforcement under the enforcement provisions of
632 Chapter 1.6.
633

634 All signs, if in existence prior to adoption of this chapter, shall be maintained and kept in good repair
635 and in a safe condition. Maintenance of a sign shall include periodic cleaning, replacement of
636 flickering, burned out or broken light bulbs or fixtures, repair or replacement of any faded, peeled,
637 cracked, or otherwise damaged or broken parts of a sign, and any other activity necessary to restore
638 the sign so that it continues to comply with the requirements and contents of the sign permit issued
639 for its installation, if required, and the provisions of this chapter.
640

641 B. Removal.
642

643 1. Every person maintaining a sign must, upon vacating the premises where a sign is maintained,
644 remove or cause to be removed the sign within 180 days from the date of vacating the premises.
645 When the Director determines that the sign has not been removed within the required period,
646 the Director shall remedy and enforce said violation in accordance with the enforcement
647 provisions of this chapter.
648

649 2. Any vacant or unused sign support structures, angle irons, sign poles, or other remnants of old
650 signs which are currently not in use or are not proposed for immediate reuse by a sign permit
651 application for a permitted sign, shall be removed.
652

653 3. The Director shall have the authority to require the repair, maintenance, or removal of any sign
654 or sign structure which has become dilapidated or represents a hazard to the safety, health, or
655 welfare of the public, at the cost of the sign or property owner.
656

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 7 – SIGN REGULATIONS**

- 657 4. Any sign posted in violation of this chapter on public property or on public rights-of-way shall be
658 subject to summary removal by the City.
659
- 660 5. Any person responsible for any sign posting made in violation of this chapter shall be liable to the
661 City for the costs incurred by the City in removal thereof and, in event of failure to pay, for billing
662 and collection charges, including interest and reasonable attorneys’ fees.
663

Chapter 7.3 Temporary Signs.

- 664
- 665
- 666 A. Temporary signs, identified in this chapter as not requiring a sign permit, unless indicated below, must
667 otherwise meet all the applicable requirements of this section and this article. Any temporary sign not
668 meeting these requirements, in any way, including quantity, shall be treated as a non-exempt sign
669 subject to permitting. The area of temporary signs displayed on a site shall not be included in the
670 calculation of the total signs on such site.
671

B. A-Frame Signs	
Applicable Zoning District/Use	Non-Residential Zoning Districts and lawfully existing Non-Residential Uses in Residential Zoning Districts
Sign permit required	No
Number of signs	1 per business, as identified by business tax receipt
Maximum Area	An A-frame sign shall not have a copy area wider than 24 inches by 36 inches
Maximum Height	3 feet 6 inches
Location	No A-frame sign shall block accessibility or be placed in any public right-of-way, exit, loading zone, bicycle rack, wheelchair ramp, sidewalk ramp, in designated parking spaces, in landscape areas, traffic triangles, or sidewalks.
Duration	None
Materials	An A-frame shall be constructed of materials that are durable and weather resistant, including wood, steel, fiberglass, plastic, or aluminum. Construction of the sign shall be of professional quality. Signs may consist of a framed chalkboard, whiteboard, tack board, or material that allows changeable copy. An A-frame sign shall be constructed to be able to withstand wind and other unpredictable weather elements, including thunderstorm activity. The sign face and the sign frame shall not contain glitter, florescent materials, streamers, balloons, or reflective materials.
Other	1. No A-frame sign shall be permanently anchored or secured to any surface. 2. Signs shall be brought indoors at the close of each business day.

672

C. Banners	
Applicable Zoning District/Use	Non-Residential Zoning Districts and lawfully existing Non-Residential Uses in Residential Zoning Districts
Sign permit required	Yes
Number of signs	1
Location	Except as provided for banners permitted in conjunction with temporary satellite sales events or special events on unimproved property or with events

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 7 – SIGN REGULATIONS**

	that are in lawfully permitted structures other than buildings (such as tents), no banner shall be attached to, placed on, displayed from, or mounted on any object other than a building, including trees or other vegetation, vehicles, trailers, utility poles, freestanding signs, or stakes. Each end of a displayed banner shall be secured to the building at which the banner is displayed.
Duration	10 consecutive days
Other	<ol style="list-style-type: none"> 1. All banners displayed on a site shall be securely installed in a manner which will not impede the visibility of the motoring or pedestrian traffic. 2. At least 30 days must elapse from the expiration of one permit prior to the issuance of another permit for the display of a banner at a site.

673
674

D. Feather Banners	
Applicable Zoning District/Use	Permitted only conjunction with an approved and active Model Home Use
Sign permit required	No
Number of signs	<p>A model home on a single site may display 4 feather banners and 1 banner on the model home site. Corner-lot model home sites shall be allowed 4 feather banners with no more than 2 per side.</p> <p>For sites with two or more model homes approved through a single development application, one model will be allowed to have a freestanding sign but will not be permitted to have more than 1 feather banner or banner for that individual development site. The additional model homes regulated by the special exception shall be allowed to have 4 feather banners on each model home site.</p>
Maximum Width	3 feet
Maximum Height	15 feet from ground level including support portion of the banner.
Materials	The sign face of the feather banner shall be nylon, polyester, vinyl, or canvas. Neither the sign face nor the sign frame shall contain glitter, florescent materials, metal, or reflective materials.
Duration	Life of the active Special Exception or until converted to new use. Feather banner or banner signs shall only be displayed on the approved special exception home property between the hours of 8:00 a.m. and 5:00 p.m., Monday through Sunday. When the model home is not open, all feather banners and banners shall be removed and stored inside the model home.
Other	All banners and feather banners shall be maintained in good condition and shall not become faded, torn, or in other similar forms of poor condition.

675
676

E. Inflatable Objects		
Applicable Zoning District/Use	All districts, based on size	
Size	2 feet or less in width, diameter, and height	More than 2 feet in width, diameter, or height
Sign Permit Required	No	Yes

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 7 – SIGN REGULATIONS**

Number of Signs	4	2
Maximum Height when measured from ground	30 Feet	30 Feet
Location	No less than 10 feet from right-of-way	
Duration	Maximum 10-day duration. No more than four times in one year; minimum 30 days required between permits	
Other	<ol style="list-style-type: none"> 1. Inflatable objects that are 2 feet or less in width, diameter, and height and that contain no commercial message may be located or displayed on a site without obtaining a permit. 2. Inflatable objects that are greater than 2 feet in width, diameter, or height or that contain a commercial message may be located or displayed on a site provided that a permit is obtained. 3. Inflatable objects shall be erected using approved tie-down methods. 4. No inflatable object shall be displayed in a parking space necessary for the site to meet its minimum parking requirements. 5. Except for multiple business or entity sites, the display of inflatable object(s) on a site shall not exceed 10 consecutive days. 6. On multiple business or entity sites, each use on the site shall be treated as if it were a single business or entity site. 7. The area of the inflatable object(s) displayed on a site shall not be included in the calculation of the total signs on such site. 8. Inflatable objects shall not be placed on the roof of a structure. 	

677
678

F. All Other Temporary Signs		
Applicable Zoning District/Use	Residential Zoning Districts	All Non-Residential Districts
Sign Permit Required	No	No
Number of signs/site	3	2
Maximum Sign Area/sign	4 sq. ft.	16 sq. ft.
Maximum Sign Height for a Temporary Freestanding Sign	6 ft.	6 ft.
Maximum Sign Height for a Temporary Wall Sign	15 ft.	15 ft.
Minimum Sign Setback from any property line	10 ft.	10 ft.
Minimum Spacing between Temporary Ground Signs	5 ft.	5 ft.
Temporary Sign Allowed on Public Right of Way	No	No
Temporary Sign Allowed on Property without	No	No

**CITY OF CAPE CORAL, FLORIDA

Section 7.4.3. Miscellaneous Signs

A. Gasoline Pricing Signs

In addition to any other signs allowed herein, automobile service stations and other commercial uses lawfully containing fuel pumps for the sale of fuel to the public shall be allowed an additional 24 square feet of signs to advertise gasoline pricing provided that the gasoline pricing sign(s) shall be incorporated into a freestanding sign or located flat on the building or canopy.

Sites at the intersection of two platted streets shall be permitted one additional freestanding sign to be placed on the second platted street for the sole purpose of displaying gasoline prices. The second sign shall not exceed a total of 24 square feet of which a maximum of 25% may be utilized for the business name or logo.

B. Electronic Message Center or Sign (EMC). Electronic message center or sign shall meet the following criteria:

1. EMC's shall not operate at brightness levels of more than 0.3 foot candles above ambient light, as measured using a foot-candle meter at a pre-set distance. The pre-set distances to measure the foot-candles are calculated using the following formula.
Measurement Distance = The square root of the sign area x 100.
The measurement distance may be rounded to the nearest whole number.
2. If the electronic message center is a text-only message displays, then the text may move along the face of the sign, but the text shall not exceed 12 inches in height.
3. Only one electronic message center shall be allowed per site.
4. An electronic message sign center shall not be installed on or added to a non-conforming sign.
5. Minimum display time is 8 seconds.
6. The use of video display, flashing, or blinking is prohibited for any EMC.
7. EMC's shall include photo-sensors to provide automatic intensity adjustment based on ambient lighting conditions.

All electronic message center or sign not meeting these criteria are prohibited under § 7.2.2 of this article.

Chapter 1. GENERAL APPLICABILITY

Section 8.1.1. Purpose.

The purpose of this Article is to provide for the continuation, modification, or elimination of nonconforming uses, structures, and signs in accordance with the standards and conditions in this Article. While nonconformities may continue, the provisions of this Article are designed to encourage the improvement or elimination of nonconformities in order to better achieve the purposes of these regulations.

City of Cape Coral, Florida
Land Development Code
Article 8 – Nonconformities and Lawfully Existing Uses

47 **Section 8.1.2. Definitions.**

48
49 The terms “Nonconforming,” “Nonconforming, Legally,” “Nonconforming Lots of Record,”
50 “Nonconforming Sign,” “Nonconforming Structure,” and “Nonconforming Use” are defined in Article 11
51 of this Code and are incorporated by reference for purposes of applying the standards and requirements
52 of this Article.

53

54 **Chapter 2. NONCONFORMING LOTS OF RECORD**

55

56 **Section 8.2.1. General.**

57

58 The majority of the City was platted in the Cape Coral Subdivision (Units 1 – 98) with 5,000 square foot
59 lots, with two adjoining lots combined as a 10,000-square foot “Parcel” to construct a single-family
60 residence. A 10,000-square foot parcel is the minimum lot size required for subdivision or development
61 of a single-family residence or a two-family dwelling (LDC Article 4. Section 4.3 Zoning District
62 Development Standards). Platted lots with less than 5,000 square feet and parcels less than 10,000 square
63 feet are defined as nonconforming lots of record or parcels, respectively.

64

65 **Section 8.2.2 Residential development on nonconforming lots of record.**

66

67 Residential development on nonconforming lots of record may be permitted subject to the following
68 requirements:

69

70 A. Development of single-family residences under this provision is limited to the R-1 and RML zoning
71 districts.

72

73 B. Development of single-family residences defined as “Micro cottages” may be permitted on lots of
74 record in the RML zoning district provided such lots are 5,000 square feet or more in area.

75

76 C. Development of two-family residences under this provision is limited to the RML zoning district.

77

78 D. Development of single-family or two-family residences is permitted on nonconforming lots of record
79 and parcels less than 10,000 square feet in area, without a variance, provided that:

80

81 1. Such lots or parcels are larger than 7,500 square feet in area; and

82

83 2. The proposed development meets all requirements of this Code for setbacks, maximum building
84 height, and off street parking.

85

86 E. The nonconforming lots of record or parcels less than 10,000 square feet in area have not been
87 subdivided or their boundaries altered through the “lot split and combine” process.

88

89 **Chapter 3. NONCONFORMING STRUCTURES**

90

91 **Section 8.3.1. Continuation of nonconforming structures.**

92

City of Cape Coral, Florida
Land Development Code
Article 8 – Nonconformities and Lawfully Existing Uses

93 Except as may be provided for elsewhere in these regulations, a non-conforming structure may be
94 continued subject to the standards and conditions of this Chapter.

95

96 **Section 8.3.2. Destruction of nonconforming structures.**

97

98 A. Except for residential structures as identified in subsection B, below, a nonconforming structure that
99 is damaged or destroyed to an extent exceeding 50 percent of the fair market value of the structure
100 and improvements at the time of its destruction, shall not be reconstructed except in conformity with
101 these regulations.

102

103 B. Nonconforming residential structures (including accessory structures) in residential zoning districts
104 may be reconstructed if damaged or destroyed to any extent, (less than 50%) if such reconstruction
105 does not increase the extent of the nonconformity(ies) existing prior to destruction and the footprint
106 of the structure is not enlarged or changed.

107

108 **Section 8.3.3. Alterations to nonconforming structures.**

109

110 A structure that is nonconforming in any way, shall not be altered or enlarged in a way that increases the
111 extent of any nonconformity. Normal maintenance and repair is permitted. Alterations and additions
112 which do not increase the nonconformity may be permitted.

113

114 **Chapter 4. NONCONFORMING SIGNS**

115

116 **Section 8.4.1. Requirements for nonconforming signs.**

117

118 All signs with approved sign permits but which are not in conformance with the sign requirements of
119 Article 7, may continue as nonconforming signs, subject to the standards and conditions of Article 7.

120

121 **Chapter 5. NONCONFORMING USES**

122

123 **Section 8.5.1. Continuation of nonconforming uses.**

124

125 Except as may be provided for elsewhere in these regulations, a non-conforming use may be continued
126 subject to the standards and conditions of this Chapter.

127

128 **Section 8.5.2. Extension or expansion of nonconforming use.**

129

130 A nonconforming use shall not be enlarged or expanded, except for nonconformities created by
131 amendments to the comprehensive plan, as described in Chapter 6 of this Article.

132

133 **Section 8.5.3. - Discontinuance of nonconforming use.**

134

135 Whenever a nonconforming use of property has been discontinued for a period of one year or more, such
136 non-conforming use shall not thereafter be re-established, and the future use of the property shall be in
137 conformity with the provisions of these regulations.

Section 8.5.4. Permitted improvements of nonconforming uses.

Renovations, repairs, or changes to nonconforming uses may be permitted, subject to the following requirements:

- A. The nonconforming use is in a nonresidential zoning district;
- B. The total cost of the improvements is less than 50 percent of the fair market value of the structure and improvements; and
- C. The nonconforming use and associated site shall be brought into compliance with the following provisions of Article 5, Development Standards, to the maximum extent practicable, as determined by the Community Development Director:
 - 1. Landscaping;
 - 2. Sanitation;
 - 3. Signs;
 - 4. Lighting;
 - 5. Stormwater;
 - 6. Screening;
 - 7. Noise Attenuation; and
 - 8. Parking.

Chapter 6. NONCONFORMITIES RESULTING FROM COMPREHENSIVE PLAN CHANGES.

Section 8.6.1. Nonconformities created by comprehensive plan amendments.

- A. When an existing single-family or duplex dwelling becomes non-conforming as the result of an amendment to the Comprehensive Plan, including future land use map amendments, which amendment was not the result of an application or other action by the property owner, the principal single-family or duplex dwelling, as well as accessory structures, such as detached garages, sheds, and gazebos may be repaired, altered, enlarged, or replaced to the same extent as if the amendment to the Comprehensive Plan had not occurred for as long as the property owner who owned the property at the time the amendment was adopted continues to own the property on which the dwelling is located.
- B. For the purposes of this exception, a single-family or duplex dwelling shall be deemed to be "existing" if, prior to the effective date of the amendment referred to above, the dwelling was either constructed

City of Cape Coral, Florida
Land Development Code
Article 8 – Nonconformities and Lawfully Existing Uses

185 or an active application for a building permit to construct the dwelling was pending with or issued by
186 the city. This exception applies only when the effect of a Comprehensive Plan amendment would
187 render the principal single-family or duplex dwelling structure becoming non-conforming as the result
188 of an amendment, and does not apply when the effect of an amendment would render accessory
189 structures including sheds and gazebos, non-conforming while the principal dwelling remains
190 conforming. This exception does not apply either to conjoined residential dwellings or to multi-family
191 residential dwellings, regardless of number.

192
193 C. In the event the property owner who owned the real property containing the single- family or duplex
194 dwelling use at the time the Comprehensive Plan amendment was adopted conveys or otherwise
195 transfers ownership of the real property, subsequent to the adoption of the amendment, to another
196 person or entity, then this exception shall terminate and the dwelling shall be subject to the
197 limitations identified by Chapters 4 and 5 of this Article, that apply to non-conforming structures
198 generally and, prior to the conveyance or other transfer of property ownership, the property owner
199 shall notify in writing the person or entity to whom ownership is being transferred of the change in
200 the status of the property. The failure of a property owner to provide notice as required herein of the
201 change in the status of the property shall not affect the change in the status of the property.

202
203 **Chapter 7. EMINENT DOMAIN.**

204
205 **Section 8.7.1. Nonconformities created by eminent domain.**

206
207 Any structure, use, or lot made nonconforming as a direct result of eminent domain proceedings instituted
208 by the City of Cape Coral or other condemning authority, or through a voluntary conveyance by such lot
209 owner in lieu of formal eminent domain proceedings, which lot or parcel, except for such eminent domain
210 or voluntary conveyance, would be an otherwise conforming lot or parcel, shall be deemed to be a
211 conforming lot or parcel for all purposes under the City of Cape Coral Land Development Code, without
212 the necessity for a variance from any land development ordinance. This subsection shall not apply to any
213 lot or parcel which is reduced in size by more than 25 percent by such action.

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 9 – FLOODPLAIN MANAGEMENT

93 **CHAPTER 1: ADMINISTRATION**

94

95 **Section 9.1.1. Title.**

96

97 These regulations shall be known as the Floodplain Management Ordinance of the City of Cape Coral.

98

99 **Section 9.1.2. Scope.**

100

101 The provisions of this Article shall apply to all development that is wholly within or partially within any
102 flood hazard area, including the subdivision of land; filling, grading, other site improvements, and utility
103 installations; construction, alteration, remodeling, enlargement, improvement, replacement, repair,
104 relocation, or demolition of buildings, structures, and facilities that are exempt from the Florida Building
105 Code; placement, installation, or replacement of manufactured homes and manufactured buildings;
106 installation or replacement of tanks; placement of recreational vehicles; installation of swimming pools;
107 and any other action or activity defined as development.

108

109 **Section 9.1.3. Purpose and Intent.**

110

111 The purposes of this Article and the flood load and flood resistant construction requirements of the
112 Florida Building Code are to establish minimum requirements to safeguard the public health, safety, and
113 general welfare and to minimize public and private losses due to flooding through regulation of
114 development in flood hazard areas to:

115

116 A. Minimize unnecessary disruption of commerce, access, and public service during times of flooding;

117

118 B. Require the use of appropriate construction practices in order to prevent or minimize future flood
119 damage;

120

121 C. Manage filling, grading, dredging, mining, paving, excavation, drilling operations, storage of
122 equipment or materials, and other development which may increase flood damage or erosion
123 potential;

124

125 D. Manage the alteration of flood hazard areas, watercourses, and shorelines to minimize the impact
126 of development on the natural and beneficial functions of the floodplain;

127

128 E. Minimize damage to public and private facilities and utilities;

129

130 F. Help maintain a stable tax base by providing for the sound use and development of flood hazard
131 areas;

132

133 G. Minimize the need for future expenditure of public funds for flood control projects and response to
134 and recovery from flood events; and

135

136 H. Meet the requirements of the National Flood Insurance Program for community participation as set
137 forth in the Title 44 Code of Federal Regulations, Section 59.22.

138

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 9 – FLOODPLAIN MANAGEMENT**

139 **Section 9.1.4. Coordination with the Florida Building Code.**

140
141 This Article is intended to be administered and enforced in conjunction with the Florida Building Code.
142 Where cited, ASCE 24 refers to the edition of the standard that is referenced by the Florida Building
143 Code.
144

145 **Section 9.1.5. Warning.**

146
147 The degree of flood protection required by this Article and the Florida Building Code is considered the
148 minimum reasonable for regulatory purposes and is based on scientific and engineering considerations.
149 Larger floods can and will occur. Flood heights may be increased by man- made or natural causes. This
150 Article does not imply that land outside of mapped special flood hazard areas or that uses permitted
151 within such flood hazard areas will be free from flooding or flood damage. The flood hazard areas and
152 base flood elevations contained in the Flood Insurance Study and shown on Flood Insurance Rate Maps
153 and the requirements of Title 44 Code of Federal Regulations, Sections 59 and 60 may be revised by the
154 Federal Emergency Management Agency, requiring this city to revise these regulations to remain eligible
155 for participation in the National Flood Insurance Program. No guaranty of vested use, existing use, or
156 future use is implied or expressed by compliance with this Article.
157

158 **Section 9.1.6. Disclaimer of liability.**

159
160 This Article shall not create liability on the part of the City of Cape Coral or by any officer or employee
161 thereof for any flood damage that results from reliance on this Article or any administrative decision
162 lawfully made thereunder.
163

164 **Section 9.1.7. Applicability.**

- 165
166 A. Where there is a conflict between a general requirement and a specific requirement, the specific
167 requirement shall be applicable.
168
169 B. This Article shall apply to all development in flood hazard areas within the City of Cape Coral, as
170 established in § 9.1.8. of this Article.
171

172 **Section 9.1.8. Basis for establishing flood hazard areas.**

173
174 The Flood Insurance Study for Lee County, FL and Incorporated Areas dated August 28, 2008, the
175 accompanying Flood Insurance Rate Maps (FIRM), and all subsequent amendments and revisions are
176 adopted by reference as a part of this Article and shall serve as the minimum basis for establishing flood
177 hazard areas. Studies and maps that establish flood hazard areas are on file at the City Clerk's office, City
178 of Cape Coral City Hall, 1015 Cultural Park Boulevard, Cape Coral, Florida.
179

180 **Section 9.1.9. Submission of additional data to establish flood hazard areas.**

181
182 To establish flood hazard areas and base flood elevations pursuant to § 9.1.8 of this Article, the
183 Floodplain Administrator may require submission of additional data. Additional data may be required
184 where field surveyed topography prepared by a Florida licensed professional surveyor or digital

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 9 – FLOODPLAIN MANAGEMENT**

185 topography accepted by the city indicates that ground elevations:

186

187 A. Are below the closest applicable base flood elevation, even in areas not delineated as a special flood
188 hazard area on a FIRM, the area shall be considered as flood hazard area and subject to the
189 requirements of this Article and, as applicable, the requirements of the Florida Building Code: or

190

191 B. Are above the closest applicable base flood elevation, the area shall be regulated as special flood
192 hazard area unless the applicant obtains a Letter of Map Change that removes the area from the
193 special flood hazard area.

194

195 **Section 9.1.10. Other laws.**

196

197 The provisions of this Article shall not be deemed to nullify any provisions of local state or federal law.

198

199 **Section 9.1.11. Abrogation and greater restrictions.**

200

201 This Article supersedes any regulation in effect for management of development in flood hazard areas.
202 However, it is not intended to repeal or abrogate any existing regulations, including land development
203 regulations, zoning ordinances, stormwater management regulations, or the Florida Building Code. In
204 the event of a conflict between this Article and any other regulation, the more restrictive shall govern.
205 This Article shall not impair any deed restriction, covenant, or easement but any land that is subject to
206 such interests shall also be governed by this Article.

207

208 **Section 9.1.12. Interpretation.**

209

210 In the interpretation and application of this Article, all provisions shall be:

211

212 A. Considered as minimum requirements;

213

214 B. Liberally construed in favor of the governing body; and

215

216 C. Deemed neither to limit nor repeal any other powers granted under state statutes.

217

218 **CHAPTER 2. DUTIES AND POWERS OF THE FLOODPLAIN ADMINISTRATOR.**

219

220 **Section 9.2.1. Designation.**

221

222 The Director of the Department of Community Development is designated as the Floodplain
223 Administrator. The Floodplain Administrator may delegate performance of certain duties to other
224 employees.

225

226 **Section 9.2.2. General.**

227

228 The Floodplain Administrator is authorized and directed to administer and enforce the provisions of this
229 Article. The Floodplain Administrator shall have the authority to render interpretations of this Article
230 consistent with the intent and purpose of this Article and may establish policies and procedures in order

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 9 – FLOODPLAIN MANAGEMENT

231 to clarify the application of its provisions. Such interpretations, policies, and procedures shall not have
232 the effect of waiving requirements specifically provided in this Article without the granting of a variance
233 pursuant to § 9.6.1. of this Article.

234

235 **Section 9.2.3. Applications and permits.**

236

237 The Floodplain Administrator, in coordination with other pertinent offices of the city, shall:

238

239 A. Review applications and plans to determine whether proposed new development will be located in
240 flood hazard areas.

241

242 B. Review applications for modification of any existing development in flood hazard areas for
243 compliance with the requirements of this Article.

244

245 C. Interpret flood hazard area boundaries where such interpretation is necessary to determine the
246 exact location of boundaries; a person contesting the determination shall have the opportunity to
247 appeal the interpretation.

248

249 D. Provide available flood elevation and flood hazard information.

250

251 E. Determine whether additional flood hazard data shall be obtained from other sources or shall be
252 developed by an applicant.

253

254 F. Review applications to determine whether proposed development will be reasonably safe from
255 flooding.

256

257 G. Issue floodplain development permits or approvals for development other than buildings and
258 structures that are subject to the Florida Building Code, including buildings, structures, and facilities
259 exempt from the Florida Building Code, when compliance with this Article is demonstrated, or
260 disapprove the same in the event of noncompliance.

261

262 H. Coordinate with and provide comments to the Building Official to assure that applications, plan
263 reviews, and inspections for buildings and structures in flood hazard areas comply with the
264 applicable provisions of this Article.

265

266 **Section 9.2.4. Substantial improvement and substantial damage determinations.**

267

268 For applications for building permits to improve buildings and structures, including alterations,
269 movement, enlargement, replacement, repair, change of occupancy, additions, rehabilitations,
270 renovations, substantial improvements, repairs of substantial damage, and any other improvement of or
271 work on such buildings and structures, the Floodplain Administrator, in coordination with the Building
272 Official, shall:

273

274 A. Estimate the market value or require the applicant to obtain an appraisal of the market value
275 prepared by a qualified independent appraiser, of the building or structure before the start of
276 construction of the proposed work; in the case of repair, the market value of the building or

LAND DEVELOPMENT CODE
ARTICLE 9 – FLOODPLAIN MANAGEMENT

277 structure shall be the market value before the damage occurred and before any repairs are made.

278

279 B. Compare the cost to perform the improvement, the cost to repair a damaged building to its pre-
280 damaged condition, or the combined costs of improvements and repairs, if applicable, to the market
281 value of the building or structure.

282

283 C. Determine and document whether the proposed work constitutes substantial improvement or
284 repair of substantial damage; the determination requires evaluation of previous permits issued for
285 improvements and repairs as specified in the definition of substantial improvement.

286

287 D. Notify the applicant if it is determined that the work constitutes substantial improvement or repair
288 of substantial damage and that compliance with the flood resistant construction requirements of
289 the Florida Building Code and this Article is required.

290

291 **Section 9.2.5. Modifications of the strict application of the requirements of the Florida Building Code.**

292

293 The Floodplain Administrator shall review requests submitted to the Building Official that seek approval
294 to modify the strict application of the flood load and flood resistant construction requirements of the
295 Florida Building Code to determine whether such requests require the granting of a variance pursuant to
296 § 9.6.1. of this Article.

297

298 **Section 9.2.6. Notices and orders.**

299

300 The Floodplain Administrator shall coordinate with appropriate local agencies for the issuance of all
301 necessary notices or orders to ensure compliance with this Article.

302

303 **Section 9.2.7. Inspections.**

304

305 The Floodplain Administrator shall make the required inspections as specified in this Article for
306 development that is not subject to the Florida Building Code, including buildings, structures, and
307 facilities exempt from the Florida Building Code. The Floodplain Administrator shall inspect flood hazard
308 areas to determine if development is undertaken without issuance of a permit.

309

310 **Section 9.2.8. Other duties of the Floodplain Administrator.**

311

312 The Floodplain Administrator shall have other duties, including:

313

314 A. Establish, in coordination with the Building Official, procedures for administering and documenting
315 determinations of substantial improvement and substantial damage made pursuant to § 9.2.4. of
316 this Article.

317

318 B. Require that applicants proposing alteration of a watercourse notify adjacent communities and the
319 Florida Division of Emergency Management, State Floodplain Management Office, and submit
320 copies of such notifications to the Federal Emergency Management Agency (FEMA).

321

322 C. Require applicants who submit hydrologic and hydraulic engineering analyses to support permit

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 9 – FLOODPLAIN MANAGEMENT

323 applications to submit to FEMA the data and information necessary to maintain the Flood Insurance
324 Rate Maps if the analyses propose to change base flood elevations, flood hazard area boundaries, or
325 floodway designations; such submissions shall be made within six months of such data becoming
326 available.

327

328 D. Review required design certifications and documentation of elevations specified by this Article and
329 the Florida Building Code and this Article to determine that such certifications and documentations
330 are complete.

331

332 E. Notify the Federal Emergency Management Agency when the corporate boundaries of the City of
333 Cape Coral are modified.

334

335 F. Advise applicants for new buildings and structures, including substantial improvements, that are
336 located in any unit of the Coastal Barrier Resources System established by the Coastal Barrier
337 Resources Act (Pub. L. 97-348) and the Coastal Barrier Improvement Act of 1990 (Pub. L. 101-591)
338 that federal flood insurance is not available on such construction; areas subject to this limitation are
339 identified on Flood Insurance Rate Maps as "Coastal Barrier Resource System Areas" and "Otherwise
340 Protected Areas."

341

342 **Section 9.2.9 Floodplain management records.**

343

344 Regardless of any limitation on the period required for retention of public records, the Floodplain
345 Administrator shall maintain and permanently keep and make available for public inspection all records
346 that are necessary for the administration of this Article and the flood resistant construction
347 requirements of the Florida Building Code, including Flood Insurance Rate Maps; Letters of Change;
348 records of issuance of permits and denial of permits; determinations of whether proposed work
349 constitutes substantial improvement or repair of substantial damage; required design certifications and
350 documentation of elevations specified by the Florida Building Code and this Article; notifications to
351 adjacent communities, FEMA and the state related to alterations of watercourses; assurances that the
352 flood carrying capacity of altered watercourses will be maintained; documentation related to appeals
353 and variances, including justification for issuance or denial; and records of enforcement actions taken
354 pursuant to this Article and the flood resistant construction requirements of the Florida Building Code.
355 These records shall be available for public inspection at the City Clerk's office, City of Cape Coral City
356 Hall, 1015 Cultural Park Boulevard, Cape Coral, Florida.

357

358 **CHAPTER 3. PERMITS**

359

360 **Section 9.3.1. Permits required.**

361

362 Any owner or owner's authorized agent (hereinafter "applicant") who intends to undertake any
363 development activity within the scope of this Article, including buildings, structures, and facilities
364 exempt from the Florida Building Code, which is wholly within or partially within any flood hazard area
365 shall first make application to the Floodplain Administrator and the Building Official, if applicable, and
366 shall obtain the required permit(s) and approvals). No such permit or approval shall be issued until
367 compliance with the requirements of this Article and all other applicable codes and regulations has been
368 satisfied.

Section 9.3.2. Floodplain development permits or approvals.

Floodplain development permits or approvals shall be issued pursuant to this Article for any development activities not subject to the requirements of the Florida Building Code, including buildings, structures, and facilities exempt from the Florida Building Code. Depending on the nature and extent of proposed development that includes a building or structure, the Floodplain Administrator may determine that a floodplain development permit or approval is required in addition to a building permit.

Section 9.3.3. Buildings, structures, and facilities exempt from the Florida Building Code.

Pursuant to the requirements of federal regulation for participation in the National Flood Insurance Program (44 C.F.R. Sections 59 and 60), floodplain development permits or approvals shall be required for the following buildings, structures, and facilities that are exempt from the Florida Building Code and any further exemptions provided by law, which are subject to the requirements of this Article:

- A. Nonresidential farm buildings on farms, as provided in section F.S. § 604.50.
- B. Temporary buildings or sheds used exclusively for construction purposes.
- C. Mobile or modular structures used as temporary offices.
- D. Those structures or facilities of electric utilities, as defined in F.S. § 366.02, which are directly involved in the generation, transmission, or distribution of electricity.
- E. Chickees constructed by the Miccosukee Tribe of Indians of Florida or the Seminole Tribe of Florida, As used in this paragraph, the term **CHICKEE** means an open-sided wooden hut that has a thatched roof of palm or palmetto or other traditional materials, and that does not incorporate any electrical, plumbing, or other non-wood features.
- F. Family mausoleums not exceeding 250 square feet in area which are prefabricated and assembled on site or preassembled and delivered on site and have walls, roofs, and a floor constructed of granite, marble, or reinforced concrete.
- G. Temporary housing provided by the Department of Corrections to any prisoner in the state correctional system.
- H. Structures identified in section F.S. § 553.73(10)(k) are not exempt from the Florida Building Code if such structures are located in flood hazard areas established on Flood Insurance Rate Maps.

Section 9.3.4. Application for a permit or approval.

To obtain a floodplain development permit or approval the applicant shall first file an application in writing on a form furnished by the city. The information provided shall:

- A. Identify and describe the development to be covered by the permit or approval.

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 9 – FLOODPLAIN MANAGEMENT**

- 415
416 B. Describe the land on which the proposed development is to be conducted by legal description,
417 street address, or similar description that will readily identify and definitively locate the site.
418
419 C. Indicate the use and occupancy for which the proposed development is intended.
420
421 D. Be accompanied by a site plan or construction documents as specified in § 9.4 of this Article.
422
423 E. State the valuation of the proposed work.
424
425 F. Be signed by the applicant or the applicant's authorized agent.
426
427 G. Give such other data and information as required by the Floodplain Administrator.
428

429 **Section 9.3.5. Validity of permit or approval.**

430
431 The issuance of a floodplain development permit or approval pursuant to this Article shall not be
432 construed to be a permit for, or approval of, any violation of this Article, the Florida Building Codes, or
433 any other regulation of the City of Cape Coral. The issuance of permits based on submitted applications,
434 construction documents, and information shall not prevent the Floodplain Administrator from requiring
435 the correction of errors and omissions.
436

437 **Section 9.3.6. Expiration.**

438
439 A floodplain development permit or approval shall become invalid unless the work authorized by such
440 permit is commenced within 180 days after its issuance, or if the work authorized is suspended or
441 abandoned for a period of 180 days after the work commences. Extensions for periods of not more than
442 180 days each shall be requested in writing and justifiable cause shall be demonstrated.
443

444 **Section 9.3.7. Suspension or revocation.**

445
446 The Floodplain Administrator is authorized to suspend or revoke a floodplain development permit or
447 approval if the permit was issued in error; on the basis of incorrect, inaccurate, or incomplete
448 information; or in violation of this Article or any other regulation or requirement of the City of Cape
449 Coral.
450

451 **Section 9.3.8. Other permits required.**

452
453 Floodplain development permits and building permits shall include a condition that all other applicable
454 state or federal permits be obtained before commencement of the permitted development, including
455 the following:
456

- 457 A. The South Florida Water Management District; F.S. § 373.036.
458
459 B. Florida Department of Health for onsite sewage treatment and disposal systems; F.S. § 381.0065
460 and Chapter 64E-6, F.A.C.

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 9 – FLOODPLAIN MANAGEMENT**

- 461
462 C. Florida Department of Environmental Protection for construction, reconstruction, changes, or
463 physical activities for shore protection or other activities seaward of the coastal construction control
464 line; F.S. § 161.141.
465
466 D. Florida Department of Environmental Protection for activities subject to the Joint Coastal Permit;
467 F.S. § 161.055.
468
469 E. Florida Department of Environmental Protection for activities that affect wetlands and alter surface
470 water flows, in conjunction with the U.S. Army Corps of Engineers; Section 404 of the Clean Water
471 Act.
472
473 F. Federal permits and approvals.
474

475 **CHAPTER 4. SITE PLANS AND CONSTRUCTION DOCUMENTS.**

476
477 **Section 9.4.1. Information for development in flood hazard areas.**

- 478
479 A. The site plan or construction documents for any development subject to the requirements of this
480 Article shall be drawn to scale and shall include, as applicable to the proposed development:
481
482 1. Delineation of flood hazard areas, floodway boundaries and flood zone(s), base flood
483 elevation(s), and ground elevations if necessary for review of the proposed development;
484
485 2. Where base flood elevations or floodway data are not included on the FIRM or in the Flood
486 Insurance Study, they shall be established in accordance with § 9.4.2.(B) or (C) of this Article;
487
488 3. Where the parcel on which the proposed development will take place will have more than 50
489 lots or is larger than five acres and the base flood elevations are not included on the FIRM or in
490 the Flood Insurance Study, such elevations shall be established in accordance with § 9.4.2.(A) of
491 this Article;
492
493 4. Location of the proposed activity, and structures, and locations of existing buildings and
494 structures; in coastal high hazard areas, new buildings shall be located landward of the reach of
495 mean high tide;
496
497 5. Location, extent, amount, and proposed final grades of any filling, grading, or excavation;
498
499 6. Where the placement of fill is proposed, the amount, type, and source of fill material;
500 compaction specifications; a description of the intended purpose of the fill areas; and evidence
501 that the proposed fill areas are the minimum necessary to achieve the intended purpose;
502
503 7. Delineation of the coastal construction control line or notation that the site is seaward of the
504 coastal construction control line, if applicable;
505
506 8. Extent of any proposed alteration of sand dunes or mangrove stands, provided such alteration is

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 9 – FLOODPLAIN MANAGEMENT**

507 approved by the Florida Department of Environmental Protection; and

508

509 9. Existing and proposed alignment of any proposed alteration of a watercourse.

510

511 B. The Floodplain Administrator is authorized to waive the submission of site plans, construction
512 documents, and other data that are required by this Article but that are not required to be prepared
513 by a registered design professional if it is found that the nature of the proposed development is such
514 that the review of such submissions is not necessary to ascertain compliance with this Article.

515

516 **Section 9.4.2. Information in flood hazard areas without base flood elevations (approximate Zone A).**

517

518 Where flood hazard areas are delineated on the FIRM and base flood elevation data have not been
519 provided, the Floodplain Administrator shall:

520

521 A. Require the applicant to include base flood elevation data prepared in accordance with currently
522 accepted engineering practices.

523

524 B. Obtain, review, and provide to applicants base flood elevation and floodway data available from a
525 federal or state agency or other source or require the applicant to obtain and use base flood
526 elevation and floodway data available from a federal or state agency or other source.

527

528 C. Where base flood elevation and floodway data are not available from another source, where the
529 available data are deemed by the Floodplain Administrator to not reasonably reflect flooding
530 conditions, or where the available data are known to be scientifically or technically incorrect or
531 otherwise inadequate:

532

533 1. Require the applicant to include base flood elevation data prepared in accordance with
534 currently accepted engineering practices; or

535

536 2. Specify that the base flood elevation is two feet above the highest adjacent grade at the location
537 of the development, provided there is no evidence indicating flood depths have been or may be
538 greater than two feet; and

539

540 D. Where the base flood elevation data are to be used to support a Letter of Map Change from FEMA,
541 advise the applicant that the analyses shall be prepared by a Florida licensed engineer in a format
542 required by FEMA, and that it shall be the responsibility of the applicant to satisfy the submittal
543 requirements and pay the processing fees.

544

545 **Section 9.4.3. Additional analyses and certifications.**

546

547 As applicable to the location and nature of the proposed development activity, and in addition to the
548 requirements of this section, the applicant shall have the following analyses signed and sealed by a
549 Florida licensed engineer for submission with the site plan and construction documents:

550

551 A. For development activities in a regulatory floodway, a floodway encroachment analysis that
552 demonstrates that the encroachment of the proposed development will not cause any increase in

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 9 – FLOODPLAIN MANAGEMENT

553 base flood elevations; where the applicant proposes to undertake development activities that do
554 increase base flood elevations, the applicant shall submit such analysis to FEMA as specified in §
555 9.4.4. of this Article and shall submit the Conditional Letter of Map Revision, if issued by FEMA, with
556 the site plan and construction documents.
557

558 B. For development activities in a riverine flood hazard area for which base flood elevations are
559 included in the Flood Insurance Study or on the FIRM and floodways have not been designated,
560 hydrologic and hydraulic analyses that demonstrate that the cumulative effect of the proposed
561 development, when combined with all other existing and anticipated flood hazard area
562 encroachments, will not increase the base flood elevation more than one foot at any point within
563 the City of Cape Coral. This requirement does not apply in isolated flood hazard areas not connected
564 to a riverine flood hazard area or in flood hazard areas identified as Zone AO or Zone AH.
565

566 C. For alteration of a watercourse, an engineering analysis prepared in accordance with standard
567 engineering practices which demonstrates that the flood-carrying capacity of the altered or
568 relocated portion of the watercourse will not be decreased, and certification that the altered
569 watercourse shall be maintained in a manner which preserves the channel's flood-carrying capacity;
570 the applicant shall submit the analysis to FEMA as specified in § 9.4.4. of this Article.
571

572 D. For activities that propose to alter sand dunes or mangrove stands in coastal high hazard areas
573 (Zone V), an engineering analysis that demonstrates that the proposed alteration will not increase
574 the potential for flood damage.
575

576 **Section 9.4.4. Submission of additional data.**
577

578 When additional hydrologic, hydraulic, or other engineering data, studies, and additional analyses are
579 submitted to support an application, the applicant has the right to seek a Letter of Map Change from
580 FEMA to change the base flood elevations, change floodway boundaries, or change boundaries of flood
581 hazard areas shown on FIRMs, and to submit such data to FEMA for such purposes. The analyses shall be
582 prepared by a Florida licensed engineer in a format required by FEMA. Submittal requirements and
583 processing fees shall be the responsibility of the applicant.
584

585 **CHAPTER 5. INSPECTIONS.**
586

587 **Section 9.5.1. General.**
588

589 Development for which a floodplain development permit or approval is required shall be subject to
590 inspection.
591

592 **Section 9.5.2. Development other than buildings and structures.**
593

594 The Floodplain Administrator shall inspect all development to determine compliance with the
595 requirements of this Article and the conditions of issued floodplain development permits or approvals.
596

597 **Section 9.5.3. Buildings, structures and facilities exempt from the Florida Building Code.**
598

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 9 – FLOODPLAIN MANAGEMENT**

599 The Floodplain Administrator shall inspect buildings, structures, and facilities exempt from the Florida
600 Building Code to determine compliance with the requirements of this Article and the conditions of
601 issued floodplain development permits or approvals.
602

603 **Section 9.5.4. Buildings, structures, and facilities exempt from the Florida Building Code, lowest floor**
604 **inspection.**

605
606 Upon placement of the lowest floor, including basement, and prior to further vertical construction, the
607 owner of a building, structure, or facility exempt from the Florida Building Code shall submit to the
608 Floodplain Administrator:

- 609
610 A. If a design flood elevation was used to determine the required elevation of the lowest floor, the
611 certification of elevation of the lowest floor prepared and sealed by a Florida licensed professional
612 surveyor; or
613
614 B. If the elevation used to determine the required elevation of the lowest floor was determined in
615 accordance with § 9.4.2.(C)(2) of this Article, the documentation of height of the lowest floor above
616 highest adjacent grade, prepared by the owner.
617

618 **Section 9.5.5. Buildings, structures, and facilities exempt from the Florida Building Code, final**
619 **inspection.**

620
621 As part of the final inspection, the owner shall submit a final certification of elevation of the lowest floor
622 or final documentation of the height of the lowest floor above the highest adjacent grade; such
623 certifications and documentations shall be prepared as specified in § 9.5.4. of this Article.
624

625 **Section 9.5.6. Manufactured homes.**

626
627 The Floodplain Administrator shall inspect manufactured homes that are installed or replaced in flood
628 hazard areas to determine compliance with the requirements of this Article and the conditions of the
629 issued permit. Upon placement of a manufactured home, certification of the elevation of the lowest
630 floor shall be submitted.
631

632 **CHAPTER 6. VARIANCES AND APPEALS.**

633
634 **Section 9.6.1. Variances.**

635
636 The Cape Coral Hearing Examiner shall hear and decide on requests for requests for variances from the
637 strict application of this Article. Pursuant to F.S. § 553.73(5), the Cape Coral Hearing Examiner shall hear
638 and decide on requests for appeals and requests for variances from the strict application of the flood
639 resistant construction requirements of the Florida Building Code. This section does not apply to Section
640 3109 of the Florida Building Code, Building.
641

642 **Section 9.6.2. Appeals.**

643
644 The Cape Coral Hearing Examiner shall hear and decide appeals when it is alleged there is an error in any

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 9 – FLOODPLAIN MANAGEMENT

645 requirement, decision, or determination made by the Floodplain Administrator in the administration
646 and enforcement of this Article. Any person aggrieved by the decision of Cape Coral Hearing Examiner
647 may appeal such decision to the Cape Coral City Council, as provided by Article 2 of the Land
648 Development Code.

649

650 **Section 9.6.3. Limitations on authority to grant variances.**

651 The Cape Coral Hearing Examiner shall base his or her decisions on variances on technical justifications
652 submitted by applicants, the considerations for issuance in § 9.6.7. of this Article, the conditions of
653 issuance set forth in § 9.6.8. of this Article, and the comments and recommendations of the Floodplain
654 Administrator and the Building Official. The Cape Coral Hearing Examiner has the right to attach such
655 conditions as deemed necessary to further the purposes and objectives of this Article.

656

657 **Section 9.6.4. Restrictions in floodways.**

658

659 A variance shall not be issued for any proposed development in a floodway if any increase in base flood
660 elevations would result, as evidenced by the applicable analyses and certifications required in § 9.4.3. of
661 this Article.

662

663 **Section 9.6.5. Historic buildings.**

664

665 A variance is authorized to be issued for the repair, improvement, or rehabilitation of a historic building
666 that is determined eligible for the exception to the flood resistant construction requirements of the
667 Florida Building Code, Existing Building, Chapter 11 Historic Buildings, upon a determination that the
668 proposed repair, improvement, or rehabilitation will not preclude the building's continued designation
669 as a historic building and the variance is the minimum necessary to preserve the historic character and
670 design of the building. If the proposed work precludes the building's continued designation as a historic
671 building, a variance shall not be granted and the building and any repair, improvement, and
672 rehabilitation shall be subject to the requirements of the Florida Building Code.

673

674 **Section 9.6.6. Functionally dependent uses.**

675

676 A variance is authorized to be issued for the construction or substantial improvement necessary for the
677 conduct of a functionally dependent use, as defined in this Article, provided the variance meets the
678 requirements of § 9.6.4., is the minimum necessary considering the flood hazard, and all due
679 consideration has been given to use of methods and materials that minimize flood damage during
680 occurrence of the base flood.

681

682 **Section 9.6.7. Considerations for issuance of variances.**

683

684 In reviewing requests for variances, the Cape Coral Hearing Examiner shall consider all technical
685 evaluations, all relevant factors, all other applicable provisions of the Florida Building Code, this Article,
686 and the following:

687

- 688 A. The danger that materials and debris may be swept onto other lands resulting in further injury or
689 damage;

690

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 9 – FLOODPLAIN MANAGEMENT**

- 691 B. The danger to life and property due to flooding or erosion damage;
692
693 C. The susceptibility of the proposed development, including contents, to flood damage and the effect
694 of such damage on current and future owners;
695
696 D. The importance of the services provided by the proposed development to the City of Cape Coral;
697
698 E. The availability of alternate locations for the proposed development that are subject to lower risk of
699 flooding or erosion;
700
701 F. The compatibility of the proposed development with existing and anticipated development;
702
703 G. The relationship of the proposed development to the comprehensive plan and floodplain
704 management program for the area;
705
706 H. The safety of access to the property in times of flooding for ordinary and emergency vehicles;
707
708 I. The expected heights, velocity, duration, rate of rise, and debris and sediment transport of the
709 floodwaters and the effects of wave action, if applicable, expected at the site; and
710
711 J. The costs of providing governmental services during and after flood conditions including
712 maintenance and repair of public utilities and facilities such as sewer, gas, electrical and water
713 systems, streets, and bridges.
714

715 **Section 9.6.8. Conditions for issuance of variances.**
716

717 Variances shall be issued only upon:
718

- 719 A. Submission by the applicant of a showing of good and sufficient cause that the unique
720 characteristics of the size, configuration, or topography of the site limit compliance with any
721 provision of this Article or the required elevation standards;
722
723 B. Determination by the Cape Coral Hearing Examiner that:
724
725 1. Failure to grant the variance would result in exceptional hardship due to the physical
726 characteristics of the land that render the lot undevelopable; increased costs to satisfy the
727 requirements, or inconvenience do not constitute hardship;
728
729 2. The granting of a variance will not result in increased flood heights, additional threats to public
730 safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the
731 public, or conflict with existing local laws and ordinances; and
732
733 3. The variance is the minimum necessary, considering the flood hazard, to afford relief;
734
735 C. Receipt of a signed statement by the applicant that the variance, if granted, shall be recorded in the
736 Office of the Clerk of the Court in such a manner that it appears in the chain of title of the affected

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 9 – FLOODPLAIN MANAGEMENT**

737 parcel of land; and

738

739 D. If the request is for a variance to allow construction of the lowest floor of a new building or
740 substantial improvement of a building below the required elevation, a copy in the record of a
741 written notice from the Floodplain Administrator to the applicant for the variance, specifying the
742 difference between the base flood elevation and the proposed elevation of the lowest floor, stating
743 that the cost of federal flood insurance will be commensurate with the increased risk resulting from
744 the reduced floor elevation (up to amounts as high as \$25 for \$100 of insurance coverage), and
745 stating that construction below the base flood elevation increases risks to life and property.

746

747 **Chapter 7. VIOLATIONS.**

748

749 **Section 9.7.1. Violations.**

750

751 Any development that is not within the scope of the Florida Building Code but that is regulated by this
752 Article that is performed without an issued permit, that is in conflict with an issued permit or that does
753 not fully comply with this Article, shall be deemed a violation of this Article. A building or structure
754 without the documentation of elevation of the lowest floor, other required design certifications, or
755 other evidence of compliance required by this Article or the Florida Building Code is presumed to be a
756 violation until such time as that documentation is provided.

757

758 **Section 9.7.2. Authority.**

759

760 For development that is not within the scope of the Florida Building Code but regulated by this Article
761 and determined to be a violation, the Floodplain Administrator is authorized to serve notices of violation
762 or stop work orders to owners of the property involved, to the owner's agent, or to the person or
763 persons performing the work.

764

765 **Section 9.7.3. Unlawful continuance.**

766

767 Any person who shall continue any work after having been served with a notice of violation or a stop
768 work order, except such work as that person is directed to perform to remove or remedy a violation or
769 unsafe condition, shall be subject to penalties as prescribed by law.

770

771 **CHAPTER 8. FLOOD RESISTANT DEVELOPMENT**

772

773 **Section 9.8.1. Design and construction of buildings, structures, and facilities exempt from the Florida
774 Building Code.**

775

776 Pursuant to § 9.3.3. of this Article, buildings, structures, and facilities that are exempt from the Florida
777 Building Code, including substantial improvement or repair of substantial damage of such buildings,
778 structures, and facilities, shall be designed and constructed in accordance with the flood load and flood
779 resistant construction requirements of ASCE 24. Structures exempt from the Florida Building Code that
780 are not walled and roofed buildings shall comply with the requirements of § 9.8.14. of this Article.

781

782

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 9 – FLOODPLAIN MANAGEMENT**

783 **Section 9.8.2. Buildings and structures seaward of the coastal construction control line.**

784
785 If extending, in whole or in part, seaward of the coastal construction control line and also, in whole or in
786 part, in a flood hazard area:

- 787
788 A. Buildings and structures shall be designed and constructed to comply with the more restrictive
789 applicable requirements of the Florida Building Code, Building Section 3109 and Section 1612 or
790 Florida Building Code, Residential Section R322; and
791
792 B. Minor structures and non-habitable major structures as defined in F.S. § 161.54, shall be designed and
793 constructed to comply with the intent and applicable provisions of this Article and ASCE 24.
794

795 **Section 9.8.3. Subdivision Minimum requirements.**

796
797 Subdivision proposals, including proposals for manufactured home parks and subdivisions, shall be
798 reviewed to determine that:

- 799
800 A. Such proposals are consistent with the need to minimize flood damage and will be reasonably safe
801 from flooding;
802
803 B. All public utilities and facilities such as sewer, gas, electric, communications, and water systems are
804 located and constructed to minimize or eliminate flood damage; and
805
806 C. Adequate drainage is provided to reduce exposure to flood hazards; in Zones AH and AO, adequate
807 drainage paths shall be provided to guide floodwaters around and away from proposed structures.
808

809 **Section 9.8.4. Subdivision plats.**

810
811 Where any portion of proposed subdivisions lies within a flood hazard area, the following shall be
812 required:

- 813
814 A. Delineation of flood hazard areas, floodway boundaries and flood zones, and design flood elevations,
815 as appropriate, shall be shown on preliminary plats;
816
817 B. Where the subdivision has more than 50 lots or is larger than five acres and base flood elevations are
818 not included on the FIRM, the base flood elevations determined in accordance with § 9.4.2. of this
819 Article; and
820
821 C. Compliance with the site improvement and utilities requirements of § 9.8.5., 9.8.6., 9.8.7., 9.8.8.,
822 9.8.9., and 9.8.10. of this Article.
823

824 **Section 9.8.5. Minimum requirements for site improvements, utilities, dry floodproofing, and**
825 **limitations.**

826
827 All proposed new development shall be reviewed to determine that:
828

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 9 – FLOODPLAIN MANAGEMENT

- 829 A. Such proposals are consistent with the need to minimize flood damage and will be reasonably safe
830 from flooding;
831
- 832 B. All public utilities and facilities such as sewer, gas, electric, communications, and water systems are
833 located and constructed to minimize or eliminate flood damage; and
834
- 835 C. Adequate drainage is provided to reduce exposure to flood hazards; in Zones AH and AO, adequate
836 drainage paths shall be provided to guide floodwaters around and away from proposed structures.
837
- 838 D. All dry-floodproofing projects undertaken where permitted must have flood-resistant materials
839 constructed and installed two additional feet above the minimum floodproofing elevation required
840 by ASCE 24.

841

842 **Section 9.8.6. Sanitary sewage facilities.**

843

844 All new and replacement sanitary sewage facilities, private sewage treatment plants (including all
845 pumping stations and collector systems), and on-site waste disposal systems shall be designed in
846 accordance with the standards for onsite sewage treatment and disposal systems in Chapter 64E-6, F.A.C.
847 and ASCE 24 Chapter 7 to minimize or eliminate infiltration of floodwaters into the facilities and discharge
848 from the facilities into flood waters, and impairment of the facilities and systems.

849

850 **Section 9.8.7. Water supply facilities.**

851

852 All new and replacement water supply facilities shall be designed in accordance with the water well
853 construction standards in Chapter 62-532.500, F.A.C. and ASCE 24 Chapter 7 to minimize or eliminate
854 infiltration of floodwaters into the systems.

855

856 **Section 9.8.8. Limitations on sites in regulatory floodways.**

857

858 No development, including site improvements and land disturbing activity involving fill or regrading shall
859 be authorized in the regulatory floodway unless the floodway encroachment analysis required in § 9.4.3.
860 of this Article demonstrates that the proposed development or land disturbing activity will not result in
861 any increase in the base flood elevation.

862

863 **Section 9.8.9. Limitations on placement of fill.**

864

865 Subject to the limitations of this Article, fill shall be designed to be stable under conditions of flooding
866 including rapid rise and rapid drawdown of floodwaters, prolonged inundation, and protection against
867 flood-related erosion and scour. In addition to these requirements, if intended to support buildings and
868 structures (Zone A only), fill shall comply with the requirements of the Florida Building Code.

869

870 **Section 9.8.10. Limitations on sites in coastal high hazard areas (Zone V).**

871

872 In coastal high hazard areas, alteration of sand dunes and mangrove stands shall be permitted only if such
873 alteration is approved by the Florida Department of Environmental Protection and only if the engineering
874 analysis required by § 9.4.3.(D) of this Article demonstrates that the proposed alteration | will not increase

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 9 – FLOODPLAIN MANAGEMENT

875 the potential for flood damage. Construction or restoration of dunes under or around elevated buildings
876 and structures shall comply with § 9.8.14.(H) of this Article.

877
878
879

880 **Section 9.8.11. Manufactured homes.**

881

882 A. General. All manufactured homes installed in flood hazard areas shall be installed by an installer that
883 is licensed pursuant to F.S. § 320.8249, and shall comply with the requirements of Chapter 15C-1,
884 F.A.C. and the requirements of this Article. If located seaward of the coastal construction control line,
885 all manufactured homes shall comply with the more restrictive of the applicable requirements.

886

887 B. Foundations. All new manufactured homes and replacement manufactured homes installed in flood
888 hazard areas shall be installed on permanent, reinforced foundations that:

889

890 1. In flood hazard areas (Zone A) other than coastal high hazard areas, are designed in accordance
891 with the foundation requirements of the Florida Building Code, Residential Section R322.2 and
892 this Article; and

893

894 2. In coastal high hazard areas (Zone V), are designed in accordance with the foundation
895 requirements of the Florida Building Code, Residential Section R322.3 and this Article.

896

897 C. Anchoring. All new manufactured homes and replacement manufactured homes shall be installed
898 using methods and practices which minimize flood damage and shall be securely anchored to an
899 adequately anchored foundation system to resist flotation, collapse, or lateral movement. Methods
900 of anchoring include use of over-the-top or frame ties to ground anchors. This anchoring requirement
901 is in addition to applicable state and local anchoring requirements for wind resistance.

902

903 D. Elevation. Manufactured homes that are placed, replaced, or substantially improved shall comply
904 with one of the following requirements, as applicable:

905

906 1. General elevation requirement. Unless subject to the requirements of § 9.8.11.D.2. of this Article,
907 all manufactured homes that are placed, replaced, or substantially improved on sites: (a) outside
908 of a manufactured home park or subdivision; (b) in a new manufactured home park or subdivision;
909 (c) in an expansion to an existing manufactured home park or subdivision; or (d) in an existing
910 manufactured home park or subdivision upon which a manufactured home has incurred
911 substantial damage as the result of a flood, shall be elevated such that the bottom of the frame
912 is at or above the elevation required, as applicable to the flood hazard area, in the Florida Building
913 Code, Residential Section R322.2 (Zone A) or Section R322.3 (Zone V);

914

915 2. Elevation requirement for certain existing manufactured home parks and subdivisions.
916 Manufactured homes that are not subject to § 9.8.11.D.1. of this Article, including manufactured
917 homes that are placed, replaced, or substantially improved on sites located in an existing
918 manufactured home park or subdivision, unless on a site where substantial damage as result of
919 flooding has occurred, shall be elevated such that either the:

920

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 9 – FLOODPLAIN MANAGEMENT

- 921 a. Bottom of the frame of the manufactured home is at or above the elevation required, as
922 applicable to the flood hazard area, in the Florida Building Code, Residential Section R322.2
923 (Zone A) or Section R322.3 (Zone V); or
924
925 b. Bottom of the frame is supported by reinforced piers or other foundation elements of at least
926 equivalent strength that are not less than 36 inches in height above grade.
927
928 E. Enclosures. Enclosed areas below elevated manufactured homes shall comply with the requirements
929 of the Florida Building Code, Residential Section R322 for such enclosed areas, as applicable to the
930 flood hazard area.
931
932 F. Utility equipment. Utility equipment that serves manufactured homes, including electric, heating,
933 ventilation, plumbing, air conditioning equipment, and other service facilities shall comply with the
934 requirements of the Florida Building Code, Residential Section R322, as applicable to the flood hazard
935 area.
936

937 **Section 9.8.12. Recreational vehicles and park trailers.**

- 938
939 A. Temporary placement. Recreational vehicles and park trailers placed temporarily in flood hazard areas
940 shall:
941
942 1. Be on the site for fewer than 180 consecutive days; and
943
944 2. Be fully licensed and ready for highway use, which means the recreational vehicle or park model
945 is on wheels or jacking system, is attached to the site only by quick-disconnect type utilities and
946 security devices, and has no permanent attachments such as additions, rooms, stairs, decks, and
947 porches.
948
949 B. Permanent placement. Recreational vehicles and park trailers that do not meet the limitations in §
950 9.8.12.A. of this Article for temporary placement shall meet the requirements of § 9.8.11. of this
951 Article for manufactured homes.
952

953 **Section 9.8.13. Tanks.**

- 954
955 A. Underground tanks. Underground tanks in flood hazard areas shall be anchored to prevent flotation,
956 collapse, or lateral movement resulting from hydrodynamic and hydrostatic loads during conditions
957 of the design flood, including the effects of buoyancy assuming the tank is empty.
958
959 B. Above-ground tanks, not elevated. Above-ground tanks that do not meet the elevation requirements
960 of § 9.8.13.C. of this Article shall:
961
962 1. Be permitted in flood hazard areas (Zone A) other than coastal high hazard areas, provided the
963 tanks are anchored or otherwise designed and constructed to prevent flotation, collapse, or
964 lateral movement resulting from hydrodynamic and hydrostatic loads during conditions of the
965 design flood, including the effects of buoyancy assuming the tank is empty and the effects of
966 flood-borne debris; and

2. Not be permitted in coastal high hazard areas (Zone V).

C. Above-ground tanks, elevated. Above-ground tanks in flood hazard areas shall be attached to and elevated to or above the design flood elevation on a supporting structure that is designed to prevent flotation, collapse, or lateral movement during conditions of the design flood. Tank-supporting structures shall meet the foundation requirements of the applicable flood hazard area.

D. Tank inlets and vents. Tank inlets, fill openings, outlets, and vents shall be:

1. At or above the design flood elevation or fitted with covers designed to prevent the inflow of floodwater or outflow of the contents of the tanks during conditions of the design flood; and

2. Anchored to prevent lateral movement resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy, during conditions of the design flood.

Section 9.8.14. Other development.

A. General requirements for other development. All development, including man-made changes to improved or unimproved real estate for which specific provisions are not specified in this Article or the Florida Building Code, shall:

1. Be located and constructed to minimize flood damage;

2. Meet the limitations of § 9.8.8. of this Article if located in a regulated floodway;

3. Be anchored to prevent flotation, collapse, or lateral movement resulting from hydrostatic loads, including the effects of buoyancy, during conditions of the design flood;

4. Be constructed of flood damage- resistant materials; and

5. Have mechanical, plumbing, and electrical systems above the design flood elevation, except that minimum electric service required to address life safety and electric code requirements is permitted below the design flood elevation provided it conforms to the provisions of the electrical part of building code for wet locations.

B. Fences in regulated floodways. Fences in regulated floodways that have the potential to block the passage of floodwaters, such as stockade fences and wire mesh fences, shall meet the limitations of § 9.8.8. of this Article.

C. Retaining walls, sidewalks and driveways in regulated floodways. Retaining walls and sidewalks and driveways that involve the placement of fill in regulated floodways shall meet the limitations of § 9.8.8. of this Article.

D. Roads and watercourse crossings in regulated floodways. Roads and watercourse crossings, including roads, bridges, culverts, low-water crossings, and similar means for vehicles or pedestrians to travel

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 9 – FLOODPLAIN MANAGEMENT

1013 from one side of a watercourse to the other side, that encroach into regulated floodways, shall meet
1014 the limitations of § 9.8.8. of this Article. Alteration of a watercourse that is part of a road or
1015 watercourse crossing shall meet the requirements of § 9.4.3.C. of this Article.
1016

1017 E. Concrete slabs used as parking pads, enclosure floors, landings, decks, walkways, patios, and similar
1018 nonstructural uses in coastal high hazard areas (Zone V).
1019

1020 In coastal high hazard areas, concrete slabs used as parking pads, enclosure floors, landings, decks,
1021 walkways, patios, and similar nonstructural uses are permitted beneath or adjacent to buildings and
1022 structures provided the concrete slabs are designed and constructed to be:
1023

- 1024 1. Structurally independent of the foundation system of the building or structure;
- 1025
- 1026 2. Frangible and not reinforced, to minimize debris during flooding that is capable of causing
1027 significant damage to any structure; and
- 1028
- 1029 3. Have a maximum slab thickness of not more than four inches.

1030
1031 F. Decks and patios in coastal high hazard areas (Zone V). In addition to the requirements of the Florida
1032 Building Code, in coastal high hazard areas decks and patios shall be located, designed, and
1033 constructed in compliance with the following:
1034

- 1035 1. A deck that is structurally attached to a building or structure shall have the bottom of the lowest
1036 horizontal structural member at or above the design flood elevation and any supporting members
1037 that extend below the design flood elevation shall comply with the foundation requirements that
1038 apply to the building or structure, which shall be designed to accommodate any increased loads
1039 resulting from the attached deck;
1040
- 1041 2. A deck or patio that is located below the design flood elevation shall be structurally independent
1042 from buildings or structures and their foundation systems and shall be designed and constructed
1043 either to remain intact and in place during design flood conditions or to break apart into small
1044 pieces to minimize debris during flooding that is capable of causing structural damage to the
1045 building or structure or to adjacent buildings and structures;
1046
- 1047 3. A deck or patio that has a vertical thickness of more than 12 inches or that is constructed with
1048 more than the minimum amount of fill necessary for site drainage shall not be approved unless
1049 an analysis prepared by a qualified registered design professional demonstrates no harmful
1050 diversion of floodwaters or wave runup and wave reflection that would increase damage to the
1051 building or structure or to adjacent buildings and structures; and
1052
- 1053 4. A deck or patio that has a vertical thickness of 12 inches or less and that is at natural grade or on
1054 nonstructural fill material that is similar to and compatible with local soils and is the minimum
1055 amount necessary for site drainage may be approved without requiring analysis of the impact on
1056 diversion of floodwaters or wave runup and wave reflection.
1057

1058 G. Other development in coastal high hazard areas (Zone V).

In coastal high hazard areas, development activities other than buildings and structures shall be permitted only if also authorized by the appropriate federal, state, or local authority; if located outside the footprint of and not structurally attached to buildings and structures; and if analyses prepared by qualified registered design professionals demonstrate no harmful diversion of floodwaters or wave runup and wave reflection that would increase damage to adjacent buildings and structures. Such other development activities include but are not limited to:

1. Bulkheads, seawalls, retaining walls, revetments, and similar erosion control structures;
 2. Solid fences, privacy walls, and fences prone to trapping debris, unless designed and constructed to fail under flood conditions less than the design flood or otherwise function to avoid obstruction of floodwaters; and
 3. On-site sewage treatment and disposal systems defined in 64E-6.002, F.A.C., as filled systems or mound systems.
- H. Nonstructural fill in coastal high hazard areas (Zone V).
1. Minor grading and the placement of minor quantities of nonstructural fill shall be permitted for landscaping and for drainage purposes under and around buildings.
 2. Nonstructural fill with finished slopes that are steeper than one unit vertical to five units horizontal shall be permitted only if an analysis prepared by a qualified registered design professional demonstrates no harmful diversion of floodwaters or wave runup and wave reflection that would increase damage to adjacent buildings and structures.
 3. Where authorized by the Florida Department of Environmental Protection or applicable local approval, sand dune construction and restoration of sand dunes under or around elevated buildings are permitted without additional engineering analysis or certification of the diversion of floodwater or wave runup and wave reflection if the scale and location of the dune work is consistent with local beach-dune morphology and the vertical clearance is maintained between the top of the sand dune and the lowest horizontal structural member of the building.

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 10 - SUBDIVISIONS**

Chapter 1. Subdivisions

Section 10.1.1. Purpose and Intent

The purpose and intent of this Article is to establish the procedures for review and approval of proposed subdivisions and plats within the City of Cape Coral in accordance with Chapter 177 Part 1 of the Florida Statutes, the City of Cape Coral Technical Requirements for Plat Approval, and this Code.

Section 10.1.2 Applicability and Process.

A. Applicability. This Section shall apply to any subdivision or re-subdivision of land in the City.

1. No subdivision shall be platted or recorded, no lot shall be sold, and no building or development permit be issued unless the subdivision meets all applicable laws of the state, this code, and has been approved by the City in accordance with the requirements of this Article.
2. This section shall not apply to any land forming part of a subdivision created and recorded prior to effective date of the ordinance from which this article is derived, but it shall apply to any re-subdividing (replats) of previously approved subdivisions and all new subdivisions.
3. It is not intended by the provisions of these regulations to repeal, abrogate, annul, or in any way impair or interfere with private restrictions placed upon property by deed, covenant, or private agreement, except that where this article imposes higher standards than imposed by such deeds, covenants, or private agreements then the provisions of this article shall apply. The City shall not be responsible for enforcement of such deeds, covenants, or agreements.

B. Unless otherwise exempt from this Section or approved as a lot split, all subdivision of land is subject to a three-step review process consisting of:

1. Preliminary Subdivision Plan (PSP) approval;
2. Subdivision Construction Plan (SCP) approval; and
3. Plat approval and recording.

C. PSP approval is optional for lot splits and those projects in compliance with zoning regulations. SCP approval is required prior to Plat approval.

Section 10.1.3 General Requirements.

A. All division of land in the City shall occur only as a new subdivision plat, a replat, or a lot split. The requirements for lot splits are set forth in Article 3, Chapter 3, Section 3.3.4.

B. No lot split shall be recognized by the City, no lot that is part of a lot split shall be sold, and no building permit shall be issued unless the lot split has been approved by the City prior to recording in accordance with the requirements of Article 3, Chapter 3, Section 4.

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 10 - SUBDIVISIONS**

- 47
48 C. A PSP depicts the proposed subdivision layout and the preliminary design of any required
49 improvements which may include off-site improvements. A Preliminary Subdivision Plan is an
50 administrative approval, pursuant to Article 3 of this Code.
51
52 D. Following PSP approval, applicants may then seek approval of the SCP and Plat.
53
54 E. The SCP shall depict the detailed engineering and construction plans to develop a subdivision and all
55 required improvements, in accordance with the approved PSP.
56
57 F. Subdivisions may be approved for phased development. Phasing must be shown on the PSP.
58
59 G. An application for Plat review shall not be submitted prior to application for SCP approval. The
60 applications may be submitted concurrently.
61
62 H. Electronic file. In addition to any hard copies that may be required all PSPs, SCPs, and Plats shall
63 submitted as electronic files in a format acceptable to the City.
64
65 I. No plat or replat of any subdivision shall be recorded in the office of the Lee County Clerk until the
66 plat has been duly approved by City Council in the manner prescribed herein.
67
68 J. All plats approved by the City Council shall be recorded by the developer at the Lee County Clerk of
69 Circuit Court within 20 business days of receiving the approved plat from the City.
70
71 K. Employment of engineers, surveyors, and other design consultants. A professional engineer licensed
72 in the State of Florida shall prepare the respective plans to be included in all applications for approval.
73 The engineer shall design all required improvements such as streets, drainage systems, water and
74 sewage facilities, etc. Plats shall be prepared by a professional surveyor and mapper licensed in the
75 State of Florida. All plans, drawings, reports, and calculations shall be prepared, signed, and sealed by
76 the appropriate licensed professional, such as engineers, architects, landscape architects, land
77 surveyors, and attorneys registered in the state. Other specialized consultants, such as environmental
78 consultants, structural engineers, archaeologists, etc., may be required to assist in the preparation of
79 the plans, drawings, reports, and other documents required as application submittals.
80
81 L. It shall be unlawful for the owner or agent of the owner of any land in the City to transfer, sell, or
82 convey land by reference to, exhibition of, or other use of a plat of a subdivision of such land without
83 having recorded an approved plat with the Lee County Clerk as required herein. If such unlawful use
84 is made of a plat before it is properly approved and recorded, the owner or agent shall be guilty of a
85 misdemeanor of the first degree, punishable as provided in Florida Statutes 665.083 or Florida
86 Statutes 775.082. Provided, however, that nothing herein shall affect the validity of transfers on sales
87 of interests in property.
88

89 **Section 10.1.4 Preliminary Subdivision Plan Approval.**
90

- 91 A. Purpose and intent. The purpose of Preliminary Subdivision Plan approval is to help prevent
92 unnecessary and costly revisions during the Subdivision Construction Plan and Plat preparation stage

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 10 - SUBDIVISIONS**

93 of the subdivision development process. The Preliminary Subdivision Plan depicts the proposed
94 subdivision layout and preliminary design of the proposed improvements in sufficient detail in order
95 that it may be evaluated and granted preliminary approval pursuant to this Code.
96

97 **B. Review Process.**
98

99 1. Applications for a Preliminary Subdivision Plan approval are reviewed in the same manner as
100 administrative approvals, as established in Article 3 of this Code.
101

102 2. All applications must be prepared by a Florida registered professional engineer and shall be
103 submitted on forms provided by the Director.
104

105 **C. Expiration.** The PSP approval shall expire and be of no further force and effect if a completed
106 application for SCP approval is not filed within two years of PSP approval. After expiration of
107 two years, the applicant will be required to re-submit the PSP for review and approval as set forth in
108 this Article. Applicants may apply for an extension prior to the expiration date. The applicant shall
109 demonstrate good cause for the extension. The Community Development Director may extend the
110 approval period up to twelve (12) months if the applicant has progressed in good faith toward the
111 implementation of the subdivision. Subdivisions approved in conjunction with a PUD shall be
112 governed by the Master Concept Plan (MCP)(and any, phasing, conditions, or requirements of the
113 PUD.
114

115 **Section 10.1.5 Subdivision Construction Plan Approval.**
116

117 **A. Application required.** The applicant shall submit Subdivision Construction Plans for the required
118 subdivision improvements in compliance with the PSP approval or a PUD MCP. No construction shall
119 commence until the applicant has received requisite design approvals, permits, and complied with
120 applicable provisions of this article.
121

122 **B. Timing.** Applications for SCP approval must be submitted within two years of City approval of the PSP.
123 Applications for approval of subsequent phases, if any, shall occur within twelve (12) months of the
124 issuance of a certification of completion of the previous phase. Failure to submit for SCP approval
125 within a specified amount of time shall require reapplication under the PSP requirements of this
126 Article. Applicants may not apply for SCP approval for any portion of the subdivision that is not to be
127 constructed within the following twelve (24) months. Failure to make application for SCP approval
128 within required time periods may result in revocation of a Preliminary Subdivision Plan, unless the
129 applicant has applied for an extension from the Community Development Director prior to the lapse.
130 The request for the extension must be made prior to the expiration date. The applicant shall
131 demonstrate good cause for the extension. The Community Development Director may extend the
132 prescribed time period up to twelve (12) months if the applicant has progressed in good faith toward
133 the implementation of the PSP.
134

135 **C. Review Process.** Application review and approval follows the administrative review procedure as
136 established in Sections 3.1.4 through 3.1.8 of Article 3. Specifically, SCP's are reviewed in accordance
137 with Section 3.3.7.
138

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 10 - SUBDIVISIONS**

- 139 D. Approval of the SCP. Upon approval of the SCP the developer may proceed with construction in
140 accordance with Section 3.3.7. or the developer may complete the Plat review process for recording
141 the Plat.
142
- 143 E. When the developer elects to install the subdivision improvements prior to recording of the plat, a
144 Certificate of Completion for the improvements must be obtained in accordance with Section 3.3.7.,
145 prior recoding the plat. The final plat shall not be scheduled for City Council approval prior to receipt
146 of the Certificate of Completion.
147
- 148 F. When the developer intends to record the plat prior to installation of the required improvements the
149 developer shall provide assurance of completion of the improvements as approved in the SCP.
150
- 151 1. Assurance of completion of improvements. Assurance of completion of the subdivision
152 improvements as specified below will be required for all on and off-site improvements, required
153 to support the subdivision. Assurance of completion of the improvements will be required prior
154 to scheduling the plat for City Council approval. Those subdivision improvements that have been
155 constructed, inspected, and approved by the Development Services Manger through the issuance
156 of a Certificate of Completion may be excluded from the financial assurance provided.
157
- 158 2. Surety or cash performance bond. Security in the form of a surety or cash performance bond must
159 be posted with the Community Development Department and made payable to the City in an
160 amount equal to 110 percent of the full cost of installing the required improvements approved by
161 the City. If the proposed improvement will not be constructed within one year of issuance of the
162 subdivision infrastructure permit, the amount of the surety or cash performance bond must be
163 increased by ten percent compounded for each year of the life of the surety or bond. Alternatively,
164 the surety or cash performance bond may be renewed annually at 110 percent of the cost of
165 completing the remaining required improvements if approved by the Director. Prior to
166 acceptance, bonds must be reviewed and approved by the City Attorney's Office. Surety
167 instruments will be reviewed and approved in accord with the provisions set forth in City of Cape
168 Coral Technical Requirements for Plat Approval.
169
- 170 3. Other types of security. The Director may accept letters of credit or escrow account agreements
171 or other forms of security provided that the reasons for not obtaining the bond are stated and
172 the City Attorney approves the document. Review and approval of surety instruments will be in
173 accord with the guidelines set forth in City of Cape Coral Technical Requirements for Plat
174 Approval.
175
- 176 G. Engineers Opinion of Probable Construction Costs. Cost opinions prepared to determine the amount
177 of the financial surety shall be prepared in accordance with Article 3 of this Code and shall also include
178 the cost of setting all permanent control points (PCPs) required by Section 10.1.7. of this Code.
179
- 180 H. Phasing. The SCP may contain phases as provided on the PSP or MCP. Each phase of a subdivision
181 shall install all required improvements to support that phase and provide continuation of
182 improvements as may be required from previous phases and for future phases. No phase shall be
183 approved if it is dependent on a future unconstructed phase of the subdivision.
184

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 10 - SUBDIVISIONS**

- 185 I. Applicant's failure to complete required improvements.
186
187 1. Failure of applicant to complete required improvements. When a plat has been recorded and the
188 applicant fails to complete the required improvements as required by this article, the City shall
189 require the completion of the required improvements under the financial assurance provided by
190 the Developer. In such case, the City shall call upon the financial surety to secure satisfactory
191 completion of the required improvements. Legal notice of such action shall be deemed to have
192 been duly served upon demand of the Director via certified mail return receipt requested.
193
194 2. In cases where plat has not been recorded. Where an applicant has elected to install the required
195 improvements prior to recording of the plat and fails to complete such improvements within the
196 time limitations of this article, all approvals of the subdivision shall be null and void. No reference
197 shall be made to the plat with respect to the sale of lots or issuance of building permits, unless
198 and until the Developer submits a new application for SCP and Plat approval.
199

200 **Section 10.1.6 Plat Approval.**

- 201
202 A. Plat approval procedures. Plats must be prepared in accordance with Chapter 177 Part 1 of the Florida
203 Statutes, and the City of Cape Coral Technical Requirements for Plat Approval, which are hereby
204 incorporated by reference. The preliminary plat must be submitted during the SCP review. SCP
205 approval will not be granted prior to approval of the preliminary plat. The Final Plat shall incorporate
206 all changes or modifications resulting from the review of the SCP and any remaining conditions or
207 requirements of the PSP or MCP approval.
208
209 B. Review Process. Application review and approval follows the administrative review procedure as
210 established in Article 3 of this Code.
211
212 C. Supplemental information required for plat review.
213
214 1. Operation and maintenance covenants. Where applicable, a copy of the covenants used for the
215 maintenance and operation of the infrastructure improvements required by this Code including
216 private streets and adjacent drainage, drainage and storm water management systems, utilities,
217 public water and sewage systems, on-site bikeways, on-site pedestrian ways, open space, parks,
218 recreation areas, and buffers. These documents must meet the criteria set forth in the City of
219 Cape Coral Technical Requirements for Plat Approval.
220
221 2. Articles of incorporation and bylaws or other legal documents for assignment of maintenance.
222 The developer must submit a copy of the legal documents creating the legal mechanism to ensure
223 that the drainage system, on-site bikeways, on-site pedestrian ways, roadways and rights-of-way
224 are continuously maintained. These documents must meet the requirements set forth in the City
225 of Cape Coral Technical Requirements for Plat Approval.
226
227 D. After the final plat has been approved and certified by the Community Development Director, the City
228 Surveyor, and the City Attorney that it complies with all applicable requirements of this Code, the
229 Director shall schedule the Plat for acceptance by City Council. The plat will be scheduled as a consent
230 agenda item on an upcoming City Council meeting. Upon City Council approval and acceptance of the

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 10 - SUBDIVISIONS**

231 plat, the Mayor and City Clerk shall indicate such approval on the final plat by signing the certificate
232 of approval for recording. The Director will notify the developer when the approved Plat has been
233 signed and ready for recording.
234

235 E. Revisions after final plat approval by City Council and prior to recordation.
236

237 1. Recording information for the property or home owner's association documents may be added
238 to the plat at the time of recording of the documents.
239

240 2. Any other changes, erasures, modifications, or revisions to an approved plat prior to recordation
241 may only be made by the Community Development Director to correct scrivener's errors. No
242 such request shall be considered unless made by the preparer of the plat.
243

244 3. No other changes, erasures, modifications, or revisions may be made to an approved final plat
245 prior to recordation unless a new application and fee are submitted for review and approval.
246

247 F. Approval of the Plat by the City shall not constitute acceptance by the City of the dedication of any
248 public street, other public way, easement, or improvement or the responsibility to construct or
249 maintain any improvements unless so indicated in the dedication on the plat.
250

251 G. Recording. The approved plat shall be recorded with Lee County Clerk of Circuit Court within twenty
252 (20) days of receiving the approved plat from the City. After recordation of the plat, the
253 developer shall provide to the Community Development Director a full size certified copy of the
254 recorded plat.
255

256 H. Building permits. No building permits for residential or residential accessory structures shall be issued
257 until the final plat has been recorded and all subdivision improvements have either been completed or
258 sufficient assurance of completion has been reviewed and approved by the City Attorney.
259

260 I. Phasing. The applicant may construct the proposed development and record plats for any phase
261 approved on the PSP or MCP. The phases shall have been specified on the approved Preliminary
262 Subdivision Plan and shall be of such a size and design that all phases completed at any time can exist
263 independently as a subdivision in complete conformity with the requirements of this article. Any
264 change in the sequence of phases must receive prior approval by the Development Services Manager.
265 If PSP or MCP is phased, the applicant shall have the option of platting one or more of the
266 development phases in a single plat in conformity with all the procedures and requirements of this
267 article.
268

269 **Section 10.1.7 Minimum Design Standards.**
270

271 A. Monumentation. Monuments must be installed in accordance with F.S. Ch. 177.091(9).
272

273 1. Permanent reference monuments. Permanent reference monuments (PRMs) must be placed on
274 the boundary of all subdivisions as required by F.S. Ch. 177, as amended, and approved by a
275 licensed, registered state professional surveyor and mapper.
276

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 10 - SUBDIVISIONS

- 277 2. Monuments must be set in the ground so that the top is flush or no more than one-half foot
278 below the existing ground. Subsurface PRMs must be exposed for inspection when a plat is
279 submitted for review. If development of the subdivision occurs after a plat is reviewed, the PRMs
280 must be raised or lowered to be flush or no more than one-half foot below the finished ground.
281 Subsurface PRMs must be exposed for inspection at the time of final inspection of the
282 development.
283
- 284 B. Permanent control points. Permanent control points (PCPs) must be installed in accordance with F.S.
285 Ch. 177. When a plat is recorded prior to construction of the subdivision improvements, the PCPs
286 must be set following completion of construction. The surveyor must certify that the PCPs have been
287 set and must record the certification in the official record books of the County.
288
- 289 C. Streets.
290
- 291 1. The widths and locations of all public or private streets in a proposed subdivision shall Conform
292 to the City of Cape Coral Engineering Design Standards.
293
- 294 2. Street extensions.
295
- 296 a. The street layout of the proposed subdivision shall provide for the continuation or
297 projection of streets already existing in areas adjacent to the area being subdivided unless
298 such continuation or extension is for specific reasons of topography or design.
299
- 300 b. Where it is necessary for public safety to provide street access to adjoining properties,
301 proposed streets shall be extended by dedication to the boundaries of such properties.
302 Where it is determined necessary for public safety, dead-end streets shall be provided
303 with a temporary turnaround having a radius as specified in the City of Cape Coral
304 Engineering Design Standards.
305
- 306 c. The street system for the proposed subdivision shall provide for extending existing streets
307 at the same or greater width, but in no case, shall a street extension be of less width than
308 the minimum width required by the City of Cape Coral Engineering Design Standards for a
309 street in its category.
310
- 311 3. Dedication of right-of-way for new streets.
312
- 313 a. The dedication of rights-of-way for new streets, measured from lot line to lot line, shall
314 meet the standards specified in the City of Cape Coral Engineering Design Standards.
315
- 316 b. Dedication of one-half of the rights-of-way for proposed streets along the boundaries of
317 land proposed for subdivision shall be prohibited.
318
- 319 4. Dedication of right-of-way for existing streets.
320

**CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 10 - SUBDIVISIONS**

- 321 a. Subdivisions platted along existing streets shall dedicate additional rights-of-way if
322 necessary to meet the minimum street width requirements for new streets set forth in the
323 City of Cape Coral Engineering Design Standards.
324
- 325 b. The entire minimum right-of-way width shall be dedicated where the subdivision is on
326 both sides of an existing street. When the subdivision is located on only one side of an
327 existing street, one-half of the required right-of-way width, measured from the center line
328 of the existing right-of-way or street, as appropriate, shall be dedicated.
329
- 330 5. Intersections. Intersections shall be designed and spaced as set forth in the City of Cape Coral
331 Engineering Design Standards.
332
- 333 6. Curves in streets; horizontal and vertical. All curves in streets shall be designed and
334 constructed as set forth in the City of Cape Coral Engineering Design Standards.
335
- 336 7. Street grades and elevations. Street grades and elevations shall conform to the City of Cape
337 Coral Engineering Design Standards.
338
- 339 8. Frontage access streets. Where the proposed subdivision abuts upon or contains an existing
340 or proposed arterial street or highway on which traffic volumes and vehicular speeds warrant
341 special safety considerations, the City shall require that frontage access streets be provided in
342 order that no lots will front on such existing or proposed arterial street or highway.
343
- 344 9. Street jogs. Street jogs must be as set forth in the City of Cape Coral Engineering Design
345 Standards.
346
- 347 10. Dead-end streets (cul-de-sacs). Cul-de-sacs or dead-end streets must be designed to conform
348 to the City of Cape Coral Engineering Design Standards.
349
- 350 11. Street names. Proposed streets which are in alignment with other already existing and named
351 streets shall bear the names of such existing streets. The name of a proposed street which is
352 not in alignment with an existing street shall not duplicate the name of any existing street.
353
- 354 12. Alleys. Alleys may be provided to give access to the rear of all lots used for commercial and
355 industrial purposes. Alleys shall not be provided in residential blocks except in the SC district
356 or in cases where the developer produces evidence of the need for alleys which is satisfactory
357 to the City.
358
- 359 D. Blocks. Block lengths shall not exceed 1,200 feet or be less than 400 feet, except as approved by
360 the Director.
361
- 362 E. Lots.
363
- 364 1. Arrangement. Each lot in a subdivision shall be at right angles to straight street lines and radial
365 to curved street lines.
366

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE 10 - SUBDIVISIONS

367 2. Dimension and area regulations. Dimension and area regulations for all lots proposed within
368 the subdivision, including the size, shape, width, depth, area, building setback lines, corner lot
369 regulations, yard requirements, off-street parking areas, and minimum lot frontage on public
370 streets shall comply with the zoning district requirements in which the proposed subdivision
371 is located.

372

373 F. Utility and drainage easements.

374

375 1. Utility planning and coordination. To ensure that adequate and properly designed utility
376 easements are provided, developers shall consult with City staff and other appropriate
377 personnel of public utility authorities providing gas, electricity, telephone, water, sewer, or
378 other services of a similar nature before and during the planning and preparation of a
379 Preliminary Subdivision Plan.

380

381 2. Width and location. A 10' public utility easement shall be provided across the front of all lots
382 or parcels and shall be provided along each side of any street right of way or access easement.
383 Where necessary or advisable in the opinion of the City, similar easements shall be provided
384 alongside lot lines or across lots. Easement design should provide clear and orderly alignments
385 from one block to the next and from one development to the next. The easement system
386 should be continuous and well aligned to permit the efficient installation of utility service lines.

387

388 3. Underground wiring and installation. Developers shall contact overhead public utility
389 authorities in the early stages of subdivision planning to determine the procedures for
390 negotiating contracts for all underground utility service.

391

392 4. Storm drainage. Drainage easements shall be sized appropriately for the installation and
393 maintenance of drainage improvements necessary for proper drainage within or through a
394 subdivision.

395

396 G. Street lights. As established in the City of Cape Coral Engineering Design Standards.

397

398

CITY OF CAPE CORAL, FLORIDA
LAND DEVELOPMENT CODE
ARTICLE XI - DEFINITIONS

Section

11.1 — Definitions.

Unless the context clearly indicates a different meaning, the following definitions shall be used to interpret the provisions of these Land Use and Development Regulations.

Words whose meanings are self-evident as used in this ordinance are not defined here. Words used in the present tense shall include the future; the singular includes the plural, and vice versa. The word "shall" is mandatory; the word "may" is permissive. The word "includes" shall not limit a term to the specific examples, but is intended to extend its meaning to all other instances or circumstances of like kind or character. The terms "land use" and "use of land" shall be deemed also to include building or structure use and use of building or structure.

CHAPTER 1. GENERAL PROVISIONS

Section 11.1. Purpose and Intent

A. This chapter is intended to define terms used in the Land Development Code (LDC) and provide clarity in the LDC.

B. Unless the context clearly indicates a different meaning, the following definitions shall be used to interpret the provisions of the LDC.

C. Words whose meanings are self-evident as used in this Code are not defined here. Undefined terms that are commonly used may be defined using a dictionary. Words used in the present tense shall include the future; the singular includes the plural, and vice versa.

D. Certain definitions may not be in alphabetical order and may be organized according to a common term or subject heading.

E. The definitions in the Article may be different from the definitions used in the City of Cape Coral Code of Ordinances.

Section 11.2. Definitions

Abandoned Structure, is any structure which has ceased to be used for its designed and intended purpose.

Abandoned Vehicle or Watercraft, shall mean vehicles or watercraft which are not currently registered or licensed to be lawfully operable on public streets or waterways, or which are wrecked, inoperative, in a partially dismantled condition, or which have no apparent intrinsic value to the rightful owner.

48 **Abandonment**, is the relinquishment or cessation of the use of property by the owner or lessee without
49 any intention of transferring rights to the property to another owner or of resuming the use of the
50 property. Often in reference to an easement or a right-of-way.
51

52 **Abandoned Sign**, is a sign whose message describes the availability of goods or services at a location
53 where such goods and services are no longer available and have ceased to be available for a period of at
54 least 60 days or, in the alternative, a sign which is non-commercial in nature and the content of the sign
55 pertains to a time, event or purpose which has elapsed or expired in the preceding 60 days.
56

57 ~~**ABUTTING PROPERTIES**~~**Abutting Properties**, Properties which share a common border or property line.
58

59 **Access**, is the place, means, or way by which vehicles or pedestrians obtain ingress and egress to a
60 property or use.
61

62 **Access Drive**, is a driving surface leading from a right-of-way to a parking area.
63

64 **Accessory Dwelling Unit (ADU)**, is a separate housekeeping unit from the with a separate entrance,
65 kitchen, sleeping area, and full bathroom facilities, which is an attached or detached extension to an
66 existing single-family structure.
67

68 **Accessory Building or Structure**, is a subordinate building or structure, the use of which is customarily
69 incidental the main building or to the main use of the land and which is on the same site as the main
70 building or use.
71

72 ~~**ACCESSORY USE.** A use customarily incidental to the principal use of the property, and~~
73 ~~unless otherwise specifically provided by the City of Cape Coral Land Use Regulations. (See also [§](#)~~
74 ~~[3.1.](#)~~)
75

76 **Accessory Use**, is a use that is incidental to and subordinate to the main building or use of land and that
77 is on the same lot and under the same ownership in all respects.
78

79 **Acre**, is a land area of 43,560 square feet.
80

81 ~~**ACTIVE USE.** A building use designed for human occupation that attracts pedestrian activity;~~
82 ~~provides a direct view to adjacent rights-of-way or open spaces through transparent windows~~
83 ~~and/or doors or openings. Commercial active uses generally provide access to the general public~~
84 ~~and may include, but are not limited to, retail, personal services, offices, restaurants, coffee shops,~~
85 ~~libraries, municipal facilities, common areas and entrance lobbies. Residential active uses generally~~
86 ~~include, but are not limited to, dwelling units, common areas, entrance lobbies, lounges, and gyms.~~
87

88 **Addition**, is any construction that increases the size of a building in terms of site coverage, height,
89 length, width, or gross floor area.
90

91 **Adjoining or Abutting**, means two properties share at least one common point or property line.
92

93 **Adjacent**, means two properties that are separated by a public right of way, canal, or alley.
94

95 Adjacent Parcel, is any waterfront parcel that is not an end parcel, but that abuts an end parcel or a corner
96 parcel.

97
98 ~~**ADJACENT PROPERTIES.** See **ABUTTING PROPERTIES.**~~

99
100 ~~**ADJOINING PROPERTIES.** See **ABUTTING PROPERTIES.**~~
101 (Ord. 15-12, 9-10-2012)

102
103 ~~**ADMINISTRATIVE OFFICIAL.** The Director of the Department of Community Development or~~
104 ~~duly authorized representative.~~

105
106 ~~**ADMINISTRATIVE OFFICE.** An office which is customarily ancillary and supportive to the~~
107 ~~permitted principal use of the property and which is used for clerical and administrative functions~~
108 ~~of the principal use. This term shall include managers or association offices for residential rental~~
109 ~~property, subdivisions, recreation vehicle parks and similar type activities.~~

110
111 Adult Day Care Center, means any building or buildings, operated for profit or not, which provides
112 daytime, basic care services to three or more persons who are 18 years of age or older, who are not
113 related to the owner or operator by blood or marriage, and who require such services.

114
115 Affordable Housing, is housing with a sale or rental cost, including taxes and utilities, of 30 percent or
116 less of the total monthly household income of low income households.

117
118 A-Frame Sign, is a sign that is self-supporting and portable with steeply angled sides that meet and are
119 adjoined at the top to form the shape of the letter "A." Two individual signs attached at the top that
120 were not manufactured to be an A-frame sign shall not be considered to meet this definition.

121
122 ~~**AGRICULTURAL BUILDING OR STRUCTURE.** Any building or structure accessory to the~~
123 ~~principal farming, fisheries, animal specialty farm or plant nurseries use of the land.~~

124
125 Agricultural Building, are structures intended primarily or exclusively for support of an agricultural
126 function, including barns, silos, water towers, windmills, and greenhouses.

127
128 Agricultural Land, is land used actively for the production of food, fiber, or livestock.

129
130 ~~**AGRICULTURAL OR FARM EQUIPMENT AND SUPPLY ESTABLISHMENTS.** A premises, or~~
131 ~~portion of a premises, occupied by an establishment primarily engaged in the retail selling of farm~~
132 ~~equipment machinery, hardware, production supplies and other miscellaneous farm and garden~~
133 ~~supplies directly to ultimate consumers and not for resale. **FARM EQUIPMENT AND SUPPLY**~~
134 ~~**ESTABLISHMENTS** may include farm equipment repair departments provided such repair~~
135 ~~departments are incidental and accessory to the principal retail selling of farm equipment and~~
136 ~~supplies.~~

137
138 ~~**AGRICULTURAL or FARMING.** A premises, or portion of a premises, occupied by an~~
139 ~~establishment primarily having as the principal purpose of business the production for sale of field~~
140 ~~crops, fruit, tree nuts, vegetables, livestock, livestock products, poultry hatcheries and animal~~
141 ~~husbandry activities.~~
